GOODS AND SERVICES INFORMATION

For Pastes and other adhesives for stationery or household purposes; sealing wax; printing type; addressing machines; ink ribbons; sealing machines for offices; electric staplers for offices; envelope sealing machines for offices; stamp obliterating machines; drawing instruments; typewriters; office check writing machines; mimeographs; paper shredders for office use; franking machines; rotary duplicators; marking templates; decorators' paintbrushes; containers of paper, for packaging; plastic bags for packaging; food wrapping plastic film for household purposes; garbage bags of paper for household purposes; garbage bags of plastics for household purposes; tailors' chalk; banners of paper; flags of paper; hygienic hand towels of paper; towels of paper; table napkins of paper; hand towels of paper; handkerchiefs of paper; baggage claim check tags of paper; omikuji being sacred lots in the nature of printed strips of paper for fortune telling; paper and cardboard; stationery; printed matter, namely, in the nature of graphic novels, comics, books, magazines, journals and newsletters in the field of computer games, video games, electronic games and entertainment; paintings and calligraphic works; photographs; photograph stands

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Operating lotteries; educational and instruction services, namely, conducting classes in the field of arts, crafts, sports and general knowledge; arranging, conducting and organization of seminars in the field of design, development and publication of computer game software, video game software and electronic game software; providing online non-downloadable electronic publications in the nature of in the nature of graphic novels, comics, books, magazines, journals and newsletters in the field of computer games, video games, electronic games and entertainment; reference libraries for literature and documentary records; book rental; publication of books; arranging and planning of showing movies, shows, plays or musical performances; providing on-line videos from the internet featuring computer games, video games, electronic games, interactive video games,

game stories, live video game play and entertainment, not downloadable; movie theatre presentations in the nature of movie showing; movie film production and distribution; providing on-line digital music from the internet, not downloadable; presentation of live show performances; direction or presentation of plays; presentation of musical performances; production of radio or television programs; production of videotape film in the field of education, culture, entertainment and sports, not for movies or television programs and not for advertising or publicity; directing of radio and television programs; operation of video and audio equipment for production of radio and television programs; organization, arranging and conducting of sports competitions; organization of entertainment events in the nature of electronic game competition, excluding movies, shows, plays, musical performances, sports, horse races, bicycle races, boat races and auto races; providing audio or video studio services; providing sports facilities; providing amusement facilities; providing facilities for movies, shows, plays, music or educational training; booking of seats for shows; rental of records or sound-recorded magnetic tapes; rental of image-recorded magnetic tapes; toy rental; rental of amusement machines and apparatus; rental of game machines and apparatus; providing on-line computer games

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Computer game software, recorded; computer game software, downloadable; recorded and downloadable game programs for arcade video game machines; recorded and downloadable game programs for home video game machines; recorded computer programs for use with hand-held games with liquid crystal displays; multimedia software recorded on CD-ROM featuring computer games, game enhancements, game tools, game stories, movies and video for entertainment purposes for use with hand-held games with liquid crystal displays; phonograph records featuring music; downloadable music files; downloadable image files containing electronic games, electronic game characters, electronic game enhancements, electronic game tools, interactive game stories, live video game play, movies and video for entertainment purposes; recorded video discs and video tapes featuring electronic games, electronic game characters, electronic game enhancements, electronic game tools, interactive game stories, live video game play, movies and video for entertainment purposes; recorded and downloadable electronic publications in the nature of graphic novels, comics, books, magazines, journals and newsletters in the field of computer games, video games, electronic games and entertainment; exposed cinematographic films; exposed slide films; slide film mounts; electronic data processing apparatus and their parts; electronic control systems for machines; virtual reality headsets; personal digital assistants; eyeglasses; goggles for sports

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Clothing, namely, tops as clothing, bottoms as clothing, T-shirts, caps, sweatshirts, parkas; garters; sock suspenders; suspenders for clothing; braces for clothing; waistbands; belts for clothing; footwear, other than special footwear for sports; masquerade costumes; special footwear for sports; Clothing for sports, namely, tops as clothing, bottoms as clothing

International Classes 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

For Development of computer and video game software; computer programming of computer games; development of computer programs and computer game software; development of video game software; rental of computer game programs; computer software design, computer programming, or maintenance of computer software; rental of computers; Providing computer programs on data networks, namely, providing temporary use of on-line non-downloadable computer software development kits for design and development of computer game software, video game software and electronic game software

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Organic waste composting machines; filtering machines, namely, filtering machines for chemical processing; separators, namely, waste separators, centrifugal separators, and centrifuges; filtering machines used in sewage handling, namely, sewage waste separator machines; filter presses for chemical processing; filtering machines for chemical processing; filter presses for processing biochemicals; feeding machines, namely, feeding units for size reduction machines; feeding machines for presses, namely, pneumatic conveyors; feeding apparatus for engine boilers, namely, machines for feeding fuel into engine boilers; agitators for chemical processing; industrial washing machines, namely, electric washing machines for industrial purposes; machines for pressure washing; bagging machines; fluid absorbing machines for chemical processing; dewatering machines for industrial use for separating target materials from mixtures of materials and for chemical processing; separating machines for chemical processing; robotic separators, namely, robotic centrifugal separators; waste and trash separator machines; separators for separating solids from liquids; machines for compacting waste and trash; waste disposal machines; waste crushing machines; waste sorting machines; waste extraction machines; waste converters, namely, pneumatic waste composting machines; waste and trash conveying machines; food waste disposal machines; shredding machines for waste; power-operated blowers; air and liquid ejectors, namely, air and liquid jet venturi ejectors; pumps, namely, centrifugal pumps, electric pumps; vacuum pumps; electric water pumps for the extraction of liquids; macerator pumps; pneumatic transporters and conveyors; screw conveyors; valves being parts of machines; machines for the treatment of waste and wastewater, namely, waste and wastewater disposal units, wastewater pumping stations; machine tools for removing waste and trash; wind turbines; structural replacement parts and fittings for the aforesaid goods; all of the aforementioned goods to be used in the field of waste and waste water collection and treatment solutions, including vacuum toilets, for the marine and offshore oil and gas industries, as well as in the field of hydrothermal carbonization, as well as in the field of waste water collection and treatment in the building industry, as well as waste treatment in the building industry

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Chemical processing equipment, namely, distillers for chemical processing; installations for chemical processing, namely, heat exchangers for chemical processing; recuperators for chemical processing; evaporators for chemical processing; steamers for chemical processing; drying apparatus for chemical processing; heat exchangers, other than parts of machines; heat exchangers for chemical processing; tube heat exchangers, other than parts of machines; shell heat exchangers, other than parts of machines; flushing apparatus, namely, flushing toilet tanks, flush levers for vacuum toilets and urinals, flush levers, flush handles for toilets; cooling installations and machines, namely, cooling installations for water, cooling units for industrial purposes; carbonizing furnaces for industrial purposes; thermal treatment furnaces; thermal fluid heaters for industrial purposes; thermal incinerators; biological reactors for clarifying industrial effluents, namely, for the treatment of wastewater; bioreactors for gas-solids reactions for the treatment of wastewater; bioreactors for use in the treatment of wastewater; water filtering apparatus; air filtering installations; mechanisms for controlling fluid level in water purification tanks, namely, level control valves; level control valves in tanks, namely, regulating accessories for water supply in the nature of metered valves; apparatus and equipment for water supply and sanitary purposes, namely, sinks, toilets; vacuum toilets; vacuum urinals being sanitary fixtures; parts and fittings for vacuum toilets and vacuum urinals, namely, toilet bowls, toilet seats, toilet seat lids, flush levers, flushometers; vacuum operated or vacuum enhanced sewage, water or liquid collection, transportation and treatment systems, installations, and plants, and inseparable components thereof, comprised of toilets, discharge valves for toilets, grey water valves, faucets, grease traps, floor drains, blowers, air and liquid ejectors, vacuum pumps, water filters, additive injectors for disbursing solids and liquids for purification and sterilization purposes, sluices, waste water treatment storage tanks, separators for the cleaning and purification of liquids, and controllers and monitoring units incorporated therein; vacuum operated and vacuum enhanced sewage, water and liquid collection, transportation and treatment systems, installations and plants comprised of toilets, flushometer valves, and toilet tanks; waste disposal incinerators; purification installations for waste material; heating apparatus for use in the treatment of waste; water and wastewater treatment installations, namely, bioreactors and reverse osmosis desalinators for use in the treatment of water and wastewater, sustainable onsite water recycling and wastewater treatment systems; water and wastewater purification units; water and waste water treatment tanks for industrial purposes; apparatus for dehydrating food waste; pressure supervision apparatus, namely, pressure regulators for water installations; plumbing fittings, namely, pressure relief valves for water pipes and water apparatus; plumbing fittings, namely, safety valves for water apparatus in the nature of vacuum release safety valve for flow shutoff in water tanks, water control valves for faucets; ballast water treatment systems comprised of UV reactors and water filtration units; control systems comprised of level controlling valves in water treatment tanks for ballast water treatment systems; water desalinating apparatus utilizing reverse osmosis for the generation of freshwater; desalination units; fresh water generation and treatment systems comprised of reverse osmosis units, water treatment unit for aerating and circulating water; hot water installations, namely, hot water tanks; structural replacement parts and fittings for the aforesaid goods; all of the aforementioned goods to be used in the field of waste and waste water collection and treatment solutions, including vacuum toilets, for the marine and offshore oil and gas industries, as well as in the field of hydrothermal carbonization, as well as in the field of waste water collection and treatment in the building industry, as well as waste treatment in the building industry

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Repair, installation and maintenance of vacuum toilets and of water, waste and wastewater treatment apparatus and equipment; repair, installation and maintenance of electrodes, anodes, cathodes, copper electrodes, aluminium electrodes, electric fuses, electric fuse wire, electric switches, antifouling and impressed current cathodic protection anodes, titanium anodes, and impressed current cathodic protection and reference electrodes; repair, installation and maintenance of corrosion protection and marine growth preventing systems; repair, installation and maintenance of wind turbines and control apparatus for wind turbines; repair, installation and maintenance of desalination systems; installation and maintenance of electric control panels for use on ships and on other installations employing seawater for coolant or ballast to render the seawater non-corrosive through electrolytic action; installation and maintenance of reverse osmosis desalinators; installation and maintenance of fresh water generation and treatment systems; installation and maintenance of hull corrosion prevention systems; installation and maintenance of marine pipework antifouling systems; installation and maintenance of hot water systems for yachts and marine vessels; construction of hydrothermal installations being hydrothermal energy plants for waste and wastewater treatment; maintenance and repair of energy generating installations; all of the aforementioned services to be used in the field of waste and waste water collection and treatment solutions, including vacuum toilets, for the marine and offshore oil and gas industries, as well as in the field of hydrothermal carbonization, as well as in the field of waste water collection and treatment in the building industry, as well as waste treatment in the building industry

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Pressure measuring apparatus; filling level detectors; electronic control and monitoring systems comprised of electric control panels, touchscreen monitors, and water meters for machines and apparatus for the collection and treatment of water, waste and wastewater; electronic control and monitoring systems comprised of electric control panels, touchscreen monitors, and computers for machines and apparatus for use in corrosion protection, marine growth prevention, ballast water management and fresh water generation; computer hardware and recorded computer software for collecting and managing data and information for use in water, waste and wastewater collection and treatment as well as in corrosion protection, marine growth prevention, ballast water management and fresh water generation; electrodes; anodes; cathodes; copper electrodes; aluminium electrodes; electric fuses; electric fuse wire; electric switches; antifouling and impressed current cathodic protection anodes; titanium anodes; impressed current cathodic protection and reference electrodes; impressed current cathodic protection devices being anodes, cathodes, and electrodes; cathodic anti-corrosion apparatus being anodes, cathodes, and electrodes; cathodic protection apparatus in the nature of anodes, cathodes, and electrodes to prevent marine growth; cathodic hull corrosion prevention apparatus in the nature of anodes, cathodes, and electrodes for marine use; elliptical anodes; electric control panels; electric control panels for use on ships or on other installations employing seawater for coolant, or ballast to render the sea water non-corrosive through electrolytic action; electronic control systems for desalination apparatus; structural replacement parts and fittings for the aforesaid apparatus; all of the aforementioned goods to be used in the field of waste and waste water collection and treatment solutions, including vacuum toilets, for the marine and offshore oil and gas industries, as well as in the field of hydrothermal carbonization, as well as in the field of waste water collection and treatment in the building industry, as well as waste treatment in the building industry

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Production of energy; waste treatment, namely, hydrothermal carbonization processing; treatment of industrial waste to sequester carbon; generation of electrical power using carbon sequestration; incineration of waste and trash; recycling of waste and trash; upcycling in the nature of waste recycling; waste treatment; water treating; waste water treatment; waste processing; refining services, namely, black and gray water treatment and purification; processing of captured hydrocarbons; processing of captured carbon; recovery of hydrocarbons from gas; all of the aforementioned services to be used in the field of waste and waste water collection and treatment solutions, including vacuum toilets, for the marine and offshore oil and gas industries, as well as in the field of hydrothermal carbonization, as well as in the field of waste water collection and treatment in the building industry, as well as waste treatment in the building industry

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

International Registration 1671205 **International Registration Date** May 18, 2022

GOODS AND SERVICES INFORMATION

For Unmanned vehicles, namely, unmanned aerial vehicles (UAVs) and unmanned ground vehicles (UGVs); unmanned aerial vehicles for use in scanning, mapping and measuring an area, structure or cavity, in particular, unmanned aerial vehicles specifically adapted to carry mapping, scanning and measuring apparatus and instruments; unmanned ground vehicles for use in scanning, mapping and measuring an area, structure or cavity, in particular, unmanned ground vehicles specifically adapted to carry mapping, scanning and measuring apparatus and instruments; and accessories, parts and fittings for the aforesaid goods

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Downloadable computer software and application software, namely, software packages, software programs and software downloadable from the internet for use in scanning, mapping and measuring an area, structure or cavity; downloadable software for the remote operation of mapping, scanning and measuring apparatus and instruments; downloadable software for the autonomous operation of remote equipment carrying mapping, scanning and measuring apparatus and instruments, namely, unmanned aerial vehicles (UAVs) and unmanned ground vehicles (UGVs); downloadable software for use in scanning, mapping and measuring an area, structure or cavity; downloadable electronic data files featuring data and information relating to the mapping of areas, structures or cavities; mapping apparatus and instruments, namely, data recording devices and sensors for use in scanning, measuring and recording a digital map of an area, structure or cavity; scanning apparatus and instruments, namely, data recording devices and sensors for use in scanning, measuring and recording a digital map of an area, structure or cavity; measuring apparatus and instruments, namely, data recording devices and sensors for use in scanning, measuring and recording a digital map of an area, structure or cavity; apparatus and instruments for recording, information processing and transmission of area, structure or cavity mapping, scanning and measurement data; mounts for mapping, scanning and measuring apparatus and instruments in the nature of data recording devices and sensors for use in scanning, measuring and

recording a digital map of an area, structure or cavity, for use with unmanned aerial vehicles and unmanned ground vehicles; and accessories, parts and fittings for the aforesaid goods

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Software as a service (SAAS) services featuring software for use in scanning, mapping and measuring an area, structure or cavity and in the operation of remote equipment carrying mapping, scanning and measuring apparatus and instruments; platform as a service (PAAS) for use in scanning, mapping and measuring an area, structure or cavity and in the operation of remote equipment carrying mapping, scanning and measuring apparatus and instruments; providing temporary online use of non-downloadable web-based applications and software for use in scanning, mapping and measuring an area, structure or cavity and in the operation of remote equipment carrying mapping, scanning and measuring apparatus and instruments; software as a service (SAAS) services, namely, charging a fee for access to a non-downloadable featured software for scanning, mapping and measuring an area, structure or cavity and the operation of remote equipment carrying mapping, scanning and measuring apparatus and instruments; providing a web hosting platform for users to search, upload, create and manage computer databases; and consultancy in the design and development of mapping, scanning and measuring apparatus and instruments and of computer software for scanning, mapping and measuring an area, structure or cavity

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

International Registration 1672076 **International Registration Date** Jan. 13, 2022

GOODS AND SERVICES INFORMATION

For Pharmaceutical preparations and other preparations for destroying vermin; fungicides; herbicides; reagent paper for medical purposes; diagnostic biomarker reagents for medical purposes; dietary supplements for humans; dietetic beverages adapted for medical purposes; dietetic foods adapted for medical purposes; cultures of microorganisms for medical or veterinary use; preparations of microorganisms for medical or veterinary use

International Classes 5 - Primary Classes **US Classes** 5, 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Banking services featuring acceptance of deposits, substitute bond issuance, and acceptance of fixed interval installment deposits; loans and discount of bills; domestic exchange settlement, namely, the setting of international and commercial transactions through obtaining the proceeds of a sale in cash or in exchange for formal debt instructions; financial guarantee and surety, namely, liability guarantee and acceptance of bills; securities lending; acquisition and transfer of monetary claims; safe deposit box services, namely, safekeeping of valuables in particular securities and precious metals; exchanging money; trusteeship of financial futures contracts; trusteeship of money, securities, monetary claims, personal property, land, rights on land fixtures, surface rights and lease on land; agencies for bond subscriptions, namely, brokerage of bonds; foreign exchange transactions; letter-of-credit related services, namely, issuing of letters of credit; credit brokerage services, namely, brokerage of credit purchases; investment agency services, namely, financial investment in the field of biotechnology technology, research and development in biotechnology, research and development in microbiome; providing student, temporary, personal loans; financing services; financial loan consultancy; providing information relating to financial loans; financing agency services in the field of biotechnology technology, research and development in biotechnology, research and development in microbiome; brokerage services for financing biotechnology technology, research and development in biotechnology, research and development in microbiome; venture capital funding services to emerging and start-up companies; venture capital funding

services to research institutions; financing of real estate development projects; capital investment; consultancy and providing information regarding financial investment; investment consultancy, brokerage and management services; investment management; financial analysis services relating to investments; financial consultancy services relating to investments; undertaking investment of funds for others; securities brokerage services, namely, buying and selling securities for others; trading of securities index futures; trading of securities options; trading of overseas market securities futures; agencies for brokerage and trading of securities, securities index futures, securities options, and overseas market securities futures; agencies for brokerage of entrusting agents with on-commission trading in domestic markets of securities, securities index futures and securities options; agencies for brokerage of entrusting agents with on-commission trading in overseas markets of securities and securities index futures; agencies for brokerage of forward agreement of securities, for forward agreement of securities index futures, for forward agreement of securities options, spot and forward transaction of securities index futures; brokerage for securities liquidation; securities underwriting; fund investment services, namely, offering securities in the field of biotechnology technology, research and development in biotechnology, research and development in microbiome; brokerage services relating to securities subscription or offering; providing stock market information; fund raising services for others; consultancy in the field of fund raising services; providing information relating to fund raising services; financial services, namely, providing funding for research institutions; financial services, namely, providing funding for the development of new technology; management of a capital investment fund; management of private equity funds; venture capital fund management; financial advice and consultancy services; providing financial information, management and analysis services; providing corporate financial information; research and analysis of corporate finance; consultancy, analysis and advice services relating to corporate finance; financial advice and consultancy in the field of venture capital; business credit reporting services and providing information relating thereto; charitable fund raising; providing monetary grants to individuals, community organizations, venture company, and providing information relating thereto

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For Educational and instruction services, namely, conducting classes, seminars, conferences, workshops in the field of arts, crafts, sports and general knowledge; consultancy services and providing information regarding educational and instruction services in the field of arts, crafts, sports and general knowledge; teaching in the field of business management, investment, biotechnology, microbiome, and electronic big data via the Internet; providing information regarding teaching in the field of business management, investment, biotechnology, microbiome, and electronic big data via the Internet; educational and instruction services, namely, conducting classes, seminars, conferences, workshops in the field of financial investment; educational and instruction services, namely, conducting classes, seminars, conferences, workshops in the field of business management, tax, law and finance; educational and instruction services, namely, conducting classes, seminars, conferences, workshops in the field of business management; educational and instruction services, namely, conducting classes, seminars, conferences, workshops in the field of technological management; exercise therapy instruction; business education services, namely, developing customized leadership and executive development programs, providing executive coaching services; planning, arranging and conducting seminars, symposiums, conferences, lectures, workshops, colloquiums, meetings, conventions in the field of business management, investment, biotechnology, microbiome, electronic big data and providing information relating thereto; organization of educational events in the field of flotation, investment and business tie-up and providing information relating thereto; organization of seminars regarding technology in the field of business management,

investment, biotechnology, microbiome, electronic big data, management and providing information relating thereto; publication of books, magazines and electronic publications; services of reference libraries for literature and documentary records; book rental; rental of printed matter in the nature of trading cards, newspaper, magazines, and newsletter; publishing services, namely, planning, editing and production of books, magazines and electronic publications; publication of books; providing online digital music from the Internet, not downloadable; presentation of live show performances; direction or presentation of plays; presentation of live show performances, namely, presentation of musical performances; providing videos in the field of business management, investment, biotechnology, microbiome, and electronic big data from the internet, not downloadable; movie theatre presentations; film production and distribution; entertainment services, namely, providing images, films, movies, videos, music, sound and character textual data in the field of business management, investment, biotechnology, microbiome, electronic big data via the Internet; production of radio or television programs; production of radio or television programs in the field of finance and investment; production of videotape films in the field of education, culture, entertainment, and sports, not for movies or television programs and not for advertising or publicity; production of videotape films in the field of medical services, pharmaceutical preparations, health and health care, not for movies or television programs and not for advertising or publicity; rental of records or sound-recorded magnetic tapes; rental of image-recorded magnetic tapes; photography; language interpretation; translation

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Advertising and publicity services; internet advertising; advertising the goods and services of others on the Internet; business management analysis and business consultancy; business management consultancy; business management; business management assistance; conducting business research and surveys; consulting and information services relating to business research and surveys; business consultancy in the nature of business feasibility appraisal; business feasibility studies, namely, research and evaluation of business feasibility; providing information concerning business feasibility; marketing research and analysis; market research services regarding utilization of new technologies; business consultancy services relating to market research services in the field of utilization of new technologies; business and marketing research and analysis in the field of corporate technical trends; market research services, in particular research, study, analysis and assessment of corporate operations and enterprise activity; business research, study, analysis and advice regarding industrial trends, business behavior and economic trends and providing information relating thereto; conducting marketing studies and market analysis for new product development and promotional activities; providing information concerning commercial sales; business research, study, analysis, consultancy, planning and providing information in the field of business management and incorporation of new businesses; business management consultancy and assistance; venture business management consultancy and assistance; business consultancy services regarding business management, business sales, corporate acquisition, merger of companies, business tie-up and providing information relating thereto; business consultancy services regarding starting a business and providing information relating thereto; business consultancy services regarding incorporation and providing information relating thereto; business consultancy services regarding business in the field of medical technology; business consultancy services regarding business utilizing information technology; commercial intermediation services, namely, mediation of contracts for purchase and sale of products, executive recruiting services relating to technology, sales and production for corporations; intermediary services for commercial transactions and business tie-up, namely, mediation of contracts for purchase and sale of products, executive recruiting services and providing information relating thereto; consultancy services

regarding business strategies; assistance and advisory services relating to business management and operation in the field of biotechnology; business promotion, management and administration for cohort studies in the field of microbiome, biotechnology; promotion, management and administration for businesses relating to institutions disclosing medical information or clinical study information; business research assistance; business management assistance in the field of study and research for companies, universities and public institutions; business administration and management assistance in the field of analytical study of genetic information; marketing, market studies and market analysis; business marketing services; business consulting services and advice in the field of marketing and providing information relating thereto; drawing up of statements of accounts , namely, accounting for third parties; copying of documents and counselling, intermediary services, advisory services, and providing information relating thereto; office functions, namely filing documents and magnetic tapes; compilation of medical reports; computerized file management and providing information relating thereto; compilation and systemization of information into computer databases; consultancy in the field of compilation and systemization of information into computer databases; provision of information and advisory services relating to compilation and systemization of information into computer databases; management, compilation of computerized databases; data searching services, namely, searching computerized databases of others; collection, systematization, compilation of business data and information into computer databases and analysis of business data and information stored in computer databases; publicity material rental; provision and rental of space for advertising on websites, personal vehicles, and public transportation vehicles; providing and rental of advertising space on the internet; providing commercial information and advice for consumers in the choice of products and services; news clipping services; news clipping services relating to research papers in the field of corporate management, biotechnology research, microbiome research, and big data research; retail store services and wholesale store services featuring pharmaceutical, veterinary and sanitary preparations and medical supplies; computerized data and information processing services; consultancy services regarding computerized information processing; providing information regarding computerized information processing

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Laboratory apparatus and instruments, namely, constant temperature incubators, constant humidity incubators, glassware for scientific experiments, porcelain ware for scientific experiments, furnaces for laboratory experiments, bioreactors for cell culturing for scientific research, incubators for bacteria culture, homogenizers, bottle top filters used for the purification of tissue culture media; photographic machines and apparatus, namely, cameras, shutters for cameras, lens filters for cameras, lenses for cameras, photo-developing, printing, enlarging or finishing machines and apparatus, photographic flash units for cameras, viewfinders for cameras, shutter releases for cameras, exposure meters, photographic filters; cinematographic machines and apparatus; optical machines and apparatus, namely, telescopes, binoculars, magnifying glasses, metallurgical microscopes, biological microscopes, polarizing microscopes, optical sensors; measuring or testing machines and instruments, namely, temperature indicators, gasometers, water meters, balances, measuring rules, pressure gauges, level indicators, tachometers, accelerometers, refractometers, photometers, hygrometers, illuminometers, vibration meters, calorimeters, viscosimeters, concentration meters, flowmeters, surface roughness testing machines and instruments, automatic temperature control machines and instruments, automatic liquid-flow control machines and instruments, automatic calorie control machines and instruments, spectrometers, not for medical purposes; telecommunication machines and apparatus, namely, telephones, facsimile machines, wireless access point devices, portable radio communication machines and apparatus; electronic control,

testing, monitoring and surveying apparatus, namely, electric control panels, hand-held apparatus for testing and monitoring wired and wireless network connectivity, computers; semi-conductor elements, namely, thermistors, diodes, transistors, light-emitting diodes; electronic circuits, not including those recorded with computer programs; downloadable computer programs for collecting, editing, managing, revising, transmitting, recording, sharing, exchanging and processing data and information; downloadable computer application programs for mobile phones, portable media players, handheld computers, namely, software for collecting, editing, managing, revising, transmitting, recording, sharing, exchanging and processing data and information; downloadable computer programs for medical examination and medical diagnostic; downloadable computer software for database processing; downloadable computer software for database management; downloadable computer software for database management and data compilation; downloadable computer programs for use in data processing and data analysis; downloadable computer programs for use in supporting data analysis; downloadable computer programs for use in managing, compiling big data, logging and gathering data, analyzing and storing electronic data; geiger counters; high frequency apparatus for welding in the nature of electric welding torches; cyclotrons, not for medical purposes; industrial X-ray machines and apparatus, not for medical use; industrial betatrons, not for medical use; magnetic object detectors; seismic exploration machines and apparatus; hydrophone machines and apparatus in the nature of microphones used for underwater acoustic measurements, signal detection or recording; echo sounders; ultrasonic flaw detectors; ultrasonic sensors; electronic door closing control systems; electron microscopes; phonograph records featuring music; downloadable music files; downloadable image and movie files in the fields of corporate management, investment, biotechnology research, microbiome research, and big data research; pre-recorded video discs and video tapes in the fields of corporate management, investment, biotechnology research, microbiome research, and big data research; pre-recorded videotapes, videodiscs, magnetic video discs, optical video discs, video CD-ROMs and other prerecorded video media, namely, video disk, video tape, magnetic disk, optical disk, magneto-optical disk, CD-ROM, DVD-ROM, DVD-RAM, magnetic tape in the fields of corporate management, investment, biotechnology research, microbiome research, and big data research; pre-recorded audio compact discs and other prerecorded audio media, namely, Video disk, video tape, magnetic disk, optical disk, magneto-optical disk, CD-ROM, DVD-ROM, DVD-RAM, magnetic tape in the fields of corporate management, investment, biotechnology research, microbiome research, and big data research; downloadable electronic publications in the nature of magazines, newsletters in the fields of corporate management, investment, biotechnology research, microbiome research, and big data research; downloadable electronic publications via the Internet in the nature of magazines, newsletters in the fields of corporate management, investment, biotechnology research, microbiome research, and big data research; exposed cinematographic films; exposed slide films; slide film mounts; prerecorded media of images, movies, music, sounds, textual data and electronic publications in the nature of magazines, newsletters in the fields of corporate management, investment, biotechnology research, microbiome research and big data research; downloadable images, movies, music, sounds, textual data and electronic publications in the nature of magazines, newsletters in the fields of corporate management, investment, biotechnology research, microbiome research and big data research

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Physical storage of electronically stored databases, images and other electronic data; physical storage of electronically stored digital data, photographs, audio and image files

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Providing medical information; physical examination services; medical examination agency services, namely, blood testing for medical purposes, urinalysis for medical purposes, saliva test for medical purposes, magnetic resonance examination for medical purposes, computed tomography for medical purposes, and x-ray examinations for medical purposes; health screening being medical screening of diseases and other conditions; providing information relating to health screening; providing medical information relating to bio technology; providing information relating to gene therapy; information services relating to clinical data of patients, namely, providing information relating to clinical data of patients; dietary and nutritional guidance; provision of personal health information data, namely, body weight, body fat, body temperature, number of steps, sleeping hours, blood pressure

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For Computer software design, computer programming, and maintenance of computer software; computer software consulting; development and creation of computer software; design and development of computer software for data processing; updating of computer software; providing information regarding updating of computer software; computerized conversion of character signals, picture signals, and sound signals from textual data, image information and sound information onto recording media in the nature of Video disk, video tape, magnetic disk, optical disk, magneto-optical disk, CD-ROM, DVD-ROM, DVD-RAM, magnetic tape; design, development and maintenance of computer databases; consultancy services regarding design, development and maintenance of computer databases; computer services, namely, providing services in electronic big data collection, analyzing, and storing services; providing information regarding the results of big data collection, analyzing or storing services; design and development of computer hardware and computer software; development and testing of computing methods, algorithms and software; technological advisory services relating to design of computers, automobiles and industrial machines; testing, inspection or research of pharmaceuticals, cosmetics or foodstuffs; biotechnology research and testing in the nature of testing of pharmaceuticals and providing information relating thereto; pharmaceutical research services and consultancy relating thereto; testing and research on genes and providing information relating thereto; scientific research in the field of gene therapy; advisory services relating to gene therapy research; scientific research in the field of genetics and genetic engineering; testing, inspection and research and development services in the fields of bacteriology, cytology, antibody technology, chemistry, immunology and gene expression system; scientific research and development; research and development services in the field of biotechnology relating to treatment preparations using microbiomes; research on building construction and city planning; testing or research on prevention of pollution; testing or research on electricity; testing or research on civil engineering; scientific research in the field of microbiome treatment for human diseases; testing, inspection or research on agriculture, livestock breeding or fisheries; designing of machines, apparatus, instruments, including their parts, or systems composed of such machines, apparatus and instruments; designing of medical machines, apparatus, instruments, including their parts, or systems composed of such medical machines, apparatus and instruments; rental of computers; providing temporary use of online non-downloadable computer programs on data networks for use in database management and use in electronic storage of data; rental of computer application software for database

management, use as a spreadsheet, word processing, drawing, and editing digital photos; providing temporary use of a web-based application software for use in database management, use as a spreadsheet, word processing, drawing, and editing digital photos; electronic storage of medical records; computer graphics design services other than for advertising purposes

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Aircraft component maintenance and repair; aircraft steering and landing gear construction, maintenance and repair; information and advisory services connected with all the aforesaid services

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Navigational apparatus and instruments for use in aircraft; GPS navigation systems for use in aircraft; monitoring apparatus and instruments for use in aircraft, namely notification displays, recording devices, alarms and sensors for monitoring and providing notifications regarding the status, performance, and operability of aircraft structural components, aircraft electronics systems, aircraft fuel systems, aircraft mechanical systems, and conditions of aircraft interior and exterior environment; computer hardware and software components comprising autopilot systems for use in aircraft; safety fire monitoring and suppression systems consisting of sensors for measuring chemical composition and other characteristics of aircraft interior and exterior ambient environment, fire alarms and notification displays, vessels for storing fire suppression materials, pipes nozzles and tubing for transmission and release of fire suppression material, automated fire extinguishers, release valves switches and manual control panels for use in fire suppression systems; parts and fittings for all the aforesaid goods

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Custom manufacture of aircraft parts; custom manufacture of hydraulic systems and individual assemblies namely actuators, valves, accumulators, reservoirs and dampers; custom manufacture of electronics and avionics for use in fuel measurement systems, engine and environmental controls, oxygen components, fire protection and suppression systems and airborne radar; information and advisory services connected with all the aforesaid services

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Technical testing services of aircraft parts and systems, namely testing of performance of aircraft parts and components for satisfaction of regulatory standards and operational requirements, and for development and design purposes; aircraft fatigue testing and endurance testing for airworthiness standards; testing services for the certification of quality standards relating to aircraft parts and systems used on-board aircraft; design of aircraft parts; information and advisory services connected with all the aforesaid services

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

International Registration 1677870 **International Registration Date** Apr. 27, 2022

GOODS AND SERVICES INFORMATION

For Building construction for communications infrastructure projects; installing of telecommunications networks; installation and repair of telecommunications networks; installation of hardware for internet access; installation and maintenance of hardware for computer networks and internet access; installation of communications network instruments; installing of electronic communications networks; all of the aforementioned services solely in connection with fiber-based telecommunication and infrastructure

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Data communications apparatus, namely, fixed and wireless communications devices for data transmission, computer hardware for communication data between computers via a global computer network; internet servers; recorded and downloadable internet access software; recorded and downloadable computer programs for accessing and using the internet; optical fibres (light conducting filaments); Computer networking equipment, namely, computer network routers and switches, transmission equipment, namely, telecommunications switches and telecommunications exchanges; Network communication apparatus, namely transceivers, network access server hardware, computer network routers and switches, transmission equipment, namely, telecommunications switches and telecommunications exchanges; Electronic communication installations, namely, electronic communications systems comprised of computer hardware and recorded software for the transmission of data between two points; Communications networking equipment, namely transceivers, network access server hardware, computer network routers and switches, transmission equipment, namely, telecommunications switches and telecommunications exchanges; internet of things [IoT] gateway routers; Computer networking and data communications equipment, namely computer networking hardware, fixed and wireless communications devices for data transmission; recorded and downloadable computer software for use in providing multiple user access to a global computer information

network; all of the aforementioned goods solely in connection with fiber-based telecommunication and infrastructure

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Telecommunication services, namely, providing access to fiber-based telecommunication and infrastructure; Telecommunications services to obtain information from data banks, namely transmission of database information via telecommunications networks; communications by fibre optic networks; automatic transfer of digital data using telecommunications channels; high bit-rate data transmission services for telecommunication network operators; provision and rental of telecommunications facilities and equipment; operating of electronic communications networks, namely providing private and secure real time electronic communication over a computer network; operation of wide-band telecommunications networks, namely providing internet access via broadband optical or wireless networks; operating of electronic communications systems, namely providing virtual private network (VPN) services, namely, private and secure electronic communications over a private or public computer network; transmission of information by electronic communications networks; providing access to electronic communications networks; provision of central switching services for electronic communications networks; providing high speed access to computer and communication networks; providing telecommunications connections to a global communication network or databases; transmission of messages, data and content via the internet and other communications networks; providing access to websites on the internet or any other communications network; satellite transmission; communication services by satellite; transmission of short messages [SMS], images, speech, sound, music and text communications between mobile telecommunications devices; telecommunication gateway services; Telecommunications services between computer networks, namely transmission of information via computers connected to the same global computer network; operation of a telecommunications network, namely providing voice communication services via the internet; data transmission services over telecommunications networks; telecommunications routing and junction services; telecommunications services provided via fiber optic, wireless and cable networks; providing access to the internet and other communications networks; Internet communication, namely providing voice and data communication services via the internet, transmission of electronic mail; Internet based telecommunication services, namely providing voice and data communication services via the internet, instant messaging services, electronic transmission of e-mail; Internet service provider services; computer communication, namely communication by computer terminals and providing internet access; providing user access to the internet; providing access to portals on the internet; transmission of data via the internet; providing telecommunications connections to the internet; information, consultancy and advisory services relating to telecommunications; all of the aforementioned services solely in connection with fiber-based telecommunication and infrastructure

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Technical design and planning of telecommunications networks; telecommunications technology consultancy; analysis of telecommunication signals, namely to determine conformity with established accreditation standards; Monitoring of telecommunication signals, namely for quality control purposes; computer programming for data duplication, conversion and coding; website, server hosting services; IT security services in the nature of protection and recovery of computer data, namely in the nature of restricting access to and by computer networks to and of undesired web sites, media and individuals and facilities in order to protect and recover computer data; all of the aforementioned services solely in connection with fiber-based telecommunication and infrastructure

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Apparatus for diagnosing cancer diseases and cell changes

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Scientific precision measuring apparatus, in particular for research and in the form of laboratory apparatus, namely, research laboratory analyzers for measuring, testing and analyzing blood, bodily fluids, and other non-bodily fluids; apparatus for measuring and regulating technology, in particular for research and in the form of laboratory apparatus, namely, research laboratory analyzers for measuring, testing and analyzing blood, bodily fluids, and other non-bodily fluids; data processing equipment and computers, precision measuring apparatus and analysis apparatus for analysing stability, particle characterisation, determining the dispersion stability of disperse systems, determining the stability of liquid disperse systems, determining the stability of colloids, determining particle size distribution in a disperse system, determining dynamic light scattering, in particular dynamic light scattering in backscatter arrangements in a disperse system, determining the interfacial potential of particles in a disperse system, conducting a polyelectrolyte titration or charge titration of a disperse system, in particular for detecting the overall behaviour thereof, coatings of all kinds, in particular on furniture, films, ceramics, textiles, paper, glass, for fillers, in particular ultrafine fillers, for polishing agents, in particular ultrafine polishing agents, for ceramics and ultrafine materials, in particular new ultrafine materials, all in the fields of nano-grinding and homogenisation technology; special downloadable computer programs for scientific apparatus and instruments for the analysis of particles suspended in liquids; special downloadable computer programs for apparatus for measuring and regulating technology for the analysis of particles suspended in liquids; special downloadable computer programs for measuring apparatus and analysis apparatus for analysing stability, particle characterisation, determining the dispersion stability of disperse systems, determining the stability of liquid disperse systems, determining the stability of colloids, determining particle size distribution in a disperse system, determining dynamic light scattering, in particular dynamic light scattering in backscatter arrangements in a disperse system,

determining the interfacial potential of particles in a disperse system, conducting a polyelectrolyte titration or charge titration of a disperse system, in particular for detecting the overall behaviour thereof, determining a voltage signal, in particular a zeta potential, streaming potential, colloid vibration potential, as a measure for the electrostatic repellent force between the particles of a disperse system, for the combined determination of particle size distribution and the interfacial potential of particles in a disperse system, in the field of chemistry, in particular in the field of creating plastic and nanoparticles, in the field of chemistry, in particular in the field of sol-gel processes, in the field of pharmaceutical technology, in particular for active ingredient suspensions, emulsions, coatings, in the field of coating, in particular for inks, paints and lacquers, coatings of all kinds, in particular on furniture, films, ceramics, textiles, paper, glass, in the field of nano-grinding, and in the field of homogenisation technology

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Scientific and technological services, namely, scientific laboratory services and scientific research, in particular in the field of biological nanoparticle tracking and analysis; industrial analysis and research in the field of biological nanoparticle tracking and analysis; technological consultancy services in the field of biological nanoparticle tracking and analysis; testing and research of and on machines, apparatus and instruments, namely, testing the functionality of machines; testing, analysis and evaluation of goods and services of others to determine conformity with certification standards

RELATED PROPERTIES INFORMATION

International Registration 1688632 **International Registration Date** Jun. 20, 2022

GOODS AND SERVICES INFORMATION

For Building construction for communications infrastructure projects; installing of telecommunications networks; installation and repair of telecommunications networks; installation of hardware for internet access; installation and maintenance of hardware for computer networks and internet access; installation of communications network instruments; installing of electronic communications networks; all of the aforementioned services solely in connection with fiber-based telecommunication and infrastructure

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Data communications apparatus, namely, fixed and wireless communications devices for data transmission, computer hardware for communication data between computers via a global computer network; internet servers; recorded and downloadable internet access software; recorded and downloadable computer programs for accessing and using the internet; optical fibres (light conducting filaments); Computer networking equipment, namely, computer network routers and switches, transmission equipment, namely, telecommunications switches and telecommunications exchanges; Network communication apparatus, namely transceivers, network access server hardware, computer network routers and switches, transmission equipment, namely, telecommunications switches and telecommunications exchanges; Electronic communication installations, namely, electronic communications systems comprised of computer hardware and recorded software for the transmission of data between two points; Communications networking equipment, namely transceivers, network access server hardware, computer network routers and switches, transmission equipment, namely, telecommunications switches and telecommunications exchanges; internet of things [IoT] gateway routers; Computer networking and data communications equipment, namely computer networking hardware, fixed and wireless communications devices for data transmission;

recorded and downloadable computer software for use in providing multiple user access to a global computer information network; all of the aforementioned goods solely in connection with fiber-based telecommunication and infrastructure

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Telecommunication services, namely, providing access to fiber-based telecommunication and infrastructure; Telecommunications services to obtain information from data banks, namely transmission of database information via telecommunications networks; communications by fibre optic networks; automatic transfer of digital data using telecommunications channels; high bit-rate data transmission services for telecommunication network operators; provision and rental of telecommunications facilities and equipment; operating of electronic communications networks, namely providing private and secure real time electronic communication over a computer network; operation of wide-band telecommunications networks, namely providing internet access via broadband optical or wireless networks; operating of electronic communications systems, namely providing virtual private network (VPN) services, namely, private and secure electronic communications over a private or public computer network; transmission of information by electronic communications networks; providing access to electronic communications networks; provision of central switching services for electronic communications networks; providing high speed access to computer and communication networks; providing telecommunications connections to a global communication network or databases; transmission of messages, data and content via the internet and other communications networks; providing access to websites on the internet or any other communications network; satellite transmission; communication services by satellite; transmission of short messages [SMS], images, speech, sound, music and text communications between mobile telecommunications devices; telecommunication gateway services; Telecommunications services between computer networks, namely transmission of information via computers connected to the same global computer network; operation of a telecommunications network, namely providing voice communication services via the internet; data transmission services over telecommunications networks; telecommunications routing and junction services; telecommunications services provided via fiber optic, wireless and cable networks; providing access to the internet and other communications networks; Internet communication, namely providing voice and data communication services via the internet, transmission of electronic mail; Internet based telecommunication services, namely providing voice and data communication services via the internet, instant messaging services, electronic transmission of e-mail; Internet service provider services; computer communication, namely communication by computer terminals and providing internet access; providing user access to the internet; providing access to portals on the internet; transmission of data via the internet; providing telecommunications connections to the internet; information, consultancy and advisory services relating to telecommunications; all of the aforementioned services solely in connection with fiber-based telecommunication and infrastructure

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Technical design and planning of telecommunications networks; telecommunications technology consultancy; analysis of telecommunication signals, namely to determine conformity with established accreditation standards; Monitoring of telecommunication signals, namely for quality control purposes; computer programming for data duplication, conversion and coding; website, server hosting services; IT security services in the nature of protection and recovery of computer data, namely in the nature of restricting access to and by computer networks to and of undesired web sites, media and individuals and facilities in order to protect and recover computer data; all of the aforementioned services solely in connection with fiber-based

telecommunication and infrastructure

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Biocides; antimicrobial preparations for preventing the formation of algae in water; algae annihilator, namely, biostatic antimicrobial preparations for treating algae for inhibiting growth of algae; algicides

International Classes 5 - Primary Classes **US Classes** 5, 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Electric pumps for water and other liquids, pumps as parts of machines for fountains, swimming pools, aquaria, water treatment systems, sprinkling devices, air humidifying installations; submersible pumps, electric pumps for liquid chemicals, electric pumps for refrigerators, electric pumps for aquarium; electrical water pumps and electric pumps for fish tanks and aquaria; parts for the afore mentioned pumps, namely, valves for pumps and shafts for pumps; mechanical flow pump control valves for aquaria

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Water filters; water control valves for heat pumps, water filters and fountains; heating installations for temperature regulation; lighting equipment, namely, lighting installations and lighting fixtures; sanitary apparatus and equipment, namely, pressure regulators for sanitary installations; pipes being parts of sanitary facilities; and faucets for pipes and pipelines being parts of sanitary installations; apparatus for lighting, heating, steam generating, refrigerating, drying, ventilating, water supply, namely, lighting installations; heating apparatus for ponds; apparatus for steam generating; refrigerating machines and installations; drying apparatus for use in heating, ventilation systems, air conditioning systems and refrigeration systems; air-conditioning, air cooling and ventilation apparatus and instruments; and water treatment apparatus for use in water purification; aeration apparatus, namely, water treatment units for aerating and circulating water; air conditioning apparatus; air cooling apparatus; air conditioning fans; air purifying apparatus and machines; coolers, electric; illumination light diffusers;

water filters and aquarium filtration apparatus; humidifiers and humidity control apparatus, namely, dehumidifiers; agricultural irrigation units, irrigation units for gardens, namely, irrigation spray nozzles and irrigation sprinklers; all the aforesaid goods included in this class for use in aquariums

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Chemicals for use in industry, science and photography, as well as in agriculture, horticulture and forestry, except fungicides, herbicides, insecticides and parasiticides; water treatment chemicals; filter material, namely, ceramic particles and mineral substances for use as a filtering media for use in water treatment; chemical preparations and plant extracts for use in the manufacture of filters; bacteria for water treatment; chemicals for use in aquaculture; chemicals for use in ponds and aquariums; chemicals for controlling the growth of aquatic plants; enzymes for industrial, scientific or research purposes, cultures of living micro-organism and their enzymes other than for medical or veterinary use; chemicals for use in clarifying water; chemicals for purifying water; water-softening preparations; fertilizers; chemical analysis test kits for testing water of ponds, lakes and swimming pools, chemical measuring kits comprised of chemical preparations for testing water of ponds, lakes and swimming pools

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Retail and wholesale store services, also provided via the internet featuring aquariums, vivariums, terrariums, and apparatus for water treatment

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Foodstuffs for fish; algae for animal consumption; animal foodstuffs; aquarium fish food

International Classes 31 - Primary Classes **US Classes** 1, 46 **International Class Title** Natural Agricultural Products

For Aquarium maintenance advisory and consultancy services

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Downloadable electronic publications in the nature of manuals, books, e-zines, newsletters, journals and magazines, all in the field of fish and aquaria; apparatus and instruments for temperature control, namely, thermostats, temperature sensors, temperature indicators, temperature transmitters and temperature switches; thermostats for fish tanks and aquaria; thermostats for temperature regulation; measuring devices and apparatus, namely, environmental monitoring system comprised of meters and sensors that measure pressure, humidity, temperature and includes alarm and reporting functions and technical measuring, testing and checking apparatus and instruments for measuring, testing and checking the temperature, pressure, quantity and concentration of gas and liquids

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Water treatment services; water treatment advisory and consultancy services

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Scientific and technological services, namely, scientific research, analysis and testing in the field of water treatment; industrial analysis and research services, namely, water analysis and analysis of industrial fluids; design and development of computer hardware and software; chemistry and biology services, namely, chemical, biochemical, biological and bacteriological research and analysis; chemistry and biology scientific laboratory services

GOODS AND SERVICES INFORMATION

For Land vehicles; apparatus for locomotion by land in the nature of land vehicles; apparatus for locomotion by air in the nature of airplanes; apparatus for locomotion by water in the nature of boats; Vehicle parts namely, axles, transmissions for land vehicles, steering wheels and suspension parts in the nature of leaf springs and coil springs, brakes, and engines for land vehicles; vehicle bodies; structural parts for automobiles; Roof panels for land vehicles; sunroofs for vehicles in the nature of automobile sunroofs; panoramic vehicle roofs in the nature of automobile sunroofs; roof panels for land vehicles; convertible tops for vehicles; vehicle sunroofs in the nature of automobile sunroofs; electric sunroofs for vehicles in the nature of automobile sunroofs; sliding roofs for vehicles in the nature of automobile sunroofs; folding roofs for vehicles in the nature of convertible tops for vehicles; motor car windows; glass roofs for vehicles in the nature of automobile sunroofs; Land vehicle parts, namely, drive gears, transmission, engines, steering and suspension systems for automobiles, brakes, and axles; gearboxes for land vehicles; couplings and transmissions for land vehicles; vehicle engine components, namely, engine support mounts, engine housing in the nature of engine mounts for land vehicles and oil trays in the nature of gas tanks for land vehicles; vehicle gearbox components, namely gearbox supports and gearbox housings; Land vehicle components, namely wheel hubs and drive pinions, tulips axles and stub axles; Land vehicles and structural parts therefor namely brake plates being vehicle brake discs, land vehicle suspension parts, namely, torsion/sway bars, Steering and suspension systems and parts for steering and suspension systems for vehicles, namely, upper ball joints, lower ball joints, ball joints with control arms, bushing kits, inner tie rod ends, outer tie rod ends, sleeves, idler arms, center links, stabilizer kits, inner sockets and pitman arm, vehicle seats, Luggage racks for motor cars, air bags, plastic parts for vehicles, namely, automotive exterior and interior plastic

extruded decorative and protective trim; undercarriages for vehicles; Suspension systems for automobiles, namely suspension arms, suspension shock absorbers for land vehicles; Armrests for automobile seats; ashtrays for automobiles; parts for vehicles, namely, automotive exterior and interior metal decorative and protective trim; Vehicle parts, namely, rearview mirrors; Automobile dashboards; Axles for air suspension systems in vehicles; axle bearings for land vehicles; land vehicle brake cams being brake hardware for vehicles

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Industrial robots; machine tools, namely, milling cutters being machine tools and mechanical machine tools in the nature of clamps for use in the precision clamping of work pieces; stamping machines, namely, automatic stamping machines and die-stamping machines, swaging machines and pressing machines, namely, heat transfer presses; molds, namely, forging molds and injection plastic molding machines, dies for use with machine tools and tools for machines, namely, metalworking machine tools; machine couplings and transmission components for machines; pistons for machines; brake segments other than for vehicles; component part of pistons being bolts and liners for machine pistons; motors and engines, excluding engines for land vehicles; machine coupling and transmission components, other than for land vehicles; agricultural implements other than hand-held tools operated manually, namely fertilizer spreaders, sowers and silage cutters; incubators for eggs; automatic distribution machines, namely, fertilizer spreaders, sowers and silage cutters; spark plugs for lighting; opening pneumatic, electric and hydraulic mechanisms for vehicle sunroofs; components for starters, namely, starter motors; crankshafts for vehicles and machines, shafts, namely, cam shafts; machine transmission components, except for land vehicles, namely, transmission crowns and pinions; pistons for vehicle engines and segments for vehicles in the nature of carburetor segments in the nature of vehicle part; vehicle engine parts, namely, crankshafts; fuel rails for engines, namely, diesel injection rail for vehicles and gas injection rail for vehicles, intermediate sump for vehicles, namely, sump pumps; component parts of engine camshafts, namely, camshaft cap for vehicles, camshaft covers for vehicles and camshaft housing for vehicles; internal combustion land vehicle engine parts, namely, valve guides for vehicles, air-carrying tubes for vehicles, oil sump for vehicles; vehicle steering cams, namely, cam shafts and cam chains; vehicle engine pistons; vehicle gearbox sump, namely, fuel pumps for land vehicle engines; components for CVT, namely, continuously variable transmission gearbox and hybrid vehicles for machines; vehicle crankshafts

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating and water distribution, as well as sanitary installations, namely, lighting apparatus in the nature of lighting installations, flat panel lighting apparatus, lighting apparatus for vehicles, floor heating apparatus, heating apparatus for vehicles, space heating apparatus, heating installations, cooling installations for water, milk cooling installations, air cooling apparatus, steam generating installations and apparatus, cooking apparatus in the nature of microwave ovens, cooking tunnels, cooking ovens, laundry drying machines, drying apparatus for chemical processing, clothes drying machines, ventilating exhaust fans, ventilation apparatus in the nature of turbine ventilators, water fountains, tap water faucets, and urinals being sanitary fixtures

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Treatment of materials by laser beam for obtaining products, parts and components for the automotive industry; machining of parts for others; metal casting services, forging of metal goods to the order and specification of others; generation of biofuels and biocarburants from natural seeds and plants in the nature of fuel treatment services whereby plants and natural seeds are used to treat biofuels in the nature of primary, secondary and tertiary alcohols, ethanol, butanol, bio-diesel and hydrogen fuels; recycling services, namely automobile oil and grease recycling services; recycling of waste and trash; recycling of plastic materials; treatment of hazardous waste in the nature of treatment of hazardous liquids; custom manufacture of concrete molds for use in industry; steel cutting services; burnishing by abrasion; treatment of surfaces being the application of protective, wear resistant, anti-rust, and anti-corrosion metal coatings by means of galvanization; dyeing services, namely, textile dyeing; glass assembly services for vehicles in the nature of processing and finishing of glass automobile window, windshield and sunroof installations; assembly of fabric on vehicle interiors in the nature of custom manufacture of cloth for automobile seats and automobile fixtures; custom manufacturing of vehicle parts for others; production of energy; generation of electrical energy from renewable energy sources in the nature of production of energy via combustion of solid waste, renewable resources

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Design, namely, new product design services and industrial research in the field of automobile and vehicle manufacturing for obtaining parts and components for the automotive industry made of steel, aluminum and plastic, and product research and development in the processes for obtaining such parts and components; scientific and technological services, namely. scientific research in the field of the production and distribution of biofuels and biocarburants obtained from seeds and plants; biochemical and agricultural research services in agricultural crop development for the production of biofuels and biocarburants; scientific research services in the field of waste recovery, such as industrial oils and greases; scientific and technological services, namely, research and design services in the field of automobile electronics design; industrial research and analysis services in the field of automobile and vehicular electronics; design and development of computer hardware and software; engineering services; quality control for others; Consulting and advisory services for others related to renewable energies, namely, consulting services in the fields of energy measurement to improve energy efficiency; consultancy and advisory services for others related to solar, photovoltaic, wind and renewable energy, namely, technology consulting in the field of solar energy, specifically specializing in substrates primarily of ceramic, silicon and non-metals for electrical or thermal insulation of solar cells, photovoltaic cells, and solar collectors, and technological consulting services in the field of renewable energy resources

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Installations of metal for ceilings, namely, metal ceiling panels, metal ceiling medallions and ceiling supports of metal; ceiling panels of metal; ceilings of metal, namely, metal suspended ceiling systems comprising panels; common metals and their alloys, metal ores; building and construction materials of metal, namely, metal canopies, metal reinforcement materials for building and refractory construction materials of metal; transportable buildings of metal; non-electric cables and wires of common metal; small items of metal hardware, namely, nuts, pulley, springs and washers; metal containers for storage and transport; safes, namely metal strong boxes; metallic materials for railway tracks; tubes of metal; ores of metal

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

GOODS AND SERVICES INFORMATION

For Machines and their replacement parts for application of printed layers, structures, stamping foils, transfer foils and laminating foils onto workpieces and substrates; stamping machine tools, particularly stamping dies, stamping plates, embossing rollers and stamping cushions, all as machine parts; machine parts, namely, casting moulds, injection moulds and embossing moulds as well as replacement parts and inserts therefor; machine parts, namely, deep-drawing moulds, structure rollers as well as matrices and patrices; pressing dies as machine parts; compression tools in the nature of compressors as machine parts; machines for foil processing; machines and machine tools therefor for back-injection moulding, casting, injection moulding, flow coating, drawing, deep-drawing, coating, foiling, printing, pressing, embossing, rolling, extruding, glueing, punching, trimming, cutting, cutting- out, forming and thermoforming, particularly of plastics and plastic parts, and their replacement parts; machines for form and mould making; machines for transferring and forming of patterns, decors and structures on the surfaces of semi-finished goods, work pieces and substrates; forming machines for carrying out of injection moulding processes and thermoforming processes and processes for plastic flow coating and for transferring of patterns, decors, structures and surface structures onto the formed articles and for forming of patterns, decors, structures and surface structures of the formed articles; forming machines for carrying out of injection moulding processes and thermoforming processes and processes for plastics flow coating and for furnishing of the formed articles or to be formed articles with foils and coatings with patterns, decors, structures and surface structures; foil overlaying machines for covering the surfaces of articles and substrates with foils furnished with patterns, decors, structures and surface structures, particularly of articles and substrates of plastic; machine parts, namely, roll-up mechanisms and roll-off mechanisms; machine parts, namely, foil feeding mechanisms and foil preparation mechanisms; machine parts, namely, article feeding mechanisms and substrate feeding mechanisms and article preparation mechanisms and substrate preparation mechanisms; all the aforementioned goods also as part of other machines and for integration as components into other machines; replacement parts and integral part components

for all aforementioned goods; control mechanisms, drives, actuators, regulators, each as part of machines and machine tools; parts of plastics forming machines and injection moulding machines, particularly moulds, mould parts, mould inserts, holders, dies, nozzles, extruder heads, injection units and clamping units, pistons, spirals, heating units and cooling units; machines for producing pneumatic negative pressure, particularly vacuum machines, and pneumatic positive pressure machines; machines for hardening of materials, particularly by means of UV-radiation and electron beams; machine tools and machine tools inserts for forming of patterns, decors and structures on the surfaces of semi-finished goods, work pieces and substrates and for punching, trimming, cutting and cutting-out; holding devices, namely, work holding fixtures for form inserts, dies and other machine parts or components for precision machining applications; replacement parts and part components for all aforementioned goods; housings specially adapted for use with machines, machine tools, motors not for land vehicles, non-manually-operated agricultural implements, particularly of plastic or primarily of plastic and replacement housing parts therefor

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Installation services, custom installation services, set-up installation services, maintenance and repair services and related consultancy, all concerning machines and their parts, particularly machines for printing, embossing, hot stamping, cold stamping, rolling, extruding, laminating, glueing, coating, foiling, heating, cooling, cleaning, hardening, forming, thermoforming, bonding, punching, trimming, cutting, cutting-out, back- injection- moulding, casting, injection-moulding, flow coating, drawing, deep- drawing, pressing, embossing and thermoforming and decorating, particularly of plastics and goods of plastics and concerning parts of such machines; installation services, custom installation services, set-up installation services, maintenance and repair services, all concerning machines for the manufacturing, machining, injection- moulding, casting, flow coating, forming, thermoforming and the decoration of plastic and plastic goods, concerning plastic processing and plastic working, paper processing, foil processing, as well as for coating, printing and varnishing; installation services, custom installation services, set-up installation services, maintenance and repair services, all concerning printing machines, packaging machines as well as pattern transfer machines, foil overlaying machines, roll-up- mechanisms and roll- off mechanisms, foil feeding mechanisms and foil preparation mechanisms; installation services, custom installation services, set-up installation services, maintenance and repair services, all concerning article feeding mechanisms, substrate feeding mechanisms, article preparation mechanisms and substrate preparation mechanisms; installation services, custom installation services, set-up installation services, maintenance and repair services and related consultancy, all concerning machines, particularly plastic forming machines and injection moulding machines, and their components and parts, particularly concerning tools and tool inserts, moulds, mould parts, mould inserts, dies and extruder heads, nozzles, injection moulds, deep-drawing moulds and casting moulds, holding devices, and their parts, heating devices and cooling devices, apparatus for hardening of materials, apparatus for generating negative pressure and positive pressure, apparatus for forming of patterns, decors and structures, apparatus for punching, trimming, cutting, cutting out and concerning injection units and clamping units; maintenance and servicing of data processing apparatus

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Material treatment and material processing for third parties, particularly of plastics, plastic-composite materials and parts and semi-finished products thereof, by means of chemical treatment, mechanical treatment, thermal treatment and thermo-mechanical treatment, particularly by means of drilling, milling, cutting, punching, printing, embossing, rolling, extruding, pressing, drawing, deep-drawing, forming, bonding, trimming, cutting-to- size, cutting- out, blowing, casting, injection moulding, back-injection moulding, flow coating, glueing, grinding, polishing, hardening, cleaning, drying, heating, cooling, laser machining; custom manufacturing of foils, plastic parts and parts and semi- finished products thereof, namely, foils of plastic for use in a variety of industries, particularly by means of drilling, milling, cutting, punching, printing, embossing, rolling, extruding, laminating, pressing, drawing, deep-drawing, forming, bonding, trimming, cutting-to-size, cutting-out, blowing, casting, injection moulding, back-injection moulding, flow coating, glueing, grinding, polishing, hardening, cleaning, drying, heating, cooling, laser machining; providing of treatment of materials, work pieces, semi-finished products and goods by means of applying printings, coatings and foils, particularly with stamping foils, laminating foils and transfer foils; treatment of materials, namely, decorating, printing, marking and overlaying of materials, work pieces, semi-finished products and goods with foils, particularly with stamping foils or laminating foils; applying coatings to materials, semi-finished products and of goods, namely, foils of plastic for use in a variety of industries by means of chemical processes, mechanical processes, thermal processes and thermo-mechanical processes; treatment of materials, namely, surface treatment and surface coating of materials, work pieces, semi-finished products and of goods, namely, foils of plastic for use in a variety of industries by means of chemical processes, mechanical processes, thermal processes and thermo-mechanical processes; plastics processing and foil processing and plastics and foil machining for third parties; customized machine construction; customized contract manufacturing of machines, machine parts, moulds, tools and apparatus for plastics processing and plastics machining; customized tool and mould making, particularly for the production of plastic parts; consulting services concerning all aforementioned services

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Stamping foils and transfer foils of plastic or primarily of plastics, all of the foregoing other than for packing or wrapping, all aforementioned goods also for application onto work pieces and substrates and for surface decoration and surface coating of substrates and work pieces; semi-finished goods of plastic or primarily of plastic in the form of foils for application onto work pieces, semi-finished goods, formed parts, packaging, packaging containers, containers, closure elements and substrates and for surface decoration and surface coating; semi-finished plastic goods in form of foils of plastic or primarily of plastic, particularly for decoration and manufacturing of substrates and work pieces, particularly of plastic or plastic-composite-materials; plastic foils, except for packaging purposes; synthetic resins, semi-processed; bands, sheetings, foils, and sheets as well as semi-finished goods in form of foils of plastic except for packaging purposes, the aforementioned goods particularly for receiving of or already provided with decoration elements, foil layers, printed layers, decor layers, patterns, decors, structures and surface structures; semi-finished plastic goods in form of stamping foils, and transfer foils of plastic or primarily of plastic with decoration elements, foil layers, printed layers, decor layers, patterns, decors, structures and surface structures, all of the foregoing other than for packing or wrapping; semi-finished goods, namely, injection-moulded parts of plastic as functional parts, housing parts and/or covering parts

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Technological consultancy concerning the computer and scientific technology used in surface decoration and surface coating, particularly by means of stamping foils, transfer foils and laminating foils; technological consultancy concerning the computer and scientific technology used in the use and application of foils in surface decoration and surface coating; technological consultancy concerning the computer and scientific technology used in moulding processes and foil application processes as well as plastic flow coating processes in industrial production; technological consultancy concerning the computer and scientific technology used in plastic moulding processes, plastic processing and plastic working as well as paper processing and foil processing; technological consultancy concerning the computer and scientific technology used in industrial manufacturing processes by means of back injection moulding, casting, injection moulding, flow coating, drawing, deep-drawing, coating, printing, rolling, extruding, laminating, pressing, embossing, forming, bonding, punching, trimming, cutting-to-size, cutting-out and thermoforming, particularly concerning plastics and plastic parts; technological consultancy concerning the computer and scientific technology used in application of stamping foils, transfer foils and laminating foils onto housing parts, injection moulded parts, vehicle parts, semi- finished products, work pieces, packaging, packaging containers, containers, closure elements and substrates; technological consultancy concerning the computer and scientific technology used in transfer of patterns, decors, structures, printings, foil layers, decor layers, and surface structures; technological consultancy concerning the computer and scientific technology used in transfer and forming of patterns, decors, structures, printings, foil layers, decor layers and surface structures in industrial manufacturing processes; technological consultancy concerning the computer and scientific technology used in coating processes and concerning transfer processes, particularly foil transfer processes; technological consultancy concerning the computer and scientific technology used in plastics moulding and simultaneous and related forming and transfer of patterns, decors, structures, printings, foil layers, decor layers and surface structures and overlaying of the formed articles with foils and flow coating of the formed articles with plastics; technological consultancy concerning the computer and scientific technology used in the possibilities of use and application of patterns, decors, structures, printings, foil layers, décor layers and surface structures, particularly on goods, housing parts, injection moulded parts, vehicle parts, semi-finished products, work pieces, packaging, packaging containers, containers, closure elements and substrates; industrial design consultancy concerning possibilities of use and application of patterns, decors, structures, printings, foil layers, decor layers and surface structures, particularly on goods, housing parts, injection moulded parts, vehicle parts, semi-finished products, work pieces, packaging, packaging containers, containers, closure elements and substrates; technological consultancy about the computer and scientific technology used in the possibilities of use of decoration elements, foil layers, decor layers, patterns, structures, printings and surface structures, particularly on goods, housing parts, injection moulded parts, vehicle parts, semi-finished products, work pieces, packaging, packaging containers, containers, closure elements and substrates; industrial design consultancy and industrial design services concerning moulding machines, plastics moulding machines and injection moulding machines and their parts, particularly concerning tools and tool inserts, holding devices, moulds, mould parts, mould inserts, dies and extruder heads, deep-drawing moulds, injection moulds and casting moulds, as well as components and parts therefor; development of moulds and tools, machine tools and components and parts thereof for third parties; technological consultancy concerning the computer and scientific technology used in form and mould making; industrial design consultancy and industrial design services concerning form and mould making; design of moulds, mould products and mould product parts; packaging design for third parties; consultancy concerning new product

design and packaging design; engineering services; technical development of machines for the plastics industry, packaging industry, stamping machines, injection moulding machines, moulding machines, printing machines, packaging machines, foil processing machines, foil feeding mechanisms and foil carrying-off mechanisms, material feeding mechanisms and material carrying-off mechanisms, roll-up mechanisms and roll-off mechanisms, material preparation mechanisms, foil preparation mechanisms, foil overlaying machines, laminating machines and of components and controls for such machines; technical computer project management as well as technological consultancy concerning the computer and scientific technology used in set-up, installation, configuration, use and operation of machines for the plastics industry, packaging industry, stamping machines, injection moulding machines, moulding machines, printing machines, packaging machines, foil processing machines, foil feeding mechanisms and foil carrying-off mechanisms, material feeding mechanisms and material carrying-off mechanisms, roll-up mechanisms and roll-off mechanisms, material preparation mechanisms, foil preparation mechanisms, foil overlaying machines, laminating machines and of components and controls for such machines; technical development of equipment and apparatus of industrial automation; technical computer project management as well as technological consultancy concerning the computer and scientific technology used in set-up, installation, configuration, use and operation of equipment and apparatus of industrial automation; installation, maintenance and servicing of computer firmware and of control computer programs for machines

RELATED PROPERTIES INFORMATION

International Registration 1705468 **International Registration Date** Dec. 09, 2022

GOODS AND SERVICES INFORMATION

For Racking structures of non-metallic materials for supporting pipes

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For Pipe support sleeves of plastic

International Classes 20 - Primary Classes **US Classes** 2, 13, 22, 25, 32, 50 **International Class Title** Furniture and Articles Not Otherwise Classified

For non-metallic fittings for pipes; non-metallic pipe sleeves being fittings for pipes

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Pipe support sleeves of metal

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

GOODS AND SERVICES INFORMATION

For Electric and electronic contact and connection elements in the nature of electric and electronic connectors; contacts, electric; high-current contacts; high voltage contacts; low current contacts; low voltage contacts; electric contact pins in the nature of electric connections; joining units in the nature of electric contacts ; electrical and electronic component in the nature of electrical connections and electronic components for computers; plug-in connectors; electrical connectors; electric pin and socket connectors in the nature of electric connectors; overmoulded electric plug connectors; sealed electric plug connectors; plugs for electric connecting lines; data electronic connectors; plug-in connectors for buses; industrial plug-in connectors; automotive plug-in connectors; prefabricated plug connections, mounted plug-in connectors; individually developed plug-in connectors; soldered plug-in connectors; crimped plug-in connections; welded electrical and electronic connectors; electrical cord sets consisting of electrical power extension cords; electric, electronic and electro-mechanic components, namely, plug-in connectors; electric connections, namely, plug-in connectors, plugs in the nature of male connector, electric couplings in the nature of female connectors, prefabricated with cables and customisable; electrical cabling in the nature of electrical cables; cable connector housings; electrical connector housings; electric cords; protective caps as parts of cable junctions for electric cables, not included in other classes; instruments and regulators and parts and components thereof, not included in other electric sensors and motion detectors and replacement parts and components thereof, not included in other classes; electric and electronic sensors and replacement parts and components thereof, not included in other classes, namely, electric and electronic sensors for measuring angles, rotary angles, rotary speed, tire tread depth wear, distance, displacement in the nature of length, fill level, force, speed, revolutions per minute, pressure; electronic proximity sensor and switches; sensors for measuring angles, rotary angles, rotary speed, tire tread depth wear, distance, displacement in the nature of length, fill level, force, speed, revolutions per minute, pressure and replacement parts and components thereof, not included in other classes; sensor electric cables and sensor electric plugs; electric and electronic regulating and control equipment in the nature of electrical controllers

and replacement parts and components thereof, not included in other classes; photoelectric sensors; photovoltaic apparatus in the nature of photovoltaic modulesand replacement components therefor, not included in other classes, for electricity generation; supervision and connection units, not included in other classes, for electricity generating photovoltaic installations for generating solar electricity and components therefor, not included in other classes, namely, solar modules for production of electricity, solar thermal and electric receivers, tracking mechanisms and concentrating optics, and control algorithms; apparatus, equipment and instruments for the conducting, switching, converting, storage, regulating and controlling of electricity, namely, electric cables and ,electric contacts, electrical and electronic connectors, plug-in connectors, electric plugs in the nature of male connector, electric couplings in the nature of female connector, electrical connector housings ; instruments, measuring apparatus and instruments, signalling apparatus and instruments, checking supervision apparatus and instruments and parts and components thereof, not apparatus, equipment and instruments for conducting, switching, transforming, storing, regulating or controlling electricity and electric and electronic signals, in particular electric and electronic cables, plug-in connectors, electrical connector housings, and electric and electronic connectors; electric and electronic function assemblies, namely, integrated electronic components for power line transmission machines and apparatuses and wireless communication devices for data transmission; electronic publications, downloadable, in the nature of books in the field of electricity generation; all aforesaid goods for the automotive industry

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Custom manufacture and contract manufacturing of stamping and bending parts, stamping and bending parts of metal and of metal alloys, stamped bending parts of metal alloys, uncoated and coated stamped and bent parts and inserts of metal alloys, uncoated and coated components, stamping, stamped bent parts and insert parts of metal alloys for use in the fields automotive, electronics and telecommunications; custom manufacture and contract manufacturing of electric and electronic contact and connecting elements, electric contacts, high- current contacts, high-voltage contacts, low-current contacts, low-voltage contacts, electric contact pins, connectors in the nature of electric contacts, electric and electronic components, connectors, electric plug connectors, electric plug connections, overmoulded electric plug connections, as well as sealed electric plug connections; custom manufacture and contract manufacturing of plugs for electric connecting lines, data connections, plug connections for buses, industrial plug connections, automotive plug connections, prefabricated plug connections, mounted plug connections, individually developed plug connections, soldered plug connections, crimped plug connections, welded plug connections, cable sets, as well as electric, electronic and electromechanical components; custom manufacture and contract manufacturing of plug-in connectors, bushings, plugs in the nature of electric male connectors, couplings in the nature of electric female connectors, prefabricated with cables and customisable, electric cables, electric cable connector housings, housings for electric apparatus, electric conductors, protective caps for hose fittings, weighing, measuring, signalling, inspecting apparatus and instruments and regulators and their parts and fittings, as well as sensors and detectors and their parts and fittings; custom manufacture and contract manufacturing of electric and electronic sensors and their parts and fittings, sensor switches, sensors for measuring angles, rotary angles, rotary speed, wear, distance, displacement, fill level, force, speed, revolutions, condition and pressure and their parts and fittings, as well as sensor cables, sensor plugs; custom manufacture and contract manufacturing of electric and electronic regulating and control apparatus and their parts and fittings, photoelectric sensors, photovoltaic devices and their components, for electricity generation purposes, of electric and electronic control, monitoring, measuring, signalling, inspecting and connection units for electrical energy generating installations, in

particular for the field of renewable energies, as well as photovoltaic installations and their components; custom manufacture and contract manufacturing of apparatus, equipment and instruments for conducting, switching, converting, storing, regulating and controlling electricity, especially, cables, electric and electronic contact and connecting elements, electric contacts, connectors, bushings, plugs in the nature of electrical male connectors, electric couplings in the nature of female connectors, electric connector housings, electric and electronic components; custom manufacture and contract manufacturing of electric and electronic control, monitoring, measuring, signalling, inspecting and connection units for electrical energy generating installations, in particular for the field of renewable energies, of electric and electronic contact elements and connecting elements, electric contact pins, connectors in the nature of electric contacts, electric plug connectors, as well as overmoulded electric plug connectors; custom manufacture and contract manufacturing of soldered plug connectors, crimped plug connectors, weighing, measuring, signalling, inspecting apparatus and instruments and parts and fittings thereof, sensors for measuring angles, rotary angles, rotary speed, wear, distance, displacement, fill level, force, speed, revolutions, condition and pressure and parts and fittings thereof; custom manufacture and contract manufacture of apparatus, devices and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity and signals, especially, cables, connectors, housings, electric and electronic components, electric and electronic function assemblies including integrated electronic components for power transmission and data transmission being fixed line and wireless; treating of metal, namely, metal stamping; treating of metal, namely, forging of metal goods to the order and specification of others; metal stamping; metal pressing in the nature of metal stamping; metal treating by bending and shaping; ; Metal treating, namely, metal plating punches of metal and metal objects

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Scientific and technological services, namely, scientific research and engineering design in the field of automobiles, electronics, and telecommunications;scientific research in the nature of industrial analysis and research services; product research and development services; engineering consultancy and construction drafting and design of engineering products

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

CASE IDENTIFIERS

Serial Number 90853679 **Application Filing Date** Jul. 28, 2021 **Register** Principal **Mark Type** Trademark **Publication Date** Nov. 14, 2023

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 2 - AN ILLUSTRATION DRAWING WITHOUT ANY WORDS(S)/ LETTER(S) **Description of the Mark** The mark consists of three concentric circles.

GOODS AND SERVICES INFORMATION

For Pedestals for use in mounting backup batteries; winding spools, not of metal, non-mechanical for fiber optic cable **International Classes** 20 - Primary Classes **US Classes** 2, 13, 22, 25, 32, 50 **International Class Title** Furniture and Articles Not Otherwise Classified **First Use** Dec. 2019 **In Commerce** Dec. 2019

For Coaxial and fiber-optic cable connectors; cable connectors; Communications equipment, namely, coaxial and fiber cable connectors, hardline coax connectors, coaxial cables, fiber optic cables, aerial fiber cables, coaxial and fiber cable terminators, drop cable connectors and jumpers, coaxial and fiber cable extenders, male and female cable splice adapters, pre-terminated cables, pre-assembled cables with connectors on each end; coaxial cable connector security shields and radio frequency filters; fiber optic enclosures; cable traps being electronic circuits; cable filters being optical filters; nonmetal protective covers and caps for cable connectors or terminators; Hardware for telecommunications fiber optic networks, namely, passive optical multiplexers and couplers, optical splitters, optical line terminals, aerial/underground drops being cable connectors, central processing units, gateway router, and network cards; signal splitters; signal amplifiers; amplifiers and splitters for wireless and non-wireless communications; Enclosures, terminals, cabinets, shelves, and distribution boxes specially adapted for housing optical fiber, electrical, and telecommunications equipment and hardware; Fiber optical cable jumpers, fiber optic cable assemblies, namely, flat manifolds and duplexers; communications equipment, namely, wavelength and signal testers; high speed Ethernet cables; Headend cable connectors and headend connection cables; Fiber optic networking hardware for the aggregation, routing, switching, and transmission of voice, data and video signals; End to end products for high speed media agnostic signal delivery, namely, termination blocks, copper and fiber cable distribution terminals, premise distribution terminals for copper and fiber cables, and premise broadband distribution adapter modules; raceways for fiber optic cables, patch panels for housing fiber optic connectors; Apparatus for routing, connecting, and terminating fiber optic cables, namely, protective sheaths for fiber optic cables; category and twisted pair cables being telecommunication cables; jumpers for category and twisted pair cables; cabinets specially adapted to protect telecommunications equipment in the nature of fiber

optic cables; telephone transmission equipment, namely, repeater housings, repeater mount shelves, signal repeaters, fault locator filters, splice testing devices, test access cards, extender cards, gas tube protectors and test cords; indoor and outdoor electronic equipment cabinets and enclosures specially adapted to house and protect electronic equipment for the telecommunications, security, rail, utilities, aerospace, data center industries, and alternative energy industries, namely, telecommunications equipment, security equipment, rail equipment, utilities equipment, aerospace equipment, alternative energy equipment, and data center equipment; mounting components for electronic equipment enclosures and cabinets, namely, mounting brackets specially adapted for mounting electronic equipment; electrical outlets; alarms for detecting intrusion, power loss, and temperature, and alarm reporting devices being acoustic alarms; AC circuit breaker load centers being circuit breaker panel boards ; ; AC and DC voltage surge suppressors; DC electrical power system supplies, fuses, controllers, and breakers; rectifiers; DC-DC voltage converters; power inverters; electric generator connectors and switches, namely, cable connectors and power switches ; battery hookup cables; DC backup battery; AC UPS systems to provide backup power, consisting of batteries, flywheels, chargers, converters, inverters, and rectifiers; data line surge protection panels; copper cross electrical connectors; patch panels for housing fiber optics; fiber optic components, namely, fiber optic patch cords, fiber optic pigtails, and fiber optic cables; cases and enclosures specially adapted to house copper and fiber splices

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus **First Use** Nov. 20, 2007 **In Commerce** Nov. 20, 2007

For Non-metal weather and port seals for cable connectors

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods **First Use** Nov. 20, 2007 **In Commerce** Nov. 20, 2007

For Pole line hardware, namely, metal hooks, metal brackets, metal fasteners, metal braces, metal straps, and metal pole guards for cable lines; bonding and grounding hardware for pole lines, namely metal clips and metal clamps

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods **First Use** Nov. 20, 2007 **In Commerce** Nov. 20, 2007
