For Electronic checking devices, namely, medical diagnostic devices and medical analytical devices for medical purposes; disposable electronic instruments, namely, lab-on-a-chip medical diagnostic sensors having electrically-conductive, semi-conductive, or insulating properties; electronic checking devices, namely, medical diagnostic devices and medical analytical devices, antennae and batteries

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Newspapers, periodicals, books and manuals; instructional, training and teaching materials; all in the fields of the design and/or use of materials and machinery for the preparation of electronic circuitry components by solution deposition, surface energy patterning, surface modification and/or printing of materials, the printing including ink-jet printing, bubble-jet printing, lithographic printing, soft lithography, pad printing and micro-embossing, and conformal printing on non-planar surfaces, and the materials being polymers, organic molecules, or solution-processed inorganic materials, having electrically conductive, semi-conductive or insulating properties, and/or to the design of such circuitry

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Machines for the construction and fabrication of electrical and electronic circuitry; machines for the deposition onto a surface of plastics and/or non-plastics in the form of powders, liquids or pastes, in the field of preparation of electronic circuits; machines for the printing onto surfaces of materials for the preparation of electronic circuitry components, including transistors and other semi- conductor devices, the machines using the techniques of solution deposition, surface energy patterning, surface modification, ink-jet printing, bubble-jet printing, lithographic printing, soft lithography, pad printing or micro-embossing, or conformal printing on non-planar surfaces; machines for the thermal or optical annealing of solution- deposited electrical and electronic circuitry

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Chemicals used in industry and science; polymers having electrically conductive, semi-conductive or insulating properties for the preparation of electronic circuitry components by solution deposition, surface energy patterning, surface modification and/or printing; organic molecules and solution processed inorganic materials, namely, polymers used in the preparation of electronic circuitry components by solution deposition, surface energy patterning, surface modification and/or printing, including ink-jet printing, bubble-jet printing, lithographic printing, soft lithography, pad printing and micro-embossing, and conformal printing on non-planar surfaces

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Electrical and electronic apparatus and instruments in the nature of semiconductor devices; transistor circuits, active electronic circuits, passive electronic circuits, and the components thereof, namely, capacitors, inductors and resistors, all being constructed from polymers, organic molecules and solution-processed inorganic materials having electrically-conductive, semi-conductive or insulating properties; organic transistors; organic LEDs; active matrix LCD displays, transparent LCD displays, electronic paper displays being a sheet on which text or images may be shown, electronic LED signs, electronic tags for goods, electronic labels carrying magnetically, optically, or electronically recorded or encoded information; blank smart cards, volatile and non-volatile electronic memories, electronic sensors, namely, electronic touchscreen sensors, electronic biometric identification sensors, touch sensors, image sensors, pressure sensors, x-ray sensors, biometric sensors, gas sensors, and chemical sensors; wearable electronics, namely, wearable digital electronic devices comprised primarily of software and display screens for viewing, sending and receiving data and information from other electronic and wireless devices; transparent electronics having electrically-conductive, semi-conductive, or insulating properties, namely, transparent electronic display screens, transparent touchscreen sensors, transparent biometric identification apparatus, transparent pressure sensors; computer-readable databases, namely, electronic databases in the field of materials and machinery for the preparation of electronic circuitry components by solution deposition, surface energy patterning, surface modification and/or printing of materials recorded on computer media; computer-readable information storage devices, namely, semiconductor computer memory chips and blank magnetic and optical computer tapes and disks

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Licensing of patents and know-how for the preparations of electronic circuitry components, namely, a complete process recipe for manufacturing flexible transistors onto plastic sheets, including the design and layout of the transistor itself, deposition of organic semiconductor and dielectric layers, the deposition of conducting layers, and patterning of one or more of these layers using photolithography and printing techniques

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For The custom manufacture of electronic components, namely, semiconductor devices, transistors, electronic circuits, electronic display screens, touchscreen sensors, biometric identification apparatus, electronic tags, transparent electronics having electrically-conductive, semi-conductive, or insulating properties, namely, transparent electronic display screens, transparent touchscreen sensors, transparent biometric identification apparatus, transparent pressure sensors; custom fabrication for others of semiconductor components and devices, namely, semiconductor devices, transistors, electronic circuits, electronic display screens, touchscreen sensors, biometric identification apparatus, electronic tags, transparent electronics having electrically-conductive, semi-conductive, or insulating properties, namely, transparent electronic display screens, transparent touchscreen sensors, transparent biometric identification apparatus, transparent pressure sensors; custom fabrication for others of electronic circuits using such semiconductor components and devices; the preparation of electronic circuitry, and of components therefor, by solution deposition, by surface energy patterning, namely, varying the wettability of a surface with different surface coatings or treatments, thereby allowing solvents or solutions to preferentially coat some regions of a surface but not others, by surface modification, namely, varying the wettability of a surface with different surface coatings or treatments, thereby allowing solvents or solutions to preferentially coat some regions of a surface but not others, and by the printing of materials, including ink-jet printing, bubble-jet printing, lithographic printing, soft lithography, pad printing and micro-embossing, conformal printing on non-planar surfaces, screen printing, slick coating, slot dye coating, and flexographic printing, using polymers, organic molecules, or solution-processed inorganic materials, having electrically conductive, semi-conductive or insulating properties; Technical support services, namely, providing technical advice related to the manufacture of materials and machinery for the preparations of electronic circuitry components by solution deposition, by surface energy patterning, namely, varying the wettability of a surface with different surface coatings or treatments, thereby allowing solvents or solutions to preferentially coat some regions of a surface but not others, by surface modification, namely, varying the wettability of a surface with different surface coatings or treatments, thereby allowing solvents or solutions to preferentially coat some regions of a surface but not others, and by the printing of materials, including ink-jet printing, bubble-jet printing, lithographic printing, soft lithography, pad printing and micro-embossing, conformal printing on non-planar surfaces, screen printing, slick coating, slot dye coating, and flexographic printing, using polymers, organic molecules, or solution processed inorganic materials, having electrically conductive, semi-conductive or insulating properties

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 5 - AN ILLUSTRATION DRAWING WITH WORD(S) /LETTER(S)/ NUMBER(S) IN **Description of the Mark** The mark consists of a gold colored arch that appears as a gold crown at the top of the image. Below the crown is a picture of a Man with long black hair. The man is looking to the right. The man's face is in a dark gold circle, and his face appears to be silhouetted in a light and dark gold color. To the left and right of dark gold circle with the depiction of the man are gold sheets that are folded. Below the man is the inscription "INCA" in white ink. Below the "INCA" inscription is "Secret Blend" in gold cursive writing. Perpendicular to the "INCA" "Secret Blend" inscription are the word "PERU" in gold between red lines on both the right and left sides of the "INCA" "Secret Blend" inscription. The backdrop of the inscription is black with green lines stemming from the gold arch in the center of the image. The gold arch has the inscription "100%" to the left of it in white font, and "PURO" in white to the right of it. The gold arch has a light blue and gold depiction at its apex. There are two gold arches below the larger gold arch. The two gold lines that make up the gold arches are not solid gold semi-circle like the outermost gold semi-circle. But gold dots that make a gold semi-circle. There is a black semi-circle below these three gold semi-circles, and it contains streaks of green. Then below the black semi-circle there is a red semi-circle with a shade of blue at its apex. Then below that is a blue semicircle with gold lines in it. Below the arches are 5 gold circles with images in them. The middle circle is the depiction of a gold star. To the right and left of the middle circle are two gold circles with South American depictions. To the right of the gold circle are a Nazca line image in gold, and the furthest circle to the right appears to be an ancient symbol in gold. The Images to the left of the center gold circle are a man in gold, and the furthest left is another ancient symbol in gold. There is also the statement "RICH.SMOOTH.SATISFYING" in white on the bottom right and left. Behind the black circle with gold framework are gold and white rays that form a latticework. Gray is not being claimed as color feature of the mark, but is a part of the background, outline, shading, and/or transparent areas and are not part of the mark. White will be claimed as part of the mark, specifically with "INCA", "100%", "PURO", and "RICH. SMOOTH. SATISFYING." being written in white font. White coloring found anywhere else is background, outlining, shading, and/or transparent areas and are not part of the mark. Black is being claimed as part of the mark in the

area of the man's long hair at the top of the mark. Black is also being claimed in the areas to the left and right of the green lines stemming semi-circles towards the center of the mark, and it is enclosed by the gold outlining encompassing the "Peru" on both sides of the mark, and the area above the gold circles, and below the picture of the man. All the areas of the mark that contain black outside of the gold outline are considered background, outlining, shading, and/or transparent areas and are not a part of the mark. **Color Drawing** Yes **Color Claimed** The color(s) white, gold, green, red, blue, and black is/are claimed as a feature of the mark. **Disclaimer** "100% PURO", "PERU" AND "RICH. SMOOTH. SATISFYING" **Translation** The English translation of "Puro" in the mark is "Pure". **Name Portrait Consent** The name(s), portrait(s), and/or signature(s) shown in the mark does not identify a particular living individual.

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of four fish drawn using irregular and rustic lines. On the fish are various sized dots, lines and irregular shapes reminiscent of certain elements of African and Indian art. The fish furthest to the left is the largest fish and it is facing left. The second fish is slightly smaller and follows behind the first. The third fish is slightly smaller than the second fish and immediately follows the second fish, but the third fish appears to be looking behind itself. Above the first three fish, and further to the right, there is another fish. This fourth fish is smallest of the four and is facing in the opposite direction of the other three fish. Three bubbles of different sizes are seen just above the smallest fish, which appears to have a smile on its face. Just below the three fish that are swimming in the same direction are the words "KIDS THESE DAYS" written in an irregular and rustic font. **Color Claimed** Color is not claimed as a feature of the mark.
