Re: Docket No. PTO-P-2019-0024

As an inventor with over 150 issued U.S. patents, I am in favor of amending the rules in 37 CFR Part 42 to eliminate the presumption in favor of the petitioner for a genuine issue of material fact created by testimonial evidence submitted with a patent owner's preliminary response when deciding whether to institute an IPR, PGR, or CBM review.

Thank you,

Kenneth (Ken) Stanwood
