For Electric and electronic apparatus and instruments, all for the receiving, transmitting, storing, relaying, inputting or outputting of data; Digital central office switching systems for transmitting and receiving data, namely, telephone and data exchanges, private branch exchanges; [telephones, telephone and data exchanges,] private branch exchanges (PBX), telephones; [asynchronous transfer mode switches, packet switching systems, fiber-optic transmission systems, digital transmission systems, multiplexers, submarine cable systems, namely, submarine cables; CATV(Cable Television) systems comprising electric and electronic cables, transmitters, receivers and transceivers used in the transmission of video, audio and data, cable televisions and antennas; teleconferencing systems comprising televisions and radios used in the transmission of video, audio and data; mobile communication systems, namely, cordless telephones, cellular phones and mobile phones; microwave communication systems comprising transmitters, receivers and transceivers used in microwave communications;] satellite communication systems comprising satellite - mounted and ground support communications equipment; [laser communications equipment, namely, transmitters, receivers and transceivers used in satellite and laser communications;] television and broadcasting equipment, namely, transmitters, receivers and transceivers used in broadcasting; [video and studio equipment, namely, videos, cameras and equalizers, cable broadcast transmission machines and apparatus; optical transmitters and receivers; auto loudness controllers; voice limiter compressors; loudness meters; computer audio interface and remote controllers; network audio transmitters; network audio receivers; network audio interface and switch boxes; video servers; automatic program control system consisting of video servers, switches; electronic circuit components and electromagnetic structures for selective frequency control within the electromagnetic spectrum, namely, crystal-controlled oscillator circuits, transducers and electromechanical switches, coaxial and wave guide switches and telecommunications power signal routing switches;] cameras; [FPU(Field Pickup Unit) for use in terrestrial digital broadcasting; digital terrestrial broadcasting transmitting apparatus; digital audio and video receivers, IPTV (Internet protocol TV) set top boxes, digital

receivers for receiving cable television, digital receivers to receive terrestrial television using format ATSC (Advanced Television Systems Committee), digital receivers to receive terrestrial television using format DVB-T (Digital Video Broadcasting - Terrestrial), digital receivers to receive terrestrial television using format ISDB-T /SBTV (Integrated Services Digital Broadcasting/ Brazilian Digital Television System) and satellite digital receiver; radio transmitting apparatus; aircraft and space electronic equipment, namely, artificial satellites; rocket guidance and control equipment, namely, rockets; radio navigation and radar equipment, namely, radars and automatic flight navigators; defense electronic systems, namely, warning buzzers; mobile and portable radio equipment, namely, portable telephones, pagers, smartphones, cellular phones, mobile phones, personal digital assistants (PDAs), facsimile machines, facsimile machines; key telephone systems comprised of communication controller unit,] cordless telephone sets, [computers, computer hardware, electronic computers, mainframe computers, small business computers, personal computers, laptop computers, tablet computers, notebook computers, car navigation computers,] supercomputers; [workstations comprising computers and computer servers, computer workstations; computer software for use in computer graphics, interactive video and virtual reality; graphic user interface software; computer software in the field of energy consumption for use in tracking, monitoring, controlling and managing energy consumption; computer software for use in controlling, managing, and monitoring power storage systems; computer hardware and software used for the control of voice controlled information and communication devices; computer software for use in controlling, managing, and monitoring computer systems and networks; computer software for use in exchanging, distributing, transmitting, sharing, receiving, downloading, displaying, transferring, uploading, editing, collecting, managing, sending, organizing and storing data, information, software applications and geographical and location information;] computer software for use in transmitting, accessing, organizing and managing of text messaging, instant messaging and text; [downloadable software in the nature of a mobile application for social networking;] computer software for software defined networking (SDN), namely, for implementing a computer network protocol that facilitates the control of network switches, routers, firewalls, and wireless access points; [computer software for software defined networking (SDN), namely, for enabling the access to computer network services through external programming interfaces; computer software for arranging paperless meetings;] computer software that allows multiple users to view, edit, discuss and manipulate documents via local and global computer information networks; [computer software for use in controlling the operation and execution of computer systems, programs, and networks; computer software, namely, a set of computer systems, namely, pre-integrated and optimized computer processors, storage servers, network equipment and computer peripherals; computer software for data management for computer goods;] computer software for use in connecting disparate computer networks and systems; [software for controlling robotics and robots; computer operating system software; computer software for linking together computers and for enabling computing across a globally accessible network; computer software for use in developing computer programs, computer applications and computer software architecture; computer software for managing hardware, software and processes that exist within an information technology environment; computer hardware and computer software for use in database management, for use in transaction processing, and for use in the operation and execution of applications and system management, namely, a family of computing systems, namely, pre-integrated and optimized computer processors, storage servers, computer networking hardware and peripherals;] computer hardware and computer software for virtualization; [computer software for data management; computer hardware and computer software, namely, computer infrastructure systems, computer architecture platform systems, and computer network business systems and software for providing built-in expertise, integration and tuning for a particular workload, and delivery of a simplified user experience; computer application software for use in organizing and viewing digital images and photographs for computers, portable computers, mobile phones, cellular

phones, smart phones and mobile hand held devices;] computer software for recognizing and analyzing images; [computer software for providing detailed information on a wide range of subjects that appear in photos taken with mobile devices; computer software to receive, transport, encode, decode, decrypt, encrypt, transmit, multiplex, de-multiplex, and manipulate video and other data in digital format to deliver television and other video programming to appropriate video devices for distribution of television programming for viewing on television sets;] computer software for biometric systems for the identification and authentication of persons; [Computer software and analysis devices for use in measuring and analyzing affinity evaluation of nano-bio interface, computer software and analysis devices for use in modeling of peptide-silica interaction based on four-body corrected fragment molecular orbital (FMO4) calculations; computer software for workflows, and shared workspaces for the purposes of product lifecycle management (PLM), collaboration, configuration and change management, requirements management, and manufacturing planning; computer hardware and software used for processing electronic money transactions; computer software for electronic money management, accessing bank account information, and bank transactions, namely, computer software for use with integrated circuit chips, chip cards, and chip card reading devices, namely, smart card readers, radio frequency identification readers and biometric optical readers; computer software for use in voice recognition; computer peripherals and terminals, computer peripheral devices, keyboards, computer keyboards, computer mouse, mouse pads, word processors, printers, computer output printers,] servers, computer servers, [computer operating systems, comprised of multiple servers, motherboards and storage units,] memory cards, [hard drives, SCSI cards, disk storages, disc storage containers, hard disk drives (HDD), CD-ROM drives, CD-Recordable drives, CD-Rewritable drives, DVD-ROM drives, Rewritable DVD drives,] monitors, computer monitors, projectors, multimedia projectors, displays, computer displays, [computer display panels, color plasma display panels, head-mounted video displays, computer networking hardware,] computer network switches, [computer network hubs, modems, routers, computer network routers, optical disk players, power supplies and system cooling fans, CAD/CAM and CAE systems,] automated fingerprint identification system, biometric device for providing identification and/or authentication of persons; optical sensors for the identification and authentication of persons; fingerprint [and/or finger vein] scanners; fingerprint [and/or finger vein] imagers; fingerprint [and/or finger vein] authentication system; [scientific equipment, instruments and apparatus, namely, peptide and other protein sequences synthesizers, automated sample management equipment and data collection computer hardware for use therewith and operating computer software, all for use in the field of primary medical, biological and chemical research and analysis; medical electronic equipment, namely, computerized axial tomography scan; telemetry and remote control systems, namely, remote control and remote sensing machines; communication network control systems, namely, network hubs and network routers, building automation systems, educational electronic equipment, namely, computers; postal automation systems, namely, computer hardware and software for postal automation, computerized numerical control equipment, underwater ultrasonic application equipment, semiconductor manufacturing equipment and vacuum equipment, measuring and testing systems, memories, computer memories, microcomputers, gate arrays, semiconductors, integrated circuits (ICs), integrated circuit chips, integrated circuit modules, integrated circuit packages, hybrid integrated circuits (HICs), blank IC cards; blank integrated circuit tags ("IC tags"); interposers for use with computer chips, circuit boards, electronics, electronics testing equipment, and other electronic components, application specific integrated circuits (ASICs), large scale integration (LSI), large scale integrated circuits, memory modules, read only memories (ROMs), random access memories (RAMs), static random access memories (SRAMs), dynamic random access memories (DRAMs), programmable read only memories (PROMs), erasable programmable read only memories (EPROMs), electrically erasable programmable read only memories

(EEPROMs), field programmable read only memories (FPROMs), central processing units (CPUs), charge-coupled devices (CCDs), transistors, gallium arsenide field-effect transistors, diodes, light emitting diodes (LEDs), color display tubes, fluorescent indicator panels, electroluminescent lighting panels,] liquid crystal displays (LCD); [light emitting diode displays, printed wiring boards (PWBs), electronic tuners, laser application equipment, namely, lasers, capacitors, condensers, electric relays; fiber optic repeaters; wireless computer network, and ethernet repeaters amplifiers, transmitters of electronic signals; electric cables; electronic connectors in the nature of hermetic seals electron tubes, gas lasers, electric resistors; variable resistors, electrical connectors, EMC (electromagnetic compatibility) components, namely, capacitors, inductors, coils, chip beads, varistors, and electromagnetic shield materials; ferrite cores; high-frequency electromagnetic noise suppressor;] sensors, namely, [magnetic direct current sensors,] temperature sensors; [pyroelectric infrared sensors, infrared sensors, current sensors and magnetic sensors; electric switches, namely, temperature responsive reed switches;] apparatus for analyzing digital images; [transceiver modules; encoders; codecs, namely, video codecs, universal codecs, audio codecs and voice codecs; converters; television receivers, direct broadcasting satellite receivers, extended-definition television and radio receivers, video cassette recorders, compact disk players, surround amplifiers/decoders, video game units, kitchen timer; kitchen scales; batteries;, glow switches, starters for fluorescent lamps and glow lamps; parts and fitting for all the aforesaid goods;scientific, nautical, surveying, electric, photographic, cinematographic, optical, weighing, measuring, signaling, checking (supervision), life-saving and teaching apparatus and instruments, namely, cameras, video cameras, optical drives, weighing apparatus and instruments, calculating machines and data processing equipment, sonar equipment and computers, apparatus for recording, transmission or reproduction of sound or image: blank magnetic data carriers, blank recording discs, blank digital video discs and optical discs,pre-recorded audio, visual and video image digital video discs and optical discs:: cash registers, calculating machines, data processing equipment, namely, computers, computer mice, scanners and calculating machines, fire-extinguishing apparatus; radios; MP3 players; headphones; computer interface boards; interfaces and peripheral devices for computers; computer network interface devices; electronic blackboards; bar code scanners; cash registers, namely, calculating machines and data processing equipment; automatic cash registers;] electronic equipment for point-of-sales (POS) systems, namely, point-of-sale terminals; [bar code readers, optical readers, advertisement display monitors, keyboards, printers, scanners, radio transmitters, radio receivers, computer hardware, and computer operating software; mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for collection and management of data; mobile data terminal (MDT);] wireless communication device featuring voice [, data and image] * and data * transmission including voice [, text and picture] * and text * messaging; [a video and still image camera, also functional to purchase music, games, video and software applications over the air for downloading to the device; electric measuring devices, namely, electronical sensors for measuring and analyzing wide band spectrogram, electric frequency meters, spectrum analyzer for analyzing, recording, measurement and displaying of the invisible waves/signals and wide band spectrogram throughout the electromagnetic, sub audio, audio, radio-frequency, and microwave RF Spectrum, namely, optical spectrum analyzer,] computing equipment, namely, computer storage apparatus; computer storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; [electronic apparatus for recording, transmitting and reproducing sound and images; wireless controller to monitor and control the functioning of other electronic devices;] devices for wireless radio transmission; [radio frequency identification (RFID) credentials, namely, cards and tags, and readers for radio frequency identification credentials; electronic hardware for interfacing a computer with near field communication devices, namely, RFID tags, RFID stickers, RFID cards, RFID readers, smart card readers, and NFC readers, namely, near field communication (NFC) technology-enabled readers; communications devices, namely, radio

transceiver modules for 900 MHz, FHSS, GSM, 1xRTT, LTE and ZigBee, POTS modem and ethernet; modules for use in near field communication; infrared cameras; batteries, battery chargers and battery boxes; batteries and battery chargers for use in electric cars; accumulators,] lithium-ion batteries, rechargeable batteries, [battery packs, battery modules,] electrical storage batteries, rechargeable storage batteries [, battery cells, electrodes; electric power storage systems; energy storage and supply systems comprised primarily of electric storage batteries and power supplies; power-supply machines and apparatus, namely, electrical power supplies, electrical storage batteries, charge controllers and inverters, power distributing boxes and power cables; visualizers and indicators, namely, electrical devices for use in visualizing electric power consumption; robots for personal or educational or hobby use and structural parts therefor; robots for entertainment use and instructional manuals sold as a unit therewith]

For Computer programming; [computer programming for others;] interconnection of computer hardware and software, namely, integration of computer systems and networks; [downloading, installation and maintenance of security software applications, software applications for screening and blocking unwanted e-mail, and software applications for parental controls of Internet activities provided by communication devices, e-mail, and on-line via the Internet;] computer services, namely, monitoring, regulating [, and analyzing] computer; [and internet usage for others, and generating reports regarding same; computer services, namely, providing information concerning the encryption and authentication of electronic data, namely, authentication of e-mail and documents;] encryption [and decryption] of data and communications; computer services, namely, integration of private and public cloud computing environments; [computer services, namely, cloud hosting provider services; computer services, namely, platform as a service (PAAS) featuring computer software platforms for use in computer network management and monitoring, for alerting and reporting on computer network status, for computer network configuration backup, for updating computer network firmware, for assessment and inventory of networked devices, and for monitoring and management of security, wireless, voice and video networks;] computer services, namely, remote [and on-site

] management of virtual private or public cloud (VPC), VPC networks, VPC environment, VPC infrastructure, thin client, cloud client, phones, PDA, VOIP systems, tablets, notebooks, desktops, servers, printers, routers, storage and security appliances, operating systems, virtual servers, mail servers, web servers, application servers, file and print servers, data center servers, storage servers, remote access servers, social media servers, managed services, remote management and monitoring, helpdesk, NOC services, business continuity, offsite or remote backup, business applications, ERP, anti virus, antispyware and anti- malware systems of others; [Provision of computer programs via local and global computer information networks, namely, providing temporary use of non-downloadable computer software for use in network security over computer networks, intranets and the internet; providing temporary use of non-downloadable database management computer software programs via the global information networks; providing temporary use of non-downloadable computer software for recognizing images; providing temporary use of non-downloadable computer software for providing detailed information on a wide range of subjects that appear in photos taken with mobile device;] providing temporary use of non- downloadable computer software for biometric systems for the identification and authentication of persons fingerprint [and/or finger vein] authentication system; [providing on-line non-downloadable software in the field of business process management for use by manufacturers; providing temporary use of on-line non- downloadable software applications, namely, monitoring social networking sites, providing a filtering mechanism on internet searches separating desired results from unwanted and inappropriate websites, providing a parental control function on obscene and inappropriate websites; providing on-line, non-downloadable, Internet-based software application for medical billing for physicians and health care institutions; providing on-line non-downloadable software in the field of data management software, namely, database management software for organizing, synthesizing and collecting data from the manufacturing plant floor for use by manufacturers; providing on-line non-downloadable software in the field of decision support software to aid in the factory floor decisions of personnel for use by manufacturers; providing on-line non-downloadable software in the field of manufacturing plant floor management, namely, software used to integrate and configure the existing manufacturing execution system (MES) data of a manufacturing plant with upgraded plant floor management software; providing on-line non-downloadable software in the field of manufacturing plant floor management, namely, software used to identify and evaluate the root causes of process variation that provides real time information to plant floor personnel to avoid the manufacture of defective products; providing on-line non-downloadable software in the field of manufacturing plant floor management in the fields of plant efficiency, plant assessment, plant optimization, and virtual plant modeling;] providing a website featuring a wide variety of topics of general interest to consuming public, business and private institutions via web sites on global computer networks; [technical services and technical consulting services for creating, designing and maintaining web site for others,] technical services and technical consultation for computer programming and computer hardware; computer software consulting services; [consultancy in the field of computer hardware, namely, consultancy regarding computer research and development;] scientific and industrial research, namely, research and development of new products; [biological research, technical research in the field of a computer system that integrates natural language processing (NLP), computational linguistics (CL), machine learning (ML), and information retrieval (IR), including text analysis, pattern recognition and image analysis and which is capable of understanding general human queries and formulating responses, and scientific research for medical purpose; computer systems integration services; consultancy in the field of design of computer programs for unified communication services;] consultancy in the field of ICT infrastructures; computer consultation services; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; [technological research, design and consulting services in the field of electrical power storage technologies, electrical power storage distribution, electrical power discharge technologies and electrical power

discharge distribution;] technical computer consulting services and technical consultation for [computer programming and] computer hardware; [computer consultation in the field of computer security; computer consultation services of information and communication technology (ICT) specialists for facilitating of data traffic and for providing access to networks and data bases;] consulting services in the fields of computer network support, the use and operation of computer software, systems analysis and integration, installation of computer networks, computer security and the planning, design, and optimization of computer network systems; [consulting services in the field of design of computer programs for cloud computing; consulting services in the field of design of computer programs for computer-based information systems for business; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; consulting services in the field of hosting computer software applications; technical consulting in the field of data center security;] consulting services in the field of cloud computing; consulting in the field of infrastructure-as-a-service (IaaS) cloud computing technology, software-as-a-service (SaaS) cloud computing technology, platform-as-a-service (PaaS) cloud computing technology, and software-as-a-service (SaaS) cloud computing technology; [technical consulting services, namely, scientific, biological, pharmaceutical and medical research services, laboratory research and technical consulting services in the field of analytical chemistry, biochemistry, medicinal chemistry, drug development, biotechnology, microbiology, molecular biology and active ingredients; providing temporary use of on-line non-downloadable software in the field of primary medical, biological and chemical research and analysis; consulting in the field of the design and development of technologies for virtualized and automated delivery of IT services for enterprises, public organizations and service providers; scientific and technological research services in the field of medical, biological and chemical research; industrial analysis and research services in the field of primary medical, biological and chemical research and analysis; medical, biology and chemical engineering services; chemical and biological analyses of proteins and genes; research and development of medical equipment and accessories for others; quality assurance services for others for medical equipment and accessories; design of computer hardware, computer software, web sites and computer network system for others;] providing others with information relating to computer hardware and computer software; providing information via computer networks in the fields of computer networking, computer networks, computer systems, computer and network security and cloud computing; providing on-line information in the field of technical information relating to computer software; providing others with information in the field of computer hardware and computer software; [providing a website featuring information in the field of citizen services, namely, interactive citizen services regarding routes, maps and facility availability; providing a website featuring information in the field of critical infrastructure management; providing an on-line computer web site notifying individuals of natural and manmade disasters or acts of terrorism and how to respond to such disasters or acts of terrorism; providing a web site featuring information about global warming, its effect on nature and the environment, suspended particles in the atmosphere, the reflectance of the earth's surface, rain measurement, amount of water vapor and sea surface temperature; providing a website featuring non-downloadable software for accounting functions, bill payment, and facilitating management of invoices, management of payables, and the integration of enterprise resource planning (ERP) systems; providing a website featuring non- downloadable software for workflows, and shared workspaces for the purposes of product lifecycle management (PLM), collaboration, configuration and change management, requirements management, and manufacturing planning;] maintenance and updating of computer software; [and web sites; installation,] updating and maintenance of computer software; [software as a service (SaaS) services featuring software that performs text analysis, pattern recognition and image analysis, on information in diverse fields and that is capable of understanding general human queries and formulating responses; computer

implementation services, namely, integration of computer systems and networks aimed at measuring and providing analysis and reports on utility costs in order to assist businesses in achieving cost savings and environmental sustainability; customization of computer hardware and software; computer network systems analysis; integration of computer systems and networks, computer programming for others all for use in commercial interactions over global computer networks; computer software development, computer programming and maintenance of computer software in the field of energy usage management and energy efficiency; cloud computing services featuring software for use in database management; computer services, namely, remote and on-site management of cloud computing systems and applications for others; cloud computing featuring software for use in database management, security management, analytical computing, data processing, and business analytics; computer software and hardware testing services;] technical project studies in the field of computer hardware and software, namely, computer system analysis studies; [computer software and hardware testing services, namely, testing of computer software, computers and servers; design,] updating and maintenance of computer software; [computer software and hardware design for others, and consultation services in the field of computers; computer systems design services for others; design of home and business electric energy control systems for others and engineering services in the field of computerized temperature, fire, safety, security and light control, energy usage management monitoring; design of computer hardware, computer software, web sites and computer network system for others; design and development of computer systems, namely, computer hardware and software; design and development of computer systems, namely, computer hardware and software for unified communication services; software development and product development for others in the fields of computer software for integrated circuit cards, chip cards, chip card reading devices, namely, smart card readers, smart card terminals, radio frequency identification (RFID) readers and biometric readers; design for others in the field of computer networks, software, and engineering for the network virtualization and software defined networking; computer network design and computer software design for the network virtualization and the Software Defined Networking (SDN); services relating to the technical supervision and inspection of electronic apparatus and instruments including electronic computers; services in the field of the technical technology supervision and inspection of electronic apparatus and instruments in the nature of electronic computers;] troubleshooting of computer hardware and software problems via telephone; [e-mail, in person and local and global computer information networks; computer services, namely, technology support services, namely, troubleshooting in the nature of diagnosing of computer hardware and computer software problems for a computer system that integrates natural language processing (NLP), computational linguistics (CL), machine learning (ML), and information retrieval (IR), including text analysis, pattern recognition and image analysis and which is capable of understanding general human queries and formulating responses; Internet security services, namely, development of software for Internet security; providing security threat management systems, namely, monitoring and tracking of security vulnerabilities and problems in computer software products, the Internet, and computer networks; providing information in the fields of computer Internet security, prevention of computer threats, and information about computer hardware and software applications in security, namely, information about assessing computer security and threats, and design and development of computer security hardware and software applications; providing secure remote access to sensitive data by select individuals or groups by means of a computer network; technical support services, namely, deployment, migration and updating of software applications;] development and updating of computer software for others; [creation of data-processing software programs for others; software services for businesses, namely, development of software for processing and managing transactions conducted using near field communication (NFC) technology for identification, access control, tracking, payment, coupon, and loyalty systems; data mining services; rental services of electric and electronic apparatus, instruments and implements;] rental services of electric and electronic apparatus,

instruments and implements, namely, rental services of computers, computer hardware and electronic measuring apparatus; [repair services of computer software program and web site; hosting of web sites; hosting of digital content on the Internet and other computer and electronic communication networks; providing search engines for obtaining data via the Internet and other computer and electronic communication networks;] recovering of computer data; [data automation services using proprietary software to evaluate, analyze and collect service data, including such services in the field of data security, data traffic and communication networks, providing on-demand resource allocation for computer systems including access to virtual servers and virtual machines; application service provider (ASP) featuring software to enable uploading, posting, showing, displaying, sharing or otherwise providing electronic media or information over the Internet or other communications network; a web-based service featuring technology that enables users to view and manage data from networks of wired and wireless sensors and RFID tags; application service provider featuring software for use in speech and voice recognition, software for call automation, software used to create, execute, and administer voice activated systems used for transaction processing and the classification, navigation, search, retrieval, display and distribution of information in computer databases and over computer networks, and software for analyzing the effectiveness of speech and voice recognition software, call automation software and software used to create, execute, and administer voice activated systems used for transaction processing and the classification, navigation, search, retrieval, display and distribution of information in computer databases and over computer networks;] consultation and advisory services in the fields of computer hardware, computer software and computer network system design [; consulting services in the field of software networking, network functional virtualization, and network virtualization; and providing reviews of Software Defined Networking (SDN), network functional virtualization, and network virtualization users and projects for commercial purposes]

apparatus for fermentation; breathing apparatus for underwater swimming; breathing apparatus, except for artificial respiration, namely, self-rescue oxygen breathing units; apparatus and installations for the production of X-rays, not for medical purposes; cash registers; electric apparatus for commutation; intercommunication apparatus, namely, apparatus for transmission of communication; stills for laboratory experiments; projection apparatus, namely, photographic projectors, projection screens, projector lamps and slide projectors; radiological apparatus for industrial purposes; X-ray apparatus not for medical purposes; blueprint apparatus, namely, blueprint machines; flashing safety lights; stereoscopic apparatus; telephone apparatus; facsimile machines; phototelegraphy apparatus; igniting apparatus, electric, for igniting at a distance, namely, electric igniters used in connection with ballasts to starts discharge lamps; acid hydrometers; salinometers; acidimeters for batteries; aerometers; beacons, luminous; battery jars, namely, accumulator jars; barometers; anode batteries; galvanic batteries; batteries for lighting; solar batteries; batteries, electric; balances; betatrons; binoculars; electronic tags for goods; lens hoods; magnetic tape units for computers; computer memory devices; fire hose nozzles; encoded identification bracelets, magnetic; safety tarpaulins; signalling buoys; life buoys; marking buoys; directional compasses; vacuum gauges; electrolysers; variometers; verniers; scales; letter scales; weighbridges; precision balances;levelling rods; camcorders; video baby monitors; blank video cassettes; video telephones; video screens; viewfinders, photographic; electrical sockets, plugs and other electric contacts; micrometer screws for optical instruments, namely, micrometers and micrometer gauges; viscosimeters; electric circuit closers; wavemeters; voltmeters; mechanical signs; signs, luminous; switchboxes; current rectifiers; gas testing instruments; gasometers; galvanometers; hands free kits for phones; heliographic apparatus; hygrometers; hydrometers; test weights; magnifying peepholes for doors; hologram apparatus; plotters; loudspeakers; sounding leads, namely, electrical connections for transmission of sound; plumb bobs; range finders; densimeters; densitometers not for medical use; optical goods, namely, optical lenses, eyewear; prescription eyewear; adjustable optical power eyewear; eyeglasses; detectors, namely, motion detectors; smoke detectors; counterfeit coin detectors, namely, coin acceptors for separating good coins from counterfeits; photographic transparencies; slide projectors; diaphragms, namely, lenses for photographic apparatus and structural parts of photographic lenses; dictating machines; dynamometers; light-emitting diodes (LED); blank floppy computer disks; blank sound recordable discs; blank disks, magnetic; blank optical discs; circular slide rules; disk drives for computers; juke boxes for computers; DNA chips; electronic notice boards; bullet-proof waistcoats; life jackets; identification threads for electric wires; nose clips for divers and swimmers; locks, electric; warning bells; alarm bells, electric, namely, signal bells and warning bells; electric door bells; signal bells; acoustic conduits; mirrors for inspecting work; road signs, luminous or mechanical; marine depth finders; probes for scientific purposes, namely, probes for testing integrated circuits and semiconductors and ultrasound probes not for medical use; electric buzzers; needles for record players; tape measures; pressure measuring apparatus; simulators for the steering and control of vehicles; inverters; pressure indicators; temperature indicators; incubators for bacteria culture; tool measuring instruments; cosmographic instruments, namely, telescopes and astronomic measuring machines and instruments;mathematical instruments, namely, calculators, abacus, slide rules, protractors, ellipsographs, and opisometers; levelling instruments, namely, spirit levels, plumb levels, liquid level sensors, leveling rods, level measuring machines, level indicators, and level gauges; instruments containing eyepieces, namely, microscopes; surveying instruments; azimuth instruments, namely, measuring apparatus in the nature of angle finders; interfaces for computers; ionization apparatus for scientific or laboratory use, not for the treatment of air or water; spark-guards, namely, plastic guard for covering wall switches, safety goggles and face-protection shields; coaxial cables; fibre optic cables; cables, electric; laboratory equipment and supplies, namely, calipers; slide calipers; screw-tapping gauges; calculating machines; pocket calculators; decompression chambers; cinematographic cameras; electronic pens; holders for electric coils; identity cards, magnetic; video game

cartridges; toner cartridges, unfilled, for printers and photocopiers; memory cards for video game machines; magnetically encoded cards, namely, debit cards, credit cards, key cards, charge cards, and gift cards; riding helmets; protective helmets; carriers for dark plates, namely, photographic slide carriers; automated teller machines (ATM); cathodes; spools for cameras; choking coils for use in electrical apparatus; coils, electric; electromagnetic coils; cinematographic film, exposed; computer keyboards; solenoid valves; wire connectors; encoded key cards; electronic book readers; electronic agendas; push buttons for electric door bells; mouse pads; magnetic encoders; anti-glare visors, namely, anti-glare glasses and spectacles;collectors, electric, namely, electronic monitors to collect operational data and settings, including temperature data and settings, from HVAC equipment to ensure proper functioning, calibrated rainwater collection containers for scientific purposes, mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for collection and management of data; calibrating rings, namely, calibrating devices for calibrating ultrasonic testers, optical emission spectrometers, x-ray diagnostic apparatus other than for medical use; protective suits for aviators; commutators; blank compact discs; blank compact discs with read only memory; comparators; marine compasses; computers; laptop computers; tablet computers; notebook computers; condensers; contacts, electric; wind socks for indicating wind direction; safety traffic cones; computer hardware, namely, branch boxes; electrical distribution boxes; junction boxes; battery boxes; cabinets for loudspeakers; diving suits; galena crystal detectors for use in electronics; reflecting discs for wear, for the prevention of traffic accidents; covers for electric outlets; lasers, not for medical purposes; lactodensimeters; lactometers; vacuum tubes for radios; photography darkroom lamps; thermionic tubes; amplifying tubes; flashlights for use in photography; head cleaning tapes for audio and video recorders; blank magnetic tapes for tape recorders and computers; blank videotapes; surveying chains; fire escape ladders; measuring rulers; slide-rules; contact lenses; correcting lenses, namely, contact lenses; optical lenses; optical condensers; sounding lines, namely, depth gauges and marine depth finders; electricity conduits; measuring spoons; magnifying glasses; thread counters; magnets; decorative magnets; close-up lenses; crash test dummies; resuscitation mannequins; computer mouse; pressure gauges; divers' masks; solderers' helmets; protective masks; materials for electricity mains, namely, electric wires and cables; voting machines; money counting and sorting machines; material testing instruments and machines in the nature of gauges for surface inspection, lamp detectors for tubes and cables and gauges for high voltage tests, namely, optical inspection apparatus, ultrasound inspection devices for non-medical, non-destructive testing, inspection mirrors, and laser scanners for industrial inspection; furniture especially made for laboratories; megaphones; portable media players; diaphragms, namely, electroacoustic transducers; diaphragms for scientific apparatus, namely, electrical transducer; metal detectors for industrial or military purposes; metronomes; rules, namely, measuring rules; carpenters' rules; dressmakers' tape measures; mechanisms for coin-operated apparatus; mechanisms for counter-operated apparatus, namely, point-of-sale terminals; coin-operated mechanisms for television sets; shutter releases; micrometers; microprocessors; microscopes; microtomes; microphones; modems; lightning conductors; computer monitors; computer software programs for operation of computer monitors; electrical terminal blocks and boxes; Computer terminals; junction sleeves for electric cables; teeth protectors, namely, mouth guards for athletic use; temperature indicator labels, not for medical purposes; knee-pads for workers; headphones; surveyors' levels; blank CD-ROMS for sound recording; blank magnetic carriers; blank optical data carriers; socks, electrically heated; computer software, recorded, namely, computer software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information, software for developing and hosting a server on a global computer network for the purpose of facilitating e-commerce via such a server; sheaths for electric cables; identification sheaths for electric wires; weighing machines; punched card machines for offices; life saving apparatus

and equipment, namely, life saving rafts and capsules for natural disasters; shoes for protection against accidents, irradiation and fire; objectives, namely, camera lenses; lenses for astrophotography; egg-candlers; fire extinguishers; electrified fences; electricity limiters; clothing for protection against accidents, irradiation and fire; garments for protection against fire; asbestos clothing for protection against fire; protective clothing especially made for laboratories; ozonisers; octants; eyepieces, namely, protective eye pieces and eye pieces for helmet mounted displays; ohmmeters; wrist rests for use with computers; spectacle frames; eyeglass frames; oscillographs; plumb lines; scientific and technical apparatus, namely, optical mirrors; spectacles; sunglasses; goggles for sports; signalling panels, luminous or mechanical, namely, road signs; radio pagers; pince-nez; electronic pocket translators; telecommunication transmitters; telephone transmitters; transmitters of electronic signals; switches, electric; periscopes; gloves for divers; gloves for protection against accidents; gloves for protection against X-rays for industrial purposes; asbestos gloves for protection against accidents; furnaces for laboratory use; pipettes; pyrometers; planimeters; surveying instruments, namely, plane tables; plates for batteries; wafers for integrated circuits; printed circuit boards; compact disc players; cassette players; sound recording strips, namely, sound recording apparatus; X-ray films, exposed; cinematographic and photographic films, exposed; life-saving rafts; laboratory furniture, namely, trays; semi-conductors; polarimeters; fire pumps; measuring glassware; life belts; fuses; circuit breakers; converters, electric; telerupters, namely, electric relays; diagnostic apparatus for testing food; diagnostic apparatus, not for medical purposes, namely, diagnostic apparatus for the detection of pathogens for laboratory or research use; distance recording apparatus; distance measuring apparatus; speed measuring apparatus; appliances for measuring the thickness of leather; apparatus for measuring the thickness of skins; speed checking apparatus for vehicles, namely, speedometers; teaching apparatus, namely, slide projectors and photographic slides therefor; time recording apparatus; apparatus and instruments for astronomy, namely, telescopes, star finders, and planetarium projectors; surveying apparatus and instruments; weighing apparatus and instruments; nautical apparatus and instruments, namely, underwater housings for cameras, underwater enclosures for cameras and underwater enclosures for photographic lenses; electric navigational instruments; optical apparatus and instruments, namely, optical ports for underwater photography, dome ports for underwater photography, wet diopters, adapter lenses for underwater photography; apparatus and instruments for physics, namely, wave meters; chemistry apparatus and instruments, namely, flasks, gas mixers, laboratory chemical reactors, chromatography apparatus for laboratory use for use in separation and purification of chemical and biological substances; measuring apparatus, namely, clamp meters for measuring electricity; measuring devices, electric, namely, electronic proximity sensors, electronic analyzers for measuring contaminants; boiler control instruments; meteorological instruments; naval signalling apparatus, namely, emergency signal transmitters, signal whistles, signaling buoys; observation instruments, namely, telescopes; navigation apparatus for vehicles; satellite-aided navigational systems; regulating apparatus, electric, namely, voltage regulators, electrical heat sequencers, flowmeters, voltage regulators for electric power, voltage and/or current regulators for lighting systems, apparatus for regulating or controlling electric current; precision measuring apparatus, namely, precision balances; audio- and video-receivers; prisms; printers for use with computers; hemline markers; retorts' stands, namely, stands for laboratory glassware; apparatus for changing record player needles; drainers for use in photography, namely, drying apparatus and racks for photographic prints; cleaning apparatus for sound recording discs, namely, cleaning discs for cleaning the lens of optical disc drives used in computers and digital video recorders; fire beaters, namely, fire blankets and fire extinguishers; sighting telescopes for firearms; laboratory equipment and supplies, namely, test tubes; pressure indicator plugs for valves; magnetic wires; telegraph wires; telephone wires; wires, electric; conductors, electric; copper wire, insulated; fuse wire; computer programmes, recorded, namely, computer software programs for collection, editing, organizing, modifying, book marking, transmission, storage and sharing of

data and information, developing and hosting a server on a global computer network for the purpose of facilitating e-commerce via such a server; computer game software; computer programs, namely, downloadable software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information, software for developing and hosting a server on a global computer network for the purpose of facilitating e-commerce via such a server; computer operating programs, recorded; record players; processors, namely, central processing units; rods for water diviners; electronic publications, downloadable, namely, magazines, books, newsletters, in the field of education; electricity distribution consoles; electric control panels; radar apparatus; masts for wireless aerials; transmitting sets, namely, apparatus for transmitting and reproducing sound or images; radios; vehicle radios; sprinkler systems for fire protection; frames for photographic transparencies; screens for photoengraving, namely, projection screens; walkie-talkies; voltage surge protectors; voltage regulators for vehicles; stage lighting regulators, namely, lighting controls; light dimmers, electric; speed regulators for record players; cell switches, namely, electric switches; washing trays for photography; marking gauges for joinery purposes; time switches, automatic; relays, electric; safety restraints, other than for vehicle seats and sports equipment; X-ray photographs, other than for medical purposes; rheostats; respirators for filtering air; respiratory masks, other than for artificial respiration and not for medical purposes; retorts, namely, laboratory glassware; refractometers; refractors, namely, telescopes; grids for batteries; speaking tubes; horns for loudspeakers; saccharometers; optical fibers; traffic-light apparatus; dog whistles; signalling whistles; sextants; electrical inductors; safety nets; nets for protection against accidents; fire alarms; signals, luminous or mechanical, namely, road signs and LED vehicle traffic signals; sirens; scanners; smartphones; integrated circuit cards; connections for electric lines; couplings, electric; electric connectors; sonars; sound locating instruments, namely, sound level meters; lighting ballasts; resistances, electric; spectrograph apparatus; spectroscopes; speed indicators; alcoholmeters; satellites for scientific purposes; protection devices for personal use against accidents, namely, face-protection shields, infrared camera used as night vision system; audiovisual teaching apparatus, namely, slide projectors and photographic slides therefor; radiotelegraphy sets; radiotelephony sets; spectacle lenses; anti-glare glasses; optical glasses; personal stereos; stereoscopes; stands for photographic apparatus; stroboscopes; fire boats; sulfitometers; bags adapted for laptops; drying racks for photography; spherometers; integrated circuits; printed circuits; Geiger counters; parking meters; kilometer recorders for vehicles, namely, Distance measuring apparatus; revolution counters; abacuses; egg timers; electronic taximeters; ear plugs for divers; tachometers; televisions; telegraphs; telescopes; teleprompters; teleprinters; portable telephones; theodolites; thermometers, not for medical purposes; thermostats; thermostats for vehicles; laboratory equipment, namely, crucibles; tone arms for record players; totalizators, namely, adding machines; transistors; transponders; protractors; transformers; step-up transformers; vehicle breakdown warning triangles; triodes; starter cables for motors, namely, battery starter cables; discharge tubes, electric, other than for lighting; capillary tubes, namely, laboratory glassware; neon signs; pitot tubes; X-ray tubes not for medical purposes; telephone receivers; gauges, namely, micrometer gauges, length measuring gauges, pressure gauges, level gauges; quantity indicators, namely, temperature indicators, water level indicators, speed indicators, scales; automatic indicators of low pressure in vehicle tires; gasoline gauges, namely, fuel gauges; water level indicators; electric loss indicators, namely, electric or sensors for electricity loss; light-emitting electronic pointers; slope indicators; level indicators; mercury level indicators; spirit levels; urinometers; amplifiers; particle accelerators; electric installations for the remote control of industrial operations; baby monitors; steering apparatus, automatic, for vehicles, namely, simulators for the steering and control of vehicles; balances; video recorders; sound reproduction apparatus; invoicing machines; tape recorders; protection devices against X-rays, not for medical purposes, namely, face protection shields, radiation shields for electronic products and

clothing for protection against chemicals and radiation; railway traffic safety appliances, namely, railway signals and electronic signaling mechanism, namely, a train control system used in the railway industry for detecting and controlling trains, ground faults, broken rails, power failures, track switches and lights; data processing apparatus; oxygen transvasing apparatus, namely, oxygen regulators; theft prevention installations, electric, namely, burglar alarms; photographic film cutting apparatus; drying apparatus for photographic prints; optical character readers; centering apparatus for photographic transparencies; machines for dispensing pre-determined dosages of medication; battery chargers; chargers for electric batteries; acoustic sound alarms; sounding apparatus and machines, namely, echo sounding devices; editing appliances for cinematographic films; cathodic anti-corrosion apparatus, namely, electronic device for eliminating corrosion from a boat lift in sea water; data processing equipment, namely, couplers; anti-theft warning apparatus, namely, theft alarms; computer peripheral devices; anti-interference devices, namely, filters for radio interference suppression; demagnetizing apparatus for magnetic tapes; acoustic couplers; security and fire alarms; fog signals, non-explosive; whistle alarms, namely, signal whistles; adding machines; readers, namely, data processing apparatus; heat regulating apparatus, namely, electrical control devices for heating and energy management; photocopiers; bar code readers; computer software applications, downloadable, namely, downloadable software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information, downloadable software for developing and hosting a server on a global computer network for the purpose of facilitating e-commerce via such a server; downloadable ring tones for mobile phones; downloadable image files containing artwork, text, audio, video, games and Internet Web links relating to sporting and cultural activities; downloadable music files; animated cartoons, namely, video disks and video tapes with recorded animated cartoons; photographic filters; filters for respiratory masks; filters for ultraviolet rays, for photography, namely, lens filters; blank USB flash drives; magic lanterns; optical lamps; signal lanterns; cameras; glazing apparatus for photographic prints, namely, thermal printers; shutters; darkrooms, namely, darkroom lamps; photometers; flash-bulbs; digital photo frames; enlarging apparatus, namely, apparatus used to enlarge photographs or make photographs appear larger in the nature of magnifying lenses, microscope cameras and photographic projectors; photovoltaic cells; containers for contact lenses; spectacle cases; pince-nez cases; containers for microscope slides; cases especially made for photographic apparatus and instruments; chromatography apparatus for laboratory use; chronographs for use as specialized time recording apparatuses; laboratory centrifuges; eyeglass chains; cyclotrons; compasses; frequency meters; time clocks; Petri dishes used in laboratory research; sleeves for laptops; fire blankets; integrated circuit chips; jigs in the nature of measuring instruments; pedometers; meteorological balloons; electrified rails for mounting spot lights, namely, electric conductor rails; asbestos screens for firemen; fire hose; protective helmets for sports; cell phone straps; eyeglass cords; tripods for cameras; switchboards; electrical power distribution units; screens, namely, photographic filters; workmen's protective face-shields; projection screens; radiology screens for industrial purposes, namely, radiation shields for electronic products; fluorescent screens; exposure meters for photographic devices; electrical ducts; galvanic cells; epidiascopes; ergometers not for medical purposes; armatures for use in electrical apparatus

For Chemical preparations for pharmaceutical or medical purposes, namely, for skin diseases, immunodeficiency and strengthening of an immune system, pharmaceutical preparations for the treatment of skin diseases and immunodeficiency, veterinary preparations for treating skin diseases, immunodeficiency, and strengthening of immune systems, disinfectants for hygienic purposes, antiseptic preparations, antibacterial pharmaceuticals, parasiticides, dietary supplements, dietary supplements and eatable dietary supplements for strengthening the body, namely, beverages for medical purposes in particular liquid protein supplements, vitamin fortified beverages, multivitamin preparation, dietetic and dietary beverages supplements for human consumption in liquid and dry mix form for therapeutic purposes, dietary supplements for medical purposes, herb tea for medicinal purposes, medicinal herbs, sweets for medicinal purposes, nutritional supplements in the form of pastilles, pills, capsules, chewing gums for pharmaceutical purposes, dietetic substances adapted for medical use, namely, infant's formula, dietary supplements for medical purposes, albumin dietary supplements preparations for medical purposes, balms, creams and ointments for medical purposes, medicinal oils, namely, argan, castor coconut, dill and almond oils for medical purposes, grease for medical purposes, medicinal salts for medical purposes, tinctures of iodine for medical purposes, vitamin and mineral nutrition in the form of concentrates, liquid protein supplements as nutrition additives adapted for medical use, yeast for pharmaceutical consumption purposes, nutritional and dietary supplements for medical purposes for daily refilling food as an instant food or individual mixture, which consists especially of powder milk or animal or vegetable proteins, also with vitamins or minerals or trace elements or sugar, natural medicinal extracts, strengthening anti-bacterial preparations, medicated skin care preparation, namely, antibiotic ointment, gels, body cream, medical syrups, namely, cough syrups, and

medicated body, skin and facial preparations, namely, medicated emulsions, medicinal herb extracts, fungus based products and preparations for medical purposes, namely, nail fungus treatment preparations; prevention of pain in the nature of pain relief medication, all-purpose sanitary and disinfectant preparations for medical use, preparations for destroying vegetable and animal pests, namely, preparations for destroying vermin; dietary supplements based on fruit and mushrooms, proteins supplements for human consumption, protein products and preparations for nutrition, namely, nutritional and dietary supplements formed and packaged as protein bars, protein tablets and powder for medical purposes, preparations for special nutrition for sportsmen or person with high energetic consumption, namely, nutritional and dietary supplements formed and packaged as protein bars, protein tablets and powder for medical purposes

International Classes 5 - Primary Classes **US Classes** 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Fruit and mushrooms processed, tinned, dried, ground, bottled and froze, extracts of fruit, fruit peel, mushroom, grain and seeds, extracts from mushrooms, unflavored and unsweetened gelatin, unflavored and unsweetened gelatin preparations for culinary purposes, and nutritional food mainly prepared and packaged meals consisting primarily of meat, fish, vegetables, egg and milk, edible lipids, oils, extracts from seaweed and mushrooms as nutrition food not for medical purpose, nutrition food for daily meal use like instant food and individual packaged food mixture, namely, powder milk, all other than for medical purposes

International Classes 29 - Primary Classes **US Classes** 46 **International Class Title** Meats and Processed Foods

For Cosmetics, preparations for doing the laundry, namely, laundry bleach and laundry detergent, cleaning and polishing preparations, disinfectants for toilet purposes and for hygiene purposes, hair care preparations and non-medicated hair treatment preparations for cosmetic purposes, cosmetics, cosmetics preparations for body care, namely, creams, gels, milk, grease and oils, vitamin preparations for body cosmetic and downsizing, massage gels for removal muscle pain and tiredness and to improve fitness, other than for medical purposes, perfumery, sanitary preparations being toiletries and cosmetics for personal use, namely, douching preparations for personal sanitary or deodorant purposes

International Classes 3 - Primary Classes **US Classes** 1, 4, 6, 50, 51, 52 **International Class Title** Cosmetics and Cleaning Preparations

For Wholesale and retail store services featuring cosmetics, chemical preparations, dietetic and nutritional supplements, and non-alcoholic beverages; mediation and conclusion of commercial transactions for others, business inquiries, assistance and consultancy relating to business organization, mediation of interactive business via the Internet, namely, mediation of advertising for others, promotion service, namely, promoting the sale of goods and services of others through electronic couponing, promotions and discounts, marketing services, public relations services, organizing exhibitions for commercial or advertising purposes, business networking services for arranging of business contacts, secretarial and clerical services and economic forecasting and analysis services, the bringing together, for the benefit of others, of a variety of goods excluding the transport thereof, enabling customers to conveniently view and purchase those goods in the field of cosmetics, chemical preparations, dietetic and nutritional supplements, and non-alcoholic beverages; online retail store services featuring cosmetics, chemical preparation, dietetic and nutritional supplements, and non-alcoholic beverages; commercial advertising services for others, import and export agency; and organization of meetings, namely, business meetings planning

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Telecommunication services, namely, communications by computer terminals and providing Internet access, communication services via computer network, namely, providing private and secure real time electronic communication over a computer network, webcasting services, web messaging, message sending via computer networks, providing Internet chatrooms, communications by fibre optic networks, chatroom services for social networking, communication services over computer networks, namely, providing private and secure real time electronic communication over a computer network, electronic transmission of data via a global computer network, electronic mail services utilizing the Internet and other communications networks, transmission and distribution of data or audio visual images via a global computer network or the Internet, transmission of data or audio visual images via a global computer network or the Internet, electronic data transmission over a global remote data processing network, including the Internet

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Information technology (IT) computer programming services, Information technology IT consulting, and advisory and information services, computer software development, programming and implementation, computer hardware development, web site hosting services, leasing of computer software, rental of computer hardware and facilities, information technology (IT) consultancy, information technology (IT) security services, namely, protection and restoration of computer data, computer virus protection services, computer services, namely, recovery of computer data, media duplication of data and digital information and conversion of data or documents from physical to electronic media, data coding services, computer systems analysis services, computer diagnostic services, research and development of computer software and computer systems and installation of software therefor, technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems, technical computer network services, namely, computer network design for others, updating memory of computer systems, namely, updating of websites for others, technical services being digitization of documents for data transmission, management of computer projects, creating and maintaining web-sites, computer system monitoring services via remote access to ensure proper functioning, scientific and technological services, namely, research and design in the field of computer networking hardware and computer datacenter architecture, technical testing of computers, authentication in the field of works of art, stamps and quality control for others in the field of control management, technical design of computer networks for others

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Non-alcoholic beverages, namely, lemonade, sparkling and other non-alcoholic beverages, namely, non-alcoholic sparkling fruit juice beverages and fruit juices, preparations for making fruit juices, mineral water, non-alcoholic beverages containing carbonide acid, fruity or vegetable juices, fruit juices, syrups and extracts for making beverages enriched with vitamins or minerals, namely, isotonic beverages, and mineral water, sorbets in the form of beverages, sorbets in the nature of beverages, preparations for making beverages, namely, fruit and vegetable drinks, energy drinks, beer, soft beer and lagers, alcohol free aperitifs, table water

GOODS AND SERVICES INFORMATION

For Structural parts for land vehicles, namely, vibration dampers and absorbers, shock dampers and absorbers, noise dampers and absorbers for vehicles and for engines for land vehicles; land vehicle bodies, namely, body panels and rubber body insulations; motors and engines for land vehicles; electric motors for land vehicles; land vehicle parts, namely, transmissions; clutches for land vehicles; clutch mechanisms for land vehicles; brake systems for vehicles; brake pads for vehicles; brake shoes for vehicles; brakes for land vehicles; cantilever brakes for vehicles; cantilever brake parts, namely, links for cables for cantilever brakes; brake drums; brake facings; brake power amplifiers in the nature of brake lines for vehicles; brake cylinders; vehicle suspensions, namely, suspension systems for automobiles; land vehicle suspension parts, namely, coil springs, leaf springs, torsion/sway bars, equalizers; vehicle suspension ball joints; vehicle parts, namely, shock absorbers and suspension dampers for vehicles; steering systems for vehicles, namely, steering units for land vehicles and parts thereof; steering wheels for vehicles; steering unit parts, namely, steering columns for vehicles; parts of land vehicles, namely, steering joints and steering racks; chassis for land vehicles; transmission shafts and axles for land vehicles; gearboxes and clutches for land vehicles; vehicle wheels; vehicle wheel rims; vehicle bumpers; mudguards; shock absorbers for vehicles; hydraulic, pneumatic, electric or mechanical springs for shock absorbers for vehicles; lifting cars, namely, land vehicles having power-operated lifts; equipment and parts of brakes for vehicles, namely, brake cylinders, brake discs, brake drums, brake rotors, and brake segments for land vehicles; brakes for vehicles; brake pads and shoes for vehicles; direction signals for vehicles; windows for

vehicles; fuel tanks for land, air, and marine vehicles; anti-skid chains for vehicles; driving chains for land vehicles; anti-theft alarms for vehicles; horns for vehicles; rearview mirrors; rearview mirrors for vehicles for exterior fitting; door rearview mirrors and cases and fitted covers especially adapted for door rearview mirrors; replacement glass for door rearview mirrors; safety belts for vehicle seats; windshield wipers for vehicles and components thereof, namely, windshield wiper blades, connectors and fastening systems for windshield wiper blades, windshield wiper arms, and deflectors; vehicle parts, namely, windshield wiper movement transmission assemblies, and windshield wiper support plates; electric motors for motor cars; motor reducers, namely, torque converters for motor cars; windshield washers for vehicles used to remove adherent dusts and insects by spraying washer fluid; vehicle parts, namely, plastic water tanks for windshield washers; gas caps for land vehicles, namely, lockless petrol tank caps; structural vehicle parts, namely, adjustable air intake shutters for regulating air to vehicle radiators; vehicle brake cylinders for hydraulic clutch control; master cylinders for vehicle brakes and clutches; vehicle door handles; reversing alarms for vehicles; hydraulic circuits for vehicles; upholstery for vehicles; rearview mirrors for vehicles also containing a video camera, display, and signal lights; engine hoods for vehicle construction, namely, vehicle body hoods; shock absorbing springs for vehicles, namely, elastic springs in the nature of multilayer traction hook springs and buffer springs also for sound insulation and for shock insulation; elastic passages between cars, namely, automotive exterior and interior plastic extruded decorative and protective trim; hoods for vehicle engines without a sound-absorbing coating intended for use in the construction of vehicles; protective hoods for vehicle engines of the aforementioned type without a sound-absorbing coating intended for use in the construction of vehicles

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Exhaust systems for motor vehicles, namely, engine exhaust systems comprised of pipes, collector and muffler and parts and components therefor; shock absorbers for machines; catalytic converters; exhausts for motors and engines; adapter pipes for automotive exhausts; automotive exhaust pipes; exhaust pipe reducers, namely, exhaust silencers for engines; engine exhaust tips, namely, exhaust pipe spouts, and exhaust pipe nozzles; weights as parts of exhausts, namely, mounting weights adapted for exhaust systems for internal combustion engines; clamps and suspensions as parts of exhausts, namely, mounting brackets, fasteners and hangers adapted for exhaust systems for internal combustion engines; engines not for land vehicles; machine couplings and transmission components, except for land vehicles; agricultural implements not hand-operated, namely, incorporators, hay balers, seed drills, coulters, combines, harvesters, threshers, tillers, windrowers, cultipackers, sowers; machines for the plastics industry and for the automobile industry, namely, extrusion machines for plastic, injection plastic molding machines, machines for plastic working, automotive frame stretching machines, brake flushing machines; spark plugs for engines; parts of engines for all kinds of engines, namely, contact points, electronic fuel injection modules, and oil dipsticks; hydraulic and pneumatic cylinders for engines; pistons for engines; piston rings; air, fuel, and oil filters for machines and engines; radiators for motors and engines; fans for motors and engines; bearings as parts of machines; ball bearings as parts of machines; belts for engines and engine units; v-belts for engines and engine units, namely, power transmission belts for machines; dynamo belts; conveyor belts; brake components and parts for machines, namely, brake linings, brake pads, brake shoes and brake segments; brakes for machines; brake shoes other than for land vehicles; parts of engines not for land vehicles, namely, couplings, piston rings, transmission chains and shafts; relief valves as parts of engines, namely, emission reduction units in the nature of EGR valves and PCV valves; valves being engine parts for introducing fuel-air mixtures into the combustion chambers of internal combustion engines; regulators, namely, fuel and air mixture regulators being parts of internal combustion engines; torque converters other than for land vehicles; clutches other than for land vehicles; Parts of

engines and transmissions not for land vehicles, namely, igniting devices for internal combustion engines, engine injectors and starters for engines and engine units; fuel economizers for motors and engines, namely, fuel catalysts; liquefied petroleum gas operating equipment for fuel engines, namely, gas filters for motors and engines, fuel injectors, and fuel and air mixture regulators being parts of internal combustion engines; pumps for machines and engines; carburetors; carburetor supply systems comprised primarily of power valves for carburetors; electromechanical devices providing vehicle window motion, namely, electric motors for vehicle windows; diesel fuel injection apparatus, namely, fuel injectors; glow plugs for Diesel engines; belts and tensioners, namely, distribution belts in the nature of timing belts for industrial motors and for engines for land vehicles, belts for transmission other than for land vehicles, and cooling fan belts for engines of passenger cars and commercial vehicles; water pumps for use in motors and engines; alternators for passenger and commercial land vehicles; starters for engines; dynamos; spare parts for engines for passenger and commercial vehicles, namely, thermostats, pumps, compressors, heads, pistons, piston rings; air-conditioning compressors; machine components, namely, vibration absorbers and dampers, shock absorbers and damper; machines, namely, machines for plastic working, machines for separating target materials from mixtures of materials, metal forming machines, metal working machines; machine molded components, namely, machine couplings and transmission component except for land vehicles; bearings as parts of machines, namely, engine and elastic machine bearings in the nature of hydraulic bearings for sound insulation and vibration insulation made from a mixture of metals and elastomers; machine parts, namely, hoods without a sound-absorbing coating intended for use in the construction of machines; protective machine hoods of the aforementioned type without a sound-absorbing coating intended for use in the construction of machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Electrical and electronic apparatus for measurement, control and adjustment for automobiles, namely, electric sensors, proximity sensors, mechanical and electronic measuring machines for identifying and analyzing structural damage to vehicles, cruise controls for motor vehicles, thermostats for vehicles; alarm systems, namely, access control and alarm monitoring systems; navigation and location apparatus for land, air and water vehicles; power supplies, namely, electrical power supply units; electric filters, namely, electronic components in the nature of filters; semiconductor elements, namely, semiconductor wafers, semiconductor power elements, and semiconductor lead frames; optoelectronic components, namely, optoelectronic measuring devices for creating touch or gesture-sensitive surfaces that interact with computer and other technology systems; cast and corroded circuits, namely, electric and electronic circuits; printed circuits; integrated circuits; electrical relays; fuses; pipes for electric, namely, sheaths for electric cable, junction sleeves for electric cables; electronic and optical signals, namely, digital signal processors, cables for electrical and optical signal transmission, signal processors; connectors for electric cables, namely, electric connectors, plug connectors, power connectors; electric light dimmers; electrical switches; sensors, namely, alarm sensors, acceleration sensors, electric sensors, optical sensors, pressure sensors, proximity sensors; detectors, namely, carbon dioxide detector, carbon monoxide detectors, fire and smoke detectors, radar detectors, radon detectors, ultrasonic flaw detectors, ultrasonic object detectors for use on vehicles; electric boards and switching devices, namely, electrical circuit boards, automatic switchboards, electric circuit switches, electrical switches; solar cells; solar generators in the nature of solar batteries and solar panels for the production of electricity; analysis apparatus for automobiles, namely, for the analysis and testing of fuel engine exhaust gases, for the analysis and testing of smoke particles emitted from engine exhausts, and for the analysis and testing of brake function; analysis apparatus for automobiles, namely, diagnostic instruments and equipment for

simulations of engine, brake, and exhaust function and emissions, and apparatus for testing the function and efficiency of automobile engines; analysis apparatus for automobiles in the nature of testing apparatus for injection pumps, generators and starters, namely, fuel pump testers, electronic apparatus for testing the electrical conductivity of generators and starters; batteries; chargers, namely, battery chargers, wireless chargers; battery testers; electronic control units, namely, electronic control systems for machines and engines; amplifiers

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Rubber, raw or semi-worked; gutta-percha; gum, raw or semi-processed; asbestos; mica; products made from rubber, gutta-percha, gum, asbestos, and mica, namely, shock-absorbing buffers of rubber for industrial machinery, sealing rings for pipe connections, gaskets for pipes; plastics in extruded form for use in further manufacturing; packing and insulating materials; stopping material, namely, door stops of rubber, rubber bottle stoppers, rubber stoppers for industrial packaging containers, window stops of rubber, and non-metal sealing rings for use as connection seals; flexible pipes not of metal; insulating products, namely, insulating materials for insulating against noise, heat, cold, vibrations, shocks, shaking, moisture and environmentally hazardous substances, all for use in the construction of vehicles and machines, the building sector, transport installations, roadways, noisy spaces, and sports and leisure installations; insulating materials of the aforesaid type made from elastomers and thermoplastic elastomers, namely, from natural and synthetic rubber, thermoplastics, thermosetting plastics, plastisols, metallic and synthetic foams, bitumen and substances similar to bitumen, non-woven fabrics and mineral, natural and synthetic fibers, and fabrics made from natural and synthetic fibers; insulating materials of the aforesaid type with and without fillers and with and without metal accessories; insulating materials, namely, insulating panels, insulating sheets, insulating coatings and insulating mats for preventing the transmission of sound and heat; plastic parts primarily comprised of thermoplastic elastomers, namely, insulating materials for insulating vehicles and machines against the transmission of sound; joints, namely, insulating joints for vehicles; insulators, namely, sound insulating materials in the nature of vibration-damping materials and insulating materials for vehicles; soundproofing and insulating materials, namely, coatings of loading areas with an integrated sound insulation for vehicles; sandwich systems for insulation comprised primarily of insulating materials made of elastomers and thermoplastic elastomers with added fillers; acoustical composite insulating shield in the nature of noise shields for automobiles and machinery, namely, for use in the construction of machines and vehicles and for use in shielding against traffic noise; soundproofing materials in the nature of tube shaped bodies with a sound-absorbing coating, intended for use in the construction of vehicles and machines; sound-absorbing systems comprised primarily of soundproofing materials made from pre-shaped films; sealing and insulating materials, namely, bordered and non-bordered sealing joints made from fibers, polymer materials and metal also containing seal packing,; gaskets, namely, pipe gaskets, electromagnetic interference shielding gaskets; sealing materials, namely, sealing joints other than for land vehicles
