electric motors, traction motors, motors propelled by electric power, fuel cell motors, hybrid motors, solar electric motors, and direct or alternating current motors; brakes for vehicles, railway bogies, axles for vehicles, railway carriage bodies; railway carriages; railway couplings; tank wagons, namely, freight tanks and parts of land vehicles, namely, chassis, frames, body, wheels, brake pads, pantograph contact strips, doors; shock absorbers for railway and road vehicles; bogies for vehicles, namely, railway bogies, engines for land vehicles, traction systems for vehicles, namely, systems installed on roof or underneath train for acceleration and braking, comprised of AC motors, DC motors and relays

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Building railway infrastructure and infrastructure related to buses, coaches, electric and autonomous vehicles; construction management; maintenance of railway infrastructure and roadway infrastructure related to buses, coaches, electric and autonomous vehicles; repair of buses, coaches, railway vehicles, electric and autonomous vehicles and related infrastructure; renovation of buses, coaches, railway vehicles, electric and autonomous vehicles and related infrastructure; installation of railway infrastructure and infrastructure related to buses, coaches, electric and autonomous vehicles; providing information in the fields of construction and repair of railway infrastructure, underground railway, tramcar, bus, electric vehicle and autonomous vehicle infrastructure; providing repair information in the field of buses, coaches, railway vehicles, electric and autonomous vehicles; building construction supervision; rail infrastructure construction; surfacing, namely, concrete and asphalt paving of trails and tracks used for buses, coaches, railway vehicles, electric and autonomous vehicles; track building, namely, arranging and fastening of rails for trains and rail vehicles; Providing repair information in the fields of locomotives and self-propelled vehicles, high-speed and very high-speed railway vehicles, railway trains with distributed or concentrated power, railway trains with or without an engine, railway trains, underground trains, tramcars, buses, electric vehicles and autonomous vehicles and to infrastructures for railways, buses, electric and autonomous vehicles, and trails and tracks used for these vehicles; installation and repair of signaling devices for all kinds of accidents and incidents having an impact on rail and road traffic; installation, servicing, repair and maintenance of control equipment for the management of railway and urban transport lines; water pumping and drainage, namely, installation of water pumping and drainage systems; construction of railways and structures of concrete or any other material comprising soleplates and anchor points placed in the concrete or the material in plastic state; all the aforesaid services relating to rolling stock and in general for railways and road vehicles for mass transit and/or freight transport, including locomotives and self-propelled vehicles, high-speed and very high-speed railway vehicles, railway trains with distributed or concentrated power, railway trains with or without an engine, railway trains, underground trains, tramcars, buses, electric vehicles and autonomous vehicles and to infrastructures for railways, buses, electric and autonomous vehicles; advice regarding the construction of infrastructures for railways, buses, electric and autonomous vehicles, and trails and tracks used for these vehicles

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Electric apparatus and instruments for traction, signaling, protection, traffic regulation and/or management, surveillance, control, passenger information, emergency rescue, teaching, driving and checking, namely, electrical sensors, electric circuits, electric switches, electric inverters, electric controls, programmable controls, digital process controllers, temperature controllers and indicators, signaling instruments, electrical classifiers, signaling apparatus, safety devices, transmitters and receivers ; checking apparatus for motors and engines and electric, electronic and computer equipment, namely, computer hardware and computer peripherals; scientific apparatus and instruments for distribution, transforming, accumulating,

regulating and controlling of electricity, namely, electrical circuit components, voltage monitors and apparatus and instruments for measuring and controlling temperature and electric field parameters, all the aforesaid goods being intended for fixed, track or on-board installations, for rolling stock for railways, for high-speed and very high-speed railway vehicles, for railway trains with distributed or concentrated power, for railway trains with or without an engine, for articulated or non-articulated railway trains, and for tramcars, buses, electric vehicles and autonomous vehicles; fixed and mobile diagnostic apparatus for railway and road vehicles, in particular optical apparatus and electrical apparatus for data visualization, measuring, surveillance and checking equipment, namely, lasers, surveillance cameras and data transmission equipment for analyzing and diagnosing railway infrastructure equipment, rail vehicles and parts thereof, in particular, bodies, wheels, brake pads, pantograph contact strips, doors, antennas, and fixings, and hardware and software processors for the analysis and processing of data collected by an analysis and diagnostic system of rail and road traffic; electronic and electric data processing equipment and satellite positioning equipment, namely, computers, computer hardware and peripherals, modems, databases, namely, downloadable databases in the field of monitoring rail and road traffic, handheld smartphones, global positioning system (GPS), radios, and electronic and electric apparatus for monitoring rail and road traffic, namely, computer hardware, computer peripherals, inductive devices, namely, solenoid valves, contactor coils, namely, coils for electrically controlled switches for electrical power circuits, electric relays, transformers, electronic inductors, radar receivers, electromagnets and electrometers, namely, magnets for magnetic levitation or distancing, and meters measuring electric charge or electrical use or difference that can be fixed on frameworks, portals, arms, upright signboards, and other support structures for detecting the passage of railway vehicles, devices placed on the rail comprising optical equipment, namely, cameras, sensors for monitoring the movement and functioning of rail and road vehicles, and equipment, namely, lasers, surveillance cameras, and data transmission equipment, namely, computers, computer hardware and peripherals, modems, handheld smartphones and global positioning system (GPS), for display of data, measurement of vehicle movement, position, electric charge or use, monitoring and controlling rail and road traffic; downloadable software and computer hardware and peripherals for analyzing and processing the data collected by the software and for analyzing and diagnosing the condition of railway and road infrastructure equipment; downloadable software and computer hardware and peripherals for managing rail and road transport lines; electro-dynamic apparatus for the remote control of railway points, namely, downloadable software and computer hardware, peripherals and inductive devices for detecting the passage of railway vehicles, devices placed on the rail comprising optical equipment for display of data, measurement, monitoring and control of railway points and railway traffic in particular lasers for detecting the presence and speed of vehicles or other objects on the lines or routes and surveillance cameras, and data transmission equipment; alarm devices and instruments, namely, anti-intrusion alarms and electronic alarms for signaling danger, to be used in railway trains, tramcars, buses, electric vehicles or autonomous vehicles; acoustic alarms; order transmitters, namely, downloadable software, electronic interface equipment, computer hardware and computer peripherals for transmitting electronic signals; alarm monitoring systems; fire-extinguishing apparatus; checking and diagnostic apparatus, in particular optical equipment, namely, laser and cameras for detecting the presence and speed of vehicles or other objects on the lines or routes, for checking the condition of a vehicle or for measuring the number of passengers, apparatus for data visualization, namely, electronic interfaces, downloadable computer software, hardware and peripherals for detecting the presence and speed of vehicles or other objects on the lines or routes, for checking the condition of a vehicle or for measuring the number of passengers, and measuring, surveillance and checking equipment, namely, lasers and surveillance cameras for detecting the presence and speed of vehicles or other objects on the lines or routes, for checking the condition of a vehicle or for measuring the number of passengers; data transmission apparatus and data transmission equipment, namely, network routers, modems and computer

terminals; electrical conductors for rolling stock for railways, for high-speed and very high-speed railway vehicles, for railway trains with distributed or concentrated power, for railway trains with or without an engine, for articulated or non-articulated railway trains, for tramcars, buses, electric vehicles and autonomous vehicles, and for stations and substations; electric cables; electric current collectors, namely, electrical conductors, electrical wires, coaxial cables, electrical cables, and electrical relays; electric and electronic installations, namely, computer hardware and peripherals, electrical sensors, electric controls, signaling instruments, transmitters and receivers for the remote control of rail and road operations; electric control panels; computerized electric control panels for rail and road operations; electric apparatus for commutation, namely, electric rotary switches; electric batteries; electric chargers for batteries; electric cells and accumulators; electric conductors of all metals; electricity ducts; speed checking apparatus for railway vehicles, tramcars, buses, electric vehicles and autonomous vehicles; blank magnetic and optical data media; electric and electronic relays; speed indicators; luminous, -optica, namely, digital, electronic and neon signs and mechanical signs for railway vehicles, tramcars and buses; luminous and mechanical signaling panels, namely, actuated and pretimed traffic signal controllers, signaling and information panels; luminous signs for roads; electro-dynamic apparatus for the remote control of signals; transmitters of electronic signals; road or railway traffic safety appliances, namely, electric signs, electric control panels, and components of safety appliances, namely, electrical sensors, transmitters and receivers and signalling instruments; electronic notice boards; time recording apparatus; electric alarm bells; transformers; navigation apparatus for railway and road vehicles in the nature of on-board computers; radio guidance apparatus for railway and road vehicles in the nature of on-board computers; data processing apparatus; distance measuring and speed and time recording apparatus for railway and road vehicles; computer hardware, recorded software and electronic control panels for automatic steering devices for vehicles; voltage regulators for railway and road vehicles; recorded computer software for analyzing and diagnosing the condition of infrastructure equipment, rail vehicles, buses, electric vehicles and autonomous vehicles and parts thereof, in particular, bodies, wheels, brake pads, pantograph contact strips, doors, antennas, and fixings, as well as enabling continuous and predictive maintenance of elements which are part of said vehicles and infrastructure, equipment and components thereof; downloadable computer software incorporated into signaling, control and checking devices for railway vehicles, tramcars, buses, electric vehicles and autonomous vehicles for analyzing and diagnosing the condition of infrastructure equipment, vehicles and vehicle parts thereof, in particular, bodies, wheels, brake pads, pantograph contact strips, doors, antennas, and fixings, as well as enabling continuous and predictive maintenance of elements which are part of these vehicles and infrastructure, equipment and components thereof; downloadable computer programs for navigation, journey planning and mapping programs for rail and road traffic; mobile telecommunications terminals for railway and road traffic, namely, wireless communication devices and hubs; downloadable management software and computer hardware for analyzing and processing data collected by an analysis and diagnostic system for ensuring the continuous management of rail and road traffic and the continuous or predictive adaptation and maintenance of rail and road traffic; downloadable management software and computer hardware for modelling and simulating rail and road equipment and optimizing rail and road equipment; downloadable software platform for modelling and digital simulation; downloadable software platform for simulation protocols; satellite aided navigational systems; data processing equipment and computers for fixed, track and on-board installations, for rolling stock for railways, for high-speed and very high-speed railway vehicles, for railway trains until distributed or concentrated pouter, for railway trains with or without an engine, for articulated or non-articulated railway trains, and for buses, electric vehicles and autonomous vehicles; apparatus for broadcasting, recording, transmitting or reproducing sound or images, being on-board and not on-board railway vehicles, buses, electric vehicles and autonomous vehicles, namely,

surveillance cameras, recording devices, namely, microphones, transmitters, modulators, namely, modems and analog and digital modulators, receivers, aerials and wave guides, namely, coaxial cables, and optical fibres; telecommunication apparatus, namely, analog and digital switches, telecom towers, fiber-optic cables, network routers, mobile phones, modems, smartphones and equipment for entering, storing, processing information or data, namely, data regarding the functioning of railway vehicles, buses, public transport vehicles, electric vehicles and autonomous vehicles; apparatus for capturing, counting, collecting, storing, converting, processing, entering, broadcasting and transmitting data, information and signals, namely, computer hardware and software, transmitters, modulators, namely, modems and analog and digital modulators, receivers, wireless communication devices, namely, mobile cordless telephones, GPS navigation device, satellite televisions, and wireless computer parts, and active, passive or intelligent Ethernet, high-definition multimedia interfaces or USB hubs; transmitters and receivers for radio broadcasting, broadcasting and remote transmission; Electronic transmitters and receivers for digital data; apparatus for transmitting and receiving satellite data; aerials and electric data transmission cables; telematic, namely, tracking devices, smartphones, telephone and computer terminals, in particular for free or restricted access to global telecommunications networks and free and restricted access to private networks (intranet); satellite geographical positioning receivers (GPS); video senders, namely, wireless communication devices for voice, data or image transmission; downloadable software for the continuous dissemination of images, sounds, films, videos, in particular videos on demand (VOD), information and data, for traveller information and telecommunications devices at stations, namely, computer hardware and recorded software for analyzing and providing traveller information, wireless communication devices for voice, date or image transmission and active, passive or intelligent Ethernet, high-definition multimedia interfaces or USB hubs; integrated multimodal systems comprised of recorded computer software, hardware, surveillance devices and sensors for the management of railway transport and road transport for passenger information, security and entertainment during their journeys; smoke extraction and fire detection systems comprised of recorded computer software, hardware, sensors and devices capable of measuring amounts of smoke; devices for radio telecommunications in tunnels and at stations for emergency use, namely, wireless communication devices for voice, data or image transmission and transmitters and receivers of radio signals; digital and electronic equipment for the cyber-protection of railway systems, namely, recorded computer software FOR the cyber-protection of railway systems, and hardware; electrical components in the nature of electric contactors, isolating switches, namely, electric disconnectors, direct current high-speed circuit breakers, single-phase circuit breakers with vacuum switching tubes for computers, radar equipment, telephone systems, amplifiers, radios, electrical components in the nature of three-phase contactors with vacuum switching tubes, for computers, radar equipment, telephone systems, amplifiers, radios commutators, namely, electric rotary switches, namely, for computers, rail equipment and communications equipment, multifunctional rooftop equipment, namely, computers, tablets, control panels and surveillance equipment, namely, cameras, audio detection systems, control consoles, drones, mobile surveillance systems, video surveillance equipment, and sensors, namely, movement, temperature, IR, ultrasonic, pressure, level, smoke, gas, touch or proximity sensors, and energy measuring systems comprised of measuring devices, sensors, computer hardware and recorded computer software FOR measuring energy; electric auxiliary converters for electric vehicles, buses, underground trains, regional trains, high-speed trains and locomotives; transformers for urban transport vehicles, regional trains, high-speed trains and locomotives, namely, traction for urban transport vehicles, regional trains, high-speed trains and locomotives; electricity supply substations comprising voltage transformation equipment, and substation monitors, namely, computer hardware and recorded software FOR monitoring substation activity and voltage transformation; electrical transformer stations, namely, electric substations; rectifiers, inverters, electric converters, and electric filters, namely, rotary converters and low pass inductor filters used in high power electrical applications; voltage surge and

electrical interference protectors; apparatus for recovering electrical energy produced by generation on a network, namely, energy recovery devices; electric active filtering devices for substations, namely, low pass inductor filters used in high power electrical applications; automatic digital checking, regulating and protecting machines for traction substations and downloadable software for checking and regulating these machines; equipment installed under a railway track or road for supplying power to passenger transport or freight vehicles, namely, urban transport vehicles, regional trains, high-speed trains and locomotives, namely, catenary consoles, transformers, electric cables, insulators as part of console; automatic electronic terminals for purchasing tickets; all the aforesaid goods relating to the field of rail, road and passenger and/or freight transport

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Engineering, research and development of new materials, namely, high strength grade steels, bainitic, high-carbon, hyper-eutectoid pearlitic rails, coated rails, and new equipment for monitoring, managing and developing locomotives and self-propelled vehicles, high-speed and very high-speed railway vehicles, railway trains with distributed or concentrated power, railway trains with or without an engine, railway trains, underground trains, tramcars, buses, electric vehicles and autonomous vehicles and transport systems including these vehicles, and new equipment, namely, signaling solutions, urban signaling, mainline signaling, freight and mining signaling, network control system for railways, metro, suburban rail and tram operations and digital mobility solutions; project planning, namely, transit planning services; planning of new rail, electric, and public transport vehicles and systems; preparation of scientific and technological reports; research and development of new materials, namely, high strength grade steels, and bainitic, high-carbon, hyper-eutectoid pearlitic and coated rails, organic and sintered friction materials destined to railway vehicles applications and rail and transport equipment; industrial analysis and research services provided by engineers and technical experts in the field of rail, electric, and public transport vehicles and systems; quality control for others; material testing; mechanical research; research and development of new products for others; technical research in the field of rail, electric, and public transport vehicles and systems; conducting technical project studies, namely, studies regarding rail, electric, and public transport vehicles and systems; engineering of rail, electric, and public transport vehicles and systems; industrial testing, namely, testing rail, electric, and public transport vehicles, systems, and infrastructure; design and development of computer systems; urban planning; research in the field of environmental protection; inspection of railway and road infrastructures; computer software consultancy; software as a service (SaaS) featuring software for operating and managing rail and public transport vehicles and systems in the fields of rail, electric, and public transport vehicles, systems and infrastructure; scientific research and design relating to modelling of static or dynamic models and the integration of the aforesaid engineering models for rail and road applications; engineering services in the field of rail, electric, and public transport vehicles, systems, and infrastructure; technical consultancy in the operation and supervision of computer networks, namely, of computer networking hardware and television broadcasting networks, namely, television broadcasting network hardware; technical consultancy in the field of information technology relating to rail and public transport vehicles and systems; design of computer programs for the processing of data and business texts; research in the field of telecommunications technology; technical consultancy and advice in the field of information technology for rail and public transport vehicles and systems; computer systems design; design of telecommunications and broadcasting systems; technical project studies, namely, studies of technical feasibility regarding rail, electric, and public transport vehicles, systems and infrastructure; and research in the field of maintenance of computer hardware, telecommunications equipment and television broadcasting equipment; computer technical consultancy, namely, technical consulting in the field of computing solutions for

rail, electric, and public transport vehicles, systems, and infrastructure; creation and installation of websites for others; design and maintenance of Internet sites for others; design, installation, maintenance, updating and rental of computer software and database server to third parties; computer security services, namely, restricting unauthorized access to computer networks and websites for protecting data and information from unauthorized access in the field of rail and road operations; design and development of computer languages for modelling and simulation; designing computer systems and on-board systems, namely, on-board systems for controlling rail, electric, and public transport vehicles; providing temporary use of non-downloadable computer programs for mapping, route planning and guidance via a communications network; all the aforesaid services relating to the field of rail, road and mass transit passenger and/or freight transport

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

CASE IDENTIFIERS

Serial Number 79316070 **Application Filing Date** Apr. 22, 2021 **Registration Number** 7077407 **Registration Date** Jun. 13, 2023 **Register** Principal **Mark Type** Service Mark **Publication Date** Mar. 28, 2023

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a gold, white, and dark gold shield. At the top of the shield, a gold and dark gold fleur-de-lis appears. A gold, dark gold, and white torch with a gold and dark gold flame appears at the center of the shield. Dark grey rays of light emanate from behind the center of the flame. At the bottom of the shield, a gold and dark gold banner appears carrying the white wording "VIRTUS ET HONORIS". On each side of the shield, a gold and dark gold branch with leaves appears. The white inside the shield is claimed as a feature of the mark. Below the shield, the blue wording "CHANDLER" appears above the gold wording "INSTITUTE OF GOVERNANCE". The white appearing outside of the shield is not claimed as a feature of the mark. **Color Drawing** Yes **Color Claimed** The color(s) gold, dark gold, white and dark grey is/are claimed as a feature of the mark. **Color Location** The mark consists of the wording "CHANDLER" in dark grey above the wording "INSTITUTE OF GOVERNANCE" in gold. Above the wording is a shield design with a banner across the bottom in gold with the wording "VIRTUS ET HONORIS" in white. The shield has an outer border that varies from gold to dark gold starting at the upper left corner and an inner border that varies from dark gold to light gold starting at the upper left corner. A thin white line separates the inner and outer borders. Behind the banner is a torch design in gold with white highlights. The torch design is centered at the base of the shield with gold rays on a white background emanating from the torch flame. A fleur-de-lis design in gold with dark gold shading is centered above the flame extending above and below the inner and outer shield borders. Dark gold branches with gold leaves extend up from the banner of each side of the shield design. **Disclaimer** "INSTITUTE OF GOVERNANCE" **Translation** The English translation of "VIRTUS ET HONORIS" in the mark is "virtue and honor".

GOODS AND SERVICES INFORMATION

For Educational and instruction services, namely, conducting classes and workshops in the field of arts, crafts, sports and academic and business knowledge; organization, arranging and conducting seminars, lectures, classes, symposiums, and workshops in the field of arts, crafts, sports and academic and business knowledge; publishing of electronic publications; reference libraries of literature and documentary records; book rental; book publishing; publication of printed matter; editing of electronic publications, namely, electronic books; arranging and planning of showing movies, shows, plays or musical performances; movie theatre presentations, namely, showing movies; movie film production and distribution; Providing motion pictures, not downloadable, via video-on-demand transmission services; providing a website featuring non-downloadable videos in the field of arts, crafts, sports and academic and business knowledge, entertainment, music and theater; presentation of live show performances; direction or presentation of plays; presentation of musical performances; providing on-line music and sound, not downloadable; production of radio or television programs; operation of video and audio equipment for production of radio and television programs; production and presentation of audio and video recordings, and still and moving images; organization of sporting events in the field of baseball, football, basketball, swimming, tennis and soccer; organization of social entertainment events excluding movies, shows, plays, musical performances, sports, horse races, bicycle races, boat races and auto races; providing sports facilities; providing amusement facilities; providing facilities for movies, shows, plays, music or educational training; booking of seats for shows; ticket reservation and booking services for

concerts, entertainment events, theater shows and sports events; providing information regarding availability of ticket reservation for entertainment, sporting and cultural events; rental of toys; rental of amusement machines and apparatus; rental of game machines and apparatus; rental of sound recordings and motion pictures; photography; interpreter services; translation

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Advertising and publicity services; organization, arranging and conducting trade fairs, exhibitions, shows and events for commercial purposes; providing information and consultancy relating to organization, arranging and conducting trade fairs, exhibitions, shows and events for commercial purposes; business management of customer loyalty program featuring the collection of points through trading stamp schemes, point cards, privileged user cards, and coupons; providing business information and consultancy relating to issuance, management, and redemption of customer loyalty points through trading stamp schemes, point cards, privileged user cards, and coupons; business management analysis; business consultancy; business management, business administration, and business administration assistance; providing information and consultancy relating to business management, business administration, and business administration assistance; marketing research; market analysis; providing information concerning commercial sales; providing business information relating to operational efficiency using computers and office equipment; business marketing services; compilation and systemization of information into computer databases; providing information and consultancy relating to compilation and systemization of information into computer databases; employment agencies; providing business assistance to others in the field of the operation of data processing apparatus, namely, computers, typewriters, teletypewriter machines and fax machines, document printers, and photo-copying machines; providing commercial information and advice for consumers in the choice of products and services; retail store services featuring electrical machinery and apparatuses; wholesale store services featuring electrical machinery and apparatuses

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Building construction; machinery installation; telecommunication wiring; installation of telecommunication equipment; installation of wireless telecommunication equipment and data communication apparatus and instruments; installation, maintenance and repair of computer hardware; construction consultancy; maintenance of building equipment; construction supervision; repair and maintenance of electronic machines and apparatus; repair and maintenance of telecommunication machines and apparatus; installation, repair and maintenance of telecommunications networks, apparatus, and instruments; building construction consultancy services

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Downloadable electronic game programs for arcade video game machines; recorded computer game programs for arcade video game machines; virtual reality headsets adapted for use in playing video games; virtual reality headsets; laboratory apparatus and instruments for the exchange of substances and heat; laboratory apparatus and instruments, namely, laboratory robots; photographic machines and apparatus, namely, camera shutters, camera hoods, and camera tripods, cameras, front and rear view cameras for vehicles; cinematographic machines and apparatus; optical machines and apparatus, namely, optical cables, optical code readers, optical character recognition apparatus, optical sensors, optical scanners and optical inspection apparatus for industrial use; measuring machines and instruments, namely, laser measuring systems, height measuring

instruments, distance measuring apparatus and antenna parameter measuring apparatus; testing machines and instruments for testing gas, liquids, solids and semiconductor testing apparatus; power distribution machines, namely, electrical power distribution blocks, electric power distribution machines and power distributing boxes; control machines and apparatus, namely, security control panels, motion detectors and cameras, front and rear view cameras for vehicles; rotary converters; phase modifiers; electrical and electronic control apparatus and instruments, namely, electric control devices for heating and energy management; batteries; wet cell batteries; fuel cells, dry cells, photoelectric cells and crystalline silicon solar cells; solar batteries; photovoltaic apparatus and installations for generating electricity, namely, photovoltaic solar modules for the production of electricity; electrical power supply apparatus other than generators, namely, voltage stabilizing power supply; photovoltaic apparatus for converting solar radiation to electrical energy; electric meters; electrical outlet tester; magnetic flow meters; magnetic testers, namely, magnetic wall stud finders; electric wires and cables; telecommunication machines and apparatus, namely, devices for transporting and aggregating voice, data, and video communications across multiple network infrastructures and communications protocols; personal digital assistants; electronic machines, apparatus and their parts for reading credit cards, electronic computers, electronic components for computers, electronic data processing apparatus, electronic navigational and positioning apparatus and instruments; computers; computer peripheral devices; data processing apparatus; computer hardware; downloadable computer programs for video and computer games; recorded computer operating programs; downloadable computer programs for network management; downloadable computer programs for using the internet and the worldwide web; downloadable computer programs for connecting remotely to computers or computer networks; magnetic cores; resistance wires; electrodes, other than welding electrodes or medical electrodes; eyeglasses; downloadable video game programs for consumers; recorded video game programs for consumers; electronic circuits and CD-ROMs recorded with programs for hand-held games with liquid crystal displays; downloadable music files and downloadable sound files; downloadable image files containing artwork, text, audio, video, games, and Internet Web links relating to sporting and cultural activities; pre-recorded digital video discs featuring animation, music and artistic performances and pre-recorded video tapes featuring animation, music and artistic performances; pre-recorded video tapes featuring music; audio and video recordings featuring animation, music and artistic performances; downloadable electronic publications in the nature of newsletters, newspapers, books, magazines, and manuals in the field of science, medicine, economics, and sports; recorded electronic publications in the nature of newsletters, newspapers, books, magazines and manuals in the field of science, medicine, economics and sports; downloadable image files containing artwork, text, audio, video, and games and downloadable video files containing artwork, text, audio, video, and games; exposed cinematographic films; slide film, exposed; slide film mounts; humanoid robots with artificial intelligence; telepresence robots

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Telecommunication access services; telephone communications, facsimile communication, communications by electronic computer terminals, communications by computer terminals, mobile telephone communication; providing access to an online chat room, electronic bulletin board and online discussion forum for transmission of messages among users in the field of general interest; transmission, broadcasting and reception of audio, video, still and moving images, text and data in real time; transmission, broadcasting and reception of audio, video, still and moving images, text and data; providing access to telecommunications networks via Internet and other telecommunication means; providing information and consultancy relating to providing access to telecommunications networks via Internet and other telecommunication means; providing information

and consultancy relating to telecommunication services; news agency services for electronic transmission; rental of telecommunication equipment including telephones and facsimile apparatus

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Providing weather information, earthquake information and tsunami information; architectural design; surveying; providing information and consultancy relating to architectural design; urban planning; providing information and consultancy relating to urban planning; designing of machines, apparatus, instruments including their parts or systems composed of such machines, apparatus and instruments; providing information and consultancy relating to designing of machines, apparatus, instruments including their parts or systems composed of such machines, apparatus and instruments; design of production automation facilities in factories; providing information and consultancy relating to design of production automation facilities in factories; engineering services in the field of energy, architecture, telecommunication and environment technologies; computer design services; software design; web site design; graphic design; packaging design; design, creation, and maintenance of computer software; providing information and consultancy relating to design, creation, and maintenance of computer software; consultancy relating to advice regarding design, creating, and maintenance of software for computer systems; providing search engines for the internet; providing temporary use of online non-downloadable computer software for use in collecting, analyzing, and storing big data; software as a service (SaaS) featuring software for collecting, analyzing, and storing big data; cloud computing featuring software for use in collecting, analyzing, and storing big data; rental of computer server memory space for collecting, analyzing, and storing big data; providing scientific and technological information relating to the result of collecting, analyzing, and storing big data; designing, creating and maintaining computer software for telecommunication network systems; providing technological information and consultancy relating to building, creating and maintaining telecommunication network systems; design, creating, and maintenance of application programs for personal digital assistants; providing information and consultancy relating to design, creating, and maintenance of application programs for personal digital assistants; monitoring of computers and computer systems by remote access to ensure proper functioning; off-site data backup; recovery of computer data; installation of computer programs, computer programming services for others in the field of software configuration management of computer programs, conversion of computer programs and data, other than physical conversion, updating of computer programs for third parties, and copying of computer software; providing information and consultancy relating to installation of computer programs, computer programming services for others in the field of software configuration management of computer programs, conversion of computer programs and data, other than physical conversion, updating of computer programs for third parties, and copying of computer software; user authentication services using single sign-on technology for access to computer networks; technological advice relating to computers, automobiles and industrial machines provided to Internet users by means of a support hotline; research on building construction or city planning; testing or research on prevention of pollution; testing or research on electricity; testing or research on civil engineering; testing or research in the field of telecommunications and mobile telecommunications; surveys, research and consultancy relating to urban planning featuring commercial modernization and activation of shopping venue; geological surveys and research relating to building construction, city planning, and land development; providing information and consultancy relating to geological surveys and research relating to building construction, city planning, and land development; architectural planning and construction drafting consultancy relating to building construction, city planning, and land development; geological surveying, analyzing, estimating relating to environment; providing scientific and technological advice relating to environment; providing information relating to surveying, analyzing, estimating and providing advice

relating to environment; testing or research in the field of medical instruments, video surveillance equipment, computer machine and computer software; research and consultancy in the field of computer software; testing or research on telecommunication machines, apparatus and instruments; testing and research services relating to telecommunication machines, apparatus, device and instruments; research, design, and development of self-driving technology, self-driving cars and computer software for self-driving cars; consultancy, providing advice and information services relating to research, design, and development of self-driving technology, self-driving cars and computer software for self-driving cars; rental of computers; providing on-line non-downloadable computer software on data networks; cloud computing featuring software for use in database management; cloud computing featuring software for use as a spreadsheet; cloud computing featuring software for word processing; cloud computing featuring software for use in electronic storage of data; software as a service (SaaS) featuring software for use in database management; software as a service (SaaS) featuring software for use as a spreadsheet, software as a service (SaaS) featuring software for word processing; software as a service (SaaS) featuring software using artificial intelligence for use in software development, machine learning, facial and speech recognition; rental of computer server memory space; rental of peripheral devices for computers; providing on-line non-downloadable computer programs for mobile phones and smart phones; providing information and consultancy relating to providing on-line non-downloadable computer programs for mobile phones and smart phones; platform as a service (PaaS) featuring computer software platforms for use in database management; platform as a service (PaaS) featuring computer software platforms for use as a spreadsheet; platform as a service (PaaS) featuring computer software platforms for word processing; platform as a service (PaaS) featuring computer software platforms for use in software development, machine learning, facial and speech recognition; computer system analysis; providing information relating to computer system analysis; consultancy and information services relating to information technology; technical research in the field of aeronautics; technical research in the field of pharmaceutical studies; technical research in the fields of materials science; technical research in the field of electrical engineering; technical research in the field of artificial intelligence; technical writing; provision of technical information relating to science technology; research and development of new products for others

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the portrait of a Chinese man in ancient clothing. To his left appears the Chinese character that transliterates to "FU", and to his right appears the Chinese character that transliterates to "SHAN". These all appear against a shaded and outlined circle background. Below this design appear three Chinese characters that transliterate to "DA NING TANG", with the wording "SINCE" to its left and "1383" to its right, all appearing on a banner design. Below these appears the wording "DA NING TANG". All the wordings in the mark appear in stylized font. **Disclaimer** "SINCE 1383", "TANG", OR THE NON-LATIN CHARACTER THAT TRANSLITERATES TO "TANG" **Translation** The English translation of "DA NING TANG" in the mark is "great serenity shop". **Transliteration** The three non-Latin characters on the banner transliterate to DA NING TANG and this means great serenity shop in English. The two non-Latin characters inside the circle of the mark transliterate to FU and SHAN and they mean (FU) teacher or a surname (SHAN), and mountain in English. **Name Portrait Consent** The name(s), portrait(s), and/or signature(s) shown in the mark does not identify a particular living individual.

machines and agricultural implements, other than hand-operated; repair, maintenance and remodeling of waste compacting machines and apparatus; providing information regarding location of waste compacting machines and apparatus for construction purposes; providing operational status information regarding waste compacting machines and apparatus for construction purposes; providing information regarding location of waste compacting machines and apparatus for repair and maintenance purposes; providing operational status information regarding waste compacting machines and apparatus for repair and maintenance purposes; providing information regarding maintenance of waste compacting machines and apparatus; repair, maintenance and remodeling of waste crushing machines and apparatus; providing information regarding location of waste crushing machines and apparatus for construction purposes; providing operational status information regarding waste crushing machines and apparatus for construction purposes; providing information regarding location of waste crushing machines and apparatus for repair and maintenance purposes; providing operational status information regarding waste crushing machines and apparatus for repair and maintenance purposes; providing information regarding maintenance of waste crushing machines and apparatus; repair, maintenance and remodeling of waste and trash separator machines; providing information regarding location of waste and trash separator machines for construction purposes; providing operational status information regarding waste and trash separator machines for construction purposes; providing information regarding location of waste and trash separator machines for repair and maintenance purposes; providing operational status information regarding waste and trash separator machines for repair and maintenance purposes; providing information regarding maintenance of waste and trash separator machines; repair, maintenance and remodeling of snow ploughs, snow throwers and snow blowers; providing information regarding location of snow ploughs, snow throwers and snow blowers for snow removal purposes; providing operational status information regarding snow ploughs, snow throwers and snow blowers for snow removal purposes; providing information regarding location of snow ploughs, snow throwers and snow blowers for repair and maintenance purposes; providing operational status information regarding snow ploughs, snow throwers and snow blowers for repair and maintenance purposes; providing information regarding maintenance of snow ploughs and apparatus; rental of snow ploughs and apparatus and parts and attachments thereof; repair, maintenance and remodeling of measuring and testing machines and instruments; providing information regarding location of measuring or testing machines and instruments for construction purposes; providing operational status information regarding measuring or testing machines and instruments for construction purposes; providing information regarding location of measuring or testing machines and instruments for repair and maintenance purposes; providing operational status information regarding measuring or testing machines and instruments for repair and maintenance purposes; providing information regarding maintenance of measuring or testing machines and instruments; repair, maintenance and remodeling of automobiles; providing information regarding location of automobiles for construction purposes; providing operational status information regarding automobiles for construction purposes; providing information regarding location of automobiles for repair and maintenance purposes; providing operational status information regarding automobiles for repair and maintenance purposes; providing information regarding maintenance of automobiles

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Downloadable cloud computing computer software and computer hardware for adding computerised construction functions to construction machines and apparatus, civil engineering machines and apparatus, dump trucks and vehicles; downloadable cloud computing computer software and computer hardware for construction process management for enabling computerised construction by construction machines and apparatus, civil engineering machines and apparatus, dump trucks and vehicles; downloadable cloud computing computer software for construction process management and computer hardware; downloadable cloud computing computer software for construction process management on a cloud computing platform; downloadable cloud computing software for satellite navigation systems for construction process management; downloadable cloud computing computer software for Global Positioning Systems for construction process management; downloadable cloud computing computer programs and downloadable cloud computing computer software for operation, control, maintenance, diagnosis, management and data processing of industrial robots; downloadable cloud computing computer programs for machine position management, operational status management and provision of maintenance management information for maintenance management of metalworking machines and tools, construction machines and apparatus, mining machines and apparatus, civil engineering machines and apparatus, and loading-unloading machines and apparatus, machines and apparatus for forestry, agricultural machines and agricultural implements, other than hand-operated, waste compacting machines and apparatus, waste crushing machines and apparatus, waste and trash separator machines, snow ploughs and apparatus, measuring and testing machines and instruments, automobiles; downloadable cloud computing computer programs for generating construction data related to construction services; downloadable cloud computing computer programs for data processing; pre-recorded computer programs and pre-recorded computer software reproducing in 3D for the purpose of model-making, editing, measuring, graph-excluding and data-transferring to other applications; downloadable cloud computing computer software for creating and drawing 2D and 3D construction graphics; downloadable computer software platforms for construction process management; downloadable computer programs for construction process management; electronic machines, apparatus and their parts, namely, construction machinery control equipment in the nature of construction power controllers; telecommunication machines and apparatus, namely, communication equipment in the nature of communication electrical controllers for control of construction machinery; satellite navigational apparatus, namely, location information acquisition device in the nature of vehicle location detection system comprised primarily of display monitors, computers, image sensors, and video cameras; global positioning system (GPS) apparatus; global positioning system (GPS) transceivers; camcorders; digital cameras; measuring and testing machines and instruments, namely, tool measuring instruments; optical measuring apparatus, namely, surveying instrument; measuring apparatus, namely, surveying machines and instruments for civil engineering for three-dimensional shape; photographic apparatus and instruments, namely, surveying camera; cameras; optical machines and apparatus, namely, surveying instrument; power distribution and control machines and apparatus, namely, wireless communication devices allowing remote control of construction machinery; rotary converters; phase modifiers; electrical cells; electric wires and cables; gyro sensors for measuring the rotation speed of vehicles; antennas; humanoid robots with artificial intelligence; information retrieval support telepresence robots not for industrial, medical, playing purposes; teaching robots not for industrial, medical, playing purposes; laboratory robots; security surveillance robots **International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Providing GPS and GNSS (Global Navigation Satellite System) transportation and travel information regarding construction machines and apparatus for transportation purposes; providing GPS and GNSS (Global Navigation Satellite System) transportation and travel information regarding loading-unloading machines and apparatus for transportation purposes; providing GPS and GNSS (Global Navigation Satellite System) transportation and travel information regarding civil engineering machines and apparatus for transportation purposes; providing GPS and GNSS (Global Navigation Satellite System) transportation and travel information regarding metalworking machines and apparatus for transportation purposes; providing GPS and GNSS (Global Navigation Satellite System) transportation and travel information regarding mining machines and apparatus for transportation purposes; providing GPS and GNSS (Global Navigation Satellite System) transportation and travel information regarding machines and apparatus for forestry for transportation purposes; providing GPS and GNSS (Global Navigation Satellite System) transportation and travel information regarding agricultural machines and agricultural implements, other than hand-operated for transportation purposes; providing GPS and GNSS (Global Navigation Satellite System) transportation and travel information regarding waste compacting machines and apparatus for transportation purposes; providing GPS and GNSS (Global Navigation Satellite System) transportation and travel information regarding waste crushing machines and apparatus for transportation purposes; providing GPS and GNSS (Global Navigation Satellite System) transportation and travel information regarding waste and trash separator machines for transportation purposes; providing GPS and GNSS (Global Navigation Satellite System) transportation and travel information regarding snow ploughs, snow throwers and snow blowers for transportation purposes; providing GPS and GNSS (Global Navigation Satellite System) transportation and travel information regarding measuring or testing machines and instruments for transportation purposes **International Classes** 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Providing temporary use of online non-downloadable computer software for adding computerised construction functions to construction machines and apparatus, civil engineering machines and apparatus, dump trucks and vehicles; rental of computer software for adding computerised construction functions to construction machines and apparatus, civil engineering machines and apparatus, dump trucks and vehicles; rental of computer hardware for adding computerised construction functions to construction machines and apparatus, civil engineering machines and apparatus, dump trucks and vehicles; providing temporary use of online non-downloadable computer software for enabling computerised construction by construction machines and apparatus, civil engineering machines and apparatus, dump trucks and vehicles; rental of computer software for enabling computerised construction by construction machines and apparatus, civil engineering machines and apparatus, dump trucks and vehicles; rental of computer hardware for enabling computerised construction by construction machines and apparatus, civil engineering machines and apparatus, dump trucks and vehicles; rental of computer software and computer hardware; cloud computing, namely, providing software as a service (SAAS) services featuring software for controlling and programming metalworking machines and tools, construction machines and apparatus, loading-unloading machines and apparatus, mining machines and apparatus, machines and apparatus for use in forestry, agricultural machines and agricultural implements other than hand-operated, waste compacting machines and apparatus, waste crushing machines and apparatus, waste and trash separator machines, snow ploughs, measuring or testing machines and instruments, automobiles, and industrial robots; providing temporary use of online non-downloadable computer software for accessing and using a cloud computing network; rental of operating software for accessing and using a cloud computing network; design and development of operating software for accessing and using a cloud computing network; electronic storage of data, drawings, documents,

digital photographs, music, images, video and electronic data by cloud computing; providing temporary use of online non-downloadable computer software for construction process management for satellite navigation systems; rental of computer software for satellite navigation systems; providing temporary use of online non-downloadable computer software for construction process management for Global Positioning Systems (GPS); rental of computer software for Global Positioning Systems (GPS); provision of online non-downloadable computer programs and online non-downloadable computer software for construction process management and rental of computer programs and computer software for operation, control, maintenance, diagnosis, management and data processing of industrial robots; providing temporary use of online non-downloadable computer software for operation, control, maintenance, diagnosis, management and data processing of industrial robots; rental of computer software for operation, control, maintenance, diagnosis, management and data processing of industrial robots; provision of online non-downloadable computer programs and rental of computer programs for machine position management, operational status management and provision of maintenance management information for maintenance management of metalworking machines and tools, construction machines and apparatus, mining machines and apparatus, civil engineering machines and apparatus, and loading-unloading machines and apparatus, machines and apparatus for forestry, agricultural machines and agricultural implements, other than hand-operated, waste compacting machines and apparatus, waste crushing machines and apparatus, waste and trash separator machines, snow ploughs, snow throwers and snow blowers, measuring and testing machines and instruments, automobiles; provision of online non-downloadable computer programs and rental of computer programs for generating construction data related to construction services; electronic data storage and data back-up services; computer programming for information management; maintenance of database computer software; platform as a service featuring computer software platforms for construction process management; development of computer platforms; providing a web hosting platforms on the Internet and other communication networks for construction process management; providing computer programs on data networks, namely, providing software as a service (SAAS) services featuring software for controlling and programming metalworking machines and tools, construction machines and apparatus, loading-unloading machines and apparatus, mining machines and apparatus, machines and apparatus for use in forestry, agricultural machines and agricultural implements other than hand-operated, waste compacting machines and apparatus, waste crushing machines and apparatus, waste and trash separator machines, snow ploughs, measuring or testing machines and instruments, automobiles, and industrial robots; rental of computer programs on data networks; computer software design, computer programming and maintenance of computer software; technological advice, namely, technical advice relating to operation of computer programs; technological advice relating to the operation of computers, the operation of computers in automobiles, and the operation of computers in industrial machines; technological advice relating to operation of machines; technical urban project planning; testing and research services, namely, quality control for others relating to machines, apparatus and instruments; designing of new products for others in the field of machines, apparatus, instruments and parts and systems composed of such machines, apparatus and instruments; design and development of computer hardware, software and databases; design of building construction, civil engineering structures and underground structures, namely, architectural design services and consultancy relating thereto; design of civil-engineering construction and building construction, namely, architectural design services and consultancy relating thereto; data encryption and decoding services; technical data analysis services, namely, data mining, computer programming and computer modelling for data analysis; industrial research, testing and analysis services, namely, quality control for others; surveying and engineering; materials testing, analysing, and measuring in the nature of calibration in the field of civil engineering and building construction; testing, data-analysing and measuring regarding civil engineering and building construction, namely, providing quality control of civil engineering and building construction projects for others;

rental of measuring and testing machines and instruments and parts and attachments thereof; scientific consultancy in the field of consumed fuel, fuel level and operating data of metalworking machines and tools, construction machines and apparatus, loading-unloading machines and apparatus, civil-engineering machines and apparatus, mining machines and apparatus, machines and apparatus for use in forestry, agricultural machines and agricultural implements other than hand-operated, waste compacting machines and apparatus, waste crushing machines and apparatus, waste and trash separator machines, snow ploughs, snow throwers and snow blowers, measuring and testing machines and instruments, and automobiles; scientific consultancy in the field of consumed power, charge level and operating data of metalworking machines and tools, construction machines and apparatus, loading-unloading machines and apparatus, mining machines and apparatus, machines and apparatus for use in forestry, agricultural machines and agricultural implements other than hand-operated, waste compacting machines and apparatus, waste crushing machines and apparatus, waste and trash separator machines, snow ploughs, snow throwers and snow blowers, measuring or testing machines and instruments, automobiles, and industrial robots; energy auditing; consultancy in the field of energy measurement to improve energy efficiency; engineering consultancy in the field of energy-saving; drafting of construction plans

Examining Attorney FARRELL, ANNE M

REASON FOR PUBLICATION

Trademark Registration Issued - Principal Register

Mark Literal(s) EUROAPI ACTIVE SOLUTIONS FOR HEALTH

CASE IDENTIFIERS

Serial Number 79324636 **Application Filing Date** Jul. 23, 2021 **Registration Number** 7077439 **Registration Date** Jun. 13, 2023 **Register** Principal **Mark Type** Service Mark Trademark **Publication Date** Mar. 28, 2023

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 5 - AN ILLUSTRATION DRAWING WITH WORD(S) /LETTER(S)/ NUMBER(S) IN **Description of the Mark** The mark consists of the stylized wording "EUROAPI" where "EUR" is in blue, and the "O" is half blue and half pink and the wording API is in pink; below is the stylized wording "ACTIVE SOLUTIONS FOR HEALTH" in blue. **Color Drawing** Yes **Color Claimed** The colors blue and pink are claimed as a feature of the mark.

RELATED PROPERTIES INFORMATION

International Registration 1623570 **International Registration Date** Jul. 23, 2021

GOODS AND SERVICES INFORMATION

For Pharmaceutical preparations for the treatment of cardiovascular diseases, central and peripheral nervous system diseases, respiratory diseases, cancer, allergies, gynecological diseases, rheumatic diseases, urological diseases, gastroenterological diseases, infectious diseases, eye disease, dermatological diseases, autoimmune diseases, blood diseases, genital diseases, endocrine diseases, intestinal diseases, internal medicine diseases, metabolic diseases, psychiatric disorders, muscular diseases; hygienic products for medicine, namely, bacterial preparations and disinfectants; dietetic foods for medical or veterinary use; food supplements for humans and animals; disinfectants

International Classes 5 - Primary Classes **US Classes** 5, 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Chemicals for use in industry, research and science; bio-organic products in the nature of biochemical preparation for use in industry, research and science; active chemical and bio-organic ingredients in the nature of biochemical preparation for use in industry, research and science

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Treatment of chemicals, namely, custom manufacture and custom synthesis of pharmaceuticals and active pharmaceutical ingredients; custom manufacture of pharmaceuticals

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Research and development services in the field of health and biotechnology, namely research with respect to the development of new active ingredients; research for identifying means of industrial synthesis of pharmaceutical products; conducting of industrial quality studies, namely scientific study and research in the area of industrial quality; research relating to industrial quality namely scientific research in the area of industrial quality; design and development of methods for analyzing chemicals and pharmaceutical and bio-organic products; development and scientific study of analytical methods to control chemical reactions; research and development services applied in the pharmaceutical and chemical fields belonging to others in the nature of the development of chemical or biochemical synthesis pathways; research and development in the field of pharmaceutical, chemical, agrochemical and industrial processes; scientific and industrial analysis services; scientific analysis services for the identification and physical characterization of chemical molecules; design of development batches or commercial batches for others in the pharmaceutical and chemical fields; formulation and pre-formulation development for pharmaceutical, chemical and agrochemical products; engineering services in the field of formulation, evaluation, processes, estimation and projects in the scientific and industrial fields, and the chemical and pharmaceutical fields; scientific study and research services in the field of industrial safety; conducting chemical surveying with respect to fundamental and industrial technologies especially for chemical and pharmaceutical or organic products and their processing

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

International Registration 1082530 **International Registration Date** Jan. 27, 2011

GOODS AND SERVICES INFORMATION

For Insurance agency and brokerage services; financing services; financial consultancy; financial management; providing information and consultancy relating to all the aforesaid services

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For Providing of training in the fields of business, advertising, marketing, public relations, and database management; Providing of training in the fields of insurance and finance; Providing of training in the fields of installation, maintenance, and repair of computer hardware and telecommunication apparatus; Providing of training in the field of telecommunication technologies; Providing of training in the fields of design, development, installation, maintenance, and repair of computer software

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Database management; computerised database management; business organisation consultancy; compilation and input of information into computer databases; advertising services and evaluations relating to commercial matters; marketing and public relations services; business operation, business administration and office functions; business organization and management consulting and economic forecasting; registration, transcription, composition, compilation and systematisation of written and digital communications; analysis and compilation of mathematical and statistical data for business purposes; preparing reports relating to business matters; office functions in the nature of searching for data in computer files for others; providing information and consultancy relating to all of the aforesaid services; arranging of trade fairs, exhibitions, events, and business meetings events for commercial or advertising purposes

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Installation of computer hardware components; installation, maintenance and repair of computer networking hardware; services for the installation and maintenance of computer hardware; building construction and repair services; repair, installation and maintenance of telecommunication apparatus; cable laying services; maintenance and repair of computer hardware; providing information relating to all the aforesaid services

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Blank magnetic data carriers; blank digital storage media for sound and image files; calculating machines; apparatus for processing, transmission, and reproduction of data; computer storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; computers; memory cards; microchip cards having microprocessors; electric wires, blank computer discs, and semiconductor devices designed for transmission of computer programs; telecommunications apparatus and instruments, namely, apparatus for transmission of communication and data, apparatus for telecommunication networking, namely, computer networking hardware; electronic circuits; telecommunications networking computer hardware, namely, computer networking hardware; recorded computer software for telecommunication networking; electric cables and cable systems in the nature of structured cabling systems comprised of telecommunications cables and hardware, namely, fibre optic cables, and optical cable connectors, all the aforesaid for telecommunication purposes; computer peripheral devices, namely, document printers, photo printers, video printers, thermal printers, 3-D printers and computer terminals; measuring instruments, namely, electromagnetic measuring detectors, electronic devices for measuring electric current, clamp meters for measuring electricity; component parts for the aforesaid goods; Downloadable cloud-computing software for deploying virtual machines to a cloud computing platform, managing virtual machines on a cloud computing platform; recorded computer programs for security monitoring for big data for cloud servers, for monitoring cloud networks, for big data management, for data and file management, for use in database management, for datacommunication, for data mining, for use in interactive database management, for the integration of collected data using artificial intelligence and machine learning in the field of big data, for authorising access to databases, for data and file management, for creating searchable databases of information and data, for application and database integration, for automating security, utility, and cryptography and for remote control of security equipment; parts and fittings for all the aforesaid goods

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Telecommunication services, namely, communications via computer terminals, transmission of data via computer terminals; providing access to the Internet; providing user access to global and local computer networks; providing access to websites and computer databases; providing of telecommunication facilities for sending, providing, and displaying data and information from electronic databases; providing access to telecommunication networks; providing information and consultancy relating to all the aforesaid services; rental of telecommunication equipment; Internet access provider services

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Services in the field of computerization, namely, planning, design and implementation of computer technologies for others, computer security services in the nature of providing authentication, issuance, validation and revocation of digital certificates, data conversion of computer programs and data, not physical conversion, computer monitoring service which tracks hardware performance and processes and sends out historical reports and alerts for quality control, and computer services, namely, monitoring and reporting on the performance, availability, and errors of web sites of others for quality control; design and development of computer hardware, computer software, computer network systems, programs, and databases, and consultancy thereof; rental of computer hardware, computer software, computer networking hardware systems, and computer programs; installation of computer software; maintenance and repair of computer software; computer network design for others; technical advice relating to operation of computer hardware and software; development and maintenance of websites for others; providing information in the nature of preparing expert reports in the field of computer hardware, software, and network systems used in companies and security thereof, and providing consultancy on integration of computer programs and systems and security thereof; computer systems analysis; commissioned writing of computer programs, software, and code for others for the creation of web pages on the internet; hosting the web sites of others on a computer server for a global computer network; rental of electronic server memory space on the internet

For Adverting services; business management; business administration for monitoring, managing, data and information collation, data and information storage and checking or supervision of aquatic biosecurity of maritime industries

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Scientific, measuring, signaling, notification and teaching apparatus, namely, measuring apparatus and sensors for use in measuring volume, quantity, quality and movements of marine pests for analysis of aquatic biosecurity risks and threats and marine pests, and instruments for manual and automated monitoring, namely, measuring instruments and sensors for use in measuring volume, quantity, quality and movements of marine pests for previewing aquatic biosecurity risks and threats; apparatus and instruments for managing, data and information collation, data and information storage or checking supervision of aquatic biosecurity of maritime industries, namely, marine pests and aquatic pollutants counting apparatus and electronic aquatic life analyzers to manage data regarding aquatic biosecurity risks and threats; apparatus for recording, collation, storage, transmitting and/or reproducing of images and videos for manual and automated monitoring, managing and checking or supervision of aquatic biosecurity of maritime industries, namely, audio and video recorders, computers for image collection and image storage and radio and telecommunications transmitters for data used to prevent invasion of marine pests and management and preview of aquatic biosecurity risks and threats; downloadable computer software and downloadable mobile applications for portals which foresee and prevent invasion of marine pests by providing near real-time information of potential risks relating to aquatic biosecurity risks and threats; meteorological and oceanographic forecasting apparatus and instruments for manual and automated vessel route monitoring, managing and checking or supervision related to aquatic biosecurity of maritime industries, namely, meteorological measurement apparatus for measuring heat, cold, wind, sunlight,

rain, snow and temperature and oceanographic measuring apparatus for measuring ocean marine life and ecosystems, ocean movement, and ocean temperature; forecasting apparatus and instruments for manual and automated vessel hull and hull niche biological fouling monitoring, managing and checking or supervision related to aquatic biosecurity of maritime industries, namely, anti-fouling instruments in the nature of sensors to detect the growth of slime, weeds, and barnacles on ships

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Scientific and technological services, namely, providing an internet website portal for scientific research purposes which enable the users to foresee and prevent the invasion of marine pests by providing near real-time information of potential risks relating to aquatic biosecurity risks and threats; industrial analysis and research services, namely, industrial research featuring analysis, data collection, data storage, information collection, and information storage in the field of aquatic biosecurity in the maritime industry; industrial analysis and research services, namely, engineering services, scientific research and development services for manual and automated monitoring, managing, notification, data and information collation, data and information storage and checking or supervision of aquatic biosecurity of maritime industries; scientific, engineering and technological services, namely, engineering, scientific research, technological consultation in the technology field of computer hardware systems and computer software portals for manual and automated monitoring, analysis, managing, notification, data and information collation, data and information storage and checking or supervision of aquatic biosecurity of maritime industries via software and computer applications; meteorological and oceanographic forecasting services for manual and automated vessel route monitoring, managing and checking or supervision related to aquatic biosecurity of maritime industries; marine and ocean engineers' forecasting services in the nature of inspection of vessel hulls featuring manual and automated vessel hull and hull niche biological fouling monitoring related to maritime industries

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Electric electroacoustics apparatus and instruments and parts therefor, namely, wireless microphones with integrated speakers; apparatus and instruments for recording, transmission and reproduction of sound; apparatus for recording and reproduction of electrical signals, in particular audio signals, namely, apparatus for recording, transmission or reproduction of sound; apparatus for wireless transmission of acoustic information, namely, wireless headphones, wireless speakers, wireless microphones; apparatus for sending, transmitting and receiving audio or video signals, in particular high-frequency radio transmitters; pocket transmitters and receivers, in particular pocket-sized radio transmitters and receivers in the uhf and vhf range, and component parts therefor; diversity receivers being audio-video receivers; small earphones; aerials; narrow-band system and broadband system apparatus for use in sound transmission technology, namely, wireless narrowband and broadband radios; transmitters, in particular multi-channel wireless transmitters, single-channel wireless transmitters, infrared wireless transmitters, and radio frequency (RF) transmitters; receivers, in particular multi-channel, single-channel and dual-channel audio and video receivers, infrared optical receivers and radio receivers, headphone audio receivers, stethoset audio receivers and component parts for the aforesaid goods; apparatus for sound transmission and sound reproduction apparatus; headsets; conference installations consisting of loudspeakers, microphones, video monitors and telephones; devices for the analogue and digital transmission of audio and video and data signals, namely, digital to analog converters (DACs) and analog to digital converters (ADCs); downloadable and recorded software for operation of the aforesaid control, tuning and checking transmitter and receiver systems; data carriers equipped with programs being recorded software for recording and reproduction of audio signals and for operating headphones, speakers and microphones; software, in particular on CD-roms, DVDs, hard drives, floppy disks and volatile and non-volatile memories being recorded software for recording and reproduction of audio signals and for operating headphones, speakers and microphones; conference and telecommunications technology apparatus and instruments, namely, conference headphones, conference speakers and conference microphones; microphones, in

particular dynamic microphones, condenser microphones, electric microphones, headset microphones, gooseneck microphones, line microphones, wireless microphones, lapel microphones, microphones with integrated transmitters, in particular condenser microphones with built-in high-frequency transmitters, microphone modules, pressure microphones, switchable microphones, microphone capsules and component parts for the aforesaid goods; microphone isolating distributors being distribution amplifiers for audio signals; apparatus for broadcasting sound, data or images; repeating electronic coils; microphone cases; electroacoustic transducers, in particular headphones, dynamic headphones, electrostatic headphones, wireless headphones, headphones for use in vehicles and aeroplanes, in particular having infrared and radio transmission capability, headphones having active noise compensation, loudspeakers, and wireless loudspeakers; parts and accessories for electroacoustic converters and headphones, namely, ear pads, volume controllers, wireless network repeaters, battery pack plugs, plug-in battery chargers, and handset cords specially adapted for electroacoustic frequency converters and headphones; electro-acoustic and visual identifiable guide systems, including multi-lingual guide systems, consisting of transmitters and receivers, in particular sound signal audio receivers and headphones; downloadable software for controlling sound recording and reproduction apparatus; downloadable software for recording and reproduction of audio signals; conference phones **International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

International Registration 1632573 **International Registration Date** Sep. 12, 2021

GOODS AND SERVICES INFORMATION

For Collagen based medicated nutritional supplements; food supplements being dietary supplements; dietary supplements; vitamin supplements; dietary food supplements; protein dietary supplements; dietary protein supplements; medicinal food supplements; non-carbohydrate dietary supplements; nutritional supplement energy bars; nutritional supplement protein bars; dietary supplements with a cosmetic effect; protein supplements for humans; Nutritional supplement drinks for dietary purposes; antioxidants being dietary supplements; dietary nutritional supplements; nutritional supplements; vitamins; medicated supplements for food for supporting the skin, hair, nails, blood vessels, heart, immune system and digestive tract; food supplements for medical purposes; herbal medicine, herbal extracts, yeast extracts, root extracts and plant extracts, compounds and beverages for supporting the skin, hair, nails, blood vessels, heart, immune system and digestive tract; herbal preparations for use in medicine; herbal tea for medicinal use; herbal dietary supplements; oils for use in medicine; Medicated preparations in gel form for cleansing the body; herbal remedies for dermatological, gastrointestinal, cardiovascular, immunological and circulatory ailments; Medicated preparations for the cleansing of the gastrointestinal tract; purified enzymes for medical use; digestive enzymes; Medicated tonics being medicine; medicine tonics; medicinal herbal infusions; glucose dietary supplements

International Classes 5 - Primary Classes **US Classes** 5, 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Apparatus for medical use, namely, infrared light emitting devices for skin care and mental health; apparatus for phototherapy, namely, infrared light emitting devices for skin care and mental health; articles for medical use, namely, infrared light emitting devices for skin care and mental health; curing lamps for medical purposes; infrared apparatus for curative purposes; infrared apparatus for medical purposes; infrared lamps for curative purposes; infrared lamps for medical purposes;

led masks for therapeutic purposes; lasers for medical use, namely, beauty therapy; lasers for cosmetic purposes; lasers for cosmetic skin treatment; light production apparatus for medical use, namely, infrared light emitting devices for skin care and mental health; light sources for medical use, namely, infrared light emitting devices for skin care and mental health; lighting for medical use, namely, infrared light emitting devices for skin care and mental health; medical instruments, namely, infrared light emitting devices for skin care and mental health; laser devices for medical application; lasers for medical purposes; lasers incorporating optical fibres for medical use; laser beam delivery instruments for medical use; laser instruments for medical use; laser light treatment instruments for medical use; laser beam delivery apparatus for medical use; laser light transmitting apparatus for medical use; laser light treatment apparatus for medical use; medical apparatus for producing laser polarized light; medical apparatus incorporating lasers, namely, infrared light emitting devices for skin care and mental health; medical laser apparatus; medical laser beam apparatus; medical lasers; medical therapy apparatus, namely, infrared light emitting devices for skin care and mental health; medical therapy instruments, namely, infrared light emitting devices for skin care and mental health

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Non-dairy creamers; creamers for beverages

International Classes 29 - Primary Classes **US Classes** 46 **International Class Title** Meats and Processed Foods

For Online retail store services featuring coffee, collagen, nutritional supplements, health food, drinks, infrared light emitting devices, medical devices; retail discount store services in the field of coffee, collagen, nutritional supplements, health food, drinks, infrared light emitting devices, medical devices; the bringing together, for the benefit of others, coffee, collagen, nutritional supplements, health food, drinks, infrared light emitting devices, medical devices excluding the transport thereof, enabling customers to conveniently view and purchase the goods; provision of an online marketplace for buyers and sellers of goods and services

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Cafes; restaurants; Restaurant services providing takeaway food and drink services; coffee shop services; tea room services; providing of food and drink

International Classes 43 - Primary Classes **US Classes** 100, 101 **International Class Title** Hotel and restaurant services

GOODS AND SERVICES INFORMATION

For Compressors for machines; sealing gaskets being component parts of machines and motors, other than for land vehicles; valves being parts of machines, in particular butterfly valves and disc valves; bearings being parts of machines, in particular rolling bearings and slide bearings; transmission mechanisms other than for land vehicles; bevel gears for motors, other than for land vehicles; hydraulic actuators in the nature of hydraulic valve actuators, hydraulic linear actuators other than for land vehicles; pneumatic actuators in the nature of pneumatic valve actuators, pneumatic linear actuators other than for land vehicles; electric motors other than for land vehicles; electric generators; ventilators in the nature of ventilation valves being parts of machines; heat exchangers being parts of machines; devices for heat recovery in the nature of heat exchangers, heat sinks being parts of machines; waste gas conduits being component parts of air purification machines; air filters for mechanical purposes being parts of machines for removing pollutions, dust, solvents and/or particulate material from air flows; pressure cylinders, namely, hydraulic and pneumatic cylinders, being parts of machines; hydraulic pumps, in particular liquid pumps; taps, clack valves and throttle valves being parts of machines, engines and motors; sound absorbers in the nature of filter silencers, silencers for engines being parts of machines; thermal fluid flow machines in the nature of agitators for circulating liquid media and gases; machines for fluidization and spraying of powdery media, being parts of machines, namely, powder coating spray guns, power-operated spray guns; component parts of the aforementioned goods; control mechanisms for machinery or engines, namely, hydraulic controls for machines, motors and engines, pneumatic controls for machines, motors and engines; conveyor devices and installations, namely, conveyor lines, conveyor belts, assembly line conveyor machinery; conveyors being machines; drives for conveyors being machines; electric driving motors for machines; equipment for mechanical engineering, namely, conveyors being machines, cargo handling machines, lifting installations for the transport of goods, mechanical and pneumatic hoisting apparatus, all for use in manufacturing plants, robotics, heating and cooling

systems, and in transport systems for processing materials and in manufacturing, and which is remotely controlled, tuned, optimized and/or monitored via cloud computing, cloud networks or IoT (internet of things) communications; exhausters being suction ventilators in the nature of air suction machines; hydraulic and pneumatic controls for machines; machine parts, namely, cylinders, brakes for industrial machines, belt drives, belt pulleys, clutch levers, other than for land vehicles, drive mechanisms being drives for machines, hydraulic industrial process controllers for machines, pressure regulators being parts of machines, regulators being parts of machines, valves being parts of machines, heat exchangers; machines for the supply of air, namely, air distribution units for pneumatically driven pumps; mufflers being parts of exhaust systems for motors and engines; mufflers being parts of machines for motors and engines; process control mechanisms for manufacturing installations, namely, hydraulic controls for machines and pneumatic controls for machines; screw conveyors; spray nozzles being parts of machines; spraying machines; fluid supply and disposal installations, namely, electric pumps, diffusion pumps, circulating pumps for installations and apparatus using high-pressure media; filtering machines in the nature of air filters for mechanical purposes for removing pollutions, dust, solvents and/or particulate material from air flows; separating machines, namely, centrifugal separators for separating particles from gas or separating liquids from gas; separators for separating particles from fluids by means of a centrifuge; injection grids in the nature of injectors for adding particles and/or liquids to gas, being parts of machines; nozzles being component parts of spraying machines for dispensing particles and/or liquids and/or gas, being parts of machines; metal grids conducting electricity, especially for use in exhaust gas aftertreatment systems, being component parts of machines, namely, exhaust gas treatment systems for manufacturing machines; electrodes conducting electricity, especially for use in exhaust gas aftertreatment systems, being component parts of machines, namely exhaust gas treatment systems for manufacturing machines; heat exchangers being parts of machines in the nature of condensers for liquifying gases or vapors; demisters, being component parts of machines in the nature of air filters for mechanical purposes, namely operations involving removal of pollutions, dust, solvents and/or particulate material from air flows; quenches being machines for cooling down gases by means of adding coolant, namely, pumps for cooling engines; marine engines for propelling ships, boats or other marine vessels; exhaust gas treatment systems for marine diesel engines; pressure regulators being parts of machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Air purifying apparatus and machines; apparatus and machines for conditioning, in particular for cooling, heating, humidifying, dehumidifying and/or purifying of air flows, namely, air conditioners, heating units for industrial purposes, humidifiers, dehumidifiers, air purifiers, and gas scrubbers; air purification units for removing pollutions, dust, solvents and/or particulate material from air flows; gas purification machines; gas purifying machines having absorption elements made from zeolite material, activated carbons, salts and/or silica gel; drying apparatus and installations, namely, industrial curing ovens; heat exchangers not being parts of machines; ventilating fans for industrial machines; chimney flues; electric air driers; apparatus and installations in the nature of curing ovens for industrial use for drying and/or hardening of surface coatings on objects by means of hot air; pipe line spigots; component parts of the forementioned apparatus, machines and installations; air filters for industrial installations; cooling apparatus, namely, electrical industrial fans; cooling installations for liquids, namely, water cooling towers; cooling machines and installations, namely, evaporative air coolers; damper registers being heat registers; dehumidifying apparatus, namely dehumidifiers; flexible pipes being parts of basin plumbing installations; fluid filters for cooling apparatus, namely, water filters; gas filters for heating apparatus in the nature of filters for air and gas conditioning; heat exchangers for chemical processing; hot air apparatus, namely, hot air ovens and hot air blowers;

humidifying apparatus, namely, humidifiers, air humidifying apparatus; installations and apparatus for exhaust air purification, namely air purification units in particular for removing dust and/or aerosols and/or solvents from an air stream; pressure water tanks being water purification tanks; regulating accessories for water or gas apparatus and pipes, namely gas regulators, pressure regulators for water installations; steam nozzles specially adapted for cooling and/or heating apparatus, namely, air cooling apparatus, cooling units for industrial purpose, heating boilers; steam pipes being pipes for steam generating apparatus, namely, heating boilers; ventilating fans for industrial use; water filtering apparatus; water filters; water supply installations, namely, mixer taps for water pipes; chimney flues for heating apparatus and separators for the cleaning and purification of exhaust gases; refrigerating installations for gases, namely refrigerating chambers; freezing equipment for cooling down industrial gas, namely, freezers; exhaust air purifiers

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Assembly services relating to the installation of industrial machines; installation services for exhaust gas treatment apparatus; building, assembly relating to the installation, installation, maintenance and repair of industrial installations, in particular metrological devices, heat exchanger installations, heat recovery installations and/or exhaust gas treatment installations; advisory services in relation to the installation of fire prevention equipment; advisory services relating to building demolition; advisory services relating to the alteration of buildings; application of protective coatings for buildings; assembling services relating to the installation of building framework; beneath ground construction work relating to foundation laying; bricklaying; building construction and repair; building construction consultancy; building insulating services; construction in the nature of assembly services relating to installation of industrial furnaces; construction of manufacturing and industrial buildings; construction of steel fabrications in the nature of steel structures; construction of steel structures for buildings; construction in the nature of assembly services related to the installation of ventilation shafts; custom construction of factories; installation of conveyors; installation of energy-saving apparatus, namely, installation of renewable energy generation equipment; installation of lighting systems; installation, maintenance and repair of air compressors, air pumps, vacuum pumps, air blowers, air filters, alternators, pressure regulators and oil separators; installation, maintenance and repair of air-conditioning, cooling, drying and ventilation installations and systems, and of air treatment installations and ventilation systems; maintenance of water pollution control equipment; installation services of pipes for operations involving removing pollutions, dust, solvents and/or particulate material from air flows; installation of plants for manufacture of industrial products; pump repair; repair or maintenance of conveyors; repair or maintenance of painting machines and apparatus; repair or maintenance of power distribution or control machines and apparatus; storage tank cleaning; maintenance of manufacturing plants and facilities

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Optical measuring, measuring, signalling, display, checking and supervision instruments for monitoring gas or liquid flows and/or for monitoring machine functions, for non-medical purposes, namely, gas sensors for monitoring gas concentration, gas flow monitors, liquid sensors for monitoring liquid concentration, liquid flow monitors; solenoid valves being electromagnetic switches; automatic throttle valves for pressure control; electric switches, namely, pressure switches, differential pressure switches, vibration switches and proximity switches; pressure transmitters; pressure gauges; capsule element pressure gauges; pressure sensors; thermocouples; temperature indicators; temperature probes in the nature of

temperature sensors, temperature indicators; thermometers not for medical purposes; resistance thermometers not for medical purposes; bimetallic strip thermometers not for medical purposes; revolution counters in the nature of apparatus for measuring the number of revolutions completed by a revolving machine part; apparatus for monitoring the vibration of rotors, namely, vibration meters; vibration gauges in the nature of vibration meters; vibration sensors; gas measuring apparatus, in particular flowmeters; transformers, in particular ignition transformers; fire sensors in the nature of fire detectors; fire detection devices, namely, fire detectors; spark electrodes; electronic display instruments, namely, electronic display interfaces; frequency converters; optical lenses made of quartz; electric switch cabinets; electric cables; electric connectors and connections, in particular plugs, sockets and other contacts being electric connections; component parts of the aforesaid goods; recorded computer software for monitoring air pollutant removal machines; downloadable computer software for monitoring air pollutant removal machines; recorded computer software for regulating and controlling air pollutant removal machines; downloadable computer software for regulating and controlling air pollutant removal machines; recorded software for controlling gas or liquid flows; downloadable software for controlling gas or liquid flows and for controlling heat exchangers; LAN (local area network) hardware for providing access points for connecting network computer users; apparatus for transmitting data and data communication; apparatus for vibration measuring and/or vibration monitoring and/or machine monitoring purposes, namely, vibration meters, vibration sensors; recorded computer application software for accessing cloud computing services; downloadable computer application software for accessing cloud computing services; recorded computer application software for the planning and control of air cleaning machines for use in industrial production processes and/or machines by means of a cloud; downloadable computer application software for the planning and control of air cleaning machines for use in industrial production processes and/or machines by means of a cloud; recorded computer application software to monitor data in a cloud; downloadable computer application software to monitor data in a cloud; data processing apparatus in the nature of data processors with artificial intelligence; audio-recorders; video-recorders; recorded augmented reality software for use in mobile devices for integrating electronic data with real world environments for the purpose of remote machine maintenance; downloadable augmented reality software for use in mobile devices for integrating electronic data with real world environments for the purpose of remote machine maintenance; communication interface units, namely computer network interface devices; communication networks in the nature of LAN (local area network) and WLAN (Wireless Local Area Network) for connecting portable computer devices to computer networks; recorded communication software for connecting computer network users; downloadable communication software for connecting computer network users; recorded communication software for connecting global computer networks; downloadable communication software for connecting global computer networks; computer database servers, data entry and data output terminals; recorded computer programs and computer software application programs for data processing, data transmission and data analysis; downloadable computer programs and computer software application programs for data processing, data transmission and data analysis; recorded computer programs for browsing and searching online databases; downloadable computer programs for browsing and searching online databases; recorded computer programs for data storage; downloadable computer programs for data storage; recorded computer programs for operating systems and network operating systems; downloadable computer programs for operating systems and network operating systems; recorded computer software for mobile phones, namely, for controlling industrial machinery; downloadable computer software for mobile phones, namely, for controlling industrial machinery; recorded computer software for the remote control of industrial machinery; downloadable computer software for the remote control of industrial machinery; recorded computer utility programs for data compressions; downloadable computer utility programs for data compressions; recorded computer programs for accessing online databases; downloadable computer

programs for accessing online databases; recorded data and image processing software for making three dimensional models; downloadable data and image processing software for making three dimensional models; data collection devices, namely, electronic data recorders; recorded data communication software for transmitting data; downloadable data communication software for transmitting data; recorded data compression software; downloadable data compression software; electronic data loggers and recorders, mobile data terminals (MDT); data networks and networks for data transmission in the nature of computer networking hardware, network servers; data storage devices, namely, blank digital storage media; data storage media for smartphones, namely, blank digital storage media; devices for cloud computing, cloud networks or IoT (Internet of things) for mechanical engineering, namely, computer network servers, network access server hardware; devices for computer networks and data communication, namely, computer network servers, network access server hardware; devices for network management control, namely, computer network servers, network access server hardware; diagnostic apparatus and installations constructed thereof, namely, diagnostic apparatus for testing the proper functioning of industrial machines and components of industrial machines; blank digital data storage media; downloadable software applications for operating three dimensional printers; downloadable software for the transmission of data; electric and electronic controls for dryers for drying and hardening lacquers and paints on lacquered or painted objects; electricity conduits; electronic sensors for detecting pollutants in an airstream and sensor controllers for use therewith; electronically stored data in the nature of data carriers containing stored data in relation to industrial machinery diagnostic test results; encryption devices in the nature of electronic encryption units; computer networking hardware and computer hardware, computing equipment, namely, computers and downloadable databases for computer systems in the field of industrial machinery maintenance schedules; interface devices, namely, computer network interface devices; computer network-attached storage hardware (NAS), local area network (LAN) hardware; optical sensors; computer peripheral devices for data duplication; instruments for physical measurements, namely, barometers, voltmeters, manometers, hygrometers; wireless radio transmission devices; recorded data in the nature of data sets in the field of industrial machinery maintenance schedules recorded on computer media; remote control apparatus, namely remote controls for industrial machines and components thereof; radio receivers for remote controls; remote control transmitters for radio-controlled devices; safety devices for use with manufacturing machines, namely, safety light barriers, safety light switches, shielding hoods in the nature of protective industrial barriers, and actuating devices therefor, namely electric actuators; digital position, optical, thermal temperature, motion and pollutant sensors for measurement technology related to cloud computing, cloud networks or IoT (Internet-of-things); digital position, optical, thermal temperature, motion and pollutant sensors for measurement technology; recorded software for operating industrial machinery; downloadable software for operating industrial machinery; recorded interactive software for the exchange of information among software users; downloadable interactive software for the exchange of information among software users; recorded virtual reality software for remote maintenance of industrial machines; downloadable virtual reality software for remote maintenance of industrial machines; recorded software and applications for mobile terminals for operating industrial machinery; downloadable software and applications for mobile terminals for operating industrial machinery; recorded software for authorizing access to databases; downloadable software for authorizing access to databases; recorded software for communication between computers over a local network; downloadable software for communication between computers over a local network; recorded software for data processing; downloadable software for data processing; recorded software for reviewing data research; downloadable software for reviewing data research; recorded software for generating augmented reality experiences; downloadable software for generating augmented reality experiences; recorded software for accessing graphical user

interfaces; downloadable software for accessing graphical user interfaces; recorded software for accessing host and gateway systems; downloadable software for accessing host and gateway systems; recorded software for industrial applications, namely, for operating industrial machinery; downloadable software for industrial applications, namely, for operating industrial machinery; recorded software for industrial process control; downloadable software for industrial process control; recorded software for predictive maintenance of industrial machinery; downloadable software for predictive maintenance of industrial machinery; recorded software for use in conjunction with industrial production and/or production planning, namely, for computer-aided design; downloadable software for use in conjunction with industrial production and/or production planning, namely, for computer-aided design; switch cabinets being cabinets specially adapted to electric switches; tablet monitors; electrical transducers, namely, displacement, vibration speed and acceleration transducers; gas composition sensors in the nature of gas sensors for measuring gas concentration; electric actuators

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Communication services, namely, transmission of voice, audio, visual images and data by telecommunications networks, wireless communication networks, the Internet, information services networks and data networks; data streaming; electronic data transmission; data transmission via a worldwide remote-controlled computing network, including the internet; electronic transmission of data by electronic communications networks; electronic transmission and retransmission of sounds, images, documents, messages and data; electronic transmission of data and electronic data exchange services in the nature of electronic exchange of data stored in databases accessible via telecommunication networks; electronic transmission of encrypted data; electronic transmission of voices; network transmission of sounds, images, signals and/or other data; providing telecommunication access to information about networks; providing on-line forums for exchange of data among computer users; provision of telecommunication access to an internet platform; provision of telecommunication access to clouds, web pages and internet portals; provision of user access to computer programs in data networks; provision of telecommunication access to data or documents that are stored electronically in central files for remote consultation; provision of access to databases in computer networks; provision of telecommunication access services to global computer networks and other computer networks to access data stored electronically; transmission of data in networks and provision of telecommunication access to data via communication networks; provision of telecommunication access to portals on the internet for the collection and analysis of machine and system data for manufacturing purposes; provision of data telecommunication services, namely, transfer of data by telecommunications in connection with cloud computing for mechanical engineering; renting access times to databases and clouds being computer networks on the internet; telecommunications via computer terminals, telematics, satellites, radios, telegrams, telephones; transmission of data by means of telecommunications networks; transmission of sound, picture and/or other data signals; voice mail services; wireless broadcasting

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Engineering, in particular in the fields of exhaust gas purification, air pollution control, plant construction engineering and environmental engineering; engineering surveying; preparation of reports in the nature of layout design services for production plants; preparation of reports in the nature of technical research services in the field of technologies for manufacturing and industrial processes, exhaust gas treatment, heat recovery from fluids, air purification and energy conversion processes; preparation of reports comprising technical analysis relating to software design; planning and design of industrial installations for removing pollutions, dust, solvents and/or particulate material from air flows, metrological devices,

heat exchanger installations, heat recovery installations and/or exhaust gas treatment installations; technical analysis of large amounts of data with respect to the relationships between data, technical targeted data search in the nature of data mining; chemical analysis; chemical engineering; cloud computing featuring software for use in database management; cloud computing services featuring software for use in database management in the field of air pollution control; computer programming for data processing; computer security system monitoring services in the nature of monitoring of computer systems for detecting unauthorized access or data breach; computer software consultancy; computer system design; computer technology consultancy; computer virus protection services; computerized electronic data storage; consultancy and research services in the fields of science, engineering and information technology; consultancy in the design and development of computer hardware; consulting and information services relating to information technology architecture and infrastructure; consulting in the field of computer and information technology (IT); consulting services in connection with computer programming; consulting services in connection with human-machine interfaces and machine-machine interfaces for software; technology consulting services relating to quality control testing of industrial production plants and facilities; creating and maintaining web sites; creation of control computer programs and software programs for automated measurement, assembly, adjustment and related visualization; data conversion of electronic information; data warehousing; design of homepages and websites; design and development of computer cluster configurations; design and development of computer hardware and software for industrial applications; design and development of computer hardware for the processing industry; design and development of computer systems; design and development of navigation systems; design and development of operating software to access and use a cloud computing network; design and development of route planning software; design and development of software; design and development of software for mechanical engineering and for automated production (CAD/CAM); design and development of software for the control and operation of numerically controlled machine tools; design and development of virtual reality software; design and implementation of network web pages; design of installations for application of coatings to vehicles and vehicle parts and components; design, development, maintenance and updating of software for industrial process control; development of computer equipment; development of computer-based networks; development of data programs being computer programs, software programs; electronic data storage; engineering services; engineering services related to the design and development of computer programs and software for data processing for use on or in conjunction with numerically controlled machine tools; engineering services related to the design of machine tools; engineering services relating to robotics; engineering services for the analysis of machines; extracting information from large data collections in the nature of data mining; hosting of digital content on the internet; hosting of digital databases on the internet; hosting of computer software platforms on the internet; implementation, installation, maintenance and updating of software; information services relating to information technology; infrastructure as a service (IaaS), namely, hosting software for operating virtual servers for use by others; installation of software, in particular software for transport technology applications; IT programming services; maintenance of software; maintenance of software for communication systems; maintenance of software, in particular software for transport technology applications; mechanical research in the field of machine building and mechanics; migration of data; monitoring of network systems in the nature of technical support services, namely, monitoring technological functions of computer network systems; online electronic data storage; planning and technical development of air-conditioning, cooling, drying and ventilation installations and systems, and of air treatment installations and ventilation systems; planning of automobile production plants; planning of installations for removing pollutions, dust, solvents and/or particulate material from air flows; planning of production facilities, namely, manufacturing plants; process monitoring for quality assurance, namely, providing quality assurance services in the field of industrial

processes; programming of operating software for the use of a cloud computing network and access to it; programming of operating software to access and use a cloud computing network; programming of software for data processing; programming of software; project management in the field of IT; providing technical advice relating to energy-saving measures, namely, energy efficient technologies; provision of information on information technology; provision of online information on industrial analysis and research; quality control; research and development of new products for others; technological research in the field of data processing; research in the field of information technology; research relating to mechanical engineering; server hosting; technical services and IT services related to the analysis of data, namely, data mining services; data encryption services in the field of data security; services of an application service provider (ASP), namely, hosting computer software applications of others; services of an industrial designer, namely, industrial design services; services related to computer-aided industrial analysis, namely, computer programming for industrial testing equipment; engineering services related to IoT (Internet of things) in the field of mechanical engineering; engineering services related to technical data analysis; data encryption services; software as a service (SaaS) services featuring software for remotely controlling industrial machinery; technological consultancy and technical project planning in the field of industrial manufacturing equipment and installations; technical design services relating to cooling appliances and installations; technological consultancy services in the field of data processing; technical consultancy services relating to information technology; technological consulting in the field of mechanical engineering technology analysis; updating of computer software; vehicle roadworthiness testing; web site hosting; hosting of software platforms on the Internet

GOODS AND SERVICES INFORMATION

For Financial and monetary services, namely, financial information services and financial asset management services; banking; provision of financial services, namely, financial advisory services by means of a global computer network or the internet; online banking services; electronic payment services involving electronic processing and subsequent transmission of bill payment data; issuance of payment cards being credit card processing services; issuance of debit cards; brokerage of carbon offsets and carbon credits; provision of charitable fundraising services in relation to carbon offsetting; consultancy, information and advisory services relating to all of the aforesaid services

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For Downloadable Computer software for use in producing financial models, managing bank accounts and data collection, collation, and data analysis and reporting in the fields of carbon management, carbon footprinting, carbon reporting, and carbon auditing; downloadable mobile applications for use in managing bank accounts, producing financial models and data collection, collation, and data analysis and reporting in the fields of carbon management, carbon footprinting, carbon reporting, and carbon auditing; downloadable electronic publications, namely, newsletters in the field of financial services and carbon management and carbon footprinting; downloadable interactive electronic publications in the nature of downloadable interactive multimedia software featuring video and audio information for consumers related to energy use and carbon footprinting upon information inputted by consumer as to daily activities; magnetically encoded credit charge and debit cards; blank programmable smart cards

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Design and development of software; Application service provider (ASP), namely, hosting computer software applications for others; Software as a Service services featuring software for assessment of the ecological footprint of products and services; Platform as a Service featuring computer software platforms for assessment of the ecological footprint of products and services; Infrastructure as a Service services, namely, hosting servers for use by others; providing a website featuring information about sustainable community planning and infrastructure development via the assessment of the ecological footprint of certain products and services; design and development of computer software, namely, software for use in the field of eco-efficiency, sustainable development, and to determine cost reduction and savings in material, energy, water and carbon consumption; design and development of computer software, namely, software for use in the fields of measuring, monitoring, calculating and reporting carbon, energy, water, waste, and materials use; design and development of computer software, namely, software for analysing data and producing benchmark reporting in the field of carbon management, carbon footprinting, carbon reporting, and carbon auditing; design and development of computer software, namely, software for data collection, collation, and data analysis and reporting in the fields of carbon management, carbon footprinting, carbon reporting, carbon auditing; scientific and technological research services relating to sustainable development management, sustainable development auditing and sustainable development reporting; scientific and technological services, namely, scientific research, analysis, and testing in the field of cost reduction and savings in material, energy, water and carbon consumption; scientific research and analysis in the field of carbon management, carbon footprinting, carbon reporting, and carbon auditing, all for scientific research purposes; software as a service services featuring computer software for use in the field of carbon management, carbon footprinting, energy management, environmental management, carbon auditing, energy auditing, environmental auditing, and eco-efficiency; software as a service services featuring computer software for use in the field of biodiversity, sustainable development, and cost reduction and savings in the measurement of carbon consumption, energy use, water use, waste generation, and material use; software as a service services featuring computer software for measuring, monitoring and calculating carbon use; software as a service services featuring computer software for use in data collection, collation, and data analysis and reporting in the fields of biodiversity and sustainability; software as a service services featuring computer software for use in data collection, collation, and data analysis and reporting in the fields of carbon management, carbon footprinting, carbon auditing; software as a service services featuring computer software for use in relation to data collection, collation, and data analysis and reporting in the fields of energy management, energy auditing, environmental management, environmental auditing, eco-efficiency; software as a service services featuring computer software for use in data collection, collation, and data analysis and reporting in the fields of biodiversity, sustainable development, cost reduction and savings in carbon, energy, water and materials consumption and waste generation; provision of scientific information, advice and consultancy in the field of global warming and carbon offsetting; technical research in the field of global warming and carbon offsetting and consultancy relating thereto; scientific research and development in the field of scientific environmental research, namely, recording data relating to environmental management, eco-efficiency, sustainable development, cost reduction and savings in material, energy and carbon consumption and biodiversity; scientific analysis in the field of environmental research, namely, the interpretation of data relating to environmental management, eco-efficiency, sustainable development, cost reduction and savings in material, energy and carbon consumption and biodiversity, all for scientific research purposes; scientific research and analysis, namely, the processing, provision and presentation of data relating to

climate, energy, carbon and environmental management, eco-efficiency, sustainable development, cost reduction and savings in material, energy and carbon consumption and biodiversity, all for scientific research purposes; information, consultancy and advisory services in relation to the use of energy, energy efficiency, energy conservation, environmental management, eco-efficiency, sustainable development, cost reduction and savings in material, energy and carbon consumption and biodiversity, all for purposes of scientific research and analysis; conducting technological and scientific research in the field of carbon offsetting; provision of scientific information, advice and consultancy in relation to carbon offsetting, all for scientific research purposes

RELATED PROPERTIES INFORMATION

International Registration 1633786 **International Registration Date** Oct. 11, 2021

GOODS AND SERVICES INFORMATION

For botanical extracts, plant extracts and fruit extracts for the food and beverage industry; botanicals extracts, plant extracts and fruit extracts for the manufacture of body and beauty care products; chemical compounds in the nature of purines for use in the food and beverage industry; chemical compounds in the nature of purines for the manufacture of body and beauty care products; chemical products, namely, caffeine and caffeine extracts for use in the food and beverage industry; chemical products, namely, caffeine and caffeine extracts for the manufacture of body and beauty care products; chemical products, namely, caffeine and caffeine extracts for use in industrial manufacturing processes

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For wholesale and retail store services and online wholesale and retail store services featuring botanical extracts, plant extracts and fruit extracts, purines, caffeine and caffeine extracts, flavors and essences, coffee, coffee substitutes and decaffeinated coffee; advertising services; marketing services; sales promotion; product demonstrations in the areas of botanicals, plant extracts and fruit extracts, purines, caffeine and caffeine extracts, flavors and essences, coffee, coffee substitutes and decaffeinated coffee; organization and conducting of product presentations in the areas of botanical extracts, plant extracts and fruit extracts, purines, caffeine and caffeine extracts, flavors and essences, coffee, coffee substitutes and decaffeinated coffee

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Coffee; coffee substitutes; decaffeinated coffee

International Classes 30 - Primary Classes **US Classes** 46 **International Class Title** Staple Foods

For processing and refining of botanical extracts, plant extracts, fruit extracts and purines; processing and refining of coffee and coffee substitutes; roasting of coffee; coffee processing, namely, decaffeination of coffee

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the word "CIMBRIA" in a stylized green font with a dashed circle formed by black broken lines enclosing "MBR" in "CIMBRIA and the letters "I" in the word "CIMBRIA" forming left and right parts of the dashed circle. The color white represents background, outlining, shading and/or transparent areas and is not part of the mark. **Color Drawing** Yes **Color Claimed** The color(s) green and black are claimed as a feature of the mark.

RELATED PROPERTIES INFORMATION

International Registration 1633834 **International Registration Date** Oct. 26, 2021

GOODS AND SERVICES INFORMATION

For Machines, namely, dust separators, grain separating machines, seed separating machines, blowing machines for the compression, sucking and carrying of grain or seed, drying machines for grain or seed, coating machines for seeds, machines for sorting seeds, beans, coffee beans, nuts or grains and removing non-conforming materials, machines for sorting plastic, salt, minerals, metals or glass and removing non-conforming materials; machine coupling and transmission components except for land vehicles, namely, chutes being parts of machines, belt conveyors, staged and segmented conveyors, chain conveyors, mechanical railed lifting conveyors, hydraulic conveyors, pneumatic conveyors, screw conveyors, roller conveyors, conveyor belts and conveyors being machines all for use in conveying grain or seeds; agricultural implements other than hand-operated, namely, agricultural elevators and corn and grain husking machines; seed cleaning machines; optical sorting machines for sorting grains and seeds and removing non-conforming materials

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Apparatus for heating, drying and ventilating, namely, electric cabinets used to control temperature and humidity for seed and grain storage

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Building construction services, namely, construction project management services in the field of grain storage and seed processing plants, drying complexes, and port terminals; repair services, namely, repair of grain storage and seed processing plants; installation services, namely, installation of grain storage and seed processing plants

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Scientific and technological services, namely, research and design relating to grain storage and seed processing plants, drying complexes, and port terminals; industrial analysis and research services in relation to grain storage and seed processing; design and development of computer hardware and software, for others in the field of grain storage and seed processing plants

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

Mark Literal(s) DEUTRONIC D / C

CASE IDENTIFIERS

Serial Number 79329682 **Application Filing Date** Sep. 16, 2021 **Registration Number** 7077501 **Registration Date** Jun. 13, 2023 **Register** Principal **Mark Type** Service Mark Trademark **Publication Date** Mar. 28, 2023

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the word DEUTRONIC in stylized black font. To the right of the word is a square outlined in black, with an interior white border and a white line cut diagonally through the center making two red triangles inside. In the left triangle is the lower case letter D in stylized white font, and in the right triangle is a lower case letter C in white stylized font. **Color Drawing** Yes **Color Claimed** The color(s) black, white and red is/are claimed as a feature of the mark.

RELATED PROPERTIES INFORMATION

International Registration 1635766 **International Registration Date** Sep. 16, 2021

GOODS AND SERVICES INFORMATION

For Metalworking Machine tools; motors and engines not for land vehicles, namely electric motors for machines; regulators for engines other than for land vehicles; regulators being parts of machines; control mechanisms for machines, engines or motors, namely electric motors for machines; electric driving motors for machines with a digital servo drive controller; current generators; vending machine

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Wholesale and Retail Store services, featuring machine tools, motors and engines except for land vehicles, regulators for motors and engines, regulators being machine parts, control mechanisms for machines, motors and engines, electric motors for machines; Wholesale and Retail Store services, featuring testing software, software, in particular, for use with the following goods apparatus for control, simulation software, test benches, test benches, testing installations, testing and quality control apparatus; Wholesale and Retail Store services featuring electrotechnical apparatus, electrotechnical instruments, electronic media apparatusportable test apparatus, chargers, portable chargers, in particular, in relation the following goods: batteries in cars, chargers for electric batteries, battery chargers; Wholesale and Retail Store services, featuring converters, transducer energisers, electrical transducers, converters for vehicles, programmable control apparatus, digital electronic controlling device, power adaptors, electric power distributors, electric current generating generators, electricity switchboxes; Wholesale

and Retail Store services, featuring electronic regulators, regulators, in relation the following goods: electronic motors, weighing, measuring, signaling, checking (supervision) apparatus and instruments, apparatus for recording, transmission or reproduction of sound or images; Wholesale and Retail Store services featuring automatic vending machines and mechanisms for coin-operated apparatus, cash registers, calculating machines and data processing equipment; Wholesale and Retail Store services, featuring nautical apparatus, shipping instruments, surveying apparatus, surveying instruments, photographic apparatus, photographic instruments, film equipment, cinematographic instruments, optical apparatus, optical instruments, rescue apparatus, salvage instruments, teaching apparatus, teaching instruments; Wholesale and Retail Store services, featuring magnetic data carriers, recording discs, electric motors for motor vehicles; Wholesale and Retail Store services, featuring DC/DC converters, electric vehicle charging stations, isolation transformers, transformers, AC/DC power supplies, voltage stabilizing power supply, electric power supply units

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Recorded testing software for machine lifecycle testing, statistics software, electric railroad couplers, high frequency internal vibrators, gas bowlers, ventilators, in-drive generators, stators, end-of-line e-motors, electric vehicle stators, drum motors, actuators, electric motors, battery chargers, shrink-fitting machines, sound measurement machines, rotors, and stamping lasers; recorded software, for use with control devices that charges and supplies batteries/electrical systems; recorded simulation software for test benches; test benches namely test benches for electrical engines and power supplies/electrical devices; testing and quality control devices namely test benches for electrical engines and power supplies/electrical devices; electrotechnical and electronic apparatus and instruments for measuring, control and testing, included in this class namely test benches for electrical engines and power supplies/electrical devices; portable test apparatus namely battery charging and conditioning systems; wireless chargers; portable car battery chargers chargers for electric batteries; battery chargers; electroacoustic transducers; electroacoustic transducer energizers; electrical transducers; voltage converters for vehicles namely DC/DC converters for supplying the low-voltage bord net and charging the low-voltage battery; programmable control apparatus namely charges and supplies batteries/electrical systems; digital electronic controllers for charging and supplying batteries/electrical systems; power adapters; electrical power distributors; electrical switchboxes; electronic voltage power regulators; voltage regulators for motors; weighing, measuring, signaling, checking apparatus and instruments namely converter with signal inputs; apparatus for recording, transmission or reproduction of sound or images; mechanism for coin-operated mechanism apparatus; cash registers, calculating machines, data processing equipment; direct current-to-direct current converters; charging stations for electric vehicles; isolation transformers namely electric isolation transformers; electricity transformers; AC/DC power supplies; voltage stabilizing power supply; electric power supply units

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Testing of machines and apparatus for functionality; product research services for others in the field of power electronics and battery charging technology; engineering services in the field of power electronics and battery charging technology, technological consultancy and preparation of reports relating to technological research; none of the aforesaid services for systems used in connection with refrigerated and freezer display cabinets or other users of energy in supermarkets and other sales outlets

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Ingots of precious metals; iridium; precious metals, unwrought or semi-wrought; gold, unwrought or beaten; osmium; palladium; platinum; rhodium; ruthenium; alloys of precious metal; silver, unwrought or beaten; boxes of precious metal; spun silver, namely, silver wire; clocks

International Classes 14 - Primary Classes **US Classes** 2, 27, 28, 50 **International Class Title** Jewelry

For surgical apparatus and instruments for dental use; dental instruments and apparatus, namely, picks, burrs, mirrors; artificial surgical grafts, namely, artificial vascular grafts, artificial bone grafts; suture materials

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For agricultural machines, namely, cultipackers; aerating pumps for aquaria; shredding machines for industrial use; incubators for eggs; saw machines; type-setting machines for printing; bobbins for weaving looms; Sizing machines for sizing meat, aquatic products, fruits and vegetables; agitators for circulating liquid media; apparatus for drawing up beer under pressure; cigarette machines for industrial purposes; leather-working machines; tambours for embroidery machines; bicycle assembling machines; sealing machines for industrial purposes; electric food blenders for household use; spin dryers, not heated; milling machines; embossing machines; glass-working machines; Electromechanical machines for chemical processing, namely, extracting machines, presses, dust collecting machines, filter presses, pulverizers; Rinsing machines, namely mining flushing equipment; rolling mills; drilling rigs, floating or non-floating; disintegrators for chemical processing; stair lifts; paper trimming machines; metalworking machines; steam engine boiler fittings; carburetor parts, namely, feeders; hydraulic turbines, other than for land vehicles; industrial robots; riveting machines, namely, rivet guns; painting machine; alternators; filters for cleaning cooling air, for engines; centrifugal machines; valves being parts of machines operated pneumatically and by air; aerocondensers; shaft couplings for machines; machine parts, namely, bearings; belts for conveyors;

electric welding machines; washing machines for clothes; industrial machines for sorting fruit, recycled bottles, machine parts; curtain drawing devices, electrically operated; drums being machine parts for washing machines for clothes; electroplating machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Data processing apparatus; time recording apparatus; Apparatus to check franking being a device for detecting counterfeit postage stamps; money counting and sorting machines; electronic parking lot ticket dispensers; punched card machines for offices; scales; measuring cups; signs, luminous; Anti-interference devices, namely electronic equipment for reducing electromagnetic interreference during radio communication; loudspeakers; photographic cameras; surveying instruments; distance measuring apparatus; speed checking apparatus for vehicles; pressure measuring apparatus; Audiovisual teaching apparatus, namely, teaching projectors, displays and other equipment; electric measuring device for electric current; particle accelerators; microscopes; electric wires and cables; semi-conductors; integrated circuits; Chips being integrated circuits; coils, electric; contacts, electric; video screens; Remote controls for radios, televisions, stereos; optical fibers; electric installations for the remote control of industrial operations; lightning conductors; electrolysers; fire extinguishing apparatus; radiological apparatus for industrial purposes; shoes and clothing for personal protection against accidents; burglar alarms; spectacles; battery jars; photographic transparencies

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Burnishing by abrasion; electroplating; applying finishes to textiles; timber felling and processing; paper finishing; optical glass grinding; pottery firing; food and drink preservation; Stripping finishes being taxidermy services; dressmaking; printing; recycling of waste and trash; air purification; water treating; production of energy

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Copper, unwrought or semi-wrought; ingots of common metal; common metals, unwrought or semi-wrought; metals in powder form; semi-wrought sheets and plates of metal; pipework of metal; buildings, transportable, of metal; metal exterior roller blinds for guiding light; metal railroad ties; cast iron materials for railroad tracks; wire of common metal alloys, except fuse wire; cable joints of metal, non-electric; cable linkages of metal, non-electric; rivets of metal; fittings of metal for furniture; Ironmongery, namely, metal fasteners, bolts, screws, nails, furniture casters, window bolts; locks of metal, other than electric; strong boxes of metal; machine belt fasteners of metal; reservoirs of metal; nameplates of metal; silver solder; anchors; identification bracelets of metal; wind vanes of metal; tree protectors of metal; traps for wild animals; statues and sculptures of bronze; ores of metal; monuments of non-precious metals

GOODS AND SERVICES INFORMATION

For Engines and motors for land vehicles; Electric motors for electric land vehicles; electric vehicles, namely, electrically powered motor vehicles; turbines for land vehicles; diesel motors for land vehicles; jet engines for land vehicles; connecting rods for land vehicles, other than parts of motors and engines; vehicle bonnet pins; brake systems for vehicles; suspension shock absorbers for vehicles; crankcases for land vehicle components, other than for engines; automobile hoods

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Textiles and substitutes for textiles, not included in other classes, namely, non-woven textile fabrics, non-woven fabrics; non-woven textiles fabrics made of synthetic or natural fibres; fabrics made from synthetic threads for textile use; synthetic fiber fabrics; non-woven reinforcing fabrics made of polyester or fiberglass for industrial applications; non-woven fabrics in the form of rolls, blanks, or sheets for use in industrial manufacturing; fabrics for textile use; fiberglass fabrics, for textile use; Textile fabrics for use as filtering materials; non-woven fabric textiles; Semi-finished plastic products, namely, woven aramid fabrics for use in the manufacture of protective clothing; woven fabrics; Non-woven textile fabrics sold in rolls for use as filtering materials; non-woven fabric materials, namely, non-woven reinforcement fabrics made fiberglass for industrial applications; laminated textiles to be affixed to the surface of furniture; all of the aforementioned for use with battery electric vehicles and fuel cell electric vehicles

International Classes 24 - Primary Classes **US Classes** 42, 50 **International Class Title** Fabrics

For Paper and cardboard; printed matter, namely, paper signs, books, manuals, curricula, newsletters, informational cards and brochures in the field of electric vehicles; paper in the nature of filtering materials in battery electric vehicles; filter paper; cardboard in the nature of filtering materials for battery electric vehicles; paper for use in the manufacture of filters for electric vehicles and fuel cell electric vehicles; cellophane paper sheets being reclaimed cellulose for wrapping

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Machine tools, namely, chasers, gear cutters, clamps for use in precision clamping of work pieces; motors and engines, except for land vehicles; electric motors, not for land vehicles; machine coupling and transmission components, except for land vehicles; air filters for motors and engine; filter presses for chemical processing; oil separators; oil filters for engines and machines; gas filters and oil filters for engines and machines; filtering machines for chemical processing; parts and fittings for all the aforesaid goods; oil filtering machines; oil filters for the purification of oil for engines; all of the aforementioned for use with battery electric vehicles and fuel cell electric vehicles

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Apparatus for heating, namely, industrial dryers for heating; Apparatus for steam generating, namely, steam heating apparatus for industrial purposes; Apparatus for cooking, namely, cooking stoves; Apparatus for refrigerating, namely, refrigerating cabinets for industrial purposes; Apparatus for drying, namely, drying apparatus for use in heating, ventilation systems, air conditioning systems and refrigeration systems; Apparatus for ventilating, namely, ventilating fans for industrial purposes; air filters for cleaning air being parts of air cleaning machines or installations; filters for air conditioning units; air filtering installations; electrostatic air filters for industrial installations; air filters for the purification of air for domestic use; air cleaning apparatus, namely, air cleaning units; parts and fittings for all the aforesaid goods

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Non-woven materials, namely, micro glass fibers and glass fibers for use as filtering materials; Semi-processed foams of plastic in the nature of filtering materials in electric vehicle industry; semi-processed films of plastic in the nature of filtering materials in electric vehicle industry; foil of regenerated cellulose, other than for packing, namely, cellulosic film for commercial and industrial use; cellulose acetate, semi-processed; nonconducting materials for retaining heat, namely, insulating materials; plastic film, not for wrapping, for packing, cushioning, or stuffing purposes; semiprocessed plastics; plastic fibers, not for textile use; glass fiber filtration media sold in rolls; semi-finished fibreglass filter materials for industrial use; fibreglass fabrics for insulation, not for packaging and textile use; insulating waterproof membranes and semi-processed synthetic resins for filtering materials; regenerated cellulose for use in manufacture of air filters; cellulose sheets and films for industrial use; synthetic padding to be used for filtration in filters; laminated plastic sheets for use in manufacture of air filters; all of the aforementioned for use with battery electric vehicles and fuel cell electric vehicles

International Registration 1651781 **International Registration Date** Dec. 21, 2021

GOODS AND SERVICES INFORMATION

For Installation of power generating apparatus and installations; installation of industrial machinery for fabrication of photovoltaic solar cells and modules

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Photovoltaic apparatus and installations for generating solar electricity; solar cells, namely, photovoltaic cells; photovoltaic modules; solar cells for electricity generation; photovoltaic power plants, namely, photovoltaic installations for generating electricity; photovoltaic apparatus for converting solar radiation to electrical energy; photovoltaic apparatus and installations for the production solar electricity; photovoltaic solar modules; solar panels for producing electricity; solar energy collectors in the nature of solar panels for electricity generation; photovoltaic solar modules for production of electricity; solar panels for the production of electricity; solar panel arrays, namely, connected solar panels for the production of electricity; apparatus for measuring and improving electrical power efficiency

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Chemical vapour deposition, namely, custom production of thin films through vapor deposition for the purpose of making thin film photovoltaic devices; treatment of materials by application of coatings onto semiconductor surfaces, glass substrate surfaces, plastic substrate surfaces and substrate surfaces covered with other thin film materials using physical vapor deposition techniques for the purpose of making thin film photovoltaic devices; treatment of materials by application of coatings onto semiconductor surfaces, glass substrate surfaces, plastic substrate surfaces and substrate surfaces covered with other thin film materials using vacuum deposition techniques for the purpose of making thin film photovoltaic devices;

treatment of materials by application of coatings onto semiconductor surfaces, glass substrate surfaces, plastic substrate surfaces and substrate surfaces covered with other thin film materials using chemical vapor deposition techniques for the purpose of making thin film photovoltaic devices

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Engineering design, namely, engineering services and design of fabrication lines, equipment and processes for production of photovoltaic cells and modules; engineering consultancy in the field of manufacture; engineering consultancy services; scientific design services of fabrication lines, equipment and processes for production of photovoltaic cells and modules; scientific and technological design of photovoltaic cells and modules as well as technologies for production of the same; design and development of new products; engineering services for the design of machinery; engineering services for the design of structures; consultation in the field of product development; advisory services in the field of computer hardware design; design consultancy services for fabrication lines, equipment and processes for production of photovoltaic cells and modules; product research and development; product development; product development for others; technological design services for fabrication lines, equipment and processes for production of photovoltaic cells and modules

International Registration 1652198 **International Registration Date** Nov. 08, 2021

GOODS AND SERVICES INFORMATION

For Diagnostic preparations for medical and veterinary purposes; diagnostic biomarker reagents for medical or veterinary purposes; preparations for detecting genetic predispositions for medical or veterinary purposes; reagents for medical use for determining a metabolome, in particular a metabolome in the event of a disease; nucleic acid sequences for medical and veterinary purposes; metabolites for medical use and for veterinary purposes in the nature of lipids, amino acids, and steroids

International Classes 5 - Primary Classes **US Classes** 5, 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Collating and systematic ordering of data in a computer database, namely, systemization of data into computer databases; computerized file management; data search in computer files for others, namely, searching and reviewing data pulled from the computer files of others and annotating such data on behalf of others for business purposes; compilation of statistical data relating to medical research for business purposes; compilation of statistical data for use in scientific research for business purposes

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Conducting of medical tests for diagnostic or treatment purposes; medical testing to determine the metabolome in an organism; medical testing for supporting the methods of diagnostic and treatment purposes to determine the metabolome in an organism; medical services in the fields of DNA sequencing for diagnostic purposes, genetic science, genetic testing, and metabolomics; medical analysis in connection with the treatment of individuals in relation to metabolism and metabolomics; medical analysis services for research purposes provided by medical laboratories for the analysis of samples taken from patients; providing of information in the fields of medicine and veterinary medicine; provision of information, in relation to

metabolism and metabolomics; medical information

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For Scientific and technological services, namely quality control of the metabolic measurement, univariate and multivariate statistical analysis for feature extraction, discovery of metabolic biomarkers, training of supervised machine learning models on metabolic data, annotation of spectral features with chemical structures, stratification of samples based on pathologic genetic variants, gender, sample origin, patient age, medication; industrial analysis and research services in the field of biotechnology, namely, discovery of biomarker and stratification of samples based on pathologic genetic variants, gender, sample origin, patient age, medication; research and development services, in relation to biotechnology, pharmacology, metabolomics; genetic engineering services; research and development in the field of medical diagnostics; design, development, programming and implementation of software and computerized databases; computerised scientific research, testing and analysis; design and development of computer hardware; software as a service featuring software for quality control of the metabolic measurement, univariate and multivariate statistical analysis for feature extraction, discovery of metabolic biomarkers, training of supervised machine learning models on metabolic data, annotation of spectral features with chemical structures, stratification of samples based on pathologic genetic variants, gender, sample origin, patient age, medication; rental of computer software for data processing; software as a service (SaaS) featuring software for quality control of the metabolic measurement, univariate and multivariate statistical analysis for feature extraction, discovery of metabolic biomarkers, training of supervised machine learning models on metabolic data, annotation of spectral features with chemical structures, stratification of samples based on pathologic genetic variants, gender, sample origin, patient age, medication in the field of metabolome; provision of information, in relation to pharmacology, metabolomics

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a gray incomplete circle broken up in the shape of an italicized letter "R", and with a red right triangle on the right side. The color white represents mere transparent background area and is not claimed as a feature of the mark. **Color Drawing** Yes **Color Claimed** The color(s) gray and red is/are claimed as a feature of the mark.

RELATED PROPERTIES INFORMATION

International Registration 1655835 **International Registration Date** Nov. 22, 2021

GOODS AND SERVICES INFORMATION

For Precious metals; unwrought precious stones; key rings; charms for key rings; jewellery boxes; trophies of precious metals; commemorative shields of precious metals; ornaments of precious metal in the nature of jewelry; earrings; bracelets; jewelry brooches; medals; tie pins; badges of precious metal; necklaces; cufflinks; lapel buttons of precious metals being lapel pins; semi-wrought precious stones and their imitations; shoe jewelry of precious metal; clocks and watches; alarm clocks; stopwatches; wristwatches; watch bands and straps; automobile clocks

International Classes 14 - Primary Classes **US Classes** 2, 27, 28, 50 **International Class Title** Jewelry

For Floss for dental purposes; unworked or semi-worked glass, not for building; mangers for animals being troughs for livestock; cosmetic and toilet utensils, namely, cosmetic brushes, toilet brushes; toothbrushes, electric; combs; make-up applying sponges; nail brushes; shaving brushes; toothbrushes, non-electric; gloves for household purposes; industrial packaging containers of glass or porcelain; kitchen utensils and containers, in particular, kitchen spatulas, household containers for foods, not including gas water heaters for household use, non-electric cooking heaters for household purposes, kitchen worktops and kitchen sinks; dinnerware, other than knives, forks and spoons; mugs; tumblers for use as drinking vessels; drinking cups; decanters; japanese rice bowls being chawan; beer mugs; non-electric ice chests for household purposes, namely, portable ice chests for food and beverage; drinking flasks; non-electric cookware in the nature of pots, pans; napkin rings; coffeepots, non-electric; egg cups; chopsticks; toothpicks; toothpick holders; household or kitchen containers; coasters, not of paper or textile; place mats, not of paper or textile; cleaning tools and washing utensils, namely, scrub sponges; brooms;

mops; flower pots; watering cans; clothes brushes; piggy banks; flower vases; shoe brushes; shoe horns; shoe shine cloths; shoe shine sponges and cloths; shoe-trees

International Classes 21 - Primary Classes **US Classes** 2, 13, 23, 29, 30, 33, 40, 50 **International Class Title** Housewares and Glass

For Floor mats for automobiles; bath mats for wash places; tatami mats; floor coverings; wall hangings, not of textile; artificial turf; gymnastic mats; wallpaper; yoga mats

International Classes 27 - Primary Classes **US Classes** 19, 20, 37, 42, 50 **International Class Title** Floor Coverings

For Handbag frames; purse frames; horseshoes; leather straps; industrial packaging containers of leather; clothing for domestic pets; evening bags; boston bags; shoulder bags; messenger bags; suitcases; handbags; rucksacks; briefcases; name card cases; reusable shopping bags; textile shopping bags; canvas shopping bags; leather pouches; baggage tags; change purses; key cases; wallets; business card cases; vanity cases, not fitted; umbrellas and their parts; walking sticks; canes; saddlery

International Classes 18 - Primary Classes **US Classes** 1, 2, 3, 22, 41 **International Class Title** Leather Goods

For Ear plugs for soundproofing; medical apparatus and instruments, namely, sphygmomanometers, clinical thermometers, body fat monitors, therapeutic facial masks; gloves for medical purposes; ear picks; electric massage apparatus for household purposes

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Traction engine; ropeways for cargo or freight handling, namely, conveyances to transport passengers or freight in carriers suspended from cables and supported by a series of towers; non-electric prime movers for land vehicles being motors for land vehicles, not including their parts; machine elements for land vehicles, namely, hydraulic turbines; drive shafts, axles or spindles being machine elements for land vehicles; wheel bearings being machine elements for land vehicles; shaft couplings or connecting rods other than parts of motors and engines being machine elements for land vehicles; power transmissions and gearing being machine elements for land vehicles; shock absorbers being machine elements for land vehicles; shock absorbing springs being machine elements for land vehicles; brakes being machine elements for land vehicles; parachutes; anti-theft alarms for vehicles; wheelchairs; ac motors or dc motors for land vehicles, not including their parts; vessels and their parts and fittings, namely, ships and structural parts thereof; aircraft and their parts and fittings, namely, brake discs, brake linings and related mechanical parts thereof; railway rolling stock and their parts and fittings, in particular, buffers for railway rolling stock; automobiles and structural parts therefor; two-wheeled motor vehicles and structural parts thereof; bicycles and structural parts thereof; rickshaws; sleighs and sleds for transport purposes; trolleys; carts; horse-drawn carriages; riyakah being two-wheeled carts; adhesive rubber patches for repairing tubes or tires; baby carriages

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Amusement machines and apparatus for use in amusement parks, namely, amusement machines, automatic and coin-operated; toys for domestic pets; dolls; toy scooters; toy mobiles; remote-controlled toy vehicles; toy vehicles; toy models; scale model vehicles; controllers for toy cars, controllers for toy planes, controllers for toy ships; protective films adapted for screens for portable games; drones as toys; electronic games for the teaching of children; apparatus for electronic games other than those adapted for use with an external display screen or monitor; tricycles for infants being toys; dice; japanese dice

games; conjuring apparatus, namely, magic tricks; playing cards; mah-jong; game machines and apparatus, namely, video game machines; billiard equipment; sports equipment, namely, tennis rackets, baseball gloves, baseball bats, baseball balls, basketball balls, volleyball balls, rugby balls, soccer balls; machines for physical exercises; golf bags with or without wheels; golf clubs; golf gloves; gloves for rugby; fishing tackle; insect collecting equipment, namely, toy insect cages, toy insect nets; toy cars

International Classes 28 - Primary Classes **US Classes** 22, 23, 38, 50 **International Class Title** Toys and Sporting Goods

For Pastes and other adhesives for stationery or household purposes; sealing wax; addressing machines; envelope sealing machines for offices; drawing instruments; marking templates; pencil sharpeners, electric or non-electric; decorators' paintbrushes; containers of paper, for packaging; corrugated cardboard boxes; bags of plastic, for packaging; food wrapping plastic film for household purposes; garbage bags of paper for household purposes; garbage bags of plastics for household purposes; printed paper patterns for making clothes; tailors' chalk; banners of paper; flags of paper; towels of paper; table napkins of paper; handkerchiefs of paper; shipping tags made of paper, namely, paper shipping labels; paper and cardboard; toilet paper; japanese paper; printing paper; stationery; photo albums; scrapbooks; fountain pens; writing brushes; marking stamps; stamp stands; thumbtacks; bookmarkers; inking pads; stands for pens and pencils; pocket memorandum books; writing pads; envelopes; pencils; pens; writing ink; rubber erasers; seals being stationery; correcting fluid for documents; drawing rulers for stationery and office use; stickers; pen cases; paper clips; printed note books; bookends; paper knives being letter openers; printed books in the field of automobiles; printed calendars; printed magazines in the field of automobiles; printed newspapers; photograph stands

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Photographic machines and apparatus, namely, lenses for cameras and rearview cameras for vehicles; cinematographic machines and apparatus; optical machines and apparatus, namely, magnifying lenses, optical sensors; cameras; in-car cameras; measuring or testing machines and instruments, namely, pressure gauges, coordinate measuring machines, metal strength testing machines; temperature indicators; accelerometers; hygrometers; speed indicators; measuring or testing machines and instruments for automobiles, namely, automotive measuring instruments in the nature of water temperature gauges, air fuel/ratio gauges, boost gauges, vacuum gauges and exhaust gas temperature gauges; in-car sensors, namely, sensors and detector units for use in controlling the actuation and operation of automotive safety apparatus and equipment; mileage recorders for vehicles; automatic indicators of low pressure in vehicle tires; speed checking apparatus for vehicles, namely, speedometers; thermostats for vehicles; speedometers; speed indicators; power distribution or control machines and apparatus, namely, electric power distribution machines; rotary converters; phase modifiers; circuit breakers; current rectifiers; battery chargers; inverters; switchboards; battery chargers for automobiles; charging stations for electric vehicles; voltage regulators for vehicles; fuel cells; electrical fuses; electric fuse boxes; solar batteries; electrical batteries and cells; batteries for automobiles; accumulators being batteries; electric wires and cables; electric wire harnesses for automobiles; electric connectors; telecommunication machines and apparatus, namely, smartphones; in-car radar detectors; vehicular radio communication machines and apparatus, namely, radios, radio receivers, radio transmitters; radar machines and apparatus; event recorders, namely, electronic black boxes for recording data; navigation apparatus for vehicles; in-car audio equipment, namely, stereos for vehicles; mobile phones; smartphones; cases for mobile phones and smartphones; neck straps specially

adapted for holding mobile phones; radio transceivers; Global Positioning System apparatus; remote engine starters for automobiles, namely, remote controls for controlling vehicle ignitions; videocameras being camcorders; personal digital assistants in the shape of a watch; electronic machines, apparatus and their parts, namely, computers; electronic control apparatus and instruments for automobiles, namely, electronic controls for motors; downloadable application software for use in database management; display units for automobiles, namely, electronic LCD display unit with multi-networking (TCP/IP) capabilities; electronic display units, namely, electronic LCD display unit with multi-networking (TCP/IP) capabilities; downloadable computer programs for use in database management; computers; downloadable computer software for use in database management; computer hardware; integrated circuits; electronic circuits; recorded computer programs for use in database management; magnetic disks, recorded featuring music, machine-readable; USB memories, namely, blank USB flash drives; blank data recording media, namely, blank USB flash drives; eyewear; goggles for sports; sunglasses; protective helmets

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Clothing, namely, shirts; non-japanese style outer clothing, namely, overcoats; suits; skirts; trousers; smocks; clothing jackets; coats; overcoats; sweaters; shirts for suits; cuffs; overalls; polo shirts; parkas; working clothing, namely, shirts, blouson, pants, vests; jumpers in the nature of coveralls; nightwear; pajamas; bath robes; corsets being underclothing; underwear being underclothing; brassieres; petticoats; swimwear being bathing suits; swimming caps being bathing caps; tee-shirts; camisoles; japanese traditional clothing, namely, kimonos; sleep masks; aprons being clothing; socks and stockings other than special sportswear; puttees; leg gaiters; shawls; scarves; japanese style socks being tabi; japanese style socks covers being tabi covers; gloves and mittens being clothing; neckties; neckerchiefs; bandanas being neckerchiefs; thermal underwear; mufflers as neck scarves; ear muffs being clothing; headwear for wear; nightcaps; uniforms; driving gloves; garters; sock suspenders; suspenders; waistbands; belts being clothing; footwear other than special footwear for sports; shoes and boots other than special footwear for sports; sneakers; rain boots; leather shoes; boots other than boots for sports; japanese style wooden clogs; japanese style sandals; masquerade costumes; special footwear for sports; clothes for sports, namely, sports jerseys; sport coats; sport shirts; sports pants; uniforms and stockings; motorists' clothing, namely, racing suits, racing uniforms, shirts and pants, racing jackets; driving shoes; shoes for race for automobiles and two-wheeled motor vehicles

GOODS AND SERVICES INFORMATION

For Empty tool and material trolleys made of metal; hand-operated tool and material trolleys, hand propelled trolleys, dollies being hand trucks, forklift trucks, dollies being trolleys, mechanics' creepers, mechanics' car creepers for use in inspecting the underneath of cars, tool trolleys, rolling containers in the nature of trolleys; electrically powered tool and material trolleys, motorized tool and material trolleys; electric drives for tool and material trolleys; fitted vehicle covers, fitted automotive seat covers; steering wheel covers, shaped steering wheel covers for automobiles

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Compressed air operated hand tools and hand-held tools, other than hand-operated, namely, power operated tools, namely, drilling tools, impact wrenches, ratchet wrenches, drills, grinders, orbital sanders; power-operated ratchet wrenches; power-driven wrenches; mechanical tools, motor driven tools, and air-powered tools, namely, grinders being power tools, buffers being power tools, metalworking machine tools, and power-operated drilling tools; electric jacks, hydraulic jacks, pneumatic jacks; hydraulic hammers; pump control valve; compressed air machines, air spray guns, namely, compressed air guns for the extrusion of mastics, fluid pump control valves, lifting gear for handling loads, namely, lifting work platforms; pneumatic grease guns; grease guns operated by compressed air

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Non-metallic empty tool cabinets for general use, non-metal empty tool boxes, non-metal storage boxes for general use; workbenches and industrial work tables; adjustable feet specially adapted for workbenches and industrial work tables, not of metal; furniture parts, namely, storage drawer units for holding small metal parts; non-metallic wall mounted non-metal hooks for use as hose supports; furniture, namely, storage modules; wall-mounted tool racks; cupboards; work benches, work surfaces, industrial worktables, work stools, industrial work tables; fabric storage bins organizers, not of metal; containers, not

of metal, for storage; free-standing plastic racks for tools; nonmetallic tool storage containers for industrial or commercial use; metal shelving; metal cabinets being furniture; racks being furniture of metal; pedestal cabinets; hand-operated non-metal spring-retracted hose reels; hose hangers not of metal; lockers; non-metal tool boxes; non-metal cases for tools as furniture; non-metal tool chests, empty; wall-mounted non-metal tool racks; metal tool cabinets; non-metal tool cabinets; furniture, namely, tool chests; furniture casters, not of metal; plastic storage drums for cables; adjustable feet for specially adapted for use on workbenches and industrial work tables, of metal; forcing screws, not of metal; non-metal plastic storage drums for electrical cables; drawer cabinets for use in furniture for the storage of metal for small metal parts

International Classes 20 - Primary Classes **US Classes** 2, 13, 22, 25, 32, 50 **International Class Title** Furniture and Articles Not Otherwise Classified

For Heating, ventilating, and air conditioning and purification equipment, namely, HVAC units; gas burners; heating generators; induction water heaters; air filter machines for industrial use, and water filters for industrial use; lighting fixtures and lighting reflectors; electric luminaires; electric lamps; lamps; electric torches for lighting; lighting apparatus, namely, lighting installations; lighting installations, lamps, inspection lamps, handheld spotlights, hot plates, cooking rings, coils as parts of heating installations, welding rod ovens, induction water heaters

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Mechanical, optical, electric and chemical measuring and testing apparatus for vehicle maintenance and repair, namely, apparatus for testing vehicle transmissions; detection apparatus, monitoring apparatus, checking apparatus for tools and apparatus which are included in tool and material trolleys, tool cabinets, work benches, tool magazines and drawers, namely, motion detectors; measuring, detecting and monitoring instruments, indicators and controllers, namely, motion detectors; length measuring gauges; caliper length gauges and micrometer screws; measuring apparatus and instruments, namely pressure measuring apparatus; measuring rulers; measuring apparatus, namely, scales; measuring tapes; thermometers; checking apparatus and instruments, namely, apparatus for checking temperature, pressure quantity and concentration of gas and liquids; automatic electric or electronic access control units for use with tool and material trolleys, tool stores, tool cabinets, drawers; testing apparatus and instruments, namely, electric locks; signaling mirrors; power controllers; instrumentation simulators, namely, vehicle drive training simulators; cables for electricity; electrical cabling; mains operated battery chargers; electronic cables; chargers; information technology, audiovisual and multimedia apparatus, namely, computers; magnets, magnetizers and demagnetizers; safety, security, protection and signaling devices; electric, electronic and electromagnetic locks; electric smart locks; electric and electronic components for electronic and/or wireless locks; safety work gloves for protection against accident or injury; safety glasses for protecting the eyes; downloadable software applications for mobile tablet computers for process control, process monitoring, logging, for the diagnosis of faults and troubleshooting, and for predictive maintenance and statistics in relation to torque wrenches, angle-controlled wrenches, programmable torque tools and angle-controlled tools, tools for the controlled tightening of screws and for analyzing screw connections; downloadable computer programs for data processing; downloadable software for monitoring, controlling and running physical world machines; electric warning lights; stands adapted for laptops, cabinets specially adapted to hold speakers and computers, safety goggles, protective industrial visors, battery chargers, insulated clothes for protection against injury, endoscopic equipment for industrial purposes, borescopes, tool measuring instruments, textile testing machines, measuring tapes, semiconductor testing apparatus, work gloves for protection against accidents

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Hand tools and implements, namely, claw hammers; screw wrenches, open-end ring spanners, articulated wrenches, lug wrenches, nut wrenches, spark wrenches, spark plug sockets being hand tools, ratchet spanners, torque wrenches, non-electric torque screwdriver, oil filter wrenches, non-electric strap wrenches, non-electric cartridge wrenches, non-electric screwdriver, screw and bolt extractors, hand tools, namely, scrapers, center punches being hand tools; hand-operated hand drills; hand-operated, crow bars; pliers; tin snips; hand-operated sheet metal molding tools, namely, sheet metal shrinking and stretching device; hand tools, namely, files; metal cutting saws; hand cable splicers tools; hand tools, namely, tire levers; hand tools, namely, nut splitters; hand-operated tools for lifting, namely, lifting work platforms and lifting jacks, hand operated; hand-operated gear pullers for motor vehicle parts repair, namely, hand-operated valve spring tensioning apparatus, hand-operated piston ring compressors; hand-operated tools for pipe cutting, hand-operated spring compressors; working knives, razor blades being hand tools; hand-operated coupling centering tools, hand-operated valve spring depressors; holders for hand tools; stripping knives, strippers being hand operated tools; panel beating hand-operated hammers, working knives, crow bars, hack saws, tweezers, jointing trowels, milling cutters being hand operated tools; handles for hand-operated hand tools, pincers being hand operated tools; tongs as pearl catchers being hand operated tools; needle work scissors, hammers being hand operated tools; hand-operated hand air pumps; hand saws, levers; tommy bars; socket wrenches being hand operated tools; wire strippers being hand operated tools; hand tools being cable tie tools; wedges being hand operated tools; ratchet handles being hand operated tools; nippers being hand operated tools; knee kickers being hand operated tools; scraping tools being hand operated tools; air pumps, hand-operated; chisels being hand operated tools; shears, riveters being hand operated tools; hand operated tools for repairing automobile parts, namely, hand operated tire removers; hand-operated tools in the nature of hoop cutters; hand-operated pipe wrenches, tube cutters being hand operated tools; hand-operated tube cutting instruments, pipe bending tools being hand operated tools; monkey wrenches being hand operated tools; rotary drills being hand operated tools; rotary metal cutting tools being hand operated tools; rotary dies being hand operated tools; spanners being hand operated tools; screwdriver bits for hand operated screwdrivers, spanners being hand operated tools; handheld screwdrivers, non-electric, clamps for carpenters or coopers, vices; hex keys, hex key wrenches, putty knives; expanders being hand operated tools; chucks for hand-operated tools; socket lighteners being hand operated tools; ratchets being hand operated tools; hand operated wrenches in the nature of tensioner being hand operated tools; nut drivers being hand operated tools; socket sets being hand operated tools; tool belts, tool holders, tool aprons, tool bags sold containing hand-operated hammers and screwdrivers, screw wrenches, pliers, tool pouches for attachment to tool belts; monkey wrenches being hand operated tools; extension bars for hand tools, extensions for hand tools, cramps in the nature of vices for use in holding workpieces; axes, sets of socket spanners; holders for hand tools, not of metal

International Classes 8 - Primary Classes **US Classes** 23, 28, 44 **International Class Title** Hand Tools

For Empty tool boxes of metal; goods of metal, namely, empty tool and material boxes; goods of metal, namely, tool chests of metal, empty; tool chests of metal, empty; metal tool boxes; metal boxes for stacking purposes, empty tool storage containers of metal, storage containers of metal, containers of metal for transport; metal cotter pins; goods of metal, namely, snap ring fasteners of metal; goods of metal, namely, connecting pins of metal; oil cans made of metal, sold empty; chains of metal for oil filter; oil drainage containers of metal; clamping angles of metal; small hardware of metal, namely, multi-tooth adapters for use with hydraulic and pneumatic systems; goods of metal, namely, coupling mandrels, not being parts of

machines; goods of metal, namely, brass mandrels, not being parts of machines; non-mechanical reels of metal for storing cables; prefabricated structures and transportable buildings of metal, portable structure partitions made of metal; ramps of metal for use with vehicles; metal ramps for use with vehicles; ferrule fittings of metal, non-mechanical spring-retracted air hose reels of metal, hose clamps of metal; non-mechanical cable storage drums of metal; metal stepladders and ladders; locks of metal, locking mechanisms of metal, striking plates of metal for locks; metal forcing screws; goods of metal, namely, cable storage drums of metal for electrical cables

GOODS AND SERVICES INFORMATION

For Motors and engines, except for land vehicles; gear motors other than for land vehicles; drives, namely, electric drives for motors and machines; control mechanisms, namely, pneumatic controls for machines and motors; electric motors for drives, not for land vehicles; shunting equipment, specifically, railway derail in the nature of power-driven mechanical controls for use on a rail to control movement on the rail and automatic train washing installations; parts and fittings for the aforesaid goods, namely, fans for motors and engines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Building construction services, assembly in the nature of building construction services, machinery maintenance and repair, refurbishment of buildings, modernization being building renovation, and installation of control engineering and safety technology installations, in particular the aforesaid consisting of level crossing technology and signal box technology as features of point heating systems, used particularly for control engineering and consisting of remote control technology, for use in controlling apparatus for network management

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Optical, monitoring, measuring, signaling, checking, supervision, life-saving and teaching apparatus and instruments, namely, distance measuring apparatus and controllers being voltage regulators; network management control apparatus, namely, computer network adapters and computer network hubs; microprocessor controls; communications transmitters; communications receivers; data communications apparatus, namely, wireless communication devices for data transmission; electrotechnical equipment and apparatus, instruments and components, namely, electrotechnical vibration meters; display,

measuring, counting, recording, monitoring, testing, control, regulating and commutation apparatus, specifically, apparatus for testing vehicle brakes, electrical switches, and railway signals; downloadable computer software for controlling transport systems, in particular rail transport systems and for controlling shunting equipment and automatic train washing installations, train positioning systems and train information systems; railway traffic safety applicants, namely, luminous railway signals; electronic and electric equipment, instruments, apparatus and modules for controlling, securing and automating rail transport, namely, integrated circuit modules, electrical controlling devices, and industrial automation controls; electronic apparatus being railway signals comprised of railway signaling technology and installations in the nature of electric installations for the remote control of industrial operations, in particular installations comprised of line and safety technology; electrotechnical and electromechanical components, in particular plug-in connectors, electric switches, apparatus for commutation, namely, electric current switches, electric relays, electric sensors and contact sensors being pressure sensors, in particular for rail transport infrastructure equipment; double wheel electric sensors, in particular for rail transport; chargers for electric batteries; electronic apparatus and equipment for collecting, processing and displaying data, namely, data processing apparatus, data processing equipment, and computer display screens, in particular in the field of railway traffic; electronic speed, direction and position detecting and display apparatus for rail vehicles, namely, electronic speed controllers, LED position sensors and apparatus for recording distance; electric, electronic, computer-based and processor-based controllers and control systems, and visualizing and monitoring equipment, specifically, electrical controllers and electronic control systems for machines and engines, in particular for system conditions and states, for rail transport infrastructure equipment, for control engineering and safety technology; remote electronic monitoring apparatus for monitoring rail vehicles; network communications apparatus, namely, network access server hardware; digital and analog recording media, namely, media players and digital media receivers; automatic lighting control apparatus; electronic control systems for machines that are programmed according to process flows for rail transport, in particular in marshalling yards and at level crossings; downloadable computer software for use in centralized and decentralized route control in shunting equipment; electronic control engineering apparatus, namely, electronic apparatus for the remote control of industrial operations; parts and fittings for the aforesaid goods, namely, electrical cables and electrical wires

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Technological services in the nature of technological research in the field of engineering and engineering design services; industrial analysis and research services, namely, industrial research in the field of engineering; technological consultancy in the field of control engineering and safety technology, specifically, level crossing technology and signal box technology; design and development of computer hardware and software; engineering services, namely, project planning and construction drafting for control engineering and safety technology installations, in particular level crossing technology and signal box technology; scientific laboratory services, specifically, measurement evaluations taken in lighting laboratories in the engineering and rail safety fields

RELATED PROPERTIES INFORMATION

International Registration 1699576 **International Registration Date** Dec. 29, 2021

GOODS AND SERVICES INFORMATION

For Food supplements; dietary supplements for humans; dietetic foods and beverages adapted for medical use; pharmaceutical and medical preparations for increased longevity and for the natural promotion of sulforaphane to assist the body in neutralizing toxins, reducing inflammation and to support the body's efforts to reduce cancer; herbal preparations for medical purposes; vitamins and vitamin preparations; dietary supplements promoting fitness, endurance and long life; mineral supplements and mineral preparations for medical use; vitamin and mineral supplements; anti-ageing dietary supplements; diagnostic testing reagents for clinical medical use

International Classes 5 - Primary Classes **US Classes** 5, 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Vitamins for use in the manufacture of food supplements, pharmaceuticals and medical preparations; active chemical ingredients for use in the manufacture of food supplements, pharmaceuticals and medical preparations; plant extracts for use in the manufacture of food supplements, pharmaceuticals and medical preparations; seaweed extracts for the manufacture of food supplements, pharmaceuticals and medical preparations

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

BASIS INFORMATION

Currently 66A Yes

OWNER INFORMATION

Owner Name Peace Products Limited **Address** Peace Products Limited Unit 4, Melbourne Business Court, Pride Park DERBY, Derbyshire DE24 8LZ UNITED KINGDOM **Legal Entity** Limited Company **State or Country Where Organized** UNITED KINGDOM

GOODS AND SERVICES INFORMATION

For Collection of data for business purposes; compilation of data for business purposes; compilation of statistics for business purposes; compilation of mathematical data for business purposes; statistical analysis and reporting for business purposes; data and database management; data processing; data transcription; computerised verification services of processed data, namely, mapping data for consumer and industrial navigational aids; retail and wholesale store services in the field of vehicles, apparatus for locomotion by land, air, water, space or rail, robotic vehicles, robotic apparatus for locomotion by land, air, water, space or rail, autonomous vehicles, autonomous apparatus for locomotion by land, air, water, space or rail, unmanned aerial vehicles (UAVs), drones, camera drones, self-driving vehicles, driverless vehicles; retail and wholesale store services in the field of autonomous vehicles using artificial intelligence, computational neuroscience, cognitive neurobiotics, biomimicry, machine learning, deep learning and edge computing solutions; retail and wholesale store services in the field of autonomous vehicles and apparatus for locomotion by land, air, water, space or rail that reproduce and replicate natural behaviours; retail and wholesale store services in the field of autonomous vehicles and apparatus for land, air, water, space or rail that sense, view, detect and avoid objects and autonomously navigate and manoeuvre; retail and wholesale store services in the field of structural parts and fittings for vehicles, apparatus for locomotion by land, air, water, space or rail, robotic vehicles, robotic apparatus for locomotion by land, air, water, space or rail, autonomous vehicles, autonomous apparatus for locomotion by land, air, water, space or rail, unmanned aerial vehicles (UAVs), drones, camera drones, self-driving vehicles, driverless vehicles and autonomous vehicles using artificial intelligence, computational neuroscience, cognitive neurobiotics, biomimicry, machine learning, deep learning and edge computing solutions; retail and wholesale store services in the field of structural parts and fittings for autonomous vehicles and apparatus for locomotion by land, air, water, space or rail that reproduce and replicate natural behaviours and autonomous vehicles and apparatus for land, air, water, space or rail that sense, view, detect and avoid objects and autonomously navigate and manoeuvre; retail and wholesale store services in the field of

scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing and inspecting apparatus and instruments; retail and wholesale store services in the field of scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing and inspecting apparatus and instruments for use in the fields of intelligence, computational neuroscience, cognitive neurobiotics, biomimicry, artificial intelligence, machine learning, deep learning, edge computing, autonomous machines, autonomous vehicles, robots and robotics; retail and wholesale store services in the field of computers and computer peripheral devices and computer hardware, software and firmware for use in the fields of intelligence, artificial intelligence, computational neuroscience, cognitive neurobiotics, biomimicry, machine learning, deep learning, edge computing, autonomous machines, autonomous vehicles, robots and robotics; retail and wholesale store services in the field of computer hardware, software and firmware for controlling autonomous vehicles and other autonomous apparatus for locomotion by land, air, water, space or rail and robots and robotic apparatus; retail and wholesale store services in the field of computer interface boards, apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data, computer hardware, firmware and software for environmental sensing, computer hardware, software and firmware for detecting objects, computer hardware, software and firmware for multispectral sensing and viewing, computer hardware, firmware and software for use with sensors, motion detection software and hardware, computer software and hardware for threat assessment and intelligence; retail and wholesale store services in the field of sensors, multispectral sensors, polarisation sensors, electrical and electronic sensors, heat sensors, light sensors, impact sensors, shock sensors, measuring sensors, magnetic sensors, bio-sensors, humidity sensor, laser sensors, range sensors, proximity sensors, level sensors, pressure sensors, optical sensors, biochip sensors, pollutant sensors, digital sensors, invader sensors, position sensors, vibration sensors, acceleration sensors, infrared sensors, distance sensors, temperature sensors, motion sensors, motion tracking sensors, timing sensors, ultrasonic sensors, optic flow sensors, mass flow sensors, electro-optical sensors, collision warning sensors and radars, multi-sensor platforms for autonomous machines and vehicles, odometers, retail and wholesale store services in the field of electronic components, namely, Field Programmable Gate Array IP Cores, retail and wholesale store services in the field of electronic components, namely, artificial neural networks, retail and wholesale store services in the field of computer chips, semiconductor wafers, silicon wafers, semiconductor chips, silicon chips and algorithms on silicon wafers, silicon chips, computer chips or other electronic components, retail and wholesale store services in the field of remapping and stabilisation algorithms on silicon wafers, silicon chips, computer chips or other electronic components, retail and wholesale store services in the field of semiconductors, semiconductor apparatus and instruments, radio-frequency components, radio-frequency transmitters, adapters, repeaters, amplifiers, filters, antennas, modulators, receivers, identification devices, identification readers, power meters, retail and wholesale store services in the field of radar, extremely high frequency (EHF) radar, Super High Frequency (SHF) radar, radar connectors, radar installations, radar apparatus and instruments, radar systems, radar tracking systems, radar transmitters, radar detectors, radar antennas, radar displays, radar receivers, radar reflecting and jamming apparatus, robotic process automation (RPA) software, robotic electrical control apparatus, humanoid robots with artificial intelligence, industrial robots with artificial intelligence, laboratory robots, teaching robots, telepresence robots, security surveillance robots, cleaning robots, mining robots, retail and wholesale store services in the field of imaging apparatus, electronic imaging devices, electronic surveillance apparatus and instruments, thermal imaging apparatus other than for medical use, video imaging systems, light imaging detection and ranging apparatus, guidance and navigation systems, navigational and positioning apparatus and instruments, navigation and positioning software, Global Positioning Systems (GPS), software for satellite navigation systems, software for use in autonomous navigation, computer systems for unmanned,

autonomous and robotic navigation, retail and wholesale store services in the field of navigation, guidance, tracking, targeting and map making devices, retail and wholesale store services in the field of software for simultaneous localisation and mapping (SLAM), retail and wholesale store services in the field of software in the field of computational geometry, retail and wholesale store services in the field of software in the field of odometry, retail and wholesale store services in the field of computer hardware, firmware and software for recording, collecting, capturing, storing, transmitting, processing, receiving, displaying, analysing and communicating data from computer hardware on autonomous vehicles and machines, retail and wholesale store services in the field of cameras, multispectral cameras, rotationally stabilised cameras, onboard cameras, action cameras, surveillance cameras, underwater cameras, infrared cameras, rapid scan cameras, high speed cameras, thermal imaging cameras, motion-activated cameras, computer software for use with images, image processing software, computer software for 3D-visualisation and modelling, computer vision software, pattern recognition software, retail and wholesale store services in the field of databases, data networks, data processing equipment, data processors and data collection, capture, storage, analysis, transmission, processing and communication apparatus, retail and wholesale store services in the field of computer software, hardware and firmware for data collection, capture, storage, analysis, transmission, processing and communication, retail and wholesale store services in the field of electronic controllers and control devices, information, advice and consultancy relating to all the aforesaid services

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For scientific and technological research services in the field of neuroscience, intelligence and behaviour and product design relating thereto, not for medical purposes; scientific and technological research services relating to animals and insects and product design relating thereto not for medical purposes; scientific and technological research services relating to vision and optic flow and product design relating thereto; scientific and technological research services in the field of intelligence, computational neuroscience, cognitive neurobiotics, biomimicry, artificial intelligence, machine learning, deep learning, edge computing, autonomous machines, autonomous vehicles, robots and robotics; genetic testing of animals and insects for scientific research purposes; conducting scientific experiments; conducting scientific experiments in animals and insects; conducting scientific experiments using virtual reality and radar tracking; genetic research; genetic engineering; genetic manipulation; genetic marking of neurons for scientific research; genetic or chemical disruption of neural networks for scientific purposes; scientific research in the field of genetics and genetic engineering; design and development of navigation systems; testing, analysis and monitoring of navigation signals; mapping services; robotic mapping services; non-medical ultrasound imaging services; digital imaging services; engineering services relate to robotics; mathematical research services; design of mathematical models; design and development of algorithms; scientific and technological services relating to the reproduction and replication of natural behaviours and neural responses in machines and vehicles using algorithms; development and testing of computing methods, algorithms and software; data warehousing; maintenance of database software; hosting of databases for others; electronic data storage; technical data analysis; design and development of computers and computer peripheral devices; design and development of computer hardware, software and firmware for use in the fields of intelligence, computational neuroscience, cognitive neurobiotics, biomimicry, artificial intelligence, machine learning, deep learning, edge computing, autonomous machines, autonomous vehicles, robots and robotics; design and development of computer hardware, software and firmware for controlling autonomous vehicles and other autonomous apparatus for locomotion by land, air, water, space or rail and robots and robotic apparatus; design and development of computer interface

boards; design and development of apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; design and development of computer hardware, firmware and software for environmental sensing; design and development of computer hardware, software and firmware for detecting objects; design and development of computer hardware, software and firmware for multispectral sensing and viewing; design and development of computer hardware, firmware and software for use with sensors; design and development of motion detection software and hardware; design and development of computer software and hardware for threat assessment and intelligence; design and development of sensors, including multispectral sensors, polarisation sensors, electrical and electronic sensors, heat sensors, light sensors, impact sensors, shock sensors, measuring sensors, magnetic sensors, bio-sensors, humidity sensor, laser sensors, range sensors, proximity sensors, level sensors, pressure sensors, optical sensors, biochip sensors, pollutant sensors, digital sensors, invader sensors, position sensors, vibration sensors, acceleration sensors, infrared sensors, distance sensors, temperature sensors, motion sensors, motion tracking sensors, timing sensors, ultrasonic sensors, optic flow sensors, mass flow sensors, electro-optical sensors, collision warning sensors and radars; design and development of multi-sensor platforms for autonomous machines, vehicles, robots and robotic apparatus; design and development of odometers; design and development of electronic components, namely, Field Programmable Gate Array IP Cores; design and development of electronic components, namely, artificial neural networks; design and development of computer chips; design and development of semiconductor wafers, silicon wafers, semiconductor chips, silicon chips; design and development of algorithms on silicon wafers, silicon chips, computer chips or other electronic components; design and development of remapping and stabilisation algorithms on silicon wafers, silicon chips, computer chips or other electronic components; design and development of semiconductors and semiconductor apparatus and instruments; design and development of radio-frequency components; design and development of radio-frequency transmitters, adapters, repeaters, amplifiers, filters, antennas, modulators, receivers, identification devices, identification readers and power meters; design and development of radars, extremely high frequency (EHF) radar, Super High Frequency (SHF) radar, radar connectors, radar installations, radar apparatus and instruments, radar systems, radar tracking systems, radar transmitters, radar detectors, radar antennas, radar displays, radar receivers and radar reflecting and jamming apparatus; design and development of robotic process automation (RPA) software; design and development of robotic electrical control apparatus; design and development of robots, robots with artificial intelligence, laboratory robots, teaching robots, telepresence robots, surveillance robots; design and development of imaging apparatus, electronic imaging devices, electronic surveillance apparatus and instruments, thermal imaging apparatus, video imaging systems, light imaging detection and ranging apparatus; design and development of guidance and navigation systems; design and development of navigational and positioning apparatus and instruments; design and development of navigation and positioning software; design and development of Global Positioning Systems (GPS); design and development of software for satellite navigation systems; design and development of software for use in autonomous navigation; design and development of computer systems for unmanned, autonomous and robotic navigation; design and development of navigation, guidance, tracking, targeting and map making devices; design and development of software for simultaneous localisation and mapping (SLAM); design and development of software in the field of computational geometry; design and development of software in the field of odometry; design and development of computer hardware, firmware and software for recording, collecting, capturing, storing, transmitting, processing, receiving, displaying, analysing and communicating data from computer hardware on autonomous vehicles and machines; design and development of cameras, multispectral cameras, rotationally stabilised cameras, onboard cameras, action cameras, surveillance cameras, underwater cameras, infrared cameras, rapid scan cameras, high speed cameras, thermal imagine cameras, motion-activated cameras; design and development of computer software for use with images;

design and development of image processing software; design and development of computer software for 3D-visualisation and modelling; design and development of computer vision software; design and development of pattern recognition software; design and development of computer databases and data networks; design and development of data processing equipment; design and development of data collection, capture, storage, analysis, transmission, processing and communication apparatus; design and development of computer software, hardware and firmware for data collection, capture, storage, analysis, transmission, processing and communication; design and development of electronic controllers and control devices; quality control services; scientific and technological research services comparing reproduced or replicated behaviours and neural responses in machines and vehicles against real behaviours in animals and insects; software as a services (SAAS) service featuring software for designing, evaluating and operating autonomous systems technology and solutions for use in the fields of intelligence, computational neuroscience, cognitive neurobiotics, biomimicry, artificial intelligence, machine learning, deep learning, edge computing, autonomous machines, autonomous vehicles, robots and robotics; providing online non-downloadable software relating to intelligence, computational neuroscience, cognitive neurobiotics, biomimicry, artificial intelligence, machine learning, deep learning, edge computing, autonomous machines, autonomous vehicles, robots and robotics; platform as a services (PAAS) services featuring computer software for designing, evaluating and operating autonomous systems technology and solutions for use in the fields of intelligence, computational neuroscience, cognitive neurobiotics, biomimicry, artificial intelligence, machine learning, deep learning, edge computing, autonomous machines, autonomous vehicles, robots and robotics; technical data analysis; information, advice and consultancy relating to all the aforesaid services

Claimed Ownership of US Registrations 5169277

FOREIGN INFORMATION

Priority Claimed Yes **Foreign Application Number** 16761934 **Foreign Application Filing Date** May 22, 2017 **Foreign Registration Number** 016761934 **Foreign Registration Date** Nov. 08, 2019 **Foreign Application/ Registration County** EUROPEAN UNION **Foreign Expiration Date** May 22, 2027

GOODS AND SERVICES INFORMATION

For Paints, varnishes, lacquers; rust preservatives against rust in the nature of a coating; wood preservatives against the deterioration of wood; colourants; materials in the nature of fragrances, antibaterials and antimicrobials for use as components of paints, varnishes, lacquers and preservatives for metal, wood and other surfaces

International Classes 2 - Primary Classes **US Classes** 6, 11, 16 **International Class Title** Paints

For Treatment of materials by the encapsulation, microencapsulation and decapsulation of chemicals and compounds in the field of household and personal care products, fragrances, industrial chemicals, agrochemicals, and pharmaceuticals; chemical encapsulation, microencapsulation and decapsulation of chemicals and compounds in the fields of pharmaceuticals, oil and gas, agrochemicals, cosmetics, food ingredients, flavourings, paint, household and personal care products, fragrances, adhesives and sealants; consultancy in the field of the encapsulation of chemicals and compounds

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Scientific laboratory and scientific consultation services in the encapsulation, microencapsulation and decapsulation of chemicals and compounds; scientific research and development services in the encapsulation, microencapsulation and decapsulation of chemicals and compounds; scientific research and development into the method of encapsulation, microencapsulation and decapsulation of chemicals and compounds in the fields of pharmaceuticals, oil and gas, agrochemicals, cosmetics, food ingredients, flavourings, paint, household and personal care products, fragrances and sealants; consultancy in relation to the aforesaid scientific, research and development services

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Toys, games, playthings, namely, namely, electronic interactive board games for use with external monitor, action skill games, action target games, arcade games, electronic card games for use with external monitor, manipulative games, memory games, puzzle games, and electronic board games for use with external monitor; apparatus for games, namely, computer gaming consoles featuring artificial intelligence for use in playing and creating two-dimensional and three dimensional games; Video game apparatus, namely, video game joysticks, hand-held video game units other than those adapted for use with an external display screen or monitor, computer gaming consoles for playing computer games, for use with an external display screen or monitor, and for recreational game playing; electronic controllers for electronic video game machines; portable video games, namely, hand held units for playing video games other than those adapted for use with a display screen or monitor; electronic games other than those adapted for use with television received only; computer game consoles for use with a display screen or monitor; handheld computer games in the nature of hand held units for playing video games other than those adapted for use with a display screen or monitor; electronic board games in the nature of electronic interactive board games for use with external monitor; hand-held, nonelectronic skill games; games of strategy, namely, chess games, go games, board games; Electronic educational games, namely, electronic educational game machines for teaching; electronic learning games, namely, electronic educational game machines for teaching; electronic teaching games, namely, electronic educational game machines for teaching; electronic training games, namely, electronic educational game machines for teaching; and replacement parts, and fittings for all the aforesaid goods

International Classes 28 - Primary Classes **US Classes** 22, 23, 38, 50 **International Class Title** Toys and Sporting Goods

For Printed matter and printed publications, namely, books, magazines, printed periodicals, printed research papers, printed abstracts, newsletters, brochures, manuals and catalogues, all the foregoing in the field of science, technology, medicine, healthcare, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; printed material, namely, written articles, newspapers, magazines, scientific journals, books, newsletters and printed teaching material in the field of audio-video games; instructional manuals in the field of electronic games; computer game instruction manuals; printed materials, namely, written articles, books, newsletters, research papers and printed periodicals concerning computer game strategy; printed publications, namely, written articles, newspapers, magazines, scientific journals, books and newsletters relating to computer software, computer programmes, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Education and teaching in the fields of artificial intelligence, machine learning instruction at the primary, secondary, college, and university level, deep learning instruction at the primary, secondary, college, and university level, reinforcement learning instruction at the primary, secondary, college, and university level, all of the aforementioned in the field of building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; providing of training in the form of seminars, non-downloadable webinars, conferences, classes and workshops in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; Entertainment, namely, providing ongoing television programs in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, online non-downloadable films in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, and online nondownloadable videos in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; organizing community sporting and cultural events; entertainment services, namely, providing online video games; entertainment services, namely, providing on-line interactive computer games; arranging of games, namely, chess games, go games, electronic video games; Providing entertainment information about electronic, video games, chess games, go games, board games; providing online electronic games via the internet; providing online computer games; electronic game services provided by means of the Internet; electronic online game services accessible by means of mobile electronic devices; Electronic game services provided by means of the Internet and accessible by means of mobile devices; providing a training environment, namely, live educational exhibition programs and providing educational demonstrations of advanced technologies incorporating data science, artificial intelligence, deep learning, machine learning, reinforcement learning and virtual reality for use in the fields of energy,

information technology, healthcare, medicine, science and energy; providing training in the form of workshops, seminars, non-downloadable webinars, classes and conferences in the field of computer programming; provision of non-downloadable movies and films via a video-on-demand service; Providing on-line, non-downloadable electronic publications, namely, written articles, newspapers, magazines, scientific journals, books and newsletters in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; multimedia publishing of computer games; Publication of online non-downloadable electronic publications, namely, providing on-line non-downloadable written articles, research papers, books, and journals in the fields of artificial intelligence, gaming, and education; Providing entertainment information in the field of games for game players concerning the ranking of their games scores accessible by means of a website; educational and training services, namely, providing workshops, seminars, non-downloadable webinars, classes and conferences relating to computer games; education services, namely, providing workshops, seminars, non-downloadable webinars, classes and conferences relating to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality; training services, namely, providing training in the form of workshops, seminars, non-downloadable webinars, classes and conferences relating to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality; entertainment services, namely, an ongoing multimedia program in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality distributed via various platforms across multiple forms of transmission media; and providing advisory, consultancy, entertainment information and information about education relating to the foregoing

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking (supervision), lifesaving and teaching apparatus and instruments, namely, mobile, portable and wireless communication devices for voice, data or image transmission and for use in connection with natural language virtual agent software application for enabling data capture and data analysis; Apparatus and instruments for conveying, distributing, transforming, storing, regulating or controlling electric current; magnetic data carriers featuring information and content pertaining to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; recording discs featuring information and content pertaining to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; compact discs, DVDs and other digital recording media, namely, pre-recorded video cassettes, digital video discs, digital versatile discs, downloadable audio and video recordings, DVDs, and high definition digital discs featuring information and content pertaining to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; digital recording media, namely, pre-recorded DVDs, downloadable audio and video recordings and CDs featuring information and content pertaining to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high

performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; data processing apparatus; data processing apparatus and electronic accessories therefor, namely, electronic data processors and electronic data processing apparatus; information technology and audiovisual equipment, namely, apparatus for recording, transmission and reproduction of sound, images and data; artificial intelligence apparatus and, devices and instruments, namely, computer hardware and computer software for enabling natural language interaction and dialogue between a human user and a web service, data center, website contact center or digital device including mobile, portable and wireless devices; computer software for enabling natural language interaction and dialogue between a human user and a web service, data center, website contact center or digital device including mobile, portable and wireless devices; recorded computer operating programmes; recorded computer software for data analysis and computation and operating software for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, technology, medicine and healthcare; downloadable computer software applications for use in designing and developing artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, technology, medicine and healthcare; computer software for use as an application programming interface (API), namely, applications for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer software and computer programs for use in general purpose computation, manipulation of collections of data, data transformation, input/output, communications, graphics display, modeling and testing for use in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality; computer software, computer programs and integrated circuits incorporating algorithms for use in manipulating received or inputted data generated in a virtual space for use in connection with artificial intelligence methods, natural language processing, natural language understanding, dialog systems, voice and speech recognition and text to speech systems, natural language human-machine interfaces, predictive assistance technologies and for use in training virtual agents in an artificial space; educational apparatus and simulators, namely, apparatus for recording, transmission or reproduction of sound and images for use in training artificial agents within a virtual space for use in general purpose computation; recorded computer programs for use in general purpose computation, manipulation of collections of data, data transformation, input/output, communications, graphics display, modeling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; audio-visual teaching apparatus, namely, computers, tablet computers, smartphones and portable digital electronic devices for organizing, transmitting, receiving and reviewing text, data, image and audio files; game software, namely, software for audio, video and audio-video games; computer software, namely, audio, video and audio-video game software; computer software in the nature of software for audio, video and audio-video games software; computer games, namely, computer game programs, cartridges, tapes and discs; computer game programs; downloadable software game applications; computer groupware for use in database management; computer hardware; computer hardware for games and gaming; video game tapes, discs and software; computer application software for mobile phones for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; recorded game software for mobile electronic devices; pre-recorded electronic storage media featuring data relating to artificial

intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; compact disc featuring computer programs for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, technology, medicine and healthcare; prerecorded DVDs, CDs, video discs, video tapes and video cassettes featuring animated cartoons; recorded DVDs, CDs, video discs, video tapes and video cassettes featuring movies and cinematographic films concerning artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; downloadable movies and films featuring artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality provided via a video-on-demand service; downloadable electronic publications in the nature of newspapers, magazines, scientific journals, books, newsletters and blogs in the nature or journals featuring artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; downloadable electronic publications in the nature newspapers, magazines, scientific journals, books, newsletters and blogs in the nature of journals in the field of games and gaming; downloadable publications, namely, printed guides featuring computer and video game strategy; memory cards for video game machines; downloadable image files containing artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; virtual reality game software; interactive multimedia computer games programmes; computer games programmes downloaded via the Internet; pre-recorded CDs and DVDs featuring artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; and replacement parts and fittings for all of the aforesaid goods, and accessories for all the aforesaid goods, namely, touch pads, headsets for virtual reality games, virtual reality glasses, computer joystick peripherals, high performance computer hardware with specialized features for enhanced game playing ability

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Scientific and technological services, namely, scientific and technical consulting, scientific research, development and design and implementation of computer software and technology solutions in the fields of analytics and data mining, data analysis, data transformation, data visualization, data mining, statistical analysis, artificial intelligence, machine learning and virtual reality; Analysis to assure compliance with industry standards in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; industrial research in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; development and testing services for others in the field of computer software, including computer software incorporating algorithms; computer software programming services for others in the field of software configuration management; computer

programming in the field of animation; computer programming; Design and development of computing software featuring software platforms used for developing training environments for algorithms developed in relation to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; research in the field of computer programming software; design and development of computer software and computer programming software; technical advisory services relating to computer programs; design, development of computer software for use as an application programming interface (API); application service provider featuring application programming interface (API) software for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; hosting the websites of others on a computer server for a global computer network; computer software consultancy; development and testing services for others in the field of computer software, including computer software incorporating algorithms, all of the aforementioned in the field of software for use in a virtual space; development and testing services for others in the field of computer software, including computer software incorporating algorithms, all of the aforementioned in the field of computer games and board games; new product design services in the field of games; new product design services in the field of board games; technology consultation and research in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality; design, development and technological analysis of software for virtual environments for machine learning, deep learning, reinforcement learning; design and development of computer game programmes for neural networks; design and development of computer game programmes for tree search; providing virtual computer environments through cloud computing; providing web hosting platforms for use in connection with artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; programming of computer software platforms for others; Platform as a service (PaaS) featuring computer software platforms for use in managing, networking, collaborating within and providing remote access to databases in connection with artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, technology, medicine and healthcare; and providing technological advice, consultancy and information services in relation to the aforesaid services

GOODS AND SERVICES INFORMATION

For Toys, games, playthings, namely, namely, electronic interactive board games for use with external monitor, action skill games, action target games, arcade games, electronic card games, manipulative games, memory games, puzzle games, electronic board games; apparatus for games, namely, computer gaming consoles featuring artificial intelligence for use in playing and creating two-dimensional and three dimensional games; video game apparatus, namely, joysticks, hand-held video game units, computer gaming consoles; player operated electronic controllers for electronic video game machines; portable video games, namely, hand held units for playing video games other than those adapted for use with a display screen or monitor; electronic games other than those adapted for use with television received only; computer game consoles for use with a display screen or monitor; handheld computer games in the nature of hand held units for playing video games other than those adapted for use with a display screen or monitor; electronic board games in the nature of electronic interactive board games for use with external monitor; hand-held, non-electronic skill games; games of strategy, namely, chess games, go games, board games; hand held units for playing electronic games in the nature of electronic educational games, namely, electronic educational games for teaching machine learning and artificial intelligence programs; held units for playing electronic games in the nature of electronic learning games, namely, electronic educational games for teaching machine learning and artificial intelligence programs; held units for playing electronic games in the nature of electronic teaching games, namely, electronic educational games for teaching machine learning and artificial intelligence programs; held units for playing electronic games in the nature of electronic training games, namely, electronic educational games for teaching machine learning and artificial intelligence programs; replacement parts, and fittings for all the aforesaid goods

International Classes 28 - Primary Classes **US Classes** 22, 23, 38, 50 **International Class Title** Toys and Sporting Goods

For Printed matter, namely, books, magazines, printed periodicals, printed research papers, printed abstracts, newsletters, brochures, manuals and catalogues in the field of artificial intelligence; and printed publications, namely, books, magazines, printed periodicals, printed research papers, printed abstracts, newsletters, brochures, manuals and catalogues, all the foregoing in the field of science, technology, medicine, healthcare, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; printed material, namely, written articles, newspapers, magazines, scientific journals, books, newsletters and printed teaching material in the field of audio-video games, instructional manuals in the field of electronic games, computer game instruction manuals; printed materials, namely, written articles, books, newsletters, research papers and printed periodicals concerning computer game strategy; printed publications, namely, written articles, newspapers, magazines, scientific journals, books and newsletters relating to computer software, computer programmes, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Education services, namely, teaching in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; providing of training in the form of seminars, webinars, conferences, classes and workshops in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; entertainment in the form of television, film and online video; organizing community sporting and cultural events; entertainment services, namely, providing online video games; entertainment services, namely, providing on-line interactive computer games; arranging of games namely, chess games, go games, electronic video games; providing information about electronic, video games, chess games, go games, board games; providing online electronic games via the internet; providing online computer games; electronic game services provided by means of the Internet; electronic online game services accessible by means of mobile electronic devices; electronic game services provided by means of the Internet or accessible by means of mobile devices; providing a training environment namely, live exhibition programs and providing educational demonstrations of advanced technologies incorporating data science, artificial intelligence, deep learning, machine learning, reinforcement learning and virtual reality for use in the fields of energy, information technology, healthcare, medicine, science and energy; providing training in the form of workshops, seminars, webinars, classes and conferences in the field of computer programming; provision of non-downloadable movies and films via a video-on-demand service; providing on-line, non-downloadable electronic publications in the nature of written articles, newspapers, magazines, scientific journals, books and newsletters in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; multimedia publishing of computer games; publication of online non-downloadable electronic publications, namely, written articles, research papers,

books, journals; providing information in the field of games for game players concerning the ranking of their games scores accessible by means of a website for entertainment purposes; educational and training services, namely, providing workshops, seminars, webinars, classes and conferences relating to computer games; education services, namely, providing workshops, seminars, webinars, classes and conferences relating to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality; training services, namely, providing training in the form of workshops, seminars, webinars, classes and conferences relating to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality; entertainment services, namely, an ongoing multimedia program provided via the internet in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality distributed via various platforms across multiple forms of transmission media; providing advisory, consultancy, entertainment information and information about education relating to the foregoing

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking (supervision), life-saving and teaching apparatus and instruments, namely, mobile, portable and wireless communication devices for voice, data or image transmission and natural language virtual agent software application for enabling data capture and data analysis; apparatus and instruments for conveying, distributing, transforming, storing, regulating or controlling electric current; magnetic data carriers featuring information and content pertaining to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, recording discs featuring information and content pertaining to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; compact discs, DVDs and other digital recording media featuring information and content pertaining to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; digital recording media, namely, pre-recorded DVDs, downloadable audio and video recordings and CDs featuring information and content pertaining to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; data processing apparatus; data processing apparatus and electronic accessories therefor, namely, electronic data processors and electronic data processing apparatus; information technology and audiovisual equipment, namely, apparatus for recording, transmission and reproduction of sound, images and data; artificial intelligence apparatus and, devices and instruments, namely, computer hardware and computer software for enabling natural language interaction and dialogue between a human user and a web service, data center, website contact center or digital device including mobile, portable and wireless devices; computer software for enabling natural language interaction and dialogue between a human user and a web service, data center, website contact center or digital device including mobile, portable and wireless devices; recorded computer operating programmes; recorded computer software for data analysis and computation and operating software for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural

networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, technology, medicine and healthcare; downloadable computer software applications for use in designing and developing artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, technology, medicine and healthcare; computer software for use as an application programming interface (API), namely, applications for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer software and computer programs for use in general purpose computation, manipulation of collections of data, data transformation, input/output, communications, graphics display, modeling and testing for use in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality; computer software, computer programs and algorithms for use in manipulating received or inputted data generated in a virtual space for use in connection with artificial intelligence methods, natural language processing, natural language understanding, dialog systems, voice and speech recognition and text to speech systems, natural language human-machine interfaces, predictive assistance technologies and for use in training virtual agents in an artificial space; educational apparatus and simulators, namely, apparatus for recording, transmission or reproduction of sound and images for use in training artificial agents within a virtual space; recorded computer programs for use in general purpose computation, manipulation of collections of data, data transformation, input/output, communications, graphics display, modeling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; audio-visual teaching apparatus, namely, computers, tablet computers, smartphones and portable digital electronic devices for organizing, transmitting, receiving and reviewing text, data, image and audio files; game software, namely, software for audio, video and audio-video games; computer software in particular audio, video and audio-video game software; computer software in the nature of software for audio, video and audio-video games software; computer games, namely, computer game programs, cartridges, tapes and discs; computer game programs; downloadable software game applications; computer groupware for use in database management; computer hardware; computer hardware for games and gaming; video game tapes, discs and software; computer application software for mobile phones for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; recorded game software for mobile electronic devices; pre-recorded electronic storage media featuring data relating to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; compact disc featuring computer programs for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, technology, medicine and healthcare; prerecorded DVDs, CDs, video discs, video tapes and video cassettes featuring animated cartoons; recorded DVDs, CDs, video discs, video tapes and video cassettes featuring movies and cinematographic films concerning artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; downloadable movies and films featuring artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing,

distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality provided via a video-on-demand service; downloadable electronic publications in the nature of newspapers, magazines, scientific journals, books, newsletters and blogs featuring artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; downloadable electronic publications in the nature newspapers, magazines, scientific journals, books, newsletters and blogs in the field of games and gaming; downloadable publications, namely, printed guides featuring computer and video game strategy; memory cards for video game machines; downloadable image files containing artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; virtual reality game software; interactive multimedia computer games programmes; computer games programmes downloaded via the Internet; pre-recorded CDs and DVDs featuring artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; parts, fittings and accessories for all the aforesaid goods, namely, touch pads, headsets for virtual reality games, virtual reality glasses, computer joystick peripherals, high performance computer hardware with specialized features for enhanced game playing ability; electronic controllers for electronic video game machines; electronic educational games, namely, downloadable electronic educational game software for teaching machine learning and artificial intelligence programs; electronic learning games, namely, downloadable electronic educational games software for teaching machine learning and artificial intelligence programs; electronic teaching games, namely, downloadable electronic educational games software for teaching machine learning and artificial intelligence programs; electronic training games, namely, downloadable electronic educational games software for teaching machine learning and artificial intelligence programs

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Scientific and technological services, namely, scientific and technical consulting, scientific research, development and design of computer software and technology in the fields of analytics and data mining, data analysis, data transformation, data visualization, data mining, statistical analysis, artificial intelligence, machine learning and virtual reality; industrial analysis in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; industrial research in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; development and testing services for others in the field of computer software, including computer software incorporating algorithms; computer software programming services for others in the field of software configuration management; computer programming in the field of animation; computer programming; design and development of computing software featuring, namely, software platforms used for developing training environments for algorithms developed in relation to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; research in the field of computer programming software; design and development of computer software and computer programming software; technical advisory services relating to computer

programs; design, development of computer software for use as an application programming interface (API); application service provider featuring application programming interface (API) software for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; hosting the websites of others on a computer server for a global computer network; computer software consultancy; development and testing services for others in the field of computer software, including computer software incorporating algorithms, all of the aforementioned in the field of software for use in a virtual space; development and testing services for others in the field of computer software, including computer software incorporating algorithms, all of the aforementioned in the field of computer games and board games; new product design services in the field of games; new product design services in the field of board games; technology consultation and research in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality; design, development and technological analysis of software for virtual environments for machine learning, deep learning, reinforcement learning; design and development of computer game programmes for neural networks; design and development of computer game programmes for tree search; providing virtual computer environments through cloud computing; providing web hosting platforms for use in connection with artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; programming of computer software platforms for others; platform as a service (PaaS) featuring computer software platforms for use of software in connection with artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, technology, medicine and healthcare; technical advice, consultancy and information services in relation to the aforesaid

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For surgical, medical, dental and veterinary apparatus and instruments; artificial limbs, eyes and teeth; orthopedic articles, namely, orthopedic shoes, orthopedic splints, orthopedic braces, orthopedic supports for joints, limbs, hands, feet, necks, shoulders and backs; suture materials; therapeutic and assistive devices, namely, pacemakers, defibrillators, infusion pumps, hearing aids, optical aids, prostheses and mobility aids; medical devices or systems for the prevention, diagnosis and treatment of diseases, namely, surgical instruments, pacemakers, defibrilators, surgical laser systems, infusion pumps, heart rate monitors, blood pressure monitors, medical imaging systems, ultrasound scanners and probes; apparatus for analysing properties of organic compounds; apparatus for scientific, chemical, physical, biological analysis; surgical robots including all of the aforesaid in relation to science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality and replacement parts and fittings for all the aforesaid goods

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Apparatus for locomotion by land, air, space or water; autonomous vehicles for locomotion by land, air, space or water, namely, motors and engines; robotic cars; autonomous cars; robot transportation vehicles; parts, fittings and accessories for the aforesaid

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For toys, games and playthings, namely, board games, strategy games, toy robots and electronic games other than those adapted for use with television receivers relating to the fields of science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; toy robots; apparatus for games, namely, cards, die, game boards for trading card games, balls for games, marbles for games, counters for games and tokens for use in games; video game apparatus, namely, joysticks for video games, player-operated electronic controllers for electronic video game machines, gamepads for video game machines; arcade video game machines; portable video game machines, namely, hand held units for playing video games other than those adapted for use with a display screen or monitor; amusement machines, automatic and coin-operated; games, namely, card games, parlour games, action skill games, strategy games; electronic games other than those adapted for use with television received only; go games; board games; computer game consoles for use with a display screen or monitor; handheld computer games in the nature of hand held units for playing video games other than those adapted for use with a display screen or monitor; electronic board games in the nature of electronic interactive board games; non-electronic skill games; action skill games; games of strategy, namely, chess, checkers, draughts, Go; electronic educational games, namely, hand-held units for playing electronic games in the nature of educational games and electronic educational game machines; electronic learning games, hand-held units for playing electronic games in the nature of educational games and electronic educational game machines; electronic teaching games, namely, hand-held units for playing electronic games in the nature of educational games and electronic educational game machines; electronic training games, namely, hand-held units for playing electronic games in the nature of educational games and electronic educational game machines; audio and visual headsets for use in playing video games; replacement parts and fittings for all the aforesaid goods

International Classes 28 - Primary Classes **US Classes** 22, 23, 38, 50 **International Class Title** Toys and Sporting Goods

For printed matter and printed publications, namely, books, magazines, printed periodicals, printed research papers, printed abstracts, newsletters, brochures, manuals, and catalogues, all the foregoing in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; printed abstracts of printed matter, books, articles, and manuals relating to the subject matter of artificial intelligence, machine learning, deep learning, reinforcement learning, games of skill, computer game strategies; calendars; postcards; comics; printed material, namely, books, magazines, printed periodicals, printed research papers, printed abstracts, newsletters, brochures, manuals, and catalogues in the field of video games; instruction manuals in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; printed computer game instruction manuals; printed materials, namely, written articles, books, newsletters, research papers, printed abstracts, newsletters, brochures, manuals, and catalogues concerning computer game strategy; printed publications, namely, books, magazines, printed periodicals, printed research papers, printed abstracts, newsletters, brochures, manuals, and catalogues relating to computer software, computer programs, artificial intelligence; printed strategy guide books for computer games

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Machines, namely, industrial robots, tactical robots, teaching robots, humanoid robots with artificial intelligence, telepresence robots, security surveillance robots, laboratory robots, surgical robots; service robots, namely, industrial robots, tactical robots, teaching robots, humanoid robots with artificial intelligence, telepresence robots, security surveillance robots, laboratory robots, surgical robots; robots for domestic or personal use, namely, industrial robots, tactical robots, teaching robots, humanoid robots with artificial intelligence, telepresence robots, security surveillance robots, laboratory robots, surgical robots; field robots for use in unstructured environments, namely, industrial robots, tactical robots, teaching robots, humanoid robots with artificial intelligence, telepresence robots, security surveillance robots, laboratory robots, surgical robots

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Education, and teaching in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; providing training in the form of seminars, webinars, conferences, classes and workshops in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; entertainment in the nature of providing podcasts, web site blogs, non-downloadable publications in the nature of e-books, articles, magazines, newspapers, newsletters, periodicals, manuals, guides and handbooks and online journals in the fields of data science, analytics languages, information technology, science, energy, artificial intelligence, deep learning, machine learning, reinforcement learning and virtual reality; entertainment services in the form of providing online video games; organizing community sporting and cultural events; arranging educational conferences; arranging of seminars; educational services, namely, arranging, conducting and hosting events or conferences in the fields of science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; entertainment services, namely, providing online video games; entertainment services, namely, providing on-line interactive computer games; arranging and conducting live, interactive treasure hunt game adventures; organisation of games; organising of educational games; providing online augmented reality and electronic games; providing online video games; providing information about augmented reality, video and electronic games; providing online electronic games via the internet; providing on-line computer games; providing on-line interactive computer games; game services provided on-line from a global computer network; electronic games services accessible by means of mobile electronic devices; electronic games services provided by means of the internet or accessible by means of mobile electronic devices; games equipment rental; providing a virtual training environment, namely, online video games, seminars, webinars and classes in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; training services provided via simulators in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; providing

information relating to electronic computer games via the internet; providing information via the internet to players about the ranking of game scores on-line; providing training in the form of seminars, webinars, conferences, classes and workshops in the field of computer programming; provision of non-downloadable films and moves via a video-on-demand service; providing online, non-downloadable electronic publications in the nature of books, magazines, periodicals, research papers, abstracts, newsletters, brochures, manuals, and catalogues in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; multimedia publishing of computer games; publication of on-line non-downloadable electronic publications, namely, written articles, research papers, books and journals; organization of games competitions; organization of sports competitions; computer education training; educational and training services, namely, providing seminars, webinars, conferences, classes and workshops relating to computer games; education services, namely, providing seminars, webinars, conferences, classes and workshops relating to science, informational technology, artificial intelligence, machine learning, deep learning, reinforcement learning, tree search, building neural networks, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, building neural networks, tree search, high performance computing, distributed computing, virtual reality; training services, namely, providing training seminars, webinars, conferences, classes and workshops relating to science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, tree search, building neural networks, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; entertainment services, namely, an ongoing multimedia program in the field of science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, tree search, building neural networks, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality distributed via various platforms across multiple forms of transmission media; providing advisory, consultancy, entertainment information and information about education relating to the foregoing

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For business management; business administration; compilation of information into computer databases; data processing; compiling, storing, analysing and retrieving data and information in the field of scientific, chemical, physical or biological analysis, medical and patient data; maintaining, indexing and electronically distributing information materials in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; creating indexes of data, information, websites and other information in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; scientific, chemical, physical or biological data processing and analysis; promoting collaborations within the scientific and research communities to achieve advances in science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; business advice, consultancy and information services in relation to the aforesaid

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking (supervision), life-saving and teaching apparatus and instruments, namely, mobile, portable and wireless communication devices for voice, data or image transmission and natural language virtual agent software applications for enabling data capture and data analysis; apparatus and instruments for conveying, distributing, transforming, storing, regulating or controlling electric current; apparatus for recording, transmission or reproduction of sound or images; blank magnetic data carriers, blank recording discs; blank magnetic data carriers; blank recording discs; blank compact discs, blank dvds and blank digital recording media, namely, dvds, downloadable audio and video recordings, and cds; prerecorded compact discs and dvds featuring data, audio and video recordings and multimedia content; digital recording media, namely, pre-recorded dvds, downloadable audio and video recordings and cds featuring data, audio and video recordings and multimedia content; mechanisms for coin-operated apparatus; cash registers; calculating machines; data processing equipment apparatus; computers; tablet computers; computer peripherals; electronic data processing equipment and accessories, namely, electronic data processors and electronic data processing apparatus; information technology and audiovisual equipment, namely, computer hardware, computer peripherals, televisions, projectors and electronic devices for transmitting audio and video; artificial intelligence apparatus, devices and instruments, namely, robots, electronic headsets and handheld electronic devices for use in artificial intelligence; humanoid robots with artificial intelligence; laboratory robots; teaching robots; electronic control systems, namely, electronic control systems for machines; robotic control systems, namely, robotic control systems for engines and robotic control systems for machines; voice response equipment, namely, digital voice processors and voice display monitors; voice recognition apparatus, namely, voice recognition software, satellite-aided navigation systems using voice recognition, voice display monitors and biometric voice recognition systems; digital voice recorders; electronic navigational systems, namely, interactive computer software that provides navigational and travel information, satellite navigational systems for automobiles and bicycles; downloadable computer software, namely, software for use in designing, developing, operating and managing artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, chemistry, physics, biology, technology, medicine and healthcare; computer software for scientific analysis; recorded computer programs for use in designing, developing, operating and managing artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, chemistry, physics, biology, technology, medicine and healthcare; recorded computer operating programs; recorded computer software for use in designing, developing, operating and managing artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, chemistry, physics, biology, technology, medicine and healthcare; downloadable computer programs and software for use in designing, developing, operating and managing artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, chemistry, physics, biology, technology, medicine and healthcare; downloadable computer software applications for computers, handheld computers, laptops and

mobile phones for use in designing, developing, operating and managing artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality in the field of science, chemistry, physics, biology, technology, medicine and healthcare; interfaces for computers; computer software for use as an application programming interface (api), namely, software development tools for the creation of mobile internet applications, computer software and client interfaces; computer software for use in connection with science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer programs for use in connection with science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer software for use in connection with advertising; downloadable computer software for use in connection with advertisement evaluation; downloadable computer software for use in connection with navigational systems; computer software for use in control, driving, navigation and supervision in connection with autonomous and semi-autonomous driving vehicles or spacecraft for locomotion by land, air, space or water; computer software for use in processing and distribution in connection with multimedia content; computer software for use in in connection with the operation and management of electronic communications networks, electronic databases or website search engines; computer software for use in in optimising content recommendation; computer software for use in facilitating electronic language translation; computer software for use in with machine translation; computer software for use in connection with process controlling; computer software for use in connection with energy management; computer software for the electronic cooling of electronic apparatus or systems; computer software for use in the launch, coordination, calibration, direction and management of vehicle fleets; computer software for use in connection with voice recognition; computer software for use in connection with the operation and management voice-enabled applications; computer software for use in estimating resource requirements; computer software for use in management in connection with natural resource requirements; computer software for use in resource management in connection with water, solar, wind, minerals and fossil fuels; computer software for use in relation to medical imaging or processing; computer software for use in creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organising data; computer application software for computers, laptops, handheld computers and mobile phones for use in creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organising medical records; computer software for simulation environments for the purpose of testing artificial intelligence agents, algorithms or programs; computer application software for computers, laptops, handheld computers and mobile phones for use in implementing the internet of things (iot); computer software and computer programs for playing electronic games; computer software and computer programs incorporating algorithms for use in manipulating received or inputted data generated in in a virtual space for use in connection with artificial intelligence methods, natural language processing, natural language understanding, dialog systems, voice and speech recognition and text to speech systems, natural language human-machine interfaces, predictive assistance technologies and for use in training virtual agents in an artificial and virtual reality spaces; virtual reality and augmented reality software and programs for training, education, entertainment and research; laboratory apparatus for testing and analysing computer game hardware and software; scientific research and laboratory apparatus; educational apparatus and simulators, namely, apparatus for recording, transmission or reproduction of sound and images for use in training artificial agents within a virtual space; recorded computer programs for

use in general purpose computation, manipulation of collections of data, data transformation, input/output, communications, graphics display, modeling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; abacuses; accumulators; audio- and video-receivers; audio-visual equipment, namely, computer peripherals, computer hardware peripherals, electronic apparatus and computer programs for the remote control of audio-visual apparatus; audio-visual teaching apparatus, namely, computers, tablet computers, smartphones and portable digital electronic devices for organizing, transmitting, receiving and reviewing text, data, image and audio files; voice synthesisers; text-to-speech synthesisers; game software, namely, software for audio, video and audio-video games; computer software in particular audio, video and audio-video game software; computer software in the nature of software for audio, video and audio-video game software; downloadable computer game software offered via the internet and wireless devices; computer game software; computer game software for use with computers and video game consoles; computer game software for use on mobile phones and other handheld wireless devices; computer game software for use with on-line interactive games; downloadable computer games programs; games software; computer games, namely, computer game programs, cartridges, tapes and discs; computer software games programs; computer game programs; computer gaming software; software programs for video games; electronic game programs; electronic game software; downloadable electronic game programs; downloadable computer game programs; downloadable computer game software; recorded computer game programs; interactive computer game programs; interactive multimedia computer game programs; downloadable software game applications; computer software for implementing a computer programming language, for use in the fields of science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer software development tools for use in general purpose computation, manipulation of collections of data, data transformation, input/output, communications, graphics display, modeling and testing analysis, data and information in the fields of science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer software libraries for use in general purpose computation, manipulation of collections of data, data transformation, input, output, communications, graphics display, modelling and testing for use in the fields of science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer software runtime systems, namely, namely, systems comprised of computer software libraries for use in general purpose computation, manipulation of collections of data, data transformation, input/output, communications, graphics display, modeling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; computer software for use as an application programming interface (API) for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; computer software for scientific analysis in the fields of science, chemistry, physics, biology and biochemistry; computer software for virtual modelling; computer software for use in protein structure modelling; computer software for modelling in the fields of science, chemistry, physics, biology; computer software for modelling in the field of biochemistry; computer modelling; computer modelling in the fields of science, chemistry, physics, biology; downloadable computer software in the field of biology; downloadable computer software in the field of crystallography; downloadable computer software for solid state

analysis; downloadable computer software in the field of genetics; downloadable computer software in the field of endoscopy; downloadable computer software related to data processing; computer groupware for use in database management; computer hardware; computer hardware for games and gaming; video game software and discs; video games programs; computer application software for mobile phones for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; Computer application software for mobile phones, portable media players, handheld computers, tablet computers, desktop computers for use in implementing the Internet of things (IoT); computer game software for use on mobile and cellular phones; recorded game software for mobile electronic devices; video game cartridges; electronic recording of data relating to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality on magnetic media; Prerecorded compact discs and DVDs featuring information and content pertaining to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; prerecorded dvds, video discs, video tapes, video cassettes featuring animated cartoons; recorded dvds, video discs, video tapes, video cassettes featuring movies and cinematographic films; downloadable films and movies provided via a video-on-demand service; downloadable electronic publications in the nature of books, magazines, periodicals, research papers, abstracts, newsletters, brochures, manuals, and catalogues in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; downloadable electronic publications, relating to games and gaming; downloadable publications, namely, electronic guides featuring computer and video game strategy; memory cards for video game machines; downloadable image files containing images, data and multimedia content; virtual reality game software; interactive multimedia computer games programs; artificial intelligence apparatus and, devices and instruments, namely, computer hardware and computer software for enabling natural language interaction and dialogue between a human user and a web service, data center, website contact center or digital device including mobile, portable and wireless devices; computer software for enabling natural language interaction and dialogue between a human user and a web service, data center, website contact center or digital device including mobile, portable and wireless devices; pre-recorded cds and dvds featuring data, audio and video; replacement parts and fittings for all the aforesaid goods

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For telecommunication services, namely, internet based telecommunication services, computer and internet communication and access to the internet, digital transmission of voice, data, messages, sound and audiovisual recordings via the internet, streaming of data, messages, sound and audiovisual recordings via the internet, Voice over Internet Protocol VoIP services; communication services, namely, internet based telecommunication services, computer and internet communication and access to the internet, digital transmission of voice, data, messages, sound and audiovisual recordings via the internet, streaming of data, messages, sound and audiovisual recordings via the internet, Voice over Internet Protocol VoIP services; telecommunications, communications, namely internet based telecommunication services, computer and internet communication and access to the internet, digital transmission of voice, data, messages, sound and audiovisual recordings via

the internet, streaming of data, messages, sound and audiovisual recordings via the internet, Voice over Internet Protocol VoIP services in the fields of science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; electronic message sending; providing access to databases; transmission of digital files; providing internet access; providing access to wireless internet; transmission of data, sound and images by satellite; forwarding messages to internet addresses, namely, web messaging and voice messaging; electronic exchange of messages via chat lines, chatrooms and internet forums; providing on-line chat rooms for transmission of messages among computer users; transmission of messages, data and content via the internet and other communications networks; communication via interactive voice response; providing on-line chatrooms for the transmission of messages, comments and multimedia content among users; telecommunication services, namely, computer and internet communication and access to the internet, digital transmission of voice, data, messages, sound and audiovisual recordings via the internet, streaming of data, messages, sound and audiovisual recordings via the internet, Voice over Internet Protocol VoIP services provided via the internet; providing access to platforms and portals on the internet; providing electronic telecommunications bulletin board in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; rental of access time to a computer database; transmission and reception of database information via the telecommunication network; cable television broadcasting; internet broadcasting; video-on-demand transmission; providing on-line forums; providing e-mail communications; providing internet chatrooms; telecommunication services, namely, internet based telecommunication services, computer and internet communication and access to the internet, digital transmission of voice, data, messages, sound and audiovisual recordings via the internet, streaming of data, messages, sound and audiovisual recordings via the internet, Voice over Internet Protocol VoIP services provided via the internet platforms and portals; transmissions of games via the internet; business advice, consultancy and information services in relation to the aforesaid

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For genetic testing for medical purposes; providing on-line medical record analysis and medical advice, consultancy and information services in relation to the aforesaid

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For scientific and technological services, namely, scientific and technical consulting, scientific research, development and design of computer software and technology in the fields of analytics and data mining, data analysis, data transformation, data visualization, statistical analysis, artificial intelligence, machine learning and virtual reality, science, chemistry, physics, biology and scientific research and new product design services provided in connection with the foregoing; computer-aided scientific analysis in the field of in the field of in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; scientific research in relation to proteins; industrial research in the field of in the field of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, science, chemistry, physics, biology; testing,

analysis and evaluation of the goods of others to ensure compliance with industry standards; research, design and development of computer hardware and software; scientific research into organic compounds; scientific services for the analysis of organic compounds; crystallography services; computer technology consultancy; information technology advice and consultancy; providing information on computer technology and programming via a web site; development and testing services for others in the field of computer software, including computer software incorporating algorithms; computer programming; computer programming advice and consultancy; computer programming for others; computer programming services for others in the field of software configuration management; computer programming in the field of animation; computer programming of video and computer games; design and development of computer software featuring, software platforms; computer services, namely, creating an on-line virtual training environment in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; research in the field of computer programming software; design and development of computer software and computer programming software; providing technical advice relating to computer programs; design, development and programming of computer software; design and development of computer software for use as an application programming interface (api); application service provider featuring application programming interface (api) software for artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; computer software design; creating and maintaining web sites for others; installation of computer software; maintenance of computer software; updating of computer software; advice and consultancy in the design and development of computer hardware; engineering services relating to robots; engineering services in the field of energy technology; engineering services relating to energy supply systems; electronic data storage; electronic storage of medical records; hosting the web sites of others on a computer server for a global computer network; off-site data backup; computer software consultancy; development and testing services for others in the field of computer software, including computer software incorporating algorithms, all of the aforementioned in the field of virtual reality spaces; design and development for others of computer software libraries for use in general purpose computation, manipulation of collections of data, data transformation, input, output, communications, graphics display, modelling and testing for use in the fields of science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; design and development of computer software in relation to advertisement evaluation; design and development of computer software for use in relation to navigational systems; design and development of computer software for autonomous and semi-autonomous driving vehicles or spacecraft for locomotion by land, air, space or water; design and development of computer software for autonomous and semi-autonomous driving control systems for vehicles or spacecraft for locomotion by land, air, space or water; design and development of computer software for use in autonomous and semi-autonomous control, driving or navigation of vehicles or spacecraft for locomotion by land, air, space or water; design and development of software for processing and distribution of multimedia content; design and development of computer software for use in relation to electronic communications networks, electronic databases or website search engines; design and development of computer software for optimising content recommendation; design and development of computer software for electronic language translation; design and development of computer software in relation to machine translation; providing temporary use of on-line, non-downloadable computer software for language translation; design and development of computer software for process control; design and development of energy management software; design and development of

computer software for electronic cooling apparatus or systems; design and development of computer software and hardware for vehicle fleet launch, coordination, calibration, direction, and management; design and development of computer software in the field of natural language, speech, speaker, language, voice recognition, and voice-print recognition; design and development of computer software for use in relation to estimating resource requirements; design and development of computer software for use in relation to management of natural resources; design and development of computer software for use in relation to management of water, solar, wind, minerals and fossil fuels; design and development of computer software for use in relation to medical imaging or processing; design and development of computer software for use in creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organising data; design and development of computer software for use in creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organising medical records; design and development of computer software for simulation environments for the purpose of testing artificial intelligence agents, algorithms or programs; provision of simulation environments for the purpose of testing artificial intelligence agents, algorithms or programs; design and development of computer software for use in implementing the internet of things (iot); design and development of voice synthesisers; design and development of text-to-speech software and synthesisers; development and testing of computing methods, algorithms and software for computer games and board games; new product design services in the field of board games; computer programming for video games; technology consultation and research in the fields of science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality; design and development and analysis of virtual environments in the fields of science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analysis and data mining, virtual reality, augmented reality; computer software design and development; computer game software design and development; programming of computer game software; design and development of computer game programs for neural networks constructed to function as complex processing systems; design and development of computer game programs for tree search; providing virtual computer environments through cloud computing; protein structure modelling using computer software; providing a web hosting platform others; programming of computer software platforms for others; platform as a service (paas) featuring computer software platforms for use in accessing software in connection with science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, chemistry, physics, biology; providing information on computer technology and programming via a website; technological advice, consultancy and information services in relation to the aforesaid; Medical research and analysis; genetic research and analysis for scientific purposes; computerized data verification services, namely, verification of scientific, chemical, physical or biological data; data compilation services in the field of scientific, chemical, physical or biological analysis; data analysis services in the field of scientific, chemical, physical or biological analysis

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

Mark Literal(s) ROSE INTERNATIONAL

CASE IDENTIFIERS

Serial Number 88209535 **Application Filing Date** Nov. 28, 2018 **Registration Number** 7077753 **Registration Date** Jun. 13, 2023 **Register** Principal **Mark Type** Service Mark **Publication Date** Mar. 28, 2023

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the stylized term "ROSE" in purple in sans-serif font, appearing underneath a gold curved band that serves as the tail of an eight-point star that appears to the right of the term "ROSE" wherein the north, south, east and west points of the star appear in the color gold and the diagonal points in between are shorter and appear in the color purple; beneath the star design and letters "SE" in "ROSE" is the stylized term "INTERNATIONAL" in lowercase lettering in the color gold; all of the foregoing appears on a gray background, the rectangular shape of which is not claimed as a feature of the mark. **Color Drawing** Yes **Color Claimed** The colors purple, gold and gray are claimed as a feature of the mark. **Disclaimer** "INTERNATIONAL"

GOODS AND SERVICES INFORMATION

For consulting services in the fields of contractor recruiting, sub-contractor staffing, named-resource recruiting, and call-center staffing for business and government, all in the fields of light industrial, engineering, scientific labs, supply-chain management, agriculture, and telecommunications; business management consulting in the fields of customized recruiting business plans for organizations and of recruiting-development strategies for business and government, all in the fields of light industrial, engineering, scientific labs, supply-chain management, agriculture, and telecommunications; employment staffing and recruiting services for business and government in the fields of information technology, call centers, engineering, light industrial, scientific labs, and supply-chain management

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business **First Use** Dec. 31, 1998 **In Commerce** Dec. 31, 1998

For consulting services in the fields of information technology, computer software development, application development, software project management, custom software development, database optimization, engineering, information-technology consulting for businesses in light industrial fields, and information-technology consulting for businesses in scientific labs, all for businesses and government

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services **First Use** Dec. 31, 1998 **In Commerce** Dec. 31, 1998

For Scientific, research, navigation, photographic, optical, signaling, measuring, checking as in supervision, life-saving apparatus and instruments, namely, telephones, punch clocks, time recording devices, namely, time clocks, weighing equipment, namely, scales and balances, graduated rulers, electronic pocket translators, transparency projection apparatus, kilometer recorders in the nature of odometers for vehicles, telescopes, mechanisms for counter operated apparatus, namely, point-of-sale terminals, fire extinguishers, acoustic alarms, namely, smoke and fire alarms, eyeglasses, batteries; downloadable software for processing electronic payments to and from others; downloadable authentication software, namely, software for authenticating the identity of a payer; downloadable computer software applications for mobile devices and computers, namely, software for financial analysis, planning and management, software for securing and protecting data on mobile devices and computers, software for authenticating user identification, and software for controlling access to and communications with mobile devices and computers; downloadable software applications for use with mobile devices, namely, software for use in database management, for use as a spreadsheet, for word processing, for recording, collecting, organizing, storing, archiving, reproducing, searching, retrieving and displaying digital data in the field of shopping, purchasing, communication, product and service reviews, entertainment, health and fitness, lifestyle, media and video, music and audio, photography and social network; downloadable computer software for posting information, creating electronic product catalogs, responding to requests and placing and fulfilling orders for products, services and business opportunities via local and global computer networks, for use in document management, for searching, browsing and receiving transmissions of text, electronic documents, graphics and audiovisual information on local and remote area networks and global computer networks, on intranets, or on directories of information available on computer networks, for use in software development and web authoring, for use in exchanging information via global computer networks and online from a computer database and the internet, for business use for financial management, financial planning, business management, customer relationship management (CRM), inventory management, sales force management, planning and management of personal and business finances, and marketing information management, for data mining, for high-speed massive e-commerce data processing, and for data customization, all of the foregoing for use by third parties in connection with an interactive website in the field of e-commerce; downloadable computer software applications for use with mobile devices and computers, namely, software for use in database management, for use as a spreadsheet, for word processing, for recording, collecting, organizing, storing, archiving, reproducing, searching, retrieving and displaying digital data in the field of e-commerce, data management, customer relationship management, entertainment, education and telecommunications provided via the Internet; downloadable

instant messaging software; downloadable file sharing software; downloadable communications software for electronically exchanging data, audio, video, images and graphics via computer, mobile, wireless and telecommunication networks; downloadable computer software for processing images, graphics, audio, video and text; downloadable computer software applications for downloading and transmitting video files, audio files, films, movies and television programs featuring children's entertainment, family entertainment, drama, action, adventure and fantasy; downloadable computer software for use in the field of business for financial management and financial planning; downloadable cloud-computing software for deploying virtual machines to a cloud computing platform, managing virtual machines on a cloud computing platform; downloadable cloud-based software for storing and managing electronic data, accessing databases and internet security; downloadable computer software which allows users to participate in web-based meetings and classes, with access to data, documents, images and software applications through a web browser; downloadable computer software for accessing, viewing and controlling remote computers and computer networks; downloadable computer software for use in the search and retrieval of computerized information from global information networks and network systems about hobbies, collectibles, auctions and products; downloadable data storage programs, namely, downloadable software used for the storage of electronic data and documents and data on hard discs, compact discs, tapes and optical discs; downloadable computer software for use with global positioning system (GPS) navigation systems for navigation, route guidance and electronic mapping; downloadable computer software for use with route planners, electronic maps and digital dictionaries for navigation and translation purposes; downloadable computer programs and downloadable computer software for financial management, financial planning, business management, customer relationship management (CRM), inventory management, sales force management, planning and management of personal and business finances and marketing information management, all in the field of e-commerce and business; digital music downloadable from the Internet; downloadable computer game software, pictures in the field of aircrafts, automobiles, buildings, natural scenery and pets, motion pictures and movies in the field of children's entertainment, family entertainment, drama, action, adventure and fantasy and music via the internet and wireless devices; downloadable computer game programs, electronic and video games programs and software game programs via the Internet; downloadable computer applications for streaming videos, music and images; downloadable software for streaming audio, video and multimedia content on mobile phones, tablets, mobile devices, computers and televisions; downloadable software applications for streaming audio, video and multimedia content on mobile phones, tablets, mobile devices, computers and televisions; downloadable software for streaming audiovisual and multimedia content via the internet and global communications networks; downloadable software for searching, organizing, and recommending multimedia content; downloadable motion pictures and television shows provided via a video-on-demand service; downloadable motion pictures and television shows; downloadable animated cartoons and films; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, electric wires, electric switches; apparatus for recording, transmission or reproduction of sound or images; blank magnetic data carriers and recording discs, namely, CD-R, CD-RW, DVD-R and DVD-RW discs; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; on-line downloadable electronic publications in the nature of magazines, articles, brochures, leaflets, datasheets, informational materials, instructional materials in the field of business, e-commerce, information technology, cloud computing, telecommunications, the Internet, business and e-commerce training, business, sales, marketing and financial management; semi-conductors; semi-conductor integrated circuits; semi-conductor memory chips; semi-conductor memory controllers; semi-conductor memory integrated circuits; semi-conductor processor chips; semi-conductor processors; microcontrollers; microcontroller units; low power microcontrollers; circuit chips; computer chips; CPU (central processing unit); RISC-V

computer chips and central processing units; computer chips and central processing units with instruction set architecture; computer peripherals; notebook computers; laptop computers; portable computers; handheld computers; personal digital assistants; personal portable media players; mobile telephones; smart phones; digital cameras; batteries, battery chargers; computer workstations comprising computers and computer monitors; servers, namely, computer servers; computer and telecommunications networking computer hardware; apparatus for coding and decoding signals; apparatus and instruments for data communication, satellite communication and telecommunication; instruments and downloadable software for communicating with computer networks and the world wide web; display monitors; computer hardware for use in transmitting, receiving, displaying and manipulating text, videos and video data, audio and audio data, photographs and other multimedia content; digital media players; projection apparatus; computer network adaptors, switches, routers, hubs; wireless and wired modems and communication cards and devices, namely, cable modems, computer fax modem cards, external modems, internal modems, modem cables, modems; laptop holders in the nature of protective sleeves and carrying cases, computer bags; fire-extinguishing apparatus; computer hardware and recorded firmware for use in the field of business for financial management and financial planning; satellite-aided navigation systems in the nature of automobile navigation system featuring interactive digital map displays, interactive instructions and user generated information; compact discs featuring music; telecommunications apparatus, namely, VOIP phones, network telephones, electronic facsimile machines, portable digital electronic device for sending and receiving electronic mails, and instant messaging communication tool in the nature of portable telecommunication instant messaging devices; mouse pads; mobile phone handsets; mobile phone accessories, namely, battery chargers, cases, covers, ear phones, headsets and hands-free calling devices; alarm monitoring systems; security cameras; mobile radio and television broadcasting units, namely, transmitting and receiving apparatus for radio and television broadcasting and for long-distance transmission; television broadcasting equipment, namely, video cameras, film cameras, monitors, flat panel display screens, audio monitors, audio recorders, video recorders, electronic switchers, cables for the transmission of sounds and images, camera lenses, camera tripods, blank videotape, audio mixing boards and video editing computer hardware; television apparatus; cameras; video cameras; headphones; ear pieces, namely, ear buds; speakers, namely, loud speakers; global positioning system (GPS) apparatus and equipment, namely, GPS systems; liquid crystal displays for telecommunications and electronic equipment; set top box; remote control for radios, televisions, stereos, computers, video recorders, audio systems and playback machines; spectacles and sunglasses; magnetically encoded bank credit, debit, cash and identification cards; automatic teller machines, cash dispensers; electronic book readers; digital media streaming devices; diving suits, divers' masks, ear plugs for divers, nose clips for divers and swimmers, gloves for divers, breathing apparatus for underwater swimming; video display monitors; transparency projection apparatus

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Telecommunications services, namely, providing telephone communication, Internet telephony services, network telephone, electronic facsimile, electronic transmission of electronic mails, and instant messaging communication services; telecommunications services, namely, transmission and delivery of digital data, photographs, audio files, data, information and image signals by means of computers, cable radio and satellite transfer, all in particular for navigation systems, route planners and the use of electronic maps; providing web-based multimedia teleconferencing and videoconferencing that allow simultaneous and asynchronous viewing, sharing, editing, and discussion of documents, data, and images by participants via a web browser; providing customers with multiple user access to a global computer network to access online reports regarding

the performance, effectiveness, and status of web-based applications, teleconferences, videoconferences, and meetings; providing users with secure remote access via the Internet to private computer networks; providing information in the fields of secured transmission of data and information; consulting services in the fields of secured data and information transmission services; providing online collaboration services, namely, providing multiple user access to global computer network which allows users to access applications, platforms, jointly-shared documents, data, task lists, and discussion forums; Internet broadcasting services; Internet service provider services; provision of telecommunication access and on-line communications links to computer databases, the Internet and world-wide web; electronic communication services, namely, information transmission via electronic communication networks; interactive telecommunications services, namely, transmission of voice, audio, visual images, audio-visual content, text and SMS messages, documents, and data by communication networks; telecommunication of information in the nature of transmission of database information via telecommunication networks; providing telecommunication connections to the Internet or databases; communication by computer terminals; communication by fiber optic networks; electronic transmission of messages and images by computer; facsimile transmission; paging services; rental of modems; transmission of data by electronic means; rental of telecommunication equipment; electronic message sending, receiving and forwarding services; electronic exchange of voice, data, audio, video, text and graphics accessible via computer and telecommunication networks; instant messaging services; mobile phone communication services; transmission and delivery of data by electronic means; electronic transmission and delivery of mail messages, still picture and moving picture information, namely, characters, messages, music and images, telegrams, information, and data by electronic, telephone, telegraph, cable, computer and satellite means; transmission, broadcast and reception of audio, video, still and moving images and data via telecommunication means whether in compressed or uncompressed form and whether in real or delayed time; transmission, broadcast and reception of electronic media, multimedia content, videos, movies, pictures, images, text, photos, user-generated content, audio content, and information whether in compressed or uncompressed form and whether in real or delayed time; telecommunications services, including, electronic transmission of streamed audio, video, and multimedia files via television, cable, the Internet and global wireless communications networks; electronic transmissions and streaming of downloadable audio, video, and multimedia content via computer and communications networks; subscription-based electronic media, audio, video, movie and multimedia broadcasting services; electronic messaging services; telephone, video and web conferencing services; electronic order transmission services; video conferencing services; electronic bulletin board services, namely, providing an electronic bulletin board for real-time interactive talk in the nature of communication among users between a computer terminal and an electronic board for transmission of still picture and moving picture information and voice information, including characters in the field of general interest; providing electronic bulletin boards and message boards for transmission of messages among users concerning business and e-commerce; provision of online discussion forums for transmission of messages among computer users concerning business and e-commerce; television broadcasting services; broadcasting and transmission of radio and television programs; music broadcasting; transmission of music, films, interactive programs, videos, electronic computer games via a global computer network or the internet; electronic transmission of information in the field of online shopping and general retail services; video-on-demand transmission services; news agency services for electronic transmission; providing access to computer database on the global computer network for searching and retrieving information, data, web sites and resources available on computer networks; providing multiple user access to a computer database containing electronic publications, bulletin boards, database and information accessible via computer; providing chat room services for transmission of messages among computer users concerning business and e-commerce; providing multiple user access to global computer information networks for the transfer and dissemination of a

wide range of information; providing access to an interactive website on a global computer network for third parties to post information, respond to requests and place and fulfill orders for products, services and business opportunities; communication services, namely, text and numeric wireless digital messaging services; transmission of information by data communications for assisting decision making; transmission of information through video communication systems; web conferencing services; electronic communication services, namely, virtual chat rooms established via text messaging; providing electronic bulletin boards for the posting and transmission of messages among and between computer users concerning consumer products, services and business leads and opportunities; providing an online interactive bulletin board for the posting, promotion, sale and resale of items in the field of clothing, personal care products, computers, computer equipment, computer software, telecommunication apparatus, game machines, food and beverages via a global computer network; electronic transmission of e-mail services; transmission, broadcasting and streaming of audio and video via computers, computer networks and global communication network; providing computer access to online interactive bulletin boards and databases; providing access to electronic bulletin boards for the posting and transmission of messages among and between computer users concerning products, services and business opportunities; teleconferencing services, namely, distant video and telephone conferencing; providing access to electronic calendar, address book and notes feature, via local and global computer networks; providing facilities and equipment for video and telephone conferencing; providing computer links in the nature of on-line communication links to third party web sites to facilitate e-commerce and real world business transactions; computerized communication network security services in the nature of providing private and secure real time electronic communication over a computer network; telecommunications-based consultancy information and advisory services provided in connection with the aforesaid services; transmission, broadcasting and streaming of audio and video via computers, computer networks and global communication network; streaming of data; video, audio and television streaming services; providing data streaming capacity to others, namely, providing others with access to remotely stored data and software

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Scientific and technological services, namely, research and design in the field of telecommunication software and hardware design, Internet technology, the design of websites for advertising, software design, and e-commerce software and hardware design, and industrial research and analysis services in the field of e-commerce computer software networking systems; industrial research services in the field of business and e-commerce; scientific, technological, research and design services related to telecommunication and navigation signals; design and development of computer hardware and software; software as a service (SaaS) services featuring software for the monitoring and management of computer-based information systems and networks; software as a service (SaaS) services featuring software for database management, data analysis, document management, document analysis, project management, project planning, budget management and electronic storage of data; providing temporary use of on-line non-downloadable cloud computing software for database management, data analysis, document management, document analysis, project management, project planning, budget management and electronic storage of data; cloud computing featuring software for database management, data analysis, document management, document analysis, project management, project planning, budget management; providing temporary use of on-line non-downloadable cloud-based software for storing and managing electronic data, accessing databases and internet security; providing virtual computer systems and virtual computer environments through cloud computing; computer services, namely, design and development of computer systems for transmitting information, data, documents and images over the Internet; computer services, namely, design and development of semi-conductors, semi-conductor integrated circuits, semi-

conductor memory chips, semi-conductor memory controllers, semi-conductor memory integrated circuits, semi-conductor processor chips, semi-conductor processors, microcontrollers, microcontroller units, low power microcontrollers, circuit chips, computer chips, CPU (central processing unit), RISC-V computer chips and central processing units, computer chips and central processing units with instruction set architecture; application service provider (ASP) services, namely, hosting computer software applications of others; application service provider (ASP) services featuring software for web-based conferencing, audio conferencing, electronic messaging, document collaboration, video conferencing, and voice and call processing; providing online non-downloadable software for facilitating the interoperability of multiple software applications; providing on-line non-downloadable computer software and computer applications for streaming audio materials, video materials, videos, music and images; providing technical support services, namely, providing backup computer programs and facilities, troubleshooting of computer software problems to end users by means of telephone or global computer network; computer services, namely, creating an online community for registered users to participate in discussions, get feedback from their peers, form virtual communities, and engage in social networking; computer technology advice provided to Internet users by means of a support hotline; computer services, namely, creating indexes of information, sites and resources on computer networks; providing search engines for the Internet; design of computers, notebook computers, laptop computers, portable computers and handheld computers; design of personal digital assistants and personal media players for others; design of mobile telephones and smart phone for others; design of digital cameras for others; computer services, namely, computer system administration for others; computer programming; computer systems integration services; computer systems analysis services; computer programming in relation to the defense against virus, namely, computer virus protection services; computer system software services, namely, design and development of online computer software systems; providing direct connection services between computer users for exchanging data, namely, providing temporary use of online non-downloadable software for the exchange of data; computer software design; computer system design; design and development of webpages; hosting webpages for others; hosting computer application software for others for use in searching and retrieving information from databases and computer networks; computer software consultancy; computer services, namely, providing customized searching services in the nature of searching and retrieving information from computer databases and websites at the customer's specific request via the Internet, creating, maintaining and hosting websites for others, creating an online community for registered users to develop and collaborate on address books and calendars, software design and development for others, hosting online interactive public calendars, address books and notes that allow multiple participants to share event schedules, facility reservations and transportation requests via local and global computer network; customized searching of computer databases and websites, namely, providing customized online web pages featuring user-defined information which includes online links to third party web sites; customized searching of computer databases and websites, namely, providing search engines for obtaining data from computer files on a global computer network; computer and electronic signal coding and decoding; computer code conversion for others; conversion of physical data and documents into electronic media format; testing and evaluation services of the goods and services of others to assure compliance with industry standards; architectural design services; interior design services of buildings, offices and apartments; computer security services, namely, the provision of user certification authority services for others to ensure the security of transmitted information, namely, providing a website that features technology that enables the secure exchange of information by users; providing technological information about computers and computer networks in the field of business and e-commerce; computer security risk management programs, namely, updating of computer software relating to computer security and prevention of computer risks; computer security information, knowledge and testing services, namely, computer security consultancy in the field of scanning and penetration

testing of computers and networks to assess information security vulnerability; providing quality assurance services in the field of computer software; computer security service, namely, restricting access to and by computer networks to and of undesired web sites, media and individuals and facilities; providing platform as a service (PAAS) services featuring computer software platforms for consumer complaint submission; computer consultancy in the field of data security; consultancy concerning securing telecommunications technology; electronic document and e-mail authentication services; computerized communication network security services, namely, providing temporary use of non-downloadable computer software for conducting private and secure electronic communication over a private or public computer network; providing technological information in the field of Internet, the world wide web, and computerized communication network security; computer security consultancy, namely, consulting services in the fields of Internet, world wide web and computerized communication network security services, information security services; authentication in the field of computer security, namely, authentication of user identity for computer security; computer services in relation to on-line authentication of electronic signatures, namely, design, development, and implementation of software for authenticating digital signatures; off-site data backup; electronic data storage, namely, archiving business documents, personal documents and corporate documents; providing information on computer technology and programming via a web site; cartography services; rental of entertainment software; technology consultancy, information and advisory services relating to the aforesaid services
