GOODS AND SERVICES INFORMATION

For Computer system administration for others in the nature of administration of user rights in computer networks; advisory services in the field of product development and quality improvement of software; computer consultation in the nature of advisory and consultancy services relating to computer hardware and software and computer peripherals; product design and development in the field of agriculture, energy, environmental control and pharmaceutical; analysis of telecommunication signals; architectural consultation; architectural planning and consultancy services; architectural services; architectural services for the design of buildings; architectural services for the design of office buildings; architectural services for the design of retail premises; architectural services for the design of shopping centers; bacteriological research; biochemical research; biological and chemical research; scientific laboratory services being biological laboratory services; biological research; building and construction drafting and consultancy relating thereto; calibration being measuring; cartography services; chemical analysis; scientific laboratory services being chemical and biological laboratory services; chemical research; chemistry consultation and chemist services; conducting clinical trials for others; computer services, namely, cloud hosting provider services; cloud seeding; computer programming for others; for the creation of web pages on the internet; compilation of data in the nature of computer programs and web pages for the internet for research purposes in the field of farming; energy; environmental control and pharmaceuticals; digital compression of computer data for electronic storage; computer services, namely, encrypted data recovery services; computer programming; computer programming for data processing; computer programming for data processing and communication systems; computer programming for the energy industry; computer programming services for data warehousing; computer programming services for electronic data security; computer

programming services relating to multimedia and interactive applications; computer project management in the field of electronic data processing; computer rental; computer security services for protection against illegal network access; computer services, namely, electronic data storage; computer software consultancy; computer software design; computer system analysis; computer system design; computer system design and analysis; computer technology consultancy; computer virus protection services; computer-aided industrial analysis services; computer-aided industrial design, research, testing and analysis services; computer-aided industrial research services; computer-aided scientific analysis services; computer-aided scientific research services; computer-aided scientific research, testing and analysis services; computer-aided testing services for testing of control systems for farming; energy; environmental control and pharmaceuticals; conducting clinical trials for pharmaceutical products of others; conducting of quality control testing services for others; conducting of quality control tests on goods and services of others; conducting scientific research by means of scientific experiments for others; conducting of scientific research by means of scientific studies for others; conducting scientific research and technical project studies relating to the use of natural energy; conducting scientific research in the nature of sampling and analysis services to assess pollution levels; conducting scientific research in the nature of sampling and analysis services to check for contamination; engineering services, namely, conducting technical project planning and design for construction projects; configuration, installation, fault diagnosis, repair, upgrading and maintenance of computer software; configuration of computer hardware using software; configuration of computer networks using software; construction drafting; consultancy and information services relating to computer programming; consultancy and information services relating to computer software design; consultancy and information services relating to computer system integration; consultancy and information services relating to information technology; consultancy and information services relating to information technology architecture and infrastructure; consultancy and information services relating to information technology, information technology architecture and infrastructure and computer system integration; consultancy and information services relating to the design, programming and maintenance of computer software; consultancy and information services relating to the maintenance of computer software; consultancy and information services relating to the rental of computer software; consultancy and research services in the fields of science, engineering and information technology; consultancy in connection with hardware and software for connection to, management of, operating and using computer networks; consultancy in the design and development of computer hardware; consultancy in the field of architecture and construction drafting; consultancy in the field of biotechnology; consultancy in the field of cloud computing networks and applications; consultancy in the field of computer hardware and software management; consulting services in the field of design, selection, implementation and use of computer hardware and software systems; consultancy in the field of computer system integration; consultancy in the field of computer systems analysis; consultancy in the field of engineering services as they pertain to energy efficiency and energy savings; consultancy in the field of pharmaceutical research; consultancy in the field of computer and software programming and development in the area of the development of e-business portals; consultancy in the field of scientific and industrial research; consultancy in the field of security software; consultancy in the field of technological design; consultancy in the field of technological research in the field of farming; energy; environmental control and pharmaceuticals; consultancy in the field of telecommunications engineering; consultancy relating to computer database programs; consultancy relating to geological surveys; consultancy relating to laboratory testing; consultancy relating to research and development in the field of therapeutics; consultancy relating to software for communication systems; consultancy relating to technical and scientific analysis; consultancy relating to technical and scientific measuring; consultancy relating to technical and scientific monitoring; consultancy relating to technological research services in the field of power and energy supply; consultancy relating to the

creation and design of web sites; consultancy relating to the creation and design of web sites for e-commerce; consultancy relating to the creation of home pages and internet pages; consultancy relating to the design and development of computer software and hardware architecture; consultancy relating to the design and development of computer software programs; consultancy relating to the design and development of information and communications technology systems; consultancy relating to the design of home pages and internet pages; consultancy relating to the design of home pages and internet sites; consultancy relating to the design, programming and maintenance of computer software; consultancy relating to the maintenance of computer software; consultancy relating to the recovery of computer data; consultancy relating to the updating of computer software; consultancy services in the scientific research fields of biotechnology, pharmaceutical research and development, laboratory testing, and pharmacogenetics; consultancy services in the fields of scientific research, engineering and information technology; consultancy services relating to research in the field of environmental protection; consultancy services relating to the design, development and use of computer hardware and software; conversion of data or documents from physical to electronic media; conversion of images from physical to electronic media; conversion of texts to digital format; cosmetic research; creating and maintaining customized web pages; creating and maintaining web sites for mobile phones; creating and maintaining web sites for others; creating, maintaining and hosting the web sites of others; creation and design of web pages for others; customization of computer software; customized design of computer hardware and software; data conversion of computer programs and data, not being physical conversion; design and construction of home pages and web sites for others; construction plan design services and consultancy relating thereto; design and creation of home pages and internet pages; design and creation of home pages and web pages; design and creation of home pages and web sites; design and development of computer hardware and software for industrial applications; design and development of computer hardware and software for use in the field of medicine; design and development of computer hardware architecture; design and development of computer hardware, software and databases; design and development of computer peripherals; design and development of computer software architecture; design and development of computer software for evaluation and calculation of data; design and development of computer software for logistics; design and development of computer software for logistics, supply chain management and e-business portals; design and development of computer software for process control; design and development of computer software for reading, transmitting and organizing data; design and development of computer software for supply chain management; design and development of computer software for use with medical technology; design and development of computer software for word processing; design and development of data display systems; design and development of data entry systems; design and development of data output systems; design and development of data processing systems; design and development of data storage systems; design and development of diagnostic apparatus; design and development of electronic database software; design and development of electronic databases; design and development of electronic dictionaries; design and development of energy distribution networks; design and development of energy management software; design and development of home pages and web sites; design and development of information and communications technology; design and development of internet security programs; design and development of navigation systems; design and development of navigation systems and route planning software; design and development of new technology for others; design and development of operating software for accessing and using a cloud computing network; design and development of operating software for computer networks and servers; design and development of route planning software; design and development of software for control, regulation and monitoring of solar energy systems; design and development of software for database management; design and development of software for

importing and managing data; design and development of software for inventory management; design and development of software for web site development; design and development of computer systems for data input, output, processing, display and storage; design and development of computer systems for regenerative energy generation; design and development of testing and analysis methods for control systems for farming; energy; environmental control and pharmaceuticals; using artificial intelligence; design and development of wireless data transmission apparatus; design and development of wireless data transmission apparatus, instruments and equipment; design and graphic arts designing for the creation of web pages on the internet; design and graphic arts designing for the creation of web sites; design and hosting of web portals; design and maintenance of internet home pages; design and maintenance of web sites for others; engineering services featuring design and planning services relating to telecommunication equipment; design and development of web sites for others; design and rental of software; design and updating of home pages and web pages; design, creation and programming of web pages; design, development and programming of computer software; design, development, maintenance and updating of computer software for data processing; design, development, maintenance and updating of computer software for process control; design, development, maintenance and updating of computer software for word processing; design, development, maintenance and updating of computer software for word processing, data processing and process control; design of building interiors and exteriors; design of computer firmware; design of computer hardware, software and computer peripherals; design of computer peripherals; design of computer software, computer firmware, computer hardware and computer systems; design of control systems for farming; energy; environmental control and pharmaceuticals; diagnostic apparatus and equipment for use in plant diseases, environment adequate levels; design of home pages and internet pages; design of home pages and web pages; design of interior decor; design of internet pages; design of machines, apparatus and instruments, namely, computers and sensors; design of software for use with printing machines; design of web pages for others; design of web portals; design, programming and maintenance of computer software; design services relating to printed matter, namely, brochures, newsletters and scientific papers; development and maintenance of computer database software; development and maintenance of computer software; development and testing of computing methods, algorithms and software for others; development and testing of computing methods, algorithms and software for generating telecommunication and navigation data; development and testing of computing methods, algorithms and software for processing telecommunication and navigation signals; development and testing services in the field of engineering; development of algorithms and computing methods for generating telecommunication and navigation data; development of algorithms and computing methods for processing telecommunication and navigation data; development of algorithms and computing methods for processing telecommunication and navigation signals; development of computer hardware and software; development of computer programs and computer game software; development of computer software for logistics, supply chain management and e-business portals; development of computer software for use with computer-controlled switching systems; development of computer software for use with programmable controllers; development of energy and power management computer and computer software systems; development of measuring and testing methods in the fields of farming, energy, environmental control and pharmaceuticals; development of testing apparatus for electrical wires; development, programming and rental of data processing programs; diagnosis of computer hardware problems through the use of software; diagnosis of computer software problems; digitalization of sound and images; digitization of documents in the nature of scanning; draftsman's services in the nature of technical drawing; duplication of computer programs; electronic data back-up services; electronic data storage; electronic data storage; electronic data storage and data backup services; electronic data storage for others; electronic storage and back-up of data in computer databases; energy auditing; engineering; engineering and chemistry consultation services; engineering and scientific

consultancy; engineering research and design services in the field of drilling technology; engineering services for the gas industry; engineering services in the field of building technology; engineering services in the field of communications technology; engineering services in the field of energy, building, communications and environmental technology; engineering services in the field of energy technology; engineering services in the field of environmental technology; engineering services relating to energy supply systems; engineering services relating to gas transport and supply systems; environmental testing, monitoring and inspection; evaluation of results from quality control tests conducted on goods and services; quality evaluation of standing timber; quality evaluation of wool; scientific research in the field of genetic engineering services; graphic arts designing; handwriting analysis being graphology; server hosting, namely, hosting and rental of memory space on the Internet; hosting computer databases; hosting computer sites web sites; hosting computer software applications for others; hosting electronic memory space on the internet for advertising goods and services; hosting memory space on the internet; hosting multimedia entertainment and educational digital content for others; hosting of computerized data, files, applications and information; hosting of customized web pages; hosting of e-commerce platforms on the internet; hosting of memory space on the internet for storing digital photographs; hosting of multimedia and interactive applications; hosting of software for use in library management; hosting digital content in the nature of weblogs being blogs; hosting on-line facilities for conducting interactive discussions; hosting of computer platforms on the internet, namely, hosting websites for others; hosting web portals; graphic illustration services for others; implementation of computer programs in networks for authenticating digital signatures; industrial analysis and research services in the field of chemistry; industrial analysis services; industrial design; industrial research, development and testing; industrial research, testing and analysis services; information technology consultancy; inspection of goods for quality control for others; installation and maintenance of database software; installation and maintenance of software for internet access; installation, maintenance and updating of database software; installation, maintenance, updating and upgrading of computer software; installation of computer software; installation of database software; interior architectural services; IT programming services, namely, computer programming; IT project management, namely, computer project management services; laboratory research and analysis services in the field of farming, energy, environmental control and pharmaceuticals; laboratory research in the field of bacteriology; laboratory research in the field of chemistry; scientific laboratory services; land surveying; maintenance and consultancy services relating to software used in the field of e-commerce; maintenance and updating of software for communication systems; maintenance of computer software; maintenance of database software; material testing; mechanical and electrical engineering services; mechanical engineering services; mechanical research; meteorological information; monitoring of computer systems by remote access to ensure proper functioning; monitoring of computerized telecommunication signals to ensure proper functioning; monitoring of water quality; off-site data backup; preparation of biological samples for analysis in laboratories; preparation of biological samples for analysis in research laboratories; preparation of biological samples for research purposes; preparation of biological samples for testing and analysis in research laboratories; preparation of immunohistological samples for analysis in research laboratories; preparation of reports relating to technical project studies for construction projects; preparation of reports relating to technological research; product quality control testing; professional architectural design services; programming of computer animations, namely, computer graphics design services in the nature of creating animations; programming of computer software for electronic language translation dictionaries and databases; programming of computer software for evaluation and calculation of data; programming of computer software for reading, transmitting and organizing data; programming of customized web pages; programming of customized web pages featuring user-defined information, personal profiles and

information; programming of data processing programs; programming of electronic data processing (EDP) software; programming of energy management software; programming of internet security programs; programming of operating software for accessing and using a cloud computing network; programming of operating software for computer networks and servers; programming of software for database management; programming of software for e-commerce platforms; programming of software for importing and managing data; programming of software for information platforms on the internet; programming of software for internet platforms; programming of software for internet portals, chat rooms, chat lines and internet forums; programming of software for inventory management; programming of software for web site development; programming of telecommunications software; computer programming of web pages; customizing computer software to the specifications of others; providing information about design and development of computer hardware and software; providing information about industrial analysis and research services; providing information about medical and scientific research in the field of pharmaceuticals; providing information about the design and development of computer software, systems and networks; providing information about the results of clinical trials for pharmaceutical products; providing information in the field of computer software design; providing information in the field of computer software development; providing information in the field of product design; providing information in the field of product development; providing information on computer technology and computer programming via a web site; providing internet search engines with specific search options; providing on-line information about design and development of computer hardware and software; providing on-line information about industrial analysis and research services; providing on-line information in the field of technological research from a computer database and the internet; providing temporary use of on-line non-downloadable software for use in database management; providing research information and results in the fields of technology, science and medicine from an on-line searchable database; providing search engines for obtaining data via communications networks; providing search engines for the internet; providing technical advice in the field of scientific and industrial research; providing technical information about computers, computer software and computer networks; providing temporary use of non-downloadable business software for managing control systems in the fields of farming, energy, environmental control and pharmaceuticals for optimization and efficiency of resources; providing temporary use of non-downloadable software applications for managing control systems in the fields of farming, energy, environmental control and pharmaceuticals for optimization and efficiency of resources, said applications accessible via a web site; providing temporary use of non-downloadable software for analyzing financial data and generating reports about said data; providing temporary use of non-downloadable software to enable content providers to track multimedia content; providing temporary use of non-downloadable software to enable sharing of multimedia content and comments among users; providing temporary use of on-line applications and software tools for database management to optimize sale team processes; providing temporary use of on-line, non-downloadable computer software for use in broadcast monitoring applications; providing temporary use of on-line non-downloadable software for use in researching investment information and tracking financial investments; providing temporary use of online non-downloadable operating software for accessing and using a cloud computing network, providing temporary use of on-line non-downloadable operating software for computer networks and servers; providing temporary use of on-line non-downloadable software for database management; providing temporary use of on-line non-downloadable software for importing and managing data; providing temporary use of on-line non-downloadable software for inventory management; providing temporary use of on-line non-downloadable software for web site development; providing temporary use of web-based applications for optimizing farming resources; providing temporary use of web-based software for use in optimization and efficiency of resources; provision of computer programs in data networks, namely, providing temporary use of non-downloadable software for optimizing farming resources; providing

temporary use of non-downloadable software for optimizing farming resources; provision of information and data relating to scientific and technological research and development; provision of information concerning research and technical project studies relating to the use of natural energy; provision of information relating to technological research; provision of scientific information, advice and consultancy in relation to carbon offsetting; provision of technical information in relation to computers; provision and rental of electronic storage space web space on the internet in the nature of hosting web space on the Internet; product quality control testing; quality control of goods for others; quality control of goods and services for others; quality control services and quality control auditing in the field of information technology; quality control services for certification purposes; quality control testing and consultancy relating thereto; quality control testing of products for certification purposes; quality control testing services for horticultural equipment; quality testing of products for certification purposes; recovery of computer data; rental of computer software for conducting financial transactions; rental of computer database software; rental of computer software; rental of computer software for financial management; rental of computers and computer equipment; rental of computers for data processing; rental of data processing programs; rental of internet security computer software; rental of memory space on servers for hosting electronic bulletin boards; rental of operating software for accessing and using a cloud computing network; rental of operating software for computer networks and servers; rental of computer peripheral devices for computers; rental of software for database management; rental of software for importing and managing data; rental of software for inventory management; rental of software for web site development; rental of web servers; research and consultancy services relating to computer hardware and software; scientific research and design services in the fields of farming, energy, environmental control and pharmaceuticals; research and development for others in the field of farming, energy, environmental control and pharmaceuticals; research and development in the field of diagnostic preparations; research and development in the field of microorganisms and cells; research and development services in the field of antibodies; research and development services in the field of antibody technology; research and development services in the field of bacteriology; research and development services in the field of bacteriology, cytology, antibody technology, chemistry, immunology and gene expression systems; research and development services in the field of chemistry; research and development services relating to computer hardware; research and development services relating to computer hardware and software; research and development services relating to fertilizers; research and development services relating to measuring and regulating technology; research and development services relating to solar cells and electricity generation; research, development, analysis and consultancy services in the field of engineering; research in the field of communications technology; research in the field of computer hardware; research in the field of computer hardware and software; research in the field of computer programs and software; research in the field of computer technology conducted using databases and the internet; research in the field of data processing technology; research in the field of environmental conservation; research in the field of environmental conservation and protection; research in the field of environmental protection; research in the field of information technology; research in the fields of chemistry and biology; research in the fields of chemistry, biology and physics; research in the fields of materials science and electrical engineering; research, product development and quality control services in the field of proteins, antibodies, microorganisms and cells, and consultancy relating thereto; research relating to the development of computer hardware; research relating to the development of computer programs and software; research relating to the development of computer software; research services for the development of new products; research services in the field of proteins, antibodies, microorganisms and cells; research services in the fields of science, engineering, information technology, medicine, ecology and the environment; research, testing and analysis services; scanning of images

conversion from physical to electronic media; scientific analysis; scientific and industrial research in the field of photovoltaics and solar collectors; scientific and medical research and development; scientific and technological services and research; scientific and technological services and research and development relating thereto; scientific research and analysis in the field of farming, energy, environmental control and pharmaceuticals; scientific research and development; scientific research conducted using databases and the internet; scientific research for medical purposes; scientific research for others conducted using databases; scientific research for others conducted using databases and the internet; scientific research, testing and analysis services; scientific, technological, research and design services related to telecommunication and navigation signals; scientific, technological, research and design services related to the field of monitoring and control of telecommunication or navigation satellites and signals; server administration; server hosting; software as a service (SAAS) featuring software for managing control systems in the field of agriculture; software engineering services for data processing programs; industrial design; surveying; technical advice in connection with energy-saving measures; technical advice relating to computers; technical consultancy and advisory services in the field of computer hardware and software; technical consultancy in the field of computer hardware and software; technical consultancy in the field of energy saving and energy efficiency; technical consultancy relating to product development; technical consultancy relating to the application and use of computer software; technical consultancy relating to the design of computer hardware, software and computer peripherals; technical consultancy relating to the installation and maintenance of computer software; technical design and planning of heating installations; technical design and planning of pipelines for gas, water and waste water, technical design and planning of power stations; technical design and planning of sewerage systems; technical design and planning of telecommunications equipment; technical design and planning of telecommunications networks; technical design and planning of water purification plants; technical design services; technical design services relating to cooling appliances and installations; technical design services relating to electricity plants; technical design services relating to heating installations; technical design services relating to sanitary apparatus and installations; technical design services relating to water supply installations; technical development of structural elements, devices and systems for solar collectors and photovoltaic plants; technical drawing; technical measuring and testing laboratory services; technical measuring and testing services; technical measuring services; technical planning and consultancy in the field of light engineering; technical planning and technical project management for the development of lighting equipment; technical project planning; technical project planning in the field of engineering; technical project studies; technical project studies in the field of carbon offsetting; technical project studies in the field of construction; technical research; technical research projects and studies; technical testing and quality control services; technological analysis relating to energy and power needs of others; technological consultancy; technological consultancy in the fields of energy production and use; technological services, namely, providing access to data and processing said data retrieved from sensors in facilities under analysis, in the field of farming, energy, environmental control and pharmaceuticals; technological services, namely, providing access to data and processing said data retrieved from sensors in the facilities under analysis in the field of farming, energy, environmental control and pharmaceuticals, and research and design relating thereto; technological services and research and design relating thereto in the field of data processing, data analysis and data conversion; telecommunications engineering; telecommunications technology consultancy; testing, analysis and monitoring of navigation signals; testing, analysis and monitoring of system algorithms for generating telecommunications and navigation data; testing, analysis and monitoring of system algorithms for processing telecommunications and navigation data; testing, analysis and monitoring of telecommunication and navigation signals; testing, analysis and monitoring of telecommunication signals; testing of apparatus in the field of electrical engineering; testing of apparatus in the field of electrical engineering for certification purposes; testing

of computer hardware; testing of computer installations; testing of telecommunication signals; testing services for alarm and monitoring software used with alarm and monitoring systems; testing services for the certification of quality or standards; troubleshooting of computer software problems technical support; underwater exploration; updating of computer database software; updating of computer software; updating of internet pages; updating of web sites; urban planning; water analysis; weather forecasting; web design services; web site design consultancy; web site design for others

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

Mark Literal(s) DOMAINE DES ETOILES

CASE IDENTIFIERS

Serial Number 79177355 **Application Filing Date** Aug. 17, 2015 **Registration Number** 5061497 **Registration Date** Oct. 18, 2016 **Register** Principal **Mark Type** Service Mark Trademark **Date Cancelled** May 05, 2023 **Publication Date** Aug. 02, 2016

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a shaded blue circle with four evenly spaced concentric white circles. There are twenty evenly spaced white lines extending from the center of the shaded blue circle out to the outermost white concentric circle. The lines extending from the center and the concentric circles intersect to create four sided square shaped spaces. The wording "DOMAINE DES ETOILES" is spelled out in upper case white letters in the square shaped spaces in between the third white circle and the outermost white circle. There is one upper case white letter per square shaped space and one empty space between each word. The word "DES" is at the top and the word "ETOILES" is on the right side and the word "DOMAINE" is on the left side. There are small white circles scattered throughout the first, second and third concentric circles. **Color Drawing** Yes **Color Claimed** The color(s) blue and white is/are claimed as a feature of the mark. **Translation** The English translation of "DOMAINE DES ETOILES" in the mark is "field of stars".

RELATED PROPERTIES INFORMATION

RELATED PROPERTIES INFORMATION

International Registration 1280438 **International Registration Date** Sep. 04, 2015

GOODS AND SERVICES INFORMATION

For Medical apparatus and instruments for analyzing biomedical signals, in particular brain activity

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Education information; training in the field of neuroscience and in particular of brain activity; arranging and conducting conferences and training on brain-computer interface technology; rental of apparatus for analyzing brain function namely, transmitters and receivers, and accessories for measuring, analyzing and exploiting signals in the field of neuroscience; arranging and conducting of training workshops in the field of the treatment of biopotentials, neuroscience, use of software and brain-computer interfaces

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Scientific apparatus and instruments for measuring, signaling, checking, analyzing and exploiting biopotentials in particular brain functions and brain signals in the field of neuroscience namely, computer software for interpretation of neuro and brain scans provided by diagnostic imaging equipment; apparatus for the recording, transmitting and reproducing of images and data relating to the measuring, analyzing and exploiting of biopotentials in the field of neuroscience, in particular magnetic data carriers, sound recording discs, compact discs, DVDs and other digital recording media for recording data; apparatus for analyzing brain functions, namely, transmitters and receivers; software in the field of neuroscience in particular in the field of brain function analysis; measuring instruments, electric measuring apparatus, precision measuring apparatus of brain activity; computer programs and software for smartphones for analyzing signals related to brain activity

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Communications by computer terminals for disseminating and transmitting data relating to neuroscience; providing online chatrooms in the field of neuroscience; providing access to databases relating to the field of neuroscience

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Scientific analysis services, research services in the field of neuroscience in connection with exploiting biopotentials, in particular brain activity; design and development of apparatus, computer programs and software for measuring, analyzing and exploiting signals in particular biopotentials and brain activity; consultancy in the design and development of apparatus and computer software related to the field of neuroscience, the measuring, analyzing and exploiting of biopotentials and brain activity; expert evaluations in the field of neuroscience; biomedical engineering; scientific and technological research in the field of neuroscience

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

Mark Literal(s) PORT CHARLOTTE PC12
OILEANACH FURACHAILHEAVILY PEATED
ISLAY SINGLE MALT

CASE IDENTIFIERS

Serial Number 79181855 **Application Filing Date** Nov. 20, 2015 **Registration Number** 5061589
Registration Date Oct. 18, 2016 **Register** Principal **Mark Type** Trademark **Date Cancelled** May 05, 2023
Publication Date Aug. 02, 2016

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a three-dimensional configuration of the bottle packaging for the goods with wording thereon. The wording "PORT CHARLOTTE" in white, "PC12" in gold, "OILEANACH FURACHAIL" in dark gray, "HEAVILY PEATED" in white, and "ISLAY SINGLE MALT" in dark gray appears vertically, in stylized font along the center of the bottle. To the left of the wording "OILEANACH" appears stylized letters "B" and "L" overlaid in the center of a design consisting of two concentric circles with the words "BRUICHLADDICH" and "ISLAY SINGLE MALT" appearing between the circles to form a border, all in white. The wording "PORT CHARLOTTE" in white, "PC12" in gold and "ISLAY SINGLE MALT" in dark gray appears vertically on the neck of the bottle in gray. The bottle and cap are represented with broken lines and are not part of the mark. The broken lines outlining the bottle and cap indicate placement of the mark and are not part of the mark. The color of the liquid in the bottle is not claimed as part of the mark. **Color Drawing** Yes **Color Claimed** The color(s) white, gold and gray is/are claimed as a feature of the mark. **Disclaimer** THE APPLICANT DISCLAIMS ANY EXCLUSIVE RIGHT TO USE THE WORDS "HEAVILY PEATED", "ISLAY SINGLE MALT". **Translation** The English translation of Bruichladdich in the mark is the steep bank of the lee shore. **Transliteration** The transliteration of the non-Latin characters in the mark is: "Oileanach furachail means attentive student". **Acquired Distinctiveness** In part **Distinctiveness Limitation Statement** Bruichladdich has become distinctive of the goods/services as evidenced by the ownership on the Principal Register for the same mark for sufficiently similar goods/services of active U.S. Registration No(s). 4785242; Bruichladdich has become distinctive of the goods/services through the applicant's substantially exclusive and continuous use of the mark in commerce that the U.S. Congress may lawfully regulate for at least the five years immediately before the date of this statement.

GOODS AND SERVICES INFORMATION

For [Hydraulic drills; power rib drills for use in mining and construction; power drills for use in mining of construction; power operated roofbolters; hydraulically operated roofbolters; pneumatically operated roofbolters; hydraulic and pneumatic controls for machines and machine tools; pneumatic control valves for machines; machine parts, namely, couplings for pneumatic machines; machine parts, namely, pneumatic controls for industrial mining machines; machine parts, namely, pneumatic controls for machines; pneumatic machine tools for breaking rock in mining; pneumatic coil and strap nailing machines; pneumatic compressors; machine parts, namely, pneumatic cylinders for mining machines; machine parts, namely, pneumatic distributors for mining machines; pneumatic drills; pneumatic hammers; pneumatic jacks; pneumatic lifting apparatus, namely, mechanical railed lifting conveyors for the mining industry; pneumatic pumps; exhaust silencers for engines; silencers for motors and engines; hydraulic control valves for machines; machine parts, namely, hydraulic control gear for valves; machine parts, namely, hydraulic control valves; machine parts, namely, hydraulic controls for automatically operating valves; hydraulic servo valves being parts of machines; machine parts, namely, hydraulic valves; machine parts, namely, hydraulic valves for regulating fluid streams; machine parts, namely, pneumatic control gear for valves; machine parts, namely, pneumatic control valves; machine parts, namely, pneumatic controls for automatically operating valves; machine parts, namely, pneumatically operable valves; machine parts, namely, power operated valves; machine parts, namely, power operated valves being parts of machines; machine parts, namely, pressure control valves; pressure valve controllers being parts of machines; machine parts, namely, pressure reducer valves; pressure regulating valves being parts of machines; machine parts, namely, pressure valves; valves for air compressors; machine parts, namely, electrically operated valves of

metal; machine parts, namely, valves of metal; machine parts, namely, valves of metal for piping; machine parts, namely, valves operated automatically by hydraulic control; machine parts, namely, valves operated automatically by pneumatic control; machine parts, namely, valves operated by changes in pressure; clutches for machines other than for land vehicles; electromagnetic clutches for machines; free wheel clutches for machines; hydraulic clutches for machines other than for land vehicles; metal hoses for use in hydraulic systems in machines; non-metallic hoses for use in hydraulic systems in machines; machine parts, namely, pneumatic distributors; exhaust mufflers for motors; parts for machines, namely, mufflers; mufflers for motors and engines; machine parts, namely, turrets; machine parts, namely, turrets with radially extending machine tools; drill bits for powered, hydraulic or pneumatic machines; drill bits for rotary power tools; machine parts, namely, powered, hydraulic or pneumatic drill chucks; machine parts, namely, powered, hydraulic or pneumatic drill cooling apparatus; drill machines; powered, hydraulic or pneumatic drill presses; powered, hydraulic or pneumatic drill sharpening machines; drill stands for drilling machines; powered, hydraulic or pneumatic machine drilling bits; powered, hydraulic or pneumatic drilling hammers; part of machines, namely, powered, hydraulic or pneumatic drilling heads; powered, hydraulic or pneumatic drilling machine supports being parts of machines; drilling machines; electric drilling machines; electric drills; parts of machines, namely, holders for drilling tools; powered, hydraulic or pneumatic impact drills; Industrial boring machines for horizontal drilling; industrial drilling machines; machine tools for drilling; machines for drilling; powered, hydraulic or pneumatic masonry drills; powered, hydraulic or pneumatic operated metallic tools and machines for use in drilling of subterranean wells; power operated drilling tools; rock bits for drilling machines; rock drills; rock drills being parts for machines; powered, hydraulic or pneumatic rotary drills; rotary drills being parts of machines; power operated air filled jacks; electric jacks; hydraulic jacks; power, hydraulic or pneumatic jacks; powered, hydraulically or pneumatically operated lifting machines; pneumatic jacks for operating machine tools; pneumatic jacks for operating machines; industrial machines, namely, pneumatically operated lifting jacks; power operated flexible jacks; power operated jacks; power, hydraulically or pneumatically operated rack and pinion jacks; powered, hydraulically or pneumatically operated screw jacks; power, hydraulically or pneumatically operated vehicle trolley jacks; machine tools, namely, clamps for use in the clamping of work pieces; powered, hydraulically or pneumatically operated machines, namely, for pumping concrete; power, hydraulically or pneumatically operated machines, namely, pumps for grout; motor powered liquid pumps; pumps as parts of machines, motors and engines; motors for use with pumps; pneumatic conveying pumps; pneumatic pumps for pumping fluids; hydraulic pumps; pumps for pumping slurries; pumps for pumping water; pumps as parts of machines, engines or motors; power, hydraulically or pneumatically operated machines, namely, grout mixers; cement mixers; power, hydraulically or pneumatically operated machines, namely, adhesive mixers; power, hydraulically or pneumatically operated machines, namely, pumps for pumping adhesive; mixing machines; air pressure intensifiers for compressors; gear boxes being parts of machines; gear boxes for hydraulic transmissions other than for land vehicles; gear boxes other than for land vehicles; parts of machines, engines or motors, namely, baffles; ball bearings for motors for machines; drive motors, other than for land vehicles; electric motors other than for land vehicles; gear motors other than for land vehicles; geared electric motors, other than for land vehicles; machine parts, namely, hydraulic connectors pipes being parts of motors other than for vehicles; hydraulic control apparatus for motors; hydraulic control gear for electric motors; hydraulic controls for machines, motors and engines; hydraulic engines and motors; hydraulic motors; machine motors; motors for machines; motors for use with pumps; pneumatic control apparatus for motors; floatation type oil-water separators; machine parts, namely, water separators for removal of water from air for use in pneumatic and powered machines; powered, hydraulically or pneumatically operated machines, namely, devices for tensioning cables; powered, hydraulically or pneumatically operated tools, namely, tension ratchets; drilling platforms for use with drilling

machines; power, hydraulically or pneumatically operated machines, namely, cable feeders; machines, namely, conveyors; electric hand drills; machines, namely, portable powered, hydraulically or pneumatically operated drill stands; portable electric drilling machines; portable electric drills]

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For [Rental of mining tools, mining machines, mining machine tools, hand tools, drills, roofbolters, jacks, motors, clamps, geared motors and water separators for use in mining, construction and/or tunneling; installation, repair and maintenance of mining machines, mining machine tools, hand tools, drills, roofbolters, jacks, motors, clamps, geared motors and water separators for use in mining, construction and/or tunneling]

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Hand-held hand operated drills; hand-held hand operated roofbolters; [drill bits for hand operated tools; drill chucks as parts of hand-operated tools; drill holders for hand drills; drilling tips for hand-operated drills; hand operated ground drills; hand operated drill presses; hand operated drill sharpeners; hand operated impact drills; hand operated industrial drills; hand operated masonry drills; portable drill stands for hand-operated drills; rotary drills being hand-operated tools; rotary drills being parts of hand-operated tools; hand operated portable drill stands; hand-operated portable drill stands for use with electric drills; hand-operated jacks; hand-operated lifting jacks; hand operated vehicle trolley jacks; hand tools, namely, locking clamps; manually operated clamps in the nature of hand tools; hand operated tensioning ratchets for tensioning cables; all specifically designed for use in mining, and specifically excluding plier, cutters, wrenches and pipe wrenches]

International Classes 8 - Primary Classes **US Classes** 23, 28, 44 **International Class Title** Hand Tools

GOODS AND SERVICES INFORMATION

For [Precious metals and their alloys, namely, processed or semi-processed precious metals in the nature of Bourdon tubes, tubes of plated metals, plated with precious metals, profile tubes of precious metals and their alloys, plated metals, tubes made from expansion alloys, tubes as melt-down alloys for glass/metal or glass/ceramic/metal compounds and of iron/nickel alloys and resistance alloys, hollow waveguides, precision tubes made out of precious metals and specialty metals, capillary tubes, thermobimetal snap-discs and snap elements, thermobimetal ribbons and strips, stamped and molded parts of thermobimetal, metallic assemblies, thermobimetals made of special materials as ribbons and strips, thermobimetal stamped and molded parts with defined properties and assemblies of thermobimetals, roll seam welded ribbons and profile sections, electroplated ribbons with nickel and tin, silver, gold, copper, zinc, palladium and chemically nickel-plated, deep-drawn and extruded high-precision parts in special shapes of metals]

International Classes 14 - Primary Classes **US Classes** 2, 27, 28, 50 **International Class Title** Jewelry

For [Component parts of surgical, medical, dental and veterinary apparatus and instruments in the nature of precision tubes of non-ferrous metals, precious metals, stainless steels and special materials for medical purposes, tubes, wires of nickel/titanium (nitinol) for medical purposes, stainless steel tubes and wires for medical purposes Bourdon tubes, profile tubes, tubes of plated materials, of special alloys and thin-wall, precision and capillary tubes being component parts for medical purposes, tubes of superelastic materials for medical purposes]

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For [Automotive parts for land, air or water vehicles and parts for apparatus for land, air or water vehicles composed of processed or semi-processed metals and their alloys in the nature of Bourdon tubes, tubes of plated metals plated with precious metals, profile tubes of precious metals and their alloys, plated metals, tubes made from expansion alloys, tubes as melt-down alloys for glass/metal or glass/ceramic/metal compounds and of iron/nickel alloys and resistance alloys, hollow waveguides, precision tubes of precious metals and specialty metals, capillary tubes, thermobimetal snap-discs and snap elements, thermobimetal ribbons and strips, stamped and molded parts of thermobimetal, metallic assemblies, thermobimetals of special materials as ribbons and strips, thermobimetal stamped and molded parts with defined properties and assemblies of thermobimetals, roll seam welded ribbons and profile sections, electroplated ribbons with nickel and tin, silver, gold, copper, zinc, palladium and chemically nickel-plated, deep-drawn and extruded high-precision parts in special shapes of metals for manufacturing]

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For [Component parts of writing instruments and writing implements, namely, tubes of plated materials, plated with precious metals, profile tubes of precious metals and their alloys, plated materials, precision tubes of precious metals]

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For [Parts for machines, parts for power tools or machine tools and parts for engines, other than for land vehicles composed of processed and semi-processed metals and their alloys in the nature Bourdon tubes, tubes of plated metal materials plated with precious metals, profile tubes of precious metals and their alloys, tubes made from expansion alloys, tubes as meltdown alloys for glass/metal or glass/ceramic/metal compounds and of iron/nickel alloys and resistance alloys as parts for machines, pats for power tools or machine tools and parts for engines, other than for land vehicles, precision tubes made out of precious metals and specialty metal materials, thermobimetal snap discs and snap elements, thermobimetal ribbons and strips, stamped and molded parts of thermobimetal, metallic assemblies, thermobimetals out of special materials as ribbons and strips, thermobimetal stamped and moulded parts with defined properties and assemblies of thermobimetals, roll seam welded ribbons and profile sections, electroplated ribbons with nickel and tin, silver, gold, copper, zinc, palladium and chemically nickel-plated, deep-drawn and extruded high-precision parts in special shapes of metals deep-drawn and extruded high-precision parts in special shapes of metallic materials]

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For [Apparatus for recording, transmission or reproduction of sound or images; blank magnetic data carriers; scientific, surveying, electric, electronic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, composed of tubes made from expansion alloys, tubes as melt-down alloys for glass/metal or glass/ceramic/metal compounds and of iron/nickel alloys and resistance alloys, in particular for compensating elements, frames for optical lenses and expansion controllers, hollow waveguides for applications in high-frequency engineering of copper and copper alloys composed of invar plated with silver, precious metals and precious metal coatings, thin-wall tubes of common metals and hardenable copper/beryllium alloys, corrugated tubes and measuring springs subjected to high dynamic stresses, precision tubes of common metals, precious metals, stainless steels, all for use in connection with test pins for testing and special materials, in particular as guide tubes for test pins or plug-in connections, capillary tubes for measuring and control

engineering, hydraulics and pneumatics of copper, copper alloys, stainless steel and special alloys, thermobimetal snap-discs and snap elements, thermobimetal ribbons and strips, stamped and molded parts of thermobimetal, electric contact component parts in solid state and or metal plated, contact rivets, solid and plated, stamped flexible parts of materials plated with precious metals, electric contact springs, parts for electric contact part assemblies, riveted, Tox-joined, soldered, resistance and laser-welded assemblies, deep-drawn and extruded parts for electrical engineering and electronics and for measuring and control engineering of precious metals and their alloys, copper and copper alloys, nickel and nickel alloys, stainless steels and materials with special physical properties with regard to expansion behaviour and magnetism, including with electroplated surface coatings, cold extruded parts as heat sinks, load-bearing and connecting elements for power electronics, electric contact component parts and electric contact laminations for collectors, load-bearing plates and contacting plates, composite electrodes for spark plugs, protective sleeves, screening cans, caps and a number of small high-precision deep-drawn parts in special shapes of metallic materials, parts and memory elements of shape memory alloys for measuring and control engineering, plated materials with precious metal coatings and substrates of copper material, nickel and nickel alloys and steel, as ribbons, wires, tubes and profile sections, electric contact component parts and assemblies with inserts and coatings of precious metal and precious metal alloys, welded, soldered, riveted, if required with electroplated coatings, contact rivets of precious metal, solid and coated, composite materials for electrical contacts as fibre and laminar composite materials, Bourdon tubes, profile tubes, tubes of plated materials, of special alloys and thin-wall, precision and capillary tubes, deep-drawn and extruded high-precision parts in special shapes of metallic materials, wires and profile sections of precious metal, solid and coated, and of special alloys and superelastic materials for the manufacture of parts of electric and electronic instruments, all the aforesaid goods being parts of electric and electronic instruments]

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Treatment of materials for the manufacture of finished and semi-finished metal products

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Scientific and technological services, namely, research, design and industrial analysis in the fields of finished and semi-finished metal products

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For [Common metals and their alloys; metal building materials, namely, composite panels, ceiling boards and floor boards, soffits and fascia; transportable buildings of metal; non-electric cables and wires of common metal; pipes and tubes of metal; metal Bourdon tubes, tubes of plated metal materials plated with common metals, profile tubes of common metals and their alloys made of plated metal materials and stainless steels, tubes made from expansion alloys, tubes made predominantly of metal, iron, nickel meltdown alloys and resistance alloys, and partially of glass and ceramics, metal hollow waveguides, thin-wall tubes of common metals and hardenable copper/beryllium alloys, precision tubes of common metals, stainless steels and specialty metal materials, metal capillary tubes, composite metals, laminar composite metals fibre composite metals for further manufacture, thermobimetal snap-discs and snap elements, thermobimetal ribbons and strips for further manufacture made predominantly of common metals, stamped and moulded parts made out of thermobimetal, metallic assemblies, nickel and nickel alloys and steel, namely, ribbons, wires, tubes, profiled tubes and profiled wires, thermobimetals of iron/nickel alloys,

stainless steels and special materials, namely, ribbons and strips, thermobimetal stamped and molded parts with defined properties and assemblies of thermobimetals for further manufacture made predominantly of common metals, roll seam welded ribbons and profile sections in the nature of metal profiles for use in further manufacture, electroplated ribbons with nickel and tin, silver, gold, copper, zinc, palladium and chemically nickel-plated for further manufacture]

GOODS AND SERVICES INFORMATION

For Apparatus for locomotion by land, air or water, namely, trucks, [airplanes, boats;] self-propelling motor vehicles, namely, land vehicles; [automobiles;] lifting gear in the nature of vehicles, namely, forklift trucks, stacker trucks, transport and stacking industrial land vehicles, industrial trucks; driverless vehicles, in particular lifting trucks with and without an electrical drive system; stacking land vehicles with electrical or diesel drives, in particular forklift trucks, reach forklift trucks and high lift trucks; driverless towing and carrier vehicles, namely, tow trucks, industrial trucks for carrying goods, as well as lifting trucks, each with electrical drives; manual forklift trucks; manual lifting trucks; forklift trucks with weighing apparatus; [forklift truck attachments specially adapted for forklift trucks; scissor-type high elevation lift trucks for transport; hand winch carts for transport; scooters; structural parts and structural accessories for all of the above mentioned goods; industrial trucks;] * all the aforementioned goods except bicycles, e-bikes, bicycle parts and bicycle accessories *

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For [Printed matter, in particular manuals for industrial trucks and their components]

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Machine and machine tools in the area of industrial trucks, lifting equipment, transportation and lift trucks, namely, fork lifts in the nature of power-operated lifting and moving equipment for use in order picking and warehousing, storing, transferring and transporting goods, power-operated lifting and moving equipment in the nature of electric pedestrian stackers and high rack stackers; crane arms for stackers, namely, for stackers in the nature of power-operated lifting and moving

equipment

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For [Maintenance and repair of apparatus for locomotion by land, air and water, self-propelling motor vehicles, automobiles, lifting gear in the nature of lifting vehicles, transport devices in the nature of vehicles, stacker trucks, transport and stacking cars, industrial trucks, driverless vehicles, in particular lifting trucks with and without electrical drive systems, stacking vehicles, including those with electrical or diesel drives, in particular forklift trucks, reach forklift trucks and high lift trucks, commissioning vehicles with electrical of diesel drives, driverless towing and carrier vehicles as well as lifting trucks, each with electrical drives, manual forklift trucks, manual lifting trucks, forklift trucks with weighing apparatus, forklift truck attachments, crane arms for stackers, scissor type high elevation lift tricks, hand winch carts for transport, scooters, parts and accessories for all of the mentioned goods]

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Apparatus and instruments for conveying, distributing, transforming, storing, regulating and controlling electric current, namely, batteries and battery chargers; [magnets for industrial purposes; electronic devices in the nature of electronic recorders for recording and storage of vehicle data; electronic controllers in the nature of electrical controllers and pulse generators, namely, AC/DC converters and rectifiers;] electrical and electronic control devices for stacker trucks; electrical, electronic and automatic regulation and control devices for vehicles, in particular hauling vehicles for measuring, processing and transmitting signals and commands, namely, sensors and actuators; [electrical and electronic control and regulation devices for steering vehicles around bends for use as steering assistants;] electrical and electronic devices, control and regulation apparatus and instruments for machines and motors, namely, electronic control systems for fork lift machines for use in order picking and warehousing storing, transferring and transporting goods [; electrical locks, holders, namely, holders for electrical coils; electrical controllers in particular voltage controllers for vehicles; light regulators being electric light dimmers; signs, namely, mechanical signs, illuminated signs and electronic signs; electronic notice boards, electronic signs; illuminated signs; electronic displays, namely, electronic display panels; steering apparatus for vehicles, namely, automatic steering apparatus for driverless vehicles in the nature of simulators for the steering and control of vehicles; bar code readers; electric switches; electrical connectors; data processing equipment and computers; computer hardware, in particular screens and displays; computer software, namely, storage and analysis programs in the field of vehicle fleet management; computer programs recorded on data carriers in particular storage and analysis programs, namely, for storage and analysis of vehicle data]

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For [Rental of apparatus for locomotion by land, air or water, self-propelling vehicles, automobiles, lifting gear in the nature of lifting vehicles, transport devices in the nature of vehicles, stacker trucks, transport and stacking cars, industrial trucks, driverless vehicles in particular lifting trucks with and without an electrical drive system, stacking vehicles including those with electrical or diesel drives, in particular forklift trucks, reach forklift trucks and high lift trucks, commissioning vehicles with electrical or diesel drives, driverless towing and carrier vehicles as well as lifting trucks, each with electrical drives, manual forklift trucks, manual lifting trucks, forklift trucks with weighing apparatus, forklift truck attachments, crane arms

being integral components for stacker trucks, scissor-type high elevation lift trucks for transport, hand winch carts for transport, scooters and parts and accessories being integral components for all above mentioned goods]

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For [Computer programming; design and development of computer software, in particular for steering of vehicles and regulation of vehicle data; updating of computer software]

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

International Registration 1502478 **International Registration Date** Dec. 19, 2018

GOODS AND SERVICES INFORMATION

For Couplings and transmission components for land vehicles; couplings for water vehicles

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Connectors, in particular plug-in connectors and power adapters for fluid pipes, all specially adapted for use in apparatus and installations for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, gas and water supply and sanitary purposes; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic sockets specially adapted for use in apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating and gas and water supplying; multiple plug-in connectors comprising fluid pipes, namely, compressed air pipes, specially adapted for use in apparatus and installations for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, gas and water supplying; male and female fluid header connectors for fluid pipes, specially adapted for use in apparatus and installations for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, gas and water supplying; multiple plug-in connectors for fluid pipes, in particular compressed air conduits; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic sockets and electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors specially adapted for use in apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating and gas and water supplying

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, in particular plug-in connectors, including connectors in modular form; [devices for electric, electronic, electromagnetic and optical connection and networking;] electric contacts, plugs, sockets, contact pins and sleeves; electric contact pin and socket blocks; electric conductors; electrical controllers; [electrical, electronic, electromagnetic, optical, fiber-optic and optoelectronic connection

systems comprised of electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, electric contacts, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic printed circuit board connectors, housings for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, docking frames and electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic cable assemblies, including in modular form;] electric couplings, connections, not being part of machines; electronic and optical jack cables, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic cord connectors, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connection panels; connection units comprising electrical, electronical, electromagnetic, optical fiber-optic, optoelectronic, coaxial, triaxial, electropneumatical, electrohydraulic and electrofluidic connectors, also combined with fluid conduits, including in modular form; hybrid electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors and connector systems comprised of electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, electric contacts, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic printed circuit board connectors, housings for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, docking frames and electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic cable assemblies, including in modular form; acoustic conduits; testing and quality control devices, namely, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic mass interconnect systems comprised of docking frames and housings, bearing pins, panel mounting surfaces for devices and units under test (D/UUT), interchangeable [test adapters] * test-adapters * (ITA), interchangeable test adapter frames, receivers, receiver modules, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic cable assemblies, receiver patch cords, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic, analog, digital, radio frequency, fiber-optic, power, thermocouple, pneumatic and vacuum connectors and coaxial relays, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic modular connectors and printed circuit board adapters for connecting test instruments to interchangeable test adapters; test and testing equipment, namely, apparatus and instruments for electrical, mechanical and chemical testing of printed circuit boards and assembled units; test and testing equipment, namely, devices for testing of materials for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic contacts, connectors and connector systems, apparatus and instruments for testing of gas, liquids and solids, calibrated measuring devices of partial discharge measurements, voltage, mating cycles, and current-carrying capacity; test and testing equipment for the development and manufacture of contacts, connectors and connector systems; electronic connectors and interface equipment for connecting test and testing equipment; modular and scalable electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections being parts of testing and quality control devices; adapters for electric, electronic, electromagnetic, optical, fiber-optic and opto-electronic connection and networking, including adapters for fluid conduits, including in modular form; hybrid electric, electronic, electromagnetic, optical, fiber-optic and opto-electronic adapters; interchangeable test-adapters (ITA) for mass interconnect systems for testing of printed circuit boards and assembled units; parts, components and accessories of electric, electronic, electromagnetic, optical, fiber-optic and opto-electronic interchangeable test-adapters (ITA), in particular adapter modules for interchangeable test-adapters (ITA), contacts for interchangeable test-adapters (ITA), platforms specially adapted to hold interchangeable test-adapter (ITA) modules, sub-racks for interchangeable test-adapter (ITA) modules; mass interconnects being electric, electronic, electromagnetic, optical, fiber-optic and opto-electronic connector interfaces between test instruments and devices/units under test (D/UUT); electric, electronic, electromagnetic, optical, fiber-optic and opto-electronic mass interconnect panels being electric, electronic, electromagnetic, optical, fiber-optic and opto-electronic connector interfaces between test instruments and devices/units under test (D/UUT), including in modular form; interfaces for detectors; mating fixture components for mass testing, namely, housings for signal, power, high current, high voltage, coaxial,

highspeed data transmission, fiber-optic, air and fluid connections;[electric, electronic, electromagnetic, optical, fiber-optic and opto-electronic adapter panels;] electric, electronic, electromagnetic, optical, fiber-optic and opto-electronic, coaxial, triaxial, signal, high-voltage or low-voltage transmission cables, also used in combination with fluid conduits, including in modular form; modular electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic interconnections for testing, detecting and monitoring; receivers for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic coaxial, triaxial, signal, high-voltage or low-voltage transmission connecting elements and groups of connecting elements, including receivers in modular form; [electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic receivers for mass interconnect systems, including in modular form; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic receiver platforms for mass interconnect systems, including in modular form; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic receiver modules for mass interconnect systems, including in modular form; mounting hardware for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic receivers for mass interconnect systems, including in modular form; mounts specially adapted for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic receivers for interchangeable test adapters (ITA); slides, hinges and rails for mounts specially adapted for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic receivers for interchangeable test adapters (ITA);] electrified rails for use with testing equipment; locking systems comprised of electronic lock assemblies, cables, locking connectors, locking housings, cables and locking sleeves for components of modular connectors; housings for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors and connector systems; housings for test and testing equipment specially adapted for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, receivers, adapters and electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic interfaces for mass interconnect systems; frames specially adapted for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, receivers, adapters and interfaces for mass interconnect systems; frames specially adapted for interface equipment for connecting test and testing equipment; pin-frames, namely, pin-frames for mounting electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic mass interconnect modules; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic socket frames; docking frames for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections; tables, cabinets, racks, platforms, boxes, panels, rails and mounts specially adapted to hold test, testing and electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic control equipment; testing racks specially adapted for mounting and holding electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, receivers and adapters used for testing printed circuit boards and assembled units; mounts specially adapted for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections and interfaces, namely, tables, cabinets, racks, platforms, boxes, panels and rails specially adapted for holding electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections and interfaces; racks, cabinets, mounts, tables and panels specially adapted for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic mass interconnect systems comprised of modular electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, electrical contacts, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic printed circuit board connectors, housings, docking frames and electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic cable assemblies; switch panels being patching panels for housing electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors and electrical switches; splices for electrical transmission lines; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic switch cabinets and electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic switch desks consisting of metal and plastic, for use

in industry, installation, testing, electronics, networking, data processing, interactive terminal systems and data transmission; control cabinets specially adapted for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connection equipment; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic control panels; control units for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic mass testing interconnects; sub-racks specially adapted for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic plug-in units with electronic circuits; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors for measuring, counting, alignment and calibrating instruments; serial and parallel computer ports, electrical, electronic, electromagnetic, optical, fiber-optic and optoelectronic ports, electrical, electronic, electromagnetic, optical, fiber-optic and optoelectronic connection units and cable connectors for measuring, counting, alignment and calibrating apparatuses; [electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections specially adapted for scientific research and educational apparatus and simulators; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections specially adapted for laboratory apparatus and instruments; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections specially adapted for laboratory robots; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections specially adapted for scientific and laboratory devices for treatment using electricity; cables and wires for electricity;] electric cable assemblies; [networking and wiring systems comprised of electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors and electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic cables for multiple electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections;] components of wiring systems, in particular bars for multiple electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections; fiber-optic cables; [telecommunication cables,] fiber-optic and wiring harnesses, electrically conductive cable terminations; collars for wiring not of metal; housings for electrical ground connections and guard shields for high voltage electric cables; accessories for high voltage electric cables for industrial applications, namely, electric connectors, housings, electric rings and clips, cable terminations, cable protective sheaths for high voltage electric cables; components of cabling for improving transmission of signals, particularly electric plates, divider coils, electric blocks, electric brackets, electric wiring ducts, electric rings and clips, housing for power outlets and panels, and overvoltage protector devices; [devices for switching and monitoring electrical power supplies; power terminals, in particular power connectors; electrical power distribution units;] repeating reels for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic wire; terminal electric signal converters, electric signal relays; circuit boards; multi-circuit electrical bands; current distribution components, in particular electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic adaptors for connectors and devices, and electric load-breakers; modules and system components for energy subdistribution [, power supplies, namely, power supply units, electric accumulators; power-supplying apparatus, including uninterruptible power supplies, including in modular form] ; electrochemical systems, namely, high power electrical connectors and cables, high power contactors for battery switching and control, circuit protection devices, power distribution units; multiple electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic plug-in connectors, including in modular form; interfaces, namely, for data processing, data processing apparatus, and machines and/ or units under test (UUT) or devices under test (DUT); [apparatus for linking computers in networks, namely, computer network adaptors, apparatus for protecting computers against electrical power supply problems, namely, power surge protectors; attachment electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic plugs; electrical plug device enabling connection and disconnection of power and/or control cables networks] ; electric contact inserts for plug connectors and modular connectors, anti-kink sleeves for protecting electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic plugs, cables or cable terminations; protective caps for protecting electric, electronic,

electromagnetic, optical, fiber-optic and optoelectronic connectors, plugs and couplings and electric contacts, cable hoods, metal solder tabs for electric connections, contact bushings for use as parts and fittings of electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic contacts in cables, sleeves for electric contact plugs, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic cable fittings, electric resistances, clips for holding electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors; patch panels for housing electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors and cables; accessories for wiring for electrical distribution networks, electrical terminal boxes and electrical junction boxes, namely, electrical terminal blocks and electrical connectors; electrical locking devices for locking electrical connectors; systems for electrical cable harnesses and connectors comprised of electrical wires and cables, connectors, clamps, housings and sleeves; devices for managing cables and electrical lines, namely, clips and reels; plug-in units for sub-racks, namely, electric plug-in cards, bus circuit boards, electric pin and socket connectors; [power supply units;] electrical processing equipment, namely, connectors between wires and boards, boards and boards, cables and boards and cables and cables; electric contact pins and electric sockets of metal; electric contact sleeves of metal; metal housings specially adapted for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections, connectors, interfaces and controls, namely, cabinets, cubicles, closets, boxes and tables; storage racks from metal specially adapted for housing testing equipment, electronics, computers, and interactive terminal systems, and electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connecting, networking and data transmission systems

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Custom manufacture of electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connector systems, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic modular connectors, cabling and wiring systems, housings, and racks and closets for the aforementioned goods; custom manufacture of electrical contacts and sockets; custom manufacture of mass-testing-systems; assembly services in respect of the aforementioned goods being electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connector systems, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic modular connectors, cabling and wiring systems; surface treatment of electric contacts, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic wires, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic cables by means of metal plating, ONIP plating, ONIP-A plating, coating and layer generation; surface finishing of metal articles, namely, of electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors and housings for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Electrical insulation articles and materials, in particular cable hoods, insulation for electric conductors, insulators for cables, insulation articles for use on terminations of electric cables, insulation articles for use on splices of electric cables, insulation articles for use on joints of electric cables, insulation of synthetic material for the thermic protection of connections, insulation for magnet wire; couplings, not of metal for use with industrial hoses; couplings, not of metal for use with hoses for connecting pipes, hydraulic and pneumatic systems; couplings, not of metal for use with hoses for transmission of cooling fluids, protective gases, fuels, lubricants, sterilizing agents and for generating vacuums; rubber products, namely, single wire

seal, seal and cavity plugs, rubber sealing plugs, rubber lines clip; semi-finished goods of silicone or plastic, namely, molds for manufacture of connections and connection components for use in electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connection systems, shock-absorbing articles being shock absorbing rubber buffers for industrial machinery; soldering threads of plastic, stoppers of plastic, insulating sealants and insulating sealing products being non-metal gaskets for use in electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connection systems comprised of electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors and cables

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Hand tools and implements, hand-operated, in particular hand-operated tools for connecting and processing cables, sockets and connectors; hand tools and implements being hand-operated for connecting cables with pin and socket connectors and connector elements; hand-operated extraction tools for extracting contacts, connectors and connector modules; hand-operated extraction tools for insulating elements of contacts, connectors and connector modules; hand tools and accessories and apparatus, included in this class, in particular crimping pliers of metal, hand-operated device to aid with tying and positioning inserts

International Classes 8 - Primary Classes **US Classes** 23, 28, 44 **International Class Title** Hand Tools

For [Scientific and technological services and research and design relating thereto, namely, scientific research, analysis, testing and design in the field of electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors and electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connection systems comprised of electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, cables and related fittings and mass interconnect systems; quality control services for others;] scientific and technological services, namely, scientific analysis and testing of connector systems, control units and wiring systems; monitoring connector systems, control units and wiring systems to ensure proper functioning; inspection of connector systems, control units and wiring systems for quality control purposes and to ensure proper functioning; calibrating services in the field of electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connector systems, control units and wiring systems; material testing [; engineering] * of connector systems, control units and wiring systems * ; product design and development, namely, design and development of interfaces for detectors and electrical connectors for electrical test equipment; advisory and consultancy services in the design and development of electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors and electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connector systems; industrial analysis and research services in the field of electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors and electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connector systems and mass interconnect systems [; technological consultancy concerning design and development of electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connector systems; design and development of new technology for others in the field of electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connector systems and mass interconnect systems; research and development services in the field of testing and measuring technology and electronics; engineering consultancy in the field of measuring technology and electronics; research and development services in the field of medical equipment, apparatus and instruments; engineering consultancy in the field of medical equipment, apparatus and instruments; research and development services in the field of electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors being scientific research, analysis, testing and design for

automotive technology and electronics, e-mobility, robotics and artificial intelligence technology; engineering consultancy in the field of automotive technology and electronics] in the design and development of connectors and connector solutions; technological consultancy concerning design and development of connector solutions

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Connectors of metal being non-electric, namely, spring connectors; plugs, mainly made of metal; non-electric cables and wires of metal; non-electric wire connectors of metal; non-electric cable joints of metal; metal support for cables; couplings of metal for use with industrial metal hoses; couplings of metal for use with hoses for connecting pipes, hydraulic and pneumatic systems; couplings of metal for use with hoses for transmission of cooling fluids, protective gases, fuels, lubricants, sterilizing agents and for generating vacuums; connector components of metal, non-electric, being contact metal connectors, latching connectors, locking connectors and threaded metal connectors for couplings, connectors, interfaces, plugs, sockets, connector jacks, plug-in connectors and other devices for connecting; industrial hoses of metal; hoses of metal for use in couplings, contacts, connectors, interfaces, plugs, sockets, connector jacks, and plug-in connectors for connecting pipes, hydraulic and pneumatic systems; metal hoses for transmission of cooling fluids, protective gases, fuels, lubricants, sterilizing agents and for generating vacuums; components of metal for switch or control cabinets, namely, rack frames for mass interconnect systems, profiles, mounting trays, guide rails, mounting rails, storage trays, drawer trim units, containers, suspended indexes; metal connectors being mountings for cables, non-electric, especially adapted for use in safes; safes; metal mounting devices and auxiliary mounting devices, fixed or moveable, of metal, namely, mounting plates for mass interconnect systems, swivel arms for mass interconnect systems; fastening devices of metal, namely, bearing angles for racks and cabinets for mass interconnect systems; connector panels of metal; platforms, pre-fabricated of metal; modular frames of metal, in particular frames for connections, pin-frames, socket frames, rack frames, docking frames, receiver frames, adapter frames; structural joint connectors of metal

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the wording "ELEMENTA" in stylized white font above four white triangles with a white line going through the middle of the triangles. The entire drawing has a brown background. **Color Drawing** Yes **Color Claimed** The color(s) white and brown is/are claimed as a feature of the mark.

RELATED PROPERTIES INFORMATION

International Registration 1560600 **International Registration Date** Aug. 18, 2020

GOODS AND SERVICES INFORMATION

For Precious metals and their alloys; jewelry, precious and semi-precious stones; timepieces and chronometric instruments **International Classes** 14 - Primary Classes **US Classes** 2, 27, 28, 50 **International Class Title** Jewelry

For Lace trimmings, braids and embroidery, and ribbons and bows for haberdashery; buttons, hooks and eyelets, sewing pins and needles; artificial flowers; hair ornaments, namely, hair barrettes, hair bows, hair clips, hair pins and grips; false hair **International Classes** 26 - Primary Classes **US Classes** 37, 39, 40, 42, 50 **International Class Title** Fancy Goods

For Household and kitchen utensils, namely, pot and pan scrapers, rolling pins, spatulas, turners, whisks, kitchen tongs, strainers, wood chopping blocks, cooking forks, cooking spoons, mixing spoons, serving forks, serving spoons; kitchen containers; cooking utensils and tableware, namely, grills, dishes, drinking glasses, mugs, wine glasses; combs and cleaning sponges; brushes, namely, horse brushes, cleaning brushes for household use, hairbrushes, tooth brushes, and cosmetic brushes; brush-making materials; articles for cleaning purposes, namely, pre-moistened towelettes for cleaning, cleaning mitts of fabric, cleaning cloths, pads for cleaning, metal wool for cleaning, cleaning cotton; unworked or semi-worked glass, except glass used in building; glassware, porcelain and earthenware, namely, beverage glassware, porcelain mugs, earthenware mugs, earthenware basins in the nature of bowls, earthenware floor vases, porcelain flower pots, wall plaques made of glass, porcelain, or earthenware, figurines of glass, porcelain, or earthenware, statuettes of glass, porcelain, or earthenware, decorative centerpieces of glass, porcelain, or earthenware, works of art of glass, porcelain, or earthenware

International Classes 21 - Primary Classes **US Classes** 2, 13, 23, 29, 30, 33, 40, 50 **International Class Title** Housewares and Glass

For Veterinary products, namely, anti-infective products for veterinary use, medicated animal washes, dietary and nutritional supplements for animals, veterinary pharmaceutical compounds for equine use to treat conditions of the leg, hoof, ear, nose and throat; chemical preparations for veterinary use, namely, chemical reagents for veterinary purposes; dietetic foodstuffs for veterinary use; medicated animal foodstuffs, namely, medicated animal feed; anti-parasitic products, namely, preparations for destroying parasites and antiparasitic collars for animals; food supplements for animals; enzymes for veterinary use; lotions for veterinary use; vermifuges

International Classes 5 - Primary Classes **US Classes** 5, 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Backpacks; handbags; sports bags; saddlery; riding saddles; pads for horse saddles; saddlecloths for horses; covers for horse saddles; horseshoes; harnesses for horses; blinders for horses; knee-pads for horses; horse blankets; clothing for animals; unworked or semi-worked leather; imitation leather; trunks being luggage; suitcases; wallets; saddlebags * ; all of the aforementioned goods for use in relation to horses or equestrian sports *
