software, electric transducer, vibrating motor, antenna and lights for the purpose of requesting the dive partner's attention through vibration, sound and illumination; Electronic and optical communications instruments and components, namely, cable television transmitters; Electronic cigar batteries; Electronic cigarette batteries; Electronic control gears (ECGs) for LED lamps and light fixtures; Electronic controller to manage the power, movement and functions of an elevator; Electronic controllers for use with power converters; Electronic controllers used to reduce power consumption; Electronic glass and ceramic fuses for use with any electronic equipment using A/C power; Electronic measuring device that displays a manual wheelchair user's propulsion activity, namely, number of pushes, distance traveled, speed, and cadence; Electronic power supplies for driving electric motors; Electronic recorders for storing and archiving information related to power system faults; Electronic regulating and control devices for the operation of light emitting diodes; Electronic signaling mechanism, namely, a train control system used in the railway industry for detecting and controlling trains, ground faults, broken rails, power failures, track switches and lights; Electronic storage device in the nature of memory media for storing information collected from medical ventilators; Electronic test and measurement devices for use in the fields of networks and telecommunications, namely, instrumentation used to test and certify new and existing data and voice communication cable and coaxial cable; Emergency auto kits comprised of a battery charger and a hand held spotlight; Emergency warning lights; Environmental enclosures, namely, structures specially adapted to hold and protect cameras from outdoor elements and tampering; Ethernet adapters; Ethernet cables; Extension cables; External computer hard drives; Fiber optic cables; Fiber optic light and image conduits; Fibre-optic cables; Fitted plastic films known as skins for covering and providing a scratch proof barrier or protection for electronic devices, namely, MP3 players, mobile telephones, smart telephones, digital cameras, global positioning systems and personal digital assistants; Flash card adapters; Flashing and steady safety lights; Flashing safety light in the form of a pendant for providing visibility for people, inanimate articles, or animals; Flashing safety lights; Flashlights with light emitting diodes for use in photography; Flexible PVC covering specially adapted for electrical cords that is infused with citrus to prevent pet damage; Flip covers for smart phones; Fluorescent lamp ballast for electric lights; Free-space optics transmission systems, Ethernet switches and routers, and software sold both as components thereof and separately, namely, software adapted and arranged for operating, installing, testing, diagnosing and managing the forgoing telecommunication equipment; Galvanic batteries; Gate operators powered by battery, electricity or solar power; Golf club swing aids, namely, target laser and lights; Grids for batteries; Guitar cables; Hand-held security device that disables assailants using flashing light emitting diodes; Hands free devices for mobile-phones; Hands free kits for phones; Hardened units composed of microprocessors and integrated transmitters and receivers installed in the field and on board both mobile and stationary equipment in large scale mining, construction, and industrial operations to collect data from various applications, to transmit the data to central processing facilities, and to receive data transmissions directed to the applications and equipment; Hardware and software adapter for coupling a GPS receiver to the microphone input of a digital camcorder; Head-clip cell phone holders; Headwall gas and electricity distribution units comprising power strips, surge protectors or electrical power distribution apparatus for use in hospital facilities; Helmet safety lights; High definition multimedia interface cables; High frequency mobile and sea-based communication antennas; High tension batteries; High-frequency switching power supplies; Home and office automation systems comprising wireless and wired controllers, controlled devices, and software for lighting, HVAC, security, safety and other home and office monitoring and control applications; Home and office electrical power automation systems comprising wireless and wired controllers, controlled devices, and software for appliances, lighting, HVAC, security and

other home and office electrical power monitoring and control applications; Host bus adapters; Humidity sensor with integrated digital and analog output circuitry used in automotive, appliance and light industrial applications to sense both relative humidity and temperature environmental conditions; Ignition batteries; Indicator lights; Indicator lights for circuit boards; Integrated battery backup systems comprising a battery, an electronic measurement apparatus for use in the measurement of battery health and performance, and a remote computer software program that uses the foregoing data to trend, predict, and store data related to the health of the battery; Integrated computerized system for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information related to chemical analyses; Internet phones; Interoperable communication system designed to provide radio, streaming video, wireless internet, and VOIP phone; Inverters for power supply; Jump start cables; Jumper cables; Junction sleeves for electric cables; Keyboards for mobile phones; Kits comprised primarily of a fire hose and also including a fire nozzle and non-metallic fire hose adapter sold as a unit; Laboratory instruments, namely, radiation devices in the nature of ultraviolet, visible, or infra-red light boxes for the analysis of bodily fluids; Laboratory storage tubes; Laser device for projecting a visible line on a work piece to be cut by a rotary power saw; LED and HID light controls; Lidar; Light diodes; Light directors and photographic lighting tents, all for use with photographic lighting equipment for professional and high-end photography; Light emitting diode (LED) displays; Light emitting diodes (LEDs); Light pens; Light switches; Light systems comprising light sensors and switches; Light-conducting filaments; Light-dependent resistors; Lighting ballasts; Lighting control apparatus; Lighting control panels; Lighting control software for use in commercial and industrial facilities; Lighting controls; Lighting devices for taking pictures; Lighting panel control boards; Lithium ion batteries; Lithium iron phosphate batteries; Lithium phosphate batteries; Low pass inductor filter used in high power electrical applications; Luminous variable/dynamic signs using light emitting diodes and electronic controllers to produce real-time and programmable messages and information displays; Magnetically encoded blank bank cards for issuance by financial institutions; Magnets arranged for converting human effort into mechanical power; Medium voltage power distribution and protection component system composed of breakers and switchgears; Messenger bags especially adapted for holding electronic book readers; Messenger bags especially adapted for holding laptops; Metal cabinets specially adapted to protect telecommunications equipment in the nature of fiber optic cables; Metal depository housing sold empty that is specially adapted to contain photographic and computer components; Metal grounding bushings and metal grounding clamps, both for use only as parts and fittings for coaxial cable, and not for non-electric cable or machinery or machine parts; Metal tower cart with wheels specially adapted for computers; Microphone cables; Microprocessor-based hardware systems used to reduce power consumption; Mineral insulated electric cables; Mobile computers; Mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for collection and management of data; Mobile data receivers; Mobile data terminal (MDT); Mobile or portable fax machines; Mobile radios; Mobile telephone apparatus with built-in facsimile systems; Mobile telephone batteries; Modem cables; Monitoring devices for monitoring battery performance characteristics; Motion sensitive security lights; Motorcycle charger fault detector; Mounts and mounting brackets adapted for audio speakers with swiveling bases therefor; Mounts and mounting brackets adapted for televisions; Nickel-cadmium storage batteries; Occupancy sensors, namely, electronic devices which detect the presence of occupants and control the lighting system accordingly; Optical apparatus and instruments, namely, optical ports for underwater photography, dome ports for underwater photography, wet diopters, adapter lenses for underwater photography; Optical

apparatus, namely, a non-lethal security device that uses a light source to detect, warn, repel, temporarily blind, disorient, nauseate, disable, confuse, debilitate, stun, subdue, stop, or incapacitate persons or animals; Optical cables; Optical fiber cables; Optical fibers sold as a component of fiber optical cables; Optical signaling cables; Overlays specially adapted for touchscreen displays; Pipeline communication systems for transferring data over oil, gas, water and heat distribution pipeline networks, comprised of computer hardware, software, modems and communication cables; Plastic cases specially adapted holding compact discs, DVDs and other electronic media; Plastic molded support base specially adapted to prop up laptop computers; Plates for batteries; Portable detection and identification instruments using light sources and light detectors for detecting and identifying chemical and biological substances not for medical purposes; Portable LED safety lighting devices for personal use for safety purposes; Portable photography equipment, namely, reflectors, tripods, light stands and supports and bags specially adapted for these goods; Portable handheld electronic digital video messengers for recording, storage, transmission or reproduction of visual, audio and data content; Power access port for use with electrical control panels for connecting multiple data and electrical devices; Power adapters for computers; Power amplifiers; Power connectors; Power controllers; Power distributing boxes; Power factor regulator to economize the delivery of electrical power in the nature of a rod containing minerals contained in a PVC tube; Power inverters; Power line conditioners; Power supplies; Power supplies for lights, sirens and public address systems; Power supply connectors and adaptors for use with portable electronic devices; Power switches; Power transformers for amplification; Power wires; Power-line transmission machines and apparatus; Printer cables; Protective carrying cases specially adapted for global positioning system (GPS) apparatus; Protective carrying cases specially adapted for personal digital assistants (PDA); Protective rescue apparatus, namely, fire-resistant child transport bags; Protective rescue apparatus, namely, fire-resistant protective bags; Protective sheaths for fiber optical cables; Public address (PA) and sound system accessories, namely, microphone stands, speaker stands, microphone cables, speaker cables, speaker boxes and sound mixers; Radio receivers and transmitters for monitoring and controlling light emitting diodes in a network of street lights and for processing emergency signals transmitted to individual street lights; Radio relay cables; Radio transmitters, receivers, and controllers for monitoring and controlling public lighting; Receivers for receiving cable television; Renewable battery system to provide backup power; Retinal imaging display device, namely, a device using image projection technology that focuses light onto the retina to create afterimages for the user; Rolling cases especially adapted for holding laptops and notebook computers; Rotating lights; Safety equipment, namely, beacon lights; Security devices, namely, mobile image projection device for displaying retinal images; Security lighting system for vehicles using radio frequency device; Security lights for outdoor use; Semiconductor power elements; Sheaths for electric cables; Solar batteries; Solar recharging battery pack for digital cameras; Solar-powered rechargeable batteries; Solid state light based emissive imagers; Solid state storage, namely, a nonvolatile storage medium that employs integrated circuits; Specially adapted computer input device cover featuring a disinfecting capability; Stands adapted for stereos and audio speakers; Starters for fluorescent lights; Stereo cables; Straps for mobile phones; Strobe light apparatus for use in professional quality photography; Telecommunication cables; Telecommunications cables; Telecommunications equipment, namely, fiber-optic transceivers, fiber optic repeaters, converters and optimizers, wave division multiplexers, free-space optics transmission systems, switches including Ethernet switches and routers, fiber-to-the-home and ethernet-over-VDSL access aggregators, terminators and repeaters, and remote presence management products, namely, switches, and console, alarm, sensor and power management devices; Telematics apparatus, namely, wireless Internet devices which provide telematic services and have a cellular phone function;

Telephone call router, for home and office touchtone phones, for international and long distance calls made from various telephony platforms including VoIP platform without the requirement for internet; Telephone call routers for long distance calls made through PSTN and VoIP platforms from any touchtone phone without a requirement for internet access; Test adapters for testing printed circuit boards; Testing and measuring equipment for use in testing the performance and efficiency of power plant equipment; Thin-film solar (TFS), vertical axis wind turbine (VAWT) and Hybrid TFS VAWT off-grid power and deep cycle battery storage systems composed of batteries, charge controllers and inverters with integrated LED bulbs and LED light fixtures; Threaded cable connectors of metal; Traffic lights; Traffic-light apparatus; Transient voltage surge suppressors with power conditioning technology; Transmitters and receivers for audio and video signals for transmission over twisted pair cables; Uninterruptible electrical power supplies; Video cables; Video phones; Vinyl covers specially adapted for cell phones, MP3 players, laptops, computers, portable satellite radios, personal digital assistants, remote controls, and television satellite recorders; Voice over internet protocol (VOIP) phone adapter; Voltage regulators for electric power; Voltage stabilizing power supply; Wave reflectors for acoustic speakers, lighting apparatus, and air flow devices; Waveguides for high power beam delivery; Wet cell batteries; Wheeled backpacks especially adapted for holding laptops; Wheeled carts specially adapted for AV equipment; Wheeled messenger bags especially adapted for holding laptops; Wireless adapters for computers; Wireless adapters used to link computers to a telecommunications network; Wireless digital electronic apparatus to secure and protect data and images on all forms of wireless equipment including mobile telecommunications equipment using an automatic synchronization process and alarm notification of the loss or theft of the wireless equipment including mobile telecommunications equipment

For Repair of buildings, civil engineering structures, marine engineering structures, aircraft engineering structures, petroleum engineering structures, automotive engineering structures, railway engineering and nuclear engineering structures using bonded assembly, such services not for use in roads and other paths and running surfaces and earthworks; waterproofing of buildings, civil engineering work structures, marine engineering structures, petroleum engineering structures, aeronautical engineering structures, nuclear engineering structures, automotive engineering structures, railway engineering structures; installation of products for packing, stopping, insulating and reinforcing buildings, civil engineering structures, marine engineering structures, petroleum engineering structures, aeronautical engineering structures, automotive engineering structures, nuclear engineering structures, railway engineering structures, such services not for use in roads and other paths and running surfaces, and earthworks; services, namely, repair, reinforcement, maintenance, and demolition of buildings, civil engineering structures, marine engineering structures, petroleum engineering structures, aeronautical engineering structures, automotive engineering structures, nuclear engineering structures, railway engineering structures; construction, reinforcement, maintenance and repair of enclosures, retention basins, reservoirs and silos; supervision of construction, other than for roads and other such paths, running surfaces and earthworks; repair, reinforcement of metal structures, steel structures, wooden structures, masonry structures, concrete structures, other than for roads and other such paths, running surfaces and earthworks; reinforcement of steel structures and metal structures with the aim of protecting them from corrosion, other than structures for roads and other such paths, running surfaces and earthworks, reinforcement of metal structures, steel structures, wooden structures, concrete structures and masonry structures, with the aim of

protecting them against fire, other than structures for roads and other such paths, running surfaces and earthworks; reinforcement of metal structures, steel structures, wooden structures, concrete structures and masonry structures, in order to make them watertight-proof or to seal them, other than structures for roads and other such paths, running surfaces and earthworks

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Rubber, raw gum and products made from these materials, namely, sealing and insulating materials for sealing against liquids and gas; sealing and insulating materials made of semi-processed plastics for sealing against liquids and gas; synthetic resin-based plates designed to insulate and reinforce using bonding technology; binding preparations in the nature of adhesive sealants for sealing against liquids and gas; synthetic fibers as well as structural components thereof in the form of plates, matting, tapes for insulation, sealing and bonding; plastic fibers as well as structural components thereof in the form of plates, matting, and tapes for insulation, sealing and bonding; fiberglass fabrics in an unbleached, coated or processed state, all for insulation, sealing and bonding; sealing and insulating materials based on bituminous or similar products; sealing and insulating materials based on plastic materials or similar products; carbon fiber fabrics for insulation and reinforcement using bonding technology; semi-processed artificial and semi-finished synthetic resins for insulation and reinforcement using bonding technology; synthetic polymer thin film waterproof coatings in the nature of physical insulation for use in sealing against liquids and gas; water-tight rings for plumbing pipes and tanks; sealing and insulating materials

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Technical inspection services in the field of structural bonding and sealing; monitoring for quality control purposes of buildings, civil engineering structures, marine engineering structures, petroleum engineering structures, aeronautical engineering structures, nuclear engineering structures, automotive engineering structures, railway engineering structures, other than road works, earth works and running surface works; research and development of new products and services for others; research and development of prototypes; engineering services in the field of construction, other than earthworks and road engineering; engineering and technical engineering consulting relating to the repair, reinforcement and protection of metal structures, steel structures, wooden structures, masonry structures and concrete structures, other than for roads and other such paths, running surfaces and earthworks; engineering services and technical engineering consulting with regard to waterproofing, sealing, fire protection for buildings, civil engineering structures, marine engineering structures, petroleum engineering structures, aeronautical engineering structures, automotive engineering structures, nuclear engineering structures, railway engineering structures, other than road works, earth works and running surface works; engineering and technical engineering consulting in construction, other than for road construction and civil engineering works, running surface works and earthworks, engineering and technical engineering consulting services for all of the following products, namely, rubber, gum and products made from these materials and not included in other classes, for sealing against liquids and gas, processed plastic products for sealing against liquids and gas, resin-based plates designed to insulate and reinforce using bonding technology, binding preparations for sealing against liquids and gas, synthetic fibers and components thereof, in the form of plates, matting, tapes for insulation, sealing and bonding, plastic fibers and

components thereof, in the form of plates, matting, tapes for insulation, sealing and bonding, unprocessed, coated or treated glass fiber fabrics for insulation, sealing and bonding, sealing preparations based on bituminous or similar products, sealing products based on plastic materials or similar products, carbon fiber fabrics for insulation and reinforcement using bonding technology, artificial and synthetic resins as semi-finished products for insulation and reinforcement using bonding technology, waterproof coatings, water-tight rings, sealing and insulating fittings
