information posted to use net newsgroups and discussion groups via a global computer network; Electronic voice messaging, namely, the recording and subsequent transmission of voice messages by telephone; Electronic, electric, and digital transmission of voice, data, images, signals, and messages; Encrypted electronic transmission and delivery of recovered data; E-mail data services; E-mail forwarding service, namely, e-mail transmission services; Facsimile communication; Facsimile transmission and retrieval services; Facsimile transmission; Fixed and mobile telephone services; High bit-rate data transmission services for telecommunication network operators; Hosted PBX services; Information about telecommunication; Information transmission by telematic codes; Information transmission by teletypewriters; Information transmission services via digital networks; Information transmission via electronic communications networks; Instant messaging services; Interactive delivery of video over digital networks; International telephone services; Internet access provider services; Internet based paging and alerting services, namely, providing a web site at which users can send messages to electronic paging devices; Internet broadcasting services; Internet cafe services, namely, providing telecommunications connections to the Internet in a cafe environment; Internet protocol television (IPTV) transmission services; Internet radio broadcasting services; Internet radio services, namely, transmission of audio material via the Internet; Internet service provider (ISP); Internet service provider services; Internet services, namely, providing multiple-user access to information on the Internet concerning the development and generation of computer software for use in businesses as well as the functions and application of such business software; Internet telephony services; Interstate telephone services; Intrastate telephone services; Leasing commercial fixed wireless spectrums; Leasing of telecommunications lines; Leasing of telephone sets, facsimile and other communication equipment; Local and long distance telephone services; Long distance telephone communication services; Message collection and transmission; Message sending and receiving services; Message sending via a website; Message sending, receiving and forwarding, namely, transmission services; Mobile media services in the nature of electronic transmission of entertainment media content; Mobile radio communication; Mobile radio telephone services; Mobile telephone communication; Mobile telephone services; Mobile telephony; National and international telephone calling plan services; Network conferencing services; News agencies, namely, the transmission of news items to news reporting organizations; News agency services for electronic transmission; On-line document delivery via a global computer network; On-line services, namely, message sending; On-line title document delivery; Out call notification services; Paging by radio; Paging services; Pay-per-view television transmission services; PBX dialing services; Peer-to-peer network computer services, namely, electronic transmission of audio, video and other data and documents among computers; Peer-to-peer photo sharing services, namely, electronic transmission of digital photo files among Internet users; Philanthropic services in the area of donations of wireless telephones and wireless telephone airtime to victims of domestic violence and domestic violence advocacy groups and organizations; Pod casting services; Prepaid local and long distance telephone services; Prepaid long distance telephone services; Providing a high speed access to area networks and a global computer information network; Providing a web site for synchronous and asynchronous communication and for connection of physicians with their patients regardless of medical organization or geographic location; Providing access to telecommunication networks; Providing access to digital music websites on the Internet; Providing access to databases; Providing access to the Internet; Providing access to an electronic exchange of medical records across a nationwide health information network; Providing an electronic bulletin board for transmission of messages between computer users posting questions and students posting

answers to those questions; Providing an on-line forum for trading virtual real estate; Providing an on-line forum for virtual vehicle customization; Providing chat lines utilizing the Internet; Providing co-location services for voice, video and data communications applications; Providing electronic telecommunication connections; Providing electronic transmission of credit card transaction data and electronic payment data via a global computer network; Providing electronic transmission of information to persons who are deaf or hearing impaired via the Internet, telephones and wireless devices; Providing e-mail and instant messaging services; Providing e-mail fax services; Providing e-mail services; Providing facilities and equipment for video conferencing; Providing facilities and equipment for telepresence conferencing; Providing frame relay connectivity services for data transfer; Providing Internet access; Providing Internet chat rooms; Providing Internet chat rooms; Providing multiple use access to global computer information networks for the transfer and dissemination of a wide range of information; Providing multiple user dial-up and dedicated access to the Internet; Providing multiple user access to proprietary collections of information by means of global computer information networks; Providing multiple user wireless access to the Internet; Providing on-line chat rooms for social networking; Providing on-line communications links which transfer the web site user to other local and global web pages; Providing on-line facilities for real-time interaction with other computer users and electronic bulletin boards concerning topics of interest relating to dogs; Providing on-line forums for transmission of messages among computer users; Providing private and secure real time electronic communication over a computer network; Providing remote Internet access; Providing technical support services regarding the usage of communications equipment; Providing telecommunication access to libraries related to the management of electronic journals and similar materials in a manner appropriate for loading and automatically updating their local computer systems used for managing electronic resources; Providing telecommunication connections to the Internet or databases; Providing telecommunications connections to the Internet or databases; Providing telecommunications connections to a global computer network; Providing telecommunication channels for teleshopping services; Providing telecommunication connectivity services for transfer of images, messages, audio, visual, audiovisual and multimedia works; Providing telephone conferencing services; Providing temporary access to a supercomputer for the purpose of running software programs; Providing third party users with access to telecommunication infrastructure; Providing user access to a global computer network; Providing user access to computer programmes in data networks; Providing virtual chat rooms established via text messaging; Providing virtual private network (VPN) services, namely, private and secure electronic communications over a private or public computer network; Providing virtual private network (VPN) services; Providing voice chat services; Providing voice communication services via the Internet; Provision of access to data or documents stored electronically in central files for remote consultation; Provision of access to electronic sites; Provision of access to the Internet; Provision of access to a global computer network; Provision of in-home PBX (private branch exchange) services; Provision of online forums for users for the sharing and transmission of information and electronic media concerning environmental matters; Provision of video conferencing services; Provision of voice short message services (VSMS); Radio and television broadcasting services; Radio and television programme broadcasting; Radio broadcasting; Radio broadcasting consultation; Radio broadcasting information; Radio broadcasting of information and other programs; Radio communication; Radio program broadcasting; Radio programme broadcasting; Radio, telephone, telegraph communication services; Radio-paging; Radio/telephone paging services; Rental of access time to global computer networks; Rental of apparatus for transmitting images; Rental of cellular telephones; Rental of communication apparatus and implements; Rental of equipment for broadcasting; Rental of equipment for

telecommunications; Rental of facsimile apparatus; Rental of modems; Rental of set-top boxes for use with televisions; Rental of telecommunication equipment including telephones and facsimile apparatus; Rental of telecommunications lines; Rental of telecommunications apparatus and installations; Rental of telecommunications apparatus; Rental of telecommunication equipment; Rental of telecommunication facilities; Rental of telephone booths; Rental of telephones; Rental of teleprocessing and computer communication apparatus and instruments; Satellite communication services; Satellite television broadcasting; Satellite transmission of messages and data for navigation by air; Satellite transmission services, television and radio broadcasting services; Satellite transmission services; Satellite transmission; Satellite, cable, network transmission of sounds, images, signals and data; Secure e-mail services; Sending of telegrams; Signal transmission for electronic commerce via telecommunication systems and data communication systems; Simulcasting broadcast television over global communication networks, the Internet and wireless networks; Singing telegram services; Streaming of audio material on the Internet; Streaming of audio, visual and audiovisual material via a global computer network; Streaming of video material on the Internet; Subscription television broadcasting; Telecommunication access services; Telecommunication consultation in the nature of technical consulting in the field of audio, text and visual data transmission and communication; Telecommunication services, namely, local and long distance transmission of voice, data, graphics by means of telephone, telegraphic, cable, and satellite transmissions; Telecommunication services, namely, network traffic routing of electronic trading orders between mercantile exchanges or exchanges to reduce packet latency; Telecommunication services, namely, providing access to pictures, video, alarm status, building plans and other building and security information at a remote station; Telecommunication services, namely, transmission of pod casts; Telecommunication services, namely, transmission of webcasts; Telecommunication services, namely, call hunting; Telecommunication services in the field of providing long distance service with audio advertising for others as a component of the long distance service; Telecommunication services, namely, transmission of voice, data and documents, in the field of environmental protection; Telecommunication services, namely, transmission of voice, data and documents, in the field of air traffic control, aeronautical and aircraft navigation, aeronautical telecommunications, and aeronautical information; Telecommunication services, namely, transmission of voice, data and documents, in the field of search and rescue operations and fire fighting operations; Telecommunication services in the nature of providing telephone services with various telephone features, namely, a dedicated toll-free number, voicemail, multiple mailbox extensions, telephone message notification, fax capabilities, detailed call reports, call waiting, call identification, call forwarding, and message waiting; Telecommunication services, namely, providing advanced calling features, namely, providing the ability to record voice memos after a telephone call by leaving a message that will be recorded separately and saved online as a file which can then be emailed, shared or kept private based on the user settings; Telecommunication services, namely, local and long distance transmission of voice, data, graphics and video by means of broadband optical or wireless networks; Telecommunication services, namely, providing Internet access via broadband optical or wireless networks; Telecommunication services, namely, local and long distance transmission of voice, data, graphics and video by means of broadband, copper and optical or wireless networks; Telecommunication services, namely, wireless telephone services; Telecommunication services in the nature of providing telephone features, namely, call waiting, call identification, call forwarding, and message waiting; Telecommunication services, namely, transmission of voice, data, graphics, sound and video by means of broadband power line or wireless networks; Telecommunication services, namely, providing advanced

calling features; Telecommunication services, namely, transmission of voice, data, graphics, images, audio and video by means of telecommunications networks, wireless communication networks, and the Internet; Telecommunication services, namely, providing advanced calling features, namely, changing one's caller ID, recording calls, changing the sound of one's voice over the phone, and straight-to-voicemail calls; Telecommunication services, namely, providing advanced calling features, namely, providing an international calling function to easily place international calls; Telecommunication services, namely, providing electronic message alerts via the Internet; Telecommunication services, namely, providing e-mail notification alerts via the Internet of rating changes that affect financial portfolios; Telecommunication services, namely, providing e-mail notification alerts via the Internet notifying vehicle owners of timing of vehicle maintenance; Telecommunication services, namely, providing electronic message alerts via the Internet notifying individuals of a changed status or condition of a sensing device in a security system; Telecommunication services, namely, providing e-mail notification alerts via the Internet; Telecommunications by e-mail; Telecommunications consultation; Telecommunications gateway services; Telecommunications routing and junction services, namely, gateway services; Telecommunications reseller services, namely, providing long distance telecommunication services; Telecommunications reseller services for businesses, namely, providing long distance telecommunication services, voice telecommunication services, local telephone service, and Internet access services; Telecommunications services, namely, ISDN services; Telecommunications services, namely, personal communication services; Telecommunications services, namely, routing calls to local third-party taxi-cab dispatchers in the vicinity of the caller; Telecommunications services, namely, providing toll-free mnemonic telephone numbers; Telecommunications services, namely, providing prepaid minutes for use on cell phones abroad; Telecommunications services, namely, providing fiber optic network services; Telecommunications services, namely, intercepting and preventing unsolicited calls from telemarketers; Telecommunications services, namely, wireless telephony and wireless broadband communications services for the transmission of voice and data; Telecommunications services for providing multiple-user access to a global computer network; Teleconferencing and video conferencing services; Teleconferencing and telepresence communication services offered by means of a kiosk; Teleconferencing services; Telegram transmission; Telegram transmission and communication; Telegraph services; Telematic sending of information; Telephone call completion services for directory assistance customers; Telephone communications; Telephone communication services; Telephone relay services using on-screen video; Telephone services and teletext services; Telephone telecommunications services provided via prepaid telephone calling cards; Telephone voice messaging services; Telephony communication services; Telepresence conferencing services; Telepresence services; Teleprinting; Teletext services; Television and radio broadcasting services; Television broadcasting; Television broadcasting information; Television broadcasting consultation; Television programme broadcasting via cable; Television programme broadcasting; Television transmission services; Text and numeric wireless digital messaging services; Text messaging services; Ticker tape services; Transfer of data by telecommunication; Transfer of data by telecommunications; Transmission and distribution of data or audio visual images via a global computer network or the Internet; Transmission and reception, namely, transmission of database information via the telecommunication network; Transmission and receiving by radio; Transmission of data by teletypewriter; Transmission of data, sound and images by satellite; Transmission of database information via telecommunications networks; Transmission of digital files; Transmission of greeting cards online; Transmission of information and images relating to pharmaceuticals, medicine and hygiene; Transmission of information by data communications for assisting decision making; Transmission of information by

electronic communications networks; Transmission of information by teletypewriter, by satellite; Transmission of information in the audiovisual field; Transmission of information on optical telecommunication networks; Transmission of information through video communication systems; Transmission of information via a teleprinter; Transmission of information via computers connected to the same telematic network; Transmission of information via national and international networks; Transmission of information via teletypewriter; Transmission of messages over electronic media; Transmission of messages; Transmission of news; Transmission of radio and television programmes by satellite; Transmission of SDI-formatted television and audio signals over fiber optic cables; Transmission of short messages; Transmission of sound and vision via satellite or interactive multimedia networks; Transmission of sound, picture and data signals; Transmission of sound, video and information; Transmission of sound, video and information from web cams, video cameras or mobile phones, all featuring live or recorded materials; Transmission of stock market information with the help of telecommunication media; Transmission of telegrams; Transmission services via the Internet, featuring MP3 files and music videos; Transmission, reception and processing of coded and emergency signals; Video broadcasting; Video broadcasting and transmission services via the Internet, featuring films and movies; Video broadcasting services via the Internet; Video broadcasting services over the Internet or other communications network featuring the uploaded, posted and tagged videos of others; Video broadcasting services over the Internet or other communications network, namely, electronically transmitting video clips; Video conferencing services; Video narrow casting services; Video on demand transmissions; Video streaming services via the Internet, featuring independent films and movies; Video teleconferencing; Video telephone services; Video transmission over digital networks; Video text services; Video-on-demand transmission services; Video-on-demand transmission services via the Internet; Virtual chat rooms established via text messaging; Voice mail services; Voice over Internet protocol (VOIP) services; Voice over IP services; Voicemail services; Voice-activated dialing services; Web casting services; Web conferencing services; Web messaging; Web casting services; Wireless broadband communication services; Wireless broadcasting; Wireless communications services, namely, transmission of graphics to mobile telephones; Wireless digital messaging services; Wireless electronic transmission of voice signals, data, facsimiles, images and information; Wireless PBX services; Wireless telephone telecommunications services, namely, wireless mobile telephone calling plans; Wireless voice mail services; Worldwide switched text and message transmission services

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Computer programming services, namely, content creation for virtual worlds and three dimensional platforms; Computer programming and computer system analysis;Computer programming and maintenance of computer programs; Computer programming and rental of computer programs;Computer programming and software design;Computer programming of computer games;Computer programming of video games;Computer programming services for customers that enables the customer's digital devices to process natural language queries from end users;Computer programming services for commercial analysis and reporting;Computer programming;Computer programming services for creating augmented reality videos and games;Computer programming consultancy;Computer programming services for others in the field of software configuration management;Computer project management services in the field of telecommunications; Computer project management services;Computer security consultancy;Computer security consultancy in the field of

scanning and penetration testing of computers and networks to assess information security vulnerability;Computer security service, namely, hard drive erasure;Computer security service, namely, restricting access to and by computer networks to and of undesired web sites, media and individuals and facilities;Computer security services, namely, enforcing, restricting and controlling access privileges of users of computing resources for cloud, mobile or network resources based on assigned credentials;Computer services in the nature of customized web pages and other data feed formats featuring user-defined information;Computer services, namely, data recovery services;Computer services, namely, hosting on-line web facilities for others for organizing and conducting online meetings, gatherings, and interactive discussions;Computer services, namely, redirecting electronic mail to changed personal electronic address;Computer services, namely, designing and implementing web sites for others;Computer services, namely, providing search engines for obtaining data on a global computer network;Computer services, namely, interactive hosting services which allow the users to publish and share their own content and images on-line;Computer services, namely, filtering of unwanted e-mails;Computer services, namely, providing virtual and non virtual application servers, web servers, file servers, co-location servers, load balancing servers, redundancy servers, media servers and database servers of variable capacity to third party computing and data storage facilities;Computer services, namely, on-line scanning, detecting, quarantining and eliminating of viruses, worms, trojans, spyware, adware, malware and unauthorized data and programs on computers and electronic devices;Computer services, namely, database development services, namely, configuration and customization of computer databases containing information regarding public health care eligibility;Computer services, namely, providing an interactive web site featuring technology that allows users to consolidate and manage social networks, accounts, and connections to existing and emerging application programming interfaces (APIs);Computer services, namely, providing an interactive web site featuring technology that allows users to create their own books;Computer services, namely, providing an interactive web site featuring technology that allows users to collect, store, manage, deliver and showcase electronic and paper-based content;Computer services, namely, creating, maintaining, designing and implementing web sites for others;Computer services, namely, encrypted data recovery services;Computer services, namely, operating computer systems and computer networks featuring broadband transmission and energy transmission software for public utilities and others;Computer services, namely, electronic detection of plagiarized content;Computer services, namely, integration of computer software into multiple systems and networks;Computer services, namely, remote management of the information technology (IT) systems of others;Computer services, namely, on-site management of information technology (IT) systems;Computer services, namely, designing and implementing web pages for others;Computer services, namely, creating computer network-based indexes of information, websites and resources;Computer services, namely, internet protocol address management;Computer services, namely, monitoring, testing, analyzing, and reporting on the Internet traffic control and content control of the web sites of others quality control;Computer services, namely, monitoring and reporting on the performance, availability, and errors of web sites of others quality control;Computer services, namely, monitoring the web sites of others to improve their scalability and performance quality control;Computer services, namely, providing customized web pages featuring user-defined information;Computer services, namely, hosting on-line interactive public calendars that allow multiple participants to share event schedules and facility reservations;Computer services, namely, computer system administration for others;Computer services, namely, managing web sites for others;Computer simulation based on computer programs for others;Computer site design;Computer software consultation;Computer software consulting;Computer software consultancy;Computer software design for others;Computer software design, computer

programming, and maintenance of computer software;Computer software development in the field of mobile applications; Computer software design;Computer software development in the field of freight transportation by truck, rail, air and ocean;Computer software development and computer programming development for others;Computer software design and updating;Computer software development;Computer software installation and maintenance;Computer software rental; Computer system design services;Computer systems analysis;Computer systems integration services;Computer technical support services, namely, 24/7 service desk or help desk services for IT infrastructure, operating systems, database systems, and web applications;Computer technology support services, namely, help desk services;Computer time-sharing services; Computer virus protection services;Computer website design;Computer-aided design services;Computer-aided engineering services for others;Conducting chemical surveys, namely, strength and chemical testing of cementitious materials, asphalt and aggregates;Consulting in the field of configuration management for computer hardware and software;Consulting services in the field of office and workplace automation;Consulting services for others in the field of design, planning, and implementation project management of computer software development;Consulting services in the field of computer-based information systems for businesses;Consulting services in the field of providing online, non-downloadable software and applications;Consulting services in the field of hosting computer software applications;Consulting services in the field of home automation;Consulting services, namely, designing, creating, implementing and maintaining computer software for owners, managers and other personnel to set-up, open, operate and manage a commercial climbing facility;Creating and designing web pages for others;Creating and maintaining web sites for others;Creating and maintaining internet sites for others;Creating and maintaining weblogs for others;Creating and maintaining blogs for others;Creating home pages for others;Creating of computer programs;Creating of home pages for computer networks;Creating web pages for others; Creating, designing and maintaining web sites;Creating, maintaining, and modernizing computer software;Creation and maintenance of web sites for others;Creation of control programs for automated measurement, assembly, adjustment, and related visualisation;Creation, design, development and maintenance of Web sites for third parties;Cross-platform conversion of digital content into other forms of digital content;Customizing computer software;Data decryption services; Data migration services;Data mining;Data warehousing;Database design and development;Database development services; Debugging computer software for others;Design and development of computer-modeled versions of human beings using computer animation for use in movies, television, internet and other applications;Design and development of computer-modeled versions of human beings using computer animation for use in movies, television, internet, games and other applications;Design and development of software and hardware for producing, recording and processing digital and analogue signals;Design and development of software and hardware for signal amplification and transmission;Design and development of software and hardware for audio and video operators;Design and development of software and hardware for compression and decompression of multimedia contents;Design and development of software and hardware for data and multimedia content conversion from and to different protocols;Design and development of software and hardware for digital signal processing;Design and development of software and hardware for multimedia data storing and recalling; Design and development of software and hardware for processing and distribution of multimedia contents;Design and development of backup and entry solutions used in the manufacturing of printed circuit boards;Design and development of films and sheets used in the manufacturing of printed circuit boards;Design and development of computer hardware for the manufacturing industries;Design and development of computers and programs for computers;Design and development of

computer software;Design and development of computer hardware;Design and development of wireless computer networks;Design and development of computer hardware and software;Design and development of wireless communication systems for transmission and reception of voice, data and video;Design and development of electronic data security systems;Design and development of visualization technologies for advertisement of real-estate, commercial product and business of others;Design and development of computer software for the improvements of purchasing functions of business;Design and development of automated home controller systems, namely, temperature, humidity, and electrical controllers;Design and development of home security systems;Design and implementation of software and technology solutions for the purpose of product and document authentication and tracking, and brand monitoring and protection, to protect against counterfeiting, tampering, and diversion, and to ensure the integrity of genuine products and documents;Design and writing of computer software;Design of computer hardware, integrated circuits, communications hardware and software and computer networks for others;Design of computer machine and computer software for commercial analysis and reporting;Design of computers;Design of computers for others;Design of telecommunications apparatus and equipment;Developing and hosting a server on a global computer network for the purpose of facilitating e-commerce via such a server;Developing and updating computer software;Developing computer programs for electronic cash register systems;Developing computer software;Development of computer hardware for computer games; Development, design and updating of home pages;Development, maintenance and updating of a telecommunication network search engine;Development, updating and maintenance of software and database systems;Displaying the web sites and images of others on a computer server;DNA analysis services for scientific research purposes;DNA analysis services to determine paternity;DNA screening for scientific research purposes;Document data transfer from one computer format to another;Information technology IT consulting services;Innovation consulting services, namely, advising others in the areas of product development;Installation and maintenance of Internet access software;Installation and maintenance of computer software;Installation and repair of computer software, including mobile performance of such services on customer premises;Installation of computer software;Installation, maintenance and repair of cell phone related software;Installation, maintenance and repair of computer software;Installing computer programs;Integration of computer systems and networks; Internet Protocol (IP) address verification services;Internet-based application service provider, namely, hosting, managing, developing, analyzing, and maintaining the code, applications, and software for web sites of others;Internet-based service for the secure electronic storage of multi-lingual documents featuring an ability to track and report all user interactions with the service;IT consulting services;IT integration services;Leasing of computer programs;Leasing of computers;Leasing of user-programmable robots;Maintenance of computer software;Maintenance of on-line databases for others;Maintenance of software for Internet access;Maintenance of websites and hosting on-line web facilities for others;Managing web sites for others;Mobile media services in the nature of electronic storage of entertainment media content;Monitoring of commercial and industrial sites for detection of volatile and non-volatile organic compounds;Monitoring of computer systems by remote access to ensure proper functioning;Monitoring the computer systems of others for technological purposes and providing backup computer programs and facilities;Online computer services, namely, providing spam filtering services to protect websites and online applications from receiving unsolicited messages;On-line batch computer services, namely, configuration of multiple files into a single group;On-line web site that enables the management of print systems of others by providing technical maintenance and performance reports based on data provided by users;Planning and development of electronic communications networks;Planning, design and implementation of computer technologies for others;Planning,

design and management of information technology systems;Planning, design, development and maintenance of online websites for third parties;Preparation, update, installation and maintenance of computer software;Processing of video data, namely, interpreting video content and identifying segments that contain predefined key events;Professional computer services, namely, network analysis, LAN/WAN design, wireless engineering, virtualization and computer project management;Programming of computer software for others;Programming of multimedia applications;Programming of multimedia equipment;Providing a secure, web-based service enabling individuals to remotely create and manage their own accounts so that whatever private content they upload now can be encrypted, then delivered to their intended recipients, at the time and in the manner requested;Providing a social networking website which features technology that enables users to give charitable financial gifts to others;Providing a web site featuring technology that enables internet users to develop individual playlists that create personalized TV viewable channels from favorite web sites for independent or simultaneous viewing or sharing of channels;Providing a web site featuring technology that enables users to create a chronological schedule of events;Providing a web site featuring technology that enables users to evaluate past electrical usage, measure a property's solar potential, develop an estimate of financial gain from installing solar, seek bids from a network of local contractors, assess financing options, and solicit financing;Providing a web site featuring technology that enables users to request and record ideas, suggestions, and comments from other users in any field of business or general interest;Providing a web site featuring technology that enables internet users to submit comments of personal recognition; Providing a web site featuring technology that enables internet users to create, bookmark, annotate, and publicly share fitness-related data, as well as providing health and fitness professionals with a subscription-based client management system;Providing a web site that gives computer users the ability to upload and share user-generated videos, essays and articles on a wide variety of topics and subjects;Providing a web site featuring technology that enables users to present products, services, and proposals to others for comment, and gather feedback from those others about those products, services, and proposals;Providing a web site featuring software that enables shippers of freight using truck, rail, ocean or air transportation to select routes and carriers, to communicate with carriers, and to manage pickup and delivery of shipments;Providing a web site featuring technology that enables internet users to create, bookmark, annotate, and publicly share data;Providing a web site featuring temporary use of non-downloadable software allowing web site users to upload, post and display online videos for sharing with others for entertainment purposes;Providing a web site that features information on computer technology and programming;Providing a web site featuring technology that enables companies and organizations to administer and manage employee incentive award programs and to promote employee productivity, performance, recognition and morale;Providing a web site that gives computer users the ability to upload, exchange and share photos, videos and video logs;Providing a web site featuring information about global warming and its effect on nature and the environment;Providing a web site featuring temporary use of non-downloadable software allowing web site users to upload on-line videos for sharing with others for entertainment purposes;Providing a web site featuring technology that enables internet users to share documents, images and videos;Providing a web site featuring technology enabling physicians to access resources in clinical medicine;Providing a web site that features information on beach science; Providing a web site that gives computer users the ability to upload and share video-based scientific protocols and other scientific-based videos;Providing a web site that gives multiple computer users simultaneously the ability to upload, create and edit documents, printed publications, online publications, photographs, product packaging and advertisements;

Providing a web site featuring technology that enables internet users to book travel;Providing a web site allowing users to upload on-line videos for sharing with others for motivational and inspirational purposes;Providing a web site that gives computer users the ability to upload and share videos providing inspiration and motivation for women;Providing a website that gives users the ability to review various print, photographic, graphic image, and audio and video content and utilize a custom template to provide input, likes, dislikes, edits, changes, modifications, opinions, suggestions, and comments and engage in social, business and community networking;Providing a website that gives users the ability to create customized web pages featuring user-defined profiles;Providing a website featuring technology that enables subscribers to transfer files to and from a file transfer protocol server;Providing computer programming services to customers that enables the customer's website to process natural language queries;Providing computer programming services to customers that enables them to provide video and audio content on their web sites;Providing customized computer searching services, namely, searching and retrieving information at the customer's specific request via the Internet;Providing graphic and multimedia design services for the purpose of promoting the goods and services of others;Providing information on computer technology and programming via a web site;Remote online backup of computer data;Rental and maintenance of computer software;Rental of a database server (to third parties);Rental of application software;Rental of computer hardware;Rental of computer hardware and computer software;Rental of computer hardware and computer peripherals; Rental of computer software;Rental of computer software and programs;Rental of computer software, data processing equipment and computer peripheral devices;Rental of computers;Rental of computers relating to computer security and prevention of computer risks;Rental of computers and software;Rental of software for Internet access;Rental of space in a computer co-location facility for containerized data centers of others;Rental of web servers;Rental services relating to data processing equipment and computers;Renting computer software;Research and development of computer software; Research and development of new products;Research in the field of intelligence and security technology;Satellite telecommunications technology service to allow efficiencies of the carrier by creating efficient use of bandwidth on a satellite transponder;Scientific and technological services, namely, research and design in the field of integrated system architecture that allows for the rapid development of highly interactive and customizable learning applications;Searching and retrieving information, sites, and other resources available on computer networks for others;Server hosting;Services for maintenance of computer software;Services for renting computers;Services for reproducing computer programs;Services for updating computer software;Software design and development;Technical consulting services in the fields of datacenter architecture, public and private cloud computing solutions, and evaluation and implementation of internet technology and services;Technical support services, namely, troubleshooting of industrial process control computer software problems; Technical support services, namely, troubleshooting of computer software problems;Technical support services, namely, remote and on-site infrastructure management services for monitoring, administration and management of public and private cloud computing IT and application systems;Technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems;Technical support services, namely, technical administration of servers for others and troubleshooting in the nature of diagnosing server problems;Technical support services, namely, 24/7 monitoring of network systems, servers and web and database applications and notification of related events and alerts; Technical support services, namely, remote administration and management of in-house and hosted datacenter devices, databases and software applications;Technical support services, namely, installation, administration, and troubleshooting of web and database applications;Technical support services, namely, migration of datacenter, server and database

CASE IDENTIFIERS

Serial Number 86258672 **Application Filing Date** Apr. 22, 2014 **Register** Principal **Mark Type** Trademark **Publication Date** Aug. 25, 2015

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the three-dimensional configuration of a bottle seen from multiple views: the cap and upper neck of the bottle are red, with the words "IT'S PADDY'S ROUND!" in white on both front and back. Below that is a white band surrounding the neck of the bottle with a thin gold stripe toward the top and bottom. On this white band, a red diagonal band runs from upper right to lower left around most of the neck bearing the word "PADDY" in white stylized script; above the red diagonal band to the left of the word "PADDY" are the words "ESTD 1779" in black on white; below the red diagonal band to the right of the word "PADDY" are the words "THE" in black print, "SOFT & MELLOW" in black script and "IRISH WHISKEY" in red print. At the top front of the bottle, just below the point where the neck joins the shoulder, is the word "PADDY" in stylized script embossed in the glass; this wording is also visible from the top of the bottle. Below this is a white label with eight sides that is taller than it is wide. A gold border extends around all sides of the label except the lower right corner which is covered by a red diagonal band bearing the stylized wording "THE PADDY FLAHERTY BRAND" in white. At the top of the label is the wording "TRIPLE DISTILLED" in black script, and below that, the word "PADDY" in large black letters, and below that,

"IRISH WHISKEY" in red, and below that, "ESTD 1779" in black. At the center of the white label is a map of Ireland, divided into four sections: the top portion green, the bottom portion blue, the left portion red and the right portion yellow. To the left of the map is the wording "BLENDED TO PERFECTION WITH TRIPLE DISTILLED POT STILL, MALT AND GRAIN WHISKEYS AND MATURED" in black, and to the right of the map is the wording "FOR MANY YEARS IN OAK CASKS, PADDY IS A SOFT AND MELLOW WHISKEY WITH A SWEET, MALTY FINISH" in black. Extending to the left and right from behind the map, and behind the wording, are stalks and leaves of grain in cream. Below the map is the wording "MATURED IN OAK IN IRELAND" in black. At the bottom of the white label is a cream-colored, horizontal rectangle with semi-circular indentations at the corners; the lower right side of the rectangle is covered by the red band. At the top of this rectangle is the wording "DISTILLED & BOTTLED BY CORK DISTILLERIES CO. LTD." In black with a horizontal double black line below it, and below that the words "BLEND POT STILL, GRAIN & MALT" in black to the left and "RECIPE PF07810000" in black to the right, the two wordings separated by a black vertical line. Below that is a horizontal single black line, and the wording "APPROVED BY" in black and the signature "JAMES MURPHY" in blue, with a horizontal double black line below. At the bottom of the front of the bottle are the words "PRODUCT OF IRELAND" embossed in the glass. Running vertically up both sides of the bottle is the word "PADDY" embossed in the glass in large-sized lettering. On the back of the bottle is a white label with eight sides that is taller than it is wide. At the top of the label is the wording "TRIPLE DISTILLED" in black script, and below that, the word "PADDY" in large black letters, and below that, "IRISH WHISKEY" in red, and below that, "ESTD 1779" in black. Diagonally across the center of the label from lower left to upper right are the words "THE" in gray print, "PADDY FLAHERTY" in gray stylized script, and just below those words, "BRAND" in gray print. Near the bottom of the label is a horizontal red band with a bar code underneath. Across the wrapping over the round cap of the bottle is the word "PADDY" in white lettering, and around the edges of the cap above the word "PADDY"are the words "TRIPLE DISTILLED", and below are the words "IRISH WHISKEY". The broken lines depicting the outlines of the bottle and cap, and the wedge-shaped indentation at the bottom front of the bottle, are not a part of the mark and serve only to show placement of the mark. The gold color of the bottle is merely to show the level of the liquid, and is not claimed as a feature of the mark. **Color Drawing** Yes **Color Claimed** The color(s) gold, black, white, red, blue, green, yellow, cream and gray is/are claimed as a feature of the mark. **Disclaimer** "ESTD 1779, SOFT & MELLOW, TRIPLE DISTILLED, IRISH WHISKEY, MATURED IN OAK IN IRELAND, DISTILLED & BOTTLED BY, BLEND POT STILL GRAIN & MALT, RECIPE, PRODUCT OF IRELAND, THE IMAGE OF A BARCODE WITH ASSOCIATED NUMBERS, AND THE GOLD COLORING OF THE LIQUID IN THE BOTTLE" **Acquired Distinctiveness** In part **Distinctiveness Limitation Statement** as to "A map of Ireland" **Name Portrait Consent** The name(s), portrait(s), and/or signature(s) shown in the mark does not identify a particular living individual.
