chemicals in pulp, fiber, paper, board and tissue making processes; Paper, board and tissue thickening machine for chemical recovery, pulp, fiber, paper, board and tissue manufacturing; Paper, board and tissue forming machine for pulp, fiber, paper, board and tissue manufacturing; Pressing machines for dewatering raw materials in chemical recovery, pulp, fiber, paper, board and tissue manufacturing, power generation and fiber manufacturing; Paper and board sizing machines for paper and board manufacturing; Coating machine for coating paper and board for paper and board manufacturing; Calendaring machine for improving the surface properties of paper, board and tissue and controlling the caliper profile for pulp, fiber, paper, board and tissue manufacturing; Reeling machine for feeling finished paper, board and tissue products on to parent rolls before distribution in pulp, fiber, paper, board and tissue manufacturing; Parent roll handling machine for transferring and loading finished paper, board and tissue products before distribution in pulp, fiber, paper, board and tissue manufacturing; Fiber bonding machine for chemical recovery, pulp, fiber, paper, board and tissue manufacturing; Dewatering machine and apparatus for drying raw pulp and paper, board and tissue products in chemical recovery, pulp, fiber, paper, board and tissue manufacturing; Screening machine for screening unwanted fraction and particles from pulp for chemical recovery, pulp, fiber, paper, board and tissue manufacturing; Pulping machine for pulp, fiber, paper, board and tissue manufacturing; Delignification machine for removing lignin from wood products in pulp, fiber, paper, board and tissue manufacturing; Defibrating machine for chemical recovery, pulp, fiber, paper, board and tissue manufacturing; Pulp, wood chip and paper feeding machine for chemical recovery, pulp, fiber, paper, board and tissue manufacturing; Grinding machine for pulp, fiber, paper, board and tissue manufacturing; Pulp and steam separating machine for chemical recovery, pulp, fiber, paper, board and tissue manufacturing; Scrubbing machine for chemical recovery, pulp, fiber, paper, board and tissue manufacturing, power generation and fiber manufacturing; Chemicals, stock, water and pulp mixing machine for chemical recovery, pulp, fiber, paper, board and tissue manufacturing; Chemical and water filtration machine for chemical recovery, pulp, fiber, paper, board and tissue manufacturing; Tissue creping machine for tissue manufacturing; Paper, board and tissue paper sheet transferring machine for pulp, fiber, paper, board and tissue manufacturing; Cleaning and bleaching machines for chemical recovery, pulp, fiber, paper, board and tissue manufacturing; blades as parts of wood processing machines; coating blades as parts of machines, doctor blades and cutting blades for winders; blow line separators being parts of machines; chip feeders in the nature of conveyors for industrial processes; drum filters for paper, board and tissue machines and their nozzles as structural parts; pumps as parts of machines; separators, namely, centrifugal separators, cyclone separators, and dust separators; mixer kits containing stator, rotor and scraper ring being parts of machines; mixers for liquids and gases in the nature of machinery for mixing liquids and gases for industrial use; spray pipes as parts of machines; cyclones for wood processing; screen baskets as parts of machines; industrial machinery in the nature of green and white liquor handling machines used in pulp, fiber, paper, board and tissue manufacturing; machines for industrial chemical processing namely, lime slaking and causticizing machines; lime mud handling machines, namely, chemical processing machines used in the paper manufacturing process; drives for motors and engines and gear boxes except for land vehicles; lime re-burning machines, namely, industrial kiln used in lime production for the paper manufacturing process; filters for machines for chemical recovery, pulp, fiber, paper, board and tissue manufacturing, energy production, biofuels production, biomaterials production, and mining and chemical industries; bearings for machines; screening machines for pulp drying; pulp dewatering machines for use in the paper, board, and tissue industries; cutting machines; baling and bale handling machines for paper manufacturing use; paper and board winding and roll handling machines; paper, board and tissue folding machines; oil coolers and filters for motors, engines and pumps; oil tanks for machines; down feeding machines in the nature of machines for feeding pulp products down conveyers belts for distribution;

packaging machines; machines for pressing paper, board, tissue and pulp products; stamping presses with hydraulic cylinders; tying machines for industrial use; screw drainers for draining and transporting being parts of pulping machines; pre-heating and heating machines as parts of process machines for chemical recovery, pulp, fiber, paper, board and tissue manufacturing, and power generation; pulp, fiber, paper, board and tissue refining machines, namely, disc refining, cone refining, cone disc refining, high consistency refining and low consistency refining machines; cyclone separators; steam separators; water jet pumps for pulp, fiber, paper, board and tissue manufacturing machines, energy production, biofuels production, biomaterials production, and mining and chemical industries; drop-in bale feeding machines for industrial use; lignin removal machines; industrial cleaning machines utilizing pressure jets for chemical recovery, pulp, fiber, paper, board and tissue manufacturing; cleaning machines for industrial installations, namely, for chemical recovery pulp, fiber, paper, board and tissue manufacturing machines; forming fabric shaking machine in the nature of machine for forming fibrous web in the paper, board and tissue manufacturing process; web handling machines for pulp and paper manufacturing, namely, machines for handling continuous ribbons of paper; silencers for machines and motors; rolls being parts of machines; brake pads for machines; machine saws; segment bars being parts of machines for machines; blades and blade holders for machines; machines for manufacturing paper, board and tissue; machines for cleaning, purifying, recycling, and utilizing water in washing, flotation, dispersing, refining, deflaking, broke handling, fiber recovering, wet end chemical handling, thickening, forming, pressing, sizing, coating, calendaring, reeling, parent roll handling, bonding, dewatering, screening, pulping, delignification, defibrating, feeding, grinding, separating, scrubbing, mixing, filtration, creping, sheet transferring, cleaning and bleaching processes, energy production, biofuels production, biomaterials production, and mining and chemical industries; dust removing installations for cleaning purposes; sheet stabilizing machines for pulp, fiber, paper, board and tissue manufacturing; web turning machines for pulp, fiber, paper, board and tissue manufacturing, namely, machines for rolling continuous ribbons of paper into a roll; sheet cooling machines for pulp, fiber, paper, board and tissue manufacturing; trim conveyors being parts of machines; broke conveyors being parts of machines; biomass refining machines, namely, machines for refining organic matter; wet lap machines, namely, machines that reduce pulp to a semi-paper form; steam boxes being parts of pulp, fiber, paper, board and tissue manufacturing machines; moisturizing devices, namely, power operated sprayers and steamers being parts of pulp, fiber, paper, board and tissue manufacturing machine; hot water spreading equipment as parts of machines, namely, water pumps and power operated sprayers for pulp, fiber, paper, board and tissue manufacturing machines; machines for ethanol manufacturing; industrial machine presses; biomass drying machines; biomass crushing machines; machines for producing coal and fuel from biomass; hoods for paper, board and tissue machines; gasifiers

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For goods for use in pulp, fiber, paper, board and tissue manufacturing, chemical recovery, power generation, energy production, biofuels production, biomaterials production, and for use in manufacturing textiles, textile goods and fabrics for commercial laundries and manufacturing filter fabrics for chemical and mining industries, namely, industrial boilers, fluidized bed boiler in the nature of a heating boiler, air and gas cleaning units, electro-chemical flue gas scrubber machines, bag filters for screening in pulp, fiber, paper, board and tissue processes as parts of industrial installations, vent gas scrubbers, odor gas removing equipment, namely, gas control devices and ventilating units, filters and filtering units for pulp, fiber, paper, board and tissue manufacturing machines, energy production machines, biofuels production machines, biomaterials production machines, mining and chemical industrial machines, and commercial laundry machines, water treatment equipment, namely,

filtration units and purification units, evaporators, and air cleaning units for collecting dust from the air; heating and energy plants for producing energy and energy sources; heaters and burners as parts of pyrolysing equipment for pyrolysis process; electrostatic precipitators as parts of air cleaning equipment; cooking machines, namely, cooking installations and plants for cooking pulp in the nature of industrial cooking digesters and tanks for pulp, fiber and paper mills; steam generating bins for pre-steaming wood chips; pressure diffusers, namely, equipment for pressure washing for pulp, fiber, paper, board and tissue manufacturing; Steam mixers for pulp heating, namely, apparatus for generating and mixing steam and chemicals for the purpose of heating pulp in the chemical pulping process; recovery boilers for chemical recovery, pulp, fiber, paper, board and tissue manufacturing, power generation, fiber manufacturing and biomass refining; Ash conveying and leaching installations, namely, apparatus for the treatment of ash from recovery boilers in pulp mills in the nature of waste processing machines that use heat and chemical breakdown processes; machines for recovery of heat from process waters and air in pulp, paper, board and tissue manufacturing, energy production, biofuels production, biomaterials production, and mining and chemical industries in the nature of energy recovery ventilators and heat exchangers not being parts of machines; air conditioning and ventilation units for machine rooms; bed reactors for firing fuels to produce energy in the nature of heat generators; humidifiers; cooling units for industrial purposes; pyrolysing reactors, namely, reactors used to achieve the thermochemical decomposition of organic material, namely, pulp; power plants in the nature of industrial pyrolysing reactors for producing energy; gasification plants, pyrolysis plants, torrefaction plants, steam explosion plants and biorefining plants for producing energy and energy sources; Industrial dryers for heating and dehumidifying for use in pulp, fiber, paper, board and tissue manufacturing, power generation and fiber manufacturing

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For installation, maintenance and repair services of boilers, burners, power plants, heating plants, air and gas cleaning machines; inspection and diagnosis services for monitoring the condition and function of boilers, burners, fuel feeders, power plants, heating plants, air and gas cleaning machines, and cleaning machines in the course of construction, use and maintenance of industrial installations; installation, maintenance and repair services of machines and equipment in the field of chemical recovery, pulp, fiber, paper, board and tissue manufacturing, power generation and fiber manufacturing and biomass refining; inspection and diagnosis services for monitoring the condition of machines and equipment in the course of construction, use and maintenance of industrial installations in the field of pulp, fiber, paper, board and tissue manufacturing, energy production, biofuels production, biomaterials production, and mining and chemical industries

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For apparatus for recording, transmission or reproduction of sound or images; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; fire-extinguishing apparatus; electronic speed controllers; computer software for controlling debarking process; electronic position indicators, namely, knife position indicators for wood handling, position indicators for mechanical pulping and valve position indicator for paper manufacturing; electronic material detectors, namely, electronic paper and pulp sheet break detectors, electronic paper web break detectors, electronic metal detector and electronic gamma ray detectors; optical measuring instruments for chemical recovery, pulp, fiber, paper, board and tissue manufacturing, power generation, fiber manufacturing and biomass refining; computer process control and system operating software for chemical recovery, pulp, fiber, paper, board and tissue manufacturing, power generation,

fiber manufacturing and biomass refining; Electronic control devices for measuring and controlling industrial processes for chemical recovery machinery, for pulp, fiber, paper, board and tissue manufacturing machinery, for power generation machinery, for fiber manufacturing machinery, and for biomass refining machinery; electronic instruments for measuring alkali concentration, not for medical use; electronic-based measuring instruments for measuring the physical conditions of air and for measuring the movements of air; electronic measuring indicators for use in pulp, paper, and energy industrial processes and biomass refining processes; computer process control software for process optimization, namely, for improving process efficiency and controlling process flow, in the field of pulp, fiber, paper, board and tissue manufacturing machines, energy production, biofuels production, biomaterials production, and mining and chemical industries; electronic control panels; computer software for energy efficiency analysis; electric oscillators; computer software and electronic sensors for collecting data of industrial operations; downloadable electronic instruction manuals in the field of pulp, fiber, paper, board and tissue manufacturing, energy production, biofuels production, biomaterials production, and mining and chemical industries

GOODS AND SERVICES INFORMATION

For Fittings, namely valves, drain cocks, slide valves, butterfly valves, turbine valves, non-return valves, and control valves, all as parts of machines; controlling and regulating devices for fittings as parts of machines, namely, pneumatic controls for machines, pump control valves; pneumatic and hydraulic linear actuators for fittings; pumps and pump motors, namely, electric pumps, electric water pumps, wastewater pumps, electric pressure boosting pumps, slurry pumps, drainage pumps, sewage lifting pumps, circulating pumps for cooling and heating fluid, sewage pumps, submersible pumps, centrifugal pumps, flue gas scrubber pumps, boiler feed pumps, condensate pumps, reverse osmosis pumps, well pumps, electric corrosion-resistant pumps, electric hermetically-sealed pumps, electric desalination plant pumps, electric irrigation pumps, electric magnetic drive pumps, electric explosion-proof pumps, electric oil and chemical pumps for handling aggressive, toxic, explosive, valuable, inflammable, malodorous, and harmful liquids, electric pumps for crude oil transport and petrochemical applications, electric multi-stage water pumps for garden sprinkling, irrigation systems, rain water utilization, domestic, and municipal water supply and agriculture, units consisting of electric pumps and electric motors, for use in the handling of pure, aggressive, clean, and contaminated liquids for use in sewage treatment, power plant, desalination plant, construction site, agriculture, industrial, chemical, petrochemical, pharmaceutical, food processing, food packing, and sprinkler system applications

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Fittings, not for kitchen or cooking appliances, for heating, steam generating, cooling, drying, ventilating, water supply, and sanitary purposes, namely, plumbing valves, drains, couplers, cocks, valves, and tub control valves; water treatment plants for water purification, water preparation plants, namely, water desalination plants, and sewage purification plants for industrial, municipal and private use; cocks and control valves for pipelines in water and gas supply installations, namely, plumbing

cocks and water control valves for faucets; regulating accessories for water and gas pipes; fittings, namely, cocks of metal for pipelines for liquid or gaseous media, namely, plumbing cocks and water control valves for faucets

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Pipes and tubes of metal; metal goods, namely, manually operated metal valves and metal slides used in wastewater treatment plants for corrosion protection, blocking of aggressive and chemical media in plants, gas and oil plants, chemical and power plants, sewage separation and treatment in central biological treatment plants, infiltration systems, and limitation of inflow; metal goods, namely, manually operated butterfly valves, manually operated inlet valves, and manually operated non-return valves for installations in channels or piping systems for liquid or gaseous media, particularly in the oil, chemical, petrochemical, water, waste water, and power generating industries; pipeline connections and installations comprising these goods, namely, metal elbows for pipes, metal expansion joints for pipes, metal pipe connectors, metal sealings, metal gaskets, metal key rings, metal castings, metal hooks, metal name plates, metal nuts, metal pipe clips, metal tubes, and metal alloys

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods
