GOODS AND SERVICES INFORMATION

For Printed matter, namely, instructional materials, training materials, teaching materials, catalogs, manuals, technical guides and data sheets, all in the fields of scientific, electronic, test, signaling, measurement, and optical apparatus, systems, and equipment

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter **First Use** Aug. 01, 2014 **In Commerce** Aug. 01, 2014

For Training services in the use and operation of electronic test, signaling and measurement systems, equipment, and related hardware and software

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment **First Use** Aug. 01, 2014 **In Commerce** Aug. 01, 2014

For Electronic catalog services and online retail store services in the fields of scientific, electrical, electronic, test, signaling, measurement, optical and imaging apparatus, instruments, systems and equipment and parts and components therefor

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business **First Use** Aug. 01, 2014 **In Commerce** Aug. 01, 2014

For Maintenance, repair and installation services relating to electronic, opto-electronic, photonic, and nano-scale test, signaling, analysis, imaging, measurement, scientific, and optical apparatus, instruments, parts, systems, equipment, and accessories therefor; repair and refurbishing of electronic, opto-electronic, photonic, and nano-scale test, signaling, analysis, imaging, measurement, scientific, and optical apparatus, instruments, parts, systems, equipment, and accessories therefor; technical support services in the nature of providing information and consultation regarding the installation of computer systems used with test and measurement systems, and providing an Internet web site featuring technical information related thereto

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair **First Use** Aug. 01, 2014 **In Commerce** Aug. 01, 2014

For Electronic test and measurement instruments, namely, oscilloscopes and parts therefor; electronic instruments in the nature of signal generators, namely, analog and vector signal generators, waveform generators, function generators in the nature of electronic devices used to generate various types of repeating waveform signals over a wide range of frequencies, pulse and data generators, arbitrary waveform generators, noise generators in the nature of electronic devices that produce random signals, and signal generation devices synthesizing electronic signals, and synchronization modules for various types of signal generators; electronic test and measurement instruments in the nature of analyzers, namely, spectrum, vector, signal, network, power and power source, protocol, radio frequency, microwave, logic, modulation-domain, optical component, light wave component, optical modulation, time-interval, polarization, and photonic dispersion and loss analyzers; automatic test equipment for integrated circuits, circuit boards and electronic equipment, namely, flat panel display testers, system on a chip (SOC) testers, memory testers, parametric testers, automated optical inspection testers, and in-circuit testers; electronic and optical communications instruments, namely, light wave testers and light wave multimeters; electronic component of digital multi-meters for testing and measuring voltage in electrical products; measuring instrumentation and apparatus, namely, digitizers; test and measurement equipment, namely, electromagnetic interference receivers, radio frequency interference receivers, and electromagnetic compliance products, namely, electromagnetic interference receivers for testing electromagnetic compliance and making conductive emission measurements; polarization controller units used to change light from any polarized or unpolarized light source into any well-defined state of polarization; electronic test and measurement instruments, namely, electric meters, inductance meters, capacitance meters, resistance meters, impedance meters, testing meters, wavelength meters, frequency meters, and frequency counters; electrical and electronic measuring and testing devices, namely, DC electronic load measurers and testers; electronic test and measurement instruments in the nature of testers, namely, cable, antenna, voltage, amperage, telephone line, and continuity testers; electronic test and measurement instruments, namely, handheld cable and antenna tester with optional spectrum analyzer, network analyzer, and power meter; electronic testing equipment, namely, power meters for testing radio frequency and microwave signals; electronic and optical communications instruments and components, namely, communication link testers for testing communication links and telecommunication line integrity testing apparatus; testing apparatus for testing circuit boards; electronic apparatus for testing electromagnetic properties and characteristics of industrial materials; electronic test and measurement instruments, namely, voltmeters and source measure units; test and measurement equipment, namely, one box testers containing a signal source and a signal analyzer for testing microwave and wireless communication devices and designs; electronic test and measurement instruments, namely,

interferometers, electrical transducers, and vibration transducers; electronic test and measurement instruments, namely, nano-indenters for nano-mechanical testing of semiconductors, thin films, wafer applications, hard coatings and DLC films, composite materials, fibers, polymers, metals, ceramics, and biomaterials; component features of electronic testing, signaling, diagnostic and measurement systems and equipment used in signal generators, signal analyzers, arbitrary waveform generators, pulse generators, and one-box testers, namely, mobile cellular and wireless local area network (WLAN) testers and network analyzers; electronic component in the nature of software and hardware, namely, digital signal processor and its controlling algorithm, sold as integral components of waveform generators, for improving signal fidelity and signal breadth; encoders; data processing equipment, namely, couplers; amplifiers; electrical signal attenuators; electricity limiters; multipliers; testing apparatus for testing fiber optics; electric switches; electronic switches; optical switches; probes for testing integrated circuits, semiconductors, and telecommunication networks; electronic, opto-electronic, photonic and nano-scale test, signaling, imaging, and measurement apparatus and instruments, namely, amplifiers, attenuators, filters in the nature of signal processors that function to remove unwanted frequency components from the signal, to enhance wanted ones, or both, conditioners in the nature of devices used to prepare sensor output signals for processing, converters, mixers in the nature of devices for creating new frequencies from two or more signals applied to it, modulators in the nature of devices for varying one or more properties of a periodic waveform in order to carry a signal, demodulators, prescalers, dividers in the nature of devices for coupling a portion of the signal in a transmission line to a port enabling the portion signal to be used in another circuit, combiners in the nature of devices for combining the signals at a port into the signals already present in a transmission line, isolators in the nature of a non-reciprocal 2 port device that allows signals to pass in one direction only, circulators in the nature of a non-reciprocal multi-port device in which a signal entering any port is transmitted only to the next port in rotation, integrated diode limiters, switches and routers for performing signal generation, signal processing, signal amplification, signal conversion, and signal control; lasers for measuring purposes and accessories therefor, namely, monolithic laser combiners, laser heads, beam splitters, beam benders, beam translators, retro reflectors, adjustable mounts, plane mirrors, plane mirror converters, plane mirror reflectors, and turning mirrors; lasers not for medical use; microscopes; microscopes, namely, atomic force microscopes; microscopes, namely, scanning electron microscopes; recording apparatus for recording traffic on telecommunications networks; portable electronic recorder for measuring and recording multiple voltage, current and thermocouple readings from various transducers; electric sensors; industrial calibration sensors; optical sensors; timing sensors; ultrasonic sensors; surface acoustic wave sensors; sensors for measuring air pressure, temperature, and humidity; sensors for monitoring the temperature of an object being measured; transmitters of electronic signals; electronic and optical communications instruments and components, namely, optical transmitters and electro-optical transmitters; wireless transmitters and receivers; receivers of electronic signals; electronic and optical communications instruments and components, namely, optical and opto-electrical receivers; remote controls for electronic test, signaling and measurement apparatus, systems, and equipment; computer hardware; computer peripherals; a full line of operating system software programs for non-medical scientific instruments and for electronic test, signaling, and measurement instruments and equipment; a full line of computer software for designing, configuring, calibrating, and testing non-medical scientific instruments and electronic test, signaling, and measurement instruments and equipment; a full line of computer software for collecting, measuring, analyzing, storing, manipulating, and managing data obtained from non-medical scientific instruments and from electronic test, signaling, and measurement instruments and equipment; software, namely, electronic design automation (EDA)

software for communications product design, for RF and microwave circuit, high-speed, signal integrity, device modeling, and signal-processing design, and for electro-thermal, electromagnetic, circuit and system design and simulation; data processing apparatus; power supplies; power supplies and power systems used to power and test the operation of electronic equipment and devices under test by providing multiple power levels to the electronic equipment; programmable power supplies and power systems for simulating various operating conditions of electronic equipment

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus **First Use** Aug. 01, 2014 **In Commerce** Aug. 01, 2014

For Design and development of computer software; computer programming services; maintenance of computer software; engineering services; calibration of scientific, electronic, test, signaling, measurement, and optical apparatus, systems, and equipment; technical support services in the nature of providing technological information and consulting in the field of test, measurement and computer systems, computer system design, computer systems integration, and computer software installation, and providing an internet web site featuring technical information related thereto; technical support services in the nature of computer systems analysis and computer systems integration services, and providing an internet web site featuring technical information related thereto; technical support services in the nature of start-up assistance with technology specifications, namely, analyzing technology requirements and developing recommendations for the computer software and systems and other technology needed to meet those requirements, in the field of electronic, opto-electronic, photonic, and nano-scale test, signaling, imaging, and measurement equipment; computer services, namely, hosting online communities for users to obtain information in the fields of electronic test, signaling and measurement equipment; providing a website featuring technology that allows computer users the ability to generate and share software script and plug-ins and to share software and data with other users

GOODS AND SERVICES INFORMATION

For Printed matter, namely, instructional materials, training materials, teaching materials, catalogs, manuals, technical guides and data sheets, all in the fields of electronic, opto-electronic, photonic, and nano-scale test, signaling, imaging, and measurement apparatus, instruments, systems, equipment, parts, components and accessories

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter **First Use** Aug. 01, 2014 **In Commerce** Aug. 01, 2014

For Training services in the use and operation of electronic test, signaling and measurement systems, equipment, and related hardware and software

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment **First Use** Aug. 01, 2014 **In Commerce** Aug. 01, 2014

For Electronic catalog services and online retail store services in the fields of electronic, opto-electronic, photonic, and nano-scale test, signaling, imaging, and measurement apparatus, instruments, systems, equipment, parts, components and accessories

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business **First Use** Aug. 01, 2014 **In Commerce** Aug. 01, 2014

For Maintenance, repair and installation services relating to electronic, opto-electronic, photonic, and nano-scale test, signaling, analysis, imaging, measurement, scientific, and optical apparatus, instruments, parts, systems, equipment, and accessories therefor; repair and refurbishing of electronic, opto-electronic, photonic, and nano-scale test, signaling, analysis, imaging, measurement, scientific, and optical apparatus, instruments, parts, systems, equipment, and accessories therefor; technical support services in the nature of providing information and consultation regarding the installation of computer systems used with test and measurement systems, and providing an Internet web site featuring technical information related thereto

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair **First Use** Aug. 01, 2014 **In Commerce** Aug. 01, 2014

For Electronic test and measurement instruments, namely, oscilloscopes and parts therefor; electronic instruments in the nature of signal generators, namely, analog and vector signal generators, waveform generators, function generators in the nature of electronic devices used to generate various types of repeating waveform signals over a wide range of frequencies, pulse and data generators, arbitrary waveform generators, noise generators in the nature of electronic devices that produce random signals, and signal generation devices synthesizing electronic signals, and synchronization modules for various types of signal generators; electronic test and measurement instruments in the nature of analyzers, namely, spectrum, vector, signal, network, power and power source, protocol, radio frequency, microwave, logic, modulation-domain, optical component, light wave component, optical modulation, time-interval, polarization, and photonic dispersion and loss analyzers; automatic test equipment for integrated circuits, circuit boards and electronic equipment, namely, flat panel display testers, system on a chip (SOC) testers, memory testers, parametric testers, automated optical inspection testers, and in-circuit testers; electronic and optical communications instruments, namely, light wave testers and light wave multimeters; electronic component of digital multi-meters for testing and measuring voltage in electrical products; measuring instrumentation and apparatus, namely, digitizers; test and measurement equipment, namely, electromagnetic interference receivers, radio frequency interference receivers, and electromagnetic compliance products, namely, electromagnetic interference receivers for testing electromagnetic compliance and making conductive emission measurements; polarization controller units used to change light from any polarized or unpolarized light source into any well-defined state of polarization; electronic test and measurement instruments, namely, electric meters, inductance meters, capacitance meters, resistance meters, impedance meters, testing meters, wavelength meters, frequency meters, and frequency counters; electrical and electronic measuring and testing devices, namely, DC electronic load measurers and testers; electronic test and measurement instruments in the nature of testers, namely, cable, antenna, voltage, amperage, telephone line, and continuity testers; electronic test and measurement instruments, namely, handheld cable and antenna tester with optional spectrum analyzer, network analyzer, and power meter; electronic testing equipment, namely, power meters for testing radio frequency and microwave signals; electronic and optical communications instruments and components, namely, communication link testers for testing communication links and telecommunication line integrity testing apparatus; testing apparatus for testing circuit boards; electronic apparatus for testing electromagnetic properties and characteristics of industrial materials; electronic test and measurement instruments, namely, voltmeters and source measure units; test and measurement equipment, namely, one box testers containing a signal source and a signal analyzer for testing microwave and wireless communication devices and designs; electronic test and measurement instruments, namely,

interferometers, electrical transducers, and vibration transducers; electronic test and measurement instruments, namely, nano-indenters for nano-mechanical testing of semiconductors, thin films, wafer applications, hard coatings and DLC films, composite materials, fibers, polymers, metals, ceramics, and biomaterials; component features of electronic testing, signaling, diagnostic and measurement systems and equipment used in signal generators, signal analyzers, arbitrary waveform generators, pulse generators, and one-box testers, namely, mobile cellular and wireless local area network (WLAN) testers and network analyzers; electronic component in the nature of software and hardware, namely, digital signal processor and its controlling algorithm, sold as integral components of waveform generators, for improving signal fidelity and signal breadth; encoders; data processing equipment, namely, couplers; amplifiers; electrical signal attenuators; electricity limiters; multipliers; testing apparatus for testing fiber optics; electric switches; electronic switches; optical switches; probes for testing integrated circuits, semiconductors, and telecommunication networks; electronic, opto-electronic, photonic and nano-scale test, signaling, imaging, and measurement apparatus and instruments, namely, amplifiers, attenuators, filters in the nature of signal processors that function to remove unwanted frequency components from the signal, to enhance wanted ones, or both, conditioners in the nature of devices used to prepare sensor output signals for processing, converters, mixers in the nature of devices for creating new frequencies from two or more signals applied to it, modulators in the nature of devices for varying one or more properties of a periodic waveform in order to carry a signal, demodulators, prescalers, dividers in the nature of devices for coupling a portion of the signal in a transmission line to a port enabling the portion signal to be used in another circuit, combiners in the nature of devices for combining the signals at a port into the signals already present in a transmission line, isolators in the nature of a non-reciprocal 2 port device that allows signals to pass in one direction only, circulators in the nature of a non-reciprocal multi-port device in which a signal entering any port is transmitted only to the next port in rotation, integrated diode limiters, switches and routers for performing signal generation, signal processing, signal amplification, signal conversion, and signal control; lasers for measuring purposes and accessories therefor, namely, monolithic laser combiners, laser heads, beam splitters, beam benders, beam translators, retro reflectors, adjustable mounts, plane mirrors, plane mirror converters, plane mirror reflectors, and turning mirrors; lasers not for medical use; microscopes; microscopes, namely, atomic force microscopes; microscopes, namely, scanning electron microscopes; recording apparatus for recording traffic on telecommunications networks; portable electronic recorder for measuring and recording multiple voltage, current and thermocouple readings from various transducers; electric sensors; industrial calibration sensors; optical sensors; timing sensors; ultrasonic sensors; surface acoustic wave sensors; sensors for measuring air pressure, temperature, and humidity; sensors for monitoring the temperature of an object being measured; transmitters of electronic signals; electronic and optical communications instruments and components, namely, optical transmitters and electro-optical transmitters; wireless transmitters and receivers; receivers of electronic signals; electronic and optical communications instruments and components, namely, optical and opto-electrical receivers; remote controls for electronic test, signaling and measurement apparatus, systems, and equipment; computer hardware; computer peripherals; a full line of operating system software programs for non-medical scientific instruments and for electronic test, signaling, and measurement instruments and equipment; a full line of computer software for designing, configuring, calibrating, and testing non-medical scientific instruments and electronic test, signaling, and measurement instruments and equipment; a full line of computer software for collecting, measuring, analyzing, storing, manipulating, and managing data obtained from non-medical scientific instruments and from electronic test, signaling, and measurement instruments and equipment; software, namely, electronic design automation (EDA)

software for communications product design, for RF and microwave circuit, high-speed, signal integrity, device modeling, and signal-processing design, and for electro-thermal, electromagnetic, circuit and system design and simulation; data processing apparatus; power supplies; power supplies and power systems used to power and test the operation of electronic equipment and devices under test by providing multiple power levels to the electronic equipment; programmable power supplies and power systems for simulating various operating conditions of electronic equipment

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 2 - AN ILLUSTRATION DRAWING WITHOUT ANY WORDS(S)/ LETTER(S) **Description of the Mark** The mark consists of a pentagonal diamond shape with a horizontal top edge and a bottom edge that forms a V shape. The V-shaped bottom edge extends from a left side of the horizontal top edge to a right side of the horizontal top edge with a gap between the right side of the horizontal top edge and the V-shaped bottom edge. A triangular-shaped element is positioned at the mark's approximate center between the horizontal top edge and the V-shaped bottom edge. Portions of the V-shaped bottom edge and the triangular-shaped element adjacent to the horizontal top edge appear darker than the remainder of the mark such that it appears that the horizontal top edge is casting a shadow on the V-shaped edge and the triangular-shaped element. **Color Claimed** Color is not claimed as a feature of the mark.
