For 3D printers, catalytic converters, suction machines for industrial purposes being air suction machines and water suction machines, starters for motors and engines, mineral water making machines, belt conveyors, tilling implements being tilling machines for agricultural use, brewing machines being soy sauce making machines, beer brewing machines, speed governors for machines, engines and motors, compressed air pumps, dynamos, cartridges for filtering machines for chemical processing, electric food and drink blenders for household purposes, kitchen grinders, electric; electric floor polishing machines and apparatus, electric window cleaning machines and apparatus, electric food processors, electric crushers for kitchen use, electricity generators, electromechanical apparatus for making foodstuffs being electric food choppers, electromechanical apparatus being machines for making beverages from powders, syrups; electric motors, other than for land vehicles; elevators being lifts, filters being parts of manufacturing machines or engines, filtering machines for chemical processing, blowing machines for the compression, sucking and carrying of grain; blowing machines for the compression, exhaustion and transport of gases; crankcases for machines, motors and engines, glow plugs for diesel engines, woodworking machines, namely, laser engraving machines for woodworking, hydraulic engines and motors, handling machines being cargo handling machines, automatic manipulators for forging presses and for forging machines, industrial robots; joysticks being parts of machines, other than for game machines; kneading machines for chemical processing, carbon brushes being brushes for use in rotating electrical machinery, pistons for engines, fuel dispensing pumps for service stations, fuel economisers for motors and engines being fuel and air mixture regulators being parts of internal combustion engines, handling apparatus for loading and unloading, namely, cargo handling machines, agricultural machines being seed planting machines, car lifts, other than ski-lifts, lift operating apparatus being lifting jacks other than hand-operated, filters for cleaning cooling air, for engines, bearing housings

being parts of machines, metalworking machines, namely, cutting machines for metalworking, electric mixers being kitchen machines, motors for boats, aeronautical engines, waste disposer machines being food waste disposals, tools being grinding tools for grinding machines, other than hand-operated, emergency power generators, filter presses being machine used for process filtration in the pharmaceutical industry; water pumps being parts of machines, engines or motors, pump diaphragms, regulators being parts of machines, suction nozzles for vacuum cleaners, air suction machines, sifting installations being sifting machines, carburetor feeders being power valves for carburetors, vacuum cleaners, vacuum cleaner attachments for disseminating perfumes and disinfectants; current generators; propulsion mechanisms being propellers for machines, other than for land vehicles; anti-pollution devices for motors and engines, heat exchangers being parts of machines, alternators, wind turbines, spraying machines, igniting devices for internal combustion engines for motors of land vehicles, apparatus for aerating waters; oil-water separators for pneumatic controls being part of machines; machines for the production of mineral water, machines for the mineralization of drinking water; machines for use in the processing of water, namely, machines for the mineralization of drinking water

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Sewage purification installations, bath fittings being bath installations, bath plumbing fixtures being shower mixers, lamps, ventilation hoods, gas burners, germicidal burners being germicidal lamps for purifying air, swimming pool chlorinating apparatus, ceiling lights, disinfectant apparatus for medical purposes; deodorising apparatus, not for personal use in the nature of electric air deodorizers; electrically heated carpets, discharge tubes, electric, for lighting, heating filaments, electric in the nature of filaments for electric lamps, heating apparatus, electric in the nature of electric heating fans, electric coffeepots, electric cooktops, cooking utensils, electric in the nature of electric griddles for cooking, electric lamps, electric fans for personal use, water desalination plants, bicycle lights, reflectors for vehicles, aquarium filtration apparatus, curling lamps, apparatus for the purification of gases in the nature of apparatus for use in the purification, separation and sterilization of gases used in the biotechnology, food and beverage industries, gas scrubbers being parts of gas installations, beverage cooling apparatus, light bulbs; hair driers, electric hand drying apparatus for washrooms, hot air apparatus in the nature of hot-air space heating apparatus, hot air blowers, water heaters, heating and cooling apparatus for dispensing hot and cold beverages, blankets, electric, not for medical purposes, aquarium heaters, heating elements, hot air ovens in the nature of air sterilizing apparatus, heating plates in the nature of electric cooktop, radiators, apparatus for heating being heating apparatus for vehicles, heating installations, heaters for vehicles, fireplace hearths, ionization apparatus for the treatment of air or water, coffee roasters, air conditioning installations, air conditioning fans in the nature of fans for air conditioning apparatus, kilns, kitchen cooking, electric ranges, cooking rings, electric sous-vide, electric rice cookers, laboratory lamps, lamp globes; lamp chimneys, lamp chimneys, lamp shades, lanterns for lighting, light diffusers, humidifiers for central heating radiators, electric air deodorising apparatus, air heating apparatus in the nature of hot-air space heating apparatus, filters for air conditioning, air filtering installations, air cooling apparatus; air purifying apparatus and instruments; germicidal lamps for purifying air, air sterilisers, ventilation and air conditioning installations and apparatus, microwave ovens being cooking apparatus; microwave ovens for industrial purposes; mixer taps for water pipes, multicookers, anti-splash tap nozzles, stoves being heating apparatus, oil burners for commercial and domestic use; lamp reflectors, regulating accessories for water or gas apparatus and pipes, sanitary apparatus and installations in the nature of steam rooms, sauna bath installations, floor water fountains, floor lamps, street lamps, water closets, toilet bowls, toilet seats, toilets, portable, filters for drinking water; ultraviolet ray lamps, not for

medical purposes; air conditioning fans, fans for air-conditioning installations, heat pumps, heat regenerators in the nature of heat exchangers for chemical processing, heat accumulators; heat exchangers, other than parts of machines; water heaters apparatus, water heaters, water softening apparatus and installations, water filtering apparatus, flushing toilet tanks, water purification installations, water purifying apparatus and machines, water supply installations in the nature of regulating accessories for water supply, namely, metered valves, energetic water treatment apparatus in the nature of magnetic water treatment apparatus, air ionising apparatus; air purifying and ionizing apparatus for the treatment of air for reducing adverse effects of electro-smog, electromagnetic or electrostatic fields, produced by mobile telephones, telephone installations and apparatus for wireless data transfer using wireless application protocol (WAP); brewing machines being electric coffee machines; cartridges for air and water filtering machines; electromechanical apparatus for making foodstuffs being electric food steamers; filtering machines being industrial air filter machines; agricultural machines being watering machines for agricultural purposes; waste disposer machines being waste disposal incinerators; filter presses being water purification and filtration apparatus; machines for use in the processing of water, namely, water purification machines; chemistry apparatus and instruments being drying apparatus for chemical processing; anti-dazzle lamp shades; sockets for electric lights; heat regulating apparatus in the nature of automatic temperature regulators for central heating radiators; counters being modular counters for refrigerating, heating and chilling foods

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Security and fire alarms, wearable video display monitors; testing apparatus for testing compression, strength, hardness and tensile characteristics of industrial materials, not for medical purposes; protective films adapted for smartphones, electric junction boxes, tap boxes being electrical distribution boxes, connections for electric lines, antennas, electricity limiters, observation instruments being electronic detectors for observing and measuring the infrared spectrum, namely, infrared detectors, downloadable image files containing artwork, text, audio, video, games and Internet Web links relating to sporting and cultural activities, phototelegraphy apparatus, biochips for research or scientific purposes, spectacles, chemistry apparatus and instruments being chemical vapor deposition apparatus for use in research, integrated circuit chips for digital video compression and decompression, encoded identification bracelets, magnetic, encoded magnetic gift cards, encoded key cards, computers, computer hardware, peripherals adapted for use with computers, namely, protective display screen covers, computer keyboards; smartglasses and data processing equipment, being couplers; diagnostic apparatus for testing food and beverages, not for medical purposes; DNA chips, dosimeters, junctions being cable junctions for electric cables and connections for electric lines, cable channels being electric cables, wires, conductors and connection fittings therefor, contacts, electric, regulating apparatus for regulating electric current, measuring devices, electric for air conditioning technology and for measuring water quality, electric cables, electric wire harnesses for automobiles, electromagnetic coils, electronic notice boards, electronic interactive whiteboards, electronic key fobs being remote control apparatus, electronic tags for goods, electronic agendas; electronic access control systems for interlocking doors; electrical anti-interference devices for reducing electromagnetic or electrostatic fields and ionisation, reducing adverse effects of electromagnetic fields on cordless telephones, mobile telephones, telephone installations and apparatus for wireless data transfer using wireless application protocol (WAP), in particular, filters for radio interference suppression; fire alarms, cinematographic apparatus, connected bracelets being measuring instruments in the nature of wearable activity trackers, frequency meters, radiotelephony sets, printed circuit boards, printed circuits, computer operating programs, recorded, computer software, recorded for the collection, editing, organizing,

modifying, book marking, transmission, storage, and sharing of data and information, computer software platforms, recorded or downloadable for the collection, editing, organizing, modifying, book marking, transmission, storage, and sharing of data and information, global positioning system (GPS) apparatus, semiconductors, anti-dazzle shades being anti-dazzle spectacles, downloadable computer operating programs, downloadable electronic publications in the nature of books, magazines in the field of industrial equipment, downloadable graphics for mobile phones, downloadable computer application software for mobile phones, namely, software for use in database management, high-frequency apparatus in the nature of high frequency switches; altimeters, covers for personal digital assistants (PDAs), covers for smartphones, covers for tablet computers, electrical inductors, infrared detectors, integrated circuits, interactive touch screen terminals, interfaces for computers; ionization apparatus for scientific or laboratory use; joysticks for use with computers, other than for video games; blank integrated circuit cards (smart cards), data processing equipment, namely, couplers, sleeves for laptops, laptop computers, bags adapted for laptops, data processing equipment, namely, chip card readers, luminous or mechanical signals in the nature of luminous traffic signals, air analysis apparatus, magnetic identity cards, materials for electricity mains being components for electrical mains in the nature of electric wires and cables, material testing instruments and machines in the nature of electronic apparatus for testing the curing and drying of elastomeric materials, computer mouse, mouse pads, measuring apparatus being laser distance meter, resistance measuring instruments, microphones, microprocessors, mobile telephones; modems, computer monitors, food analysis apparatus being diagnostic apparatus for testing food, navigation apparatus for vehicles in the nature of on-board computers, navigational instruments for vehicles, notebook computers, optical fibers, light conducting filaments, ozonisers, personal digital assistants, radio pagers, apparatus and instruments for physics for controlling electric current, namely, electrical controllers for magnetic bearing control, plotters, cell phone straps, x-ray apparatus, not for medical purposes, satellites for scientific purposes, satellite navigation apparatus in the nature of satellite-aided navigation systems; data processing equipment, namely, scanners, cases for smartphones, switch connection panels being electric control panels, cordless telephones, protective films adapted for computer screens, head protection being protective helmets; protection devices against x-rays, not for medical purposes in the nature of gloves for protection against X-rays for industrial purposes; transmitting sets being telecommunication transmitters, telecommunication transmitters, transmitters of electronic signals, smartphones, smart rings, smartwatches, probes for scientific purposes, computer memory devices, electric sockets, electric plugs and contacts being electric connections, covers for electric outlets, bar code readers, converters, electric, telephones, telephone wires, telephone transmitters, telecommunication apparatus in the nature of wireless receivers in the form of jewellery, temperature indicating apparatus in the nature of temperature indicators, temperature sensors; thermometers, not for medical purposes; thin client computers, audio and video receivers, sound recording apparatus, portable media players, wearable activity trackers, walkie-talkies, transponders, blank USB flash drives, electrical distribution boxes, voltmeters, thermal imaging cameras, heat regulating apparatus in the nature of water heater controls; wearable computers in the nature of smartwatches, Geiger counters, vibration meters, time recording apparatus; apparatus and instruments for transforming, regulating or controlling electricity, photovoltaic installations, namely, consisting of solar modules for the production of electricity, inverters, electronic apparatus and instruments for controlling, regulating, recording and monitoring electricity; downloadable computer application software for mobile phones, namely, software for use in electronic storage of data; downloadable computer application software for mobile telephones and tablet computers, namely, software for use in electronic storage of data; downloadable mobile applications for the collection, editing, organizing, modifying, book marking, transmission, storage, and sharing of data and information, downloadable software in the nature of mobile applications for mobile devices for the collection, editing, organizing, modifying, book marking, transmission, storage, and sharing of data and

information, wireless transmitters, wireless communication apparatus in the nature of wireless communication devices for voice, data or image transmission; fuel economisers for motors and engines being air-fuel ratio controllers for internal combustion engine

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Television broadcasting, cable television broadcasting, radio broadcasting, providing access to a global computer network, providing telecommunications connections to a global computer network, providing telecommunication services, namely, transmission of data by means of a wireless communication network for wireless data transfer using wireless application protocol (WAP); communication services, namely, transmission of voice, audio, visual images and data by wireless communication networks via wireless application protocol (WAP) and using a secure communications channel, providing internet chatrooms, provision of on-line forums for transmission of messages among computer users concerning general human interests, providing telecommunication channels for teleshopping services, wireless broadcasting, communications by fibre optic networks, radio communications, communications by computer terminals; telephone communications, telecommunications routing and junction services, communications by cellular phones, computer aided transmission of messages and images, satellite transmission, streaming of data, telephone communication services, teleconferencing services, digital data transmission, transmission of electronic mail, electronic message sending, rental of message sending telecommunications apparatus, rental of modems, rental of telecommunication equipment; rental of access time to global computer networks, providing access to databases, video-on-demand transmission; wireless broadband communications services

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Updating of computer software, computer security consultancy in the field of computer virus scanning software, computer technology consultancy, data security consultancy, consultancy in the field of energy measurement to improve energy efficiency and energy-saving, information technology [IT] consultancy, internet security consultancy, telecommunications technology consultancy, consultancy in the design and development of computer hardware, web site design consultancy; providing information on computer technology and programming via a web site, providing search engines for the internet, cloud computing featuring software for the collection, editing, organizing, modifying, book marking, transmission, storage, and sharing of data and information, technical advisory services relating to computer programming, computer system analysis, computer software design for others, computer system design, chemical laboratories, engineering services in the field of energy efficiency, conducting technical project feasibility studies in the field of new technologies, electronic monitoring of credit card activity to detect fraud via the internet; electronic monitoring of personally identifying information to detect identity theft via the internet, computer programming, creating and designing website-based indexes of information for others using information technology, surveying, monitoring of computer systems by remote access to ensure proper functioning, physics research, research in the field of chemistry, technical research in the field of pharmaceutical studies; research and development of new products for others, creating and maintaining web sites for others, hosting of web sites, installation of computer software, cartography services, conducting clinical trials for others, construction drafting, material testing, outsource service providers in the field of information technology, platform as a service (PaaS) featuring computer software platforms for the collection, editing, organizing, modifying, book marking, transmission, storage, and sharing of data and information, quality control for others, server hosting, software as a service (SaaS) services featuring

software for the collection, editing, organizing, modifying, book marking, transmission, storage, and sharing of data and information, software development in the context of software publishing, technological consultancy in the field of computers; monitoring of computer systems to detect breakdowns, monitoring of computer systems for detecting unauthorized access or data breach, rental of computers and computer software, computer rental, rental of web servers, maintenance of computer software, water analysis, material testing, research services in the field of information and telecommunications technology, scientific laboratory services

GOODS AND SERVICES INFORMATION

For Fluid technology, gas technology and lubricating technology installations and components of all kinds for hydraulic oils, fuels, water, gases and pasty media ,namely, oil and gas separators, pneumatic and hydraulic pumps, sensors for monitoring and recording conditions of liquids and gases, degassers in the nature of apparatus for removing gases from liquids, hydraulic and pneumatic drives for machines, pneumatic and hydraulic accumulators and valves as machine components for use in the automotive industry, including mobile hydraulics, the semiconductor industry, the food industry, aeronautics and space travel, medicine, pharmacy, oil and gas transport technology, environmental engineering, laboratory and testing technology, household systems and sanitation technology, and for use in mining and in the field of steelworks, power plants, wind power installations, machine tools, transfer presses and plastic injection moulding machines; machine parts, namely, valves, stop valves, switch-over valves and valves being parts for machines, in particular for hydraulic and pneumatic propellants and media; inflow pressure and circulating pressure balances, namely, valves as machine components in the nature of flow control valves, priority valves, shuttle valves, seat valves and slide valves, coaxial valves, throttle valves, screens, directional control valves, non-return valves, pressure control valves and pressure limiting valves, with and without indicators and monitors, and ventilation valves; machine parts, namely, valves, coaxial valves being retrofit parts for existing hydraulic installations; machine parts, namely, valves, in particular coaxial valves, designed in the form of adapters; control apparatus being parts of machines for hydraulic and pneumatic installations, namely, flow-dividers and control blocks, including valve control blocks in the nature of metal blocks with mountings and passages for supporting and connecting hydraulic and pneumatic valves,

accumulators filters and sensors; damping mechanisms for damping fluid pulsations for coaxial valves and pneumatic and hydraulic valves

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Fluid technology, gas technology and lubricating technology installations and components of all kinds for hydraulic oils, fuels, water, gases and pasty media, namely, dewatering machines for use in treatment of liquids for use in the automotive industry, including mobile hydraulics, the semiconductor industry, the food industry, aeronautics and space travel, medicine, pharmacy, oil and gas transport technology, environmental engineering, laboratory and testing technology, household systems and sanitation technology, and for use in mining and in the field of steelworks, power plants, wind power installations, machine tools, transfer presses and plastic injection moulding machines

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Scientific apparatus and instruments, namely, pressure transducers that convert pressure into analog or digital electrical signals for monitoring and controlling hydraulic and pneumatic systems, pressure switches for monitoring, controlling and switching hydraulic and pneumatic systems, electrical temperature transducers, temperature switches, fluid condition sensors in the nature of liquid level sensors and electric sensors, portable electronic data recorders, angular and inclination sensors and oil condition sensors for monitoring hydraulic and pneumatic media; electronic LCD display units with multi-networking (TCP/IP) capabilities; electric control and checking installations and components of all kinds, namely, electric sensors, electrical controllers, electrical controlling devices and electronic regulating and control devices for the operation of hydraulic and pneumatic installations and machines, transformers, degassing units and tank membranes, namely, for use in the automobile industry, including mobile hydraulics, the semiconductor industry, the food industry, aeronautics, medicine, pharmacy, oil and gas exploration and transport technology, environmental engineering, laboratory and testing technology, household and sanitary systems, as well as in mining and in the field of steelworks, power plants, wind power installations, machine tools, transfer presses and plastic injection moulding machines and paper industry; apparatus for indicating, checking and controlling level, pressure, temperature and quantity for gaseous and liquid media, namely, technical measuring, testing and checking apparatus and instruments for measuring, testing and checking the pressure, temperature, quantity and concentration of gases and liquids; manometer monitoring switches; optoelectronic valve position indicators, in particular for coaxial valves, namely, position indicators in the nature of devices that determine and record positions of movable parts in pneumatic and hydraulic valves and accumulators; electrical switches; monitoring and diagnostic apparatus for use in the electronic measurement technology in the nature of electrical measuring of electrical and correcting devices, namely, electronic circuits for error correction; apparatus, instruments and components for the conducting, switching, converting, storing, regulating and controlling electricity, namely, accumulators and batteries; electrical transducers; electric actuators; electric sensors, namely, pressure sensors, flow sensors, temperature sensors, level sensors, sensors for detecting state variables of liquids and gases, fluid flow sensors, viscosity sensors, gas sensors, conductivity sensors, sensors for determining the dielectric constant, humidity sensors, optical sensors, magnetic sensors, capacitive sensors, chemical sensors, thermoelectric sensors, distance sensors, inclination sensors; particle counters; electric actuators, namely, piezoelectric actuators, electrostatic actuators and magnetic actuators; active and passive electric and electronic components, namely, semiconductors, capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, integrated circuits, rectifiers, transistors, electronic parts

and memory devices manufactured by thick-film, thin-film and solid state technology; microwave antennas; magnets, including in combination with valve switching components, except ignition magnets for motors and engines; individual parts for electronic apparatus, in particular logical elements, electrotechnical and electronic component parts and units consisting thereof, in particular printed circuits, semiconductor component parts, integrated circuits, memory components, resistors, microprocessors; circuit boards with electrotechnical and electronic units; component parts of computers, namely, computer hardware; data processing installations, namely, data processing apparatus; electric and electronic installations for monitoring, testing and controlling industrial working processes and of apparatus and instruments in land, air and water vehicles, in particular semi-conductor building elements; electronic, electromechanical and mechanical apparatus, equipment and instruments for computers and systems constructed from the aforesaid goods, namely, the computer peripheral devices for the acquisition, display, output and transmitting of data and for manufacturing and process engineering; dosimeters; control apparatus for hydraulic and pneumatic installations, namely, flow dividers and control units, namely, valve control units in the nature of electrical valves for controlling gases and liquids; amplifiers for valves, including coaxial valves; holding current reducing equipment for valves, namely, rectifiers, thyristors and triodes

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Ironmongery and small items of metal hardware, namely, screws; fixtures and fittings of metal for attaching valves, control units, and gas pipes, liquid pipes and electric cables; metal fittings for gas and liquid apparatus in the nature of supports and connectors for gas and liquid lines and metal fittings for gas or liquid conduits of metal; fastening elements, namely, metal fasteners in the nature of bolts, screws and rivets; metal clips for general use; metal hose fittings, namely, hose couplings and connections of metal, flexible tubes of metal; metal supports for couplings for liquid and gas conduits; metal screw couplings and metal adapters, namely, structural joint connectors of metal for use with hydraulic and pneumatic systems; sealing caps of metal; valve bodies, namely, for valves not being parts of machines; and adapter housings of metal for enclosing parts of hydraulic and pneumatic systems
