GOODS AND SERVICES INFORMATION

For Machines for the chemical industry, beverage industry, agriculture, metal treating, textile industry, waste disposal and waste process industry, food industry, wood processing and plastics processing, namely electric pumps; mechanical apparatus and instruments for the pressure increase of water, namely bilge pumps, centrifugal pumps, circulating pumps, compressed air pumps, electric pumps, fuel pumps, hydraulic pumps, high pressure pumps, lubricating pumps, macerator pumps; multi-phase screw pumps, pneumatic pumps, rotary pumps, screw pumps, positive displacement pumps, sewage pumps, silt pumps, sludge pumps, submersible pumps, sump pumps, vacuum pumps; machine couplings and transmission components, other than for land vehicles; agricultural implements other than hand-operated, namely irrigation system pumps, sewage pumps and waste water pumps; electric, pneumatic and hydraulic pumps being machines, in particular for building installations, for water supply and water disposal and for industry and agriculture, other than pumps for medical purposes and air pumps, cleaning apparatus and systems; base plate mounted electric, pneumatic and hydraulic pumps; glanded electric, pneumatic and hydraulic pumps; glandless electric, pneumatic and hydraulic pumps; multi-stage centrifugal pumps; electric, pneumatic and hydraulic borehole pumps; effluent electric, pneumatic and hydraulic pumps; sewage pumps; electric, pneumatic and hydraulic pumps being machines and pump systems consisting thereof for drinking and processing of water, ground water, drainage and flood-protection; insulation jackets especially adapted for use with electric, pneumatic and hydraulic pumps; sewage and waste water treatment machinery, namely submersible mixers for the mixing of sewage and waste water, sewage sludge and drilling mud; sump pumps, recirculation pumps; slurry pumps; elevating apparatus being machines for the purpose of elevating liquid substances; mechanical elevating apparatus for wastewater and excrements; spare parts for electric, pneumatic and hydraulic pumps; motors, in particular electric motors,

other than for land vehicles; spare parts for motors other than for land vehicles, namely frequency drives, rotor/stator spare parts, wear spare parts in the nature of bearings; crankcases for machines, motors and engines; valves, fittings and accessories for boiler feedwater pumps; speed control for machines, motors and engines, other than for land vehicles, namely, variable speed drives, speed governors; speed setting instruments for machines, motors and engines, namely, governors; pressure reducers being parts of machines; pressure regulators being parts of machines; pressure valves being parts of machines; electrically operated brushes being parts of machines; filters being parts of machines, motors or engines used in connection with pumps; taps being parts of machines, motors or engines; couplings for machines, other than for land vehicles; compressors for air conditioning and refrigerators; electric, pneumatic and hydraulic pumps being parts of machines, motors or engines; electric, pneumatic and hydraulic pumps; pump diaphragms; electric ventilators for motors; valves being parts of machines; fuel pumps and self-controlling fuel pumps for machines, service stations

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Heating, steam generating, ventilating and water conduit apparatus as well as sanitary installations, namely solar water heaters, solar thermal air heaters for heat purposes, solar powered cooling units, heating systems composed primarily of tubes, pipes and pre-assembled manifolds through which cold or low temperature water circulates, heating systems for residential and commercial buildings comprised of boilers, valves, pipes, manifolds, solar panels, control panels, switches and electric wire, all sold as a unit, central heating radiators; hot water heaters, radiators, electrical water heaters, heat boilers, lamps, ventilation hoods, air purification units; heating installations, in particular water heating installations; heating elements; electric heating apparatus for use in connection with vehicles; heating boilers; heat pumps; heat accumulators; heat exchangers; solar collectors for heating applications; hot water installations, namely heaters; water conduits and distributions systems, namely pipes; pressure water tanks for heating water; HVAC and cooling apparatus, namely air conditioning systems and apparatus, humidifiers, cooling systems, water cooling systems, in particular open or closed circuit cooling towers, refrigerating appliances and installations; water cooling systems, in particular open and closed circuit cooling towers, refrigerating appliances and installations; water collection and treatment systems comprising tanks; water supply installations; drinking fountains; installations for water recovery and treatment; water desalination plants; filters for drinking water; water filtering apparatus; installations for rainwater and ground water utilization, included in class 11, namely installations for water supply, water treatment, sprinkling, watering and irrigation, all the afore-mentioned goods for use with submersible motor pumps, in particular for pressure regulation, with electric control and accessories, in particular water tanks; water purification installations; water sterilizers; water disinfectant apparatus; apparatus for swimming pools, in particular chlorinating units; counter current swimming machines for use in swimming pools to enable swimming in place against an adjustable counter-current, featuring pumps, motor and adjustable current director outlets; whirlpools; purification installations for sewage; installations for waste water treatment, namely reverse osmosis filtration units, utilizing membranes and filters; expansion tanks for central heating systems; automatic watering installations for agricultural use; chlorinating units for swimming pools; insulation jackets being parts of heating and/or water-pipe systems; steam generating installations; district heating plants and apparatus namely for water purification; filters being parts of household or industrial installations, namely water filters, air filters; taps; cooling installations and machines for water and air; refrigerators; air cooling apparatus; oil burners for industrial, commercial, domestic use;

regulating accessories for water or gas apparatus and pipes; safety accessories for water or gas apparatus and pipes, namely valves as plumbing fittings, steam valves, valves as parts of radiators, valves as parts of sprinkler systems and manually operated plumbing valves; refrigerating appliances and installations; thermostatic valves being parts of heating installations; volume expansion automats and automatic pressurizers for heating and cooling water systems as well as for drinking and/or process water systems; water heaters; water softening apparatus and installations; water-bearing fittings; water purification instruments and machines; mixers and stirring units being machines for wastewater treatment; water distribution installations; electric, pneumatic and hydraulic pumps for heating installations

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Building construction, construction of aquatic facilities, underground structures, especially underground facilities; installation, maintenance and repair of pumps, pump stations, mixers and stirring units, elevation systems, sewage plants, sewage disposal plants and sewerage; installation, maintenance and repair of motors and engines; installation, maintenance and repair of heating and air conditioning systems; installation, maintenance and repair of regulating and control systems and of additional components for HVAC and water treatment systems; installation of district and local heat networks; installation of wastewater treatment and disposal plants as well as installation of basins, ponds and pits for water preservation; services regarding flood protection, pressure drainage, ground water lowering, in particular for mining and surface mining, namely structural and civil engineering for water, effluent and compressed air extraction as well as structural and civil engineering for pressure drainage and ground water lowering, in particular for mining and surface mining; structural and civil engineering for excrement and mud extraction; information on repair work in the field of water treatment plants; installation, maintenance and repair of machines in particular of pumps; installation, maintenance and repair of electrical systems and apparatus including control and regulating systems; installation, maintenance and repair of computer hardware; plumbing; overhaul of worn out or partly destructed machines; overhaul of worn out or partly destructed motors and engines; maintenance and repair of pumps; technical consultancy, namely maintenance and repair of pumps, electric engines, heating and sanitary systems as well as of regulating and control systems

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Measuring, signal and control apparatus and instruments, namely flow meters, vortex sensors, ultrasound measuring apparatus for measuring the flowing speed of liquids or for measuring the quantity of liquid fluid through a confined space, temperature indicators, electric current measuring instruments, pressure gauges, water level indicators and/or electric warning lights, switching devices for the operation of one or more pumps with a drive motor, control units in the nature of switch boxes and control boxes for the electrical connection of AC and three-phase pumps, electric flow and pressure controllers, apparatus and instruments; electronic operational monitoring units for control and check of operating status of electric pumps and for providing a warning signal in case of reaching a certain measured value; apparatus and instruments for conduction, connection, conversion, storage, regulation and control of electricity; mechanical devices and apparatus for the analysis and dosing of water; equipment for recording, transmission and reproduction of sound and images; blank magnetic data carriers; calculating machines; fire extinguishers; regulating and control devices, namely electronic control systems for machines and automated process control systems, namely microprocessors based hardware and software used

to monitor the status of industrial machinery, namely pumps and motors, especially for monitoring and indicating operating status of pumps and motors and for providing a warning signal in case of reaching a certain measured value; regulation and control devices, namely electronic motor switches for switching of drive motors that are used in the operation of one or more pumps with a drive motor; regulation and control devices, namely electric pump control systems comprising electronic sensors for measuring the flowing speed of liquids or for measuring the quantity of liquid fluid through a confined space and operating software therefor; regulation and control devices, namely wireless controllers to monitor and control the functioning of other electronic devices, namely pumps; regulation and control devices, namely automatic fluid composition control machines and instruments; regulation and control devices, namely automatic liquid flow control machines and instruments; regulation and control devices, namely automatic liquid level control machines and instruments; regulation and control devices, namely automatic pressure control machines and instruments; regulation and control devices, namely water heater controls; electrical integrated control systems for use in the fields of drinking water and waste water treatment, air conditioning of buildings, heating of buildings and solar power generating; regulation and control devices, namely electric mechanical controls for machines used for drinking and waste water treatment, air conditioning of buildings, heating of buildings and solar power generating; regulation and control devices, namely electric control devices for heating and energy management, namely, climate control systems consisting of digital thermostats, air conditioning, heating, ventilation and drying control devices; regulation and control devices, namely data access parts for use with electrical control panels for connecting multiple data and electrical devices; electro technical instruments, namely armatures for use in electrical apparatus, indicators for speed and temperature, electric installations for the remote control of industrial operations, electric distribution consoles and control panels, electro dynamic apparatus for the remote control of signs, electric coils, electric sensors and electric connectors; junction boxes and distribution boxes for electricity; sprinkler systems and water systems for fire protection; laboratory devices for measuring and evaluation of water quality; fuel cells; electronic publications for information purposes, namely brochures, magazines and newsletters, downloadable; Binary Unit System for data processing, consisting of hardware and operating software; software for use in monitoring and controlling of pumps and motors, for use in monitoring and controlling drinking water and waste water treatment systems, of mixing and steering systems, of air conditioning systems of heating installations or of solar power systems; blank optical, magnetic and electronic data carriers; gauges and displays for electricity; junction boxes for electricity; connection for electric lines; electric batteries; camera films, exposed; observation instruments for use in connection with electric, pneumatic and hydraulic pumps; magnetic encoders for data processing; identity cards, encoded; blank CDs for sound and/or images; computers; computer operating systems, stored; computer peripheral devices; computer programs, stored, for use in monitoring and controlling of pumps and motors, for use in monitoring and controlling drinking water and waste water treatment systems, of mixing and steering systems, of air conditioning systems, of heating installations or of solar power systems; computer programs, downloadable, for use in monitoring and controlling of pumps and motors, for use in monitoring and controlling drinking water and waste water treatment systems, of mixing and steering systems, of air conditioning systems, of heating installations or of solar power systems; data processing apparatus; electronic dosage dispensers for the purpose of dispensing water; fuse wire; choking coils for use in electrical apparatus; pressure measuring apparatus; pressure indicators; electric couplings; electric transformers; electric wires; electric cables; electric capacitors; electromagnetic coils; anti-interference devices for electricity for use in electrical apparatus, namely pumps; telerupters for use in electrical apparatus, namely pumps; remote controls for electrical apparatus, namely pumps; devices for the remote

control of apparatus and instruments, also bidirectional, namely pumps; semiconductors; integrated circuits; interfaces being interface apparatus or programs for computers for the use in connection with pumps; electric cable ducts; wire connectors for electricity; blank smart cards being integrated circuit cards; boiler control instruments; terminals for electricity; comparators; electric contacts; electric regulating apparatus; electrical copper wire, insulated; electric conductors; luminous signs; optical fibres; blank magnetic tapes for use in connection with computers; solenoid valves being electromagnetic switches; electronic quantity indicators; measuring apparatus and instruments for temperature and humidity levels in gases and solid substances measuring instruments, namely tape measures; microprocessors; modems; monitors being computer hardware; regulators, namely pressure regulators for use in connection with pumps; RFID chips, namely radio frequency identification (RFID) tags; RFID scanners, namely radio frequency identification (RFID) readers; cathodic anti-corrosion apparatus for use in connection with pumps; electrical switches; electric apparatus for commutation; distribution consoles for electricity; control panels for electricity; electrical sensors for the acquisition of physical values, namely pressure sensors, differential pressure sensors, temperature sensors, flow sensors for electricity, acceleration sensors; simulators for the steering and control of vehicles and aircrafts; computer memories; electric coils; electric plugs; electric sockets; bar code readers; electricity conduits; ammeters; circuit breakers; electric converters; telemetric apparatus and instruments for use in connection with pumps; temperature control units and/or thermostats; thermometers, not for medical purposes; thermostats; sound recording carriers; voltage surge protectors; electric monitoring apparatus for use in connection with pumps; junction sleeves for electric cables; connectors for electricity; distribution boxes for electricity; heat regulating apparatus namely valves; water level indicators; automatic time switches, namely electronic timers; computer central processing units

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Scientific and technological services, namely research and design in the field of heating, cooling and air conditioning technology and water supply and sewage disposal and sewage treatment; Industrial analysis and research services, namely testing and scientific research in the field of heating, cooling and air conditioning technology and water supply and sewage disposal and sewage treatment; design and development of computer hardware and software; update of computer software; software update by microprocessor-controlled apparatus and instruments; technical consultancy, namely in the fields of hardware, software, telecommunications; computer systems design services; computer software design; services of a software engineer; services of a physicist, namely physics research and consulting; services of a technical measuring and testing laboratory; services of an engineer; conducting technical tests and checks, namely testing and checking the operational status and functionality of pumps, mixing and steering systems, electric motors, electric controlling and regulating systems, heating systems, air condition systems, cooling systems, solar power generating systems and water treatment systems; conducting technical measuring, namely measuring of water quality of drinking water, process water and waste water; conducting scientific studies, namely in the fields of hardware, software, telecommunications, design, application and functionality of pumps, electric engines, heating and sanitary systems and regulating and control systems; electronic data saving, namely, recording data for others on optical; digital and magnetic media for electronic storage; computer programming; technical expertise, namely in the fields of hardware, software, telecommunications, design, application and functionality of pumps, electric engines, heating and sanitary systems and regulating and control systems;

scientific expertise, namely in the fields of hardware, software, telecommunications, design, application and functionality of pumps, electric engines, heating and sanitary systems and regulating and control systems; technical research, namely in the fields of hardware, software, telecommunications, design, application and functionality of pumps, electric engines, heating and sanitary systems and regulating and control systems; engineering research; implementation of computer programs in networks; installation, maintenance and repair of software for computer systems; calibration and functional testing of measuring equipment; configuration of computer networks by software; construction planning and technical project management; material testing; maintenance and installation of software; quality control services, namely computer monitoring services which tracks application software performance, performs periodic maintenance and provides reports and alerts concerning such performance; technical consultancy services relating to the manufacturing, installation, maintenance and repair of pumps, pump stations, mixers and steering units, elevation systems, sewage plants, sewage disposal plants and sewerage; technical project studies, namely in the fields of hardware, software, telecommunications, design, application and functionality of pumps, electric engines, heating and sanitary systems and regulating and control systems; rental and maintenance of computer software; rental of software for Internet access; scientific research

CASE IDENTIFIERS

Serial Number 86123568 **Application Filing Date** Nov. 19, 2013 **Register** Principal **Mark Type** Service Mark **Publication Date** Jan. 20, 2015

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a green equilateral Triangle pointing upward at the center of a black circle shape. Three thick white lines border the center triangle. One side of each white line extends beyond the edge of the triangle out to the edge of the surrounding circle shape. The three thick white lines create a larger white triangle-shaped object that suggests an abstract letter "A" or a pinwheel. The outer circle is black on the outside border with a light gray center. The three thick white lines that border the center green triangle cuts the black to gray shaded circle into three identical 3-sided shapes one curved side and two straight-line sides. The term "TRU" in black is to the left of the circle. The term "ARMOR" in black is to the right of the circle. The words "PROTECT EMPOWER PREPARE" in black are below the term "ARMOR" with a green triangle between each word. **Color Drawing** Yes **Color Claimed** The color(s) White, Gray, Black and Green is/are claimed as a feature of the mark.
