GOODS AND SERVICES INFORMATION

For Imaging systems comprising imaging apparatus and concomitant operating software for medical, dental and veterinary diagnostic purposes; medical imaging apparatus for tracking movement, in particular for obtaining condylographic data, directly from patients, namely, radio tomographic medical imaging apparatus; surgical apparatus and instruments for medical, dental and veterinary use; electric dental and orthodontic apparatus, namely, dental drills; dental instruments for use in implant procedures and surgery; artificial dental implants; pins for artificial teeth; artificial teeth; dental crowns and bridges; complete dentures; partial dentures; mouth protectors and jaw guards being medical apparatus

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Education, namely, classes, seminars, and training relating to the use of medical apparatus, in particular for treating craniomandibular dysfunction; training in computer programs to assist surgical, medical and dental diagnosis, planning and treatment, in conjunction with imaging processes and techniques

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Computer hardware and computer software for imaging in the medical, dental and veterinary fields; computer software for processing, displaying, merging, retrieving, managing, storing and transmitting of radiographic recordings and other digital images and data for use in the medical, dental and veterinary fields; software for virtualising the movements of the jaw joint; software for the management of medical and dental practices; imaging apparatus and equipment, namely, digital signal processors, electric sensors, radiation detectors, wireless transmitters and receivers, cameras, scanners, computer monitors, computers and printers

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Medical services, veterinary services; hygienic and beauty care for human beings or animals; medical services in the field of the treatment of craniomandibular dysfunction and in the field of the use of medical apparatus for treating craniomandibular dysfunction

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For Custom manufacture of prosthetic devices

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Industrial research in the field of medical technology in connection with imaging processes and techniques; computer programming relating to imaging processes and techniques in the field of medical technology; development of computer programs to assist surgical, medical and dental diagnosis, planning and treatment, in conjunction with imaging processes and techniques, and computer software consultancy pertaining thereto; medical research laboratory services

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a design featuring a red thumbs up symbol that is outlined in white. The symbol is inside a red rectangle with white outlining. The white wording "FELISATTI" is presented to the right of the design. The background for the mark is red. **Color Drawing** Yes **Color Claimed** The color(s) red and white is/are claimed as a feature of the mark. **Color Location** The frame which surrounds the trademark is red and both the words as well as the logo on the left are in white.

GOODS AND SERVICES INFORMATION

For machine tools, namely, lathes, gear cutters, tools for machines for use in metal-working; motors and engines other than for land vehicles, namely, air craft motors and engines; machine coupling and transmission components other than for land vehicles; incubators for eggs; automatic distributors machines for vehicles; electric can openers; fittings for marine engine boilers; machine couplings other than for land vehicles; aerocondensers being machine parts; air brushes for applying color; aeronautical engines; mechanized blade sharpening stropping machines; sharpening machines; agitators for chemical processing; agricultural elevators; agricultural machines, namely, cultivators, harvesters, disk harrows, seeders; mineral water making machines; compressed air machines; compressed air engines; air condensers; gasifiers; carburetor feeders being machine parts; paper feeders for use with printing machines; electric food preparation machines, namely, blenders, grinders, mixers, processors; industrial electromechanical marking machines; mechanized livestock feeders; alternators; kneading machines; grease rings being parts of machines; piston rings; anti-pollution devices for motors and engines; electric arc cutting apparatus; electric welding machines; electric arc welding machines; electrical machines for sealing plastics packaging; electric door openers; road rollers; ploughs; shaft couplings for machines; transmission shafts, other than for land vehicles; mechanized ramming machines; stands for machines; kick starters for motorcycles; starters for motors and engines; elevators; asphalting paving machines; air suction machines; dust exhausting installations for cleaning

purposes; suction machines for industrial use; vacuum cleaners; vacuum cleaner attachments for disseminating perfumes and disinfectants; sheaf-binding machines; power-operated industrial atomizers machines; winnowers; aeroplane engines; sugar-making machines; adhesive bands for pulleys; engines for boats; motors for boats; road sweeping machines self-propelled; frames being parts for embroidery machines; gears being parts of electric weaving looms; concrete and asphalt mixer machines; electric whisks for household use; electromechanical machines for making beverages; aerated beverage-making machines; bicycle dynamos; bicycle-assembling machines; connecting rods for machines, motors and engines; ditcher plows; bitumen-making machines; reels being parts for machines; bobbins for weaving looms; vacuum cleaner bags; self-regulating fuel pumps for land vehicles; centrifugal pumps; compressed air pumps; powered air pumps for garages in the nature of car service stations; aerating pumps for aquariums; beer pumps; lubricating pumps; vacuum pumps being machines; electric pumps being machines; pumps as parts of machines, engines or motors; spark plugs for internal combustion engines; diesel engine heating plugs; bulldozers; saw benches parts of machines; control cables for machines in the nature of capstans; net hauling fishing machines; winches; driving chains other than for land vehicles; elevator chains parts of machines; transmission chains other than for land vehicles; electric coffee grinders; gear boxes other than for land vehicles; journal boxes being parts of machines; grease boxes being parts of machines; calendars in the nature of assembly of rolls at the dry end of the paper machine; hosiery looms; steam engine boilers; water heaters as parts of machines; bottle capping machines; carburetors; bearing housings parts of machines; carding machines; road building machines; knitting machine parts, namely, sliders; crankcases for machines, motors and engines; cartridges sold empty for industrial filtering machines; power-operated chain-type trenching machines, namely, spader machines for digging trenches; centrifugal machines; centrifugal rolling mills; planing machines; brushes parts of machines; apparatus in the nature of pumps for drawing up beer under pressure; printing machines for use on sheet metal for commercial and industrial use; automatic machines for making cigarettes industrial purposes; crank shafts; machine parts, namely, printing cylinders; rolling mill cylinders; cylinders for machines; cylinders for motors and engines; pistons for cylinders; mechanized chisels for machines; mechanical belts for machines, conveyor belts; electric shears; sorting machines for industrial use; electric kitchen machines, namely, mixers and food blenders; anti-friction bearings for machines; machine parts, namely, needle bearings; ball-bearings for machines; bearings for transmission shafts being parts of machines; bearings as parts of machines; air cushion devices being parts of earth moving machines in the nature of loaders; engines for air cushion vehicles; exhaust manifolds for engines; boiler scale collectors being machine parts; waste compacting machines; type-setting machines for printing; compressors as parts of machines; compressors for refrigerators; mechanized condensing installations; steam condensers as parts of machines; catalytic converters; torque converters for steelworks, not for land vehicles; fuel conversion apparatus as parts for internal combustion engines not for land vehicles; torque converters other than for land vehicles; drilling bits as parts of machines; drilling heads as parts of machines in the nature of power tools; belts for machines; fan belts for motors and engines; dynamo belts; elevator belts; belts for motors and engines; lawnmower machines; electric chaff cutters; metal working machines, namely, cutters; electrically operated curtain-drawing devices; power mowing and reaping machines; sewing machines; stitching machines; racks and pinions for power jacks; sifting installations for industrial purposes; sifters as machine parts; power jacks; cowlings as parts of machines; blades for electric chaff cutters; blades as parts of machines; electric knives; leather-working machines; cylinder heads for motors and engines; power-operated cultivator machines; bending machines; carriage aprons as parts of machines; machines, namely, de-aerators for feed water; leather paring machines; grain husking machines; dust removing installations

for cleaning purposes; grain separators; disintegrators; shredder machines for industrial use; reduction gears other than for land vehicles; cream and milk separators; mechanical reeling apparatus for use with paper and yarn; mechanized reels for flexible hoses; pump diaphragms; glaziers' diamonds as parts of machines; dynamos; feeder parts of machines; drainage machines,, namely, drain jetters and cocks; fuel economizer apparatus as parts of motors and engines; axles for machines; electric motors, other than for land vehicles; electrodes for welding machines; elevators; drain jetter lifts; elevating apparatus, namely, motors, doors, and gears for elevators; packaging machines; clutches for power transmission machines other than for land vehicles; sausage machines; packing machines; lace making machines; whitewashing machines, namely, painting machines; igniting devices for internal combustion engines; electric parquet floor wax-polishers; electric machines and apparatus for waxing floors; bookbinding apparatus and machines for industrial use; binding apparatus for hay; machine wheelwork; gears, other than for land vehicles; lubricators as parts of machines; rinsing machines; inking apparatus for printing machines; wrapping machines; moving staircases, namely, escalators; weeding machines; electric carbon brushes; dynamo brushes; brushes, electrically operated; water-rinsing machines for laundry; hair clipping machines for animals; die-stamping machines; sealing machines for industrial use; stators as parts of machines; stereotype machines, namely, industrial printing machines; drawing machines for metal; electronic labeler machines for industrial use; excavating machines; electric fruit presses for household use; turf removing ploughs; mechanized extractors for mines, namely, borers; ejector machines, namely, borers; heel-making machines; threading machines; air filtering machines; filters for cleaning cooling air for motors and engines; oil, gas, and air filters as parts of machines or engines; brake linings for machines, other than for vehicles; type-setting machines; photo composition machines; milling machines; forge bellows; foundry machines, namely, injecting moulding machines; typecasting machines; electroplating machines; electricity current generators; generators of electricity; embossing machines; journal boxes parts of machines; engraving machines; drain cocks; taps as parts of machines, engines or motors; cranes as lifting and hoisting apparatus; emergency power generators; card clothing as parts of carding machines; machine parts, namely, guides for machines; hemming machines; tedding machines; hand-held tools, other than hand-operated, namely, broaches, chasers, lathes; mechanized tools as parts of machines; hydraulic turbines; hydraulic door openers and closers as parts of machines; hydraulic engines and motors; gas-operated soldering irons; electric soldering irons; spinning frames; saw blades as parts of power-operated machines; knives as parts of power-operated machines; lasts as parts of shoe-machines; concrete mixers machines; grating machines for vegetables; printing machines for industrial use; flour milling machines; dairy machines, namely, milking machines and condensed milk making machines; heat exchangers as parts of machines; injectors for motors and engines; cardan and sealing joints parts of engines; power-operated basket presses; rolling mills; shuttles as parts of machines, not being for land vehicles; power-operated cleaning machines, namely, thermal lances; washing installations for vehicles; bottle washing machines; dishwashers; coin-operated washing machines for laundry washing; electric machines and apparatus for carpet shampooing, electric; lifting apparatus, namely, cranes; electric cleaning appliances utilizing steam, namely, dishwashers and clothing dryers; multi-purpose high pressure washers; central vacuum cleaning installations; shafts as parts of electric looms; bottle filling machines; filling machines; electric shoe polishers; crushing machines for industrial purposes; igniting magnetos for engines; pneumatic control mechanisms for machines, engines or motors; hydraulic controls for machines, motors and engines; pneumatic controls for machines, motors and engines; chucks as parts of machines; automatic handling manipulators, namely, machines forging presses and for forging machines; handling

apparatus as parts of loading and unloading machines; crank as parts of machines; pressure reducers as parts of machines; butter machines; machines for catching and collecting mud; galvanizing machines; steam engines; adhesive tape dispensing machines; machines for processing plastics; electric hammers; pneumatic hammers; hammers parts of machines; power-operated hammers, namely, jack hammers; pile-drivers; derricks; electronic matrices for use in printers; power-operated machines for treating ore; tables as machine parts; metalworking machines, namely, hydraulic presses, lathes, lapping machines; mixing machines; electric food blenders for household use; mine working machines; molds as parts of machines; injection plastic molding machines; mechanized salt and pepper mills for household use, other than hand-operated; rolling mill machines; hoists; mortising drilling machines; power-operated motorized cultivators; pistons for internal combustion engines; driving motors other than for land vehicles; earth moving machines; grindstones as parts of machines; machine parts namely, millstones; power-operated machine tools, namely, notchers; pneumatic tube conveyors; pneumatic door openers and closers as parts of machines; pneumatic transporters; milking machines; mechanical shovels, mechanical; bread cutting machines; paper machines, namely, calendaring, coating and bag making machines; paper-making machines; machines for making edible pastes; brake pads other than for vehicles; drilling machines, namely, power-operated drills; meat chopping machines; stone working machines, namely, power-operated polishers; pepper mills other than hand-operated; painting machines; compressed air guns for the extrusion of mastics; electric glue guns; power-operated guns tools that are used with explosives; spray guns for paint; shock absorber plungers as parts of machines; pistons as parts of machines or engines; electric ironing machines for pressing clothes; electric clothing printing plates; pulleys being parts of machines; pulleys as parts of machines; drill chucks being parts of machines parts of machines; holding devices for machine tools; blade holders as parts of machines; bottle sealing machines; stuffing boxes as parts of machines; machines for making swags; printing presses; rotary and portable steam presses for fabrics; wine presses; fodder presses; typographic presses; pressure valves as parts of machines; propulsion mechanisms other than for land vehicles; machines for puddling, namely, apparatus to cover items with water; roller bridges, namely, wheel-type cranes and crawler-type cranes; electric door closers; electric machines and apparatus, both for polishing; sewage pulverizers for industrial and commercial applications; punching presses; punches as parts of punching presses; steam traps, namely, mechanical condensators; snow plows; radiators for cooling motors and engines; machines for laying subway rails; power-operated machines, namely, loading ramps; racket stringing machines; tractor towed agricultural implements, namely, harrows; raking machines; rakes as parts of hay raking machines; machines for making friezes; jet engines other than for land vehicles; cutting machines; trueing machines; oil refining machines; feed water regulators being parts of machines; pressure regulators as parts of machines; speed governors as parts for machines, engines and motors; regulators as parts of machines; ploughshares; machines for riveting metal and plastics; springs parts of machines; tractor-towed agricultural instruments, namely, automatic grappels for marine purposes; electric food processors; industrial robots; self lubricating bearings as machine parts; printing rollers as machine parts; nut-tapping machines; rotary printing presses; coalcutting machines; machines, namely, spinning wheels; machine wheels as parts of machines; freewheels other than for land vehicles; air sanitizing machines; spin driers not heated; reapers; reapers and binders; knives for power-operated lawn mowing machines; reapers and threshing machines; brake segments other than for vehicles; agricultural seed planting machines, namely, sower machines; stalk separators; centrifugal separators; steam and oil separators; chain saws; electric machines, namely, saws; silencers for motors and engines; pedal drives for sewing machines; superchargers; superheaters as parts of steam engines; electric welding machines; gas-operated soldering apparatus; electric soldering apparatus; blowing machines; bellow

machines; blowing machines for the compression, exhaustion and transport of gases; blowing machines or fans for the compression, sucking and carrying of grain; gas-operated blow torches; gas-operated cutting blow pipes; soldering lamps; gas-operated soldering blow pipes; slide rests as parts of machines; bearing brackets for machines; mounting hangers adapted for exhaust systems for internal combustion engines; fuel dispensing pumps for service stations; tobacco processing machines; electric hand-held drills; mine borers; drums not being brake drums as parts of machines; industrial sieves as machines or parts of machines; cinder sifter machines; bottle stoppering machines; power-operated knitting machines; power-operated looms as machines; textile-dyeing machines; electric scissors; mechanized stamping machines; typographic machines in the nature of presses; hoppers mechanical discharging; power-operated potters' wheels; lathes being machine tools; floating and non-floating drilling rigs; transmissions, other than for land vehicles; transmissions for machines; belt conveyors; conveyor machines; cord-making machines; braiding machines; threshing machines; garbage waste disposals; electric food grinders and crushers for household use; vacuum cleaner hoses; boiler tubes as parts of machines; exhausts for motors and engines; flues for engine boilers; wind turbines; turbines other than for land vehicles; turbocompressor machines; clack valves as parts of machines; valves as parts of machines; fans for motors and engines; teat cups suction cups for milking machines; railroad constructing machines, namely, concrete and asphalt paving machines, jack hammers; concrete vibrators being machines for industrial use; glass working machines, namely, glass cutting and blowing machines; machine fly-wheels; rubber vulcanization apparatus; brake shoes other than for vehicles; darning machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Blank magnetic recording media, namely, sound recording disks; pre-recorded compact disks, DVDs featuring music; mechanisms for coin operated apparatus; cash registers, calculating machines; data processing equipment, computers; software for use in database management and electronic storage of data; fire extinguishers; abacuses; particle accelerators; acid hydrometers; scientific angle measurement devices, namely, azimuth instruments; connections for electric lines; acoustic couplers; couplers, namely, data processing equipment; actinometers; electric accumulators; disk cleaning apparatus for sound recorders; aerometers; electronic agendas; surveying instruments; electro-dynamic apparatus for the remote control of railway points; needles for record players; air analysis apparatus; stills for laboratory experiments; anti-intrusion alarms; anti-theft warning apparatus; fire alarms; sound alarms; alcoholmeters; fuse wire; mouse pads; alidades; diagnostic apparatus for testing food; loudspeakers; altimeters; asbestos clothing for protection against fire; ammeters; enlarging apparatus photography, namely, projection apparatus; amplifiers; testing apparatus for, concrete, computer components, metal strength, not for medical purposes; anemometers; calibrating rings, namely, industrial calibration sensors; anodes; antennas; surveyors' levels; anticathodes; electronic cathodic anti-corrosion apparatus, namely, anodes for the prevention of electrolytic corrosion; electronic anti-interference devices, namely, anti-glare spectacles; electric theft prevention installations; GPS (global positioning systems); data processing apparatus; X-ray apparatus not for medical use; X-ray producing apparatus and installations, not for medical use; optic apertometers, namely, instruments for measuring the angular and numerical aperture of the objective lens of a microscope; downloadable music files; electrical distribution boxes; safety restraints, other than for vehicle seats and sports equipment; asbestos gloves for protection against fire accidents; apparatus and instruments for astronomy, namely, spectrographs; headphones; telephone receivers;

scales; precision balances; lighting ballasts; luminous beacons; luminous or mechanical road signs; life-saving rafts; laboratory trays; fire boats; barometers; weighing machines, namely, weighbridges; fire beaters, namely, sprinklers and fire-extinguishers; acid hydrometers for batteries; anode batteries; batteries for lighting; electric batteries for vehicles; plates for batteries; betatrons; binoculars; electric coils; holders for electric coils; electromagnetic coils; speaking tubes, namely, megaphones; bags specially adapted for portable computers; fire engines; flashlights for photography; electrical wire connectors; multi-functional electronic payment terminals; push buttons for electric door bells; reference buoys, namely, navigational buoys; signalling buoys; tone arms for record players; identification threads for electric wires; directional compasses; marine compasses; spirit levels; coaxial cables; battery starter cables for use with motors and engines; fiber-optic cables; electric cables; surveying chains; eyeglass chains; cabinets for loudspeakers; accumulator boxes; electricity branch junction boxes; switchboxes electricity; electricity junction boxes; petri dishes; containers specially adapted for microscope slides; automated teller machines, namely, ATMs; electrically heated socks for protection calculators; boiler control instruments; level and cross beam depth gauges; calipers for measuring trees; shoes for protection against accidents, irradiation and fire; cinematographic cameras; decompression chambers; cameras for photography; jukeboxes for computers; signal bells; protective masks for workers; solderers' helmets; battery chargers; chargers for electric batteries; spools photography equipment in the nature of cameras; video game cartridges; riding helmets; protective helmets; protective helmets for sports; telescopes; cathodes; galvanic cells; photovoltaic cells; laboratory centrifuges; electric locks; bullet-proof vests; life jackets; chips, namely, integrated circuits; DNA chips; cyclotrons; editing appliances for cinematographic films; blank magnetic tapes for tape recorders and computers; demagnetizing apparatus for magnetic tapes; sound recording strips, namely, pre-recorded sound recording strips featuring music; head cleaning tapes for audio and video recorders; life belts; printed circuits; integrated circuits; gradient indicators, namely, level indicators; insulated copper wire; magnetic encoders; bar code readers; electric collectors in the nature of photovoltaic cells; comparators; measuring instruments, namely, magnetic compasses; laptop computers; condensers and capacitors; optical condensers; electricity ducts; materials for electricity mains, namely, wires and cables; electric conductors; acoustic conduits; electricity conduits; electricity connectors; electric apparatus for commutation; switches, namely, commutators; converters; safety traffic cones; electricity distribution consoles; electric contacts; meters for measuring electricity; answering machines; electrical controllers; speedometers for vehicles; apparatus to check franking, namely, telemeters; remote controls for telemeters; electric installations for the remote control of industrial operations; electro-dynamic apparatus for the remote control of signals; laboratory cupels; eyeglass cords; straps for mobile telephones; measuring instruments, namely, telemeters; cosmographic instruments, namely, radio and zenith telescopes; dressmakers' tape measures; circuit closers; galena crystals sensors for use in electronics; chromatography apparatus for laboratory use; chronographs, namely, time recording apparatus; darkroom photography lamps; photography washing trays for use in developing photos; measuring spoons; thread counters in the nature of screw-thread measuring machines; kilometer recorders for vehicles, namely, odometers; tire revolution counters; measuring apparatus for measuring the thickness of leather; densimeters; densitometers, namely, electronic spectrophotometers for use in identifying and measuring colors; distillation apparatus for scientific use; carbon dioxide detectors; detectors for counterfeit and false coins; smoke detectors; metal detectors for industrial or military use; electro-acoustic diaphragms, namely, transducers that vibrates to receive or produce sound waves; photography diaphragms, namely, mechanical device in a camera that controls size of aperture of the lens; photographic transparencies; centering apparatus for viewing photographic transparencies; pre-

recorded CDs and DVDs featuring animated cartoons; dictaphones; microscopes for diffraction apparatus; dynamometers; money counting and sorting machines; light-emitting diodes or LEDs; blank DVDs for recording sound; audio video compact disks featuring music; calculating disks, namely, calculators; blank magnetic disks; illuminated reflecting disks for clothing, for the prevention of traffic accidents; shutter releases for cameras; blank floppy disks; distance measuring apparatus; electronic parking, lottery, and admission ticket dispensers; circuit breakers; machines for dispensing pre-determined dosages of medication; marine depth finders; electrolyzers; transmitters of electronic signals; electric couplings; electric igniting apparatus for igniting vehicles at a distance; electrical instruments and machines for testing compression, strength, hardness and tensile characteristics of industrial materials; epidiascopes; weighing equipment, namely, balancing apparatus; ergometers not for medical purposes ; diving suits; fire escape ladders; navigation equipment, namely, sounding leads in the nature of lead weights at the end of sounding lines; data processing equipment, namely, scanners; power-operated equipment drainers for use in photography; spherometers; spectrograph apparatus; mirrors for inspecting work; scientific and technical apparatus, namely, mirrors optics; scientific and technical apparatus for measuring the thickness of skins, not for medical purposes; drying racks photography; stereoscopic apparatus, namely, stereoscopes; stroboscopes; cases fitted for microscopy dissecting instruments; cases especially made for photographic apparatus and instruments; spectacle cases; cases for contact lenses; cases for pince-nez; electronic tags for goods; temperature indicator labels not for medical use; measuring apparatus, namely, meters for checking exposure to light; fire blankets as fire extinguishers; automated invoicing machines for processing account information; facsimile machines; apparatus for fermentation for laboratory use; fiber optic filaments for conducting light; laboratory instruments, namely, filters for ultraviolet rays, for photography; filters for photography; filters for respiratory masks; flash-bulbs for photography; blueprint apparatus; photocopiers; thermal electrostatic photocopying machines; glazing apparatus for photographic prints; drying apparatus for photographic prints; photometers; frequency meters; identification sheaths for electric wires; sheaths for electric cables; laptop carrying cases; fuses; goggles for sports; sunglasses; optic spectacles; jiggers as measuring instruments; galvanometers; gas testing instruments; gasometers as measuring instruments; surveying apparatus and instruments; meteorological balloons; sound recording apparatus; media for recording sound; video recorders; marking gauges for joinery purposes; protective gloves for divers; gloves for protection against accidents; gloves for protection against X-rays for industrial purposes; heliographic apparatus; hydrometers; hygrometers; electric wires; magnetic wires; telephone wires; telegraph wires; hologram apparatus; furnaces for laboratory use; magnets; decorative magnets; computer printers; incubators for bacteria culture; automatic indicators of low pressure in vehicle tires; quantity indicators, namely, measuring apparatus in the nature of bevels, angle finders and laser distance meters; gasoline gauges; measuring apparatus, namely, indicators for loss of electricity; temperature indicators; speed indicators; water level indicators; armatures for use in electric apparatus; electrical inductors; intercoms; interfaces for computers; fitted carriers for photographic dark plates; electric switches; electrical inverters; scientific and laboratory equipment, namely, ionization apparatus not for the treatment of air or water; surveying instruments, namely, leveling staffs; hands free kits for telephones; lactodensimeters; optical lamps; darkroom lamps for photography; fire hose nozzles; visual display units, namely, electronic pens; lasers, not for medical use; cassette players; compact disk players; DVD players; data processing equipment, namely, data readers; optical character readers; correcting lenses optics; contact lenses; instruments containing eyepieces; optical lenses; eyeglass lenses for correcting lenses; lens hoods; neon signs; luminous signs; mechanical signs; electricity limiters; signal lanterns in

the nature of magic lanterns; magic lanterns; safety tarpaulins; signaling lights, namely, blinkers; optical magnifying glasses; tape recorders; wind socks for indicating wind direction; fire hoses; junction sleeves for electric cables; crash test dummies; mannequins as teaching apparatus in the field of resuscitation; pressure gauges; fire blankets; hemline markers in the nature of graduated rulers; frames for photographic transparencies; digital photograph frames; divers' masks; protective masks; respiratory masks, for non-medical purposes; mathematical instruments, namely, calculators; measuring apparatus, namely, clamp meters for measuring electricity; apparatus for measuring electricity; measuring instruments, namely, graduated rulers; speed measuring apparatus as part of photo cameras; megaphones; computer peripherals, namely, memory devices; USB flash drives; automatic liquid-level control instruments, namely, mercury levels; meteorological instruments; metronomes; graduated rulers as measuring instruments; microphones; microprocessors; microscopes; microtomes; sighting telescopes for firearms; peepholes as magnifying lenses for doors; furniture especially made for laboratories; modems; monitors as computer hardware; spectacle frames; eyeglass frames; breathing apparatus for underwater swimming; navigation apparatus for vehicles, namely, on-board computers; satellite navigational apparatus, namely, global positioning systems; leveling instruments, namely, level gauges; levels instruments for determining whether something is completely horizontal; verniers, namely, calipers for measuring; lenses for astrophotography; optics, namely, objective lenses; boards for integrated circuits; lens shutters for photography; octants; protective eyepieces; punched card machines for offices; ohmmeters; wavemeters; computers; notebook computers ; laptops; oscillographs; egg-candlers; ozonizers; horns as loudspeakers; micrometer gauges; luminous or mechanical sign panels; asbestos screens for firemen; projection screens; video screens, namely, projection screens; fluorescent screens; screens for photo-engraving; radiology screens for industrial use; spark-guards for protection; lightning conductors in the form of rods; parking meters; film-cutting apparatus for editing photo films; exposed cinematographic films; exposed X-ray films; exposed photographic films; computer peripheral devices; periscopes; letter scales; weighing apparatus and instruments; weighing machines; lactometers; test weights; slide calipers; stands for photographic apparatus; electric batteries; galvanic batteries; solar batteries; autopilots in the nature of electronic automatic controls for adjusting, steering, and keeping course; nose clips for divers and swimmers; pipettes; pyrometers; surveying instruments, namely, plane tables; planimeters; plumb lines; plumb bobs; plotters; pedometers; polarimeters; masts for wireless aerials; pressure measuring apparatus; mechanisms for coin-operated apparatus; prisms for optics purposes; laboratory equipment, namely, test tubes; processors as central processing units; pre-recorded computer operating software; pre-recorded computer programs for use in database management and in electronic storage of data; downloadable software for use in database management and in electronic storage of data; voltage surge protectors; teeth protectors, namely, mouth guards, not for athletic use; screen projectors; slide projectors; apparatus for changing record player needles; magnetic encoded identification bracelets; light-emitting electronic pointers; pince-nez; radar apparatus; radios; vehicle radios; radio pagers; X-ray photographs, other than for medical use; radiotelephony sets; walkie-talkies; radiotelegraphy sets; electrified conductor rails for mounting spot lights; computer mice for data processing equipment;X-ray apparatus not for medical use; protection devices against X-rays, not for medical purposes; choking coils for impedance for use in electrical apparatus; audio and video-receivers; measuring glassware; current rectifiers; nets for protection against accidents; life nets; electric cell switches; refractometers; refractors, namely, refractometers; measuring apparatus, namely, distance recording apparatus; pressure indicators; time recording apparatus; slide-rules; carpenters' rules; graduated rulers; electric controllers in the nature of regulators for stage lighting; speed regulators for record players; voltage regulators for vehicles; grids for batteries; electric relays; egg timers; sandglasses; time clocks as time recording

devices; rheostats; wrist rests for use with computers; sound reproduction apparatus; personal stereos; portable media players; electric resistors; respiratory masks for filtering air; retorts for use in high temperature chemical reactions; sprinkler systems for fire protection; musical jukeboxes; protective knee-pads for workers; balances, namely, steelyards; clothing especially made for use in laboratories; clothing for protection against fire; screw-tapping gauges; saccharometers; salinometers; life buoys; satellites for scientific use; railway traffic safety apparatus; traffic-light apparatus signaling devices; semi-conductors; non-explosive fog signals; luminous or mechanical signals; sextants; signal whistle as alarms; signaling whistles; dog whistles; training simulators for the steering and control of vehicles; sirens; computer game software; sonars; sounding lines; ultrasound probes for scientific use; sound transmitting apparatus; sound locating instruments; blank magnetic data-recording media; stands for use with retorts that are for use in high temperature chemical reactions; sulphitometers; adding machines; switchboards; electric power-distribution board; electronic notice boards; tachometers; covers for electric outlets; ear plugs for divers; pressure indicator plugs for valves; printed circuit boards; smart cards as integrated circuit cards; encoded magnetic cards; magnetically encoded identity cards; taximeters; computer keyboards; teleprompters; telephone apparatus; telephone transmitters; mobile telephones; photo-telegraphy apparatus; telegraphs; range finders; teleprinters; television apparatus, namely, television receivers; coin-operated mechanisms for television sets; automatic time switches; theodolites; thermometers not for medical use; heat regulating apparatus, namely, thermostats; thermostats for vehicles; warning bells; electric alarm bells; electric door bells; record players; downloadable ringtones for mobile telephones; micrometer screws for optical instruments; totalizators, namely, calculators; clectronic pocket translators; clothing for protection against accidents, irradiation and fire; protective suits for aviators; suits for protection against fire; screens for photoengraving; electricity transformers; step-up transformers; electronic transistors; sound and image transmitters for telecommunication; transponders; protractors as measuring instruments; vehicle breakdown warning triangles for safety purposes; triodes; tripods for cameras; amplifying tubes; laboratory instruments, namely, capillary tubes; electric discharge tubes other than for lighting; Pitot tubes; X-ray tubes, not for medical purposes; radio vacuum tubes; thermionic tubes; magnetic tape units for computers; disk drives for computers; urinometers; vacuum gauges; electrified fences; solenoid valves as electromagnetic switches; electric light regulators, namely, dimmers; rods for water divers; variometers; accumulator jars; video cameras, blank video tapes; video telephones; glass covered with an electrical conductor; optical glass, namely, glass lenses for eyeglasses; electric monitoring apparatus for monitoring energy useage; viscosimeters; anti-dazzle shades, namely, anti-glare screens for computer monitors; photographic viewfinders; voltmeters, voting machines; electric buzzers
