GOODS AND SERVICES INFORMATION

For Blank paper computer tapes; Blank paper computer tapes for recording programs; Blank paper tapes and cards for the recording of computer programs; Computer manuals for computer hardware and software and solutions consisting of computer hardware and software, networks and operating or production equipment or parts thereof; Computer program manuals for computer hardware and software and solutions consisting of computer hardware and software, networks and operating or production equipment or parts thereof; Software programmes and data processing programmes in printed form **International Classes** 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter **First Use** Mar. 27, 2000 **In Commerce** Sep. 2001

For Automated microscope and operating software sold as a unit for use in laboratory operations; Automated process control system, namely, micro-processor based hardware and software used to monitor the status of industrial machinery, namely, turbines, generators and compressors; Automated process control system, namely, micro-processor based hardware and software used to monitor the status of industrial processes, namely, power generation, electrical distribution and oil and gas processing; Automated systems, namely, software, hardware and communications devices for planning, scheduling, controlling, monitoring and providing information on transportation assets and parts thereof; Backpacks especially adapted for holding laptops and notebook computers; Backup drives for computers; BIOS (basic input out put system) computer programs; BIOS (basic input/output system) computer program; Blank computer discs; Blank discs for computers; Blank floppy computer discs; Blank hard computer discs; Blank hard drives for computers; Blank magnetic computer tapes; Blank tapes for storage of computer data; Broadband power line communication systems for transferring broadband data over electrical power lines, comprised of computer hardware, software and modems; Building security

systems comprising software and hardware for providing picture, video, alarm status, building plans, and other information to a remote station; Calculating machines, data processing equipment and computers; Calculating machines, data-processing equipment and computers; Cards and microprocessors for computers; Cash registers, calculating machines and data processing equipment and computers; Cash registers, calculating machines, data processing equipment and computers; Cash registers, calculating machines, data-processing equipment and computers; CD Drives for computers; Central processing units (CPU); Communication software for providing access to the Internet; Communication software to access data stored on an oximeter and transfer data to another device; Communications computers; Communications servers; Compiler software; Computer accelerator board; Computer anti-virus software; Computer application software for mobile phones; Computer backup and storage systems with multiple removable RAID cartridges; Computer based apparatus for designing the layout of electronic circuits; Computer buffers; Computer cables; Computer cameras; Computer card adapter; Computer carrying cases; Computer central processing units; Computer chassis; Computer chips; Computer chipset for use in transmitting data to and from a central processing unit; Computer color printer using heat sensitive dry printing process; Computer communications software to allow customers to access bank account information and transact bank business; Computer component testing and calibrating equipment; Computer cursor control devices, namely, computer mouse; Computer cursor control devices, namely, digitizer tablets; Computer cursor control devices, namely, light pens; Computer cursor control devices, namely, touch pads; Computer cursor control devices, namely, trackballs; Computer database management software for use in personalizing the content of e-mail communications; Computer disc drives; Computer docking station; Computer e-commerce software to allow users to perform electronic business transactions via a global computer network; Computer expansion boards; Computer fax modem cards; Computer graphics boards; Computer graphics software; Computer hard discs; Computer hard drive enclosures; Computer hardware; Computer hardware and computer peripheral devices; Computer hardware and computer peripherals; Computer hardware and computer software for retail inventory management, sold as a unit; Computer hardware and computer software programs for the integration of text, audio, graphics, still images and moving pictures into an interactive delivery for multimedia applications; Computer hardware and peripheral devices; Computer hardware and peripherals; Computer hardware and software for setting up and configuring local area networks; Computer hardware and software for setting up and configuring wide area networks; Computer hardware and software system for remotely monitoring environmental conditions and controlling devices within a building, facility, grounds, or designated spatial area; Computer hardware and software used for the control of voice controlled information and communication devices; Computer hardware and software, for use with medical patient monitoring equipment, for receiving, processing, transmitting and displaying data; Computer hardware for high-speed processing and storage of data using multiple CPU's; Computer hardware for telecommunications; Computer hardware, namely, firewalls; Computer hardware, namely, wireless access point (WAP) devices; Computer hardware, namely, wireless network extenders; Computer hardware, namely, wireless network repeaters; Computer heat sinks; Computer interface boards; Computer joysticks; Computer keyboards; Computer keypads; Computer memories; Computer memory hardware; Computer mice; Computer monitor frames; Computer monitors; Computer motherboards and daughterboards; Computer mouse; Computer mouse, namely, touchpads; Computer mouse, namely, trackballs; Computer network adapters; Computer network adapters, switches, routers and hubs; Computer network bridges; Computer network hubs, switches and routers; Computer networking hardware; Computer operating programs; Computer operating programs and computer operating systems; Computer operating programs, recorded; Computer operating systems; Computer parallel ports;

Computer peripheral apparatus; Computer peripheral devices; Computer peripheral equipment; Computer peripherals; Computer printers; Computer processing software to process the image colors with the color and intensity and interpret the results as tendencies of the organs, glands and tissues according to the iridology charts; Computer program for the compilation of credit reporting data; Computer programmes for document management; Computer programs for editing images, sound and video; Computer programs for searching the contents of computers and computer networks by remote control; Computer programs for the enabling of access or entrance control; Computer programs for using the internet and the world wide web; Computer programs for using the internet and the worldwide web; Computer programs used for electronic cash register systems; Computer screen filters; Computer screen saver software; Computer search engine software; Computer serial ports; Computer servers; Computer software and hardware for disseminating advertising for others on employee earnings and third party paper payroll stubs and checks and on electronic payroll payments; Computer software development tools; Computer software for accessing information directories that may be downloaded from the global computer network; Computer software for administration of computer local area networks; Computer software for administration of computer networks; Computer software for application and database integration; Computer software for communicating with users of hand-held computers; Computer software for computer system and application development, deployment and management; Computer software for controlling and managing access server applications; Computer software for controlling and managing patient medical information; Computer software for controlling self-service terminals; Computer software for creating searchable databases of information and data; Computer software for encryption; Computer software for interpretation of neuro and brain scans provided by diagnostic imaging equipment; Computer software for manipulating digital audio information for use in audio media applications; Computer software for organizing and viewing digital images and photographs; Computer software for providing an on-line database in the field of transaction processing to upload transactional data, provide statistical analysis, and produce notifications and reports; Computer software for pulmonary, cardiovascular and edema analysis for use in small animal research studies; Computer software for redistricting, namely, aggregating smaller geographical areas into multiple larger areas; Computer software for scientific analysis of genetic sequences; Computer software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information; Computer software for the creation of firewalls; Computer software for the databasing, visualization, manipulation, virtual reality immersion and integration of geographic information with on-line member communities,; Computer software for the field of warehousing and distribution, to manage transactional data, provide statistical analysis, and produce notifications and reports; Computer software for use in customer relationship management (CRM); Computer software for use in programming facsimile machines; Computer software for use in relation to digital animation and special effects of images; Computer software for use in the encryption and decryption of digital files, including audio, video, text, binary, still images, graphics and multimedia files; Computer software for use in the safeguarding of digital files, including audio, video, text, binary, still images, graphics and multimedia files; Computer software for visualization in the nature of graphical representation and analysis of satellites; Computer software for wireless content delivery; Computer software that allows people or organizations to create a voting event, vote on the issue, change their vote at will and track the input and display it in a unique graphical way; Computer software that assists computers in deploying parallel applications and performing parallel computations; Computer software that provides real-time, integrated business management intelligence by combining information from various

databases and presenting it in an easy-to-understand user interface; Computer software that provides web-based access to applications and services through a web operating system or portal interface; Computer software to automate data warehousing; Computer software to control and improve computer and audio equipment sound quality; Computer software to enable the transmission of photographs to mobile telephones; Computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; Computer software to monitor and control factory manufacturing processes; Computer software, namely, an application allowing sales and field service employees to update and receive data stored in an enterprise's computer databases in real time, using a mobile device, with full telephony integration with the telephone and/or software features of the mobile device; Computer software, namely, electronic financial platform that accommodates multiple types of payment and debt transactions in an integrated mobile phone, PDA, and web based environment; Computer software, namely, software development tools for the creation of mobile internet applications and client interfaces; Computer stands specially designed for holding a computer, printer and accessories; Computer storage devices, namely, flash drives; Computer storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; Computer stylus; Computer switches; Computer telephony software; Computer terminals; Computer terminals, keyboards and printers; Computer touchscreens; Computer utility programs; Computer whiteboards; Computer-controlled electronic apparatus for electrophysiological measurement and testing of cells; Computer-controlled sheet-feeding apparatus; Computers; Computers; Computers and computer hardware; Computers and computer peripherals; Computers and instructional manuals sold as a unit; Consumer coupons downloaded from a global computer network; Credit screening software; Data compression software; Database management software for commercial enterprises; Decoder software; Desktop computers; Desktop publishing software; Digital telephone platforms and software; Downloadable electronic data files and databases, namely, business and tax forms, for use with computer software; Downloadable software for managing commercial entities; Dust covers for computers; Electrical energy utilization metering devices complete with related software; Electrical leak detection hardware and operating software; Electronic components for computers; Electronic computers; Electronic interface equipment for machine tools to input or output CNC (computer numerical control) data; Electronic software updates, namely, downloadable computer software and associated data files for updating computer software in the fields of managing commercial enterprises, provided via computer and communication networks; Electronic test instrument and associated software for use in leak, flow and functional testing; Enterprise software in the nature of a database for non-transactional data and a search engine for database content; External computer hard drives; Facilities management software, namely, software to control building environment, access and security systems; Factory automation software, namely, software to integrate manufacturing machine operations, track problems and generate production reports; Floppy discs drives; Frames for attachment to computer monitors; Free-space optics transmission systems, Ethernet switches and routers, and software sold both as components thereof and separately, namely, software adapted and arranged for operating, installing, testing, diagnosing and managing the forgoing telecommunication equipment; Gateway routers in the nature of computer control hardware; Global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; Graphical user interface software; Handheld computers; Handheld personal computers; Hard discs for computers; Headsets for use with computers; Heat sinks for use in computers; Home and office automation systems comprising wireless and wired controllers, controlled devices, and software for lighting, HVAC, security, safety and other home and office monitoring and control applications; Image fuser units for computer

printers comprising electro-mechanical rollers for the purpose of transferring toner onto paper; Image transfer kits for computer printers, namely, kits forming parts of printers comprising belts, toner and drums for the purpose of transferring images onto paper; Industrial process control software; Input devices for computers; Integrated battery backup systems comprising a battery, an electronic measurement apparatus for use in the measurement of battery health and performance, and a remote computer software program that uses the foregoing data to trend, predict, and store data related to the health of the battery; Interactive multimedia software featuring audio and video information for patients on the subject of treatments, procedures and alternatives related to dentistry; Interfaces and peripheral devices for computers; Interfaces for computers; Internal cooling fans for computers; Jackets for computer disks; Keyboard and print out apparatus for use with computers; Laboratory apparatus and computer systems for use in protein purification; LAN (local area network) access points for connecting network computer users; LAN (local area network) computer cards for connecting portable computer devices to computer networks; LAN (local area network) hardware; LAN (local area network) operating software; Laptop computers; Lighting control software for use in commercial and industrial facilities; Magnetic tape units for computers; Medical imaging software that records, monitors and analyzes data using a catheter based ultrasound imaging probe; Medical research equipment, namely, computers, gamma cameras, collimators, aperture plates and computer software, all sold together as a unit for use in high resolution, high sensitivity tomographic image processing and imaging in the field of nuclear medicine; Medical software for processing and displaying breast images on medical resonance imaging machines (MRI's); Medical software for processing and displaying images on ultrasound medical imaging machines; Memories for use with computers; Memory cards; Micro-computer; Micro-computers; Microchips; Microprocessors; Mobile computers; Mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for collection and management of data; Mounting racks for computer hardware; Mounting racks for telecommunications hardware; Mouse pads; Navigation apparatus for vehicles; Navigation apparatus for vehicles in the nature of on-board computers; Network access server hardware; Network access server operating software; Notebook and laptop computers; Notebook computer cooling pads; Notebook computers; Operating and user instructions stored in digital form for computers and computer software, in particular on floppy disks or CD-ROM; Pattern recognition systems composed of computer chips, computer hardware and software; Peripheral component interface (PCI) hardware; Personal computers; Personal digital assistant computers; Pocket computers for note-taking; Printers for computers; Printers for use with computers; Protective sleeves for laptop computers; Remote cursor controls for computers; Removable hard drive based computer backup systems; Rolling cases especially adapted for holding laptops and notebook computers; Software defined radio; Software for configuring, quoting and ordering electrical distribution products; Software for dosimetry purposes in the field of radiotherapy; Software for ensuring the security of electronic mail; Software for medical imaging equipment, namely, for interpreting the results of CT scanners; Software for monitoring and controlling communication between computers and automated machine systems; Software for optical character recognition; Software for processing digital images of the anatomy for diagnosis and treatment; Software for processing images, graphics and text; Software for the operational management of portable magnetic and electronic cards; Software programmable microprocessors; Specially adapted computer input device cover featuring a disinfecting capability; Tablet computer; Tax management data collection software; Tax management software; Telecommunications and data networking hardware, namely, devices for transporting and aggregating voice, data, and video communications across multiple network infrastructures and Communications

protocols; Telecommunications equipment and software, namely, fiber-optic transceivers, fiber optic repeaters, converters and optimizers, wave division multiplexers, free-space optics transmission systems, switches including Ethernet switches and routers, fiber-to-the-home and ethernet-over-VDSL access aggregators, terminators and repeaters, and remote presence management products, namely, switches, and console, alarm, sensor and power management devices; Telecommunications hardware and software for monitoring and alerting remote sensor status via the Internet; UPI (universal peripheral interface) hardware; UPI (universal peripheral interface) software; USB (universal serial bus) hardware; USB (universal serial bus) operating software; VPN (virtual private network) hardware; VPN (virtual private network) operating software; WAN (wide area network) hardware; WAN (wide area network) operating software; Web site development software; Wireless communication device featuring voice, data and image transmission including voice, text and picture messaging, a video and still image camera, also functional to purchase music, games, video and software applications over the air for downloading to the device; Wireless computer peripherals; Wrist rests for computer mouse users; Wrist rests for use with computers; Wrist supports for computer mouse users

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus **First Use** Mar. 27, 2000 **In Commerce** Sep. 2001

For Advisory services in the field of product development and quality improvement of software; Application service provider (ASP) featuring software for use in commercial applications; Application service provider (ASP), namely, hosting computer software applications of others; Application service provider featuring software for providing an on-line database in the field of transaction processing to upload transactional data, provide statistical analysis, and produce notifications and reports; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of personal productivity, wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Application service provider, namely, providing, hosting, managing, developing, researching, analyzing, reporting, and maintaining applications, software, web sites, and databases of others in the fields of healthcare, benefits programs, employee productivity, risk management; Back-up services for computer hard drive data; Charitable services, namely, providing computer equipment to schools; Computer access control services, namely, digital rights management; Computer aided design for others; Computer and computer software rental; Computer code conversion for others; Computer colocation services, namely, providing facilities for the location of computer servers with the equipment of others; Computer compatibility services, namely, data mapping; Computer consultation; Computer consultation in the field of computer security; Computer diagnostic services; Computer disaster recovery planning; Computer graphics services; Computer hardware and software consulting services; Computer hardware development; Computer monitoring service which tracks hardware performance and processes and sends out historical reports and alerts; Computer network design and computer software design for the pharmaceutical and health care industry; Computer network design for others; Computer programming; Computer programming and computer system analysis; Computer programming and maintenance of computer programs; Computer programming and rental of computer programs; Computer programming and software design; Computer programming for others; Computer programming in the medical field; Computer programming services; Computer programming services for customers that enables the customer's digital devices to process natural language queries from end users; Computer project management services; Computer security service, namely, hard drive erasure;

Computer security service, namely, restricting access to and by computer networks to and of undesired web sites, media and individuals and facilities; Computer service, acting as an application service provider in the field of knowledge management to host computer application software for creating searchable databases of information and data to allow users to perform, on-line, the collecting and analyzing of different types of opinion surveys; Computer service, namely, acting as an application service provider in the field of knowledge management to host computer application software for creating searchable databases of information and data; Computer service, namely, acting as an application service provider in the field of knowledge management to host computer application software for searching and retrieving information from databases and computer networks; Computer service, namely, acting as an application service provider in the field of knowledge management to host computer application software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information; Computer services in the nature of customized web pages featuring user-defined information, personal profiles and information; Computer services, namely, monitoring and reporting on the performance, availability, and errors of web sites of others; Computer services, namely, computer system administration for others; Computer services, namely, continual monitoring and updating of a customer's English website for changes and editing and making these changes to the customer's multilingual website(s) without involvement from the customer's internal IT resources; Computer services, namely, creating an on-line community for registered users to participate in competitions, showcase their skills, get feedback from their peers, form virtual communities, engage in social networking and improve their talent; Computer services, namely, creating an on-line community for registered users to participate in discussions, get feedback from their peers, form virtual communities, and engage in social networking; Computer services, namely, creating and maintaining web sites for others; Computer services, namely, creating indexes of information, sites and other resources available on computer networks; Computer services, namely, data recovery services; Computer services, namely, database development services, namely, configuration and customization of computer databases containing information regarding public health care eligibility; Computer services, namely, designing and implementing network web pages for others; Computer services, namely, designing and implementing web sites for others; Computer services, namely, filtering of unwanted e-mails; Computer services, namely, hosting of inspection, testing, and quality control services' digital content of others; Computer services, namely, hosting on-line interactive public calendars that allow multiple participants to share event schedules, facility reservations, and transportation requests; Computer services, namely, hosting on-line web facilities for others for organizing and conducting online meetings, gatherings, and interactive discussions; Computer services, namely, interactive hosting services which allow the user to publish and share their own content and images on-line; Computer services, namely, managing on-line waitlists and automation of the waitlist process for others; Computer services, namely, managing web sites for others; Computer services, namely, monitoring the web sites of others to improve scalability and performance of web sites of others; Computer services, namely, monitoring, testing, analyzing, and reporting on the Internet traffic control and content control of the web sites of others; Computer services, namely, on-line scanning, detecting, quarantining and eliminating viruses, worms, trojans, spyware, adware, malware and unauthorized data and programs on computers and electronic devices; Computer services, namely, providing an interactive web site that allows users to collect, store, manage, deliver and showcase electronic and paper-based content; Computer services, namely, providing search engines for obtaining data on a global computer network; Computer services, namely, providing search platforms to allow users to request content from and receive content to a mobile device; Computer services, namely, redirecting electronic mail to changed personal electronic address;

Computer services, namely, remote and on-site management of electronic messaging systems and applications for others; Computer services, namely, remote management of computer applications for others; Computer services, namely, search engine optimization; Computer site design; Computer software consultancy; Computer software consultation; Computer software design; Computer software design for others; Computer software design, computer programming, or maintenance of computer software; Computer software development; Computer software development and computer programming development for others; Computer software installation and maintenance; Computer software rental; Computer systems analysis; Computer technology support services, namely, help desk services; Computer time-sharing services; Computer virus protection services; Computer-aided engineering services for others; Conducting electronic discovery services via global computer networks for lawyers and corporations; Consultancy in the field of software design; Consultation services in the fields of selection, implementation and use of computer hardware and software systems for others; Consulting services in the field of computer-based information systems for businesses; Consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; Consulting services in the field of identification, support, and implementation of computer-based information systems for businesses; Customization of computer hardware and software; Customized software development services; Data automation and collection service using proprietary software to evaluate, analyze and collect service data; Data conversion of computer program data or information; Design and development of computer hardware and software; Design and development of on-line computer software systems; Design and implementation of software and technology solutions for the purpose of product and document authentication and tracking, and brand monitoring and protection, to protect against counterfeiting, tampering, and diversion, and to ensure the integrity of genuine products and documents; Design and maintenance of computer sites for third parties; Design of computer hardware, integrated circuits, communications hardware and software and computer networks for others; Design of computer programs and software relating to aircraft; Design of computers for others; Design of home pages, computer software and web sites; Design, development and implementation of software; Design, development, and consulting services in the field of home and workplace automation hardware and software; Design, maintenance, development and updating of computer software; Design, updating and rental of computer software; Design, upgrading and rental of computer software; Designing computer software for controlling self-service terminals; Developing and updating computer software; Developing computer programs for electronic cash register systems; Developing computer software; Developing of driver and operating system software; Development and creation of computer programmes for data processing; Development of customized software for others for use in risk assessment, information security, business analysis, audit and audit planning, and sales management; Development of software for secure network operations; Development, updating and maintenance of software and data bases; Displaying the web sites and images of others on a computer server; Document data transfer from one computer format to another; Duplicating computer programs; Duplication of computer programs; Hosting the web sites of others on a computer server for a global computer network; Image processing software design; Installation and maintenance of computer software; Installation of computer software; Installation, maintenance and repair of computer software; Installation, repair and maintenance of computer software; Integration of computer systems and networks; Leasing computer facilities; Leasing of computers; Maintenance and updating of computer software; Maintenance and upgrading of computer software; Maintenance of computer software; Maintenance of computer software used for operating filling apparatus and machines; Monitoring the computer systems of

others for technical purposes and providing back-up computer programs and facilities; On-line batch computer services; Periodic upgrading of computer software for others; Providing a web site that features information on computer technology and programming; Providing a web site that gives computer users the ability to upload and share user-generated videos, essays and articles on a wide variety of topics and subjects; Providing a web site that gives computer users the ability to upload, exchange and share photos, videos and video logs; Providing a website that gives computer users the ability to subscribe to online publications permitting searches of building codes and standards; Providing computer programming services to customers that enables the customer's web-site to process natural language queries; Providing computer programming services to customers that enables them to provide video and audio content on their web sites; Providing information at the specific request of end-users by means of telephone or global computer networks; Providing technical information updates of industrial process control computer software via the global computer network; Providing temporary use of non-downloadable computer software for preparing invoices over computer networks, intranets and the internet; Providing temporary use of non-downloadable computer software for preparing shipping documents over computer networks, intranets and the internet; Providing temporary use of non-downloadable computer software for shipment processing over computer networks, intranets and the internet; Providing temporary use of non-downloadable computer software for tracking documents over computer networks, intranets and the internet; Providing temporary use of non-downloadable computer software for tracking freight over computer networks, intranets and the internet; Providing temporary use of non-downloadable computer software for tracking packages over computer networks, intranets and the internet; Recovery of computer data; Rental of application software; Rental of computer hardware; Rental of computer hardware and computer software; Rental of computer software; Rental of computer software and programs; Rental of computer software, data processing equipment and computer peripheral devices; Rental of computers; Rental of computers and software; Renting out hardware and software; Repair of computer software; Repair of damaged computer programs; Research and development of computer software; Research, development, design and upgrading of computer software; Searching and retrieving information, sites, and other resources available on computer networks for others; Software authoring; Software design and development; Technical consulting and assistance with computer-based information systems and components; Technical support services, namely, troubleshooting of computer hardware and software problems; Technical support services, namely, troubleshooting of computer software problems; Technical support services, namely, troubleshooting of industrial process control computer software problems; Technical support, namely, providing back-up computer programs and facilities; Up-dating of computer software; Updating and design of computer software; Updating and maintenance of computer software; Updating of computer programs for third parties; Updating of computer software for others; Updating, design and rental of software

Mark Literal(s) SINCE 1823 WODKA WYBOROWA

CASE IDENTIFIERS

Serial Number 78429271 **Application Filing Date** Jun. 03, 2004 **Registration Number** 3594910 **Registration Date** Mar. 24, 2009 **Register** Principal **Mark Type** Trademark **Date Cancelled** Oct. 30, 2015 **Publication Date** Jan. 06, 2009

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the words "WODKA WYBOROWA" in stylized print, in dark blue letters with a white border. Below the words "WODKA WYBOROWA" are nine vertical lines, the center line being gold and the eight other lines being silver. Above the words "WODKA WYBOROWA" is an engraved device, silver in color but shown in dark lines for contrast purposes, comprising a stylized, fancifully arranged sheaf of rye, distillery and streams of water. Above the device are the words "SINCE 1823" in blue, divided by a red, stylized stalk of rye. The configuration of the bottle shown by dotted lines is not part of the mark and serves only to show the position of the mark. **Color Drawing** Yes **Color Claimed** The color(s) blue, white, silver, gold and red is/are claimed as a feature of the mark. **Disclaimer** "SINCE 1823" AND "WODKA" **Translation** The English translation of "WODKA WYBOROWA" in the mark is "vodka selected" or "vodka elite".
