MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the numeral "59" within a partially shaded concentric circle. **Color Claimed** Color is not claimed as a feature of the mark.

RELATED PROPERTIES INFORMATION

International Registration 1302889 **International Registration Date** Mar. 21, 2016

GOODS AND SERVICES INFORMATION

For Belt clasps; belt buckles; embroidered ornamental novelty badges for clothing; ornamental novelty badges, not of precious metal; ornamental novelty pins, other than jewellery; embroidered patches for clothing; cloth patches for clothing; heat adhesive patches for repairing textile articles; brooches for accessorizing clothing, not being jewelry; buttons; fasteners, in the nature of clothing hooks; fasteners for footwear

International Classes 26 - Primary Classes **US Classes** 37, 39, 40, 42, 50 **International Class Title** Fancy Goods

For Paper; printed matter, namely, books, magazines, periodicals, and newsletters all on the subject of motorcycles, motorcyclists and motorcycling; maps; atlases; catalogues in the field of motorcycles, motorcyclists and motorcycling; event programmes; stationery; greeting cards; postcards; pens; pencils; calendars; posters; printed photographs; pictures; stickers; decalcomanias and iron-on and plastic transfers; paper bags; plastic shopping bags; paper place mats; paper coasters for beer containers; paper coasters; cardboard coasters; printed menu cards

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Entertainment and educational services, namely, organizing and conducting programs featuring recreational activities relating to motorcycles, motorcyclists, motorcycling and motorcycle races for the general public; organization of events for cultural purposes; organization of sporting events, namely, motorcycle races, games, competitions, and rallies; musical entertainment services, namely, live performances by a musical band; social club services, namely, arranging, organizing and hosting social events and parties for club members; publication of printed matter; providing entertainment information relating

to the foregoing, including via a website

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For T-shirts; shirts; sweatshirts; bomber jackets; leather jackets; trousers; jeans; shorts; footwear; motorcycle gloves; gloves; belts; leather belts

International Classes 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

GOODS AND SERVICES INFORMATION

For Machines, namely, vacuum deposition machines for coating disc-shaped plastic substrates by sputtering or vacuum deposition of metal, metal alloys, metal oxides or metal nitrides for the production of optical storage media; machines, namely, physical or chemical vacuum deposition machines for coating planar and three-dimensional substrates, in particular plastic, glass, ceramic or metal substrates, in particular in the fields of food, beverages, cosmetics, jewelry, automotive, optics, sanitary engineering, lighting, medical engineering, consumer and household electronics and other industrial applications; machines for multi-layer vacuum deposition for coating of metals and ceramics for the production of storage media, in particular disc-shaped storage media; machines for vacuum deposition for coating of layers, in particular transparent, conductive, metallic, semi-conductive, non-conductive, dielectric or transparent/electrically conductive, or passivating layers, in particular using physical or chemical vapour deposition on substrates, in particular on glass and silicon; machines for large area coating using physical vapour deposition, namely, for coating layer deposition of respectively copper, indium, gallium, selenium, sulfur, indium sulfide, sodium fluoride, potassium fluoride, aluminium or combinations of these materials on glass or flexible substrates for the production of thin film solar cells; machines for large area coating using physical vapour deposition, namely, for coating layer deposition of cadmium, tellurium, cadmium sulfide, cadmium chloride and combinations of these materials on glass substrates for the production of thin film solar cells; machines for metal organic chemical vapour deposition (MO-CVD) and metal organic vapour phase epitaxy (MOVPE) for coating of single and polycrystalline thin films on substrates; machines for large area coating using vacuum deposition, namely horizontal or vertical or tilted sputtering deposition for coating glass, metal and plastic substrates for the production of solar cells; machines for the production of optical storage media, CDs, and DVDs, namely for injection molding, for vacuum deposition for coating of metal, metal alloys, metal oxides or metal nitrides, for lacquering, namely, spin-coating or spray coating of UV curable lacquer, for bonding substrates with UV curable lacquer, for UV-curing and for quality inspection; machines for the production of optical storage media and optical

storage discs for high-definition and ultra-definition resolution content, namely, for injection molding, for vacuum deposition for coating of metals, metal alloys, metal oxides or metal nitrides, for lacquering, namely, spin-coating or spray coating of UV curable lacquer, for wet embossing, for UV-curing and for quality inspection; machines for injection molding of thin-wall optical parts and micro-structured parts; machines for the production of diffractive optical components, microfluidic devices and micro electro mechanical structures (MEMS), namely for nano imprint lithography by wet embossing; machines for the production of disc masters for CDs, DVDs, optical storage discs and other recording formats, namely, optical storage disc for high-definition and ultra-definition resolution content, namely machines for cleaning glass or silicon substrates respectively, or for vacuum deposition for coating of metals, metal alloys, phase transition ceramics or semiconductors, for spin-coating for photoresist, for laser exposure, or for laser beam recording, for photoresist developing, or for quality inspection; machines for multi-layer deposition for magnetic and non-magnetic materials by physical vapour deposition, namely, rotating substrate deposition; machines for multi-layer deposition of magnetic and non-magnetic materials by physical vapour deposition, namely, linear-dynamic deposition for research, development or for the production of MRAM (Magnetoresistive random-access memory) cells or magnetic sensors, namely, anisotropic magnetoresistance (AMR), giant magnetoresistance (GMR) or tunnel magnetoresistance (TMR) structures; machines for thermal treatment, namely, heating and cooling of pre-coated large area substrates, namely, glass or flexible substrates for the production of thin film solar cells in a controlled gas atmosphere; in-line machines for wet chemical treatment, namely, machines for etching, cleaning, coating and drying thin-film solar cells; machines for wet chemical treatment of batches of substrates, namely, machines for etching, cleaning, coating and drying of substrates, namely, semiconductor and glass wafers for production of crystalline solar cells, semiconductor devices and optical components; machines for wet chemical bath deposition of layers, namely, machines for coating of cadmium sulfide, zinc oxide-sulfide and zinc sulfide on thin film solar cells; in-line machines for wet chemical treatment, namely, machines for cleaning, acidic etching, alkaline etching and drying, for single side and double side processing of glass and silicon substrates; machines for wet chemical treatment of batches of material, namely, machines for chemical etching, cleaning and drying of mono and multi crystalline silicon, in particular chunks and ingot off cuts; combinations of machines for automation of substrate handling and processing for the refinement of planar and three-dimensional substrates, namely, plastic, glass, ceramic and metal, for industrial use in the field of food, beverages, cosmetics, jewelry, automotives, optics, sanitary engineering, lighting, medical engineering, consumer and household electronics or other industrial applications, namely for vacuum deposition for coating of metals, metal alloys, metal oxides, or metal nitrides semi-conductors, for surface treatment of substrates, for lacquering, namely, spray-coating of substrates with UV curable lacquer or solvent based lacquer, for UV-curing or drying; combinations of machines for manufacturing silicon solar cells, namely for automation of substrate handling and processing, for vacuum deposition for coating of transparent, conductive, metallic, semi-conductive, non-conductive, dielectric, transparent electrically conductive, or passivating layers, for wet chemical treatment of substrates, for laser ablation, namely, electrical insulating, for structuring, for contact opening, for contact firing of substrates and screen print and for thermal treatment of substrates; combinations of machines for manufacturing thin film solar cells, namely for automation of substrate handling and processing, for vacuum deposition for coating of substrates, for wet chemical treatment of substrates, for laser ablation, namely, surface structuring, electrical insulation or cell formation of substrates, or thermal treatment of substrates and for lamination or contacting substrates

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Receptacles of plastic for commercial use, namely, plastic containers for storing, transporting and processing substrates, in particular silicon wafers

International Classes 20 - Primary Classes **US Classes** 2, 13, 22, 25, 32, 50 **International Class Title** Furniture and Articles Not Otherwise Classified

For Education services, namely, conducting training courses, lectures, seminars, hand-on seminars, workshops in the field of engineering, process engineering, machine operation, maintenance machine safety; training services in the field of the installation, maintenance and repair of equipment for vacuum coating, thermal treatment, lacquering, chemical treatment, media supply, automation, handling machines and machine combinations; training courses of instruction for installation, maintenance and repair of equipment for vacuum coating, thermal treatment, lacquering, chemical treatment, injection molding, media supply, automation, handling machines and machine combinations

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Coating compositions other than paint for vacuum coating, namely, chemical compounds for coating of optical storage media, CDs, and DVDs, glass, solar cells, planar and three-dimensional substrates, in particular plastic, glass, ceramic or metal substrates, layers, in particular transparent, conductive, metallic, semi-conductive, non-conductive, dielectric or transparent/electrically conductive, or passivating layers, single and polycrystalline thin films media, UV curable lacquer, metals, metal alloys, metal oxides or metal nitrides, thin-wall optical parts and micro-structured parts, microfluidic devices and micro electro mechanical structures (MEMS), namely for nano imprint lithography by wet embossing, MRAMs (Magnetoresistive random-access memory) cells and magnetic sensors, namely, for anisotropic magnetoresistance (AMR), giant magnetoresistance (GMR) and tunnel magnetoresistance (TMR) structures, semiconductor components, all before-mentioned goods in particular in the field of food, beverages, cosmetics, jewelry, automotives, optics, sanitary engineering, lighting, medical engineering, consumer and household electronics

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Installation, repair and maintenance of machines for vacuum coating, thermal treatment, lacquering chemical treatment media supply, automation and combinations thereof as well as components and parts of those machines; installation, repair and maintenance of measuring apparatus and instruments being parts of machines and/or machine combinations; erecting of manufacturing plants

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Measuring apparatus and instruments for measuring layer thickness, reflection of light and electromagnetic waves, sound waves, transmission of light and electromagnetic waves, namely, spectrometers; Measuring apparatus and instruments for measuring sheet resistance with two or four pin probes or eddy current probes; and measuring apparatus and instruments for measuring material composition of optical storage media, CDs, and DVDs, glass, solar cells, planar and three-dimensional substrates, in particular plastic, glass, ceramic or metal substrates, layers, in particular transparent, conductive, metallic, semi-conductive, non-conductive, dielectric or transparent/electrically conductive, or passivating layers, single and polycrystalline

thin films media, UV curable lacquer, metals, metal alloys, metal oxides or metal nitrides, thin-wall optical parts and micro-structured parts, icrofluidic devices and micro electro mechanical structures (MEMS), namely, nano imprint lithography by wet embossing, MRAMs (Magnetoresistive random-access memory) cells; and magnetic sensors, namely, sensors for measuring the magnetic field of, anisotropic magnetoresistance (AMR), giant magnetoresistance (GMR) and tunnel magnetoresistance (TMR) structures and, semiconductor devices and optical components, all goods in the fields of food, beverages, cosmetics, jewelry, automotives, optics, sanitary engineering, lighting, medical engineering, consumer and household electronics

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Scientific and technological services, namely, research and design in the fields of machine building industry, vacuum coating, thermal treatment, lacquering, chemical treatment, injection molding, media supply, automation, handling and combinations thereof; scientific and technological services, namely, industrial analysis and research services for the purpose of customer service and advice in the fields of machine building industry, vacuum coating, thermal treatment, lacquering, chemical treatment, injection molding, media supply, automation, handling and combinations thereof; scientific and technological services, namely, design and development of industrial production facilities; engineering, technical consultation, planning, technical design of industrial production facilities; scientific and technological services, namely, analysis and development of machines in the fields of vacuum coating, thermal treatment, lacquering, chemical treatment, injection molding, media supply, automation, handling and combinations thereof, related to function, productivity and cost of industrial production processes; technical research in the field of machine building industry, namely machines for vacuum coating, thermal treatment, lacquering, chemical treatment, injection molding, media supply, automation, handling and combinations thereof, related to function, productivity and cost of industrial production processes; technical optimization, namely, technological services in the form of the development of new technology which optimizes and improves throughput of machines for vacuum coating, thermal treatment, lacquering, chemical treatment, injection molding, media supply, automation, handling and combinations thereof, related to completion and optimization of function, productivity and cost of industrial production processes, which decreases media consumption, namely, energy, lacquers, chemicals, polymers, water, pressure air, gases, electricity, and sputtering materials that are needed to operate machines for vacuum coating, thermal treatment, lacquering, chemical treatment, injection molding, media supply, automation, handling and combinations thereof; related to completion and optimization of function, productivity and cost of industrial production processes, which increases yield of machines for vacuum coating, thermal treatment, lacquering, chemical treatment, injection molding, media supply, automation, handling and combinations thereof, related to completion and optimization of function, productivity and cost of industrial production processes, and which improves the quality of machines for vacuum coating, thermal treatment, lacquering, chemical treatment, injection molding, media supply, automation, , handling and combinations thereof, related to completion and optimization of function, productivity and cost of industrial production processes; scientific and technological services, namely, analysis and development of industrial products and devices in the machine building industry, namely machines for vacuum coating, thermal treatment, lacquering, chemical treatment, injection molding, media supply, automation, and combinations thereof; technical research services in the fields of industrial products and devices in the machine building industry, namely machines for vacuum coating, thermal treatment, lacquering, chemical treatment, injection molding, media supply, automation, and combinations thereof; and technical optimization, namely, technological services in the form of the

development of new technology which optimizes quality of industrial products and devices in the machine building industry, namely, machines for vacuum coating, thermal treatment, lacquering, chemical treatment, injection molding, media supply, automation, and combinations thereof, which increases functional and physical properties of industrial products and devices in the machine building industry, namely, machines for vacuum coating, thermal treatment, lacquering, chemical treatment, injection molding, media supply, automation, and combinations thereof, which increases yield and throughput in regard to industrial or custom applications of industrial products and devices in the machine building industry, namely, machines for vacuum coating, thermal treatment, lacquering, chemical treatment, injection molding, media supply, automation, and combinations thereof

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For 3D spectacles; DVD players; electronic parking lot ticket dispensers; coin-operated musical automata, namely, juke boxes; fire engines; answering machines; electrical adapters; accumulators, electric; accumulators, electric, for vehicles; accelerometers; actinometers; alidades; altimeters; ammeters; anemometers; anodes; antennas; anticathodes; measuring apparatus, namely, apertometers for use in optics; remote control apparatus, namely, remote controls for TV and personal computers ; electro-dynamic apparatus for the remote control of railway points; electro-dynamic apparatus for the remote control of signals; electronic monitoring apparatus, namely, wireless controllers to monitor and control the functioning of consumer electronics , namely, thermostats, and stereos and home entry locks; sound recording apparatus; Global Positioning

System (GPS) apparatus; distillation apparatus for scientific purposes; apparatus for microscopy and diffraction, namely, microscopes and optical prisms; air analysis apparatus; apparatus to check franking, namely, optical readers; apparatus for use in fermentation for laboratory use; breathing apparatus for underwater swimming; breathing apparatus, except for artificial respiration, namely, for underwater swimming; apparatus and installations for the production of X-rays, not for medical purposes, namely, x-ray security scanners; cash registers; electric apparatus for commutation in the nature of commutators; intercommunication apparatus, namely, telephones incorporating intercommunication systems; stills for laboratory experiments; projection apparatus, namely, LCD projectors; fire extinguishing apparatus; X-ray apparatus not for medical purposes; flashing safety lights; stereoscopic apparatus in the nature of stereoscopes; telephone apparatus; facsimile machines; phototelegraphy apparatus; acid hydrometers; salinometers; acidimeters for batteries; aerometers; beacons, luminous; battery cases, namely, battery jars; barometers; anode batteries; galvanic batteries; batteries for lighting; solar batteries; solar panels for the production of electricity; batteries, electric; balances in the nature of steelyards; betatrons; binoculars; electronic tags for goods; lens hoods; magnetic tape units for computers; computer memory devices; fire hose nozzles; encoded identification bracelets, magnetic; connected bracelets in the nature of surveying chains; safety tarpaulins; bullet-proof clothing; signaling buoys; life buoys; marking buoys; directional compasses; vacuum gauges; electrolysers; variometers; letter scales; weighbridges; precision balances; surveying instruments, namely, leveling staffs; camcorders; video baby monitors; blank video cassettes; video telephones; video screens; viewfinders, photographic; electronic connection, namely, sockets and plugs; micrometer screws for optical instruments; viscosimeters; electric circuit closers; wavemeters; voltmeters; mechanical signs; signs, luminous; electric switchboxes; current rectifiers; gas testing instruments; gasometers in the nature of measuring instruments; galvanometers; hands-free kits for telephones; heliographic apparatus; hygrometers; hydrometers; magnifying peephole lenses for doors; hologram apparatus; plotters; depth gauges in the nature of sounding leads; plumb bobs; range finders for cameras; densimeters; densitometers not for medical use; smoke detectors; counterfeit false coin detectors; joysticks for use with computers, other than for video games; photographic transparencies; slide projectors; camera diaphragms for adjusting light; dictating machines; dynamometers; light-emitting diodes (LED); blank floppy computer discs; blank computer discs for sound recording; blank magnetic discs; blank optical discs; circular slide rules; disc drives for computers; juke boxes for computers; DNA chips; electronic notice boards; life jackets; reflective safety vests; identification threads for electric wires; nose clips for divers and swimmers; locks, electric; electric door bells; signal bells; acoustic conduits; inspection mirrors; road signs, luminous or mechanical; marine depth finders; probes for scientific purposes, namely, avalanche probes featuring sensors for measuring snow depth; electric buzzers; needles for record players; measures, namely, tire-pressure measures, spirit measures, pressure measuring apparatus; pressure measuring apparatus; simulators for the steering and control of vehicles; pressure indicators; temperature indicators; incubators for bacteria culture; cosmographic instruments, namely, astronometric measuring machines and instruments; mathematical instruments, namely, calculators, measuring rulers and measuring compasses for math classes; leveling instruments, namely, level gauges; instruments containing eyepieces, namely, microscopes, telescopes, photo and video cameras; surveying instruments; azimuth instruments, namely, compasses for measuring; interfaces for computers; ionization apparatus for scientific or laboratory use but not for the treatment of air or water; laboratory equipment and supplies, namely, calipers; slide calipers; screw-tapping gauges; calorimeters; calculating machines; pocket calculators; decompression chambers; cinematographic cameras; mouth guards for sports; life-saving capsules for natural disasters; electronic pens; holders for electric coils; identity cards, magnetic; toner cartridges, unfilled, for printers and photocopiers; magnetically encoded charge cards; slide film mounts, namely, carriers for dark plates; automated teller machines (ATM); cathodes; spools for cameras; coils, electric; electromagnetic coils; cinematographic film, exposed;

computer keyboards; wire connectors; encoded key cards; electronic book readers; electronic agendas; push buttons sold as a component part of call bells; mouse pads; magnetic encoders; anti-glare visors in the nature of glasses; electric collectors in the nature of electric conductors; loudspeakers; protective suits for aviators; commutators; compact discs featuring music, cartoons, children's TV shows and audio-visual entertainment content; comparators; marine compasses; computers; laptop computers; tablet computers; notebook computers; contacts, electric; wind socks for indicating wind direction; safety traffic cones; electrical distribution boxes, namely, branch boxes; battery boxes; cabinets for loudspeakers; diving suits; reflecting discs for wear, for the prevention of traffic accidents; covers for electric outlets; measuring instruments, namely, log folding rulers; lasers, not for medical purposes; lactodensimeters; lactometers; vacuum tubes for radios; flashlights for use in photography; darkroom lamps for use in photography; thermionic tubes; amplifying tubes, namely, vacuum tubes for radios; head cleaning tapes for video recording; blank magnetic computer tapes; blank videotapes; surveying chains; safety equipment, namely, fire escape ladders; measuring rulers; slide-rules; optical condensers; contact lenses; contact lens; optical lenses; electricity conduits; measuring spoons; magnifying glasses; thread counters; magnets; decorative magnets; close-up lenses; crash test dummies; resuscitation mannequins; computer mouse; pressure gauges; divers' masks; protection masks; materials for electricity mains, namely, electric wire and cable; voting machines; money counting and sorting machines; furniture especially made for laboratories; megaphones; portable media players; acoustic diaphragms, namely, electroacoustic transducers; diaphragms for scientific apparatus, namely, electro-optic transducers; metal detectors for industrial or military purposes; metronomes; carpenters' rules; measuring rules; tape measures for dressmakers; mechanisms for coin-operated apparatus; coin-operated mechanisms for television sets; shutter releases; micrometers; microprocessors; microscopes; microtomes; microphones; modems; lightning conductors; computer monitors; computer software to monitor and control factory manufacturing processes; monopods for handheld digital electronic devices, namely, cell phones, MP3 players, tablets; electrical terminators; junction sleeves for electric cables; teeth protectors in the nature of mouth guards for sports; temperature indicator labels, not for medical purposes; knee-pads for workers; headphones; surveyors' levels; blank magnetic data carriers; blank optical data carriers; computer software for watching video content, listening to audio content, recorded on data media; sheaths for electric cables; identification sheaths for electric wires; weighing machines; computer hardware; punched card machines for offices; shoes for protection against accidents, irradiation and fire; lenses for astrophotography; optical lenses; egg-candlers; fire extinguishers; electrified fences; electricity limiters; clothing for protection against accidents, irradiation and fire; clothing for protection against fire; asbestos clothing for protection against fire; protective clothing especially made for use in laboratories; ozonisers; octants; protective eyepieces; ohmmeters; wrist rests for use with computers; eyeglass frames; oscillographs; plumb lines; scientific and technical apparatus, namely, optical mirrors; eyeglasses; sunglasses; goggles for sports; electronic collars to train animals; radio pagers; pince-nez; electronic pocket translators; telecommunication transmitters; telephone transmitters; switches, electric; periscopes; gloves for divers in the nature of diving gloves; gloves for protection against accidents; gloves for protection against X-rays for industrial purposes; asbestos gloves for protection against accidents; furnaces for laboratory use; pipettes; pyrometers; planimeters; Surveying instruments, namely, plane tables; plates for batteries; wafers for integrated circuits; printed circuit boards; compact disc players; cassette players; protective films adapted for computer screens; X-ray films, exposed; life-saving rafts; laboratory trays; digital signs; semi-conductors; polarimeters; fire pumps; measuring glassware; life belts; fuses; circuit breakers; converters, electric; electrical components in the nature of telerupters; diagnostic apparatus for testing food; distance measuring apparatus; appliances for measuring the thickness of leather skins; teaching apparatus, namely, artificial limbs for medical instruction purposes; time recording

apparatus; measuring apparatus, namely, bevels, angle finders; wire diameter measuring devices, electric; astronometric measuring machines and instruments; surveying machines and instruments; weighing apparatus and instruments; nautical and photographic apparatus and instruments, namely, underwater housings for cameras, underwater enclosures for cameras and underwater enclosures for photographic lenses; optical apparatus and instruments, namely, optical ports for underwater photography, dome ports for underwater photography, wet diopters, adapter lenses for underwater photography; apparatus and instruments for physics, namely, gravity measuring instruments, gas testing instruments; chemistry apparatus and instruments, namely, laboratory chemical reactors, pre-packed columns for use in chemical synthesis; meteorological instruments; observation instruments, namely, microscopes, telescopes, binoculars; navigation apparatus for vehicles in the nature of on-board computers; satellite navigational apparatus, namely, a global positioning system (GPS); precision measuring apparatus, namely, laser distance meters; audio- and video-receivers; prisms for optics purposes; downloadable software for use with mobile devices, computers, namely, application software for accessing TV shows, cartoons, videos, music for use in education and entertainment; computer printers for printing documents; laboratory equipment, namely, retort stands; apparatus for changing record player needles, namely, phonographic record cleaning kits comprised primarily of replacement stylus needles and also including cleaning solution and brushes; drainers for use in photography, namely, drying racks for photography; fire extinguishing apparatus, namely, fire beaters; telescopic sights for firearms; telescopic sights for artillery; laboratory equipment and supplies, namely, test tubes; pressure indicator plugs for valves; magnetic wires; telegraph wires; telephone wires; wires, electric; conductors, electric; copper wire, insulated; fuse wire; recorded computer programs for use with mobile devices, computers, namely, application software for accessing TV shows, cartoons, videos, music for use in education and entertainment; downloadable computer programs for use with mobile devices, computers, namely, application software for accessing TV shows, cartoons, videos, music for use in education and entertainment; computer operating programs, recorded; record players; downloadable electronic publications in the nature of e-books, magazines, newspapers in the field of family entertainment and education; electricity distribution consoles; electric control panels; radar apparatus; masts for wireless aerials; telecommunication transmitting sets; radios; vehicle radios; sprinkler systems for fire protection; frames for photographic transparencies; flowmeters; walkie-talkies; voltage surge protectors; voltage regulators for vehicles; electronic regulating and control devices for the operation of light emitting diodes in stage lighting apparatus; light dimmers, electric; speed regulators for record players; electric switches, namely, cell switches; washing trays specially adapted for photography usage; marking gauges for joinery purposes; time switches, automatic; relays, electric; X-ray photographs, other than for medical purposes; rheostats; respirators for filtering air other than for artificial respiration; retorts for use in high temperature chemical reactions; refractometers; refractors in the nature of telescopes; grids for batteries; speaking tubes; horns for loudspeakers; saccharometers; optical fibers; traffic-light apparatus; dog whistles; signaling whistles; sextants; electrical inductors; safety nets; nets for protection against accidents; fire alarms; luminous or mechanical road signs; sirens; scanners; integrated circuit cards in the nature of smart cards; wearable computer peripherals worn as glasses; smartphones; smartwatches; connections for electric lines; couplings, electric; electrical connectors; sonars; lighting ballasts; resistances, electric; spectrograph apparatus; spectroscopes; speed indicators; alcoholmeters; satellites for scientific purposes; protection devices for personal use against accidents, namely, nets, gloves, footwear for protection against accidents; audiovisual teaching apparatus, namely, multimedia projectors, microphones, sound mixers, audio speakers, electronic display interfaces, video screens; radiotelegraphy sets; radiotelephony sets; spectacle lenses; anti-glare glasses; optical glasses; personal stereos; stereoscopes; stands for photographic apparatus; stroboscopes; fire boats; sulfitometers; bags adapted for laptops; drying racks for photography; spherometers; integrated circuits; printed circuits; geiger counters; parking meters; kilometer recorders for

vehicles; revolution counters, namely, counters for use during sporting activities; abacuses; egg timers; taximeters; ear plugs for divers; tachometers; television apparatus for projection purposes; telegraphs; telescopes; teleprompters; teleprinters; cordless telephones; cellular phones; theodolites; thermometers, not for medical purposes; thermostats; thermostats for vehicles; laboratory equipment, namely, crucibles; tone arms for record players; calculating machines, namely, totalizators; electronic components in the nature of transistors; transponders; protractors; step-up transformers; electronic components in the nature of transformers; vehicle breakdown warning triangles; triodes; battery starter cables for motors; discharge tubes, electric, other than for lighting; glass tubes for scientific purposes, namely, capillary tubes; neon signs; pitot tubes; X-ray tubes not for medical purposes; telephone receivers; quantity indicators, namely, water level indicators; automatic indicators of low pressure in vehicle tires; gasoline gauges; water level indicators; light-emitting electronic pointers, namely, laser pointers; slope indicators; spirit levels; mercury switches; amplifiers; particle accelerators; electric installations for the remote control of industrial operations; baby monitors; balances; video recorders; sound reproduction apparatus; calculating machines for invoicing; tape recorders; data processing apparatus; electric theft prevention installations, namely, theft alarms; film cutting apparatus, namely, editing machines for movie films; drying apparatus for photographic prints; optical character readers; centering apparatus for photographic transparencies, namely, frames for photographic transparencies; dosage dispensers, namely, machines for dispensing pre-determined dosages of medication; chargers for electronic cigarettes; acoustic alarms; sounding apparatus and machines, namely, alarm installations and alarms; editing appliances for cinematographic films; data processing equipment, namely, couplers; wearable activity trackers; anti-theft warning apparatus, namely, burglar alarms; computer peripheral devices; anti-interference devices, namely, filters for radio interference suppression; demagnetizing apparatus for magnetic tapes; acoustic couplers; personal security alarms; fog signals, non-explosive; whistle alarms; adding machines; bar code readers; photocopiers; downloadable ring tones for mobile phones; downloadable image files containing photos and pictures in the field of children's entertainment; downloadable music files; video discs with recorded animated cartoons; filters for non-medical respiratory masks; filters for ultraviolet rays, for photography; blank USB flash drives; magic lanterns; optical signal lanterns; optical lamps; cameras; glazing apparatus for photographic prints, namely, frames for photographic transparencies; camera shutters; photometers; flash-bulbs; digital photo frames; enlarging apparatus, namely, magnifying lenses; photovoltaic cells; containers for contact lenses; eyeglass cases; cases for smartphones; cases especially made for photographic apparatus and instruments; chromatography apparatus for laboratory use; chronographs for use as specialized time recording apparatuses; laboratory centrifuges; eyeglass chains; cyclotrons; compasses for measuring; frequency meters; time clocks; petri dishes; sleeves for laptops; covers for smartphones; fire blankets; electronic chips for the manufacture of integrated circuits; jiggers; pedometers; meteorological balloons; asbestos safety screens for firemen; fire hose; head guards for sports; cell phone straps; eyeglass cords; tripods for cameras; switchboards; electrical distribution systems, namely, power distribution panels; workmen's protective face-shields; projection screens; fluorescent screens; exposure meters for photographic devices; electrical ducts; galvanic cells; epidiascopes; ergometers not for medical purposes; armatures for use in electrical apparatus

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For news agency services for electronic transmission; wireless broadcasting; television broadcasting; cable television broadcasting; electronic bulletin board services; information about telecommunication; providing user access to global computer networks; providing access to databases; providing internet chatrooms; providing telecommunications connections to a global computer network; providing telecommunication channels for teleshopping services; transmission of greeting cards online; electronic message sending; computer aided transmission of messages and images; transmission of telegrams; transmission of digital files; providing an online forum for transmission of messages among computer users concerning children's games; videoconferencing services; rental of telecommunications apparatus for sending messages; rental of access time to global computer networks; rental of modems; rental of telecommunication equipment; rental of telephones; rental of facsimile apparatus; radio broadcasting; communications by fiber optic networks; communications by cellular phones; communications by computer terminals; satellite transmission; communications by telegrams; communications by telephone; facsimile transmission; paging services; teleconferencing services; voice mail services; telecommunications routing and junction services; telegraph services; telephone communications services

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

Standard Character Claim Yes. The mark consists of standard characters without claim to any particular font style, size, or color. **Mark Drawing Type** 4 - STANDARD CHARACTER MARK **Disclaimer** "SCHOOLS" **Translation** The English translation of "HEI" in the mark is "Hi".

RELATED PROPERTIES INFORMATION

International Registration 1413352 **International Registration Date** Jan. 24, 2018

GOODS AND SERVICES INFORMATION

For Games and playthings, namely, puzzles, board games, dolls, toy figures, toy kits, namely, toy model kit cars, scale model kits; gymnastic and sporting articles, namely, gymnastic apparatus, basketballs, volleyballs, trampolines; musical games, namely, musical toys, toy musical boxes; climbing frames, namely, playground equipment in the nature of climbing units; playground apparatus, namely, jungle gyms, sand boxes, swing sets, slides, playhouses; electronic educational teaching games for developing fine motor, cognitive, counting, social, behavioral, literacy, writing, art, play, communication, and physical skills

International Classes 28 - Primary Classes **US Classes** 22, 23, 38, 50 **International Class Title** Toys and Sporting Goods

For Stationery; adhesives for stationery or household purposes; artists' materials, namely, artists' pens and artists' brushes; paint brushes; printed materials, namely, printed educational materials in the nature of teaching tiles, comics, illustrations, and posters, textbooks in the field of early childhood education and for early childhood instruction, instructional publications, namely, books, hand-outs, and workbooks in the field of early childhood education and for early childhood instruction, calendars, notebooks; printed teaching materials in the field of early childhood education and instruction

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Education services, namely, conducting courses and workshops in the field of early childhood education; development of printed educational materials of others, namely, books, textbooks, teaching tiles, hand-outs, and printed materials of others in the field of early childhood education; advisory services about education; nursery schools; Education services in the nature of early childhood instruction services via daycare centers; training of teachers in the field of teaching methods for children and

preschool curriculum provided through courses; rental of instructional materials and apparatus for instruction, namely, book, film, toy, computer game programs, and game equipment rentals; publication of instructional literature

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Business advice relating to franchising; business management advisory services related to franchising; online retail store and wholesale store services, over a network, featuring educational materials, instructional and teaching aids, books, printed materials, games, toys, gymnastics and sports equipment, music players, furniture, computer software and applications; the bringing together, for the benefit of others, of a variety of educational services to form a selection on a network, enabling consumers to conveniently compare and purchase those services

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Downloadable computer software and applications for early childhood education in the nature of curriculum plans, curriculum guides, calendars, lesson and activity plans, tutorial videos, teacher training materials, and course materials for children's education and early childhood education; downloadable educational course materials in the nature of curriculum plans, curriculum guides, calendars, lesson and activity plans, tutorial videos, teacher training materials, and course materials for children's education and early childhood education; downloadable children's educational software; downloadable educational e-books for children; educational audio books for children; compact discs, namely, prerecorded CDs and DVDs featuring educational content, material, and curriculum for children's education; music playback devices, namely, music playback machines, electronic audio playback units

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Providing online temporary use of non-downloadable software for use in early childhood education and for early childhood instruction over computer networks

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

musical sound recording; providing electronic non-downloadable publications in the field of business acceleration and growth

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Advertising services; business management; business administration services; providing office functions; business advice; business management advice; business services, namely, advertising services, marketing services, business management services, personnel recruitment services, secretarial services; public relations services; promotional services; management of a retail enterprise for others; business services relating to the commercialization of goods and services, namely, advertising services, business management services, business advisory services, provision of commercial and business contact information, competitive intelligence services, employment agency services, market intelligence services, negotiation of business contracts for others, negotiation and conclusion of commercial transactions for third parties, provision of an online marketplace for buyers and sellers of goods and services, organization of exhibitions for commercial or advertising purposes, public relations services, sales promotion for others, arranging subscriptions to telecommunication services for others; business and consumer information services to facilitate the sales of goods and services via the global electronic communications network; business information, advisory and consultancy services in the field of retail and e-commerce; electronic e-commerce services, namely, providing information about products for advertising and sales purposes; advertising and marketing; advertising and marketing services provided by means of blogging; branding services, namely, consulting, development, management and marketing of brands for businesses and/or individuals; product promotional services; business information services, business enquiries, business investigations, business research; procurement, namely, purchasing goods and services in the field of electronics, telecommunications, television, media, leisure, retail, investment, business consultancy and property development for others; business services, namely, combined strategic goods or services sourcing and cooperative purchasing for others; procurement of contracts for others relating to the sale of goods and services; inventory management services; customer relationship management services for others; compilation and systemization of information into databases; management of computerized databases; marketing research; provision and retrieval in the nature of compiling of business or commercial statistical information and company statistics; provision of business and commercial information; data processing services; commercial inventory management services; rental of vending machines; retrieval of business data information; providing a searchable online advertising guide or ordering guide featuring the goods and services of others; provision of directories, namely, providing a compilation of business, product and retail information; organizing and conducting charity auctions for charitable fundraising purposes; organisation, administration, supervision and management of loyalty, incentive, promotional and reward schemes for commercial, promotional and/or advertising purposes; membership club services for providing discounts and special offers for the services of others; online trading services in which sellers post products to be auctioned and bidding is done via the internet; computerised retail store services featuring goods in the field of electronics, telecommunications, television, media, leisure, investment, business consultancy, property development, teaching and mentoring; services to facilitate the sale of goods and services via a global computer network, namely, promoting the sale of goods and services of others by means of marketing and advertising, contests and incentive reward programs; providing opportunities for exchange of information and conversation regarding a wide range of topics by means of product reviews, namely, providing a web site featuring the reviews on products and services for commercial purposes posted by users; temporary personnel services; supply chain management services; automated and computerised trading services, namely, on-line trading services in which seller advertises products to be auctioned, and bidding is done via the Internet; providing an on-

line computer database featuring trade information in the field of electronics, telecommunications, television, media, leisure, retail, investment, business consultancy and property development; provision of price comparison information

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking, life-saving and teaching apparatus and instruments, namely, breathing apparatus for underwater swimming, bullet-proof vests, life buoys, life jackets, life-saving rafts, resuscitation mannequins, resuscitation training simulators; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, electrical adapters, electromagnetic coils, frequency meters, galvanometers, inductors; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing apparatus, computers; fire-extinguishing apparatus; cinematographic films featuring fiction and non-fiction subject matter; downloadable movies featuring fiction and non-fiction subject matter provided via a video-on-demand service; downloadable magnetic recordings and pre-recorded magnetic recordings in the field of electronics, telecommunications, television, media, leisure, retail, investment, business consultancy, property development, teaching and mentoring in the nature of blogs and podcasts, downloadable training materials and presentations, downloadable electronic books, downloadable electronic magazines, downloadable interactive books, downloadable interactive game programs, and downloadable mobile phone application software featuring information relating to electronics, telecommunications, television, media, leisure, retail, investment, business consultancy and property development; optical recordings in the nature of optical discs featuring information relating to electronics, telecommunications, television, media, leisure, retail, investment, business consultancy and property development; magneto-optical recordings in the nature of optical discs featuring information relating to electronics, telecommunications, television, media, leisure, retail, investment, business consultancy and property development; solid-state recordings in the nature of pre-recorded portable flash memory storage devices featuring information relating to electronics, telecommunications, television, media, leisure, retail, investment, business consultancy and property development; audio-visual teaching apparatus, namely, televisions, liquid crystal display (LCD) projectors, film projectors, slide projectors, opaque projectors, overhead projectors; electronic books and publications, namely, magazines, newsletters, journals, blogs, reports, manuals, leaflets, informational cards and brochures, featuring information relating to electronics, telecommunications, television, media, leisure, retail, investment, business consultancy and property development recorded on computer media; downloadable and/or pre-recorded multi-media discs and publications in the field of electronics, telecommunications, television, media, leisure, retail, investment, business consultancy, property development, teaching and mentoring in the nature of blogs, podcasts; downloadable training materials and presentations, downloadable electronic books, downloadable electronic magazines, downloadable interactive books, downloadable interactive game programs, and downloadable and/or recorded mobile phone application software featuring information relating to electronics, telecommunications, television, media, leisure, retail, investment, business consultancy and property development; downloadable and/or pre-recorded multi-media recordings and publications in the field of electronics, telecommunications, television, media, leisure, retail, investment, business consultancy, property development, teaching and mentoring in the nature of blogs, podcasts; downloadable training materials and presentations, downloadable electronic books, downloadable electronic magazines, downloadable interactive books, downloadable interactive games, and mobile phone application programs featuring information relating to electronics, telecommunications, television, media, leisure, retail, investment, business consultancy and property development; laser-readable discs featuring information relating to electronics,

telecommunications, television, media, leisure, retail, investment, business consultancy and property development; downloadable and/or recorded video discs and publications, namely, blogs, podcasts, books, manuals, newsletters, magazines, leaflets, informational cards and brochures, instructional and teaching checklists, catalogues, and pamphlets, in the field of electronics, telecommunications, television, media, leisure, retail, investment, business consultancy, property development, teaching and mentoring; downloadable training materials and presentations, downloadable electronic books, downloadable electronic magazines, downloadable interactive books, downloadable interactive game programs, and downloadable mobile phone application software featuring information relating to electronics, telecommunications, television, media, leisure, retail, investment, business consultancy and property development; computer software for e-commerce in the field of electronics, telecommunications, television, media, leisure, retail, investment, business consultancy and property development; downloadable computer e-commerce software to allow users to perform electronic business transactions via a global computer network; downloadable and/or recorded digital recordings publications, namely, blogs, podcasts, books, manuals, newsletters, magazines, leaflets, informational cards and brochures, instructional and teaching checklists, catalogues, and pamphlets, in the field of electronics, telecommunications, television, media, leisure, retail, investment, business consultancy, property development, teaching and mentoring; downloadable training materials and presentations, downloadable electronic books, downloadable electronic magazines, downloadable interactive books, downloadable interactive game programs, and downloadable mobile phone application software featuring information relating to electronics, telecommunications, television, media, leisure, retail, investment, business consultancy and property development; optical, electronic and magnetic data storage devices in the nature of computer media bearing recorded information, namely, fiction and non-fiction subject matter; apparatus and instruments for recording and/or reproducing sound and/or video and/or information, namely, video recorders, camera phones, camcorders, cameras, mobile phones, radios, cassette players, compact disc players, microphones, diaphragms for acoustics, computers; blank floppy computer disks; sound recordings featuring podcasts, training materials, audio-books, sound effects and mobile phone ringtones; pre-recorded disks featuring computer software and computer programs for e-commerce to allow users to perform electronic business transactions via a global computer network; blank recordable optical disc; blank compact discs; blank audio tapes; blank tape cassettes; blank video tapes; blank laser discs; blank compact discs-interactive CD ROMS; blank digital video discs (DVD); communications apparatus and instruments, namely, telephones, computers, radios, televisions, mobile phones, facsimile machines; telephones; mobile phones; printed audio cassette storage containers; printed video cassette storage containers; printed compact disc, video disc, laser disc, and computer disc storage containers; downloadable and/or recorded computer software applications and programs for e-commerce to allow users to perform electronic business transactions via a global computer network; ; downloadable and/or recorded computer e-commerce software to allow users to perform electronic business transactions via a global computer network; downloadable and/or recorded computer software and programs to act as an e-commerce platform and bespoke software technology to allow businesses and their supply chains to conduct transactions over remote computer databases; downloadable and/or recorded computer software and for order management, processing and tracking, remote site management and customer relationship management, analysis of customer preferences and buying patterns; downloadable and/or recorded computer software and programs for use in financial transactions, fraud screening and authentication; downloadable and/or recorded computer software and programs for use in database management, spreadsheets, word processing and for graphical applications and design; downloadable and/or recorded computer software for use in transport, logistics and supply chain management; downloadable and/or recorded computer software and programs for processing, manipulating, analysing and transmitting data; blank magnetic data carriers; pre-recorded data media, namely, magnetic discs, optical discs, magneto-optical discs featuring

information relating to electronics, telecommunications, television, media, leisure, retail, investment, business consultancy and property development; apparatus for the recording, transmission or reproduction of sound or images, namely, video recorders, camera phones, camcorders, cameras, mobile phones, radios, cassette players, compact disc players, microphones, diaphragms for acoustics; digital audio recorders and players; communications apparatus, equipment and accessories, namely, telephones, computers, radios, televisions, mobile phones, facsimile machines; telecommunications apparatus, equipment and accessories, namely, telephones, computers, radios, televisions, mobile phones, facsimile machines; paging apparatus and equipment, namely, personal pagers; computers; computer hardware; downloadable and/or recorded computer firmware for e-commerce; data processing equipment, namely, computers, laptops, workstations, scanners, couplers; teaching and training apparatus and instruments, namely, electronic book readers, electronic interactive white boards, calculators; downloadable computer programs for video and computer games; ; electronic downloadable publications in the nature of electronic books, digital magazines, interactive books and magazines featuring information relating to electronics, telecommunications, television, media, leisure, retail, investment, business consultancy and property development; downloadable digital music from the Internet; downloadable computer software to enable connection to databases; downloadable and/or recorded computer software and telecommunications apparatus to enable connection to databases and the Internet, namely, transmission lines, telecommunication cables, modems, routers; batteries; battery chargers; sunglasses; downloadable electronic game programs; parts and fittings for all the aforesaid goods, namely, hand-free kits for telephones, headphones, computer monitors, mice for computers, mouse pads for computers, protective films adapted for computer screens, protective films adapted for smartphones, stands adapted for laptops, chargers for electric batteries, covers for smart phones, covers for tablet computers

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Telecommunication access services; communications services, namely, satellite communication services, internet telephony services, videoconferencing services,; wireless communication services, namely transmission of graphics to mobile telephones; internet based communication services, namely, education and training webinars and courses, broadcasting, namely, audio broadcasting, audio-visual broadcasting, digital satellite broadcasting, high definition television broadcasting; analogue broadcasting, digital and analogue transmission of information, messages, images and data via electronic communications network; television broadcasting; wireless broadband communication services; radio broadcasting; satellite television broadcasting; cable television broadcasting; communications by telephone; interactive telephone services; communication services by means of radio waves, telephones, the Internet, the worldwide web, cable, satellite, microwaves and the electricity grid; mobile and internet telephony for voting purposes; mobile and internet telephony for entertainment purposes; providing access to an on-line database containing biographical information concerning subscribers and opportunities for the sale of goods, review of goods and social interaction

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Clothing, namely, t-shirts, vests, sweaters, cardigans, waistcoats, pants, tracksuits; footwear; headwear, namely, baseball caps, helmet liners, headbands, earmuffs; suits; shirts; ties as clothing; trousers; jackets; jumpers; scarfs; coats; shoes; boots; hats; socks; underwear; cravats; parts and fittings for all the aforesaid goods, namely, belts for clothing, collars for clothing, cuffs and wristbands for clothing, footwear uppers, soles for footwear, furs for clothing, fitted heel protectors for shoes, pockets for clothing, studs for football boots

International Classes 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

For Scientific and technological services and research and design relating thereto in the field of electronics, telecommunications, television, media, leisure, retail, investment, business consultancy and property development; industrial analysis and research services in the field of electronics, telecommunications, television, media, leisure, retail, investment, business consultancy and property development; design and development of computer hardware and software; installation, maintenance, repair, updating and upgrading of computer software; computer design and development services; Software as a service (SaaS) services featuring software for use in database management, word processing; Platform as a Service [PaaS] featuring computer software platforms for use in database management, word processing; software services, namely, software back up services, software disaster recovery services, software security services, software infrastructure development services, software storage services; software programming services; providing temporary use of non-downloadable software applications accessible via a global computer network; creation and maintenance of social media websites for the promotion and sale of goods; design services, namely, website design services; retail and e-commerce design services, namely, planning and layout design services for retail, commerce and e-commerce business establishments and computer website design for retail, commerce and e-commerce websites; brand design services, namely, graphic design for creating graphic elements of brands; design and development of computer software for use in e-commerce, order management, processing and tracking, remote site management and customer relationship management, analysis of customer preferences and buying patterns, financial transactions, fraud screening and authentication, database management, spreadsheets, word processing, graphical applications and design, transport, logistics, supply chain management, and for processing, manipulating, analysing and transmitting data; designing, developing, creating, maintaining and hosting of databases, websites and internet platforms; designing, developing, creating, maintaining and hosting of databases, websites and platforms for electronic commerce and retail; maintenance of online databases of customer information for others; hosting of websites featuring digital content, namely online journals and blogs; developments of software in the field of mobile applications; computer programming; database integration services; provision of databases for holding, treating, manipulating and codifying information and statistics; compilation of web pages on the Internet; provision of on-line computer services, namely, web hosting services, cloud computing services, online security services, online server maintenance services, domain name management and databases; computer systems analysis; computer system design; leasing of computer apparatus, computer equipment, computer programs, computer software and computers; information technology security and monitoring services; computer data centre architectural consultation; computer and website architecture, namely, computer systems and website designs; consultancy in the design and development of computer hardware; packaging design services; graphic arts design and industrial design; research and development for others in the field of electronics, telecommunications, television, media, leisure, retail, investment, business consultancy and property development; quality control for others; providing a website featuring on-line non-downloadable software for provision of comparison sites and price comparison websites; material testing; data and computer security services, namely, internet filtering services, anti-virus services, spam filtering services, corporate data services; information, advisory and consultancy services relating to all the aforesaid services

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

International Registration 1444227 **International Registration Date** Jul. 17, 2018

GOODS AND SERVICES INFORMATION

For Machines and machine tools for treatment of materials including metals, carbon fiber materials, glass fiber materials, namely drill chucks for power drills, milling machines, boring machines for metalworking, grinding machines for industrial purposes; machines and machine tools for balancing of rotors and rotating components, namely, shafts, flanges, spindles, chucks; handling apparatus for loading and unloading, namely, industrial robots for loading and unloading; lifting installations for the transport of goods in the nature of workpieces; grab attachments as parts of machines in the nature of grapples; grab attachments for use with industrial robots; automatic handling machines, namely, manipulators for mounting products and workpieces; industrial robots; industrial robots for transferring or feeding workpieces; industrial robots for feeding workpieces; conveyors being machines and conveyor installations in the nature of conveyor belts; handling devices as lifting devices, namely, lifting installations for the transport of goods; belts for conveyors; overhead conveyor equipment, namely, assembly line conveyor machinery; overhead conveyor lines; floor conveyor belts; thruster for machinery; lifting devices, namely lifting tables for the transport of goods other than hand-operated; elevating work platforms; cross-belt pulleys being parts of machines; roller conveyor belts; apron conveyor belts for assembly purposes; rotary conveyor belts; lifting conveyor belts; drives for machines; machine coupling and transmission components, except for land vehicles; clamping devices for use with machine tools, namely, metal clamps used for holding piece parts on machine tool tables; hydraulic and pneumatic control mechanisms for machines, engines or motors; bearings as parts of machines; metalworking machines, namely, machining centers; robotic mechanisms, namely, industrial robotic arms, for working metal; tool bits for metalworking machines; tool holders for metalworking machines; machines, tools and apparatus for fastening and joining purposes, namely, power drill accessories, namely, non-electrical adapters for use in joining extensions and power drill bits; jet engines being parts of machines; cutting machines for metalworking; cutting inserts as parts of machines; drilling machines; milling machines;

grinding machines for metalworking; machines and machine tools for welding of metal; electric welding machines; laser welding machines; robotic electrical arc welding apparatus; laser cutting torches; machines for the bonding of metal; mechanical presses for metalworking; structural integrated components and replacement parts of the aforesaid goods

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Balancing of rotors and rotatable components of machines, motors and engines; balancing of electric drives and their parts; installation, cleaning, repair and maintenance services of material working machines and apparatus; installation, cleaning, repair and maintenance services of installations for use in material processing and material working; providing information relating to the repair or maintenance of material working machines and tools

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Accessories for balancing machines, namely, vibration sensors, motion sensors, analyzers for determining the imbalance of rotors, computer-controlled devices for evaluating the unbalance of objects, compensation units in the nature of balances for compensating the imbalance of rotors and rotatable components to be balanced; lasers, not for medical purposes; electroacoustic transducers, piezoelectrical transducers, electromagnetic transducers, vibration transducers; acceleration sensors; checking and supervision apparatus and instruments, namely cameras, instruments measuring the unbalance of workpieces to be balanced, and computers; diagnostic apparatus, not for medical purposes, for measuring unbalance of workpieces to be balanced and of the balanced workpieces and for measuring vibrations of the workpieces; electrical and electronic control, testing and monitoring apparatus, namely, electronic controllers for balancing machines, electronic apparatus for testing and measuring vibration of and force applied to rotors and rotatable components; measuring, detecting and monitoring instruments, indicators and controllers, namely, measuring tapes, tool measuring instruments, vibration meters, vibration measuring sensors, vibration, shock, motion, angle, temperature and voltage sensors, power controllers; electronic LCD display units with multi-networking (TCP/IP) capabilities; remote control apparatus for controlling balancing machines; downloadable computer software for the control of measuring instruments for balancing tasks for use with balancing machines, electronic simulators, and downloadable virtual reality training simulation software for use with balancing machines; testing and quality control devices, namely, electronic apparatus and instruments for controlling and testing of drives and motors, namely, speedometers, thermometers, vibrometers; structural integrated components and replacement parts of the aforesaid goods; balancing machines for balancing electric drives and their parts; balancing machines for balancing rotors and rotatable components of machines, motors and engines

GOODS AND SERVICES INFORMATION

For Oil filtration systems and apparatus comprised of oil filters for switchgear, tap changers, and transformers

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Transformer dry out systems being drying installations, namely, an apparatus for removing moisture from the insulation of transformers

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Regulated power supply apparatus; inverters for power supply; switching power supply apparatus; uninterruptable power supply apparatus; voltage stabilizing power supply; electric power supply units; solar modules, namely, photovoltaic solar modules for production of electricity; photovoltaic apparatus and installations for generating solar electricity, namely, photovoltaic installation apparatus, namely, solar modules for production of electricity; transformers for electricity; electronic power transformers, power transformers for amplification; electric regulating apparatus; electrical reducing transformers; electrical rectifiers; frequency changers, namely, frequency converters; electric converters; voltage converters; electrical coils; capacitors; accumulators; apparatus and instruments for switching electricity, namely, electric switches; electric switching apparatus, namely, electric switches; tap changers for electric transformers, namely, on load tap changers and off-circuit tap-changers; electrical switch cabinets, namely, control cabinets specially adapted for electrical switches; electrical switch boxes; electric control panels; distribution boxes for electrical power; junction boxes for electricity; electronic sensors; electric sensors; computer software for monitoring electricity; measuring instruments for measuring temperature, voltage, amperage, wattage, electrical resistance, capacitance, electrical impedance for electric switches and transformers; electrical controlling devices; monitoring instruments, namely, electronic devices for monitoring unwanted gas production, energy consumption and

excessive deviations in temperature, pressure, voltage, amperage, wattage, electrical resistance, capacitance, reactive power, dissipation factor, power factor, phase shift and electrical impedance installations, and equipment in the nature of computer hardware for conducting, distributing, switching, converting, storing, influencing by controlling and controlling of electricity; electric monitoring apparatus, namely, electronic devices for monitoring unwanted gas production, energy consumption and excessive deviations in temperature, pressure, voltage, amperage, wattage, electrical resistance, capacitance, reactive power, dissipation factor, power factor, phase shift and electrical impedance installations, and equipment in the nature of computer hardware for conducting, distributing, switching, converting, storing, influencing by controlling and controlling of electricity; apparatus and instruments for conducting electricity, namely, electric conductors; apparatus and instruments for controlling electricity, namely, electrical controllers; power distributing boxes; apparatus for diagnosing electrical power installations, namely, diagnosis of insulation liquids; sensory software for measuring temperature, voltage, amperage, wattage, electrical resistance, capacitance, electrical impedance for electric switches and transformers; filling level detectors; flow measuring apparatus, namely, sensors for measurement of pressure, acceleration, force and flow; sensors, namely, electric sensors for electric switches and transformers; mass gas flow sensors; temperature sensors, sensors for measuring speed; acceleration sensors; pressure sensors; light sensors; electric current sensors; speed measuring instruments; tension testers; instruments for measuring pressure, moisture meters; voltage detectors; voltage meters; energy control devices for energy management; power meters; impedance transformers; data processing software; downloadable computer software for the management of information; computer software for controlling of industrial processes; oscilloscopes, electronic data loggers

MARK INFORMATION

Standard Character Claim Yes. The mark consists of standard characters without claim to any particular font style, size, or color. **Mark Drawing Type** 4 - STANDARD CHARACTER MARK

RELATED PROPERTIES INFORMATION

International Registration 1445530 **International Registration Date** Oct. 23, 2018

GOODS AND SERVICES INFORMATION

For Chemicals for use in agriculture, horticulture and forestry, excluding fungicides, herbicides, insecticides, parasiticides and chemicals for use in water treatment; unprocessed plastics in primary form, namely, powder, granule, pellets, chips, pastes, beads, flakes, for use in manufacturing operations and extrusion techniques; unprocessed synthetic resins, in primary form, namely, powder, granule, pellets, chips, pastes, beads, flakes, for use in manufacturing operations and extrusion techniques; excluding any goods with relation to water treatment and water solutions

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Plastic fibers for textile use; synthetic, semi-synthetic, and chemical fibers for textile use, namely, polymer fibers for textile use

International Classes 22 - Primary Classes **US Classes** 1, 2, 7, 19, 22, 42, 50 **International Class Title** Cordage and Fibers

For Semi-worked rubber; resins in extruded form for general industrial use, namely, resins in extruded form for use in manufacturing operations; extruded plastic in the form of bars, blocks, pellets, rods, sheets, tubes, for use in manufacturing operations; semi-processed synthetic resins, in the forms of powder, granule, pellets, chips, pastes, beads, flakes, for use in manufacturing operations and extrusion techniques; chemicals used in industry and science, excluding chemicals used in water treatment; semi-processed plastics in the form of powder, granule, pellets, chips, pastes, beads, flakes, for use in manufacturing operations and extrusion techniques; excluding any goods with relation to water treatment and water solutions

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

International Registration 1446205 **International Registration Date** Aug. 10, 2018

GOODS AND SERVICES INFORMATION

For Business administration services; business management; providing office functions; advertising services; updating and maintenance of data in computer databases; systematization and compilation of data in computer databases; professional business consultancy; providing commercial information; consulting for companies in commercial and business matters; business management consulting; organizing business contacts, namely, provision of business contact information; public relations; presentations of companies on the Internet and other media in the nature of online advertising and publicity services; provision of consumer product information for the purpose of assisting in the selection of general consumer goods which meet consumers' needs in the context of consumer advice; commercial information agency services, namely, providing consumer product and consumer service advice

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Software for use in database management in the field of customer service automation; voice command and voice recognition software; voice-to-text conversion software; voice-activated software applications for use in database management in the field of customer service automation; personal assistance software for customer service automation; self-learning software for use in database management in the field of customer service automation; customer relation management software, namely, software for responding to customer, consumer and user inquiries; wireless communication software for transmitting voice, sound, video and data; software for search engines in the nature of downloadable computer search engine software; computer software for controlling independent voice-controlled information devices and personal assistants; computer software for personal information management; computer software for accessing, browsing and searching online databases, audio, video and multimedia content, games and software applications, marketplaces for software applications; computer software for accessing and monitoring, tracking, searching, storing and sharing information on business-related topics;

computer software for use in providing retail and ordering services for a wide range of consumer products; computer software for connecting and controlling electronic devices of the Internet of Things; computer software for use as a programming interface API for storing and sharing information in the field of customer service automation; downloadable software development kits SDK consisting of software development tools for computer software for the development of voice transmission and technology for understanding natural language via worldwide computer networks, wireless networks and electronic communication networks; downloadable software development kits SDK consisting of computer software for the development, use and interoperability of application programming interfaces used by electronic devices, systems and interfaces exchanging data over communication networks and the Internet and connected to cloud-based data storage and exchange services; application programming interfaces, namely, downloadable computer software to enable the development of tools for voice service transmission and personal assistance capabilities related to customer relation management; downloadable software, in particular in the form of apps for use in database management in the field of customer service automation

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Scientific and technological services, namely, research and design in the field of computer datacenter architecture, self-learning computer software applications; design and development of computer hardware and software; development of self-learning software; electronic data storage; development of computer programs for data processing; Software as a Service (SAAS) featuring computer software for organizing and delivering customer service with the purpose of customer service automation; Software as a Service (SAAS) featuring computer software for controlling independent voice-controlled information and personal assistance devices; Software as a Service (SAAS) featuring computer software for managing personal information; Software as a Service (SAAS) featuring computer software for organizing and delivering customer service; Software as a Service (SAAS) featuring computer software for accessing, browsing and searching online databases, audio, video and multimedia content, games and software applications, marketplaces for software applications; Software as a Service (SAAS) featuring computer software for accessing, monitoring, tracking, searching, storing and sharing information on business issues, especially consumer and customer inquiries and their response; Software as a Service (SAAS) featuring computer software for connecting and controlling electronic devices of the Internet of Things; Software as a Service (SAAS) featuring computer software for use as an application programming interface (API) for storing and sharing information in the field of customer service automation; Platform as a service (PAAS) featuring computer software platforms for use with voice command and speech recognition software, voice-to-text conversion software and voice-controlled software applications; Platform as a Service (PAAS) featuring computer software platforms for use with personal assistance software for use in the field of customer service automation; Platform as a Service (PAAS) featuring computer software platforms used with software for organizing, processing and responding to consumer and customer inquiries; design, development and maintenance of proprietary computer software for natural language, spoken language, speech and speech recognition; technical support services, namely, technical consulting for the development of computer systems, platforms and applications; provision of customised computer search services, namely, search and retrieval of information on the instructions of the user via the Internet; computer services, namely, remote management of software applications via computer networks, wireless networks or the Internet; provision of Internet search engine services; technical project management in the computer field; configuration of computer networks by software; consulting services in the field of cloud computing; technical project management in the field of computer hardware, computer networks, computer software, document management; technical advice on computers,

computer software and security, authentication and archiving in the field of computer programs and computer networks; information and advice on all the above services

CASE IDENTIFIERS

Serial Number 79250642 **Application Filing Date** Dec. 14, 2017 **Register** Principal **Mark Type** Trademark **Publication Date** Apr. 21, 2020

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of large uppercase stylized letters "GEA" featuring a horizontal ring through the center of the letters. To the right of the letters is the stylized wording "ENGINEERING FOR" above the stylized wording "A BETTER WORLD". **Color Claimed** Color is not claimed as a feature of the mark. **Color Location** The color gray is not a feature of the mark and represents shading only.

RELATED PROPERTIES INFORMATION

International Registration 1446753 **International Registration Date** Dec. 14, 2017

GOODS AND SERVICES INFORMATION

For Machines and machine tools for treatment of materials and for manufacturing other than for office use, namely, food processing machines; dairy manufacturing machines, meat processing machines, feed manufacturing machines, feed processing machines, leather processing machines, drug manufacturing machines; motors and engines except for land vehicles and other than for office use; machine coupling and transmission components except for land vehicles; agricultural implements other than hand-operated, namely, coulters, seed drills and harvesters; emulsifying machines for chemical processing and food homogenizing machines; brewing machines, namely, beer brewing machines for commercial purposes; kneading machines for industrial purposes; mixing machines; drilling machines; electric knives; blade holders being parts of machines for slicers in the food industry and for shear processors in the pharmaceutical industry; knives, namely, electric knives; stropping machines; moulding machines in the nature of metal forming machines and metal bending machines other than for office use; pressing machines for industrial uses, namely, rotary presses, pharmaceutical tablet presses and powder presses; milling machines for brewing systems and for use in the pharmaceutical industry, and crushing machines for industrial purposes; electric graters for industrial use; electric crushing ice machines and electric ice shaving machines for production and processing of dry ice, cubed, crushed and flaked ice; motors, pumps and compressors for refrigerators and freezers; food and beverage processing machines, namely, electric food processors and beverage processing machines; separating machines, namely, centrifugal separators, cyclone separators; machines for dividing, clarifying, separating, mixing and conveying of liquid and/or solid mixtures and substances, namely, centrifugal pumps, centrifuges, centrifugal separators and filtering machines for chemical processing; electric centrifugal mixers; electric powder mixers; reverse osmosis pumps and filters for food industry, beverage

industry, and pharmaceutical industry machines; filtration machines for use in the food processing industry and pharmaceutical industry; rotating brush sieves being machine parts; cyclones as parts of machinery; oil separators; filters, sieves and membrane filters as parts of machines for use in the chemical processing, pharmaceutical and food industries and for use in motors and engines; air compressors, gas compressors, electric compressors, refrigerator compressors and rotary compressors; fans for machine engines and fans for motors and engines; pumps for use in the beverage industry; blowing machines for the compression, exhaustion and transport of gases; pump diaphragms; suction machines for industrial purposes, namely, suction pumps, gas suction machines, oil suction machines, air suction machines, dust suction machines, suction cleaning machines for use in the manufacture of suction filters and suction cups for milking machines; electric machines for cleaning purposes, namely, compressor cleaning machines, and rinsing machines; steam cleaners; food and beverage processing and preparation equipment, namely, butter machines, computer-operated and non-computer-operated electric food processors, electric food blenders and packaging machines for the processing, further processing and packaging of meat, poultry, fish, cheese, potatoes, vegetables and other vegetarian products; computer-operated and non-computer-operated machines for the pre-processing, processing and packaging of meat, poultry, fish, cheese, potatoes, vegetables and other vegetarian products, namely, electric knives, milling machines and electric mixers; machines for sausage production; automatic machines for the storage and packaging of foodstuffs, namely, packaging machines, vacuum packing machines and assembly line conveyer machines; cutting machines; electric food slicers; sausage making machines; automatic labelling machines for applying labels to containers and bottles; industrial printing machines; moving and handling equipment, namely, cargo handling machines; agitators for circulating liquid media, electronic food agitators and agitators for chemical processing; lifting and hoisting equipment, namely, lifting installations for the transport of persons and goods; handling machines, namely, automatic cargo handling machines; material handling palletizers; bottle filling machines; bottle washing machines; bottle capping machines; conveyors being machines; belt conveyors; loading machines; unloading machines; power-operated manure augers; vacuum packing machines; packaging machines; wrapping machines; foil wrapping machines; engines and powertrains in the nature of motors; pressure regulators being parts of machines; heat exchangers being machine parts; crankcases for machines, motors and engines; hydraulic controls for machines, motors and engines; pneumatic controls for machines, motors and engines; pistons being parts of machines and engines; regulators being parts of machines; valves being parts of machines; expansion compensators, namely, machine parts for absorbing heat-induced expansion at joints in industrial piping systems; tank cleaners, namely, tank vehicle washing installations, pressure washing machines; electricity generators or generators of electricity for indoor use; machines for the energy technology in the nature of electric generators; thermal energy converters, namely, block type thermal power stations for power generation; steam engines; internal combustion engines, other than for land vehicles; centrifugal separators and cyclone separators for power plants; solid-wall bowl centrifugal separators for power plants; solid-wall bowl oil separators for power plants; fuel oil conditioning systems, namely, booster pumps; machines for lube oil treatment, namely, self-cleaning separators; machines for separation of solids in the nature of solid waste and trade separator machines; compressors for refrigerators; machines, namely, laminating, granulating, and agglomerating machines for use in the foodstuffs industry and pharmaceutical industry; sealing machines for industrial purposes; filling machines; power-operated atomizers for industrial or commercial use; animal feed drying machines using microwaves; chemical fiber drying machines using microwaves; harvest drying machines using microwaves; food drying machines using microwaves; machines for agricultural engineering purposes, namely, agricultural machines in the nature of combines and tillers, agricultural lifting machines, machines for automated milking, milking robots; waste recycling machines in the nature of machines for mechanical recycling of expanded polystyrene and synthetic resinous materials, waste processing machines in the nature of waste and trash

separator machines, waste material conveying machines, waste crushing machines, waste compactors; garbage sorting machines in the nature of machines for separating recyclable materials and removing non-conforming materials, machines for waste water processing in the nature of diffusers used for waste water treatment, excavators in the nature of excavating machines; concrete mixers and concrete construction machines; machine tools, namely, metalworking machine tools; machines and installations composed thereof for applying the spraying technology and spray drying technology for commercial purposes, namely, spray dryers in the nature of spraying systems for use in drying thermally-sensitive materials in industrial plants, rotary atomizers for spray drying in the nature of power-operated atomizers for use in drying thermally-sensitive materials in industrial plants, paint spraying machines, spraying systems for drying, granulation or coating in the nature of power-operated industrial atomizers and spray machines for cleaning; agricultural, earthmoving, construction, oil and gas extraction and mining equipment, namely, earth-moving machines and extracting machines for chemical processing; agricultural equipment, namely, coulters and hay balers; electric food processors; fodder presses; milking machines and vacuum pumps; semi-automatic and automatic milking machines; component parts for milking machines; pumps and pulsators for the dairy industry, namely, stationary machines for automatically spraying cows with liquid insecticides and germicides; machines for udder cleaning and washing of dairy cows; electronic feeder for livestock; milking parlor equipment, namely, manure handling machines in the nature of manure scrapers; tractor-towed farm implements, namely, manure spreaders; waste management systems, processing systems and recovery systems for manure, slurry and other animal waste, namely, pumps or scrapers being machines for the transport of solid and liquid animal excretions as well as presses for the separation of undigested solid elements; mechanized livestock feeders; machines and machine-operated equipment in the nature of stationary machines for cleaning and disinfecting purposes for use in the dairy industry, namely, machines for the spraying of disinfectants onto teats and hooves; installations and components for processing and the disposal of manure and slurry for the generation of energy, namely, electric pumps and conveyers; sweeping machines and cleaning machines, namely, steam cleaning machines; stable cleaning machines, namely, machines for blast cleaning a surface and cleaning appliances utilizing steam; road rollers; industrial robots; condensing installations, namely, air condensers and mechanical compensators in the nature of synchronous condensers; vacuum pumps and vacuum cleaners; vacuum installations, namely, vacuum pumps being parts of milking machines; pumps for the food processing industry, namely, milking machine pumps; extractors, namely, electric milk extractors for milking clusters, namely, mechanical apparatus for removing the milking equipment from the udder; dust removing installations for cleaning purposes; aerators being machines for milk; spraying machines; condensing installations, namely, air condensers and machines for condensing foodstuffs, semi-luxury food, beverages and animal feed

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply as well as sanitary installations, namely, heating pumps, fuel heaters, steam generating installations, gas stoves, electric refrigerators; air drying machines for agriculture; water fountains; sanitary bath installations; lighting fixtures, heat generators and cooking stoves; air treatment apparatus, namely, air purifying apparatus and machines, air filtering installations, electric air deodorizers, air filters for industrial installations, filters and filtering devices for air and gas conditioning, filters for air conditioning, water filters for refrigeration, ventilation hoods, and air purification equipment; electric air deodorizers; air purifying installations; ventilation hoods; commercial and industrial dehumidifiers; HVAC systems primarily composed of fabric air dispersion ducts for distributing and dispensing air as part of an HVAC system; heat-recovery installations, namely, heat recovery ventilators;

air cooling apparatus; air purifying apparatus and machines; hot air blowers; chimney blowers; electric fans; regulating and safety accessories for water and gas installations, namely, evaporative air coolers, steam valves, ball valves for use in plumbing installations; level regulating valves for water tanks for use in plumbing installations; air valves for steam heating installations; wet water cooling towers and dry air cooling towers with natural ventilation and forced ventilation for the cooling of liquid and vaporous media; gas burners, industrial boilers, heating boilers, electric boilers, water heaters, furnaces, electric heating filaments, furnace ash boxes, heat accumulators, heat generators, immersion heaters, pipes for heating boilers, coal, gas and electric stoves, incinerators and thermostatic valves, radiators, heating elements, heating installations; heat exchangers, not parts of machines; furnaces; heat pumps; steam accumulators; heat accumulators; heat generating apparatus; electric stoves; incinerators; refrigerating and freezing equipment, namely, refrigerators, freezers, refrigerating machines and installations, ice machines, and apparatus and refrigerated shipping containers; refrigerating appliances and installations; refrigerating chambers; ice machines and apparatus; refrigerator condensers; transport refrigeration units for land, air and water vehicles, trailers, and shipping boxes and containers; water cooling apparatus; cooling installations, in particular for foodstuffs, namely, milk cooling installations; cooling and refrigerating installations for the construction industry for the cooling of concrete; cooling and refrigerating installations for the mining industry, namely, air conditioning installations and refrigerators; cooling and refrigerating installations for sports and leisure facilities, namely, air conditioning installations and refrigerators; refrigerating shipping containers; ice making machines; lighting, namely, light bulbs and lighting fixtures and lighting reflectors; LED lighting apparatus for use in industrial plants and animal enclosures; discharge tubes, electric, for lighting; infrared and ultraviolet lamps not for medical purposes; sanitary installations, namely, disinfectant apparatus for industrial purposes including the dairy industry; water sterilizers; water purification and filtration apparatus; water desalination units; water desalination plants; sanitation equipment in the nature of water taps and sinks; sterilizers not for medical purpose; urinals and pipes being parts of sanitary facilities; sterilization, disinfection and decontamination equipment, namely, water sterilizers and water disinfectant apparatus for industrial purposes; disinfectant apparatus not for medical purposes; electric autoclaves for industrial purposes; water sterilizers; sterilizers for milk; steam sterilizers; water purification, water desalination and water conditioning installations; agricultural irrigation units; installations and apparatus for wastewater treatment, namely, wastewater purification units; reverse osmosis devices, namely, reverse osmosis filtration units, water filtering apparatus and water purification installations; pipes being parts of sanitary facilities; sterilizers not for medical purposes; food and beverage cooking, heating, roasting, grilling, cooling and treatment equipment, namely, cooking stoves and ovens, electric and gas grills, bread ovens, bread baking machines, bread toasters in the nature of electric toasters, electric deep fryers, electric appliances for making yoghurt, electric coffee percolators, electric coffee machines, electric pressure cooker, industrial deep fryers, electric hotplates, electric kettles, coffee bean roasting machines; electric deep fryers; cooker hoods for industrial use, namely, ventilation hoods; electric kettles; coffee bean roasters; electric food dehydrators; roasting apparatus, namely, corn roasters and coffee roasters, meat roasting stoves and electromagnetic stoves; infrared and microwave ovens for industrial purposes; pasteurizers for the use in the food and beverage industry; industrial microwave ovens and furnaces not for food or beverages; heat exchangers for chemical processing; drying apparatus for chemical processing, evaporators for chemical processing, and distillation units; water treatment equipment for industrial use, namely, water filtration units and reverse osmosis units, water desalination plants, water purifying apparatus, sewage treatment plants, water cooling towers; gas scrubbing apparatus and gas purifying installations; installations for filtering liquids for industrial use, namely, water filtering apparatus and separators for the cleaning and purification of liquids; sewage treatment installations; drying apparatus and installations, namely, freeze drying equipment, namely, lyophilizers, drying machines for agriculture, drying apparatus for chemical processing, drying

apparatus for use in heating, ventilation systems, air conditioning systems and refrigeration systems and forage drying apparatus; installations for the purification of gas; heat regenerators, namely, heat exchangers not being parts of machines; vaporizing installations, apparatus and appliances, for industrial use, in the nature of power-operated vaporizers; drying apparatus for the preparation of inorganic salts and for separation of aroma; drying apparatus for use in heating, ventilation systems, air conditioning systems and refrigeration systems; humidifiers; air filtering apparatus and water filtering apparatus; cleaning installations and equipment for liquids, namely, separators for the cleaning and purification of liquids; water purification, water treatment, water supply and water desalination installations and equipment, namely, water purification and filtration apparatus, water desalination plants and water conditioning units, all for industrial use; apparatus and equipment for exhaust steam and waste heat recovery, namely, heat recovery ventilators and energy recovery ventilators; automatic watering installations, namely, hot water heating installations; water purification tanks and hot water tanks; clean room installations; water filtering apparatus; water softening apparatus; water heaters; water heating installations; air treatment apparatus and machines, namely, air purifying apparatus; germicidal lamps for purifying air; air and water filters for industrial use; flues and installations for conveying exhaust gases, namely, chimney flues; gas condensers, other than parts of machines; ionization apparatus for the treatment of air; valves being parts of sanitary, heating, steam generating, cooking, refrigerating, drying, ventilating and water supply installations, namely, air valves for steam heating installations, flushometer valves; installations and apparatus for the thermal processing of foodstuffs, namely, pasteurizers for use in the food, semi luxury food, beverages and animal feed industries; freeze drying equipment, namely, lyophilizers for use in the semi luxury food, beverages and animal feed industries; freezers, distilling units and refrigerating machines all for use in the semi luxury food, beverages and animal feed industries; electric ventilating air curtain for use with milking equipment; all the foregoing custom manufactured by customers' order; distilling machines, namely, water distillers and distillers for chemical processing; microwave ovens

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Regulating, checking, control, measuring and switching installations, apparatus and instruments, namely, computer controllers in the nature of touch pads, pressure controllers for controlling the pressure of liquid, semi-liquid, and gaseous substances in industrial processes; electric current regulating apparatus, namely, electric current regulators, precision measuring instruments for the purpose of measuring temperature, humidity, voltage and pressure, switches in the nature of electric switches, temperature switches, high frequency switches and power switches; detecting and monitoring instruments, indicators and controllers, namely, electrical control for valves, electrical plugs for valves, electrical control valves in the nature of electrical valve actuators and temperature sensors; electronic animal counting devices; electronic flow monitoring devices; electric control panels for monitoring and operating milking systems; time and temperature recorders; apparatus and instruments for testing, measuring and analyzing liquid or powder products; food analysis apparatus, namely, food safety monitoring devices in the nature of thermometers and diagnostic apparatus for testing food; quantity indicators, namely, electronic animal counting devices and electromagnetic flow meters for liquid processing; telemeters; diagnostic apparatus for testing food; electrical transducers; flow meters; pressure gauges; refractometers; spectrometers; thermometers other than for medical use; remote controls for automatic food dispensers; automatic liquid flow control machines and instruments; testing apparatus, not for medical purposes, namely, diagnostic apparatus for testing food, testers for measuring electric inductance, capacitance and resistance; Testers for measuring pH and air flow; leak detectors for vacuum pumps; textile testing machines; temperature sensitive testing apparatus for industrial use, namely, thermostats, metal strength testing machines, electronic

apparatus for testing the sterility of pharmaceuticals and injectable solutions; vacuum gauges; scales; electronic instruments for climate monitoring, measuring and control, namely, thermostats and hygrometers; data processing equipment, namely, computers and couplers; computers; apparatus for cable, wireless, fiber optic and satellite transmission of communication and digital data; recorded computer software to monitor and control factory manufacturing processes and recorded data management software to monitor, process, control and collect electronic data from factory equipment; sensors and detectors, namely, sensors for the measurement of time of flight of electromagnetic waves and of ultrasonic waves; titration controllers in the nature of concentration meters; sensors for UV bioluminescence; infrared X-Ray sensors in the nature of infrared detection apparatus; mechanical sensors in the nature of pressure sensors; force sensors; torque sensors; near-infrared sensors in the nature of sensors used for measuring near-infrared waves in industrial and agricultural products; sensors for non-dispersive infrared analysis; light reflective sensors in the nature of photoelectric sensors; sensors for density measurement; electro-magnetic sensors in the nature of apparatus used to measure electromagnetic fields; electronic sensors in the nature of electric sensors for industrial and agricultural use; sensors for use in flow cytometry in the nature of cytometers; X-ray fluorescence analyzers; inductive sensors in the nature of metal detectors for industrial use; ion-sensitive field effect transistor; radio frequency sensors in the nature of sensors to detect wireless electromagnetic signals for industrial use; coriolis sensors in the nature of flow meters; optical sensors; camera sensors; sensors for use in potentiometric analysis, photoelectric sensors; capacitive sensors in the nature of touch pads; touchscreen sensors; conductivity and impedance sensors in the nature of sensors for measuring conductivity in industrial and agricultural products; flow sensors to measure the flow of gases and liquids for industrial and agricultural use; sensors for recording of individual physical parameters, namely, temperature sensors, liquid level sensors and proximity sensors; information technology and audiovisual equipment, namely, audiovisual receivers, computers and computer hardware including monitors, printers, scanners and cameras; scanners other than for office use; luminescence scanners; electronically encoded identity devices to detect electronic boluses, namely, radio transmitters and receivers to automatically detect implanted microchips for animal identification, for delivering concentrated feed for cow management, for registering milk quantities, milk ingredients and milk quality and for monitoring animal health and digestion of milk-producing animals; RFID tags and electronic collars and leg tags to control health status and fertility of livestock; transmitters of electronic signals in the nature of telecommunications transmitters; receivers of electronic signals in the nature of telecommunications receivers; transponders of electronic signals; commutators; X-ray apparatus, not for medical purposes; signalling whistles; neck tags and responders for livestock, namely, RFID tags; protective industrial boots; protective gloves and protective clothing for protection against accidents; safety goggles; computer application software for mobile devices and computers for industrial processing control and for dairy herd control; dairy herd management software and computer hardware; computer hardware; computer peripherals; optical devices, sensors and optical equipment, enhancers and correctors, namely, optical lamps, optical sensors, optical lenses, optical glasses and optical condensers; closed-circuit video observation systems comprised of closed circuit television camera and video monitor; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely, voltage regulators, electrical contacts and electrical relays; electrical contacts; electric relays; apparatus for recording, storage, transmission or reproduction of sound or images; scientific surveying, photographic, cinematographic, optical, weighing, signaling apparatus and instruments, namely, weighing apparatus and instruments; scientific research and laboratory apparatus, namely, microscopes; downloadable electronic publications, namely, books, journals and magazines in the fields of the food and beverages industries and pharmaceutical and chemical industries; printed circuit boards; electrical transducers; batteries

GOODS AND SERVICES INFORMATION

For Computer hardware; downloadable computer software for securing data, information and communications; downloadable computer firewall software; downloadable computer software for the creation of firewalls; downloadable predictive maintenance software for data security; downloadable computer software and hardware for the detection of threats to computer networks; downloadable computer software for the prevention of illegal use of computer networks; downloadable computer software for data encryption; downloadable computer software and computers for the identification and authentication of users in computer networks; downloadable computer software and hardware for administrating, installing, updating and deleting computer software from computer networks, and for controlling computer systems used for encrypted and safe communication

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Data security services, namely, computer security threat analysis for protecting data; data security consultancy; computer security consultancy services for protection against illegal and unauthorized network access; hosting of data security software of others and rental of data security software; providing user identification and authentication services, namely, electronic signature verification services using technology to authenticate user identity in communication network systems; providing non-downloadable software for securing data, information, and communications on a global computer network; services for computer system analysis; consultation services relating to computer systems, namely, monitoring of computer systems by remote access to ensure proper functioning; data encryption and decoding services; data encryption services, namely, technical consultancy in relation to data encryption and safe communication and to administration of systems for encrypted and safe communication; technical consultancy in relation to authentication and encryption of data related to transport of documents, information and messages; computer security system monitoring services for protecting data and information from

unauthorized access; monitoring and administration of computer systems for security purposes for others for detecting unauthorized access or data breach; computer firewall services for protecting data, namely, providing message and data filtering and encryption services to protect internal computer networks of organizations and data centers from unauthorized or malicious use; computer software design; software development and testing services; installation, updating and maintenance services of computer software; computer programming; computer software research services; technical and scientific research in the field of diagnosing of problems in computer software and in transport of information and data between private computer networks and data centers through the public networks like the Internet; development and integration of computer software and computer network hardware; installation of computer software; troubleshooting in the nature of diagnosing problems with computer software; consultancy services in relation to diagnosing of computer software and computer hardware problems related to the transport of information and data between private computer networks and data centers through public networks like the internet; configuring computer hardware networks using software

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

International Registration 1448151 **International Registration Date** Apr. 13, 2018

GOODS AND SERVICES INFORMATION

For Education, namely, training in the field of healthcare and pharmaceuticals; providing information in the field of education regarding healthcare

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Advertising services; business management services; business administration services; business research and information services; market research and market research information services; data processing services; analysis of business data; statistical analysis, consultancy and reporting for business and marketing purposes for biomedical research, healthcare institutions and specialized healthcare professionals, based on artificial intelligence and machine learning; business analysis and statistical analysis of healthcare data, biomedical and pharmaceutical research and clinical trial data and data from examinations carried out after the introduction of medicines on the market for business and marketing purposes; data processing carried out using computers; business research, business market prospecting and statistical analysis in the fields of public health, health care, bio-medicine and pharmaceuticals, as well as clinical trials and examinations carried out after the introduction of medicines on the market for business and marketing purposes; business advisory services, consultancy and information

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Downloadable computer software for providing, analyzing and generating reports; downloadable computer software for data processing; downloadable computer software and programs for the capture, collection, conversion, analysis, communication, processing, receiving, recording, storage and/or transmission of data, images and information; downloadable computer software and programs for the conversion, analysis, processing, storage and transmission of artificial intelligence;

downloadable computer software for database integration; downloadable computer software for creating searchable databases of information and data; downloadable software for analytics in the fields of public health, healthcare, pharmaceutical and biomedical research and downloadable software for analysis of clinical trial data and data from examinations carried out after the introduction of medicines on the market; downloadable computer software allowing to connect to electronic computer databases containing pharmaceutical and medical information; downloadable computer software for management of medical practices and research; search engines as software for accessing and providing updated information in the scientific, medical, pharmaceutical and clinical field as well as for accessing and providing news of general interest; downloadable computer software for accessing, controlling and managing data and information related to healthcare services and patient medical information; downloadable computer software for measuring, monitoring, processing and tracking information in the field of health, as well as wellness and medical information; downloadable computer software, for use with medical patient monitoring equipment, for receiving, processing, transmitting and displaying data

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Providing health and medical information; providing internet-based healthcare information; providing medical information to healthcare professionals regarding patient data; providing healthcare information relating to the diagnostic, prophylactic and therapeutic properties of pharmaceutical preparations and biologic preparations for the prevention and treatment of diseases, disorders and conditions; medical services; medical and pharmaceutical consultation; medical services, namely, providing medical services and consultation over the telephone and via the Internet through the use of personal computers, smartphones, tablets, mobile and wireless devices, and other telecommunication devices; medical assistance in the nature of the provision of medical information for medical professionals from remote locations via the Internet and global computer networks through the use of a data storage and retrieval system

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For Scientific and technological services and research, namely, scientific research and analysis services in the field of pharmaceuticals and biomedicine; analysis of technical data by computers; pharmaceutical, biomedical, biological therapeutic research services; research in the field of pharmaceutical and biologic therapeutic preparations; pharmaceutical research and development; providing scientific research information in the field of pharmaceuticals, biomedicine, clinical trials and examinations carried out after the introduction of medicines on the market; cloud computing featuring software for conducting scientific research and analysis in the fields of public health, healthcare, pharmaceutical and biomedical research, clinical trial data and data from examinations carried out after the introduction of medicines on the market; providing temporary use of online non-downloadable computer software allowing users to connect to databases containing pharmaceutical and medical information, as well as clinical trial data and data from examinations carried out after the introduction of medicines on the market; providing temporary use of online non-downloadable computer software for management of medical practices and research; providing use of online search engines for accessing and providing updated scientific, medical and clinical information, and news information of general interest; providing temporary use of online non-downloadable computer software for accessing, controlling and managing data and information related to healthcare services and patient medical information

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

International Registration 1448820 **International Registration Date** Aug. 30, 2018

GOODS AND SERVICES INFORMATION

For Machines, machine tools and power tools for manufacturing of multifunctional-microelectromechanical and microoptoelectromechanical systems for the manufacture of transponders and semiconductor wafers and integrated circuits affixed thereto; bonding machines and bonding machine tools for assembly of electrical, mechanical and optical components for the manufacture of transponders, sensors and semiconductor wafers, and integrated circuits affixed thereto; machines, machine tools and power tools in the field of microperipheric technologies, namely, autogenous soldering machines, electric welding machines, gas welding machines, electric brazing machines, sintering machines for chemical processing, all for manufacturing micro and non-scale structures by the transformation of solder, welding, brazing, adhesive-bonding or sintering materials; machines, machine tools and power tools for applying connecting materials in form of pre-forms, pastes, films, foils, fluids or powder onto substrates by using chemical, electro-chemical and physical deposition techniques, namely, machinery for applying coatings ultrasonically to medical and industrial apparatus; machines, machine tools and power tools for manufacturing microconnections, by chemical or physical deposition, mechanical-, thermal- or optical transformation; machines for electrical, optical and mechanical bonding to build up substrate units composed of one substrate or several substrates combined together to form a module, in particular chips; motors and engines, other than for land vehicles; machine couplings and transmission components, other than for land vehicles; devices in relation to micro-peripheral technologies, namely, machines for manufacture and processing of semi-conductors; apparatus, namely, electrostatic coating machines for applying connecting materials onto substrates, by using chemical, electro-chemical and physical deposition, dispense, placement and mechanical-, thermal- and optical transformation for manufacturing microconnections, in particular for building up substrate units composed of one substrate or several substrates combined together to form a module, in particular chips

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Treatment of materials by thermal, optical and mechanical interaction in relation to substrates used in the field of microelectronics, in particular semiconductor substrates and flexible substrates, namely, optical radiation, laser radiation

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Industrial analysis of goods or services of others to assure compliance with industry standards and scientific research services; design and development of computer hardware and software; product development in the field of contact pad metallizations for connection technology; development of new technology for others in the field of the manufacture of microconnections; technological consultancy, in the technology field of the manufacture of microconnections

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Common metals and their alloys, unwrought or semi-wrought; transportable buildings of metal; non-electric cables and wires of common metal; metal containers for storage and transport; contact metallizations for micro joints of soldering in the nature of solder pastes, soft solder films, foils, fluids and powder

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

International Registration 1449250 **International Registration Date** Mar. 02, 2018

GOODS AND SERVICES INFORMATION

For Entertainment services provided at sports events or concerning sports events, namely, live musical concerts, live music and DJ performances, equestrian shows, display of animated films and theatrical performances; production of audio and video recordings on audio and video media; ; production of films; Production and organization of cultural shows; provision of audio and video recordings, namely, providing a website featuring non-downloadable audio and video recordings in the field of equestrian sport on audio and video media for others; provision of films, namely, television show and motion picture film production and distribution for others; providing online interviews featuring contemporary figures in the field of equestrian sport for educational and entertainment purposes

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Downloadable computer software platforms in the nature of a sports training simulator for use in the field of equestrian sports

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Telecommunications access services; Audiovisual program broadcasting over the air, via cable, satellite, computer terminal or global computer network; Press agencies, namely, electronic transmission of press information to press organizations via a telecommunications network; News information agencies, namely, electronic transmission of news items to news reporting organizations via telecommunications networks; Transmission of information and data, online or in non-real time, via telecommunication networks; Teleconferencing services

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

RELATED PROPERTIES INFORMATION

International Registration 1449807 **International Registration Date** Sep. 21, 2018

GOODS AND SERVICES INFORMATION

For Newsletters and pamphlets in the field of food and beverages, culture, sports and events thereof; posters; printed matter, namely, printed catalogues in the field of food and beverages, culture, sports and events thereof; printed publications, namely, brochures in the field of the promotion of goods; printed publications, namely booklets in the field of food and beverages, culture, sports and events thereof; books in the field of food and beverages, culture, sports and events thereof; booklets in the field of food and beverages, culture, sports and events thereof; newspapers; printed periodicals in the field of food and beverages, culture, sports and events thereof

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Training courses in strategic planning relating to advertising, promotion, marketing and business; tea ceremony instruction; providing educational examinations on knowledge of traditional Japanese culture and skills based thereon; educational services, namely, arranging and conducting of symposiums, seminars, educational conferences, and workshops in the field of food and beverages, culture, sports and events thereof; educational services, namely, arranging and conducting of workshops, educational congresses, colloquia, distance learning courses, and exhibitions for cultural purposes in the field of food and beverages, culture, sports and events thereof; educational services, namely, arranging and conducting of seminars, educational conferences, and educational exhibitions for cultural purposes in the field of food and beverages, culture, sports and events thereof; organization of competitions, particularly for wines and spirits; organization of exhibitions and trade fairs for cultural or educational purposes; organization of exhibitions for cultural or educational purposes; providing on-line non-

downloadable general feature magazines; providing online non-downloadable comic books and graphic novels; electronic books, magazines, and newspapers accessible via the Internet; publication of on-line books and journals; publication of books; layout services, other than for advertising purposes; audio and video recording services in the field of sporting events, cultural events and events of food and beverages; providing on-line instructional videos in the field of food and beverages, culture, sports and events thereof, not downloadable; providing television programs, not downloadable, via video-on-demand transmission services; production of radio or television programs for traditional Japanese culture; organization, arranging and conducting of events for cultural exchange between Japan and overseas; conducting of events for introduction of traditional Japanese culture; organization, arranging and conducting of events relating to promotion of Japanese culture; photography

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Retail store services and wholesale store services featuring eggs, ice, unroasted coffee beans, fried tofu pieces [Abura-age], freeze-dried tofu pieces [Kohri-dofu], jelly made from devils' tongue root [Konnyaku], soya milk, Tofu and fermented soybeans [Natto], Chinese stuffed dumplings [Gyoza, cooked], Chinese steamed dumplings [Shumai, cooked], Sushi, fried balls of batter mix with small pieces of octopus [Takoyaki], boxed lunches consisting of rice, with added meat, fish or vegetables, and ravioli, processed eggs, yeast powder, fermented malted rice (Koji), yeast and baking powder, instant confectionery mixes, pre-cooked curry stew, stew, pasta sauce and soup mixes, dried flakes of laver for sprinkling on rice in hot water [Ochazuke-nori] and dried flakes of fish, meat, vegetables or seaweed [Furi-kake], side-dish made of fermented soybean [Name-mono], malt, by-product of rice for food [Sake lees], dietary supplements for humans, dietetic beverages adapted for medical purposes and dietetic food adapted for medical purposes, beverages for babies and food for babies, liquor excluding beer, western liquors in general, alcoholic fruit beverages and Japanese Shochu-based beverages [Chuhai], and meat; on-line advertising on a computer network; direct mail advertising; production of teleshopping programmes; television advertising; outdoor advertising; advertising services, namely, creating corporate and brand identity for others; advertising services; consultancy regarding advertising communication strategies; scriptwriting for advertising purposes; advertising agency services; dissemination of advertising matter; developing advertising and promotional campaigns for others in the field of wines and spirits; organization of exhibitions and trade fairs for commercial or advertising purposes; layout services for advertising purposes; publication of publicity texts; dissemination of advertising matter; advertising copy writing; modelling for advertising or sales promotion; production of advertising films; copy writing for advertising and promotional purposes; consultancy regarding public relations communication strategies; public relations; distribution of samples; organization of trade fairs for commercial or advertising purposes; organization of exhibitions for commercial or advertising purposes; organization of events, exhibitions, fairs and shows for commercial, promotional and advertising purposes; demonstration of goods; advertising services for the promotion of goods; arranging and conducting marketing promotional events for others; business merchandising display services; arranging and conducting special events for promotional purposes; preparation of promotional and merchandising material for others; planning and conducting of trade fairs, exhibitions and presentations for promotional or advertising purposes; advertising and promotional services; promoting the goods and services of others through advertisements on Internet web sites; promoting the goods and services of others through infomercials; providing marketing information via web sites; promotion, advertising and marketing of on-line web sites; publicity and sales promotion relating to goods and services available on-line; promoting the goods and services of others via a global computer network; on-line promotion of computer networks and web sites; promotion of goods and services through sponsorship of sports events; sales

promotion for others through trading stamp schemes; marketing services; marketing and promotional services in the nature of developing promotional campaigns for business; promoting the sale of goods and services of others through the distribution of printed material; promotion of sports competitions and events of others; promotion of musical concerts of others; administration of a consumer loyalty program to promote restaurant services and retail services of others; advertising, marketing and promotion services; consultancy relating to advertising and promotion services; advertising, promotional and public relations services; promotion of goods and services through sponsorship of international sports events; promoting the sale of fashion goods of others through promotional articles in magazines; sales promotion using audiovisual media; developing promotional campaigns for businesses; marketing and promotional activities relating to business administration and business management; sales promotions at point of purchase or sale, for others; promoting the goods and services of others; promoting the goods and services of others by preparing and placing advertisements in electronic magazines; promotional marketing, namely, sales promotion for others; business administration of consumer loyalty programs; developing promotional campaigns for business; administration of a customer loyalty program which provides cash and other rebates; export promotion services, namely, sales promotion of exports; organization and conducting of product presentations to the public; presentation of goods on communication media, for retail purpose, namely advertising the goods of others on the Internet and television; search engine optimisation for sales promotion; provision of space on websites for advertising goods and services; providing business information via a web site; brand positioning services; brand evaluation services; consulting, development, management, and marketing of brands for businesses; brand imagery consulting services; price comparison services; marketing research; conducting market studies; professional business consultancy; providing business information; business inquiries; providing assistance in the field of business promotion; commercial information agency services; commercial intermediation services, namely, mediation of contracts for purchase and sale of products; consumer research; public opinion polling; procurement, namely, purchasing furniture for other businesses; negotiation and settlement of commercial transactions for third parties; negotiation and conclusion of commercial transactions for third parties; compilation of statistics; import-export agencies; commercial information and advice for consumers in the choice of products and services

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Compact discs read-only memory in the nature of disc memories; downloadable image files in the field of food and beverages, culture, sports and events thereof; downloadable graphic design templates; downloadable video files in the field of food and beverages, culture, sports and events thereof; downloadable audio files in the field of food and beverages, culture, sports and events thereof; downloadable video recordings in the field of food and beverages, culture, sports and events thereof; downloadable video recordings featuring music; downloadable graphics for mobile phones; pre-recorded CDs featuring food and beverages, culture, sports and events thereof; downloadable music files; downloadable e-books in the field of food and beverages, culture, sports and events thereof; downloadable electronic publications in the nature of newsletters and pamphlets in the field of food and beverages, culture, sports and events thereof

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For Pharmaceutical preparations for the treatment and prevention of infectious diseases, injuries, muscle diseases, obstructive airway diseases, cirrhosis, degenerative conditions, tumor, mental illnesses, psychosomatic illnesses, diseases of civilization, namely, venereal diseases, cardiovascular system diseases, gastroenteric system diseases, respiratory system diseases, immune and endocrine system diseases, nervous system diseases, viral diseases, diabetes, cancer, AIDS and infectious diseases, immune and autoimmune diseases, inflammatory diseases, obesity, deficiencies, namely, nutritional, cancer and inborn, vitamin, and immunological deficiencies, scars, wounds, pain, ophthalmic diseases and conditions, for use in the replacement or supplement of body parts with defects caused by trauma and disease or by birth and in the replacement or supplement of body parts lost by trauma, disease or missing from birth, and for maintenance of redox homeostasis in cells or for hair and skin care; medical and veterinary preparations for treating gastrointestinal illnesses and pain relief medication and

for the treatment of intestinal bacteria; sanitary preparations for medical purposes; dietetic food and substances adapted for medical or veterinary use, namely, food and substances comprising or made of cyclodextrins, cyclodextrin derivatives, phenols, phenol derivatives, hydroxytyrosol, ubiquinone, ubiquinol, amino acids, antioxidants; food for babies; dietary supplements for humans and animals; medical plasters; materials for dressings, namely, bandages, gauze wadding; material for stopping teeth; dental wax; disinfectants; preparations for destroying vermin; fungicides; herbicides; dietetic preparations in the form of additives and auxiliaries adapted for medical and veterinary purposes, namely, cyclodextrins, cyclodextrin derivatives, phenols, phenol derivatives, hydroxytyrosol, ubiquinone, ubiquinol, amino acids, antioxidants; dietetic beverages adapted for medical use; enzymes or enzyme preparations for medical or veterinary purposes; medicated cosmetics; oils for medical purposes; medicated animal feed; vitamin fortified beverages for medical purposes; nutraceuticals for use as a dietary supplement for therapeutic or medical purposes, namely, the treatment and prevention of infectious diseases, injuries, muscle diseases, obstructive airway diseases, cirrhosis, degenerative conditions, tumor, mental illnesses, psychosomatic illnesses, diseases of civilization, namely, venereal diseases, cardiovascular system diseases, gastroenteric system diseases, respiratory system diseases, immune and endocrine system diseases, nervous system diseases, viral diseases, diabetes, cancer, AIDS and infectious diseases, immune and autoimmune diseases, inflammatory diseases, obesity, deficiencies, namely, nutritional, cancer and inborn, vitamin, and immunological deficiencies, scars, wounds, pain, ophthalmic diseases and conditions, for use in the replacement or supplement of body parts with defects caused by trauma and disease or by birth and in the replacement or supplement of body parts lost by trauma, disease or missing from birth, and for maintenance of redox homeostasis in cells or for hair and skin care; vitamin preparations; antioxidants for medical or veterinary purposes or in the form of dietary supplements; medicines and dietary supplements based on disaccharides, oligosaccharides, polysaccharides or derivates or complexes thereof for the treatment and prevention of infectious diseases, injuries, muscle diseases, obstructive airway diseases, cirrhosis, degenerative conditions, tumor, mental illnesses, psychosomatic illnesses, diseases of civilization, namely, venereal diseases, cardiovascular system diseases, gastroenteric system diseases, respiratory system diseases, immune and endocrine system diseases, nervous system diseases, viral diseases, diabetes, cancer, AIDS and infectious diseases, immune and autoimmune diseases, inflammatory diseases, obesity, deficiencies, namely, nutritional, cancer and inborn, vitamin, and immunological deficiencies, scars, wounds, pain, ophthalmic diseases and conditions, for use in the replacement or supplement of body parts with defects caused by trauma and disease or by birth and in the replacement or supplement of body parts lost by trauma, disease or missing from birth, and for maintenance of redox homeostasis in cells or for hair and skin care; medicines and dietary supplements based on cyclodextrins, cyclodextrin derivates or complexes thereof for the treatment and prevention of infectious diseases, injuries, muscle diseases, obstructive airway diseases, cirrhosis, degenerative conditions, tumor, mental illnesses, psychosomatic illnesses, diseases of civilization, namely, venereal diseases, cardiovascular system diseases, gastroenteric system diseases, respiratory system diseases, immune and endocrine system diseases, nervous system diseases, viral diseases, diabetes, cancer, AIDS and infectious diseases, immune and autoimmune diseases, inflammatory diseases, obesity, deficiencies, namely, nutritional, cancer and inborn, vitamin, and immunological deficiencies, scars, wounds, pain, ophthalmic diseases and conditions, for use in the replacement or supplement of body parts with defects caused by trauma and disease or by birth and in the replacement or supplement of body parts lost by trauma, disease or missing from birth, and for maintenance of redox homeostasis in cells or for hair and skin care; medicines and dietary supplements based on phenols or phenol derivatives for the treatment and prevention of infectious diseases, injuries, muscle diseases, obstructive airway diseases, cirrhosis, degenerative conditions, tumor, mental illnesses, psychosomatic illnesses, diseases of civilization, namely, venereal diseases, cardiovascular system diseases, gastroenteric system diseases, respiratory system diseases, immune and

endocrine system diseases, nervous system diseases, viral diseases, diabetes, cancer, AIDS and infectious diseases, immune and autoimmune diseases, inflammatory diseases, obesity, deficiencies, namely, nutritional, cancer and inborn, vitamin, and immunological deficiencies, scars, wounds, pain, ophthalmic diseases and conditions, for use in the replacement or supplement of body parts with defects caused by trauma and disease or by birth and in the replacement or supplement of body parts lost by trauma, disease or missing from birth, and for maintenance of redox homeostasis in cells or for hair and skin care; organic acids and derivatives thereof for dietetic, medical or veterinary purposes or in the form of dietary supplements; amino acids or amino acid derivatives for dietetic, medical or veterinary purposes or in the form of dietary supplements; biological preparations for medical or veterinary purposes or in the form of dietary supplements for the treatment of the treatment and prevention of infectious diseases, injuries, muscle diseases, obstructive airway diseases, cirrhosis, degenerative conditions, tumor, mental illnesses, psychosomatic illnesses, diseases of civilization, namely, venereal diseases, cardiovascular system diseases, gastroenteric system diseases, respiratory system diseases, immune and endocrine system diseases, nervous system diseases, viral diseases, diabetes, cancer, AIDS and infectious diseases, immune and autoimmune diseases, inflammatory diseases, obesity, deficiencies, namely, nutritional, cancer and inborn, vitamin, and immunological deficiencies, scars, wounds, pain, ophthalmic diseases and conditions, for use in the replacement or supplement of body parts with defects caused by trauma and disease or by birth and in the replacement or supplement of body parts lost by trauma, disease or missing from birth, and for maintenance of redox homeostasis in cells or for hair and skin care; medicated dentifrices; chewing gum for medical purposes; medicines and dietary supplements based on silicones, silanes and silica for intestinal disorders, for the treatment of gastrointestinal diseases; biocides; dental, otoplastic and ophthalmological preparations and material for dental prostheses made of organosilicon compounds and their composition

International Classes 5 - Primary Classes **US Classes** 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Machines for plastics processing and milling, grinding, mixing, extruding, coating and laminating machines for the treatment of materials, namely, for plastics and metal; 3D printers

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Educational services, namely, providing classes, seminars, workshops in the fields of chemistry, physics, biotechnology, engineering and marketing; providing of training in the form of classes, seminars, workshops in the field of chemistry, physics, biotechnology, engineering and marketing; organizing community sporting and cultural activities; providing educational information in the academic field of science for the purpose of academic study; publication of books, magazines, brochures, calendars and providing of non-downloadable electronic publications in the nature of books and magazines in the field of chemistry, physics, biotechnology, engineering and marketing; writing of articles for professional journals other than for advertising or publicity; arranging training courses; providing of advanced training in the field of chemistry, physics, biotechnology, engineering and marketing; providing of further training in the field of chemistry, physics, biotechnology, engineering and marketing; educational support, namely, providing tutoring in the field of chemistry, physics, biotechnology, engineering and marketing; organization and arranging of educational conferences; organization and arranging of educational congresses

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Non-medicated cosmetics and toiletry preparations; non-medicated dentifrices; perfumery; essential oils; bleaching preparations and other substances for laundry use, namely, fabric softeners, detergent, wax, glaze; cleaning, polishing, scouring and abrasive preparations; artificial and natural fragrances and aromatic oils, and solutions, mixtures and preparations thereof, namely, creams, lotions, body sprays, emulsions, dispersions, soaps, oil and powders; perfume oils for the manufacture of cosmetic preparations; non-medicated dental care preparations, namely, chewing gum, chewing candy, toothpaste, tooth gel, dental floss and mouth wash; chewable dentifrices; dentifrices in the form of chewing gum; cosmetic dyes, namely, hair dyes and beard dyes; cosmetic preparations for slimming purposes; cosmetics based on disaccharides, oligosaccharides, polysaccharides or derivates or complexes thereof; cosmetics based on cyclodextrins, cyclodextrin derivates or complexes thereof; cosmetics based on phenols or phenol derivatives; cosmetics based on antioxidants; cosmetics based on silicones, silanes and silica

International Classes 3 - Primary Classes **US Classes** 1, 4, 6, 50, 51, 52 **International Class Title** Cosmetics and Cleaning Preparations

For Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, batteries; lithium-ion batteries; anodes; apparatus, instruments and cables for electricity, namely, lithium-ion battery cells for electrical appliance construction and power supply in the fields of plant construction, automation, batteries, consumer electronics, electric vehicles, electrical power engineering, cables, high voltage capacitors, transformers, and defense technology; electrical and electronic components, namely, lithium-ion battery cells for electrical appliance construction and power supply in the fields of plant construction, automation, batteries, consumer electronics, electric vehicles, electrical power engineering, cables, high voltage capacitors, transformers, and defense technology; blank magnetic data carriers; blank recordable optical discs; blank compact discs; blank DVD-Rs and digital recording media, namely, CD-Rs, CD-ROMS; downloadable data processing programs recorded on data carriers; photovoltaic systems that convert sunlight into electric and thermal energy; photovoltaic apparatus and installations for generating solar power, namely, solar modules, thermal hybrid modules, roofing members, cladding panels; solar wafers; solar cells; photovoltaic solar modules; components for installing photovoltaic modules being parts specially adapted for the aforesaid photovoltaic installations and apparatus; solar batteries; solar collectors for electricity generation; silicon wafers; semi-conductor wafers; biosensors for the detection of chemical substances; contact lenses

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Customized manufacture of models and prototypes and custom small-series production of models and prototypes; customized production of substances based on amino acids, namely, amino acids, peptides, proteins and antibodies; customized production of proteins; plastics processing; plastics treatment; processing of foodstuffs for use in manufacture; treatment of foodstuffs; production of 3D prints; rental of 3D printers

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Scientific and technological services, namely, design, research, development, production and testing services in the field of chemistry, physics, biotechnology and engineering; industrial analysis and research services in the field of chemistry, physics, biotechnology and engineering; design and development of computer hardware and software; scientific research, development and consultancy related thereof in the chemistry sector; scientific research, development and consultancy related thereof in the biotechnology sector; scientific research, development and consultancy related thereof in the technology sector; scientific research, development and consultancy related thereof in the foodstuff technology sector; research and development of new products, for others; preparation of technical documentation in the field of chemistry, physics, biotechnology and engineering; chemistry services, namely, design, research, development, production and testing services; biology services, namely, design, research, development, production and testing services; biotechnology services, namely, design, research, development, production, and testing services physics research

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

CASE IDENTIFIERS

Serial Number 79267303 **Application Filing Date** Jun. 19, 2019 **Register** Principal **Mark Type** Trademark **Publication Date** Apr. 21, 2020

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a stylized predominantly white rabbit outlined in gray. The rabbit has black eyes with white highlights, pink nose and mouth, pink blotches on the cheeks, pink finger and toe lines, and pink inner ears. The stylized wording "Poteusa Loppy" appears in dark brown beneath the rabbit design, with a dark brown stylized cog attached to the tail of the letter "y" in "Loppy". Stylized Japanese characters also appear in pink with a dark brown outline below the term "Loppy". Two small stylized flower designs also appear in pink and light blue with a dark brown outline atop two of the Japanese characters. Only the color white appearing outside the rabbit's gray outline represents background that is not a feature of the mark. **Color Drawing** Yes **Color Claimed** The color(s) black, white, gray, pink, brown, and blue is/are claimed as a feature of the mark. **Transliteration** The non-Latin characters in the mark transliterate to "Poteusa Roppi" and this has no meaning in a foreign language.

RELATED PROPERTIES INFORMATION

International Registration 1488290 **International Registration Date** May 10, 2019

GOODS AND SERVICES INFORMATION

For Handling machines for pharmaceutical containers and products, namely, container removal and feeder; transport devices for pharmaceutical containers, namely, vials in the nature of injection bottles, ampoules, syringes, cartridge in the nature of cylindrical ampoules, and pouches, feed systems comprised of conveyor systems, namely, conveyor screws, conveyor belts, star wheels, and vacuum star wheels for bulk goods in downstream machines, accumulation tables being parts of machines for pharmaceutical containers processing; machines for cleaning pharmaceutical containers; machines for sorting tablets, dragées and capsules by thickness; electronic label printing machines for commercial use; Automatic industrial labeling machines for applying labels to containers

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Tuition services, namely, workshops, training courses, and seminars in the field of industrial image processing, maintenance and servicing, validation and qualification, documentation, risk analysis, testing strategies, increasing equipment performance, availability, and reliability; arranging and conducting of workshops, training courses and seminars in the field of industrial image processing, maintenance and servicing, validation and qualification, documentation, risk analysis, testing strategies, increasing equipment performance, availability and reliability; training courses, namely, providing and administering training courses to prepare and maintain qualifications in the field of industrial image processing, maintenance and servicing, validation and qualification, documentation, risk analysis, testing strategies, increasing equipment performance, availability, and reliability

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Installation, maintenance, servicing, cleaning and repair of machines; installation, cleaning, maintenance, servicing and repair of material testing and measuring instruments and machines, and testing apparatus

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For inspection machines for the physical inspection of pharmaceutical packaging and the package contents, namely, pharmaceutical products, using spectroscopy; optical inspection apparatus for quality assurance purposes; material testing and measuring instruments and machines, namely, temperature sensors, infrared ray sensors, microwave sensors, optical inspection apparatus, metal detectors, lasers, not for medical purposes, weighing apparatus and instruments, weighing machines; electric apparatus for commutation and distribution, namely, electrical switches and control consoles consisting thereof, namely, switchboards; electric and electronic controllers and control apparatus and control installations, control units and control systems consisting thereof, namely, electronic controllers for pharmaceutical packaging and inspection machines; image processing systems, namely, sensors in the nature of cameras, optics, namely, lenses, beam splitter, prism, optical filters, diffusors, mirror optics, laser optics, collimators, fiber optics, lighting system comprising of light sources, light sensors and devices for controlling and regulating the light sources, image processor, and recorded software for processing digital images; camera systems for a variety of wavelength ranges, in particular smart cameras, high-speed cameras; optics, namely, mirror optics, laser optics, collimators, fiber optics, namely, light guides; X-ray apparatus not for medical purposes; peripherals adapted for use with computers; dosage apparatus, namely, machines for dispensing pre-determined dosages of medication; electric checking and supervision apparatus, namely, electrical inspection hardware and recorded operating software for checking and supervision purposes in the pharmaceutical industry; scanners, thermometers and temperature indicators not for medical purposes; data-processing equipment and computers; computer software, recorded, in particular man-machine interface software, memory-programmable control software, machine control software, firmware for operating system programs, software for sensor and measurement systems, software for processing images, data analytics software, line management software, machine learning software; quantity indicators, namely, automatic pill counters, measuring devices and apparatus, namely, technical measuring and checking apparatus and instruments for measuring and checking the quantity and concentration of gas and liquids; pressure sensors for leak testing; detection systems comprised of area scan cameras and line scan cameras, lighting system comprising of light sensors and light fixtures for detecting particles; analysis systems comprised of a laser beam and corresponding components for analysing container contents; spectrometers; high-voltage leak testing systems comprised of an inspection machine using electrodes, a high voltage source and a current measurement system to detect leakages in the pharmaceutical container ; lighting for optical inspection systems comprised of light source controller, light source, filter, diffusor, polarizer, reflector, mirror, light guide, and optics, namely, mirror optics, laser optics, collimators, and fiber optics

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Technological engineering services in the field of inspection technology, in particular for the pharmaceutical sector, technical consultancy in the field of inspection technology; updating, leasing, maintenance and design of computer software; design and development of computer hardware and software, maintenance of software, technical research and mechanical research in the field of transport systems for pharmaceutical containers, inspection systems for pharmaceutical products, industrial image processing, man-machine interface software, memory-programmable control software, machine control

software, software for sensor and measurement systems, software for processing images, data analytics software, line management software, machine learning software; conducting technical project studies in the field of transport systems for pharmaceutical containers, inspection systems for pharmaceutical products, industrial image processing, man-machine interface software, memory-programmable control software, machine control software, software for sensor and measurement systems, software for processing images, data analytics software, line management software, machine learning software; technical project management in the field of electronic data processing; re-examination of technical apparatus to gain a result whether the apparatus is able to perform the task; inspection of technical apparatus to gain a result whether the apparatus is able to perform the task; process-supervision for quality-assurance along the entire value and supply chain

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Financial affairs and monetary affairs, namely, financial information, management, and analysis services; organization of electronic stock exchanges for the benefit of the trade of stocks and other financial securities; providing of online information relating to financial exchange transactions via computer databases or the internet

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For Education services, namely, providing of training in the field of chemicals, specialty chemicals and industrial chemicals; Education services, namely, providing classes, seminars, workshops in the field of chemicals, specialty chemicals and industrial chemicals; entertainment, namely, organizing community sporting and cultural activities; arranging and conducting of courses, seminars, workshops and educational conferences in the field of chemicals, specialty chemicals and industrial chemicals; arranging and conducting non-downloadable webinars and online seminars in the field of in the field of chemicals, specialty chemicals and industrial chemicals; publishing of online electronic publications; publication of a customer magazine on the internet; conducting of educational competitions for students in the field of business on the Internet; entertainment, namely, entertainment information provided via the internet

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Chemicals for use in industry, in particular 1,2-cyclohexane dicarboxylic acid diisononyl ester (DINCH), diisopentyl terephthalate, 1,3-butadiene, 1,2-butadiene, 1-butene, 2-propylheptanol (2-PH), diisobutene, diisononyl phthalate (DINP), di-n-butene, ethyl tert-butyl ether (ETBE), liquid gases, liquid gas mixtures consisting of propane, n-butane and isobutane, isobutene, isobutane, gas propellant aerosols, isononanol (INA), isononyl benzoate (INB), isotridecanol (ITDA), methyl tert-butyl ether (MTBE and MTBS and MTBE S and MBTBE T) as chemical additives to motor fuels, carburants, lubricants and

fuels, n-butane, oxo oils obtained from the production of 2-PH, oxo oils obtained from the production of INA, oxo oils obtained from the production of ITDA, raffinates, namely, mixtures of C4 containing raw material flows or hydrocarbons, anhydrous and azeotropic tert-butanol (TBA), tetrabutane, tetrabutene, tributene for use in industry, trimethylhexanal (TMH), hydrogen at various pressure levels, co-catalyst phosphorus ligand in the nature of 2,2'-bis [(1,1'-biphenyl-2,2'-diyl)phosphite]-3,3'-di-tert-butyl-5,5'-dimethoxy-1,1'-biphenyl

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Advertising, marketing and sales promotion; business management; business administration; providing office functions; Retail and wholesale store services featuring chemicals for use in industry, in particular 1,2-cyclohexane dicarboxylic acid diisononyl ester (DINCH), diisopentyl terephthalate, 1,3-butadiene, 1,2-butadiene, 1-butene, 2-propylheptanol (2 - PH), diisobutene, diisononyl phthalate (DINP), di-n-butene, ethyl tert-butyl ether (ETBE), liquid gases, liquid gas mixtures consisting of propane, n-butane and isobutane, isobutene, isobutane, aerosols, isononanol (INA), isononyl benzoate (INB), isotridecanol (ITDA), methyl tert-butyl ether (MTBE and MTBS and MTBE S and MBTBE T) being chemical additives to motor fuels, carburants, lubricants and fuels, n-butane, oxo oils obtained from the production of 2-PH, oxo oils obtained from the production of INA, oxo oils obtained from the production of ITDA, propane for use in industry, raffinates, namely, mixtures of C4-containing raw material flows or hydrocarbons, anhydrous and azeotropic tert-butanol (TBA), tetrabutane, tetrabutene, tributene for use in industry, trimethylhexanal (TMH), hydrogen at various pressure levels, co-catalyst phosphorus ligand in the nature of 2,2'-bis (1,1'-biphenyl-2,2'-diyl) phosphite -3,3'-di-tert-butyl-5,5'- dimethoxy-1,1'-biphenyl; retail and wholesale store services featuring oils, greases, lubricants and fuels including motor fuels, in particular diisobutene, ethyl tert-butyl ether (ETBE), liquid gases, liquid gas mixtures, fuels or non-chemical additives to fuels, in particular oxo oil obtained from the production of INA, oxo oil obtained from the production of ITDA, oxo oils obtained from the production of 2-PH, raw butane, tetrabutane, tetrabutene, tri-n-butene, hydrogen fuels at various pressure levels, non-chemical additives to oils, greases, lubricants and fuels; providing of business information and business consultancy in relation to ordering of goods through e-commerce; administrative processing of purchase orders; administrative processing of buying orders; organisation and management of customer loyalty schemes, namely, business administration of consumer loyalty programs; conducting product demonstrations and product presentations; promoting the goods and services of others by conducting presentations of goods and services; organisation of product presentations for marketing purposes; planning and organisation of trade fairs, exhibitions and presentations for marketing or advertising purposes; presentation of companies, and the goods and services thereof, on the internet for advertising purposes; digital marketing services; digital advertising services; consultancy and assistance in the field of advertising, marketing and sales promotion; promotion of customer loyalty for others through developing marketing campaigns involving bonus incentive programs; public relations; communications strategy consultancy with regard to public relations; online ordering services featuring chemicals, specialty chemicals and industrial chemicals; telephone and on-line ordering services featuring chemicals, specialty chemicals and industrial chemicals; electronic processing of orders, namely, computer-aided order confirmation; electronic processing of purchase orders; receiving of orders by telephone, for others; office functions in the nature of receiving purchase orders; business networking; consultancy relating to the cost-price analysis of customer orders; compilation and systemisation of information into computer databases; compilation and input of information into databases; office functions in the nature of acquisition, data processing, updating and maintenance of data in databases; office functions in the nature of database management; administration of business affairs for others; business records management; business management of incentive and bonus schemes for promoting the sale of the

goods and services of others; business research; organisation of auctions on the internet

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Downloadable computer software for the transmission and sharing of chemical information and specialty chemical information and downloadable computer e-commerce software to allow users to perform electronic business transactions, namely, purchasing, sales, and track delivery status of industrial chemicals; downloadable software for smartphones for the transmission and sharing of chemical information and specialty chemical information and downloadable e-commerce software for smartphones to allow users to perform electronic business transactions, namely, purchasing, sales, and track delivery status of industrial chemicals; downloadable application software for smartphones for the transmission and sharing of chemical information and specialty chemical information and downloadable application e-commerce software for smartphones to allow users to perform electronic business transactions, namely, purchasing, sales, and track delivery status of industrial chemicals; software downloadable from the internet for the transmission and sharing of chemical information and specialty chemical information and e-commerce software downloadable from the internet to allow users to perform electronic business transactions, namely, purchasing, sales, and track delivery status of industrial chemicals; downloadable mobile applications for the transmission and sharing of chemical information and specialty chemical information and downloadable e-commerce mobile applications to allow users to perform electronic business transactions, namely, purchasing, sales, and track delivery status of industrial chemicals; downloadable software for the transmission and sharing of chemical information and specialty chemical information on virtual social networking websites and downloadable computer e-commerce software to allow users to perform electronic business transactions on virtual social networking websites, namely, purchasing, sales, and track delivery status of industrial chemicals; application software for the transmission and sharing of chemical information and specialty chemical information on social networking websites via the internet and downloadable computer e-commerce software to allow users to perform electronic business transactions on social networking websites via the internet, namely, purchasing, sales, and track delivery status of industrial chemicals; downloadable databases in the field of chemicals, specialty chemicals and industrial chemicals; downloadable interactive databases in the field of chemicals, specialty chemicals and industrial chemicals

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Telecommunications, namely, teleconferencing services, wireless telephone services; Telecommunication services, namely, electronic data transmission; telecommunication access services; telecommunication gateway services; providing user access to computer programs in data networks; transmission of digital files; Telecommunication services, namely, message sending; communications via digital computer terminals; internet communications, namely, providing Internet access, providing Internet chatrooms, Internet service provider services, providing remote Internet access; transmitting streamed sound recordings via the internet; providing computer communications via digital computer terminals and providing internet access; digital network telecommunications services; digital transmission of data; data transmission via the internet; providing access to an e-commerce platform on the internet; providing of user access to internet platforms; telecommunications, namely, transmitting data via internet platforms and portals; providing access to internet platforms; providing of a telecommunications connection to the internet or to databases; telecommunications, namely, providing electronic message alerts and telecommunication consultation; telecommunications, namely, advisory services related to telcommunications, transfer of data

by telecommunications, telecommunication access services, information about telecommunications via internet platforms and internet portals and in other internet media; providing of internet chatrooms for social networking; providing of online discussion forums in the nature of internet chatrooms for social networking; providing access to the Internet for social networking; providing of online forums; providing of internet access; providing of internet chatlines; providing of internet chatrooms; providing of interactive internet forums; electronic exchange of data; rental of telecommunications equipment for exchanging electronic and digital data; providing access to databases; providing access to databases on computer networks; providing of telecommunications connections to databases; streaming of video material on the internet

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Transport of goods; packaging and storage of goods; travel arrangement, namely, arranging transport for travelers; physical storage of electronically stored data and documents

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Oils, greases, lubricants and fuels including motor fuel, in particular diisobutenes in the nature of butane gases being fuel, ethyl tert-butyl ether (ETBE) in the nature of butane gases being fuel, liquefied gases for use as fuel, liquid gas mixtures for use as fuel, fuels and non-chemical additives to fuels, in particular oxo oils obtained from the production of INA, oxo oils obtained from the production of ITDA, oxo oils obtained from the production of 2-PH, raw butane in the nature of butane gases being fuel, tetrabutane in the nature of butane gases being fuel, tetrabutene in the nature of butane gases being fuel, tri-n-butene in the nature of butane gases being fuel, hydrogen fuels at various pressure levels, non-chemical additives for oils, greases, lubricants and fuels; propane for use in industry

International Classes 4 - Primary Classes **US Classes** 1, 6, 15 **International Class Title** Lubricants and Fuels

For Scientific research; Scientific research and development, Research in the field of chemicals, specialty chemicals and industrial chemicals; Scientific and technological services, namely, scientific research, analysis, and testing in the field of chemicals, specialty chemicals and industrial chemicals; Scientific and technological services, namely, research and design in the field of chemicals, specialty chemicals and industrial chemical consultation; industrial analysis and research services in the field of chemicals for use in industry; design and development of computer hardware and software; chemistry services, namely, research in the field of chemistry; IT services, namely, consulting in the field of information technology; consultancy relating to software in the e-commerce sector; providing a web hosting platform for e-commerce on the internet; providing a web hosting platform for chemical businesses; programming of software for e-commerce platforms; maintenance of software in the e-commerce sector; updating of software; updating of smartphone software; providing of information about industrial technology, scientific research and scientific research in the field of C4 chemistry via an interactive website; chemistry consultancy; providing of scientific research information and research results via a searchable online database; hosting of digital content on the internet; providing a web hosting platform for electronic transactions; providing a web hosting communications platform for chemical buyers, sellers, manufacturers and consultants; hosting of websites on the internet; providing scientific information about the chemical industry and chemicals via an interactive website

For Education services, namely, providing chemical and fuel training; entertainment, namely, entertainment information; sporting and cultural activities, namely, organizing community sporting and cultural events; workshops and conferences in the field of business, and professional development; publication of online publications in the nature of chemical and fuel news articles; publication of a customer magazine on the internet; conducting of competitions on the internet; Education services, namely, providing classes, seminars, and workshops in the field of chemicals and fuels; Providing on-line non-downloadable publications in the nature of newsletters, and articles, in the field chemicals and fuels; Educational services, namely, providing displays and exhibits in the field of chemicals and fuels; Educational services, namely, conducting programs in the fields of chemicals and fuels; Educational services, namely, providing panel discussions in the fields of chemicals and fuels

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Chemicals for use in industry, in particular 1,2-cyclohexane dicarboxylic acid diisononyl ester (DINCH), diisopentyl terephthalate, 1,3-butadiene, 1,2-butadiene, 1-butene, 2-propylheptanol (2-PH), diisobutene, diisononyl phthalate (DINP), di-n-butene, ethyl tertbutyl ether (ETBE), liquid gases, liquid gas mixtures consisting of propane, and n-butane, and isobutane all being gas in liquid form for industrial use, isobutene, isobutane, aerosols namely, gas propellants, isononanol (INA) alcohol, isononyl benzoate (INB), isotridecanol (ITDA), methyl tert-butyl ether (MTBE and MTBS and MTBE S and MBTBE T) namely chemical additives to motor fuels, carburants, and lubricants and fuels, n-butane, oxo oils obtained from the production

of 2-PH, oxo oils obtained from the production of INA, oxo oils obtained from the production of ITDA, raffinates in the nature of mixtures of C4-containing raw material flows or hydrocarbons, anhydrous and azeotropic tert-butanol (TBA), tetrabutane, tetrabutene, tributene for use in industry, trimethylhexanal (TMH), hydrogen at various pressure levels, 2,2'-bis (1,1'-biphenyl-2,2'-diyl) phosphite-3,3'-di-tert-butyl-5,5'-dimethoxy-1,1'-biphenyl in the nature of phosphorus ligand and co-catalyst

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Advertising, marketing and sales promotion; business management; business administration; providing office functions; retail and wholesale store services of chemicals for use in industry, in particular, 1,2-cyclohexane dicarboxylic acid diisononyl ester (DINCH), diisopentyl terephthalate, 1,3-butadiene, 1,2-butadiene, 1-butene, 2-propylheptanol (2PH), diisobutene, diisononyl phthalate (DINP), di-n-butene, ethyl tert-butyl ether (ETBE), liquid gases, liquid gas mixtures consisting of propane, n-butane, and isobutane, isobutene, isobutane, aerosols, isononanol (INA) in the nature of alcohol, isononyl benzoate (INB), isotridecanol (ITDA), methyl tert-butyl ether (MTBE and MTBS and MTBE S and MBTBE T) in the nature of chemical additives to motor fuels, carburants, lubricants, and fuels, n-butane, oxo oils obtained from the production of 2-PH, oxo oils obtained from the production of INA, oxo oils obtained from the production of ITDA, propane for use in industry, raffinates, namely, mixtures of C4-containing raw material flows or hydrocarbons, anhydrous, and azeotropic tert-butanol (TBA), tetrabutane, tetrabutene, tributene for use in industry, trimethylhexanal (TMH), hydrogen, at various pressure levels, 2,2'-bis (1,1'-biphenyl-2,2'-diyl)phosphite-3,3'-di-tert-butyl-5,5'-dimethoxy-1,1'-biphenyl in the nature of phosphorus ligand and co-catalyst; retail and wholesale store services featuring oils, greases, lubricants and fuels including motor fuels, in particular, diisobutene in the nature of butane gases being fuel, ethyl tert-butyl ether (ETBE) in the nature of butane gases being fuel, liquid gases, liquid gas mixtures, fuels or non-chemical additives to fuels, in particular, oxo oil obtained from the production of INA, oxo oil obtained from the production of ITDA, oxo oils obtained from the production of 2-PH, raw butane in the nature of butane gases being fuel, tetrabutane in the nature of butane gases being fuel, tetrabutene in the nature of butane gases being fuel, tri-n-butene in the nature of butane gases being fuel, hydrogen at various pressure levels in the nature of fuels, non-chemical additives to oils, greases, lubricants and fuels; providing of information and consultancy in the field of e-commerce, specifically, the ordering of goods; administrative processing of purchase orders; administrative processing of buying orders; business organisation and management of customer loyalty programs; product demonstrations and presentations; marketing services, namely, presentation of goods and services of others; organisation of chemical and fuel product presentations for commercial purposes; planning and organisation of trade fairs, exhibitions and chemical and fuel product presentations for commercial or advertising purposes; presentation of companies, and the goods and services thereof, on the internet; digital marketing services; digital advertising; business consultancy and assistance in the field of advertising, marketing and sales promotion; promotion of customer loyalty in the nature of development of bonus incentive program for customers for marketing purposes; public relations; communications strategy consultancy with regard to public relations; online ordering of chemical and fuel products; ordering, for others; ordering services for others in the nature of chemical and fuel product orders for others; computer-aided order confirmation, namely, electronic processing of orders for others; electronic processing of purchase orders; receiving of orders by telephone, for others; office functions in relation to receiving orders; business networking, namely, chemical organization business networking events; business consultancy relating to the cost-price analysis regarding the customer orders; compilation and systemisation of information into computer databases; compilation and input of information into computer databases; acquisition, data processing, updating and maintenance of data in computer databases; database management; administration of chemical and fuel product business affairs; business records

management; management of incentive and bonus programs for promoting the sale of the goods and services of others; business research; organisation of auctions on the internet

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Downloadable audio and video recordings, DVDs, and high definition digital discs featuring chemistry and fuel information; downloadable and recorded computer software for monitoring chemical, oil, grease, lubricant and fuel levels in industrial equipment; downloadable and recorded computer application software for smart phones, namely, software for monitoring chemical, oil, grease, lubricant and fuel levels in industrial equipment; downloadable application software for smart phones, namely, software for monitoring chemical, oil, grease, lubricant and fuel levels in industrial equipment; software downloadable from the Internet, namely, software for monitoring chemical, oil, grease, lubricant and fuel levels in industrial equipment; downloadable mobile applications for monitoring chemical, oil, grease, lubricant and fuel levels in industrial equipment; downloadable databases in the field of the chemical, oil, grease, lubricant and fuel industry; downloadable databases with built-in interactive functions in the field of the chemical, oil, grease, lubricant and fuel industry

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Telecommunications, namely, telecommunications access services, telecommunications consultation; digital communications, namely, wireless digital messaging services; internet access in the nature of providing internet access; telecommunications in the nature of transfer of data by telecommunications via digital networks; digital transmission in the nature of video transmission over digital networks; electronic data transmission via the internet; providing access to an e-commerce platform in the nature of databases on the internet; providing of user access to internet platforms in the nature of databases; telecommunications in the nature of telecommunications access services, telecommunications consultation via internet platforms in the nature of databases and portals; providing access to internet platforms in the nature of databases; providing of a telecommunications connection to the internet or to databases; telecommunications in the nature of transfer of data by telecommunications provided via internet platforms in the nature of databases and portals and in other media; providing of internet chatrooms for social networks; providing of discussion forums in the nature of internet chatrooms for social networks; providing access to the internet for social networks; providing of internet forums for transmission of messages among computer users; providing of internet access; providing of internet chatlines; providing of internet chatrooms; providing of interactive internet forums for transmission of messages among computer users; electronic exchange of data, namely, electronic exchange of data stored in databases accessible via telecommunications networks; rental of telecommunications equipment for exchanging electronic and digital data; providing access to databases; providing access to databases on computer networks; providing of telecommunications connections to databases; streaming of video material on the internet; Telecommunication services, namely, providing access to an e-commerce platform in the nature of databases for fuels and chemicals on the Internet; providing of user access to Internet platforms in the nature of databases for fuels and chemicals; providing access to Internet platforms in the nature of databases for fuels and chemicals; providing of Internet forums for chemical, oil, grease, lubricant and fuel information; providing of interactive Internet forums for chemical, oil, grease, lubricant and fuel information

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Transport of goods; packaging and storage of goods; travel arrangement, namely, coordinating travel arrangements for individuals and for groups; physical storage of electronically stored data and documents

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Oils and fuels, including motor fuel, in particular, diisobutenes comprising of butane gases being fuel, ethyl tert-butyl ether (ETBE) in the nature of butane gases being fuel, liquid gases, liquid gas mixtures, non-chemical additives to fuels, in particular, oxo oils obtained from the production of INA, oxo oils obtained from the production of ITDA, oxo oils obtained from the production of 2-PH, raw butane in the nature of butane gases being fuel, tetrabutane in the nature of butane gases being fuel, tetrabutene in the nature of butane gases being fuel, tri-n-butene in the nature of butane gases being fuel, hydrogen at various pressure levels in the nature of fuels; non-chemical additives for oils, greases, lubricants and fuels; propane for use in industry; general purpose greases; industrial greases; industrial lubricants; all purpose lubricants

International Classes 4 - Primary Classes **US Classes** 1, 6, 15 **International Class Title** Lubricants and Fuels

For Scientific and technological services, namely, scientific research in the field of chemicals and fuels; industrial analysis and research services in the field of chemicals and fuels; design and development of computer hardware and software; chemistry services, namely, professional consulting services and advice about chemistry; IT consulting and integration services; consultancy relating to software in the e-commerce sector; hosting of e-commerce platforms in the nature of websites and servers on the internet; hosting of internet platforms in the nature of websites and servers; programming of software for e-commerce platforms; maintenance of software in the e-commerce sector; updating of computer software; updating of smartphone software; providing information about industrial technology via an interactive website; providing information about scientific research via an interactive website; providing scientific information about the chemical industry via an interactive website; providing information on scientific research in the field of C4 chemistry via an interactive website; providing scientific information about chemicals via an interactive website; chemistry consultancy; providing of scientific research information and research results via a searchable online database; hosting of digital content on the internet; hosting of transaction platforms in the nature of websites and servers on the internet; hosting of communications platforms in the nature of websites and servers on the internet; hosting of websites on the internet; Scientific and technological services, namely, scientific research, analysis, and testing, in the field of chemicals and fuels; Scientific and technological services, namely, research and design in the field of chemicals and fuels; Scientific and technological services, namely, scientific research, analysis, and testing, all in the field of chemicals and fuels; Scientific and technological consulting services for the chemical and fuel industry about use and handling of chemicals and fuels

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services
