CASE IDENTIFIERS

Serial Number 88791601 **Application Filing Date** Feb. 10, 2020 **Register** Principal **Mark Type** Trademark **Publication Date** Apr. 21, 2020

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the wording "NUTRIENT" in stylized black font above the wording "DENSE LIQUID" in stylized black font. To the right of the wording "NUTRIENT" and slightly above and overlapping the wording "LIQUID" is a formation of shapes representing a large water droplet. This large water droplet consists of a semi-translucent light green water droplet, with dark green shading under the bottom and at the tip, overlapping a grey water droplet, wherein the overlapping portion of the two is grey, and a streak of dark gold runs up the middle of the overlapping area. Surrounding the large water droplet are nine circular orbs, three of which are dark gold around the outline and shifting to light gold in the center, three of which are dark green around the outline and shifting to light green in the center, and three of which are dark blue around the outline and shifting to light blue in the center. In the center of each of the aforementioned orbs is a white fuzzy circle representing a shiny area. **Color Drawing** Yes **Color Claimed** The color(s) black, dark blue, light blue, dark green, light green, dark gold, light gold, grey and white is/are claimed as a feature of the mark. **Disclaimer** "NUTRIENT DENSE LIQUID"

International Classes 30 - Primary Classes **US Classes** 46 **International Class Title** Staple Foods

For Downloadable application software for mobile phones and computers for use in business management, and for providing entertainment suggestions, sightseeing suggestions and provision of information relating to Japan; ear plugs for divers; ozonisers; electrolysers; egg-candlers; blueprinting machines; cash registers; coin counting or sorting machines; photo-copying machines; time and date stamping machines; time clocks; punched card office machines; voting machines; coin-operated mechanisms for operating gates for car parking gates; fire extinguishers; fireplugs; fire hoses; fire hose nozzles; sprinkler

systems for fire protection; fire alarms; gas alarms; protective helmets; railway signal apparatus, luminous or mechanical; vehicle breakdown warning triangles; luminous or mechanical road signs; rebreathers for diving; decompression chambers; underwater breathing apparatus; diving helmets; breathing apparatus for underwater swimming; breathing apparatus for divers, namely, rebreathers; computer game programs for arcade video game machines; simulators for the steering and control of vehicles; electronic sports training simulators; photographic machines and apparatus in the nature of cameras, photo printers; cinematographic machines and apparatus; optical machines and apparatus in the nature of lens, prism, telescopes, microscopes; rotary converters; solar batteries; dry cells and batteries; magnetic cores; resistance wires; electrodes, other than welding electrodes or medical electrodes; fire boats; satellites for scientific purposes; fire engines; dust masks; gas masks; welding masks; fireproof garments; gloves for protection against accidents; spectacles; computer game programs for home video game machines; electronic circuits and CD-ROMs recorded with programs for hand-held games with liquid crystal displays; protective helmets for sports; weight belts for scuba diving; air tanks for scuba diving; regulators for scuba diving; metronomes; electronic circuits and CD-ROMs recorded with automatic performance programs for electronic musical instruments; electric and electronic effects units for musical instruments; phonograph records featuring music; downloadable music files; downloadable image files containing landscapes, illustrations; pre-recorded video discs and video tapes featuring landscapes, animations; exposed cinematographic films; exposed slide films; slide film mounts; electronic downloadable publications, namely, news articles and magazines featuring travel, leisure, sports, fashion, movie, food, catalog of products, and fiction books and non-fiction books in the fields of literature, mystery, science, action, adventure, history and biography

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Rental of safes; information relating to fashion coordination services for individuals; marriage partner introduction or dating services; providing facilities for wedding ceremonies, including planning and arranging of wedding ceremonies; funeral service undertaking; providing grave spaces or charnel houses; legal services relating to social insurance claims; security guarding for facilities; personal body guarding; investigation services for checking background profiles; fortune-telling; non-therapeutic counseling services in the nature of emotional counseling and emotional support rendered to meet the needs of individuals; pet sitting; babysitting; home organization services, namely, sorting and organizing household belongings; rental of clothing; rental of altars; rental of fire alarms; rental of fire extinguishers; rental of personal ornaments for wearing in the nature of watches, jewelry

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For News agencies, namely, the transmission of news items to news reporting organizations; rental of telecommunication equipment including telephones and facsimile apparatus

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Provision of travel information; providing information about transport services of travelers; railway transport; car transport; providing road and traffic information; vehicle-driving services; marine transport; air transport; merchandise packaging for others; freight brokerage; cargo unloading; animal removal services; furniture removal services; Freight and transport brokerage in the nature of brokerage for rental, selling, purchase and chartering of boats; refloating of ships; ship piloting; warehousing services; Temporary storage and safekeeping of personal belongings in the nature of cloak services; temporary storage of deliveries; gas supplying; electricity distribution; water supplying; heat supplying; rental of warehouse

space; parking lot services; providing vessel mooring facilities; airport services; rental of Loading-unloading machines and apparatus; car rental; rental of vessels; rental of bicycles; rental of aircraft; rental of mechanical parking systems; rental of packaging or wrapping machines and apparatus; rental of freezers for household purposes; rental of refrigerator-freezers for household purposes; rental of wheelchairs; arranging of transportation for travel tours; arranging travel guide; escorting of travelers in travel tours; travel agency services, namely, making reservations and bookings for transportation, travel guide services; rental of aircraft engines; rental of freezing machines and apparatus; rental of gasoline station equipment, not for repair and maintenance of automobiles

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Beauty salons; barbershops; providing bath houses; garden tree planting; garden or flower bed care; fertilizer spreading; weed killing; vermin exterminating for agriculture, horticulture or forestry; massage and therapeutic Shiatsu massage; chiropractics; moxibustion; treatment for dislocated joints, sprain, bone fractures or the like (Judo-seifuku); acupuncture; providing medical information; dentistry services; preparation and dispensing of medications; dietary and nutritional guidance; animal breeding; veterinary services; beauty care for animals; nursing care; rental of potted plants; farming equipment rental; rental of medical apparatus and instruments; rental of apparatus and instruments for use in beauty salons or barbers' shops; rental of lawnmowers; Rental of portable sinks with hot and cold water reservoirs

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For Destruction of waste, namely, removal of radiation rays in the nature of decontamination of soil and vegetation contaminated with radioactivity; treatment or processing of cloth, clothing or fur, including drying; tailoring or dressmaking; embroidery services; metal treating; processing of rubber; processing of plastics; ceramic processing; wood-working; stone treating; taxidermy; food processing; processing of cinematographic films; photographic enlarging; photographic printing; photographic film development; bookbinding; water treating; recycling of waste; nuclear fuel reprocessing; engraving of sealing stamps; photogravure; rental of textile treatment machines and apparatus; rental of machines and apparatus for film development, photograph printing, photograph enlargement or photograph finishing; rental of metal treating machines and tools; rental of bookbinding machines; rental of machines and apparatus for processing foods or beverages; rental of machines and apparatus for lumbering, wood-working, or veneering or plywood making; rental of machines and apparatus for pulp-making, papermaking or paper-working; rental of water purifying apparatus; rental of waste compacting machines and apparatus; rental of waste crushing machines; rental of chemical processing machines and apparatus; rental of glassware manufacturing machines and apparatus; rental of shoe making machines; rental of tobacco processing machines; rental of 3D printers; providing material treatment information; printing; rental of knitting machines; rental of sewing machines; rental of air-conditioning apparatus for household purposes; rental of humidifier for household purposes; rental of air purifiers for household purposes; rental of electricity generators; rental of printing machines and apparatus; rental of heating boilers; rental of humidifier for industrial purposes; rental of air purifiers for industrial purposes; rental of air-conditioning apparatus

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Textile awnings for vessels; tarpaulins for ships; sails; raw textile fibers; cotton waddings for clothes; hammocks; Futon bags; cotton batting for Futon; knitted cords; Japanese-style cords (Sanada-himo); starched cords; twisted cords; cordage; netting, not of metal; industrial packaging containers of textile; industrial packaging containers of straw; elastic bands for binding; tarpaulins, not for ships; tents, not for camping; wax ends; mountaineering ropes; tents for mountaineering or camping; sails for windsurfing; sawdust; kapok; wood shavings; wood wool; wax waste for stuffing; cattle hair, raccoon dog hair, pig bristles and horsehair, not for textile use, not for brushes; feathers and downs

International Classes 22 - Primary Classes **US Classes** 1, 2, 7, 19, 22, 42, 50 **International Class Title** Cordage and Fibers

For Grease for shoes and boots; leather preserving oil and grease; fuels; wax for skis; lamp wicks; candles

International Classes 4 - Primary Classes **US Classes** 1, 6, 15 **International Class Title** Lubricants and Fuels

For Tobacco; smokers' articles in the nature of tobacco pouches, cigarette cases, cigarette holders, ashtrays, tobacco pipes, cigarette lighters; matches

International Classes 34 - Primary Classes **US Classes** 2, 8, 9, 17 **International Class Title** Smokers' Articles

For Junctions for pipes, not of metal; floating anti-pollution barriers; electrical insulating materials; washers of rubber or vulcanized fiber; rock wool; rubber thread and covered rubber yarn, not for textile use; chemical fiber yarn and thread, not for textile use; insulating gloves; rubber cords and laces; industrial packaging containers of rubber; rubber lids and caps for industrial packaging containers; plastic sheeting for agricultural purposes; vulcanized fiber; semi-worked synthetic plastic as semi-finished products in the form of pellets, rods, foils, foams, fibers, films and sheets; raw or semi-worked rubber; soundproofing materials of rock wool, not for building purposes

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Clothing, namely, coats, sweaters, shirts, dresses, jackets, pants, skirts, blouses; garters; sock suspenders; suspenders; waistbands; belts for clothing; footwear, other than special footwear for sports; masquerade costumes; clothes for sports, namely, uniforms; special footwear for sports

International Classes 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

For Tweezers; hoes; digging forks; hand-operated lawn rakes; hand-operated lasts for shoe-making; electric flat irons; electric razors and electric hair clippers; egg slicers, non-electric; can openers, non-electric; spoons; cheese slicers, non-electric; pizza cutters, non-electric; forks; dressmakers' chalk sharpeners; fire pans for carrying live charcoal; fireplace bellows; fire tongs; bludgeons; shaving cases; pedicure sets; eyelash curlers; manicure sets; ice axes; diving knives; diving knife holders; palette knives

International Classes 8 - Primary Classes **US Classes** 23, 28, 44 **International Class Title** Hand Tools

For Providing on-line non-downloadable application software for sightseeing and provision of information relating to Japan; providing meteorological information; architectural design; surveying; geological surveys or research; computer software design, computer programming, or maintenance of computer software; technological advice relating to computer software, automobile design and industrial machine design; testing, inspection or research of pharmaceuticals, cosmetics or foodstuffs; research on building construction or city planning; testing or research on prevention of pollution; testing or research on electricity; testing or research on civil engineering; testing, inspection or research on agriculture, livestock breeding or

fisheries; testing the functionality of machines, apparatus and instruments; research on machines, apparatus and instruments; rental of measuring apparatus; rental of computers; computer programming in the nature of providing computer programs on data networks; rental of laboratory apparatus and instruments; rental of technical drawing instruments for architecture purposes

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Iron and steel; nonferrous metals and their alloys; ores of metal; prefabricated building assembly kits of metal; loading and unloading pallets of metal; metal railway turntables for load handling; metal railway traversers for load handling; artificial fish reefs of metal; prefabricated sectional poultry houses of metal; paint spraying booths of metal; metal pulleys, springs and valves; metal junctions for pipes; metal flanges; metal door hardware for machines, namely, keys; cotter pins of metal; railway points; road signs of metal; non-luminous metal beacons; reservoirs of metal; anchors; containers of metal for transport; anvils; swage blocks; wire ropes; wire nets and gauzes; industrial packaging containers of metal; metal nameplates and door nameplates; metal stepladders and ladders; letter boxes of metal; hat-hanging hooks of metal; water tanks of metal for household purposes; tool boxes of metal, empty; towel dispensers of metal; metal joinery fittings; safes; upright signboards of metal; man-made garden ponds of metal in the nature of metal bins used to make ponds; transportable greenhouses of metal for household use; metal tombs and metal tomb plaques; ferrules of metal for canes and walking-sticks; spurs; crampons; carabiners of metal; rock pitons of metal; sculptures of metal; flagpoles being structures of metal; hand-held supermarket shopping baskets of metal

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

For Providing information about temporary accommodation services; providing information about providing foods and beverages; providing facilities for fairs and exhibitions; providing temporary accommodation; accommodation bureau in the nature of making hotel and boarding house reservations for others; restaurant services in the nature of providing foods and beverages; boarding for animals; preschooler and infant care at daycare centers; retirement home services; rental of conference rooms; rental of general purpose facilities for exhibitions; rental of Futon and quilts; rental of pillows; rental of blankets; rental of electric toasters for household purposes; rental of microwave ovens for household purposes; rental of hot plates for household purposes; rental of cooking equipment for industrial purposes; rental of non-electric cooking heaters; rental of curtains; rental of furniture; rental of wall hangings; rental of floor coverings; rental of wet wipes for food preparation purposes; rental of towels for recreation purposes

International Classes 43 - Primary Classes **US Classes** 100, 101 **International Class Title** Hotel and restaurant services

For Beer; fruit flavored carbonated drinks; fruit juices; vegetable juices; extracts of hops for making beer; whey beverages

International Classes 32 - Primary Classes **US Classes** 45, 46, 48 **International Class Title** Light Beverages

GOODS AND SERVICES INFORMATION

For Building materials, not of metal, in particular building films comprised of polyurethane foam sheeting for use as building insulation; foam glass for building; building materials, not of metal, in particular tarpaulins for building, namely, multilayer panels of plastic for use in building; Building materials, not of metal, in particular tarpaulins for building, namely, multilayer panels of plastic for use in building; building materials, not of metal, in particular building boards and lining panels for building, namely, non-metal water-resistant boards and lining panels for construction; windows, doors, ceiling lining panels and flooring panels, all not of metal; materials of plastic, for road building, namely, plastic road studs for marking out roads **International Classes** 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For Household utensils, namely, kitchen tongs; combs and sponges for household purposes; brushes (except paintbrushes), in particular of foam, for applying, cleaning and removing purposes, for cosmetic, technical, pharmaceutical and medical applications; brush-making materials; unworked or semi-worked glass, except glass used in building; beverage glassware; works of art made of porcelain; statues of earthenware; non-electric make-up removing appliances and Dishwashing brushes; containers for household use, namely, glass bulbs; glass caddies for holding cosmetics for household use; eyebrow brushes, eyelash brushes, brooms, scrubbing brushes; hair for brushes, namely, cattle hair, horse hair, badger hair for brushes; animal bristles for brush-making; cosmetic brushes, Finger brushes for dental care and toothbrushes; electric toothbrushes, Electric hot brushes and Electric face cleansing brushes; toothbrushes, electric toothbrushes, cosmetic brushes; brush goods, namely, brushes in the shape of machine parts for conveyorized cleaning or brushing, brushes for floor cleaning machines, brushes for car wash, brushes for sealing purposes; electric combs, comb cases; balloon glasses, namely, industrial packaging containers of

glass or porcelain; lamp-glass brushes, nail brushes, exfoliating sponges; compacts sold empty; cosmetic compact cases; hand operated cleaning instruments, namely, hand-operated brush used to clean skin; stands for shaving brushes, brushes for footwear; non-electric wax polishing appliances for shoes, namely, shoe polishing mitts, sponges and cloths; toilet cases in the nature of fitted vanity cases; cosmetic accessories, namely, cosmetic applicators with foamed applicator portion; cosmetic accessories, namely, cosmetic applicators with flocked applicator portion; brushes for applying cosmetics or pharmaceuticals; applicators for applying cosmetics or pharmaceuticals; aids for applying cosmetics or pharmaceuticals, namely, sponges, spatulas and pads; cosmetic implements for applying hair dyes, namely, brushes and bowls and dispensers for applying hair dyes; containers for household use, namely, containers for cosmetics and pharmaceuticals

International Classes 21 - Primary Classes **US Classes** 2, 13, 23, 29, 30, 33, 40, 50 **International Class Title** Housewares and Glass

For Receptacles for applying medicines, namely, medical fluid injectors; dental instruments, namely, receptacles for applying dental material in the form of capsules, tubes and pouches; medical apparatus and instruments, namely, receptacles for applying medical diagnostic agents; medical apparatus for dispensing medical and dental materials, namely, pneumatically operated, electrically operated and hand-operated dispenser guns; medical apparatus sold empty for dispensing medical and dental materials, namely, one component and multi-component cartridges for dispensing dental materials and mixtures; dental apparatus, namely, mixers adapted for mixing and dispensing dental materials and mixtures; Dental apparatus, namely, mixing tips adapted for use with a dispensing apparatus for one component composition and multi-component composition for dental applications; replacement parts for all the aforesaid goods namely, medical fluid injector parts, dispenser gun parts, cartridge parts; all aforementioned goods for use in the field of the separation, reaction and mixing technology, or for the cosmetics industry

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Plastics for packaging, namely, plastic sheets, films and bags for wrapping and packaging; cushioning or padding made of paper for packing purposes, namely, packing profiles, webs, bags, sacks and blisters for packaging; plastic film for wrapping; shaped parts for packaging, namely, cardboard packaging boxes in made-up form; Plastic film for packaging, namely, blisters for make-up testers; paper, cardboard and goods made from these materials, namely, boxes, cartons, storage containers, and packaging containers made of paper or cardboard; artists' brushes; paper tissues for removing make-up, painters' brushes, face towels of paper, hand towels of paper, painting brushes

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Industrials machines, namely, machines for chemical processing including separation and mixing, pervaporation, crystallization, melt crystallization, distillation, degasification, rectification, extraction and sorption (absorption and adsorption) machines; heat exchangers being parts of machines; pneumatic grease guns; spray guns for paint; compressed air guns for extrusion of mastics; power operated guns, namely, pneumatically powered and electrically-powered guns for mixing and dispensing casting materials, impression materials, caulking materials, adhesives, sealing compounds, materials for chemical anchoring and reinforcement; accessories for dispensing guns, namely, nozzles, flexible pipes, brushes, paintbrushes, rollers that may be attached to dispensing guns; cartridges sold empty for dispensing one component or multi-component materials, being parts of power-operated industrial dispensing and mixing machines for mixing material, casting materials, impression materials, paint, sealant, and protective coatings; industrial mixers, namely, machines for mixing and dispensing

used for industrial applications in the field of the separation, reaction and mixing technology; mixing tips for use with dispensing apparatus for two-part compounds for industrial applications; inserts for separating machines, in particular structured packings, random packings, inserts, valves, valve trays, separating trays for industrial use in the field of the separation, reaction and mixing technology; installation components parts of machines, namely, valves, valve trays and separating trays or industrial use in the field of separation, reaction and mixing technology; machine and machine tools for processing plastics; machines for the separation of multiphase mixtures; mixing devices, namely, machines for industrial use in the field of the separation, reaction and mixing technology; Spare parts for separating machines, namely, structured packings, random packings, inserts and valves for industrial use in the field of the separation, reaction and mixing technology, in the form of containers, mixers, closing caps and securing rings and nozzles which may be attached to mixers, and extensions tubes which may be attached to dispenser guns, and dispenser cartridges sold empty for dispensing glues and construction materials; components, replacement parts and accessories for all aforementioned goods, namely, replacement parts in the nature of containers, mixers, closure caps and fastening rings, nozzles that are connectable to the mixers, casings for mixing and separation machines, inlets for separation, mixing and crystallization machines, distributors for separation machines, static mixers for mixing machines, column packing material for separation machines, trays for separation machines, coalescers for separation of oil and water, and accessories for the foregoing, namely, nozzles that are connectable to the mixers; all aforementioned goods for use in the field of the separation, reaction and mixing technology, particularly for industrial use

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Pegs (pins), not of metal; Containers of plastic, namely, plastic storage containers for commercial or industrial use; plastic packaging, in particular plastic containers and plastic closures; container closures of plastic, namely, plastic closures in the form of screw-on, snap-on and push-on closures for cosmetic, technical, pharmaceutical and medical applications; all aforementioned goods for use in the field of the separation, reaction and mixing technology, particularly for industrial use, for the cosmetics industry and the pharmaceutical industry

International Classes 20 - Primary Classes **US Classes** 2, 13, 22, 25, 32, 50 **International Class Title** Furniture and Articles Not Otherwise Classified

For Heat exchangers not being parts of machines and apparatus for material exchanges, namely, columns for distillation, degasification, rectification, absorption, desorption, extraction and gas scrubbers and refining towers; structural parts for the aforesaid goods, namely, steam control valves, valve trays and separating trays; separators for the cleaning and purification of gases, namely, separators for industrial use in the field of separating, reaction and mixing technology; inserts for devices for heat exchangers not being parts of machines, in particular structured packings, random packings, inserts and valves, control valves and integrated parts for material and heat exchange columns for industrial use in the field of separating, reaction and mixing technology; water conditioning units; water conditioning units, namely, water conditioning plants; wastewater treatment plants; plants for mechanical dewatering, namely, dewatering machines for use in treatment of liquids including water, industrial effluent and sewage; drying apparatus for chemical processing, namely, fluid bed dryers; heat exchangers not being parts of machines, namely, fluid bed heat exchangers; fluid bed furnaces; cooling units for industrial purposes, namely, industrial treatment installations, particularly modular apparatus for suspension crystallization for the concentration or preparation in pure form of a compound consisting of a mixture of two or more compounds by cooling of the mixture; gas purification machines, namely, purification plants for process gases and smoke gases; incineration plants for solid, pasty and

fluid waste, as well as gases; cooling units for industrial purposes; industrial-water purifying apparatus, namely, static mixers, mixing reactors, mixer packings for bubble columns, crystallizers, flaming locking armatures for pipes, fluid filters and fluid bed reactors for wastewater treatment; replacement parts and accessories for all the aforesaid goods, namely, casings for distillation, degasification, rectification, absorption, desorption, extraction and gas scrubbers and refining towers, inlets for distillation, degasification, rectification, absorption, desorption, extraction and gas scrubbers and refining towers, column packing material for distillation, degasification, rectification, absorption, desorption, extraction and gas scrubbers and refining towers; all aforementioned goods for use in the field of the separation, reaction and mixing technology, particularly for industrial use; cooling evaporators

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Educational services, namely, conducting programs in the field of oil and gas for users, IT-specialists and project managers; training services in the field of oil and gas for users, IT- specialists and project managers; Preparation and implementation of management workshops, namely, conducting workshops and seminars in the field of business management; Training concerning the operation, repair and maintenance of machines and plants consisting of machines; consultancy services related to all the aforesaid services; all aforementioned services are restricted to the oil and gas industry and for industrial use in the field of separating, reaction and mixing technology

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Soaps for cosmetic purposes and body care; perfumery, essential oils, cosmetics for body and beauty care, in particular hair lotions; dentifrices; make-up removing products, astringents for cosmetic purposes, eyebrow cosmetics, eyebrow pencils, cosmetic preparations for baths, beard dyes; pumice stones for personal use, bleaching preparations for cosmetic purposes, creams for whitening the skin, cosmetic skin creams, deodorants for personal use, depilatories, depilatory wax for cosmetic purposes; gels, particularly gels for whitening teeth; hair dyes, hair sprays, shampoos, hair lotions; cosmetic hair dressing preparations, cosmetic sun-tanning preparations; non-medicated lip care preparations, namely, skin protection products for lip care; adhesives for affixing false hair, adhesives for cosmetic purposes, adhesives for affixing false eyelashes, cosmetics; make-up kits comprised of lipstick, lip gloss, face foundation, concealer, blusher, eyeliner or mascara; cosmetic pencils, decorative transfers for cosmetic purposes, false nails, false eyelashes, nail polish, lacquer-removing preparations, lipsticks, lotions for cosmetic purposes, makeup, beauty masks, nail care preparations, oils for perfumes and scents, perfumes, make-up powder, shaving preparations, shaving soap, aftershave, cleansing milk for toilet purposes, oils for cleansing purposes, make-up preparations, cotton wool for cosmetic purposes, cotton sticks for cosmetic purposes, mascara; cosmetic products for eyelids, particularly eyeliners; lip glosses

International Classes 3 - Primary Classes **US Classes** 1, 4, 6, 50, 51, 52 **International Class Title** Cosmetics and Cleaning Preparations

For Building construction and installation, assembly, repair and maintenance of machines, machine tools and machine equipment; installation construction (with the exception of gardening); construction and installation services, namely, installation, construction and renovation of facilities, not including gardening; building construction supervision; mechanical maintenance of drilling platforms, gas installations, oil refineries and petrochemical installations; maintenance of heat exchangers; laying, reconstruction and repair of pipelines; repair and installation of reactor separating floors and inserts as well

as emptying, replacement and filling with catalysts and rings; reconstruction of containers; high-pressure cleaning; erection of scaffolding; installation, servicing and maintenance of technical and sanitary installations; consultancy services related to all the aforesaid services; all aforesaid services for use in the oil and gas industry and for industrial use in the field of separation, reaction and mixing technology

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Chemical apparatus and instruments, namely, crystallization, distillation, degasification and rectification apparatuses for substance and heat exchange as well as for the separation of substance and heat for industrial use in the field of the separation, reaction and mixing technology; chemical laboratory apparatus and instruments, namely, mixing reactors, mixing reactors for polymerization, static reactors, static mixers with heat-exchanging devices, and static mixers for controlling and/or conducting reactions; recorded computer software programs for performing calculations for any industry using material (mass) transfer columns; recorded computer software programs for performing calculations in connection with material (mass) transfer columns; recorded computer software programs for providing information on the necessary size for a material (mass) transfer column; recorded computer software programs for proposing data enabling the design of material (mass) transfer equipment parts that will be installed in a material (mass) transfer column; recorded computer software programs for proposing data enabling the selection of material (mass) transfer equipment parts that will be installed in a material (mass) transfer column; all aforementioned goods for use in the field of separation, reaction and mixing technology, particularly for industrial use

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Mill working; mixing lubricants for third parties; soldering; consultancy services related to all the aforesaid services; all aforesaid services for use in the oil and gas industry and for industrial use in the field of separation, reaction and mixing technology

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Semi-finished products of plastics, namely, synthetic plastic as semi-finished products in form of foils, plates, rods, profiles, hoses, tubes, blocks, and web forms; semi-finished goods of foam, namely, semi-worked synthetic plastic and synthetic resins as semi-finished products in form of foams; semi-worked synthetic plastic and polyurethane foam as semi-finished products in the form of boards; semi-worked synthetic plastic and polyurethane foam as semi-finished products in the form of profiles; semi-worked synthetic plastic and polyurethane foam as semi-finished products in the form of films; semi-worked synthetic plastic and polyurethane foam as semi-finished products in the form of padding and stuffing material; semi-worked synthetic plastic and polyurethane foam as semi-finished products in the form of pipes; semi-worked synthetic plastic and polyurethane foam as semi-finished products in the form of insulating shells; sealants for buildings, namely, sealing films of plastics for building; sealants for buildings, namely, sealing films of foam for building; building insulation, namely, insulating films of plastics for building; building insulation, namely, insulating films of foam for building; building insulation, namely, insulating strips of plastics or foam for building; building insulation, namely, insulating strips of foam for building; building insulation, namely, insulating panels of plastics or foam for building; building insulation, namely, insulating panels of foam for building; building insulation, namely, insulating plates of plastics or foam for building; building insulation, namely, insulating plates of foam for building; building insulation, namely, insulating sheets of plastic and foam for building; foam

insulation for building, namely, expanding foam, foam panels for building, foam foils for building, foam covers for building, pipes, valves or slide valves (except as machine parts), not of metal

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Hand-operated spray guns, hand-operated guns for dispensing casting materials, impression materials, caulking materials, adhesives, sealing compounds, materials for chemical anchoring and reinforcements; replacement parts being parts of hand-operated guns for dispensing casting materials, impression materials, caulking materials, adhesives, sealing, compounds, materials for chemical anchoring and reinforcements, namely: cartridges sold empty for dispensing one component or multi-component materials, mixing material, casting materials and impression materials, dispenser cartridges sold empty for dispensing glues and construction materials, paint supply cartridges sold empty and mixing tips for use with dispensing apparatus for two-part compounds for industrial applications; all aforementioned goods for use in the field of the separation, reaction and mixing technology, particularly for industrial use, the cosmetics industry and the pharmaceutical industry

International Classes 8 - Primary Classes **US Classes** 23, 28, 44 **International Class Title** Hand Tools

For Scientific and industrial research, technological consultancy, design services in the fields of science, engineering and information technology; engineering services, particularly in the field of separators; development and design of computer programs and engineering services in data processing; design of programs for data processing; Scientific and technological services, namely, research and design in the field of computer science; Engineering services, namely, planning, execution and monitoring of technical projects; research and development services regarding new products for third parties, namely, contract research and contract development in the field of mechanical engineering, electrical engineering, materials technology and construction drafting; consultancy services related to all the aforesaid services; all aforementioned services are restricted to the oil and gas industry and for industrial use in the field of separating, reaction and mixing technology; planning of technical projects in construction sector

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Containers of metal for storage of goods of column packing materials and mixers; meshes of metal and fabrics of metal for packing columns for use in absorption, condensation, distillation, drying, evaporation, filtration, flame arresting, film breaking, humidification/dehumidification, liquid extraction, magnetic separation, pollution prevention, silencing and thermoinsulation processes; packing materials of metal or metal alloys, namely, metal binding strips used on packaging; all aforementioned goods for use in the field of the separation, reaction and mixing technology, particularly for industrial use

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

Standard Character Claim Yes. The mark consists of standard characters without claim to any particular font style, size, or color. **Mark Drawing Type** 4 - STANDARD CHARACTER MARK

RELATED PROPERTIES INFORMATION

International Registration 1400990 **International Registration Date** Sep. 01, 2017

GOODS AND SERVICES INFORMATION

For Pouch baby carriers; slings for carrying infants; sling bags for carrying infants; diaper bags

International Classes 18 - Primary Classes **US Classes** 1, 2, 3, 22, 41 **International Class Title** Leather Goods

For Games, namely, board games and tabletop games; toys, namely, stuffed and plush toys; dolls clothes; dolls; dolls houses, dolls beds; swings; puppets; Toy mobiles; dolls and stuffed toy animals; gymnastic and sporting articles not included in other classes, namely, gymnastic apparatus

International Classes 28 - Primary Classes **US Classes** 22, 23, 38, 50 **International Class Title** Toys and Sporting Goods

For Furniture; mirrors; cots; infant beds; sleeping beds being beds, mattresses; cushions; pillows and head-rests, travel cots being cots, hospital beds for infants; coat hangers; bottle closures, not of metal

International Classes 20 - Primary Classes **US Classes** 2, 13, 22, 25, 32, 50 **International Class Title** Furniture and Articles Not Otherwise Classified

For Clothing, shoes, headwear in particular for babies and infants, namely, tops as clothing, bottoms as clothing, pants, scarves, underwear, caps, hats, jumpsuits, pullovers, t-shirts, and socks; baby suits; shoes for babies and infants; swaddling clothes

International Classes 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

GOODS AND SERVICES INFORMATION

For Printed arithmetical tables; atlases; bookmarkers; calendars; printed flash cards; printed charts; comic books; printed diagrams for educating and displaying assessment results; printed forms; geographical maps; histological sections for teaching purposes; newspapers; pictures; postcards; posters; prospectuses, namely, leaflets and books in the field of academic research, assessment and all academic and vocational disciplines; song books; stickers; teaching materials, namely, printed books and printed lecture notes in the field of academic research, educational instruction, teaching, learning, assessment and all academic and vocational disciplines; terrestrial globes; exercise books; bibles; printed awards; printed certificates; printed quizzes; flashcards; vocabulary lists; booklets, books, handbooks, newsletters, pamphlets, printed periodicals, reference books, magazines, manuals, printed reports, printed journals, printed lecture notes, printed worksheets, documents in the form of printed books, printed brochures, exam papers, catalogues and informational flyers in the field of publishing, academic research, academic administration, educational instruction, teaching, learning, assessment and all academic and vocational disciplines; announcement cards; bags being envelopes and pouches of paper or plastics, for packaging; banners of paper; boxes of paper or cardboard; cardboard; clipboards; coasters of paper; copying paper; book covers; desk mats; document files; document holders; drawing pads; drawing boards; drawing instruments; drawing sets primarily consisting of drawing pads and pens; drawing pens; drawing rulers; printed embroidery designs patterns; engraving plates; engravings; envelope sealing machines for offices; envelopes; etchings; fabrics for bookbinding; folders for paper; forms, printed; fountain pens; franking machines for office use; postage meters for office use; graphic prints; graphic representations; greeting cards; gummed tape for stationery use; index cards; labels of paper or cardboard; ledger books; lithographic works of art; loose-leaf binders; marking pens; mimeograph apparatus and machines; note books; writing pads; paint boxes for use in school; paper for recording

machines; paper sheets for notetaking; luminous paper; paper tapes and cards for the recordal of computer programs; paper for radiograms; paper ribbons, other than haberdashery or hair decorations; paper-clips; paperweights; parchment paper; passport holders; pen clips; pen cases; boxes for pens; pencil holders; pencil lead holders; pencil sharpeners, electric or non-electric; pencils; penholders; pens; printed photographs; placards of paper or cardboard; place mats of paper; plastic film for wrapping; plastic cling film, extensible, for palletization; portraits; printed timetables; printed coupons; printed sheet music; printers' blankets, not of textile; printers' reglets; printing type; prints; rubber erasers; sealing stamps; sealing wax; sealing machines for offices; sealing compounds for stationery purposes; self-adhesive tapes for stationery or household purposes; signboards of paper or cardboard; stamp pads; stamp stands; stands for pens and pencils; stencils; table linen of paper; table napkins of paper; table runners of paper; tablecloths of paper; tablemats of paper; tags for index cards; paper tickets; washi; wrapping paper; packing paper; writing or drawing books; writing paper; writing cases, namely, writing sets comprised of pens and pencils; writing brushes; writing instruments; writing board erasers; structural parts and fittings for all the aforesaid goods

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Academies, namely, educational services in the form of providing seminars, lectures and classes in the field of all academic and vocational disciplines; charter schools; providing courses of instruction at the high school, grammar school and elementary school level; nursery schools; coaching in the field of sports; professional coaching services in the field of all academic and vocational disciplines; education information; physical education; teaching and instruction services, namely, providing seminars, lectures and professional workshop and training courses, in the field of all academic and vocational disciplines; providing seminars in the field of tuition payment methods; vocational guidance; analyzing educational test scores and data for others; arrangement of training courses; business training; computer assisted educational examination services; design of educational courses, examinations and qualifications, namely, developing a curriculum for educators and students; development of printed educational material in the field of publishing, academic research, academic administration, educational instruction, teaching, learning, assessment and all academic and vocational disciplines; educational assessment services; educational examination services; academic examination services; educational research, namely, education research in the field of all academic and vocational disciplines; provision of educational examination facilities; setting of educational standards, namely, standardized testing; university education services; provision of distance learning programs and distance learning courses at university level, college level, high school level, elementary school level and post-graduate level; arranging and conducting of educational colloquiums, workshops, congresses, conferences, seminars and symposiums in the field of publishing, academic research, academic administration, educational instruction, teaching, learning, assessment and all academic and vocational disciplines; arranging of festivals for educational purposes; game services provided on-line from a computer network; holiday camp services; sport camp services; electronic desktop publishing; publishing consultancy services; advisory services relating to publishing; book publishing services; electronic book publishing services; providing non-downloadable electronic publications in the nature of books, periodicals, articles, magazines, reference books, handbooks, textbooks, booklets, pamphlets, journals, manuals, newsletters, newspapers, documents, brochures, instructional and teaching materials, course materials, lecture notes, worksheets, quizzes, and examination papers in the fields of African studies, agriculture, American studies, animal science, aquatic science, archaeology and anthropology, architecture, art, Asian studies, astronomy, Australasian studies, biology, biomedical sciences, business and management, chemistry, classical studies, computer science, cultural studies, earth and atmospheric science, ecology and conservation, economics, education,

engineering, environmental studies, European studies, general interest, geography, history, history and philosophy of science, language and linguistics, Latin American studies, law, life sciences, literary studies, materials research, mathematics, medical policy, medicine, medieval studies, Middle East studies, molecular biology, music and performance studies, neuroscience, nutrition, paleontology, philosophy, physical science, physics, plant science, politics and international relations, psychiatry, psychology, psychotherapy and counseling, religious studies, social studies, sociology, and theater; publication of printed matter; production of radio and television programs; providing non-downloadable electronic publications, namely, electronic magazines, electronic reference books, electronic lecture notes, electronic educational worksheets, electronic slide presentations, electronic flashcards, electronic vocabulary lists, electronic textbooks, electronic books, electronic journals, electronic periodicals, electronic newspapers, electronic newsletters in the field of publishing, academic research, academic administration, educational instruction, teaching, learning, assessment and all academic and vocational disciplines; publication of texts, other than publicity texts; publication of online and printed books, reference books, directories, manuals, reports, magazines, journals, periodicals, dictionaries, exam papers, lecture notes, worksheets, quizzes, puzzles, examination marking criteria, pamphlets, booklets, flashcards and vocabulary lists; writing of educational texts, namely, writing of articles for educational books and professional journals other than for advertising or publicity; language interpreter services; translation; lending libraries; mobile library services; providing museum facilities; boarding school education; educational examination; arranging and conducting of in-person educational forums; production of music; on-line publication of electronic books and journals; providing on-line music, not downloadable; providing on-line non-downloadable videos in the field of publishing, academic research, academic administration, educational instruction, teaching, learning, assessment and all academic and vocational disciplines; organization of exhibitions for cultural or educational purposes; practical training in the field of all academic and vocational disciplines; presentation of live show performances; publication of books; recording studio services; songwriting; educational services, namely, tutoring, conducting classes and educational instruction services in the field of all academic and vocational disciplines; information, advisory and consultancy services relating to the aforesaid services; organization of teaching competitions; membership club services, namely, providing training to members in the field of teaching, learning, assessment and all academic and vocational disciplines; provision of information on education, teaching, training and educational assessment, provided on-line from a computer database or from the Internet

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Apparatus for recording, transmission or reproduction of sound or images; prerecorded magnetic data carriers and recording discs, prerecorded compact discs, DVDs and digital storage media, prerecorded USB flash drives, prerecorded CD-ROMs, prerecorded videotapes, prerecorded video cassettes and prerecorded floppy disks in the field of publishing, academic research, academic administration, educational instruction, teaching, learning, assessment and all academic and vocational disciplines; cash registers; calculating machines; data processing equipment; computers; fire-extinguishing apparatus; pocket calculators; sound transmitting apparatus; sound recording apparatus; sound reproduction apparatus; downloadable computer software for teaching and assessing the academic competency of the user; downloadable software for mobile phones, tablets and portable computers for teaching and assessing the academic competency of the user; downloadable educational software for teaching and assessing the academic competency of the user; downloadable computer programs for enabling the play of interactive games or quizzes; computer software for communicating with users of hand-held computers; downloadable computer software enabling electronic publishing; downloadable books, downloadable booklets, downloadable pamphlets,

downloadable image files, downloadable text files, downloadable video files and downloadable exam papers all of the aforesaid goods in the field of publishing, academic research, academic administration, educational instruction, teaching, learning, assessment and all academic and vocational disciplines; downloadable electronic computer quizzes; downloadable assessment criteria in the form of examination tests in the field of assessing the academic competency of the user; downloadable educational materials, namely, exam papers, course materials in the form of videos, lecture notes, MP3 files, word-processed documents, photographs, presentation slides, lecture notes, textbooks, academic works, revision guides in the field of publishing, academic research, academic administration, educational instruction, teaching, learning, assessment and all academic and vocational disciplines; downloadable periodical publications in the nature of newsletters, magazines, journals, reviews, reports in the field of publishing, academic research, academic administration, educational instruction, teaching, learning, assessment and all academic and vocational disciplines; downloadable electronic publications in the nature of downloadable reference books, downloadable lecture notes, downloadable educational worksheets, downloadable slide presentations, downloadable flashcards and downloadable vocabulary lists, textbooks, books, journals, periodicals, magazines, newspapers, newsletters, lecture notes, all of the aforesaid goods in the field of publishing, academic research, academic administration, educational instruction, teaching, learning, assessment and all academic and vocational disciplines; printed publications in electronically readable form and optically recorded form, namely, books, textbooks, journals, magazines, periodicals, newspapers, newsletters, lecture notes in the field of publishing, academic research, academic administration, educational instruction, teaching, learning, assessment and all academic and vocational disciplines; downloadable podcasts in the field of all academic and vocational disciplines; downloadable talking books for children; downloadable talking books for adults in the field of African studies, agriculture, American studies, animal science, aquatic science, archaeology and anthropology, architecture, art, Asian studies, astronomy, Australasian studies, biology, biomedical sciences, business and management, chemistry, classical studies, computer science, cultural studies, earth and atmospheric science, ecology and conservation, economics, education, engineering, environmental studies, European studies, general interest, geography, history, history and philosophy of science, language and linguistics, Latin American studies, law, life sciences, literary studies, materials research, mathematics, medical policy, medicine, medieval studies, Middle East studies, molecular biology, music and performance studies, neuroscience, nutrition, paleontology, philosophy, physical science, physics, plant science, politics and international relations, psychiatry, psychology, psychotherapy and counselling, religious studies, social studies, sociology, and theater; mouse pads; sleeves for laptops; sleeves for tablet computers; sleeves for portable computers; cases for mobile phones, tablets and portable computers; computer software for managing the training, education, examination and assessment of the user, including software for operation over computer networks and by remote computer access; 3D spectacles; bags adapted for laptops; bar code readers; battery chargers; calculating machines; cases for smartphones; cell phone straps; chargers for electric batteries; cinematographic film, exposed; protective clothing especially made for laboratories; computer memory devices; computer keyboards; computer operating programs, recorded; computer peripheral devices; computer game software; computer hardware; computers; covers for smartphones; covers for personal digital assistants; covers for tablet computers; decorative magnets; digital photo frames; digital signs; downloadable ring tones for mobile phones; downloadable music files; electronic pens; electronic agendas; electronic pocket translators; electronic notice boards; electronic book readers; electronic interactive whiteboards; electronic sheet music, downloadable; encoded key cards; epidiascopes; frames for photographic transparencies; hands-free kits for telephones; headphones; identity cards, magnetic; interactive touch screen terminals; interfaces for computers; joysticks for use with computers, other than for video games; juke boxes for computers; laptop computers; lasers, not for medical purposes; light-emitting electronic pointers; loudspeakers; magnetic tape units for

computers; magnets; mathematical instruments, namely, calculators; memory cards for video game machines; metronomes; microphones; microprocessors; microscopes; mobile telephones; modems; neon signs; notebook computers; pedometers; pipettes; Pitot tubes; portable media players; precision balances; pressure measuring apparatus; printed circuits; printed circuit boards; projection screens; protective helmets; protective masks; protective helmets for sports; protective films adapted for computer screens; protective films adapted for smartphones; radios; readers being data processing equipment; reflecting discs for wear, for the prevention of traffic accidents; reflective safety vests; scales; scales with body mass analyzers; shoes for protection against accidents, irradiation and fire; sighting telescopes for firearms; telescopic sights for firearms; mechanical signs; signs, luminous; slide projectors; transparency projection apparatus; slide-rules; smart rings; smart glasses; smartphones; smartwatches; spectacle cases; eyeglass cases; spirit levels; square rulers for measuring; squares for measuring; personal stereos; T-squares for measuring; tablet computers; tape recorders; teleprompters; thermometers, not for medical purposes; time recording apparatus; video recorders; video game cartridges; video screens; video telephones; virtual reality headsets; wearable activity trackers; weighing apparatus and instruments; wrist rests for use with computers; x-ray films, exposed; x-ray photographs, other than for medical purposes

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Creating and maintaining web sites for others; digitization of documents; hosting web sites; IT consultancy; providing information on computer technology via a website; website design consultancy; design of software for managing and monitoring online forums for discussion; creating electronically stored web pages for online services and the Internet; hosting of digital content online; design of websites; online hosted computer services, namely, hosting an online forum; managing web sites for others; hosting an Internet platform for the exchange of information; hosting a website containing information and advice relating to education, teaching, training and assessment; certification, namely, providing quality control for others; providing quality assurance services in the field of publishing, academic research, academic administration, educational instruction, teaching, learning, assessment and all academic and vocational disciplines; process monitoring of the teaching and administration of standardized tests for quality assurance; software as a service (SAAS) featuring software for displaying live and online classes, lectures, tutorials, seminars, colloquiums, symposiums and workshops in the field of publishing, academic research, academic administration, educational instruction, teaching, learning, assessment and all academic and vocational disciplines; cloud seeding; computer programming; computer software design; computer system analysis; computer system design; computer software consultancy; computer technology consultancy; conversion of data or documents from physical to electronic media; conversion of computer programs and data, other than physical conversion; creating and designing website-based indexes of information for others using information technology; data encryption services; electronic data storage; handwriting analysis; installation of computer software; maintenance of computer software; monitoring of computer systems to detect breakdowns; monitoring of computer systems for detecting unauthorized access or data breach; outsource service providers in the field of information technology; recovery of computer data; research and development of new products for others; surveying; web site design consultancy; information, advisory and consultancy services relating to the aforesaid services

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

RELATED PROPERTIES INFORMATION

International Registration 1405884 **International Registration Date** Oct. 18, 2017

GOODS AND SERVICES INFORMATION

For Non-metal doors, non-metal sliding doors, non-metal glass doors; non-metal platform screen doors; doors and sliding doors for platform door systems, namely, automatically operated non-metal doors, and non-metal doors with emergency opening function; prefabricated gap bridges not made of metal; portable cabins, not of metal, namely, non-metallic transportable buildings; door and window casings, not of metal, for building purposes; structural parts for the aforesaid goods

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For Land vehicles and structural parts thereof; rail vehicles, namely, trains; fork lift trucks; safety belts for vehicle seats; golf cars; doors for vehicles, motor vehicles, railway coaches and rail vehicles, namely, interior doors and exterior doors for rail vehicles, sliding doors, exterior swing-plug doors, interior swivel doors and sliding plug doors, all for vehicles; fittings and parts of rail vehicles, namely, boarding aids for attachment to trains in the nature of sliding steps, bridging plates, ramps, gap bridging, hand- operated folding ramps, lifting steps, driver entry steps, lifting devices, all be structural parts for trains; hydraulic and electro- hydraulically actuated vehicle doors; steps for attachment to land vehicles; vehicle bodies; access facilities for rail vehicles and vehicles of local public transport, especially mechanical, electrical, electronic and electro-mechanical access facilities, namely, doors for railway cars, land vehicle door panels, door handles for land vehicles; structural parts for land vehicles and for rail vehicles, namely, trains; structural parts for the aforesaid goods

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Electric soldering irons; brushes being parts of electric motors; slides, namely, powered ramps being machines; transport apparatus, namely, lifting installations for the transport of persons and goods and pneumatic transporters; conveyors being machines and conveyor belts; hoists for the transport of persons and goods; hoists for the loading of vehicles; brakes, structural components for brakes and braking systems comprised of brakes for machines, cranes, wind power plant machines; motors, geared motors, couplings for machines and machine power transmission, other than for land vehicles; drives for machines; electric drives for machines; drives for motors; electric drives for machines and for platform door machines; pneumatic actuators, namely, pneumatic door openers; hydraulic drives for motors for platform screen doors, for motors for barriers, for machines, for motors and for motors for boarding aids and doors and structural parts thereof; hydraulic and pneumatic controls for machines, motors and engines; electric motors for machines; automatic train washing installations; mechanical transport and conveyor belts; mechanical pumps for machines and hoists and computer-controlled wagon unloading machines comprised of the aforementioned goods; mechanical anti-clamping devices electric, pneumatic and hydraulic vehicle door openers and closers; anti-clamping devices for vehicle doors, namely, hydraulic and pneumatic anti-clamping devices in the nature of electric, hydraulic and pneumatic door openers and closers; structural parts for the aforementioned goods

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Heating installations; heating elements, heat registers; heat generators; heating and cooling panels used for vehicle and rail vehicle heating and cooling purposes; vehicle and rail vehicle climate-control system for heating, ventilation and air-conditioning; heating apparatus for vehicles and rail vehicles; air cooling apparatus; sanitary installations and facilities, namely, bath installations, toilets; water supply facilities, namely, toilet tanks; ventilators for vehicles, particularly rail vehicles; heaters for vehicles; electrical heating elements; heating systems and heating devices for rail vehicles, namely, heaters and heating units for vehicles and rail vehicles; lighting apparatus, namely, lighting apparatus for vehicles, lighting fixtures; electric light sockets; lamps; automotive inspection lamps, work lamps; lighting lamps; inspection lamps for automobiles; flashing strobe light apparatus; led work lights for construction settings; lights for vehicles; vehicle rear reflectors; lighting and heating facilities, especially for rail vehicles and vehicles for local public transport, namely, electric lighting fixtures for vehicles, heaters for vehicles; headlights for rail vehicles; electric track lighting units with power distribution; electric air dryers, air conditioning apparatus, vehicle climate- control system for ventilation and toilets for vehicles, particularly rail vehicles; toilets for vehicles, particularly rail vehicles; sanitary apparatus and installations for vehicles, particularly rail vehicles, namely, toilets and hand basins being parts of sanitary installations; remote-controlled point heating installations; top lights, tail lights, signal lights, particularly for rail vehicles; sanitary cabins in the nature of toilet cabins for rail vehicles; structural parts for the aforesaid goods

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Maintenance of industrial plants, and point heating systems; maintenance of electrical systems and apparatus; installation, maintenance, servicing, repair and modification of technical equipment, vehicles, railways, railway systems, rail vehicles, of local public transport vehicles and of electrical and electronic equipment and devices; repair, refurbishment and installation services relating to vehicles, in particular rail vehicles and local public transport vehicles and their parts and accessories; information and advice relating to the installation, maintenance, servicing and repair of technical equipment, railways, railway systems, rail vehicles and electrical and electronic systems and apparatus; installation, maintenance,

servicing, and repair of control and safety hardware systems and their individual components and of lighting, heating, ventilation, air conditioning and sanitary facilities, and their devices and parts, of vehicles, in particular rail vehicles and vehicles of local public transport systems; installation, maintenance, servicing, and repair of pressure-medium operated devices, apparatus and braking equipment; installation, maintenance, servicing, and repair of telecommunication hardware systems, data recording hardware systems, information boards, static converters, transformers for use in railway vehicles and vehicles of public passenger transport systems; repair and installation work relating to signalling system hardware, hardware for systems of control and safety systems and level crossings, and railway platform door equipment and their constituent parts; refurbishment of platform door equipment and their individual constituent parts, relating to signalling systems, control and safety systems and level crossing hardware; installation of railway platform doors; installation, repair and maintenance of traffic control equipment, in particular of rail transport control equipment, level crossing protection equipment, computer-controlled process equipment for marshalling yards as well as hardware for computer-controlled systems for the decentralized control of routes in shunting signal boxes with shunting and traffic tracks, automatic train wash facilities, train location and information hardware, illuminated and mechanical signalling equipment and illuminated and mechanical signal panels, electronic sensors and contact sensors for the railways; installation, repair and maintenance of rail switches and point setting equipment, also of track signal boxes; installation of electrical and communications hardware in the field of railway technology; repair and maintenance of point heating equipment, track lighting and tunnel safety lighting equipment, and lighting control hardware and remote control equipment; service and maintenance of electro-mechanical and electro-pneumatic drive devices for the opening and closing of vehicle doors, also electrical and pneumatic control devices for such drive devices together with electrical and electro-pneumatic anti-clamping devices for vehicle doors; installation, maintenance, servicing and repair of vehicles, sanitary installations, and boarding devices for rail vehicles

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Apparatus for the recording, transmission and reproduction of sound and images; electronic transmitters and receivers for communication purposes; network communication apparatus, namely, network servers, computer network switches, computer network bridges, computer network adapters, computer network interface devices; control apparatus for network management, namely, computer hardware for use in network management; telegraphic and telephone transmitters; data processing equipment; data processing apparatus; computers; computer software for the enabling of access or entrance control, for the control of railway systems and railway information systems; computer software for making rail reservations; computer software for management and control of point heating installations, of track lighting systems; computer software for management and control of power distribution systems; computer software for management and control of tunnel emergency lighting systems; computer software for network management; control apparatus, namely, electrical controllers; transistor conversion in the nature of converters; rectifiers in compact form for railway vehicles and vehicles for public commuter transport; voltage converters; electrical converters; dc converters; rectifiers; current converters; electric inverters; static converters; high-voltage transformers; electrical measurement, signal, and control apparatus and instruments, namely, distance measuring apparatus; electrical and optical cables; wiring harnesses in the nature of electric wire harnesses for railway vehicles and busses; electrical wiring harnesses in the nature of electric wire harnesses for railway vehicles and busses; battery starter cables for engines; electrical switches; electric switches; electric switches for electrical components; electric micro-switches; pressure switches; electric tumbler switches; electric lever switches; electric relays; electrical relays; electric resistors;

potentiometers; diodes; electric fuse boxes; fuses; grounding boxes, namely, electrical connection boxes; conduit boxes in the nature of electricity conduits; junction sleeves for electric cables; end caps and covers being structural parts of electrical connections; mounting brackets adapted for electric cables; plug-in connectors; plug-in connectors for electric and electronic components; electrical plugs, sockets and contacts; electrical contacts; cable connectors; electrical terminal connectors; electric control panels; protective tubes and dust covers being specially adapted for railway control boards and electrical connectors; sirens; vehicle sirens; emergency position-indicating radio beacons; luminous beacons; electric warning lights; luminous safety beacons; devices and apparatus for the collecting, receiving, processing, display and presentation of data and information, particularly in the area of rail transport, rail vehicles and local public transport and systems comprised thereof, namely, railway signals, electric conductor rails, data processing apparatus; booking systems and seat reservation systems comprised of computer hardware and software for reserving seats and booking rail transport; electro-technical facilities for railway passenger coaches and power units, namely, electrical controllers for electric train heating and air conditioning, electrical power supplies for passenger coaches from the train power supply line and installations comprised thereof; switching and monitoring, control and regulating apparatus and devices for rail vehicles and for electrical equipment of passenger coaches and railcars, namely, control units for regulating start-up electrical motors, electric control panels; electric batteries and accumulators; structural parts for electrical batteries and accumulators; chargers for electric accumulators and batteries; monitoring instruments and apparatus, particularly for access equipment for rail vehicles and vehicles of public transport and for braking systems, namely, cameras, battery monitors; electrical, electronic and electromechanical gateways for data buses in rail vehicles and vehicles of local public transport, namely, electronic data transmitters and couplers being data processing equipment; energy supply systems, namely, power supplies; electric switches, energy supply systems comprised of power supplies, battery chargers and electrical distribution boxes, especially for rail vehicles and local public transport and for railway platform door systems and signalling systems; detection and display devices for speed, direction and position of vehicles and rolling stock, namely, cameras; electrical, electronic, computer and processor-based controllers and control systems for platform door systems, signalling systems, doors and boarding aids; electrical, electronic, computer and processor-based controllers and control systems and computers for visualization and monitoring, in particular of system conditions for infrastructure facilities of local public passenger transport and of individual transport and of point heaters; detection and monitoring apparatus for the closing and opening state and operation of vehicle and rail vehicle doors, namely, electric switches; devices and systems for receiving, processing and display of information in railway vehicles, namely, computer hardware, loudspeakers, touch screens and video screens, electronic transmitters and receivers for transmitting and receiving railway vehicle information; facilities for visualization and monitoring of system conditions, in particular in rail traffic, railway platform door systems and in public transport, namely, computer hardware, computers, loudspeakers, touch screens and video screens; antennas; ticket dispensers, namely, electronic and electromechanical railway and public transport ticket dispensers; signal bells; comparators; odometers; tachometers for speed; automatic power loss indicators; temperature indicators; speed indicators; electricity limiters; illuminated electronic indicator panels for information purposes; speedometers; signalling systems, illuminated or mechanical, namely, vehicle and railway traffic signals and electric warning lights; railway traffic safety appliances, namely, beacon lights, railway signals; acoustic, optical and mechanical signalling devices, namely, loudspeakers, signalling buoys, signal bells, signalling whistles; railway signals and apparatus for manual and train-induced operation, namely, emergency signal transmitters, transmitters of electronic signals; electronic and electrical apparatus, instruments, devices and modules for the control, safeguarding and automation of the route in rail transport, namely, computer hardware, transmitters of electronic signals, wired and wireless communication devices for voice, data or image transmission;

power supplies, battery chargers and electrical distribution boxes; apparatus and facilities for collecting, processing and presenting data and information, namely, data processing apparatus; detection and display devices for speed, direction and position of rail vehicles, namely, cameras; electrical, electronic, computer and processor-based controllers and control systems for platform door systems, doors and railway signals; double-track electric switches; illuminated or mechanical signalling systems comprised of railway signals; illuminated or mechanical signal boards in the nature of electronic indicator boards; electronic control panels; computerized electric control panels for process equipment for marshalling yards, as well as computers for remote route control in shunting yard signal boxes with shunting and traffic routes; electric warning lights, loudspeakers, signalling buoys, signal bells, signalling whistles; temperature controllers for heating systems; mosaic electric control panels; electric control panels; touch-control computers for the operation of point heating installations and visualization of operating sequences; devices for control systems and energy supply systems, namely, remote monitoring systems and devices, namely, remote video monitoring system consisting primarily of a camera and video monitor for recording and transmitting images to a remote location; computer networks servers; apparatus for the generation of electricity using solar energy, namely, solar cells, solar panels for the production of electricity, photovoltaic solar modules for the production of electricity; equipment and sensors for the detection of vehicle occupants, namely, cameras and computer software for the detection of vehicle occupants; electronic controls for motors; electrical anti-clamping devices for vehicle doors, namely, electronic motor switches for switching off motors; power supply apparatus for tunnel emergency lights; structural parts for the aforesaid goods

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Engineering services; engineering; product design, computer project management, research and development and consultation related thereto in the field of technical and electrical devices and equipment for railways, railway systems, or rolling stock; creating software; technical product design and consultancy and advisory services related thereto in the field of technology for the collection, processing, distribution and representation of data and information, particularly in the area of rail transport; technical consultancy in the field of product development for technical and electrical devices and equipment for public transportation, railways, railway systems or rolling stock; technological services and research work and related designer services, namely, technology consultation and research in the field of railways, point heating systems, tunnel lighting systems and battery management; industrial analysis and research services, namely, scientific research; design and development of computer hardware and software; engineering, product design in the field of electronics; planning and design of systems of control and safety technology, signalling systems, control and safety systems and level crossing technology; technical support services, namely, troubleshooting of hardware and computer software problems in the field of systems of control and safety technology, signalling systems, control and safety systems and level crossing technology; custom design and development and conducting scientific feasibility studies relating to railway platform door systems also rail vehicles and vehicles of local public transport and their parts and fittings; measurements in the lighting laboratory, namely, calibration; engineering services, particularly technical project planning and technology advice in connection with the technology used for collection, processing, distribution and representation of data and information, particularly in the area of rail and local public transport; engineering services, particularly technical project planning and technology advice in the field of technology for the installation, servicing, maintenance and repair of technical equipment, in particular for rail vehicles and vehicles of public transport and for electrical and electronic systems and apparatus; research and development in the field of electromechanical

and hydraulic fluid-operated drive devices for opening and closing vehicle doors, as well as electrical and pressure-operated control devices for such driving devices as well as electrical and electro-pneumatic anti-clamping devices for vehicle doors; planning of construction projects concerning railway platform door systems, namely, drafting of concepts, plans and engineering drawings for others concerning railway platform door systems; research and development in the field of electro-mechanical and electro-pneumatic drive devices for opening and closing vehicle doors, as well as electrical and pneumatic control devices for such driving devices, also electrical and electro-pneumatic anti- clamping devices for vehicle doors; design services for electrical and communications systems in the field of rail technology

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Ramps made of metal for use with vehicles; boarding aids, namely, sliding steps in the nature of mobile boarding stairs of metal for passengers, steel bridging plates, prefabricated metal gap bridges, manual folding metal ramps for use with vehicles, lifting steps in the nature of metal portable stairs, driver access steps made of metal in the nature of metal portable stairs; cabins made of metal in the nature of transportable cabins for vehicles made of metal; doors, sliding doors and platform screen doors, made of metal; metal partitions for vehicles; transportable buildings of metal; locksmith articles, namely, metal locksets, door fasteners of metal, locks of metal for vehicles; small items of metal hardware, namely, door stops of metal, metal locksets, door fasteners of metal, locks of metal for vehicles; beacons, not illuminated, of metal; signalling systems, not illuminated and not mechanical, made of metal, namely, traffic and railway signs; gangways made of metal, namely, mobile boarding stairs, of metal, for passengers; conveying, loading and transport pallets of metal; steel structures, namely, steel frames for building, hollow steel bars, metal gates and fences; supporting structures made of metal, namely, metal door frames; structural parts for the aforementioned goods

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

GOODS AND SERVICES INFORMATION

For Online financial information processing and monetary management services, and banking, in particular for enabling of financial payment transactions processing via single sign-on access and general login access; services in the field of payment verification; computerized debt collection services; financial money transfers and transactions processing services, and payment processing services, in particular for enabling cashless payment transactions via electronic communication networks and mobile telecommunications devices, excluding for real estate purposes; banking and financing services, in particular by using an authentication, verification and identification software to ensure secure electronic payment services via the internet and mobile communication devices; financing services via telephone, a worldwide computer network and the internet, excluding in the field of real estate; authentication, authorization services, namely, clearing and reconciling, for conducting financial transactions, in particular online financial transactions for the settlement of purchases made via the internet; electronic processing of electronic payments; processing payments made with loyalty rewards cards, credit cards, bank cards, cash cards, voucher cards and payment cards, in particular online e-commerce and via portable communication devices for m-commerce; financial services related to credit cards, debit cards, stored value and prepaid cards, namely, verifying credit cards, debit cards, stored value and prepaid cards; financial services in the nature of processing transaction payments for the purchase of goods and services via an electronic communications network; electronic processing of electronic payment transactions via the internet; electronic payment services involving electronic processing and subsequent transmission of bill payment data; electronic funds transfer; account debiting services; electronic debit card, credit card and payment card transactions processing; financial and monetary transaction services, namely, providing secure cashless payment transactions via mobile devices in the nature of mobile phones and tablet computers, excluding transaction services for real estate purposes; online financial transactions services, namely, providing secure commercial transactions and payment options online, excluding in the field of

real estate; rent and bill payment services provided via wireless telecommunications apparatus and devices, in the nature of mobile phones, tablet computers and handheld computers excluding for real estate purposes; verification of financial information, namely, payment verification and funds verification, excluding in the field of real estate; providing electronic processing of electronic payments by conducting cashless payment processing transactions without the use of payment cards by means of establishing cloud-based secure accounts that store consumer data for cashless payment of goods and services via telephone, global computer networks, mobile communication devices in the nature of mobile phones, tablet computers and handheld computers, the internet and television connection and at the point of sale, including by means of near field communication (NFC) and bar code system; financial services related to secure electronic money transactions via public computer networks and mobile communication devices for enabling electronic commerce; electronic processing of payments for e-commerce purposes; financial authorization via single sign-on and general login related to the processing of financial transactions via a global computer network, excluding authorization of transactions in the field of real estate; financial services, namely, the provision of processing of contactless mobile payment transactions through merchants at retail, online and other points of sale by using RFID or NFC; redeeming the vouchers of others for payment of goods and services by providing cashless payment processing transaction services via digital trading of vouchers and coupons and via digital authentication of vouchers and coupons; check verification; financial analysis services for the support of retail services provided on-line, through networks and other electronic systems using electronically digitalized information

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For Advertising, marketing and promotional services; advertising for others via wireless networks, mobile telecommunication apparatus and a global computer network; public relations services; product demonstration; promotional services through presentation of products to the public; arranging and conduction of trade fairs and exhibitions for commercial and advertising purposes; providing loyalty, incentive and bonus program services; business management of loyalty rewards cards, bonus programs, vouchers and coupons for others; promoting the sale of goods and services of others by means of rewards and incentives generated in connection with the use of credit, debit, bank, cash, loyalty, voucher and payment cards through means of wireless networks, mobile telecommunications devices and global computer networks; business administration of consumer loyalty programs and consumer loyalty gratification schemes via wireless networks, mobile telecommunication apparatus and global computer networks for marketing purposes; provision of advertising space, time and platforms; distribution of advertising material, marketing material and promoting the sale of goods and services of others through the distribution of printed promotional material; advertising, marketing and promotional consultancy, advisory and business assistance services; commercial trading and consumer information services, namely retail store and wholesale store services featuring computer software and hardware, authentication apparatus, electric and electronic apparatus for enabling and administering payments, banking, electronic monetary transfer, credit balance, the authentication of transactions, the verification of documents and the identification of people and the forwarding of accounts and payments, apparatus for reading biometric data, apparatus for reading coded credit, bank and other payment cards; commercial and consumer information services, namely auctioneering services; rental of vending machines; provision of commercial and business contact information; arranging contracts for third parties for the buying of goods by offering volume based discounts; arranging business competitions for businesses to compete for seed capital; business marketing support, and business technology support to facilitate business activities; import and export agency services; negotiation and conclusion of financial commercial

transactions for others and negotiation of business contracts for others relating to the monetary affairs of others; price comparison services; procurement services for others of contracts for the purchase and sale of goods; subscription services, namely, providing and managing the subscription of digital publications; business administration assistance, management and administrative services; accountancy, book keeping and business auditing; administrative data processing services; computerized file management; computerized business information processing services; information services relating to data processing services; data processing services for verification purposes; consultancy relating to data processing; computerized data management of files and databases; data processing services; data compilation for business purposes in the nature of data search in computer files for others for business purposes; data compilation for others; data management services for authentication, verification and identification purposes in the field of electronic data collection and on-line claims management; services comprising the composition of statistical data; compilation of statistics; processing of business survey results; compilation and systematization of information about transactions and data in computer databases to enable user authentication for payment services; business management consultancy for companies regarding the implementation, operation and marketing of solutions for electronic payment transactions; clerical services; document reproduction; maintaining a registry of information in the field of personal data for use in authentication, verification and identification procedures, in particular authentication, verification and identification via single-sign-on and general log-in; invoicing services; business consultancy and advisory services; business management consultancy related to the use and administration of information technology for business purposes for others, in particular related to utilizing information technology for secure performance of electronic cash transactions and electronic payment services via public computer networks and mobile communication apparatus; preparation of market reports; business consultancy regarding the organization of and participation in customer loyalty, bonus, coupon, voucher and reward programs; rental of office machines; business consultancy regarding the development, implementation and organization of single sign-on access and general login access to offers made via the internet, online stores and other electronic and mobile commerce offerings; business data analysis, research and information services; market research services, in particular tracking, analyzing, forecasting and reporting cardholder purchase behavior; market analysis services relating to the sale of goods; collection and systematization of business data in computer databases; financial records management; drawing up of business statistical information for business purposes; compilation and systematization of business information and business data into computer databases; rental, hire and leasing of equipment for use in connection with the aforesaid services, included in the class; advice, consultancy and information in relation for the aforesaid services, included in this class; financial accounting; invoicing services

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Recorded content in the nature of recorded computer operating programs; electronic databases in the field of user identification data for authorizing access to financial, insurance and e-commerce services and internet portals recorded on computer media; downloadable electronic databases featuring financial management information recorded on computer media; electronic directories downloadable as memories; pre-recorded magnetic data carriers featuring personal financial information; downloadable computer software and computer programs, in particular for providing mobile cashless payment transactions, financial transactions, financial and monetary affairs, financial matters and financial management; downloadable computer software and programs downloadable from the internet for managing personal identification data; computer applications software for portable communications apparatus in the nature of mobile phones and handheld computers, namely, software for

use in database management, and use in electronic storage of data; application software for mobile phones for processing administrative procedures online; interface software for enabling data exchange between computer programs; computer programs for accessing and using the internet for enabling data exchange between computer programs; computer programs for use in telecommunications for accessing internet portals, e-commerce and m-commerce offerings; computer utility programs for file management and file compression; computer software for database management; computer software for data processing, data transmission, the searching and retrieval of data and for database management also downloadable; data communications software; privacy software, in particular software enabling secure data storage and retrieval of data and transmission of confidential customer data; computer software for authorizing access to data bases; computer software for creating searchable databases of information and data; computer software for accessing information directories; software for computers and portable communication devices to enable single sign-on and general login; software for e-commerce over a global communications network; software for the management of customer data; authentication, verification and identification software; computer encryption and decryption software; digital certificates in the nature of authentication, verification and identification software for authenticating user identification; computer software for processing digital signatures; software for facilitating secure credit card transactions; computer software for the display, storage and transmission of information referring to payment cards, personal identification and accounting information, transaction and financial information; software and applications for portable communication devices and for computers to enable and administer payments, banking, electronic monetary transfer, credit balance, the authentication of transactions, the verification of documents and the identification of people, the forwarding of accounts and payments; software and applications for portable communication devices and for computers to enable encryption and decryption services; computer communication software to allow customers to access bank account information and transact bank business; biometric identification systems consisting of biometric identification apparatus; computer software for biometric systems for the identification and authentication of persons; facial recognition software; speech and voice recognition software; computer software for interpreting fingerprints or palm prints; credit screening software; software and applications for portable communication devices and for computers for electronic processing and transferring of billing data; computer hardware and computer software for simplifying electronic financial payment transactions via wireless networks, global computer networks and mobile communication devices; computer hardware and computer software for electronic apparatus and devices for receiving, processing, monitoring, storing, evaluating, displaying and transferring of biometric and geographic data and information; software for cashless payment transaction services by telephone, via digital communication devices, the internet and television connection or at the point of sale, including by means of near field communication (NFC) or a two-dimensional code in the form of a square matrix of black and white dots representing encoded data in binary form (QR codes) or a bar code system; software and applications for portable communication devices and for computers that store customer account information to access coupons, vouchers, voucher codes and discounts at retailers and to obtain loyalty or monetary rewards that can be credited to their accounts; software and applications for portable communication devices and for computers that allow users to access coupons, vouchers, voucher codes, discounts, price-comparison information, product reviews, links to the retail websites of others and discount information; software for digital authentication of vouchers and coupons; software for portable communication devices that detects QR-codes and bar codes on digital or non-digital surfaces, including QR codes or bar codes on posters, the internet, screens and/or printed or electronic bills; application software allowing merchants to accept contactless mobile commerce transactions, contactless presentation of loyalty credentials, and contactless redemption of coupons, discounts, reductions, vouchers and special offers; application software allowing merchants to deliver coupons, discounts, reductions, vouchers and

special offers directly to the mobile communication devices of consumers delivered by contactless RFID communication or NFC technology ;magnetic cards being computer software as identity cards; computer software for scanning images and documents; software for operating systems of card readers; computer software for the remote control of security apparatus; information technology and audio-visual, multimedia and photographic devices, namely, devices for transporting and aggregating voice, data, and video communications across multiple network infrastructures and communications protocols; computer networking and data communications equipment for electronic apparatus for verifying and authenticating user data; apparatus for recording, transmitting and reproducing of data, including audio and images; encryption apparatus; point-to-point communications equipment for electronic authentication apparatus; Computer storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; prerecorded CDs, DVDs, HD DVDs, UHD discs personal financial information; blank USB flash drives; electronic and optical data carriers, all blank; blank optical memories; blank magnetic data media; magnetic data carriers bearing recorded software featuring personal data for authorizing access to financial, insurance and e-commerce services and internet portals; blank magnetic tapes for memorizing software programs; data processing programs recorded on machine-readable data carriers; authentication servers; electronic and magnetic id cards for use in connection with payment systems; magnetic cards bearing electronically recorded data; magnetic cards encoded with security features for authentication and identification purposes; electronic or magnetic coded cards, in particular, bank cards, cash cards, loyalty cards, payment cards, debit cards, gift cards, all electronically encoded; magnetically encoded credit cards for use in point of sale transactions; labels with machine-readable codes carrying magnetically and electronically encoded information; coded identification strips in the nature of cards encoded with security features for identification purposes; electronic encryption units; readers data processing equipment; magnetic coded card readers; voucher reading machine apparatus; electronic card readers; image scanners; data collection apparatus; encryption apparatus for encrypting data exchanged via a telecommunications network; digital input and output scanners; biometric identification apparatus for authentication, verification and identification; speech recognition apparatus in the nature of speakers and microphones with integrated voice recognition software; projected capacitive touch sensors; image analyzers in the nature of scanners and software for face recognition and document recognition; data processing terminals; electronic coding apparatus in the nature of electronic coding units and bar code readers; electronic apparatus for tracking, management and analysis of financial accounts via a global computer network; electronic apparatus for checking the authenticity of bank cards, credit cards, debit cards, loyalty cards, coupons and payment cards, namely, electronic card readers; data processing equipment; bar code readers; calculators; electronic ticket dispensers; electronic payment terminals, money dispensing and sorting devices in the nature of cash dispensers; secure terminals for electronic transactions; peripherals adapted for use with computers; computers and computer hardware; electronic computer components and parts thereof; magnets, magnetizers and demagnetizers; glasses, sunglasses and contact lenses; corrective eyewear; safety, security, protection and signaling devices, namely, burglar, security and fire alarms; alarms and warning equipment, namely, alarm central units and sound alarms; electronic access control devices in the nature of access control systems; computer hardware for signal processing of audio and video; biometric fingerprint readers; apparatus for verifying data on magnetically encoded cards; navigation, guidance, tracking, targeting and map making devices, namely, GPS tracking and location finding devices; computer hardware and computer software for the collection and the process of positioning data; measuring, detecting and monitoring instruments, indicators and controllers for remotely controlling the function and status of security systems; wireless controllers to remotely monitor and control the function and status of security systems; parts and fittings of all the aforesaid goods, included in the

class

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Safety services, namely, providing executive protection and security guard services, and security clearance for individuals in the nature of conducting personal security clearance background investigation; providing reconnaissance and surveillance services; fingerprinting analysis; providing authentication of personal identification information in the nature of verifying personal identity information in the nature of conducting personal security clearance background investigation; physical security consultancy; security guard services; security screening services related to the validation of identifying marks; information services relating to private and public safety to protect companies and customers against fraud, misrepresentation and dilution; security inspection services for others in the nature of anti-counterfeiting consulting in the field of document authentication, namely, control of the authenticity of passports, identification cards and other personal paper of identity to protect against counterfeiting, tampering, and diversion, and to ensure the integrity of genuine documents; personal background investigations; security inspection services for others, namely, inspection of personal identities; monitoring of security systems; personal and social services, namely, detective services, personal and social services regarding individual needs, namely, background investigation and background investigation research services; legal services; licensing of computer software legal services; licensing of computer programs legal services; licensing industrial property rights; licensing of databases; licensing of software for wireless communication systems; licensing industrial property rights; licensing of technology; licensing of data processing programs

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Telecommunication services, in particular computer communication and internet access services; provision of access to content, websites and portals; providing access to databases in the internet and transmission of data via telecommunication, in particular in the field of authentication, verification and identification to ensure secure cashless payment transactions; electronic data interchange services; providing a single sign-on access and general login access to content, websites, internet portals, e-commerce and m-commerce offerings; computerized data transfer; audiovisual and digital communication services; providing access to a worldwide computer network and to data in computer networks; providing telecommunications connections to a global computer network; provision of telecommunication access and links to computer databases and to the internet; provision of access to data via the internet; providing user access to platforms on the internet; providing access to on demand video and audio platforms and to electronic market places; transmission of data, audio, video and multimedia files; providing access to telecommunication channels for teleshopping, e-commerce and m-commerce; computer aided transmission of messages, data, information and pictures; streaming audio and video material on the internet; electronic transmission of data in the nature of machine-readable codes that are displayed on a mobile device display screen and transmitted over a global remote data processing network, including the internet; transmission of and providing access to information from a computer database or via the internet in the field of financial services; computerised communication services, namely, electronic transmission of data and documents among users of computers; internet-based telecommunication services; computerized telephony services; voice over internet protocol [VoIP] communication services; transmission of electronic mail; telephone and mobile telephone services, namely, transmission of text messages and information via smartphones; provision and rental of telecommunications facilities and equipment; providing third party users with access to telecommunication infrastructure;

dissemination by electronic transmission of financial information via a secure global computer network; rental and leasing of telecommunication services in connection with the aforesaid services, included in the class; advice, consultancy and information in relation for the aforesaid telecommunication services, included in this class

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For IT services, namely, development, programming and implementation of software, in particular software related to the provision, execution and processing of accounting systems and cash flows on the internet and/or via electronic communication networks; computer programming; updating and maintenance of computer software and programs; programming and installation of software and database software; updating and maintenance of software and databases; design, development, implementation and maintenance of computer software and programmes for data processing; design, development, implementation and maintenance of software for computers and portable communication devices to enable single sign-on and general login; design, development, implementation, updating and maintenance of software for receiving, processing, monitoring, storing, evaluating, displaying and transmitting of biometric and geographic data and information; updating and adapting by customizing of computer programs according to user requirements; development, programming, implementation, updating and maintenance of software for database management; computer programming services for data warehousing; development of computer databases and maintenance of computer software for databases; programming of data processing equipment; creating and designing website-based indexes of information for others as information technology services; design and development of software in the field of mobile applications; design and development of operating software for accessing and using a cloud computing network; design, development, installation, updating and maintenance of software for secure cashless payment transactions via telephone, digital communication apparatus, the internet, television connection or at the point of sale, including by means of near field communication or a two-dimensional code in the form of a square matrix of black and white dots representing encoded data in binary form (QR codes) or a bar code system; design, development, installation, updating and maintenance of authentication, verification and identification software; development, installation, maintenance and updating of software for mobile devices that detects QR codes and bar codes on digital or non-digital surfaces, including QR codes or bar codes on posters, the internet, screens and/or printed or electronic bills; design, development, installation, maintenance and updating of downloadable computer programs and application software for mobile terminals that allow users to access coupons, vouchers, voucher codes, discounts, price-comparison information, product reviews, links to the retail websites of others and discount information; design, development, maintenance and updating of downloadable computer programs and application software for mobile devices that allows users to access sales promotion offers and obtain monetary rewards that can be credited to their accounts via a cash-back system; provision of on-line technical support services for computer program users, namely, troubleshooting of computer software problems; consultancy relating to the design and development of computer programs; computer software scientific research; programming and maintenance of websites in particular related to payment services; programming and maintenance of computer software for internet portals and platforms, in particular related to payment services; computer hardware development; advice relating to the design of computer hardware; development of computer peripherals; IT services, namely, hosting services, software as a service (SaaS) featuring software for providing secure cashless payment transactions and for use in database management, and rental of software; consulting in the field of cloud computing networks and applications; consultancy services relating to software rental; providing temporary use of on-line non-downloadable software for database management and the transmission, processing and management of data; providing temporary use of non-downloadable software for analyzing financial data and generating

reports; providing temporary use of non-downloadable authentication, verification and identification software for computers and mobile communication apparatus, in particular to enable single sign-on and general login; providing temporary use of non-downloadable software for recalling and managing of financial customer data via a worldwide computer information network or the telecommunication network; providing temporary use of non-downloadable online-software for computers and applications for mobile devices for the processing of electronic payments and financial transactions; providing temporary use of non-downloadable software and non-downloadable application software for the managing, locating, activating and blocking of authentications and digital credentials; providing a website featuring technology in the nature of electronic memory space on the internet that enables internet users to securely store personal data for the purpose of single sign-on and general login and providing a website featuring search engines for obtaining data from a global computer network; data warehousing; data back-up services; application service provider (ASP) services, namely, hosting computer software applications for others; electronic data back-up; electronic storage services for archiving databases, images and other electronic data; computerized business information storage; electronic storage of transaction information and data for authentication of users for payment services in central databases; off-site data backup; web hosting of databases, computerized data, files, applications and information; hosting of digital content and memory space on the internet; website hosting, in particular related to payment services; software as a service [SaaS], in particular for providing cashless payment transactions; rental of computer software, in particular rental of database software, software for reading a data stream and for financial management software; rental of database management software and data processing programs; rental of computer hardware and computer systems; provision of computer rental; data security services in the nature of computer security threat analysis for protecting data; rental of a database server to third parties; rental of computer hardware in the nature of a coding apparatus; IT consultancy, advisory and information services; computer security consultancy; technical consultancy services relating to secure communication, data encryption and decryption and local area network (LAN) security; scientific research and technical advisory services relating to computer hardware and software; provision of technical support in the configuration and monitoring technical functions of computer networks; technical advisory services relating to design and development of data processing programs; preparation of reports relating to computer programs relating to electronic data processing for the purpose of providing technical support services for troubleshooting of computer software problems; IT security services in the nature of protection and recovery of computer data; computer security services as testing and risk assessment of computer network; provision of computer security services for computer networks, computer access and computerized transactions, namely, providing authentication, issuance, validation and revocation of digital certificates; computer programming services for electronic data security; computer security services in the nature of administering digital certificates; data security services, namely, design and development of electronic data security systems in the nature of firewalls; electronic monitoring of credit card activity to detect fraud via the internet; monitoring of computer systems for detecting unauthorized access or data breach, in particular relating to electronic payment transactions; electronic monitoring of personal data to detect identity theft via the internet; duplication of computer programs and the data contained therein and data conversion services, data coding services; data encryption and decoding services; digitization of documents, scanning; encoding of magnetic cards; coding of messages by using digital certificates; conversion of computer programs and data, other than physical conversion; conversion of data, pictures or documents from physical to electronic media; encryption, decryption and authentication of information, messages and data; scientific and technological services in the field of online data protection; testing of computer software and computer hardware, authentication of digital certificates and quality control for others; authentication and verification of data, in particular for payment transactions for security purposes, namely, electronic verification services using technology to authenticate user identity; computer security

services in the field of authentication and verification of information and news transferred by telecommunication for the purpose of enabling secure cashless online payment transactions and commissioning financial, insurance, e-commerce and governmental services via the Internet; services related to the authentication of digital signatures; computer security services in the field of verification, authentication, issuance, distribution and management of digital certificates that contain specific characteristics of persons or objects; computer security services, namely, providing encrypted, digitally signed and authenticated data for issuance and validation of digital certificates, in particular in the field of document authentication; design services relating to data transmission test tools; testing of electronic data processing systems; technical research relating to automatic identification systems; testing, analysis and evaluation of electronic data transmitted via telecommunications for the purpose of certification; design services; providing IT information on electronic data storage in the field of cashless payment transactions; advice, consultancy and information in relation to the aforesaid services, included in this class

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Apparatus and equipment for medical and veterinary use in detecting use of illegal substances or drug abuse, namely, multi-drug testing cups for drug use testing purposes; analysers for medical use, namely, medical instruments for analysing bodily fluids; analysing apparatus for medical purposes, namely, flow-based analysers providing cell and particle analysis; apparatus for analysing alcohol in body fluids for medical use; apparatus for analysing alcohol in breath fluids for medical use; apparatus for analysing bacteria in biological samples for medical use; apparatus for analysing images for medical use, namely, medical imaging apparatus; apparatus for analysing substances for medical use, namely, medical diagnostic apparatus for analysing bodily fluids; apparatus for analysing substances in gases for medical use, namely, breath gas analysers for medical diagnostics; apparatus for analysing bacteria in liquids for medical use; apparatus for bodily fluid analysis for medical use; apparatus for blood analysis for medical use; apparatus for blood tests for medical use; apparatus for testing blood; apparatus for the withdrawal of blood for medical test purposes; apparatus for viewing diagnostic test strips, namely, medical imaging apparatus; automated analysers for body fluids for medical use; bags specially adapted for collecting urine samples for medical use; bags specially adapted for storing urine samples for medical use; biomedical testing apparatus, namely, medical DNA testing apparatus; blood glucose testing apparatus for medical use; blood group analysers for medical use; breath testing apparatus for estimating blood alcohol content for medical use; chemical analysers for the detection of drugs for medical use; clinical chemistry analysers for the detection of drugs for medical or veterinary use; electronic analysers for the detection of drugs for medical purposes; medical instruments for drug abuse testing; apparatus for use in testing blood for medical use; specimen collection devices in the nature of glass slides, bottles, tubes, cups and bags for medical use in extracting samples from the body; specimen samplers for medical use, namely, glass slides; sterile devices for receiving urine from the body, namely, medical specimen cups bottles, tubes and bags; medical testing apparatus kits, namely, untreated multi-drug testing dip cards for drug use testing purposes; transcutaneous blood gas analysing apparatus for medical treatment purposes; urine

bags, namely, pocket mobile male urine collection device comprised of a plastic bag filled with a gelling agent that solidifies urine on contact; urine collection products, namely, medical specimen bags for the collection of urine; urine drainage bags, namely, portable male and female urine collection devices comprised of disposable pouch made from synthetic material; urine test glasses, namely, glass sampling tubes for urine for medical purposes; urine testing instruments for medical diagnostic purposes; apparatus for blood analysis; blood testing apparatus; plastic bags for transmitting medical specimens; specimen cup holders; medical specimen cups; blood testing apparatus, namely, blood collecting tubes; blood testing apparatus, namely, blood sampling tubes; medical diagnostic instruments for the analysis of body fluids; medical specimen bags for holding body tissue samples for testing purposes; medical specimen collection devices in the nature of securable containers for the collection of urine; multi-drug testing cups for drug use testing purposes; untreated multi-drug testing dip cards for drug use testing purposes; medical devices for monitoring substance abuse, namely, multi-drug testing cups for drug use testing purposes; medical devices for monitoring substance abuse and containing a system that transmits data through the internet, namely, multi-drug testing cups for drug use testing purposes and related software for the transmission of the results, sold as a unit

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Collection of quality metric data for health care and law enforcement providers for business purposes; compilation of information into computer databases; compilation of mathematical business data for business or commercial purposes; compilation of statistical business data for business or commercial purposes; computer data processing; computerised business records keeping for business purposes; computerised data processing; computerised data verification, namely, professional credentialing verification services in the field of securely handling biological substances, namely, verifying the skills and knowledge of licensed professionals on the behalf of others; computerised database management; computerised file management; computerized file management; data collection for others, namely, compiling statistics, data and other sources of information for business purposes; consultancy relating to data processing; computer data base management; data handling, namely, data processing services; medical claims data management, namely, receiving, data entering, and re-pricing of transactions that are originated by physicians, hospitals, and ancillary medical care providers; computer database management consultancy; data preparation, namely, compiling and analysing statistics, data and other sources of information for business purposes; data processing; data processing verification, namely, employment verification services; database management; efficiency or process auditing, namely, business efficiency expert services in the nature of examining, reviewing or assessing the working of a business or organization; electronic data processing; updating and maintenance of data in computer databases; registry services, namely, administration services being recording and maintaining lists and information for others for business purposes

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Apparatus controlled by computers for analysing biological samples for the presence or absence of contaminants, other than for medical use; apparatus for analysing alcohol in body fluids other than for medical use; apparatus for analysing alcohol in breath other than for medical use; apparatus for analysing bacteria in biological samples other than for medical use; apparatus for analysing biological substances for the presence or absence of contaminants, other than for medical use; apparatus for analysing substances in liquids for the presence or absence of contaminants, other than for medical use; apparatus for analysing the output of a camera, namely, linear image sensors; apparatus for data collection and entry, namely, handheld electronic devices for recording and transmitting data files; apparatus for diagnostic purposes for the detection of drugs and

substances of abuse other than for medical use; apparatus for measuring contaminant levels in biological samples; appliances for use in the analysis of liquids, other than for medical diagnosis, namely, liquid analyzers; application software for analysing and recording contaminant levels in biological samples; automated research laboratory analysers for body fluids, other than for medical use; automated clinical chemical analysers for testing for the presence or absence of target chemicals; bio-assay apparatus for testing the concentration of chemical substances for non-medical purposes; electronic black boxes for recording data; blood cell analysing apparatus other than for medical use, namely, flow cytometers; blood group analysers other than for medical use, namely, cytometers; electronic computer databases in the fields of bodily fluids, blood analysis and blood testing recorded on computer media; interfaces for computers for clinical use; recorded computer programmes for operating diagnostic machines for testing biological samples; computer programs for testing the concentration of chemicals in substances; computer software for analysing bodily fluids; computer software for operating computer interfaces for clinical use; computer software applications for detecting contaminants in bodily fluids; downloadable electronic data files featuring bodily fluids testing and analysis results and information; data in machine readable form, namely, multi-media software recorded on CD-ROM featuring bodily fluids testing results and analysis; data processing software for bodily fluids testing analysis; data security apparatus, namely, computer malware for protecting computers against unauthorised users; data storage apparatus, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; computer database management programs; downloadable electronic databases in the field of bodily fluids analysis; electronic databases in the field of bodily fluids analysis recorded on computer media; digital liquid analysers; document verification apparatus, namely, computer software for authenticating documents recorded on computer media; electronic security apparatus, other than for vehicles, namely, tamper detection monitoring systems; electronic security devices, other than for vehicles, namely, tamper detection alarms; electronic security tags; electronic time recording apparatus; electronic magnetic data carriers in the form of identity cards; electronically encoded magnetic identity bracelets; electronically encoded identity wristbands; holders specially adapted for laboratory test tubes; instruments for scientific use in treatment of samples before analysis, namely, hand-operated laboratory tools for manipulating laboratory samples; holographic magnetically encoded identity cards; magnetic identity cards, encoded; identity cards, magnetic; magnetic encoded identity cards; magnetically encoded labels for use in marking products for security; labels carrying magnetically, optically, or electronically recorded or encoded information; recorded computer programs for operating laboratory diagnostic equipment; remote data gathering apparatus, namely, computer hardware; remote monitoring apparatus, namely, wireless controllers to monitor the functioning of other electronic laboratory devices; remote processing monitors, namely, computer hardware and software, for use with biological sample monitoring equipment, for processing data; scientific apparatus for diagnostic testing of biological samples, other than for medical use; scientific apparatus for use in analytical tests of bodily fluids, other than for medical use; security apparatus for computers, namely, USB security key; security control apparatus, namely, electronic security token in the nature of a fob-like device used by an authorised user of a computer system to facilitate authentication; security token hardware; encoded self-adhesive labels bearing data in bar code form; specimen collection containers for samples extracted from the body for laboratory use; specimen collection devices, other than for medical use, namely, bottles, jars, tubes and bags; specimen containers other than for medical use, namely, bottles, jars, tubes and bags; specimen samplers, other than for medical use, namely, wipes and swabs for use in diagnostic testing; test apparatus for scientific use, namely, bodily fluids testing instruments for monitoring and detecting contamination; testing kits primarily comprised of specimen collection devices being bottles, jars, tubes and bags and testing strips, not for medical use; scientific testing probes, other than for medical purposes; trace material analysers for testing and detecting contaminants in bodily fluids, other than for medical

use; apparatus for guarding data communication systems against unauthorised access, namely, dongles being computer hardware for preventing the unauthorised use of computer software; information processing apparatus, namely, computers; apparatus for reading bar codes; apparatus for scanning the retina for the security identification of persons, namely, a device using image projection technology that focuses light onto the retina to authenticate the user; apparatus for the recording of images; apparatus for the storage of data, namely, external computer hard drives; apparatus for the transmission of data, namely, wireless communication devices for data transmission; bar code printers; cameras; identification cards comprised of magnetically, optically and electronically recorded and encoded information; identification cards magnetically encoded to access computer software; cards encoded with security features for authentication purposes; cards magnetically encoded with security features for identification purposes; magnetically encoded identification cards for use as data carriers; carriers for bearing data, namely, magnetically encoded identity cards; mobile data terminals; mobile data terminals for the communication of data to a central computer system; mobile data terminals for the entry of data to a central computer system; mobile data terminals for the validation of data; telecommunications data transmitters; downloadable software applications for operating computer user identification and authentication devices; laboratory filters; secure video transmission apparatus; magnetically encoded security passes for identification purposes; security systems, namely, alarm monitoring systems, other than for vehicles; time coding apparatus, namely, time clocks; time data generators, namely, computerised time clock with fingerprint recognition; voice logging apparatus, namely, digital voice recorders; research laboratory analysers for measuring, testing and analysing blood and other bodily fluids, not for medical use; magnetically encoded identification document, namely, blank labels for issuance by sporting organisations; filters used in scientific and forensic apparatus in drug detection processes; imaging apparatus and instruments for use in the study of proteins and peptides in drug development; technical measuring, testing and checking apparatus and instruments for measuring, testing and checking the temperature, pressure, quantity and concentration of gas and liquids; testing sample collection equipment, namely, wipes and swabs for use in diagnostic testing, not for medical purposes; downloadable databases in the field of drug testing; scanner for capturing images for analysis for use in the life science research field; scientific instruments, namely, electronic analysers for testing and analysing chemical and biological substances for the presence, absence, or quantity of drugs or illegal substances; apparatus for testing gas, liquids and solids; software for use with medical devices for monitoring substance abuse

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Advisory services relating to computer software; advisory services relating to computer systems design; analytical services relating to computers, namely, computer system analysis; application service provider services featuring software for use in database management for drug testing and blood sampling; electronic back-up of computer data; computer technology advisory services; computer technology consultancy; computer security consultancy; computer security engineering; data encryption cryptology services; data encryption services; data mining services; data security consultancy; computer data security services; electronic data storage; computer database design; design and development of computer software for others; computer security services, namely, electronic monitoring of personally identifying information to detect identity theft via the internet; hosting of databases, namely, hosting database management software for use by others; hosting of software as a service (saas) featuring software for database management for use in the field of drug testing; testing the functionality of apparatus; monitoring of computer systems by remote access to ensure proper functioning; computer security services, namely, monitoring of computer systems for detecting unauthorised access or data breach; monitoring of computer systems to detect

breakdowns; network security services, namely, testing and assessing the computer risk of electronic computer networks; electronic on-line off-site data backup; online provision of web-based applications, namely, providing on-line non-downloadable software for managing test results for detecting drug and other illegal substances; online provision of web-based software, namely, providing on-line non-downloadable software for compiling and analysing test results for detecting drug and other illegal substances; preparation of scientific reports relating to the design and development computer programs; preparation of scientific reports relating to the design and development computers; remote monitoring of computer systems to ensure proper functioning; rental of computer software; rental of web servers; computer security assessment services for computer networks; computer security risk assessment services relating to computer systems; server hosting; software as a service (saas), namely, hosting software for use by others for use in processing bodily fluid samples in the medical field **International Classes** 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Business training; business personnel training; personnel training; training relating to professional business skills; organization and conducting of educational conferences; publication of training manuals; advisory services in the field of business training

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Business management and organization consultancy; commercial business administration services; business consultancy, information or inquiries; commercial consultancy services for companies relating to provision of a quality management system; business operation assistance for industrial or commercial companies; company business auditing; tracking and monitoring of energy consumption for others for business auditing purposes; management of computer databases and computer files; commercial consultancy services; economic feasibility studies; consultancy services regarding commercial business project management; information relating to statistical evaluation of data obtained through market studies; business administrative, advisory, information, and consultancy services

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Building construction services; information and advice relating to building construction; building construction supervision; all of the foregoing excluding construction of retail and bulk fueling facilities for the industrial, transportation, and petroleum industries

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Telecommunications services, namely, transmission of voice, data, graphics, sound, and video by means of a broadband power line or wireless networks; transmission and exchange of data, information and images by electronic, computer means, and via the Internet; providing multiple use access to global computer information networks for the transfer and dissemination of a wide range of information; electronic data transmission of information held in data and image banks including by digital means; provision of access to computer, electronic and online databases; electronic transmission of data, messages and information; secure electronic transmission of data, particularly with access codes

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Engineering services, particularly provision of technical inspection services with a view to improving security and quality in all fields of economic activity; engineering assessments and scientific research provided by engineers; engineering services, particularly technical project planning and design engineering of business technologies; testing, analysis and evaluation of the services of others to determine conformity with certification standards; engineering services in the field of energy efficiency; quality energy auditing; quality control for others; quality evaluation and analysis, quality assurance and quality control in the field of manufactured goods; auditing relating to energy; building quality control; quality control regarding manufactured goods; quality control of computer systems; quality control of industrial machines; advisory services relating to quality control for others; advisory services relating to quality control for others; design and development of computers and software

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Mixing installations of all kinds, in particular concrete mixing installations, namely, concrete mixers; conveyors for the construction industry, namely, belt conveyors; fixed mountable and convertible machines in the nature of pneumatic pumps, hydraulic pumps, namely, concrete pumps; machines in the nature of pneumatic pumps, hydraulic pumps, namely, concrete pumps for mounting on chassis, vehicles and crawler tracks; concrete distribution booms; crane booms truck-mounted concrete pumps, namely, pneumatic pumps, hydraulic pumps; agitators, namely, agitators for circulating liquid media; mobile agitators, namely, agitators for circulating liquid media; machines for the homogenisation of biomass, in particular in biogas plants, slurry tanks and sewage treatment plants for industrial use; earthmoving equipment of all kinds, in particular hydraulic excavators, two-way excavators, wheel loaders, bulldozers, crawler loaders, cable excavators; piling machine, namely, pile-drivers and drilling rigs, rotary drilling rigs, industrial drills, namely, power drills; work tools being parts of machines and related to machines, namely, hydraulic coupling devices and suspensions for working tools for construction machines; material handling equipment of all kinds, in particular wood handling equipment in the nature of timber handling and moving equipment, hydraulic excavators, telescopic wheel loaders, reachstackers; pipelayers; side boom crawlers; mobile crushers; cranes of all kinds, in particular rotating tower cranes, truck-mounted cranes, deck cranes, container cranes, mobile harbour cranes, crawler cranes, stacker cranes in the nature of reachstackers; gas and diesel engines for combined heat and power plants; machines and machine tools, in particular gear cutting machines, such as gear shaping machines, gear hobbing machines, gear grinding machines and corresponding tools, in particular gear cutting tools, namely, gear grinding machines, gear hobbing machines, gear shaping machines and toothed tools being parts of toothed machines for manufacturing gears, namely, toothed rolling discs, rolling racks, deburring discs, rack type cutters, gear shaper cutters, shaving cutters, hob cutters, form milling cutters, broaching rings, shaper cutter holders, clamping arbors, matrices and stamps for chipless gear production; recycling machines, namely, screw-type and trough-type concrete recycling machines; equipment for material flow

technology, in particular gantry robots in the nature of linear gantries and area gantries, conveyor belts, workpiece and workpiece pallet storage systems in the nature of linear-based pallet handling machines and rotary loading machines; robot cells in the nature of industrial robots for workpiece machining; hydraulic and electromechanical winches; conveyor belts; rotary assemblies for wind turbines; hydraulic flight control units comprised primarily of aircraft-related hydraulic pumps and hydraulic valve actuators for high lift control, rotor actuation, spoiler and horizontal stabilizer trim actuation purpose; parts and accessories for the aforesaid goods, in particular chassis, diesel engines for machines, exhaust after-treatment systems for diesel engines consisting of a particulate trap, diesel-hydraulic hybrid drives for motors; electric motors for machines, engine control units in the nature of hydraulic controls for engines and electronic controls for engines, pneumatic actuators, hydraulic actuators, transmissions for machines, such as pump transfer cases, valves for pumps, cylinders for machines and hydraulic components and equipment, such as masts in the nature of lattice mast cranes and concrete pumps; work tools and attachments, such as power shovels, grabs in the nature of grapples, spoons in the nature of mechanical shovels; hydraulic quick-release systems being industrial machine attachments consisting of couplings, fastenings, and screw fittings for machines made of synthetic materials; quick couplers in the nature of mechanical quick couplers for machines, hydraulic quick couplers for machines, hydraulic quick coupling system combined with an automatic hydraulic coupling system for machines, oscillating tools, hydraulic hammers, pipe grippers; telescopic loaders

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Surveying apparatus, optical apparatus in the nature of optical inspection apparatus, measuring apparatus in the nature of measuring tapes, micrometers for gear measurement, and cut gear gauges, signalling apparatus and checking apparatus and instruments in the nature of supervision apparatus and instruments, in particular gear measuring devices in the nature of measuring tapes, micrometers for gear measurement, and cut gear gauges, distance measuring systems in the nature of distance measuring apparatus, position detection systems in the nature of electronic navigational and positioning apparatus and instruments, measuring tapes, measuring rulers; electronic control systems for mixing installations in the nature of machines; electronic controllers, in particular for all kinds of cranes, earthmoving equipment and machine tools; electronic controls for support systems in the nature of levelling support and ballasting support for construction machines, in particular mobile cranes; engine control units in the nature of electronic control systems for engines; driver assistance systems and their parts, in particular display monitors, cameras; controls and regulators for air-conditioning apparatus and heating systems, converters, namely, electronic controllers and control valves for regulating the flow of gases and liquids for damping systems, electric actuators for tilting systems, electronic controllers and control valves for regulating the flow of gases and liquids for transverse spring centering systems, electronic controllers and control valves for regulating the flow of gases and liquids for special-purpose dampers, and electronic controllers and control valves for regulating the flow of gases and liquids for hydropneumatic suspension systems; computer chassis and bogie controls, namely, electromechanical controls for use in navigating and operating rail vehicles and their freight; downloadable and recorded software and control software for air-conditioning installations and heating systems for rail vehicles; downloadable and recorded software in particular diagnostic software for air-conditioning installations and heating systems for rail vehicles; flight monitoring devices, namely, apparatus for checking flight parameters; flight control devices, namely, computers for managing control devices for aircraft; flight simulators for aircraft; control computers for aircraft equipment systems, in particular actuation systems and air conditioning systems; nose steering systems consisting of computers for managing control devices for aircraft; switching power supply apparatus, sensors

for current, voltage, position and other measurement variables in the nature of electricity; frequency converters for motor control; active power rectifiers with recovery option; capacitor modules for energy buffering; double layer capacitors; battery modules for energy buffering; DC/DC controllers in the nature of controller for controlling electric current; electronic systems and components, namely, apparatus and instruments for conducting, distributing, converting, storing, regulating and controlling of electric current, and electronic control systems for machines; control electronics, namely, electronic controllers for aircrafts, rail vehicles, construction machines, cranes, and mobile cranes; data transmission systems comprising wireless communication devices for data transmission; switchgears, namely, complete switchgear of the control and drive technology of electric current, electric voltage, electric potential, and other electric measurement variables; visualisation systems comprising cameras, video recorders, video monitors, and software for simulating flights, movie, multimedia, slide projectors and flat panel display screens; user interfaces for machine controls, namely, keyboards, electric control panels, and touch screens, in particular for the control of gear cutting machines; moisture analysers, namely, sensors for measuring moisture; instrumentation simulators, namely, simulators for control of vehicles, in particular crane simulators and tracked vehicles simulators; electronic test and measurement devices for use in validating continuously rotating bearings in the fields of wind industry, namely, cable test benches; pocket calculators; downloadable and recorded computer programmes for use in the operation, maintenance and repair of aircraft, rail vehicles, construction machines, cranes, mobile cranes, mixers, mixing installations, earth moving machines, machine tools and mixers for use with cranes of all kinds, earth-moving equipment of all kinds, cargo handling equipment, flight simulators, surveying, optical, measuring, signaling and checking apparatuses, and soil stirring apparatuses; mousepads; spectacles and spectacle cases; test benches, namely, test benches for use in validating continuously rotating bearings in the fields of wind industry; electrical and electronic apparatus, equipment and apparatus for telematic, data processing and telecommunications purposes, namely, computer hardware for telecommunications, telecommunication cables, telecommunication transmitters, telecommunication and data networking hardware, namely, devices for transporting voice, data, and video communications across multiple network infrastructures, cellular telephones, data processors, equipment and apparatus for sending, receiving and transferring information, namely, data processing equipment, namely, data processors and telecommunications computer hardware, cables, towers, switches, base stations, transmitters, electrical transformers, computer terminals for connection to a telephone, cable, satellite and/or telematic network; telematics terminals in the nature of computer terminals, blank recordable DVDs, blank recordable optical discs, blank recordable digital discs for the recording and reproduction of sound, images and signals; computers, microcomputers, computer peripherals, computer memories in the nature of computer memory hardware, modems, interfaces for computers, printers, web consoles, electronic cables, blank recordable videodiscs, blank recordable optical discs, digital discs, laser devices, namely, lasers for industrial use, laser equipment for non-medical purposes, infrared devices, namely, infrared cameras, infrared detection apparatus, infrared thermometers not for medical purposes, ultrasound devices, namely, electronic ultrasound flaw detectors, printed circuits; devices for the collection, saving, recording, processing, storage, transfer, broadcasting, reception and reproduction of digitised or non-digitised information, data, text, sound and images, namely, computer hardware for telecommunications, telecommunication cables, telecommunication transmitters, telecommunication and data networking hardware, namely, devices for transporting voice, data and video communications across multiple network infrastructures, cellular telephones, data processors, computer terminals for connection to a telephone, cable, satellite and/or telematics network, computer terminals, mobile data terminals, telephone terminals, blank electronic storage media for recording or reproduction of sound, images or signals; downloadable and recorded software and hardware for the data technology connection of components in mobile machines, in particular earthmoving machines, cranes and marine machinery,

namely, machine condition monitors and downloadable and recorded software for monitoring individual machine components and whole machine systems; computers, microcomputers and downloadable and recorded software applications for vehicle and fleet management; analysis and diagnostic tools and devices in the nature of computer hardware and peripheral devices for evaluating the operation and faults of mobile machines, in particular earthmoving machines, cranes and marine machinery

GOODS AND SERVICES INFORMATION

For machines for railway construction, repair and maintenance; rail-laying machines; machines and machine tools for installing and replacing railway sleepers; welding machines, namely, electric welding machines; power-operated rail saws; grinding machines for the treatment of metal; drilling machines; ballast tamping machines, namely, machines for packing track ballasts under railway tracks to increase their durability; rail reprofiling machines in the nature of grinding machines; rail polishing machines; machines for installing, removing, tightening and loosening rail fastenings and bolted components therefor; power-operated lifting machines for moving railway pieces, including rails and sleepers; conveyors being machines; hydraulically actuated tools for laying railway lines and sleepers, and for inserting or removing rail fastenings; engines, other than for land vehicles; shaft couplings and drive belts for engines, other than for land vehicles engines; parts, fittings and component part accessories for rail-laying machines, machines and machine tools for installing and replacing railway sleepers, welding machines, rail saws and grinding machines namely, brackets, grapple claws, rotors, gauges, mechanized lifting systems comprised of wrenches, wrench handles, spike pullers and drivers, hooks, hydraulic pumps; power operated safety systems comprised of power units, grinders, safety frames, rollers; and clipping tools, namely, mechanized clipping tools for installing and removing rail fastenings

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Installation, repair, maintenance and routine servicing of railways and railway equipment; installation and repair of railways and railway equipment by means of welding; consultancy and advisory services in relation to railway system construction, servicing, maintenance and repair

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Apparatus and instruments for conveying, distributing, transforming, storing, regulating or controlling electric current; electrical controlling devices for the electrification of railway lines; electric conductor rails; electric cables; protective clothing, namely, clothing for protection against fire, electricity and accidents; electronic measuring and monitoring goods for the railway industry, namely, electronic monitors and monitor modules for monitoring electric rail current and associated electrical signals; electronic equipment for use in condition monitoring in the railway industry, namely, electronic monitors and monitor modules, computer hardware and recorded software system for remotely monitoring railway and train conditions; railway stress gauges in the nature of strain gauges; electronic rail temperature monitors; remote monitoring equipment for the railway industry, namely, wireless communication devices for relaying data about railway and train conditions; data processing equipment for the railway industry, namely, computers; software for the railway industry, namely, software for monitoring, analysing and reporting on railway and train condition; railway signaling equipment, namely, railway signals, train control magnets, mounting systems, anti-trip devices, cable guards, insulators, and signboard supports all for use with railway signals; railway testing, measuring and detection equipment, namely electronic remote condition and fault monitoring equipment capable of detecting wheel flats and bogie hunting, and for monitoring rail temperatures, strain or ground disturbance; magnetic or electronic recording supports, namely, magnetic data carriers being blank; parts, fittings and accessories for electric conductor rails, namely, insulators, brackets, anchors, expansion joints, coextruded rail, covers and cable terminals

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Treatment of materials in the nature of metal; rail grinding services; welding services

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Hand-operated tools for use in installing and removing railway tracks and railway track fastenings

International Classes 8 - Primary Classes **US Classes** 23, 28, 44 **International Class Title** Hand Tools

For Engineering services, namely, analyzing and reporting on data relating to the structural integrity and proper functioning of railways and trains thereon; engineering and systems analysis of data relating to the structural integrity and proper functioning of railways and trains thereon; design and development of computer software for railway and train condition monitoring; providing online non-downloadable software for monitoring the condition of railways and trains thereon; calibration of monitoring and measuring equipment for use in the rail industry; railway engineering consultancy and advisory services concerning the condition monitoring of railways; quality control inspection and quality testing of railways and railway equipment

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Installation, maintenance of electric and electronic apparatus and instruments for measurement, control, testing, regulating and control of sound and vibrations; troubleshooting in the nature of repair of electric and electronic apparatus and instruments for measurement, control, testing, regulating and control of sound and vibrations; upgrading of computer hardware used in or in relation with electric and electronic apparatus and instruments for measurement, control, testing, regulating and control of sound and vibrations

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Computer hardware and computer software for installation, operation, maintenance, troubleshooting, debugging and updating of apparatus for measurement of vibrations, for monitoring and detecting vibrations, namely, vibration meters, electrotechnical vibration meters, sound and vibration analyzers, acoustic analyzers, electroacoustic analyzers, structural dynamic analyzers, data collection amplifiers, conditioning amplifiers, handheld vibration analyzers, sound level meters, noise level meters, acoustic transducers, microphones, sonars, vibration transducers, accelerometers, calibration systems for monitoring and detecting sound volume, quality and frequency and for monitoring and detecting of vibrations; computer hardware and computer software for installation, operation, maintenance, troubleshooting, debugging and updating of electric and electronic apparatus and instruments for measurement, control, testing, regulating and control of sound and vibrations; computer hardware and computer software for installation, operation, maintenance, troubleshooting, debugging and updating of electric apparatus for monitoring machines and detecting of sound volume, quality, frequency and vibration; electronic parts and fittings for the production and operation of the aforementioned goods

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Telecommunication in the form of providing access to communication networks for the exchange of information about, assistance to and advice about installation, operation, maintenance, troubleshooting, debugging and updating of apparatus and instruments for measurement, monitoring and regulating of sound and vibrations

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Scientific and technological services namely, calibration of equipment for acoustic and vibration transducers, sound level meters, sound and vibration recorders and analyzers, vibration shakers; installation of software used to operate and control acoustic and vibration transducers, sound level meters, sound and vibration recorders and analyzers, vibration shakers; measurement and analysis relating to sound and vibration measurement and sound and vibration monitoring; engineering services, namely, technical consultancy relating to assessment and planning of measurement of ambient noise and vibrations, to sound and vibration monitoring and assessment and optimization of sound and vibrations; debugging of computer software programs used in relation to electric and electronic apparatus and instruments for measurement, control, testing, regulating and control of sound and vibrations

GOODS AND SERVICES INFORMATION

For Metal foils for painters, decorators, printers and artists as well as for use in the printing, paper and plastic goods manufacturing and packaging manufacturing industry for decoration purposes and for use in the printing industry for printing and for product decorating and product coating and product finishing; precious metals in foil form, namely, foils of gold leaf and gold foil, particularly for industrial purposes as well as for painters, decorators, printers and artists for printing and for surface decorating and surface coating and surface finishing; aluminum foils, foils of non-ferrous metals, colored metal foils and leaf metals for use by painters, decorators, printers and artists for printing and for surface decorating and surface coating and surface finishing; aluminum foils, foils of non-ferrous metals, colored metal foils and leaf metals for decoration purposes; stamping foils primarily of metal, particularly hot stamping foils and cold stamping foils, for use by painters, decorators, printers and artists as well as for use in the paper and plastic goods manufacturing and packaging manufacturing industry for decoration purposes and for use in the printing industry for printing and for surface decorating and surface coating and surface finishing; stamping foils primarily of metal for use by painters, decorators, printers and artists as well as for use in the paper and plastic goods manufacturing and packaging manufacturing industry for decoration purposes and for use in the printing industry, containing a consumption layer which can be detached during stamping consisting primarily of a metal layer and/or color layer and/or lacquer layer for application onto a substrate; laminating foils primarily of metal for use by painters, decorators, printers and artists as well as for use in the paper and plastic goods manufacturing and packaging manufacturing industry for decoration purposes and for use in the printing industry, containing a metal layer and/or color layer and/or lacquer layer for application onto a substrate; dry lacquers, particularly in foil form and sheet form; color powders in the nature of color pigment powders and powdered paints; powder lacquers

International Classes 2 - Primary Classes **US Classes** 6, 11, 16 **International Class Title** Paints

For Stickers, stamping foils and transfer foils, of plastic or primarily made of plastic for packaging and for printing purposes and for the decoration of packaging and of printed matter; labels of paper and of plastic, not of textiles; self-adhesive labels, not of textiles; stamping foils primarily of plastic for packaging purposes, particularly hot-stamping foils and cold stamping foils, as well as transfer foils, consisting of a carrier layer and a consumption layer which can be detached during stamping for application onto a substrate, whereas the consumption layer particularly contains decoration elements and/or marking elements in the nature of color layers, lacquer layers, metal layers, effects layers optically effective structures, optically active spatial structures, optical diffraction structures, holographic structures or combinations thereof; stamping foils and transfer foils of paper, plastic, and paper combined with metals or other materials; stamping foils with a carrier film of plastic or paper and a consumption layer which can be detached during stamping; stamping foils, hot stamping foils, cold stamping foils, transfer foils and laminating foils, primarily of paper or primarily of plastic for packaging purposes; foils of plastic and primarily of plastic and plastic laminates for packaging purposes; paper, cardboard and goods of these materials, namely, posters, banners, placards, printed signs, advertising signs and in-store display signs, printed advertisement boards, printed certificates, printed deeds and official documents, data sheets, postcards, business cards, containers, badges, folders, printed matter sample, books, index cards; printed matter; namely, calendars, paper signs, books, manuals, curricula, newsletters, catalogues, brochures, charts, leaflets, flyers, hand-outs and informational cards and brochures in the fields of advertisement, marketing, product design and packaging design and corporate identity as well as concerning decoration, finishing and the protection against forgery of goods, printed products, documents and packaging, concerning authentication and identification of goods, documents and persons as well as concerning industrial methods and processes for these fields; printed material, namely, newsletters, flyers, press releases, newspapers, journals, magazines, brochures, handbooks, books, prospectuses and catalogues in the fields of advertisement, marketing, product design and packaging design and corporate identity as well as concerning decoration, finishing and the protection against forgery of goods, printed products, documents and packaging, concerning authentication and identification of goods, documents and persons as well as concerning industrial methods and processes for these fields; printed instructional and teaching materials in the field of advertisement, marketing, product design and packaging design and corporate identity as well as concerning decoration, finishing and the protection against forgery of goods, printed products, documents and packaging, concerning authentication and identification of goods, documents and persons as well as concerning industrial methods and processes for these fields; packaging materials of paper and plastics printed matter made of paper and plastic and metals in form of books, cards, folders, pads, rolls, strips, fans, boxes and charts, each consisting of foil samples, color samples, printed product samples, packaging samples, printed products surface decoration design samples and printed product surface structure design samples; printers' type; printing blocks; matrices and patrixes for use in printing, stamping and embossing

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Collecting, compiling, organizing, updating and maintenance of data and information in computer databases, particularly of newsletters, press releases, advertisement, publications, of information and data in the fields of advertisement, marketing, product design and packaging design and corporate identity, decoration, finishing and the protection against forgery of goods, printed products, documents and packaging, concerning authentication and identification of goods, documents and persons, as well as concerning industrial manufacturing methods and industrial manufacturing processes for the aforementioned fields; file

management by means of computers; business inquiries; business consulting; business management consulting; advertisement services; marketing services; consulting services in the fields of advertisement, marketing, product design and packaging design and corporate identity, and distribution of advertising materials, brochures, leaflets, catalogues, magazines, reports and newsletters, flyers, press releases, newspapers, journals, handbooks, books, prospectuses, manuals, newsletters, charts, hand-outs and informational cards and publicity materials in these fields; publishing and issuing of advertising texts, namely, publishing and issuing of printed matter and electronic publications for advertisement purposes; composing, issuing and updating of advertisement texts; composing, issuing and updating of advertising texts and publicity texts and advertising and marketing and publicity content for marketing purposes and/or advertisement purposes, particularly for Internet pages, newsletters and blogs; composing, issuing and updating of advertorials and other advertising, publicity and marketing texts and content in the fields of advertisement, marketing, product design and packaging design and corporate identity as well as concerning decoration, finishing and the protection against forgery of goods, printed products, documents and packaging, concerning authentication and identification of goods, documents and persons as well as concerning industrial methods and processes for these fields, with content that is also editorial, which primarily serve advertisement purposes and/or marketing purposes, particularly for internet pages, newsletters and blogs; advertisement and marketing services provided by means of blogs, newsletters and Internet pages and Internet portals as well as consulting services related thereto; business administration services in the field of business and data file administration of Internet communities; providing office functions, namely, collecting and compiling of press releases and of topic-related press articles for marketing, business and commercial purposes; preparation of commercial, business and marketing reports about projects concerning advertisement, marketing, product design and packaging design and corporate identity as well as concerning decoration, finishing and the protection against forgery of goods, printed products, documents and packaging, concerning authentication and identification of goods, documents and persons as well as concerning industrial manufacturing methods and industrial manufacturing processes for the aforementioned fields; providing business consulting services, advertisement and marketing consulting services, consumer and business information services and advertisement services via an information platform, communication platform, advertisement platform as well as promotion platform, particularly concerning advertisement, marketing, product design and packaging design and corporate identity as well as concerning decoration, finishing and the protection against forgery of goods, printed products, documents and packaging, concerning authentication and identification of goods, documents and persons as well as concerning industrial manufacturing methods and industrial manufacturing processes for the aforementioned fields

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Pre-recorded magnetic, optical and electronic data carriers containing identification information and data authentication information and data, in the form of foils, foil strips, foil patches, stickers, labels, bands, threads, discs, tokens, cards and images with magnetic, optical and electrically conductive structures, with optically active spatial structures, optical diffraction structures, holographic structures or combinations thereof for use as identification means or authentication means; security foils for certifying the authenticity of banknotes, persons, goods, documents, payment means or money replacement means, containing encodings in form of optical security features, security feature carriers in form of foils with tamper-proof magnetic, optical or electric structures, and security labelings in form of labels with tamper-proof magnetic, optical or electric structures; pre-recorded magnetic, optical and electronic data carriers containing identification information and data and authentication information and data, for identification, authentication and money replacement purposes, that are encoded or provided with

optical security structures, in the nature of optically effective spatial structures, optical diffraction structures, holographic structures or combinations thereof, in form of chips, cards, discs, magnetic disks, stamps, plates, tokens, bands as well as sheets and foils of plastic, synthetic materials, paper or metal; magnetic, optical and electronic data carriers carrying magnetically, optically and electronically recorded and encoded identification and authentication information in the form of stable sheaths of plastics, except for packaging purposes, stamping foils, namely, hot stamping foils and laminating foils, also in form of bands or patches, all afore- mentioned goods as encoding means with optically active spatial structures, optical diffraction structures, holographic structures, magnetic structures, electrically conductive structures, electronic circuits or combinations thereof; electronic security tags and labels for goods; optically effective security elements in the form of foils or semi-finished plastics containing optical diffraction patterns, diffraction structures, diffractive patterns, holographic structures and other optically effective structures and/or functional surface structures, for use as encoded security elements for certifying the authenticity of banknotes, persons, goods, documents, payment means or money replacement means, particularly adapted for the integration into the surfaces of goods, packaging, containers, semi-finished goods, workpieces and substrates; pre-recorded magnetic and optical and electronic data carriers featuring identification information and data and authentication information and data; computer database software and client software for authorizing access to databases; computer software for tracking and tracing of goods and documents as well as for checking and validating and verification of the authenticity of goods and documents, and for identity verification; downloadable computer software for decrypting and encrypting of information and data; computer software and client software for the administration of and enabling the access to online forums, virtual social networks as well as for newsletters and news; downloadable electronic documentations and publications in the field of advertisement, marketing, product design and packaging design and corporate identity as well as concerning decoration, finishing and the protection against forgery of goods, printed products, documents and packaging, concerning authentication and identification of goods, documents and persons as well as concerning industrial methods and processes for these fields; downloadable electronic newsletters and magazines and documentations provided via a website in the field of advertisement, marketing, product design and packaging design and corporate identity as well as concerning decoration, finishing and the protection against forgery of goods, printed products, documents and packaging, concerning authentication and identification of goods, documents and person as well as concerning industrial methods and processes for these fields; downloadable electronic information, in the nature of sales and advertisement texts and pictures and videos, press releases and commentaries in the aforementioned fields; electronic publications, namely, e- zines, e-books, manuals, leaflets, quick-reference charts, brochures, catalogues, price-lists and flyers in the fields of advertisement, marketing, product design and packaging design and corporate identity as well as concerning decoration, finishing and the protection against forgery of goods, printed products, documents and packaging, concerning authentication an identification of goods, documents and persons as well as concerning industrial methods and processes for these fields

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Semi-finished goods of plastics or primarily of plastics, for the manufacture of stickers and labels; semi-finished goods of plastics or primarily of plasticsin form of laminate foils; semi-finished goods of plastics or primarily of plastics in form of foils; semi-finished goods of plastics or primarily of plastics in form of stamping foils, transfer foils, thermal transfer foils and laminating foils; semi- finished goods of plastics or primarily of plastics in form of stamping foils, not for packaging purposes, particularly hot stamping foils or cold stamping foils, comprising a carrier film and a consumption layer which can be detached

during stamping and applied onto a substrate; semi-finished goods of plastics or primarily of plastics in form of stamping foils of plastic and of plastic in combination with metals; laminating foils primarily of plastic, not for packaging purposes, with a carrier film for laminating onto a substrate, whereas the carrier film particularly contains decoration elements and/or marking elements; in the nature of color layers, lacquer layers, metal layers, effect layers, optically effective structures, optically active spatial structures, optical diffraction structures, holographic structures or combinations thereof; semi-finished goods of plastics or primarily of plastics in form of thin foils with a carrier film of plastic and a decor layer for decorating various articles by means of hot stamping; semi-finished products of plastic or primarily of plastic in the form of foils, rods, sheets, rolls, bands, patches, labels, plates, sheetings, covers, housings for industrial purposes for use in industrial manufacturing of products and the product decorating and product coating and product finishing; semi-finished artificial resins and synthetic resins

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Technological consultancy in the field of surface decoration and surface coating, particularly by means of stamping foils, transfer foils and laminating foils; technological consultancy in the field of plastics treatment and plastics processing; technological consultancy in the field of paper processing and foil processing; technological consultancy in the field of the transfer of patterns, decors, structures and/or functional surface structures onto substrates; technological consultancy in the field of stamping machines and stamping processes, packaging machines and printing machines and printing processes; services of an industrial designer, particularly concerning foil composition and structure and foil design as well as concerning surface decoration and/or surface coating; product design in the field of printed matter and printed products, consumer products, entertainment electronics products, electronic consumer goods, vehicle parts, decorative trims and elements, and packaging design as well as technological consultancy and design consultancy related thereto; technological consultancy and services of an engineer in the field of foil technology and surface decoration and/or surface coating by means of foils, particularly by means of stamping foils, transfer foils and laminating foils; technological consultancy and services of an engineer in the field of foil processing and concerning foil application onto articles and substrates; technical development and technical project management, namely, technological consultancy in the field of set-up, installation, configuration, use and operation of machines for the graphics industry, stamping machines, foil processing machines, feeding mechanisms and carrying-off mechanisms, material preparation mechanisms, foil preparation mechanisms, foil overlaying machines, sealing machines, packaging machines, labeling machines, printing machines, laminating machines, laminating machines and of components and controls for such machines; technical development and technical project management, namely, technological consultancy in the field of installation, configuration and use of plants and installations and apparatus of industrial automation technology; installation, maintenance and support of firmware and of control programs for machines; development and creation, updating and maintenance of computer programs for data processing, particularly with respect to databases; electronic data storage; technological consultancy and information services and design consulting and design information services, in the field of advertisement, marketing, product design and packaging design and corporate identity as well as concerning decoration, finishing and the protection against forgery of goods, printed products, documents and packaging, concerning authentication and identification of goods, printed products, documents and packaging, concerning authentication and identification of goods, documents and persons as well as concerning industrial methods and processes; these consultancy and information services are provided via the Internet by means of an Internet website which is an information platform, communication platform, advertisement platform as well as promotion platform; technological consultancy and product and

packaging design consultancy in the field of industrial manufacturing of products and the product decorating and product coating and product finishing featuring design samples, foil samples and foil sample compilations as well as compilations of samples of printed products, of sample cards, sample books and sample fans, and sample charts, which are issued and distributed for the purpose of technological consultancy and design consultancy

Foreign Registration Number VR201701296 **Foreign Registration Date** Jun. 19, 2017 **Foreign Application/ Registration County** DENMARK **Foreign Expiration Date** Jun. 19, 2027

GOODS AND SERVICES INFORMATION

For Ceiling panels of mineral fibres; non-metal cladding in the nature of mineral wool boards for use in building; non-metal roof vents comprised of mineral wool boards for ventilation of residential and commercial buildings, non-metal roof flashing comprised of mineral wool boards, non-metal construction materials, namely, soffits and fascias comprised of mineral wool boards; non-metal building materials, namely, wall, floor and ceiling panels made of mineral wool and mineral wool fibres; processed mineral fibres for use in asphalt-based sealants; processed mineral fibres for use in bitumen-based sealants for roofing; processed mineral fibres for use in tar-based sealants for roofing; non-metal building materials for use in the construction of fencing containing processed mineral fibres, namely, stone wall slabs; and non-metal building materials for use in the construction of roads and railway tracks, namely, processed mineral fibres sold as components for non-metal rail tracks containing vibration control materials and sold as components of road asphalt

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For Chemical preparations comprised of processed mineral fibres for use in the manufacture of building cement and plaster

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Insulating materials of mineral wool; packing, stopping and insulating materials; insulating material in the nature of insulation strips, felt, mats, boards, slatted mats, and shaped insulation panels and acoustic insulation for use in insulation and sealing against heat, cold, fire, sound, vibrations, light, humidity, moisture, damp, or vapour; acoustic and thermal insulating material; acoustical and thermal insulators; insulation barrier panels and laminated vapor barriers; insulation in the form of floor, wall and roof coverings; insulating material in the nature of matting comprised of mineral wool fibres; electric, thermal and acoustic insulators comprised of mineral wool and fibres insulators; processed mineral fibres for use in the manufacture of sealant for construction joints and gaps in walls and ceilings and non-metal gaskets in the automotive and building industry; processed mineral fibres for use in the manufacture of expansion joint fillers; insulating materials, namely, insulating boards of extruded mineral wool shells in the nature of exterior cladding, insulating blankets made of mineral wool, insulating stucco made of mineral wool, insulating felt made of mineral wool, loose or semi-finished granulated insulating material made of mineral wool, and loose or semi-finished granulated insulating material made of mineral wool fibres, all of the foregoing for use in the manufacture of reinforcing and filling materials for insulating materials; insulating materials comprised of mineral wool fibres for use in sealing and gasketing applications in the automotive and building industry; electrical insulating materials in the nature of boards; processed mineral fibres for use in friction materials in the automotive industry; insulating materials comprised of mineral wool for use in building

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Building materials of metal, namely, grids of metal; ceiling systems of metal for attaching ceiling panels comprised of grids, furring, hooks, clips and wires

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

GOODS AND SERVICES INFORMATION

For Repair and maintenance of electric and electronic security apparatus, closed circuit television cameras, monitoring, imaging, telemetry, security, alarm, detection, intruder and warning apparatus and instruments; Repair and maintenance of video surveillance systems, video imaging hardware systems, video multiplexing apparatus, video cameras for surveillance installations, cameras, fire prevention hardware systems, video smoke detection hardware systems, video flame detection hardware systems, video cameras for closed circuit surveillance; Repair and maintenance of apparatus for digitising, recording and distributing video signals across computer networks; advisory, consultancy and information services relating to the aforesaid

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Electric and electronic security apparatus, namely, digital video recorders, network video recorders, cameras, video cameras, video camera domes, integrated video cameras, closed circuit television network switches, network video recording servers, video servers, media servers, hybrid video servers, high definition video servers, analytical video cameras and digital video cameras, thermal imaging cameras and thermal imaging video cameras, telemetry receivers and transmitters, automatic number plate recognition cameras, video recorders and digital video media streaming devices; closed circuit television

cameras; monitoring, imaging, telemetry, security, alarm, detection, intruder and warning apparatus and instruments, namely, digital video recorders, network video recorders, cameras, video cameras, video camera domes, integrated video cameras, closed circuit television network switches, network video recording servers, video servers, media servers, hybrid video servers, high definition video servers, analytical video cameras and digital video cameras, thermal imaging cameras and thermal imaging video cameras, telemetry receivers and transmitters, automatic number plate recognition cameras, video recorders and digital video media streaming devices; video surveillance systems comprised of digital video recorders, network video recorders, cameras, video cameras, video camera domes, integrated video cameras, closed circuit television network switches, network video recording servers, video servers, media servers, hybrid video servers, high definition video servers, analytical video cameras and digital video cameras, thermal imaging cameras and thermal imaging video cameras, telemetry receivers and transmitters, automatic number plate recognition cameras, video recorders and digital video media streaming devices; video imaging systems comprised of digital video recorders, network video recorders, cameras, video cameras, video camera domes, integrated video cameras, closed circuit television network switches, network video recording servers, video servers, media servers, hybrid video servers, high definition video servers, analytical video cameras and digital video cameras, thermal imaging cameras and thermal imaging video cameras, telemetry receivers and transmitters, automatic number plate recognition cameras, video recorders and digital video media streaming devices; video multiplexers; video cameras for surveillance installations; cameras; fire prevention systems comprised of digital video recorders, network video recorders, cameras, video cameras, video camera domes, integrated video cameras, closed circuit television network switches, network video recording servers, video servers, media servers, hybrid video servers, high definition video servers, analytical video cameras and digital video cameras, thermal imaging cameras and thermal imaging video cameras, telemetry receivers and transmitters, automatic number plate recognition cameras, video recorders and digital video media streaming devices; video smoke detection systems, namely, digital video recorders, network video recorders, cameras, video cameras, video camera domes, integrated video cameras, closed circuit television network switches, network video recording servers, video servers, media servers, hybrid video servers, high definition video servers, analytical video cameras and digital video cameras, thermal imaging cameras and thermal imaging video cameras, telemetry receivers and transmitters, automatic number plate recognition cameras, video recorders and digital video media streaming devices; video flame detection systems comprised of digital video recorders, network video recorders, cameras, video cameras, video camera domes, integrated video cameras, closed circuit television network switches, network video recording servers, video servers, media servers, hybrid video servers, high definition video servers, analytical video cameras and digital video cameras, thermal imaging cameras and thermal imaging video cameras, telemetry receivers and transmitters, automatic number plate recognition cameras, video recorders and digital video media streaming devices; video cameras for closed circuit surveillance; apparatus for digitizing, recording and distributing video signals across computer networks, namely, digital video recorders, network video recorders, cameras, video cameras, video camera domes, integrated video cameras, closed circuit television network switches, network video recording servers, video servers, media servers, hybrid video servers, high definition video servers, analytical video cameras and digital video cameras, thermal imaging cameras and thermal imaging video cameras, telemetry receivers and transmitters, automatic number plate recognition cameras, video recorders and digital video media streaming devices; structural parts for all of the foregoing; computer hardware; computer software relating to all of the foregoing for use in the operation and the integration of the aforesaid with other products; firmware relating to all of the foregoing for operation of the aforesaid

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Monitoring security alarm system services and surveillance; advisory, consultancy and information services relating to the aforesaid

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Maintenance of computer software relating to electric and electronic security apparatus, closed circuit television cameras, monitoring, imaging, telemetry, security, alarm, detection, intruder and warning apparatus and instruments; Maintenance of computer software relating to video surveillance systems, video imaging systems, video multiplexing apparatus, video cameras for surveillance installations, cameras, fire prevention systems, video smoke detection systems, video flame detection systems, video cameras for closed circuit surveillance; Maintenance of computer software relating to apparatus for digitising, recording and distributing video signals across computer networks; advisory, consultancy and information services relating to the aforesaid

GOODS AND SERVICES INFORMATION

For Structural parts for automobiles; Land vehicle drivetrain parts, namely, transmission mounts, drive shaft supports, bearings, clutch kits, flywheels, and shifters; Steering and suspension systems and parts for steering and suspension systems for land vehicles, namely, springs, struts, sway bars, ball joints, control arms, trailing arms, toe arms, bushing kits, bushings, tie rod ends, sleeves, idler arms, end links, and stabilizer kits; Land vehicle brake parts and accessories, namely, brake hoses, brake rotors, brake calipers, and brake brackets; License plate frames; all of the foregoing for high-performance luxury automobiles and not for bicycles (including electronic bikes), motorcycles, two-wheeled vehicles, ATVs, UTVs, and/or snowmobiles

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles **First Use** Jul. 2014 **In Commerce** Jul. 2014 **Used Anywhere in Another Form** The mark was first used anywhere in a different form other than that sought to be registered at least as early as 12/18/2005. **Used in Commerce in Another Form** The mark was first used in commerce in a different form other than that sought to be registered at least as early as 12/18/2005.

For Online retail store services featuring automobile parts and accessories, automotive performance tuning kits and software, clothing, sunglasses, lanyards, decals, glassware, insulating sleeve holders for beverage bottles and cans, and bottle openers; Retail store services featuring automobile parts and accessories, automotive performance tuning kits and software, clothing, sunglasses, lanyards, decals, glassware, insulating sleeve holders for beverage bottles and cans, and bottle openers

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business **First Use** Jul. 2014 **In Commerce** Jul. 2014 **Used Anywhere in Another Form** The mark was first used anywhere in a different form other than that sought to be registered at least as early as 12/18/2005. **Used in Commerce in**

Another Form The mark was first used in commerce in a different form other than that sought to be registered at least as early as 12/18/2005.

For Electronic wiring harnesses for automobiles; Electronic controllers being engine control units; Thermostats, electric connectors, fuses, electric coils, electric relays, and circuit breakers, all for use in land vehicles; Performance tuning computer chips and software programs for increasing power, performance and fuel efficiency in land vehicles; Performance tuning software for increasing power, performance and fuel efficiency in land vehicles; Sensors for land vehicles, namely, oxygen sensors, air sensors and temperature sensors; Sunglasses

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus **First Use** Jul. 2014 **In Commerce** Jul. 2014 **Used Anywhere in Another Form** The mark was first used anywhere in a different form other than that sought to be registered at least as early as 12/18/2005. **Used in Commerce in Another Form** The mark was first used in commerce in a different form other than that sought to be registered at least as early as 12/18/2005.

GOODS AND SERVICES INFORMATION

For Business management analysis; business consultancy; compilation and systematization of information into computer database

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Installation, maintenance and repair of audio-visual machines and apparatus, computers, telecommunication machines and apparatus, industrial machines and apparatus, manufacturing machines and apparatus, welding machines and apparatus

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Video cameras for security surveillance, for identification of persons and things for use in tracking and reporting location information; computers for managing industrial, manufacturing, business, transportation, and health care facilities; facilities security systems, namely, computer hardware, security cameras, alarm sensors, security alarm controllers, alarm central units, video monitors, software for face recognition, software for controlling and managing security systems; tablet computers; computer software for use in the transmission and sharing of data, information, and audio and video data and information between devices in order to enable monitoring, control, and automation of connected devices in the field of the internet of things; computer software to monitor and control factory manufacturing processes; computer software for database management; database management software in the field of location tracking and information; intelligent security and

surveillance systems, namely, computer hardware and software for image recognition for security and surveillance; computer software for remote monitoring and analysis of personnel, assets and operations for business, industrial facilities, manufacturing facilities, transportation facilities, health care facilities; software for ensuring the security of electronic mail, and for managing indoor and outdoor security; security token hardware; software platform for use in asset optimization, industrial automation, machine diagnostics, and optimization of industrial, healthcare, manufacturing and infrastructure management processes; computer software for collecting and distributing data within computer networks and enabling data communication among application programs, consumer electronic devices and industrial devices; computer software for use in authenticating, issuing and validating digital certificates; computer software to integrate managed security services, namely, public key infrastructure (PKI) services, digital certificate issuance, verification, management and enterprise software integration, with existing communications networks, software and services

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Telecommunication services, namely, transmission of voice, data, graphics, sound and video by means of broadband power line or wireless networks; communications by computer terminals; Providing access to electronic databases; providing telecommunications connections to a global computer network

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Monitoring of computer systems by remote access to ensure proper functioning; software as a service featuring software for use in ensuring security of internet access; platform as a service (PAAS) featuring computer software platforms for use in image recognition, sound recognition, voice recognition, internet security, transmission of data, data mining, data query, data analysis and visualizing data; software as a service (SAAS) services featuring software for use in image recognition, sound recognition, voice recognition, internet security, transmission of data, data mining, data query, data analysis and visualizing data; software as a service for use in image recognition, sound recognition, voice recognition, internet security, transmission of data, data mining, data query, data analysis and visualizing data; rental of electronic memory space on the Internet; Installation, maintenance, and updating of computer software; issuance and management of digital certificates for authentication or encryption of a digital communication, or authentication of a digital signature in an electronic transaction or communication, over the Internet and other computer network and providing technical and customer support in connection therewith

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Electric welding machines; industrial robots; electric soldering machines; computer chip mounting machines; industrial surface treatment equipment, namely, plasma washing machines; electric arc welding machines; precision machine tools, namely, metal cutting machines by use of arc, gas or plasma; welding electrodes; power-operated electronic component placement machines; power-operated electronic component insertion machines; electric soldering paste printing machines; micro soldering machines; power-operated adhesive dispensing machines for electronic component placement; power-operated electronic component feeding machines; electronic die bonding machines; flip chip bonding machines for semiconductors; electronic machines for assembling flat panel displays; electronic dry etching machines; laser processing machines; CO2 laser oscillator machines for soldering, jointing and processing; electronic wafer dicing machines; machines for producing chemical fiber; mixing machines; cutting machines; food mixing machines; food cutting machines for commercial use; food cutting machines for household use; food chopping machines for commercial use; food chopping machines for household use; electric hand mixers; electric food processors; electric coffee mills; electric food blenders; electric juicers; electric meat grinders; vending machines; multi-function 3D printers

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Lighting apparatus, namely, lighting installations; electric light bulbs; incandescent lamps; miniature light bulbs; discharge lamps; film and theatrical stage lighting apparatus; wall lights; ceiling lights; germicidal lamps for purifying air; chandeliers; down lights; sockets for electric lights; spotlights; safety lamps; light diffusers; searchlights; bicycle lights; electric fans; air-conditioning, air cooling and ventilating apparatus and instruments; dehumidifiers; humidifiers; ceiling fans; ventilating fans for commercial use; electrostatic precipitators for cleaning air; electric air blowers for air conditioning or ventilating; air purifying apparatus and machines; filters for air purifiers; range hoods; water heaters; heat pumps; ventilation hoods; electric kettles; electric cooking pots; electric pressure cookers; electric rice cookers; electric rice warmers; electric food warmers; electric ice cream makers; electric cooking stoves; gas cookers; electromagnetic induction cookers; electric cookers in the nature of pressure cookers; electric cooling pans for food; refrigerators; freezers; hot and cold water dispensers, temperature controlled water dispensers, water dispensers in the nature of faucets; water coolers; ice making machines; electric cool boxes for food; refrigerating display cabinets; refrigerating showcases; freezing showcases; air filtering installations; installations for air heating; air conditioners; air conditioners for vehicles; air filters for air conditioners; electrically heated carpets; electric space heaters; electric blankets, not for medical purposes; electric radiant heaters; hot-water space heating apparatus; electric heating apparatus, namely, electric heating fans; electric foot warmers in the nature of foot muffs; floor heating apparatus; heaters for vehicles; electric water heaters; gas fired water heaters; gas water heaters; water supply installations, namely, sinks, faucets, cold and hot water mixing taps, faucet control valves, automatic faucets, faucet sprayers, mixer faucets for hot and cold water pipes, water purifiers and filters; electric water boilers

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Installation, maintenance and repair of AV machines and apparatus, computers, telecommunication machines and apparatus, industrial machines and apparatus, manufacturing machines and apparatus, welding machines and apparatus, and measuring machines and apparatus; installation, repair or maintenance of electric appliances; installation, repair or maintenance of lighting apparatus; installation, repair or maintenance of measuring apparatus and instruments; installation, repair or maintenance of testing apparatus and instruments; installation, repair or maintenance of water heaters; installation, repair or maintenance of air-conditioning apparatus; installation, repair or maintenance of machinery; installation, repair or maintenance of electronic apparatus; installation, repair or maintenance of freezing machines and apparatus; Installation, repair or maintenance of industrial machinery; Installation, repair or maintenance of manufacturing machines and apparatus; consultancy relating to the repair or maintenance of measuring and testing machines and instruments; providing information relating to the repair or maintenance of measuring and testing machines and instruments; Maintenance and repair of buildings; building construction supervision; maintenance of computer hardware systems for energy management and monitoring

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Cameras; digital still cameras; optical lenses; aspherical lenses; camcorders; camcorders for professional use; liquid crystal displays; wireless liquid crystal displays; digital signage monitors; digital light processing projectors; LCD projectors; lenses for LCD projectors; lenses for digital light processing projectors; lamps for LCD projectors; lamps for digital light processing projectors; SD (secure digital) memory cards; IC memory cards; blank optical discs; data processing equipment, namely, computers; computers and computer peripheral devices; tablet computers; telecommunication apparatus for video teleconferencing transmitter units; computer software for video teleconferencing; OFDM (orthogonal frequency division

multiplexing) modulators for in-building; optical disc recorders; optical disc players; optical disc changers; optical disc players, recorders, and drives and parts thereof; IC memory and hard disc players and recorders; microphones; wireless microphone systems consisting of wireless microphones, wireless transmitters, wireless powered speakers, wireless receivers, wireless amplifiers, diversity tuners; digital audio broadcast machines and apparatus for in-building; apparatus for broadcasting, recording, transmission or reproduction of sound or images; amplifiers; power amplifiers; video switchers; video mixers; digital audiovisual mixers; cable television systems comprising set-top boxes; CATV digital set top boxes; surveillance cameras; network cameras; communication and surveillance systems for apartments and condominium buildings, namely, hardware and software for use in communication and surveillance in apartments and condominium buildings; digital video recorders; video recorders for professional use; network disk recorders; IP telephones; telephones; PLC (power line communication) adapters; electronic blackboards; electronic whiteboards; image scanners; multi-function document printers; facsimile transceivers; bar code readers; bar code scanners; portable data terminals; thermal printers; electronic cash registers; POS (point of sales) systems comprising point-of-sale terminals, bar code readers, optical readers, advertisement display monitors, keyboards, printers, scanners, radio transmitters, radio receivers, computer hardware, and computer operating software; terminal for POS (point of sales) systems; electronic card readers and writers; card readers for credit cards; multi-functional electronic payment terminals; computer operating software for use with medical and beauty care apparatus; computer software for use in customer relationship management; computer servers; batteries; electric accumulators; solar batteries; electric converters; solar panels for electricity generation; electric wiring devices with sensors, namely, thermosensitive switches, illuminance sensor switches and infrared sensor switches; electrical connectors; electric switches; electric sockets; dimmer switches; time switches; magnetic switches; light dimmer control switches; switchboards; electric switch boxes; electric cables; electricity conduits; electrical ducts; electric cable racks; lighting ballasts; circuit breakers; electromagnetic switches; electric circuit protectors; thermal surge protectors; power distributing boxes; electrical outlets; power strips; current converters; electrical outlet covers; electrical outlet plates; antennas; aerials; power distribution boards; electric power monitoring units; electric control panels; electronic indicator panels; electrical terminators, electrical terminal boxes; indicator lights; signaling lamps in the nature of rotating lights; modular jacks for telephones; electrical adaptors; power adapters; earth terminals; electrical power extension cords; modular jacks for networks; warning apparatus and instruments, namely, emergency warning lights; video intercoms; intercoms; gas leak alarms; anti-theft warning apparatus, namely, theft alarms, burglar alarms; electronic glass break detectors; passive infrared detectors; infrared detectors; electric door chimes; radio receivers and transmitters; electric buzzers; fire alarms; fire and smoke detectors; emergency alarms; electric warning lights; emergency signaling lights; emergency warning lights; electric locks; illuminated exit signs; optical fiber cables; apparatus for distributing or controlling electricity, namely, electronic display interfaces, electricity distribution consoles; electric power controllers; electric power distributors; motion sensitive security lights

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Communications by computer terminals; communications by cellular phones; computer aided transmission of messages and images; electronic bulletin board services; information about telecommunication; electronic message sending; providing telecommunications connections to a global computer network; providing user access to global computer networks; radio communications; rental of modems; rental of telecommunication equipment; transmission of digital files; data transmission and telecommunication services, namely, electronic data transmission; electronic and digital transmission of voice, data,

images, signals and messages; electronic transmission and streaming of digital media content for others via global and local computer networks; electronic transmission of audio, video and other data and documents among computers; electronic transmission of encrypted data; electronic transmission of sound, images and other data and information of all kinds via the Internet; consultancy relating to communications by computer terminals; consultancy, information and advisory services in the field of telecommunications; telecommunication consultation in the nature of technical consultation in the field of data communications and telecommunications; telecommunication services, namely, transmission of voice, data, graphics, sound and video by means of broadband power line or wireless networks

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Computer services, namely, cloud hosting provider services; computer software design, computer programming, and maintenance of computer software; consultancy relating to design, programming and maintenance of computer software; computer software design; creating and maintaining web sites for others; hosting the websites of others; maintenance of computer software; monitoring of computer systems by remote access to ensure proper functioning; rental of computer software; rental of web servers; consultancy in connection with design and development of hardware and software for connection to, management of, operating and using computer networks; technical consultancy relating to the design of computer hardware, software and computer peripherals; computer technology consultancy; software as a service (SAAS) services featuring operating software for use with medical and beauty care apparatus; software as a service (SAAS) services featuring software for use in customer relationship management; providing a web hosting platform for providing multimedia entertainment; providing a web hosting platform for customer relationship management; providing a web hosting platform for retail inventory management; technical support services relating to computer software, telecommunications and the Internet, namely, troubleshooting of computer software problems, technical administration of servers for others and troubleshooting in the nature of diagnosing server problems; installation, maintenance and repair of computer software; design, development and maintenance of computer software systems and software for energy management and monitoring; software as a service (SAAS) services featuring software for energy management and monitoring; conducting engineering surveys on energy consumption and providing information thereof; technological consultancy and information in the field of energy saving and efficiency; designing websites for others; engineering design services; industrial design; technical verification and validation of computer networks; testing and analysis of network connection to ensure proper functioning; design of building interiors and exteriors; monitoring of computer systems by remote access to ensure proper functioning; software as a service (SAAS) services featuring software for use in ensuring security of internet access; rental of electronic memory space on the Internet; installation, maintenance, and updating of computer software; issuance and management of digital certificates for authentication or encryption of a digital communication, or authentication of a digital signature in an electronic transaction or communication, over the Internet and other computer network and providing technical and customer support in connection therewith, namely, troubleshooting of computer software problems; monitoring of computer systems for detecting unauthorized access or data breach; research and development of new products for others

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a cartoon style duck. The duck has its bill open, its eyes have big pupils that appear to be shining, and it has eyebrows. The duck is wearing a striped firefighter's coat, boots, and an old-fashioned firefighter's hat with a brim. The hat has an emblem with the letters "RD" on it. The duck is holding a broom, which crosses its body at an angle. The duck's tail is visible, and the duck is grasping the broom with its wing as if the wing were a hand. **Color Claimed** Color is not claimed as a feature of the mark.

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a logo comprised of a symbol, a word mark, and a tag line. The symbol is a group of four hollow tear drop shapes with their points facing the center to form a cross. The complete shape is divided into 4 sections from top to bottom so that each tear drop is split into two sections of different color. The colors of the outlines of the tear drops are red and orange in the uppermost tear drop, yellow and green in the two middle tear drops, and blue and purple in the lowest tear drop. The center area of each tear drop is white. To the right of the design is the word portion of the mark, with the large, stylized wording "PROGYNY" in lower case, dark gray letters. Below "PROGYNY" is the tag line, "SMARTER FERTILITY BENEFITS FOR EVERYONE" split into two pieces; "SMARTER FERTILITY BENEFITS" is set in stylized dark gray letters, and "FOR EVERYONE" is set in stylized, magenta, cursive lettering. "FOR EVERYONE" is positioned below, slightly to the right of, and on an angle relative to, "SMARTER FERTILITY BENEFITS". **Color Drawing** Yes **Color Claimed** The color(s) red, orange, yellow, green, blue, purple, dark gray, magenta, and white is/are claimed as a feature of the mark. **Disclaimer** "SMARTER FERTILITY BENEFITS FOR EVERYONE"
