GOODS AND SERVICES INFORMATION

For Machines for plastics working, namely, machines and installations assembled therewith for the fabrication or processing of plastics films, plastics panels, composite materials, thermoformed parts and packages, based predominantly on plastics, machinery and installations assembled therewith for processing plastics, film stretchers for plastics films, more particularly mono-axial and biaxial film stretchers, simultaneous film stretching and film casting installations; conveyor machinery and conveyor belts for the transportation of granular material; mechanical devices, namely, machines and rotary pumps for the transportation of molten material; co-extrusion equipment, namely, extruders as machines and installations assembled therewith for fabrication of plastics films by co-extrusion; machines and rotary pumps for the conveyance of molten material; extruder dies and slot dies as parts of machinery and installations assembled therewith for fabrication of plastics films; machinery for fabrication of plastics films, machinery for surface treatment, particularly machinery for flame treatment, corona-discharge treatment and plasma treatment for the surface treatment of plastics, films, paper, metal or multilayer films; machinery for the conveyance of a plastics film to rollers or of a polymeric melt to a substrate, particularly in the form of a roller; rollers as parts of machines for the fabrication of plastics films, winding machinery for winding films, machines for cutting plastics films and cutting equipment assembled with the aforementioned goods; machinery for the production of free-flowing plastics melts; welding machinery particularly for the fabrication of packages, plastics films and plastics panels; machinery for the extraction of grouped articles fabricated within a film in the

aforementioned machinery; machinery for the removal of scrap material formed during fabrication of articles in the aforementioned machinery; embossing and punching machinery; thermal contact gluing machinery, particularly for gluing articles of glass or metal; machinery for positioning and gluing articles of plastics, metal or ceramics to interior or exterior cladding parts, more particularly in the automotive sector; machinery and machine parts, namely, compression molding header, roll stand, splice table, rotary cutter, seaming machines, inner barrier liner, trimming and brushing machines, internal coating machines, hydraulic accumulators, ovens and heating machines, and installations, namely, manufacturing line equipment, namely, machines for manufacturing and decorating laminate tubes, extruded plastic tubes, plastic beverage caps, aluminum screw caps, aluminum tubes and aluminum cans, seaming machines, tube forming machines and machines for manufacturing cans and bottles for the fabrication of tubes, cans, packaging containers, aerosol cans and lids; injection molding machinery for plastics; press molding machinery for plastics; electric welding machinery for plastics; deep-draw machinery for metals; handling industrial robots; conveyor installations for the transportation of tubes, cans, packaging containers, aerosol cans and lids and also of semi-finished products of said goods between processing stations during fabrication; industrial printing machinery for printing tubes, cans, aerosol cans, packaging containers and lids; packaging machinery; structural parts for all of the aforesaid goods

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Machinery for heating granular plastics materials and for heating webs of plastics film in the nature of heating coils, infrared radiation heaters, hot air heaters, hot water radiators; gas burners and flame burners for surface treatment of multifarious articles and materials, particularly plastics films and burners for heating air or serving as gas-fired burners, particularly on an industrial scale, and devices for surface flame treatment, particularly of plastics films, namely, heating coils, infrared radiation heaters, hot air heaters, hot water radiators; catalytic heaters for the heat treatment of plastics films; infrared radiators and/or infrared heating installations for the heat treatment of plastics films, industrial high-frequency heating and drying machines, structural parts for all of the aforesaid goods

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Training of personnel for setting up and subsequently operating installations for the fabrication of plastics films

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Installation, maintenance and repair services relating to installations and/or parts for processing of plastics material and/or for the fabrication of plastics films, plastics panels, composite materials, thermoformed parts and packages based predominantly on plastics, welding machinery, particularly for welding plastics, and thermal contact machinery; installation services during setup and subsequent operation of installations for fabrication and/or processing of plastics films, plastics panels, composite materials, thermoformed parts and packages based predominantly on plastics and for processing plastics

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For scientific, surveying, optical, weighing, measuring, signaling and/or monitoring apparatus and instruments for use in the plastics film manufacturing and processing industry, namely, electric meters, digital multimeters, resistivity meters, ohm meters, vol-ume meters, electronic analyzers for measuring volume and service resistivity and impedance, dynamic signal electronic analyzer for material measurement, electronic test and measurement equipment, namely, spectrum analyzers; frequency meters and frequency counters; parameter analyzers and instruments for UV and IR detection; meters, analyzers and counters used to measure specific properties of polymer films, membranes and separators; noise figure analyzers; surveying instruments; flow meters; apparatus for measuring temperatures, namely thermometer and temperature controllers in the nature of contacting and non-contacting temperature sensors, thermometers and IR contactless sensors; measuring or testing machines and instruments, namely, film thickness meter; nondestructive testing instruments; namely, flaw detectors for measuring porosity, oil content, the number, size, and size distribution of flaws in plastics films; electric tensile stress meters for measuring tensile stresses in plastics films; apparatus and instruments for conducting, switching, transforming, storing, regulating, or monitoring electricity, namely electricity distribution consoles; calculating machines; data processing equipment and computers, particularly relating to the fabrication of plastics films, to machines and apparatus required therefor, and to -heating installations, air heating installations, to installations for boiling, drying, flame treatment, and waste heat recovery, and to associated apparatus or to associated facilities

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Scientific and technological services, namely, technical research in the field of plastics and plastics films and design services relating to the manufacture of films and plastics; industrial analysis and research services relating to the design and manufacture of films and plastics; design and development of computer hardware and software, all of said services relating, in particular, to the processing of plastics and/or to the fabrication of plastics films, plastics panels, composite materials, thermoformed parts and packages based predominantly on plastics, and to the operation of installations or parts for the fabrication of plastics films, plastics panels, composite materials, thermoformed parts and packages based predominantly on plastics; services of a chemistry and/or physics laboratory relating, in particular, to plastics or plastics films, research and developmental services relating to the fabrication of plastics films; technological consulting with regard to a setup and subsequent operation of installations for fabrication of plastics films; computer and software design and development
