For Leather bags, namely, luggage, handbags, briefcase type portfolios, trunks, travel bags, school book bags, backpacks, and tote bags; umbrellas; bands of leather

International Classes 18 - Primary Classes **US Classes** 1, 2, 3, 22, 41 **International Class Title** Leather Goods

For Fabrics, namely, wool, polyester, silk, jersey, cashmere, nylon, cotton, terry cloth, viscose, acrylic, microfiber, and all fabrics blended from those materials, curtains, household linen, table linen, bed linen, bed blankets and textile tablecloths, bath linen, cushion covers

International Classes 24 - Primary Classes **US Classes** 42, 50 **International Class Title** Fabrics

For Games and toys, namely, stuffed animals, rocking horses, modeled plastic toy figurines, board games, parlor games, mechanical action toys, stand alone video game machines or hand-held unit for playing video games; gymnastics apparatus, fitness apparatus and sports apparatus, namely, weights, dumbbells, barbells, stationary exercise bikes, fitness balls, jump ropes, rowing machines, yoga mats, nets for tennis, nets for squash, nets for volleyball, nets for basketball, tennis rackets, squash rackets, racket ball rackets, racket balls, ornaments for Christmas trees, knee pads, wrist pads, and elbow pads for athletic use, ice skates, roller skates, inline skates, skis, snowboards, baby rattles, balls, namely, soccer balls, basket balls, baseballs, footballs, tennis balls, golf balls, playing cards

International Classes 28 - Primary Classes **US Classes** 22, 23, 38, 50 **International Class Title** Toys and Sporting Goods

For Cardboard, paper facial tissues, paper party decorations, stationery and envelopes, toilet paper, paper diapers, bibs of paper, packaging containers and bags of paper and cardboard; wrapping paper, packing paper, blank journal books, note paper and notepads, exercise books, writing pads, table napkins and towels of paper, printed matter, namely, newspapers, informational flyers in the field of entertainment and education for children, prospectuses in the fields of environmental protection, nature protection, protection of species, climate protection, power engineering, heat engineering and environmental engineering, posters, paper banners, passenger tickets, invitation cards, postcards, identity cards; artists' materials, namely, drawing paper, paint brushes, canvas for painting, markers, crayons, oil pastels, watercolor paints sold as part of an arts and craft paint kit, opaque white paper, modeling clay, glue for stationery, household or office use, and pencils, painters' brushes and modelling clay for children, office supplies, namely, envelopes, elastic bands for office use, pencils, pens, markers, binders, address labels, calendars, date books, writing and drawing paper; teaching materials, namely, copy books, notebooks, folders, picture books and maps; books, magazines, coloring books and journals featuring the environment, animals, cartoons, fiction, fantasy, poetry, history, biographies and science; photographs

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Light fixtures, electric lamps, electric furnaces, machine for creating steam, electric, oil and gas stoves for domestic cooking, ovens for domestic cooking, gas, oil and electric grills, refrigerators, clothes dryers, oven ventilator hoods, toilets, air conditioners, ice box freezers, heaters, light bulbs

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Education and training services, namely, providing courses and curricula in connection therewith, classes, lectures, workshops, conferences, tutorials, seminars, remote classes, and arranging training course in teaching institutes, in person and through the Internet in the fields of environmental protection, nature protection, protection of species and climate protection; technical training, namely, providing courses and curricula in connection therewith, classes, lectures, workshops, conferences, tutorials, seminars, remote classes, and arranging training course in teaching institutes, in person and through the Internet in the fields of power engineering, heat engineering and environmental engineering; teaching services, namely, providing courses and curricula in connection therewith, classes, lectures, workshops, conferences, tutorials, seminars, remote classes, and arranging training course in teaching institutes, in person and through the Internet, in the fields of environmental protection, nature protection, protection of species, climate protection, power engineering, heat engineering and environmental engineering; providing educational exhibitions and entertainment festivals in the fields of environmental protection, nature protection, protection of species and climate protection, power engineering, heat engineering and environmental engineering; organizing sports competitions and sports camps; organization of exhibitions for cultural purposes, organizing community cultural events; publishing services, namely, publishing books, magazines, journals; production of sound and video discs and tapes; entertainment, namely, production of theater pieces, films, arranging and conducting concerts and shows; entertainment and theme park services

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Public relations and advertising services for others in the fields of environmental protection, nature protection, protection of species and climate protection

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Prerecorded compact discs, audio tapes, videotapes, DVDs, and floppy disks featuring music, motion pictures, and images, text, voice data, video games and computer games in the field of entertainment and education for children; video and computer game programs; apparatus for recording, transmitting and reproducing sound and images, namely, tape recorders, record players, DVD and disc recorders and players, portable and handheld digital electronic devices for recording, organizing, transmitting, receiving, manipulating, playing and reviewing text, data, image, audio and video files, MP3 players, telephones, mobile phones; computers and computer peripherals; computer game consoles for use with an external display screen or monitor; spectacles; bike helmets; cameras; life jackets for swimming

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Arranging of tours

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Sportswear and casual wear for children, youth and adults, namely, T-shirts, skirts, sweatshirts, sweat pants, pants, shirts, pullovers, jackets, caps, collar protectors, polo shirts, shoes, stockings, gloves, and trousers; leather clothing, namely, jackets, gloves, trousers, caps, skirts, shoes

International Classes 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

For Scientific consultation in the fields of environmental and nature protection, protection of species and climate protection; technical consultation services in the field of energy-saving; scientific research in the fields of environmental protection, nature protection, protection of species and climate protection; technical research services in the fields of power, heat and environmental engineering, environmental impact assessment, technical examination, certification and technical monitoring in the fields of transportation, environmental and nature protection, protection of species and climate protection, and power and heat engineering; design and development of computer software

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Beers, mineral waters and carbonated waters, non-alcoholic fruit juice beverages, fruit juices, syrups for making fruit and vegetable beverages, fruit and vegetable juices and syrups, lemonades, carbonated and non-carbonated soft drinks, energy drinks, coffee- and tea-flavored soft drinks, kids fruit beverages, flavored waters, instant fruit beverages

International Classes 32 - Primary Classes **US Classes** 45, 46, 48 **International Class Title** Light Beverages

GOODS AND SERVICES INFORMATION

For Precious metals and their alloys, namely, processed or semi-processed precious metals in the nature of Bourdon tubes, tubes of plated metals, plated with precious metals, profile tubes of precious metals and their alloys, plated metals, tubes made from expansion alloys, tubes as melt-down alloys for glass/metal or glass/ceramic/metal compounds and of iron/nickel alloys and resistance alloys, hollow waveguides, precision tubes made out of precious metals and specialty metals, capillary tubes, thermobimetal snap-discs and snap elements, thermobimetal ribbons and strips, stamped and molded parts of thermobimetal, metallic assemblies, thermobimetals made of special materials as ribbons and strips, thermobimetal stamped and molded parts with defined properties and assemblies of thermobimetals, roll seam welded ribbons and profile sections, electroplated ribbons with nickel and tin, silver, gold, copper, zinc, palladium and chemically nickel-plated, deep-drawn and extruded high-precision parts in special shapes of metals

International Classes 14 - Primary Classes **US Classes** 2, 27, 28, 50 **International Class Title** Jewelry

For Component parts of surgical, medical, dental and veterinary apparatus and instruments in the nature of precision tubes of non-ferrous metals, precious metals, stainless steels and special materials for medical purposes, tubes, wires of nickel/titanium (nitinol) for medical purposes, stainless steel tubes and wires for medical purposes Bourdon tubes, profile tubes, tubes of plated materials, of special alloys and thin-wall, precision and capillary tubes being component parts for medical purposes, tubes of superelastic materials for medical purposes

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Automotive parts for land, air or water vehicles and parts for apparatus for land, air or water vehicles composed of processed or semi-processed metals and their alloys in the nature of Bourdon tubes, tubes of plated metals plated with precious metals, profile tubes of precious metals and their alloys, plated metals, tubes made from expansion alloys, tubes as melt-down alloys for glass/metal or glass/ceramic/metal compounds and of iron/nickel alloys and resistance alloys, hollow waveguides, precision tubes of precious metals and specialty metals, capillary tubes, thermobimetal snap-discs and snap elements, thermobimetal ribbons and strips, stamped and molded parts of thermobimetal, metallic assemblies, thermobimetals of special materials as ribbons and strips, thermobimetal stamped and molded parts with defined properties and assemblies of thermobimetals, roll seam welded ribbons and profile sections, electroplated ribbons with nickel and tin, silver, gold, copper, zinc, palladium and chemically nickel-plated, deep-drawn and extruded high-precision parts in special shapes of metals for manufacturing

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Component parts of writing instruments and writing implements, namely, tubes of plated materials, plated with precious metals, profile tubes of precious metals and their alloys, plated materials, precision tubes of precious metals

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Parts for machines, parts for power tools or machine tools and parts for engines, other than for land vehicles composed of processed and semi-processed metals and their alloys in the nature Bourdon tubes, tubes of plated metal materials plated with precious metals, profile tubes of precious metals and their alloys, tubes made from expansion alloys, tubes as meltdown alloys for glass/metal or glass/ceramic/metal compounds and of iron/nickel alloys and resistance alloys as parts for machines, pats for power tools or machine tools and parts for engines, other than for land vehicles, precision tubes made out of precious metals and specialty metal materials, thermobimetal snap discs and snap elements, thermobimetal ribbons and strips, stamped and molded parts of thermobimetal, metallic assemblies, thermobimetals out of special materials as ribbons and strips, thermobimetal stamped and moulded parts with defined properties and assemblies of thermobimetals, thermobimetal snap-discs and snap elements, thermobimetal ribbons and strips, stamped and molded parts of thermobimetal, metallic assemblies, thermobimetals out of special materials as ribbons and strips, thermobimetal stamped and molded parts with defined properties and assemblies of thermobimetalsroll seam welded ribbons and profile roll seam welded ribbons and profile sections, electroplated ribbons with nickel and tin, silver, gold, copper, zinc, palladium and chemically nickel-plated, deep-drawn and extruded high-precision parts in special shapes of metals deep-drawn and extruded high-precision parts in special shapes of metallic materials

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Apparatus for recording, transmission or reproduction of sound or images; blank magnetic data carriers; scientific, surveying, electric, electronic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, composed of tubes made from expansion alloys, tubes as melt-down alloys for glass/metal or glass/ceramic/metal compounds and of iron/nickel alloys and resistance alloys, in particular for compensating elements, frames for optical lenses and expansion controllers, hollow waveguides for applications in high-frequency engineering of copper and copper alloys composed of invar plated with silver, precious metals and precious metal coatings, thin-wall tubes of common metals and hardenable copper/beryllium alloys, corrugated tubes and measuring springs subjected to high dynamic stresses, precision tubes of common metals, precious metals, stainless steels, all for use in connection with test pins for testing and special materials, in particular as guide tubes for test pins or plug-in connections, capillary tubes for measuring and control engineering, hydraulics and pneumatics of copper, copper alloys, stainless steel and special alloys, thermobimetal snap-discs and snap elements, thermobimetal ribbons and strips, stamped and molded parts of thermobimetal, electric contact component parts in solid state and or metal plated, contact rivets, solid and plated, stamped flexible parts of materials plated with precious metals, electric contact springs, parts for electric contact part assemblies, riveted, Tox-joined, soldered, resistance and laser-welded assemblies, deep-drawn and extruded parts for electrical engineering and electronics and for measuring and control engineering of precious metals and their alloys, copper and copper alloys, nickel and nickel alloys, stainless steels and materials with special physical properties with regard to expansion behaviour and magnetism, including with electroplated surface coatings, cold extruded parts as heat sinks, load-bearing and connecting elements for power electronics, electric contact component parts and electric contact laminations for collectors, load-bearing plates and contacting plates, composite electrodes for spark plugs, protective sleeves, screening cans, caps and a number of small high-precision deep-drawn parts in special shapes of metallic materials, parts and memory elements of shape memory alloys for measuring and control engineering, plated materials with precious metal coatings and substrates of copper material, nickel and nickel alloys and steel, as ribbons, wires, tubes and profile sections, electric contact component parts and assemblies with inserts and coatings of precious metal and precious metal alloys, welded, soldered, riveted, if required with electroplated coatings, contact rivets of precious metal, solid and coated, composite materials for electrical contacts as fibre and laminar composite materials, Bourdon tubes, profile tubes, tubes of plated materials, of special alloys and thin-wall, precision and capillary tubes, deep-drawn and extruded high-precision parts in special shapes of metallic materials, wires and profile sections of precious metal, solid and coated, and of special alloys and superelastic materials for the manufacture of parts of electric and electronic instruments, all the aforesaid goods being parts of electric and electronic instruments

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Treatment of materials for the manufacture of finished and semi-finished metal products

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Scientific and technological services, namely, research, design and industrial analysis in the fields of finished and semi-finished metal products

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Common metals and their alloys; metal building materials, namely, composite panels, ceiling boards and floor boards, soffits and fascia; transportable buildings of metal; non-electric cables and wires of common metal; pipes and tubes of metal; metal Bourdon tubes, tubes of plated metal materials plated with common metals, profile tubes of common metals and their alloys made of plated metal materials and stainless steels, tubes made from expansion alloys, tubes made predominantly of metal, iron, nickel meltdown alloys and resistance alloys, and partially of glass and ceramics, metal hollow waveguides, thin-wall tubes of common metals and hardenable copper/beryllium alloys, precision tubes of common metals, stainless steels and specialty metal materials, metal capillary tubes, composite metals, laminar composite metals fibre composite metals for further manufacture, thermobimetal snap-discs and snap elements, thermobimetal ribbons and strips for further manufacture made predominantly of common metals, stamped and moulded parts made out of thermobimetal, metallic assemblies, nickel and nickel alloys and steel, namely, ribbons, wires, tubes, profiled tubes and profiled wires, thermobimetals of iron/nickel alloys, stainless steels and special materials, namely, ribbons and strips, thermobimetal stamped and molded parts with defined properties and assemblies of thermobimetals for further manufacture made predominantly of common metals, roll seam welded ribbons and profile sections in the nature of metal profiles for use in further manufacture, electroplated ribbons with nickel and tin, silver, gold, copper, zinc, palladium and chemically nickel-plated for further manufacture

For Electrical and electric connector systems, namely, connectors and interconnection systems, cable assemblies, terminals and splices, pin and socket connectors, printed circuit board connectors, RF coaxial connectors, ribbon and flat panel connectors, contactless connectors, MPI interconnects; mechatronic systems, namely, combination of mechanical and electronic systems for use in sensing and control systems, in hybrid housings, housings for hybrid circuits, premolded packages for semiconductor based sensors and injection molded lead frames, comprised of stamped parts such as high precision lead frames and contact parts for switching functions, electroplated functional surfaces for wire bonding, soldering, resistance and laser welding, and corrosion protection, overmolding for chip and substrate packaging and hermetic housing, and assembly technology for the integration of electronic components, Hall and MR Sensors, temperature sensors, circuit protection and joining technologies for metals and plastics, selective soldering, resistance and laser welding, and gluing, the aforementioned sold as a unit; electrical and electric relays, namely, panel/plug-in relays, industrial and consumer relays, high voltage relays, PCB relays, surface-mount relays, signal level relays, microwave relays, time delay relays; surface mounted device terminals; electrical relays, namely, panel/plug-in relays, industrial and consumer relays, high-voltage relays, PCB relays, surface-mount relays, signal level relays, microwave relays, time delay relays; battery disconnect switches, double micro relays, high current relays for use in car alarms, flashers, lamps, and motor reverse relays; testers used as hand tools for testing wire and cable identification without direct metallic contact; telecommunication relays for use in communication technology, networking equipment, telecommunications terminals, and accessories, broadband, wireless, central office switching, measurement and control equipment, automobile technology, medical equipment, and entertainment electronics; industrial relays, namely, mid-range PC board relays, mid-range plug-

in/panel mount general purpose relays, power PC board relays and power plug-in relays; computer relays, namely, signal PC board relays and power PC board relays; electrical apparatus and electronic components used in relation to aerospace and defense, computer and consumer electronics, power tools, lawn equipment, switches, base stations, NIC and PC cards, systems for the electrical power industry including rail transport systems, premises cabling, communication networks, industrial motors, lighting, industrial machinery and process control equipment, heating, ventilation and air conditioning, security system components, instrumentation, medical equipment, medical diagnostics and mobility devices, namely, connectors and contactors, relays, switches, cable assemblies, terminals and splices, electro-optic products, namely, electrical and optical cables, circuit breakers, sensors, fuse boxes, mechatronic modules, namely, mechanical remote controls for motors, wires and cables, heat shrink tubing, splitters, insulators, fiber cabling, RF power transistors, electrical control panels, and antennas, computer monitors; electrical and electric terminals and connectors; electrically conductive items, namely, pin and socket connectors, power connectors, RF coaxial connectors, printed circuit board connectors, ribbon and flat panel connectors, fiber optic connectors, rectangular heavy-duty connectors, low profile rectangular connectors, power drawer connectors, high speed connectors, micro miniature and nanominiature connectors, elastomeric connectors, photovoltaic connectors, battery connectors, and zero-insertion force connectors; chip carrier sockets; electric sockets; electronic circuits; sensors for sensing proximity, angle, speed, temperature, and C02 gas, namely, pulse wire sensors, PLCD sensors, position sensors, rotational sensors, industrial sensors, seat position sensor, non-contact throttle position sensors, Hall sensors, contact-less position sensors, electronic radar sensors, electronic inductive sensors, and electronic gas sensors; antennas, and wave reflectors; GPS antennas; antenna systems; GPS systems; satellite radio antennas, multi band antennas, RFID portal antennas, space launch antennas, stamped metal antennas, printed circuit board antennas, RFl microwave antennas, flex film antennas, telemetry antennas, aerospace antennas, internal cell phone antennas, and antennas and antennas according to IEEE 802.15.1 Standard; receivers for audio, light, laser light electro magnetic wave, and micro wave signals; GPS receivers; circuit boards; contactless data connectors; contactless signal connectors; plasma, LCD, and CRT screens and interactive displays utilizing acoustic pulse recognition, surface wave, resistive, infrared and capacitive, LCD, plasma and CRT touch monitors; wire and board processing equipment, namely, wire to board connectors, board-to-board connectors, cable-to-board connectors, cable-to-cable connection and series connectors; battery charging cables; data transmission cables; magnetics, namely, sensors, relays and switches; electrical resistors; electrical power resistors; electrical and magnetic inductors; chokes, namely, an inductor used to block signals of particular frequencies; trimmers, namely, variable resistors and potentiometers, and variable capacitors and variable controls; electrical power inductors; electric switches; blank smart cards comprised of embedded integrated programmable circuits; fiber optic products, namely, fiber optic connectors, cables, adapters and accessories, namely, sensors, couplers and splitters, and attenuators; optical backplane interconnects for audio, video and data signals; optical fibers; fiber optic communication components, namely, emitters, diodes, laser diodes, adapters, optical modules, attenuators and switches, fiber optic cables, couplers; electro-optic products, namely, cables, pulse suppressor boxes, polarization mode dispersion analyzers for fiber capability to support high speed, electro optical targeting system, infrared aperture radar, research radar, targeting pod system, cameras, infrared cameras, high-resolution, digital imagery, pump lasers, high frequency electro-optical modulators and converters, electro-optical connectors, electro-optical transceivers, electro-optical seeker, Electro/Optical Interconnects, electro-optical converters; backplane electronic circuit boards; backplane electronic circuit board interconnects; attenuators; multiplexers; amplifiers; resistors; telematics systems for use in sending, receiving, and

storing information via telecommunication devices, namely, antennas, satellite radio antennas, multi-band antennas, missiles, military aviation and GPS systems; computer software for computer system and application development, deployment and management for use in relation to aerospace and defense, automotives, computer and consumer electronics, household and major appliances, motors other than for land vehicles, power tools, lawn equipment, switches, base stations, NIC and PC cards, systems for the electrical power industry including rail transport systems, premises cabling, communication networks, industrial motors, lighting, industrial machinery and process control equipment, heating, ventilation and air conditioning, security system components, instrumentation, medical equipment, medical diagnostics and mobility devices such as electrical harness design, identification software and radio software; electronic and electrical filters, namely, connector filters, RFI./EMI filters, filters for 1-, 2- and 3-phase electrical systems, power entry modules, board level filter for facility filters, feed through filters; optical signal filters, namely, power line filters and signal line filters; diplexers; capacitors; circulators; electronic isolators; transformers; electronic couplers; electric power connectors; microwave products, namely, microwave amplifiers, antennas, attenuators, RF power transistors, drivers, namely, drivers for allowing communication and interaction between microwave devices or components, allowing control over another microwave device or component, and for supplying power between microwave devices or components, microwave products, namely, microwave amplifiers, antennas, attenuators, RF power transistors, dispersion shifted optical fibers, synthesizers, mixers/modulators, diodes, frequency moderators, limiters, couplers, isolators, splitters, combiners, transformers, inductors, chip capacitors, transistors, switches, oscillators, transceivers; mixers, namely, connectorized, flat-pack, drop-in and surface-mount mixers used in aerospace and defense, and wireless and broadband communication applications; modulators, namely, connectorized, flat-pack, drop-in and surface-mount modulators used in aerospace and defense, and wireless and broadband communication applications; heat sinks for use with electronic components, namely, for networking, storage and PCI; heat sinks for use with computers and electronic components, namely, radial and pin fin/unidirectional heat sinks, ball grid array heat sinks, computer heat sinks, I/O pluggable heat sinks, custom heat sinks and dual in-line memory module heat sink assemblies; phase shifters, namely, phase shifters for changing transmission phase angle of a network; drivers, namely, electronic drivers for allowing communication and interaction between electronic devices or components, allowing control over another electronic device or component, and for supplying power between electronic devices or components; electric, electrical and electronic meters, namely, hour energy meters, digital metering systems, meter relays, digital meters, and analogue instrument meters; electric, electronic and electrical controllers, namely, adaptive controllers, analogue controllers, charge controllers, choppers, control controllers, drive controllers, load controllers, galvanometric controllers, master controllers, nonlinear controllers, power and pressure controllers and programmable controllers; parts for RFID tags; protection devices, namely, overcurrent, overvoltage, overheating and electrostatic discharge ESD protection devices; circuit breakers; fuses; radar systems consisting out of a transmitter and a receiver and an amplifier; RF components, namely, radio frequency connectors and contactors, switches, cables, terminals and splices, circuit breakers, sensors, fuse boxes, mechatronics and mechatronic modules, namely, connector housings, packaging for chips and substrates, frames, lead frames, wires and cables, splitters, insulators, RF power transistors, electrical control panels, antennas, and relays; enclosures and cabinets for electrical, patch panel, fiber optic and electronic cables, backplanes, controllers and radio frequency connectors and contactors, switches, cables, terminals and splices; cabinets adapted to contain communication instruments, namely, optical cables, electronic cables,

backplanes, controllers and radio frequency connectors and contactors, switches, cables, terminals and splices, circuit breakers, sensors, fuse boxes, mechatronics and mechatronic modules, namely, connector housings, packaging for chips and substrates, frames, lead frame, wires and cables, splitters, insulators, RF power transistors, electrical control panels, antennas, and relays; fully qualified and integrated hardware and software for identification and labeling products; cable management devices, namely, cable tray systems, rack mount cable management, aluminum raceway system and wiring ducting; wiring systems consisting of wires, cables, squib cables, arrestors, transformers, vacuum circuit breaker, switches and connectors for large car movements, roofs, trains, and cars; ribbon cables; wiring rack systems, high voltage cable assemblies, namely, high voltage cables, high voltage cable racks, high voltage cables and termination, high voltage cables and connector; lighting ballasts for up to 25 KV; lighting controllers, namely, adaptive controllers, analogue controllers, charge controllers, choppers, control controllers, drive controllers, load controllers, galvanometric controllers, master controllers, nonlinear controllers, power and pressure controllers, programmable controllers; accessories for high tension cables, namely, accessories for high tension cables connecting electronic power stations and towers, namely, outdoor oil filled terminations, outdoor dry type terminations, plug-in equipment connections, namely, switchgear and transformer connections, and straight through joints and shield break joints, link boxes to ground and protect shields of high voltage cables, sleeves, connectors and fittings, surge arresters; processing equipment, namely, electronic sound mixing, processing and synthesizing apparatus; house mark for the following: chokes, namely, an inductor used to block signals of particular frequency; blank smart cards comprised of embedded integrated programmable circuits; premolded packages, namely, insulating body, housings, forms and wraps for semiconductor based sensors and injection molded lead frames, comprised of stamped parts, namely, high precision lead frames and contact parts for switching functions, electroplated functional surfaces for wire bonding, soldering, resistance and laser welding, and corrosion protection, overmolding for chip and substrate packaging and hermetic housing, and assembly technology for the integration of electronic components, circuit protection and joining technologies for metals and plastics, selective soldering, resistance and laser welding, and gluing, the aforementioned sold as a unit; accessories for radios, namely, amplifiers, circuits, printed circuits, control heads, control stations, consoles, chargers, headsets, hand held controllers, microphones, programming accessories, namely, tuners, speaker mics; house mark for a full line of telecommunications and communications equipment, namely, telephones and parts therefore; house mark for full line of the following: electronic components, namely, cables and cable assemblies, wires, circuit breakers, switches and knobs, sensors, heat sinks, timers, resistors, arrestors, transformers, meters, controllers, connectors, electric sockets, capacitors, couplers, transceivers, control panels, circuit boards, relays, and drivers, namely, electronic drivers for allowing communication and interaction between electronic devices or components, allowing control over another electronic device or component, and for supplying power between electronic devices or components; computer software and hardware for electronic control systems; hardware and software for identification and labeling products; proximity connectors; contactless connections for the transfer of power, data and signals; intelligent cables for charging batteries and transmitting data regarding such charge to data management systems; cable connectors; electromechanical components, namely, cables, circuit breakers, heat sinks and thermal printers, relays, sensors, switches, knobs and timers; electronic modules, namely, rectifiers; fiber optics and fiber optic and fiber optic communication equipments, components and products, namely, attenuators, switches, cable assemblies, backplane interconnects, connectors, adaptors, tooling products and accessories, namely, tool measuring instruments, electrooptics, namely, cables, interconnects, multiplexers, amplifiers, circulators, transformers, and fiber optic distribution products, namely, cables; fiber

optic filters; radio frequency identification and labeling tags; passive components, namely, electrical connectors, capacitors, inductors, resistors, transformers, wires, cables, fuses, and relays; power supplies; heat sinks for use in electronic components; RF and microwave products, namely, antennas, amplifiers, attenuators, power transistors, oscillators, coax, adapters, contacts, RF and signal filters and inductors, dispersion shifted optical fibers, synthesizers, mixers, modulators, diodes, frequency moderators, limiters, couplers, isolators, splitters, combiners, transformers, chip capacitors, transistors, switches, oscillators, transceivers, and drivers, namely, drivers for allowing communication and interaction between microwave devices and components, allowing control over another microwave device or components and for supplying power between microwave devices or components; parts for RFID tags; radar sensors and antennas; components for circuit boards, namely, terminals and disconnects; radio accessories, namely, antennas, connectors and batteries; tooling products, namely, tool measuring instruments; receivers for audio, light, laser light electro magnetic wave, micro wave, and radio frequency signals; rectifier tubes; phase shifters, namely, phase shifters for changing transmission phase angle of a network; optical backplane interconnects for audio, video and data signals; molded harnessing products, namely, electrical wire, cable, and cable assemblies; harnessing and tubing electronic products and accessories, namely, adaptors, terminators, tubing, connections, battery terminal connector clamps, end vent caps for batteries, and junction sleeves; components for circuit boards used in computers, consumer electronics, communication equipment, aerospace and defense, industrial machinery and instrumentation industries; electronic components for machines, tools, motors other than for land vehicles and engines, namely, connectors and contactors, relays, switches, cable assemblies, terminals and splices, electro-optic cables, circuit breakers, proximity sensors, fuse boxes, mechatronics and mechatronic modules, namely, mechanical remote controls for motors, wires and cables, heat shrink tubing, splitters, insulators, fiber cabling, RF power transistors, electrical control panels, and antennas; protection devices, namely, overcurrent, overvoltage, overheating and electrostatic discharge ESD protection devices; circuit breakers; electrical and lighting controllers, namely, adaptive controllers, analogue controllers, charge controllers, choppers, control controllers, drive controllers, load controllers, galvanometric controllers, master controllers, nonlinear controllers, power and pressure controllers, programmable controllers; cable management devices, namely, cable tray systems, rack mount cable management, aluminum raceway system and wiring ducting; power distribution systems, namely, systems comprised of lead frame sandwiches, radios; radio accessories, namely, antennas, connectors and batteries; electrical and fiber optic harnesses for use in the electronic industry; accessories for high tension cables, namely, accessories for high tension cables connecting electronic power stations and towers, namely, outdoor oil filled terminations, outdoor dry type terminations, plug-in equipment connections, namely, switchgear and transformer connections, and straight through joints and shield break joints, link boxes to ground and protect shields of high voltage cables, sleeves, connectors and fittings, surge arresters; house mark for a full line of labeling products, namely, thermal printers; surge arresters for use in insulating materials; internal cooling fans for computer chips; specialty labeling identification products, namely, dot matrix printers; chip card readers; electrical terminators and testers that permit wire and cable identification without direct metallic contact; insulation displacement impact testers; electrical insulating products, namely, chip coolers and chip to board socket; electrical insulating products, namely, heat sinks for computers; electrical insulating materials, namely, fins, cooling fin, crimp fin, and folded fin, all for computers; house mark for a full line of telecommunications systems, equipment and components for use in the transmission or transfer of voice, audio, video, text and data by broadband, broadcasting, cable

casting, coaxial cable, copper wire, fiber optic, radio, telephone, twisted pair, wire, wireless and other telecommunications technologies; and computer software for use in operating and managing telecommunications systems and equipment, and the communications over such systems

processors, chips, application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures, processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices and electronic devices that send and receive data in a connected network; arranging and conducting competitions, quizzes and lotteries in the area of testing knowledge about electronic data processing equipment, microprocessors, system-on-chip devices, processors, chips, application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures, processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices and electronic devices that send and receive data in a connected network; Distribution of audiovisual content provided on-line via a global computer network and the internet in the area of news topics relating to electronic data processing equipment, microprocessors, system-on-chip devices, processors, chips, application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures, processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices and electronic devices that send and receive data in a connected network; Providing on-line not downloadable publications in the nature of instruction manuals, user manuals, technical manuals, development manuals, datasheets, brochures, articles, newsletters, books, magazines, journals, research papers and white papers in the field of instruction set architectures, RISC-based instruction set architectures, electronic data processing equipment, microprocessors, computer hardware, computer software, integrated circuit based devices and electronic devices that send and receive data in a connected network

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Advertising and promotional services relating to electronic data processing equipment, microprocessors, system-on-chip devices, processors, chips, application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures, processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices and electronic devices that send and receive data in a connected network

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Maintenance and support services, namely, technical advice related to the installation of electronic data processing equipment, microprocessors, system-on-chip devices, processors, chips, application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures, processor-based devices, integrated circuits, computer hardware, integrated circuit based devices and electronic devices that send and receive data in a connected network

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Electronic data processing equipment; computer hardware; integrated circuits; memory circuits for system-on-chip devices; microprocessors; Computer chips; RISC-based instruction set architectures, namely, software instructions designed to function with particular microprocessors; data processors; interfaces for computers; printed circuit boards; electronic circuit boards; telephones; mobile computing devices, namely, portable computers, laptop computers, notebook computers, subnotebook computers, ultra-mobile computers, tablet computers, Internet tablet computers, personal portable computers, personal digital assistants, personal digital assistants with integrated mobile telephone functionality, mobile telephones, smart phones, handheld computers, handheld game consoles, GPS navigation devices and personal media players; Internet servers; electronic sensors for sensing light, pressure, smells, touch, movement, moisture, temperature, sounds and electronic signals; smart devices, namely, Blank smart cards, smart card readers, smart water meters, smart remote controllers, smart phone watch and smart pens; wearable mobile devices, namely, devices for hands-free use of mobile phones; wearable computers, namely, computers that can be worn on the human body or on the clothing and are always in strict contact with the user; set top boxes; modems; video encoders and transcoders; electronic book readers; Mobile data terminals; data processing equipment; televisions; smart televisions; horizontal surface computers; mp3 players; mp4 players; electronic data storage devices, namely, computer servers; electronic devices that send and receive data in a connected network, namely, computers; computer software for the design, development, modelling, simulation, compiling, de-bugging, verification, construction and interfacing of integrated circuits, microprocessors, microprocessor cores, semiconductor intellectual property cores, macro cells, microcontrollers, bus interfaces and printed circuit boards; computer software for the design, development, modelling, simulation, compiling, de-bugging, verification, construction and interfacing of application software and operating system software to run on integrated circuit based devices; Downloadable electronic data files featuring microprocessor design file software; operating system software; security and cryptographic software; electronic publications, downloadable, in the nature of instruction manuals, user manuals, technical manuals, development manuals, datasheets, brochures, articles, newsletters, books, magazines, journals, research papers and white papers in the field of instruction set architectures, RISC-based instruction set architectures, electronic data processing equipment, microprocessors, computer hardware, computer software, integrated circuit based devices and electronic devices that send and receive data in a connected network

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Licensing of intellectual property rights; licensing of microprocessor design file software; licensing of semiconductor intellectual property cores, instruction set architectures and RISC-based instruction set architectures; licensing of technology and computer software; Intellectual property consultation

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Electronic transmission of computer software, data and information in the field of design and development of electronic data processing equipment, microprocessors, system-on-chip devices, processors, chips, application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures, processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices, electronic devices that send and receive data in a connected network, microprocessor

cores, macro cells, microcontrollers, bus interfaces and printed circuit boards via the Internet and computer and electronic communication networks; providing on-line chat rooms, bulletin boards and community forums for the transmission of messages among computer users in the field of design and development of electronic data processing equipment, microprocessors, system-on-chip devices, processors, chips, application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures, processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices, electronic devices that send and receive data in a connected network, microprocessor cores, macro cells, microcontrollers, bus interfaces and printed circuit boards

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Research, development and design all relating to electronic data processing equipment, microprocessors, system-on-chip devices, processors, chips, application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures, processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices, electronic devices that send and receive data in a connected network, microprocessor cores, macro cells, microcontrollers, bus interfaces and printed circuit boards; technical consultancy and technical support services, in the nature of diagnosing electronic data processing equipment, microprocessors, system-on-chip devices, processors, chips, application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC-based instruction set architectures, processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices, electronic devices that send and receive data in a connected network, microprocessor cores, macro cells, microcontrollers, bus interfaces and printed circuit boards problems; research, development, and design all relating to computer software used in and for use in the design, development, modelling, simulation, compiling, de-bugging, verification, construction and interfacing of integrated circuits, microprocessors, microprocessor cores and semiconductor intellectual property cores; technical consultancy and technical support services in the nature of diagnosing computer software used in and for use in the design, development, modelling, simulation, compiling, de-bugging, verification, construction and interfacing of integrated circuits, microprocessors, microprocessor cores and semiconductor intellectual property cores problems; research, development, design all relating to computer software used in and for use in the design, development, modelling, simulation, compiling, debugging, verification, construction and interfacing of macro cells, system-on-chip devices, microcontrollers, bus interfaces and printed circuit boards; technical consultancy and technical support services in the nature of diagnosing computer software used in and for use in the design, development, modelling, simulation, compiling, debugging, verification, construction and interfacing of macro cells, system-on-chip devices, microcontrollers, bus interfaces and printed circuit boards problems; research, development and design all relating to computer software used in and for use in the design, development, modelling, simulation, compiling, de-bugging, verification, construction and interfacing of application software and operating system software to run on integrated circuit based devices; technical consultancy and technical support services in the nature of diagnosing computer software used in and for use in the design, development, modelling, simulation, compiling, de-bugging, verification, construction and interfacing of application software and operating system software to run on integrated circuit based devices problems;

research, development and design all relating to computer software used in servers, operating system software, web services software, and security and cryptographic software; technical consultancy and technical support services in the nature of diagnosing problems with computer software used in servers, operating system software, web services software, and security and cryptographic software; Maintenance and support services, namely, technical advice related to the installation of computer software
