## GOODS AND SERVICES INFORMATION

**For** Chemical machines and instruments, namely, chemical fiber drying machines, granulating machines for chemical processing; Printing or book binding machines and instruments, namely, industrial printing machines, label printing machines; Plastic working machines and instruments, namely, extrusion machines for plastic; semiconductor substrates and wafer manufacturing machines; Rubber products manufacturing machines and instruments, namely, rubber processing machines, rubber mixing machines; Motive power machines and instruments other than for steam boilers and motive power instruments, namely, turbines not for land vehicles and engines not for land vehicles, structural parts of motive power machines and instruments; Pneumatic and hydraulic machines and instruments, namely, pneumatic pumps, hydraulic pumps, pneumatic conveyors, pneumatic hammers; starters for motors and engines, Alternating current servo motors and direct current motors, exclusive of alternating current motors and direct current motors for land vehicles exclusive of parts thereof, alternating current generators, direct current generators; mechanical parking systems; steam engine boilers for prime movers and engines

**International Classes** 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

**For** Rockets for observation and structural parts therefore; accessories for observation, namely, rocket launchers

**International Classes** 13 - Primary Classes **US Classes** 2, 9 **International Class Title** Firearms

**For** Industrial furnaces; electric boilers, heating boilers, and industrial boilers, exclusive of parts of motive power machines and those for engines; Refrigerating machines, refrigerating instruments, namely, refrigerator condensers, refrigerating cabinets; drying apparatus for chemical processing, recuperators for chemical processing, steaming heating apparatus for chemical processing, evaporators for chemical processing, distillation apparatus for chemical processing, heat exchangers for chemical processing; water purifying apparatus; garbage incinerators for business use; garbage incinerators for domestic use

**International Classes** 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

**For** Installing, maintenance and repair of monitoring and controlling devices for building equipment, including power plants, plants and factories; operation of building equipment for building construction; ship construction; repair and maintenance of ships; repair and maintenance of fire alarms; repair and maintenance of mechanical parking systems; repair and maintenance of industrial furnaces; repair and maintenance of rubber products manufacturing machines and instruments; repair and maintenance of water purifying apparatus; repair and maintenance of boilers; repair and maintenance of pumps; repair and maintenance of refrigerating machines and instruments; repair and maintenance of electrical communication machines and instruments; repair and maintenance of computers including central processing units, electronic circuits and magnetic discs in which computer programs are recorded, and other computer peripherals

**International Classes** 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

**For** Computers used for monitoring and controlling various facilities; computer software used for monitoring and controlling various facilities; computer software recorded on data media used for monitoring and controlling various facilities; computers used for monitoring and controlling operational statuses of turbines, boilers, engines and machines and instruments installed in plants, power plants, factories, laboratories and ships; computer software used for monitoring and controlling operational statuses of turbines, boilers, engines and machines and instruments installed in plants, power plants, factories, laboratories and ships; computer software recorded on data media used for monitoring and controlling operational statuses of turbines, boilers, engines and machines and instruments installed in plants, power plants, factories, laboratories and ships; Computer software for analyzing, monitoring and controlling facilities and installations in plants, power plants, factories, laboratories and ships, Computer software for designing and customizing functions and structures of computer software; computer hardware; computers; computer software used for managing electronic data; computer software recorded on data media used for managing electronic data; computer software used for managing and processing databases; computer software recorded on data media used for managing electronic data; server computers for remote monitoring and controlling systems; signal processing devices, namely, computer hardware, computers for remote monitoring and controlling systems; remote monitoring and controlling devices, namely, computer hardware, computers for monitoring and controlling building equipment, including power plants, plants and factories; remote monitoring and controlling

devices, namely, computer hardware, computers for controlling and monitoring operational statues of turbines, boilers, engines, machines and instruments installed in plants, power plants, factories, laboratories and ships; remote controlling devices, namely, computer hardware, computers, computer peripherals; data storage units, namely, blank magnetic data carriers, blank optical data carriers, hard disk drives (HDD), blank electronic storage media; liquid crystal displays; measuring apparatus and instruments, namely, electric sensors for use in detecting flame; electrical distribution or control machines and instruments, namely, electric control panels, electrical controllers, rotary converters, phase modifiers in the nature of optical phase shifters; batteries; electrical and magnetic measuring instruments, namely, electronic sensors for measuring and detecting flame; electrical communication machines and instruments, namely, telecommunications hardware in the nature of Firewalls, Proxy Servers, Web Servers, Data Servers, Routers, Gateways, Network switches (L2 and L3 switch etc.), HUBs, Wireless/Wired LAN controllers, Network Access Points, Network cables, Network connectors, Printers, Hard copiers, PLC (Programmable Logic Controller) and software for monitoring, analyzing and controlling operational statuses of turbines, boilers, engines and machines and instruments installed in plants, power plants, factories, laboratories and ships via the Internet; electronic machines and instruments, namely, electric and electronic video surveillance installations, electronic apparatus for the remote control of industrial operations, electronic control systems for machines and engines, and structural parts thereof; satellites for scientific purposes; electronic sports training simulators; vehicle driving training simulators; fire extinguishers, fire extinguishing apparatus, namely, fireplugs, nozzles for fire hose, sprinkler fire extinguishing systems for fire protection primarily comprised of fire sprinklers

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

**For** Design of machines and instruments for monitoring and controlling operational statuses of turbines, boilers, engines and machines and instruments installed in plants, power plants, factories, laboratories and ships including introduction and explanation concerning performance and methods of operations and the like of computers, motor vehicles and other machines which require expertise, skills or experiences of high degree in order to operate properly for respective purposes of use. remote monitoring of the operational statuses of electrical building equipment, namely, air conditioners, computers, generators, telecommunication base stations, lighting fixtures, sensors, security equipment, disaster prevention equipment, plumbing, waterworks, gas installations and ventilating installations; remote monitoring of the operational statuses of electrical building equipment, namely, air conditioners, computers, generators, telecommunication base stations, lighting fixtures, sensors, security equipment, disaster prevention equipment, plumbing, waterworks, gas installations and ventilating installations

## GOODS AND SERVICES INFORMATION

**For** Stickers, paper labels, stamps, vignettes, packaging covers and packaging sheaths of paper or synthetic plastics; packaging materials of paper or plastics, namely, pouches, foils, sheaths and jackets, all the aforementioned goods containing encoding devices and/or optical diffraction structures and/or holographic structures; sheets, covers, cards and sheaths all primarily made of paper or plastic for packaging, all the aforementioned goods containing encoding devices and/or optical diffraction structures and/or holographic structures; stamping foils, namely, hot stamping foils and cold stamping foils, primarily of paper, for decoration as well as for identification devices or authentication devices or money replacement means or for use for bank notes, bills or payment means; stickers, stamping foils, transfer foils and laminating foils as well as foil strips all primarily made of paper or made of plastic for packaging; paper with UV-curable adhesives for cold stamping; labels of paper or primarily of paper; vignettes primarily consisting of paper; identification devices, authentication devices and money replacement means, namely, non-electronic unencoded paper data carriers in form of tokens, cards, discs, tags and bands of paper and sheets and foils of paper or plastics; stamping foils and transfer foils for packaging purposes, namely, foils consisting of a carrier film primarily manufactured of plastics and at least one transfer layer which is removable from the carrier film and can be applied to a substrate; unencoded stamping foils primarily made of paper and unencoded stamping foils primarily made of plastic, for packaging purposes, namely, hot stamping foils and cold stamping foils, consisting of a carrier film primarily of plastics and a consumption layer which can be detached from the carrier film during stamping for application to a substrate; markings, labels, stamps, seals, bands as well as sheets and

foils of paper as identification devices, authentication devices and money replacement means; unencoded stamping foils primarily made of paper and unencoded stamping foils primarily made of plastic, for packaging purposes for these identification devices, authentication devices and money replacement means; packaging materials of paper, synthetic plastic materials or plastics as far as contained in this class, namely, bags, pouches, envelopes, covers, sheets and foils; self-adhesive paper foils for packaging purposes, laminates of synthetic plastic materials or primarily of synthetic plastic materials, stamping foils of paper; paper, cardboard and goods of these materials, as far as not contained in other classes, namely, covers, boxes, envelopes, pouches and wrappers; printed matter, namely, catalogues, brochures, books, manuals, charts, leaflets, flyers and hand-outs, in the field of foil technology and foil application and foil processing, plastics and paper processing, product design and decoration, product and document security, operation of machines and of computer software and hardware; book binding material; photographs, stationery; adhesives for paper and stationery or for household purposes; paint brushes; printed instructional and teaching materials in the field of plastics and paper processing, product design and decoration, product and document security, operation of machines and of computer software and hardware; plastic materials for packaging as far as not contained in other classes, namely, plastic foils, plastic wrap, plastic bags, plastic pouches and plastic packaging covers; printers' type; printing blocks; matrices for use in printing, stamping and embossing

**International Classes** 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

**For** Stamping tools, embossing rollers, stamping dies, embossing matrices as machine parts; matrices as machine parts; tools for printing as machine parts; machine-driven apparatus for stamping, particularly hot stamping or cold stamping; machines for plastics processing, paper processing and foil processing; foil overlaying machines for covering the surfaces of articles or substrates with foils with patterns, decors, structures and/or functional surface structures; stamping dies and small stamping plates being machine parts

**International Classes** 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

**For** Collecting, arranging, systematizing, updating and maintenance of data and information in computer databases, particularly of data for checking of the stock, the authenticity of goods and documents, for tracking and tracing of goods and documents as well as for authentication validation and identity validation; computer-based organizational and business-management data verification and data analysis; file management by means of computers; provision of commercial information about movement of goods, also by means of databases and by means of an Internet portal; provision of commercial information about the movement and the stock of goods for the purpose of tracking and tracing (shipment tracking) of shipments and goods, also by means of databases and by means of an Internet portal; electronic data processing consultancy concerning data processing

**International Classes** 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

**For** Magnetic, optical or electronic information carriers in form of foil strips, stickers, labels, vignettes, bands, tokens, coins, discs, cards and plates; all afore-mentioned goods containing encoding devices, optical diffraction structures, holographic structures or combinations thereof, for use as identification means, authentication means or money replacement means or for use for banknotes, bills or payment means; encoded identification devices and authentication devices, namely, foil sheetings and foil bands, stickers, labels, bands, threads, discs, cards or plates with magnetic, optical or electrically conductive structures for storing, processing and/or display of information; electric and/or electronic and/or optical and/or opto-electronic circuits, particularly in form of foil sheetings and foil bands, stickers, labels, bands, threads, discs, cards or plates, each with microprocessors, printed coils and printed circuits, each for application in the field of passive labelling, tracking and tracing of goods or identification of persons and objects; optical diffraction structures, holographic structures or combinations thereof for use in the creation of identification devices or authentication devices; optical security features in form of encoded information carriers for banknotes; integrated circuits and electronic components, namely, printed circuits, foil sheetings and foil bands, stickers, labels, bands, threads, discs, cards or plates, of polymers, carrying or intended to contain magnetically, optically, or electronically recorded or encoded information; opto-electronic energy converters, solar cells, light-emitting diodes or laser diodes; antennas; optical display devices, namely, LCD-displays and organic light-emitting diodes; all afore-mentioned goods also encodable as well as with optically active interference layers, polarization layers and/or liquid crystal layers and/or with optically active spatial structures; magnetic, optical, electric and electronic parts and components in form of foil sheetings and foil bands, stickers, labels, bands, threads, discs, cards or plates that are encoded or provided with optical structures, for storing, processing and/or display of information; identification devices, authentication devices and money replacement means, namely, data carriers in form of chips, cards, discs, magnetic plates, stamps, plates, tokens, bands as well as sheets and foils of plastic, synthetic materials, paper or metal, that are encoded or provided with optical structures; stamping dies, sheets and foils of metal, that are encoded or provided with optical structures, as identification devices, authentication devices and money replacement means; covers and sheaths, inherently stable sheaths of plastic, except for packaging purposes, stamping foils, namely, hot stamping foils and laminating foils, also in form of bands, except for packaging purposes, all afore-mentioned goods containing encoding devices, optical diffraction structures, holographic structures or combinations thereof, for use as identification devices, authentication devices or money replacement means or for use for banknotes, bills or payment means; electronic security tags/labels for goods; electric and optical data processing apparatus; apparatus for checking the authenticity of banknotes; programmable electronic controls, electric control units for security systems, electric components as far as contained in this class, namely, electric, optical and electronic switches, sensors, integrated circuits, capacitors, inductors, resistors, diodes, memory chips, data storage chips, transponder chips, electric and optical data carriers, solar cells; blank magnetic data carriers and data carriers prerecorded with identification information and authentication information; computer hardware; peripheral devices for computers; portable mini-computers, mobile telephones, personal digital assistants (PDA); portable data processing apparatus and checking/testing devices, namely, checking and testing devices for optically variable devices, optical structures, diffractive structures, electric and electronic signals and magnetic structures; electronic databases in the field of product and document validation and authentication, tracking and tracing of goods and documents and identity validation and authentication, recorded on computer media, and computer databases, namely, computer software for creating searchable databases of information and data; computer

software, particularly computer database software and client software for use in gaining access to computer databases; computer software for checking/validating the authenticity of goods and documents, for tracking and tracing of goods and documents as well as for authentication validation and identity validation; computer software for database administration and database management; computer software for encryption and decryption of information and data; downloadable electronic documentations in the field of product and document authentication, in the field of securing products and documents against falsification/counterfeiting, in the field of product design and plastics processing, and downloadable electronic publications in the nature of books, manuals and newsletters in these aforementioned fields; electric equipment for the controlling, remote-control and supervision of industrial installations and machines, namely, electric control panels, electrical controllers, computer hardware for controlling, remote-controlling and supervision of industrial installations and machines

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

**For** Telecommunication services, namely, transmission or transfer of data by means of telecommunications networks, wireless communication networks, and the Internet, transmission and reception of database information via telecommunication networks; providing of and providing access to electronic communication networks and electronic databases, particularly to databases for checking the stock, the authenticity of goods and documents, for tracking and tracing of goods and documents as well as for authentication validation and identity validation; communication services for electronic data transmission and for the access to databases for acquiring information; data transmission on the Internet; providing temporary access to non-downloadable software by means of computer networks, Intranets and the Internet for tracking and tracing, management of deliveries and commodity flows as well as for checking the stock, the authenticity of goods and documents, for tracking and tracing of goods and documents as well as for authentication validation and identity validation; rental of access time to data processing apparatus

**International Classes** 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

**For** Providing transport information; consulting services related to the transport and the storage of goods; providing transport information, namely, collecting and providing information on storage and transport of goods; consulting services related to the transport and the storage of goods, namely, consulting related to providing information on storage and transport of goods; providing transport information, namely, computer-aided provision of real-time information on storage and transport of goods; providing transport information, namely, computer-aided services of providing instructions concerning storage, transport and delivery of goods and stock inventories

**International Classes** 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

**For** Laminating foils, namely, plastic laminating foils consisting of a carrier film for lamination onto a substrate, the carrier film being provided with decoration elements, identification elements and/or authentication elements; stamping foils, transfer foils and laminating foils as well as foil strips, primarily consisting of plastics; transfer foils, namely, plastic foils consisting of a carrier film primarily of plastics and at least one transfer layer that can be detached from the carrier film and applied onto a substrate; semi-finished goods of plastics, namely, self-adhesive foils, sheets, plastic laminates,

laminating foils, stamping foils, for surface decoration as well as for identification devices, authentication devices and money replacement means or for use for banknotes, bills or payment means; security threads of plastics in form of narrow stamping foils, transfer foils or laminating foil strips; laminating foils primarily of plastics with or without a metal layer for application onto a substrate; foils primarily of plastics for use as optical security devices; bands as well as sheets and foils of plastics for identification devices, authentication devices and money replacement means; semi-finished goods, namely, self-adhesive foils, plastic laminates, stamping foils for further manufacture of identification devices, authentication devices and money replacement means; semi-worked synthetic plastic as semi-finished products in the form of self-adhesive foils, laminates, and stamping foils particularly for use in further manufacturing data carriers and information carriers, identification or authentication devices, payment means or money replacement means

**International Classes** 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

**For** Technological consultancy related to the technology field of surface decoration and/or surface coating by means of stamping foils, transfer foils and laminating foils; technological consultancy in the technology field of processes and machines for the transfer of patterns, decors, structures and/or functional surface structures; technological consultancy in the technology field of materials, processes and machines for the application of security elements in form of identification devices, authentication devices and money replacement means, particularly of data carriers and data media in form of foil strips, foil sheetings and foil bands, stickers, markers, labels, threads, plates, chips, tokens, stamps, seals, cards, discs, tags, bands as well as sheets and foils of plastics, paper or metal onto goods and its packaging; technological consultancy in the field of selecting, designing and developing goods suitable for their intended uses as well as using such goods for identification and authentication purposes, namely, concerning possibilities of use and application of security elements in form of foil strips, foil sheetings and foil bands, stickers, labels, threads, tokens, bands, sheets and foils of plastics, paper or metal on goods, bank notes, bills or payment means, particularly for increasing security against forgery; technological consultancy concerning the possibilities of using money replacement means, namely, data carriers, like chips, tokens, cards, discs, bands, sheets and foils of plastics, paper, metal or glass; technical planning of security systems by using of optical devices for authentication of products; technological consultancy for the use of identification devices, authentication devices and money replacement means, namely, data carriers like chips, tokens, bands, sheets as well as foils of synthetic materials, paper or metal; technical planning of security systems for access control, for authentication checks of documents, of money and commercial papers as well as for data protection; computer-based technical data analysis and data conversion; computer consulting regarding hardware and software and IT consulting services; data warehousing services, namely, electronic storage services for archiving electronic data, and electronic data storage; services for updating of information via computers, namely, updating of database software; development and creation, update and maintenance of computer programs for data processing, particularly with respect to databases; development of hardware and software systems for data processing, data storage and data transmission, particularly with respect to databases; encryption, decryption and authentication of information and data; technological consultancy concerning computer security and data protection; electronic data storage; leasing of computing capacity for data processing

**International Classes** 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

## RELATED PROPERTIES INFORMATION

**International Registration** 1231272 **International Registration Date** Oct. 10, 2014 **Claimed Ownership of US Registrations** 2165094

## GOODS AND SERVICES INFORMATION

**For** Precision ceramic components, namely, valves, cartridges, pistons, mechanical housing components, drives or function units, sealing elements, distributing discs, insulators and insulating fittings all of which are specifically adapted for medical engineering applications; all the aforesaid goods of Swiss origin and made of ceramics, particularly of synthetic sapphire

**International Classes** 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

**For** Precision components, namely, parts of machines and apparatus for the construction of machines and apparatus, regulating and control technology as well as the construction of apparatus in analytical chemistry, from inert materials of high mechanical strength, such as hard metal or ceramic, in particular made of industrial sapphire, aluminum oxide, zircon oxide, silicon carbide and silicon nitride, in particular valves, cylinders, pistons and pump heads in the form of individual parts or assembled in complete metering units for extracting agents or measurements in analytical technology as well as multi-way valves for dosing technology; modules in the nature of parts of machines for the construction of machines and

apparatus, namely, discs, cylinders, pistons, valves, casings, flanges, bearings for gearboxes in ceramic, metal alloy, other ceramics and composite materials, such as carbon fiber reinforced plastic, also referred to as CFRP; parts of machines, in particular precision balls, reference balls, measuring sensors, extensions and other special ceramic parts for measuring technology, namely, styli pins, stylis, extensions, balls, ball segments, cylinders, hollow balls, discs, angles, bodies; parts of machines, in particular balls for revolving parts, guides and ceramic bearings, balls for joints; all the aforesaid goods of Swiss origin and made of ceramics, particularly of synthetic sapphire

**International Classes** 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

**For** Precision parts for optics, namely, prisms, lenses, optical windows; all the aforesaid goods of Swiss origin and made of ceramics, particularly of synthetic sapphire

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

## GOODS AND SERVICES INFORMATION

**For** Motorized gears for land vehicles; Anti-theft alarms for vehicles, Back-up warning alarms for vehicles; All of the foregoing for use in relation to motor vehicles

**International Classes** 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

**For** Parts of motors and engines, namely, alternators, generators of electricity, and starters for motors and engines; Gas condensers being parts of machines; Gas compressors and compressors for machines; Valves being parts of machines; Clutches for machines; Fans for motors and engines; Pulleys being parts of machines; Radiators for motors and engines; Automotive radiators, automotive radiator cores; Starter motors and alternators; Component parts and accessories for motors and engines, excluding motors and engines for land vehicles; Electric and electronic ignition cables for motor vehicles; Parts and accessories for use in connection with air conditioners for motor vehicles, namely, air conditioning compressors and air conditioning condensers

**International Classes** 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

**For** Temperature regulators for vehicle engines; Temperature regulators for vehicle heating systems; Gas condensers in this class, not being parts of machines; Evaporators; Valves, namely, thermostatic valves; Electric fans; Air conditioners for motor vehicles; air conditioning receiver dryers; air conditioning thermal expansion valves; automotive heater cores for use in relation to motor vehicles, for use in the automotive industry; Air conditioners for motor vehicles; Air conditioning receiver dryers; Air conditioning thermal expansion valves; automotive heater cores for use in relation to motor vehicles, for use in the automotive industry

**International Classes** 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

**For** Electrical and electronic parts and accessories in this class for motor vehicles, namely, light Globes, Electric Fuses, Electric Cables, Connectors for use with Electric Cables, Batteries, Battery Chargers, Electricity Inverters, Turbo Timers, and Automotive Gauges for measuring exhaust gas temperature; Anti-theft alarms; Fault diagnostic equipment for identifying refrigerant type and purity in automobiles when repairing vehicle air conditioning systems; Electric and electronic ignition cables for motor vehicles; Electronically encoded key fobs for motor vehicles; Microprocessors for use in motor vehicles; Vehicle breakdown warning triangles; Voltage regulators for vehicles; Electric accumulators, for vehicles solenoids; Water and air leak detection tools for use with motor vehicles, motor vehicle engines or related motor vehicles parts; Fuel gauges, temperature gauges, oil pressure gauges, speedometers, tachometers, voltage charge gauges, water temperature gauges; Fuses, fuse links for circuit protection and for use in high-current automotive applications; Electric fuse boxes; Analog multimeters, digital multimeters, electric and electronic multimeters; Apparatus for localization for vehicles via satellites, namely, Global Positioning System devices and satellite navigation systems; Electric and electronic parts and accessories for vehicle trailers, namely, electronic trailer brake controllers, electric trailer plugs for use in connection with motor vehicles, Fire extinguishers for use in land vehicles; Machines for the electrical tuning of vehicles, namely, electronic motor vehicle ignition tuning kits comprised of an electronic control unit that monitors engine performances and delivers re-calculated sensor values to the original engine control unit to increase engine performance; Batteries, including batteries, starter batteries for vehicles; Motor vehicle electric relays; Motor vehicle electric switches; On-board computers for vehicles; Temperature monitors for vehicle engines; Temperature monitors for vehicle heating systems; Voltage regulators for vehicles; Wiring looms and harnesses for vehicles in the nature of electric cables; Battery terminals, battery clamps, and battery mounts; Jump start cables; Electric relays, electric headlight relays, and electric flasher switches; Armatures for use in automobile electrical systems; rectifiers; field coils for use in automotive starters and automotive alternators for use in connection with motor vehicles, motor vehicle engines or related motor vehicles parts; Hydrometers; Electrical switches, namely, electrical rocker switches, electric battery switches, electric headlight switches, electric ignition and isolation switches, electric switches for use in relation to motor vehicles, all for use in the automotive industry; Cruise controls for motor vehicles; Central locking systems, namely, electronic lock assemblies; Automotive battery isolators to isolate additional batteries in automobiles; battery voltage reduction devices for use with automobile batteries; battery voltage inverters to change voltage of automobile batteries; Electrical and electronic wire and cable and related parts and fittings, namely, heat shrink cables and cable covers, all for use in the automotive industry, Electrical controllers for controlling electrical fans in automobiles, cooling fans in automobiles, and thermostatic fans in automobiles; All goods and parts in this class are for use in connection with motor vehicles, motor vehicle engines or related motor

vehicles parts, and all for use in the Mining Industry, Radiator Specialists, Specialist Repairers, Fleets, Industrial, Marine, Manufacturing, Agricultural and RV Industries

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

**For** Filter paper for liquid, gaseous and paste media

**International Classes** 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

**For** Fluid technology, gas technology and lubricating technology installations components of all kinds, namely, pressurized or non-pressurized air, all kinds of hydraulic liquids such as all kinds of hydraulic oils, fuels, water, gases and pasty media apparatus and pressurized or non-pressurized air, all kinds of hydraulic liquids such as all kinds of hydraulic oils, fuels, water, gases and pasty media filters, also referring to such technical application, for filtration and separation technologies, for use in a wide variety of fields; hydropneumatic storage units as machine parts; piston accumulators, bladder accumulators, diaphragm accumulators, bellows accumulators, spring accumulators, in each case being parts of machines and accumulator installations consisting of such accumulators, being parts of machines, including in the field of offshore and deep sea applications; hydraulic, hydropneumatic and reflective sound, vibration and pressure dampers, resonators, silencers, in each case being parts of machines; filtration devices and filters, being parts of, for filtration and separation technologies, usable for all technical, chemical, biological, and process engineering applications, namely, high-pressure, medium-pressure and low-pressure filters, liquid filters, line filters and process line filters, gas filters, including for seal gas systems, cyclone filters and other separating filters, filling filters and ventilation filters, full flow filters and bypass filters, multistage filters, return flow filters, including suction filters and return flow suction filters, tank-integrated filters, including ventilating and drying devices, drum filters and strip winding filters, perforated plate filters and screen filters, offline filters and inline filters and spin-on filters, plastic melt filters, membrane filters, filter units together with draining apparatus for gases and liquids, machine parts; filter component parts, namely, perforated sheet filter elements and screen filter elements for gases and liquids; gap-type tube filter elements, rheological filter elements, flow filter elements, filter candles, filter cartridges, filter housings, filter discs and disc filter elements, filter mats, filter pots, filter cloths formed of fabric of glass, carbon and synthetic, plastic, organic paper, metal stainless steel, textile cotton and coated fibers, filter bags, filter belts and filter packs for liquid and gas media, including all being machine parts; depth filter elements, namely, woven materials made of fibers for filters formed of fabric of glass, carbon and synthetic, plastic, organic paper, metal stainless steel, textile cotton and coated fibers, being machine parts; replacement parts for all the aforesaid goods; coalescers as parts of machines; machine parts, namely, cooling and heating units including heat exchangers as parts of machines for stationary and mobile applications for exchanging heat between liquid and/or gaseous media; machine parts, namely, shut-off equipment, shut-off apparatus, stop valves, switch-over devices and valves being parts for machines, in particular for hydraulic and pneumatic propellants and media, in particular inflow pressure and circulating pressure balances, flow control valves, priority valves, shuttle valves, seat valves and slide valves, throttle valves, screens, directional control valves, check valves, pressure valves, pressure control valves and pressure limiting valves, optionally with indicators and monitors, vent valves; control apparatus being parts of machines for hydraulic and pneumatic installations, namely, flow-dividers and control blocks, including valve control blocks; hydraulic and pneumatic operating cylinders, being parts of machines; hydraulic and pneumatic motors and engines, gears, couplings, pumps and compressors,

in each case being parts of machines; hydraulic and pneumatic drive units for machines, namely, for process engineering, general machine construction and land vehicles, construction machines, machine tools, machines for manufacturing plastics, drives for tools, presses, transport installations, shipping and aeronautics, chemical and reactor technology, mining and iron and steel works, and rolling mills consisting of at least one hydraulic pump, at least one drive motor and at least one container of metal or plastic for liquids; ; machine parts, namely, electrical controlling devices, in particular electric, electro-mechanical and electro-hydraulic control apparatus; lubricating apparatus and equipment and lubricating installations, namely, lubricating equipment; supply apparatus for stationary and mobile application, namely, distributors for hydraulic and pneumatic installations and machines; parts of hydraulic and pneumatic machines, namely, mechanically operated clamping apparatus clamping machine tools; motor-driven hydraulic pressure and feed pumps, being parts of machines, adjustable and non-adjustable; hydraulic drives for machines in particular for elevator controllers, transport controllers and lift controllers, in particular consisting of a hydraulic pump, a drive motor and a liquid container of metal or plastic; machines for industrial washing and cleaning

**International Classes** 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

**For** Filtering devices and filters for industrial applications for heating, steam-generating, refrigerating, drying, ventilating, water supply, water treatment, air-conditioning, and sanitary installations and apparatus, namely, filter coalescers, high-pressure, medium-pressure and low-pressure filters, liquid filters, line filters and process line filters, gas filters, including for seal gas systems, cyclone filters and other separating filters, filling filters and ventilation filters, full flow filters and bypass filters, multistage filters, return flow filters, including suction filters and return flow suction filters, tank-integrated filters for ventilating and drying devices, drum filters and strip winding filters, perforated plate filters and screen filters, offline filters and inline filters and spin-on filters, plastic melt filters, membrane filters, filter aggregates having draining apparatus, and replacement parts for the aforesaid goods; air, oil, gas and water filter component parts not being parts of machines, engines, motors or land vehicles, namely, perforated sheet filter elements and screen filter elements, gap-type tube filter elements, rheological filter elements, flow filter elements, filter candles, filter cartridges, filter housings, filter sheets formed of fabric of glass, carbon and synthetic, plastic, organic paper, metal stainless steel, textile cotton and coated fibers and disc filter elements, filter mats, filter pots, filter cloths formed of fabric of glass, carbon and synthetic, plastic, organic paper, metal stainless steel, textile cotton and coated fibers, filter bags, filter belts, filter packs and depth filter elements including woven fiber materials for filters formed of fabric of glass, carbon and synthetic, plastic, organic paper, metal stainless steel, textile cotton and coated fibers; gas-technical installations and components, namely, gas injectors for disbursing solids and/or liquids for purification and sterilization purposes for use in the automobile industry including mobile hydraulics, the semiconductor industry, the food industry, aeronautics, medicine, pharmacy, oil and gas transport technology, environmental engineering, laboratory and testing technology, household and sanitary systems, and in mining and in the fields of steelworks, power plants, wind-power installations, machine tools, transfer presses and plastic injection moulding machines; heat exchangers not being parts of machines for stationary and mobile applications for exchanging heat between liquid and/or gaseous media; cooling units for industrial purposes and heating installations for media therein

**International Classes** 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

**For** Education services, namely, conducting courses and publishing and issuing of scientific papers in the fields of hydraulics, pneumatics and electrical engineering

**International Classes** 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

**For** Industrial chemicals and chemical preparations for scientific purposes; resins, namely, unprocessed plastics in all forms for use as filtering media for a wide variety of fields; adhesives for industrial purposes, in particular for connecting filter element parts with each other, and for connecting of end caps with pleated or cylindric shaped filter media or filter mats as well as for longitudinal seam connecting of such filter media and filter mats; dust wetting agents

**International Classes** 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

**For** Advertising in the field of fluid technology, in particular hydraulics and pneumatics, including electrical engineering and electronics

**International Classes** 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

**For** Installation, maintenance, repair and replacement of hydraulic, electric and electronic installations, devices and their components of hydraulics and pneumatics; maintenance of mobile and stationary filter systems, cross-flow filtration systems and recovery of solvents systems; maintenance of fluids such as hydraulic and cooling lubricant liquids and gases; waste disposal of tribological systems of others, including filters and filter components in compliance with environmental regulations, including emission standards and other environmental criteria of hydraulics, pneumatics and electrical engineering commissioning of hydraulic, electric and electronic installations, devices and their components of hydraulics and pneumatics

**International Classes** 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

**For** Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking and supervision, life-saving and teaching apparatus and instruments in the diagnostic measurement technology, namely, pressure transducers that convert pressure into analog or digital electrical signals for monitoring and controlling systems, pressure switches for monitoring, controlling, and switching systems, electrical temperature transducers, temperature switches, electronic LCD display units with multi-networking (TCP/IP) capabilities, fluid condition sensors in the nature of liquid level sensors and electric sensors, portable electronic data recorders, angular sensors, inclination sensors and oil condition sensors; electric control and checking installations and components of all kinds, namely, electric sensors, electrical controllers, electrical controlling devices, and electronic regulating and control devices for the operation of hydraulic and pneumatic installations and machines, transformers, degassing units and tank membranes, namely, for use in the automobile industry including mobile hydraulics, the semiconductor industry, the food industry, aeronautics, medicine, pharmacy, oil and gas exploration and transport technology, environmental engineering, laboratory and testing technology, household and sanitary systems, as well as in mining and in the fields of steelworks, power plants, wind power installations, machine tools, transfer presses , plastic injection moulding machines and paper industry; electrical motors,

namely, electronic regulating and controls for the operation of elevators; control equipment and apparatus for elevator controllers for elevators; resonators; indicator, monitor and control apparatus for level, pressure, temperature and quantity for gaseous and liquid media, manometer monitoring switches; switches, monitoring and diagnostic apparatus for use in the electronic measurement technology; apparatus, instruments and components for the conduction, switching, converting, storing, regulating and controlling electricity, namely, accumulators and batteries; electrical transducers; electric actuators; electric sensors, namely, pressure sensors, flow sensors, temperature sensors, level sensors, sensors for detecting state variables of liquids and gases, fluid flow sensors, viscosity sensors, gas sensors, conductivity sensors, sensors for determining relative permittivity, moisture sensors, optical sensors, magnetic sensors, capacitive sensors, chemical sensors, thermoelectric sensors, distance sensors and incline sensors; fluid quality measurement apparatus, namely, particle counters; electric actuators, namely, piezoelectric actuators, electrostatic actuators and magnetic actuators; active and passive electric and electronic components, namely, semiconductors, capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, integrated circuits, rectifiers, transistors, electronic parts and memory devices manufactured by thick film, thin film and solid state technology; microwave antennae; magnets, including in combination with valve switching components, except ignition magnets for motors and engines; optical equipment and apparatus, namely, cameras, microscopes, optical recording apparatus, namely, for analysis and metrology; optical particle counting apparatus; components for electronic apparatus logical elements, electrotechnical and electronic components and units consisting thereof, namely, printed circuits, semiconductor devices, integrated circuits, memory devices in the nature of memory boards, memory cards and semiconductor memory units, electric resistors and microprocessors; circuit boards with electromechanical and electronic assemblies and component parts of computers and data processing installations, and electric and electronic installations for monitoring, testing and controlling industrial working processes and for apparatus and instruments in the mechanical engineering field, namely, semiconductors; electronic, electromechanical and mechanical apparatus, equipment and instruments for computers and systems constructed from the aforesaid goods, namely, the computer peripheral devices for the acquisition, display, output and transmission of data and for manufacturing and process engineering; computers, namely, computers for research, scientific and industrial purposes in technical and scientific applications; data processing programs for these computers recorded on machine-readable data carriers, namely, magnetic disks and tapes and diskettes; computer software for operating pneumatic and hydraulic installations; electronic and electromechanical instruments, devices and equipment parts for manufacturing and engineering, namely, computer peripheral devices for acquisitions, indications, output and transmission of data; electrical dosage dispensers for delivering products; control apparatus and vehicle stabilization system, namely, roll stabilizers; controls for drives of all kinds and for variable speed motors, namely, electronic speed controllers

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

**For** Treatment of materials by applying and structuring electrically conductive, semi-conductive and electrically insulating layers for the production of electric and electronic components; treatment of materials by applying and structuring optical layers; treatment of materials by applying and structuring layers for heat conduction or heat insulation; treatment of oil by cooling, degassing, settling, charge separation and charge removal

**International Classes** 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

**For** Industrial oils and greases; hydraulic oils and engine oils; industrial lubricants and refrigeration lubricants for industrial purposes; dust absorbing compositions and dust binding compositions; fuels and lighting fuels

**International Classes** 4 - Primary Classes **US Classes** 1, 6, 15 **International Class Title** Lubricants and Fuels

**For** Scientific and technological services, namely, scientific research in the fields of hydraulics, pneumatics and electrical engineering; scientific and technical services, namely, analysis and research in the fields of hydraulics, pneumatics and electrical engineering; computer software and hardware design and development; conducting fluid and gas technology and chemical analysis in the fields of hydraulics, pneumatics and electrical engineering; chemistry services, namely, chemistry consultation, laboratory research and analysis in the field of chemistry; engineering services; physics research; technical research services in the fields of hydraulics, pneumatics and electrical engineering; mechanical research; research in the field of microsystems engineering; chemical research; consultancy in the field of oil state monitoring; consultancy in the field of oil treatment, namely, consultancy with regard to preventing the aging of oil, foreign particles in oil, including water, rust and other pollutants, bearing wear, corrosion and damage; scientific and technological services, namely, testing and measuring in the field of fluid technology, sensor technology, environmental technology and process engineering, technology supervision and inspection in the fields of fluid technology, environmental technology and process engineering, monitoring of pneumatic and hydraulic installations to ensure proper functioning in the fields of fluid technology, sensor technology and process engineering; surveying; materials testing; engineering services, namely, technical project planning; providing quality control for others; writing of data-processing programs; computer programming; research and development for others, namely, research and development of new products; research and development of processes for others for the manufacture of new products using thin-film technology; research and development of the structures and layouts of new products for others in the fields of hydraulics, pneumatics and electrical engineering; development for others of sensors and measuring processes in the fields of hydraulics, pneumatics and electrical engineering; implementation of optimization work procedures for others, including simulations of these areas, namely, computer simulation based on computer programs for others; research and development measuring technologies for others in the fields of hydraulics, pneumatics and electrical engineering

**International Classes** 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

**For** Ironmongery and small items of metal hardware, namely, screws; fittings of metal for fastening storage units, filters, valves and control blocks, and gas, liquid and electric conduits; fittings for gas and liquid apparatus and for gas or liquid conduits of metal; metal fasteners, namely, bolts, screws and rivets; metal pipe and cable clips; metal couplings for liquid gas conduits, flexible tubes of metal; metal supports for couplings for liquid and gas conduits, screw couplings and adapters and sealing caps; metal storage tanks, namely, hydraulic tanks; metal housings and parts therefor, namely, storage housings, filter housings and valve blocks for gas and liquid circuits

**International Classes** 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

## MARK INFORMATION

**Standard Character Claim** Yes. The mark consists of standard characters without claim to any particular font style, size, or color. **Mark Drawing Type** 4 - STANDARD CHARACTER MARK

## GOODS AND SERVICES INFORMATION

**For** Providing non-downloadable pre-recorded audio, visual and audiovisual works via wireless networks on a variety of topics of general interest; Entertainment and educational services, namely, providing online portals, podcasts, webcasts, web-based applications, blogs, news, articles, multimedia presentations, and commentary in the fields of entertainment, movies, television, audiovisual works, music, audio works, books, theatre, literary works, sporting events, recreational activities, leisure activities in the nature of hobbies, sports tournaments, art, dance, musicals, culture, sporting exhibitions and educational and entertainment exhibitions in the nature of current events, sports instruction, clubs, radio, comedy, contests, visual works of art, games, gaming, festivals, museums, parks, cultural events, concerts, publishing, animation, current events, and fashion shows; Providing a searchable database featuring entertainment information, news, commentary, and reviews, all in the field of audio, video and audiovisual content, namely, movies, TV shows, videos, and music; Providing non-downloadable movies and other audiovisual content in the nature of films, TV shows, music videos, and entertainment videos via a video-on-demand service; Providing non-downloadable interactive resources in the form of interactive information databases, catalogs, directory publications, and programming guides on the subjects of motion pictures, television programming, videos, music videos, and music tailored to viewer's programming preferences; Providing entertainment information regarding audio, video and audiovisual content via social networks; Providing information in the fields of entertainment, including, movies, television, audiovisual works, music, audio works, books, theatre, literary works, sporting events, recreational activities, leisure activities, tournaments, art, dance, musicals, exhibitions, sports instruction, clubs, radio, comedy, contests, visual works, games, gaming, festivals, museums, parks, cultural events, concerts, publishing, animation, current events, fashion, multimedia presentations, history, language, liberal arts, math, business, science, technology, hobbies, culture, sports, arts, psychology, and philosophy

**International Classes** 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

**For** Dissemination of advertising for others via the Internet and other communications networks; Developing and providing marketing programs for advertisers, marketers, and content providers; Providing a searchable website, portal, forum, application, and database where advertisers, marketers, and content providers can reach, engage, and interact with online users for the purposes of promotion or advertising; Retail store services featuring downloadable audio works, visual works, audiovisual works, computer software and hardware, video games, consumer electronics, and electronic publications featuring books, magazines, newspapers, periodicals, newsletters, journals and manuals on a variety of topics provided via global computer networks, wireless networks, and electronic communications networks; providing online portals, podcasts, webcasts, blogs, news, articles, and commentary in the fields of multimedia advertising and marketing presentations; web-based catalog services featuring entertainment information, news, commentary, and reviews about audio, video and audiovisual content, namely, movies, TV shows, videos, and music

**International Classes** 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

**For** Software and a mobile software application for transmitting, accessing, receiving, uploading, downloading, encoding, decoding, streaming, broadcasting, sharing, displaying, formatting, manipulating, organizing, book marking, tagging, storing, caching, and transferring electronic works, namely, photos, videos, text, data, images, documents, content, visual works, audio works, audiovisual works, multimedia works, books, literary works, files, and other electronic works via portable electronic devices, hand-held devices, electronic reading devices, portable media players, mobile phones, smartphones, portable digital devices, computers, and other communications networks; Application program interface (API) software for integration of video, audiovisual, and multimedia content and functionality into websites, software applications, portable electronic devices, hand-held devices, electronic reading devices, portable media players, mobile phones, smartphones, portable digital devices, computers, and other communications networks; Software for developing and publishing applications for interactive video streaming; application development computer software programs; Computer software development kit consisting of computer software development tools for the development of content and service delivery across global computer networks, wireless networks, and electronic communications networks; User generated content sharing software; Software that enables users to designate specific content for future viewing; Computer software for personalized, interactive television (TV) programming and for use in generating, displaying and manipulating visual media, graphic images, photographs, illustrations, digital animation, video clips, film footage and audio data, and for social networking; Downloadable videos, audio works, visual works, audiovisual works and electronic publications featuring books, magazines, newspapers, periodicals, newsletters, journals and manuals on a variety of topics; Computer software that facilitates online services for social networking; Character and voice recognition software; Electronic mail and messaging software; Computer software for accessing, browsing and searching online databases; Software for filtering internet searches that separates desired results from unwanted and inappropriate websites, and software that allows parental controls

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

**For** Online social networking services; Online social networking services in the fields of entertainment, publication, and application development; Providing online computer databases and on-line searchable databases in the field of social networking; Providing a social networking website for entertainment purposes; Providing a searchable database featuring audio, video and audiovisual content available through the Internet, telecommunications networks, and wireless telecommunications networks in the field of online social networking

**International Classes** 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

**For** Communication via portable electronic devices, hand-held devices, electronic reading devices, portable media players, mobile phones, smartphones, portable digital devices, computers, and other communications networks for transmitting, accessing, receiving, uploading, downloading, encoding, decoding, streaming, broadcasting, sharing, displaying, formatting, manipulating, organizing, book marking, tagging, storing, caching, and transferring voice, audio, visual images, data, books, photos, videos, text, documents, content, audiovisual works, multimedia works, literary works, files, and other electronic works; Streaming of audio, visual and audiovisual material via the Internet or other computer or communications network; Providing online chat rooms, website forums, portals, and communities that allows users to share videos, text, and electronic works, namely, books, data, images, documents, photos, visual works, audio works, audiovisual works, multimedia works, podcasts, webcasts, literary works, files, and other electronic works; Providing an online website forum for the transmission of messages among computer users concerning ratings, reviews, and recommendations related to video, audio, audiovisual, and other electronic works; Telecommunications services, namely, providing access to online directories, databases, current event information, blogs, applications, and material in the entertainment and literary fields; Electronic mail services; Interactive broadcasting and webcasting services over the internet and telecommunications networks; network consulting services in the field of telecommunication services, namely, transmission of photos, videos, text, data, images and other electronic works via telecommunications networks

**International Classes** 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

**For** Storage of electronic media, namely, images, text, video, and audio data

**International Classes** 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

**For** Providing on-line network services that enable users to share content, photos, videos, text, data, images and other electronic works relating to entertainment, including, movies, television, audiovisual works, music, audio works, books, theatre, literary works, sporting events, recreational activities, leisure activities, tournaments, art, dance, musicals, exhibitions, sports instruction, clubs, radio, comedy, contests, visual works, games, gaming, festivals, museums, parks, cultural events, concerts, publishing, animation, current events, fashion, multimedia presentations, history, language, liberal arts, math, business, science, technology, hobbies, culture, sports, arts, psychology, and philosophy; Providing an on-line network environment, including a website and forums, that features technology that enables users to share content, photos, videos, text, data, images and other electronic works relating to entertainment, including, movies, television, audiovisual

works, music, audio works, books, theatre, literary works, sporting events, recreational activities, leisure activities, tournaments, art, dance, musicals, exhibitions, sports instruction, clubs, radio, comedy, contests, visual works, games, gaming, festivals, museums, parks, cultural events, concerts, publishing, animation, current events, fashion, multimedia presentations, history, language, liberal arts, math, business, science, technology, hobbies, culture, sports, arts, psychology, and philosophy; Hosting of third party digital content, software applications, photos, videos, audio, visual, audiovisual, text, data, images, websites and other electronic works on global computer networks, wireless networks, and electronic communications networks; Providing a website, including forums, featuring temporary use of non-downloadable software that gives computer users the ability to transmit, access, receive, upload, download, stream, broadcast, display, share, format, manipulate, organize, bookmark, store, transfer, and cache photos, videos, audio, visual, audiovisual, text, data, images, websites, and other electronic works; Interactive hosting services that allow users to publish and share their own photos, videos, text, data, and images online; Providing temporary use of non-downloadable software for integration of video, audiovisual, and multimedia content and functionality into websites, software applications, portable electronic devices, hand-held devices, electronic reading devices, portable media players, mobile phones, smartphones, portable digital devices, computers, and other communications networks; Providing temporary use of non-downloadable software for developing and publishing applications for interactive video streaming; Providing temporary use of non-downloadable user generated content sharing software. Providing temporary use of non-downloadable computer software for personalized, interactive television (TV) programming and for use in generating, displaying and manipulating visual media, graphic images, photographs, illustrations, digital animation, video clips, film footage and audio data, and for social networking; Providing temporary use of non-downloadable character and voice recognition software; Providing temporary use of non-downloadable electronic mail and messaging software; Computer hardware, software, application, and network consulting services; Digital and electronic file data transfer from one format to another; Providing search platforms and web-based applications to allow users to request and receive content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Graphic design services; Design of advertisements and advertising material for others; Software as a Service (SAAS) featuring software for use in connection with audio, video and digital content subscription service and one-time purchases of audio, video and digital content, namely, allowing users to pay for and create seller content; Providing temporary use of online non-downloadable software that enables users to designate specific content for future viewing; Creating an online community for computer users to participate in discussions, obtain feedback, form virtual communities, and engage in social networking; Maintenance and updating of software relating to computer, Internet and password security; Design and development of computer software; Computer consulting in the field of configuration management for portable and handheld electronic devices; Providing temporary use of online non-downloadable software, namely, software for filtering internet searches that separates desired results from unwanted and inappropriate websites, and software that allows parental controls; Computer software installation and maintenance; Providing a website that gives computer users the ability to transmit, access, receive, upload, download, stream, broadcast, share, display, format, manipulate, organize, book mark, tag, store, cache, and transfer photos, videos, text, data, images and other electronic works; Providing temporary use of non-downloadable analytics software, namely, software that provides statistics about the behavior of viewers of online videos, movies, music, pictures, images, text, photos, games, and other user-generated content

## GOODS AND SERVICES INFORMATION

**For** Sawmill machinery equipment, namely, tilt hoists, slow down belts, positioning fences, board turners, lath placers, speed-up roll cases, lug loaders, lumber transfers, stick placers, drop out gates, ending transfers and rolls, sorter feeders, vertical bin sorters, floor chains, package transfers, package roll cases, unscramblers, lumber stackers, trimmers, dunnage placers, centering transfers, landing tables and tray sorters

**International Classes** 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

**For** Distributorship services and retail outlets featuring sawmill machinery equipment and control systems for industrial equipment

**International Classes** 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

**For** Maintenance services in the nature of field servicing of industrial equipment, configuration and installation of control systems for industrial equipment, installation of sawmill equipment and repair services by means of retrofitting sawmill equipment

**International Classes** 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

## MARK INFORMATION

**Standard Character Claim** No **Mark Drawing Type** 2 - AN ILLUSTRATION DRAWING WITHOUT ANY WORDS(S)/ LETTER(S) **Description of the Mark** The mark consists of a three-dimensional design configuration that is applied to all relevant cylindrical adjustment surfaces (i.e. the knobs and bells) of an archery or rifle scope or sight. The design is marked by scalloped knurling that is: (1) uniform and proportional in the width of the elevations and depressions on the cylindrical adjustments; and (2) straight, unbroken and running parallel to the cylindrical adjustment surfaces. Only the scalloped design on the cylindrical adjustment surfaces, depicted in solid lines, constitutes the mark; the rest of the product design depicted in broken lines is not part of the mark and serves only to show the position of the mark on the scope or sight. **Color Claimed** Color is not claimed as a feature of the mark. **Acquired Distinctiveness** In whole
