For Ducts, not of metal, for vehicle ventilating and air-conditioning installations

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For motor vehicle parts, in particular components, assemblies, equipment and accessories for use and fitting in motor vehicles, namely, motorcycle brake levers, structural repair parts for trucks, trailers, and other motor vehicles; air pumps for motorcycles, windshield wiper pumps; hydraulic components used in hydraulic systems in vehicles, namely, cable and hose systems for liquids, gases, air, water, oil, fuel, brake fluid and connectors therefor comprised of fuel line hoses, power steering hoses, motorcycle clutch cables; valves for vehicles, namely, valves for vehicle tires, brake air valves for land vehicles; electric motors for land vehicles, couplings for land vehicles, drives being electric drives for vehicles; transmissions and transmission elements and transmission housings, namely, transmission belts and transmission cases, all for motor land vehicles

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For joints being parts of internal combustion engines; oil, air and fuel filters for automobile engines; carburetors; transmission devices for machines, namely, machine couplings and bearings as parts of machines; compressors for air conditioning apparatus for land vehicles; water pumps for land vehicles; motors and engines except for land vehicles, being for adjustment systems in the nature of belt retractors; electric skull drills, electric impact drills, pneumatic and electric jacks and electric animal shearers; drives for land vehicles, in particular for adjustment systems in motor vehicles for operating motor vehicle parts and control devices, electric control units for electric BLDC motors, namely, vehicle pneumatic and hydraulic compressors, air compressor for vehicles, compressors as parts of motors and engines; engines, other than for land vehicles, namely, for electric wheelchairs, electric skateboards, electric surfboards, electric foils and dive propulsion vehicles; electric propulsion systems for boat engines comprised of boat motors, electric fans, ventilators and blowers for engines; vehicle

pneumatic and hydraulic compressors, air compressor for vehicles, compressors as parts of motors and engines; engines, namely, for electric surfboards, electric foils not being land vehicles, dive propulsion vehicles not being land vehicles, compressors, electric propulsion systems comprised of boat engines and boat motors, engines not for land vehicles; drives for motors in land vehicles and general machine parts, namely, hoods and blades; oil, air, water and fuel filters for engines and motors for land vehicles; fuel, oil, energy recovery systems, namely, electric engines as generators, namely, systems comprised of fuel injectors, fuel and oil filters, oil separators; water pumps for land motor vehicles

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For heating and air conditioning installations for vehicles; fans and ventilation modules for vehicles, namely, brushless electric fans; apparatus for heating, refrigerating, air conditioning and ventilating systems in vehicles, namely, brushless electric fans; air control elements, namely, brushless electric fans and brushless electric valves being steam valves, valves for air conditioners

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For electrical integrated control systems for use in automobiles; instruments and cables for electricity, namely, electric wire and cable for use in automobiles; motor vehicle electrics and motor vehicle electronics, namely, computerized vehicle engine analysers, automatic indicators of low pressure in vehicle tires, vehicle safety equipment being back-up sensors and cameras; monitoring apparatus and instruments for motor vehicles, in particular for measuring and/or influencing current, voltage, magnetic field strength and field orientation, and for measuring time, position, speed, acceleration, routes and longitudes, namely, voltage testers, direct current converters, speedometers, acceleration sensors; electronic circuits and components being connectors for electronic circuits all for motor vehicles; automatic control and regulating devices for motor vehicles, namely, voltage regulators for vehicles; switches, namely, electric and electromechanical power switches, electric relays, power current switches; electric line connectors, including with earthing contacts, all for motor vehicles; printed circuits and circuit board arrangements for motor vehicles, including flexible circuit boards; temperature indicators for motor vehicles ; batteries, acoustic couplers, switchboards and voltage regulators, for motor vehicles; circuit boards; testing devices for motor vehicle parts, in particular for conducting crash, stress and endurance tests

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For non-metallic flexible pipes, tubes, hoses for use in the automotive and aircraft industry and fittings therefor, namely, valves being valves of rubber or vulcanized fiber, rubber clack valves for use in water hoses or pipes made of elastomer or thermoplastic materials; seals, namely, non-metal sealing rings for use as connection seals; insulating materials and articles, namely, heat protection materials, namely, insulating tiles and insulating fabrics

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For hand jacks, replacement and structural parts for all the aforesaid goods; accessories for all the aforesaid goods, namely, stands for hand jacks

GOODS AND SERVICES INFORMATION

For Surgical apparatus and instruments; apparatus for supplying medical gas, namely, therapeutic devices for delivering specifically engineered pressure and gas mixtures for medical benefit; medical gas apparatus and instruments, namely, central gas distribution units in the nature of centralized medical gas distribution systems for the delivery of oxygen, nitrous oxide and medical gases to multiple locations within a medical facility consisting of gas cylinders, gas containers, tubing, valves and ports, stabilizers in the nature of stabilizer devices to stabilize and maintain pressure in medical gas cylinders and containers, pressure monitors, regulators in the nature of devices to regulate air and gas pressure in medical gas cylinders and containers, flow measuring devices in the nature of devices to measure gas flow in medical gas cylinders, containers and gas delivery systems, gas outlets in the nature of devices to release, capture and transport medical gases in medical gas delivery systems, valves for use in medical apparatus and instruments in the nature of valves to control the flow or release of medical gases in centralized gas delivery systems, cut-off valves in the nature of valves to stop the flow of medical gases in medical gas delivery systems, and speed couplings being parts of medical apparatus and instruments, all sold as a unit for medical applications; oxygen concentrators for medical applications, oxygenators for medical use; respiratory therapy instruments and medical masks, namely, respiratory masks for medical purposes, oxygen inhalers for medical use and oxygen masks for medical use

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Machines and machine tools for supply and usage of gas; regulators and pressure regulators being parts of machines; pressure regulators being parts of machines; valve regulators being parts of machines; high flow regulators being parts of machines; cylinder pressure regulators being parts of machines; line pressure regulators being parts of machines; point of use regulators being parts of machines; pressure controller regulators being parts of machines; valves and check valves being parts

of machines; pressure valves being parts of machines; control valves being parts of machines; regulating valves being parts of machines; safety valves being parts of machines; metal safety valves being parts of machines; high pressure valves being parts of machines; shut off valves being parts of machines and non-return valves being parts of machines; gas evacuation valve kits being parts of machines; hydraulic valves being parts of machines; valves operated automatically by hydraulic control being parts of machines; valves operated automatically by pneumatic control being parts of machines; ball valves being parts of machines; cylinder valves being parts of machines and cylinder combination valves being parts of machines; intake and distributor manifolds for pipelines, being part of machines; compressors as part of machines, compressors for gases, rotary compressors; machines and machine tools for cutting materials and welding, gas cutting and welding machines, metal cutting machine tools, gas-operated and electric soldering apparatus and soldering equipment in the nature of soldering irons; burners and nozzles being parts of cutting machines; gas-operated and electric torch welding apparatus and burner guns; welding and soldering torches, gas operated blow torches, cutting torches, cutting machines, electrodes for welding machines, arrestors as structural parts of welding torches; electric arc welding machines and apparatus; cutting and welding sets in the nature of electric welding machines; combination torches and combination cutters, namely, cutting torches; mechanical power-operated hose reels; couplings for machines, adaptors for pipes being parts of machines, adaptor fittings being parts of machines; extension bars for power tools; filters for cutting machines; pressure filters for cutting machines; diaphragm valves being parts of machines, diaphragm shut off valves being parts of machines, diaphragm regulating valves being parts of machines; check valves of metal being parts of machines; pressure release screws being parts of machines; manifolds being parts of machines; distributor manifolds being part of machines; mechanical seals being parts of machines, pressurized seals being parts of machines; purge blocks being parts of machines; air suction machines, suction nozzles being parts of air suction machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Gas cleaners and purifiers, gas purifying apparatus and installations, namely, gas purification machines and gas scrubbers; regulating and safety apparatus and accessories for gas installations, namely, gas regulators and gas pressure regulators; safety valves for gas apparatus; stop valves for regulating gas; and pressure relief valves in the nature of regulating accessories for gas pipes and lines; pressure controllers, namely, gas regulators in the nature of pressure flow valves, gas regulators in the nature of gas supply panels, gas regulators in the nature of supply pressure regulators, gas regulators in the nature of gas pipe pressure regulators, gas regulators in the nature of gas bottle pressure regulators, gas regulators in the nature of console pressure regulators; installations for controlling the flow of gases, namely, gas regulators for gas pipes; gas regulators; gas line regulators; central gas distribution units for gas apparatus primarily consisting of gas regulators and also including control and safety apparatus being regulating accessories for gas apparatus; cryogenic valves used in the transport and storing of cryogenic gasses, namely, regulating accessories for gas pipes and lines; level control valves, for the control of changes in the height of a liquid in a gas or fuel line; safety valves for gas apparatus and gas pipes, namely, reverse flow check valves; stop valves being safety apparatus for gas apparatus, namely, reverse flow check valves; steam valves with pipe threads and welded threaded joints, namely, membrane check valves, expansion bellow control valves, pneumatic valves, gland seal housing valves all for use with industrial and medical gas supply systems; structural fittings for gas supply installations and gas systems in the nature of gas regulators and gas condensers other than parts of machines, namely, welded threaded joints, reducing adapters, connector cables, consoles, safety valves, check valves, bottle connector double valves, filters, quantity indicators, check valves with integrated filters, double valves and three-way valves; gas supply installations and systems in the

nature of gas regulators and gas condensers other than parts of machines; installations for controlling the flow of gases in the nature of gas regulators and gas condensers other than parts of machines; first stage gas flow regulators; second stage gas flow regulators; stop valves being safety apparatus for gas apparatus in the nature of regulating accessories for gas pipes and lines; ball valves in the nature of regulating accessories for gas pipes and lines; flame arrestors in the nature of regulating accessories for gas pipes and lines; regulating accessories for gas pipes and lines; gas water heaters; humidifiers

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Measuring apparatus and instruments, namely, gasometers, pressure measuring apparatus; flowmeters; flow selectors, namely, electric flow control installations and flow regulators for commercial use; pressure gauges and pressure indicators; safety oxygen distribution regulators; manometers; contact manometers; pressure sensors and piezoelectronic pressure sensors; measuring, detecting and monitoring instruments, indicators and controllers, namely, level, resistance and temperature measuring instruments, and instruments for measuring, testing and checking the temperature, pressure, quantity and concentration of gas and liquids; gas detectors, infrared detection apparatus; alarm monitoring systems; electronic monitoring systems for monitoring flowmeters, electric currents and electrical signals, and for collecting operational data and settings from gas and liquids delivery systems; pressure monitoring instruments, namely, pressure recorders; flow monitoring instruments, namely, industrial gas flow monitors; pressure monitors in the nature of pressure sensors and pressure transmitters; gas flow monitors;pressure regulators, namely, high pressure regulators, line pressure regulators, cylinder pressure regulators, back pressure regulators, single-stage pressure regulators, dual-stage pressure regulators all for industrial purposes; pressure gauges; aneroid pressure gauges; contact pressure gauges; gas supply electronic indicator panels; solenoid valves; flow meters; flow controllers and mass flow controllers, namely, gas flow meters; flow switches for monitoring and controlling the flow of gases or liquids; alarm monitoring systems for gas and gas insufficiency; control devices, namely, electrical controlling devices; signal devices, namely, signal conditioning and communication devices for industrial process control; signaling transmitters and receivers, namely, wireless transmitters and receivers; cylinder scales; vacuum generators, namely, suction ejectors being valves for controlling and regulating the flow of gases or liquids not being parts of plumbing, heating, cooling installations or machines; downloadable software for connecting to, monitoring and controlling medical apparatus and instruments and medical gas apparatus and instruments, and for connecting to, monitoring and controlling the operation of gas equipment, gas supply, gas distribution and medical gas supply and distribution, healthcare gas supply and distribution, industrial gas supply and distribution and high purity gas supply and distribution; apparatus, instruments and installations in the nature of computer hardware for connecting to, monitoring and controlling medical apparatus and instruments; electric, electronic and photoelectronic sensors; liquid level sensors; motion detectors; infrared detectors and gas detectors; wireless alarm sensors; pressure sensors and motion detectors for monitoring and obtaining of information; monitors, receivers, remote control receivers, electric and electronic devices in the nature of wireless receivers and transmitters for monitoring and controlling the function, performance, status and location of other electrical or electronic devices or systems, apparatus or instruments; devices in the nature of wireless receivers and transmitters for transmission of clinical information; safety screens, protective helmets, welding helmets and safety goggles for torch welding; protective helmets; welding helmets; autodarkening welding helmets; hand shields in the nature of protective work gloves; protective workwear in the nature of clothing for protection against accidents, irradiation and fire; earthing clamps in the nature of earth terminals; electric and electronic cables and cable connectors; copper electric cables; electrical control panels and terminal blocks; gas savers in the nature of shut off valves, gas

alarms and gas leak alarms, and electronic gas conserving devices being electronic valves for controlling gas; signaling apparatus for the optical and acoustic indication of gas limit warnings, namely, gas alarms and gas leak alarms

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Telecommunication services, namely, transmission of voice, audio, visual images and data by telecommunications networks, wireless communication networks, the Internet, information services networks and data networks, provided via platforms and portals on the Internet and other media; telecommunications services, namely, distribution of data via a global computer network or the internet; telecommunications services, namely, providing access to information and data in the nature of providing multiple-user access to a global computer information network; telecommunications services, namely, providing access to databases featuring information and data for monitoring medical apparatus and instruments, and gas apparatus

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Custom manufacture, custom construction and custom assembly of machines and machine tools for supply and usage of gas, machines and machine tools for cutting and welding, measuring apparatus and instruments, pressure measuring and flow measuring apparatus, medical apparatus and instruments and apparatus for supplying medical gas, gas cleaners and purifiers, gas purifying apparatus and installations, installations for controlling the flow of gases, and central gas distribution units

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Development and design of databases; development and design of computer software and hardware for monitoring and control of apparatus and instruments; providing virtual computer systems and computer environments through cloud computing for monitoring and controlling apparatus and instruments; monitoring of computer systems controlling medical apparatus and instruments to detect breakdowns; cloud computing featuring software for connecting to, monitoring and controlling medical apparatus and instruments and medical gas apparatus and instruments, and for connecting to, monitoring and controlling the operation of gas equipment, gas supply, gas distribution and medical gas supply and distribution, healthcare gas supply and distribution, industrial gas supply and distribution and high purity gas supply and distribution; cloud computing featuring application software for connecting to, monitoring and controlling medical apparatus and instruments and medical gas apparatus and instruments, and for connecting to, monitoring and controlling the operation of gas equipment, gas supply, gas distribution and medical gas supply and distribution, healthcare gas supply and distribution, industrial gas supply and distribution and high purity gas supply and distribution; platform as a service (PaaS) featuring computer software platforms for connecting to, monitoring and controlling medical apparatus and instruments and medical gas apparatus and instruments, and for connecting to, monitoring and controlling the operation of gas equipment, gas supply, gas distribution and medical gas supply and distribution, healthcare gas supply and distribution, industrial gas supply and distribution and high purity gas supply and distribution; software as a service (SaaS) featuring computer software for connecting to, monitoring and controlling medical apparatus and instruments and medical gas apparatus and instruments, and for connecting to, monitoring and controlling the operation of gas equipment, gas supply, gas distribution and medical gas supply and distribution, healthcare gas supply and distribution, industrial gas supply and distribution and high purity gas supply and distribution

GOODS AND SERVICES INFORMATION

For Medical and veterinary surgical apparatus and instruments; examination equipment, namely, medical examination gloves; monitoring equipment, namely, medical respiratory monitors; pipetting instruments for medical use, namely, dropping pipettes for medical purposes; medical syringes; analyzers for medical use, namely, hematology analyzers for medical diagnostic uses; apparatus for use in medical or veterinary analysis for conducting analyses of blood and urine of human or animal origin; analysis apparatus for conducting of immunoassays for medical purposes; pulse and respiration measuring devices for medical use; measuring instruments adapted for medical use, namely, instruments for measuring blood sugar for medical purposes; manual probe heads for medical purposes; automated apparatus and instruments for blood component separation for medical purposes; dispensers for administering and selecting reagent instruments for medical use; medical analysis apparatus in the nature of medical diagnostic instruments for the analysis of body fluids, for use in laboratories; medical instruments for drug abuse testing, namely, multi-drug testing cups for drug use testing purposes; cell culture instruments for medical use, namely, cell culture chambers; surgical analysis robots for medical purposes; probes for medical purposes; structural and replacement parts for all the aforesaid goods

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Machines, namely, container filling machines, industrial robots; robotic filling machines; pneumatic vacuum controllers for machines; pumps, namely, screw pumps, rotary pumps, pneumatic pumps, electric pumps, vertical turbine pumps, reverse osmosis pumps, axial flow pumps, circulating pumps, centrifugal pumps, turbomolecular pumps, vacuum pumps, compressed air pumps, all being parts of machines; pumps as parts of machines; structural and replacement parts for all the aforesaid goods

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Analysis and diagnostic apparatus, not for medical purposes, for the detection of alcohol, drugs, heavy metal, toxin, arsenic, chromium, pesticide, herbicide, petroleum and toxin for laboratory and research use; scientific measuring instruments, namely, conductivity tests for measuring electrical conductivity;, medical laboratory detecting and monitoring research instruments for detecting and monitoring the content of alcohol, drugs, heavy metal, toxin, arsenic, chromium, pesticide, herbicide, petroleum and toxin in biological samples;, temperature indicators and controllers for laboratory use; apparatus for scientific research and laboratories, namely, laboratory centrifuges for scientific research; checking apparatus and instruments for measuring and checking the temperature, pressure, quantity and concentration of gas and liquids, measuring apparatus for temperature and humidity levels in gases and solid substances, supervising instruments for measuring and checking the temperature, pressure and concentration of gas and liquids; dosimeters; apparatus and units for dosage, measuring and monitoring of pre-determined dosages of liquids, namely, automatic dosage apparatus for laboratory use; liquid dosage devices that measure the amounts to be dispensed; checking apparatus and instruments for measuring and checking the temperature, pressure, quantity and concentration of gas and liquids for use in laboratories, measuring apparatus for temperature and humidity levels in gases and solid substances for use in laboratories, supervising instruments for measuring and checking the temperature, pressure and concentration of gas and liquids for use in laboratories; mechanical devices in the nature of dosage dispensers for the contactless dispensing of preset portions of liquids not for medical purposes; mechanical devices in the nature of dosage dispensers for the contactless generation of preset portions of drops of liquid not for medical use; mechanical devices in the nature of dosage dispensers for the contactless dispensing of preset portions of small volumes of liquid, not for medical use; mechanical devices in the nature of dosage dispensers for the pneumatic generation of preset portions of drops of liquid in the lower ml range specifically below 100 ml, not for medical use; mechanical devices in the nature of dosage dispensers for the contactless generation of preset portions of drops of liquid with volumes in the lower ml range specifically below 100 ml, not for medical use; mechanical devices in the nature of dosing heads being dosing dispensers for the contactless dispensing of preset portions of small volumes of liquid, not for medical use; dosing systems, comprised of mechanical dosage dispensers for laboratory use for dispensing preset potions of liquids in jet mode, not for medical use; dosing systems comprised of mechanical dosage dispensers, for laboratory use for dispensing preset portions of liquids in open-jet mode, not for medical use; metering apparatus in the nature of mechanical dosage dispensers for aspirating and dispensing preset portions of liquids for laboratory use and scientific purposes, not for medical use; laboratory pipetting devices for aspirating and dispensing dosing liquids for laboratory use and scientific purposes; automatic pipetting work stations comprised of laboratory pipettes and computer hardware and software for controlling the pipettes; liquid handling workstations for scientific research and laboratories comprised of dispensing heads in the nature of dosage dispensers for the contactless dispensing of small volumes of liquid, electric dispensing actuators, laboratory robots, sensors for measuring temperature, pressure, quantity, composition and concentration of liquids, and washing modules for scientific research and laboratories and not for medical use; laboratory equipment systems consisting of automatic pipetting workstations connected to one another and scientific laboratory apparatus for storage and management of biological, clinical, chemical, forensic and biopharmaceutical substances and samples; automatic pipetting workstations for handling and transporting liquids using a number of liquid transfer installations, not for medical purposes comprised of laboratory pipettes and computer hardware and software for controlling the pipettes; laboratory apparatus and instruments for use in analyzing biopharmaceutical process

applications, not for medical purposes; laboratory apparatus and instruments for use in analyzing biopharmaceutical process installations, not for medical purposes; laboratory apparatus and instruments for media and buffer preparation, not for medical purposes, namely, pH meters and sensors and detectors for measuring reduction-oxidation potential; laboratory apparatus and instruments for sample preparation and processing in analytical laboratories, namely, pH meters and sensors and detectors for measuring reduction-oxidation potential; laboratory apparatus and instruments for the automated transport of liquids and sample carriers, not for medical purposes, namely, automated liquid handlers and automated sample handlers; laboratory apparatus and instruments, namely, diluters for sample preparation and processing in analytical laboratories; laboratory apparatus and instruments, namely, laboratory dispensers for use in sample preparation and processing in analytical laboratories; diluter and dispenser systems for sample preparation in analytical laboratories, being semi-automated liquid handlers comprising downloadable graphical user interface software and syringe pumps; laboratory apparatus and instruments for in-vitro diagnostics, not for medical purposes, namely, calibrators for calibrating pipetting machines; wired and wireless communication devices, namely, transmitters and receivers; wireless and wired communications apparatus for the transmission of data; automated sampling devices for laboratory use and scientific purposes, namely, pipette racks for laboratory use; calculators, data recording and processing apparatus; computers; tablet computers; portable computers; automated laboratory pipettes; laboratory pipettes; piston laboratory pipettes; air displacement laboratory pipettes; electronic air displacement laboratory pipettes; mechanical air displacement laboratory pipettes; laboratory pipettes operating on the principle of air displacement; handheld laboratory pipettes; electronic handheld laboratory pipettes; mechanical handheld laboratory pipettes; laboratory pipettes for aspirating and dispensing liquids for laboratory use and scientific purposes; pipette tips being laboratory consumables; pipettors, namely, laboratory pipettes; laboratory equipment, namely, pipetting channels; laboratory equipment, namely, pipetting heads; laboratory equipment, namely, pipetting arms; laboratory equipment, namely, feeders for pipettes; vacuum apparatus for laboratory use, namely, ultra-high vacuum chambers; vacuum pumps for laboratory use; laboratory apparatus and instruments for automated refilling of reagents, namely, syringe pumps; laboratory filters for pipettes or pipette tips; probes and laboratory pipettes for scientific purposes; laboratory pipette accessories, namely, pipette holders, pipette carriers and pipette stands; pipette racks for laboratory use; holders for pipette carriers for laboratory use; reusable dispenser syringes for laboratory use; disposable dispenser syringes for laboratory use; liquid containers for use in laboratories, namely, beakers; laboratory equipment, namely, brackets for filling pipettes; glassware for use in a laboratory; laboratory glassware, namely, hollow glass containers for measuring; glassware specially adapted for scientific use, namely, glassware for scientific experiments in laboratories; analysis laboratory robots not for medical purposes; pipetting laboratory robots, not for medical purposes; apparatus for recording, transmission or reproduction of sound, images or data; blank data carriers for recording images, sound and data; computer software for use with laboratory robots and automatic pipetting workstations, namely, software for the operation, the management and the controlling of process control systems in process analytics; magnetic sensors for measuring changes and disturbances in a magnetic field; magnetic detectors for detecting changes and disturbances in a magnetic field; magnetic flux sensors; magnetic field measurement sensors; hall effect sensors; inductive sensors, namely, inductive electronic proximity switches and electronic radiofrequency coils; laboratory apparatus and instruments for the commutation of electronically commutated motors, namely, electric forward-off-reverse switches; magnets; magnets for industrial purposes; magnetic object detectors; magnetic data media, namely, blank magnetic data carriers for recording images, sound and data; electric generators for generating and maintaining magnetic fields, other than for medical use; magnetic separators for scientific use; electronic signal transmitters; contacting and contactless electronic signal transmitters; magnetic field cameras; digital cameras; camera containing a linear image sensor; electromagnetic electricity conduits;

electromagnetic measuring detectors, namely, frequency meters in the nature of EMF meters; electromagnetic relays; electromagnetic switches, namely, solenoid valves; electromagnetic coils; scientific apparatus and instruments, namely, adjusting and positioning apparatus and instruments with electromagnetic actuators and systems formed thereof being parts of scientific apparatus and instruments, namely, adjusting and positioning apparatus with electromagnetic actuators and systems formed thereof; precision micropositioning apparatus and instruments, namely, electric actuators, tilting platforms in the nature of platforms that enable precision tilt or rotation alignment of scientific devices and displacement sensors; laboratory robots; robotic electrical control apparatus for controlling laboratory apparatus and instruments; structural and replacement parts for all the aforesaid goods

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Licensing authority services, namely, legal administration of licenses; issuing of licenses for computer software; licensing industrial property rights; industrial property rights consultancy; legal services in the form of exploitation of intellectual property rights and copyright through licensing

GOODS AND SERVICES INFORMATION

For Machines for producing hollow bodies, in particular for producing bottles made from thermoplastics by forming preforms, using a flowing substance under pressure; Rotary devices in the nature of transfer wheels in the nature of machine wheels for transporting preforms for forming; Machine parts, namely, detachable hollow blowing molds for use in the manufacture of plastic bottles; Functional units consisting of the aforesaid goods in the nature of machines for the manufacturing of containers of plastic; Conveyor machine parts, namely, transport mandrels, rotary tongues in the nature of rotary transfer wheels equipped with tongues in the nature of machine wheels for transporting preforms for forming, grippers, transfer wheels in the nature of machine wheels, conveyor chains and conveyor belts, all for handling injected preforms made from thermoplastic material; Cleaning machines utilizing primarily water and cleaning and disinfecting agents, for cleaning and disinfecting equipment used in the treatment and packaging of liquids and in the manufacturing of packaging for liquids; Cleaning machines utilizing primarily water and cleaning and disinfecting agents, for cleaning and disinfecting equipment used in the brewing and beverages industry; Mechanical regulating devices and apparatus, namely, mechanical regulators being parts of machines; Mechanical regulating devices and apparatus, namely, mechanical hydraulic controls for machines; Mechanical regulating devices and apparatus, namely, mechanical pneumatic controls for machines; Mechanical regulating and control devices and apparatus, namely, mechanical pressure switches and mechanical sensors for monitoring, controlling, and switching hydraulic or pneumatic systems, sold as an integral component of machines for manufacturing plastic containers; Machines, mechanical apparatus and mechanical equipment for manufacturing, treating, processing and refining foodstuffs and luxury food, alcohol and tobacco, alcoholic and non-alcoholic beverages and installations consisting wholly or predominantly of the aforesaid machines, mechanical apparatus and/or mechanical equipment; Mechanical apparatus and machines and assemblies consisting thereof for producing or mixing of beverages, in particular of carbonized beverages, namely, pumps, fittings, namely, hand-operated and remote-controlled unidirectional and multidirectional, shut-off, diversion

and mixing valves, taps and non-return valves for liquids or gases; Machines and mechanical apparatus and installations composed of the aforesaid goods for the processing of foodstuffs and beverages, mainly consisting of pipelines, valves, pumps and measuring, control and regulating devices belonging to the installations; Machines and mechanical apparatus and installations composed of the aforesaid goods for the processing of liquids; Dosing machines for making beverages, in particular carbonated beverages, namely, bottling machines, machines for adding carbon dioxide to beverages, and machines for adding nitrogen to the head space in beverage containers above the liquid level; Machines and mechanical apparatus for carbonizing liquids, in particular beverages; Machines, mechanical apparatus and mechanical devices for the beverage and packaging industries, namely, packaging machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Containers made from thermoplastics for commercial use; Packaging containers of plastic having coatings for improving gas barrier properties

International Classes 20 - Primary Classes **US Classes** 2, 13, 22, 25, 32, 50 **International Class Title** Furniture and Articles Not Otherwise Classified

For Parisons for shaping containers made from thermoplastic synthetic materials; preforms made from plastic having coatings for improving gas barrier properties

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

GOODS AND SERVICES INFORMATION

For Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking, life-saving and teaching apparatus and instruments, namely lidar (light detection and ranging apparatus); lidar apparatus, namely, light detection and ranging apparatus; radar object detector for use on vehicles; electric sensor for sensing objects; radios; radios for vehicles; audio- and video-receivers; navigation apparatus for vehicles being on-board computers; infotainment device, namely navigation system being on-board computers; GPS navigation device; electric sensors and detector units for use in controlling the actuation and operation of automotive safety apparatus and equipment; apparatus for recording, transmission or reproduction of sound or images; safety and driving assistance system for vehicles comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors; downloadable and recorded computer software and hardware for use in connection with advanced driver assistance systems, semi-automated driving systems, and automated driving systems; electric and electronic sensors, actuators and controllers for advanced driver assistance systems, semi-automated driving systems, and automated driving systems; electronic data acquisition devices, namely, electronic data recorders and downloadable and recorded computer software for use with data acquisition devices for use in data analysis; recorded communications software and hardware for wirelessly connecting vehicle-to-vehicle, vehicle-to-infrastructure, vehicle-to-pedestrian, vehicle-to-device, vehicle-to-grid; recorded communications software and hardware for connecting vehicle electrical network components and systems; electronic controllers for automotive systems; downloadable software for creating, processing, rendering, displaying two-dimensional and three-dimensional visual content; recorded computer software used for operating luminescent, reflective, transflective, projective, volumetric, stereoscopic, multi-layer and three-dimensional display screens; computer hardware monitors; radar apparatus; interactive touch screen terminals; electronic vehicle displays, namely recorded computer software for onboard

mapping; computer memory devices; downloadable computer software for use in firmware update, data management; computer software, recorded for use in data management; computer software applications, downloadable for use in data management; Downloadable computer software for the operation, control, maintenance, and management of vehicles, autonomous vehicles and vehicle components, for battery management for electric vehicles, for vehicle theft protection, for vehicle navigation, for travel and trip planning, for communications between vehicles and mobile devices, and for collecting, tracking, analyzing, and reporting data and information in the field of electric vehicles and autonomous vehicles; downloadable software for high performance clustered computers for use in reconfigurable networks; downloadable software for processing of large data sets; downloadable clustered supercomputer software for use in reconfigurable networks; lasers, not for medical purposes; downloadable software for genome sequencing; downloadable software for hydro-dynamic flow simulations; downloadable software for lidar signal processing; downloadable software for animation; downloadable software for visual effects rendering; downloadable software for use in data analysis relating to investment decisions; downloadable software for customer behavior prediction; downloadable software for time-series forecasting; downloadable software for segmentation and cross-sell and up-sell maximization; downloadable software for mathematical and physical modelling; laser device being laser distance meters for sensing distance to objects; downloadable software for quantum computation; downloadable software for machine learning; downloadable software for data mining algorithm design and development; downloadable mobile applications for coordinating transportation services; downloadable mobile applications for coordinating, scheduling, booking, and dispatching vehicles for passenger and freight transport and delivery services; downloadable computer software and hardware for vehicle fleet launching, coordination, calibrating, direction, and management; computers; high performance clustered computers; high performance computers for processing of large data sets; clustered supercomputers; laser equipment being laser distance meters for non-medical purposes; high performance computers for genome sequencing; high performance computers for hydro-dynamic flow simulations; high performance computers for lidar being light detection and ranging apparatus signal processing; high performance computers for animation; high performance computers for visual effects rendering; high performance computers for use in investment decisions; high performance computers for customer behavior prediction; high performance computers for time-series forecasting; high performance computers for segmentation and cross-sell and up-sell maximization; high performance computers for mathematical and physical modelling; laser measuring systems; high performance computers for quantum computation; high performance computers for machine learning; high performance computers for data mining algorithm design and development; computer hardware; microprocessors; blank magnetic data carriers, blank recording discs; blank compact discs, dvds and other digital recording media in the nature of optical data storage; speed checking apparatus for vehicles, namely, recorded computer software for use in driver assistance modules; transmitters of electronic signals; data processing equipment; laser object detectors for use on vehicles; modems; wireless routers; network routers; computer network adapters, switches, routers and hubs; electrical transmitters, receivers and transceivers; connection ports for connection of electrical and electronic devices to automobiles; electronic hubs for connecting portable electronic devices in an automobile; vehicle wiring harness; radio frequency identification (rfid) tags; radio frequency identification (rfid) tag readers; lasers for measuring purposes; batteries, electric; chargers for electric batteries; charge monitors and controllers for electric batteries; batteries, electric for vehicles; accumulators, electric, for vehicles; electric connectors for vehicle charging; wireless chargers; wireless chargers for vehicles and electronic devices; computerized surveillance and electronic control systems for motor vehicles, comprised of computer hardware and recorded application software, cameras, optical sensors, ultrasound sensors, lidar being light detection and ranging apparatus, and radar, to detect external objects, obstructions, road lane marks, external light level, and precipitation, and react through command of vehicle

steering system, brakes, cruise control, engine, actuators, display monitors, windshield wipers, automotive warning lights, and headlights; safety and driving assistant system for mobile vehicles comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors; structural parts, fittings and accessories for all the aforesaid goods

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Scientific and technological services, namely research and design in the field of mapping, object detection, pedestrian detection; engineering consulting services relating to data acquisition and data acquisition devices; engineering consulting services relating to product development; engineering consulting services relating to product validation; installation of computer software; maintenance of computer software; monitoring of computer systems by remote access to ensure proper functioning; research and development of new products for others; mapping services; computer modelling services utilizing lidar-based data collection; providing temporary use of non-downloadable online software for data collection services utilizing lidar-based technology; industrial analysis and research services in the field of mapping, object detection, pedestrian detection; surveying; metrology services; leasing lidar sensors; measurement evaluations in the field of autonomous vehicles; software as a service (saas) featuring software for use in driver assistance systems; providing temporary use of non-downloadable software for the operation, control, maintenance, and management of vehicles, autonomous vehicles and vehicle components, for battery management for electric vehicles, for vehicle theft protection, for vehicle navigation, for travel and trip planning, for communications between vehicles and mobile devices, to detect external objects, obstructions, road lane marks, external light level, and precipitation, and react through command of vehicle steering system, and for collecting, tracking, analyzing, and reporting data and information in the field of electric vehicles and autonomous vehicles; (saas) software as a service for the operation, control, maintenance, and management of vehicles, autonomous vehicles and vehicle components, for battery management for electric vehicles, for vehicle theft protection, for vehicle navigation, for travel and trip planning, for communications between vehicles and mobile devices, to detect external objects, obstructions, road lane marks, external light level, and precipitation, and react through command of vehicle steering system, and for collecting, tracking, analyzing, and reporting data and information in the field of electric vehicles and autonomous vehicles; Providing temporary use of non-downloadable software for checking and monitoring electronic speedometers, electronic odometers, electronic tachometers, speed checking apparatus for vehicles, kilometer recorders for vehicles, speed regulators, electric or electronic sensors for vehicles, proximity sensors, ultrasonic sensors, magnetic sensors, optical sensors, presence detectors, movement and movement analysis detectors, battery back-up power supply, perimeter detection devices, vehicle passenger compartment movement detection devices, glass break detection devices, inclination detection devices, intrusion sensors, tilt sensors, volumetric sensors, level monitor devices, shock sensors, sound alarms, sirens, electric steering locks, electric door locks for vehicles, electric door closers, remote control apparatus, electronic keys for vehicles, radio keys for vehicles, ultrasound keys for vehicles, automatic and remote lock and release systems for vehicle doors, automatic and remote starter systems for vehicle units, electronic keyless vehicle access and starter systems, systems for the automatic opening and closing of vehicle doors, boot, bonnet and roof, window opening/closing devices for vehicles, electric apparatus for remote ignition, short range communication apparatus integrated into motorcycle helmets for drivers and/or passengers, satellite navigational apparatus, gps apparatus, apparatus for vehicles for determining or signalling location, locations of sites, and travel routes, time, traffic conditions, presence of emergency vehicles and hazard conditions, systems for communication between vehicles and road

infrastructures, road marking detection devices, vehicle teleguidance systems and instruments, blind spot and lane changing assistance monitoring systems, vehicle on-board computers, on-board electric, electronic or optical equipment for vehicles, including land vehicles, for directing, signalling, checking, safety and providing information, as well as processing of information and signals being sounds, images and data relating thereto, on-board diagnostic systems and remote-controlled diagnostic systems, systems for the downloading and updating of computer software to and from vehicles, computer programs for the automotive field, devices to detect and/or exchange data between a vehicle and a remote unit for security purposes, parking aids, namely parking assistance radars, vehicle reversing sensors, anti-collision and shockproof sensors for vehicles, electronic devices, lidar, infrared sensors, anti-collision and shockproof radars for vehicles, transmitters, ultrasound wave receivers, obstacle detection devices, apparatus for detection, processing data, signalling and monitoring of static and moving objects around a vehicle, parking assistance, reversing and blind spot detection systems and alarms, pre-collision detection and collision avoidance systems, anti-theft devices and apparatus for vehicles, anti-theft warning devices for vehicles, alarm devices for vehicles, electric and electronic installations to prevent vehicle theft, immobilizers for vehicles, devices for remote location of vehicles, safety devices for vehicle steering, horns for vehicle; high performance clustered computing services, namely reconfigurable networks; high performance computing services for reconfigurable networks processing of large data sets; design and development of computer hardware and software; clustered supercomputing services, namely reconfigurable networks; high performance computing services, namely computer programming for network sequencing; high performance computing services, namely reconfigurable networks for hydro-dynamic flow simulations; high performance computing services, namely lidar segmentation, perception, autonomous driver assistance for lidar signal processing; high performance computing services, namely, lidar segmentation, perception, autonomous driver assistance; high performance computing services, namely high definition mapping; high performance computing services, namely designing software for creating financial models for investment decisions; high performance computing services for customer behavior prediction, namely developing computer software for data analysis of customer behavior; high performance computing services, namely developing computer software for time-series forecasting; high performance computing services, namely developing computer software for segmentation and cross- sell - up-sell maximization; computer programming; high performance computing services, namely developing computer software for mathematical and physical modelling; high performance computing services, namely developing computer software for quantum computation; high performance computing services, namely developing computer software for machine learning; high performance computing services, namely developing computer software for data mining algorithm design and development; software development for high performance clustered computers; software development for processing of large data sets; clustered supercomputer software development; software development for sequencing; software development for hydro-dynamic flow simulations; software development for lidar signal processing; computer software design and development; software development for animation; software development for visual effects [vfx] rendering; software development for investment decisions; software development for customer behavior prediction; software development for time-series forecasting; software development for segmentation and cross-sell/up-sell maximization; software development for mathematical and physical modelling; software development for quantum computation; software development for machine learning; software development for data mining algorithm design and development; computer system design; hosting computer web sites; hosting web sites that allow users to access status information of motor vehicle operating systems; technical research in the field of software for autonomous vehicles; updating of computer software; providing temporary use of non-downloadable software for updating of electronic data residing in a vehicle; updating of computer software over-the-air; vehicle roadworthiness testing; providing temporary use of non-downloadable software for data-

acquisition and collection of data for calibration and coordinate-measurement purposes; technical consulting in the field of engineering relating to software for autonomous vehicles; design, engineering and consultation services relating to motor vehicles, motor vehicle parts, and motor vehicle component systems; data encryption services; hosting a website featuring vehicle generated data, user identifiable data, aggregated anonymized data; electronic data storage, engineering
