## GOODS AND SERVICES INFORMATION

**For** Top mounts, namely, vehicle engine, suspension, axle suspension, shock absorber, spring, suspension strut, McPherson strut and transmission top mounts; vehicle strut mounts; vehicle axle strut mounts; leaf spring mounts, namely, vehicle engine, suspension, axle suspension and transmission leaf spring mounts for vehicles; hydraulic damping mounts, namely, hydraulic damping vehicle engine, suspension, axle suspension and transmission mounts for vehicles; stabilizer mounts, namely, vehicle engine, suspension, axle suspension, anti-roll and transmission stabilizer mounts for vehicles and anti-roll bar mounts for vehicles; vehicle subframe mounts; vehicle differential mounts; torque roll restrictors, namely, vehicle parts for vehicle suspension, axle suspension or chassis systems; vehicle transmission mounts; conventional and hydraulic vehicle engine mounts; switchable vehicle engine mounts; active vehicle engine mounts

**International Classes** 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

**For** Printed forms; photographs; calendars; catalogues in the field of land vehicles; paper, paperboard and cardboard; printing type and printing blocks; brochures in the field of land vehicles; posters; boxes made of cardboard or of paper; stationery; printed teaching materials in the field of land vehicles; plastic film for use as packaging materials for land vehicles; magazines in the field of land vehicles; newspapers

**International Classes** 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

**For** Conventional and hydraulic engine mountings, namely, conventional and hydraulic engine mounts, other than for land vehicles; Switchable engine mountings, namely, switchable engine mounts, other than for land vehicles; Active engine mountings, namely, active engine mounts, other than for land vehicles

**International Classes** 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

**For** Training in the field of maintenance, sales, and repair of land vehicles; Organizing community sporting and cultural events; Desktop publishing for others; Providing on-line publications in the nature of magazines, books, newsletters, brochures, technical specifications and technical illustrations in the field of land vehicles; Online publication of electronic books and magazines in the field of land vehicles; Arranging and conducting seminars and workshops in the field of maintenance, sales and repair; Organizing exhibitions in the field of maintenance sales and repair for cultural or educational purposes

**International Classes** 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

**For** Advertising; business management; business administration and office work; marketing; public relations; online advertising on a computer network; organizing exhibitions and trade fairs for commercial and promotional purposes; compilation and systemization of information into computer databases in the nature of automotive parts lists, automotive material master files, documents, illustrations, order lists, spare parts catalogues and customer service information; retail and wholesale store services for featuring vehicles and vehicle accessories, all aforesaid services in relation to vehicles and vehicle accessories

**International Classes** 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

**For** Downloadable electronic publications in the nature of books, magazines, newsletters, brochures, technical specifications, and technical illustrations all in the field of land vehicles

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

**For** Telecommunications, namely, providing user access to computer programs on data networks and providing user access to a global computer network

**International Classes** 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

## GOODS AND SERVICES INFORMATION

**For** Precious metals and their alloys; goods of precious metals or plated therewith, not included in other classes, namely, processed or semi-processed precious metals

**International Classes** 14 - Primary Classes **US Classes** 2, 27, 28, 50 **International Class Title** Jewelry

**For** Component parts of surgical apparatus and instruments and medical, dental and veterinary apparatus and instruments, namely, stents, catheters, cannulae, guidewires, capillary drainage tubes, capillary reagent tubes, injection syringes, injection needles, hypodermic syringes, hypodermic needles, disposable syringes, syringes, intravenous needles, intravenous feeding tubes, capillary tubes for blood, capillary tubes for samples, drainage tubes, drainage appliances, endoscopic equipment, endotracheal tubes, endobrachial tubes, gastroscopes, tracheostomy tubes, uterine syringes, wound drainage apparatus in the nature of precision tubes of non-ferrous metals, precious metals, stainless steels and special materials for medical purposes, semi-finished products and memory elements of shape-memory alloys for medical engineering applications; orthopedic articles, namely, trusses, joint implants, splints, drilling jigs, implants, guidewires; suture materials

**International Classes** 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

**For** Structural parts for land vehicles, airplanes, helicopters, ships and boats, namely, namely, bourdon tubes, tubes of plated metals plated with precious metals, plated profile tubes of precious metals and their alloys, tubes made from expansion alloys, tubes as melt-down alloys of glass/metal or glass/ceramic/metal compounds and of iron/nickel alloys and resistance alloys, hollow metallic waveguides, precision tubes of precious metals and specialty metals, capillary tubes, composite materials, laminar composite materials and fibre composite materials, thermobimetal snap-discs and snap elements, thermobimetal ribbons and strips, stamped and moulded parts of thermobimetal, metallic assemblies, thermobimetals of special materials as ribbons and strips, thermobimetal stamped and moulded parts with defined properties and assemblies of thermobimetals, roll seam welded ribbons and profile sections, electroplated ribbons with nickel and tin, silver, gold, copper, zinc, palladium and chemically nickel-plated, deep-drawn and extruded high-precision parts in special shapes of metals for manufacture of land vehicles, airplanes, helicopters, ships and boats

**International Classes** 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

**For** Stationery, writing instruments; component parts of writing instruments and writing implements, namely, tubes of plated materials plated with precious metals, profile tubes of precious metals and their alloys, precision tubes of precious metals

**International Classes** 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

**For** Parts for machines, power tools, machine tools, motors and engines other than for land vehicles, namely, bourdon tubes, precious metal plated tubes, profile tubes of precious metals and their alloys, tubes made from expansion alloys, tubes made predominantly of metal, iron, nickel meltdown alloys and resistance alloys, and partially of glass and ceramics, hollow metallic waveguides, precision tubes made out of precious metals and specialty metallic materials, capillary tubes of composites, laminar composites and composite fibre materials; Parts for machines, power tools, machine tools, motors and engines other than for land vehicles, namely, thermobimetal snap discs and snap elements, thermobimetal ribbons and strips, stamped and moulded parts of thermobimetal, metallic assemblies, thermobimetals of special materials as ribbons and strips, thermobimetal stamped and molded parts with defined properties and assemblies of thermobimetals, roll seam welded metal ribbons and profile sections, electroplated ribbons with nickel and tin, silver, gold, copper, zinc, palladium and chemically nickel-plated, deep-drawn and extruded high-precision parts in special shapes of metallic materials

**International Classes** 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

**For** Apparatus for recording, transmission or reproduction of sound or images; blank magnetic data carriers; scientific, surveying, electric, electronic, optical, weighing, measuring, signalling, checking, life-saving and teaching apparatus and instruments, composed of tubes made from expansion alloys, tubes of melt-down alloys of glass/metal or glass/ceramic/metal compounds and of iron/nickel alloys and resistance alloys, in particular for use as compensating elements, frames for optical lenses and expansion controllers, hollow metallic waveguides for applications in high-frequency engineering of copper and copper alloys composed of invar plated with silver, precious metals and precious metal coatings, thin-wall tubes of common metals and heat-treatable copper/beryllium alloys, corrugated tubes and measuring springs subjected to high dynamic stresses, precision tubes of common metals, precious metals, stainless steels and special alloys being guide tubes for test pins and plug-in connections, capillary tubes for measuring and control engineering, hydraulic and pneumatic tubes of copper, copper alloys, stainless steel and special alloys, thermobimetal snap-discs and snap elements, thermobimetal ribbons and strips, stamped and moulded parts of thermobimetal, electric contact component parts in solid state and/or metal plated, solid and plated contact

rivets, flexible parts of electric contact components plated with precious metals, electric contact springs, parts for electric contact part assemblies, riveted, tox-joined, soldered, resistance and laser-welded assemblies, deep-drawn and extruded parts for electrical engineering and electronics and for measuring and control engineering of precious metals and their alloys, copper and copper alloys, nickel and nickel alloys, stainless steels and materials with special physical properties with regard to expansion behaviour and magnetism, including with electroplated surface coatings, cold extruded parts as heat sinks, load-bearing and connecting elements for power electronics, electric contact parts and contact laminations for collectors, load-bearing plates and contacting plates, composite electrodes for spark plugs, protective sleeves, screening cans, caps and small high-precision deep-drawn parts in special shapes of metallic materials, parts and memory elements of shape memory alloys for measuring and control engineering, plated materials with precious metal coatings and substrates of copper material, nickel and nickel alloys and steel, as ribbons, wires, tubes and profile sections, electric contact components of bimetals with coatings of precious metal and substrates of conductive copper materials and all coatable nickel materials and steels, roll-seam welded ribbons and profile sections; electric contacts being electroplated ribbons with nickel, tin and precious metals; electric contact parts and assemblies with inserts and coatings of precious metal and precious metal alloys being welded, soldered, or riveted with electroplated coatings, solid and coated contact rivets of precious metal, composite materials for electrical contacts as fibre and laminar composite materials, tubes as bourdon tubes, profile tubes, tubes of plated materials, of special alloys and thin-wall, precision and capillary tubes, deep-drawn and extruded high-precision parts in special shapes of metallic materials, wires and profile sections of solid and coated precious metal and of special alloys and superelastic materials

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

**For** Treatment of metal materials for the manufacture of finished and semi-finished metal products

**International Classes** 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

**For** Scientific and technological services, namely, research, product testing, design and industrial analysis in the fields of finished and semi-finished metal products

**International Classes** 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

**For** Materials of metals and their alloys for use in further manufacture, namely, tubes and wires of nickel/titanium, stainless steel tubes and wires, metal tubes as bourdon tubes, profile tubes, tubes of plated metal materials, thin-wall, precision and capillary metal tubes, and tubes of superelastic metal materials, all the foregoing for use in further manufacture of medical products

**International Classes** 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

**For** Communication services, namely, electronic transmission of information via computer systems; communication services, namely, the electronic transmission of data via telecommunications means; computer data transmission services; transmission of data via the internet; transmission of data by electronic means; transmission of digital files; transmission of information by computer; transmission of information by electronic means; electronic file transfer; providing access to online computer databases; all of the aforementioned in relation to business management and project management

**International Classes** 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

**For** Computer software design; computer software development; computer software programming services; technical computer software support in the nature of installation, maintenance, programming and repair; installation of middleware software; installation, repair and maintenance of middleware software; online provision of web-based software non-downloadable; updating of computer software; all of the aforementioned in relation to business management and project management software

**International Classes** 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

## GOODS AND SERVICES INFORMATION

**For** Medical diagnostic instruments for the analysis of body fluids; pipetting instruments for medical use, namely, micropipettes, multichannel pipettes, hand dispensers and dropping pipettes for medical purposes; medical equipment, namely, pipetting arms with pipetting channels that are arranged such that they can be moved, for medical purposes; medical equipment, namely, pipetting arms with pipetting channels that are arranged such that they can be moved individually, for medical purposes; medical equipment, namely, pipetting arms with pipetting channels that can be positioned in a flexible manner, for medical purposes; medical equipment, namely, pipetting arms with pipetting channels that can be individually positioned in a flexible manner, for medical purposes; medical devices and systems for coupling and decoupling pipette tips comprised of coupling pieces, coupling sleeves, pipettes, pipetting apparatus, pipetting channels, pipetting heads, pipetting arms and pipette modules, all the aforesaid for medical purposes; medical devices and systems for the automated coupling and decoupling of pipette tips with comprised of coupling pieces, coupling sleeves, pipettes, pipetting apparatus, pipetting channels, pipetting heads, pipetting arms and pipette modules, all the aforesaid for medical purposes; medical syringes; apparatus for use in medical or veterinary analysis for conducting analyses of blood and urine of human or animal origin; analysis apparatus for conducting of immunoassays for medical purposes; testing instruments for testing the function of medical apparatus, and also including analyzers or diagnostic apparatus for testing medical apparatus for medical purposes; manual probe heads for medical purposes; automated apparatus and instruments for blood component separation for medical purposes; dispensers for administering and selecting reagent instruments for medical use; precision instruments for medical purposes; medical instruments for drug abuse testing, namely, self-processing in-vitro diagnostic instruments; cell culture instruments for medical use, namely, cell culture chambers; analysis robots in the nature of laboratory robots for use in medical laboratories for medical purposes; probes for medical purposes; testing systems, primarily composed of a testing apparatus for

testing the function of medical apparatus, and analyzers or diagnostic apparatus for testing medical apparatus; sensors for medical purposes, namely, respiratory sensors, biofeedback sensors, sensors for monitoring and measuring blood properties and respiratory events; sources of electromagnetic fields for use in medical diagnosis, namely, electromagnetic medical diagnostic imaging apparatus; structural and replacement parts and accessories for all the aforesaid goods, included in this class

**International Classes** 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

**For** Analysis and diagnostic apparatus, not for medical purposes for the detection of alcohol, drugs, heavy metal, toxin, arsenic, chromium, pesticide, herbicide, petroleum and toxin for laboratory and research use; scientific measuring instruments, namely, conductivity tests, medical laboratory, detecting and monitoring instruments for detecting and monitoring the content of alcohol, drugs, heavy metal, toxin, arsenic, chromium, pesticide, herbicide, petroleum and toxin in biological samples, temperature indicators and controllers for laboratory use; apparatus for scientific research and laboratories, namely, centrifuges for scientific research; checking apparatus and instruments for measuring and checking the temperature, pressure, quantity and concentration of gas and liquids, measuring apparatus for temperature and humidity levels in gases and solid substances, supervising instruments for measuring and checking the temperature, pressure and concentration of gas and liquids, level switches and level indicators for monitoring and controlling liquids in tanks and vessels, flow switches for monitoring and controlling the flow of gases or liquids, water level indicators, electric, electronic, or electrochemical oxygen monitors; dosimeters; apparatus and units for dosage, measuring and monitoring, namely, automatic dosage apparatus for laboratory use; liquid dosage devices in the nature of dispensers that measure pre-determined amounts of liquid to be dispensed, not for medical use; checking apparatus and instruments for measuring and checking the temperature, pressure, quantity and concentration of gas and liquids for use in laboratories, measuring apparatus for temperature and humidity levels in gases and solid substances for use in laboratories, supervising instruments for measuring and checking the temperature, pressure and concentration of gas and liquids for use in laboratories, level switches and level indicators for monitoring and controlling liquids in tanks and vessels for use in laboratories, flow switches for monitoring and controlling the flow of gases or liquids for use in laboratories, water level indicators for use in laboratories, electric, electronic, or electrochemical oxygen monitors for use in laboratories; metering apparatus for the spraying of liquids in specific quantities, for laboratory use; metering apparatus for aspirating and dispensing liquids for laboratory use and scientific purposes; pipetting devices for aspirating and dispensing dosing liquids for laboratory use and scientific purposes; automatic pipetting work stations comprised of dispensing heads, dispensing actuators, substrates, robots, washing modules, sensors; liquid handling workstations comprised of dispensing heads, dispensing actuators, substrates, robots, washing modules, sensors for scientific research and laboratories; laboratory equipment systems consisting of automatic pipetting workstations connected to one another and scientific laboratory apparatus for storage and management of biological, clinical, chemical, forensic and biopharmaceutical substances and samples; automatic pipetting workstations comprised of dispensing heads, dispensing actuators, substrates, robots, washing modules, sensors for handling and transporting liquids using a number of liquid transfer installations, not for medical purposes; laboratory apparatus and instruments for use in process analytics, not for medical purposes; laboratory apparatus and instruments for use in biopharmaceutical process applications, not for medical purposes; laboratory apparatus and instruments for use in biopharmaceutical process installations, not for medical purposes; laboratory apparatus and instruments for media and buffer preparation, not for medical purposes; laboratory apparatus and instruments for clinical chemistry, not for medical purposes; laboratory apparatus and instruments for sample preparation and processing in analytical laboratories; laboratory

apparatus and instruments for the automated transport of liquids and sample carriers, not for medical purposes; laboratory dispensers for use in sample preparation and processing in analytical laboratories; diluter and dispenser systems comprised of dispensers and hand operated laboratory tools for sample preparation in analytical laboratories; laboratory apparatus and instruments for in-vitro diagnostics, not for medical purposes; testing equipment, namely, sampling devices for solids, liquids and slurries for the preparation and testing of samples for composition and chemical properties for laboratory use and scientific purposes; testing equipment, namely, automated sampling devices for solids, liquids and slurries for the preparation and testing of samples for composition and chemical properties for laboratory use and scientific purposes; automated pipettes; pipettes; piston pipettes; handheld pipettes; electronic handheld pipettes; mechanical handheld pipettes; pipettes for aspirating and dispensing liquids for laboratory use and scientific purposes; laboratory consumables, namely, pipette tips; laboratory equipment, namely, pipettors for laboratory use; laboratory equipment, namely, pipetting channels; laboratory equipment, namely, pipetting heads; multichannel pipettes for laboratory use; laboratory equipment, namely, pipetting arms; laboratory equipment, namely, pipetting arms with pipetting channels that are arranged such that they can be moved; laboratory equipment, namely, pipetting arms with pipetting channels that are arranged such that they can be moved individually; laboratory equipment, namely, pipetting arms with pipetting channels that can be positioned in a flexible manner; laboratory equipment, namely, pipetting arms with pipetting channels that can be individually positioned in a flexible manner; pipette modules; laboratory equipment, namely, pipette end cutters; laboratory equipment, namely, feeders for pipettes; devices and systems for coupling and decoupling pipette tips comprised of coupling pieces, coupling sleeves, pipettes, pipetting apparatus, pipetting channels, pipetting heads, pipetting arms and pipette modules, all the aforesaid for laboratory use and scientific purposes; devices and systems for the automated coupling and decoupling of pipette tips comprised of coupling pieces, coupling sleeves, pipettes, pipetting apparatus, pipetting channels, pipetting heads, pipetting arms and pipette modules, all the aforesaid for laboratory use and scientific purposes; vacuum apparatus for laboratory use; vacuum pumps for laboratory use; vacuum stations comprised of vacuum pumps and vacuum chambers for laboratory use; laboratory apparatus and instruments for use in automated refilling of reagents; laboratory filters for pipettes or pipette tips; probes and pipettes for scientific purposes; micropumps for laboratory purposes, namely, controlled volume pumps and peristaltic pumps; pipette accessories, namely, pipette holders, pipette carriers and pipette stands for laboratory use; pipette racks for laboratory use; holders for pipette carriers for laboratory use; reusable dispenser syringes for laboratory use; disposable dispenser syringes for laboratory use; sample carrier plates, namely, culture plates, for laboratory use; liquid containers, namely, flasks, cylinders and beakers for use in laboratories, brackets in the nature of pipette fillers for filling pipettes; glassware for use in a laboratory; laboratory glassware in the nature of hollow glass containers for measuring; laboratory glassware specifically adapted for scientific use; laboratory analysis robots not for medical purposes; laboratory robots, namely, pipetting robots, not for medical purposes; magnetic sensors for measuring changes and disturbances in a magnetic field; magnetic detectors for detecting changes and disturbances in a magnetic field; magnetic flux sensors for detecting and measuring magnetic interaction; magnetic field measurement sensors; hall effect sensors for measuring of magnetic flux density; inductive sensors, namely, inductive proximity switches and radiofrequency coils; laboratory apparatus and instruments in the nature of commutators for the commutation of electronically commutated motors; magnets; magnets for industrial purposes; magnetic object detectors; magnetic data media in the nature of blank magnetic data carriers; electric generators for generating and maintaining magnetic fields, other than for medical use; magnetic separators for scientific use; electronic signal transmitters; contacting and contactless electronic signal transmitters; magnetic field cameras; digital cameras; camera containing a linear image sensor; electromagnetic conduits; electromagnetic measuring detectors, namely, electromagnetic apparatus used to generate or

measure magnetic fields; electromagnetic relays, namely, solenoid valves; electromagnetic switches; electromagnetic coils; adjusting and positioning apparatus and instruments, namely, electromagnetic actuators and systems for scientific use; precision micropositioning apparatus and instruments, namely, actuators, linear stages, tilting platforms and displacement sensors; holding devices for measuring equipment and sensors for measuring and checking the temperature, pressure, quantity and concentration of gas and liquids, measuring apparatus for temperature and humidity levels in gases and solid substances; structural and replacement parts and accessories for all the aforesaid goods, included in this class

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

**For** Licensing authority services, namely, licensing of intellectual property; issuing of licenses for computer software; licensing industrial property rights; industrial property rights consultancy; legal services in the form of exploitation of intellectual property rights and copyright through licensing

**International Classes** 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

## GOODS AND SERVICES INFORMATION

**For** Printed matter in the nature of books, pamphlets, brochures, manuals, booklets, leaflets, informational flyers, informational sheets, newsletters, periodicals, newspapers, journals, educational materials and informational folders in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models; paper and cardboard; stationery and printed educational materials in the nature of books, booklets, textbooks in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models; bags and articles in the nature of sheets and films for packaging, wrapping and storage of paper, cardboard or plastics; bookbinding material; printed photographs; typewriters, electric or non-electric; printed computer software operating manuals; catalogues in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models; books in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models; manuals in the nature of handbooks in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models

**International Classes** 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

**For** Educational services, namely, conducting classes, seminars, conferences, workshops in the field of electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models, teaching in business, industry and information technology; publishing of newspapers, books, e-books, magazines, web magazines, reviews, audio books, journals, software, games, music and electronic publications and editorial reporting services; translation and interpretation services; education and instruction services, namely, conducting classes, seminars, conferences, workshops in the field of electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models; professional coaching in the field of electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models; organisation and conducting of conferences, exhibitions and competitions in the field of electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models; arranging and conducting of seminars; arranging and conducting of training workshops in the field of electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models; arranging and conducting of classes in the field of electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models; provision of training courses in the field of electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models; conducting of training courses in the field of electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models; publication of printed matter, also in electronic form, except for advertising purposes; writing of texts, namely writing of articles for journals and periodicals other than for advertising or publicity; publishing of instructional books; conducting of training courses in the field of electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models

**International Classes** 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

**For** Installation, maintenance and repair of computer hardware and telecommunication apparatus; construction services, namely, installation, maintenance and repair of telecommunication towers; installation, maintenance and repair of computer hardware; consultancy relating to the installation, maintenance and repair of computer hardware; installation and maintenance of hardware for computer networks and internet access; installation, repair and maintenance of computers and computer peripherals; interference suppression services for electrical apparatus; maintenance of computer networking and

telecommunications hardware; installation of computer hardware for information systems

**International Classes** 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

**For** Simulators namely, simulators for driving or control of vehicles, simulators for the steering and control of vehicles vehicle drive training simulators, instrumentation simulators in the nature of in the nature of simulators for training personnel in the driving of vehicles; electronically recorded data, namely, electronic database in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models recorded on computer media; information technology devices, namely, transparent electronic displays fixed at head-level or head-down positions for use in military and commercial aircrafts, vehicles and vessels for providing crew members with navigational and operational information, computers, TV monitors, computer monitors, video monitors, LCD monitors, tablet monitors, LED monitors, display monitors, touchscreen monitors, mobile hotspot devices, data storage devices in the nature of blank tapes for storage of computer data, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network, computer memory devices, computer peripheral devices, input devices for computers, computer network interface devices; audio-visual, multimedia devices, namely, TV monitors, computer monitors, video monitors, LCD monitors, tablet monitors, LED monitors, display monitors, touchscreen monitors, cameras, virtual reality glasses, virtual reality headsets digital media streaming devices, apparatus for recording and reproduction of sound, images or data; photographic devices, namely, cameras; magnets, magnetizers and demagnetizers; measuring instruments, namely, height measuring instruments, resistance measuring instruments, conductivity meters; speed indicators, wind indicators, automotive measuring instruments, namely, water temperature gauges, air fuel/ratio gauges, boost gauges, vacuum gauges and exhaust gas temperature gauges; detecting and monitoring instruments, namely, vehicle tracking devices, electronic tire pressure monitors, vehicle location detection system comprised primarily of display monitors, computers, image sensors, and video cameras, on-board vehicular surveillance systems comprised of cameras and monitors for exposing and eliminating the blind spots on both sides of the vehicle, safety and driving assistant systems for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors, indicators, namely electronic indicator panels, electronic indicator boards, speed indicators, wind indicators, temperature indicators, faulted circuit indicator, automatic altitude indicators, automatic indicators of low pressure in vehicle tires, level indicators for monitoring and controlling liquids in tanks and vessels and controllers, namely electrical controllers, electronic servo motor controllers, electronic speed controllers, cruise controls for vehicles and motorcycles, electrical integrated control systems for use in the field of in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models; navigation, guidance, tracking, targeting and map making devices namely, electronic navigational and positioning apparatus and instruments, GPS tracking devices, GPS navigation devices, car navigation computers, satellite-aided navigation systems, navigation apparatus for vehicles in the nature of on-board computers, navigational apparatus for automobiles, heads-up displays (HUDs) in the nature of transparent electronic displays for the projection of data from a mobile device onto a vehicle windshield and for providing vehicles with navigational and operational information; optical devices and equipment, namely telescopic aiming sights, apparatus for amplifying images, apparatus providing night vision in the nature of night vision

goggles, distance measuring apparatus, fibre optic periscopes, image amplifiers, image intensifiers, instruments for amplifying images, telescopic sights, three dimensional viewers in the nature of 3D spectacles; downloadable and recorded software for use in database management and electronic storage of data, downloadable software for use in in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models; downloadable databases in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing; recorded media devices, namely, digital media streaming devices; data storage devices, namely, blank tapes for storage of computer data, computer storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; electrical and mechanical data processing devices and equipment as well as accessories in the nature of data processing apparatus; alarms, namely, personal security alarms that connect to a wireless communications network and parts for anti-theft automotive alarms, namely, electronic sensors, remote control transmitters and receivers for remotely operating land vehicles electronic display units, namely, LCD large screen displays; checking and supervision apparatus and instruments, namely, LCD displays for checking vehicle parameters; electronic transistors; anti-interference devices using electricity, namely, filters for radio interference suppression, conductive silicone packing for electro-magnetic interference; controllers the nature of remote controllers, motion controllers, electrical controllers, sensor controllers, communications controllers, digital electronic controllers, temperature controllers apparatus for use in vehicle heating systems; radio telephony sets, namely, wireless telephony apparatus; high-frequency apparatus, namely, high frequency switches, high frequency mobile and sea-based communication antennas, electronic frequency converters for high velocity electro motors; electronic navigating apparatus in the nature of GPS receivers; downloadable radar apparatus computer software for use in database management and electronic storage of data, downloadable virtual reality training simulation software in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing; downloadable software for monitoring and controlling communication between computers and automated machine systems; computers and computer hardware; downloadable and recorded computer programmes for data processing; downloadable computer operating systems; recorded computer operating programs; electric access and admission control devices, namely, electric locks; protective and safety equipment for vehicles, namely electronic deer alerts, electronic tire pressure monitors, back-up sensors and cameras, electronic vibration, shock, motion, angle, temperature and voltage monitors, on-board vehicular surveillance systems comprised of cameras and monitors for exposing and eliminating the blind spots on both sides of the vehicle, safety and driving assistant system for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors; sensors and detectors, namely radar, laser and ultrasonic object detectors for use on vehicles; testing and quality control devices namely, testing instrumentation for monitoring and detecting contamination, namely, electronic analyzers, apparatus for testing vehicle brakes; measuring, counting, alignment and calibrating instruments namely, laser measuring systems, audio analyzers, tool measuring instruments, distance measuring apparatus, mechanical and electronic measuring machines for identifying and analyzing structural damage to vehicles, automotive measuring instruments, namely, water temperature gauges, air fuel/ratio gauges, boost gauges, vacuum gauges and exhaust gas temperature gauges, electronic instruments for use in remote inspection and measurement of industrial components using remote visual devices, calibration devices for calibrating optical emission spectrometers; downloadable computer applications for automotive control; downloadable computer programs for project

management; artificial intelligence apparatus in the nature of humanoid robots with artificial intelligence, safety and driving assistant systems with artificial intelligence for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors; downloadable augmented reality software for use in mobile devices for integrating electronic data with real world environments

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

**For** Licensing services, namely legal administration of licenses, licensing of software in the framework of software publishing, consultancy relating to computer software licensing, consultancy relating to patent licensing, licensing consultation in connection with electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models; legal services in the nature of licensing of computer software; licensing of intellectual property

**International Classes** 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

**For** Telecommunication services, namely telecommunication access services, electronic exchange of data stored in databases accessible via telecommunication networks, data transmission and reception services via telecommunication means, aeronautical telecommunication services, transmission of voice, audio, visual images and data by telecommunications networks, wireless communication networks, the Internet, information services networks and data networks, communications via multinational telecommunication networks; computer communication in the nature of communication by computer terminals and providing internet access; provision of internet access services; provision of access to the internet and databases for accessing content, websites and internet portals; digital network telecommunications access services; electronic network communications by fiber optic networks, digital communications networks, wireless communication networks, the Internet, information services networks and data networks; providing access to the internet and databases for access to multimedia content online; e-mail data services namely, providing electronic transmission of secure e-mail; consultancy in the field of telecommunications

**International Classes** 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

**For** Transport, namely, transport of goods; packaging and storage of goods; distribution of gas and energy by pipelines and cables; navigation in the nature of positioning, route, and course plotting, namely, providing road and traffic information, GPS navigation services, land vehicles navigation services, air navigation services, water navigation services, aeronautical radio navigation services; freight forwarding; transport brokerage; transportation and delivery of goods; freight and cargo transportation by air, road, rail and sea; marine transport; air transport; river transport by boat; railway transport; ferry-boat transport; freight ship transport; car transport; hauling, namely truck hauling; barge transport; boat transport; server housing in the nature of rental of ware-house space regarding storing positions in data centers for web servers for external use

**International Classes** 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

**For** Electric arc welding apparatus; welding apparatus, gas-operated; welding machines, electric; bending machines; cutting machines for metalworking; apparatus for dressing for metalworking; powered machines for finishing metal; grinding machines for metalworking; hand-held electric hammers; hand-held electric drills; hand-held vacuum cleaners; holding devices for metalworking machine tools, namely, machine tool holders not being part of machines; moulding machines for metalworking; paring machines for metalworking; electric machines and apparatus for polishing for metalworking; industrial robots for metal working; rolling mills; slide rests as parts of machines; trimming machines for metalworking; crushing machines for metalworking; generators of electricity; pneumatic transporters for construction; crushing machines for construction; condensing installations being parts of machines for chemical processing; heat exchangers being parts of machines for chemical processing machines; bookbinding apparatus and machines for industrial purposes; inking apparatus for printing machines; papermaking machines; printing machines; printing presses; printing rollers for machines; rotary printing presses; power-operated atomisers for industrial or commercial use; moulding machines for plastic processing; stone working machines; exhaust manifold for engines; mufflers for motors and engines; silencers for motors and engines; air suction machines; bearings being parts of machines; journal boxes being parts of machines; journals being parts of machines; shaft couplings for machines; waste compacting machines; waste crushing machines for industrial purposes; 3D printers; industrial robots; molding machines

**International Classes** 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

**For** Heat exchangers for chemical processing; distillation apparatus not for scientific purpose; drying apparatus for chemical processing; evaporators for air conditioners; evaporators for chemical processing; cooling evaporators; furnaces; heating elements; heating apparatus for solid, liquid or gaseous fuels; lighting apparatus and installations for industrial purpose; electric lamps; light bulbs for directional signals for vehicles; light-emitting diodes (LED) lighting apparatus; lighting apparatus for vehicles; lighting installations for air vehicles; lights for automobiles; lights for vehicles; portable headlamps

**International Classes** 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

**For** Industrial chemicals; acenaphthenes; alkalies; alkaline iodides for industrial purposes; alkaline metals; alkaline-earth metals; alumina; aluminium chloride; aluminium hydrate; aluminium silicate; ammonia for industrial use; ammonium sulphate; anhydrides; anthracene; argon; auxiliary fluids for use with abrasives for general industrial use; barium compounds for industrial use; barytes; bases in the nature of chemical preparations for use in general industrial manufacturing; bentonite; benzene based acids; benzoic acid; biphenyls for industrial use; bisphenol A for industrial use; brazing fluxes; carbon; carbon black for industrial purposes; carbon for use in the manufacture of filters; catalysts for chemical and biochemical processes; ceramic materials in particulate form, for use as filtering media in metal industries; chemical compositions for the manufacture of technical ceramics; chemical preparations for facilitating the alloying of metals; chemical reagents other than for medical or veterinary purposes; calcium silicate; cyclohexene; cyclohexane; cresol; coumarin; carbazole; cement blending agents; chemicals for use in the manufacture of liquid crystals; chemicals for the manufacture of resists for liquid crystal display color filters; dry ice (carbon dioxide); decahydronaphthalene; dihydrocoumarin; divinylbenzene; diphenylbenzene; foundry binding substances, namely, foundry sand; fluorene; helium; hydrogen; indoles for industrial purposes; indenes; isoquinolines; krypton; lime carbonate; magnesium carbonate; methanol; methylnaphthalenes; naphthalene; neon; nitrogen; organometallic compounds namely, tetraethyl lead for use in metal industry; oxygen; phenol for industrial purposes; pyrene; phenanthrene xylenol; phthalic anhydride; para-benzyl biphenyl; pyridine; photographic chemicals; plastic molding compounds for use in the manufacture of plastic sheets and films; quinaldine; rare earths; raw salts, namely, salts from rare earth mineral; salts being chemical preparations; salts for industrial purposes; salts from rare earth metals; salts of alkaline metals; salts of precious metals for industrial purposes; silica gel; silicates; silicon; skatole; soda ash; soldering fluxes; styrene monomer; sulphur; sulphuric acid; titanium dioxide for industrial purposes; toluene; terphenyl; tetrahydronaphthalene; tetrachlorophthalic anhydride; thiophene; welding chemicals; welding fluxes; xenon; zirconia; sealant for use in manufacture of electronic components and electronic circuits; sealant (chemicals); barium titanate; aluminium nitride; silica spherical particles; alumina spherical particles; particles of metallic oxides for filler; particles of metallic oxides; agglutinants for concrete; solvents for varnishes; adhesives for industrial purposes; adhesives for wallpaper; ; fertilizers; salts being fertilizers; ceramic glazings; acrylic resins, unprocessed; artificial resins, unprocessed; epoxy resins, unprocessed; plastics, unprocessed; synthetic resins, unprocessed; unprocessed coumarone resin; unprocessed phenolic resins; unprocessed phenolic resins; unprocessed polyamide resins; unprocessed polystyrene resins; unprocessed polystyrene resins; unprocessed plastics in the nature of filtering materials in metal industries; polymer resins, unprocessed

**International Classes** 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

**For** Construction and repair services, namely, reinforcement and repair of buildings or structures using reinforcing material; building construction information; construction consultancy; building construction supervision; general building construction; building construction; dredging; construction and maintenance of civil engineering structures in the nature of bridges, towers, roads, pile of foundation; masonry; glass installation services; steel structure construction works; plastering; carpentry; tile laying, bricklaying or block laying; joinery; painting; scaffolding erection; construction services in the nature of earthworks; construction services using concrete; upholstering; building damp-proofing; roofing services; plumbing; repair of water supply installations; construction of waste disposal facilities; construction of sludge and sewage treatment plants; repair or maintenance of vessels; shipbuilding; repair of bicycles; motor vehicle maintenance and repair; repair or maintenance of railway rolling stocks; repair or maintenance of two-wheeled motor vehicles; repair of sports equipment; repair of buildings; repair of concrete structures; repair or maintenance of nuclear power plants; repair or maintenance of chemical plants; maintenance of building equipment; repair or maintenance of textile machines and apparatus; repair or maintenance of plastic processing machines and apparatus

**International Classes** 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

**For** Material testing instruments and machines, namely, radiation-measuring instruments, metal compression testing machines, metal hardness testing machines, metal strength testing machines; hygrometers; capacitors; connections, electric; contacts, electric; contacts, electric, of precious metal; distribution consoles for electricity; readers (data processing equipment); resistances, electric; solar batteries; batteries, electric; accumulator jars; plates for batteries; batteries, electric, for vehicles; intercommunication apparatus, namely, apparatus for transmission of communication; juke boxes for computers; portable telephones; telephone apparatus; telecommunication transmitters; video telephones; blank magnetic data carries; magnetic encoders; blank optical data carriers; color filters for liquid crystal display; covers for smartphones; Integrated circuit cards being smart cards; electronic agendas; bar code readers; computer central processing units; integrated circuits chips; computer operating programs, recorded; downloadable computer programs for use in database management; downloadable software and recorded software for monitoring and controlling factory manufacturing processes; downloadable computer software for database management; computers; data processing apparatus; lasers, not for medical purposes; monitors for computers; optical character readers; printed circuits; semi-conductors; silicon wafers; flexible printed circuits; inkjet printers; printed circuit boards; light-emitting diodes; covers for tablet computers; digital color photocopiers; anodes; cathodes; collecting electrodes for lithium-ion batteries; 3D spectacles; conductors, electric; spectacle frames; spectacles; goggles for sports

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

**For** Glass fibers for textile use; carbon fibers for textile use; plastic fibers for textile use; raw fibrous textile; textile fibers; Netting (not of metal or asbestos); cords made of textile fibers; string; ropes, not of metal

**International Classes** 22 - Primary Classes **US Classes** 1, 2, 7, 19, 22, 42, 50 **International Class Title** Cordage and Fibers

**For** Lubricants for all purposes; solid lubricants for industrial use; lubricating graphite; coke; foundry coke; benzene fuel; xylene fuel; coal tar oil; vaporized fuel mixtures; industrial oil; ester based oil, namely, motor oil; cutting oils; lubricating grease; lubricating oil

**International Classes** 4 - Primary Classes **US Classes** 1, 6, 15 **International Class Title** Lubricants and Fuels

**For** Insulating oils; electrical insulating materials; insulating varnish; insulating and protective interlayer dielectric materials and coatings for use in integrated circuits, semiconductor devices, computer disk drivers and other computer hardware; electrical insulators; electrical insulating plastic films; electrical insulating plastic sheets; plastic film other than for wrapping; plastic substances, semi-processed; semi-finished synthetic resins for molding; adhesive-coated plastic sheets for use in manufacturing; laminated plastic films for use on windows; extruded plastic in the form of bars, blocks, pellets, rods, sheets and tubes for use in manufacturing; plastic in the form of bars, blocks, pellets, rods, sheets and tubes for use in manufacturing; synthetic rubber; synthetic resins as semi-finished products; plastic fibers, not for use in textiles; plastic sheeting used in the construction industry as a vapor barrier; semi processed prepreg thermoplastic epoxy; mesh of fiber-reinforced plastic; nets of fiber-reinforced plastic; thermoplastic epoxy; thermoplastic resins reinforced with natural fibers as semi-finished products; plastic sheet materials for use in manufacture; carbon fibers, other than for textile use; caulking materials; foils of metal for insulating; reinforcing materials, not of metal, for pipes

**International Classes** 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

**For** Research relating to building construction or city planning; research relating to civil engineering; research relating to machines, apparatus and instruments; architectural services; architectural consultancy; civil engineering structures consultancy services; testing, inspection and research services in the fields of composite materials; providing information on research relating to building construction or city planning; providing information on research on civil engineering; providing information on architectural services; providing information on civil engineering; providing information on testing, inspection and research services in the fields of composite materials

**International Classes** 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

**For** Balls of steel; cast iron, unwrought or semi-wrought; cast steel; iron, unwrought or semi-wrought; iron wire; heavy plate steel; hot-rolled steel sheets and coils; cold-rolled steel sheets and coils; tin free steel sheets and coils; electrical steel sheets; galvanized sheets and coils; steel pipes; steel sheets; steel strip; steel, unwrought or semi-wrought; steel wire; steel alloys; sheets and plates of metal; steel bars; steel strands; steel shapes; stainless steel; steel foil; alloys of common metal; aluminum; aluminum foil; aluminum wire; boxes of common metal; brass, unwrought or semi- wrought; brazing alloys; common metals, unwrought or semi-wrought; copper, unwrought or semi- wrought; lead, unwrought or semi-wrought; cables of metal, non-electric; cobalt, raw; soldering wire of metal; wire of common metal; wire of common metal alloys except fuse wire; wire of metal for machines; gold solder; indium; ingots of common metal; common metals in powder form; nickel and its alloys; niobium; silver plated tin alloy; silver solder; tantalum (metal); tin and its alloys; tinfoil; tinplate; tinplate packings; titanium; titanium iron; tombac; tubes of metal; tungsten; vanadium; zirconium; copper wire, not insulated; cermets; metals in foil or powder form for 3D printers; rods of metal for brazing and welding; copper ores; cobalt ores; iron ores; brackets of metal for building; building boards of metal; metal fittings for furniture and doors and windows; crash barriers of metal for building roads; framework of metal for building; building linings of metal; pillars of metal for buildings; reinforcing materials of metal

for building for cement use; metal ceiling panels, metal cove bases, metal fence posts, metal floors, metal gates and fencing panels, metal lintel, metal pantile, metal roofing, metal roofing panels, metal tiles, metal window frames; joists of metal; manhole covers of metal; manifolds of metal for pipelines; materials of metal for funicular railway permanent ways; poles of metal; posts of metal; props of metal for construction purpose; railroad ties of metal; rails of metal; railway material of metal; sheet piles of metal; strap-hinges of metal; trellis of metal; rods of metal for welding; cladding of metal for building; pre-fabricated buildings of metal; metal beams for buildings; steel buildings; foundry moulds of metal; turntables for railways; flanges of metal as collars ; pipe muffs of metal; containers of metal for storage and transport; containers of metal for compressed gas or liquid air; containers of metal for liquid fuel; containers of metal for storing acids; wire rope; wire gauze; metal nails; screws; cable joints of metal, non-electric; nuts of metal; metal sleeves as metal hardware; stop collars of metal; stops of metal; steps and ladders of metal; metal joinery fittings

**International Classes** 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

## GOODS AND SERVICES INFORMATION

**For** Precious metals and their alloys; jewels; ornaments being jewelry, namely, ornamental lapel pins, and ornamental button covers being jewelry; precious stones; semi-precious stones; clocks; time instruments, namely, apparatus for timing sports events

**International Classes** 14 - Primary Classes **US Classes** 2, 27, 28, 50 **International Class Title** Jewelry

**For** medical plasters, being materials for dressings; dressings, medical; teeth filling material; dental impression materials; disinfectants; preparations for destroying vermin; fungicides; herbicides

**International Classes** 5 - Primary Classes **US Classes** 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

**For** Leather and imitation leather; animal skins; faux fur; travel luggage; overnight bags for wear being clothing; umbrellas; parasols; walking sticks; whips; harnesses; saddlery; collars for animals; leads for animals; covers for animals

**International Classes** 18 - Primary Classes **US Classes** 1, 2, 3, 22, 41 **International Class Title** Leather Goods

**For** Games, namely, board games, tabletop games, card games; outdoor toys, namely, skateboards, scooters, roller skates, children's toy bicycles other than for transport; video game apparatus, namely, video game consoles; gymnastic articles, namely, gymnastic benches, parallel bars, and balance beams; sporting articles for physical training, namely, gymnastic and sporting articles, namely, sport balls, body protectors for sports, body guards for athletic use, bags for sporting articles and sporting goods, fitted protective covers specially adapted for rackets, sports nets, indoor bicycle trainers, stationary exercise bicycles

**International Classes** 28 - Primary Classes **US Classes** 22, 23, 38, 50 **International Class Title** Toys and Sporting Goods

**For** Entertainment services in the nature of competitions in the field of entertainment, sports, and athletics; providing of training in the field of sports; entertainment services, namely, organizing, conducting, arranging and hosting events in the fields of fitness, exercise, and sports; sporting activities, namely, conducting sports competitions, soccer tournaments, marathon races, cycling competitions; cultural activities, namely, sports competitions

**International Classes** 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

**For** laundry bleaching preparations; bleaching preparations for laundry use; furbishing preparations, namely, polishing preparations; polishing preparations; grease-removing preparations, namely, de-greasing preparation for household purposes; grinding preparations, namely scouring and abrasive preparations

**International Classes** 3 - Primary Classes **US Classes** 1, 4, 6, 50, 51, 52 **International Class Title** Cosmetics and Cleaning Preparations

**For** Advertising services related to retail services; business management related to retail services; business administration services related to retail services; providing office functions

**International Classes** 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

**For** Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking, life-saving and teaching apparatus and instruments, namely cameras; blank magnetic data storage media; blank recording compact discs; DVDs and digital recording media namely, blank video cassettes, blank digital video disc, blank digital versatile discs; mechanisms for coin-operated apparatus; cash registers; calculators; data processing equipment, namely, couplers; computers, namely, GPS navigation devices, GPS tracking devices; downloadable computer software related to cycling for tracking distance, to count calory consumption and for tracking heart rate; fire-extinguishing apparatus; none of the foregoing including loudspeakers

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

**For** Cordage; cord; packing strings; fishing, camouflage and snare nets; tents; tarpaulins; awnings of textile; awnings of plastic; sails; sacks for the transport and storage of materials in bulk; padding, cushioning and stuffing materials, not of paper, cardboard, rubber or plastics; raw textile fibres and substitutes thereof

**International Classes** 22 - Primary Classes **US Classes** 1, 2, 7, 19, 22, 42, 50 **International Class Title** Cordage and Fibers

**For** Clothing, namely, shirts, t-shirts, sweaters, tank tops, sweatshirts, jerseys, hooded sweatshirts, pullovers, shorts, skirts, pants, sweatpants, water shorts, board shorts, capris, belts, skirts, dresses, underwear, gaiters, sports bras, bras, socks, tights, hosiery, athletic tights, raincoats, rainwear, skiwear, parkas, ponchos, jackets, vests, pullovers, anoraks, coats, sweaters, athletic uniforms, warm-up suits, swimsuits, swim cover ups, gloves, mittens, ski gloves, bicycle gloves, wrist bands as clothing, rash guards, sweatbands, scarves, compression sleeves sold as an integral component of athletic clothing, namely, for shirts, suspenders; sportswear, namely, soccer shirts, soccer shorts, soccer socks; clothing for cyclists and mountain bikers,

namely, cycling shorts, cycling singlets, cycling shirts, cycling jackets, cycling sweaters, cycling jerseys, cycling jackets, cycling rain coats, cycling gloves, cycling socks, cycling caps and hats, biking shorts, singlets for mountain bikers, shirts for mountain bikers, jackets for mountain bikers, sweaters for mountain bikers, rain coats for mountain bikers, caps and hats for mountain bikers; clothing for athletic use, namely, padded shirts, padded pants, padded shorts; footwear, namely, soccer boots, soccer shoes, ski boots, athletic shoes, bicycle shoes, cleats for attachment to sports shoes, athletic shoes with spikes, boots, flip flops; headgear, namely, headwear, bandanas, hats, caps as headwear, earmuffs, hoods, headbands, visors for wear

**International Classes** 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

**For** Colorant dispersions containing graphene for use in surface coating compositions; paint dispersions containing graphene for use in surface coating compositions; varnish dispersions containing graphene for use in surface coating compositions; lacquer dispersions containing graphene for use in surface coating compositions; ink dispersions containing graphene for use in the printing and graphic arts industries; dye dispersions containing graphene for use in dyes for dying products; anti-corrosion preparations as dispersions containing graphene in the nature of anti-corrosive coatings; anti-tarnishing preparations as dispersions containing graphene in the nature of anti-tarnishing preparations for coating surfaces; fire retardant preparations as dispersions containing graphene in the nature of fire retardant coatings; colorant dispersions containing graphene oxide for use in surface coating compositions; paint dispersions containing graphene oxide for use in surface coating compositions; varnish dispersions containing graphene oxide for use in surface coating compositions; lacquer dispersions containing graphene oxide for use in surface coating compositions; ink dispersions containing graphene oxide for use in the printing and graphic arts industries; dye dispersions containing graphene oxide for use in dyes for dying products; anti-corrosion preparations as dispersions containing graphene oxide in the nature of anti-corrosive coatings; anti-tarnishing preparations as dispersions containing graphene oxide in the nature of antitarnishing preparations for coating surfaces; fire retardant preparations as dispersions containing graphene oxide in the nature of fire retardant coatings; paints; moisture inhibiting paints; varnishes; lacquers; preservatives against rust and against deterioration of wood in the nature of coatings; colorants and dyes for general industrial use; inks for printing and engraving; raw natural resins; metals in foil and powder form for use in painting, decorating, printing and art; fire retardant paint containing graphene; fire retardant paint containing graphene oxide; paints containing graphene, paints containing graphene oxide; varnishes and lacquers containing graphene, varnishes and lacquers containing graphene oxide; preservatives containing graphene for use against rust and against deterioration of wood, preservatives containing graphene oxide for use against rust and against deterioration of wood; colorants and dyes for general

industrial use containing graphene; colorants and dyes for general industrial use containing graphene oxide; inks for printing containing graphene, inks for printing containing graphene oxide; metals in foil and powder form incorporating graphene and for use in painting, decorating, printing and art; fire retardant paints, varnishes and lacquers containing graphene, graphene oxide; paints, lacquers, varnishes, dyes for general industrial use, wood preservatives and printing inks containing nano-materials in the nature of carbon and graphene nanoparticles, nanoribbons, nanoballs, nanotubes

**International Classes** 2 - Primary Classes **US Classes** 6, 11, 16 **International Class Title** Paints

**For** Graphene; graphene fire retardant compositions containing graphene for industrial, commercial and residential use; fire retardant compositions containing graphene oxide for industrial, commercial and domestic use; fire retardant compositions for commercial and domestic use, namely, fire retardant foam; fire retardant compositions for commercial and domestic use, namely, fire retardant foam containing graphene; fire retardant compositions for commercial and domestic use, namely, fire retardant foam containing graphene oxide; graphene as an additive for paint; graphene oxide as an additive for paint; graphene and graphene oxide as additives for resins; graphene and graphene oxide as additives for concrete; graphene and graphene oxide as additives to plastics and rubber; graphene oxide; graphene and graphene oxide as additives to rubber compounds; graphene and graphene oxide for use in energy storage devices, batteries, capacitors, supercapacitors, ultracapacitors, battery electrodes, supercapacitor electrodes, battery electrode separators, capacitor electrode separators, supercapacitor electrode separators, ultracapacitor electrode separators; coolants; coolants containing graphene, graphene oxide; graphene powders; graphite and graphene for industrial purposes; nano-materials, namely, carbon nano particles, nanoribbons, nanoballs, nanotubes for industrial purposes; graphene dispersions; graphene oxide dispersions; graphene as an additive for inks; graphene oxide as an additive for inks

**International Classes** 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

**For** Energy storage devices being batteries, batteries, capacitors, supercapacitors, ultracapacitors, hybrid capacitors, battery electrodes, capacitor electrodes, supercapacitor electrodes, ultracapacitor electrodes, battery electrode separators, supercapacitor electrode separators; energy storage devices being batteries, batteries, capacitors, supercapacitors, ultracapacitors, hybrid capacitors, battery electrodes, supercapacitor electrodes, battery electrode separators and supercapacitor electrode separators containing graphene; energy storage devices being batteries, batteries, capacitors, supercapacitors, ultracapacitors, hybrid capacitors, battery electrodes, supercapacitor electrodes, battery electrode separators and supercapacitor electrode separators containing graphene oxide; energy storage devices being batteries incorporating nano-materials in the nature of carbon and graphene nanoparticles, nanoribbons, nanoballs, nanotubes

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

**For** Industrial oils and greases; dust absorbing, wetting and binding compositions containing graphene, dust absorbing, wetting and binding compositions containing graphene oxide; fuels and illuminants in the nature of lamp oils containing graphene; fuels and illuminants in the nature of lamp oils containing graphene oxide; candles and wicks for lighting containing graphene, candles and wicks for lighting containing graphene oxide; industrial oils, greases, wax being raw materials, industrial lubricants, fuels and illuminants in the nature of lamp oils containing nano-materials in the nature of carbon and graphene nanoparticles, nanoribbons, nanoballs, nanotubes; wax being raw materials; industrial lubricants; dust absorbing, wetting and binding compositions; fuels and illuminants in the nature of lamp oils; candles and wicks for lighting; industrial oils and greases containing graphene, industrial oils and greases containing graphene oxide; wax being raw materials

containing graphene; wax being raw materials containing graphene oxide; lubricants containing graphene, lubricants containing graphene oxide

**International Classes** 4 - Primary Classes **US Classes** 1, 6, 15 **International Class Title** Lubricants and Fuels

**For** Unprocessed and semi-processed rubber, gutta-percha, gum, and mica; insulating materials for building; insulating materials for building facings; insulation material for use in the ship, automotive and aircraft building industries; insulators being insulating materials for use in the protection of buildings; industrial coatings containing graphene for insulating buildings, industrial coatings containing graphene oxide for insulating buildings; insulating materials containing graphene for building, insulating materials containing graphene oxide for building; insulating materials containing graphene for building facings, insulating materials containing graphene oxide for building facings; insulation material containing graphene for use in the ship, automotive and aircraft building industries, insulation material containing graphene oxide for use in the ship, automotive and aircraft building industries; insulators being insulation materials containing graphene for use in the protection of buildings; insulators being insulation materials containing graphene oxide for use in the protection of buildings; materials for insulation, other than building glass; semi-processed rubber, gutta-percha, gum, and mica containing graphene; semi-processed rubber, gutta-percha, gum, and mica containing graphene oxide; adhesive tape for industrial and commercial use, namely, metal faced bituminous mastic sealing strip, not for building; plastic materials being plastic substances, semi-processed, for use as sealant supports in building; insulating waterproofing membranes for use in roofing made with rubber, silicone and silicone rubber for inhibiting moisture in buildings, excluding paint; impervious coverings being insulating waterproofing membranes made with rubber, silicone and silicone rubber to prevent the penetration of moisture into buildings; sealants for joints for building purposes; sealing agents for use in the building industry; sound proofing boards for use in building; substances for insulating buildings against moisture; polymer fibres for use in concrete as a concrete strength, curing rate or patching compound; plastics and resins in extruded form for use in manufacture; materials containing graphene for insulation, excluding building glass; materials containing graphene oxide for insulation, excluding building glass; adhesive tape for industrial and commercial use, namely, metal faced bituminous mastic sealing strip containing graphene, not for building; adhesive tape for industrial and commercial use, namely, metal faced bituminous mastic sealing strip containing graphene oxide, not for building; sealants for buildings, namely, polymeric materials containing graphene for use as sealant supports in building; sealants for buildings, namely, polymeric materials containing graphene oxide for use as sealant supports in building; substances being insulating coatings containing graphene for insulating buildings against moisture, excluding paint; substances being insulating coatings containing graphene oxide for insulating buildings against moisture, excluding paint; insulating products in the nature of waterproofing membranes containing graphene to prevent the penetration of moisture into buildings; insulating products in the nature of waterproofing membranes containing graphene oxide to prevent the penetration of moisture into buildings; sealants containing graphene for joints for building purposes, sealants containing graphene oxide for joints for building purposes; sealing agents containing graphene for use in the building industry, sealing agents containing graphene oxide for use in the building industry; sound proofing boards containing graphene for use in building, sound proofing boards containing graphene oxide for use in building; substances being insulating materials containing graphene for insulating buildings against moisture; substances being insulating materials containing graphene oxide for insulating buildings against moisture; plastics and resins in extruded form for use in manufacture and containing graphene, plastics and resins in extruded form for use in manufacture and containing graphene oxide; polymer fibres with graphene for use in concrete as a concrete strength, curing rate or patching compound; polymer fibres with graphene oxide for use in

concrete as a concrete strength, curing rate or patching compound; insulating materials consisting of phase change materials containing graphene; insulating materials consisting of phase change materials containing graphene oxide; packing and insulating materials; stopping materials in the nature of sealants for buildings; packing and insulating materials containing graphene; stopping materials in the nature of sealants for buildings containing graphene; packing and insulating materials containing graphene oxide; stopping materials in the nature of sealants for buildings containing graphene oxide; non-metallic flexible pipes, tubes and hoses; non-metallic flexible pipes, tubes and hoses, containing graphene, non-metallic flexible pipes, tubes and hoses, containing graphene oxide; industrial coatings for insulating buildings

## GOODS AND SERVICES INFORMATION

**For** Apparatus, installations and devices, namely, healthcare professional and patient x-ray radiation shields in the nature of screens, booths, portholes, neutron doors, shielded walls, fitted covers, containers, and transparent radiation-resistant protective glass, radiation protection medical gloves, and shielded handling medical clips being manipulation tongs for the transfer of radioactive sources while protecting the healthcare professional's hands from ionizing radiations for work in contaminated and high radiation environments, all for protection against ionizing radiation and all for medical use, for healthcare professionals and patients; medical radiation detectors for detecting ionizing radiation for medical use; apparatus and instruments for monitoring through inspection, analyzing and measuring radioactive products and radiation for medical use, namely, activity meters being medical particle detectors in the nature of dose calibrators that measure the radiopharmaceuticals and radioisotopes activity in total safety by protecting from all forms of accidental contamination, blood peak flow meters; dosimeters for medical purposes, namely, radiation dosimeters for assessing therapeutic doses of radiation delivered to patients, and blood pressure monitors; apparatus for sampling, calibrating and injecting radioactive solution for medical use, namely, peristaltic drug delivery pumps for sampling and distribution operations inside hot cells for the transfer of radioactive liquids, multi-channel sampling stations used to sample various liquids and place them in vials, independent units for preparation and injection of high energy radiopharmaceuticals, medical devices for nuclear medicine departments being autonomous and compact shielded systems for an automatic injection of radiopharmaceuticals and radioisotopes protecting the healthcare professional against ionizing radiation, and implantable radiation therapy devices; apparatus and instruments for monitoring and tracking of radioactive products between their place of manufacture and their place of destination for medical use, namely, real-time monitoring systems comprised primarily of a medical measurement cell and a pumping unit for medical purposes for the volume activity of radioactive effluents, purification and monitoring systems comprised primarily of a

medical measurement cell and a pumping unit for medical purposes for radioactive effluents, and systems comprised primarily of chromatographic instruments for medical use for capturing radioactive isotopes; autonomous compact radiation protection shielded devices in the nature of injection machines composed primarily of a lead glass viewing window, sterile kits, an haemoperfusion cartridge, an injection syringe and an ergonomic tungsten syringe shield, used for automatic administration of radioactive solution and intended to protect the healthcare professional against ionizing radiation for medical use; connection devices in the nature of independent fractionation and injection systems comprised of an injection syringe, a source of radioactive solution and an injection needle for medical use for the injection of a radioactive product to a patient; syringes for medical use; tubing for medical use for drainage, transfusion, administration of drugs, radioactive solutions and medical solutions, aspiration, conveyance and return to the suction tank of radioactive solutions and medical solutions; bypass PEEP valves for medical use used to inject radioactive solutions and medical solutions into the bodies of patients carefully without free-flow and managing their flows; shielded plunger for syringe protectors as a component part of a medical syringe for medical use; vial protectors for administering medication specially adapted for radioactive products and radioactive solutions containers for medical use; syringe protectors specially adapted for use with medical syringes for medical use; hospital-stretcher trolleys being wheeled stretchers; surgical apparatus and instruments for medical use; medical diagnostic apparatus for diagnostic radiopharmaceutical use; radiopharmaceuticals and radioisotopes fluid injectors for medical use; radiological apparatus for medical use; radiology screens in the nature of healthcare professional and patient x-ray radiation protection shielded screens for medical use, for healthcare professionals and patients

**International Classes** 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

**For** Apparatus, installations and devices, namely, protective clothing, protective boots, protective spectacles, protective helmets, protective aprons, and protective work gloves, all for protection against ionizing radiation, not for medical use; radiation detectors for detecting ionizing radiation not for medical use; apparatus and instruments for monitoring through inspection, analyzing and measuring radioactive products and radiation not for medical use, namely, radiation-measuring instruments, electronic sensors for measuring radioactive products and radiation, dose calibrators being radioisotopes activity meters in the nature of computerised dose-measuring devices, flow meters, dosage dispensers in the nature of machines for measuring and dispensing pre-determined doses of radiation, radiometers being x-rays power meters for research, and radiation gauges used for measuring the physical properties of materials; radioactivity measuring apparatus for sampling, calibrating and injecting radioactive solution not for medical use; apparatus and instruments for monitoring and tracking of radioactive products between their place of manufacture and their place of destination, not for medical use, namely, systems for measuring the volume activity of radioactive effluents and capturing radioactive isotopes in the nature of measuring apparatus and measurement software comprising a preamplifier and a computer for automatic calculation of the decay for the selected isotope and display of the estimated date of the release of the effluents; mobile metal detectors; walk-through metal detectors; data processing apparatus; computers; apparatus for recording, transmission or reproduction of sound or images; recorded software for managing the operation of injection machines of radioactive products into the bodies of patients and for controlling the quality and the quantity of injected products

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

**For** Synthetic plastic as semi-finished products in the form of slabs, foils, strips, panels and tubes loaded with metallic powder and for industrial use; semi-finished insulating materials for insulation against ionizing rays, predominantly consisting of plastic and loaded with metallic powder; insulating materials, namely, slabs, foils, strips, panels, and tubes for protection against ionizing rays

**International Classes** 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

**For** Scientific and technological research services; engineering, namely, technical project studies and technical expertise; technical advice and engineering in the field of nuclear medicine relating to radiation protection solutions; professional engineering consultancy and drafting of plans and engineering drawings for others unrelated to business operations; research and development of new products for others; industrial design; computer programming; design and development of computers, software and real-time monitoring computer software systems; all the aforementioned services being specifically provided in the field of apparatus, installations and devices for protection against ionizing radiation for the medical, industrial and nuclear sectors

**International Classes** 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

**For** Containers and metallic vats for storing and transporting radioactive products; lead, unwrought or semi-wrought; rolled lead, unwrought or semi-wrought; lead shots being reversible radiation protective balls of steel; lead refractory bricks; lead door units

## GOODS AND SERVICES INFORMATION

**For** Fluid technology, gas technology, lubrication technology and separation technology systems and components in each case being machines or parts of machines for use in the automotive industry, for mobile hydraulics, the semiconductor industry, the food industry, aeronautics and space travel, medicine, pharmacy, oil and gas transport technology, environmental engineering, laboratory and testing technology, household systems and sanitation technology; fluid technology, gas technology, lubrication technology and separation technology systems and components in each case being machines or parts of machines for use in mining and in the field of steelworks, power plants, wind power installations, machine tools, transfer presses and plastic injection moulding machines, for lubricating oil installations for turbines, in particular gas, steam or water turbines; hydropneumatic storage units being machine parts; piston accumulators, bubble memory devices, diaphragm accumulators, bellows accumulators, spring accumulators, in each case being parts of machines and accumulator installations consisting of such accumulators, being parts of machines, in the field of offshore and deep sea applications; hydraulic, hydropneumatic and reflective sound, vibration and pressure dampers, resonators, silencers, in each case being parts of machines; separators, in particular oil mist separators; recovery devices for lubricating oils, namely, lubricating machines; air, oil, water and hydraulic fluid filter apparatus and filters, being parts of machines, for filtration and separation technologies, usable for all technical, chemical, biological, and process engineering applications; coalescers, high-pressure, medium-pressure and low-pressure air, oil, water and hydraulic fluid filters, liquid filters, pipe filters and process pipe filters, gas filters, in particular for seal gas systems, cyclone filters and other separating filters, all of the aforesaid being parts of machines; filling filters and ventilation filters, main-flow filters and partial-flow filters, multistage filters, return flow filters, in particular suction filters and return-flow suction filters, tank-installed filters, in particular ventilating and drying units, drum filters and strip winding filters, perforated plate filters and screen filters, offline filters and inline filters and spin-on filters, plastic melt filters, membrane filters, filter units comprising drainage devices, all of the aforesaid being parts of machines; filter elements,

perforated plate and screen filter elements, gap-type filter elements, rheological filter elements, flow filter elements, filter candles, filter cartridges, filter housings, filter discs and disc filter elements, filter mats, filter pots, filter cloths, filter bags, filter strips, filter packets and deep filter elements, in particular filter fabric materials, in each case being parts of machines; separating devices for separating liquids in relation to oil/water mixtures; cooling and heating devices, in particular heat exchangers being parts of machines for stationary and mobile applications for exchanging heat between liquid and/or gaseous media; shut-off equipment, shut-off apparatus, stop valves, switch-over devices and valves being parts for machines, in particular for hydraulic and pneumatic propellants and media; inflow pressure and circulating pressure balances, flow control valves, priority valves, shuttle valves, seat valves and slide valves, throttle valves and throttles, diaphragms, directional control valves, non-return valves, pressure valves, pressure control valves and pressure limiting valves, optionally with indicators and monitors, vent valves as parts of machines; control apparatus being parts of machines, in particular for hydraulic and pneumatic installations, in particular flow-dividers and control blocks, in particular valve control blocks; hydraulic or pneumatic operating cylinders, being parts of machines; hydraulically and pneumatically operated or driven motors, gear boxes, couplings, pumps and compressors, all of the aforesaid being parts of machines; hydraulic or pneumatic drive units for land, air and water vehicles and being parts of machines, in particular for process engineering, for general machine construction and for vehicles, in particular for construction equipment, for machine tools, for plastic-manufacturing machines, in particular consisting of at least one hydraulic pump, at least one drive motor and at least one container of metal or plastic for liquids; hydraulic or pneumatic drive units for land, air and water vehicles and being parts of machines, in particular for the driving of tools, for presses, for transport systems, for shipping and aeronautics and space travel, for chemical and reactor technology, for mining and metallurgical plants and for rolling mills, in particular consisting of at least one hydraulic pump, at least one drive motor and at least one container of metal or plastic for liquids; hydraulic motors and engines; control apparatus, in particular electric, electro-mechanical and electro-hydraulic control apparatus being parts of machines; lubricating apparatus and equipment, lubricating installations, and liquid separators, in particular oil mist separators, supply apparatus, in particular distributors for stationary and mobile applications for pneumatic and hydraulic installations and machines; parts of hydraulic and pneumatic machines, namely, mechanically operated clamping apparatus, clamping machines and clamping tools; motor-driven hydraulic pressure and feed pumps, being parts of machines, adjustable and non-adjustable; hydraulic drive units for elevator controllers, transport controllers and lift controllers, in particular consisting of a hydraulic pump, a drive motor and a liquid container of metal or plastic; machines for industrial washing and cleaning; electric motors for machines, namely, frequency-regulated motors; single and multi-stage compressors being parts of machines; blowing machines; electric, hydraulic and electro-hydraulic actuators for all types of transmissions being parts of machines, in particular for variable speed motors; lubricant separators, lubricant filter devices and lubricant filters for lubrication systems, in particular for turbines in the nature of gas motors, steam motors or hydro motors

**International Classes** 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

**For** Separators for the cleaning and purification of liquids and water and air filters, specifically filters for heating, steam-generating, refrigerating, drying, ventilating, water supply, water treatment, air-conditioning, and sanitary installations and apparatus; filters for industrial applications for heating, steam-generating, refrigerating, drying, ventilating, water supply, water treatment, air conditioning, and sanitary installations and apparatus, namely, coalescers, high-pressure, medium-pressure and low-pressure filters, liquid filters, line filters and process line filters, gas filters, in particular for seal gas systems, cyclone

filters and other separating filters, filling filters and ventilation filters, full flow filters and bypass filters, multistage filters, return flow filters, suction filters and return flow suction filters, tank-integrated filters, in particular ventilating and drying devices, drum filters and strip winding filters, perforated plate filters and screen filters, offline filters and inline filters and spin-on filters, plastic melt filters, membrane filters, filter units together with draining apparatus; liquid and gas filter component parts not being parts for machines, engines, motors or land vehicles, namely, perforated plate and screen filter elements, gap-type tube filter elements, rheological filter elements, flow filter elements, filter candles, filter cartridges, filter housings, filter discs and disc filter elements, filter mats, filter pots, filter cloths, filter bags, filter strips, filter packets and deep filter elements, namely, filter fabric materials; separating devices for separating liquids in relation to oil/water mixtures, namely, separators for the cleaning and purification of liquids; heat exchangers, not being parts of machines, for stationary and mobile applications for exchanging heat between liquid and/or gaseous media; cooling units for industrial purposes and heating installations for media therein

**International Classes** 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

**For** Fittings of metal for attaching of fluid separators, oil mist separators, reservoirs, filters, valves and control blocks and of gas, liquid and electric conduits; fittings of metal for gas and liquid apparatus, for fluid and oil mist separators and for gas or liquid conduits of metal; metal fasteners, namely, bolts, screws and rivets; metal clips of all kinds for general use; metal hose couplings for use with flexible metal hoses and metal pipe connections; flexible tubes of metal; connecting branches in the nature of metal supports for couplings for liquid and gas conduits and screw couplings, and adapters and sealing caps; metal storage tanks, namely, hydraulic tanks; metal housings and parts therefor, in particular in the form of separator housings, storage housings, filter housings and valve blocks for gas and liquid circuits
