GOODS AND SERVICES INFORMATION

For Computer file management in connection with activities in hyperbaric or hypobaric environments; business information services provided by access to a computer database in connection with diving activities and divers, and with activities in hyperbaric or hypobaric environments; collection, compilation and systemization of information into computer databases in the field of diving activities and divers in computer databases; collection, compilation and systemization of information into computer databases in the field of activities in hyperbaric or hypobaric environments; collection, compilation and systematization of statistics into computer databases in the field of in connection with diving activities and divers, and with activities in hyperbaric or hypobaric environments for business purposes; compilation of statistics into computer databases in the field of diving activities and divers, and with activities in hyperbaric or hypobaric environments for business purposes; collection, compilation and systemization of information into computer databases in the field of diving and hyperbaric or hypobaric activities; collection, compilation and systemization of information into computer databases in the field of the status and location of divers, and the status and location of individuals during hyperbaric or hypobaric expeditions; collection of data for business purposes in the field of norms and standards in the field of diving safety, and in the field of safety in activities in hyperbaric or hypobaric environments; statistical work and analyses, namely, business data analysis in the field of diving activities and divers, and with activities in hyperbaric or hypobaric environments; marketing for others by any means of scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking in the nature of supervision, life-saving and teaching apparatus and instruments,

for use in connection with diving activities and divers, and with activities in hyperbaric or hypobaric environments; marketing for others by means of apparatus for activities in hyperbaric or hypobaric environments, software and computers for managing activities involving hyperbaric or hypobaric exposure

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Scientific, nautical, geodesic, photographic, cinematographic, optical, weighing, measuring, signaling, checking in the nature of supervision, life-saving and teaching apparatus and instruments, for use in connection with diving activities and divers, and with activities in hyperbaric or hypobaric environments, namely, underwater cameras, scuba masks, dive watches, dive computers; apparatus for recording, transmission or reproduction of sound or images, for use in connection with diving activities and divers, and with activities in hyperbaric or hypobaric environments; Blank magnetic data carriers, prerecorded compact discs, DVDs and other digital storage media featuring safety information, physiological information and health information for use in connection with diving activities and divers, and with activities in hyperbaric or hypobaric environments; data processing apparatus, computers, for use in connection with diving activities and divers, and with activities in hyperbaric or hypobaric environments; software for dive planning and for decompression planning for use in connection with diving activities and divers, and with activities in hyperbaric or hypobaric environments; divers' apparatus, namely, weight belts, scuba masks, protective diving shoes, diving gloves, air tanks for use in diving, compressors and regulators for use in diving; apparatus for activities in hyperbaric or hypobaric environments, namely, hyperbaric and hypobaric oxygen chambers for non medical purposes; apparatus for detecting the flow of microbubbles in divers' bodies, namely, dopplers for non medical use, echographic apparatus for non medical use, ultrasonic sensors for non medical use; apparatus for detecting the flow of microbubbles in the bodies of individuals affected by significant pressure variation, namely, dopplers for non medical use, echographic apparatus for non medical use, ultrasonic sensors for non medical use; apparatus for monitoring and recording medical, physiological physical, biophysical, chemical and biochemical parameters, namely, sensors for measuring and recording variations of moves, of temperature, of heart beat, of blood pressure, or oxygen pressure, measuring and security apparatus with actuators for divers and for persons affected by significant pressure variation, namely, security alarms; database server centers in connection with diving activities and divers, and with activities in hyperbaric or hypobaric environments, namely, computer servers; dive computers, directional compasses, marine depth gauges, water pressure gauges; buoyancy vests in the nature of buoyancy compensator devices for divers; diving suits, diving masks, snorkels, diving signaling buoys; computers for use in activities in hyperbaric or hypobaric environments

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Civil protection; intellectual property licensing; database licensing; computer software licensing; security consultancy; security consultancy for diving; security consultancy for activities in hyperbaric or hypobaric environments; security consultancy in the field of the prevention and detection of diving risks; security consultancy in the field of the prevention and detection of risks for activities in hyperbaric or hypobaric environments; inspection of diving businesses for safety purposes; inspection of businesses that expose persons to hyperbaric or hypobaric environments for safety purposes; conducting of appraisals of devices and installations for diving and of devices and installations for hyperbaric or hypobaric

exposure for the purposes of compliance with legal requirements

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Medical services in connection with diving activities and divers, and with activities in hyperbaric or hypobaric environments; medical services for divers; medical services for persons affected by significant pressure variation; providing information on health risks for divers and for individuals affected by significant pressure variation; analyses of medical, physiological, physical, biophysical, chemical and biochemical data relating to divers for medical purposes; analyses of medical, physiological, physical, biophysical, chemical and biochemical data relating to individuals affected by significant pressure variation, namely, exposure to hyperbaric or hypobaric environments for medical purposes

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For Scientific and technological services, together with research and design services, relating to diving and divers, namely, research in the field of decompression sickness prevention and research in the field of medicine and physiology of diving; scientific and technological services, together with research and design services relating to activities in hyperbaric or hypobaric environments, namely, research and design in the field of hyperbaric and hypobaric chambers; industrial research services in the field of diving and divers, and with activities in hyperbaric or hypobaric environments; design and development of computers and software in connection with diving activities and divers, and with activities in hyperbaric or hypobaric environments; engineering in the field of diving activities and divers, and with activities in hyperbaric and/or hypobaric environments; rental of computer software in connection with diving activities and divers, and with activities in hyperbaric and/or hypobaric environments; scientific research in the field of the prevention and detection of diving risks, scientific research in the field of the prevention and detection of risks in activities in hyperbaric or hypobaric environments; scientific research and design for the production of measuring and safety apparatus with actuators for divers and for persons affected by significant pressure variation; technical consultation in the field of safety in connection with diving activities and divers; technical consultation in the field of security services in connection with hyperbaric or hypobaric environments; technical consultation in the field of the prevention and detection of diving risks; technical consultation in the field of the prevention and detection of risk in activities in hyperbaric or hypobaric environments; certification services in the nature of auditing, namely, testing, analysis and evaluation of companies and persons providing diving services and services with hyperbaric or hypobaric exposure for the purpose of certification; development of database server centers in connection with diving activities and divers, and with activities in hyperbaric or hypobaric environments; calibration services in connection with diving activities and divers, and with activities in hyperbaric and/or hypobaric environments; calibration of instruments and apparatus for use in diving activities and by divers; calibration of instruments and apparatus for use in activities in hyperbaric or hypobaric environments; calibration services relating to computer software in connection with diving activities and divers; calibration services relating to computer software in connection with activities in hyperbaric or hypobaric environments; recalibration of data processing apparatus in connection with diving activities and divers; recalibration of data processing apparatus in connection with activities in hyperbaric or hypobaric environments; calibration services relating to analytical apparatus for use in the field of diving activities and by divers; calibration services relating to analytical apparatus for use in activities in hyperbaric or hypobaric environments; scientific

and technical data analysis for activities in hyperbaric or hypobaric environments and for individuals affected by significant pressure variation; blood analysis of divers; blood analysis of individuals by affected by significant pressure variation; testing and checking apparatus for divers; testing and checking apparatus for use in hyperbaric or hypobaric activities; providing temporary use of on-line non-downloadable software used for managing diving and verifying the status of divers; providing temporary use of on-line non-downloadable software used for managing activities in hyperbaric or hypobaric environments and verifying the status of individuals affected by significant pressure variation; development of testing methods in the field of diving and diver safety, and in the field of safety for activities in hyperbaric or hypobaric environments and individuals affected by significant pressure variation; services for evaluating test results in the diving sector, and in activities in hyperbaric or hypobaric environments; technical assistance for businesses, namely, consulting, technical studies, technical assistance and expert appraisals in the field of safety of divers and individuals affected by significant pressure variation; technical monitoring and checking of devices and installations for diving and of devices and installations for hyperbaric or hypobaric exposure for the purposes of compliance with quality standards, specifications and research, customer specifications and legal requirements; conducting of technical appraisals relating thereto concerning devices and installations for diving and of devices and installations for hyperbaric or hypobaric exposure for the purposes of compliance with quality standards, specifications and research, and customer specifications; design of safety management systems for the safety of diver and individuals affected by significant pressure variation in accordance with generally accepted standards and quality standards, specifications and research, and customer specifications; testing, analysis and evaluation of the goods and services of others for the purpose of certification, namely, certification of diving management systems, diving goods, systems for managing activities in hyperbaric or hypobaric environments, articles for hyperbaric or hypobaric environments in particular of diving apparatus, diver safety services, publication of databases, systems for managing activities in hyperbaric or hypobaric environments and articles for hyperbaric or hypobaric environments; technical assistance and expertise concerning certification in the field of diving safety, and in the field of the safety of activities in hyperbaric or hypobaric environments
