MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the design of a shoe print with the wording "DR. SCHOLL'S" presented inside an oval carrier above the wording "ACTIVE SERIES" located at the bottom of the shoe print. The wording "DR. SCHOLL'S" and the carrier are grey, and presented on a black background. The wording "ACTIVE SERIES" is light green. The wording "DR. SCHOLL'S" and carrier are located above the wording "ACTIVE SERIES", all of which is located toward the lower portion of the mark. The mark also includes a pattern of intersecting, irregularly curved lines in grey, at both the lower portion and top portion of the mark, with the majority of the shoe print in black. The lower curved lines pattern does not bisect the wording in the mark, and the upper pattern of curved lines is accompanied by five circles in light green, one above the other in the left upper portion of the mark, each slightly smaller than the one below. The broken lines on the outer edge of the mark depicting an overall shape of an insole indicate placement of the mark on the goods and are not part of the mark. **Color Drawing** Yes **Color Claimed** The color(s) black, grey, and light green is/are claimed as a feature of the mark. **Disclaimer** "SERIES" **Name Portrait Consent** The name(s), portrait(s), and/or signature(s) shown in the mark does not identify a particular living individual.

GOODS AND SERVICES INFORMATION

For [Adjusting cylinders, parts of machines; galvanising installations; resistance electric welding machines and industrial welding robots; and machines parts sold in connection therewith or as replacement parts, namely, connecting hoses and connecting cables]

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For [Installations for electrometallurgy, namely, light arc, reduction, pan, vacuum, induction, resistance, plasma and direct current furnaces; graphitizing furnace installations; parts for the aforesaid installations, namely, melting vessels, expansion joints for heating, vibration dampers for conductor rails for heating]

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Building construction, namely, constructing light arc, reduction, pan, vacuum, induction, resistance, plasma and direct current furnaces, graphitization and band galvanization installations; repair and maintenance of light arc, reduction, pan, vacuum, induction, resistance, plasma and direct current furnaces, graphitisation and band galvanisation installations

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Electrical installations for electrometallurgy, namely, graphite and copper electrodes, branch contact for electrical clamps, high voltage electric lines, high voltage electric cables, electric conductor rails, electric chokes, induction loops, cable heads and electric couplings for connection of high voltage electric lines and high voltage electric cables, high voltage electric power supply installations, switching apparatus for high-frequency switching power supplies switching installations, transformers, electrical equipment in the nature of metal for band galvanising installations; electrical equipment for nuclear fusion installations, namely, electrical connections and connectors for electric cables, electric welding tongs, tensile strength meters

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For [Heat-resistant and high tensile strength, including reinforced, protective tubes for high voltage lines and high voltage cables of rubber or plastic for insulating and protecting the aforesaid lines and cables, the aforesaid tubes also for conveying refrigerants, spacer blocks, supports, suspension apparatus and wall ducts for conductor rails and electricity conduits, high voltage cables and water pipes of ceramic]

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For [Design of light arc, reduction, pan, vacuum, induction, resistance, plasma and direct current furnaces]

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Materials of metal, namely, crane track girders, metallic elements used as support, namely, supporting arm columns, electrode supporting arms, electrode mounts, spacer blocks, bracket supports, suspension brackets and wall ducts for conductor rails, water pipes of metal, vibration dampers for high voltage lines and high voltage cables, vibration dampers for water pipes

For [Gearboxes for land vehicles]

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For [Pumps, namely, hydraulic pumps, electronic or hydraulic cask and container pumps; pump stations consisting primarily of electronic or hydraulic pumps equipped with filter installations for liquids; hydraulic valves and cylinders for machines or hydraulic systems; valves of metal or plastic for hydraulic pipelines, pumps or filter installations for machines and motors; electronically or hydraulically actuated hydraulic or pneumatic valves for machines; hydromachines, namely, hydromotors, hydropumps and hydrocylinders for machines; electric motors, except for land vehicles, and parts therefor, namely, synchronous motors, asynchronous motors, linear motors and parts of these; electric motors in kit form, except for land vehicles, namely, asynchronous motors in kit form; gears, namely, hydraulic gears, mechanical gears, wind power gears, gears for stationary installations; machine components for wind power installations, namely, electric and hydraulic azimuth drives or electric and hydraulic pitch drives; couplings for machines; gear wheels for machines; hydraulic motors for hydraulic systems, consisting primarily of motors, containers and pumps; hydraulic motor apparatus consisting primarily of motors, filters, pressure switches, heat exchangers, radiators and hydraulic containers; roller and sliding bearings, namely, bearings for linear movement, namely, spherical liners, rail guides, roller and recirculating ball shoes for machines and machine engines; roller gears, namely, ball and roller screws, planetary roller gears for machines; ball rollers, roller elements, bearing sleeves, bearing cages, roller element cages and bearings seals all for machines; shaft bearings, shaft support bearings, shaft blocks; all the aforesaid goods with safety components guaranteeing a safety function in relation to these goods, in particular arrest devices for preventing crashes, or electric, pneumatic and hydraulic safety devices in the form of safety circuits with electronic,

pneumatic and hydraulic components, control and visualization apparatus, drive control apparatus, safety function modules, input and output units, input and output converters; parts for machine tools, namely, electric and hydraulic drives and controls; mechanical apparatus for the feeding and delivery of work pieces to and from machines for working objects, namely, tables, slides and linear actuator modules; machine-driven handling equipment for grabbing, retaining, depositing, rotating, pushing and receiving work pieces, used in connection with machine tools and assembly apparatus; pneumatically, hydraulically, mechanically or electrically operated activation apparatus for machine tools and work piece feed machines, namely, conveyors and actuators; two-dimensional or three-dimensional multiaxle systems consisting primarily of electric or hydraulic motors for machine tools and material handling machines; material handling machines, namely, palletizers, case elevators, automatic pallet dispensing machines and automatic slip sheet dispensing machines; conveyor systems, consisting primarily of conveyors, belt, band, strap hinge, chain, scraper chain and roller conveyor systems, assembly lines, conveyor chains, lifting, rotating and tipping devices, lifting/traversing units, work piece carriers, drive chains, conveyor belts, roller bearings; modular elements for automated assembly/manufacturing systems, including for equipping work stations, namely, machine mounts and tool delivery systems, consisting primarily of stands, legs and racks; safety and protective devices in the form of protective housings, swiveling work stations in the form of adjustable assembly levels both for use in machine tools; mechanical, thermal, electrochemical burrino machines, cooling lubricant supply and processing installations for machine tools, consisting primarily of filter and separator systems consisting primarily of gravity, vacuum, suction and precoat filters, magnetic rollers, hydrocyclones, containers, pumps, radiators, sold as a unit with controls and chip processing installations, mainly consisting of crushers, centrifuges, briquetters; machines, namely, winches; machine parts, namely, switchable and non-switchable shaft couplings, shaft bearings, toothed gears for stationary use, friction gears, flat belts and V-belts, belt pulleys, beam guide apparatus, vibration isolators; gantry lifting gear for machines; container lifting gear for machines; filters for machines and motors; filters for installation in compressed air pipes in hydraulic motors and engines; filters for the filtering of lubricating and heating oil, fuel, water including liquids from the chemical industry; filter cartridges for filters in machines and motors; filter housings of metal or plastic for machines and motors; mesh bottoms for filters in machines and motors; replaceable filter cartridges for constructing pipelines and tanks and for filters in machines and motors; heated filters, namely, filters for untreated waste products or for filtering lubrication oils, bitumen and other viscous media in motors and engines; machines, namely, industrial robots and material handling machines with pneumatically driven axles; packaging machines; pneumatic, hydraulic, electric, electronic and combined-function drive, control and regulating elements, and devices comprising these elements, namely, linear drives for motors; fluid-operated cylinders, forward feed devices, brake cylinders, valves, connector and distribution plates for valves, stop valves, pistons, pressure switches, pressure regulators, electric/pneumatic converters, connectors, electronic and servo-motors operated by pressure flow, compressed air reservoirs, compressed air maintenance units, compressed air sound dampers, compressed air filters all for machines, motors and engines; machines and mechanically operated apparatus for workpiece machining, handling, production and assembly technology with pneumatic or electric actuators, namely, conveyors and feeders; fittings for pneumatic use, namely, pneumatic connectors and work holding fixtures for precision machining applications]

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For [Office and workplace furniture, and frames and racks made using profiles of metal for office and workplace furniture; manual work systems, namely, work tables, work benches and work chairs]

International Classes 20 - Primary Classes **US Classes** 2, 13, 22, 25, 32, 50 **International Class Title** Furniture and Articles Not Otherwise Classified

For [Separators for purification of liquids with different density]

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Electric or pneumatic maintenance display apparatus, namely, control displays or industrial computer displays; servicing indicators, namely, control displays or industrial computer displays; electric and electronic control and regulating devices for electric, electrohydraulic and electropneumatic drives; regulated, in particular current and/or voltage and/or frequency-regulated power components, namely, power converters, frequency converters, inverters; power supply terminals for electric motors, for industrial robots, for resistance welding devices, and for industrial assembly tools, namely, hand held power screwing and insert tools and press-fit tools; control and visualization apparatus for industrial automation, namely, industrial computer/monitor units, dust and/or splash-proof special computers in continuous operation, in particular industrial computers for industrial automation; digital and analog interface board and control units for electric, electrohydraulic and electro pneumatic drives; electric and electronic apparatus for operating manufacturing assembly and handling machines, namely, industrial controls; equipment and systems consisting thereof, for the automation of movements and of resistance welding devices, namely, industrial controls and programmable logic controls; apparatus for operating hydraulic equipment, namely, industrial controls and programmable logic controls; electric manometric switches for hydraulic apparatus; integrated length measuring systems for linear motion engineering, consisting primarily of material measures, lengths measure standards and lengths measuring apparatus, namely, lengths measuring sensors, namely, inductive type or hall-type sensors; electronic monitoring apparatus and checking/supervision apparatus for monitoring the condition of rotor blades and/or the condition of the drive train and/or the condition of the tower and/or the condition of the foundations and/or the condition of other components of wind power installations; electronic checking/supervision apparatus for controlling the pitch of rotor blades to prevent overloading of the rotor blades and drive train; measuring apparatus, measuring instruments and precision measuring apparatus, namely, sensors and their analyzing devices, all for rotor blade monitoring for wind power installations; electronic checking/supervision apparatus for quality control for the manufacturing of rotor blades; computers; computer screens; data processors for the electronic control of machines, namely, robots and handling devices with pneumatically driven axles, packaging machines; electric and electronic actuating, control and regulating mechanisms, and devices comprising these mechanisms, namely, electronic control units for valves; electric, [electronic, pneumatic and optical surveillance units, namely, industrial controls and using these functions and installations thereof for sensors or positioning devices for moving components; devices for displaying data, namely, computer monitors and industrial displays; apparatus for the input of data and commands, namely, industrial controls, industrial keyboards and industrial touch screens, apparatus for recording, transmission and/or reproduction of images and sounds, namely, industrial controls, industrial computers and LAN, WAN and industrial field bus interfaces; data-processors; electronic servicing indicator boards for filter, pipeline and pump installations; electronic servicing indicator boards for filter, pipeline and pump installations in particular for manometers and vacuum meters, optical indicators, pressure switches, vacuum switches, differential pressure indicators; electronic servicing switches for pressure testing in filter installations; magnets for filter installations in machines and motors; magnets; computer operating

application software for industrial controls and industrial computers in the field of industrial automation; computer programs for the working processes of manufacturing machines and for the graphic representation of the program flow and of the processing cycle of the aforesaid programs; machine-readable data carriers equipped with computer programs for operating industrial controls and industrial computers in the field of industrial automation; operating software for controlling and/or visualization of processes in industrial automation; downloadable software containing representation of the content of database data from monitoring industrial automation systems]

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Engineering and physics research; consultancy in the field of engineering and physics research; configuration of computer software systems; engineering services, particularly technical project planning and design engineering of lines for the processing of web products; providing of expert consultation in the field of engineering and testing; planning, design and planning and design consultancy relating to electric motors for handling and assembly systems, packaging and food machines, printing and paper processing machines, and machine tools, industrial robot systems, resistance welding installations and industrial assembly tools; creating and development of software for operating digital automation apparatus; creation and development of computer programs and of apparatus-specific computer programs stored in the apparatus firmware for industrial automation, for working processes of numerically controlled processing machines and for the graphic representation of the operation of such programs on a screen; computer rental; application service provider featuring application programming interface (API) software for allowing data retrieval, upload, access and management; technical support services, namely, technical administration of servers for others and troubleshooting in the nature of diagnosing server problems: providing non-downloadable computer software for technical measuring, technical tests and checks, namely, monitoring the condition of rotor blades and/or the drive train and/or tower and/or foundation and/or other components of wind power installations; engineering and providing of scientific research

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For [Casting, foils, powdered and rolled, drawn or extruded; finished articles of steel; cast iron; cast products of gray cast iron and nodular graphite cast iron and iron alloys; cast iron material iron alloy material for mechanical engineering; cast iron material and iron alloy material for use in hydraulic systems, nodular graphite cast iron material for use in hydraulic systems and components, dead mold cast iron material for use in hydraulic systems and components; foundry molds in the form of continuously cast work, chilled work, moulding machine work; containers of metal for hydraulic or pneumatic pressure media; transportable buildings of metal; metal profiles, in particular, extruded profiles of aluminum; metal profile connectors; fitted stands, legs, racks made using extruded aluminum profiles for use with machines; small items of metal hardware, namely, nuts, screws and bolts]
