GOODS AND SERVICES INFORMATION

For Chemical preparations for medical, veterinary or pharmaceutical purposes, namely, for use in the diagnosis of a disease or disease-related conditions, the determination of the state of health, the monitoring of a therapy, genetic analyses, forensic analyses, the determination of one or more compounds in a sample, the determination of the activity of one or more compounds in a sample; chemical substances for diagnostic purposes, namely, diagnostic preparations for medical or veterinary purposes; chemical substances for medical laboratory analyses, namely, medical diagnostic assays for medical research purposes; chemical reagents for medical or veterinary purposes; medicated serums, namely, medicated hair serums, medicated serums for the treatment of cancer, oncology and immunotherapy, blood grouping serums and blood typing serums, namely, medical reagents and assays for testing blood to determine blood type; diagnostic agents for medical purposes; diagnostic agents for veterinary purposes; diagnostic agents for pharmaceutical purposes; clinical diagnostic reagents; medical diagnostic test strips for blood analysis, urine analysis, saliva analysis, liquor analysis, stool sample analysis, analysis of bodily fluids, analysis of cell suspensions, pregnancy testing, fertility testing, blood sugar testing, infectious disease testing, testing of hemostasis disorders, therapeutic drug monitoring, drug abuse testing; disinfectants; products for dental purposes, namely, ceramic blanks for dental use, material for bonding ceramic parts and teeth, dental filling material as well as enamels for color matching of teeth

International Classes 5 - Primary Classes **US Classes** 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Financing and Loan intermediary services; real estate and rental property management as well as renting of accommodation for third parties in the nature of rental of real estate; financing of leasing of electrical and electronic systems, products and equipment as well as of information technology products; financial administration for medical facilities, namely, budget planning, Administration of employee benefit plans concerning insurance and finance, administering pre-paid healthcare plans and health care reimbursement arrangements; financial services, namely, financing of purchases; insurance services, namely, underwriting, issuance and administration of health insurances

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For Medical imaging apparatus, namely, equipment and devices for recording, processing, storage and reproduction of medical images; electromedical equipment and devices, namely, X-ray diagnostic apparatus as well as imaging systems consisting thereof and structural parts therefore; x-ray radiation therapy replacement parts used for x-ray diagnostics apparatus; radiation therapy devices; medical imaging apparatus, namely, devices and equipment for medical imaging, in particular, angiography, cardiography, neuroradiology and subtraction angiography (DSA); medical imaging apparatus, namely, devices for digital image acquisition for contrast medium examination with real-time imaging; instruments and devices for endo-urological radiology, functional diagnostics and instrumental urology and for extracorporeal lithotripsy of urinary and biliary calculus; devices for treating bone, muscle and tendon disorders, namely, bone screws, bone substitutes for surgical use, electronic muscle stimulators for medical use, medical apparatus and instruments for treating osteoarthritis, osteoporosis, osteotraumatic injuries, degenerative bone diseases and joint diseases; radiological apparatus for medical purposes, namely, equipment and devices for recording, processing, storage and reproduction of radiological information; medical and electromedical equipment and devices for computed tomography, nuclear spin tomography, magnetic resonance tomography, ultrasonic diagnostics, nuclear medicine, radiotherapy, positron emission therapy (PET) and systems consisting thereof and replacement parts; medical equipment for long-term electrocardiographic (ECG) recording and computer-aided electrocardiographic (ECG) analysis, electroencephalographs; electric heating devices for high-frequency heat curative treatment; medical instruments for electrosurgery; measuring instruments for cardiac catheterization; equipment for patient monitoring and arrhythmia analysis, namely, patient monitoring sensors and alarms, medical apparatus for monitoring the vital signs of patients; medical equipment for polygraphy and electrophysiological examinations, namely, EKG machines; measuring devices for medical functional analyses, namely, arterial blood pressure measuring apparatus, blood pressure measuring apparatus, devices for measuring blood sugar, devices for measuring intracranial pressure; cardiac pacemakers and defibrillators; telemetry devices for medical purposes; medical apparatus, namely, respiratory equipment; lasers for medical purposes; catheters; radiotherapy apparatus, namely, linear accelerators for tumor radiotherapy; tumor localization devices, namely, medical imaging apparatus; dosage planning and documentation devices for tumor radiotherapy, namely, drug delivery devices and systems; dental treatment apparatus and luminaires for work areas, namely, intra-oral dental light system; dental drills for preparation work; dental turbines in the nature of oral irrigators; orthodontic instruments, namely, ultrasonic scaling equipment; periodontal diagnostic apparatus for the detection of periodontic disease; medical apparatus for computer-aided manufacture of ceramic fillings; diagnostic and treatment devices for hearing-impaired persons, namely, medical testing devices for measuring hearing loss in patients in the nature of audiometers and hearing test cubicles, medical hearing aids, hearing aid spectacles, namely, eyeglasses incorporating assistive listening device, hearing and speaking devices and special equipment for hearing-impaired children, namely, ear trumpets, assistive listening devices, wireless transmitters and receivers

for use with hearing aids, sound processors adapted for use with prosthetic hearing devices, voice amplification devices; furniture especially made for medical purposes, namely, patient positioning tables, examination and operating room tables; parts of acoustic apparatus for the hearing-impaired, namely, cerumen filters for medical hearing aids; electrical devices for hygiene and beauty care, namely, massagers, irradiation units, namely, medical and dental sterilizers, electric inhalant atomizers, sold empty for medical use; medical imaging apparatus, namely, luminescent screens for medical purposes; medical imaging apparatus, namely, radiographic systems based on phosphor storage plates; X-ray tubes for medical purposes; medical imaging devices, namely, devices for the generation of electromagnetic fields used for medical diagnostics; medical diagnostics imaging devices; medical equipment, devices and instruments used for point-of-care diagnostics, namely, medical diagnostic analyzers for testing blood and biological samples and computer software incorporated into medical diagnostic analyzer systems for recording, processing and analyzing results of tests of blood and biological samples, all sold as a unit; furniture especially made for medical purposes; special furniture used for medical examinations and treatment; tables especially made for medical purposes; couches especially made for medical purposes; chairs especially made for medical purposes; beds especially made for medical purposes; blood analyzing devices; urine analyzing devices, namely, medical diagnostic apparatus for testing urine; protective equipment and protective screens providing protection against X-ray exposure used for medical purposes, namely, patient x-ray radiation shields; surgical scrub suits; special suitcases and special bags for medical equipment, devices; doctors kits, comprising, stethoscopes, blood pressure measuring apparatus, otoscopes, reflex hammers; surgical laboratory robots for medical purposes; medical functional and work clothing, namely, medical gowns, patient examinations gowns

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Stationery and writing materials, namely, writing paper, ink pens, pencils; printed instructional and teaching materials in the fields of science, engineering, electronics, medicine and technology; printed matter, namely, books, journals, magazines, newsletters, booklets, and manuals in the fields of science, engineering, electronics, medicine and technology; medical journals; medical books

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Education in the form of courses, seminars, workshops in the fields of science, engineering, electronics, medicine and technology; tuition in the nature of instruction, basic and advanced training for third parties, namely, business training services, IT training services, and employee training through classes and workshops in the use and operation of medical and technological devices; publication and publishing of books and journals; medical training courses; practical and theoretical training courses on medical and medical engineering instruments, equipment and devices; organization of educational conferences in the field of medical science; publishing of medical publications in the nature of books, journals, magazines, newsletters, booklets, and manuals; publishing of medical journals, books and manuals; production of films for medical purposes

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Business consultancy; business management; business planning; business management, business planning and business strategy services for third parties; business consultancy for medical facilities and hospitals; management of hospitals for third parties; provision of statistical business information on medical issues; invoicing of medical services; compilation of statistical data related to medical research for business or commercial purposes; advertising services for third parties in the field of electrical engineering, electronics, information technology and medical engineering; leasing of office machines and equipment

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Installation of medical facilities, namely, construction of medical establishments; servicing, maintenance, repair and installation of medical instruments, devices and equipment; servicing, maintenance, repair and installation of diagnostic instruments, devices and equipment; provision of information related to the repair or maintenance of medical systems and devices

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Navigation devices, namely, GPS navigation devices, apparatus for vehicle navigation; aerials and aerial systems comprised of aerials, aerial combiners, aerial amplifiers; radar sets comprised of radar apparatus, antennas, radar displays; short-wave radio transmitter and receiver stations; radio access systems comprised of radios, radio signal transmitters and receivers, and antennas; air-ground communication systems comprised of radios, radio signal transmitters and receivers, and antennas; directional radio systems comprised of radios, radio signal transmitters and receivers, and antennas; satellite communication equipment, namely, satellite radios, satellite receivers, satellite processors; encoding devices; thermal imaging devices, namely, thermal imaging systems, not for medical use, thermal imaging cameras; laser distance measuring apparatus; Identification Friend or Foe systems for aircrafts comprised of proximity sensors, alarm sensors, thermal imaging cameras; devices for receiving, localizing and classifying electromagnetic signals, namely, electromagnetic signal processors, transmitters and receivers; navigational devices for land vehicles, watercrafts and aircrafts; traffic decoders; pilot computers; on-board computers; devices for airbag diagnostics and tire diagnostics, namely, level gauges, automatic indicators of low pressure in tires; computer software for aircraft fleet management, namely, software for control and management of aircraft fleets; temperature sensors; electrical cable harnesses for automobiles and aircraft; on-board power supply; electronic engine control centers; electric igniting apparatus, for igniting at a distance used in connection with ballasts for discharge lamps, electrical control and switching devices; devices for fuel injection control, namely, power controllers for fuel injection; resonators for automobile technology; electronic control systems for gear, drive, differential, braking, antiskid, four-wheel steering, damping, self-leveling suspension and clutch systems; engine diagnostic apparatus, namely, computer hardware and computer software for analyzing and reporting engine performance, temperature sensors, vibration sensors; acoustic and optical signaling devices and annunciator panels, namely, electrical annunciators, cables for optical signal transmission, emergency signal transmitters, digital signal processors, signal generators, vehicle traffic signals, railway signals; devices for railway signaling technology and systems composed of such devices, namely, railway signals, electronic signaling mechanisms in the nature of train control system used in the railway industry for detecting and controlling trains, ground faults, broken rails, power failures, track switches and lights; control machines for industrial communications, namely, industrial automation controls, electric installations for the remote control of industrial operations; electroacoustic devices, namely, electroacoustic transducers, acoustic amplifiers for conference systems, for recording and video studios; recording and video transmission and

production systems comprised of apparatus for recording, transmission, and reproduction of sound and images; photographic and film equipment, namely, cameras, video cameras; loudspeakers; loudspeaker boxes in the nature of loud speaker cabinets; microphones; headphones; electronic amplifiers; semiconductors; equipment and devices for recording, processing, storage and reproduction of radiological information, namely, computers, radiation measuring instruments, radiation detectors, x-ray apparatus not for medical purposes, computer hardware for use in connection with radiological devices, computer software for use in connection with radiological devices to record, process and analyze imaging data; vibrotactile communication equipment, namely, vibration meters, vibration sensors; current collectors, namely, current transformers, current converters; lambda probes for scientific purposes; scientific research and laboratory devices, educational apparatus and simulators, namely, audiovisual teaching apparatus in the nature of audio and video recorders, video cameras, audio and video projectors, audio and video transmitters and receivers, and computer display screens, microcomputer emulator, medical diagnostic simulators for use as teaching aids in imaging procedures, educational computer software and computer applications for mobile devices, namely, computer programs for providing information in the field of science and medicine; scientific equipment, devices and instruments for the performance of laboratory analyses, not for medical purposes, namely, research laboratory analyzers for measuring, testing, and analyzing blood, urine, liquor and other bodily fluids, tissue slides and other tissue samples, medical laboratory research instruments for detecting pathogens, measuring compounds in samples, determining the activity of compounds in samples, DNA or RNA analysis, determination of nucleic acid or peptide sequences; laboratory apparatus, namely, laboratory devices for detecting or determining genetic sequences, bioreactors for laboratory use, pipetting instruments in the nature of pipettes, and centrifuges; laboratory filters; data recorded electronically, namely, computer software for recording and analyzing lab results, prerecorded magnetic data carriers featuring laboratory research; information technology and audiovisual devices, namely, audiovisual receivers and transmitters, computer terminals, computer hardware; magnets, magnetizing and demagnetizing equipment, namely, magnetizers and demagnetizers; measuring, detecting and monitoring instruments, equipment and control systems, namely, electronic controllers for control of laboratory apparatus, temperature monitors for laboratory use, radiation detectors, lasers for measuring purposes; optical devices and equipment, amplifiers and correctors, namely, optical semiconductor amplifiers, optical condensers, optical disk drives, optical disk readers and optical fibers; security, safety, protection and signaling devices and equipment, namely, fire and smoke detectors and alarms, motion detectors, anti-intrusion alarms, personal security alarms; optical devices and instruments, namely, filters for optical devices ; electrical adapters, electrical accumulators, electrical alarm bells, electrical systems in the nature of installations for remote control of industrial processes, electrical connecting units, electrical batteries, electrical contacts, electrical optical couplers, electrical data processing couplers, electrical conductors, electrical conducting tubes in the nature of electron tubes, electrical relays, electrical locks, electrical coils, electrical transformers, electrical monitoring systems, namely, electronic monitors for monitoring electrical signals, electrical resistances; electrical signaling, measuring, supervising, counting, recording, monitoring, open and closed-loop control and switching devices, namely, electrical switches, electrical controllers, electrical signal transmitters and receivers; electrical data input, processing, transmission, storage and output devices, namely, digital input and output scanners, input devices for computers; data processing devices and computers and computer peripheral equipment; electrical transformers; replacement parts for the equipment, devices and instruments mentioned above; downloadable data processing software for monitoring, recording, and analyzing patient medical data; downloadable software for controlling and managing electromedical devices; downloadable data processing computer programs for recording, analyzing and sharing data from medical imaging devices; computer monitors; X-ray tubes not for medical purposes; detectors, namely, carbon dioxide detectors, carbon monoxide detectors, fire and smoke detectors, metal

detectors, motion detectors, radar detectors, photometers, nephelometers in the nature of concentration meters, detectors measuring fluorescent or chemiluminescent signals, radiation detectors; sensors, namely, temperature sensors, proximity sensors, alarm sensors, pressure sensors; protective facilities and protective screens against X-rays not for medical purposes, namely, radiation shields for electronic products

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Provision of internet forums and internet chat lines; provision of access to contents, websites and internet portals, namely, providing Internet access; wireless data transfer via the internet; information and data transmission via computer networks, online services and the internet

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Medical services; health care and beauty care; medical diagnostic testing services; medical diagnostic consulting services in the field of medical imaging; services provided by hospitals, namely, medical care, surgery, emergency medical services, physical examination services; performance of medical examinations and tests for diagnostic or treatment purposes; medical imaging services; medical care services; leasing of medical devices; medical consulting; medical treatment; medical information services provided via the internet; services in the field of telemedicine, namely, telemedicine services; medical services provided via the internet; physical therapy services, mental health therapy services and nutritional health therapy services; leasing of technical medical systems, products and facilities; leasing and renting of medical facilities; leasing and renting of medical equipment, devices; renting of medical engineering products and equipment; preparation of medical examination reports

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For Scientific research and development for third parties in the fields of electrical engineering, electronics, information technology, medical engineering, physics, chemistry and mechanical engineering as well as planning, consulting, engineering services and technical supervision in these fields; construction drafting, architectural design services, architectural consulting services; computer programming services, namely, generation of data processing programs; materials testing; computer programming in the field of medicine; computer programming services, namely, generation of computer programs for medical applications; medical research; technical consulting for medical facilities and hospitals, namely, information technology consulting, computer hardware consulting, computer software consulting; technological planning and consulting services in the fields of computer hardware and software used in association with medical equipment and technological planning and consulting in the fields of scientific research and clinical trials by hospitals; computer services, namely, providing cloud hosting for medical information

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

CASE IDENTIFIERS

Serial Number 88226392 **Application Filing Date** Dec. 12, 2018 **Register** Principal **Mark Type** Trademark **Publication Date** Sep. 01, 2020

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a trade dress characterizing the front view of the packaging for the goods, comprised of a rectangle with a green gradient effect that contains, from the top left, a yellow ribbon design that features a lion head attached to a mermaid tail design in black, above the black words "PRODUCT OF SINGAPORE" appearing above the terms "STB/J28/09". At the top center there is a design showing brown honey being poured from a white container, over the side of an image of a ginger root and seven slices of ginger root, all in beige color. Next to these elements is the wording "HONSEI" in stylized yellow letters with a black shadow. Below the ginger and honey designs is the word "GINGER" in stylized red letters and a white shadow, which is shown above the words "COCONUT CANDY" in stylized white letters with a dark green outline. The phrase "RICH FLAVOUR OF SPICY GINGERS PAIRED WITH CREAMY COCONUTS" are shown at the center, in black letters, right above two concentric circles to the left, with a red center and a black border, containing the words "THIS IS AN AUTHENTIC MARK OF HONSEI PRODUCT" in white letters and ending with a white asterisk symbol, within the black border. The wording "HONSEI" in yellow stylized letters and a black shadow is featured within the red center. The phrase "C'EST UNE MARQUE AUTHENTIQUE DE PRODUIT DE HONSEI" surrounds the wording "HONSEI", in white stylized letters. Opposite to this design, to the right, is the design of a lion head statue in gradients of white and grey, with a torso that features fish scales. At the bottom of the trade dress, starting from the bottom left, there is an image of a brown coconut and a half showing its white flesh, surrounded to the right by seven green leaves. Pieces of beige ginger comprise the rest of the bottom design, all the way to the right. At the right corner, above the ginger roots, there is a globe design in light green with black parallels, a shaded black semicircle at the bottom, a black border and a white shadow. At the top of the globe there is a green and white design comprised of five lines of irregular length. Stylized Arabic characters in white are shown within the left side of the black border. The right side of the black border shows the words "MAJLIS UGAMA ISLAM SINGAPURA" in white stylized letters. Within the semicircle, Arabic characters are shown in white stylized

letters. Superimposed, at the bottom of the globe, is a black rectangle with the wording "HALAL" in stylized white letters. Right below this rectangle is the word "SINGAPORE" in black stylized letters and over the white shadow of the globe. The color white in the center of the background of the drawing of the mark represents transparent areas and is not claimed as a feature of the mark. **Color Drawing** Yes **Color Claimed** The color(s) yellow, red, dark green, green, beige, brown, grey, white, and black is/are claimed as a feature of the mark. **Disclaimer** THE REALISTIC IMAGES OF COCONUTS, GINGER ROOTS AND GINGER PIECES AND "PRODUCT OF SINGAPORE", "GINGER", "COCONUT CANDY", "RICH FLAVOUR OF SPICY GINGERS PAIRED WITH CREAMY COCONUTS", "HALAL", "SINGAPORE", "MAJLIS UGAMA ISLAM SINGAPURA" AND THE NON-LATIN CHARACTERS THAT TRANSLITERATE TO "HALAL" AND "AL-MAJLIS-UL-ISLAMI AS-SINGHAFURI" **Translation** The English translation of "HONSEI" in the mark is "true character". The English translation of "C'EST UNE MARQUE AUTHENTIQUE DE PRODUIT DE HONSEI" in the mark is "THIS IS AN AUTHENTIC MARK OF HONSEI PRODUCT". The English translation of "MAJLIS UGAMA ISLAM SINGAPURA" in the mark is "ISLAMIC RELIGIOUS COUNCIL OF SINGAPORE". **Transliteration** The non-Latin characters in the mark transliterate to "HALAL" and "al-MAJLIS-ul-ISLAMI as-SINGHAFURI" and this means "LAWFUL" and "ISLAMIC RELIGIOUS COUNCIL OF SINGAPORE".
