International Registration 1489375 **International Registration Date** Apr. 05, 2019

GOODS AND SERVICES INFORMATION

For sprinklers for gardening consisting of water spraying nozzles, watering hoses, hose winders and faucet connectors for hoses; non-electric portable cool boxes; mugs made of china, ceramic, glass and plastic

International Classes 21 - Primary Classes **US Classes** 2, 13, 23, 29, 30, 33, 40, 50 **International Class Title** Housewares and Glass

For boston bags; attache cases

International Classes 18 - Primary Classes **US Classes** 1, 2, 3, 22, 41 **International Class Title** Leather Goods

For Transport land vehicles for use in the field of agriculture and forestry; bicycles and two-wheeled motor vehicles, and their structural parts; electric bicycles and their structural parts; trolleys; electric cargo carriers in the nature of electric carts and electric wheelbarrows; carts; pumps for inflating bicycle tires

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Metalworking machines, namely, metal sawing machines, metal grinding machines, metal cutting machines, metal drilling machines, electric metal-cutting machines using plasma, and electric welding machines; metalworking machine tools; power-driven hand-held tools, namely, pneumatic drills, pneumatic hammers, sanders for metalworking, wrenches for metalworking, grinders, drills, hammers, screwdrivers, polishers, and shears; mining machines, namely, rock drills; construction machines, namely, earth augers, pile-drivers, concrete vibrators, and concrete mixers; loading-unloading machines, namely, winches and hoists; loading-unloading machines, , namely, carts, buckets and wheelbarrows sold as an integral part thereof; lumbering, woodworking, and veneer- or plywood-making machines, namely, lumbering band saws, chain saws, circular saws for woodworking, wood planing machines, wood drilling machines, sanding machines for woodworking, wood sawing machines, and electric glue guns; plowing machines, other than hand-held tools, namely, power

tillers; stone working machines, namely, drills, hammers, grinders, concrete planers, and cutters; pneumatic and hydraulic machines, namely, pumps, centrifugal pumps, vacuum pumps, blowers, compressors, and compressed air machines; stirring and mixing machines for industrial purposes; electric wax-polishing machines for industrial purposes; vacuum cleaners for industrial purposes; lawnmowers; cultivator machines; power-operated hedge trimmers; agricultural machines, other than hand-operated, namely, electric scissors for pruning and electric shredders for branches; chain saws; power sprayers for insecticides, and deodorants, all for disinfecting, and not for agricultural purposes; electric power generators, not for land vehicles; pile-drivers; vacuum cleaners; electric arc-welding machines; electric metal-cutting machines using arc, gas or plasma; Electric air plasma welding machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For tool boxes, not of metal; tool boxes of plastic, empty

International Classes 20 - Primary Classes **US Classes** 2, 13, 22, 25, 32, 50 **International Class Title** Furniture and Articles Not Otherwise Classified

For Electric lamps and other lighting apparatus, namely, electric flashlights, electric torches and electric work lights; light projectors; electric cool boxes, namely, refrigerating cabinets; electric coffee machines; electric blankets, not for medical purposes; electric fans; refrigerators; microwave ovens; electric thermo-pots

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Repair of power-driven hand-held tools; repair of blowers; repair of air plasma cutting machines; repair of air compressors; repair of agitators; repair of concrete vibrators; repair of high pressure washers; repair of electric welding machines; repair of rechargeable electric welding machines; repair of mowing machines; repair of scissors for tall branches; repair of desk drilling machines for metalworking; repair of vacuum cleaners; repair of dust catchers; repair of air plasma welding machines; repair of power generators; repair of winches; repair of pressure boosting machines; repair of chain hoists; repair of welding machines driven by engine powers; repair of power-driven mowing machines; repair of lawn mowers; repair of agrochemical sprayers; repair of pumps; repair of work benches for power-driven cutters; repair or maintenance of loading-unloading machines and apparatus; repair or maintenance of construction machines and apparatus; repair or maintenance of consumer electric appliances; repair or maintenance of electric lighting apparatus; repair or maintenance of electric motors; repair or maintenance of measuring and testing machines and instruments; repair or maintenance of metalworking machines and tools; repair or maintenance of mining machines and apparatus; repair or maintenance of machines and apparatus for lumbering, woodworking, veneer and plywood making; repair or maintenance of agricultural machines and implements; repair or maintenance of cooking equipment for industrial purposes; repair or maintenance of power-driven floor cleaning machines

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Prepared coffee and coffee-based beverages; tea

International Classes 30 - Primary Classes **US Classes** 46 **International Class Title** Staple Foods

For Protective helmets; laser-level measuring apparatus; batteries and power cells; gloves for protection against accidents; dust masks; electric batteries and battery chargers for lawn mowers and gardening tools; power adapters for battery chargers; battery chargers for power tools; protective goggles; electric accumulators and batteries; battery chargers; loudspeakers; radios; television apparatus; electronic wall scanners that enable detection of reinforcing bars, electric wires, resin tubes and other objects embedded in walls by laser; laser distance meters

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For lubricating chain oils; lubricating oils; lubricating grease

International Classes 4 - Primary Classes **US Classes** 1, 6, 15 **International Class Title** Lubricants and Fuels

For jackets containing a heating mechanism; jackets containing a cooling fan; gloves; headwear for wear

International Classes 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

For Knives; hand-operated hammers; hand-operated spanners; non-electric screwdrivers; hand-operated wrenches

International Classes 8 - Primary Classes **US Classes** 23, 28, 44 **International Class Title** Hand Tools

For nails; screws made of metal; rivets made of metal

GOODS AND SERVICES INFORMATION

For Apparatus for lighting, namely, electric lamps and luminaires and electric lights for Christmas trees, festive and interior decorations; lighting apparatus and lighting systems comprising electric lamps and luminaires; lighting apparatus and lighting systems comprising LED lamps and LED luminaires; LED lamps; LED luminaires; LED lighting systems consisting of mainly LEDs, and organic LEDs, LED lamps, LED luminaires and their parts, for general lighting purposes, office lighting, street lighting, industrial lighting, stage lighting, entertainment lighting and vehicle lighting, included in this class; Light modules, namely, modules comprising light emitting diodes with light functions and for lighting applications; parts of all the afore-mentioned goods; LED lighting modules, namely, light emitting diode modules for lighting purposes; parts of all the aforementioned goods, included in this class

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Administrative data processing services; business merchandising display services; compilation of project studies for businesses in the field of lighting and smart home for use in project management; preparing audio-visual presentations for advertising purposes; provision of space on websites for advertising goods and services; advertising in magazines, television and on the Internet; electronic commerce, namely, providing purchase advisory services for consumers via telecommunication networks with respect to lighting products, for advertising and sales purposes; rental of advertising space on the internet; arranging of business introductions in the nature of providing business referrals in the field of lighting consumer products; advertising by mail order; distribution of brochures for advertising purposes; handbill distribution; demonstration of goods; the bringing together, for the benefit of others, of a variety of goods excluding the transport thereof, enabling customers to conveniently view and purchase those goods in the field of lighting goods; mail order services, retail and online retail store services and wholesale and online wholesale store services, all featuring lighting products, especially lamps, luminaires, electronic ballasts, control and checking apparatus, sensors, of technical, cosmetic and medical lighting and radiation apparatus and of luminous decorative goods including electric lights for Christmas trees

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Nautical apparatus and instruments, namely, underwater housings for nautical lights; Photographic apparatus and instruments, namely, darkroom lights, lamps for photo optic purposes, video cameras, photographic flashlights, lights for use in professional quality photography, exposure meters, collapsible light directors and diffusers for use with photographic lighting equipment for professional and high- end photography; Optical apparatus and instruments, namely, optical couplers, optical lenses, optical sensors, optical switches, light level meters, light meters, chromatometers, color temperature meters, cables for optical signal transmission, optical signaling cables, fiber optic light and image conduits and optical lamps; Measuring apparatus and instruments, namely, detectors, motion detection sensors, water leak sensors, accelerometers for objects, temperature meters, goniometers, lighting sphere meters, lux meters, optical couplers, light level meters, light meters, chromatometers, color temperature meters, metering systems to determine the water and dust proofness of luminaires; Signaling apparatus and instruments namely, signal lamps sold as component of ship navigation lights, electrical signaling apparatus, namely, electrical controlling devices, electrical control panels, electronic regulating and control devices for the operation of light emitting diodes, signal processors, electric relays, coaxial relays, overvoltage protection relays, thermal overload relays, voltage monitor modules, integrated circuit modules, amplifiers, signal attenuators, acoustic signaling devices, signal amplifiers, gateway routers in the nature of computer control hardware, signaling flashlights for vehicle and air traffic control, radio signaling apparatus, namely, radio-frequency transmitters, radio-frequency receivers, radio frequency generators for supplying radio-frequency energy, radio-frequency identification (did) readers, radio receivers and radio signal tuners, radio receivers and transmitters for monitoring and controlling light emitting diodes in a network of lights, satellite signaling apparatus, namely, satellite receivers, radios and dishes, light fidelity signaling devices, namely, satellite receivers, radios and dishes, light fidelity signaling devices, namely, an optical metrology inspection system comprised of a light source, one or more cameras and sensors in communication with computer software and hardware, optical wireless communications transmitter and receivers; Apparatus for recording, transmission or reproduction of images; Magnetic data carriers namely, prerecorded magnetic data carriers featuring data relating to lighting and electronic controls, as well as blank magnetic data carriers; Data processing equipment; computers; downloadable and recorded computer software, for managing and controlling indoor, outdoor and underwater lighting systems, traffic lighting systems as well as lighting systems in buildings, vehicles and

public spaces; downloadable and recorded computer software for managing and controlling indoor, outdoor and underwater lighting systems, traffic lighting systems as well as lighting systems in buildings, vehicles and public spaces; downloadable software and recorded downloadable computer application software for mobile devices, namely, software for managing and controlling indoor, outdoor and underwater lighting systems, traffic lighting systems as well as lighting systems in buildings, vehicles and public spaces, as well as downloadable and recorded lighting control software for use in commercial and industrial facilities and recorded lighting control software for use in commercial and industrial facilities; IT tools in the nature of downloadable and recorded computer software development tools for managing and controlling indoor, outdoor and underwater lighting systems, traffic lighting systems as well as lighting systems in buildings, vehicles and public spaces; Downloadable and recorded software applications for mobile devices, namely, software for electrical and communication apparatus to manage and control indoor, outdoor and underwater lighting systems, traffic lighting systems as well as lighting systems in buildings, vehicles and public spaces, as well as downloadable and recorded lighting control software for use in commercial and industrial facilities; Downloadable and recorded software and data processing programs to manage and control indoor, outdoor and underwater lighting systems, traffic lighting systems as well as lighting systems in buildings, vehicles and public spaces, as well as downloadable and recorded lighting control software for use in commercial and industrial facilities; Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity namely, power supplies, uninterruptible electrical power supplies, circuits for light-emitting diodes, electric relays, batteries, accumulators and transformers, battery management systems, inverters, overvoltage protection relays, electrical protection devices in the nature of insulators, corona rings, armor-rods and surge arresters, cables for electrical signal transmission, cable clamps for electric cables used as grounding clamps, connecting elements and for fixation against stress relief, electric and electronic ignitors for fluorescent and discharge lamps, dimmers for electric and LED lights, electric switches, and interrupters in the nature of voltage surge protectors, diodes, varistors, spark plug gap gauges, spark plug feeler gauges, fuses, electric and electronic relays, low voltage protectors, voltage stabilizers, thermal protection switches, short circuit protectors namely, connectors for electronic circuits, circuit boards, circuit testers, circuit connectors, and current protectors, namely, electricity limiters and temperature sensors; light-emitting diodes (LEDs); laser diodes; organic light-emitting diodes (organic LEDs); organic laser diodes; lasers, not for medical use; semi-conductor power laser diodes; semi-conductor components; electrical and electronic instruments and apparatus for the operation, regulation, monitoring and control of lighting apparatus and lighting instruments; electrical and electronic instruments and apparatus for the operation, regulation, monitoring and control of lamps and luminaires; electrical and electronic instruments and apparatus for the operation, regulation, monitoring and control of building installations; electrical and electronic instruments and apparatus for the operation, regulation, monitoring and control of the brightness of lighting systems; interface modules for the afore-mentioned regulation and control instruments and apparatus; light conductors, namely, optical fibers, light conducting filaments, light conducting tubes, light conducting bars, light conducting materials in the nature of filaments, light conducting optical lenses, light conducting optical reflectors; light barriers in the nature of motion and movement detectors which detect light changes for determining the presence of an object or individual; LED light lamp modules for signaling purposes; LED drivers; light emitting diode displays using LED and organic LED technology; optical couplers, optical sensors; Electrical and electronic instruments for the operation of light emitting diodes; Detectors, namely, photo-electric detectors; Starters for electric lamps namely, starters for fluorescent and discharge lamps; electronic ballasts for lighting purposes; electronic and electric control gears namely, electrical control panels, electronic regulating and control devices for the operation of light emitting diodes, control units for vehicle and air traffic control, radio receivers and transmitters for monitoring and controlling light emitting diodes in a network of lights,

remote controls for lighting, blinds and temperature regulation; light sensors; motion sensors; infrared remote controls; Electric commutators; electrical terminal connectors; electric contacts; electrical plugs; terminals for conducting electricity; Junction sleeves for electric cables; electricity inverters; circuit breakers; Electric cables and wires; plug-in connectors; electric switches; electric breakers in the nature of switches; electrical transformers ; choking impedance coils; Mobile data processing devices; Downloadable and recorded software applications for mobile devices, namely, software for managing or controlling indoor, outdoor and underwater lighting systems, traffic lighting systems as well as lighting systems in buildings, vehicles and public spaces; Electronic, measuring and data processing devices, namely, devices for the measurement of light and for the analysis and evaluation of light data; Data processing devices and downloadable and recorded software for the operation, regulation and control of lighting systems; Data processing devices and downloadable and recorded software for the operation, regulation and control of lamps and luminaires; Data processing devices and downloadable and recorded software for the operation, regulation and control of building installations; Luminous and mechanical railway signals; luminous signals in the nature of flashing safety lights; signal optical lanterns; parts of all the aforementioned goods, included in this class; electroluminescent foils, namely, circuits for heating or electrical conduction; electric ignitors for electric lamps

For Printing machines; offset printing machines; rotary web fed printing machines; rotary sheet fed printing machines; screen printing machines; pad printing machines; central cylinder flexographic printing machines; flexographic printing machines; gravure printing machines; printing machines for use on sheet metal; printing machines for use on cans; printing machines for use on hollow bodies; printing machines for corrugated cardboard; inkjet printing machines and apparatus, namely, industrial inkjet printing machines and rollers for industrial inkjet printing machines; laser marking machines and apparatus, namely, industrial laser marking machines and parts of industrial laser marking machines; laser printing machines and apparatus, namely, industrial laser printing machines and parts of laser printing machines; marking machines; lacquering machines; packing machines; laminating machines; coating machines, in particular working rotationally, for web-type and separate materials; digital printing and marking machines for industrial use based on electrophotography, magnetography, xerography, ink jet; exposure apparatus, being parts for printing machines for contact printing or creating circuit and print templates; numbering, imprinting and marking machines, in particular for the graphics sector, the packaging sector and data processing for commercial use; industrial machines, namely, labelers; engraving machines; machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials namely, for cutting, punching, folding, gathering, clipping, packing, collecting, sorting, binding, scanning, perforating, gluing, stapling, tying, bundling, book-binding; pallet changing and transfer machines; stacking machines; machines for handling sheets and plates of metal; foodstuff distribution machines; machines and apparatus for the surface treatment of metals, namely, industrial machines for the surface treatment of metals and parts of industrial machines for the surface treatment of metals; hot stamping machines and apparatus, namely, hot stamping machine parts; thermal transfer machines and apparatus, namely, industrial thermal transfer machines and thermal transfer machine parts; rotary die-cutters for punching of printed matter or paper or plastics; power-operated sheet metal punches for stamping printed matter or paper or plastics; addressing and marking

machines for printed matter for commercial use; machines and mechanical machine parts for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely, for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, checking, perforating, gluing, stapling, tying, bundling, bookbinding; printing plates; flexographic printing plates; accessories for the aforesaid printing machines, namely, cutting guides, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and parts of industrial inkjet printing machines, and industrial laser marking machines and parts of industrial laser marking machines, industrial laser printing machines and parts of industrial laser printing machines, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines for industrial use, labeling machines for commercial use, engraving machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely, control apparatus, printing mechanisms, inking apparatus, damping units, lacquering units, reel changers, folding apparatus; machines and mechanical apparatus for storing printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines in the nature of machine-operated platforms for storing paper in printing presses during the printing process, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and rollers for rotary printing machines, inkjet printers, in particular with one or more inkjets, namely, industrial inkjet printers, single-colour or multi-colour inkjet printers namely, industrial single-colour or multi-colour inkjet printers, laser marking machines and laser engraving machines, industrial laser printing machines and parts of industrial laser printing machines, marking machines, lacquering machines, packaging machines, coating machines, industrial digital printing and marking machines, commercial labeling machines, engraving machines, industrial printing machines and parts of industrial printing machines for the graphics industry, paper reeling machines and mechanical parts of paper reeling machines; machines, namely, conveyors, belts for conveyors, conveying apparatus for conveying printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, namely, conveyor belts, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines, industrial inkjet printers, in particular with one or more inkjets, industrial single-color or multi-color inkjet printers, laser marking machines, laser printing machines, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labeling machines, engraving machines, machines for the graphic industry, machines for the further processing of printed matter or printing materials or paper or plastic or metal or organic or inorganic materials; machines and mechanical parts of machines for the folding of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; machines and mechanical devices for changing or bending or punching printing plates or flexographic printing plates; machines and mechanical apparatus for the storing of printing plates for printing machines namely, machine-operated platforms for storing paper in printing presses during the printing process; conveying machines, conveyor belts, conveying apparatus for conveying

printing plates for printing machines, namely, conveying belts for conveying printing plates for printing machines; machines and mechanical parts of cleaning machines for cleaning rollers in inking apparatus or damping units or cylinders or lacquering units or inkjet print heads or laser systems in printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, industrial inkjet printers, in particular with one or more inkjets, industrial single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labeling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; industrial machines and industrial mechanical apparatus for storing or adjusting rollers in inking apparatus or damping units or cylinders or lacquering units or inkjet printing modules or laser systems in printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, industrial inkjet printers, in particular with one or more inkjets, industrial single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labeling machines, engraving machines, cutting machines and mechanical cutting apparatus for the graphics industry, industrial position adjustment machines and position adjustment apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; machines and mechanical apparatus for adjustment, for inking apparatus or damping units or printer engine cylinders or for lacquering units in printer engines or in lacquering units or for inkjet printing modules or laser systems; parts for inking apparatus or damping units or inkjet printing modules or laser systems and cylinders in tempering machines; machines and mechanical apparatus for adjusting cutting equipment or cutting cylinders in printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and parts of industrial inkjet printing machines, industrial inkjet printer machines, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and parts of laser marking machines, laser printing machines and parts of laser printing machines, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, industrial labeling machines, engraving machines, industrial printing machines and mechanic parts of industrial printing machines for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely, cutting machines and mechanical parts of cutting machines; machines and mechanical apparatus for adjusting registers or register marks in printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies,

printing machines for corrugated cardboard, industrial inkjet printing machines and parts of industrial inkjet printing machines, industrial inkjet printer machines, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and parts of laser marking machines, laser printing machines and parts of laser printing machines, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, industrial labeling machines, engraving machines, industrial printing machines and mechanic parts of industrial printing machines for the graphics industry, cutting machines and mechanical parts of cutting machines for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; machines and mechanical apparatus for adjusting web tension controls in printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and parts of industrial inkjet printing machines, industrial inkjet printer machines, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and parts of laser marking machines, laser printing machines and parts of laser printing machines, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, industrial labeling machines, engraving machines, industrial printing machines and mechanic parts of industrial printing machines for the graphics industry, filters for industrial printing machines and for engines; centrifugal separators; suction and conveying machines for ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith; filters for cleaning cooling air for engines; blowing engines not for land vehicles; fibre separator machines; air compressors and air ejectors for machines; collecting machines for compacting, filling and pressing of particles, dust and fibres separated from machines; air power-operated blowers; blowing machines; air compressors; accessories, namely, printing rollers for the aforesaid printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines and parts of industrial inkjet printing machines, industrial inkjet printer machines, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and parts of laser marking machines, laser printing machines and parts of laser printing machines, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, industrial labeling machines, engraving machines, cutting machines and mechanical parts for cutting machines for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and parts of machines for the surface treatment of metals, hot stamping machines and parts of hot stamping machines, and industrial thermal transfer printing machines and parts of industrial thermal transfer printing machines; accessories, namely, suction attachments, for the aforesaid filters for printing machines, centrifugal separators, suction and conveying machines for ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters for mechanical purposes, blowing machines, fibre separator machines, air compressors and air ejectors for machines, collecting machines, for compacting, filling and pressing machine-separated particles, dust and fibres; industrial printing machines and mechanical parts for industrial printing machines for producing security labels, securities, banknotes or components therefor; machines for applying security labels, securities, bank notes or components therefor; machines and mechanical apparatus for packaging product security means, identification features, security features, security labels,

securities, banknotes and components therefor; parts for the aforesaid goods and accessories for the aforesaid goods, namely, accessories for industrial printing machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Electronic checking being supervision, controlling, displaying and measuring apparatus, namely, computer hardware and recorded software for operating machines, sales software recorded on computer media, and recorded software for operating machines, for printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labeler machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; electronic checking, supervision, controlling, displaying and measuring apparatus, namely, recorded computer software for checking functions of machines, sales software, recorded on computer media and recorded control software for installations, equipment, apparatus, filters, separators, extraction and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; electronic checking, supervision, controlling, displaying and measuring apparatus, namely, recorded computer software for checking functions of machines, sales software, recorded on computer media and recorded control software for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular ventilators, blowing machines and compressors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; electronic checking being supervision, controlling, displaying and measuring apparatus, namely, recorded computer software for checking functions of machines, sales software, recorded on computer media and recorded control software for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; electronic checking being supervision, controlling, displaying and measuring apparatus, namely, recorded computer software for checking functions of machines, sales software, recorded on computer media and recorded printing machines control software for producing product security means, authentication features, security features, security labels, securities, banknotes or components therefor; electronic checking being supervision, controlling, displaying and measuring apparatus, namely, recorded computer software for checking functions of machines, sales software, recorded on computer media and recorded machine control software for packaging and applying product

security means, authentication features, security features, security labels, securities, banknotes or components therefor; electronic checking, supervision, controlling, displaying and measuring apparatus, namely, recorded computer software for checking functions of machines, sales software, recorded on computer media and recorded machine control software for machines which produce product security means, authentication features, security features, security labels, securities, banknotes or components therefor; electronic regulating apparatus, control apparatus, monitoring apparatus, recorded quality control monitoring software, production control apparatus, temperature monitoring apparatus, web tension controls, consultancy software recorded on computer media for use as a spreadsheet, sales accounts management software recorded on computer media and recorded control software for printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single color or multi-color inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely, for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, checking, perforating, gluing, stapling, tying, bundling, bookbinding; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, consultancy remote control software recorded on computer media or sales records management software recorded on computer media and recorded software being parts or accessories for installations, equipment, apparatus, filters, separators, extraction and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, consultancy remote control software recorded on computer media or sales records management software recorded on computer media and recorded software being parts or accessories of ventilation installations, ventilation apparatus, air conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, consultancy remote control software recorded on computer media or sales records management software recorded on computer media and recorded software being parts or accessories for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalyst for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safely accessories for gas apparatus; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, web tension controls, consultancy remote control software recorded on computer media or sales records management software recorded on computer media, and recorded software being parts or accessories for machines for producing product security means, identification

features, security features, security labels, securities, banknotes and components therefor; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, web tension controls, consultancy remote control software recorded on computer media or sales records management software recorded on computer media and recorded software being parts or accessories for machines for applying product security means, identification features, security features, security labels and components therefor; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, web tension controls, consultancy remote control software recorded on computer media or sales records management software recorded on computer media and recorded software being parts or accessories for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, consultancy remote control software recorded on computer media or sales records management software recorded on computer media and recorded software being parts or accessories of and for product security means, identification features, security features, security labels, securities, banknotes and components therefor; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres ; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; Electric and electronic measuring and testing apparatus and

instruments for adjustment and pre adjustment, for subassemblies and parts for machines for producing product security for applying product security means, identification features, security features, security labels and components therefor; electric and electric measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and components thereof; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; consultancy remote control software recorded on computer media or sales records management software recorded on computer media for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; consultancy remote control software recorded on computer media or sales records management software recorded on computer media,for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; consultancy remote control software recorded on computer media or sales records management software recorded on computer media,for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities,

banknotes or components therefor; consultancy remote control software recorded on computer media or sales records management software recorded on computer media for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels, securities, banknotes or components therefor; consultancy remote control software recorded on computer media or sales records management software recorded on computer media for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes or components therefor; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, and recorded software for remotely controlling, remotely operating, remotely monitoring, controlling or regulating ink slides, ink rollers, damping rollers, register adjustment devices in printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, and recorded software for remotely controlling, remotely operating, remotely monitoring, controlling or regulating devices for transporting or storing printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, and recorded software for the remote control, remote operation, remote monitoring, control or regulating of devices for the changing or transporting or storage of printing plates; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, and recorded software for remotely controlling, remotely operating, remotely monitoring, controlling or regulating devices for cleaning rollers in inking apparatus or damping units or cylinders or inkjet print heads or laser systems in printing machines, offset printing machines,

rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, and recorded software for remotely controlling, remotely operating, remotely monitoring, controlling or regulating devices for storing or adjusting rollers in inking apparatus or damping units or cylinders or inkjet print heads or laser systems in printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, and recorded software for the remote control, remote operation, remote monitoring, control or regulating of inking apparatus or damping units or printer engine cylinders in printer engines; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, and recorded software for the remote control, remote operation, remote monitoring, control or regulation of devices for tempering of inking apparatus or damping units or cylinders or inkjet print heads or laser systems in printer engines; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, and recorded software for remotely controlling, remotely operating, remotely monitoring, controlling or regulating cutting equipment or cutting cylinders in printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, and recorded software for remotely controlling, remotely operating, remotely monitoring, controlling or regulating registers and register marks in printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on

sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, and recorded software for remote control, remote operation, remote monitoring, control or regulation for the purposes of quality control in printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single color or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, and recorded software for remote control, remote operation, remote monitoring, control or regulating, for quality control in installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine separated particles, dust and fibres; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, and recorded software for remote control, remote operation, remote monitoring, control or regulating, for quality control in ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, and recorded software for remote control, remote operation, remote monitoring, control or regulating, for quality control in drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, and recorded software for remotely controlling, remotely operating, remotely monitoring, controlling or regulating web tension controls in printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with

one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; consultancy remote control software for printing machines recorded on computer media or sales records management software recorded on computer media, recorded control software for printing machines for data processing devices for pre-press, for the printing of printed matter, for the further processing of printed matter, for production control, production planning; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, recorded operation control software for data processing devices for printing machines, for the printing of printed matter, for the further processing of printed matter, for production control, production planning; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, recorded operation control software for interfaces or data transfer, for printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, recorded operation control software for interfaces or data transfer for installations, equipment, apparatus, filters, separators, suction and conveying devices for air-technology cleaning, dust removal and air separation from machines and spaces equipped therewith, air filters, blowing machines, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing of particles, dust and fibres separated from machines; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, recorded operation control software for interfaces or data transfer, for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular ventilators, blowers and compactors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, recorded operation control software for interfaces or data transfer, drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, recorded operation control software for interfaces

or data transfer, for machines for producing product security means, identification features, security features, security labels, securities, banknotes or components therefor; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, recorded operation control software for interfaces or data transfer, for machines for applying product security means, identification features, security features, security labels or components therefor; consultancy remote control software recorded on computer media or sales records management software recorded on computer media, recorded operation control software for interfaces or data transfer, for machines for packaging product security means, identification features, security features, security labels, securities, banknotes or components therefor; software recorded on computer media for remotely controlling, remotely operating, remotely monitoring, controlling or regulating devices for transporting or storing printed matter or printing materials or printed material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; inventory management software recorded on computer media for the transport, packaging and storage of remote controls, remote operators, remote monitoring apparatus, controllers or regulators for devices for the transport, packaging and storage of printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; electronic data carriers being product security means, identification features, security features, security labels, securities, banknotes; magnetic data carriers being product security means, identification features, security features, security labels, securities, banknotes; RFID systems (radio frequency identification); encoded identification chips and cards; fittings for electronic payment terminals, in particular cartridges for collecting payment means, in particular bank notes or coins or tokens of value; electric

apparatus, namely, data processing equipment for communication with recording media, in particular for communication with recording media with integrated circuits and recording media with contactless interfaces, and in particular data processing equipment for writing data in or on recording media, for reading data from or on recording media and for displaying data from recording media on a display; data processing equipment for personalising recording media; machine-readable recording media, in particular recording media with integrated circuits for storing, encrypting and decrypting, processing and providing data and programs; chip cards having an integrated circuit, in particular cards having microprocessors for communication with external data processing devices or with mobile radio terminals; coded telecommunication cards; coded and uncoded digital recording media with contactless interfaces for contactless payments; integrated circuits with characteristic physical properties for protection against forgery; memories for data processing installations, in particular non-volatile digital storage memories; digital recording media containing memories, in particular non-volatile digital storage memories; electric apparatus for processing, in particular encryption and decryption, data for both online and offline operation namely, computers; recorded payment processing software for computer network applications, in particular for internet, intranet and extranet applications; recorded data processing software, in particular for telecommunications with chip card-activated mobile telephones and in particular for associated chip cards and mobile telephones, and recorded computer programs for activating, modifying, testing and displaying data and software structures stored in these telecommunications cards; recorded computer software for the encryption and decryption and the signing of data; recorded operating system software and recorded application software for digital recording media with integrated circuits, in particular for hardware tokens and chip cards, and for data processing equipment for communication with these digital recording media; recorded computer programs for the development, management and maintenance of all the aforesaid types of software; prerecorded digital media devices featuring the aforesaid software; electronically and optically stored pre-recorded digital media devices featuring advertisings and communications in the form of films and videos

GOODS AND SERVICES INFORMATION

For Business management; business administration; consultancy and advisory services in relation to retail and wholesale management; business management of wholesale and retail outlets; business consultancy and advisory services in relation to warehouse management; all the aforesaid for use in relation to logistics, inventory management, supply chain management, product and item tracking and e-business portals, and none being for use in the field of digital forensics

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Downloadable inventory software for stock identification, stock tracking, stock control and stock management purposes; electronic label readers; electronic identification label readers; electronic identification label encoders; bar code labels, encoded; information technology and audio-visual, multimedia and photographic devices, namely, display screens used in association with RFID readers and motion sensors, video cameras for use in analyzing and identifying goods and users, mobile phones, handheld RFID readers, stationary RFID readers, near-field communication devices, automatic identification and data capture devices, barcode readers, motion sensors, video cameras in alarm systems, computer hardware, cloud-hosted hardware; data storage devices and media, namely, servers hosting MSSQL installations, cloud-based servers hosting SQL databases, servers hosting NoSQL databases, servers hosting database pools, and servers hosting online data warehouses; measuring, detecting and monitoring instruments, indicators and controllers, namely mobile phones, handheld RFID readers, stationary RFID readers, near-field communication devices, automatic identification and data capture devices, barcode readers, motion sensors, video cameras in alarm systems, computer hardware, cloud hosted hardware; labels carrying electronically or optically recorded or encoded information; downloadable software for logistics, supply chain management and for operating e-business portals; artificial intelligence software used for stock identification, stock tracking, stock control and stock management

purposes, supply chain and stock optimization, device and process monitoring; downloadable RFID-based article management software; labels with integrated RFID chips; radio-frequency identification (RFID) readers; radio-frequency identification (RFID) tags; electronic components, circuits and assemblies, namely, transponders for use in goods logistics; electric apparatus for the remote control of industrial operations in the field of goods logistics, in particular for use in connection with intelligent electric circuits and transponders; cash registers, in particular for use in connection with intelligent electric circuits and transponders; downloadable computer software used for stock identification, stock tracking, stock control and stock management purposes; machine-readable data carriers of all kinds, namely, floppy discs and CD-ROMs featuring computer programs and data used for stock identification, stock tracking, stock control and stock management purposes; monitoring apparatus, in particular for use in connection with intelligent electric circuits and transponders, namely alarm monitoring systems; all the aforesaid for use in relation to logistics, inventory management, supply chain management, product and item tracking and e-business portals, and none being for use in the field of digital forensics

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Transmission of messages and images, in particular in connection with online services, telephone services, teletext services, telephone and/or Internet provider services, namely, arranging access time to telephone, computer and data networks, and the Internet; providing access to computer and data networks for others; telecommunications via computer terminals; transmission of data, text, sound and images; computer-aided transmission of messages and images; sending, receiving, forwarding and transmission of messages, in particular in databases accessible to the public, on data networks, the Internet, and for fax polling; providing access to computer databases; all the aforesaid for use in relation to logistics, retail, wholesale and warehouse management sectors, inventory management, supply chain management, product and item tracking and e-business portals, and none being for use in the field of digital forensics

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Software as a service (SAAS) services featuring software used for stock identification, stock tracking, stock control and stock management purposes in the fields of inventory management, and the management of retail, wholesale and warehouse operations; information technology consultancy; programming of software for inventory management and for the management of retail, wholesale and warehouse operations; rental of software for inventory management and for the management of retail, wholesale and warehouse operations; rental of software for inventory analysis; providing temporary use of on-line non-downloadable software for inventory management and analytics; providing temporary use of on-line non-downloadable artificial intelligence software used for stock identification, stock tracking, stock control and stock management purposes; design and development of computer software for logistics, supply chain management and e-business portals; rental of software for logistics, supply chain management and e-business portals; providing temporary use of on-line non-downloadable software for logistics, supply chain management, e-operating business portals and analytics; rental of RFID-based article management software; rental of electronic memory space on the Internet for content providers, goods manufacturers and service providers; technical consultancy services in the field of software applications relating to the secure, protected transmission and storage of data, in particular the use of encoding software and the use of protective mechanisms, namely, firewalls; all the aforesaid services in particular both on Intranets and on the Internet; technical consultancy, in particular applications support and planning of computer solutions through telecommunications for the logistics and retail, wholesale and warehouse management sectors; providing of electronic memory space on computer, data networks and the Internet; all the

aforesaid for use in relation to logistics, inventory management, supply chain management, product and item tracking and e-business portals, and none being for use in the field of digital forensics

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a light and dark gray rectangular border that is white on the side containing a red shield design with a tan border, in the center of which is a white fish design with black detailing, above which are four tan leaf designs, with the farthest ones to the left and right having tan grape bunches attached to them. There is another tan leaf design under the nose of the fish and the design of a tan tree trunk under the fish, broken in the middle by the fish's fin. Outside the shield are gray lines forming the outline of another shield with two vertical lines of 17 gray dots on each side, and various stylized curving lines on each side of the bottom half of the shield. At the base of the shield on each aide is a gray incomplete parallelogram with 14 gray dots in its center. Underneath these designs is the gray stylized wording "CAVE DE TAIN" shaded darker, and the smaller stylized gray wording "DEPUIS 1933" under that. **Color Drawing** Yes **Color Claimed** The color(s) gray, tan, black, red, and white is/are claimed as a feature of the mark. **Disclaimer** "CAVE DE TAIN DEPUIS 1933" **Translation** The English translation of "CAVE DE TAIN DEPUIS 1933" in the mark is "winery of Tain since 1933".

GOODS AND SERVICES INFORMATION

For Printed instructional or teaching material except apparatus in the field of the cutting of soft material; printed instruction manuals in the field of the cutting of soft material; printed training manuals in the field of the cutting of soft material; printed newsletters in the field of the cutting of soft material; printed magazines in the field of the cutting of soft material; printed books in the field of the cutting of soft material; printed catalogs and pamphlets in the field of the cutting of soft material; printing products being printed matter, namely, printing papers; stationery; all these products are intended for the textile, garment, footwear, clothing, luggage, furniture, leather goods, automotive, boating, aeronautical and technical textile industries

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Machine tools, namely, laser and blades machine tools in the nature of cutting machines, laser machines for cutting and marking; cutting machine tools and their structural parts and fittings; industrial robots; robots in the nature of industrial non-autonomous robots; three-dimensional printing machines; cutters, namely, cutting machines for soft material; quilting machines; conveyors; machines for handling cut parts of fabrics or flexible materials; machines for assembling fabrics or flexible materials in successive stages; sewing machines; labeling machines in the form of electronic machines for printing labels for commercial use; machines for spreading fabric on a table; machines for packaging and dispatching of fabrics or flexible materials; cutting blades being machine parts; bands or rollers for grinding wheels being parts of machines; all these products are intended for the textile, garment, footwear, clothing, luggage, furniture, leather goods, automotive, boating, aeronautical and technical textile industries

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Training and online course services relating to software to create and simulate product visuals at each stage of their life cycle and industrial process from data mining; training, continuing education, instruction and teaching services in the field of the cutting of soft material; providing online training services in the field of the cutting of soft material; development and dissemination of printed training modules; development of printed teaching aids for training; training services, namely, organizing and providing panel discussions featuring groups of experts in the field of the cutting of soft material; training and coaching services on a workstation in the field of the cutting of soft material; providing information about education in the nature of information and advice relating to training; delivery of training certificates, namely, providing web-based and classroom training for certification of teachers and continuing education for teachers and principals; organization of non-downloadable webinars in the field of the cutting of soft material; arranging and conducting of educational events in the nature of exhibitions, fairs, conferences, congresses, colloquiums and seminars in the field of the cutting of soft material; producing and video editing multimedia content; provision of non-downloadable online electronic publications, namely, magazines, newsletters, brochures, pamphlets in the field of the cutting of soft material; production of audiovisual recordings; electronic desktop publishing; all these services are intended for the textile, garment, footwear, clothing, luggage, furniture, leather goods, automotive, boating, aeronautical and technical textile industries

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Product lifecycle cost estimate services; cost price analysis; price comparison services; negotiation and conclusion of commercial transactions for others; professional business consultancy, expertise, research, evaluation and estimation in the nature of cost assessment services in the field of industrial and commercial affairs; business data collection and filing services, namely, compilation and systemization of information into computer databases; systematization of data in a central file; updating and maintenance of data in computer databases; computer file management; electronic data management, classification, organization and tagging services, namely, computerized database management; analysis of market data statistics; computerized database management, namely, electronic data processing, collection, qualification, segmentation, enrichment and targeting services for commercial purposes; providing electronic data links, namely, promoting the goods and services of others by providing links to the web sites of others; input and processing of data, information, images and documents, namely, computer data entry services; providing commercial information from online databases; arranging of subscriptions to newspapers, journals, information bulletins, magazines, and computer databases for others; advertising, marketing and promotion services; promotion of the goods and services of others; organization of competitions for promotional or advertising purposes; organization and conducting of trade fairs, events and exhibitions for commercial or advertising purposes; demonstration of goods; market study; market opinion polling; business networking services; commercial intermediation services, namely, mediation of trade business for third parties; public relations; news clipping services; all these services are intended for the textile, garment, footwear, clothing, luggage, furniture, leather goods, automotive, boating, aeronautical and technical textile industries

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Installation, repair, maintenance, predictive maintenance of machine tools and cutting machine tools and their parts and fittings; installation, repair, maintenance, predictive maintenance of electronic apparatus and instruments, computer and telecommunication apparatus and peripherals; all these services are intended for the textile, garment, footwear, clothing, luggage, furniture, leather goods, automotive, boating, aeronautical and technical textile industries

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Downloadable software for creating and simulating product visuals at each stage of their life-cycle and industrial processes and from data processing; downloadable imaging software, namely, computer software for processing images; downloadable three-dimensional content management software; downloadable software applications for mobile phones, touch tablets and devices with multimedia and interactive features for the use, maintenance and control of cutting machines of soft material; software for the use, maintenance and control of cutting machines of soft material, recorded on computer media ; downloadable software packages comprising software for the use, maintenance and control of cutting machines of soft material; recorded computer programs for the use, maintenance and control of cutting machines of soft material; downloadable electronic databases in the field of the cutting of soft material recorded on computer media; apparatus for recording, transmission, processing and reproduction of sounds, images or data; information processing apparatus, namely, central processing units for processing information, data, sound or images; apparatus for the input, extraction, transmission and storage of data, namely, optical readers, mobile data receivers, electronic data loggers; audiovisual teaching apparatus, namely, electronic training simulators for simulating use and control of cutting machines of soft material; measuring and control apparatus and instruments, namely, scientific apparatus, namely, sensing and signaling devices for measurement and quality control of soft material cutting by laser or blades machine tools; automatic control and inspection apparatus and instruments, namely, scientific apparatus, namely, sensing and signaling devices for measurement and quality control of soft material cutting by laser or blades machine tools; quality control and testing devices, namely, scientific apparatus, namely, sensing and signaling devices for measurement and quality control of soft material cutting by laser or blades machine tools; image digitization apparatus, namely, digital photo image converters; laser measuring systems; transparency projection apparatus; multimedia projectors; video projectors; electronic plotters; digital plotters; document printers; electronic pens; scanners; blank USB flash drives; media content, namely, downloadable multimedia file containing audio and video in the field of the cutting of soft material; downloadable electronic publications, namely, pamphlets in the field of the cutting of soft material; downloadable newsletters, magazines and electronic books in the field of the cutting of soft material; downloadable electronic catalogs and brochures in the field of the cutting of soft material; downloadable electronic images in the field of the cutting of soft material; all these products are intended for the textile, garment, footwear, clothing, luggage, furniture, leather goods, automotive, boating, aeronautical and technical textile industries

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Intellectual property licensing services; legal services; all these services are intended for the textile, garment, footwear, clothing, luggage, furniture, leather goods, automotive, boating, aeronautical and technical textile industries

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Telecommunication services, namely, interactive telecommunication services in the nature of interactive delivery of video over digital networks, satellite telecommunication services, mobile telecommunication services, internet based telecommunication services in the nature of providing internet access; continuous and instant electronic communication services between the various tools and workstations integrated into the production and supply chains, namely, wireless transmission of data; IT and telematics networking services for creators, contractors, manufacturers, subcontractors, suppliers, distributors and customers, namely, providing access to telecommunications networks; providing online access to virtual facilities for real-time interaction between computer users; electronic data, multimedia, video and audio file transmission services, including downloadable files and streaming files over a global computer network; providing Internet to allow access to content, servers, online computer databases, websites and portals; electronic exchange of data stored in databases accessible via telecommunication networks; database interconnection services, namely, electronic exchange of data stored in databases accessible via telecommunication networks; streaming of audio and video tethered downloads; rental of access time to global computer networks to allow access to computer files, a computer database, global computer networks; providing electronic data links, namely, providing on-line communications links which transfer the web site user to other local and global web pages; electronic messaging services; electronic bulletin board services being telecommunication services; providing discussion forums on the Internet; all these services are intended for the textile, garment, footwear, clothing, luggage, furniture, leather goods, automotive, boating, aeronautical and technical textile industries

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Installation, maintenance, development and rental of software applications in the nature of downloadable software for mobile phones, touch tablets and devices with multimedia and interactive features, software, software packages, computer programs, and database software; electronic infrastructure hosting services for others for organizing and conducting meetings, events and interactive discussions via communications networks, namely, hosting on-line web facilities for others for organizing and conducting online meetings, gatherings, and interactive discussions; Software as a Service (SaaS) services featuring software for the use, maintenance and control of cutting machines of soft material; platform as a service (PaaS) featuring software platforms for the use, maintenance and control of cutting machines of soft material; infrastructure as a service (IaaS), namely, remote and on-site infrastructure management services for monitoring, administration and management of public and private cloud computing IT and application systems; provision temporary use of online non-downloadable operating software that enables access to a cloud computing network and enables the use of a cloud computing network; provision of virtual computer systems through cloud computing; cloud computing services featuring software for the use, maintenance and control of cutting machines of soft material; technical assistance services in the nature of customizing computer software enabling the personalization of an online software or service for its adaptation to the specific needs resulting from the activity and client working methods; technological advice relating to optimizing and digitizing of industrial production; computer technology consultancy services; professional technological consulting services in the optimization of cutting rooms; graphic scanning services in the nature of documents and photo scanning services; image and document scanning services in the nature of digitization of documents and photo scanning services; data conversion and copying

services, namely, remote online backup of computer data, data conversion of electronic information, data encoding services, namely, encoding of magnetic cards, encoding of electronic data support in the nature of help desk services; electronic data storage; technical services for downloading digital data, namely, computer software consultation; engineering and engineering consultancy services relating to the design of products, means of production or in connection with the running of industrial processes; study and planning of technical projects, namely, computer project management services; industrial analysis and research services in the field of the cutting of soft material; computer-aided design for engineering and industrial design; quality control services; research and development of new products for others; research and development services relating to software; research and development services relating to optimization and digitization of industrial processes; research and development services relating to the integration of equipment, software and business services; research and development services relating to cutting machine tools; all these services are intended for the textile, garment, footwear, clothing, luggage, furniture, leather goods, automotive, boating, aeronautical and technical textile industries

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

RELATED PROPERTIES INFORMATION

International Registration 1514231 **International Registration Date** Jun. 12, 2019

GOODS AND SERVICES INFORMATION

For Rental and leasing of offices; financial consultancy relating to studies on the viability of constructing air traffic facilities and on the airspace of air traffic regions; financial consultancy regarding the financing of air traffic facilities and parts thereof and building projects related thereto; financial consultancy in the field of preparation of foreign building projects from a financial perspective; financial advice regarding building projects; real estate consultancy; financial consultancy in the field of usage concepts for real estate with regard to financial matters; real estate management and brokerage; rental and leasing of real estate; rental of offices; leasing of real estate; real estate services, namely, rental property management; creation and advisory support of customer loyalty measures in the nature of providing cash and other rebates for credit card use as part of a customer loyalty program; issuing of magnetic and chip credit cards and debit cards containing machine-readable identification data and information; rental of real estate, namely, completely furnished doctors' practices, hospital rooms and garages for ambulances

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For Business consultancy, namely, professional business and organizational consultancy for studies on the viability of constructing air traffic facilities and on the airspace of air traffic regions; professional business advice in the field of foreign building projects from an organizational perspective; professional business advice regarding organization and management of air traffic facilities; business administration; temporary business management, for others, of air traffic facilities or parts thereof from an organizational and professional business perspective; business management relating to air traffic facilities and parts thereof; business management, namely, business organizational preparation for building projects; real estate marketing

analysis; advertising services; merchandising in the nature of sales promotion; business consultancy regarding the organization of customer loyalty systems; database management, namely, collating and systemizing of data relating to individual customers in computer databases; database management, namely, analysis of data relating to individual customers in computer databases for advertising purposes; organizational and professional business consultancy for out-patient medical centers and practices; business management and organization consultancy for the medical profession; advertising services, business management, business administration, providing office functions; retail store services featuring pharmaceuticals, cosmetics and convenience store items, fuels, exercise machines, tools of common metal, construction equipment, gardening equipment, craft supplies, consumer electronics, sound recording carriers and data carriers, sanitary installations, vehicles and vehicle accessories, fireworks, clocks and watches and jewelry, musical instruments, printed matter in the nature of books, stationery, office requisites, bag makers' goods and saddlery, home furnishings and décor, tents, tarpaulins, clothing, shoes and household textile goods, toys, sporting goods, foodstuffs and beverages, agricultural equipment, horticultural equipment and forestry equipment, tobacco products and alcohol

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Maintenance and repair of aircraft handling machines and aircraft; cleaning the interiors of aircraft

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Visually readable and machine-readable data carriers for entering payment and data transfers for access control, in particular magnetically encoded and encoded electronic chip credit cards and debit cards containing machine-readable identification data and information; card readers for credit cards and debit cards; interactive computer terminals for providing information, consultancy and individual guidance consisting of control computers, computer interface boards, loudspeakers, electric luminescent display panels, cameras, card readers for credit and debit cards, credit and debit card dispensers, scanners, microphones, and document printers; electric display apparatus, namely, electronic displays, namely, electric luminescent display panels; electrical equipment for recording; electronic notice boards; data processing equipment and computers; blank magnetic data carriers; prerecorded magnetic data carriers featuring managing information in the field of airport services; recorded computer programs for managing information in the field of airport services; downloadable computer programs for managing information in the field of airport services; downloadable data recorded in electronic form, namely, data files pertaining to available airport services; downloadable electronic publications in the nature of informational memoranda in the field of airport services; computer terminals with primary digital signage and remember-me functions; internet terminals

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For monitoring of airport security systems for the protection of valuables and individuals

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Providing access to the internet for preliminary planning and for use with mobile terminals; providing access to databases containing airport information in the nature of guides to terminals, car parks, shops, restaurants or other facilities on the internet; telecommunications services, namely, telecommunications gateway services

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Storage of goods; freight loading and unloading of airplanes; transportation services, namely, checking of baggage; escorting of travelers; transport of people and goods; vehicle rental; packaging of goods for transport purposes; courier services; transportation of fuels; transportation of tax-free goods; towing of aircraft on airport grounds; freight transportation by air; postal services in the nature of clearance of incoming and outgoing mail, namely, the handling, sorting and transfer of mail on the basis of accompanying documents; clearance of air passengers in the nature of checking the travel documents of air passengers as part of air passenger check-in; rental and leasing of storage spaces and parking places; leasing and rental of garages for ambulances

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Medical services; health and beauty care for human beings; services of hospitals; operating out-patient medical centers, namely, medical and health care; rental of movable commercial goods, namely, medical devices for doctors' practices

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For Technical consultancy for scientific studies on the viability of constructing air traffic facilities and on the airspace of air traffic regions; urban planning as providing geological advice relating to the development, general expansion and environmental protection of air traffic facilities and air traffic regions; drafting of technical function plans for air traffic facilities for others; architectural services and engineering services for construction; technical consultancy in relation to air traffic facilities and component parts thereof; conducting of scientific investigations in the organizational, operational and professional business field for scientific purposes; design of databases; rental of data-reading apparatus for reading credit and debit cards in the fields of financial affairs, payment transactions and electronic banking; computer software and hardware design and development; research relating to environmental protection; medical research

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Providing of food and drink and temporary accommodation; providing food and drink, namely, supplying aircraft with foodstuffs for immediate consumption; rental of movable assets, namely, furniture and food service equipment

International Classes 43 - Primary Classes **US Classes** 100, 101 **International Class Title** Hotel and restaurant services

GOODS AND SERVICES INFORMATION

For Hoists and lifting installations for the transport of persons and goods; machine-operated conveying and handling devices, in particular power-operated lifting machines for lifting loads, in particular by utilizing vacuum or magnetism; machine-operated lifting apparatus, in particular lifting apparatus worn on the body in the nature of robotic exoskeleton suits being machines, other than for medical purposes; machines for the force-fit or form-fit gripping of objects, in particular machine-operated clamping grippers, machine operated jaw grippers, machine-operated inside grippers, machine-operated needle grippers; machines for gripping by utilizing vacuum; power-operated lifting machines for lifting loads, namely, vacuum lifting machines featuring suction grippers; power-operated tube lifting machines; machine parts, namely, suction grippers having flexible gripping surfaces, in particular having structures provided on the suction side; machine parts, namely, spring-mounted holders for suction grippers; machine parts, namely, covers for suction grippers; machine parts, namely, large-area suction grippers, in particular for large-area gripping of objects, in particular by utilizing vacuum; material handling machines including a plurality of suction grippers; machine parts, namely, suction spiders; machines for gripping of objects using magnetism; machines for gripping objects by utilizing positive pressure, compressed gas, or compressed air; clamping machines for fixing workpieces during workpiece machining, in particular by utilizing vacuum; clamping devices being parts of machine tools; vacuum-operated pneumatic components being parts of gripping machines; vacuum-operated pneumatic components being parts of industrial robots; vacuum- operated pneumatic components being parts of handling machines in the nature of manipulators for sucking an object and for lifting and displacing this object; machine parts, namely, vacuum generators; pumps and compressors for machines; fans being parts of machines; fans being parts of blowing machines for the

compression, exhaustion and transport of gases; compressors for machines for vacuum generation, in particular turbocompressors; machine parts being suction jet pumps and ejectors, in particular basic ejectors, ejector modules, compact ejectors, inline ejectors; diaphragm pump machines; vacuum pumps; ball joints as parts of machines; machine parts, namely, flange connections for pipes; valves being machine parts, valves operated by pressure changes being machine parts, manual slide valves being machine parts, flow valves being machine parts; flow orifice plates being machine parts, throttles for flowing fluids being machine parts; pneumatically operated pressure switches being machine parts; pneumatically operated vacuum switches being machine parts, check valves being machine parts, pressure reducers being machine parts; cocks in the nature of valves of metal being machine parts, force-operated valves being machine parts, motor-operated valves being machine parts, ball valves being machine parts, valve diaphragms being machine parts, rotary inlets being machine parts, vacuum filters being machine parts, pneumatic distributors being machine parts, bellows being machine parts, vacuum seals being machine parts; aprons for machines being machine parts; motors and drives, other than for land vehicles; vacuum pumps and power-operated blowers; electric motors for machines, electrical drives for machines; connection hooks and crane hooks as parts of power- operated lifting machines; cranes, in particular slewing cranes, column-mounted slewing cranes, wall-mounted slewing cranes, overhead travelling cranes; stationary and mobile cranes; gantry cranes; machine-driven hoists, in particular wire rope hoists, chain hoists, belt drives for machines; separators for liquids, water separators; conveyor belts, in particular telescoping conveyor belts, in particular for loading and reloading luggage; handles as parts of mechanically operated machine tools; vacuum accumulators being machine parts, in particular for providing a temporary vacuum supply; component and replacement parts of the aforementioned goods

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Procuring of contracts for others for the purchase and sale of goods or for the provision of services, the aforementioned services in the field of automation industry, manufacturing industry and handling industry or relating to automation technology, manufacturing technology and handling technology; procuring of contracts for others for the purchase and sale of goods or for the provision of services via an electronic trading platform on the Internet, the aforementioned services in the field of automation industry, manufacturing industry and handling industry or relating to automation technology, manufacturing technology and handling technology; online marketing, the aforementioned services in the field of automation industry, manufacturing industry and handling industry or relating to automation technology, manufacturing technology and handling technology; compilation of data into computer databases for business purposes; data processing; collection and systemization of business data into computer databases; collection and provision of data and information in business matters; business consultation in the field of marketing communication and data communication matters

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Installation of conveying devices, handling devices, lifting devices, machine- or hand-operated grippers such as suction grippers, magnetic grippers, or clamping grippers, tube lifters, clamping devices for fixing workpieces during workpiece machining, vacuum generators, and ejectors and suction jet pumps, fuel cells and batteries; repair of conveying devices, handling devices, lifting devices, machine- or hand- operated grippers such as suction grippers, magnetic grippers, or clamping grippers, tube lifters, clamping devices for fixing workpieces during workpiece machining, vacuum generators, and ejectors and suction jet pumps, fuel cells and batteries; maintenance of conveying devices, handling devices, lifting devices, machine-

or hand-operated grippers such as suction grippers, or magnetic grippers, or clamping grippers, of tube lifters, clamping devices for fixing workpieces during workpiece machining, vacuum generators, and ejectors and suction jet pumps, fuel cells and batteries, the aforementioned repair services also as preventative maintenance services

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Measurement, detection, and monitoring instruments, devices, and controllers, namely for measuring, detecting and monitoring pressure, electric power and gas flow; manometers; electronic regulating and control devices for controlling pressure, electronic regulating and control devices for controlling electric power; electronic regulating and control devices for controlling gas flow; electronic controllers used to manage the amount of vacuum being produced; sensors and detectors, in particular for measuring pressure or vacuum; sensors, in particular optical sensors, in particular for object detection or object tracking; sensors and detectors, in particular for monitoring contact; sensor gloves, in particular for motion or force detection; electronic controllers integrated into an operating handle of a gripping machine for gripping, lifting and displacing of objects; electrical pressure switches, electrical vacuum switches; electrical switches, in particular circuit breakers; electrical valve controllers; electric fuel cells and batteries, in particular redox flow batteries, in particular as an arrangement of a plurality of fuel cells or batteries, in particular for use as stationary fuel cells and batteries; electrodes for fuel cells; frames, housings, diaphragms, felts, and bipolar plates, all specially adapted for batteries; electronic controllers for batteries, in particular for controlling and monitoring the batteries; mobile electric fuel cells and batteries, in particular as an arrangement of a plurality of fuel cells or batteries; solenoid valves; electronic control and regulation apparatus for conveyors, for handling devices, for lifting devices, for machine-operated or hand-operated grippers such as suction grippers, magnetic grippers, or clamping grippers, for tube lifters, for clamping devices for fixing workpieces, for vacuum generators and for ejectors and suction jet pumps, for fuel cells and batteries, the aforementioned electronic control and regulation apparatus also as remote controls; electronic control and regulation apparatus for vacuum generators and ejectors and suction jet pumps, in particular remote controls for the aforementioned devices; recorded and downloadable education software for providing information relating to automation technology, manufacturing technology and handling technology; downloadable and recorded software for maintenance of automation technology, manufacturing technology and handling technology; recorded and downloadable image recognition software; recorded and downloadable software for evaluating image or video material, in particular for object recognition; recorded and downloadable software for managing logistics; recorded and downloadable software for managing lease or rental objects

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Hand-operated conveying devices, namely conveyor belts; hand-operated handling devices, in particular for lifting loads, namely, lifting jacks, lifting claws; hand-operated tube lifters and suction grippers; hand-operated hoists, in particular wire rope hoists, chain hoists; hand-operated grippers, in particular for force-fit or form-fit gripping of objects, in particular hand-operated clamping grippers, hand-operated jaw grippers, hand-operated inside grippers, hand-operated needle grippers, hand-operated box grippers; hand-operated magnetic grippers; hand-operated flow grippers; hand-operated vacuum grippers; hand-operated tools in the nature of tensioners, in particular for fixing workpieces during workpiece processing

International Classes 8 - Primary Classes **US Classes** 23, 28, 44 **International Class Title** Hand Tools

For Technological consultancy services in the field of handling technology; technological consultancy concerning conveying devices, handling devices, lifting devices, machine- or hand-operated grippers such as suction grippers, or magnetic grippers, or clamping grippers, concerning tube lifters, clamping devices for fixing workpieces during workpiece machining, vacuum generators, and ejectors and suction jet pumps; development of computer software, namely, technical development of Internet-based purchasing systems; development, programming, and implementation of software, in particular for the design of gripping systems and vacuum generators; technical data analysis services, namely, providing information and data relating to scientific and technological research and development; technological product safety testing services; monitoring of industrial processes for quality assurance; technical monitoring and inspection for quality control; quality control for others; quality assessment; the aforementioned services in particular for conveying devices, for handling devices, for lifting devices, for machine- or hand-operated grippers such as suction grippers, or magnetic grippers, or clamping grippers, for tube lifters, for clamping devices for fixing workpieces, for vacuum generators, and for ejectors and suction jet pumps, for fuel cells and batteries, and the aforementioned services provided in particular via a network or the Internet; technological consultation in the field of energy production and energy use; technological consultation in the field of energy-saving; technological consultancy concerning fuel cells and batteries; development of fuel cells and batteries

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services
