GOODS AND SERVICES INFORMATION

For [Installation of computers]

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair **First Use** Feb. 17, 2011 **In Commerce** Feb. 17, 2011

For [Telecommunication apparatus, namely, computer hardware, computer peripherals, modems, mobile phones, routers, and wireless networks and worldwide communication networks, namely, mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for collection and management of data; electronic machines, namely, central processing units, computer search engine software, computer storage devices in the nature of high-speed storage subsystems for storage and backup of electronic data locally or via a telecommunications network, data processing apparatus, integrated circuits, interfaces for computers and network access server operating software;]computer software applications to manage, monitor, track and organize data in the fields of marketing, sales, customer service, contracts, human resources, clinical research, health care, communications and telecommunications, call centers, customer relationship management, public sector administration, public and private utilities, transportation, insurance, processing, analysis and management of financial transactions, governance, risk and compliance management, business process outsourcing, business consolidation management, business quality management, business project management and enterprise resource planning; computer software

for application and database integration; computer software for communication within and outside companies and between individuals and groups of individuals, namely, computer software for email, calendaring, sharing and collaborating on documents, storing contacts, taking notes, storing tasks, recording task reminders, access to public files, creating a shared working space for collaboration, transmitting direct messaging and short message service (SMS), message filing, making telephone calls, finding voicemails, retrieving of fax messages, mobile access to electronic messages and contacts; computer software for computer operating systems; computer software for computer system and application development, deployment and management; computer software for connecting disparate computer systems, servers and storage devices; computer software for creating a document workflow system with version control; computer software for creating searchable databases of information and data; computer software for distribution of security certificates or encrypted keys; computer software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information; computer software for data storage management, data protection and data recovery; computer software for designing, building, testing, deploying, and maintaining computer software applications for use in customer relationship management and extended relationship management (XRM) to extend relationship management beyond customers, business applications, namely, for use in managing and sharing information, enterprise resource planning (ERP), network infrastructure communications and information outsourcing applications, computer and network infrastructure, and application development, deployment and management; computer software for ensuring the security of electronic mail; computer software for locating, recovering and receiving text, electronic documents, graphic illustrations and audiovisual information on company scale internal computing networks and local, wide-area and global computer networks; computer software for network management; computer software for providing firewall protection, security and encryption; computer software used for software development and design; computer software for use in cloud service governance; computer software for use in information management, data management, document management, content management, information integration, business intelligence functions, search and discovery of data; computer software for web site design and hosting; computer software containing integration appliances for integrating, deploying, and supporting the integration of Internet and network based applications and application data; computer software in the field of enterprise collaboration and communication, namely, computer software for email and email server functions, calendaring, and communication software; computer software providing web-based access to application and services through a web operating system or portal interface, providing real-time, integrated business management intelligence by combining information from various databases and presenting it in an easy-to-understand user interface; computer software used for running all types of cloud computing based applications; computer programs for applications to manage, monitor, track and organize data in the fields of marketing, sales, customer service, contracts, human resources, clinical research, health care, communications and telecommunications, call centers, customer relationship management, public sector administration, public and private utilities, transportation, insurance, processing, analysis and management of financial transactions, governance, risk and compliance management, business process outsourcing, business consolidation management, business quality management, business project management and enterprise resource planning; computer programs for application and database integration; computer programs for communication within and outside companies and between individuals and groups of individuals, namely, computer software for email, calendaring, sharing and collaborating on documents, storing contacts, taking notes, storing tasks, recording task reminders, access to public files, creating a shared working space for collaboration, transmitting direct messaging and short message service (SMS), message filing, making telephone calls, finding voicemails, retrieving of fax messages, mobile access to electronic messages and contacts; computer programs for computer operating systems; computer programs for computer system and application development, deployment and management;

computer programs for connecting disparate computer systems, servers and storage devices; computer programs for creating a document workflow system with version control; computer programs for creating searchable databases of information and data; computer programs for distribution of security certificates or encrypted keys; computer programs for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information; computer programs for data storage management, data protection and data recovery; computer programs for designing, building, testing, deploying, and maintaining computer software applications for use in customer relationship management and extended relationship management (XRM) to extend relationship management beyond customers, business applications, namely, for use in managing and sharing information, enterprise resource planning (ERP), network infrastructure communications and information outsourcing applications, computer and network infrastructure, and application development, deployment and management; computer programs for ensuring the security of electronic mail; computer programs for locating, recovering and receiving text, electronic documents, graphic illustrations and audiovisual information on company scale internal computing networks and local, wide-area and global computer networks; computer programs for network management; computer programs for providing firewall protection, security and encryption; computer programs used for software development and design; computer software for use in cloud service governance; computer programs for use in information management, data management, document management, content management, information integration, business intelligence functions, search and discovery of data; computer programs for web site design and hosting; computer programs containing integration appliances for integrating, deploying, and supporting the integration of Internet and network based applications and application data; computer programs in the field of enterprise collaboration and communication, namely, computer software for email and email server functions, calendaring, and communication software; computer programs providing web-based access to application and services through a web operating system or portal interface, providing real-time, integrated business management intelligence by combining information from various databases and presenting it in an easy-to-understand user interface; computer programs used for running all types of cloud computing based applications; computer programs downloadable via communication networks for applications to manage, monitor, track and organize data in the fields of marketing, sales, customer service, contracts, human resources, clinical research, health care, communications and telecommunications, call centers, customer relationship management, public sector administration, public and private utilities, transportation, insurance, processing, analysis and management of financial transactions, governance, risk and compliance management, business process outsourcing, business consolidation management, business quality management, business project management and enterprise resource planning; computer programs downloadable via communication networks for application and database integration; computer programs downloadable via communication networks for communication within and outside companies and between individuals and groups of individuals, namely, computer software for email, calendaring, sharing and collaborating on documents, storing contacts, taking notes, storing tasks, recording task reminders, access to public files, creating a shared working space for collaboration, transmitting direct messaging and short message service (SMS), message filing, making telephone calls, finding voicemails, retrieving of fax messages, mobile access to electronic messages and contacts; computer programs downloadable via communication networks for computer operating systems; computer programs downloadable via communication networks for computer system and application development, deployment and management; computer programs downloadable via communication networks for connecting disparate computer systems, servers and storage devices; computer programs downloadable via communication networks for creating a document workflow system with version control; computer programs downloadable via communication networks for creating

searchable databases of information and data; computer programs downloadable via communication networks for distribution of security certificates or encrypted keys; computer programs downloadable via communication networks for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information; computer programs for data storage management, data protection and data recovery; computer programs downloadable via communication networks for designing, building, testing, deploying, and maintaining computer software applications for use in customer relationship management and extended relationship management (XRM) to extend relationship management beyond customers, business applications, namely, for use in managing and sharing information, enterprise resource planning (ERP), network infrastructure communications and information outsourcing applications, computer and network infrastructure, and application development, deployment and management; computer programs downloadable via communication networks for ensuring the security of electronic mail; computer programs downloadable via communication networks for locating, recovering and receiving text, electronic documents, graphic illustrations and audiovisual information on company scale internal computing networks and local, wide-area and global computer networks; computer programs downloadable via communication networks for network management; computer programs for providing firewall protection, security and encryption; computer programs downloadable via communication networks used for software development and design; computer programs downloadable via communication networks for use in cloud service governance; computer programs downloadable via communication networks for use in information management, data management, document management, content management, information integration, business intelligence functions, search and discovery of data; computer programs downloadable via communication networks for web site design and hosting; computer programs downloadable via communication networks containing integration appliances for integrating, deploying, and supporting the integration of Internet and network based applications and application data; computer programs downloadable via communication networks in the field of enterprise collaboration and communication, namely, computer software for email and email server functions, calendaring, and communication software; computer programs downloadable via communication networks providing web-based access to application and services through a web operating system or portal interface, providing real-time, integrated business management intelligence by combining information from various databases and presenting it in an easy-to-understand user interface; computer programs downloadable via communication networks used for running all types of cloud computing based applications; [personal computers; computer network servers;]computer software for use in web system integration and business engineering; computer programs, downloadable via communication networks, for use in web system integration and business engineering

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus **First Use** Feb. 17, 2011 **In Commerce** Feb. 17, 2011

For Computer and computer program configuration, namely, computer operating software, programs for computer operating systems and for network access server operating software; installation of computer programs, expansion and addition of its computer software functions; backing up processing of computer system data, providing information and consultancy relating to computer software installation; providing information and consultancy relating to computer software installation in the field of telecommunication software design and development via computer networks and in the field of design, selection, implementation and use of computer hardware and software systems for others; computer software design, computer programming and maintenance of computer software; rental of computer servers; rental of memory areas of computer server memory unit; rental of computers; providing online non-downloadable software for use in database management, for use as

task storage, contacts storage, calendaring, email transmission, sharing and collaborating on documents, taking notes, access to public files, creating a shared working space for collaboration, direct messaging, message filing; providing online non-downloadable software for monitoring, restricting, and accessing online information and services; computer services, namely, cloud hosting provider service and application provider services (ASP) services, namely, hosting computer software applications of others; Software as a Service (SAAS) services featuring software for hosting software for use by others in the nature of computer software used for the transmission of information and data within cloud computing networks, software for management, storage, troubleshooting, optimization, and analysis of network data, software for managing, operating, monitoring and developing cloud computing and remote computing networks, software for use in information management, data management, document management, content management, information integration, business intelligence functions, search and discovery of data and software for use in customer relationship management and enterprise information management and consulting thereof; cloud computing featuring software for use in web system integration and business engineering; Software as a Service (SAAS) services featuring software for use in web system integration and business engineering; computer software development, computer programming and maintenance of computer software for creating, updating, hosting and maintenance of websites and for computer security restricting access to and by computer networks to and of undesired individuals and facilities

automatic slip sheet dispensing machines; hydraulic slips, namely, automatic slip sheet dispensing machines; parts of oilfield wellhead machines, namely, chokes, variable chokes and hydraulically-operated chokes; parts, fittings and accessories for the aforesaid goods, namely, parts of oilfield wellhead machines, namely, gate valves, ball valves, check valves, plug valves, globe values, manifold industrial pipes, pump and valve parts, pipe fittings and flanges

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For [Down hole services for oil, gas, condensate and water wells, well bores and boreholes, namely, drilling, intervention, pumping, cementing, fracturing and acidising services; oil, gas and water field exploitation, exploration and recovery services; casing and lining of well bores, boreholes and oil, gas and water wells; inspection in the course of constructing oil sites, maintenance, installation, repair, deployment, refurbishment and rental of oil, gas and water field exploitation, exploration and recovery equipment, apparatus, tools, instrumentation, machines and articles; on-site and off-site inspection in the course of constructing pipes, maintenance, installation, repair, refurbishment and rental of pipes, tubulars, articles, tools, machines and apparatus for drilling, completing, intervening in, cementing and allowing production from boreholes, well bores and oil, gas and water wells; on-site and off-site inspection in the course of constructing water field equipment, maintenance, installation, repair, refurbishment and rental of gas, oil and water field pipes, tubulars, articles, tools, machines and apparatus; on-site and off-site inspection in the course of constructing borehole structures, maintenance, installation, repair, refurbishment and rental of man made structures used in or around boreholes, well bores and oil, gas and water wells, well bores and boreholes; provision and deployment of coiled tubing for pumping, cementing, fracturing and acidising oil, gas and water wells, well bores and boreholes; on-site and off-site building, construction, repair, maintenance and installation project management services in the field of construction; preventative maintenance services in relation to the oil and gas exploitation, exploration and recovery industries; information, advisory and consultancy services in relation to the aforesaid services]

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Articles, tools, machines and apparatus for drilling, completing, intervening in and producing fluids from oil, gas, condensate and water wells, well bores and boreholes, namely, oil and gas well downhole survey and measurement equipment; intelligent down hole tools, namely, gas meters; battery-operated down hole tools, namely, apparatus for testing gas, liquids and solids; down hole tools capable of controlling and/or switching electrical power, namely, electrical power connectors; down hole tools capable of controlling and/or switching hydraulic power, namely, high frequency switches; down hole tools capable of controlling and/or operating other down hole tools, namely, pipeline communication systems for transferring data over oil, gas, water and heat distribution networks, comprised of computer hardware, software, modems and communication cables; down hole tools that are capable of being actuated and/or controlled by radio frequency, namely, electric actuators; down hole tools actuated by radio frequency identification, namely, electric actuators; down hole tools operable by radio frequency identification, namely, electric actuators; down hole cementing tools, namely, cement testing machines; sliding wind sleeves actuated by use of radio frequency identification; radio frequency identification tags; radio frequency identification controllers; radio frequency identification actuators; hand held tools and apparatus for controlling and/or actuating down hole systems and apparatus, namely, power controllers; hand-held tools and apparatus for wireless communication with down hole systems and apparatus, namely, wireless transmitters and receivers; hand-held tools and apparatus for one-way and two-way communication with down hole systems and apparatus, namely, two-way radios; radio frequency hand-held tools, namely,

radio frequency controlled locks; antenna; radio frequency identification antenna; battery packs; electronic switches; setting tools, namely, electric cables; non-explosive setting tools, namely, electric cables; parts, fittings and accessories for the aforesaid goods, namely, batteries, battery terminal connector clamps; data logging tools, namely, electronic data loggers and sensors

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For [Scientific and technological research services; technical advisory, information, consultancy and support services in the nature of monitoring network systems in relation to the oil and gas exploitation, exploration and recovery industries; engineering, design and consultancy services relating to oil, gas, condensate and water field exploitation, exploration and recovery; quality control and assurance services; engineering advisory, information, consultancy and support services in relation to the oil and gas exploitation, exploration and recovery industries; feasibility and conceptual studies and analysis; design of engineering products, design verification of engineering products, computer project management and engineering services relating to the oil and gas exploitation, exploration and recovery industries; design of engineering products, design verification of engineering products, computer project management and engineering services relating to down hole tools and down hole processes; engineering services in the field of reducing operation cost estimates of industrial machinery; IT project management, advisory, information, consultancy and support services in relation to the oil and gas exploitation, exploration and recovery industries; technical project studies and evaluations in the field of oil and gas exploitation, exploration and recovery industries; technical research and evaluation in the field of oil and gas exploitation, exploration and recovery industries; analysis for oil and gas-field exploitation, exploration and recovery; engineering and consultancy services relating to oil, gas and water field exploitation, exploration and recovery; engineering design and consultancy services relating to oil, gas and water field exploitation, exploration and recovery; provision of conceptual studies being preliminary engineering studies into the feasibility of a project from a technical, engineering and legislative perspective; design of engineering products and design verification of engineering products services; technical and computer project management services relating to implementation, intervention and commissioning services, all relating to oil, gas and water field exploitation, exploration and recovery; technical and computer project management services relating to oil, gas and water field exploitation, exploration and recovery services; engineering advice and consultancy services relating to implementation, intervention and commissioning services, all relating to oil, gas and water field exploitation, exploration and recovery; industrial and technical inspection of oil fields; inspection services relating to oil, gas and water field exploitation, exploration and recovery; operations and maintenance support being the provision of management, information, advisory and consultancy services in relation to the planning and scheduling of maintenance of web sites relating to oil, gas and water field exploitation, exploration and recovery; computer aided and computer-assisted design engineering services; design engineering; engineering drawing and reports; drawing up and preparation of engineering drawings and reports; engineering consultancy; engineering design and consultancy; engineering feasibility studies; engineering research; engineering services for the analysis of machinery, tools, structures, facilities, pipelines and tools; process engineering consultancy, design and engineering services; technical engineering; engineering, computer services system design and engineering services relating to modeling; computer system design services and engineering services relating to simulation, design, consultancy and project management services in relation to the oil and gas exploitation, exploration and recovery industries; computer system design services and engineering services for 1, 2 and 3-d modeling and simulation; structural and mechanical engineering and analysis; technical research and

evaluation; preparation of technical manuals, handbook and operator guides; information, advisory and consultancy services in relation to the aforesaid services]

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Pipes, pipe work and tubes of metal; metal products, namely, metal bolts and metal beams; metal liners and casings for use in oil, gas and water wells and boreholes; down hole tools, namely, metal down spouts; metal expanding sleeves and sliding sleeves for affixing screws; well, well bore and borehole liners and casing of metal; subs and down hole subs, namely, metal pipe clips; metal hardware for use in the construction, maintenance and repair of, and intervention in, oil, gas, condensate and water wells, well bores and boreholes, namely, pulleys, springs, nuts and washers; slips, namely, metal sheet linings; metal pipe clamps; metal plugs; metal wiper plugs; metal manifolds for use with hydraulic and pneumatic systems; metal drill collars; metal pipe protectors, namely, metal pipe muffs; metal drill pipe protectors, namely, metal pipe muffs; packer retrieving tools, namely, metal hooks; metal valves not being parts of machines; blow-out preventers, namely, metal wheel clamps; metal gate valves; chokes, namely, metal chains; metal check valves; metal diverter valves; metal Kelly valves; metal safety valves; metal float valves; parts, fittings and accessories for the aforesaid goods, namely, metal nails, metal bolts, metal rivets and metal screws

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods
