For Printing machines; offset printing machines; rotary web-fed printing machines; rotary sheet-fed printing machines; screen printing machines; pad printing machines; central cylinder flexographic printing machines; flexographic printing machines; gravure printing machines; printing machines for use on sheet metal; printing machines for use on cans; printing machines for use on hollow bodies; printing machines for corrugated cardboard; inkjet printing machines and apparatus in the nature of industrial inkjet printing machines; inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers, namely, industrial inkjet printing machines; laser marking machines and apparatus, namely, laser machines for printing; laser printing machines and apparatus, namely, laser engraving machines; marking machines, namely, electromechanical marking machines; lacquering machines; laminating machines for industrial use; coating machines, in particular rotary coating machines for web-type and separated materials; digital printing and marking machines based on electrophotography, magnetography, xerography, inkjet printing, namely, industrial inkjet printing machines; exposure apparatus, being parts for printing machines for contact prints or for producing circuit and print templates; imprinting and marking machines, in particular for the graphics and packaging sector and for data processing; engraving machines; machines for handling sheets and plates of metal; machines and apparatus for the surface treatment of metals; hot stamping machines and apparatus, namely, automatic hot stamping machines; thermal transfer machines and apparatus, namely, heat transfer presses; rotary dies for punching printed matter or paper or plastics; sheet metal dies for punching printed matter or paper or plastics; marking machines for printed matter; printing plates; flexographic printing plates; fittings, included in this class, for the aforesaid printing machines, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular having one or more

inkjets, single or multi-coloured inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, coating machines, digital printing and marking machines, engraving machines, all in the nature of replacement parts for the forgoing; machines and mechanical apparatus for storing printed matter or printing materials or reels of printing materials or paper or reels of paper or plastics or reels of plastic or metal or organic or inorganic materials for printing machines in the nature of machine-operated platforms for storing paper in printing presses during the printing process, offset printing machines, rotary web-fed printing machines, rotary sheet-fed rotary printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus in the nature of industrial inkjet printing machines, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers in the nature of industrial inkjet printing machines, laser marking machines and apparatus in the nature of laser machines for printing laser printing machines and apparatus in the nature of laser engraving machines, marking machines in the nature of electromechanical marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines in the nature of industrial inkjet printing machines engraving machines, machines and mechanical apparatus for the graphics industry machines in the nature of electromechanical marking machines; belts for conveyors, conveying apparatus for transporting printed matter or printing materials or reels of printing materials or paper or reels of paper or plastics or reels of plastic or metal or organic or inorganic materials for printing machines in the nature of machine-operated platforms for storing paper in printing presses during the printing process, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus in the nature of industrial inkjet printing machines, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers in the nature of industrial inkjet printing machines, laser marking machines and apparatus in the nature of laser machines for printing laser printing machines and apparatus in the nature of laser engraving machines, marking machines in the nature of electromechanical marking machines, lacquering machines, coating machines, digital printing and marking machines in the nature of industrial inkjet printing machines, engraving machines, machines and mechanical apparatus for the graphics industry machines in the nature of electromechanical marking machines; mechanical apparatus for the folding of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; machines and mechanical apparatus for changing and bending and punching printing plates and flexographic printing plates; machines and mechanical apparatus for storing printing plates for printing machines in the nature of machine-operated platforms for storing paper in printing presses during the printing process; conveyors being machines, belts for conveyors, conveying apparatus for transporting printing plates for printing machines in the nature of machine-operated platforms for storing paper in printing presses during the printing process; machines and mechanical apparatus for cleaning rollers in inking apparatus or dampening units and cylinders and acquiring units and inkjet printing heads and laser systems in printing machines, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus in the nature of industrial inkjet printing machines, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers in the nature of industrial inkjet printing machines, laser marking machines and apparatus in the nature of laser machines for printing, laser

printing machines and apparatus in the nature of laser engraving machines, marking machines in the nature of electromechanical marking machines, lacquering machines, paper coating machines, digital printing and marking machines in the nature of industrial inkjet printing machines, engraving machines, machines and mechanical apparatus for the graphics industry machines in the nature of electromechanical marking machines; machines and mechanical apparatus for storing and adjusting rollers in inking apparatus or dampening units and cylinders and lacquering units and inkjet printing modules and laser systems in printing machines in the nature of machine-operated platforms for storing paper in printing presses during the printing process, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus in the nature of industrial inkjet printing machines, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers in the nature of industrial inkjet printing machines, laser marking machines and apparatus in the nature of laser machines for printing, laser printing machines and apparatus in the nature of laser engraving machines, marking machines in the nature of electromechanical marking machines, lacquering machines, paper coating machines, digital printing and marking machines in the nature of industrial inkjet printing machines, engraving machines, machines and mechanical apparatus for the graphics industry machines in the nature of electromechanical marking machines; machines for adjusting inking apparatus and dampening units and cylinders for printing mechanisms and lacquering units in printing mechanisms and lacquering units and inkjet printing modules and laser systems; parts in the nature of replacement parts for inking apparatus and dampening units and inkjet printing modules and laser systems and cylinder being parts in machines, for tempering, included in this class; machines for adjusting cutting equipment and cutting cylinders in printing machines, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus in the nature of industrial inkjet printing machines, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers in the nature of industrial inkjet printing machines, laser marking machines and apparatus in the nature of laser machines for printing, laser printing machines and apparatus in the nature of laser engraving machines, marking machines in the nature of electromechanical marking machines, lacquering machines, paper coating machines, digital printing and marking machines in the nature of industrial inkjet printing machines, engraving machines, machines and mechanical apparatus for the graphics industry machines in the nature of electromechanical marking machines; machines for adjusting registers and register marks in printing machines, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, in the nature of industrial inkjet printing machines, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers in the nature of industrial inkjet printing machines, laser marking machines and apparatus in the nature of laser machines for printing, laser printing machines and apparatus in the nature of laser engraving machines, marking machines in the nature of electromechanical marking machines, lacquering machines, coating machines, digital printing and marking machines in the nature of industrial inkjet printing machines, engraving machines, machines and mechanical apparatus for the graphics industry machines in the nature of

electromechanical marking machines; machines and mechanical apparatus for adjusting web tension controls in printing machines, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus in the nature of industrial inkjet printing machines, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers in the nature of industrial inkjet printing machines, laser marking machines and apparatus in the nature of laser machines for printing, laser printing machines and apparatus in the nature of laser engraving machines, marking machines in the nature of electromechanical marking machines, lacquering machines, coating machines, digital printing and marking machines in the nature of industrial inkjet printing machines, engraving machines, machines and mechanical apparatus for the graphics industry machines in the nature of electromechanical marking machines; filters being parts of machines and engines; separators being machines, namely, separating machines for chemical processing; suction and conveying machines being machines for ventilation-based cleaning, dust removal and air separation of machines and spaces equipped therewith; filters for cleaning cooling air, for engines; blowing engines not for land vehicles; fibre separators being machines; air compressors and air ejectors for machines; collection machines for compacting, filling and compressing particles, dusts and fibres removed from machines; air conveyors; air compressors; fittings, in the nature of replacement parts included in this class, for the aforesaid printing machines, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus in the nature of industrial inkjet printing machines, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers in the nature of industrial inkjet printing machines, laser marking machines and apparatus in the nature of laser machines for printing, laser printing machines and apparatus in the nature of laser engraving machines, marking machines in the nature of electromechanical marking machines, lacquering machines, coating machines, digital printing and marking machines in the nature of industrial inkjet printing machines, engraving machines, machines for handling sheets and plates of metal, machines for the surface treatment of metals, hot stamping machines and apparatus in the nature of automatic hot stamping machines, thermal transfer machines and apparatus in the nature of heat transfer presses; fittings, in the nature of replacement parts included in this class, for the aforesaid filters, separators, suction machines and conveyors being machines for ventilation-based cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, fibre separators, air compressors and air ejectors for machines, collection machines for compacting, filling and pressing machine-separated particles, dusts and fibres removed from machines; machines and mechanical apparatus for producing security labels, securities, banknotes and replacement parts therefor; machines and mechanical apparatus for applying security labels and replacement parts therefor; machines for packaging product security means, authentication features, security features, security labels, securities, banknotes and replacement parts therefor; parts and fittings for the aforesaid goods, included in this class all in the nature of replacement parts for the forgoing

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Recorded consultancy software for managing consulting projects, recorded sales software for managing sales leads and software in the nature of operating system software for the following goods, for printing machines, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, coating machines, digital printing and marking machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, food distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded consultancy software for managing consulting projects, recorded sales software for managing sales leads and software in the nature of operating system software for the following goods, for printing installations, apparatus in the nature of computers, filters in the nature of filters being parts of HVAC installations, separators filters in the nature of waste separating machines, extracting and conveying equipment for ventilation-based cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters being parts of machines, fibre separators being machines, air compressors and air ejectors for machines, collection equipment, machines in the nature of computers, devices and apparatus for compacting as well as filling and compressing particles and dusts and fibres separated from machines; recorded consultancy software for managing consulting projects, recorded sales software for managing sales leads and software in the nature of operating system software for the following goods, for ventilation installations, ventilation apparatus, air conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying equipment, in particular ventilators, air heaters, air coolers, air filters and nozzle chambers for humidifying; recorded consultancy software for managing consulting projects, recorded sales software for managing sales leads and software in the nature of operating system software for the following goods, for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings having catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation and regulating and safety accessories for gas apparatus; recorded consultancy software for managing consulting projects, recorded sales software for managing sales leads and software for providing IT security via, producing product security means, authentication features, security features, security labels, securities, banknotes; recorded consultancy software for managing consulting projects, recorded sales software for managing sales leads and software for providing IT security via, applying product security means, authentication features, security features, security labels; recorded consultancy software for managing consulting projects, recorded sales software for managing sales leads and software for providing computer network security via the following packaging product security means, authentication features, security features, security labels, securities, banknotes; recorded consultancy software for managing consulting projects, recorded sales software for managing sales leads and software for product security means, authentication features, security features, security labels, securities, banknotes all being for computer network security; electronic regulating apparatus in the nature of electrical power distribution blocks and monitoring apparatus in the nature of computer monitors, production control apparatus in the nature of access control and alarm monitoring systems, temperature monitoring apparatus in the nature of thermometers not for medical use, web tension controls in the nature of web

consoles, recorded consultancy software for managing consulting projects, recorded sales software for managing sales leads and software in the nature of recorded operating system software for the following goods, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, coating machines, digital printing and marking machines, engraving machines, machines and mechanical apparatus for the graphics industry; electronic regulating apparatus in the nature of electrical power distribution blocks, control apparatus in the nature of remote controls for printing machines, monitoring apparatus in the nature of computer monitors, production control apparatus in the nature of access control and alarm monitoring systems, temperature monitoring apparatus in the nature of thermometers not for medical use, web tension controls in the nature of web consoles, recorded consultancy software for managing consulting projects, recorded sales software for managing sales leads and software in the nature of recorded operating system software for the following goods, for heating installations, apparatus in the nature of computers, filters in the nature of filters being parts of HVAC installations, separators filters in the nature of waste separating machines, extracting and conveying equipment for ventilation-based cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters being parts of machines, fibre separators being machines, air compressors and air ejectors for machines, collection equipment, machines in the nature of computers, devices and apparatus for compacting as well as filling and compressing particles and dusts and fibres separated from machines; electronic regulating apparatus in the nature of electrical power distribution blocks, control apparatus in the nature of remote controls for printing machines, monitoring apparatus in the nature of computer monitors, quality control apparatus in the nature of instruments for measuring printing quality, production control apparatus in the nature of access control and alarm monitoring systems, temperature monitoring apparatus in the nature of thermometers not for medical use, web tension controls in the nature of web consoles, recorded consultancy software for managing consulting projects, recorded sales software for managing sales leads and software in the nature of recorded operating system software for the following goods, ventilation installations, ventilation apparatus, air conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying equipment, in particular ventilators, air heaters, air coolers, air filters and nozzle chambers for humidifying; electronic regulating apparatus in the nature of electrical power distribution blocks, control apparatus in the nature of remote controls for printing machines, monitoring apparatus in the nature of computer monitors, production control apparatus in the nature of access control and alarm monitoring systems, temperature monitoring apparatus in the nature of thermometers not for medical use, web tension controls in the nature of web consoles, recorded consultancy software for managing consulting projects, recorded sales software for managing sales leads and software in the nature of recorded operating system software for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings having catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation and regulating and safety accessories for gas apparatus; electronic regulating apparatus in the nature of electrical power distribution blocks, monitoring apparatus in the nature of computer monitors, quality control apparatus in the nature of instruments for measuring printing quality parameters, production control apparatus in the nature of access control and alarm monitoring systems, temperature monitoring apparatus in the nature of thermometers not for medical use, web tension controls in the nature of web

consoles, recorded consultancy software for managing consulting projects, recorded sales software for managing sales leads and software in the nature of operating system software for machines for producing product security means, authentication features, security features, security labels, securities, banknotes and parts therefor; electronic regulating apparatus in the nature of electrical power distribution blocks, in the nature of remote controls for printing machines, monitoring apparatus in the nature of computer monitors, quality control apparatus in the nature of instruments for measuring printing quality parameters, production control apparatus in the nature of access control and alarm monitoring systems, temperature monitoring apparatus in the nature of thermometers not for medical use, web tension controls in the nature of web consoles, recorded consultancy software for managing consulting projects, recorded sales software for managing sales leads and recorded software for providing IT security via, applying product security means, authentication features, security features, security labels; electronic regulating apparatus in the nature of electrical power distribution blocks, control apparatus in the nature of remote controls for computer monitors, monitoring apparatus in the nature of computer monitors, quality control apparatus in the nature of measuring printing quality parameters, production control apparatus in the nature of access control and alarm monitoring systems, temperature monitoring apparatus in the nature of thermometers not for medical use, web tension controls in the nature of web consoles, recorded consultancy software for managing consulting projects, recorded sales software for managing sales leads and recorded software for providing computer network security via, machines for packaging product security means, authentication features, security features, security labels, securities, banknotes; electronic regulating apparatus in the nature of electrical power distribution blocks, control apparatus in the nature of remote controls for printing machines, monitoring apparatus in the nature of computer monitors, quality control apparatus in the nature of instruments for measuring printing quality parameters, production control apparatus in the nature of access control and alarm monitoring systems, temperature monitoring apparatus in the nature of web tension controls in the nature of consoles, recorded consultancy software for managing consulting projects, recorded sales software for managing sales leads and recorded software for product security means, authentication features, security features, security labels, securities, banknotes all being for computer network security electric and electronic measuring and testing apparatus and instruments for adjusting and pre-adjusting subassemblies all in the nature of electronic control system and being integral parts of printing machines, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, coating machines, digital printing and marking machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, food distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; electric and electronic measuring and testing apparatus and instruments for adjusting and pre-adjusting subassemblies all in the nature of electronic control system and being integral parts of heating installations, devices in the nature of mobile phones, apparatus in the nature of computers, filters in the nature of filters being parts of HVAC installations, separators filters in the nature of waste separating machines, exhausting and conveying equipment for ventilation-based cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters being parts of machines, fibre separators being machines, air compressors and air ejectors for machines, collection equipment, machines in the nature of computers, devices and apparatus

for compacting as well as filling and compressing particles and dusts and fibres separated from machines; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment for subassemblies all in the nature of electronic control system and being integral parts of ventilation installations, ventilation apparatus, air conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying equipment, in particular ventilators, air re-heaters, air coolers, air filters and nozzle chambers for humidifying; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment subassemblies all in the nature of electronic control system and being integral parts of drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings having catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation and regulating and safety accessories for gas apparatus; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment of subassemblies all in the nature of electronic control system and being integral parts of machines for producing product security means in the nature of machines for making security systems featuring, authentication features, security features, security labels, securities, banknotes and replacement parts therefor; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment for subassemblies all in the nature of electronic control systems and being integral parts of machines for applying product security means featuring authentication features, security features, security tags and replacement parts therefor; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment for subassemblies all in the nature of electronic control systems and being integral parts of machines for packaging product security means featuring authentication features, security features, security labels, securities, banknotes and replacement parts therefor; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment for subassemblies and parts of printing machines, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, coating machines, digital printing and marking machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, food distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment for subassemblies and parts of installations, devices, apparatus, filters, separators, extracting and conveying equipment for ventilation-based cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, fibre separators, air compressors and air ejectors for machines, capture devices, machines, devices and apparatus for compacting, filling and pressing machine-separated particles, dusts and fibres removed from machines; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment for subassemblies and parts of ventilation installations, ventilation apparatus, air conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air

treatment installations, air conveying equipment, in particular fans, compressors, air heaters, air coolers, air filters and nozzle chambers for humidifying; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment for subassemblies and parts of drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings having catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation and regulating and safety accessories for gas apparatus; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment for subassemblies and parts of machines for producing product security means, authentication features, security features, security labels, securities, banknotes and replacement parts therefor; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment for subassemblies and parts of machines for applying product security means, authentication features, security features, security labels and replacement parts therefor; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment subassemblies and parts of machines for packaging product security means, authentication features, security features, security labels, securities, banknotes and replacement parts therefor; recorded consultancy software and recorded sales software for managing sales leads and software for remote control, remote operation, remote monitoring, control and regulation of ink slides, ink rollers, damping rollers, register adjustment devices in printing machines, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, coating machines, digital printing and marking machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads and software for remote control, remote operation, remote monitoring, control and regulation of equipment for transporting and storing printed matter or printing materials or reels of printing materials or paper or reels of paper or plastics or reels of plastic or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, coating machines, digital printing and marking machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, food distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded consultancy software for managing consulting projects and recorded sales software for

managing sales leads and software for remote control, remote operation, remote monitoring, control and regulation of equipment for changing and/or transporting and/or storing printing plates; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads and software for remote control, remote operation, remote monitoring, control and regulation of equipment for cleaning rollers in inking apparatus or dampening units and cylinders and inkjet printing heads and laser systems in printing machines, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, coating machines, digital printing and marking machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads and software for remote control, remote operation, remote monitoring, control and regulation of equipment for storing and adjusting rollers in inking apparatus or dampening units and cylinders and inkjet printing heads and laser systems in printing machines, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, coating machines, digital printing and marking machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads and software for remote control, remote operation, remote monitoring, control and regulation of inking apparatus and dampening units and cylinders for printing engines in printing mechanisms; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads and software for remote control, remote operation, remote monitoring, control and regulation of equipment for tempering inking apparatus or dampening units and cylinders and inkjet printing heads and laser systems in printing engines; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads and software for remote control, remote operation, remote monitoring, control and regulation of cutting equipment and cutting cylinders in printing machines, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, coating machines, digital printing and marking machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads and software for remote control, remote operation, remote monitoring, control and regulation of register and register marks in printing machines, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies,

printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, coating machines, digital printing and marking machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads and software for remote control, remote operation, remote monitoring, control and regulation for quality control in printing machines, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, coating machines, digital printing and marking machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads and recorded software for remote control, remote operation, remote monitoring, control and regulation for quality control in installations, devices, apparatus, filters, separators, extracting and conveying equipment for ventilation-based cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines, fibre separators, air compressors and air ejectors for machines, capture devices, machines, devices and apparatus for compacting, filling and pressing machine-separated particles, dusts and fibres removed from machines; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads and software for remote control, remote operation, remote monitoring, control and regulation for quality control in ventilation installations, ventilation apparatus, air conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying equipment, in particular ventilators, air heaters, air coolers, air filters and nozzle chambers for humidifying; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads and software for remote control, remote operation, remote monitoring, control and regulation for quality control in drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings having catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation and regulating and safety accessories for gas apparatus; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads and software for remote control, remote operation, remote monitoring, control and regulation of web tension controls in printing machines, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, coating machines, digital printing and marking machines, engraving machines, machines and mechanical apparatus for the graphics industry; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads and software for operating data processing equipment for the pre-press stage, for printing printed matter, production control and production

planning; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads and software for operating data processing equipment for the printing machine, for printing printed matter, production control and production planning; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads and software for operating interfaces and data transfer for printing machines, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, food distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and for parts therefor; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads and software for operating interfaces and data transfer for installations, devices, apparatus, filters, separators, extracting and conveying equipment for air technology based cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, fibre separators, air compressors and air ejectors for machines, collection equipment, machines, devices and apparatus for compacting, filling and compressing particles, dusts and fibres removed from machines; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads and recorded software for operating interfaces and data transfer for ventilation installations, ventilation apparatus, air conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying equipment, in particular ventilators, air heaters, air coolers, air filters and nozzle chambers for humidifying; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads and recorded software for operating interfaces and data transfer for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings having catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation and regulating and safety accessories for gas apparatus; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads and recorded software for operating interfaces and data transfer for machines for producing product security means, authentication features, security features, security labels, securities, banknotes and parts therefor; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads and recorded software for operating interfaces and data transfer for machines for applying product security means, authentication features, security features, security labels and parts therefor; recorded consultancy software for managing consulting projects and recorded sales software for managing sales leads and recorded software for operating interfaces and data transfer for machines for packaging product security means, authentication features, security features, security labels, securities, banknotes and/or parts therefor; recorded software for remote control, remote operation, remote monitoring, control and regulation of equipment for transporting and storing printed matter or printing materials or reels of printing materials or paper or reels of paper or plastics or reels of plastic or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on

sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, coating machines, digital printing and marking machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets/plates of metal, food distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded software for the management of transporting, packaging and storing remote controls, remote operators, remote monitoring apparatus, controllers and regulators of equipment for transporting and storing printed matter or printing materials or reels of printing materials or paper or reels of paper or plastics or reels of plastic or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web-fed printing machines, rotary sheet-fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular having one or more inkjets, single or multi-coloured inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, coating machines, digital printing and marking machines, engraving machines, machines and mechanical apparatus for the graphics industry, drying machines, drying ovens, machines for handling sheets and plates of metal, food distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; electronic data carriers in the form of product security solutions, authentication features, security features, security labels, securities, banknotes; magnetic data carriers in the form of product security means in the nature of prerecorded magnetic data carriers featuring IT security software featuring, authentication features, security features, security labels, securities, banknotes; RFID (radio-frequency identification) systems; encoded identification chips and cards; apparatus for processing electronic payments in the nature of electronic payment terminals for goods and services and invoices, in particular for self-service payment by customers, in particular using means of payment in the form of banknotes and coins and vouchers and cashless payment using debit, credit and loyalty cards, in particular contactless and contact cards and NFC (near-field communication) apparatus, in particular including with change being given; automated teller machines (ATM); cash deposit apparatus, namely, automated teller machines; automated teller machines and cash deposit apparatus in the nature of ATMs that accept deposits; fittings in the nature of replacement parts for the aforesaid apparatus, included in this class, in particular cash boxes for accepting means of payment, in particular banknotes and coins and tokens of value; electric apparatus, namely, data processing apparatus for communicating with data carriers, in particular for communicating with data carriers having integrated circuits and data carriers having contactless interfaces, in particular data processing apparatus for writing data in or on data carriers, for reading data from data carriers and for displaying data from data carriers on a display; data processing apparatus for customising data carriers; machine-readable data carriers, in particular magnetic data carriers having integrated circuits for storing, encoding and decoding, processing and providing data and programs, sold blank; integrated circuit cards being smartcards, in particular cards having microprocessors for communicating with external data processing equipment and mobile terminals; encoded telecommunications cards, namely, encoded electronic chip cards for use with telecommunications; encoded and uncoded digital data carriers having contactless interfaces, namely, magnetic optical data carriers sold prerecorded with software for operating electronic payment terminals; integrated circuits having characteristic physical properties for protecting against forgery; computer memories, in particular

non-volatile memories being blank digital storage media; digital data carriers containing memories, in particular non-volatile memories being blank digital storage media; electric apparatus for data processing, in particular encryption and decryption of, data in both online and offline operation; downloadable and recorded software for applications on computer networks, in particular for managing network traffic for internet, intranet and extranet applications; downloadable and recorded data processing software, in particular for telecommunications with smartcard-activated mobile telephones, in particular for the associated smartcards and mobile telephones, and downloadable and recorded computer programs for activating, modifying, testing and displaying data and software structures stored on the aforesaid telecommunications cards; downloadable and recorded software for encryption, decryption and signing data; downloadable and recorded operating system software and mobile application software for ensuring proper operation of digital recording media having integrated circuits, in particular for tokens being computer hardware and smartcards, and for data processing equipment for communicating with the aforesaid digital data carriers; downloadable and recorded computer programs for developing, managing and maintaining the aforesaid software of all kinds; digital recording media being sold prerecorded with the aforesaid software; electronically and optically stored, pre-recorded advertising and communications media, included in this class, in particular films, downloadable videos in the field of printing; replacement parts for the aforesaid goods and fittings in the nature of replacement parts for the aforesaid goods, included in this class; coding machines in the nature of computer terminals, in particular for the graphics and packaging sector and for data processing
