CASE IDENTIFIERS

Serial Number 86592124 **Application Filing Date** Apr. 09, 2015 **Register** Principal **Mark Type** Trademark **Publication Date** Jan. 19, 2016

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of two circles, an outer green circle and a thin red inner circle. Inside is a man with peach skin, black hair, black eye brows and a black moustache, wearing a beige sombrero edged in red and green triangles and a red stripe, all outlined in black. The man's eyes are brown and white, and outlined in black, and he has white teeth set against a black mouth; the nose is outlined in black. The man is also wearing a white outfit outlined in black, with sashes made of red and green triangles, and is holding a black and gray microphone. Above the man's hat is a banner, with a red center, green ends, and outlined in yellow, with the wording "DON CHENTE" in white. Across the bottom of the larger circle is a green banner with two white stripes, and the wording "CORN TORTILLAS" in yellow. A green seal appears to the right of the man, with the wording "GLUTEN FREE" in white. The background of the circle consists of a corn field in green, yellow, and beige, with blue sky and white clouds. **Color Drawing** Yes **Color Claimed** The color(s) BEIGE, GREEN, RED, BLACK, GRAY, WHITE, YELLOW, BLUE AND PEACH is/are claimed as a feature of the mark. **Disclaimer** "CORN TORTILLAS" AND "GLUTEN FREE" **Name Portrait Consent** The name(s), portrait(s), and/or signature(s) shown in the mark does not identify a particular living individual.

GOODS AND SERVICES INFORMATION

For Telecommunications apparatus and equipment, namely, cellular phones, mobile phones, cell phones, digital phones; computer software for use in communications applications, data transmission and instant messaging services; computer software and applications, namely instant messaging software, file sharing software, software for transmitting, recording, reproducing, displaying, organizing, managing, manipulating, reviewing and exchanging files, images, graphics, audio, video, audio-visual content, data, information, multimedia content, web links, text and voice messages for the facilitation of communication between two or multiple users via computer, mobile, wireless and telecommunication networks; computer software for providing single user and multiple user access to a global computer network; application software for use with mobile devices for taking photos, previewing and editing images and sharing them online and through platforms and portals via computer, mobile, wireless and telecommunication networks; software and application software for the sharing or providing of electronic media or information over computer, mobile, wireless and telecommunication networks; interfaces for computers; interfaces for mobile devices; computer software for voice over Internet protocol (VOIP), Internet and peer-to-peer communications; computer software for making conference calls including hosting, joining, managing, scheduling and streaming voice, video and audio-visual content between two or multiple users by means of a communications network; computer software for use in searching for, displaying, managing, editing, viewing, sorting, collecting, analyzing, synchronizing, identifying and verifying information on users of voice over Internet protocol (VOIP), Internet and peer-to-peer communications, including user contact information, user status information, call information and other information; voice over Internet protocol (VOIP), Session Initiation Protocol (SIP), Private Branch Exchange (PBX) and Unified Communications (UC) computer software, technology; computer software for creating and managing user accounts of individuals or groups of users of VoIP (Voice over Internet Protocol), Internet communications and peerto-peer

services; computer software for the management and analysis of VoIP (Voice over Internet Protocol), SIP (Session Initiation Protocol), PBX (Private Branch Exchange) and UC (Unified Communications) computer software; computer software for use on portable and handheld digital electronic devices; computer software for enabling messaging and instant messaging via the Internet, over computer terminals, portable and handheld devices, including sending, receiving, deleting, editing, formatting, managing, sorting and searching for messages and instant messages between two or multiple users; computer software for searching, browsing and sorting messages, text, images, files, live and prerecorded audio, video and audio-visual content and other data provided by a computer, mobile, wireless or telecommunications network; computer software for voice mail and video mail; computer software for use in simple message service (SMS) and multimedia message service (MMS)

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Telecommunication services, namely, local and long distance transmission of voice, data, graphics by means of telephone, telegraphic, cable, and satellite transmissions; providing telephone services with various telephone features, namely, a dedicated toll-free number, voicemail, multiple mailbox extensions, telephone message notification, fax capabilities, detailed call reports, call waiting, call identification, call forwarding, and message waiting; transmission of voice, data, graphics, images, audio and video by means of telecommunications networks, wireless communication networks, and the Internet; providing advanced calling features, namely, changing one's caller ID, recording calls, changing the sound of one's voice over the phone, and straight-to-voicemail calls; providing advanced calling features, namely, providing an international calling function to easily place international calls; providing advanced calling features, namely, providing the ability to record voice memos after a telephone call by leaving a message that will be recorded separately and saved online as a file which can then be emailed, shared or kept private based on the user settings; wireless telephone services; telecommunication access services; wireless communication services; communication services for the transmission and retrieval of files, images, graphics, audio, video, audio-visual content and other data, information, messages and text for the facilitation of communications between two or multiple users via computer, mobile, wireless and telecommunication networks; communications services for the exchange of data in electronic form, namely exchange of files, images, graphics, audio, video, audio-visual content and other data, information, messages and text for the facilitation of communications between two or multiple users via computer, mobile, wireless and telecommunication networks; Telecommunication services, namely, voice over internet protocol; communication services, namely, electronic transmission of data and documents among users of computers for facilitating searching for, displaying, managing, editing, viewing, sorting, collecting, analyzing, synchronizing, identifying and verifying information on users of voice over Internet protocol (VOIP), Internet and peer-to-peer communications, including user contact information, user status information, call information and other information; communication services, namely, electronic transmission of data and documents among users of computers, transmission of voice, audio, visual images and data by telecommunications networks, wireless communication networks, the Internet, information services networks and data networks, and providing electronic transmission of information stored in a database via interactively communicating computer systems for voice over Internet protocol (VOIP), Session Initiation Protocol (SIP), Private Branch Exchange (PBX) and Unified Communications (UC); communications by means of or aided by computer; audio and video teleconferencing; providing user access to third party

web sites hosted on computer servers accessible via a global information network; telecommunication services, namely, transmission of voice, data, graphics, images, audio and video by means of telecommunications networks, wireless communication networks, and the Internet; telecommunications services, namely, electronic transmission of data, messages and information; computer aided transmission of messages and images; electronic messaging services, namely, sending, receiving and forwarding messages in the form of text, audio, images or video; provision and operation of electronic conferencing, discussion groups and chat rooms via the Internet; Internet and video-conference services; conference services, namely, conferences across a computer network; instant messaging services; streaming of audio-visual material on the Internet; electronic transmission of messages and data; electronic messaging services, namely, simple message service (SMS) and multimedia message service (MMS) via telecommunications and computer networks; communication services, namely, computer transmission of information, messaging, VOIP, video calling and conferencing accessed by means of an access number; communications services through the use of subscriber identity module (SIM) cards, namely, computer transmission of information, VOIP, messaging, video calling and conferencing; telecommunications services, namely, personal communications services; providing multiple user interactive access to a global communications network; video and audio teleconferencing via the Internet, asynchronous transfer mode services, Integrated Service Digital network (ISDN) services, Internet Protocol (IP) communications services, namely, VOIP; communication services, namely, radio, telephone, telegraph communication services, internet communication services, mobile communications services, telephony communication services, video broadcasting services over the Internet or other communications network, namely, electronically transmitting video clips, long distance telephone communication services, broadcast communication services, namely, transmitting e-mails, faxes, text messages and telephone voice messages to designated recipients for others, broadband radio communication services; switched voice, data, video and multimedia services, namely, computer transmission of information, VOIP, messaging, video calling and conferencing; messaging center services in the nature of telephone voice messaging services; video, audio and data telephone conference services; electronic messaging services; telecommunication services, namely, cellular telephone services; providing multiple-user access to a communications network voice messaging services, instant messaging services, text messaging services; electronic data exchange services, namely multimedia content exchange services; providing online and telecommunications access for interaction between and among users of computers, mobile and hand held devices and other communication devices

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Computer services, namely providing online non-downloadable software for enabling and managing simultaneous, multiple modes of communication via computer networks, mobile networks, communication networks and the global information network via instant messaging, voice over internet protocol (VOIP), video conferencing, audio conferencing, computer desktop sharing, file transfer, sensing and providing user presence information, and telephony and accessing remotely stored data for such applications; provision of online non-downloadable software for sending of messages, images, audio and visual clips; providing temporary use of online non-downloadable computer software to enable the transmission, recording, reproduction, display, organization, management, manipulation and review of messages, text, images, files, live and pre-recorded audio, video and audio-visual content and other data for the facilitation of communications between two or multiple users by means of a communications network; providing temporary use of online

non-downloadable computer software for making conference calls including hosting, joining, managing, scheduling and streaming voice, video and audio-visual content between two or multiple users by means of a communications network; providing temporary use of online non-downloadable computer software for making, receiving, disabling, transferring and forwarding calls; providing temporary use of online non-downloadable computer software for use on portable and handheld digital electronic devices; providing temporary use of online non-downloadable computer software for wireless computer networking and accessing and using the Internet; providing temporary use of online non-downloadable computer software for enabling messaging and instant messaging via the Internet, over computer terminals, portable and handheld devices, including sending, receiving, deleting, editing, formatting, managing, sorting and searching for messages and instant messages between two or multiple users; providing temporary use of online non-downloadable computer software for searching, browsing and sorting messages, text, images, files, live and pre-recorded audio, video and audio-visual content and other data provided by a communications network; providing temporary use of online non-downloadable computer software for voicemail and video mail; providing temporary use of online non-downloadable computer software for uploading, posting, showing, displaying, tagging, blogging, sharing of information over the Internet or other computer network; providing temporary use of online, non-downloadable computer software that allows subscribers to utilize Internet and voice over Internet protocol (VOIP) communication services, including video over Internet; design, development, installing, updating, maintenance of and providing temporary use of online non-downloadable computer software for use in communications, telecommunications, voice over Internet protocol (VOIP), Internet and peer-to-peer communications applications, data transmission, messaging and instant messaging services, including video over Internet messaging services; design, development, installing, updating, maintenance of and providing temporary use of online non-downloadable computer software for download for communications, data and file transfer via a computer network; providing temporary use of online non-downloadable computer software for managing, organizing, analyzing, reviewing, tracking, purchasing, allocating and distributing credit; providing temporary use of online non-downloadable computer software for use in collecting, coordinating, managing, organizing, creating, presenting, transmitting, analyzing, manipulating, filtering and reviewing information, text, data, reports and audio and audio-visual files; providing temporary use of online non-downloadable computer software for use in communications applications, data transmission, messaging and instant messaging services, and for use in collecting, coordinating, managing, organizing, creating, presenting, transmitting, analyzing, manipulating, filtering and reviewing information, text, data, reports and audio files; providing temporary use of online non-downloadable computer software for creating and managing user accounts of individuals or groups of users of VoIP (Voice over Internet Protocol), Internet communications and peer-to-peer services; providing temporary use of online non-downloadable computer software for managing, organizing, analyzing, reviewing, acquiring and renewing Internet communications and peer-to-peer services; providing temporary use of online non-downloadable computer software for hosting, joining, managing, scheduling and streaming computer network conference calls, messaging and instant messaging via the Internet, communication via the Internet and communication via Internet phones

GOODS AND SERVICES INFORMATION

For Telecommunications apparatus and equipment, namely, cellular phones, mobile phones, cell phones, digital phones; computer software for use in communications applications, data transmission and instant messaging services; computer software and applications, namely instant messaging software, file sharing software, software for transmitting, recording, reproducing, displaying, organizing, managing, manipulating, reviewing and exchanging files, images, graphics, audio, video, audio-visual content, data, information, multimedia content, web links, text and voice messages for the facilitation of communication between two or multiple users via computer, mobile, wireless and telecommunication networks; computer software for providing single user and multiple user access to a global computer network; application software for use with mobile devices for taking photos, previewing and editing images and sharing them online and through platforms and portals via computer, mobile, wireless and telecommunication networks; software and application software for the sharing or providing of electronic media or information over computer, mobile, wireless and telecommunication networks; interfaces for computers; interfaces for mobile devices; computer software for voice over Internet protocol (VOIP), Internet and peer-to-peer communications; computer software for making conference calls including hosting, joining, managing, scheduling and streaming voice, video and audio-visual content between two or multiple users by means of a communications network; computer software for use in searching for, displaying, managing, editing, viewing, sorting, collecting, analyzing, synchronizing, identifying and verifying information on users of voice over Internet protocol (VOIP), Internet and peer-to-peer communications, including user contact information, user status information, call information and other information; voice over Internet protocol (VOIP), Session Initiation Protocol (SIP), Private Branch Exchange (PBX) and Unified Communications (UC) computer software, technology; computer software for creating and managing user accounts of individuals or groups of users of VoIP (Voice over Internet Protocol), Internet communications and peerto-peer services; computer software for the management and analysis of VoIP (Voice over Internet Protocol), SIP (Session

Initiation Protocol), PBX (Private Branch Exchange) and UC (Unified Communications) computer software; computer software for use on portable and handheld digital electronic devices; computer software for enabling messaging and instant messaging via the Internet, over computer terminals, portable and handheld devices, including sending, receiving, deleting, editing, formatting, managing, sorting and searching for messages and instant messages between two or multiple users; computer software for searching, browsing and sorting messages, text, images, files, live and prerecorded audio, video and audio-visual content and other data provided by a computer, mobile, wireless or telecommunications network; computer software for voice mail and video mail; computer software for use in simple message service (SMS) and multimedia message service (MMS)

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Telecommunication services, namely, local and long distance transmission of voice, data, graphics by means of telephone, telegraphic, cable, and satellite transmissions; providing telephone services with various telephone features, namely, a dedicated toll-free number, voicemail, multiple mailbox extensions, telephone message notification, fax capabilities, detailed call reports, call waiting, call identification, call forwarding, and message waiting; transmission of voice, data, graphics, images, audio and video by means of telecommunications networks, wireless communication networks, and the Internet; providing advanced calling features, namely, changing one's caller ID, recording calls, changing the sound of one's voice over the phone, and straight-to-voicemail calls; providing advanced calling features, namely, providing an international calling function to easily place international calls; providing advanced calling features, namely, providing the ability to record voice memos after a telephone call by leaving a message that will be recorded separately and saved online as a file which can then be emailed, shared or kept private based on the user settings; wireless telephone services; telecommunication access services; wireless communication services; communication services for the transmission and retrieval of files, images, graphics, audio, video, audio-visual content and other data, information, messages and text for the facilitation of communications between two or multiple users via computer, mobile, wireless and telecommunication networks; communications services for the exchange of data in electronic form, namely exchange of files, images, graphics, audio, video, audio-visual content and other data, information, messages and text for the facilitation of communications between two or multiple users via computer, mobile, wireless and telecommunication networks; Telecommunication services, namely, voice over internet protocol; communication services, namely, electronic transmission of data and documents among users of computers for facilitating searching for, displaying, managing, editing, viewing, sorting, collecting, analyzing, synchronizing, identifying and verifying information on users of voice over Internet protocol (VOIP), Internet and peer-to-peer communications, including user contact information, user status information, call information and other information; communication services, namely, electronic transmission of data and documents among users of computers, transmission of voice, audio, visual images and data by telecommunications networks, wireless communication networks, the Internet, information services networks and data networks, and providing electronic transmission of information stored in a database via interactively communicating computer systems for voice over Internet protocol (VOIP), Session Initiation Protocol (SIP), Private Branch Exchange (PBX) and Unified Communications (UC); communications by means of or aided by computer; audio and video teleconferencing; providing user access to third party web sites hosted on computer servers accessible via a global information network; telecommunication services, namely,

transmission of voice, data, graphics, images, audio and video by means of telecommunications networks, wireless communication networks, and the Internet; telecommunications services, namely, electronic transmission of data, messages and information; computer aided transmission of messages and images; electronic messaging services, namely, sending, receiving and forwarding messages in the form of text, audio, images or video; provision and operation of electronic conferencing, discussion groups and chat rooms via the Internet; Internet and video-conference services; conference services, namely, conferences across a computer network; instant messaging services; streaming of audio-visual material on the Internet; electronic transmission of messages and data; electronic messaging services, namely, simple message service (SMS) and multimedia message service (MMS) via telecommunications and computer networks; communication services, namely, computer transmission of information, messaging, VOIP, video calling and conferencing accessed by means of an access number; communications services through the use of subscriber identity module (SIM) cards, namely, computer transmission of information, VOIP, messaging, video calling and conferencing; telecommunications services, namely, personal communications services; providing multiple user interactive access to a global communications network; video and audio teleconferencing via the Internet, asynchronous transfer mode services, Integrated Service Digital network (ISDN) services, Internet Protocol (IP) communications services, namely, VOIP; communication services, namely, radio, telephone, telegraph communication services, internet communication services, mobile communications services, telephony communication services, video broadcasting services over the Internet or other communications network, namely, electronically transmitting video clips, long distance telephone communication services, broadcast communication services, namely, transmitting e-mails, faxes, text messages and telephone voice messages to designated recipients for others, broadband radio communication services; switched voice, data, video and multimedia services, namely, computer transmission of information, VOIP, messaging, video calling and conferencing; messaging center services in the nature of telephone voice messaging services; video, audio and data telephone conference services; electronic messaging services; telecommunication services, namely, cellular telephone services; providing multiple-user access to a communications network voice messaging services, instant messaging services, text messaging services; electronic data exchange services, namely multimedia content exchange services; providing online and telecommunications access for interaction between and among users of computers, mobile and hand held devices and other communication devices

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Computer services, namely providing online non-downloadable software for enabling and managing simultaneous, multiple modes of communication via computer networks, mobile networks, communication networks and the global information network via instant messaging, voice over internet protocol (VOIP), video conferencing, audio conferencing, computer desktop sharing, file transfer, sensing and providing user presence information, and telephony and accessing remotely stored data for such applications; provision of online non-downloadable software for sending of messages, images, audio and visual clips; providing temporary use of online non-downloadable computer software to enable the transmission, recording, reproduction, display, organization, management, manipulation and review of messages, text, images, files, live and pre-recorded audio, video and audio-visual content and other data for the facilitation of communications between two or multiple users by means of a communications network; providing temporary use of online non-downloadable computer software for making conference calls including hosting, joining, managing, scheduling and

streaming voice, video and audio-visual content between two or multiple users by means of a communications network; providing temporary use of online non-downloadable computer software for making, receiving, disabling, transferring and forwarding calls; providing temporary use of online non-downloadable computer software for use on portable and handheld digital electronic devices; providing temporary use of online non-downloadable computer software for wireless computer networking and accessing and using the Internet; providing temporary use of online non-downloadable computer software for enabling messaging and instant messaging via the Internet, over computer terminals, portable and handheld devices, including sending, receiving, deleting, editing, formatting, managing, sorting and searching for messages and instant messages between two or multiple users; providing temporary use of online non-downloadable computer software for searching, browsing and sorting messages, text, images, files, live and pre-recorded audio, video and audio-visual content and other data provided by a communications network; providing temporary use of online non-downloadable computer software for voicemail and video mail; providing temporary use of online non-downloadable computer software for uploading, posting, showing, displaying, tagging, blogging, sharing of information over the Internet or other computer network; providing temporary use of online, non-downloadable computer software that allows subscribers to utilize Internet and voice over Internet protocol (VOIP) communication services, including video over Internet; design, development, installing, updating, maintenance of and providing temporary use of online non-downloadable computer software for use in communications, telecommunications, voice over Internet protocol (VOIP), Internet and peer-to-peer communications applications, data transmission, messaging and instant messaging services, including video over Internet messaging services; design, development, installing, updating, maintenance of and providing temporary use of online non-downloadable computer software for download for communications, data and file transfer via a computer network; providing temporary use of online non-downloadable computer software for managing, organizing, analyzing, reviewing, tracking, purchasing, allocating and distributing credit; providing temporary use of online non-downloadable computer software for use in collecting, coordinating, managing, organizing, creating, presenting, transmitting, analyzing, manipulating, filtering and reviewing information, text, data, reports and audio and audio-visual files; providing temporary use of online non-downloadable computer software for use in communications applications, data transmission, messaging and instant messaging services, and for use in collecting, coordinating, managing, organizing, creating, presenting, transmitting, analyzing, manipulating, filtering and reviewing information, text, data, reports and audio files; providing temporary use of online non-downloadable computer software for creating and managing user accounts of individuals or groups of users of VoIP (Voice over Internet Protocol), Internet communications and peer-to-peer services; providing temporary use of online non-downloadable computer software for managing, organizing, analyzing, reviewing, acquiring and renewing Internet communications and peer-to-peer services; providing temporary use of online non-downloadable computer software for hosting, joining, managing, scheduling and streaming computer network conference calls, messaging and instant messaging via the Internet, communication via the Internet and communication via Internet phones

Mark Literal(s) EL LORO MEXICAN RESTAURANT FRESH AUTHENT

CASE IDENTIFIERS

Serial Number 86610144 **Application Filing Date** Apr. 26, 2015 **Register** Principal **Mark Type** Service Mark **Publication Date** Jan. 19, 2016

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a circular design featuring a scarlet macaw (parrot) sitting on a brown branch. The parrot is in the following colors: red, yellow, blue, white, black. Part of the tail of the parrot comes out of the circle design. To the left and right of the parrot are two brown islands with brown palm trees. The left island has two palm trees and the right island has three palm trees. There are brown lines coming out from the islands and these lines represent water. To the left of the parrot and behind the left island is a yellow sun. The background design changes color from red to orange to yellow to blue going from the top to the bottom of the design. At the top of the design and above the parrot are the words "EL LORO" in stylized blue font with a zigzag design in white font within each letter and at the bottom of the design and below the parrot are the words "MEXICAN RESTAURANT FRESH AUTHENTIC MEXICAN FOOD." The words "MEXICAN RESTAURANT" are in stylized red font inside a white rectangle. The words "FRESH AUTHENTIC MEXICAN FOOD" are in stylized black font underneath the words "MEXICAN RESTAURANT." **Color Drawing** Yes **Color Claimed** The color(s) blue, orange, yellow, red, brown, black, white is/are claimed as a feature of the mark. **Disclaimer** "MEXICAN RESTAURANT" AND "FRESH AUTHENTIC MEXICAN FOOD" **Translation** The English translation of "EL LORO" in the mark is "the parrot".

Mark Literal(s) PORTLAND OREGON OLD TOWN

CASE IDENTIFIERS

Serial Number 86628169 **Application Filing Date** May 13, 2015 **Register** Principal **Mark Type** Trademark **Publication Date** Jan. 19, 2016

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of an outline of the state of Oregon with the stylized word "Portland" on top of the stylized word "Oregon" within the state outline, the words "OLD TOWN" in stylized letters forming part of the bottom of the outline of the state, and a stylized leaping stag forming part of the top of the outline of the state and oriented from the viewer's left to right. The outline of the state of Oregon, the leaping stag, and the words "Portland", "Oregon", and "OLD TOWN" are themselves all formed from words written in block letters. Furthermore, the outline of the state of Oregon, the leaping stag, and the words "Portland", "Oregon", and "OLD TOWN" are all formed so that they appear to be three-dimensional, with the depth dimension shown in a different shade than the length and width dimensions. **Color Claimed** Color is not claimed as a feature of the mark. **Disclaimer** THE MAP OF THE STATE OF OREGON AND "PORTLAND OREGON OLD TOWN"

GOODS AND SERVICES INFORMATION

For Air cleaning units; Air cleaning units containing an air filter, ultraviolet lights and a photocatalytic filter; Air conditioners; Air conditioning apparatus; Air conditioning apparatus and installations; Air conditioning installations; Air conditioning units; Air cooling apparatus; Air exchangers for cleaning and purifying air; Air filtering installations; Air filters for air conditioning units; Air filters for domestic use; Air filters for industrial installations; Air humidifying apparatus; Air purification units; Air purifiers; Air purifying apparatus; Air purifying apparatus and machines; Air sterilizers; Air-conditioning apparatus; Air-conditioning apparatus and installations; Air-conditioning installations; Air-conditioning, air cooling and ventilation apparatus and instruments; Apparatus for the exchange of substances and heat for use in the production of steam, for use in cooking and for use in refrigeration; Arc lamps; Combination ozone sanitizer and electric deodorizing units; Commercial refrigerators and freezers and parts and fittings therefor; Components for air conditioning and cooling systems, namely, evaporative air coolers; Drying apparatus for use in heating, ventilation systems, air conditioning systems and refrigeration systems; Electric air sanitizing unit; Electric floor heating systems, namely, cables, electric mats and sensors for floor heating systems sold as a unit; Electric heating fans; Electric lamps; Electric lighting fixtures; Electric radiators for heating buildings; Electric ranges; Electric refrigerators; Electric rice cooker; Electric rice steamer; Electric vaporizers for household purposes; Electronic generator for use in controlling the amount of humidity in the air by creating, removing or circulating small water particles or water vapor in the air; Flexible pipes being parts of basin plumbing installations; Flexible pipes being parts of bath plumbing installations; Flexible pipes being parts of shower plumbing installations; Flexible pipes being parts of sink plumbing installations; Gas burners; Gas cookers; Gas cooking ovens; Gas grills; Gas lamps; Gas purification machines; Gas ranges; Gas stoves; Gas water heater for bathtub consisting of circulation pump with thermostat to fill, re-heat water and keep water warm; Gas water heaters; Heat generators; Heat recovery ventilators; Heat sinks for use in heating, cooling and ventilating apparatus; Heating and

cooling panels used for indoor heating and cooling purposes; Heating installations; Heating systems for residential and commercial buildings comprised of boilers, valves, pipes, manifolds, control panel switches, and electrical wire, all sold as a unit; Heating systems for residential and commercial buildings comprised of boilers, valves, pipes, manifolds, solar panels, control panel, switches and electrical wire, all sold as a unit; Heating units for industrial purposes; Household air cleaners; Industrial air filter machines; Industrial air purifiers; Industrial cooking ovens; Industrial dryers for heating and dehumidifying; Lamps; LED (light emitting diode) lighting fixtures; LED (light emitting diodes) lighting fixtures for use in display, commercial, industrial, residential, and architectural accent lighting applications; LED and HID light fixtures; LED flood lights and LED work lights for construction settings; LED landscape lights; LED light assemblies for street lights, signs, commercial lighting, automobiles, buildings, and other architectural uses; LED light bulbs; LED light machines; LED light strips for decorative purposes; LED lighting fixtures for indoor and outdoor lighting applications; LED lighting systems, namely, LED modules, power supplies, and wiring; LED lights for lighting purposes incorporated into key chains, small toys or other similar personal items; LED lights for strings, flowers, branches and other ornamental decorations; LED strobe lights to be placed on public safety vehicles; LED underwater lights; Lighting apparatus, namely, lighting installations; Lighting fixtures; Lighting fixtures for use in parking decks and garages; Lighting fixtures for use in parking lots and walkways; Lighting fixtures with motion detection; Lights for use in illuminating signs and displays; Luminaires, using light emitting diodes (LEDs) as a light source, for street or roadway lighting; Machine that generates purified water from the atmosphere and simultaneously purifies the air; Oil lamps; Oil lanterns; Pipes for heating boilers; Plumbing fittings, namely, tub control valves; Refrigerating appliances and installations; Refrigerating machines and installations; Refrigeration equipment, namely, food and beverage chilling units; Refrigeration equipment, namely, rapid food chilling units; Refrigerator condensers; Refrigerators; Sanitary installations in the nature of steam rooms; Steam heating apparatus; Water purification and filtration apparatus; Water purification installations; Water purification machines

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus **First Use** Nov. 01, 2014 **In Commerce** Nov. 01, 2014

For Apparatus for converting electronic radiation to electrical energy, namely, photovoltaic cladding panels; Apparatus for converting electronic radiation to electrical energy, namely, photovoltaic roofing members; Apparatus for converting electronic radiation to electrical energy, namely, photovoltaic solar hybrid modules; Apparatus for converting electronic radiation to electrical energy, namely, photovoltaic solar modules; Apparatus for converting electronic radiation to electrical energy, namely, photovoltaic thermal hybrid module; Apparatus for converting electronic radiation to electrical energy, namely, photovoltaic thermal module; Apparatus for converting electronic radiation to electrical energy, namely, PVT (photovoltaic thermal) module; Audio electronic components, namely, surround sound systems; Automated self contained electronic surveillance devices that can be deployed to gather evidence or intelligence in remote locations; Blank electronic chip cards; Blank electronic storage media; Carbon nano tubes, namely, tubular carbon molecules used in extremely small scale electronic and mechanical applications; Carrying cases, holders, protective cases and stands featuring power supply connectors, adaptors, speakers and battery charging devices, specially adapted for use with handheld digital electronic devices; Cases for electronic diaries; Cases for music, audio and related electronic equipment, namely, cases for audio tuners, audio receivers, amplifiers, tape players, compact disc players, MP3 controllers/players, audio mixers, audio speakers in the nature of music studio monitors, microphones, audio speakers, compact discs, audio tapes, portable

computers, antennas, phonographic record players, audio recording equipment, and the cables associated with all of the foregoing equipment; Oil well Christmas trees in the nature of an assembly of valves, spools, and fittings that control the flow of oil or gas out of a well; Clear protective covers specially adapted for personal electronic devices; Computer based apparatus for designing the layout of electronic circuits; Computer e-commerce software to allow users to perform electronic business transactions via a global computer network; Computer programs and computer software for electronically trading securities; Computer programs used for electronic cash register systems; Computer software and hardware for disseminating advertising for others on employee earnings and third party paper payroll stubs and checks and on electronic payroll payments; Computer software for the management of commercial printing companies in the field of cost estimating, production planning, scheduling production, binding, shipping and analysis of the printing job; Computer software, namely, electronic financial platform that accommodates multiple types of payment and debt transactions in an integrated mobile phone, PDA, and web based environment; Computer storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; Computer-controlled electronic apparatus for electrophysiological measurement and testing of cells; Connectors for electronic circuits; Consumer electronic products, namely, audio amplifiers, audio speakers, audio receivers, electrical audio and speaker cables and connectors, audio decoders, video decoders, speakers, power conversion devices, power converters, and power inverters; Contrast enhancement filters for electronic display readout windows; Customer self service electronic checkout station for point of sale; Design libraries, namely, downloadable electronic data files for use in integrated circuit and semiconductor design; Display screen protector to provide shade and privacy for electronic devices having screens; Downloadable audio files, multimedia files, text files, e-mails, written documents, audio material, video material and games featuring information in the form of downloadable short educational/training communications in the field of human resource development for the promotion of employee retention, career growth and increased productivity for employees and employers; Downloadable electronic data files and databases, namely, business and tax forms, for use with computer software; Downloadable electronic dictionaries; Downloadable electronic game programs; Drum units for printers, facsimile machines, scanners, copying machines and multifunction electronic devices for use in copying, printing, scanning, video capture and/or transmitting documents and images; Elastomeric appliques for placement onto electronic devices to prevent slipping; Electric and electronic circuits; Electric and electronic video surveillance installations; Electric, electronic, or electrochemical oxygen monitors and sensors for environmental use; Electrical and electronic burglar alarms; Electrical and electronic connectors; Electrical apparatus for testing the state of operability of electronic sirens and public address systems; Electrical voice intracommunications systems comprising control stations, interface modules, frames, controller cards, connectors, power supplies, panels and mountings for use in the production of live musical performances, theatre, and other live events; Electron microscopes; Electron multipliers; Electron tubes; Electronic advertisement and messaging display unit with multi-networking (TCP/IP) capabilities and remote connectivity; Electronic advertisement boards featuring a neon lamp; Electronic agendas; Electronic alarm for providing notice of bed-wetting; Electronic alert system for scuba divers comprised primarily of computer software, electric transducer, vibrating motor, antenna and lights for the purpose of requesting the dive partner's attention through vibration, sound and illumination; Electronic and electrical apparatus, namely, receipt issuing, reading and recording machines; Electronic and electrical apparatus, namely, ticket issuing, reading and recording machines; Electronic and electrical apparatus, namely, voucher issuing, reading and recording machines; Electronic and magnetic ID cards for use in connection with payment for services; Electronic and

optical communications instruments and components, namely, cable television transmitters; Electronic and optical communications instruments and components, namely, communication link testers for testing communication links; Electronic and optical communications instruments and components, namely, digital transmitters; Electronic and optical communications instruments and components, namely, optical data links; Electronic and optical communications instruments and components, namely, optical receivers; Electronic and optical communications instruments and components, namely, optical transceivers; Electronic and optical communications instruments and components, namely, optical transmitters; Electronic animal confinement system; Electronic animal confinement systems; Electronic animal confinement unit comprising transmitters, electrical transformers, wires, and receiver collars; Electronic animal identification apparatus; Electronic anti-theft system comprised of a bar code scanner that allows manufacturers to temporarily disable electronic goods during the manufacturing process and allows retailers to enable such goods upon receiving the purchase price for the goods; Electronic apparatus and devices for controlling access to pay-television services; Electronic apparatus and instruments for controlling, adjusting and testing of drives and motors; Electronic apparatus for electropysiological measurement and testing of cells; Electronic apparatus for testing automobile engine oil; Electronic apparatus for testing compression, strength, hardness and tensile characteristics of industrial materials; Electronic apparatus for testing the curing and drying of elastomeric materials; Electronic apparatus for testing the sterility of medical equipment; Electronic apparatus for testing the sterility of pharmaceuticals and injectable solutions; Electronic apparatus for the remote control of industrial operations; Electronic apparatus for use in the treatment of aqueous systems, namely, for analysis of the system conditions for the purpose of applying the appropriate chemical treatment; Electronic apparatus, namely, electronic display boards, plasma display boards, electronic display screens; Electronic apparatus, namely, motion detectors; Electronic apparatus, namely, plasma display panels; Electronic apparatus, namely, stand alone displays for medical images; Electronic automated beverage dispensing machines, not heated or cooled; Electronic automatic coin dispensers; Electronic book reader; Electronic book reader covers; Electronic cables; Electronic calculators; Electronic card readers; Electronic cards for processing images; Electronic chips for the manufacturer of integrated circuits; Electronic circuit board; Electronic circuit cards; Electronic circuits; Electronic circuits for error correction; Electronic circuits recording programs for amusement apparatus for use with liquid crystal screens; Electronic coding units; Electronic combiners for connecting antennas and receivers; Electronic communications systems comprised of computer hardware and software for the transmission of data between two points; Electronic components for computers; Electronic components for juke boxes; Electronic components in the nature of infrared detectors for use in further manufacture; Electronic components, namely, piezoelectric switches; Electronic computerized credit card imprinters; Electronic computers; Electronic control circuits for use in demagnetizing magnetic chucks; Electronic control systems for machines; Electronic controller for operating electronically alterable window tinting; Electronic controller to manage the power, movement and functions of an elevator; Electronic controllers for use with power converters; Electronic controllers used to reduce power consumption; Electronic controls for gasoline engines for land vehicles; Electronic controls for motors; Electronic currency converters; Electronic data loggers; Electronic data processing apparatus; Electronic data recorders; Electronic data relays for sensors; Electronic day planners; Electronic desk calculators; Electronic detectors for observing and measuring the infrared spectrum, namely, infrared detectors; Electronic device for eliminating corrosion from a boat lift in sea water; Electronic device for monitoring and optimizing photovoltaic arrays; Electronic device to charge and

secure tablet PCs; Electronic devices for animal locating and tracking programmed to use global positioning systems (GPS) and cellular communications; Electronic devices for assisting care giving for seniors or people needing assistance comprised of sensors for determining status of person and apparatus for sending electronic alerts to care givers; Electronic devices for reading, encoding and programming transponder keys; Electronic devices used to locate lost articles employing the global positioning system or cellular communication networks; Electronic devices used to located lost objects employing radio frequency; Electronic devices, namely, energy meters for tracking and monitoring energy usage; Electronic devices, namely, energy submeters for tracking and monitoring energy usage; Electronic devices, namely, handhelds for exchanging data in energy meters or submeters; Electronic devices, namely, radio frequency repeaters used in long range communication for tracking and monitoring energy usage; Electronic diaries; Electronic disc title printers; Electronic display interfaces; Electronic displays, namely, digital signage; Electronic docking stations; Electronic door alarms; Electronic educational apparatus, namely, communication blocks that manipulate and convey information electronically based on their arrangement and are used for cognitive development in disciplines such as counting, spelling or quantitative reasoning; Electronic effect pedals for use with sound amplifiers; Electronic encryption units; Electronic equipment for inspection and detection of foreign material within containers; Electronic equipment for mine detection; Electronic equipment for point-of-sales (POS) systems, namely, point-of-sale terminals, bar code readers, optical readers, advertisement display monitors, keyboards, printers, scanners, radio transmitters, radio receivers, computer hardware, and computer operating software; Electronic equipment, namely, electrolysis cell for use in the manufacture of various ionic solutions; Electronic equipment, namely, transformers, baluns, cables used in connection with computers, computer peripheral devices, televisions, audio-video equipment, closed-circuit TV equipment and telecommunication equipment; Electronic exit alarms; Electronic frequency converters for high velocity electro motors; Electronic game programs; Electronic game software; Electronic game software for cellular telephones; Electronic game software for handheld electronic devices; Electronic game software for wireless devices; Electronic glass and ceramic fuses for use with any electronic equipment using A/C power; Electronic glass break detectors; Electronic heliographic apparatus for recording the duration and intensity of sunshine; Electronic imaging apparatus in the field of iridology, sclerology, rayid and eyology not for medical use; Electronic imaging platforms in the field of inspection of semiconductor materials, namely, semiconductor wafers and reticles; Electronic indicator boards; Electronic indicator panels; Electronic instruments for use in remote inspection and measurement of industrial components using remote visual devices; Electronic instruments, namely, logic analyzers; Electronic integrated circuits; Electronic interconnecters for audio and video signals; Electronic interface equipment for machine tools to input or output CNC (computer numerical control) data; Electronic key cards; Electronic LCD advertisement display unit with multi-networking (TCP/IP) capabilities; Electronic LCD display unit with multi-networking (TCP/IP) capabilities; Electronic LED signs; Electronic location and immobilization devices installed after purchase for use with vehicles; Electronic lock assemblies; Electronic locks; Electronic machines for reading credit cards and recording financial operations; Electronic machines used to apply holographic overlay and to set up and control holograms and verification thereof; Electronic magnetostrictive equipment, namely, a wave generator, wave sensor and wave analyzer; Electronic measuring device that displays a manual wheelchair user's propulsion activity, namely, number of pushes, distance traveled, speed, and cadence; Electronic memories; Electronic memory card readers; Electronic metering faucets; Electronic monitors and monitor modules for monitoring electric current and electrical signals; Electronic monitors for monitoring flowmeters; Electronic motion sensitive switches; Electronic motor switches for switching off

motors; Electronic motor vehicle ignition tuning kits comprised of an electronic control unit that monitors engine performances and delivers re-calculated sensor values to the original engine control unit to increase engine performance; Electronic navigational and positioning apparatus and instruments; Electronic notice boards; Electronic parking lot ticket dispensers; Electronic payment terminal; Electronic pens; Electronic personal emergency response system consisting of a device worn on the body with a button that users push to notify others in the event of an emergency, and a remote unit that dials out on the telephone for help; Electronic personal organisers; Electronic personal organizer; Electronic plant moisture sensor; Electronic plotters; Electronic pocket translators; Electronic position indicator for onboard boat pontoon lifts; Electronic power supplies for driving electric motors; Electronic products for the generation, measurement, and analysis of audio signals, namely, audio analyzers; Electronic products for the manipulation of the frequency, time, and amplitude characteristics of audio signals, namely, audio processors; Electronic proximity sensors and switches; Electronic readers and controllers for controlling access to a premises; Electronic readers/recorders for medical patient identification bands; Electronic recorders for storing and archiving information related to power system faults; Electronic regulating and control devices for the operation of light emitting diodes; Electronic resolvers; Electronic safes; Electronic scalers for audio and video signals; Electronic scoreboards; Electronic security and surveillance devices, namely, electronic security tags and labels, acoustic tags, magnetic tags; Electronic security token in the nature of a fob-like device used by an authorized user of a computer system facilitate authentication; Electronic semi-conductors; Electronic sensing apparatus, namely, floor mats that sense the presence of a body thereon; Electronic servo motor controllers; Electronic signaling mechanism, namely, a train control system used in the railway industry for detecting and controlling trains, ground faults, broken rails, power failures, track switches and lights; Electronic signs; Electronic slag detectors for use in the metal smelting and steelmaking process; Electronic sound devices containing pre-recorded sounds for placement in toy vehicles; Electronic sound mixing, processing and synthesizing apparatus; Electronic sound pickup for guitars and basses; Electronic spectrophotometer for use in identifying and measuring colors; Electronic speed controllers; Electronic storage device in the nature of memory media for storing information collected from medical ventilators; Electronic stud finders; Electronic switchers for audio and video signals; Electronic systems for recording and automated playback of acoustic pianos; Electronic tags for goods; Electronic terminal for an electronic lottery system which generates lottery tickets; Electronic test and measurement devices for use in the fields of networks and telecommunications, namely, instrumentation used to test and certify new and existing data and voice communication cable and coaxial cable; Electronic test instrument and associated software for use in leak, flow and functional testing; Electronic testing equipment, namely, sound level meters; Electronic testing equipment, namely, telecommunication line integrity testing apparatus; Electronic text-messaging device for use in conjunction with personal digital assistants; Electronic timer for use while brushing teeth; Electronic timers; Electronic touch sensitive pads for use with infant movement alarms; Electronic touch sensitive switches; Electronic transit information signs; Electronic transmitters and receivers used to locate lost children; Electronic transmitters for jamming signals; Electronic ultrasonic test equipment, namely, ultrasonic flaw detectors, thickness testers and hardness testers, for non-medical use; Electronic ultrasound flaw detectors; Electronic valves for controlling gas or fluids; Electronic video surveillance products, namely, electronic components of security systems; Electronic warning bells; Electronic warning horn; Electronic writing tablets; Electronic-based instruments for measuring environmental parameters including humidity, mold, bacteria, air quality and water quality; Electronical sensors for measuring solar radiation; Electronically encoded

badges and swipe cards for use with time clocks; Electronically encoded volunteer identity cards; Electronically operated high security lock cylinders; Electronically-operated door latches; Entry/exit security portal comprised of an electronic passageway equipped with biometric devices for identification verification and detection of impermissible items being carried through; Factory automation software, namely, software to integrate manufacturing machine operations, track problems and generate production reports; Fall protection products, namely, beam grips; Fitted plastic films known as skins for covering and providing a scratch proof barrier or protection for electronic devices, namely, MP3 players, mobile telephones, smart telephones, digital cameras, global positioning systems and personal digital assistants; Force measurement products, namely, digital force gauges, digital torque gauges and manual and motorized test stands used therewith sold as a unit with the gauges; Fuse clips and panel-mounted fuse holders for use with electronic glass and ceramic fuses; Galena crystal detectors for use in electronics; Gamma radiation detector for electronic detection of hidden contraband; Hand-held electronic dictionaries; Hand-held electronic units used to identify bird species and bird songs; Handheld electronic units for adjusting sound levels in hearing aids; Head-up displays for use in general aviation aircraft, namely, transparent electronic displays for providing aircraft crew members with navigational and operational information; Head-up displays for use in military and commercial aircraft, namely, fixed and helmet mounted transparent electronic displays for providing aircraft crew members with navigational and operational information; Heat sinks for use in electronic components; Home theater products, namely, LCD; Input devices for computer hardware and electronic instruments, namely, jog wheels; Integrated battery backup systems comprising a battery, an electronic measurement apparatus for use in the measurement of battery health and performance, and a remote computer software program that uses the foregoing data to trend, predict, and store data related to the health of the battery; Integrated boiler control systems consisting of electronic flame safeguard and modulating controls; Interactive, motion sensitive electronic announcer for recording and playback of an audio message or instruction; Keyless entry system and keyless ignition switch system for automotive vehicles comprised of a microprocessor, electronic signal receiver, and keyfob with electronic signal transponder; Labels carrying magnetically, optically, or electronically recorded or encoded information; Lead-free solders in the electronics industry; Leather protective covers specially adapted for personal electronic devices; Luminous variable/dynamic signs using light emitting diodes and electronic controllers to produce real-time and programmable messages and information displays; Mechanical and electronic measuring machines for identifying and analyzing structural damage to vehicles; Messenger bags especially adapted for holding electronic book readers; Multi-function electronic device for use in children's rooms comprising a sound producing function, temperature gauge and also including a clock and nightlight; Multi-functional electronic payment terminals; Multifunction electronic devices for use in copying, printing, scanning, video capturing and/or transmitting documents and images; Nano tubes, namely, tubular carbon molecules used in extremely small scale electronic and mechanical applications; Occupancy sensors, namely, electronic devices which detect the presence of occupants and control the lighting system accordingly; Optical communications systems comprised of optical and electronic hardware and computer software for the transmission of data between two points; Panel meters, namely, an electronic instrument that displays an input signal in either a digital or analog form; Parts for anti-theft automotive alarms, namely, electronic sensors, remote control transmitters and receivers for remotely operating land vehicles; Photovoltaic installation apparatus, namely, solar modules for production of electricity, solar thermal and electric receivers, tracking mechanisms and concentrating optics, and control algorithms; Photovoltaic solar modules for production of electricity; Plastic case used as a security device for protecting and securing DVDs and other magnetic and

electronic media from theft; Plastic cases specially adapted holding compact discs, DVDs and other electronic media; Plastic rotating attachment affixed to a telephone or other electronic cord to prevent tangling; Pneumatic and hydraulic directional control valves for use in automated production machinery; Pocket translators, electronic; Pocket-sized electronic calculators; Port security and shipping container scanning system comprising electronic x-ray scanners, video cameras and recorders, and GPS transceivers; Portable and handheld digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text, data, image, and audio files; Portable electronic devices for monitoring and analyzing ball movement in sports; Portable electronic recorder for measuring and recording multiple voltage, current and thermocouple readings from various transducers; Power supply connectors and adaptors for use with portable electronic devices; Printed electronic circuits for apparatus and cards bearing integrated circuits; Printing fonts that can be downloaded provided by means of electronic transmission; Programmable locking systems, consisting of electronic cylindrical locksets and keypads; Protective covers for electronic reading devices; Radiation shields for electronic products; Receivers of electronic signals; Safety products, namely, embroidered reflective patches to be worn on clothing; Safety products, namely, reflective helmet skirts; Safety products, namely, reflective safety bands to be worn on the body; Scientific apparatus for determining the water content in petroleum products; Scientific instruments, namely, electronic analyzers for measuring, testing and detecting contaminants and environmental pollutants; Scientific instruments, namely, electronic analyzers for testing consumer products for the presence of contaminants; Secure terminals for electronic transactions; Security products, namely, entry door systems comprising touch pads and security doors; Signal splitters for electronic apparatus; Software for configuring, quoting and ordering electrical distribution products; Software for ensuring the security of electronic mail; Software for the operational management of portable magnetic and electronic cards; Solar panels for production of electricity; Stands for handheld digital electronic devices; Stands for personal digital electronic devices; Telecommunications equipment, namely, fiber-optic transceivers, fiber optic repeaters, converters and optimizers, wave division multiplexers, free-space optics transmission systems, switches including Ethernet switches and routers, fiber-to-the-home and ethernet-over-VDSL access aggregators, terminators and repeaters, and remote presence management products, namely, switches, and console, alarm, sensor and power management devices; Transmitters of electronic signals; Transparent electronic displays fixed at head-level or head-down positions for use in military and commercial aircraft for providing aircraft crew members with navigational and operational information; Turbine control systems comprising electronic sensors and related software; User interfaces, namely, keyboards, electric control panel, touchscreen, for electrotechnical and electronic devices, excluding gaming apparatus; Vehicle safety equipment, namely, electronic deer alerts; Vehicle safety equipment, namely, electronic tire pressure monitors; Vehicle safety equipment, namely, electronic vibration, shock, motion, angle, temperature and voltage monitors; Video cassette recorders and players, compact disc players, digital audio tape recorders and players, electronic diaries; Video injection system, namely, optical and electronic hardware and computer software, simulating the effects of tracer round fly-outs and bursts on target, which allows for on-vehicle precision gunnery without expending actual ammunition; Wireless controller to monitor and control the functioning of other electronic devices; Wireless digital electronic apparatus to secure and protect data and images on all forms of wireless equipment including mobile telecommunications equipment using an automatic synchronization process and alarm notification of the loss or theft of the wireless equipment including mobile telecommunications equipment; Wireless electronic visitor chimes; Wireless electronic visitor signal chimes

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus **First Use** Nov. 01, 2014 **In Commerce** Nov. 01, 2014

GOODS AND SERVICES INFORMATION

For Pharmaceutical preparations and substances for the prevention and treatment of disorders and diseases, namely, cancer and Mendelian disorders; test kits consisting of medical diagnostic reagents and assays for testing in the field of the prevention and treatment of disorders and diseases; none of the aforementioned involve the use or study of semaphorins

International Classes 5 - Primary Classes **US Classes** 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Kits containing chemical and biochemical assays and reagents for scientific research use; nucleic acid and protein isolation kits comprised primarily of assays and reagents for use in epigenetic research and analysis; none of the aforementioned involve the use or study of semaphorins

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Business consulting and business information services regarding precision health diagnosis and personalized treatment; business consulting and business information services regarding the analysis and packaging of health data; providing business information, namely, commercial corporate and statistical information provided on-line from a computer database or the Internet; statistical analysis and reporting services for business purposes; business consulting and business information services regarding the identification of drug targets; business consulting and business information services regarding bioinformatic analysis; population health management

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Downloadable computer application software to facilitate accessing, viewing, interacting with and downloading diagnoses, personalized treatment plans, and health monitoring information; downloadable computer application software for mobile electronic devices, namely, software for patient access to health care services and information; downloadable computer application software for mobile electronic devices, namely, software for patient access to diagnoses, personalized treatment plans, and health monitoring information; downloadable computer application software for mobile electronic devices, namely, software for ancestry testing and analysis; downloadable bioinformatic computer application software; bioinformatic computer hardware; multifunctional electronic devices for integrated biochemical and bioinformatic analysis not for medical purposes

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Diagnostic services in the field of medicine; medical testing for diagnosis of diseases and treatment purposes; bioinformatics analysis for medical diagnostic and personalized treatment purposes; biochemical testing for ancestry analysis and personalized diagnostics and treatments; nucleic acid analysis and screening for medical diagnostic and treatment purposes; DNA analysis and screening for medical diagnostic and treatment purposes; consulting services in the field of biological sequence and bioinformatic processing for medical diagnosis and treatment purposes; health care services, namely, leveraging health monitoring and data science to provide optimal health and disease prevention to patients; creating personalized preventative health-care programs and disease management programs; providing an online resource center featuring personalized health information based on health information and diagnostics; medical testing, namely, identifying drug targets for diagnostic or treatment purposes; none of the aforementioned involve the use or study of semaphorins

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For Medical and scientific research in the field of biologic testing and interpretation, diagnosis, treatment, and health maintenance; bioinformatics interpretation of health data; medical and scientific research in the field of ancestry analysis for scientific research purposes; compiling data for research purposes in the field of medical science and medical consultancy for use in connection with diagnostic testing; analysis and screening of nucleic acids for scientific research purposes; genome mapping for scientific purposes; providing information in the field of disease classification for use in connection with diagnostic testing; development of scientific research and technology for purposes of disease diagnosis, preventative health care, health monitoring, and personalized treatment; providing a website featuring non-downloadable software for patient access to health care services and health information; providing a website featuring non-downloadable software for patient access to diagnosis, treatment, and health maintenance information; providing a website featuring non-downloadable software for accessing, viewing, interacting with and downloading personal health records, diagnoses, treatment plans, and health monitoring information; scientific and medical research, namely, identifying drug targets; scientific research relating to population health management; none of the aforementioned involve the use or study of semaphorins

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

CASE IDENTIFIERS

Serial Number 86661909 **Application Filing Date** Jun. 14, 2015 **Register** Principal **Mark Type** Service Mark **Publication Date** Jan. 19, 2016

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a diamond with a black background outlined with a thick gold border with circles that are yellow in the middle, surrounded by gold and outlined in white around the outside edge of the gold border. Within the diamond, the wording "24/7" in white appears on the first line, the wording "LAS VEGAS" in blue is on the second line, "LAWYERS" in red is on the third line, the wording "CAR ACCIDENTS, WORKERS COMP" in blue is on the fourth line, and the wording "DUI & FAMILY LAW" in blue is on the fifth line. An image of a white die with its edges and pips in black appears in and obscures both the right and left rounded points of the gold border. At the bottom point of the diamond border are four white playing cards with the outer edges of the cards outlined in gray. All four cards are aces being spread out from the shared lower left corner with only the top card being shown in its entirety. Starting on the left is the Ace of Clubs with the letter "A" and a club design being in black, next is the Ace of Hearts with the letter "A" and the single heart design below it being red in color, next is the Ace of Spades with the letter "A" and spade design underneath of it being black in color, and next is the Ace of Diamonds which has a large diamond shape in the center and a letter "A" and small diamond shape under the "A" in both the upper left and lower right corners, all of which are red in color. A stylized poker chip design with a gold circular border with black notches and dark gray circular outer border has a stylized white scales of justice design in the center of the black middle of the poker chip design, which appears above and to the left of the upper left border of the diamond. The bottom right edge of the poker chip is obscured by the border of the diamond. The entirety of the design and literal elements of the mark are set into a black rectangular background. **Color Drawing** Yes **Color Claimed** The colors black, red, blue, gold, yellow, gray, dark gray and white are claimed as a feature of the mark. **Disclaimer** "24/7 LAS VEGAS LAWYERS CAR ACCIDENTS, WORKERS COMP DUI & FAMILY LAW" AND THE REPRESENTATION OF THE SCALES OF JUSTICE
