RELATED PROPERTIES INFORMATION

International Registration 1471024 **International Registration Date** Jan. 24, 2019

GOODS AND SERVICES INFORMATION

For Stickers, adhesive labels and packaging sheaths, namely plastic and synthetic plastics packaging sheaths, all for use in receiving of or already provided with decoration elements, foil layers, printed layers, decor layers, patterns, decors, structures and surface structures; plastic stamping foils, transfer foils and laminating foils for packaging; plastic stamping foils, transfer foils and laminating foils for wrapping or packaging for application onto textile materials, for application onto work pieces and substrates or for surface decoration or surface coating, particularly for surface decoration and surface coating of wrappings or sheaths, packaging, packaging parts, packaging containers, coverings or panels, containers, closure or locking elements, housing parts, injection moulded parts, vehicle parts and other work pieces and substrates; packaging materials of paper, synthetic plastic materials or plastics, namely, bags, pouches, envelopes, covers, sheets and foils for packaging purposes; laminate foils and films of synthetic plastic for packaging purposes; all afore-mentioned goods particularly for the receiving of or already provided with decor elements, foil layers, printed layers, decor layers, patterns, decors, structures and surface structures; stamping foils of plastic and primarily of plastic, namely, hot stamping foils and cold stamping foils, transfer foils and laminating foils, all for packaging purposes and for decoration, finishing and coating; paper and plastic sheets, films and bags for wrapping and packaging for goods; laminates of paper and plastic; semi-finished parts and semi-finished products of paper and cardboard materials, namely, semi-finished injection-moulded paper and cardboard products, namely, cardboard sheets, plates, sheetings for use in a variety of industries; semi-finished paper and cardboard products, for use in further manufacture namely, sheets, foils, plates, chips, tags, bars and profile elements; semi-finished paper and cardboard cover parts, semi-finished paper and cardboard profiles, namely, sheets, plates, sheetings, bars, strips, for manufacturing ornamental elements and trims and decorative strips; semi-finished paper profiles, namely, sheets, plates, sheetings, bars, strips, for manufacturing coverings, panels, covers, lids, coverings, packaging, packaging parts, packaging containers, wrappings, sheaths, containers, closure elements, locking elements and housing parts of paper; all the foregoing semi-finished plastic and

paper products particularly suited for receiving decor elements, foil layers, printed layers, decor layers, patterns, decors, structures and surface structures; paper and plastic labels, bands, sheets, and foils for use in the field of identification, authentication and money replacement; housings made of plastic or primarily of plastic, namely, plastic boxes, plastic holders as well as plastic covers and plastic housings for staplers, binders, perforators, hole punches, laminators, cutters, postage meters, franking machines, paper embossers, for sealing machines, for writing implements and utensils, for drafting instruments, and parts of such housings for use in connection with stationery and office requisites, as well as for drafting supplies and artists' materials

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Machines as well as their parts for the application of printed layers, structures, stamping foils, transfer foils or laminating foils onto work pieces and substrates; machine parts, namely, stamping tools, namely, stamping dies, stamping plates, embossing rollers and stamping cushions; machines parts, namely, casting moulds, injection moulds and stamping moulds and embossing moulds, deep-drawing moulds, structure rollers as well as matrices and male moulds; pressing dies being machine parts; compression tools being machine parts; machines for foil processing; machines for plastics processing and plastics treatment; machines for extruding and injecting, back-injection moulding, casting, injection moulding, drawing, deep-drawing, coating, printing, laminating, pressing, stamping, rolling, extruding, gluing, punching, trimming, cutting-to-size, cutting out, forming, moulding and thermo-forming plastics and composite materials which comprise plastics; machines for mould and die production; machines for the packaging industry; tools for machines for extruding and injecting, back-injection moulding, casting, injection moulding, drawing, deep-drawing, coating, printing, laminating, pressing, stamping, forming and moulding, glueing, punching, trimming, cutting-to-size, cutting out and thermo-forming for use with plastics and composite materials which comprise plastics; pattern transferring machines for the transfer of patterns, decors and structures onto the surfaces of semi-finished products, work pieces and substrates; machines for forming patterns, decors and structures on the surfaces of semi-finished products, work pieces and substrates; forming and moulding machines for performing injection moulding and thermo-forming processes and for transferring patterns, decors, structures and surface structures onto the formed articles and for forming patterns, decors, structures and surface structures of the formed articles; forming and moulding machines for performing injection moulding processes and thermo-forming processes and for providing the formed articles or the articles to be formed with foils having patterns, decors, structures and surface structures; foil overlaying machines for coating the surfaces of articles or substrates with foils having patterns, decors, structures and surface structures, particularly articles or substrates of plastic; rolling-up mechanism machines and rolling-off mechanism machines; rolling-up mechanism machines and rolling-off mechanism machines for use with other machines; foil feeding machines and foil preparation machines; foil feeding machines and foil preparation machines for use with other machines; article feeding machines or substrate feeding machines; article preparation machines or substrate preparation machines for use with other machines; all aforementioned goods also for use with parts of other machines or for integration as assembly units into other machines; controls, drives, actuators, regulators, each being machines and machine tools; machine parts, namely, forms and moulds for plastic forming and moulding machines; machines parts for plastic forming and moulding machines and injection moulding machines, particularly forms and moulds, mould parts, mould inserts, mounts and supports, dies and stamps, nozzles, injector and extruder heads, pistons and plungers, worms, heating devices and cooling devices; apparatus for the production of pneumatic negative pressure, namely, vacuums, and pneumatic overpressure machines, machines for the hardening and curing of

materials, particularly by means of UV-radiation and electron beams; injection moulds and casting moulds and their inserts, each being machine parts; forming and moulding and injection moulding machine parts, namely, injection units and clamping units; machine parts, namely, tools and tool inserts for forming patterns, decors and structures on the surfaces of semi-finished products, work pieces and substrates and for punching, trimming, cutting-to-size, cutting out of semi-finished products and work pieces; machines parts, namely, holders and clamping devices for die inserts, mould inserts and dies; parts for all the afore-mentioned goods; machine parts, namely, housings, housing parts and parts, for motors, as well as for non-hand-operated agricultural apparatus, made of plastic or primarily made of plastic, metal, glass and ceramics and composite materials which comprise plastics

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Plastic containers for packaging featuring lids, closures, closure and locking elements; packaging containers, not of metal, primarily made of plastic, for use in transport and sales of goods; transport packaging and sales packaging, non-metal, namely, containers, bins, bottles, tubes and boxes, of plastic, wood, ceramics, glass and of combinations of these materials; plastic containers featuring closure and locking elements and holders and mounts therefor, not of metal for transport; cans, boxes and cases of plastic; all afore-mentioned goods particularly for receiving of or already provided with decor elements, foil layers, printed layers, decor layers, patterns, decors, structures and surface structures; injection-moulded parts of plastic or primarily of plastic, namely, statues, figurines, works of art, ornaments and decorations of plastic; goods of plastic or primarily of plastic, namely, ornamental elements, trims and decorative strips, decorative parts, coverings and panels, covers, lids and coverings, for receiving of or already provided with decor elements, foil layers, printed layers, decor layers, patterns, decors, structures and surface structures

International Classes 20 - Primary Classes **US Classes** 2, 13, 22, 25, 32, 50 **International Class Title** Furniture and Articles Not Otherwise Classified

For Installation, customization, maintenance and repair of machines and of machine tools, installation, customization, maintenance and repair of moulds, and of mould and die production machines; installation, customization, set-up, maintenance and repair services concerning machines and their parts, particularly machines for printing, stamping, hot stamping, cold stamping, rolling, extruding, laminating, gluing, coating, foiling, heating, cooling, cleaning, hardening and curing, forming and moulding, glueing and bonding, punching, trimming, cutting-to-size, cutting-out, injecting and extruding, back- injection moulding, casting, injection moulding, drawing, deep-drawing, pressing, stamping and thermo-forming and decorating, particularly of plastics and goods of plastics and concerning parts of such machines; installation, customization, set-up, maintenance and repair services concerning machines for the production, the treatment and machining, the injecting and extruding, casting, forming and moulding and the decoration of plastic and plastic goods, concerning the plastic processing and plastic treatment, the paper processing, the foil processing, as well as for the coating, printing and painting and lacquering; installation, customization, set-up, maintenance and repair services concerning printing machines, packaging machines as well as pattern transferring machines, foil overlaying machines, roll-up mechanisms and roll-off mechanisms, foil feeding mechanisms and foil preparation mechanisms; installation services, customization services, set-up services, maintenance and repair services concerning article feeding mechanisms, substrate feeding mechanisms, article preparation mechanisms or substrate preparation mechanisms; installation services, customization services, set-up services, maintenance and repair services and consulting related thereto concerning machines, particularly plastics forming and moulding machines and

injection moulding machines, and their assembly units and parts, particularly concerning tools and tool inserts, forms and moulds, mould parts, mould inserts, dies and die heads and extruder heads, nozzles, injection moulds, deep-drawing moulds and casting moulds, holders and mounts, and their parts, heating apparatus and cooling apparatus, apparatus for hardening and curing materials, apparatus for the production of negative pressure and overpressure, apparatus for forming and moulding of patterns, decors and structures, apparatus for punching, trimming, cutting-to-size, cutting out, and concerning injection units and clamping units; maintenance of data processing apparatus

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Treatment of materials and processing of materials for third parties, particularly of plastics, plastic-composite-materials and parts and semi-finished products thereof, by means of chemical treatment, mechanical treatment, thermal treatment and thermo-mechanical treatment, particularly by means of drilling, milling and shaping, cutting, punching, printing, stamping and embossing, rolling, extruding, laminating, pressing, drawing, deep-drawing, forming and moulding, gluing and bonding, punching, trimming, cutting-to-size, cutting-out, blowing, casting, injecting, injection moulding, back-injection moulding, glueing, grinding, polishing, hardening and curing, cleaning, drying, heating, cooling, laser machining; customer-specific contract manufacturing of foils, plastics, plastic laminates, plastic-composite-materials and parts and semi-finished products thereof, particularly by means of drilling, milling and shaping, cutting, punching, printing, stamping and embossing, rolling, extruding, laminating, pressing, drawing, deep-drawing, forming and moulding, gluing and bonding, trimming, cutting-to-size, cutting-out, blowing, casting, injecting, injection moulding, back- injection moulding, gluing, grinding, polishing, hardening and curing, cleaning, drying, heating, cooling, laser machining; manufacturing of materials, work pieces, semi-finished products and goods, each with printings, coatings and foils, particularly with stamping foils, laminating foils or transfer foils; material processing, namely, imprinting materials, work pieces, semi-finished products and goods with decorative foil prints, markings and overlays, particularly with stamping foils or laminating foils; applying coatings to materials, semi-finished products and goods by means of chemical processes, mechanical processes, thermal processes and thermo-mechanical processes; surface treatment and surface coating of materials, work pieces, semi-finished products and of goods by means of chemical processes, mechanical processes, thermal processes and thermo-mechanical processes; processing and treatment of plastics and foil for third parties; custom construction of customer-specific machines; custom construction and manufacture of customer-specific machines, machine parts, forms and moulds, tools and apparatus for the plastics processing and plastics treatment; custom construction of customer-specific tools, forms and moulds, particularly for the manufacturing of plastic parts; consulting services related to all afore-mentioned services

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Stamping foils, transfer foils, thermal transfer foils and laminating foils; stamping foils, transfer foils, thermal transfer foils and laminating foils for application onto work pieces and substrates or for surface decoration and surface coating, particularly for surface decoration and surface coating of semi-finished products, wrappings and sheaths, coverings and panels, containers, closure and locking elements, housing parts, injection-moulded parts, vehicle parts, work pieces, packaging and packaging containers; foils of plastic or primarily of plastic for application onto work pieces, semi-finished products, formed and moulded parts, packaging, packaging containers, containers, closure and locking elements and onto substrates or for surface decoration and surface coating; laminates in form of foils of plastic or primarily of plastic, particularly for decoration

and manufacturing of wrappings and sheaths, coverings and panels, containers, closure and locking elements, housing parts, injection moulded parts, vehicle parts, work pieces, semi-finished products, formed and moulded parts, packaging, packaging containers and closure and locking elements; thin foils of plastics or primarily of plastics with a decor layer with decoration elements for decorating various work pieces and substrates, particularly by means of extruding and injecting, back-injection moulding, thermo-forming, deep-drawing, hot stamping, cold stamping or by means of foil transfer; plastic parts and other goods of plastics, namely, holders and covers, containers, panels, tilings, boards, sheets, emblems and housings of these materials for receiving of or already provided with decor elements, foil layers, printed layers, decor layers, patterns, decors, structures and surface structures; semi-worked plastics; semi-finished products of plastic and semi-finished products of plastic-composite materials, namely, sheetings, strips, laminates, plates and rolls, for receiving of or already provided with decor elements, foil layers, printed layers, decor layers, patterns, decors, structures and surface structures; semi-finished products, namely, formed and moulded parts of plastic and plastic composite materials, namely, semi-finished plastics for use in further manufacture manufactured by means of injection moulding, deep-drawing and thermo-forming, particularly for receiving of or already provided with decor elements, foil layers, printed layers, decor layers, patterns, decors, structures and surface structures; plastic foils for use in manufacturing, except for packaging purposes; semi-finished formed and moulded parts of plastic, namely, semi-finished plastics manufactured by forming and moulding, these particularly suited for receiving of decor elements, foil layers, printed layers, decor layers, patterns, decors, structures and surface structures or already containing such elements and layers; semi-processed artificial resins and their compounds; semi-finished plastic goods, namely, plastic moulds, injection moulds and deep-drawing moulds, all for use in industrial manufacturing; semi-finished goods of plastics or primarily of plastics for further manufacturing, namely, semi-finished plastic bands, sheetings, foils, sheets, sheaths and wrappings and laminating foils of plastic or synthetic plastic materials or primarily of these materials, for use in industrial manufacturing except for packaging purposes, all containing decor elements, foil layers, printed layers, decor layers, patterns, decors, structures and surface structures and designed for receiving such elements, layers or structures; semi-finished goods of plastics or primarily of plastics for further manufacturing namely, semi-finished plastic materials in the form of semi-finished stickers, labels and coatings, all these are made of plastic or synthetic materials, or are primarily made of these materials, for use in industrial manufacturing except for packaging purposes, all provided with decor elements, foil layers, printed layers, decor layers, patterns, decors, structures and surface structures and designed for receiving such elements, layers or structures; plastic stamping foils, plastic transfer foils and laminating foils of plastic or primarily of plastic containing decor elements, foil layers, printed layers, decor layers, patterns, decors, structures and surface structures; semi-finished plastic goods for further manufacturing namely, laminated, agglomerated goods of plastics; semi-finished products of plastics or primarily of plastics, namely, semi-finished injection-moulded plastic products, for use in a variety of industries, namely, semi-finished injection-moulded plastic products for use in further manufacture in form of semi-finished sheets, foils, plates, chips, tags, bars and profile elements, semi-finished injection-moulded plastic parts for use in further manufacture, semi-finished injection-moulded plastic cover parts, semi-finished injection-moulded plastic profiles, for manufacturing ornamental elements, trims and decorative strips, semi-finished injection-moulded plastic profiles, for manufacturing decorative parts, semi-finished injection-moulded plastic profiles, for manufacturing coverings and panels, covers, lids, coverings, packaging, packaging parts, packaging containers, wrappings, sheaths, containers, closure, locking elements; semi-finished injection-moulded housing parts of paper and plastic, for use in further industrial manufacturing; all suited for receiving decor elements, foil layers, printed layers, decor layers, patterns, decors, structures and surface structures; semi-finished laminates of plastics and synthetic plastic materials, for industrial and commercial purposes for use in manufacturing; semi-finished injection-moulded parts of

plastic for use in further industrial manufacturing, namely, semi-finished injection-moulded plastic housing parts, semi-finished injection-moulded plastic cover parts, plastic semi-finished injection-moulded packaging parts, plastic semi-finished injection-moulded parts for consumer products and for articles of daily use; semi-finished injection-molded parts primarily made of plastic, namely, interior covers, dashboard part covers, steering wheel covers, engine part covers, brake system part covers, transmission system part covers, exterior covers, vehicle electronics covers, for use in vehicles; semi-finished extruded and injection molded products of plastic, namely, semi-finished housings and housing parts of plastic or primarily of plastic for use for further manufacturing in a variety of industries; semi-finished injection-moulded parts of plastics for use for further manufacturing in a variety of industries, for later intended use as functional parts, as housing parts and as cover parts or covers; semi-finished injection moulded parts of plastic for vehicles, namely, interior parts and interior covers and interior panels, exterior parts and exterior covers and exterior panels, dashboard parts and dashboard part covers, steering wheel parts and steering wheel covers, engine parts and engine part covers, brake system parts and brake system part covers, transmission system parts and transmission system part covers, exterior covers, vehicle electronics covers, all intended for use in vehicles; semi-finished extruded and injection molded products of plastics or primarily of plastics, namely, semi-finished extruded and injection molded plastic ornamental elements, semi-finished extruded and injection molded plastic trims and semi-finished extruded and injection molded plastic decorative strips, semi-finished extruded and injection molded plastic decorative parts, semi-finished extruded and injection molded plastic coverings and panels, semi-finished extruded and injection molded plastic covers and screens, semi-finished extruded and injection molded plastic lids and coverings, all these goods are particularly suited for receiving of decor elements, foil layers, printed layers, decor layers, patterns, decors, structures and surface structures or already containing such elements and layers; synthetic plastic as semi-finished products in form of technical plastic parts as semi-finished products, namely extruded and injection-moulded plastic parts for use for further manufacturing in a variety of industries; synthetic plastic as semi-finished products in form of technical plastic parts as semi-finished products, namely, injection-moulded plastic parts for use for further manufacturing in a variety of industries, for later intended use in vehicles

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Technological consultancy concerning surface decoration and surface coating, particularly by means of stamping foils, transfer foils and laminating foils; technological consultancy concerning use and application of foils in the surface decoration and surface coating; technological consultancy concerning forming and moulding processes and foil application processes in the industrial production; technological consultancy concerning plastics forming and moulding processes, plastics processing and plastics treatment as well as concerning paper processing and foil processing; technological consultancy concerning industrial manufacturing processes by means of extruding and injecting, back-injection moulding, casting, injection moulding, drawing, deep-drawing, coating, printing, rolling, extruding, laminating, pressing, stamping and embossing, forming and moulding, glueing and bonding, punching, trimming, cutting-to-size, cutting-out and thermo-forming, particularly concerning plastics and plastic parts; technological consultancy concerning the application of stamping foils, transfer foils and laminating foils onto housing parts, injection-moulded parts, vehicle parts, semi-finished products, work pieces, packaging, packaging containers, containers, closure and locking elements and substrates; technological consultancy concerning the transfer of patterns, decors, structures, printings, foil layers, decor layers, and surface structures; technological consultancy concerning the transfer and forming and moulding of patterns, decors, structures, printings, foil layers, decor layers, and surface structures; in

industrial manufacturing processes; technological consultancy concerning coating processes and concerning transfer processes, particularly foil transfer processes; technological consultancy concerning plastics forming and moulding and simultaneous or subsequent forming and moulding and transfer of patterns, decors, structures, printings, foil layers, decor layers and surface structures and overlaying the formed articles with foils; technological consultancy and industrial design consultancy about possibilities of use and application of patterns, decors, structures, printings, foil layers, decor layers and surface structures, particularly onto goods, housing parts, injection moulded parts, vehicle parts, semi-finished products, work pieces, packaging, packaging containers, containers, closure and locking elements and substrates; technological consultancy about possibilities of use of decor elements, foil layers, decor layers, patterns, structures, printings and surface structures, particularly on goods, housing parts, injection moulded parts, vehicle parts, semi-finished products, work pieces, packaging, packaging containers, containers, closure and locking elements and substrates; technological consultancy, industrial design consultancy and industrial design services concerning forming and moulding machines, plastics forming and moulding machines and injection moulding machines and their parts, particularly concerning tools and tool inserts, holders and mounts, forms and moulds, mould parts, form and mould inserts, dies and die heads and extruder heads, deep-drawing moulds, injection moulds and casting moulds, as well as assembly units and parts therefor; development of forms and moulds, tools, machine tools and assembly units and parts thereof for third parties; technological consultancy, industrial design consultancy and industrial design services concerning mould making; industrial design; design of forms and moulds, products and product parts; packaging design for third parties; consulting services concerning product design and packaging design; industrial and technical design, namely, technical design of tools, of computer parts, of automotive parts, of vehicle parts, of industrial machines and of machine parts, of engineering products, of packaging products, of housings, of household electronics and their parts, of entertainment electronics and apparatus and their parts, of communication electronics and apparatus and their parts, of mechanical, electromechanical and optoelectronic apparatus and instruments, and of new products; technical design of an engineer, namely engineering design services; technological services, namely, technological consultancy and technological advice and technological assistance with respect to design; engineering; technical development and technical project management, namely, technical project planning and technical project administration and supervision, as well as technological consultancy concerning the set-up, installation, configuration, use and operation of machines for the plastics industry, packaging industry, of stamping machines, injection moulding machines, forming and moulding machines, printing machines, packaging machines, foil processing machines, foil feeding mechanisms and foil carrying-off mechanisms, material feeding mechanisms and material carrying-off mechanisms, rolling-up mechanisms and roll-off mechanisms, material preparation mechanisms, foil preparation mechanisms, foil overlaying machines, laminating machines and of assembly units and controls for such machines; technical development and technical project management, namely, technical project planning and technical project administration and supervision, as well as technological consultancy concerning set-up, installation, configuration, use and operation of installations and facilities of industrial automation technology; installation, maintenance and support of firmware and of control programs for machines

For Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating and water supply, namely, heaters for vehicles, defrosters for vehicles, air conditioners for vehicles; water and air- heating equipment for vehicles; electronic windscreen defrosters, electric water heaters and engine pre-heating equipment; stationary air-conditioning systems for vehicles; electric heating apparatus, namely, portable electric heaters; supplementary heaters for vehicles; roof-top air conditioning systems, HVAC (heating-ventilation-air conditioning) units for land vehicles; lights, namely, electric light fixtures; filters for heating cooling, drying, ventilation and water supply systems; air filters for air-conditioning units; refrigerating agent collectors, distributors and driers as parts of air conditioning units and cooling instruments; heat exchangers not being parts of machines; hot-water boilers; condensate removal apparatus as fitted component part of ventilation instruments; evaporators

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Wholesale and retail store services for vehicles, agricultural, air or water transportation vehicle roofs and tops, in particular sliding tilting, sliding/tilting spoiler, finned, sun, flapping and folding roofs, all-glass roofs, fixed element convertible tops, convertible tops, sun blinds for vehicles, ventilation flaps for vehicles, adjustable vehicle windows, in particular side and rear windows, folding, tilting and finned windows, vehicle window-winders, vehicle roof lining and body components, spoilers, wind and water deflectors specifically designed for vehicles, air guides, ski holders and luggage carriers for vehicles, modular roofs, roof modules for vehicles, movable areas for vehicles, namely sliding floors, pull-out loading floors, dimmable glass surfaces, doors for vehicles, solar roofs for vehicles, roof lights for vehicles, metal goods, mounting stands, guide tubes and guide rails, hose and pipe clamps, hinges, coupling, drive cables, racking rods, guide pipes and rails, grids, tanks, pipes, hoses, pipes and pipes including those for land vehicles, electromotors and gearboxes for the transport of power excluding those for land vehicles, electric motors and gearboxes, combustion engines, electric drives, compressors, condensers, crankshafts, tilting, folding, rotating, lifting and lowering mechanisms, machine parts, namely, covers, covers, roofs, sky sliders and cover frames. housing, cladding, hoods, flaps, nozzles, filters, glow plug, valves, impulse dampers, silencers, blowers, fans, pumps, ignition coils, formers, apparatus and instruments for conducting switching converting, storing, regulating and controlling electricity, charging devices, charging stations, charging modules, loading shelf walls, charging devices for rechargeable devices, batteries and battery chargers for electric vehicles, electric charging columns, power generation apparatus for vehicles, software, remote controls, transmitters and receivers for the remote control of vehicle components, measuring, test and control devices, cable harnesses, electrical plug connections, fuses, relays, switches, pressure monitors, contactor switches, thermostats, temperature limiters, sensors, voltage regulators and interference suppression sets for air conditioning systems, devices for generating electrical energy by means of solar cells, in particular for land vehicles and their components, electrical and mechanical control devices, heating batteries, fuel cells, lighting heating steam, generating

cooking cooling drying ventilation, water heaters and engine heaters, floor-mounted air conditioners for vehicles, electric heaters, auxiliary heaters for vehicles, water heaters, air-conditioning units for HVAC systems, lights, filters, refrigerant collectors, distributors and dryers, heat exchangers, instantaneous heaters, tank collectors, condensation extractors, evaporators, vehicles, apparatus for locomotion by land, air or water, roofs and hoods for vehicles, in particular sliding lifting, sliding, spoiler, slat, sun, folding and folding roofs, all- glass roofs, fixed-element convertible roofs, convertible roofs, sun-blinds and ventilation flaps for vehicles, adjustable vehicle windows, in particular side and rear windows, folding, tilting and lamellar windows, vehicle window filters, vehicle coils and body parts, vehicle spoilers, wind and water deflectors, air guiding devices, ski racks and luggage carriers for vehicles, modulus beds, roof modules for vehicles, mobile surfaces for vehicles, gliding floors, manuals, printed publications, books, magazines, periodicals, newspapers, printed matter, rubber goods, gutta-percha, rubber, asbestos, and mica, goods, made of plastic, in particular lids, covers, roof sky and cover frames, housings, claddings, hoods, flaps, grids, guide tubes and guide rails as well as sliding elements, gaskets, packing and insulating material, pipes, hoses and pipes, washers, hose and pipe clamps, all the aforesaid goods of plastic, gaskets, sealing packing and insulating material; online e-commerce provider services, namely, presentation of goods and services, order acceptance and administrative order processing invoicing, mediation and conclusion of commercial transactions for others via online shops

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Repair of ships, repair of motor vehicles, repair and maintenance of motor vehicles and their parts, repair of vehicles, repair of watercraft, repair and maintenance of electric vehicles, repair and maintenance of refrigeration systems of vehicles, repair of heaters, repair of air-conditioning systems, repair of electronic devices, repair or maintenance of machinery and equipment for the distribution and control of electrical energy, installation of electric heaters, installation of heaters, installation of electric generators, installation of air-conditioning systems; installation of electrical equipment, installation of electrical and power generating machinery, installation of electrical and electronic equipment in automobiles, installation of electrical equipment, maintenance work; care and cleaning of vehicles and their parts and accessories; maintenance, repair and maintenance of electricity generating equipment; installation and maintenance of computer hardware; recharge batteries; charging of electric vehicles; recharge batteries of cars; installation of hardware for computer networks

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Apparatus and instruments for conducting, switching, transforming, accumulation, regulating or controlling electricity; drive cables for electrical controls; downloadable software for product development in the field of electro mobility; transmitter and receiver for the remote control of vehicle components; measuring, testing and checking instruments and apparatus, namely, electric apparatus for measuring battery life in vehicles, speed measuring instruments, temperature measuring instruments, distance and dimension measuring instruments, battery testing apparatus, material testing apparatus in the nature of battery testers; wiring harness, electrical connections, fuses, relays, switches; vehicle safety equipment, namely, electronic tire pressure monitors; protective switches, thermostats, temperature limiters, sensors; voltage regulators and interference suppression units for air-conditioning units; devices for generating electrical energy by means of solar cells, namely, solar cells and solar collectors for electricity generation, in particular for land and water vehicles and for their components; electrical control systems for energy management comprised of binary, analog and digital controls; heating batteries; fuel cells; chargers, namely, electronic charging modules, charging stations for electric vehicles, chargers for rechargeable devices, batteries and

battery chargers for electric vehicles; electric charging columns, electrical power supplies, power supply units, current regulating devices; devices and accessories for charging electric vehicles, namely, charging stations for electric vehicles, batteries for electric vehicles, electric batteries for the electric supply of electric vehicles

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Providing access to computer programs in data networks, namely transmission of data and software into digital networks; services of a network operator, information broker and provider; namely leasing of access time to data networks and computer databases, in particular on the internet

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Goods made of rubber, gutta-percha, rubber, asbestos and mica, namely, rubber hoses; semi-finished products, namely, electrically conductive rubber in extruded form for use in further manufacture, gutta-percha in raw or partially worked condition, rubber bands for commercial and industrial use, rubber hoses for vehicle heaters, rubber hoses for air conditioners, rubber seals, rubber stoppers for industrial packaging containers, rubber hoses for vehicle radiators, insulating covers of rubber for switches, insulating rubber covers for electrical components, rubber for electrical insulation, rubber for heat insulation, asbestos seals, asbestos fibers; asbestos covering, namely, asbestos fabrics for use as cable insulation; mica electrical insulators; plastics in extruded form for use in manufacturing, namely, lids, covers, roof, roof lining and cover frames, housing, claddings, hoods, flaps, grilles, guide tubes and guide rails and sliding elements; packing and insulating material; plastic plumbing hoses, flexible plumbing pipes; sealing material

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For scientific and technological services namely research and related design services in the field of automotive engineering, software development; industrial analysis and research services; design, development, updating and installation of computer software; engineering services; technical consulting for product planning and development, technological consultancy relating to production, industrial process development for product commercialization; technical consultancy and development in the field of automotive engineering, creating programs for data processing, development, creation and design of software and its implementation in the field of electronic data processing and consultancy relating thereto, services relating to the security of information, namely selection configuration of firewall systems and firewall software, maintenance of firewall software; technical project studies in the fields of computer hardware and computer software; technical advice on the use of the internet; industrial research design and development of plants, equipment and apparatus in the field of electrical energy transmission and distribution systems; development of electric accumulators and electric batteries; consultancy related to technical research in the field of energy transmission and distribution; development and rental of data processing and process engineering programs. in particular for the construction, equipment, installation and operation of energy transmission and distribution facilities; technical project management for engineering of energy transmission and distribution installations

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Goods of metal, namely, metal pipes, connectors for metal pipes, valves of metal, excluding machine parts; non-electric metal cables, metal straps, metal supports for use as outdoor post foundations, wire of common metal; locks of metal, excluding electric locks; metal door handles; metal window sills; metal window frames; ventilation grilles of metal for installation in windows; metal boxes; metal containers for storage or transport; metal mounting stands for general use; metal hose and pipe clamps; metal hinges; pot hooks of metal, excluding machine parts; metal guide tubes and guide rails; metal pipes; metal hoses; metal pipes for ventilation and air conditioning systems; sliding rails of metal

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

RELATED PROPERTIES INFORMATION

International Registration 1488489 **International Registration Date** Jul. 01, 2019

GOODS AND SERVICES INFORMATION

For Printed publications, namely, brochures and manuals detailing international standards and specifications, corrigenda, interpretation informational sheets, technical reports, guides, written articles, newsletters, books in the field of electricity, electronics, electrotechnologies, renewable energies and related technologies; printed periodicals, namely, magazines, in the field of electricity, electronics, electrotechnologies, renewable energies and related technologies; printed periodicals in the field of electricity, electronics, electrotechnologies, renewable energies and related technologies; newsletters in the field of electricity, electronics, electrotechnologies, renewable energies and related technologies; handbook manuals in the field of electricity, electronics, electrotechnologies, renewable energies and related technologies; newspapers; pamphlets in the field of electricity, electronics, electrotechnologies, renewable energies and related technologies; prospectuses in the field of electricity, electronics, electrotechnologies, renewable energies and related technologies; the products mentioned above being related to equipment and components for marine, photovoltaic, wind energy and other renewable energy apparatus and to the certification of conformity to standards for these equipment and components

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Education services, namely, conducting classes, seminars, conferences, workshops; provision of trainings, non-downloadable educational webinars; arranging and conducting of educational workshops, colloquiums, conferences, congresses, seminars, symposiums; Publication of on-line electronic periodicals and electronic publications, namely, periodicals, manuals, catalogs, books, magazines, newsletters, and pamphlets; the services mentioned above being related to equipment and components for marine, photovoltaic, wind energy and other renewable energy apparatus, as well as to the certification of conformity to standards for equipment and components for marine, photovoltaic, wind energy and other renewable energy apparatus in the nature of standards for electrotechnical equipment and components and to the certification

of conformity to standards for electrotechnical equipment and components

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Publications on optical disks, namely, optical discs featuring international standards guides, specifications sheets and manuals, corrigenda, interpretation sheets, technical reports, guides and articles in the field of electricity, electronics, electrotechnologies, renewable energies and related technologies; publications on digital recording carriers, namely, pre-recorded CD-ROMs, prerecorded DVDs, prerecorded magnetic discs, pre-recorded USB flash drives, external computer hard drive featuring international standards guides, specifications sheets and manuals, corrigenda, interpretation sheets, technical reports, guides and articles in the field of electricity, electronics, electrotechnologies, renewable energies and related technologies; downloadable electronic publications in the nature of brochures and manuals detailing international standards and specifications, corrigenda, interpretation informational sheets, technical reports, guides, written articles, newsletters, books in the field of electricity, electronics, electrotechnologies, renewable energies and related technologies; downloadable computer software applications, namely, mobile internet applications for reading a newsletter, magazine or a catalogue of certificates of conformity all in the fields of electricity, electronics, electrotechnologies, renewable energies and related technologies; recorded computer programs for use in database management, use in electronic storage of data; the products mentioned above being related to equipment and components for marine, photovoltaic, wind energy and other renewable energy apparatus and to the certification of conformity to standards for these equipment and components

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Testing, analysis and evaluation of equipment and components for marine, photovoltaic, wind energy and others renewable energy apparatus, for the purpose of certification of conformity to standards, namely, technical writing on international standards, specifications and informative publications for electric and electronic technologies, renewable energy and related technologies in the nature of equipment and components for marine, photovoltaic, wind energy and others renewable energy apparatus, for the purpose of certification of conformity to standards; evaluation of the technical competence of personnel from repair and revision service providers to determine conformity with certification standards in the field of electric and electronic technologies, renewable energy and related technologies of equipment and components for marine, photovoltaic, wind energy and other renewable energy applications; evaluation and auditing being testing of technical procedures used by repair and revisions service providers to determine conformity with certification standards, in particular for electric and electronic technologies, renewable energy and related technologies in the nature of repair, maintenance and recycling of equipment and components for marine, photovoltaic, wind energy and other renewable energy applications; testing, analysis and evaluation of equipment and of products and services of others to determine conformity with certification standards in the field of electric and electronic technologies, renewable energy and related technologies in particular of equipment and components for marine, photovoltaic, wind energy and others renewable energy apparatus; monitoring of quality control systems for repair service providers, for repair and revision service providers, and for manufacturers for quality control purposes, namely, for manufacturers of equipment and components for marine, photovoltaic, wind energy and other renewable energy apparatus; quality control for others of components of electric and electronic technologies, renewable energy and related technologies in particular for marine, photovoltaic, wind energy and other renewable energy apparatus

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Telecommunications services, namely, transfer of data by telecommunications, telecommunication access services, transmission of voice, data, graphics, images, audio and video by means of telecommunications networks, wireless communication networks, and the Internet; providing on-line access to databases centralizing test certificates of equipment and components for marine, photovoltaic, wind energy and other renewable energy apparatus in the nature of electrotechnical equipment and components as well as certificates of acceptance as national certification body or testing laboratory for electrotechnical equipment and components

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Testing to determine professional competency; testing to determine employment skills; Personnel consultancy, namely, evaluation of personnel requirements; psychological testing for the selection of personnel; the services mentioned above being aimed at determining persons ability to perform certification of conformity for equipment and components for marine, photovoltaic, wind energy and other renewable energy apparatus in the nature of electrotechnical equipment and components

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

GOODS AND SERVICES INFORMATION

For Machine-driven apparatus for stamping, namely, automatic stamping machines, automatic hot stamping machines, automatic cold stamping machines; label stamping machines; machines and their structural parts for application of stamping foils and laminating foils onto substrates; mechanical stamping tools being parts of machines; stamping dies, embossing dies, embossing rollers as machine parts; machines for plastics processing, for paper processing and for foil processing; machine tools, namely, stamping dies, stamping matrices and patrices, cutting tools being parts of machines, cutting dies, stamping dies, stamping rollers, drilling bits and drills for drilling machines, stamping moulds, casting moulds and injection moulds, forming tools for cutting and forming materials, bonding tools for laminating and bonding plastics and other materials, spraying nozzles and spraying heads, printing presses and printing stencils, printing pads and printing screens, print heads and nozzles for spraying machines and spraying apparatus; printing machines for commercial use and their structural parts; auxiliary and accessory devices, namely, feeders, heating and cooling apparatus, drying apparatus, cleaning apparatus, folding apparatus, stacking apparatus, cutting apparatus, pressing apparatus, coating apparatus, binding apparatus, gluing apparatus, bonding apparatus, heat sealing apparatus, wrapping apparatus, embossing apparatus, stamping apparatus all parts being for printing machines for commercial use; machines for processing of printed products for commercial use; packaging machines and their structural parts; labelling machines; machines and mechanisms with printing units, as parts of other machines and of mechanisms or as auxiliary/accessory devices for other machines and mechanisms, namely, industrial and commercial xerographic printers and xerographic printing machines, embossed printing mechanisms, industrial and commercial inkjet printers and industrial and commercial inkjet printing mechanisms, offset printers and offset printing mechanisms, gravure printers and gravure printing mechanisms, flexographic printers and flexographic printing mechanisms, tampon printers and tampon printing mechanisms, screen printers and screen printing mechanisms, industrial and commercial transfer printing machines and industrial and commercial transfer printing mechanisms, printing rollers; pattern transferring machines for

transferring of patterns, decors, structures and of functional surface structures that are printed, vapor-deposited and otherwise applied on base foils onto the surfaces of articles or substrates; foil overlaying machines for overlaying and coating the surfaces of articles or of substrates with foils with patterns, decors, structures and functional surface structures; conveyor belts and conveyor machines for feeding and carrying-off of unprocessed and processed materials and goods; roll-up mechanisms and/or roll-off mechanisms, namely, apparatus for rolling-up and/or rolling-off of materials and semi-finished products in strip form, band form, line form, thread form or roll form for use in industrial production, for use with other machines; foil feeding machines and foil preparation machines for use with machines, particularly for use with pattern transferring machines, with foil overlaying machines, with printing machines and with packaging machines; article feeding machines and substrate feeding machines and article preparation machines and substrate preparation machines for use with machines, particularly for use with pattern transferring machines, with foil overlaying machines, with printing machines and with packaging machines; all the aforementioned goods also as parts of other machines or for integration as components into other machines; structural parts and components for all aforementioned goods; controls, sensors, drives, actuators, measuring devices, regulators, electric switches and relays, each being structural parts of machines and machine tools; hydraulic and pneumatic control devices and hydraulic and pneumatic controls for machines, particularly for all aforementioned goods; electric drives for machines [not computer drives]; electric and hydraulic motors, other than for land vehicles; electric actuators

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Installation, customization, assembly, maintenance and repair services concerning machines and their parts; installation, customization, assembly, maintenance and repair services concerning machine-driven apparatus for printing, for stamping, for hot stamping and cold stamping; installation, customization, assembly, maintenance and repair services concerning machines for application of stamping foils or laminating foils onto substrates; installation, customization, assembly, maintenance and repair services concerning machines for plastics processing, paper processing and foil processing; installation, customization, assembly, maintenance and repair services concerning machines for the printing industry and printing machines for commercial use; installation, customization, assembly, maintenance and repair services concerning labelling machines and packaging machines; installation, customization, assembly, maintenance and repair services concerning pattern transferring machines, foil overlaying machines, foil feeding machines and foil preparation machines; installation, customization, assembly, maintenance and repair services concerning article feeding mechanisms, substrate feeding mechanisms, article preparation machines and substrate preparation machines; installation, customization, assembly, maintenance and repair services concerning conveyor belts and conveyor machines for feeding and carrying-off of unprocessed and processed materials and goods; installation, customization, assembly, maintenance and repair services concerning roll-up-mechanisms and roll-off-mechanisms

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Electric installations for controlling, remote-controlling and for monitoring industrial installations and machines; electric sensors; devices for input of data and commands, namely, data processing apparatus for installations and machines; electric controlling apparatus and regulating apparatus, namely, data entry and data processing devices comprising touch screens, keypads and keyboards; electrical and electronic controllers, and programmable electronic controllers for industrial machines for the printing and packaging industry; programmable logic controllers (PLC); electric regulators being parts of machines;

voltage regulators, machine speed regulators, temperature regulators and pressure regulators for machines; electric measuring and monitoring apparatus and measuring and monitoring devices, namely, apparatus comprising electric sensors for measuring and monitoring light, radiation, temperature, pressure, electric resistance, electric capacity, electric inductivity, length, width, thickness, humidity, optical transmission, optical reflectivity, for use in industrial machines and processes; electric switches and relays; electric controllers; downloadable computer programs and computer programs pre-recorded on data carriers, for monitoring and controlling functionality and processing data for industrial machines and for monitoring and controlling functionality and processing data for industrial installations as well as industrial processes and sequences; downloadable computer programs and computer programs pre-recorded on data carriers for use in the printing industry and packaging industry, for use in industry for desktop publishing and for graphic design; downloadable software and software pre-recorded on data carriers for monitoring and controlling functionality and processing data for printing machines, stamping machines, coating machines, foil application machines and packaging machines; downloadable firmware and firmware pre-recorded on data carriers for monitoring and controlling functionality of computer-controlled machines; downloadable industrial process control programs and such programs pre-recorded on data carriers for machines, for industrial installations and for industrial processes and cycles

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Technological consultancy in the technology field of surface decoration and surface coating by means of stamping foils, transfer foils and laminating foils; technological consultancy in the technology field of plastics treatment and plastics processing; technological consultancy in the technology field of paper processing; technological consultancy in the technology field of the transfer of patterns, of decors, of structures and functional surface structures; technological consultancy in the technology field of packaging machines and printing machines for commercial use and printing processes; technological consultancy in the technology field of machines; industrial design services; technical consultancy in the field of engineering and services of an engineer, namely, engineering; technical product development and development of technology in the fields of printing machines, stamping machines, coating machines and foil application machines, as well as technical engineering and information technology project management in these fields; technological consultancy concerning set-up, installation, configuration, application and operation of machines and machine tools, particularly of machines for the graphics industry, of stamping machines, of foil processing machines, of foil feeding mechanisms and foil carrying-off mechanisms, of material feeding mechanisms and material carrying-off mechanisms, of material preparation mechanisms, of foil preparation mechanisms, of foil overlaying machines, of sealing machines, of packaging machines, of labelling machines, of printing machines for commercial use, of laminating machines, of laminators/lamination coating machines and of components and controls for machines; technical product development and development of technology in the field of set-up, installation, configuration, application and operation of installations and apparatus of industrial automation technology as well as technical engineering and information technology project management of projects in these fields; technological consultancy in the technology field of set-up, installation, configuration, application and operation of installations and apparatus of industrial automation technology; technical consultancy concerning installation, maintenance and support in the nature of troubleshooting of problems of computer software, of firmware, and of control programs for machines, industrial installations as well as industrial processes and sequences; installation, maintenance and support in the nature of troubleshooting of problems of computer software, of firmware, and of control programs for machines, industrial installations as well as industrial

processes and sequences

GOODS AND SERVICES INFORMATION

For Machines and machine tools, namely, machine and machine tools for the cutting and forming of materials, numerically controlled machines and machine tools used for machining parts; Motors, other than for land vehicles; Coupling and belts for machines except land vehicles; Agricultural implements, other than hand-operated, namely, electrical and electronic feeders for animals; Incubators for eggs; milking installations for automatic milk extraction for animals; mechanized feeders for animals; Opening and closing mechanism sold as an integral component of mechanized feeders for animals

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes namely, water purification units for drinking water using Ultra Violet treatment; Water purifying equipment; Lighting apparatus namely lighting installations; Light bulbs; water filtration and purification units and replacement cartridges and filters therefor

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Market research and market analysis, providing information and analysis in the fields of economics and business, mediation of trade business for third parties of innovative products, mediation of trade business for third parties of products that serve as innovative and sustainable security and electronic control solutions as well as automation and management and information systems; business administration, compiling of information into computer databases, and database management; providing databases, namely, databases containing business management information, compiling of information into computer databases, and database management; services of a database, namely, the collection and systematization of information into computer databases, providing a database containing business administrative information; business administration, namely, the administrative processing rendered by control rooms, namely, telephone answering, message handling, providing management information; compiling statistical information for business or commercial purposes for third parties; compiling statistical information for business or commercial purposes for third parties; providing business advice and administrative support in the fields of home care, healthcare institutions, educational institutions and the retail sector; all the aforementioned services also provided via electronic means, such as via the Internet and specially designed website

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Installation of milking and feeding systems for animals, anti-theft equipment, access control equipment, lighting and electronic identification equipment

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For RFID tags; Antennas; mechanical devices, namely, dispensers of preset portions of fluids, solid granules, and powder for dosing purposes, all not for medical use; motion sensors and pedometers for cows; Electronic mastitis sensors for use with automated milking machines; Battery chargers and converters for storing and managing electrical energy and/or converting it to other required voltages; Downloadable software in the fields of livestock management, namely, measuring the milk production of animals, registering and tracking animal breeding lines, tracking the movement of farm animals, controlling an automatic opening and closing device for animal feeding systems, monitoring and controlling opening and closing of doors for feeding installations, tracking and identifying livestock, monitoring the health of animals; Downloadable software in the field of healthcare, namely, planning travel routes for use by health care providers, management of patient records and scheduling; Downloadable software in the field of security management, namely, building access control, building security and access to locker systems; Downloadable software in the field of lighting solutions, namely, for the remote operation and regulation of lighting in a premises, in a building and in a hangar; Downloadable software in the field of identification systems, namely, automated vehicle identification and employee identification; Downloadable software in the field of access control, namely, control of entry to buildings and parking structures, automated blocking of entry into ways, areas, town parts, regulation of flow of traffic based on car identification; Downloadable software in the field of loss prevention, namely, processing, editing and reproduction of data obtained from electronic theft prevention devices to prevent inventory loss; Downloadable software in the field of stock management, namely, inventory management; Downloadable software in the field of library solutions, namely, self-service library stations for loaning and returning library materials and use in management and administration of libraries; Downloadable software in the field of temporary employment solutions, namely, recording working hours and registering presence and absence of personnel; Downloadable and recorded software to be used in connection with RFID (radio frequency identification) products, namely, for measuring the milk production of animals, registering and tracking

animal breeding lines and for tracking the movement of farm animals, for management and administration of libraries and information centers, for self-service library stations for loaning and returning library materials; electronic security equipment, namely, antenna, electronic card readers, electronically encoded identity cards, security alarm controllers, access controllers for controlling access to premise, reader display modules for controlling access to premise, input output modules for controlling access to premise, computer hardware, computer hardware and software for use in automating and managing agricultural equipment; Downloadable and recorded, for monitoring and controlling livestock, lighting, business inventory, traffic flow and building accessibility within a designated area; computer hardware for use in automating and managing agricultural equipment; downloadable and recorded computer software for use in automating and managing agricultural equipment; electronic animal identification apparatus, computers and recorded and downloadable software for use in data processing, namely, tracking animals; electronic control equipment, namely, identification apparatus for individuals and vehicles, using microwave technology, comprised of computers, computer transponders, electronic bar code readers, radio transmitters and Automatic Vehicle Identification tags for the purpose of controlling access and egress from buildings, parking garages, industrial premises and urban areas controlled by systems for pedestrian movement, and operating home lighting, HVAC and security systems; electronic controls for lighting applications, namely, electrical power supplies and controllers for use with medical scanners and electronic lighting control panels; voting machines; electronic equipment for use in elections, namely, voting machines, and associated downloadable and recorded software; electronic apparatus, namely, computer keyboards, bar code readers, electronic card readers, electronic receipt reading machines, voucher receipt printers, mobile electronic data loggers sold as a unit with modems for use in educational institutions; Radio frequency identification (RFID) credentials, namely, cards and tags, and readers for radio frequency identification credentials; electric docking stations, computer keyboards, computer printers for printing documents, mobile phones, computers; interactive computer kiosk systems comprised primarily of computers, computer hardware, computer peripherals and computer touchscreens for use in healthcare institutions and in home care; downloadable software for use in healthcare institutions and in home care, namely, for planning travel routes for use by health care providers, management of patient records and scheduling; electronic equipment and computer equipment for working time registration and presence and absence registration, namely, time clocks; downloadable software for use by healthcare providers in determining the most efficient route for access to medical care; apparatus and devices for electronic identification and theft protection, namely, radio frequency identification (RFID) labels, antennas, radio frequency identification (RFID) chips, radio frequency identification (RFID) cards, radio frequency identification (RFID) tags; computer peripheral equipment and downloadable computer software for use in tracking RFID tags affixed to livestock; electronic equipment for access control, namely, electronic readers and controllers for controlling access to premises; intruder detection systems comprising alarm sensors; intruder detection or alert systems for perimeter access control comprising alarm sensors, fire alarms, burglar alarms, electronic payment terminal; identification devices and automatic identification devices for persons and vehicles, in particular operating by means of microwaves, namely, encoded identification bracelets and cards, magnetic; equipment and systems for wireless communication of data equipment and systems for wireless data communication, namely, RFID sensors, radios, wireless transmitters and receivers for controlling access and entry by vehicles and people to business premises, parking garages and parts of cities which are closed to unauthorized persons, RFID tags and readers and antennae; equipment for access control of vehicles and persons, namely, access control systems, intrusion alarms, wireless locks, cameras, intercoms; equipment for controlling vehicle access to business parks, parking garages and city closures, namely, access control and alarm monitoring systems, composed of cameras; access control and alarm monitoring systems and associated recorded operating system software; and structural parts therefor; batteries

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For consultancy services in the field of home security, namely, the prevention of theft; consultancy services in the field of building security, namely, providing physical access to properties via a remote call-in locking device; surveillance of land and buildings; monitoring burglar and security alarms; monitoring intrusion and fire alarms; licensing of computer software and intellectual property rights

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Development of software and electronics; consulting services in the fields of selection, implementation and use of computer hardware and software systems for others; rental of software; maintenance of application software; IT consulting services, namely, advising on the use and application of computer equipment and software for home care, healthcare institutions, educational institutions and the retail sector, including via electronic and / or telecommunications channels such as via the Internet consulting services in the fields of selection, implementation and use of computer hardware and software systems for others in the home care, healthcare, educational and retail sectors; engineering services; industrial design services

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Kitchen utensils and containers, not including gas water heaters for household use, namely, dishwashing brushes and non-electric food mixers; non-electric cooking pots for household purposes; structural parts of dishwashing brushes and non-electric food mixers; structural parts of non-electric cooking pots and pans; structural parts of non-electric cooking pans

International Classes 21 - Primary Classes **US Classes** 2, 13, 23, 29, 30, 33, 40, 50 **International Class Title** Housewares and Glass

For Medical apparatus and instruments, other than walking aids, and crutches, namely, injection syringes; structural parts of injection syringes; surgical forceps; structural parts of surgical forceps

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Fishing tackle; reels for fishing; structural parts of reels for fishing

International Classes 28 - Primary Classes **US Classes** 22, 23, 38, 50 **International Class Title** Toys and Sporting Goods

For Textile machines and apparatus, namely, knitting machines; structural parts of textile machines and apparatus in the nature of knitting machines; food or beverage processing machines and apparatus, namely, food processors, meat grinders, electric hand mixers; parts and fittings of food or beverage processing machines and apparatus, namely, electric food processors, electric meat grinders, electric hand-held mixers for household purposes; lumbering, woodworking, or veneer or plywood making machines and apparatus, namely, circular saws, power-operated jig saws, nailing machines, electric driver drills, electric screwdrivers, power-operated hammer drivers, power staplers, power-operated angle grinders, electric finishing sanders; structural parts of lumbering, woodworking, or veneer or plywood making machines and apparatus in the nature of circular saws, power-operated jig saws, nailing machines, electric driver drills, electric screwdrivers, power-operated hammer

drivers, power staplers, power-operated angle grinders, power-operated finishing sanders; sewing machines; structural parts of sewing machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Shells; structural parts of shells

International Classes 13 - Primary Classes **US Classes** 2, 9 **International Class Title** Firearms

For Household electrothermic appliances, namely, electric heating fans, microwave ovens; structural parts of electric heating fans and microwave ovens; coffee brewers, electric; structural parts of electric coffee brewers; toilet stool units with a washing water squirter; structural parts of toilet stool units with a washing water squirter

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Fuel cells; structural parts of fuel cells; power distribution or control machines and apparatus, namely, switchboard boxes consisting primarily of switchboards; structural parts of switchboard boxes consisting primarily of switchboards; magnetic cores; electrodes, other than welding electrodes or medical electrodes; coin counting or sorting machines; structural parts of coin counting or sorting machines; spectacles; structural parts of spectacles, eyeglasses, safety goggles and goggles for sports

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Mineral oils and greases for industrial purposes

International Classes 4 - Primary Classes **US Classes** 1, 6, 15 **International Class Title** Lubricants and Fuels

For Electric razors and electric hair clippers; structural parts of electric razors and electric hair clippers; blades for electric razors and blades for electric hair clippers; hand tools, hand operated, other than bladed or pointed hand tools, namely, ratchet wrenches; structural parts of ratchet wrenches

International Classes 8 - Primary Classes **US Classes** 23, 28, 44 **International Class Title** Hand Tools

Mark Literal(s) BIALY BOCIAN VODKA

CASE IDENTIFIERS

Serial Number 79280632 **Application Filing Date** Feb. 06, 2020 **Register** Principal **Mark Type** Trademark **Publication Date** Jan. 05, 2021

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of product packaging trade dress as applied to a glass liquor bottle. The top upper portion of the bottle features a label with a floral plant design and two bands at the bottom. The middle of the bottle features a stork in flight upon a circle that is embossed on the glass bottle itself. The lower portion of the bottle features another label with the cursive wording "BIALY" followed by the all block lettering "BOCIAN". The term "VODKA" appears in block font directly underneath. Another band appears with a floral plant design and a stork in flight upon a circle. The circle with the stork has the words "MADE IN POLAND" on the upper half and the wording "BIALY BOCIAN" below. To the left and right of the stork circle appear two more circles with the circle on the left containing three stars over three barrels and the circle on the right containing images of wheat. The overall shape of the bottle and bottle cap appear in broken lines and are not intended to form any portion of the claimed mark and are included to merely show placement of the overall elements of the trade dress as applied to the glass liquor bottle. **Color Claimed** Color is not claimed as a feature of the mark. **Disclaimer** "VODKA" AND "MADE IN POLAND" **Name Portrait Consent** The name(s), portrait(s), and/or signature(s) shown in the mark does not identify a particular living individual.

For Providing business information, data analysis, and market research surveys to others, in particular to those in the utility, railway, aviation, airport, airline, shipping, offshore, construction, agriculture, freight, energy, power, electricity, coal, oil, gas, and renewable energy fields; consultancy, advisory and information services within the field of trade and business pricing, trade and business price analyses and trade and business price prognoses to others; providing trade and business pricing information, trade and business price analyses and trade and business price prognoses to others, in particular to those in the utility, railway, aviation, airport, airline, shipping, offshore, construction, agriculture, freight, energy, power, electricity, coal, oil, gas, aquaculture and renewable energy fields

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Downloadable computer software, computer hardware, downloadable computer programs and downloadable computer software applications, all for utilizing weather forecasts, weather reports, weather information and weather data to assist in operation of and decision making related to renewable energy projects, energy trading, energy distribution, energy load demand and supply, transport, roads operation and maintenance; downloadable computer software, computer hardware, downloadable computer programs and downloadable computer software applications, all for utilising weather forecasts, weather reports, weather information and weather data to assist in operation of and decision making related to railway operation and maintenance, aviation, airport and airline operation and maintenance, marine operations, offshore

industry operations, shipping operations, construction, insurance, agriculture, leisure, retail, water management and filming; downloadable computer software, computer hardware, downloadable computer programs and downloadable computer software applications, all for utilising metocean forecasts, metocean reports, metocean information and metocean data to assist in operation of and decision making related to renewable energy projects, energy trading, energy distribution, energy load demand and supply, transport, roads operation and maintenance; downloadable computer software, computer hardware, downloadable computer programs and downloadable computer software applications, all for utilising metocean forecasts, metocean reports, metocean information and metocean data to assist in operation of and decision making related to railway operation and maintenance, aviation, airport and airline operation and maintenance, marine operations, offshore industry operations, shipping operations, construction, insurance, agriculture, leisure, retail, water management and filming; downloadable computer software for broadcasting weather forecasts, weather reports, weather information, weather data, metocean forecasts, metocean reports, metocean information and metocean data; downloadable software applications for mobile devices and downloadable application software for mobile devices, all for utilising weather forecasts, weather reports, weather information and weather data to assist in operation of and decision making related to renewable energy projects, energy trading, energy distribution, energy load demand and supply, transport, roads operation and maintenance; downloadable software applications for mobile devices and downloadable application software for mobile devices utilising weather forecasts, weather reports, weather information and weather data to assist in operation of and decision making related to railway operation and maintenance, aviation, airport and airline operation and maintenance, marine operations, offshore industry operations, shipping operations, construction, insurance, agriculture, leisure, retail, water management and filming; downloadable software applications for mobile devices and downloadable application software for mobile devices, all for utilising metocean forecasts, metocean reports, metocean information and metocean data to assist in operation of and decision making related to renewable energy projects, energy trading, energy distribution, energy load demand and supply, transport, roads operation and maintenance; downloadable software applications for mobile devices and downloadable application software for mobile devices, all for utilising metocean forecasts, metocean reports, metocean information and metocean data to assist in operation of and decision making related to railway operation and maintenance, aviation, airport and airline operation and maintenance, marine operations, offshore industry operations, shipping operations, construction, insurance, agriculture, leisure, retail, water management and filming; downloadable electronic publications in the nature of nautical charts relating to weather forecasting, weather reports, weather information, weather data, metocean forecasting, metocean reports, metocean information and metocean data; multimedia software recorded on CD-ROMS relating to weather forecasting, weather reports, weather information, weather data, metocean forecasting, metocean reports, metocean information and metocean data; downloadable electronic publications in the nature of nautical charts and multimedia software recorded on CD-ROMS featuring weather-related and metocean related information and data to assist in operation of and decision making related to renewable energy projects, energy trading, energy distribution, energy load demand and supply, transport, roads operation and maintenance; downloadable electronic publications in the nature of nautical charts and multimedia software recorded on CD-ROMS featuring weather-related and metocean related information and data to assist in operation of and decision making related to railway operation and maintenance, aviation, airport and airline operation and maintenance, marine operations, offshore industry operations, shipping operations, construction, insurance, agriculture, leisure, retail, water management and filming; structural and replacement parts and fittings for all the aforesaid goods

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Transmission and delivery of information and data in relation to weather forecasting, weather reporting, metocean forecasting and metocean reporting via telecommunications and electronic means, namely, via electronic communications networks or the Internet; digital, satellite, television and audio transmission of data and information in relation to weather forecasting, weather reporting, metocean forecasting and metocean reporting; digital, satellite, television and audio transmission of sector-specific data and information based on weather forecasting, weather reporting, metocean forecasting and metocean reporting to assist in operation of renewable energy projects, energy trading, energy distribution, energy load demand and supply, transport, roads operation and maintenance and decision-making in the fields of renewable energy projects, energy trading, energy distribution, energy load demand and supply, transport, roads operation and maintenance; digital, satellite, television and audio transmission of sector-specific data and information based on weather forecasting, weather reporting, metocean forecasting and metocean reporting to assist in operation of railway operation and maintenance, aviation, airport and airline operation and maintenance, marine operations, offshore industry operations, shipping operations, construction, insurance, agriculture, leisure, retail, water management and filming and decision-making in the fields of railway operation and maintenance, aviation, airport and airline operation and maintenance, marine operations, offshore industry operations, shipping operations, construction, insurance, agriculture, leisure, retail, water management and filming; provision of information, advisory and consultancy services in relation to all of the aforesaid services

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Weather forecasting; weather forecasting services; weather reporting services; weather information services; provision of weather data; metocean forecasting; metocean forecasting services; metocean reporting services; metocean information services; provision of metocean data; weather forecasts, weather reports, weather information services, weather data, metocean forecasts, metocean reports, metocean information services and metocean data provided on-line from a computer database or the internet; provision of telephone-based weather reports, weather forecasts, metocean forecasts, metocean reports and metocean information; provision of mobile telephone and mobile electronic device-based weather reports, weather forecasts, metocean forecasts, metocean reports and metocean information; weather forecasting, weather information, metocean forecasting and metocean information services provided via mobile telephone and mobile electronic devices; the provision of sector-specific data and information based on weather forecasting, weather reports, weather information, weather data, metocean forecasting, metocean reports, metocean information and metocean data to assist in the operation of renewable energy projects, energy trading, energy distribution, energy load demand and supply, transport, roads operation and maintenance, railway operation and maintenance and decision-making in the fields of renewable energy projects, energy trading, energy distribution, energy load demand and supply, transport, roads operation and maintenance, railway operation and maintenance; the provision of sector-specific data and information based on weather forecasting, weather reports, weather information, weather data, metocean forecasting, metocean reports, metocean information and metocean data to assist in the operation of aviation, airport and airline operation and maintenance, marine operations, offshore industry operations, shipping operations, construction, insurance, agriculture, leisure, retail, water management and filming and decision making in aviation, airport and airline operation and maintenance, marine operations, offshore industry operations, shipping operations, construction, insurance, agriculture, leisure, retail, water management and filming; research and development in relation to climate, weather forecasting and metocean forecasting; provision of information, advisory and consultancy services in relation

to all of the aforesaid services

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

Standard Character Claim Yes. The mark consists of standard characters without claim to any particular font style, size, or color. **Mark Drawing Type** 4 - STANDARD CHARACTER MARK **Name Portrait Consent** The name(s), portrait(s), and/or signature(s) shown in the mark does not identify a particular living individual.

RELATED PROPERTIES INFORMATION

International Registration 1532160 **International Registration Date** Mar. 04, 2020

GOODS AND SERVICES INFORMATION

For Vehicles for use on land; remotely controlled land vehicle; powered vehicles for use on land; tractor-trailer drawn land vehicles in the nature of cultivators, harvesters, seeders, fertilizers, soil tillagers, disk harrowers, sprayers, weeders, composters; steering units for land vehicles; parts and fittings for land vehicles; quad bikes; self-propelled land vehicles; self-propelled electric vehicles for use in agriculture, forestry and horticulture

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Robotic industrial agricultural machines, namely, cultivators, harvesters, seeders, fertilizer spreaders, soil tillagers, disk harrowers, sprayers, weeders, composters; industrial robotic machines for use in processing food; self-propelled measuring systems for agriculture, namely, self-propelled machines for cultivating, seeding, tillaging, fertilization, weeding, harvesting, composting, spraying combined with measuring equipment as an integral component of the goods; self-propelled fertilization machines for use in agriculture, forestry and horticulture, namely, fertilizer sprayers and spreaders, injectors; tractor-towed fertilizer applicators; tractor towed agricultural implements, namely, manure spreaders; tractor towed agricultural implements, namely, fertilizer distributors; excavating machines; agricultural machines for ground cultivation; soil engaging parts being integral components of agricultural machines; tilling implements for agricultural use; garden tilling machines; agricultural machines for ground cultivation; lawn and garden tilling machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Agriculture and food sensors and agriculture and food substances detectors; digital sensory devices, namely, electrical sensor apparatus for sensing the presence or absence of individuals or objects or of agriculture and food substances properties; downloadable and recorded software for analyzing sensory data; electric sensors; photoelectric sensors; optical sensors; Electronic proximity sensor switches; spectroscopes; photo electron spectroscopy analyzers, not for medical purposes; electro-optical sensors for measuring properties of agriculture and food substances or goods; sensor controllers in the nature of scanners for automatic dosing control; downloadable and recorded robotic process automation (RPA) software; computers for autonomous-driving vehicles, namely, on-board vehicular computers; sensors for agriculture and food substances or goods measuring instruments; sensors used in plant control, namely, optical sensors for monitoring and control of plant properties; downloadable and recorded recommendation data management software for agriculture and food substances or goods; downloadable and recorded computer programmes for data processing; downloadable and recorded database server software for handling and storing agriculture and food data streams and its data management; downloadable and recorded interactive software for data management and visualization for agriculture and food sector based data; downloadable and recorded embedded software for electronic instruments used in the agriculture and food sector; downloadable and recorded data management software for data storing and visualization; downloadable and recorded integrated software suite for the automation of laboratories; downloadable applications for use with mobile devices for storing and managing data from agriculture and food sector; electronic meters for tracking and monitoring the behavior and properties of instruments used in the agriculture and food sector; measuring apparatus for detecting properties of agriculture and food substances or goods; optical measuring apparatus for detecting properties of agriculture and food substances or goods; soil, manure, silage, seed or another agriculture and food gauges with digital readout; physical analyzers for analyzing agriculture and food substances, other than for medical use; testing apparatus not for medical purposes for testing properties of agriculture and food substances; photometric analyzers for analyzing agriculture and food substances, other than for medical use; measuring systems for real-time soil analysis, namely, optical spectroscopy, impedance spectroscopy, temperature sensors, pressure sensors, force sensors, pH sensors, conductance sensors, acceleration sensors, vibration sensors, compression sensors for real-time soil analysis

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Surface spreading of fertilizers; fertilizer spreading; providing information relating to the spreading of fertilizers; providing information relating to the use of fertilizers; advisory and consultancy services relating to the use of agricultural and horticultural fertilizers; information services relating to the use of manures used in horticulture; information services relating to the use of manures used in agriculture; information services relating to the use of manures used in forestry; information services relating to the use of fertilizers used in agriculture; information services relating to the use of fertilizers used in forestry; information services relating to the use of fertilizers used in horticulture; advisory and consultancy services relating to the use of manure in agriculture, horticulture and forestry; advisory and consultancy services relating to the use of fertilizers in agriculture, horticulture and forestry; consultancy in the field of ecotrophology

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For Engineering design of measurement systems for others; software as a service (SaaS), namely, hosting software for use by others for agriculture and food data management; consulting services in the field of software as a service (SaaS); web site hosting services; rental of computer software; customization of computer software services; software development; installation of software; computer programming; updating of software for data processing; maintenance and updating of computer software; design, development and implementation of software; design and development of software in the field of mobile applications; research and development services relating to fertilizers; creation of control programs for automated measurement, assembly, adjustment, and related visualization; soil property testing services; bacteriological analysis, namely, scientific testing in the field of bacteria; biochemical analysis, namely, scientific testing in the biochemical field; chemical analysis; geological research in the nature of analysis of geological samples; soil sampling for analysis purposes; conducting analyses of foodstuffs, namely, food safety testing and consulting related thereto; drinking water analysis; heavy metal analysis; environmental analysis, namely, analyzing weather, sunlight, and air quality data; engineering services relating to robotics; design of land vehicle parts; technological consultancy in the field of geology

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

RELATED PROPERTIES INFORMATION

International Registration 1536303 **International Registration Date** Jan. 23, 2020

GOODS AND SERVICES INFORMATION

For Land vehicles; apparatus for locomotion by land, air or water, namely, boats; crankcases for components for motor cars, other than for engines; crankcases for land vehicle components, other than for engines; automobiles and structural parts therefor; brake cables for vehicles; powertrains, namely, engines and motors, for land vehicles; automobile engines; parts and fit-tings for land vehicles; parts and fittings for air and space vehicles; parts and fittings for water vehicles; airplanes and structural parts therefor

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Metal working machine tools; power operated tools, namely, grinders; motors, other than for land vehicles; propulsion mechanisms, other than for land vehicles, namely, industrial engines; machine coupling and transmission components, except for land vehicles; agricultural implements other than hand operated hand tools, namely, incorporators; catalytic converters for the exhaust gases of internal combustion engines; waste gas conduits being parts of ma-chines; exhaust gas treatment systems for diesel engines; waste gas return valves being parts of machines; metal branching pipes being parts of engines; adaptors for pipes being parts of machines; intake manifolds for motors; Structural parts for engine boilers; exhaust manifold for engines; automotive exhaust pipe; exhaust pipes for land vehicles; bellows being parts of machines; drilling rigs for drilling off-shore wells; exhaust bypasses being structural parts; metal joints for pipes being parts of machines; metal joints for tubes being parts of engines; electric motors, and their parts, not for land vehicles; clamp connectors for piping being parts of machines; crankcases for machines, motors and engines; hydraulic circuits for machines; hydraulic valves being parts of machines; fuel injection systems for engines; manifolds being parts of machines; manifolds being parts of engines; heat sinks for use in

machines; couplings, other than for land vehicles; couplings of metal for hydraulic apparatus; metal joints for tubes being parts of machines; metal hoses for transferring hydraulic power in machines; swaging machines for use in the assembly of hoses; swaging machines for use in the preparation of hose assemblies; tubes being fitted parts of machines; sound absorbers, namely, silencers being parts of vehicle exhaust systems; sound absorbers, namely, silencers being parts of exhaust systems for machines; metal hoses for use in hydraulic systems in machines; non-metallic pre-insulated bonded pipes being parts of machines; bending machines for tubes; pipes being fitted parts of machines; machine tools, namely, casing cutters; machine tools for use in binding hoses; non-metallic hoses for transferring hydraulic power in machines; exhaust gas recirculation (EGR) valves for motors and engines; automotive intake manifolds; oil coolers for motors; compressors as parts of machines, motors and engines; non-electric coupling sleeves being parts of engines for land vehicles

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For shower hoses; shower hoses for hand showers; chimney flues and installations for conveying exhaust gases; supports adapted for use with solar heating tubes; fittings being structural parts for flues; sanitary water conduit plumbing fittings; heating installation structural parts, namely, heat trace cables; vent covers; flexible pipes being structural parts of bath plumbing installations; flexible pipes being structural parts of shower plumbing installations; flexible pipes being structural parts of sink plumbing installations; taps for pipes and pipelines; heating installations; Ventilating fans for industrial purposes; Air-conditioning apparatus; refrigerating cabinets; heat exchangers for chemical processing; coils as parts of cooling installations; pipes being parts of sanitary installations; diesel fuel line heaters; taps being faucets; household tap-water filters; Air conditioning installations for vehicles; ventilating apparatus for vehicles; Air purification units; Safety accessories for gas pipes, namely, flashback arrestors and reverse flow check valves; tap-water purifying apparatus; Pipes for heating boilers; Coils as parts of distilling, heating or cooling installations; Lawn sprinkler systems comprising pumps, valves and filters; Spigots for pipes and pipelines being parts of sanitary installations; valves being parts of sprinkler systems; heat exchangers, other than parts of machines; corrugated pipes of metal being parts of sanitary installations; tubular heating elements; pipe line cocks; pipe laying cocks; coils being parts of cooling installations; coils being parts of heating installations; coils being parts of distilling installations; flexible pipes being parts of basin plumbing installations; heat exchangers for the removal of exhaust gases; flues for heating installations; HVAC units; heating boilers; fireplace dampers; Flexible heating elements for automobile seats, namely, flexible wire-knitted and woven heating tapes; vehicle HVAC units; Water filtration apparatus for the deionization of water; ventilators for automobiles; air conditioners for vehicles; solar energy powered heating installations; spouts being plumbing fittings; Plumbing fixtures, namely, shower sprayers; Sanitizing apparatus for linens using ultraviolet light, ozone sterilization and low pressure techniques; filters for use with HVAC units; flexible strip wound pipes of metal being parts of sanitary installations; sliding plate fireplace dampers; plastic elbow bends for pipes being parts of sanitary installations; spray nozzles being parts of water supply installations

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission, reproduction or processing of sound, images or data; Digital media, namely, pre-recorded DVDs, downloadable audio and video recordings providing information in the field of industrial metal goods; downloadable software for data processing; blank digital or analog recording and storage media; Mechanisms for coin-operated apparatus; cash register; calculator; fire extinguishers; Educational apparatus, namely, blocks used as teaching aids for modeling chemical compounds; DVD recording apparatus; blank magnetic data carriers, Data processing equipment, namely, couplers; computers; battery boxes; exhaust gas temperature gauges; downloadable computer application software for use in implementing the Internet of Things (IoT); downloadable computer software for use in remote meter monitoring; Panel meters, namely, an electronic instrument that displays an input signal in either a digital or analog form; real-time data processing apparatus; electrical ducts; Electronic devices for measuring electric current; electronic components, namely, battery chargers; electronic sound level meters; electronic surveillance cameras; Microcontrollers for inter-net of things (IoT) enabled devices; housings adapted for electrical regulating apparatus and housings specially adapted for apparatus for conducting, switching, transforming, accumulating, regulating or controlling electricity; intelligent gateway routers for real-time data analysis; Central processing unit (CPU) coolers; coolers for processors for data processing apparatus; coolant-temperature sensors; downloadable artificial intelligence software for surveil-lance; air/fuel ratio gauges; optical cables; movement and distance measuring apparatus and instruments; measuring tapes; fuel consumption measuring apparatus; diesel oil emission testers; downloadable real-time collaborative editing (RTCE) platforms software; fire hose nozzles; Industrial calibration sensors; downloadable computer-aided engineering (CAE) soft-ware; downloadable product lifecycle management software; downloadable predictive maintenance software; Photovoltaic solar modules for production of electricity; sprinkler systems for fire protection; particle emission and flow measuring instruments; sheaths for optical fiber cable; downloadable computer maintenance software; downloadable software for operating an online shop; downloadable software for evaluating customer behavior in online shops; downloadable mobile application software for social networking services; downloadable ring tones for mobile phones; Downloadable computer software for authorizing access to databases; Downloadable electronic data files featuring maintenance in-formation; downloadable electronic phone directories; downloadable computer soft-ware platforms, application software, and programs all for planning, calculation and de-sign of pipeline systems, of plant parts and of flexible pipe elements, of pipe expansion joints and pipe supports; downloadable computer software development tools; down-loadable computer programs for data processing; downloadable document management software; downloadable computer software for the transmission of data; downloadable computer software for the management of information; downloadable computer software for moderation of electronic bulletin boards; downloadable computer programs used for electronic cash register systems; downloadable computer programs for project management; downloadable computer software relating to the handling of financial transactions; down-loadable computer software for application and database integration; electronic tags for goods; electronic security tags for goods; audiovisual teaching apparatus, namely, computer hardware; digital input and output scanners; digital voice signal processors; digital recording computer hardware; wireless keyboards; decoding computer hardware; downloadable electronic ships logs; Encoding and decoding apparatus and instruments; electronic inter-active whiteboards; electronic encryption units; Downloadable electronic notebooks; notebook computers; laptop computers; electronic decoding label readers; demagnetizing apparatus for magnetic tapes; wireless computer keypads; communications equipment, namely, tele-phones; multifunctional devices which incorporate copier and facsimile functions in the standalone mode; multifunction keyboards; optical encoders; optical transmitters; speech recognition computer hardware;

keyboards; time programmers being computer hardware; Components for electrical mains in the nature of electric wires; smartglasses; electronic door alarms; computer mouses; Electronic components for computers; computer cables; computer chips; computer network hardware USB hardware; computer memory modules; computer internet servers; computer hardware; computer screens; input devices for computers; computers and computer hardware; microcomputers; computer touchscreens; touchpads for computers; portable hard disk drives for computers; covers for tablet computers; keyboards for tablets; tablet docking stations; computer hardware for telecommunications; computer net-working and data communications computer hardware; Electronic personal organizer; electronic diaries; electronic agendas; magnetic encoders; electronic payment terminals; auto-mated teller machines (ATM); money sorting machines; point of sale terminals; electronic cash registers; automatic cash registers; money counting and sorting machines; bar code readers; downloadable computer software for dissemination of advertising; electronic advertising displays, namely, digital signage; luminous signs used for advertising; downloadable soft-ware for embedding online advertising on websites; mechanical signs used for advertising; downloadable software for designing online advertising on websites; downloadable software for renting advertising space on websites; commercial display monitors; downloadable ma-chine learning software for advertising; encoded charge cards; magnetically encoded charge cards; downloadable customer relation management (CRM) software; downloadable customer relationship management software (CRM); downloadable computer communication software to allow customers to access bank account information and transact bank business; encoded loyalty cards; downloadable social networking software; electronic mail network servers; downloadable mail server software; downloadable electronic mail and messaging software; downloadable application software for social networking services via internet; downloadable community social networking software; downloadable software for GPS navigation systems; downloadable industrial process control software; downloadable gesture recognition software; downloadable software for diagnostics and troubleshooting of computer issues; downloadable software applications for use with mobile devices; downloadable soft-ware applications for use with three dimensional printers; safe load indicating electronic apparatus; computer hardware modules for use in electronic devices using the Internet of Things (IoT); water sprinkling devices for fire control; water level indicators for vehicles; oil-water level sensors; level indicators; water temperature gauges; water temperature regulators; water level detection apparatus; water level indicators; water leakage detection alarms; water meters; scientific apparatus for determining the water content in petroleum products; gasometers; Gas sensors for measuring gas concentration; electronic apparatus for measuring gas concentration; gas flow meters; gas flow monitors; electronic apparatus for monitoring gas consumption; alarms for the detection of inflammable gases; fuel cells; fuel cell electrodes; electronic components for fuel regulating; combustion gas detectors; fire and flame detectors; down-loadable fire detection software; downloadable fire modeling and simulation software; Sprinkler systems for fire protection; electric control devices for heating management; carbon monoxide detectors; carbon dioxide detectors; telemetry devices for motor vehicles; fluid level measuring apparatus for use in motor vehicles; air pollution measuring devices; downloadable software to control building environmental, access and security systems; Virtual reality head-sets; electronic sensors for monitoring physical movements for non-medical purposes; vibration sensors; downloadable industrial software to control and automate machines; electric installations for the remote control of industrial operations comprising computer hard-ware; downloadable virtual and augmented reality software; downloadable computer pro-grams for network management; downloadable communication and networking software

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Metals; buildings, transportable, of metal; non-electric cables and wires of common metal; met-al hardware, namely, nuts and bolts; clips of metal for cables and pipes; collapsible tubes of metal; metal racking structure for supporting tubes; metal heating ducts; metal fuel oil hos-es; clips of metal for tubes; elbows of metal for connecting gas piping to gas appliances; ducts of metal for air-conditioning installations; ducts of metal for ventilating installations; metal pipes and tubes; industrial metal hoses; metal valves not being parts of machines; ventilating ducts of metal; pipes and tubes of metal; couplings of metal for tubing; metal couplings for fire hoses; metal pipes for liquid and gas transfer; metal hoses for agricultural use; metal hoses for plumbing use; metal hoses for swimming pools; metal valves for controlling the flow of fluids in pipelines; metal valves for controlling the flow of gases in pipelines; pipe fittings of metal; non-electric ducting conduits of metal; pipe spacers of metal; fittings of metal for pipes; pipe tubes of metal; tubes of metal; collars of metal for fastening pipes; ducts made of metal for trunking conduits for liquids; ducts made of metal for trunking pipes for gases; ducts made of metal for trunking pipes for liquids; metal tubes for gas; metal air conditioning ducts; metal pipe supports; pipe extensions of metal; ducts of metal for housing ventilation pipes; junctions of metal for pipes; hose hangers of metal; metal hose clamps; metal hose fittings; wall hooks of metal for pipes; pipe muffs of metal; elbows of metal for pipes; pipework of metal; pipe support sleeves of metal; metal joint connectors for pipes; pipe unions of metal; branching tubes of metal for pipelines; flexible tubes of metal

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

GOODS AND SERVICES INFORMATION

For Meat; frozen fish; poultry and game; meat extracts; preserved, frozen, dried and cooked fruits and vegetables; jellies, jams, compotes; eggs; milk, cheese, butter, yoghurt and other milk products, namely, milk-based beverages, milkshakes; oils and fats for food; meat stocks; meat paste; meat spreads; ground meat; minced meat; meat burgers; meat preserves; meat extracts; sausage meat; meat, frozen; meat substitutes; fresh meat and dried meat

International Classes 29 - Primary Classes **US Classes** 46 **International Class Title** Meats and Processed Foods

For Gas converters, namely, apparatus for converting gas into desired units for trade; catalytic converters; gas compressors; gasifiers; compressors for gases; inert gas-operated power generators being machines; filters for gases for use in machines; pressure multiplier for gases, being parts of machines; suction valves for gas compressors; gaskets for internal combustion engines; compressors for recovering and recycling refrigerant gases; blowing machines for the compression, exhaustion and transport of gases; filters for hot gases for use with internal combustion engines; catalytic converters for the exhaust gases of internal combustion engines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Gas recovery apparatus for use in gas recycling systems in industrial applications; filters for gas extractors; gas condensers, other than parts of machines; condensers of CO2 gases, other than parts of machines; heat exchangers for the removal of exhaust gases, not as part of machines; industrial gas boilers for water heating; heating apparatus for gaseous fuels; filters for waste gas purification; filters for gases, namely, air filters for household and or industrial installations; filters for cleaning gases, namely, air filters as parts of household or industrial installations; gas purification apparatus; gas scrubbing apparatus; gas purification machines; purification machines for CO2 gases; gas scrubbing and purification apparatus; apparatus for scrubbing gases; apparatus for the purification of gases; gas recovery apparatus; gas purification installations; separators for

purifying gas; gas generating furnaces for industrial purposes; installations for the burning off of gases; reactors for gas, namely, -reactors for gas-gas reactions; gas reactors, namely, reactors for gas-solids reactions; air purification apparatus; decontamination chambers in the nature of air purifying apparatus; combustion chambers

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Methane; catalysts for use in the control of carbon dioxide emissions; carbon dioxide filled cylinders, cartridges, canisters other than for medical or veterinary use); accelerators for organic chemical reactions, namely, bonding, vulcanization; accelerators for speeding up chemical reactions, namely, bonding, vulcanization; activators to increase rate of chemical reaction, namely, bonding, vulcanization; chemicals, namely, oxidised saccharides in solution form; chemicals, namely, oxidised saccharides in dry form

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Retail, wholesale and online retail store services relating to methane, catalysts for use in the control of carbon dioxide emissions, carbon dioxide other than for medical or veterinary use, accelerators for organic chemical reactions, accelerators for speeding up chemical reactions, activators to increase rate of chemical reaction, oxidised saccharides in solution form, oxidised saccharides in dry form, gas converters, catalytic converters, gas compressors, gasifiers, compressors for gases, inert gas generators as machines, filters for gases as machines, pressure multiplier for gases, suction valves for gas compressors, gaskets for internal combustion engines, compressors for recovering and recycling refrigerant gases, gas blowing machines for the compression, exhaustion and transport of CO2 gases, blowing machines for the compression, exhaustion and transport of gases, processing machines using processing gases for the treatment of objects, filters for hot gases for use with internal combustion engines, catalytic converters for the exhaust gases of internal combustion engines, gas recovery apparatus, filters for gas extractors, gas condensers, other than parts of machines, condensers of CO2 gases, other than parts of machines, heat exchangers for the removal of exhaust gases, gas boilers for water heating, heating apparatus for gaseous fuels, filters for waste gas purification, filters for gases as household or industrial installations, filters for cleaning gases being parts of household or industrial installations, gas purification apparatus, gas cleaning apparatus, gas purification machines, purification machines for CO2 gases, gas cleaners and purifiers, apparatus for cleaning gases, apparatus for the purification of gases, installations for the collection of gases, gas purification installations, separators for purifying gas, gas generating furnaces for industrial purposes, installations for the burning off of gases, reactors for gas-gas reactions, reactors for gas-solids reactions, air purification apparatus, decontamination chambers, combustion chambers, meat, processed fish, poultry and game, meat extracts, preserved, frozen, dried and cooked fruits and vegetables, jellies, jams, compotes, eggs, milk, cheese, butter, yoghurt and other milk products, oils and fats for food, meat stocks, meat paste, meat spreads, ground meat, minced meat, meat burgers, meat preserves, meat extracts, sausage meat, meat, frozen, meat substitutes, fresh meat and dried meat, gas sensors, gas masks, gas detecting apparatus, combustion gas detectors, gas flow monitors, apparatus for analysing gases, apparatus for monitoring gas consumption, air-gas producers for scientific experiments in laboratories; advice, information and consultancy services relating to all of the aforesaid services; compilation of environmental information for business purposes; collection of information relating to the environment for business purposes

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Gas sensors; gas masks; gas detecting apparatus; combustion gas detectors; gas flow monitors; apparatus for analysing gases; apparatus for monitoring gas consumption, namely, fuel gauges; air-gas producers for scientific experiments in laboratories

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Agriculture services, namely, spreading mulch, plant selection, plant propagation, fertilizer application; fumigation, namely, vermin extermination in agriculture; professional consultancy relating to agriculture in the fields of agricultural chemistry, irrigation, fertilization; agriculture, horticulture and forestry services, namely, spreading mulch, irrigation, pest control, soil conditioning; consultancy services relating to agriculture, in the fields of agricultural chemistry, irrigation, fertilization; cultivation advisory services relating to agriculture; providing online information about agriculture, horticulture, and forestry services; information services relating to the use of chemicals used in agriculture; advisory and consultancy services relating to the use of non-chemical treatments for sustainable agriculture and horticulture; rental of farming apparatus ; rental of agricultural machinery rental of farming equipment; rental of agricultural machinery; farming equipment rental; rental of agricultural equipment; rental of agricultural implements; agricultural services relating to environmental conservation, namely, plant selection and propagation; livestock farming services; veterinary and agricultural services in the nature of irrigation, fertilization, plant selection, plant propagation; information services relating to cattle, hydroponic, vegetable, insect farming; spreading of agricultural chemicals; agricultural advice in the field of irrigation, fertilization, plant selection, plant propagation; agricultural consultancy in the field of irrigation, fertilization, plant selection, plant propagation; agricultural advisory services in the field, irrigation, fertilization, plant selection, plant propagation; consultancy services relating to cattle, hydroponic, vegetable, insect farming; consultancy relating to cattle, hydroponic, vegetable, insect farming; agricultural information services in the field of irrigation, fertilization, plant selection, plant propagation; cattle, hydroponic, vegetable, insect farming services; information services relating to cattle, hydroponic, vegetable, insect farming; cattle farming services; pest control in agriculture

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For Environmental testing; environmental surveys, namely, aerial, geological, land, surveys; environmental consultancy services, namely, technical consultancy in the field of environmental science; environmental hazard assessment, namely, environmental assessment relative to the extent of hazardous conditions in an environment; environmental assessment services; environmental monitoring services, namely, monitoring ecological success in the field of environmentally sensitive habitat conservation; consultation in environment protection; environmental testing and inspection services; research relating to environmental protection; advisory services relating to environmental protection; scientific advisory services relating to environmental pollution; scientific research in the area of environmental protection; scientific research in the field of environmental conservation; technical consultancy in the field of environmental science; consultancy services relating to research in the field of environmental protection; gas exploration; research in the reduction of carbon emissions; provision of scientific information, advice and consultancy in relation to carbon offsetting

For 3D spectacles; DVD players; blank USB flash drives; fire escape ladders; solenoid valves being electromagnetic switches; automatic indicators of low pressure in vehicle tyres; aerometers; asbestos safety screens for firemen; asbestos clothing for protection against fire; asbestos gloves for protection against accidents; azimuth instruments; actinometers; accelerometers; accumulators, electric; accumulators, electric, for vehicles; accumulator boxes; acoustic alarms; acoustic couplers; acoustic conduits; horns for loudspeakers; alarm bells, electric; alarms; alidades; altimeters; ammeters; anemometers; DVDs featuring animated cartoons; anodes; anode batteries; antennas; anticathodes; air analysis apparatus; food analysis apparatus, namely, diagnostic apparatus for testing food; apparatus to check franking, namely, calculating scales; intercommunication apparatus, namely, intercoms; laboratory apparatus for fermentation; galvanisation apparatus, namely, current generators; glazing apparatus for photographic prints; global positioning systems (GPS) apparatus; breathing apparatus for underwater swimming; breathing apparatus, except for artificial respiration, namely, self-contained breathing apparatus (SCBA); distance recording apparatus; pressure measuring apparatus; speed measuring apparatus for photography; distance measuring apparatus; apparatus for measuring the thickness of leather, testing apparatus not for medical purposes, namely, plastic testing machines; ionisation apparatus, not for the treatment of air or water for scientific or laboratory use; boiler control instruments; speed checking apparatus for vehicles, namely, speedometers; egg-candlers; magnetic resonance imaging (MRI) apparatus, not for medical purposes; monitoring apparatus, other than for medical purposes, namely, alarm monitoring systems; apparatus to check stamping mail, namely, calculating scales; x-ray photographs, other than for medical purposes; teleprompters; remote control apparatus for conveyor machines; satellite navigational apparatus; apparatus and installations,

for the production of x-rays, not for medical purposes; weighing apparatus and instruments; apertometers being optics; audio and video receivers; audiovisual teaching apparatus, namely, vehicle drive training simulators; audio interfaces; audio mixers; acidimeters for batteries; rods for water diviners; automated teller machines (ATM); barometers; batteries, electric; batteries, electric, for vehicles; high tension batteries; batteries for electronic cigarettes; batteries for lighting; baby monitors; baby scales; video baby monitors; cordless telephones; betatrons; electronic parking lot ticket dispensers; binoculars; biochips for research or scientific purposes; coils, electric; locks, electric; bullet-proof waistcoats; bullet-proof clothing; counters, namely, Geiger counters; thread counters; money counting and sorting machines; push buttons for electronic warning bells; vacuum gauges; washing trays for photography; variometers; scales; scales with body mass analysers; eyeglass chains; wind socks for indicating wind direction; video screens; camcorders, blank video cassettes; video recorders; video telephones; viewfinders, photographic; screw-tapping gauges; viscosimeters; loudspeakers; high-frequency apparatus, namely, high-frequency switching power supplies; diving equipment, namely, helmets; divers' masks; naval signalling apparatus, namely, signaling buoys; solderers' helmets; voltmeters; time recording apparatus; cell phone straps; wavemeters; gasometers; electric discharge tubes, other than for lighting; galvanic batteries; galvanic cells; galvanometers; surveying machines and instruments; surveying instruments; record players; phonograph records featuring music; downloadable graphics for mobile phones; encoded identification bracelets, magnetic; lightning conductors; graduated glassware; range finders for cameras; flowmeters; decompression chambers; decorative magnets; densimeters; stills for laboratory experiments; distillation apparatus for scientific purposes; detectors, namely, smoke detectors; counterfeit coin detectors; smoke detectors; pocket calculators; joysticks for use with computers, other than for video games; juke boxes for computers; diagnostic apparatus, not for medical purposes, namely, diagnostic apparatus for testing food; photography slides; diaphragms for cameras for photography; diaphragms for scientific apparatus for microscopes; climate control digital thermostats; digital photo frames; dictating machines; dynamometers; blank disks, magnetic; disk drives for computers; diffraction apparatus for microscopes; respiratory masks, other than for artificial respiration, namely, respiratory masks for the prevention of accident or injury; DNA chips; dosimeters; speaking tubes; choking coils for use in electrical apparatus; carpenters' rules; holders for electric coils; carriers for photographic dark plates; audio equalizer apparatus; electric and electronic effects units for musical instruments; electrified fences; electrified rails for mounting spot lights; electrical adapters; electric door bells; electric apparatus for commutation, namely, commutators; electric installations for the remote control of industrial operations; electric wire harnesses for automobiles; electronic key fobs being remote control apparatus; fuses; electric sockets; flashing safety lights being luminous signals; electric plugs; electro-dynamic apparatus for the remote control of signals; electro-dynamic apparatus for the remote control of railway points; electricity conduits; electrolysers; electromagnetic coils; electronic pocket translators; electronic tags for goods; electronic interactive whiteboards; valve amplifiers; vacuum tubes for radios; electronic collars to train animals; electronic sheet music, downloadable; electronic pens for visual display units; electronic publications, downloadable, namely, magazines, newsletters in the field of web hosting; light-emitting electronic pointers; electronic access control systems for interlocking doors; electronic notice boards; electronic numeric displays; electronic agendas; downloadable emoticons for mobile phones; epidiascopes; test tubes; ergometers not for medical purposes; temperature indicator labels, not for medical purposes; sound locating instruments, namely, sonar; security tokens hardware being encryption devices; mercury levels, namely, bubble levels; lifesaving apparatus and equipment, namely, life vests; wires, electric; juke boxes, musical; coin-operated mechanisms for operating gates for car parks or car parking lots; coin-operated mechanisms for television sets; igniting apparatus, electric, for igniting at a distance, namely, electric igniters used in connection with ballasts to start discharge lamps; charging stations for electric vehicles; battery chargers; chargers for electric batteries; chargers for electronic

cigarettes; shutters for photography; saccharometers; protective helmets; protective suits for aviators; protective industrial respiratory masks; protective films adapted for smartphones; workmen' s protective face-shields; protection devices for personal use against accidents, namely, nets for protection against accidents; protection devices against x-rays, not for medical purposes, namely, clothing for protection against radiation; protective films adapted for computer screens; sound alarms; sound reproduction apparatus; sound recording apparatus; blank sound recording discs; blank sound recording strips; blank sound recording carriers; sounding apparatus and machines, namely, sound amplifiers; sounding leads, namely, marine depth finders; sound transmitting apparatus; warning bells; signs, luminous; electric buzzers; needles for record players; identification threads for electric wires; identification sheaths for electric wires; measures, namely, tape measures; measuring glassware; measuring apparatus, namely, tape measures; surveying chains; measuring instruments, namely, tape measures; gauges, namely, depth gauges; measuring devices, electric, namely, lasers for measuring; satellite finder meters; data processing apparatus; inverters for electricity; inductors for electricity; water level indicators; quantity indicators, namely, level indicators; electric loss indicators, namely, faulted circuit indicators; pressure indicators; electrical inductors; incubators for bacteria culture; theft prevention installations, electric, namely, theft alarms; gas testing instruments; observation instruments, namely, telescopes; levelling instruments, namely, levelling rods; instruments containing eyepieces, namely, microscopes; material testing instruments and machines, namely, electronic equipment for inspection and detection of foreign material within containers; integrated circuits; interactive touch screen terminals; interfaces for computers; infrared detectors; battery starter cables for motors; cables, electric; electrical ducts; calibrating rings, namely, ring sizers; calorimeters; sleeves for laptops; eyeglasses cases; covers for personal digital assistants (PDAs); cases for smartphones; covers for tablet computers; close-up lenses; rearview cameras for vehicles; weighing machines; bathroom scales; covers for electric outlets; capillary tubes for laboratory use; memory cards for video game machines; blank smart cards being blank integrated circuit cards; video game cartridges; ink cartridges, unfilled, for printers and photocopiers; cassette players; riding helmets; accounting machines; cathodes; cathodic anti-corrosion apparatus, namely, electronic device for eliminating corrosion from a boat lift in sea water; kilometer recorders for vehicles; cinematographic cameras; cinematographic film, exposed; oxygen transvasing apparatus, namely, oxygen regulators; cellular phones; coaxial cables; encoded key cards; encoded magnetic identity cards; collectors, electric in the nature of photovoltaic cells also including a solar thermal collector sold as a unit; compact disc players; blank audio-video compact discs; blank read-only memory compact discs; comparators; directional compasses; compasses for measuring; computers; computer software, recorded, for web site hosting; computer screen saver software, recorded and downloadable; computer hardware; notebook computers; computer keyboards; computer peripheral devices; computer programs, downloadable, for web site hosting; computer programs, recorded, for web site hosting; computer software platforms, recorded and downloadable, for web site hosting; computer software applications, downloadable, for web site hosting; commutators; converters, electric; condensers being capacitors; contacts, electric; contact lenses; safety traffic cones; nautical apparatus and instruments, namely, navigation apparatus for boats; correcting optical lenses; cosmographic instruments, namely, telescopes; diving suits; pedometers; galena crystal detectors for use in electronics; circular slide rules; battery boxes; cabinets for loudspeakers; cases especially made for photographic apparatus and instruments; laboratory trays; ovens for laboratory use; laboratory robots; laboratory pipettes; laboratory centrifuges; logs being measuring instruments in the nature of electronic data recorders; lasers, not for medical purposes; lactometers; darkroom lamps for photography; flash-bulbs for photography; laptop computers; blank videotapes; head cleaning tapes for audio and video recorders; lenses for astrophotography; spectacle lenses; lens hoods; measuring rulers; squares for measuring; identity cards, magnetic; slide-rules; sounding lines in the nature of

marine depth finders; magnifying glasses being optics; magic lanterns; magnets; magnetic encoders; blank magnetic tapes for tape recorders; magnetic tape units for computers; blank magnetic data carriers; magnetic wires; tape recorders; crash test dummies; resuscitation mannequins being teaching apparatus; manometers; marking gauges for joinery purposes; surveyors' levels; mathematical instruments, namely, calculators; masts for wireless aerials; invoicing machines, namely, calculating machines; mechanical signs; beacons, luminous; megaphones; copper wire, insulated; acoustic diaphragms, namely, acoustic baffles sold as a component of loudspeakers; tone arms for record players; surveying instruments, namely, plane tables; measuring spoons; volumetric measuring apparatus, namely, level indicators; metal detectors for industrial or military purposes; material for electricity mains, namely, electrical wires and cables; meteorological balloons; meteorological instruments; metronomes; mechanisms for counter-operated apparatus, namely, mechanisms for token-operated apparatus; mechanisms for coin-operated apparatus; micrometers; micrometer screws for optical instruments; microprocessors; microscopes; microtomes; microphones; mouse being a computer peripheral; trackballs being computer peripherals; modems; parking meters; computer monitors; downloadable computer programs for monitoring computer servers; apparatus for editing cinematographic film; marine compasses; weighbridges; nets for protection against accidents; downloadable music files; navigation apparatus for vehicles being on-board computers; electric navigational instruments; knee-pads for workers; neon signs; levels being measuring instruments for determining the horizontal; spirit levels; surveying instruments, namely, levelling staffs; verniers; sheaths for electric cables; safety restraints, other than for vehicle seats and sports equipment, namely, lanyards for safety purposes for fall protection; objectives for optical lenses; selfie lenses for smartphones; furniture especially made for laboratories; clothing for protection against accidents, irradiation and fire; clothing for protection against fire; protective clothing especially made for laboratories; marking buoys; measuring instruments in the nature of revolution counters; shoes for protection against accidents, irradiation and fire; teaching apparatus, namely, teaching robots; teaching robots; scientific and technical apparatus, namely, optical mirrors; inspection mirrors for inspecting work; electricity limiters; ozonisers being ozonators; octants, protractors being measuring instruments; protective eye pieces; ohmmeters; computer operating programs, recorded; optical apparatus and instruments, namely, optical scanners; optical fibers being light conducting filaments; blank optical discs; fibre optic cables; optical condensers; optical lamps; optical lenses; telescopic sights for artillery; sighting telescopes for firearms; blank optical data carriers; optical glasses; optical lanterns; optical character readers; organic light-emitting diodes (OLED); oscillographs; plumb lines; reflecting discs for wear, for the prevention of accidents; spectacles; sunglasses; goggles for sports; eyewear; radio pagers; pince-nez; periscopes; personal digital assistants (PDAs); punched card machines for offices; printed circuit boards; printed circuits; piezoelectric sensors; droppers for measuring, other than for medical or household purposes; pyrometers; planimeters; plates for batteries; wafers for integrated circuits; plotters; grids for batteries; step-up transformers; mouse pads; wrist rests for use with computers; ear pads for headphones; fire alarms; fire boats; fire beaters in the nature of fire blankets; fire hose; fire extinguishers; fire extinguishing apparatus; fire blankets; semi-conductors; polarimeters; wearable video display monitors; wearable computers in the nature of smartwatches; portable media players; walkie-talkies; personal stereos; wearable activity trackers; retorts' stands for laboratory purposes; cleaning apparatus for phonograph records, namely, phonographic record cleaning kits comprised primarily of replacement stylus needles and also including cleaning solution and brushes; cleaning apparatus for sound recording discs, namely, cleaning discs for cleaning the lens of optical disc drives used in computers and digital video recorders; electrical cell switches; switches, electric; switchboxes for electricity; switchboards; transmitters of electronic signals; transmitting sets comprising telecommunication transmitters; teeth protectors, namely, mouth guards for sports; spark-guards, namely, asbestos safety screens for firemen; protective helmets for sports; safety nets; safety tarpaulins; vehicle breakdown warning triangles; anti-theft warning apparatus,

namely, theft alarms; circuit breakers; precision balances; precision measuring apparatus, namely, precision balances; prisms being optics; headgear being protective helmets; document printers for use with computers; hemline markers; pressure indicator plugs for valves; conductors, electric; slide projection apparatus; transparency projection apparatus; projection screens; head guards for sports; mouth guards for sports; visors for helmets; anti-glare glasses; fire engines; fire pumps; sprinkler systems for fire protection; road signs, luminous or mechanical; radar apparatus; radiological apparatus for industrial purposes, namely, x-ray apparatus not for medical purposes; radiology screens for industrial purposes, namely, screens for protection against x-rays for industrial purposes; telecommunication transmitters; radios; vehicle radios; radiotelegraphy sets; radiotelephony sets; branch boxes, namely, electric junction boxes; demagnetizing apparatus for magnetic tapes; electrical distribution consoles; electrical distribution boxes; electrical distribution boards; petrol gauges; spectacle frames; frames for photographic transparencies; projection screens for photoengraving; stage lighting regulators; voltage surge protectors; voltage regulators for vehicles; electric light regulators being dimmers; speed regulators for record players; regulating apparatus, electric, namely, electric light regulators; electrical controllers in the nature of reducers; photographic film cutting apparatus; resistances, electric; time switches, automatic; relays, electric; X-ray apparatus not for medical purposes; X-ray tubes not for medical purposes; X-ray films, exposed; rheostats; protective industrial respirators for filtering air; retorts for use in high temperature chemical reactions; refractometers; refractors in the nature of optical refracting telescopes, spectacle lenses, spectroscopes, telescopes; security surveillance robots; telepresence robots; downloadable ringtones for mobile phones; spools for cameras; armatures for use in electrical apparatus; gloves for divers; gloves for protection against accidents; gloves for protection against x-rays for industrial purposes; hand-held electronic dictionaries; steelyards being lever scales; flashlights for use in photography; photographic exposure meters being light meters; reflective safety vests; screens for photography in the nature of green screens being projection screens; light-emitting diodes (LED); quantum dot light-emitting diodes (QLED); traffic-light apparatus being signalling devices; whistle alarms; dog whistles; connected bracelets being measuring instruments in the nature of wearable activity trackers; sextants; data gloves; fog signals, non-explosive; signals, luminous or mechanical, namely, luminous traffic signals; signalling whistles; signalling panels, luminous or mechanical, namely, luminous signs; signalling buoys; signal bells; rescue laser signalling flares; signal lanterns, namely, rotating lights; sirens; scanners being data processing equipment; speed indicators; headphones; solar batteries; solar panels for the production of electricity; smartglasses; smart rings; smartphones; smartwatches; abacuses; calculating machines; salinometers; sonars; probes for scientific purposes; computer game software, recorded; computer game software, downloadable; lifejackets; life-saving capsules for natural disasters; lifeboats; life nets; survival blankets to prevent injury due to hypothermia; life belts; rescue flares, non-explosive and nonpyrotechnic; life-saving rafts; life buoys; spectrograph apparatus; spectroscopes; alcoholmeters; sports whistles; satellites for scientific purposes; lighting ballasts; stereoscopes; stereoscopic apparatus, namely, stereoscopes; selfie sticks being hand-held monopods; stands for photographic apparatus; stands adapted for laptops; fuse wire; needles for surveying compasses; stroboscopes; fire hose nozzles; subwoofers; sulfitometers; drying apparatus for photographic prints; drainers for use in photography in the nature of drying apparatus for photography prints; drying racks for photography; spherometers; accumulator jars; battery jars; containers for contact lenses; containers for microscope slides; electrical connectors; couplers being data processing equipment; connections for electric lines; electrical wire connectors; connections, electric; junction boxes for electricity; junction sleeves for electric cables; control panels for electricity; tablet computers; taximeters; ear plugs for divers; tachometers; balancing apparatus, namely, precision balances; balances being steelyards; weights for use with weighing scales; television apparatus; telegraphs being apparatus; telegraph wires; telecommunication

apparatus in the nature of wireless receivers in the form of jewellery; telemeters; telerupters being electromechanical relays; telescopes; teletypewriters; telephone receivers; telephone apparatus; telephone transmitters; telephone wires; answering machines; temperature indicators; theodolites; battery terminals; thermal imaging cameras; thermionic tubes; thermometers, not for medical purposes; thermostats; thermostats for vehicles; thermo-hygrometers; crucibles for laboratory use; T-squares for measuring; current rectifiers; toner cartridges, unfilled, for printers and photocopiers; heat regulating apparatus, namely, thermostats; totalizators in the nature of digital signage display panels showing the number and amount of bets staked on a race; electronic transistors; transponders; protractors being measuring instruments; transformers for electricity; simulators for the steering and control of vehicles; tripods for cameras; resuscitation training simulators; triodes; pitot tubes; darkrooms for photography in the nature of portable enclosures for developing photographic film; thin client computers; wah-wah pedals; enlarging apparatus for photography in the nature of photography projectors; steering apparatus, automatic, for vehicles in the nature of electronic controls for vehicle steering; nanoparticle size analysers; ring sizers; finger sizers; acid hydrometers; height measuring instruments; marine depth finders; inclinometers; lactodensimeters; densitometers not for medical use; apparatus and instruments for astronomy, namely, telescopes; urinometers; amplifiers; particle accelerators; railway traffic safety appliances, namely, railway signals; voting machines; remote control apparatus for computer servers; computer memory devices; shutter releases for photography; egg timers being sandglasses; anti-interference devices for electricity, namely, static electricity eliminators; devices for the projection of virtual keyboards, namely, laser projection virtual keyboards; apparatus for changing record player needles; hands-free kits for phones; downloadable image files containing containing artwork, text, audio, video, games and Internet Web links relating to sporting and cultural activities; facsimile machines; apparatus and instruments for physics in the nature of test weights, prisms for scientific purposes, ammeters, barometers and spectroscopes; cinematographic films, exposed; filters for non-medical respiratory masks; filters for ultraviolet rays, for photography; filters for use in photography; blank floppy disks; fluorescent screens; cameras for photography; photovoltaic cells; photography drying racks; photographic, electrostatic, and thermic photocopiers; photometers; phototelegraphy apparatus; hairdressing training heads being teaching apparatus; heliographic apparatus; hygrometers; hydrometers; chemistry apparatus and instruments in the nature of liquid test tubes; hologram apparatus; chromatography apparatus for laboratory use; chronographs as specialized time recording apparatus; humanoid robots with artificial intelligence; central processing units; centering apparatus for photographic transparencies in the nature of transparency projection apparatus; cyclotrons; digital signs; digital weather station instruments; bags adapted for laptops; time clocks being time recording devices; electronic black boxes being data recorders; frequency meters; electronic book readers; data processing equipment, namely, optical readers; bar code readers; petri dishes; electronic chips for the manufacture of integrated circuits; dressmakers' measures, namely, tape measures; virtual reality headsets; snorkels; eyeglass cords; peepholes being magnifying lenses for doors; letter scales; slide calipers; nose clips for divers and swimmers

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Leasing of Internet domain names; registration of domain names being legal services; registration of domain names for identification of users on a global computer network; registration of domain names for identification of users on a global computer network being a legal service; rental of Internet domain names; legal services, namely, licensing within the framework of software publishing; licensing of computer software being legal services; mediation; monitoring of burglar and security alarms; online social networking services; licensing of intellectual property; arbitration services; online social

networking services accessible by means of downloadable mobile applications; domain name advisory services, namely, conducting domain name searches for the purpose of providing legal advice on domain name registration; consultancy relating to the registration of domain names, namely, conducting domain name searches for the purpose of providing legal advice on domain name registration

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Telecommunication services, namely, ISDN services; computer communication, namely, communication by computer terminals and Internet access provider services; providing access to multimedia content online; provision of Internet access services; providing computer access to communication networks, namely, provision of access to a global computer network; video broadcasting services; automatic transfer of digital data using telecommunications channels; audiovisual communication services, namely, television broadcasting; video communication services, namely, transmission of information through video communication systems; video transmission via digital networks; remote transmission of audio signals by means of telecommunications; remote transmission of data by means of telecommunications; delivery of messages by electronic transmission; electronic communications services, namely, electronic data transmission; communication services, namely, electronic transmission of data; electronic transmission and retransmission of sounds, images, documents, messages and data; message sending, receiving and forwarding; interactive communication services, namely, communications by mobile phones; interactive telecommunications services, namely, communications by mobile phones; interactive transmission of video over digital networks; cable transmission of sounds, images, signals and data; communication by electronic means, namely, communications by mobile phones; communications via multinational telecommunication networks; communications services, namely, communications by mobile phones; communications services for the exchange of data in electronic form services, namely, electronic data transmission; communication services provided electronically services, namely, electronic data transmission; consulting services in the field of communications, namely, advisory services relating to communications equipment; mobile media services in the nature of electronic transmission of entertainment media content; network transmission of sounds, images, signals and data; providing virtual chatrooms established via text messaging; providing electronic telecommunication connections; electronic transmission of data, messages and information; transmission of sound and vision via satellite or interactive multimedia networks; computer-aided transmission of sound; transmission of sound via interactive multimedia networks; transmission of sound or visual recordings over networks; transmission of visual recordings via interactive multimedia networks; transmission of information through video communication systems; transmission of information in the audiovisual field; provision of communications facilities for the interchange of digital data; telecommunications services between computer networks services, namely, electronic data transmission; telecommunications services relating to electronic commerce services, namely, electronic data transmission; telecommunication of information and web pages services, namely, electronic data transmission; services for the electronic transmission of information; secured electronic data, sound and image transmission services; inter-active video text services, namely, electronic data transmission; video uploading services, namely, streaming of video material on the internet; photo uploading services, namely, streaming of video material on the internet; electronic delivery of messages by audiovisual media; telematic data transmission and sending of information by file transfer; digital transmission services for audio and video data; rental of telecommunication devices and equipment enabling connection to networks; rental of telecommunication equipment; provision of access to content, websites and portals on the Internet; provision of access to data or documents stored electronically in central files for remote

consultation; provision of access to electronic sites; providing access to platforms on the Internet; providing access to gambling and gaming websites on the Internet; providing access to websites on the Internet or any other communications network; providing user access to portals on the Internet; providing user access to platforms on the Internet; provision of telecommunication access to video and audio content provided via an online video-on-demand service; provision of telecommunication access to video content provided via the Internet; electrical data transmission over a global remote data processing network, including the Internet; video-on-demand transmission services; sending and receiving of electronic messages; message sending via a website; computerised communication services, namely, communication by computer terminals; communications by computer terminals; computer intercommunication, namely, communication by computer terminals; communication by computer, namely, communication by computer terminals; on-line communication services, namely, communication by computer terminals; on-line transmission of electronic publications; transmission and distribution of data or audiovisual images via a global computer network or the Internet; electronic transmission of data, audio, video and multimedia files; electronic transmission of data, audio, video and multimedia files, including downloadable files and files streamed over a global computer network; electronic data transmission and data broadcasting in the nature of electronic transmission of data by television and video broadcasting; transmission of data or audio visual images via a global computer network or the Internet; transmission of data and information by computer and electronic communication means; transmission of information on-line; transmission of multimedia content via the Internet; transmission of sound, picture and data signals; computer aided transmission of messages and images; exchange of messages via computer transmission; transmission and distribution of data or audio visual images via a global computer network or the Internet; streaming audio and video material on the Internet; streaming of audio, visual and audiovisual material via a global computer network; streaming of data; Internet based telecommunication services, namely, electronic data transmission; web conferencing services; video, audio and television streaming services; providing access to content, websites and portals on the Internet; online messaging services; broadcasting of audiovisual and multimedia content via the Internet

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Information services relating to information technology; server hosting; application service provider (ASP), namely, hosting interactive computer software applications of others; hosting websites on the Internet; cloud hosting provider services; private cloud hosting provider service; providing virtual computer environments through cloud computing; programming of operating software for accessing and using a cloud computing network; providing temporary use of on-line non-downloadable operating software for accessing and using a cloud computing network; computer system analysis; recovery of computer data; graphic arts design; monitoring of computer systems by remote access; electronic data storage; cloud computing featuring software for cloud hosting; engineering; installation of computer software; computer software consultancy; computer programming; information technology (IT) consultancy; computer technology consultancy; consultancy in the design and development of computer hardware; web site design consultancy; Internet security consultancy; computer security consultancy; data security consultancy; monitoring of computer systems for detecting unauthorized access or data breach; monitoring of computer systems to detect breakdowns; providing search engines for the Internet; updating of computer software; computer rental; rental of computer software; rental of web servers; maintenance of computer software; providing information on computer technology and programming via a web site; hosting computer websites; computer software design; computer system design; research in the field of telecommunications technology; development of computer platforms; software development in the framework of software publishing; software as a service (SaaS) featuring software for cloud

hosting; creating and maintaining web sites for others; creating and designing website-based indexes of information for others being information technology services; technological consultancy in the field of computer software; telecommunications technology consultancy; data encryption services; outsource service providers in the field of information technology; computer software technical support services, namely, troubleshooting of computer software problems; troubleshooting of computer software problems; provision of technical support in the supervision of computing networks, namely, monitoring technological functions of computer network systems; provision of technical support in the operation of computing networks, namely, monitoring technological functions of computer network systems; technical support services relating to computer software and applications, namely, troubleshooting of computer software problems; technology supervision and inspection in the field of product quality control; installation, repair and maintenance of computer software; design, maintenance and updating of computer software; installation, setting up and maintenance of computer software; design, maintenance, development and updating of computer software; installation and customisation of computer applications software; technical consultancy relating to the installation and maintenance of computer software; computer system monitoring services for detecting unauthorized access or data breach; design of graphic software systems; development of interactive multimedia software; design and development of computer hardware; advice relating to the design of computer hardware; advisory and information services relating to the design and development of computer hardware

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

Mark Literal(s) PIGEON BRAND

CASE IDENTIFIERS

Serial Number 79290562 **Application Filing Date** May 15, 2020 **Register** Principal **Mark Type** Trademark **Publication Date** Jan. 05, 2021

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the wording "PIGEON BRAND" with "PIGEON" appearing on the left side of the mark over the left side of a plain, single line circle and the word "BRAND" appearing on the right side of the plain, single line circle. A pigeon is centered inside the plain, single line circle facing and looking to the right. The background of the mark is speckled. **Color Claimed** Color is not claimed as a feature of the mark. **Disclaimer** "BRAND"

RELATED PROPERTIES INFORMATION

International Registration 1543110 **International Registration Date** May 15, 2020

GOODS AND SERVICES INFORMATION

For Canned fermented mustard green; canned crabs; canned shrimps; canned clams; canned fish; canned yellow jackfruit; canned toddy palm; canned longans; canned rambutans; canned lychees

International Classes 29 - Primary Classes **US Classes** 46 **International Class Title** Meats and Processed Foods

Standard Character Claim Yes. The mark consists of standard characters without claim to any particular font style, size, or color. **Mark Drawing Type** 4 - STANDARD CHARACTER MARK

RELATED PROPERTIES INFORMATION

International Registration 0715449 **International Registration Date** Dec. 30, 1998

GOODS AND SERVICES INFORMATION

For Non-metallic building materials, namely, fiberglass panels, floor boards, fascia; non-metallic building slabs of cement, panels of facades for construction purposes, and roofing; parts of non-metallic building slabs, facades and roofing not included in other classes, namely, stone roofing tiles, and non-metal railings and façade panels for construction purposes; non-metallic prefabricated buildings and houses; parts of non-metallic prefabricated buildings and houses not included in other classes, namely, non-metal pillars and partitions for buildings; non-metallic technological cabins being non-metallic transportable buildings and structural parts therefor

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For Preparatory services for construction, namely, building construction services in the area of demolition of building structures, construction site cleaning, construction site digging, blasting of rocks in construction sites, construction site preparation, construction site drainage, construction site drilling, and construction site levelling; services of assembling of sidings and other forms of coatings representing facades on buildings being building construction services; services of assembling of coatings, namely, painting and applying coatings to building interiors and exteriors; services of assembling of housing units, namely, erecting housing areas; building insulation services, namely, installation of building insulation; services for construction, namely, building construction services in the area of masonry, flooring, roofing, carpentry, mounting of facades and applying other forms of coatings to building exteriors and interiors, representing facades on buildings, mounting of construction elements, namely, installation of building scaffolds and platforms, painting, installation of protective coatings for wall and floor covering, glass and mirror mounting and handling in the nature of glass installation, steam cleaning of external surfaces of buildings, sanding of building surfaces, namely, floor sanding, cleaning of external surfaces of buildings; building construction services; concrete repair services; plumbing services

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Insulation materials; building insulation; parts of building slabs, facades and roofing made of insulation materials, namely, mineral wool for use as a building insulator; semi-processed artificial materials for use in industry, namely, polyurethane foam sheeting for use as building insulation, polyester sheets for use in the manufacture of labels, and recycled polyester fibres for use in manufacture; parts of prefabricated constructions made of insulation materials and houses made of insulation materials, namely, fire-resistant doors comprised of reinforced cement and steel

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Engineering services, namely, technical consulting services in the field of environmental engineering; site testing in the area of construction and geology being environmental testing and inspection services

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Building materials of metal, namely, floor panels, fascia; transportable metal constructions and metal structural parts therefor; containers of metal for transport; transportable metal buildings; container assemblies, namely, pre-fabricated metal building assembly kits; prefabricated constructions of metal and houses of metal; parts of prefabricated transportable constructions of metal and parts of pre-fabricated houses of metal, namely, metal roofing; building slabs of metal, facades of metal and roofing of metal; parts of building slabs of metal, and facades of metal, namely, metal façade panels for construction purposes, and roofing of metal; goods of metal not included in other classes, namely, refractory construction materials of metal; metal foils being common metals in foil form; technological cabins of metal being pre-fabricated houses of metal and metal structural parts therefor

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

CASE IDENTIFIERS

Serial Number 79291488 **Application Filing Date** Jun. 17, 2020 **Register** Principal **Mark Type** Trademark **Publication Date** Jan. 05, 2021

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the wording "LUCKYBOB" in which the word "LUCKY" is written in lowercase letters with a light shaded outline of the letters and a dark shaded black border behind the wording. There is a stylized bandage positioned vertically on the letter "L". There is a stylized wrapped bandage under the letter "K" and the final "Y" is drawn with the bottom part broken off and partially separated. The word "BOB" is capitalized with a light shaded outline of the letters and a dark shaded black border behind the wording. The wording "BOB" has dots inside them, which are lighter at the top of the letter and get darker towards the bottom. From the center of the letter "O" of "BOB" emerges the figure of a stylized child, with bangs, a cap and a T-shirt and a scratch on the cheek. The child's arm is raised with the hand positioned on the forehead with the thumb and index finger in a "L" shape. The black, white and gray in the mark are for shading and transparent purposes and are not claimed as a feature of the mark. **Color Claimed** Color is not claimed as a feature of the mark.

CASE IDENTIFIERS

Serial Number 87809306 **Application Filing Date** Feb. 23, 2018 **Register** Principal **Mark Type** Trademark **Publication Date** Jan. 05, 2021

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a label with a fanciful image. The image consists of a bearded man in profile, in a suit with a bowtie, with clouds coming out of his head, at the bottom right side of the image. Above the man is, from right to left, and all amongst puffy clouds, three birds in flight, a hot air balloon, a person with very large bird-like wings flying, a person on a platform that contains machinery parts and is topped with the image of part of a corkscrew, a fanciful image of arrows, and finally, a person sitting on a flying bicycle with a propeller at the front of the bicycle and one at the top of the bicycle. The word "LEFTIE" is in large stylized bold letters on top of the bearded man, and the words "WINE CO." stylized, bold, and in smaller front appear below the "I" and "E" of "LEFTIE". Underneath "WINE CO." appears a stylized compass. **Color Claimed** Color is not claimed as a feature of the mark. **Disclaimer** "WINE CO." **Name Portrait Consent** The likeness (or, "portrait") in the mark identifies a living individual whose consent is of record.

GOODS AND SERVICES INFORMATION

For Logistics management advice and consultation in the field of telecommunications; Business consultation and assistance in the operation of telecommunication systems and networks for others; Business consultation and assistance in the field of telecommunications network management, namely, the operation and administration of telecommunication networks and communication links for others

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Technical consultation in the field of building construction of fixed site earth-based facilities; Technical consultation and technical assistance in the nature of technical consultation services in the field of construction, repair and maintenance of submarines and ships; Technical consultation concerning the installation, repair and maintenance of mobile and fixed site earth-based facilities, satellites and related information systems, namely, information security, communications, microwave products and telemetry and instrumentation, not including installation, repair, and maintenance of computer software; Technical consultation and assistance in the field of deployment of computer hardware equipment and systems; IT and communication infrastructure upgrade services, namely, updating of computer hardware for IT and communication systems; Telecommunications system maintenance services, namely, maintenance of radio, television and digital communications equipment for others

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Computer hardware; cockpit voice and flight data recorders; flight parameter data recorders and transmitters; semiconductors; radio frequency switches; radar detectors; flight testers, namely, computer hardware and software for performing flight simulation; wired and wireless telephones and telephone equipment, namely, telephonic transmitters, telecommunication network hubs, connectors, receivers and other telephonic communications devices, equipment, products, and components, namely, telephonic network interface hardware, telephonic security control hardware, telephonic multimedia

control hardware, telephonic switching, routing, and subscriber interface hardware which are used in computer and communications networks and systems; downloadable computer software for use in satellite command and control in the field of satellite communications; downloadable computer software for information mining in the field of strategic and tactical intelligence; computer telemetry software for use in data collection and transmission from fielded remote equipment, namely, satellites, aircraft, missiles, moving surface-based systems, remotely configured fixed site installations and Communication and Command and Control intelligence; downloadable computer software for use in data collection and transmission in the field of medical technology, namely, x-ray machines, magnetic sensing machines, acoustic sensing machines, chemical tracing machines; downloadable computer software for use in control and operation of real-time equipment, namely, x-ray machines, magnetic sensing machines, acoustic sensing machines, chemical tracing machines, flight navigation controls, flight safety equipment, namely, voice recorders, telemetry systems on airplanes, maintenance systems on airplanes, telemetry scanners, intrusion systems, combat scoring systems and pictures, air traffic handling systems, monitors, still video, radar systems, and vehicle status and monitoring systems; downloadable computer software for system situational awareness and representation in a communication and data link control system; Channel amplifiers and frequency filters for use in telecommunications, namely, electronic devices in the nature of digital filters and analog filters for frequency filtering of telecommunications signals; computer hardware for electronic key information processing, namely, the processing of information related to electronic encryption and other security technologies; radio frequency limiters; harmonic generators; satellite transponders; transponder controllers; secure communications systems consisting of digital processors, modulators, antennas, transmitters, receivers, and encryption hardware and software for secure algorithm processing devices for use with airborne, satellite, ground and sea-based information collection, transmission and analysis; communications systems consisting of high data rate microwave communications links and computer hardware; communications systems consisting of telephonic and high data rate microwave radio components, digital processors, computer hardware, software containing algorithms for use in processing secure communications and software for the secure broadcast and/or receipt of communications and information or data; on-board satellite equipment providing subsystem capabilities, namely, electronic modules and circuit cards for digital solid-state recording, video signal processing, communications signal processing and translation; microwave devices, equipment, products and components, namely, frequency transmitters, frequency converters, frequency synthesizers, frequency modulators, frequency filters, namely, electronic devices in the nature of digital filters and analog filters for frequency filtering of electromagnetic signals, frequency power amplifiers, passive components, mechanical switches, wireless frequency monitoring system and associated electronic component implementation circuit card assemblies providing frequency determination, frequency characteristics, frequency status, and frequency control; radio navigation equipment comprised of recording transmission and receiving microwave equipment, namely, microprocessors, electronic displays, digital storage devices, radio transmitters and receivers, providing the following capabilities in the nature of navigation, vehicle command and control, vehicle indications and warning, data and telemetry recording; surveillance equipment and devices, namely, ISR (Intelligence surveillance reconnaissance) subsystems which use computer hardware and software to provide a sampling of the electromagnetic spectrum in prescribed frequencies to extract information content available for analysis, for use in military and civilian aircraft; electronic sensors that provide in real time the ability to collect electronic data and information, namely, sense the external electromagnetic spectrum, convert received energy into a digital representation of the energy, process electronic data and information, namely, filter the digital representation of the energy and translate it into a visual or audio representation of the information, analyze electronic data and information, namely, compare georeferenced information, detect changes, display changes for visual confirmation, store electronic data and information, namely, transfer data and information to digital

storage, and disseminate electronic data and information, namely, create information based on electronic packets that can be sent on any selected transfer media to other remote locations; electronic computer hardware and software that allow for the collection, monitoring, analysis, storage, and presentation of medical images; computer network devices and equipment, namely, computer hardware that allows for the interfacing of analog or digital signals into the existing PSTN (Public Switch Telephone Network) or global Information network and create the ability to take those same signals into a mobile communications system; telephonic computer hardware that allows for creation of a wireless last mile, namely, wireless radio connections between a central source and destination, where the telephony and data system have fixed site or mobile operational capability; communications terminals in the nature of computer terminals which consist of computer hardware that provides for the creation and connection of multimedia communication signals including analog, voice, data, and video and allow signals to be connected to other communications terminals or other network nodes; Radio and television transmission systems comprising transmitters, audio and video monitors, signal mixers, audio and video signal encoders and decoders and editing equipment, namely, signal processors; transmitters and receivers for satellite communications; computer operated network systems comprising computer hardware and software for transmitting data between computers connected in a network and for managing the computers and the transmission of the data on said network; computer information systems comprising computers and software for processing data, word processing and displaying of data; avionics systems in the nature of electronic devices for use in aircraft comprising digital maps, fiber-optic data buses and wire data buses, computer memory devices, instrumentation for displaying, storing, processing, and retrieving weather, tactical, strategic and secure data, cockpit controls and data displays; phased array antennas; global positioning equipment comprising data processors and displays; air traffic control communications systems consisting of computer hardware and software for displaying transporting, transmitting, controlling, switching, routing, and receiving air traffic information; computer hardware and downloadable computer software for converting images into data, and for analyzing, displaying and printing the data in the field of two and three-dimensional image extraction, manipulation, display, and geographic registration; secure computer operated systems consisting of computer hardware and downloadable computer software, and encrypted databases, all used for ensuring and controlling the security and access of a computer network and the information contained therein, namely, tracking air traffic and transmitting encrypted messages to pilots; data base management, file transfer, and for connecting computers and data bases in a network and for circulation management; airline management system comprising computers and software for database management and for exchanging aircraft and aircraft operations information; Television signal analysis equipment, namely, electronic display panels for displaying signals, signal evaluation terminals primarily comprised of customized signal analysis hardware with integrated displays and software analysis components running on industry standard computers and monitors for evaluating the quality of analog and digital signals, media analysis servers for verifying the quality of digital media content, signal interface modules, handheld signal analyzers, optical signal analyzers, circuit testers for monitoring broadcast signals, and video monitoring tools, namely, software based video monitoring tools, namely, computer software for monitoring and logging the loudness of media content; timing reference generators, namely, time reference signal generators for broadcast system timing signal and test signal generation; computer hardware and downloadable computer software for television production, post production and broadcast, namely, demodulators, digital signage, namely, dynamic electronic displays and networking computer servers and downloadable computer software for managing and controlling dynamic electronic displays, distribution amplifiers, audio and video editing equipment, namely, computer workstations equipped with computer software for editing audio and video program material; computer hardware and computer software sold as a unit for

generating characters and graphics; downloadable computer software for generating visual effects, computer hardware and computer software sold as a unit for generating and inserting on-air branding; emergency alert modules, namely, computerized electronic modules and associated computer software for implementing the broadcasting of public emergency alert messages; fiber optic signal transports, namely, fiber optic signal transmitters, fiber optic signal receivers, fiber optic signal multiplexers and fiber optic signal de-multiplexers; electronic master control switches for audio and video signals; audio and video signal compressors and audio and video signal decompressors; multiplexers and de-multiplexers; multiviewers in the nature of electronic devices for displaying one or more video signals; downloadable broadcast computer network monitoring and control application software, electronic network control panels, audio, video and data receivers and decoders, electronic routing switchers for audio and video signals; video servers; video computer networking switches; Network Time Protocol (NTP) timing modules comprised primarily of computer hardware and computer software for carrying out network time protocol timing, signal timing clocks, signal transport modules, audio and video sync and timing managers primarily comprised of high precision clock generation circuitry for synchronization of audio with video, broadcast signal legalizers, downloadable computer software for creating and displaying time code markers, signal frequency up converters, signal frequency down converters, signal format cross converters, all for use in the media and entertainment industry; downloadable broadcast operations software for advertising, sales, traffic and billing, automation, digital asset management, programming and rights management, namely, downloadable computer software for managing, monitoring and automating the buying, selling, scheduling, research, inventory management, production tracking and accounting processes for advertising, and general content for the media and entertainment industry; downloadable computer software for controlling and monitoring switching systems for television and radio signals; downloadable computer software for managing, monitoring and automating the creation, movement, location, archiving, retrieval and use of digital media assets; downloadable computer software, namely, business process management and messaging software, for managing and controlling human and automated workflows and multisystem communications for use in the media and entertainment industry; network management center equipment, namely, mobile and portable radios, electrical base station controllers, electrical communication controllers and electrical network controllers; mobile and non mobile two-way communications radios; portable two-way communications radios; radio network gateways comprising computers, computer switches and associated computer software for voice and data communications; Internet protocol-based networks comprising computer hardware and computer software for interoperable communications; telecommunications equipment, namely, trunked radio communication systems for public service and industrial applications comprised of portable communications radios, electrical base station controllers, electrical communication controllers and circuit switches; control equipment for two-way mobile and two-way fixed radios, namely, base station equipment for fixed and mobile networking and communications and cell sites primarily comprised of electronic computer hardware, computer software, antennae, and telecommunication base stations; control stations primarily comprised of radios, radio hardware and associated computer software; desktop control stations primarily comprised of radios, radio hardware and associated computer software, dispatch and console computer hardware, namely, dispatch consoles and downloadable software for carrying out emergency and nonemergency communications and carrying out command and control of public safety personnel and assets; site management computer hardware and downloadable software for managing communications radios and base stations, and network monitoring computer hardware and downloadable software for monitoring communications radios and base stations; radio data communications systems primarily comprised of mobile communications radios and also containing non-mobile communications radios, portable communications radios, base station controllers, communication controllers, and network controllers; communications radio network gateways comprised primarily of computers, computer switches and computer

software for providing a gateway between networks; space deployable reflectors in the nature of electromagnetic signal reflectors for satellite communications; computers and downloadable computer software for converting elevation data point clouds from remote sensing devices into data, and for analyzing, displaying and printing the data in the field of three-dimensional feature extraction, manipulation, display, and geographic registration; computers and downloadable computer software for managing, cataloging and retrieving geospatial imagery, imagery derived products and other intelligence products, through the synchronization of data catalogs across disparate storage locations; computers and downloadable computer software for managing, processing, exploiting and disseminating motion imagery intelligence; computers and downloadable computer software for managing, processing, exploiting and disseminating flight planning presentations to general aviation pilots and air traffic controllers; networking communications radios; shipboard communication terminals primarily comprised of antennae, pedestals, positioners, modems, up converters, down converters, amplifiers and user interfaces, namely, user interfaces consisting primarily of computer hardware and electronic screen displays; ground communication terminals primarily comprised of antennae, pedestals, antenna positioners, modems, up converters, down converters, amplifiers and user interfaces, namely, user interfaces consisting primarily of computer hardware and electronic screen displays; computer information systems comprised mainly of computers and downloadable computer software for processing data, word processing and displaying of data in the fields of census information systems, healthcare information systems, intelligent electrical power distribution systems, weather reporting and forecasting systems and environmental reporting and forecasting systems; avionics equipment, namely, video signal compressor and decompressors, power supplies, mounting racks specially adapted for mounting and interconnecting electronic apparatus, airborne signal processors for network interoperability and targeting, secure network switches, downloadable computer software in the nature of networking protocols for facilitating the exchange of electronic messages and data; radio frequency data links for weapons; wireless data links, namely, very high frequency and ultrahigh frequency wireless data links; phased array electronics, namely, beam former electronics primarily consisting of power amplifiers and also containing low noise amplifiers, phase shifters, time delay units, transmit and receive switches, array dividers, array combiners, frequency up-converters, frequency down-converters, array controllers and array power supplies and control equipment, namely, antenna control units, attitude and heading reference units, transmit and receive control units, antenna position controllers and frequency band select switches; air traffic control communications systems consisting of computer hardware and downloadable computer software for displaying, transmitting, controlling, switching, routing, and receiving weather data; two-way radios for communication of voice, data, images and video for use by military and other government agencies; two-way communications radios, namely, voice and data communications radios operable across multiple frequency bands for enabling public safety officials and first responders such as law enforcement agencies, paramedics, firefighters and military personnel to communicate interoperably with one another even though their respective pre-existing communications infrastructures might otherwise be mutually incompatible; trunked radio communication systems for public service and industrial applications, namely, cellular base stations and mobile radio base stations for two-way mobile and fixed communications radios; loudspeakers for mobile two-way communications radios; loudspeakers for non-mobile two-way communications radios; battery chargers for two-way communications radios; Internet protocol-based communication networks comprised primarily of computer hardware and downloadable computer software for implementing interoperable communications; cryptographic modules, namely, electronic modules in the nature of integrated circuits with embedded firmware for data encryption purposes; integrated circuits, namely, encryption engines; radio frequency wireless communications adapters, namely, network interface cards; downloadable software for operating radio frequency wireless

network interface cards; downloadable communications software for connecting radio frequency wireless network interface cards to a local area communications network; radio network gateways comprised primarily of computers, computer switches and downloadable computer software in the field of voice and data communications; downloadable computer software for use in the field of air traffic control, namely, for the supervision, maintenance, administration, troubleshooting and configuration of computer software for monitoring the performance of air traffic control systems, mapping definition, uploading software updates and releases, access control, user definition, circuit assignment, hardware editing, recovery and diagnostic reporting

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Technical consultation in the field of satellite communications and communications by related communication information systems, namely, communications via satellite transmission, microwave products and telemetry and instrumentation; Consultation and technical assistance in the fields of secure communications and telemetry

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Technical consultation and assistance in the field of avionics; Information technology consultation in the fields of submarines and ships, mobile and fixed site earth-based facilities, satellites and related information systems, namely, information security, communications, microwave products and telemetry and instrumentation; Designing computer systems for software integration, maintenance and user-information services, operation support systems for software integration, maintenance and planning support services and provisioning, and provisioning control support services for satellite control networks, real-time defense communications systems, and real time defense intelligence collection systems; Designing computer systems for engineering support for satellite launches, deployed communication systems and deployed intelligence collection systems; Technical consultation and technical assistance in the fields of customization of computer hardware and software products; Technical consultation and technical assistance with computer program management and computer site management; Technical consultation and technical assistance with deployment and management of wireless communications networks of others; Technical consultation and technical assistance with communications link management; Technical support services, namely, troubleshooting in the nature of diagnosing and testing computer hardware and software problems; Providing an interactive web site featuring technology that enables users to enter, access, monitor and generate designed strategic and tactical signal intelligence information reports; information technology (IT) and communication infrastructure migration services, namely, migration of data and communication network resources; information technology (IT) and communication infrastructure deployment services, namely, deployment computer networks and communication networks; technical support services, namely, migration of datacenter, server and database applications; data migration services; management of secure information technology (IT) based services for others, namely, information technology (IT) software applications management, enterprise services management, namely, management of software applications, information assurance management, namely, management of restricting network, data, and information access and management of scanning and eliminating unauthorized data and programs from files and networks and cyber security management, namely, maintenance of computer software relating to computer security and prevention of computer risks; computer hardware and software consulting services; technical consulting in the field of telecommunications technology; technical consulting in the field of information technology (IT); updating and maintenance of computer software, information technology (IT) integration services; technical support, namely, technical monitoring of computer networks for proper operation and for detecting malfunctions; remote computer network technical monitoring for proper operation and for detecting malfunctions and software maintenance services; computer

services, namely, remote management of the information technology (IT) systems of others; planning, design and management of information technology (IT) systems; computer hardware and software design; computer network design for others; information assurance services for safeguarding the confidentiality, integrity and availability of information systems and critical business data of others, namely, designing, deploying and operating secure communications systems and information networks, for safeguarding the confidentiality, integrity and availability of information systems and critical business data of others; telecommunications system design services, namely, design of radio, television and digital communications equipment for others, and design and integration of computer systems and networks for others, namely, design and integration of telephone systems, communications systems, and display systems; Technical consultation and technical assistance in the fields of information security and intelligence security services for secure and non-secure voice, data, and video communications, user authorization, recognition and message encryption; Technical consultation concerning the installation, repair and maintenance of computer software for mobile and fixed site earth-based facilities, satellites and related information systems, namely, information security, communications, microwave products and telemetry and instrumentation

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services
