MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a three-dimensional configuration of a paper packaging boxes, which include five boxes that are stacked on top of each other. All of the boxes have the same designs of a quarter circle on the front left of the box that extends to the middle of the front of the box and includes stylized stars, snowflakes, and leaves within the quarter circle. Next to that larger quarter circle are the foreign wording in larger font and smaller wording below " "ELLEAIR WHITE" MADE WITH 100% PURE PULP.". To the right of this wording is a smaller quarter circle on the bottom right of the front of the box. The same design is present on the top of the top box and also is presented on the left side of the boxes, except the larger quarter circle is on the top left corner and the smaller quarter circle is on the bottom right and there is a stylized circular design next to the wording "ELLEAIR" and above the foreign wording all in black. The bottom right left includes numbers and the foreign wording, which transliterates to "360 sheets (180 sets)". The boxes all have different colors, except for the stylized circular design on the left. The first box designs are light blue, the second box is green, the third box is yellow, the fourth box is pink, and the fifth box is purple. The broken lines depicting the outer outline of the box and the broken lines at the top of the box indicating the perforated opening for the removal of tissue and to the right of each box, the broken horizontal lines in the middle of the box that separate the right side of the box and include broken lines that represent a half circle that is situated in the middle of each of the perforated horizontal lines indicates placement of the mark on the goods and are not part of the mark. **Color Drawing** Yes **Color Claimed** The color(s) blue, green, yellow, pink, and purple is/are claimed as a feature of the mark. **Disclaimer** THE NON-LATIN CHARACTERS THAT TRANSLITERATE TO "360 MAI / 180 KUMI" AND "WHITE" AND "MADE WITH 100% PURE PULP." **Translation** The wording "ELLEAIR" has no meaning in a foreign language. **Transliteration** The non-Latin characters in the mark transliterate to "ELLEAIR" and this has no meaning in a foreign language. The non-Latin characters in the mark transliterate to "360 MAI / 180 KUMI" and this means "360 SHEETS / 180 SETS" in English.

GOODS AND SERVICES INFORMATION

For Audiovisual transmission services via electronic communications networks, a global computer network or the internet; broadcast transmission by satellite; broadcasting or transmission of recorded messages and information via electronic communications networks, a global computer network or the internet; cable broadcasting and transmission; communication network consultancy; communication services between data banks via electronic communications networks, a global computer network or the internet; communication of data, namely, transfer of data, by means of telecommunications; communication services for the electronic transmission of data; communication services for the electronic transmission of images; communication services for the electronic transmission of voices; communication services for the transmission of information; communication services for the transmission of information by electronic means; communications by fibre optic networks; communications consultancy; communications services for accessing a data-base; communications services for the exchange of data in electronic form; computer aided transmission of messages and images; computer communications for the transmission of information; computer data transmission services; computerised data communications; consultancy services relating to the provision of access to data on communication networks, internet and computer network services; consultancy services relating to communications; consultancy services relating to data communications; consultancy services relating to telecommunications; data broadcasting services, namely, via satellite, telecommunications networks and electronic communications networks; data communication by electronic means; data communication services, namely, via satellite, telecommunications networks and electronic communications networks; data transmission, namely, electronic data transmission; data transmission by electronic mail; data transmission for others, namely, electronic data transmission; data transmission services over telecommunications networks; digital transmission services, namely, electronic transmission of data, information, voice; electronic communication services for the transmission of data; electronic communication services for the transmission of data; electronic communications consultancy; electronic communications services for the transmission of

data; electronic data communications, namely, electronic transmission of data; electronic data exchange services; electronic data interchange services; electronic instructions transmission services; electronic message transmission; electronic transmission, namely, uploading, posting or displaying of data, information, pictures, images, audio and video via online forums via satellite, telecommunications networks and electronic communications networks; electronic transmission of data via satellite, telecommunications networks and electronic communications networks; electronic transmission of documents via satellite, telecommunications networks and electronic communications networks; electronic transmission of images via satellite, telecommunications networks and electronic communications networks; electronic transmission of information via satellite, telecommunications networks and electronic communications networks; electronic transmission of messages; electronic transmission of voices; electronic transmission of written communications; facsimile transmission; fibre optic telecommunications services; internet portal services, namely, providing user access to a global computer network; telecommunication services, namely, electronic message storage and transmission; optical fibre telecommunications services; electronic transmission of audio, video and other data and documents via a peer-to-peer network; provision of electronic data links; provision of facilities for radio receiving and radio transmission; providing virtual private network services; providing telecommunications connections to a global computer network; providing electronic telecommunications connections; remote transmission of data by means of telecommunications; rental of data communication apparatus; rental of data communications equipment; rental of data communications installations; rental of radio transmission apparatus; rental of telecommunication apparatus; rental of telecommunication equipment; satellite transmission; secured transmission of data; transmission of news; sound transmission via satellite; streaming of data; telecommunications consultancy; telecommunications services for the distribution of data; transmission of computerised data; transmission of data by audio-visual apparatus; transmission of data by cable; transmission of data by computer; transmission of data by electronic means; transmission of data by radio; transmission of data by radiopaging; transmission of despatches by electronic means; transmission of digital files; transmission of digital media files; transmission of documents by facsimile; transmission of electronic mail; transmission of global positioning signals for navigation purposes; transmission of information by computer; transmission of information by electronic means; transmission of information by radio; transmission of information by telephone; online transmission of information on a wide range of topics over a global computer network; transmission of messages by computer; transmission of messages by telephone; transmission of pictures by satellite; transmission of radio programmes; transmission of sound by electronic means; transmission of sound by satellite; transmission of telephone calls; transmission of video films via satellite, telecommunications networks and electronic communications networks; video transmission services via satellite, telecommunications networks and electronic communications networks; voice transmission services via satellite, telecommunications networks and electronic communications networks; web portal services, namely, providing user access to a global computer network; telecommunication services, namely, transmission and delivery of data via ethernet and internet exchange services; telecommunication services, namely, providing fibre optic network services; telecommunication services, namely, communication via optical fibre networks; telecommunication services, namely, local and long distance transmission of voice by means of telephone; digital network telecommunications services; telecommunications services, namely, routing and transferring data between cloud service providers and platforms, including between infrastructure as a service (IaaS) and software as a service (SaaS) providers and platforms; telecommunications services in the nature of wireless broadband communications services for the transmission of data; telecommunications services, namely, electronic data storage in the nature of message storage, collection and transmission; telecommunications services for the distribution of data via a global computer network or the internet

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Advisory services relating to computer software; copying and back-up of computer data; cloud computing, namely, cloud hosting provider services; compilation of data-processing programs; computer technology consultancy; computer engineering consultancy services; computer network configuration services; computer programming consultancy; computer security consultancy; computer security services, namely, design and development of secure computer hardware, software and systems; computer security services, namely, programming and software installation repair and maintenance services; computer software advisory services; computer software consultancy; computer software design; computer software development; computer software engineering; computer software consultancy, design and development services for interconnecting, managing and operating virtual networks; computer software programming services; computer software support services; computer support services, namely, programming and software installation, repair and maintenance services; computer technology consultancy; design and development consultancy for ergonomic products in relation to occupational health and safety; consultancy in the design and development of computer software; consultancy in the field of energy-saving technology and research; conversion of computer programs and data, other than physical conversion; conversion of data or documents from physical to electronic media; data encryption services; data mining services; data security consultancy; data security services, namely, firewalls; data storage, namely, data storage other than physical storage; design and development of computer software, namely, for others; design consultancy; design of computer software, networks, network connections and network architecture; development of computer software, networks, network connections and network architecture; development of computer software application solutions; development of software; development of systems for the processing of data; development of systems for the storage of data; development of systems for the transmission of data; diagnosis of faults in computer software; disaster recovery services for data communications systems; electronic data storage; engineering consultancy; software as a service (SaaS) services, namely, hosting software for use in connection with virtual networking, telecommunications and internet connectivity service management; information technology (IT) consultancy; information technology (IT) services, namely, technical design consultation in the field of computer hardware, software and peripherals; installation and maintenance of computer software; installation of computer software; installation of software, namely, middleware; installation, repair and maintenance of software, namely, middleware; designing and hosting internet portal services; internet security consultancy; maintenance of computer software; monitoring of computer systems for detecting unauthorised access or data breach; network as a service (NaaS), namely, integration of computer software into multiple systems and networks; network virtualization services; online provision of non-downloadable web-based software for use in connection with virtual networking, telecommunications and internet connectivity service management; platform as a service (PaaS) featuring software platforms for use in connection with virtual networking, telecommunications and internet connectivity service management; conducting of technical projects studies, technical research and consultancy services in the field of carbon offsetting; providing information, including online, about design and development of computer hardware and software; application service provider, namely, provision of online non-downloadable software for use in connection with virtual networking, telecommunications and internet connectivity service management; design of virtual network gateways; hosting of website featuring virtual network hubs; hosting of website featuring virtual network services, and configuration of computer networks therefor; quality assurance consultancy; recovery of computer data; rental of computer software; rental of data carriers; rental of data processing systems; rental of games software; research relating to data processing; repair of computer software; research, engineering and technical consultancy for the telecommunications industry; scanning, namely,

conversion of data or documents from physical to electronic media; scientific consultancy; software as a service (SaaS) featuring non-downloadable software for use in connection with virtual networking, telecommunications and internet connectivity service management; software defined network as a service (SDNaaS) featuring non-downloadable software for use in connection with virtual networking, telecommunications and internet connectivity service management; software creation; technical data analysis services; technological consultancy in the field of telecommunications technology; telecommunications technology consultancy; updating of computer software; upgrading of computer software; web portal services, namely, designing and hosting web portals); web site design consultancy; writing of computer software; online off-site data backup services; data cryptology services; software engineering; design of virtual network gateways

GOODS AND SERVICES INFORMATION

For Printing machines for commercial or industrial use for fabricating microfluidic arrangements on substrates and adding removing fluid in said microfluidic arrangements; parts and fittings for the aforesaid printing machines for commercial or industrial use for fabricating microfluidic arrangements on substrates and adding removing fluid in said microfluidic arrangements, namely, electric pumps, fluid jets of small scale, small-scale automated 3D gantry, interconnecting tubes, fluid containers, polytetrafluoroethylene tips, print heads printers and plotters for use in the field of micro-biology

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Reagents for use in science; reagents for scientific research purposes; reagents for medical and biological research purposes; reagents for scientific testing purposes; reagents for chemical analyses, namely, chemicals for use in scientific apparatus for chemical analysis namely cell culture and downstream analysis of live and dead cells such as cell culture, PCR preparation, sequencing prep; diagnostic reagents for scientific testing and research purposes; chemical reagents, other than for medical or veterinary purposes; diagnostic preparations, other than for medical or veterinary purposes; reagents for use in biology namely, cell culture media, serum and other supplements, protein solutions, lysis buffers, water, and ethanol for scientific and research use; media for cell culture for use in the biotechnological industry, namely, cell culture media for scientific and research use; media for cell culture for use in non-medical research laboratories, namely, cell culture media for scientific and research use; chemical substances for analyses in laboratories, other than for medical or veterinary purposes; chemical preparations for analyses in laboratories, other than for medical or veterinary purposes; cultures of microorganisms, other than for medical and veterinary use

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Scientific apparatus and instruments, namely, automated laboratory robots for handling, processing, analysing and/or investigating organoids, cells, in particular single cells, or other particles, in particular single other particles; Benchtop systems comprised of small-scale automated 3D gantry (traverse) with electronic circuit boards, recorded and downloadable operating system software, small-scale liquid handling and/or jetting modules, electronic imaging apparatus, microscopes and coupled chemical analyzers for sensing, detecting, counting, imaging, identifying, isolating, separating, positioning, dispensing and/or depositing, feeding, harvesting and/or otherwise cultivating and analysing organoids, cells or other particles; Scientific apparatus and instruments for single-cell cloning and picking, namely for the fabrication of arrays of small chambers on appropriate substrates, dispensing single-cells into those chambers, confirming microscopically which individual chambers contain single cells, removing exhausted growth medium from chambers and adding fresh medium to chambers as cells grow into colonies, confirming microscopically and chemically which chambers contain colonies derived from single cells, and picking resulting colonies and associated fluids for downstream growth or bioassays; Scientific apparatus and instruments, namely, automated fluid handling systems used for preparation and culture of cells, namely, single cell isolation, feeding, harvestings, and preparation of downstream assays; Scientific apparatus and instruments that integrate and automate downstream assays applied to cells and organoids growing in microfluidic devices, namely imaging systems and chemical analyzers that assay DNA, RNA, protein, fats, and metabolites in samples collected from the microfluidic devices in order to assess the genetic and metabolic state of cells and organoids; Scientific instruments, namely, electronic analyzers for measuring, testing and detecting cells and colonies; Benchtop systems comprised of microfluidic printer, chemical analyzers, bioimaging systems, data recorders, data processers, printed circuit boards and recorded and downloadable software for automating micro-biology workflows for the design, creation and/or operation of microfluidic devices used for cell and organoid culture; Small-scale fluid jets for cleaning surfaces; Automated nano-litre fluid-handling systems comprised of automated pipetting components that add and retrieve small volumes, record data of the process, and analyze the data used for cell and/or organoid seeding, feeding, growth and harvesting; imaging systems comprised of microscope, camera, illumination source, and recorded and downloadable operating system software for obtaining, storing, recording, transmitting, reproducing, examining, investigating, analysing and/or processing images of organoids and cells; plates for laboratory use being laboratory glassware and plastic laboratory dishes; culture plates being cell culture dishes for laboratory use; microplates for use in scientific research and analysis, namely, laboratory glassware and laboratory plastic dishes, microtitre plates, centrifuge tubes; incubation plates for scientific or laboratory use, namely, laboratory glassware and plastic laboratory dishes; culture dishes, namely, cell culture dishes for laboratory use; petri dishes; biochips for research or scientific purposes; microarray chips, namely, microarrays being laboratory equipment; laboratory trays; containers for microscope slides Microscopes; micro-fluidic printers for use with computers, not being for commercial or industrial use; printers for use with computers for micro-biology applications, not being for commercial or industrial use; printed circuits; computer software, recorded, for the automation of laboratory work in micro-fluidics and in biology, to fabricate micro-fluidic arrangements, to automate and / or simplify, and enables analysis of workflows in the field of micro-biology and provide user with record of process; downloadable computer software, for the automation of laboratory work in micro-fluidics and in biology, to fabricate micro-fluidic arrangements, to automate and / or simplify, and enables analysis of workflows in the field of micro-biology and provide user with record of process; downloadable or recorded computer aided manufacturing (CAM) software for micro-biology applications and micro-fluidic applications, namely, for the design, fabrication and operation of microfluidic arrangements, for adding and removing

nanoliter volumes to selected points in microfluidic arrangements or devices, for culturing cells and organoids as they grow in the arrangements or devices, and for performing bioassays on the live/dead cells and liquids in the arrangements or devices; computer peripherals; chromatography instruments for scientific or laboratory use; diagnostic apparatus, not for medical purposes, namely, to be used for preparing, growing, testing and analyzing biological, chemical, biochemical, bacteriological material including DNA, RNA, proteins and small molecules; bioreactors for cell culturing; capillary tubing being laboratory equipment for jetting of fluids, dispensing and collecting fluids, nutriments and / or cells, conduits for the transport of fluids; micro-fluidic arrangement printers not being for commercial or industrial use; parts and fittings for all the aforesaid goods, namely, print head for use with micro-biological material printers, not commercial or industrial printers; print head for micro-fluidic printer, not commercial or industrial printers; unfilled printer cartridges for micro-biology applications; Printing machines for scientific research for fabricating microfluidic arrangements on substrates and adding removing fluid in said microfluidics arrangement; parts and fittings for all the aforesaid goods, namely primary components of laboratory robots for the design, fabrication, and operation of microfluidic arrangements for biological applications, namely downloadable and recorded software for the design of circuits and small chambers, electronic control circuits, controlled volume pumps, fluid jets of small scale, small-scale automated 3D gantry, interconnecting tubes, fluid containers, polytetrafluoroethylene tips, print heads printers and plotters for use in the field of micro-biology; downloadable and recorded software for the design of circuits and small chambers; electronic control circuits for printing machines for commercial or industrial use for fabricating microfluidic arrangements on substrates and adding removing fluid in said microfluidic arrangements

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Scientific and technological services, namely, advising others in the area of product development, scientific research and development, new product design and product development, and scientific laboratory services in the fields of micro-biology and micro-fluidics; scientific research service in the fields of micro-biology and micro-fluidics; scientific research consulting and scientific research services relating to cell line development, upstream and downstream assays and instrumentation, and sample preparation and imaging; scientific research and development; advising others in the area of product development of cell lines; scientific research in the area of more efficient cell-line development workflows including optimisation protocols done both internally and externally; industrial analysis and research services, namely, industrial research in the field of single-cell cloning, micro-biology, and micro-fluidics; scientific laboratory services; scientific research and development services; design and development of instruments and apparatus for the testing and analysis of biological, chemical, biochemical and bacteriological material; design and development of instruments and apparatus for the testing and analysis of DNA, RNA, proteins and small molecules; design services relating to process systems for the biotechnology industry, namely, product design and development in the biotechnology industry; product development in the field of cell lines and new product design of complex assays using microfluidics, advisory services relating to scientific instruments, namely, product development consultation in the scientific instrument field; computer software design and development services; design and development of medical diagnostic apparatus and instruments; design and development of protocols for conducting scientific tests and experiments, namely, consulting services for others in the field of design, planning, and implementation project management of micro-biology, single cell cloning, micro fluidic applications with flow in biology applications; information and advice regarding all the aforesaid services, namely, providing information in the fields of scientific research, research and development, product development, software design and development, technological design and development, and workflow

design and development

Mark Literal(s) NATURAL LIGHT A

CASE IDENTIFIERS

Serial Number 90172513 **Application Filing Date** Sep. 10, 2020 **Registration Number** 6631279 **Registration Date** Feb. 01, 2022 **Register** Principal **Mark Type** Trademark **Publication Date** Nov. 16, 2021

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the words "NATURAL LIGHT" stylized with the word "NATURAL" in blue and the word "LIGHT" in red in all caps and positioned to the right and below the word "NATURAL". In the bottom left corner of the drawing is an image of a grey and white eagle situated inside a grey and white capital "A" that has an inside border with a five pointed star over a semi-circle at the top of the "A", both of which appear in grey with white fill. The tip of the eagle's right wing fades away to not be visible in the drawing. In the bottom right corner of the drawing is an image of another eagle but showing only two feathers from its wing and the tip of its beak. The background of the mark is white in the middle and light grey at the top and bottom. **Color Drawing** Yes **Color Claimed** The color(s) grey, white, red and blue is/are claimed as a feature of the mark. **Acquired Distinctiveness** In part **Distinctiveness Limitation Statement** as to "NATURAL LIGHT"

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a stylized green bust of a man with a short, uncolored vertical line down the top of his head representing a coin slot. A circular green outline shape with two arrows at both ends starts to the left of the man's head and circles below and to the other side of the man's head. Within this outline are an assortment of fruits, vegetables, and circles. Starting from the top left, these consist of yellow lemons, red apples, green broccoli, brown sweet potatoes, green artichoke, red beets, green and brown avocado, green peas, blue blueberries, orange carrots, tan colored ginger, orange colored oranges, green spinach, and red tomatoes. There are also small circles around the fruits and vegetables that match the colors of the produce they appear next to. Below this entire design element is the stylized wording "HEALTH BANK" in green. The color white represents background and is not claimed as a feature of the mark. **Color Drawing** Yes **Color Claimed** The color(s) yellow, red, green, brown, blue, orange, and tan is/are claimed as a feature of the mark. **Disclaimer** "HEALTH"
