GOODS AND SERVICES INFORMATION

For Machines for the chemical industry, beverage industry, agriculture, metal treating, textile industry, waste disposal and waste process industry, food industry, wood processing and plastics processing, namely, pumps; mechanical apparatus and instruments for the pressure increase of water, namely, bilge pumps, centrifugal pumps, circulating pumps, compressed air pumps, electric pumps, fuel pumps, hydraulic pumps, high pressure pumps, lubricating pumps, macerator pumps; multi-phase screw pumps, pneumatic pumps, rotary pumps, screw pumps, positive displacement pumps, sewage pumps, silt pumps, sludge pumps, submersible pumps, sump pumps, vacuum pumps; machine couplings and transmission components, other than for land vehicles; agricultural implements other than hand-operated, namely, sewage pumps, waste water pumps and irrigation systems comprised of pump control valves and pumps for use in irrigation systems; electric, pneumatic and hydraulic pumps being machines, in particular for building installations, for water supply and water disposal and for industry and agriculture, other than pumps for medical purposes and air pumps, cleaning apparatus and systems; base plate mounted electric, pneumatic and hydraulic pumps; glanded electric, pneumatic and hydraulic pumps; glandless electric, pneumatic and hydraulic pumps; multi-stage centrifugal pumps; electric, pneumatic and hydraulic borehole pumps; effluent electric, pneumatic and hydraulic pumps; sewage pumps; electric, pneumatic and hydraulic pumps being machines and pump systems consisting thereof for drinking and process water, ground water, drainage and flood-protection; insulation jackets especially adapted for use with electric, pneumatic and hydraulic pumps; sewage and waste water treatment machinery, namely, submersible mixers, sump pumps, recirculation pumps; slurry pumps; elevating apparatus being

machines for the purpose of elevating liquid substances; mechanical elevating apparatus for wastewater and excrements; spare parts for electric, pneumatic and hydraulic pumps; motors, in particular electric motors, other than for land vehicles; spare parts for motors, namely, frequency drives, rotor/stator spare parts, wear spare parts such as bearings; crankcases for machines, motors and engines; automatic control systems for motors and pumps comprised of hydraulic controls, pneumatic controls and pump control valves for the purpose of controlling the speed, pressure, temperature, voltage and flow speed; valves, fittings and accessories for boiler feed; speed control for machines, motors and engines; speed setting instruments for machines, motors and engines; pressure reducers being parts of machines; pressure regulators being parts of machines; pressure valves being parts of machines; electrically operated brushes being parts of machines; filters being parts of machines, motors or engines; taps being parts of machines, motors or engines; couplings for machines, other than for land vehicles; compressors for air conditioning and refrigerators; electric, pneumatic and hydraulic pumps being parts of machines, motors or engines; pumps for machines; pump diaphragms; mechanical and electric control being parts of machines; electric ventilators for motors; valves being parts of machines; fuel pumps and self-controlling fuel pumps for machines, service stations

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Measuring, signal and control apparatus and instruments, namely, flow meters, vortex sensors, ultrasound measuring apparatus for measuring the flowing speed of liquids or for measuring the quantity of liquid fluid through a confined space, temperature indicators, electric current measuring instruments, pressure gauges, water level indicators and/or electric warning lights, switching devices for the operation of one or more pumps with a drive motor, control units in the nature of switch boxes and control boxes for the electrical connection of AC and three-phase pumps, electric flow and pressure controllers, apparatus and instruments electronic operational monitoring units for control and check of operating status of electric pumps and for providing a warn signal in case of reaching a certain measured value; apparatus and instruments for conduction, connection, conversion, storage, regulation and control of electricity; mechanical devices and apparatus for the analysis and dosing of water, namely, scientific instrumentation for measuring the temperature, the throughput speed and the concentration of chemicals in water; equipment for recording, transmission and reproduction of sound and images; blank magnetic data carriers; calculating machines; fire extinguishers; regulating and control devices, included in this class, namely, electronic control systems for machines, automated process control systems, namely, microprocessors based hardware and software used to monitor the status of industrial machinery, namely, pumps and motors, especially for monitoring and indicating operating status of pumps and motors and for providing a warning signal in case of reaching a certain measured value, regulation and control devices, included in this class, namely, electronic motor switches for switching of drive motors that are used in the operation of one or more pumps with a drive motor, regulation and control devices, included in this class, namely, electric pump control systems, comprising electronic sensors and related software, regulation and control devices, included in this class, namely, wireless controllers to monitor and control the functioning of other electronic devices, regulation and control devices, included in this class, namely, automatic fluid composition control machines and instruments, regulation and control devices, included in this class, namely, automatic liquid flow control machines and instruments, regulation and control devices, included in this class, namely, automatic liquid level control machines and instruments, regulation and control devices, included in this class, namely, automatic pressure control

machines and instruments, regulation and control devices, included in this class, namely, water heater controls, regulation and control devices, included in this class, namely, electrical integrated control systems in the fields of drinking water and waste water treatment, air conditioning of buildings, heating of buildings and solar power generating, regulation and control devices, included in this class, namely, electric mechanical controls for use in the fields of drinking and waste water treatment, air conditioning of buildings, heating of buildings and solar power generating, regulation and control devices, included in this class, namely, electric control devices for heating and energy management, climate control systems consisting of digital thermostats, air conditioning, heating, ventilation and drying control devices; regulation and control devices, namely, data access ports for use with electrical control panels for connecting multiple data and electrical devices; electro technical instruments, namely, armatures for use in electrical apparatus, indicators for speed and temperature, electric installations for the remote control of industrial operations, electric distribution consoles and control panels, electro dynamic apparatus for the remote control of signs, electric coils, electric sensors and electric connectors; junction boxes and distribution boxes for electricity; sprinkler systems and water systems for fire protection; laboratory devices for measuring and evaluation of water quality; fuel cells; electronic publications for information purposes, namely, brochures, magazines and newsletters, downloadable; Binary Unit System for data processing, consisting of hardware and operating software; software for use in monitoring and controlling of pumps and motors, for use in monitoring and controlling drinking water and waste water treatment systems, of mixing and steering systems, of air conditioning systems of heating installations or of solar power systems; blank optical, magnetic and electronic data carriers; gauges for the purpose of measuring pressure, temperature, flowing speed of liquids, voltage and speed; electronic display interfaces for motors and pumps; junction boxes for electricity; connection for electric lines; electric batteries; camera films, exposed; observation instruments, namely, testing and measuring equipment for use in testing the performance and efficiency of pumps, for the purpose of measuring functional performance parameters of electric, pneumatic, centrifugal and hydraulic pumps; magnetic encoders for data processing; identity cards, encoded; blank CDs for sound and/or images; computers; computer operating systems, stored; computer peripheral devices; computer programs, stored, for use in monitoring and controlling of pumps and motors, for use in monitoring and controlling drinking water and waste water treatment systems, of mixing and steering systems, of air conditioning systems, of heating installations or of solar power systems; computer programs, downloadable, for use in monitoring and controlling of pumps and motors, for use in monitoring and controlling drinking water and waste water treatment systems, of mixing and steering systems, of air conditioning systems, of heating installations or of solar power systems; data processing apparatus; electronic dosage dispensers for the purpose of dispensing water; fuse wire; choking coils for use in electrical apparatus; pressure measuring apparatus; pressure indicators; electric couplings; electric transformers; electric wires; electric cables; electric capacitors; electromagnetic coils; anti-interference devices in the nature of electronic motor control units for electric, pneumatic, centrifugal and hydraulic pumps; telerupters for use in electrical apparatus, namely, pumps; remote controls for electrical apparatus, namely, pumps; electric motor control units for the remote control of pumps for use with heating and cooling systems, waste water systems, process water systems, potable water systems and sewage and building systems; semiconductors; integrated circuits; interfaces being interface apparatus or programs for computers for the use in connection with pumps; electric cable ducts; wire connectors for electricity; blank smart cards being integrated circuit cards; boiler control instruments; terminals for electricity; comparators; electric contacts; electric regulating apparatus; electrical copper wire, insulated; electric conductors; luminous signs; optical fibres; blank magnetic tapes for use in connection with computers; solenoid valves

being electromagnetic switches; electronic quantity indicators; measuring apparatus and instruments for temperature and humidity levels in gases and solid substances measuring instruments, namely, tape measures; microprocessors; modems; monitors being computer hardware; regulators, namely, pressure regulators for use in connection with pumps; RFID chips, namely, radio frequency identification (RFID) tags; RFID scanners, namely, radio frequency identification (RFID) readers; cathodic anti-corrosion apparatus for use in connection with pumps; electrical switches; electric apparatus for commutation, namely, commutators; distribution consoles for electricity; control panels for electricity; electrical sensors for the acquisition of physical values, namely, pressure sensors, differential pressure sensors, temperature sensors, flow sensors for electricity, acceleration sensors; simulators for the steering and control of vehicles and air crafts; computer memories; electric coils; electric plugs; electric sockets; bar code readers; electricity conduits; ammeters; circuit breakers; electric converters; telemetric apparatus and instruments for use in connection with pumps; temperature control units and/or thermostats; thermometers, not for medical purposes; thermostats; voltage surge protectors; electric monitoring apparatus for use in connection with pumps; junction sleeves for electric cables; connectors for electricity; distribution boxes for electricity; water level indicators; automatic time switches, namely, electronic timers; computer central processing units

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Building construction, construction of aquatic facilities, underground structures, especially underground facilities; installation, maintenance and repair of pumps, pump stations, mixers and stirring units, elevation systems, sewage plants, sewage disposal plants and sewerage; installation, maintenance and repair of motors and engines; installation, maintenance and repair of heating and air conditioning systems; installation, maintenance and repair of regulating and control systems and of additional components for HVAC and water treatment systems; installation of district and local heat networks; installation of wastewater treatment and disposal plants as well as installation of basins, ponds and pits for water preservation; information on repair work in the field of water treatment plants; installation, maintenance and repair of machines in particular of pumps; installation, maintenance and repair of electrical systems and apparatus including control and regulating systems; installation, maintenance and repair of computer hardware; plumbing; overhaul of worn out or partly destructed machines; overhaul of worn out or partly destructed motors and engines; maintenance and repair of pumps; technical consultancy, namely, maintenance and repair of pumps, electric engines, heating and sanitary systems as well as of regulating and control systems

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Measuring, signal and control apparatus and instruments, namely, flow meters, vortex sensors, ultrasound measuring apparatus for measuring the flowing speed of liquids or for measuring the quantity of liquid fluid through a confined space, temperature indicators, electric current measuring instruments, pressure gauges, water level indicators and/or electric warning lights, switching devices for the operation of one or more pumps with a drive motor, control units in the nature of switch boxes and control boxes for the electrical connection of AC and three-phase pumps, electric flow and pressure controllers, apparatus and instruments electronic operational monitoring units for control and check of operating status of electric pumps and for providing a warn signal in case of reaching a certain measured value; apparatus and instruments for

conduction, connection, conversion, storage, regulation and control of electricity; mechanical devices and apparatus for the analysis and dosing of water, namely, scientific instrumentation for measuring the temperature, the throughput speed and the concentration of chemicals in water; equipment for recording, transmission and reproduction of sound and images; blank magnetic data carriers; calculating machines; fire extinguishers; regulating and control devices, included in this class, namely, electronic control systems for machines, automated process control systems, namely, microprocessors based hardware and software used to monitor the status of industrial machinery, namely, pumps and motors, especially for monitoring and indicating operating status of pumps and motors and for providing a warning signal in case of reaching a certain measured value, regulation and control devices, included in this class, namely, electronic motor switches for switching of drive motors that are used in the operation of one or more pumps with a drive motor, regulation and control devices, included in this class, namely, electric pump control systems, comprising electronic sensors and related software, regulation and control devices, included in this class, namely, wireless controllers to monitor and control the functioning of other electronic devices, regulation and control devices, included in this class, namely, automatic fluid composition control machines and instruments, regulation and control devices, included in this class, namely, automatic liquid flow control machines and instruments, regulation and control devices, included in this class, namely, automatic liquid level control machines and instruments, regulation and control devices, included in this class, namely, automatic pressure control machines and instruments, regulation and control devices, included in this class, namely, water heater controls, regulation and control devices, included in this class, namely, electrical integrated control systems in the fields of drinking water and waste water treatment, air conditioning of buildings, heating of buildings and solar power generating, regulation and control devices, included in this class, namely, electric mechanical controls for use in the fields of drinking and waste water treatment, air conditioning of buildings, heating of buildings and solar power generating, regulation and control devices, included in this class, namely, electric control devices for heating and energy management, climate control systems consisting of digital thermostats, air conditioning, heating, ventilation and drying control devices; regulation and control devices, namely, data access ports for use with electrical control panels for connecting multiple data and electrical devices; electro technical instruments, namely, armatures for use in electrical apparatus, indicators for speed and temperature, electric installations for the remote control of industrial operations, electric distribution consoles and control panels, electro dynamic apparatus for the remote control of signs, electric coils, electric sensors and electric connectors; junction boxes and distribution boxes for electricity; sprinkler systems and water systems for fire protection; laboratory devices for measuring and evaluation of water quality; fuel cells; electronic publications for information purposes, namely, brochures, magazines and newsletters, downloadable; Binary Unit System for data processing, consisting of hardware and operating software; software for use in monitoring and controlling of pumps and motors, for use in monitoring and controlling drinking water and waste water treatment systems, of mixing and steering systems, of air conditioning systems of heating installations or of solar power systems; blank optical, magnetic and electronic data carriers; gauges for the purpose of measuring pressure, temperature, flowing speed of liquids, voltage and speed; electronic display interfaces for motors and pumps; junction boxes for electricity; connection for electric lines; electric batteries; camera films, exposed; observation instruments for the purpose of measuring functional performance parameters of electric, pneumatic , centrifugal and hydraulic pumps; magnetic encoders for data processing; identity cards, encoded; blank CDs for sound and/or images; computers; computer operating systems, stored; computer peripheral devices; computer programs, stored, for use in monitoring and controlling of pumps and motors, for use in monitoring and controlling drinking water and waste water

treatment systems, of mixing and steering systems, of air conditioning systems, of heating installations or of solar power systems; computer programs, downloadable, for use in monitoring and controlling of pumps and motors, for use in monitoring and controlling drinking water and waste water treatment systems, of mixing and steering systems, of air conditioning systems, of heating installations or of solar power systems; data processing apparatus; electronic dosage dispensers for the purpose of dispensing water; fuse wire; choking coils for use in electrical apparatus; pressure measuring apparatus; pressure indicators; electric couplings; electric transformers; electric wires; electric cables; electric capacitors; electromagnetic coils; anti-interference devices in the nature of electronic motor control units for electric, pneumatic, centrifugal and hydraulic pumps; telerupters for use in electrical apparatus, namely, pumps; remote controls for electrical apparatus, namely, pumps; electric motor control units for the remote control of heating and cooling systems, waste water systems, process water systems, potable water systems and sewage and building systems; semiconductors; integrated circuits; interfaces being interface apparatus or programs for computers for the use in connection with pumps; electric cable ducts; wire connectors for electricity; blank smart cards being integrated circuit cards; boiler control instruments; terminals for electricity; comparators; electric contacts; electric regulating apparatus; electrical copper wire, insulated; electric conductors; luminous signs; optical fibres; blank magnetic tapes for use in connection with computers; solenoid valves being electromagnetic switches; electronic quantity indicators; measuring apparatus and instruments for temperature and humidity levels in gases and solid substances measuring instruments, namely, tape measures; microprocessors; modems; monitors being computer hardware; regulators, namely, pressure regulators for use in connection with pumps; RFID chips, namely, radio frequency identification (RFID) tags; RFID scanners, namely, radio frequency identification (RFID) readers; cathodic anti-corrosion apparatus for use in connection with pumps; electrical switches; electric apparatus for commutation, namely, commutators; distribution consoles for electricity; control panels for electricity; electrical sensors for the acquisition of physical values, namely, pressure sensors, differential pressure sensors, temperature sensors, flow sensors for electricity, acceleration sensors; simulators for the steering and control of vehicles and air crafts; computer memories; electric coils; electric plugs; electric sockets; bar code readers; electricity conduits; ammeters; circuit breakers; electric converters; telemetric apparatus and instruments for use in connection with pumps; temperature control units and/or thermostats; thermometers, not for medical purposes; thermostats; voltage surge protectors; electric monitoring apparatus for use in connection with pumps; junction sleeves for electric cables; connectors for electricity; distribution boxes for electricity; water level indicators; automatic time switches, namely, electronic timers; computer central processing units

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Scientific and technological services, namely, research and design in the field of heating, cooling and air conditioning technology and water supply and sewage disposal and sewage treatment; Industrial analysis and research services, namely, testing and scientific research in the field of heating, cooling and air conditioning technology and water supply and sewage disposal and sewage treatment; design and development of computer hardware and software; update of computer software; software update by microprocessor-controlled apparatus and instruments; technical consultancy, namely, in the fields of hardware, software, telecommunications; computer systems design services; computer software design; services of a software engineer; services of a physicist, namely, physics research and consulting; services of a technical measuring and

testing laboratory; services of an engineer; conducting technical tests and checks, namely, testing and checking the operational status and functionality of pumps, mixing and steering systems, electric motors, electric controlling and regulating systems, heating systems, air condition systems, cooling systems, solar power generating systems and water treatment systems; conducting technical measuring, namely, measuring of water quality of drinking water, process water and waste water; conducting scientific studies, namely, in the fields of hardware, software, telecommunications, design, application and functionality of pumps, electric engines, heating and sanitary systems and regulating and control systems; electronic data saving, namely, recording data for others on optical, digital and magnetic media for electronic storage; computer programming; technical consultation in the fields of hardware and software; technical consultation in the design, application and functionality of pumps, electric engines, heating and sanitary systems and regulating and control systems; scientific expertise, namely, in the fields of hardware, software, telecommunications, design, application and functionality of pumps, electric engines, heating and sanitary systems and regulating and control systems; technical research, namely, in the fields of hardware, software, telecommunications, design, application and functionality of pumps, electric engines, heating and sanitary systems and regulating and control systems; engineering research; implementation of computer programs in networks; installation, maintenance and repair of software for computer systems; calibration and functional testing of measuring equipment; configuration of computer networks by software; construction planning and technical project management; material testing; maintenance and installation of software; quality control services, namely, computer monitoring services which tracks application software performance, performs periodic maintenance and provides reports and alerts concerning such performance; technical consultancy services relating to the manufacturing, installation, maintenance and repair of pumps, pump stations, mixers and steering units, elevation systems, sewage plants, sewage disposal plants and sewerage; technical project studies, namely, in the fields of hardware, software, telecommunications, design, application and functionality of pumps, electric engines, heating and sanitary systems and regulating and control systems; rental and maintenance of computer software; rental of software for Internet access; scientific research

For Abacuses; accumulator boxes; accumulator jars; accumulators, electric; accumulators, electric, for vehicles; acid hydrometers; acidimeters for batteries; acoustic conduits; acoustic couplers; acoustic sound alarms; actinometers; adding machines; aerials; aerometers; electronic agendas; air analysis apparatus; alarm bells, electric, in the nature of warning bells, signal bells, call bells; alarms, namely, sound alarms, smoke alarms, gas alarms, fire alarms; alcohol meters in the nature of hydrometers; alidades; altimeters; ammeters; amplifiers; amplifiers, namely, amplifying tubes; amplifiers, namely, amplifying valves; anemometers; video disks and video tapes with recorded animated cartoons; anode batteries; anodes; answering machines; antennas; anticathodes; anti-dazzle shades in the nature of anti-dazzle spectacles; anti-glare glasses; protective anti-glare visors to protect the eyes from the sun; electricity anti-interference devices, namely, conductive silicon packing for electro-magnetic interference, filters for radio interference suppression; anti-theft warning apparatus, namely, theft alarms, burglar alarms; optics apertometers, namely, instruments for measuring the angular and numerical aperture of the objective lens of a microscope; electricity armatures for use in electrical apparatus; asbestos clothing for protection against fire; asbestos gloves for protection against accidents; asbestos safety screens for firemen; apparatus and instruments for astronomy, namely, telescopes; lenses for astrophotography; audiovisual teaching apparatus, namely, electronic sports training simulators; automated teller machines; protective suits for aviators; precision balances; steelyards, namely, balances; balancing apparatus, namely, tire balancing machines for land vehicles; meteorological balloons; bar code readers; barometers; batteries, electric; batteries, electric, for vehicles; batteries for lighting; battery boxes; battery chargers; battery jars in the nature of capacitors, battery boxes; beacons, luminous; signal bells; warning devices, namely, warning bells; betatrons; binoculars; signaling lights, namely, blinkers in the nature of traffic-light

apparatus; fire boats; boiler control instruments; encoded identification bracelets, magnetic; electricity branch boxes in the nature of junction boxes; breathing apparatus, except for artificial respiration, namely, underwater breathing apparatus, soda lime cartridges, buoyancy bladders; breathing apparatus for underwater swimming; bullet-proof waistcoats; marking buoys; signaling buoys; electric buzzers; cabinets for loudspeakers; coaxial cables; cables; electric; junction sleeves for electric cables; calculating disks in the nature of calculating scale; calculating machines; calibrating rings for calibrating ultrasonic testers; optical emission spectrometers; calipers for measuring trees; camcorders; cinematographic cameras; photography cameras; capacitors; laboratory apparatus for scientific purposes, namely, capillary tubes; encoded magnetic cards for card games; carpenters' rules; blank magnetic data carriers for dark plates for use in photography; cases especially made for photographic apparatus and instruments; eyeglass cases; cases fitted with dissecting instruments in the field of microscopy, not for medical use; pince-nez cases; cash registers; cassette players; cathodes; cell phone straps; electrical cell switches; centering apparatus for photographic transparencies, namely, transparency projection apparatus; processors, namely, central processing units; eyeglass chains; chargers for electric batteries; chemistry apparatus and instruments, namely, flasks, gas mixers, laboratory chemical reactors; dna chips; integrated circuit chips for encoding and decoding digital video, digital video compression and decompression; choking coils for use in electrical apparatus; megaphones; mercury levels in the nature of mercury level indicators; wires of metal alloys in the nature of fuse wires; metal detectors for industrial or military purposes; meteorological instruments; meters, namely, electric meters, flow meters, gas meters; metronomes; micrometer gauges; micrometer screws for optical instruments; micrometers; microprocessors; containers for microscope slides in the nature of cover glass; microscopes; microtomes; electronic milage recorders for vehicles for measuring the total number of miles that a vehicle has travelled; inspection mirrors for inspecting work; optical mirrors; modems; money counting and sorting machines; monitoring apparatus, electric, namely, electronic monitors and monitor modules for monitoring electric current and electrical signals; computer hardware, namely, computer monitors; computer programs, namely, software for monitoring and reporting on security policies, controls, and security breaches and other unauthorized activities conducted via a global computer network; data processing equipment, namely, computer mouse; mouse pads; coin-operated musical apparatus, namely, juke boxes; nautical apparatus and instruments, namely, underwater housings for cameras, underwater enclosures for cameras and underwater enclosures for photographic lenses; naval signaling apparatus, namely, signaling buoys; navigation apparatus for vehicles in the nature of on-board computers; navigational instruments, namely, GPS navigation device; needles for record players; neon signs; nets for protection against accidents; safety nets; nose clips for divers and swimmers; notebook computers; electronic notice boards; fire hose nozzles; objectives, namely, optical lenses; observation instruments, namely, observation rockets; octants; ohmmeters; optical apparatus and instruments, namely, optical mirrors, optical inspection apparatus; optical character readers; optical lenses in the nature of optical condensers; optical data media, namely, blank optical data carriers, blank optical disks; blank optical discs; light conducting filaments, namely, optical fibers; optical glasses; optical lamps; optical lanterns; optical lenses; oscillographs; drying, microwave ovens for laboratory use; oxygen transvasing apparatus in the nature of oxygen regulators; ozonators, namely, ozonisers; parking meters; particle accelerators; pedometers; magnifying peephole lenses for doors; visual display units, namely, electronic pens; computer peripheral devices; periscopes; personal stereos; petrol fuel gauges; phonograph records featuring music; photographic, electrostatic, and thermic photocopiers; drying apparatus for photographic prints; glazing apparatus for photographic prints; frames for photographic transparencies; photometers; phototelegraphy apparatus; photovoltaic cells; apparatus and instruments for physics, namely, wave meters; pince-nez;

pince-nez chains; pince-nez cords; pince-nez mountings; pipettes; surveying instruments, namely, plane tables; planimeters; plates for batteries; DVD players; plotters; electric connections, namely, plugs, sockets and other contacts; plumb bobs; plumb lines; pocket calculators; light-emitting electronic pointers, namely, laser pointers, luminous pointers; polarimeters; pressure gauges; automatic indicators of low pressure in vehicle tires; pressure indicator plugs for valves; pressure indicators; pressure measuring apparatus; printed circuits; printers for use with computers; prisms for optics purposes; probes for scientific purposes, namely, probes for testing integrated circuits; central processing units, namely, data, micro, word processors; computer programs, namely, downloadable software for broadcasting of video on demand; computer game programs; projection apparatus, namely, projection screens; projection screens; protection devices for personal use against accidents, namely, nets; protective helmets; protective helmets for sports; protective face masks not for medical purposes; voltage surge protectors; measuring instruments, namely, protractors; electronic publications, downloadable, namely, books, magazines, manuals in the field of entertainment; punched card machines for offices; push buttons for bells in the nature of electric door bells, warning bells; pyrometers; quantity indicators in the nature of level indicators; photographic drying racks; radar apparatus; radio pagers; radiology projection, touch, video screens for industrial purposes; radios; vehicle radios; radiotelegraphy sets; radiotelephony sets; railway traffic safety appliances, namely, railway signals; range finders; data processing equipment, namely, bar code readers, electronic memory card readers; telephone receivers; apparatus for changing record player needles; record players; measuring apparatus for recording distance; electricity reducers, namely, electronic controllers used to reduce power consumption; reflecting discs for wear, for the prevention of traffic accidents; refractometers; refractors, namely, refracting telescope; electric regulating apparatus for regulating electric current; light regulators, namely, electric light dimmers; relays, electric; shutter releases for use in photography; remote control apparatus for radios, stereos; electric installations for the remote control of industrial operations; electro-dynamic apparatus for the remote control of railway points; electro-dynamic apparatus for the remote control of signals; resistances, electric; respirators for filtering air for non-medical purposes; respirators, other than for artificial respiration; respiratory masks for non-medical purposes, other than for artificial respiration; teaching apparatus, namely, resuscitation mannequins; retorts for use in high temperature chemical reactions; retorts' stands; revolution counters in the nature of tachometers; rheostats; riding helmets; road signs, luminous or mechanical; surveying instruments, namely, rods for water diviners; surveying instruments, namely, rods; measuring instruments, namely, graduated, tape rulers; measuring instruments, namely, rules; saccharometers; safety tarpaulins; salinometers; satellite navigational apparatus, namely, a global positioning system; satellites for scientific purposes; scales;steelyards, namely, lever scales; data processing equipment, namely, scanners; screw-tapping gauges; semi-conductors; sextants; sheaths for electric cables; shoes for protection against accidents, irradiation and fire; shutters for use in photography; sighting telescopes for firearms; optical signal lanterns; signaling panels, luminous or mechanical, namely, electronic indicator panels; signaling whistles; signals, luminous or mechanical, namely, vehicle traffic signals; transmitters of electronic signals; signs, luminous; simulators for the steering and control of vehicles; sirens; apparatus for measuring the thickness of skins, namely, ultrasonic thickness gauges; slide calipers; slide projectors; slide-rules; slides for use in photography; slope indicators in the nature of inclinometers; integrated circuit cards, namely, blank smart cards; smoke detectors; electric connections, namely, sockets, plugs and other contacts; protective clothing, namely, electrically heated socks for protection against accident or injury; computer software, recorded, namely, software for broadcasting video on demand; solar

batteries; solderers' helmets; electromagnetic switches, namely, solenoid valves; sonars; sound alarms; sound recording apparatus; sound recording carriers, namely, prerecorded magnetic data carriers featuring music, blank magnetic data carriers; sound recording discs, namely, blank record discs; sound recording strips, namely, blank audio tapes; sound reproduction apparatus; sound transmitting apparatus; sounding apparatus and machines, namely, echo sounding devices; sounding leads in the nature of electrical connections for the transmission of sound; sounding lines in the nature of electrical connections for the transmission of sound; spark-guards, namely, plastic guard for covering wall switches; spectacle cases; spectacle frames; spectacles; spectrograph apparatus; spectroscopes; speed checking apparatus for vehicles in the nature of speed indicators; speed indicators; speed measuring apparatus for cameras for use in photography; speed regulators for record players; spherometers; spirit levels; spools for cameras for use in photography; goggles for sports; sprinkler systems for fire protection; stage lighting regulators in the nature of illumination regulators; apparatus to check stamping mail, namely, time and date stamping machines; stands for photographic apparatus; battery starter cables for motors; level scales, namely, steelyards; steering apparatus, automatic, for vehicles, namely, simulators for the steering of vehicles; step-up transformers; stereoscopes; stills for laboratory experiments; styli in the nature of needles for record players; electronic sulphitometers; sunglasses; surveying apparatus and instruments; surveying chains; surveying instruments; surveyors' levels; switchboards; electricity switchboxes; switches, electric; tachometers; tape recorders; magnetic tape units for computers; demagnetizing apparatus for magnetic tapes; electronic taximeters; protective sports helmet accessories that attached to the helmets, namely, teeth protectors in the nature of mouth guards; telegraph wires; telemeters; telephone apparatus; telephone wires; portable telephones; teleprinters; teleprompters; telescopes; teletypewriters; automated teller machines; temperature indicators; electricity terminals, namely, computer terminals; test tubes; testing apparatus not for medical purposes, namely, semiconductor testing apparatus; theft prevention installations, electric, namely, burglar alarms, theft alarms; theodolites; thermionic tubes; thermionic valves; thermometers, not for medical purposes; thermostats; thermostats for vehicles; identification threads for electric wires; ticket dispensers, namely, electronic parking lot ticket dispensers, video lottery ticket terminals; time recording devices, namely, time clocks; time recording apparatus; time switches, automatic; automatic indicators of low pressure in vehicle tires; tone arms for record players; measuring apparatus, namely, totalizators; signaling devices, namely, traffic-light apparatus; electricity transformers; electronic transistors; telecommunication transmitters; telecommunication transmitting sets consisting of transmitters, receivers; photographic transparencies; transparency projection apparatus; transponders; triodes; tripods for cameras; electric discharge tubes, other than for lighting; automatic indicators of low pressure in vehicle tires; urinometers for measuring the specific gravity of urine; vacuum gauges; vacuum tubes for radios; variometers; vehicle breakdown warning triangles; verniers in the nature of calipers for measuring; bullet-proof vests; video cassettes, namely, blank video cassettes, prerecorded video cassettes featuring music; video game cartridges; video recorders; video screens; video telephones; videotapes, namely, blank video tapes, prerecorded video tapes featuring live show performances; viewfinders, photographic; viscosimeters; voltage regulators for vehicles; voltmeters; voting machines; waling glasses in the nature of magnifying glasses; walkie-talkies; photography washing trays; water level indicators; wavemeters; weighbridges in the nature of weighing scales; weighing apparatus and instruments; weighing machines; test weights; whistle alarms; wind socks for indicating wind direction; wire connectors; masts for wireless aerials; wires, electric; workmen's protective face-shields; wrist rests for use with computers; x-ray apparatus not for medical purposes; x-ray films, exposed; x-ray photographs, other than for medical purposes; x-ray tubes not for medical purposes; chronographs for use as specialized

time recording apparatus; apparatus for editing cinematographic film; cinematographic film, exposed; circuit breakers; circuit closers; cleaning apparatus for sound recording discs in the nature of magnetic head cleaners, clinometers; protective clothing especially made for use in laboratories; clothing for protection against accidents, irradiation and fire; clothing for protection against fire; coils, electric; electromagnetic coils; holders for electric coils; mechanisms for coin-operated apparatus; coin-operated mechanisms for television sets; apparatus for controlling electric current, namely, collectors, electric; electric apparatus for commutation, namely, commutators; commutators; compact disc players; audio-video compact discs featuring entertainment and live show performances, music; read-only memory compact discs featuring entertainment and live show performances, music; comparators; directional compasses; magnetic compasses; computer keyboards; computer memory devices; computer operating programs, recorded; recorded computer programs for database management; computers; capacitors, namely, condensers; conductors, electric; lightning conductors; electricity conduits; connections, electric; connections for electric lines; electricity connectors; contact lenses; containers for contact lenses; contacts, electric; electricity control panels; converters, electric; copper electrical wire, insulated; correcting optical lenses; cosmographic instruments, namely, zenith telescopes; counterfeit coin detectors, namely, coin acceptors for separating good coins from counterfeits; mechanisms for counter-operated apparatus, namely, coin-operated mechanisms for television sets, mechanisms for coin operated apparatus; counters, namely, Geiger counters, particle counters; data processing equipment, namely, couplers; couplings, electric; covers for electric outlets; crash test dummies; laboratory equipment, namely, crucibles; laboratory equipment, namely, cupels; current rectifiers; cyclotrons; darkroom lamps for use in photography; photographic apparatus, namely, portable darkrooms; magnetic data media, namely, blank magnetic data carriers, prerecorded magnetic data carriers featuring live performances and music; data processing apparatus; decompression chambers; densimeters; densitometers for measuring the optical density of a material; detectors, namely, metal detectors, fire and smoke detectors; diagnostic apparatus, not for medical purposes for testing food, the detection of pathogens for laboratory use; acoustic diaphragm; diaphragms for scientific apparatus, namely, diaphragms for diaphragm pumps as parts of gas conditioners and gas analyzers; photography diaphragms; dictating machines; regulators, namely, electric light dimmers; discharge tubes, electric, other than for lighting; disk drives for computers; blank disks, magnetic; distance measuring apparatus; distance recording apparatus; distillation apparatus for scientific purposes; electricity distribution boards; electricity distribution boxes; electricity distribution consoles; divers' masks; diving suits; dog whistles; dosage dispensers, namely, machines for dispensing pre-determined dosages of medication; dosimeters; drainers for use in photography; dressmakers' measures, namely, tape measures; drying racks for photography; electrical ducts; dynamometers; ear plugs for divers; editing appliances for cinematographic films; sandglasses, namely, egg timers; egg-candlers; electric door bells; electric loss indicators, namely, electric monitors for monitoring electric current; materials for electricity mains, namely, electric wire and cable; electrified fences; electrified rails for mounting spot lights; electrolysers; electronic pocket translators; electronic tags for goods; magnetic encoders; photography enlarging apparatus, namely, photographic projectors; epidiascopes; ergometers not for medical purposes; light meters, namely, photographic exposure meters; eyeglass cords; eyeglass frames; eyeglasses; protective eyepieces; facsimile machines; false coin detectors, namely, coin acceptors for separating good coins from counterfeits; apparatus for fermentation for laboratory use; fiber optic cables; film cutting apparatus; films, exposed, namely, camera film, slide films; filters for respiratory masks; filters for ultraviolet rays, for photography; photographic filters; fire extinguishing beaters; fire blankets; fire engines; fire escape ladders; fire
