**For** [ Biological, pharmaceutical, and veterinary preparations, namely, recombinant proteins and growth factors for medical use [ including use in cell culture media and use in conjunction with medical devices ] ]

**International Classes** 5 - Primary Classes **US Classes** 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

**For** [ Cosmetics containing recombinant proteins and growth factors ]

**International Classes** 3 - Primary Classes **US Classes** 1, 4, 6, 50, 51, 52 **International Class Title** Cosmetics and Cleaning Preparations

**For** Chemicals, namely, recombinant proteins and growth factors for use in industry, medical research, and in manufacture of cell culture media, diagnostics, cosmetics [, food and feed products and food and feed supplements]

**International Classes** 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

**For** [ Advertising; business management; business administration; office functions; all the above-mentioned services in the field of biotechnology, including but not limited to gene technology and protein technology such as in molecular farming and application of biotechnology in the fields of chemical industry, food and feed production, cosmetics, medicine and pharmaceutical industry ]

**International Classes** 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

**For** [ Gene-modified agricultural, horticultural and forestry products and grains, namely, unprocessed edible seeds; plant seeds; live plants; live flowers; foodstuffs for animals, malt for brewing and distilling; protein and other biomolecule feed additives for animal consumption, not for medical purposes ]

**International Classes** 31 - Primary Classes **US Classes** 1, 46 **International Class Title** Natural Agricultural Products

**For** [ [ Medical services; veterinary services; hygienic and beauty care for human beings and animals; ] agriculture and horticulture [ and forestry ] services, namely, growing plants that produce recombinant proteins ]

**International Classes** 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

**For** [ Treatment of materials through gene modification and with materials produced in gene-modified organisms; material treatment for biotechnological production of proteins, peptides, carbohydrates, and lipids in living organisms to produce growth factors, cytokines and other recombinant proteins for the chemical, pharmaceutical, food and feed production, cosmetics, and medical fields ]

**International Classes** 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

**For** [ Scientific and technological services, namely, design and engineering of genetic molecules that encode growth factors and cytokines for the chemical, pharmaceutical, food and feed production, cosmetics, and medical fields; Design and engineering of scientific production methods for introducing said genetic molecules into plants for production therein of said growth factors and cytokines; [ Design and development of computer hardware and software for designing and engineering said genetic molecules that encode growth factors and cytokines; ] Scientific research relating to effects of recombinant proteins on cellular functions ]

**International Classes** 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

## GOODS AND SERVICES INFORMATION

**For** semi-worked wood, namely, wood material as semi-finished products for the production of weaving machine accessories

**International Classes** 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

**For** Needles; knitting, warp knitting, weft knitting, stitch-bonding, galon crocheting, and [ linking machine ] needles, in particular, latch needles, bearded needles, hook needles, guide needles and needle-like parts for actuating and controlling needles and sinkers; needles for sewing, knitting, stitch-bonding [, linking and quilting machines ] ; sewing needles, hook needles, latch needles, perforating needles, puncture and sewing needles for shoe manufacturing; needles for the production, strengthening and structuring of non-wovens and felts; [ perforating needles; ] needles [ and needle-shaped parts ] for tufting machines in single parts and in modular form [, checking needles ]

**International Classes** 26 - Primary Classes **US Classes** 37, 39, 40, 42, 50 **International Class Title** Fancy Goods

**For** [ Woven materials and textile goods, namely, mesh-woven fabrics, textile fabrics for the manufacture of clothing; fabrics, namely, woven fabrics, knitted fabrics, felts; hybrid textiles for the manufacture of technical textiles, namely, geo-textiles, automotive fabrics, protective apparels, medical/surgery textiles and filtration fabrics consisting of knits, felts, multiaxial layers and woven fabrics, 3D-felts, 3D-knits, hydroentangled knitted and woven textiles and non-wovens, spacer knits with non-wovens as spacers for use as filters ]

**International Classes** 24 - Primary Classes **US Classes** 42, 50 **International Class Title** Fabrics

**For** machine parts and assemblies of knitting, warp knitting, weft knitting, stitch-bonding, galon crocheting, and linking machines for forming and transferring loops, in particular, latch needles, bearded needles, slider needles, hook needles, cutting needles and system components in the nature of sinkers, guide needles and needle guides and needle-like parts for actuating and controlling needles and sinkers, and receptacles, carriers and holders of needles and system components, in particular, needle cylinders [, dial and sinker disks, needle beds and strips therefor, needle and guide bars ] and needle modules [, drive belts, thread-guide and thread-delivery elements, lock components, fabric take-offs, brushes, drives, cutting knifes; drawing-in machines for warp knitting and raschel knitting, and machines in the nature of a transport and handling system for exchange and installation of warp and fabric beams, knitting tools and other machine components, namely, bobbins/spools and fabric batches ] ; machine parts and assemblies of sewing, embroidering, stitch-bonding and quilting machines, namely, needles, hook needles, latch needles [, needle holders and needle receptacles, needle guides, grippers, needle plates and miscellaneous replacement parts ] ; machine parts and assemblies of machines for production, strengthening and structuring of fiber batts and felts, namely, felting and structuring needles, [ needle boards, ] perforated jet strips [, perforated jet bands, nozzle strips, perforated plates, stripper plates, brush belts ] ; machine parts and assemblies of carding machines, carding and spinning machines, namely, [ cards, ] sets, steel band sets, spinning beams; [ machines for loading needle boards, and transport and handling machine systems for exchange and installation of machine elements and components, namely, needle boards, stitch plates, stripper plates and fabric beams, machines and parts thereof for hydroentangling knitted and woven textiles and non-wovens, ] components of tufting machines, namely, needles, grippers, [ knives, ] reed fingers, reed plates in single parts and in modular form; machines, namely, industrial and manual blanking apparatus, and components thereof, in particular for machining of foils, in the nature of [ sintered or ] insintered ceramic [, plastic material, metal, also coated ] ; blanking tools in the nature of blanking machines and presses, and components thereof, namely, punches, dies and guide bushings [, needles, test tips ] ; machine parts and assemblies of weaving machines, namely, heald frames, [ frame staves, lateral supports, heald carrier rods, ] guide attachments for frame staves, healds, leno healds, reeds, [ cord boards, harness cords, jacquard weights, jacquard springs, ] warp stop motions and warp stop motion plates [, shuttles, split selvedge apparatus, edge binders; machines for shedding dobbies, cam motion dobbies and jacquard machines, and components and assemblies thereof, namely, frame pulleys, bearers, clutch devices, cams, eccentrics, boards, knives, stroke-measuring devices and programming devices ] ; weaving preparation machines, namely, drawing- in machines, [ drawing- in machines for jacquard machines, reed drawing- in machines,] warp linking machines [, and transport and handling machine systems for exchange and installation of the loom harness, fabric beams and other machine components, namely, bobbins/spools and fabric batches; [ checking devices in the nature of machines for quality control of textile products; machines for quality monitoring of textile fabrics; ] finishing machines; machines for textiles; machines and component and replacement parts thereof for the production of hybrid textiles consisting of knits, felts, multiaxial layers and woven fabrics, 3D-felts, 3D-knits ]

**International Classes** 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

**For** [ Yarns and threads made of natural fibers ]

**International Classes** 23 - Primary Classes **US Classes** 43 **International Class Title** Yarns and Threads

**For** [ cleaning preparations in the nature of cleaning fluids, chemicals for cleaning textiles, namely, chemical cleaners directed to the textile industry ]

**International Classes** 3 - Primary Classes **US Classes** 1, 4, 6, 50, 51, 52 **International Class Title** Cosmetics and Cleaning Preparations

**For** [ chemical products for commercial purposes, namely, chemicals for use in the textile industry; chemicals for textile finishing ]

**International Classes** 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

**For** Online services, namely, electronic transmission of information, texts, drawings and images; providing telecommunication channels for teleshopping services

**International Classes** 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

**For** [ oils and lubricants, namely, industrial oils and lubricants, gear oils, penetrating oils, lubricating oils, transmission oils, oils for textile machines, needle oils, anti-corrosive oils for use in the textile industry ]

**International Classes** 4 - Primary Classes **US Classes** 1, 6, 15 **International Class Title** Lubricants and Fuels

**For** [ Plastic material as semi-finished products in the form of blocks, pellets, rods, foils, foams, fiber, films and sheets for the production of weaving machine accessories ]

**International Classes** 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

**For** scientific research and development; research in the field of textiles; product research and development; research and development of new products for others

**For** lighting fixtures; electric lighting fixtures; LED (light emitting diode) lighting fixtures; lighting fixtures and lighting apparatus, namely, lighting installations; electric luminaires, LED luminaires, luminaire refractors, luminaires reflectors, luminaires diffusers, luminaires diffractors; lighting apparatus and fixtures for use in commercial, industrial, residential, public, retail, workspace, hospitality, architectural and effect lighting applications, food, healthcare and entertainment environments; task lighting fixtures for use in displays, namely, retail, food, residential, workspace and healthcare, entertainment environments, commercial, industrial, public, hospitality, architectural and effect lighting applications; accent lighting apparatus for use in commercial, industrial, residential, public, retail, workspace, hospitality, architectural and effect lighting applications, food, healthcare and entertainment environments; lighting fixtures for healthcare, medical, wellbeing and therapeutic applications; lighting fixtures for use in parking decks, parking lots, walkways and garages, street lighting installations and landscape lighting installations; highway illumination assemblies, tunnel illumination assemblies; lighting fixtures for land vehicles, bicycles, railway vehicles; lighting fixtures for boats, ships, personal watercraft, spacecraft and aircraft interiors; lighting fixtures for indoor and outdoor lighting applications which reproduce the natural light of the sky; lighting fixtures for underground applications; electric lighting fixtures, namely, power failure backup safety lighting; lighting apparatus for use in illuminating signs; film stage lighting apparatus; theatrical stage lighting apparatus; display for the reproduction of natural light using artificial light sources; lamps, luminaires, lighting fixtures and systems; lamp reflectors; landscape lighting installations; optical components, namely, reflectors, refractors, light diffusers, optical filters, mirrors, curved mirrors; arrays of optical and micro optical lighting systems; LED light sources and components, namely, phosphors, dies, lenses; electric water-based residential heating systems comprised primarily of tubes, pipes and manifolds through which

warm or high temperature water circulates; heating, cooling and ventilation systems comprising HVAC units for reproducing natural conditions in residential, commercial, public and working spaces; climate systems comprising HVAC units for residential, commercial, public and working spaces, commercial, industrial, residential, public, retail, workspace, hospitality, architectural and effect lighting applications, retail, food, residential and workspace and healthcare environments

**International Classes** 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

**For** [ chemicals used in industry and science, namely, organic and inorganic nanoparticles for experimentation, scientific study and research, energy storage, micro-electronics, photonics, lighting and electronic display applications; chemicals in the form of nanoparticles for use in the manufacture of products used in lighting, electronic display applications, design, architecture and building industry; chemicals in the form of nanoparticles for use in the preparation of paints, coatings and films; chemicals in the form of nanoparticles made of organic or inorganic polymers, metal oxides and metals for use in a wide variety of industrial and manufacturing applications; chemicals in the form of liquid dispersions of transparent materials and nanoparticles for use in a wide variety of industrial and manufacturing applications; chemicals in the form of liquid dispersions of transparent materials and nanoparticles for use in the manufacturing of panels, films, sheets, foils, coating, paints, molded products and casted blocks; chemicals in the form of liquid dispersions of transparent materials and nanoparticles for use in the production of plastic goods using different manufacturing processes, namely, casting, cast extrusion, compression molding, injection molding, extrusion molding, calendering, knife coating, blow molding, thermoforming, blown film extrusion; dry blend; chemicals in the form of solid dispersions of transparent materials and nanoparticles for use in a wide variety of industrial and manufacturing applications; chemicals in the form of solid dispersion dry blends of transparent materials and nanoparticles for use in the manufacturing of panels, films, sheets, foils and injected molded products; chemicals in the form of solid dispersion dry blends of transparent materials and nanoparticles for use in the production of plastic goods using different manufacturing processes, namely, cast extrusion, compression molding, injection molding, extrusion molding, calendaring, knife coating, blow molding, thermoforming, blown film extrusion; chemicals in the form of dispersions of transparent materials and nanoparticles for the production of panels for use as building covering; artificial and synthetic resins; unprocessed resins for use in the manufacturing of panels, films, sheets, foils, coating, paints, injected molded products and casted blocks; unprocessed plastics for industrial use; unprocessed plastics in all forms; chemical additives for paints and surface coatings; chemical preparation for use in the manufacture of paints; chemical preparation for the manufacture of paints; fire absorbent chemicals for use in the manufacturing of paints; polymer coating; fire extinguishing compositions; chemicals in the form of nanoparticles for the enhancement of optical, mechanical, and chemical performance of plastic, glass and metal products; tempering preparations; soldering chemicals, namely, tempering chemicals for use in soldering; tanning agents for use in the manufacture of leather; adhesive substances for use in industry ]

**International Classes** 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

**For** [ teaching apparatus and instruments in the nature of experimental devices in the field of natural optical phenomena, namely, reflection, lens theory, polarization, interference, diffraction and optical instruments, prisms for optical purposes, optical sensors, optical reflectors, optical inspection devices, optical scanners and optical mirrors, and audio-video material, namely, recordings featuring science experiments; luminous signs, electric signs, backlit signs, neon signs, electronic LED signs, luminous road signs, illuminated exit signs; luminous variable/dynamic signs using light emitting diodes and electronic controllers to produce real-time and programmable messages, information displays and advertisement; lighting signs for

guidance, namely, illuminated signs for guiding and directing lights for exit signage, escape route signage; escape route signage; security lights for outdoor use; projection screens; backlit screens for display of images; side lit screens for display of images; electronic display screens; flat panel display screens; LCD largescreen displays; display for 3Dimage generation; video projectors; image projectors; electronic display for creating images; ] electronic apparatus for the reproduction of the lighting scenery in nature using artificial light sources; electronic displays based on artificial skylights, artificial roof windows, artificial vertical windows, forming diffusing screens for artificial light sources [ ; electric luminescent display panels; computer graphics software for visual graphic and photorealistic rendering for scientific/optical simulations, design and product engineering, material science, architecture, cinema and advertising; computer software for use in home and industrial automation applications, namely, lighting, security and HVAC monitoring and controlling applications; computer software for use in the light entertainment business for remotely controlling lights in a building, theatre, exhibition area and during entertainment events ]

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

**For** [ treatment of materials, namely, lamination of plastic with different materials such as plastic, glass, metal, wood, lamination of glass surfaces with plastic film, coating of materials, using techniques such as coil coating, sputtering, rotogravure, deep coating, knife coating, spin coating, spray coating, electrostatic coating, molecular beam epitaxy, vacuum deposition; treating of plastic and glass surfaces for fire retardant, antireflective, anti-scratch and antifogging purposes; assembly of materials for others, constructions; treatment of materials, namely, applying thin films to surfaces by means of vacuum deposition process and plasma process ]

**International Classes** 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

**For** [ semi-finished plastic panels, sheets, films, foils, coatings and casted blocks for use as optical diffusers in lighting devices; semi-finished plastic panels, sheets, films, foils, coatings and casted blocks for use as optical diffusers; semi-finished plastic panels, sheets, films, foils, coatings and casted blocks for use in artificial lighting applications; semifinished plastic panels for use as side lit optical waveguides in lighting devices; micro optics plastic sheets for light processing; semi-finished plastic sheets for light filtering; plastic fibers not for textile use for use in the manufacture of lighting devices; plastics in extruded form for use in production; packing and insulating material; non-metallic flexible pipes ]

## GOODS AND SERVICES INFORMATION

**For** [ Paper, cardboard and goods made from these materials included in this class, namely, paper boxes and paper bags; printed matter, namely, brochures and catalogues in the field of RF technology; brochures about RF technology and RF products; catalogues in the field of RF products; printed periodicals in the field of RF technology and RF products; specialist newspapers in the field of RF technology and RF products; bookbinding material; office requisites other than furniture, namely, paper embossers; instructional and teaching material except apparatus, namely, printed workbooks, notepads, presentations, reference lists in the field of RF technology and RF products; plastic materials for packaging, included in class 16, namely, plastic bubble packs for packaging ]

**International Classes** 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

**For** Education, namely, providing apprenticeship in the field of commercial business, production, design and research; providing training in the fields of installation, tuning, supervising, technology and sales; organising, arranging and conducting of seminars for cultural and educational purposes in the field of intercultural training; arranging and conducting of training courses in the field of communications technology, high-frequency technology, ultra-high-frequency technology, microwave technology, millimetre wave technology, terahertz technology, medical technology, radar technology, radio technology, telecommunications technology, satellite technology and transmitter technology, fibre-optic technology, sensor technology, measuring technology, control engineering, as well as heavy-current and weak-current engineering; providing of training and further training, including training in the form of correspondence courses in the fields of business, legal, technology,

production; making available of non-downloadable electronic publications in the nature of articles, booklets, pamphlets and blogs in the field of business, legal, technology and production; publication of texts except publicity texts; publication of printed matter in the nature of data sheets, technical studies, tests, research and journals in the fields of technology and production, including in electronic form, other than for advertising purposes, including on the Internet; publication of periodicals and books in the fields of terms, data sheets, codes of conduct, presentations, including in electronic form, including on the Internet; publication of texts relating to product tests and service inspections other than for advertising purposes; publication of test magazines and printed consumer information, including in electronic form other than for advertising purposes

**International Classes** 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

**For** [ Advertising; office functions; retail store and wholesale store services in relation to goods and services in the field of communications technology, high-frequency technology, ultra-high-frequency technology, microwave technology, millimetre wave technology, terahertz technology, medical technology, radar technology, radio technology, telecommunications technology, satellite technology, fibre-optic technology, sensor technology, measuring technology, control engineering and transmitter technology, heavy-current and weak-current engineering, and electric, electronic, electromechanical, electro-optical and optical apparatus of all kinds; Providing consumer product information relating to all the aforesaid goods through advertising for others in periodicals, pamphlets and newspapers, and in electronic media, and on the internet; distribution of promotional items; promotional exhibition and demonstration of goods for advertising purposes; arranging of advertising, distribution of goods for advertising purposes; marketing, marketing studies and market analysis; arranging of contracts, for others, for the buying and selling of goods; business management for shops; sales promotion for others; arranging commercial transactions, for others ]

**International Classes** 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

**For** Building construction; assembly in the nature of installation and repair of electronic apparatus and components for communications technology and high-frequency technology, ultra-high-frequency technology, microwave technology, millimetre wave technology, terahertz technology, medical technology, radar technology, radio technology, telecommunications technology, satellite technology, fibre-optic technology, sensor technology, measuring technology, control engineering and transmitter technology, and of electric apparatus and instruments for heavy-current and weak-current engineering; installation, maintenance and repair of goods and installations in the field of communications technology, high-frequency technology, ultra-high-frequency technology, microwave technology, millimetre wave technology, terahertz technology, medical technology, radar technology, radio technology, telecommunications technology, satellite technology, fibre-optic technology, sensor technology, measuring technology, control engineering and transmitter technology, as well as heavy-current and weak-current engineering; building, namely, the implementation of building projects in the nature of construction project management services; construction management services

**International Classes** 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

**For** Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking, life-saving and teaching apparatus and instruments, namely, coaxial connectors, coaxial measuring devices, optical data transmission apparatus; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; data-processing equipment and computers; electronic apparatus and components, namely, RF connectors and RF-coaxial cables for communications technology, high-frequency technology, ultra-high-frequency technology, microwave technology, millimetre wave technology, terahertz technology, medical technology, radar technology, radio technology, telecommunications equipment, satellite technology, sensor technology, measuring technology, control engineering and transmitter technology; electrical energy and power supplies and controls, as well as sensor systems and actuator systems for the aforesaid apparatus included in class 9, namely, feedthroughs for leading coaxial cables into a casing or housing; optical apparatus and instruments and electro-optical apparatus and optical apparatus and instruments and electro-optical components, namely, transmitters and receivers for fiber optic links, rotary joints and slip rings for transmission of electrical signals for communications technology, medical technology, radar technology, sensor technology, measuring technology, control engineering, in particular optical waveguides and components for fibre-optic technology; radio apparatus in the nature of coaxial cable connectors, coaxial cable assemblies, patch panels, matrix switches, channel combiners, audio-video combiners, parallel electronic switching units, in particular high-frequency, microwave, millimetre wave, terahertz and ultra high-frequency apparatus; electric apparatus and instruments for heavy-current engineering, namely, for transmission, conducting, switching, accumulating, transforming, control and regulating high-power and high-energy electric apparatus and instruments in the nature of cable assemblies for weak-current engineering, namely, for communications technology, high-frequency technology and control engineering; aerials and aerial components for sending and receiving data transmissions, radar signals, communication transmissions; electronic components in the nature of RF switches, electric and electronic switches and circuits, and connecting elements, namely, electric pin and socket connections included in class 9; electrical cables and wires; computer hardware and software in the field of RF tuning

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

**For** [ Licensing of industrial property rights and copyright; administration of intellectual property rights and copyright, namely, intellectual property and copyright management ]

**International Classes** 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

**For** [ Treatment of materials for the manufacture of radio frequency technology products, in particular in the fields of communications technology, high-frequency technology, ultra-high-frequency technology, microwave technology, millimetre wave technology, terahertz technology, medical technology, radar technology, radio technology, telecommunications technology, satellite technology and transmitter technology, fibre-optic technology, sensor technology, measuring technology, control engineering, as well as heavy-current and weak-current engineering ]

**International Classes** 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

**For** Rubber, gutta-percha, [ gum in the nature of adhesive sealants for general use, ] asbestos, mica and goods made from these materials and not included in other classes, namely, rubber, gutta-percha, urethane, rubber, acrylic and silicone sealants for tightening splices in electrical wires; asbestos and mica padding for impact protection; plastics in extruded form in bars, blocks, pellets, rods, sheets and tubes for use in manufacture; packing, sealing dust protection caps and insulating materials; flexible pipes, not of metal; sealing plugs and inserts made primarily from rubber and plastic; casting compounds for sealing, namely, watertight sealing plugs made primarily from rubber and plastic

**International Classes** 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

**For** Hand tools and implements, hand-operated, namely, tools for fitting or assembly of RF cables, flaring tools and trimming tools for communications technology, high-frequency technology, ultra-high-frequency technology, microwave technology, millimetre wave technology, terahertz technology, fibre-optic technology, sensor technology, measuring technology, control engineering, medical technology, radar technology, radio technology, telecommunications technology, satellite technology and transmitter technology, as well as heavy-current and weak-current engineering, in particular transmitting tools; tools for the assembly of coaxial cables [, in particular stripping tools ]

**International Classes** 8 - Primary Classes **US Classes** 23, 28, 44 **International Class Title** Hand Tools

**For** [ Scientific and technological services, namely, engineering consulting, research and design relating thereto in the field of RF technology; industrial analysis and research services in the field of RF technology and commercial markets; design and development of computer hardware and software, namely, hardware and software used in the operation of telecommunications systems; technical consultancy, in particular technical consultancy in the field of communications technology, high-frequency technology, ultra-high-frequency technology, microwave technology, millimetre wave technology, terahertz technology, medical technology, radar technology, radio technology, telecommunication techniques, fibre-optic technology, sensor technology, metrology, control engineering, satellite technology and transmitter technology, as well as heavy-current and weak-current engineering; Technological planning and designing in the field of communications technology, high-frequency technology, ultra-high-frequency technology, microwave technology, millimetre wave technology, terahertz technology, medical technology, radar technology, radio technology, telecommunication techniques, fibre-optic technology, sensor technology, metrology, control engineering, satellite technology and transmitter technology, as well as heavy-current and weak-current engineering; technical planning and designing in the field of communications technology, high-frequency technology, ultra-high-frequency technology, microwave technology, millimetre wave technology, terahertz technology, medical technology, radar technology, radio technology, telecommunication techniques, fibre-optic technology, sensor technology, metrology, control engineering, satellite technology and transmitter technology, as well as heavy-current and weak-current engineering; engineering and providing of scientific expertise, namely, quality production processes and production consulting in the nature of quality control for others and scientific consulting in the field of RF technology; technical and scientific project studies and project control, namely, technical project planning and design engineering in the field of RF technology and production; technological services, namely, providing technological information in the field of communications technology, high-frequency technology, ultra-high-frequency technology, microwave technology, millimetre wave technology, terahertz technology, medical technology, radar technology, radio technology, telecommunications technology, fibre-optic technology, sensor technology, measuring technology, control engineering, satellite technology and transmitter technology, as well as heavy-current and weak-current engineering; conducting scientific experiments in the field

of communications technology, high-frequency technology, ultra-high-frequency technology, microwave technology, millimetre wave technology, terahertz technology, medical technology, radar technology, radio technology, telecommunications technology, fibre-optic technology, sensor technology, measuring technology, control engineering, satellite technology and transmitter technology, as well as heavy-current and weak-current engineering; materials testing and quality control, evaluation for purposes certification and technical monitoring of production processes, in particular in the field of communications technology, high-frequency technology, ultra-high-frequency technology, microwave technology, millimetre wave technology, terahertz technology, medical technology, radar technology, radio technology, telecommunications technology, fibre-optic technology, sensor technology, measuring technology, control engineering, satellite technology and transmitter technology, as well as heavy-current and weak-current engineering ]
