GOODS AND SERVICES INFORMATION

For Vehicles, namely, railbound vehicles, land vehicles, trams, railway carriages, trolleys, buses and trucks; apparatus for locomotion by land, air or water, namely, drones, airships, helicopters, gyrocopters, boats, airplanes, locomotives, self-driving automobiles, ferry boats, and automobiles; axle journals for land vehicles; transmission chains for land vehicles; driving motors for land vehicles; transmission shafts for land vehicles; brake segments for vehicles; brake discs for vehicles; bogies for railway cars; torque converters for land vehicles; rolling stock for railways; brakes for vehicles; mine cart wheels; transmission parts, namely, gears, pinions, screws, wheels, freewheels for land vehicles and couplings for land vehicles; gear boxes for land vehicles; shaft couplings for land vehicles; vans; tipping bodies for dump trucks; motorcycles; land vehicle wheel hubs; bands for wheel hubs, namely, hub caps; axles for land vehicles; gears for land vehicles; clutches for land vehicles; torsion bars for vehicles; transmissions for land vehicles; reduction gears for land vehicles; railway couplings; railway carriages; gears for bicycles

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Machines and machine tools, namely, plastic processing machines; motors and engines except for land vehicles; machine coupling and transmission components except for land vehicles; starters for motors and engines; anti-friction pads for machines; transmission chains other than for land vehicles; drives for motors other than for land vehicles; transmission shafts other than for land vehicles; brake segments other than for vehicles; brake pads other than for vehicles; brake shoes other than for vehicles; crankcases for machines, motors and engines; gear boxes other than for land vehicles; universal joints and cardan joints for connecting an engine to a shaft or a spindle; machine couplings other than for land vehicles; cranks being parts of machines; bearings as parts of machines; bearing brackets for machines; machines for processing plastics; machine parts, namely, bearing housings; machine wheels; stands for machines; axles for machines; mixing machines; feeders being parts of machines; electric mixing machines; pressing machines for industrial purposes; pumps for heating installations, namely gear pumps, vacuum pumps, centrifugal pumps, turbo pumps, and wedge shaped lubricant pumps; machine parts namely, pumps for heat exchangers; pumps being parts of machines, engines or motors; gears, other than for land vehicles; machine wheelworks; roller bearings for machines; clutches for power transmission other than for land vehicles; lubricating pumps; lubricators being parts of machines; bearings for transmission shafts being parts of machines; transmissions other than for land vehicles; transmissions for machines; reduction gears other than for land vehicles; shaft couplings for machines; machine tools, namely, extruder shafts for plastic processing machines and pressure increasing tools for plastic processing machines; wind turbines; rack and pinion jacks; filling machines; machines and machine tools, namely, melt pumps and machines for manufacturing and further processing of plastics

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Unprocessed artificial resins; unprocessed plastics; adhesives used in industry; unprocessed acrylic resins; actinium; activated carbons for the plastics industry; vegetable albumin for use in the manufacture of fiber and in the textiles industry; industrial chemicals; dispersions of plastics for use in the manufacture of plastics; unprocessed synthetic resins

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Repair, maintenance, installation, and providing related repair information in the field of plastic processing machines, motors and engines except for land vehicles, machine coupling and transmission components except for land vehicles, starters for motors and engines, anti-friction pads for machines, transmission chains other than for land vehicles, drives for motors other than for land vehicles, transmission shafts other than for land vehicles, brake segments other than for vehicles, brake pads other than for vehicles, brake shoes other than for vehicles, crankcases for machines, crankcases for motors, crankcases for engines, gear boxes other than for land vehicles, universal joints and cardan joints for connecting an engine to a shaft or a spindle, machine couplings other than for land vehicles, cranks being parts of machines, bearings as parts of machines, bearing brackets for machines, machines for processing plastics, machine parts including bearing housings, machine wheels, stands for machines, axles for machines, mixing machines, feeders being parts of machines, electric mixing machines, pressing machines for industrial purposes, pumps for heating installations including gear pumps, vacuum pumps, centrifugal pumps, turbo pumps, and wedge shaped lubricant pumps, machine parts including pumps for heat exchangers, pumps being parts of machines, pumps being parts of engines, pumps being parts of motors, gears other than for land vehicles, machine wheelworks, roller bearings for machines, clutches for power transmission other than for land vehicles, lubricating pumps, lubricators being parts of machines, bearings for transmission shafts being parts of machines,

transmissions other than for land vehicles, transmissions for machines, reduction gears other than for land vehicles, shaft couplings for machines, machine tools including extruder shafts for plastic processing machines and pressure increasing tools for plastic processing machines, wind turbines, rack and pinion jacks, filling machines, machines and machine tools including melt pumps and machines for manufacturing and further processing of plastics, vehicles, railroad bounded vehicles, road vehicles, tramways, carriages, trolleys, buses, trucks, apparatus for locomotion by land, apparatus for locomotion by air, apparatus for locomotion by water, railroad bounded apparatus, drones, air ships, helicopters, gyrocopters, boats, airplanes, locomotives, self driving carriages, ferries, automobiles, axle journals for land vehicles, transmission chains for land vehicles, driving motors for land vehicles, transmission shafts for land vehicles, brake segments for vehicles, brake discs for vehicles, bogies for railway cars, torque converters for land vehicles, rolling stock for railways, brakes for vehicles, mine cart wheels, transmission parts including gears for land vehicles or couplings, transmission parts including pinions for land vehicles or couplings, transmission parts including screws for land vehicles or couplings, transmission parts including wheels for land vehicles or couplings, transmission parts including freewheels for land vehicles or coupling, gear boxes for land vehicles, shaft couplings for land vehicles, vans, tipping bodies for dump trucks, motorcycles, land vehicle wheel hubs, bands for wheel hubs including hub caps, axles for land vehicles, gears for land vehicles, clutches for land vehicles, trams, torsion bars for vehicles, transmissions for land vehicles, reduction gears for land vehicles, railway couplings, railway carriages, gears for bicycles; repair and maintenance of gear boxes, power transmissions and couplings; vehicle greasing; vehicle maintenance; vehicle service stations featuring refueling and maintenance; cleaning of building interiors; elevator installation and repair; machinery installation, maintenance and repair; varnishing; pump repair; rebuilding machines that have been worn or partially destroyed; rebuilding vehicle engines that have been worn or partially destroyed; airplane maintenance and repair; motor vehicle maintenance and repair

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Treatment of materials, namely treatment of metals; providing material treatment information; millworking; metal tempering; metal treating; burnishing by abrasion; optical glass grinding; saw mill services; sandblasting services; grinding; soldering; treatment of materials, in particular hardening of metal and metal products

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Plastics in extruded form for use in further manufacturing; packing, stopping and insulating materials, namely polyurethane foam and polyethylene foam insulation; insulating refractory materials; carbon fibers, other than for textile use; synthetic resins as semi-finished products in the form of pellets, rods, foils, foams, fibers, films and sheets; semi-processed plastic; plastic fibers, not for use in textiles; plastic film, not for wrapping, namely for packing, cushioning, or stuffing purposes; plastic sheeting for agricultural purposes; plastic soldering threads, not for textile use; stuffing of rubber or plastic; packing in the nature of cushioning or stuffing materials of rubber or plastics; synthetic rubber; rubber bags, envelopes, or pouches for merchandise packaging; flexible pipes, not of metal

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Scientific and technological services, namely, research and design in the field of mechanical engineering, measurement and calibration; scientific and technological services, namely, research and design in the field of mechanical engineering, plastics processing, manufacturing, heat treatment, measurement and calibration as it relates to gear boxes, power transmissions and couplings; industrial analysis and research services in the field of engineering; calibration; surveying; technology research in the field of mechanical engineering, plastic processing, manufacturing, heat treatment, measurement and calibration; mechanical research; research and development of new products for others; construction drafting; material testing; technical project studies, namely, conducting scientific feasibility studies and feasibility studies in the field of manufacturing

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Motors and engines except for land vehicles; machine coupling and transmission components except for land vehicles; incubators for eggs; automatic vending machines; pumps as parts of machines, engines or motors; vacuum pumps; vacuum pump stands; electric motors, other than for land vehicles, in particular for air-conditioning and heating apparatus; compressors for refrigerating installations; ventilation valves being parts of machines; aerocondensers; compressed air pumps; compressed air machines; compressed air conveyors; compressed air engines not for land vehicles; pressure reducers as parts of machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Air-conditioning apparatus; heat treatment installations, namely, quenching apparatus for heat treatment; apparatus and devices for generating cold, namely, freezers and air conditioners; apparatus and devices for generating heat, namely, heat generators; apparatus and devices for generating humidity, namely, a portable container containing a moisture-sensitive silica co-polymer that absorbs or releases moisture to maintain relative humidity in a particular range, as well as water bath based devices, absorption and adsorption devices, compressed air regulating devices, damp moistures, dehumidifying heat exchangers; apparatus and devices for generating air-conditioning, namely, air conditioners; apparatus and devices for generating light, namely, electric light bulbs, mobile light towers and LED lighting fixtures; apparatus and devices for generating air mixtures, namely, air conditioning installations, ventilators; apparatus and devices for checking and regulating cold, heat, air-conditioning, light, air mixtures, excess and negative pressure, namely, dampers, namely,

control devices used in air ducts to regulate the flow of air; refrigerating machines and installations for testing materials and equipment; refrigerating low-temperature storage containers, not for laboratory purposes; technical refrigerating and freezing apparatus and chambers, namely, refrigerating machines, refrigerating cabinets and air absorption systems comprised primarily of dehumidifiers, air purifiers, freezers; freezing and refrigeration cells, namely, freezing showcases and refrigerating cabinets; air-conditioned containers as temperature-controlled mobile units for the storage and transport of material; heat treatment apparatus and installations for manufacturing, namely, heating furnaces, industrial microwaves, infrared ovens, induction ovens, continuous furnaces; heat and dry cabinets, namely, industrial heating devices for material treatment; electric induction drawer ovens; dryers for continuous drying and heating processes, in particular flow through furnaces, chest furnaces, tempering furnaces and cooking ovens; heat cabinets for inert gas operation for oxygen-free heat treatment for material treatment and testing; hot-air sterilisers; clean room sterilisers and dryers not for medical purposes; industrial vacuum dryers; filters for air-conditioning; air filtering installations; electric air reheaters; industrial air dryers for heating and dehumidifying; air humidifiers; ventilation hoods; air cooling apparatus; hot air space heating apparatus; electric heating fans; heat pumps; heat regenerators; heat accumulators; heat exchangers not parts of machines; evaporators; room air-conditioning apparatus, in particular in cabinet form, including for air-conditioning in computer rooms, measuring and clean rooms for the food and pharmaceutical industries and functional areas of a hospital, including operating theatres and intensive care wards; room humidifiers and dehumidifiers; air-conditioning apparatus in cabinet form, for use in stables and swimming pools; air-conditioning apparatus for special purposes, in particular in box form; cooling installations for ceilings; air-conditioning units; window air-conditioning apparatus; return water cooling towers; pipe freezers; apparatus for cooling water; drying apparatus and installations, namely, drying apparatus for chemical processing; heating installations; heating apparatus for solid, liquid or gaseous fuels, namely, solid fuel burning stoves; stoves, namely, gas stoves and electric stoves; microwave ovens for industrial purposes; ovens for industrial purposes, namely, industrial material treatment ovens, induction ovens, infrared ovens and industrial microwave ovens; refrigerating cabinets; refrigerating apparatus and machines; walk-in refrigerators; freezer apparatus and installations; air purifying apparatus and machines; air sterilisers; clean rooms and sterile rooms for sanitary facilities; refrigerating apparatus and installations

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Building construction; installation, maintenance and repair of apparatus and instruments, particularly climatic chambers for generating cold, heat, humidity, air-conditioning, light, air mixtures, excess and negative pressure, vacuums, sound and vibrations; installation, maintenance and repair of air-conditioning installations, refrigerating apparatus, stoves, heating installations and machines

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Apparatus for recording, transmission or reproduction of sound or images; blank magnetic data carriers, blank recording discs; blank compact discs, blank DVDs; mechanisms for coin-operated apparatus; cash registers, calculating machines, hardware for data processing, computers; computer software for the control, regulation, monitoring and logging of temperature, humidity, climate, light, air composition, air speed, air filtration, corrosion, vacuums, excess pressure,

noise, vibrations, altitude and other environmental characteristics; fire-extinguishing apparatus; air and air-conditioning analysis apparatus and instruments; temperature analysis apparatus and instruments, namely, temperature sensors and temperature transmitters; temperature indicators; temperature shock test chambers; ozone testing apparatus, namely, ozone detectors; corrosion testing chambers; dust and rain testing apparatus, namely, rain and dust measuring gauges; measuring and regulating apparatus for air-conditioning technology; heat flow measuring apparatus; data processing installations and components therefor, namely, monitors, printers, keyboards, scanners, personal computers; electric power supply units; apparatus for measuring, regulating and recording physical values, including temperature, pressure, humidity and vibrations, namely, temperature transmitters, measuring apparatus for temperature and humidity levels in gases and solid substances; special test stands, in particular for electronic environment simulation installations; electronic emissions testing chambers for characterising volatile organic compounds (VOC); test systems for stability testing in the pharmaceutical industry, comprised primarily of temperature switches, temperature sensors, temperature controllers, humidity sensors, humidity controllers and stabilizers; electronic testing apparatus for measuring electromagnetic compatibility; electric and electronic control and regulating apparatus, namely, control valves for regulating the flow of gases and liquids, control units for regulating start-up electrical motors; heat regulating apparatus, namely, thermostats; furnaces for laboratory purposes; electronic testing apparatus not for medical purposes, namely, for testing and measuring of temperature, humidity, climate, light, air composition, air speed, air filtration, corrosion, vacuums, excess pressure, vibrations, altitude; electronic material testing instruments and machines for testing compression, strength, hardness and tensile characteristics of industrial materials; gas testing apparatus; precision measuring apparatus, namely, precision instruments for recording of climatic conditions as well as physical, optical, electric and mechanic parameters; computer programs for the control, regulation, monitoring and logging of temperature, humidity, climate, light, air composition, air speed, air filtration, corrosion, vacuums, excess pressure, noise, vibrations, altitude and other environmental characteristics; electric and electronic temperature and humidity regulators and recorders, namely, temperature switches, temperature sensors, humidity sensors, stabilizers, temperature controllers and humidity controllers; power supply units; data displays included in this class, namely, electric luminescent display panels and flat panel display screens, touch screens; apparatus for recording, transmission or reproduction of data; electric cables; structural parts for scientific apparatus and instruments included in this class, namely, laboratory heating and testing devices for research and development purposes, namely heat flow measuring apparatus, thermostats and furnaces; wind tunnels being measuring installations for determining wind speed; environment simulation chambers and apparatus for testing the effect of environmental conditions such as cold, heat, humidity, climate, light, air composition, air speed, air filtration, corrosion, vacuums, excess pressure, noise, vibrations and altitude on biological materials and commercial or industrial goods; apparatus and devices for checking and regulating sound and vibrations, namely, vibration exciters being devices which transform electrical signals into mechanical vibrations for testing purposes; low temperature test chambers; chambers for environmental tests involving plants, animals and people, namely environmental simulation equipment for testing temperature, humidity, climate, light, air composition, air speed, air filtration, corrosion, vacuum, excess pressure, noise, vibration, altitude; environmental test chambers for the simulation of cold, heat, humidity, climate, light, air composition, air speed, air filtration, corrosion, vacuums, excess pressure, noise and vibrations; environmental test chambers, namely, Sealed Housing for Evaporative Determination (SHED); heat treatment apparatus and installations for research and development, namely, laboratory apparatus for the exchange of substances and heat

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Scientific and technological services, namely, research and design in the field of cold temperature, heat, humidity, air-conditioning, light, air mixtures, excess and negative pressure, vacuums, sound and vibrations; industrial analysis and research services; design and development of computer hardware and software; materials testing; updating of computer software; maintenance of computer software; installation of computer programs; computer software design; calibration; scientific research in the fields of cold temperature, heat, humidity, air-conditioning, light, air mixtures, excess and negative pressure, vacuums, sound and vibrations

GOODS AND SERVICES INFORMATION

For Aircraft; fixed wing aircraft; rotary wing aircraft; prototype aircraft; military aircraft; combat aircraft; training aircraft; fast jet training aircraft; aircraft for aerial and acrobatic display purposes; unmanned autonomous air vehicles; remotely piloted unmanned air vehicles; drones; unmanned air vehicles systems comprising long-endurance, medium altitude long-endurance, short-range and mini-unmanned air vehicle in the nature of drones and component parts, namely, sensors and downsized, portable, passive and active remote ground control terminals, data links comprising ground control terminals and airborne data terminals that allow the UAV to be controlled by the ground operators and further allow data to be transmitted from the UAV to the ground operators; armored land vehicles; all terrain vehicles for combat purposes, for command and control purposes, for the transport of military personnel and equipment, for emergency, search and rescue purposes, for mine clearance purposes; autonomous unmanned land vehicles, namely, all terrain vehicles; tanks; motorized and non-motorized land vehicles equipped for the transport, launch and operation of weapons and/or equipped with apparatus for control and guidance of weapons; amphibious vehicles; autonomous amphibious vehicles; marine and submersible vehicles, namely, submarines; ships; patrol ships; boats; rigid inflatable boats (RIBs); autonomous underwater vehicles, namely, underwater remotely operated vehicles (ROVs) for transport; weapon carriage and release equipment for installation in or on military aircraft, land vehicles or marine vehicles; structural parts and fittings for all of the aforesaid goods

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Precision guidance systems and guidance kit composed of guided missiles, control units and laser based guidance kit comprised of software for monitoring attitude and position of missiles; ammunition; projectiles; explosives; missiles; rockets; rockets for ground or airborne platforms; guided rockets and bomb parts kit comprised of attachable adjustable aerial fins with mechanical adaptors and canard actuators, and attachable nose cone housing with mechanical adaptors and containing radar, antenna, GPS navigation device, laser target designators, infrared sensors and detectors, and computer hardware, all for use in navigation and homing of guided rockets and bombs, and detection and tracking of guided rocket and bomb targets; mobile weapon systems designed for air and land defense, namely, vehicle mounted missile weapons; weapons systems of control and canon fire control apparatus for air-defense and combat comprising vehicle mounted guns, cannons, armored turrets, radars, cameras, laser rangefinders, missile launchers and missiles and control center units, all sold as a unit; electric gun and turret drive and stabilization systems comprising armored turrets and machine guns and software for controlling electrically driven turrets and guns and unmanned turret and the overhead remote controlled weapon station, all sold as a unit

International Classes 13 - Primary Classes **US Classes** 2, 9 **International Class Title** Firearms

For Avionic instruments and avionic systems, namely, flight situational awareness and warning systems comprised of computer hardware and software processing on-board sensors and intelligence information, outputting to cockpit's audio and display interfaces; mission and aircraft management computers; weapon delivery and navigation systems comprised of computer processing hardware for computation of pilotage and situational awareness information, electronic display interfaces and controls, video computer interfaces, data storage devices comprising computer hardware and associated software and downloadable databases for preflight data loading and post-flight data for debriefing; flight enhanced vision systems and flight warning systems comprised of on-board sensors sensing terrain and other obstacles along the flight path and/or in near proximity to the aircraft, computer processing hardware for computation of hazard and warning information, electronic display interfaces and controls, video computer interfaces, data storage devices comprising computer hardware, associated software, downloadable databases and digital audio and video recordings of cockpit video, audio and flight data, and associated application operating software; integrated electro-optical detection, observation and reconnaissance systems comprising cameras, thermal imaging cameras and infrared (IR) short wave IR (SWIR) and middle wave IR (MWIR) imaging sensors of other spectra, HD day camera and night vision camera, for use in space, aerial and land; head-up displays comprised of transparent electronic displays for providing aircraft crew members with navigational and operational information; laser range-finders; laser designators in the nature of laser pointers. optical and electro optical line-of-sight stabilized payloads systems comprised of day and night camera with optional laser range finder and optional laser designator, on stationary platforms, on mobile platforms, man portable and handheld; aircraft and helicopter structural components, namely, external fuel tanks, pylons, pressurized and non-pressurized doors, composite beams and composite landing gear doors, thrust reverse blocker doors, and winglets structural parts for fighter aircraft, helicopters, civilian aircrafts, drones, unmanned air vehicles; electronic instrumentation, namely, electronic controls, indicators, monitors, luminescent display panels, electronic display interfaces and audio interfaces used in aircraft, naval, ground vehicles military and civilian for maneuvering, training, simulation, command control, debriefing, embedded tactical trainers, training centers and cyber trainers; head-mounted displays for use primarily in moving platform, namely, head-mounted transparent electronic day and night displays featuring a display with an integrated head tracker for sensing motion, for use

in providing operator with navigational and operational information and to slave various platform systems to operator line-of-sight; multi-spectral enhanced vision systems (EVS) comprising sensors and filters, air data test equipment, air data processor/sensor systems and flight instruments comprising altimeters, pressure meters, cockpit indicators and avionics test equipment; avionic suites, comprising electronic display interfaces, electronic moving maps, electronic flight instrumentation systems and flight management systems comprising computer hardware and computer software for control, process and compute algorithms for flight planning, navigation, transportation, weapon delivery, intelligence and training; Laser warning and threat detection systems comprising computer and display hardware and situation awareness peripheral vision systems comprising laser warning systems for identifying and pinpointing the angular direction of laser sources generated by laser range-finders and laser guided and laser beam-rider missiles; command and control systems for combat vehicles, comprising computer hardware and associated software for battle management systems using electro-optic-based laser range-finders, day and night targeting sights, thermal imaging systems, flat paneled color displays interface, observation and reconnaissance cameras; Ground and mobile solutions for intelligence collection and dissemination comprising a broad array of lightweight network-ready electric and electronic sensors; life support and hydraulic systems for land vehicles for environmental, climate and chemical, biological, radiological and nuclear (CBRN) protection and control comprising heating, ventilation and air conditioning (HVAC), water generation and fire suppression systems, hydraulic systems comprising hydraulic pumps and associated pipes and control circuits for vehicle fueling, braking, suspension and power pack operation; Tactical communication systems comprising broadband and narrowband radios, software defined radios, multi-channel radios, line-of-sight radios, long-range HF and high power HF, short and medium-range VHF, UHF, UWB, satellite communication and military wireless local area networks hardware and associated software; Radio communication networks which are integrated or standalone comprising handheld radios, man packed radios, vehicle packed radios and communication site radios; broad net communications systems comprising computer hardware and associated software for mobile net communications and tactical data communications and military wireless LAN hardware and associated software for wide band data transmission; ruggedized computers communication terminals, integrated communications systems combining wireless radio and wired telephony, IP/LAN/WAN network communications hardware and associated software for situation awareness and radio network management; broadband wireless communication infrastructure for secure broadband communication comprising computer hardware and computer software platform used for wireless and satellite-based two way broadband interactive satellite system; secure broadband network management centers for multimedia services and land mobile radio system gateway, comprising some or all of the following, namely, secure data servers, command center computer terminals, computer switches and routers, network firewall, land mobile radio network gateways, mobile computer and smartphone software to enable secure voice, data and video sharing among first responder forces; multi-satellite mission planning software for planning satellite operational missions; north finding solutions comprising goniometers; laser-based systems comprising laser designators in the nature of laser pointers, laser range-finders and laser radars for air, land and naval platforms based on diode pumped technologies, both in the eye-safe and non-eye safe bands; countermeasures system comprising multi-spectral infrared countermeasures system for commercial aircraft, military helicopters and transport aircraft for detection and jamming of anti-aircraft shoulder-launched missiles; ISR systems comprising aerial reconnaissance systems of visible and IR long-range oblique photography; border surveillance systems comprising as a unit day and night observation sensors, smart alarm fences, installed on integrated fixed towers, mini-UAS (unmanned aerial system) and surveillance land vehicles and controlled by

C4I-based control centers; safe city systems for crime and terror detection and crisis management comprising as a unit a fully integrated C4I command and control center with advanced electro-optic surveillance in the nature of day and night observation sensors and wide area persistent surveillance systems comprising day and night high definition cameras controlled by computer hardware and associated software using mass memory for video and data and carried by UAS (unmanned aerial system), all communicated through broadband communication radios, to provide city-wide event detection and operations coordination, management and control to municipal security forces; seaport and coastal surveillance systems comprising as a unit day and night observation sensors, smart alarm, real and virtual fences, installed on integrated fixed towers, USV (unmanned surface vehicle) and surveillance land vehicles and controlled by C4I-based control centers for monitoring maritime traffic, prevention of smuggling, illegal shipments, customs violations and illegal immigration, controlling fishing activities and coordination of search and rescue; perimeter security and intrusion detection systems comprising electronic alarm fences and virtual alarm fences, electro-optic day and night cameras and laser pointers capable of pointing, verifying and tracking, to detect and deter attempts by intruders to breached secured facilities and critical infrastructures
