International Registration 1549868 **International Registration Date** Apr. 02, 2020

GOODS AND SERVICES INFORMATION

For Drones; remote-controlled aircraft and radio-controlled aircraft other than toys; pilotless aircraft; autonomous aircraft; autonomous aircraft parts and accessories, namely clips for drones, landing pads for drones, protective pads for propellers, chassis, propellers, and structural parts therefor

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Remote-controlled toy vehicles; toy drones; scale-model toy vehicles and remote-controlled toy aircraft; radio-controlled toy vehicles; model toy vehicles; radio-controlled toy aircraft; autonomous toy aircraft

International Classes 28 - Primary Classes **US Classes** 22, 23, 38, 50 **International Class Title** Toys and Sporting Goods

For Remote control apparatus for drones; GPS car navigation devices; Remote control apparatus for drones, namely, a remote control apparatus for measuring drone height, controlling drones, monitoring drone battery performance characteristics, diagnosing drone battery performance issues; Remote control apparatus for drones for measuring temperature and humidity levels in the air, controlling drone speed, monitoring drone height, diagnosing drone hardware malfunctions, searching for hazardous materials by means of thermal imaging cameras, detecting hot spots with thermal cameras, assessing areas impacted by natural disasters, mapping areas impacted by natural disasters for emergency service vehicles, controlling drones for the purpose of making deliveries; electronic sensors for drones used for measuring atmospheric temperature, buildings and construction temperature, and body temperature; electronic sensors for drones used for monitoring, controlling and inspecting of buildings, equipment and infrastructure; electronic sensors for drones used for monitoring and viewing crops and natural spaces; electronic sensors for drones used for detecting, monitoring and searching for people, animals and vehicles; electronic sensors for drones used to view and monitor emergencies, accidents and disasters; electronic sensors for drones used for mapping working environment and other spaces; optical sensors and infrared thermal detectors; downloadable software and

downloadable applications for smartphones and tablets, namely, downloadable software to control drones; downloadable recorded software for controlling drones; downloadable software for processing data collected from drones; downloadable game software for smartphones and tablets; downloadable software applications for smartphones and tablets for controlling drones; batteries; battery charger cables; photographic apparatus and cameras; all the foregoing goods for use with an unmanned aircraft

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

GOODS AND SERVICES INFORMATION

For Chemicals, biochemicals and chemical preparations used in micro- and submicro-fluidic systems, micro-analytical and micro-preparative processes, namely, reagents for scientific and research use

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Scientific, electric, optic and micro- and submicro-fluidic instruments and integrated apparatuses for performing microanalytical and micro-preparative processes within biological and chemical science and industry, namely, recorded ordownloadable computer software for the interpretation of data generated on immunoassay platformsfor use in collecting, retaining, manipulating and evaluating data from micro-analytical and micro-preparative processes within biological and chemical science and for use in controlling the instrumentation during scientific research; laboratory devices namely, automated microfluidic, compact disc (CD)-based immunoassays comprising primarily microchips or microcolumns for use in biological environments, known as biochips, for analytical or scientific purposes; laboratory devices namely, prerecorded compact discs featuring microfluidic structures with integrated affinity-columns in nanoliter-scale for analytical or scientific purposes

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Product and process development, industrial contract research as well as consultancy service and provision of databases of scientific data relating to micro- and submicro-fluidics, micro-analytical and micro-preparative processes within biological and chemical science, namely, product research and development and scientific research and scientific research consulting, all in the life science field

For Providing translation services

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Advertising; advertising, marketing and promotional services; business management, business administration; providing office functions; advertising, marketing and promotional consultancy, advisory and assistance services; business analysis of market and category trends, information services, and market research; analysis of advertising response and market research; website traffic optimization; promotion, advertising and marketing of on-line websites; on-line advertising network matching services for connecting advertisers to websites; providing marketing information via websites; search engine optimization for sales promotion; search engine marketing services; consultancy relating to search engine optimization for sales promotion; outsourcing services in the field of business analytics; provision of marketing reports; digital marketing, providing business information in the field of social media; providing marketing consulting in the field of social media

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Downloadable computer software development tools for search engine optimisation; and downloadable computer software used for providing search engine services

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Design and development of electronic language translation dictionaries and databases; research in the field of social media

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

International Registration 1588335 **International Registration Date** Jan. 29, 2021

GOODS AND SERVICES INFORMATION

For Preserved, frozen, dried and cooked fruits and vegetables; jellies, jams, compotes; eggs; edible oils and fats; edible fats; butter; milk beverages, mainly of milk; preserved truffles

International Classes 29 - Primary Classes **US Classes** 46 **International Class Title** Meats and Processed Foods

For Agricultural, horticultural and forestry products, neither prepared, nor processed, namely, cocoa beans; fresh fruits and vegetables; natural plants and flowers; malt for brewing and distilling; unprocessed cereal seeds; live bushes; live trees; fresh citrus fruit; unsawn timber; cocoa beans, raw; fresh coconuts, fresh berries, fresh fruits

International Classes 31 - Primary Classes **US Classes** 1, 46 **International Class Title** Natural Agricultural Products

For Coffee, tea, cocoa, sugar, rice, tapioca, sago, artificial coffee; flours and cereal preparations, namely, cereal bars, cereal-based snack foods; edible ices; salt, mustard; vinegar, sauces; spices; ice for refreshment; pancakes; cookies and biscuits; cakes; chocolate; cocoa-based beverages; coffee-based beverages; chocolate-based beverages; tea-based beverages; cocoa; coffee flavourings, other than essential oils, for food or beverages; flavourings, other than essential oils, for food or beverages; seasonings; salad dressings

International Classes 30 - Primary Classes **US Classes** 46 **International Class Title** Staple Foods

For Sisal fibers; sisal bags for the transport and storage of materials in bulk

International Classes 22 - Primary Classes **US Classes** 1, 2, 7, 19, 22, 42, 50 **International Class Title** Cordage and Fibers

RELATED PROPERTIES INFORMATION

International Registration 1591593 **International Registration Date** Nov. 27, 2020

GOODS AND SERVICES INFORMATION

For Multi-layer plastic panels for construction; floor panels of plastic; modular decking of plastic materials used as floor coverings; decorative wall panels of plastic materials; guard rails of plastic for roads being crash barriers; non-flexible plastic pipes for plumbing; irrigation lines of plastic, namely, plastic conduit for irrigation; materials for making and coating roads, namely, asphalt paving compositions; concrete; concrete building elements, namely, concrete supports, braces and shores; shuttering, not of metal, for concrete; gypsum for use as a building material; mortar for building; slag stone for use as a building material; non-metallic rigid pipes for building; asphalt, pitch, tar and bitumen; transportable buildings not of metal; monuments not of metal

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For Carpets, rugs, mats and matting, linoleum and other materials for covering existing floors; non-textile wall hangings, not of textile materials; wall coverings of plastic materials; bath mats of plastic

International Classes 27 - Primary Classes **US Classes** 19, 20, 37, 42, 50 **International Class Title** Floor Coverings

For Lotions for pharmaceutical use, namely, pharmaceutical skin lotion; pharmaceutical preparations for skin care; pharmaceutical alcohols; hygienic products for medical purposes, namely, medical cleansers for skin and wounds; dietetic foods and beverages adapted for medical use and dietetic foods and beverages adapted for veterinary use; food for babies; food supplements for humans and animals; nutritional supplements and food supplements; protein food supplements; vitamins; vitamin preparations and substances, namely, vitamin drops; multivitamin preparations; vitamin preparations and minerals preparations for medical use; food supplements consisting of vitamins; nutritional supplements for veterinary use; plasters for medical purposes; materials for dressings, namely, gauze; materials for dental fillings and dental impressions; disinfectants;

hand-sanitizing preparations; disinfectants for sanitary use; disinfectants for medical use; all-purpose disinfecting and deodorizing preparations; preparations for destroying vermin; fungicides, herbicides

International Classes 5 - Primary Classes **US Classes** 5, 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Luggage and transport bags in the nature of travelling bags; trunks being luggage and suitcases; athletic bags; umbrellas and parasols; walking sticks; whips, harnesses and saddlery; collars, leashes and clothing for animals; leather and imitation leather

International Classes 18 - Primary Classes **US Classes** 1, 2, 3, 22, 41 **International Class Title** Leather Goods

For Cars; structural parts for automobiles; bicycles; electric bicycles; apparatus for locomotion by land, air or water, namely, automobiles and motorboats; airplanes; structural parts for airplanes; electric vehicles, namely, electric cars; interior fittings of automobiles, namely, car interior organizer bags specially adapted for fitting in vehicles

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Textiles for digital printing; textile fabrics for making clothing; fabrics of synthetic fiber; household linen; bath linen except clothing; curtains of textile or plastic; plastic handkerchiefs; plastic curtains; banners of plastic; mesh-woven fabrics for use in manufacture of filters; wall hangings of textile materials

International Classes 24 - Primary Classes **US Classes** 42, 50 **International Class Title** Fabrics

For General-purpose plastic bags; garbage bags of plastic; plastic shopping bags; plastic sheets, films and bags of plastic materials for wrapping and packaging; plastic or paper bags, envelopes, and pouches for packaging; plastic sachets sold empty for oven cooking; plastic bags for food preservation for household use; food wrapping plastic film for household use; plastic packaging wrap for commercial or industrial use; plastic transparencies; grocery bags of paper or plastic; plastic bags for household use; paper and cardboard; bookbinding material; printed photographs; adhesives for stationery or household purposes; drawing material for blackboards; paintbrushes; printed instructional or teaching material in the fields of environmental protection, climate change, carbon credits and offsets, greenhouse gases, and carbon capture technology; printing type; printing blocks

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Machines, machine tools and mechanical tools for the cutting and forming of materials; electromechanical machines, in particular machines for producing carbon dioxide in the form of carbonic gas; machines for extracting carbon dioxide in the form of carbonic gas from the air; machines for filtering carbon dioxide in the form of carbonic gas from the air; machines for transforming carbon dioxide in the form of carbonic gas; machines for extracting carbon dioxide in the form carbonic gas from the air and transforming it into rock; machines for processing carbon dioxide into fuels and materials; machines for processing plastics; machines for production and breaking down of carbonic acid and carbonic gas; motors and engines other than for land vehicles; machine couplings and transmission components other than for land vehicles; filters being parts of manufacturing machines, motors or engines; apparatus for carbonating beverages, namely, aerated beverage-making machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Alcoholic beverages with the exception of beers; wines; alcoholic preparations, namely, alcoholic cocktail mixes for making alcoholic beverages except beers; pre-mixed alcoholic beverages, other than beer-based beverages; prepared alcoholic cocktails; aperitifs; digestifs in the nature of liqueurs and spirits; sparkling wines; wines produced in the Champagne region of France in accordance with adopted standards

International Classes 33 - Primary Classes **US Classes** 47, 49 **International Class Title** Wines and Spirits

For Cosmetics and cosmetic preparations; non-medicated toiletry preparations and non-medicated cosmetics; sunscreen preparations; non-medicated dentifrices; perfumery products, namely, essential oils; perfume; fragrances; perfumed oils; scented linen waters; perfumed sprays for indoor use; bleaching preparations and other substances for laundry use; cleaning, polishing, and abrasive preparations; degreasing preparations for household purposes

International Classes 3 - Primary Classes **US Classes** 1, 4, 6, 50, 51, 52 **International Class Title** Cosmetics and Cleaning Preparations

For Filtering materials, namely, chemicals in the nature of sorbents; chemicals preparations in the nature of filtering materials for use in industry, science, photography, agriculture, horticulture and forestry; unprocessed plastics for use in industry, science, photography, agriculture, horticulture and forestry; oxygen for industrial purposes; liquid carbon dioxide, dry ice; carbonic acid gas; carbonic acid; carbonic gas for preparation and bottling and liquid carbon dioxide for beverages; gas for the preparation of beverages, in particular carbonic acid; chemical additives to motor fuel; combusting preparations, namely, chemical additives to motor fuel; unprocessed artificial resins; unprocessed plastics; unprocessed plastics for industrial use; unprocessed plastic materials in powder, liquid or paste form; raw protein for use in manufacture; proteins for the food industry; proteins for the manufacture of food supplements; fertilizing preparations; manure, nitrogenous fertilizers, carbonated manure; compost; biological preparations for use in industry and science; fire-extinguishing compositions; tempering and soldering preparations; mastic adhesives for tires; paste filler for automotive body repair; chemical substances for preserving foodstuffs; tanning agents for use in the manufacture of leather, namely, oils for tanning leather; adhesives for use in industry; chemical products for use in industry, science, photography as well as in agriculture, horticulture and forestry, except fungicides, insecticides, and parasiticides

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Retail store services featuring liquid carbon dioxide, of goods consisting of carbon dioxide and manufactured from carbon dioxide, namely, dry ice; retail store services featuring filtering materials in the nature of sorbents, filtering materials made of chemical substances, filtering materials of unprocessed plastics, oxygen, carbon dioxide, dry ice, carbonic gas, carbonic acid, carbonic gas for preparation and bottling and carbon dioxide for beverages, gas for the preparation of beverages, in particular carbonic acid, chemical additives to motor fuel, combusting preparations, namely, chemical additives to motor fuel, unprocessed artificial resins, unprocessed plastics, unprocessed plastics for industrial use, unprocessed plastics in powder, liquid or paste form, protein as raw material, proteins for the food industry, proteins for use in the manufacture of food supplements, fertilizing preparations, manure, nitrogenous fertilizers, carbonated manure, compost, biological preparations for use in industry and science, fire extinguishing compositions, fire extinguishing compositions, tempering and soldering preparations, mastics and other filler pastes, chemical substances for preserving foodstuffs, tanning substances, adhesives and glues used in industry, chemicals used in industry, science, photography, as well as in agriculture, horticulture and forestry, cosmetics and cosmetic preparations, non-medicated cosmetic products and toiletry preparations, skin care preparations, sunscreen preparations, non-medicated dentifrices, perfumery products, essential oils, fragrances, perfumed oils, scented water,

perfumed sprays for indoor use, bleaching preparations and other substances for laundry use, cleaning, polishing, degreasing and abrasive preparations, industrial oils and greases, lubricants, dust absorbing, wetting and binding compositions, fuels, motor spirit and illuminants, fuel for aircraft and ships, non-chemical additives to fuels, biofuels, synthetic fuels, fuels for motors and engines, diesel fuels, gasoline fuel, kerosene, candles and wicks for lighting, pharmaceutical products, medical and veterinary preparations, chemico-pharmaceutical preparations, cachets for pharmaceutical use, lotions for pharmaceutical use, pharmaceutical preparations for skin care, alcohols for pharmaceutical purposes, hygiene products for medical purposes, dietetic foodstuffs and substances for medical or veterinary use, food for babies, food supplements for humans and animals, nutritional and food supplements, protein dietary supplements, vitamins, vitamin substances and preparations, multivitamin preparations, vitamin and mineral preparations for medical use, food supplements consisting of vitamins, nutritional supplements for veterinary use, plasters, materials for dressings, material for dental fillings and dental impressions, disinfectants, hand-sanitizing preparations, disinfectants for sanitary use, disinfectants for medical use, all-purpose disinfecting and deodorizing preparations, preparations for destroying vermin, fungicides, herbicides, machines, machine tools and mechanical tools, electromechanical machines, in particular machines for producing carbon dioxide and carbonic gas, machines for the extraction of carbon dioxide and carbonic gas from the air, machines for filtering carbon dioxide and carbonic gas from the air, machines for processing carbon dioxide and carbonic gas, machines for extracting carbon dioxide and carbonic gas from the air and transforming it into rock, machines for transforming carbon dioxide and carbonic gas into rock, machines for transforming carbon dioxide into fuels and materials, machines for processing plastics, machines for production and breaking down of carbonic acid and carbonic gas, motors and engines other than for land vehicles, couplings and transmission components other than for land vehicles, agricultural implements other than hand-operated, filters for machines, filters being parts of machines or motors or engines, apparatus for carbonating beverages, fuel-dispensing pumps for service stations, motors and engines, other than for land vehicles, carbon dioxide detectors, air analysis apparatus, plastics testing machines, disposable plastic gloves for laboratory use, disposable plastic bioreactors for cell cultures, filters for respiratory masks, respirators for filtering air, scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signaling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments, apparatus and instruments for conducting, distributing, transforming, accumulating, regulating or controlling the distribution or consumption of electricity, apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data, recorded and downloadable media, software, software applications, blank digital or analog recording and storage media, mechanisms for coin-operated apparatus, cash registers, calculating devices, computers and computer peripheral devices, diving suits, divers' masks, ear plugs for divers, nose clips for divers and swimmers, gloves for divers, breathing apparatus for underwater swimming, fire extinguishers, apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilation, water supply and sanitary installations, air filters for air conditioning, air filters for industrial installations, air filters for industrial use, air filtering installations, air purifiers, air purifying apparatus and machines, ionization apparatus for the treatment of air or water, ionization apparatus for the treatment of air, disinfectant apparatus, vehicles, cars, structural parts for automobiles, bicycles, electric bicycles, apparatus for locomotion by land, air or water vehicles, airplanes, structural parts for airplanes, electric vehicles, electric cars, interior fittings of automobiles, all-purpose plastic bags, garbage bags of plastic, garbage bags of plastic, plastic shopping bags, sheets, films and bags of plastic materials for wrapping and packaging, bags, namely, envelopes and pouches of paper or plastic materials for packaging, plastic sachets for oven cooking, food storage bags of plastic for household use, food wrapping plastic film for household use, plastic packaging, plastic transparencies,

grocery bags of paper or plastic, plastic bags for household use, filtering materials of paper, paper and cardboard, printed products, bookbinding material, photographs, stationery and office requisites, except furniture, adhesives and glues for stationery or household purposes, drawing material and material for artists, paintbrushes, instructional or teaching material, printing type, printing blocks, products made of semi-finished plastic materials, plastic film, other than for wrapping, plastic fibers other than for textile use, plastics wires, other than for textile use, extruded plastics in the nature of blocks for use in manufacturing operations, extruded plastics in sheet form for use in manufacturing operations, extruded plastic materials in granular form for use in manufacturing operations, extruded plastics in the nature of rods for use in manufacturing operations, filtering materials of semi-processed plastic foam, filtering materials of semi-processed plastic films, filtering materials of glass fiber, mineral wool for the manufacture of filtering materials, adhesive plastic sheets for use in manufacturing operations, flexible pipes made of plastic, padding materials of rubber or plastics, semi-processed plastic materials, reflective plastic films for windows, rubber, gutta-percha, gum, asbestos, unprocessed and semi-processed micas and substitutes for all these materials, plastic materials and resins in extruded form used in manufacturing operations, packing, stopping and insulating materials, flexible pipes not of metal, luggage and transport bags, trunks and suitcases, bags, umbrellas and parasols, walking sticks, whips and saddlery, collars, leashes and clothing for animals, leather and imitations of leather, multi-layer plastic panels for construction, floor panels of plastic, modular decking of plastic materials used as floor coverings, wall covering panels of plastic materials, guard rails of plastic for roads in the nature of crash barriers, plastic pipes for plumbing, irrigation lines of plastic, construction materials not of metal, materials for making and coating roads, concrete, concrete building elements, shuttering, not of metal, for concrete, gypsum as building material, mortar for building, slag as building material, construction materials not of metal, non-metallic rigid pipes for building, asphalt, pitch, tar and bitumen, transportable buildings not of metal, monuments not of metal, textiles and substitutes therefor, textile fabrics for making clothing, fabrics of synthetic materials, plastic materials as fabric substitutes, household linen, bath linen except apparel, curtains of textile or plastic materials, plastic tissues, plastic curtains, banderoles of plastic materials filtering materials being textiles, wall hangings of textile materials, clothing, clothing for women, clothing for men, clothing for children, clothing for professional use, leisure outfits, denim clothing, leather clothing, rainwear, sportswear, footwear, shoes for women, shoes for men, sports shoes, training shoes, leisure footwear, infants' footwear, footwear for walking, bath slippers, headgear items, socks, belts being apparel, gloves being apparel, plastic aprons, plastic bibs for babies, mats, door mats, matting, linoleum and other floor coverings, wall hangings, not of textile materials, wall coverings of plastics, bath mats of plastic, coffee, tea, cocoa and artificial coffee, rice, pasta and noodles, tapioca and sago, flour and preparations made from cereals, high-protein cereal bars, bread, pastry and confectionery products, chocolate, ice creams, sherbets and other edible ices, sugar, honey, golden syrup, yeast, baking powder, salt, seasonings, spices, preserved herbs, vinegar, sauces and other condiments, ice for refreshment, unprocessed and non-transformed agricultural, aquacultural, horticultural and forestry products, unprocessed and raw grains and seeds, fresh fruits and vegetables, fresh aromatic herbs, natural plants and flowers, bulbs, seedlings and seeds, food products and beverages for animals, malt, beers, mineral and aerated waters and other non-alcoholic beverages, fruit beverages and fruit juices, syrups and other preparations for making beverages, protein-enriched sports beverages, carbonated non-alcoholic beverages, aerated fruit juices, aerated mineral waters, preparations for making aerated water, alcoholic beverages with the exception of beers, wines, alcoholic preparations for making beverages, pre-mixed alcoholic beverages, other than beer-based beverages, cocktails, aperitifs, digestifs being liqueurs and spirits, sparkling wines, wines produced in the Champagne region of France in accordance with adopted standards

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Unprocessed seeds for agricultural use; unprocessed and raw grains and edible seeds; fresh fruits and vegetables, fresh aromatic herbs; natural plants and flowers; bulbs, seedlings and seeds for planting; foodstuffs and beverages for animals; malt for brewing and distilling

International Classes 31 - Primary Classes **US Classes** 1, 46 **International Class Title** Natural Agricultural Products

For Building construction services; mining extraction; oil and gas drilling; installation, maintenance and repair of air analysis apparatus; installation, maintenance and repair of air filters; repair of air filtering apparatus; installation, maintenance and repair of air purifying apparatus; installation, servicing and repair of machines for the extraction of carbon dioxide and carbonic gas from the air, machines for filtering carbon dioxide and carbonic gas from the air, and machines for extracting carbon dioxide and carbonic gas from the air and its transformation into rock; fueling of vehicles; aircraft refueling services

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Coffee, tea, cocoa and coffee substitutes; rice, pasta and noodles; tapioca and sago; high-protein cereal bars; bread; pastry; chocolate; ice cream, sherbets and other edible ices; sugar; honey; golden syrup; yeast, baking powder; salt; seasonings; spices; preserved herbs as seasonings; vinegar, sauces and other condiments, namely, chutneys; ice for refreshment

International Classes 30 - Primary Classes **US Classes** 46 **International Class Title** Staple Foods

For Carbon dioxide detectors; air analysis apparatus; plastic testing machines; disposable plastic gloves for laboratory use; disposable plastic bioreactors for cell culturing; filters for non-medical respiratory masks; respirators for filtering air for the prevention of accident or injury; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electric current; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; blank digital storage media and blank digital recording media, namely, blank digital audio tapes; mechanisms for coin-operated apparatus; cash registers and calculating devices; computers and computer peripherals; diving suits, scuba diving masks, earplugs for diving, nose clips for divers and swimmers, diving gloves, breathing apparatus for underwater swimming; fire extinguishers

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Services for filtering excess carbon dioxide from the air, namely, treatment of greenhouse gases; services for removing carbon dioxide from the air, namely, capture of greenhouse gases for others using direct air capture technology; services for removing carbon dioxide from the air, namely, capture of greenhouse gases for others using direct air capture technology and geological carbon dioxide storage; processing of carbon dioxide to extract rock; services for the conversion of carbon dioxide for underground storage in rock; rental of tools and machines for processing metal; rental of chemical treatment machines and apparatus and providing information relating thereto; recycling of trash and waste; recycling as part of carbon offsetting; treatment of materials for carbon dioxide (CO_2) offset purposes; air purification and water treatment; printing services; food and beverage preservation; processing of plastic and providing information relating thereto; molding of plastic materials

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Industrial oils and greases; industrial lubricants; dust absorbing compositions, dust binding compositions; fuels; petrol; illuminants, namely, butane for lighting; fuel for aircraft and ships; non-chemical additives to motor fuel; biofuels, synthetic fuels; fuels for motors and engines; diesel fuels; gasoline; kerosene; candles and wicks for lighting

International Classes 4 - Primary Classes **US Classes** 1, 6, 15 **International Class Title** Lubricants and Fuels

For Semi-finished injection molded products of plastic for use in a variety of industries; plastic film for packing, cushioning or stuffing purposes, other than for wrapping; plastic fibers other than for textile use; plastics wires, other than for textile use; extruded plastics in the nature of blocks for use in manufacturing operations; Extruded plastics in sheet form for use in manufacturing operations; extruded plastic materials in granular form for use in manufacturing operations; extruded plastics in the nature of rods for use in manufacturing operations; semi-processed plastic foam in the nature of filtering materials for use in manufacturing operations; semi-processed plastic films in the nature of filtering materials for use in manufacturing operations; glass mineral wool for the manufacture of filter media; mineral wool for the manufacture of filtering materials; self-adhesive plastic sheets for use in manufacturing operations; flexible pipes made of plastic for plumbing; caulking materials of rubber or plastics; semi-processed plastics in the nature of filtering plastic for use in manufacturing operations; reflective plastic films for windows; rubber, gutta-percha, gum, asbestos, mica being unprocessed or semi-processed; plastic materials and resins in extruded form used in manufacturing operations; packing and insulating materials; flexible pipes not of metal

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Beers; mineral and aerated waters and other non-alcoholic beverages, namely, products for making aerated waters, namely, non-alcoholic aerated beverages, non-alcoholic carbonated beverages, alcohol-free beverages, namely, alcohol-free wine, beers and apertifs, beverages consisting of a blend of fruit and vegetable juices, beverages made from fruit concentrates, fruit beverages, mineral water, soft drinks, soda water, club soda, Italian soda, ice cream soda, carbonated non-alcoholic drinks, non-alcoholic cocktail mixes, and non-alcoholic cocktails; fruit beverages and fruit juices; syrups and other preparations for making beverages, namely, non-alcoholic aerated beverages, non-alcoholic carbonated beverages, alcohol-free beverages, namely, alcohol-free wine, beers and apertifs, beverages consisting of a blend of fruit and vegetable juices, beverages made from fruit concentrates, fruit beverages, mineral water, soft drinks, soda water, club soda, Italian soda, ice cream soda, carbonated non-alcoholic drinks, non-alcoholic cocktail mixes, non-alcoholic cocktails, powders for effervescing beverages, namely, powders used in the preparation of soft drinks, powders used in the preparation of fruit-based beverages, powders used in the preparation of sports and energy drinks, fruit and vegetable juice concentrates, concentrates and powders used in the preparation of non-alcoholic fruit and vegetable juices, non-alcoholic powder and liquid mixes used in the preparation of fruit and vegetable beverages, powered and liquid mixes used in the preparation of non-alcoholic cocktails, preparations for making aerated water, and concentrated syrups and powders for use in the preparation of soft drinks; protein-enriched sports beverages; carbonated non-alcoholic beverages, aerated fruit juices, aerated mineral waters; powders for use in the preparation of aerated water

International Classes 32 - Primary Classes **US Classes** 45, 46, 48 **International Class Title** Light Beverages

Mark Literal(s) PERE VENTURA TRESOR GRAN RESERVA CAVA BRUT NATURE DESDE 1992 FAMILY WINE ESTATES METODE TRADICIONAL

CASE IDENTIFIERS

Serial Number 79316171 **Application Filing Date** Jun. 14, 2021 **Register** Principal **Mark Type** Trademark **Publication Date** Nov. 22, 2022

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a three-dimensional configuration of a green wine bottle with two labels: one at the base and a second at the foil on top. The black large label at the base carries the gold wording "PERE VENTURA" above the white "TRESOR" and gold "GRAND RESERVA." At the lower left corner, the gold wording "CAVA" appears. At the lower right corner, the gold wording "BRUT NATURE" appears. Above "PERE VENTURA", a red diamond appears between the gold wording "DESDE" on the left and gold numbering "1992" on the right. Above the large label at the base, a small gold label appears comprised of a diamond with a hand print above the gold wording "PERE VENTURA FAMILY WINE ESTATES". The foil at the top is black and gold and is comprised of a checkered diamond pattern. At the base of the foil, two black concentric circles outlined in gold appear. At the center of the circles is a red diamond. In the outer concentric circle, the gold wording "PERE VENTURA" appears in the top of the circle and the gold wording "METODE TRADICIONAL" appears in the bottom of the circle. The gold wording "PERE VENTURA" wraps around the neck of the foil capsule. The broken lines depicting the bottle shape, cap, and foil indicate placement of the mark on the goods and are not part of the mark. The white background is not claimed as a feature of the mark. **Color Drawing** Yes **Color Claimed** The color(s) green, gold, red, white, and black is/are claimed as a feature of the mark. **Disclaimer** "GRAN RESERVA," "CAVA," "BRUT NATURE," "DESDE 1992," "FAMILY WINE ESTATES" AND "METODE TRADICIONAL" **Translation** The English translation of "TRESOR," "GRAND RESERVA," "DESDE" and "METODE TRADICIONAL" in the mark is "TREASURE," "GRAND RESERVE, " "SINCE" and "TRADITIONAL METHOD". **Name Portrait Consent** The name(s), portrait(s), and/or signature(s) shown in the mark identifies Pere Ventura Vendrell, whose consent(s) to register is made of record.

International Registration 1603625 **International Registration Date** Jan. 28, 2021

GOODS AND SERVICES INFORMATION

For Scientific apparatus and instruments, namely, radio frequency filters, electric sensors for use with micromechanics and radio frequency technology, oscillators, spectroscopy analyzers and spectroscopes; laboratory apparatus and instruments, namely, laboratory robots, laboratory experimental machines in the nature of a constant temperature incubators, constant humidity incubators, glassware for scientific experiments in laboratories, porcelain ware for scientific experiments in laboratories, furnaces for laboratory experiments; testing apparatus and instruments, namely, gas testing instruments, semiconductor testing apparatus; measuring apparatus, namely, multi-channel and array detectors, depth and pressure gauges and LED spectrometers, gas flow meters and mass spectrometers; measuring sensors, namely, sensors for measuring distance, light, time, sound, chemical levels in aqueous solutions, not for medical use; optical apparatus and instruments, namely, optical scanners, optical readers, optical spectrometers, and optical inspection apparatus; apparatus and instruments for conducting electricity, namely, electrical cables, electrical wires, electrical conductors; apparatus and instruments for switching electricity, namely, electrical switches; apparatus and instruments for transforming electricity, namely, electrical transformers; apparatus and instruments for controlling electricity, namely, electrical controllers, power controllers; computer components and parts, namely, computer monitors, computer motherboards; electrical and electronic components, namely, capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, and transistors; electric process control units for regulating start-up electrical motors; optical electronic components, namely, optical semiconductors; testing and quality control devices, namely, battery testers, circuit testers; calibrators, namely, calibration devices for calibrating loudspeakers, audiovisual receivers, ultrasonic testers, optical emission spectrometers; monitoring instruments, namely, battery monitors, gas flow monitors; computers; computer hardware; downloadable computer databases

in the field of mobile communications technology, information system applications, telecommunications and network technologies, safety and reliability research, sensor technology, forest chemicals, printing processes, mineral refinement, developing and researching biomolecules, cell factory systems, process technology, building technology, food design, microbiology, chemistry, genetics, metrology, artificial intelligence technology, quantum technology, health technology, robotics, microelectronics, printed electronics, hydrogen research, energy production research, new energy technologies, engine technology and energy in transportation; electrical and mechanical data processing equipment and accessories, namely, computers, printers, computer keyboards, modems, loudspeakers, computer mouse, remote controls for radios, televisions, stereos, projectors, scanners, memories for data processing equipment and couplers; communications equipment, namely, communication hubs, communication modems; downloadable computer software for use in database management, use in electronic storage of data, for use as a spreadsheet, for word processing, for computer aided design and for use in process simulation; downloadable computer software and downloadable applications for mobile devices for use in database management, use in electronic storage of data, for use as a spreadsheet, for word processing, for computer aided design and for use in process simulation; downloadable computer application software for mobile phones, portable media players, handheld computers, namely, software for use in database management, use in electronic storage of data, for use as a spreadsheet, for word processing, for computer aided design and for use in process simulation; computer programs, recorded, for use in database management, use in electronic storage of data, for use as a spreadsheet, for word processing, for computer aided design and for use in process simulation; downloadable facilities management software to control building environment, access and security systems; automatic control apparatus, namely, lighting control apparatus, power controllers; downloadable electronic publications in the nature of books, magazines, manuals, brochures and research reports featuring mobile communications technology, information system applications, telecommunications and network technologies, safety and reliability research, sensor technology, environmental issues focusing on forest chemicals, printing processes, mineral refinement, developing and researching biomolecules, cell factory, process technology, building technology, food design, microbiology, chemistry, genetics, metrology, artificial intelligence technology, quantum technology, health technology, robotics, microelectronics, printed electronics, hydrogen research, researching energy production, new energy technologies, engine technology and energy in transportation, controlling factors related to the operating reliability and service life of various products, finding material solutions for difficult operating conditions, promoting and developing of environmentally friendly products and production methods, and developing models for exploiting new technologies for the management of goods and information flows and telecommunication systems and networks

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Scientific and industrial research in the field of mobile communications technology, information system applications, telecommunications and network technologies, safety and reliability research, sensor technology, environmental issues focusing on forest chemicals, printing processes, mineral refinement, developing and researching biomolecules, cell factory, process technology, building technology, food design, microbiology, chemistry, genetics, metrology, artificial intelligence technology, quantum technology, health technology, robotics, microelectronics, printed electronics, hydrogen research, researching energy production, new energy technologies, engine technology and energy in transportation, controlling factors related to the operating reliability and service life of various products, finding material solutions for difficult operating conditions, promoting and developing of environmentally friendly products and production methods, as well as developing

models for exploiting new technologies for the management of goods and information flows and telecommunication systems and networks for others; scientific research and analysis in the field of mobile communications technology, information system applications, telecommunications and network technologies, safety and reliability research, sensor technology, environmental issues focusing on forest chemicals, printing processes, mineral refinement, developing and researching biomolecules, cell factory, process technology, building technology, food design, microbiology, chemistry, genetics, metrology, artificial intelligence technology, quantum technology, health technology, robotics, microelectronics, printed electronics, hydrogen research, researching energy production, new energy technologies, engine technology and energy in transportation, controlling factors related to the operating reliability and service life of various products, finding material solutions for difficult operating conditions, promoting and developing of environmentally friendly products and production methods, as well as developing models for exploiting new technologies for the management of goods and information flows and telecommunication systems and networks for others; computer aided scientific research services; scientific research relating to the computerised automation of industrial processes; research in the field of artificial intelligence; advisory services relating to scientific research; provision of information relating to scientific research; preparation of reports relating to scientific research; industrial design services; provision of information relating to industrial design; professional consultancy relating to industrial design; provision of information relating to industrial engineering; technological planning services in the field of mobile communications technology, information system applications, telecommunications and network technologies, safety and reliability research, sensor technology, forest chemicals, printing processes, mineral refinement, developing and researching biomolecules, cell factory systems, process technology, building technology, food design, microbiology, chemistry, genetics, metrology, artificial intelligence technology, quantum technology, health technology, robotics, microelectronics, printed electronics, hydrogen research, energy production research, new energy technologies, engine technology and energy in transportation; technological consultancy services relating to manufacture of goods; engineering consultancy relating to the manufacture of goods; technological consulting services, namely, industrial analysis services in the field of mobile communications technology, information system applications, telecommunications and network technologies, safety and reliability research, sensor technology, forest chemicals, printing processes, mineral refinement, developing and researching biomolecules, cell factory systems, process technology, building technology, food design, microbiology, chemistry, genetics, metrology, artificial intelligence technology, quantum technology, health technology, robotics, microelectronics, printed electronics, hydrogen research, energy production research, new energy technologies, engine technology and energy in transportation; computer aided engineering services, namely, industrial analysis services in the field of mobile communications technology, information system applications, telecommunications and network technologies, safety and reliability research, sensor technology, forest chemicals, printing processes, mineral refinement, developing and researching biomolecules, cell factory systems, process technology, building technology, food design, microbiology, chemistry, genetics, metrology, artificial intelligence technology, quantum technology, health technology, robotics, microelectronics, printed electronics, hydrogen research, energy production research, new energy technologies, engine technology and energy in transportation; providing information about industrial engineering analysis and research services; software as a service (SAAS) services featuring software for use in database management and process simulation; platform as a service (PAAS) services featuring computer software platforms for use in database management and process simulation; platform as a service (PAAS) featuring computer software platforms for transmission of images, audio-visual content, video content and messages; software as a service (SAAS) services featuring software using artificial intelligence for use in machine learning, facial and speech recognition and process simulation; providing on-line non-downloadable software using artificial intelligence for use in machine learning, facial and

speech recognition and process simulation; technical data analysis services in the field of bacteriology, chemistry, cosmetics, metrology; technical advisory services relating to computer programs for data processing; data mining; computerised electronic data storage; development of computer software systems for the processing of data; designing of data processing computer programs; development of software and hardware for industrial processes; services for monitoring industrial processes, namely, inspections of manufactured goods for quality control purposes; conducting industrial tests in the nature of quality control for others; quality control for others in the nature of conducting of quality control tests; consultancy relating to quality control of goods and services; quality control testing services for industrial machinery; materials testing and analysing; testing of materials; material testing for fault detection; technical material testing; technical evaluation and testing of materials; laboratory material testing; component testing, namely, product testing; product quality testing; scientific testing services in the field of artificial intelligence; testing, authentication and quality control of pharmaceuticals and medicine for others; testing, analysis and evaluation of the goods of others to determine conformity with certification standards; microbiological testing for others in the nature of testing new products in the field of microbiology; testing of chemicals; testing of cosmetics; inspection of cosmetics; testing of pharmaceuticals; biotechnology testing for others in the nature of testing new products in the field of biotechnology; environmental testing and inspection services; hosting on-line web facilities for others for sharing on-line content; maintenance of websites and hosting on-line web facilities for others; technical support, namely, providing computer facilities for the electronic storage of digital data; genetic scientific research in the field of genetics; research and development services in the field of gene expression systems; laboratory research in the field of gene expression; genetic engineering services; scientific research in the field of genetics and genetic engineering; scientific research relating to genetics; genetic testing for scientific research purposes; genetic engineering services relating to plants; scientific research relating to genetics of plants; biochemical engineering services; biochemical research and development; biochemical research and analysis; biochemistry research services; biochemistry research consultancy; advisory services relating to scientific research in the field of biochemistry; providing information relating to scientific research in the fields of biochemistry and biotechnology; providing information on the subject of scientific research in the field of biochemistry and biotechnology; scientific research laboratory services relating to the isolation and cultivation of human tissues and cells; technological engineering design services; new product design and development; biotechnology design services relating to the creation of elementary cells; dna screening for scientific research purposes; testing of raw materials; quality control of raw materials; chemical research; research and development of new products; research laboratories, namely, laboratory research in the field of bacteriology, chemistry, cosmetics; chemical laboratories; medical laboratories; preparation of biological samples for testing and analysis in research laboratories; research and testing services in the fields of bacteriology and virology; research and development in the pharmaceutical and biotechnology fields; research and development services in the field of chemistry; research and development of new products and new technology for others in the field of genomics, biotechnology; research and development in the field of microorganisms and cells; stem cell research services; scientific laboratory services and scientific research; scientific research for medical purposes; scientific research; biotechnological research relating to the agricultural and horticultural industry; technical consultancy in relation to research services relating to foods and dietary supplements; cell separation scientific research services; scientific research relating to cultivation in horticulture; scientific research relating to molecular sciences; scientific research in measurement technology; scientific research in the field of materials science; scientific research relating to waste analysis; biotechnological research relating to agriculture; medical and pharmacological research services; scientific research relating to cosmetics; scientific research relating to plant breeding; biotechnological

research relating to enzymatic synthesis; biomedical research services; scientific research relating to biology; biological research and analysis; providing temporary use of non-downloadable software applications accessible via a web site for use in database management; design and development of new products; development of new technology for others in the field of genomics, biotechnology; biological development services in the nature of biological research and analysis; architectural design and urban planning services; town planning consultancy services; town planning advisory services; research on building construction or city planning; research in the field of energy; consultancy relating to technological services in the field of power and energy supply; technological consultation services in the field of mobile communications technology, information system applications, telecommunications and network technologies, safety and reliability research, sensor technology, environmental issues, namely, forest chemicals, printing processes, mineral refinement, developing and researching biomolecules, cell factory systems, process technology, building technology, food design, microbiology, chemistry, genetics, metrology, artificial intelligence technology, quantum technology, health technology, robotics, microelectronics, printed electronics, hydrogen research, researching energy production, new energy technologies, engine technology and energy in transportation; water quality control services; water analysis; monitoring of water quality; engineering services in the field of environmental assessment; engineering services in the field of environmental technology; design of controlled environmental buildings; environmental assessment and planning consultancy services; consultancy services relating to environmental planning; providing temporary use of on-line non-downloadable software for database management; civil engineering planning services; engineering services relating to automatic data processing; technical design and planning of telecommunications networks; road surveying; civil engineering, namely, design of road networks; vehicle design services; infrastructure as a service (IIAS) services, namely, hosting servers for use by others; computer software development, programming and implementation; software engineering services; rental of computer software; creating and maintaining websites for mobile phones, for others; providing information, consultancy, and advisory services in the field of information technology (IT); cloud computing featuring software for use in database management and process simulation; computer software design; computer system design; hosting of digital content on the Internet in the nature of computerized data, files, applications and information; design and development of route planning software

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

MARK INFORMATION

Standard Character Claim Yes. The mark consists of standard characters without claim to any particular font style, size, or color. **Mark Drawing Type** 4 - STANDARD CHARACTER MARK

RELATED PROPERTIES INFORMATION

International Registration 1604042 **International Registration Date** May 06, 2021

GOODS AND SERVICES INFORMATION

For Dietetic preparations adapted for medical purposes and food supplements, also in flavored form

International Classes 5 - Primary Classes **US Classes** 5, 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Meat substitutes, sausages substitutes, poultry substitutes and game substitutes comprising of tofu, soy, preserved, cooked, and processed pulses, coconut, preserved, cooked, and processed vegetables, preserved, cooked, and processed potatoes, preserved, cooked, and processed nuts, processed algae for human consumption, prepared seeds for human consumption, not being seasonings or flavourings; prepared meals mainly consisting of meat substitutes, of sausage substitutes, of poultry substitutes and of game substitutes comprising of tofu, soy, preserved, cooked, and processed pulses, coconut, preserved, cooked, and processed vegetables, preserved, cooked, and processed potatoes, preserved, cooked, and processed nuts, processed algae for human consumption, prepared seeds for human consumption, not being seasonings or flavourings; meat, sausage, poultry and game and meat products, namely, meat, meat paste, hot dogs, hamburger, smoked meats, minced meat, textured meat, sausage products, namely, smoked sausages, sausage meat, uncooked sausages, turkey sausages, poultry products, namely, chicken, duck, turkey, poultry not live, game products, namely, game not live, game muscle meat, game minced meat, also with an admixture of meat substitutes, sausage substitutes, poultry substitutes, game substitutes; meat substitutes, sausage substitutes, poultry substitutes and game substitutes comprising of cereals, and cereal preparations, namely, processed pseudocereals, rice, and rice preparations; prepared meals mainly consisting of meat substitutes, of sausages substitutes, of poultry substitutes and of game substitutes comprising of cereals and cereals preparations, namely, pseudocereals, rice, and rice preparations; all the aforementioned goods are in prepared and flavored form

International Classes 29 - Primary Classes **US Classes** 46 **International Class Title** Meats and Processed Foods

For Chemical preparations for use in the food industry, in particular enzyme and chemical stabilizer used for preserving foods, and aromatics solvents for industrial and commercial use; chemical and organic compositions and preparations for use in the manufacture of food and beverages; enzymatic and chemical stabilizers for the manufacture of food; stabilizers as chemical auxiliaries for the food industry, namely, enzymatic and produce stabilizer used for preserving foods; chemical source material in the nature of chemical preparations for preserving foodstuffs, and chemical products for stabilising foodstuffs for the food industry, for the dietetic foodstuff industry; chemical and organic preparations for stabilization for use in industry, in particular in the food industry; chemical preparations for use in the manufacture and preparation of aromatics

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Processed seeds for use as a seasoning and as a flavoring for foods and beverages; ice, ice cream, frozen yoghurt, and sorbets being substitutes for milk and for dairy products; food flavorings, food flavorings for seasoning, other than essential oils flavorings for foods and beverages, all not being essential oils; edible salts, seasonings, spices

International Classes 30 - Primary Classes **US Classes** 46 **International Class Title** Staple Foods

CASE IDENTIFIERS

Serial Number 79316532 **Application Filing Date** Jun. 19, 2021 **Register** Principal **Mark Type** Service Mark **Publication Date** Nov. 22, 2022

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 5 - AN ILLUSTRATION DRAWING WITH WORD(S) /LETTER(S)/ NUMBER(S) IN **Description of the Mark** The mark consists of of the wording "LIFESIZE" in stylized black font. Below this is the stylized wording "PLANS" outlined in bold teal, and inside the letters are various architectural blueprint symbols in teal. The white in the mark is for transparent or shading purposes and is not claimed as a feature of the mark. **Color Drawing** Yes **Color Claimed** The color(s) black and teal is/are claimed as a feature of the mark. **Disclaimer** "PLANS"

RELATED PROPERTIES INFORMATION

International Registration 1604307 **International Registration Date** Jun. 19, 2021

GOODS AND SERVICES INFORMATION

For Administration of the business affairs of franchises; business advertising services relating to franchising; business advisory services relating to the operation of franchises

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Advisory services relating to maintenance, repair and renovation of buildings and other structures in the nature of homes, commercial spaces, offices; building construction consultancy, building construction project management in the field of residential, office and commercial buildings; advisory services relating to the construction of buildings; Building construction supervision; Building project management, namely, construction supervision; Construction consultation; real estate development; Provision of construction information; Providing online information about building construction, repair in the nature of renovation and installation services for homes, commercial and office spaces; Provision of construction advice; Supervision of building construction

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Architectural services, Architectural project management being architectural services, architectural consultation, architectural services, namely, consultancy relating to architectural planning, preparation of reports relating to architecture, design services for architecture, preparation of architectural plans; architectural and engineering services, engineering drawing services, construction drafting, architectural research services, research in the field of construction

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

International Registration 1604714 **International Registration Date** Jan. 28, 2021

GOODS AND SERVICES INFORMATION

For Scientific apparatus and instruments, namely, radio frequency filters, electric sensors for use with micromechanics and radio frequency technology, oscillators, spectroscopy analyzers and spectroscopes; laboratory apparatus and instruments, namely, laboratory robots, laboratory experimental machines in the nature of a constant temperature incubators, constant humidity incubators, glassware for scientific experiments in laboratories, porcelain ware for scientific experiments in laboratories, furnaces for laboratory experiments; testing apparatus and instruments, namely, gas testing instruments, semiconductor testing apparatus; measuring apparatus, namely, multi-channel and array detectors, depth and pressure gauges and LED spectrometers, gas flow meters and mass spectrometers; measuring sensors, namely, sensors for measuring distance, light, time, sound, chemical levels in aqueous solutions, not for medical use; optical apparatus and instruments, namely, optical scanners, optical readers, optical spectrometers, and optical inspection apparatus; apparatus and instruments for conducting electricity, namely, electrical cables, electrical wires, electrical conductors; apparatus and instruments for switching electricity, namely, electrical switches; apparatus and instruments for transforming electricity, namely, electrical transformers; apparatus and instruments for controlling electricity, namely, electrical controllers, power controllers; computer components and parts, namely, computer monitors, computer motherboards; electrical and electronic components, namely, capacitors, connectors, filters, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits, rectifiers, and transistors; electric process control units for regulating start-up electrical motors; optical electronic components, namely, optical semiconductors; testing and quality control devices, namely, battery testers, circuit testers; calibrators, namely, calibration devices for calibrating loudspeakers, audiovisual receivers, ultrasonic testers, optical emission spectrometers; monitoring instruments, namely, battery monitors, gas flow monitors; computers; computer hardware; downloadable computer databases

in the field of mobile communications technology, information system applications, telecommunications and network technologies, safety and reliability research, sensor technology, forest chemicals, printing processes, mineral refinement, developing and researching biomolecules, cell factory systems, process technology, building technology, food design, microbiology, chemistry, genetics, metrology, artificial intelligence technology, quantum technology, health technology, robotics, microelectronics, printed electronics, hydrogen research, energy production research, new energy technologies, engine technology and energy in transportation; electrical and mechanical data processing equipment and accessories, namely, computers, printers, computer keyboards, modems, loudspeakers, computer mouse, remote controls for radios, televisions, stereos, projectors, scanners, memories for data processing equipment and couplers; communications equipment, namely, communication hubs, communication modems; downloadable computer software for use in database management, use in electronic storage of data, for use as a spreadsheet, for word processing, for computer aided design and for use in process simulation; downloadable computer software and downloadable applications for mobile devices for use in database management, use in electronic storage of data, for use as a spreadsheet, for word processing, for computer aided design and for use in process simulation; downloadable computer application software for mobile phones, portable media players, handheld computers, namely, software for use in database management, use in electronic storage of data, for use as a spreadsheet, for word processing, for computer aided design and for use in process simulation; computer programs, recorded, for use in database management, use in electronic storage of data, for use as a spreadsheet, for word processing, for computer aided design and for use in process simulation; downloadable facilities management software to control building environment, access and security systems; automatic control apparatus, namely, lighting control apparatus, power controllers; downloadable electronic publications in the nature of books, magazines, manuals, brochures and research reports featuring mobile communications technology, information system applications, telecommunications and network technologies, safety and reliability research, sensor technology, environmental issues focusing on forest chemicals, printing processes, mineral refinement, developing and researching biomolecules, cell factory, process technology, building technology, food design, microbiology, chemistry, genetics, metrology, artificial intelligence technology, quantum technology, health technology, robotics, microelectronics, printed electronics, hydrogen research, researching energy production, new energy technologies, engine technology and energy in transportation, controlling factors related to the operating reliability and service life of various products, finding material solutions for difficult operating conditions, promoting and developing of environmentally friendly products and production methods, and developing models for exploiting new technologies for the management of goods and information flows and telecommunication systems and networks

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Scientific and industrial research in the field of mobile communications technology, information system applications, telecommunications and network technologies, safety and reliability research, sensor technology, environmental issues focusing on forest chemicals, printing processes, mineral refinement, developing and researching biomolecules, cell factory, process technology, building technology, food design, microbiology, chemistry, genetics, metrology, artificial intelligence technology, quantum technology, health technology, robotics, microelectronics, printed electronics, hydrogen research, researching energy production, new energy technologies, engine technology and energy in transportation, controlling factors related to the operating reliability and service life of various products, finding material solutions for difficult operating conditions, promoting and developing of environmentally friendly products and production methods, as well as developing

models for exploiting new technologies for the management of goods and information flows and telecommunication systems and networks for others; scientific research and analysis in the field of mobile communications technology, information system applications, telecommunications and network technologies, safety and reliability research, sensor technology, environmental issues focusing on forest chemicals, printing processes, mineral refinement, developing and researching biomolecules, cell factory, process technology, building technology, food design, microbiology, chemistry, genetics, metrology, artificial intelligence technology, quantum technology, health technology, robotics, microelectronics, printed electronics, hydrogen research, researching energy production, new energy technologies, engine technology and energy in transportation, controlling factors related to the operating reliability and service life of various products, finding material solutions for difficult operating conditions, promoting and developing of environmentally friendly products and production methods, as well as developing models for exploiting new technologies for the management of goods and information flows and telecommunication systems and networks for others; computer aided scientific research services; scientific research relating to the computerised automation of industrial processes; research in the field of artificial intelligence; advisory services relating to scientific research; provision of information relating to scientific research; preparation of reports relating to scientific research; industrial design services; provision of information relating to industrial design; professional consultancy relating to industrial design; provision of information relating to industrial engineering; technological planning services in the field of mobile communications technology, information system applications, telecommunications and network technologies, safety and reliability research, sensor technology, forest chemicals, printing processes, mineral refinement, developing and researching biomolecules, cell factory systems, process technology, building technology, food design, microbiology, chemistry, genetics, metrology, artificial intelligence technology, quantum technology, health technology, robotics, microelectronics, printed electronics, hydrogen research, energy production research, new energy technologies, engine technology and energy in transportation; technological consultancy services relating to manufacture of goods; engineering consultancy relating to the manufacture of goods; technological consulting services, namely, industrial analysis services in the field of mobile communications technology, information system applications, telecommunications and network technologies, safety and reliability research, sensor technology, forest chemicals, printing processes, mineral refinement, developing and researching biomolecules, cell factory systems, process technology, building technology, food design, microbiology, chemistry, genetics, metrology, artificial intelligence technology, quantum technology, health technology, robotics, microelectronics, printed electronics, hydrogen research, energy production research, new energy technologies, engine technology and energy in transportation; computer aided engineering services, namely, industrial analysis services in the field of mobile communications technology, information system applications, telecommunications and network technologies, safety and reliability research, sensor technology, forest chemicals, printing processes, mineral refinement, developing and researching biomolecules, cell factory systems, process technology, building technology, food design, microbiology, chemistry, genetics, metrology, artificial intelligence technology, quantum technology, health technology, robotics, microelectronics, printed electronics, hydrogen research, energy production research, new energy technologies, engine technology and energy in transportation; providing information about industrial engineering analysis and research services; software as a service (SAAS) services featuring software for use in database management and process simulation; platform as a service (PAAS) services featuring computer software platforms for use in database management and process simulation; platform as a service (PAAS) featuring computer software platforms for transmission of images, audio-visual content, video content and messages; software as a service (SAAS) services featuring software using artificial intelligence for use in machine learning, facial and speech recognition and process simulation; providing on-line non-downloadable software using artificial intelligence for use in machine learning, facial and

speech recognition and process simulation; technical data analysis services in the field of bacteriology, chemistry, cosmetics, metrology; technical advisory services relating to computer programs for data processing; data mining; computerised electronic data storage; development of computer software systems for the processing of data; designing of data processing computer programs; development of software and hardware for industrial processes; services for monitoring industrial processes, namely, inspections of manufactured goods for quality control purposes; conducting industrial tests in the nature of quality control for others; quality control for others in the nature of conducting of quality control tests; consultancy relating to quality control of goods and services; quality control testing services for industrial machinery; materials testing and analysing; testing of materials; material testing for fault detection; technical material testing; technical evaluation and testing of materials; laboratory material testing; component testing, namely, product testing; product quality testing; scientific testing services in the field of artificial intelligence; testing, authentication and quality control of pharmaceuticals and medicine for others; testing, analysis and evaluation of the goods of others to determine conformity with certification standards; microbiological testing for others in the nature of testing new products in the field of microbiology; testing of chemicals; testing of cosmetics; inspection of cosmetics; testing of pharmaceuticals; biotechnology testing for others in the nature of testing new products in the field of biotechnology; environmental testing and inspection services; hosting on-line web facilities for others for sharing on-line content; maintenance of websites and hosting on-line web facilities for others; technical support, namely, providing computer facilities for the electronic storage of digital data; genetic scientific research in the field of genetics; research and development services in the field of gene expression systems; laboratory research in the field of gene expression; genetic engineering services; scientific research in the field of genetics and genetic engineering; scientific research relating to genetics; genetic testing for scientific research purposes; genetic engineering services relating to plants; scientific research relating to genetics of plants; biochemical engineering services; biochemical research and development; biochemical research and analysis; biochemistry research services; biochemistry research consultancy; advisory services relating to scientific research in the field of biochemistry; providing information relating to scientific research in the fields of biochemistry and biotechnology; providing information on the subject of scientific research in the field of biochemistry and biotechnology; scientific research laboratory services relating to the isolation and cultivation of human tissues and cells; technological engineering design services; new product design and development; biotechnology design services relating to the creation of elementary cells; dna screening for scientific research purposes; testing of raw materials; quality control of raw materials; chemical research; research and development of new products; research laboratories, namely, laboratory research in the field of bacteriology, chemistry, cosmetics; chemical laboratories; medical laboratories; preparation of biological samples for testing and analysis in research laboratories; research and testing services in the fields of bacteriology and virology; research and development in the pharmaceutical and biotechnology fields; research and development services in the field of chemistry; research and development of new products and new technology for others in the field of genomics, biotechnology; research and development in the field of microorganisms and cells; stem cell research services; scientific laboratory services and scientific research; scientific research for medical purposes; scientific research; biotechnological research relating to the agricultural and horticultural industry; technical consultancy in relation to research services relating to foods and dietary supplements; cell separation scientific research services; scientific research relating to cultivation in horticulture; scientific research relating to molecular sciences; scientific research in measurement technology; scientific research in the field of materials science; scientific research relating to waste analysis; biotechnological research relating to agriculture; medical and pharmacological research services; scientific research relating to cosmetics; scientific research relating to plant breeding; biotechnological

research relating to enzymatic synthesis; biomedical research services; scientific research relating to biology; biological research and analysis; providing temporary use of non-downloadable software applications accessible via a web site for use in database management; design and development of new products; development of new technology for others in the field of genomics, biotechnology; biological development services in the nature of biological research and analysis; architectural design and urban planning services; town planning consultancy services; town planning advisory services; research on building construction or city planning; research in the field of energy; consultancy relating to technological services in the field of power and energy supply; technological consultation services in the field of mobile communications technology, information system applications, telecommunications and network technologies, safety and reliability research, sensor technology, environmental issues, namely, forest chemicals, printing processes, mineral refinement, developing and researching biomolecules, cell factory systems, process technology, building technology, food design, microbiology, chemistry, genetics, metrology, artificial intelligence technology, quantum technology, health technology, robotics, microelectronics, printed electronics, hydrogen research, researching energy production, new energy technologies, engine technology and energy in transportation; water quality control services; water analysis; monitoring of water quality; engineering services in the field of environmental assessment; engineering services in the field of environmental technology; design of controlled environmental buildings; environmental assessment and planning consultancy services; consultancy services relating to environmental planning; providing temporary use of on-line non-downloadable software for database management; civil engineering planning services; engineering services relating to automatic data processing; technical design and planning of telecommunications networks; road surveying; civil engineering, namely, design of road networks; vehicle design services; infrastructure as a service (IIAS) services, namely, hosting servers for use by others; computer software development, programming and implementation; software engineering services; rental of computer software; creating and maintaining websites for mobile phones, for others; providing information, consultancy, and advisory services in the field of information technology (IT); cloud computing featuring software for use in database management and process simulation; computer software design; computer system design; hosting of digital content on the Internet in the nature of computerized data, files, applications and information; design and development of route planning software

GOODS AND SERVICES INFORMATION

For Fertilizer; chemicals for use in agriculture, industry, horticulture and forestry, aquaculture and animal husbandry except fungicides, herbicides, insecticides and parasiticides; fertilizers and manures; fertilizers and liquid fertilizers based on algae, seaweed, mineraloids or combinations thereof; compost; plant growth regulators for agricultural use; seed and seed grain treatment preparations, being fertilizers; soil treatment preparations for stabilizing soil; soil treatment preparations for stabilizing soil based on algae, seaweed, mineraloids or combinations thereof; chemical preparations for use in industry for coating of fertilizers and seeds and seed grain; granulated lime in the nature of agricultural lime; chemical soil additives; nitrates

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Barter exchange services, namely, providing commercial barter and trade exchange of chemical products for use in agriculture, industry, horticulture, forestry, aquaculture and animal husbandry, and software; business consultancy, business consultancy within agriculture, industry, horticulture and forestry, aquaculture and animal husbandry; advice and information concerning commercial business management; consultancy relating to business planning, consultancy relating to business management

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Downloadable computer software for data exchange; downloadable software applications for data exchange; analyzing tools in the nature of downloadable software applications for use in the agriculture industry, horticulture and forestry, aquaculture and animal husbandry; precision farming digital downloadable software and measuring apparatus for optimization of fertilization and seeding procedures; downloadable software applications and analyzing tools in the nature of downloadable software applications for analyzing weather data in relation to agriculture; downloadable application software for mobile

phones for analyzing agricultural data for use in the agriculture industry; digital measuring instruments being sensors and digitizers; digital measuring instruments being sensors and digitizers for use together with smart phones; digital analyzing tools in the nature of downloadable software applications for use in agriculture, horticulture and forestry; downloadable digital maps; digital analyzing tool in the nature of downloadable software applications for the use of crop diagnostics; digital analyzing tool in the nature of downloadable software applications for the use of fertilizer recommendation; digital analyzing tool in the nature of downloadable software applications for the use of measuring and analyzing nitrogen content in plants; digital analyzing tool in the nature of downloadable software applications for the use of measuring precipitation, water levels and water requirements in crops and plants; digital analyzing tool in the nature of downloadable software applications for the use of measuring of nutrient contents in plants

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Providing access to online platforms within the agricultural field for electronic information, communication and transmission via the Internet; providing access to Internet platforms for the purpose of exchanging agricultural field data; transmission and distribution of data through global computer network or Internet; electronic data transmission; providing access to global computer network for information within the agricultural field, horticulture and forestry, aquaculture and animal husbandry

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Professional consultancy and advisory services relating to agriculture, horticulture and forestry, aquaculture and animal husbandry; professional agricultural, horticultural or forestry consultancy and advisory services relating to plant and crop nutrients, nitrogen content in plants, fertilizer measurements and requirements, precipitation, water levels and water requirements; providing information relating to the spreading of fertilizers and other agricultural chemicals

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For Scientific and technological research services, all the aforesaid services in the field of agriculture, horticulture and forestry, aquaculture and animal husbandry; design, development and maintenance of computer software and software applications for use in the agriculture field, horticulture and forestry, aquaculture and animal husbandry; development and testing of computing methods, algorithms and software for use in the agricultural field, horticulture and forestry, aquaculture and animal husbandry; information and advice services relating to all the aforesaid services; industrial data analysis and research services relating to agriculture, horticulture and forestry, aquaculture and animal husbandry; industrial data analysis relating to measuring of plant nutrients, soil nutrients; research services relating to measuring of plant nutrients, soil nutrients; industrial data analysis relating to measuring of nitrogen contents in plants; research services relating to measuring of nitrogen contents in plants; industrial data analysis relating to digital maps; research services relating to digital maps; industrial data analysis relating to fertilizer measurements and requirements, precipitation, water levels and water requirements in crops and plants; research services relating to fertilizer measurements and requirements, precipitation, water levels and water requirements in crops and plants

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a two-dimensional design of a bottle of vodka. The top of the bottle contains a brown cap and stopper. The neck of the bottle contains a white label with the stylized wording "OBELIU VODKA" in black and above two straight, horizontal black lines. The upper portion of the body of the bottle contains the stylized wording "DISTILLED WITH LOVE" arced above the stylized word "SINCE" which is above the stylized term "1907", with all the aforementioned wording on the upper portion of the body of the bottle lined in grey. The body of the bottle contains a white label with a grey depiction of a seated woman smoking a cigarette and wearing a white dress. The woman is shown surrounded by grey and black bottles, grey baskets, and a grey crate. An arrangement of three straight, vertical black lines and three straight, horizontal black lines appears to the right of the depiction of the woman. The right side of the body of the bottle is grey. The stylized wording "OBELIU VODKA" in black appears underneath the depiction of the woman. To the right of this wording, there appears a stylized white partial circle formed by the stylized grey wording "OBELIAI" "SINCE" "DISTILLED" appears surrounding a stylized design of a building lined in grey. The remaining white, black, and grey in the mark represents background, shading, or transparent areas and is not claimed as a feature of the mark. **Color Drawing** Yes **Color Claimed** The colors white, grey, brown and black are claimed as a feature of the mark. **Disclaimer** "VODKA", "SINCE 1907", AND "DISTILLED SINCE" **Translation** The wording "OBELIU" has no meaning in a foreign language. **Name Portrait Consent** The name(s), portrait(s), and/or signature(s) shown in the mark does not identify a particular living individual.

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Unprocessed synthetic resins for use in fiberglass reinforced moldings; unprocessed synthetic resin plastics

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Rebuilding machines that have been worn or partially destroyed; airplane maintenance and repair; repair and maintenance of airplane engines

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Material testing instruments and machines, namely electronic apparatus for testing compression, strength, hardness, durability and composition of industrial material; recorded computer programs; recorded software for aeronautical construction management and testing of industrial material specifications; flight simulators

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Galvanization services; tempering of metals; treatment of metals; metal casting; custom manufacturing services of aeronautical vehicles for others; treatment, processing being obtaining metals from native earth materials and refining of metal; machining of metal being metalworking

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Carbon fibers other than for textile use; semi-processed synthetic resins reinforced with carbon fibers and for use in manufacture; non-metallic fiberglass reinforced pipes; glass reinforced resins being semi-processed resins; semi-processed resins in extruded form; semi- processed resin-impregnated carbon fiber fabrics other than for textile use; semi-processed resin-impregnated fabrics for the manufacture of components, other than for textile use; resin- impregnated adhesive tapes for the manufacture of aerospace components; all the aforesaid goods exclusively in the field of aeronautics and aerospace

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Software design services; mechanical research; software as a service (SaaS) featuring software for managing the manufacturing of aircraft; software development being software writing; design of aircraft; engineering services in mechanical engineering

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Steel frames for buildings; metallic moldings being molds of metal for construction; unwrought or semi-wrought steel; unwrought or semi-wrought copper; pipes of metal; extruded aluminum profiles; titanium; plates of aluminum for brazing; metal sheets not of precious metal; steel; profiles of metal made of steel, iron, nickel, titanium and other metals and their alloys being semi-finished products; aluminum sections being aluminum sheets; all the aforesaid goods exclusively in the field of aeronautical construction

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

Mark Literal(s) CAIR CAPILLORUM ARS IRRADIANTIUM

CASE IDENTIFIERS

Serial Number 79325925 **Application Filing Date** Jul. 08, 2021 **Register** Principal **Mark Type** Trademark **Publication Date** Nov. 22, 2022

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the stylized wording "CAIR CAPILLORUM ARS IRRADIANTIUM" all inside of an incomplete circle resembling a stylized letter "C".

RELATED PROPERTIES INFORMATION

International Registration 1626792 **International Registration Date** Jul. 08, 2021

GOODS AND SERVICES INFORMATION

For Brushes, namely, hair brushes for styling users' hair; hair brushes; electric brushes, excluding parts of machines, namely, electric hot brushes for styling users' hair; electric rotating hair brushes being electric rotary hair brushes for styling users' hair; hot-air hair brushes; combs; large-toothed combs for the hair; brushes for cleaning hair brushes; shaving brushes; brushes for cosmetic use; nail polish brushes being nail brushes; brush-making materials

International Classes 21 - Primary Classes **US Classes** 2, 13, 23, 29, 30, 33, 40, 50 **International Class Title** Housewares and Glass

For Hair care preparations and cosmetics; cosmetic preparations for hair use, namely, shampoos, conditioners, gels, foams, balms, creams, powders, oils, waxes, serums, lotions, and masks; hair styling preparations and hair care preparations; hair strengthening products being hair care preparations for strengthening hair; non-medicated hair lotions for protecting the hair; hair care lotions; hair care creams; hair care preparations and non-medicated hair treatment preparations for cosmetic purposes; hair care preparations other than for medical use; hair styling preparations

International Classes 3 - Primary Classes **US Classes** 1, 4, 6, 50, 51, 52 **International Class Title** Cosmetics and Cleaning Preparations

MARK INFORMATION

Standard Character Claim Yes. The mark consists of standard characters without claim to any particular font style, size, or color. **Mark Drawing Type** 4 - STANDARD CHARACTER MARK **Disclaimer** "STORE"

RELATED PROPERTIES INFORMATION

International Registration 1626834 **International Registration Date** May 19, 2021

GOODS AND SERVICES INFORMATION

For Printed publications namely, newsletters in the field of vending machines; Blank paper tapes and cards, all for recording electronic data and computer programs; manuals and printed instructions sheets in the field of operating vending electronic apparatus; manuals and printed instructions sheets in the field of vending machines, unmanned store, micro-market, smart refrigerator and smart/intelligent cabinet; manuals and printed instructions sheets in the field of computer programs for vending machines, smart refrigerator and smart/intelligent cabinets

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Distribution machines, automatic, namely machines for distribution of food and non-food items; automatic vending machines; installations for automatic vending machines and unmanned store, namely, large free standing vending machines capable of vending a wide variety of goods; vending machines; installations for vending machines namely, large free standing vending machines; RFID-operated vending machines; apparatus and machines for affixing labels; mobile and stationary labelling machines and packaging machines; Machines for labelling goods and packaging and to attach labels to goods and to packages; Apparatus and machine that encodes the RFID tags which inserts the wanted data into the RFID tag; apparatus and machine that encodes the RFID tags; vending machines, and structural parts and fittings therefor; food and non-food dispensing and vending machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Computer education training services; Staff training services relating to the retail trade; Training services relating to the use of information technology; Training services concerned with the use of computer software; Training services relating to computer software; Training services relating to vending machines, unmanned stores, micro-market, electronic apparatus, smart refrigerator, smart and intelligent cabinet, apparatus and machine that encodes rfid tags; Training services related to business; Education and training services, namely, conducting seminars, conferences, workshops, in the field of food industry and vending machines

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Wholesale and retail store services featuring automatic distribution machines, automatic vending machines, unmanned stores, micro-markets, smart refrigerators and smart and intelligent cabinets, rfid-operated vending machines, apparatus and machines for affixing labels, mobile and stationary labeling and packaging machines, devices for labelling goods; Advertising services; Marketing the goods and services of others, and providing commercial information on the internet; Advertising the goods and services of others on vending machines, smart refrigerator, smart and intelligent cabinets and rfid-operated vending machines; Data processing services; Collection of food industry data for business purposes; Market research data collection services; Collection and systematization of business data; Data processing, namely, the collection of data for business purposes for others; Analysis of business information for business purposes for others; Analysis of business management systems for business purposes for others; Analysis of business statistics for business purposes for others; Business analysis; Advisory services relating to business analysis; Consultancy relating to business analysis; Business analysis, research and information services; Administration of the business affairs of retail stores of others; Retail store services featuring food; Retail store services featuring computer software; Advertising, business management and business administration services, all relating to retail services; Advertising, business management and business administration services, all relating to vending machines, unmanned store and micro-market; Unmanned retail store services featuring food; Unmanned store services featuring drinks; Advertising, business management and business administration services, all relating to automatic vending machines; Inventory management and inventorying merchandise; Consultancy and advisory services, all relating to the organization or management of commercial, business and industrial undertakings; Market research; Advertising, business management and business administration services, all relating to smart refrigerator and smart and intelligent cabinets; Wholesale and retail store services featuring computer software; Rental of vending machines; Rental of rfid -operated vending machines; Leasing of vending machines; Leasing of rfid -operated vending machines

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Installation, repair and maintenance services for vending machines, unmanned stores, micro-markets, electronic apparatus, smart refrigerators, smart and intelligent cabinets; Providing information relating to the repair or maintenance of vending machines, unmanned stores, micro-market, electronic apparatus, smart refrigerator, smart and intelligent cabinet and apparatus and machine that prints, encodes and applies the RFID tags

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Cashless payment apparatus for vending machines; Downloadable retail inventory management and chat-bot software; Downloadable computer operating system software; downloadable interactive software for use in database management; downloadable computer programs for purchasing food; downloadable computer software platforms for managing product inventory; Downloadable computer software platforms for database management; Downloadable computer software development tools; Downloadable communication software; downloadable software to access sales data; data storage media, namely, machine-readable blank magnetic discs, tapes, and optical media; Apparatus for the transmission of data; Electronic data loggers; Downloadable computer software for remote inventory monitoring and inventory analysis; Downloadable software for the analysis of business data; Downloadable cloud network monitoring software; Cloud servers, namely, servers for web hosting; Downloadable cloud computing software for retail inventory management and chat-bot; Downloadable computer applications for automated retail, unmanned stores and micro-markets; Downloadable software for automated retail, unmanned stores and micro-markets; Downloadable inventory software; Downloadable software for controlling labelers, inscription machines and packaging machines and for programming of rfid tags; Downloadable software for designing and creating labels; RFID tags; transponders; Document printers; Bar code printers; Bar code lasers, namely, bar code scanners; Mobile and stationary readers for bar codes and rfid tags; Labels with integrated rfid tags; radio frequency identification tags (rfid tags); radio frequency identification readers (rfid readers); Downloadable computer software for scanning or reading a code, namely, for reading ultra-high frequency rfid code and other rfid codes via computers and mobile devices; Point of sale (PoS) systems, namely, point-of-sale terminal for making contactless payments; downloadable application software for centralized product catalog management, advertisement management with images, prices, centralized discount, downloadable application software for mobile phones for setting product discounts, managing expiry dates of the products, managing payments and customer feedback, checking inventory, providing advanced analytics and reports, operating and troubleshooting devices remotely; Downloadable mobile application software that enables secure user authentication, recording of replenishment transactions, and reporting of cabinet inventory data; Machine readable devices, namely, encoded key cards and magnetically encoded credit cards all for use with monetary transactions, access control, payment transactions ; Machine readable devices, namely, ATM machines, electronic door locks, blank magnetic data carriers, all for use with monetary transactions, access control, and payment transactions; apparatus and instruments, all for the storage, handling, processing, retrieval and transmission of data; apparatus and instruments, all for converting digital values into graphic information, namely, digital to analogue converters, computer hardware, and recorded computer software for converting digital values into graphic information sold as a unit; visual display units and printers, namely photo printers, dot matrix printers, bar code printers, inkjet printers, laser document printers, for use with the aforesaid apparatus; Laser coding devices; laser devices to attach labels on goods; Radio frequency identification (rfid) system composed primarily of rfid readers and rfid tags for reading and identifying inventory using low frequency (rf) rfid, high frequency (rf) rfid and ultra-high frequency (uhf) rfid

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Providing access to content, websites and portals, namely, providing internet access; Providing access to platforms and portals on the internet, namely, providing internet access; Providing user access to portals on the internet, namely, providing internet access; Provision of access to an electronic marketplace on computer networks, namely, providing internet access; Provision of access to content, websites and portals, namely, providing internet access

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Rental of smart refrigerator, smart and intelligent cabinets; Leasing of smart refrigerator, smart and intelligent cabinets

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Web site hosting for others, web site development for others, database development, development and maintenance of web servers, repair of computer software systems; software development; website hosting services and software as a service (SAAS) services featuring software for managing product inventory; installation of computer software; software creation; computer software research; computer software design; data warehousing; providing information about the design and development of computer software, systems and networks; providing information, advice and consultancy services in the field of computer software; providing information in the field of computer software development; provision of on-line support services, namely, help desk services for computer program users; design and development of testing and analysis methods; computer system analysis; technical data analysis services, namely, computer security threat analysis for protecting data; product quality testing of electronic apparatus; computer software design, development and programming services; consultation services relating to the design and development of computer hardware; consultation services relating to computer software; computer programming and computer design services relating to vending machines and unmanned store; computer programming and computer design services relating to smart refrigerator and smart and intelligent cabinets; cloud-based web portal services, namely, website designing or hosting that enables the users to open and lock the vending machines, smart refrigerator, smart/intelligent cabinet; providing a cloud-based web portal service featuring on-line non-downloadable software that enables the users to receive immediate inventory, sales transaction and technical data directly from vending machines, smart refrigerator, and smart and intelligent cabinets; Providing cloud platform as a service [PaaS] and software as a service [SaaS] services featuring software platforms and software that enables the users to access all the data relating to their vending machines, smart refrigerators, smart and intelligent cabinets and RFID-operated vending machines; platform as a service [PaaS] featuring computer software platforms for accessing all the data relating to vending machines, smart refrigerator, smart and intelligent cabinets and RFID-operated vending machines; platform as a service [PaaS] featuring software platforms for transmission of images, audio-visual content, video content and messages; providing online non-downloadable web-based software that enables users to manage their automatic vending machines and their unmanned online retail store; providing an online non-downloadable computer software platform that enables users to manage their automatic vending machines and their unmanned online retail store; providing online non-downloadable web-based software that connects users with payment solutions; providing an online computer software platform for connecting users with payment solution

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

RELATED PROPERTIES INFORMATION

International Registration 1626886 **International Registration Date** May 31, 2021

GOODS AND SERVICES INFORMATION

For Watch bands and straps; cases being parts of watches with the lugs to form a watch bracelet; watch glasses; watches; clocks; parts and accessories of clocks and watches, namely, movements for clocks and watches, watch bands, watch dials, clock dials and watch hands; unwrought and semi-wrought precious stones and their imitations; jewelry watches; personal ornaments, other than cuff links, in the nature of jewellery and parts and fittings therefor

International Classes 14 - Primary Classes **US Classes** 2, 27, 28, 50 **International Class Title** Jewelry

For Dental materials, namely, dental porcelain materials, dental impression materials, dental composite materials, materials for dental fillings, materials for dental sealing purposes; materials for artificial teeth; material for dental prostheses; dental porcelain materials; porcelain for dental prostheses; dental ceramics

International Classes 5 - Primary Classes **US Classes** 5, 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Catheters; probes for medical purposes namely for gastroscopes and other medical endoscopes; gastroscopes; medical endoscopes; ruby tip being part of surgical scalpels; knives for surgical purposes; infusion pumps for medical purpose; fundus cameras for medical purposes; dental apparatus and instruments namely, surgical apparatus and instruments for dental use; apparatus for blood analysis for medical purposes; optical apparatus and instruments utilizing prism, for medical purposes, namely, optometric instruments for locating the optical center of ophthalmic lenses; surgical and other medical manipulators, namely, medical apparatus and instruments for use in surgery; parts and accessories for medical apparatus and instruments, namely, medical guidewires and parts and fittings therefor; medical apparatus and instruments, namely, medical apparatus and instruments for use in surgery; knives for medical use; knives for ophthalmological use; knives for eye incision; scalpels; electric scalpels for surgical purposes

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Eccentric weight for vibration motor being parts of motors; vibration motors, other than for land vehicles; coreless motors, other than for land vehicles; piezoelectric motors, other than for land vehicles; emergency power generators; starters for motors and engines; AC motors and DC motors and structural parts therefor, not including those for land vehicles; AC generators, namely, alternators; DC generators; control device for internal combustion engine or prime mover excluding those for land vehicles, namely, hydraulic controls for machines, motors, and engines; gear boxes, other than for land vehicles; reduction gears, other than for land vehicles; reduction gears being parts of machines; power transmissions and gearing for machines, not for land vehicles; machine elements, not for land vehicles, namely, ball transfer table units, shock prevention devices for machines, clutches for machines; motors for gastroscopes and other medical endoscopes; motors for catheters; motor for surgical scalpel; motors for infusion pumps and other medical pumps; motors for fundus camera; motors for dental apparatus and instruments; motors for apparatus for blood analysis for medical purposes; motors for medical manipulators; motors for medical apparatus and instruments; motors for measuring machines and instruments; motors for manipulators; pump diaphragm; plunger pumps; electric pumps, not for specified purposes; motors for metal processing, painting, and other industrial robots; industrial robots and manipulators being parts of industrial robots and their structural parts; spinner being parts of twisting machine; gem bearings as parts of machines; machine parts, namely, bearings; machine elements not for land vehicles, namely, bearings as parts of machines; shafts, axles or spindles, machine elements other than for land vehicles, namely, cam shafts, transmission shafts other than for land vehicles, axles for machines, spindles being parts of machines; shafts, couplings or connectors, machine elements not for land vehicle, namely, cam shafts, couplings for machines, connecting rods for machines; metalworking machines and structural parts therefor; machines for making textile articles and structural parts therefor; printing or bookbinding machines and structural parts; plastic processing machines and structural parts; semiconductor manufacturing machines and structural parts; heat sinks for use in electronic machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Magnetic encoders; magnets; manometers; pressure gauges; weights for use in weighing scales; fluid transfer apparatus being diaphragm pumps or plunger pumps being parts of measuring or testing machines and instruments in the nature of pressure measuring apparatus, temperature measuring machines, position measuring machines, integrated circuit testing machines; vibration speakers for measuring or testing machines and instruments; container being sapphire tubes for measuring or testing machines and instruments, namely, glass tubes for scientific purposes; probes for scientific purposes; measuring or testing machines and instruments and parts and fittings therefor, namely, pressure measuring apparatus, scientific instrumentation for measuring weight, temperature measuring machines, position measuring machines, integrated circuit testing machines; cell manipulation manipulators and other experimental manipulators and parts and accessories therefor, namely, hand-operated laboratory tools for manipulating laboratory samples; manipulator for electron microscope and structural parts therefor; optical glass; electromagnetic switches, namely, solenoid valves; sapphire substrate semiconductor wafers; LED sapphire substrate semiconductor wafers; sapphire substrate semiconductor wafers, diodes and semiconductor chips for optoelectronic devices; gallium nitride substrate semiconductor wafers; gallium nitride substrate semiconductor wafers for LED; gallium nitride substrate semiconductor wafers, diodes and semiconductor chips for optoelectronic devices; diamond substrate semiconductor wafers; diamond substrate semiconductor wafers for LED; diamond substrate semiconductor wafers for optoelectronic devices; semi-conductor wafers; wafers for integrated circuits; vibration device for mobile phones,

smartphones, portable media players or personal digital assistants; electronic machines, apparatus and their parts, namely, laboratory robots and structural parts therefor; sapphire heat sink for use in LCD projectors; heat sinks for use in semiconductors, heat sinks for use in electronic components; heat sinks for use in computers; heat sinks for electronic components; sapphire board for display of mobile phones, smartphones, portable media players or personal digital assistants, namely, computer display screens; metal glass protective casing for mobile phones, smartphones, portable media players or personal digital assistants; ceramic protective casing for mobile phones, smartphones, portable media players or personal digital assistants; prisms for microscopes; optical instruments and apparatus and parts and fittings therefor, namely, optical condensers, optical filters, optical scanners, optical sensors, optical readers, optical couplers, optical receivers, optical inspection apparatus; optical cables; electric wires and cables; power distribution instruments and apparatus or control instruments and apparatus, and parts and accessories therefor, namely, electrical power distribution units, power distributing boxes; measuring device and its parts and accessories, namely, pressure measuring apparatus, scientific instrumentation for measuring weight, electronic devices for measuring electric current, distance measuring apparatus, length measuring systems; measuring equipment using optical interference tomography excluding medical equipment, namely, pressure measuring apparatus, scientific instrumentation for measuring weight, distance measuring apparatus, length measuring apparatus, surface roughness measuring apparatus; measuring probe of measuring device excluding medical one using optical interference tomography, namely, pressure measuring apparatus, scientific instrumentation for measuring weight, distance measuring apparatus, length measuring apparatus, surface roughness measuring apparatus; endoscopic equipment for industrial purposes; roundness measuring machine; surface roughness measuring machine; apparatus for processing images; data processing apparatus; photographic equipment and parts and fittings therefor, namely, photographic cameras, photographic transparencies, photography filters; photographic equipment and parts and fittings therefor, namely, photographic cameras, photographic transparencies, photography filters; cinematographic apparatus and parts and fittings therefor, namely, cinematographic cameras, cinematographic machines and apparatus; fiber optic electric current sensor; apparatus for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, electrical conductors, electric switches, electric transformers, electric accumulators, voltage regulators for electric power, electric cables; electric or magnetic meters and testers, namely, electric meters, flow meters, electrical outlet tester; voltmeter; fiber optic connector; ferrule being parts of fiber optic connection; junction sleeves for electric cables; telecommunication machines and apparatus, namely, telephones; parts and accessories for telecommunication machines and apparatus, namely, electric capacitors for telecommunication apparatus, telecommunication cables; optical communication machinery and equipment and parts and accessories therefor, namely, optical cables, optical data links; LCDs, namely, liquid crystal displays; Downloadable and recorded computer software for database management and word processing; magnets for clocks and watches

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Crystal substrates for insulation purposes and other electrical insulators, namely, insulating fabrics, glass fibers for insulation; acoustic baffles for soundproofing purposes

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

International Registration 1627352 **International Registration Date** Jun. 08, 2021

GOODS AND SERVICES INFORMATION

For Booths, not of metal, enabling painting, in enclosed spaces; workshops being non-metal paint spray booths for the painting and printing of materials

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For Industrial materials and equipment for painting, coating and varnishing workshops, namely, pneumatic spray nozzles, booms and guns, all being machines parts for paint application and printing, and pneumatic nozzles, booms and guns being machines parts for paint application and printing; machines and machine tools for printing on sheet metal; industrial printing machines and machine tools for industrial use in the nature of print heads; machines and machine tools for printing paint, glue, sealant, viscous products, for industrial use; sprayers being machines for liquid products, namely, automatic or electric guns for applying paint and varnish, to materials; sprayers being machines for liquid products, namely, automatic or electric guns for use in printing on materials; automatic jet sprayers for liquid products; paint spray guns, namely, guns and pumps being machines for applying and printing paints and varnishes; automatic spray guns being parts of machines for applying and printing paints and varnishes, on materials; spray guns being parts of hand-held machines operated otherwise than hand-operated for applying and printing paints and varnishes; pumps being parts of machines for sprayers being machines for applying and printing paint and varnishes; sprayers being machines for applying and printing paint and varnishes; dispensers being painting machines for liquid products; pneumatic tools for painting and coating, namely, pneumatic nozzles, booms, lances and guns, all being machines parts; painting workshop booth machine tools for pneumatic, hydraulic projection or electrostatic application of paint and varnishes; power-operated hand-held tools, other than hand-operated, namely, spray nozzles, spray guns, spray lances, nozzles being parts of spraying machines for use in application of liquid products; booms being machine parts of spraying machines for applying and printing paint and varnishes; Power-operated spray booms being

parts of spraying machines; power-operated spray lances being parts of spraying machines; down sprayers, namely, down-blast vertical spray booms being machine parts for spraying liquids; filters for spray nozzles being parts of machines or motors; cartridges, unfilled, for filtering machines; cartridges, unfilled, for machines for filtering air, gas, dust; filtering machines for painting processing; filters as parts of machines, motors or engines; pneumatic control devices for machines or motors for sprayers, guns, for applying and printing paint, varnishes; pneumatic control devices for systems for filtering air, gas, dust; robots being machines, namely, robots for painting; industrial robots, namely, robots being machines for use in application and printing; automation apparatus being machines for industrial application and printing; sorting apparatus and equipment, namely, sorters being parts of machines enabling automated selection of paints, and selection of varnishes applied by industrial spraying machines for surface coating; Machine parts, namely, product changing units being parts of machines for industrial painting or flocking equipment; electronic distributing tanks for liquids being industrial water tanks of metal for storing, paint and varnishes

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Downloadable computer software applications for use with machines for painting, varnishing, on all materials; downloadable computer software applications for use with machines for spraying paint, varnish, on all materials; downloadable computer software applications for use with machines for the application of paint, varnish, on all materials; downloadable computer programs for controlling machines for industrial use; downloadable computer programs for controlling printing machines for industrial use; downloadable software for controlling machines for industrial use; downloadable software for controlling printing machines for industrial use

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Hand-operated air-blast sprayers for painting and printing industry; hand-operated implements, namely, spraying machines for liquid products for painting and printing industry; hand-operated applicators or sprayers for liquid products for painting and printing industry; hand-operated, manual guns for applying and printing liquid products; hand operated lances for hand-held sprayers for liquid products; hand operated lances for hand-operated hand-held sprayers for applying and printing paints and varnishes; hand-operated, manual guns for applying and printing paint and varnish; hand-operated hand-held spray guns for liquid products; hand-operated hand tools and implements for treating surfaces before painting, varnishing, namely, manual electrostatic guns; hand tools, namely, non-electric polishers for metal, wood, ceramics and plastics

International Classes 8 - Primary Classes **US Classes** 23, 28, 44 **International Class Title** Hand Tools

For Design and development of software for process control; design, development, maintenance and updating of process control software; development of software control programs for the automated performance of measurements, adjustments and distribution of paint-printing machines; development of software for use with programmable control devices for paint-printing machines; installation of computer software for use in paint-printing machines; installation of computer programs for use in paint-printing machines; installation and maintenance of software for use in paint-printing machines; installation and maintenance of computer programs for use in paint-printing machines; rental of software for use in paint-printing machines; rental of measuring apparatus; rental of application software for painting and printing; rental of computer programs for use in paint-printing machines

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Computer hardware for data processing; equipment for data processing and computers; recorded software for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne, and wine; recorded software for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; computer peripheral devices; detectors, namely, detectors for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne and wine; detectors, namely, detectors for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; blank integrated circuit cards; computer hardware for downloading software and software updates; downloadable software for database management in the fields of winemaking, viticulture and distillation; downloadable software intended for support systems in the fields of winemaking, viticulture and distillation, namely, software for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne and wine; downloadable software intended for support systems in the fields of winemaking, viticulture and distillation, namely, software for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; downloadable software for collecting, tracking and reporting data in the fields of winemaking, viticulture and distillation; downloadable software for searching data in the fields of winemaking, viticulture and distillation; downloadable software for automating data archiving in the fields of winemaking, viticulture and distillation; downloadable software for creating databases of information in the fields of winemaking, viticulture and distillation; downloadable software for use as an application programming interfance (API) in the fields of winemaking, viticulture and

distillation; downloadable computer programs in the fields of winemaking, viticulture and distillation for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne and wine; downloadable computer programs in the fields of winemaking, viticulture and distillation for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; downloadable application software for portable telephones in the fields of winemaking, viticulture and distillation for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne and wine; downloadable application software for portable telephones in the fields of winemaking, viticulture and distillation for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; downloadable computer software applications for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne and wine; downloadable computer software applications for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; downloadable database management software in the fields of winemaking, viticulture and distillation; system for recovering certain winemaking data stored on a badge or other apparatus such as a telephone, portable telephone, pocket computer, electronic agenda consisting of computer hardware, telecommunication devices, and portable telephones; downloadable software for use in winemaking, viticulture and distillation, namely, software for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne and wine; downloadable software for use in winemaking, viticulture and distillation, namely, software for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; downloadable software for use in making alcoholic beverages, namely, software for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne and wine; downloadable software for use in making alcoholic beverages, namely, software for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; downloadable computer application software for use in winemaking, viticulture and distillation, namely, software for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne and wine; downloadable computer application software for use in winemaking, viticulture and distillation, namely, software for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; downloadable computer application software for making alcoholic beverages, namely, software for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne and wine; downloadable computer application software for making alcoholic beverages, namely, software for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; scientific, optical, weighing, measuring, signalling, checking in the nature of supervision and teaching apparatus and instruments, namely, scientific instruments for measuring, verifying and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement

of dissolved oxygen in breeding, and organoleptic characteristics of spirits and wine; scientific instrumentation for measuring, verifying and inspecting the temperature, pressure, quantity and concentration of gas and liquids; apparatus for measuring temperature and humidity in gases and solid substances; laser measuring systems; technical measuring, testing and checking apparatus and instruments for measuring, testing and verifying the temperature, pressure, quantity and concentration of gas and liquids; inspecting apparatus, namely inspection machines for physical inspection of liquids, spirits and wine; recorded software for making spirits and wine, namely, software for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne and wine; recorded software for making spirits and wine, namely, software for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; downloadable decision-making support software for managing vines and facilitating the production of spirits and wine; all the aforementioned goods are exclusively in the field of winemaking, viticulture and distillation

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Design and development of computers and software; computer system analysis; computer system design; quality control for others; computer software development and design; software as a service (SaaS) services featuring software for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne, and wine; software as a service (SAAS) services featuring software for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; computer programming for others; design and development of computer systems and information technology infrastructures for winemaking, viticulture and distillation; design, development, setting up, technical monitoring, updating and correction of computer systems and infrastructures for making alcoholic beverages; design and development of computer systems and information technology infrastructures for making alcoholic beverages; technological consulting services, namely, setting up, technical monitoring, updating and correction of computer systems and information technology infrastructures for making alcoholic beverages; technical advisory services in relation to technical research in the field of making alcoholic beverages; all the aforementioned services are exclusively in the field of winemaking, viticulture and distillation

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 2 - AN ILLUSTRATION DRAWING WITHOUT ANY WORDS(S)/ LETTER(S) **Description of the Mark** The mark consists of two parallel oblong shapes, each shape having one rounded end and one end curving to a point. The shape on the left is blue and the shape on the right is teal. **Color Drawing** Yes **Color Claimed** The color(s) blue and teal is/are claimed as a feature of the mark.

RELATED PROPERTIES INFORMATION

International Registration 1632758 **International Registration Date** May 28, 2021

GOODS AND SERVICES INFORMATION

For Consultancy, advice, information, maintenance, repair, replacement, and installation of parts for vehicles, machines, and engines; provision of information relating to the repair or maintenance of construction machines and apparatus; provision of information relating to the repair or maintenance of machines and tools; information services in the nature of gathering, processing, analysing and providing information relating to the maintenance of engines; consultancy services relating to repair and maintenance of vehicles, machines and machinery; the provision of information concerning the operational status of motor vehicles, namely, the provision of information concerning the level of performance and warnings concerning faults associated with the motor vehicle, and the provision of information concerning maintenance schedules; fleet management services in the nature of maintenance of fleet vehicles; aftersales services consisting of consultancy of the provision of installation, maintenance, cleaning, repair, restoration, up-grade, and vehicle servicing as provided in the automotive and fleet management and fleet leasing industries; vehicle maintenance; fleet management services in the nature of maintenance and supervision of fleet vehicles; information and advisory services relating to the aforesaid

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Downloadable software, namely, application software in the nature of mobile applications for use in collating and managing data on vehicles and machinery; downloadable software, namely, application software for fleet inspection and compliance; downloadable computer software for tracking driver behavior; downloadable computer software for computer system and application development, deployment and management; downloadable computer software for database management; downloadable computer software for the analysis of defects, and for use in controlling machines and machinery; downloadable software, namely, application software for motor vehicle inspection, motor vehicle inspection reporting and analysis, for the analysis of defects, and for use in controlling construction, road engineering, mining, waste management and transportation machines and machinery and trailers; Downloadable computer software for motor vehicle inspection, motor vehicle inspection reporting and analysis, the analysis of defects, and for use in controlling construction, road engineering, mining, waste management and transportation machines and machinery and trailers; downloadable computer software for the monitoring, detecting, measuring and analysis of tyre quality and engine performance; electronic devices for land vehicles for monitoring tyre quality and safety compliance, for vehicle fleet management; computer systems in the nature of computer hardware and downloadable programs for project management; Downloadable software applications for collating and managing data on vehicles, vehicle parts and machinery, controlling machines and machinery, and motor vehicle and machinery inspection and maintenance, all in relation to management and maintenance of mobile and fleet assets, namely, trucks, lifts, cranes, machinery, conveyors, forklifts, vehicles, power tools, boats, aircraft, trains and related equipment and tools; downloadable software for analyzing and measuring the performance, condition, cost, risk and efficiency of mobile and fleet assets, including trucks, lifts, cranes, machinery, conveyors, forklifts, vehicles, power tools, boats, aircraft, trains and related equipment and tools; computer systems for computer hardware, downloadable software applications and downloadable programs for project management; downloadable software in the nature of a mobile application for tracking and monitoring in the field of vehicle fleet management; downloadable software for site inspection; downloadable software in the nature of a mobile application for uploading, transferring, downloading, storing, synchronizing, editing, and sharing data, documents, files, information, text, photos, images, and graphics with others via email, mobile telephones, and other communications for the purpose of vehicle transfer and vehicle records management in connection therewith; downloadable computer software for operating and managing vehicle fleets, namely, assessing safety, compliance, costs and profitability

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Providing online non-downloadable software for fleet management, work order management, vehicle and machine servicing scheduling; providing online non-downloadable software for tracking maintenance history, creating work orders, sending maintenance reminders, notifying faults, capturing mileage, capturing usage, storing reports, producing customized reports for vehicle fleets, machines and machinery; provision of online non-downloadable software for receiving third party fault notifications, and managing the repair process; providing online non-downloadable software for diagnosing vehicle faults and required maintenance; software as a service (SAAS) services featuring software for aggregation of data for engine diagnostics; providing online non-downloadable computer software for the analysis of defects, faults, and repairs for vehicles, machines and machinery; providing online non-downloadable software for uploading, transferring, downloading, storing, synchronizing, editing, and sharing data, documents, files, information, text, photos, images, and graphics with others via email, mobile telephones, and other communications for the purpose of vehicle transfer and vehicle records management in connection therewith; software as a service (SAAS) services featuring online non-downloadable application software for motor

vehicle inspection, motor vehicle inspection reporting and analysis, for the analysis of defects, and for use in controlling construction, road engineering, mining, waste management and transportation machines and machinery and trailers; providing online non-downloadable computer software for motor vehicle inspection, motor vehicle inspection reporting and analysis, the analysis of defects, and for use in controlling construction, road engineering, mining, waste management and transportation machines and machinery and trailers; provision of online non-downloadable application software, application service provider, for fleet inspection, management, compliance, fault management document storage, reporting, and auditing; provision of online non-downloadable application software, application service provider, for proofs of service in the form of before and after photos of jobs completed; computer software design for fleet inspection, management, compliance, fault management document storage, reporting, and auditing; design and development of software for evaluation and calculation of data; reconstruction of database systems for others; provision of online non-downloadable software and consultancy relating to scheduling and managing safety testing of vehicles and machinery and compliance; inspection of goods in the nature of construction tools and equipment, vehicles, vehicle parts, machines, machine parts and machinery and building sites for quality control; provision of software as a service for computerized maintenance management designed to help schedule, plan, manage, and track maintenance activities associated with equipment, vehicles, or facilities; consulting services in the field of implementation of software as a service in the field of maintenance and vehicle compliance management; software as a service (SAAS) services, namely, software for tracking and reporting performance and maintenance of vehicles, machinery, constructions tools and equipment and their parts, managing health and safety and regulatory compliance and quality control, and automatic scheduling of maintenance checks, in relation to management and maintenance of mobile and fleet assets, namely, trucks, lifts, cranes, machinery, conveyors, forklifts, vehicles, power tools, boats, aircraft, trains and related equipment and tools; software as a service (SAAS) services, namely, software for analyzing and measuring the performance, condition, cost, risk and efficiency of mobile and fleet assets, namely, trucks, lifts, cranes, machinery, conveyors, forklifts, vehicles, power tools, boats, aircraft, trains and related equipment and tools; computer systems and programs design for project management; application service provider (ASP) services, cloud computing services, software as a service, online provision of non-downloadable web-based applications and software, all of the aforesaid featuring software for data gathering, processing and reporting relating to tracking and monitoring of vehicle performance and maintenance; on-line provision of web-based non-downloadable software for fleet management; asset monitoring services being product monitoring services and vehicle condition monitoring for quality control purposes; inspection of vehicles for roadworthiness; providing temporary use of online non-downloadable software for analyzing technical data and providing reports on vehicle via the Internet or any other communications network; providing online non-downloadable software for site inspection; testing, control, diagnosis, calibration, and monitoring of vehicles, equipment, and machinery via computer networks; providing online non-downloadable computer software for operating and managing vehicle fleets, namely, assessing safety, compliance, costs and profitability; maintenance and updating of the aforesaid computer software; information and advisory services relating to the aforesaid

International Registration 1655979 **International Registration Date** Nov. 26, 2021

GOODS AND SERVICES INFORMATION

For Computer hardware for data processing; equipment for data processing and computers; recorded software for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne, and wine; recorded software for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; computer peripheral devices; detectors, namely, detectors for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne and wine; detectors, namely, detectors for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; blank integrated circuit cards; computer hardware for downloading software and software updates; downloadable software for database management in the fields of winemaking, viticulture and distillation; downloadable software intended for support systems in the fields of winemaking, viticulture and distillation, namely, software for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne and wine; downloadable software intended for support systems in the fields of winemaking, viticulture and distillation, namely, software for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; downloadable software for collecting, tracking and reporting data in the fields of winemaking, viticulture and distillation; downloadable software for searching data in the fields of winemaking, viticulture and

distillation; downloadable software for automating data archiving in the fields of winemaking, viticulture and distillation; downloadable software for creating databases of information in the fields of winemaking, viticulture and distillation; downloadable software for use as an application programming interfance (API) in the fields of winemaking, viticulture and distillation; downloadable computer programs in the fields of winemaking, viticulture and distillation for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne and wine; downloadable computer programs in the fields of winemaking, viticulture and distillation for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; downloadable application software for portable telephones in the fields of winemaking, viticulture and distillation for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne and wine; downloadable application software for portable telephones in the fields of winemaking, viticulture and distillation for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; downloadable computer software applications for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne and wine; downloadable computer software applications for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; downloadable database management software in the fields of winemaking, viticulture and distillation; system for recovering certain winemaking data stored on a badge or other apparatus such as a telephone, portable telephone, pocket computer, electronic agenda consisting of computer hardware, telecommunication devices, and portable telephones; downloadable software for use in winemaking, viticulture and distillation, namely, software for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne and wine; downloadable software for use in winemaking, viticulture and distillation, namely, software for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; downloadable software for use in making alcoholic beverages, namely, software for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne and wine; downloadable software for use in making alcoholic beverages, namely, software for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; downloadable computer application software for use in winemaking, viticulture and distillation, namely, software for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne and wine; downloadable computer application software for use in winemaking, viticulture and distillation, namely, software for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; downloadable computer application software for making alcoholic beverages, namely, software for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne and wine; downloadable computer application software for making alcoholic

beverages, namely, software for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; scientific, optical, weighing, measuring, signalling, checking in the nature of supervision and teaching apparatus and instruments, namely, scientific instruments for measuring, verifying and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits and wine; scientific instrumentation for measuring, verifying and inspecting the temperature, pressure, quantity and concentration of gas and liquids; apparatus for measuring temperature and humidity in gases and solid substances; laser measuring systems; technical measuring, testing and checking apparatus and instruments for measuring, testing and verifying the temperature, pressure, quantity and concentration of gas and liquids; inspecting apparatus, namely inspection machines for physical inspection of liquids, spirits and wine; recorded software for making spirits and wine, namely, software for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne and wine; recorded software for making spirits and wine, namely, software for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; downloadable decision-making support software for managing vines and facilitating the production of spirits and wine; all the aforementioned goods are exclusively in the field of winemaking, viticulture and distillation

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Design and development of computers and software; computer system analysis; computer system design; quality control for others; computer software development and design; software as a service (SaaS) services featuring software for measuring, checking, and inspecting the composition, physical characteristics, specific gravity/brix, presence of micro-organisms including yeasts and brett, sugar loading data, measurement of dissolved oxygen in breeding, and organoleptic characteristics of spirits, champagne, and wine; software as a service (SAAS) services featuring software for measuring, checking, and inspecting the temperature, pressure, quantity and concentration of gas and liquids; computer programming for others; design and development of computer systems and information technology infrastructures for winemaking, viticulture and distillation; design, development, setting up, technical monitoring, updating and correction of computer systems and infrastructures for making alcoholic beverages; design and development of computer systems and information technology infrastructures for making alcoholic beverages; technological consulting services, namely, setting up, technical monitoring, updating and correction of computer systems and information technology infrastructures for making alcoholic beverages; technical advisory services in relation to technical research in the field of making alcoholic beverages; all the aforementioned services are exclusively in the field of winemaking, viticulture and distillation

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

BASIS INFORMATION

Currently 66A Yes

OWNER INFORMATION

Owner Name VIVELYS **Address** VIVELYS Domaine du Chapitre Villeneuve-lès-Maguelone F-34750 FRANCE

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 2 - AN ILLUSTRATION DRAWING WITHOUT ANY WORDS(S)/ LETTER(S) **Description of the Mark** The mark consists of a generally triangular-shaped white band featuring thin blue lines that follow the shape of the band and that transition to thin green lines where the band curves. **Color Drawing** Yes **Color Claimed** The colors blue, green and white are claimed as a feature of the mark.

RELATED PROPERTIES INFORMATION

International Registration 1660854 **International Registration Date** Oct. 08, 2021

GOODS AND SERVICES INFORMATION

For Machines and machine tools for treatment of materials and for manufacturing, namely, cutting and forming machines; mechanical controls for motors and machines, namely, hydraulic and pneumatic controls for motors and machines; industrial robots; sweeping, cleaning and washing machines, namely, compressor cleaning machines and pressure washing machines; control devices for machines or motors, namely, hydraulic and pneumatic controls for motors and machines; mechanical equipment for agriculture, ground works, construction, oil and gas extraction and mining work, namely, tilling machines for use in agriculture, excavators, power-operated drills, high-pressure pumps for use in gas well hydraulic fracturing operations, oil-well pumping machines, mining machines; moving and transport equipment, namely, chain conveyors and belt conveyors; drives for conveyors; pumps, compressors and blowers, namely, electric pumps, electric compressors, power-operated blowers; adapters for machine tools, namely, machine tool holders; mechanical control apparatus, namely, hydraulic and pneumatic controls for motors and machines; electric generators; dispensing machines, namely, machines for dispensing packing material; machines for processing plastics and plastic waste; recycling machines and installations for plastics, namely, machines for processing plastics for recycling; machines for the recycling treatment of plastics and for treating waste, in particular plastic waste, biomasses or household waste, namely, machines for processing plastics for recycling, waste crushing machines, waste compacting machines, and waste separator machines; cutting, comminuting, compacting and homogenizing machines for industrial use for plastic materials, plastic foils, plastic bottles and plastic waste; machines for plasticizing plastics; machines for agglomerating plastics; machines for comminuting plastics; machines for granulating plastics; machines for filtering plastic melts; plastic processing machines, namely, machines and installations for the solid phase polycondensation of plastics;

extrusion machines for plastic; intrusion machines for plastic; extrusion machines for plastics, namely, extruders for plastics and parts therefor, namely, extruder screws, plastic melt filters, filtering devices for plastic melts, backwashing filters, screen filters, screen changers, screens and filters for extruders; electric degassing pumps

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Conducting classes and training courses in the field of manufacture, installation, operation, repair and maintenance of machines and devices for processing plastics and plastic waste and relating to the processing and reprocessing and recycling of plastics and plastic waste; education and schooling services, namely, arranging and conducting classes, seminars and workshops in the field of plastics, the recycling of plastics and machines for processing plastics

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Advertising, marketing and promotional services; business assistance, management and administration services; electronic order processing for others; online ordering services in the field of semi-processed plastics; advisory and consultancy services relating to the procurement of goods for third parties; negotiation and conclusion of commercial transactions for third parties via telecommunication systems; arranging commercial transactions for third parties via online shops; consultancy in sales techniques and sales programs; consultancy relating to calculating cost price analysis; administrative processing of purchase orders; computerized order acceptance, namely, computerized online ordering services in the field of semi-processed plastics and plastic processing machinery; administrative processing of purchase orders by telephone or computer; administrative processing of computerized purchase orders; computerized stock ordering services in the field of semi-processed plastics and plastic processing machinery; cost price analysis services; price comparison services; comparison shopping services; business analysis, research and information services; providing consumer information relating to goods and services; provision of an online marketplace for buyers and sellers of goods and services; retail store services and wholesale store services featuring machines and machine parts and used machines and machine parts, in particular machines for processing plastics and plastic waste; retail store services and wholesale store services featuring recycling machines and installations for plastics; retail store services and wholesale store services featuring used machines and machine parts, in particular machines for processing plastics and plastic waste; retail store services and wholesale store services featuring machines for the recycling treatment of plastics and for treating waste, in particular plastic waste, biomasses or household waste; retail store services and wholesale store services featuring cutting, comminuting, compacting and homogenizing devices for plastic materials, plastic foils, plastic bottles and plastic waste; retail store services and wholesale store services featuring machines for plasticizing plastics; retail store services and wholesale store services featuring machines for agglomerating plastics; retail store services and wholesale store services featuring machines for comminuting plastics; retail store services and wholesale store services featuring machines for granulating plastics; retail store services and wholesale store services featuring machines for filtering plastic melts; retail store services and wholesale store services featuring machines and installations for the heat treatment of plastics; retail store services and wholesale store services featuring machines and installations for the solid phase polycondensation of plastics; retail store services and wholesale store services featuring extrusion machines and installations; retail store services and wholesale store services featuring intrusion machines and installations; retail store services and wholesale store services featuring extruders for plastics; retail store services and wholesale store services featuring extruder screws; retail store services and wholesale store services featuring plastic melt filters; retail store services

and wholesale store services featuring filtering devices for plastic melts; retail store services and wholesale store services featuring backwashing filters; retail store services and wholesale store services featuring screen filters for plastic processing machines; retail store services and wholesale store services featuring screen changers being parts of plastic processing machines; retail store services and wholesale store services featuring screens and filters for extruders; retail store services and wholesale store services featuring degassing devices; retail store services and wholesale store services featuring degassing devices for extruders for plastic material

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Building construction and demolition; rental of tools, machines and equipment for building construction, demolition, cleaning and maintenance; installation, maintenance, repair, and cleaning of devices, machines and parts of machines for processing plastics and plastic waste and recycling machines and reprocessing machines for plastics; refurbishment, maintenance, cleaning, and repair of used machines and machine parts for processing, reprocessing and recycling plastics and plastic waste

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Security, safety, protection and signaling devices and equipment, namely, burglar alarms, security cameras, and motion sensors; optical devices and equipment, enhancers and correctors, namely, optical readers, optical scanners, optical filters, optical reflectors, and optical sensors; navigation, guidance, tracking, targeting and map making devices, namely, GPS navigation devices, GPS tracking devices, satellite receivers, and cameras; magnets, magnetizers and demagnetizers; automatic control devices, namely, electronic controllers for plastic processing machines and plastic recycling machines; information technology, audio-visual, multimedia and photographic devices, namely, computers, video cameras, computer and video monitors; scientific and laboratory devices for physical reactions via electricity, namely, electricity conduits; downloadable electronic data files in the field of plastics processing; automatic devices for control, namely, electronic controllers for plastic processing machines and plastic recycling machines and automatic valves; measuring, detecting and monitoring instruments, gadgets and controllers, namely, devices for measuring gas concentration, motion detectors, motion sensors, and automatic valves; automatic controlling devices, namely, automatic valves; apparatus, instruments and cables for electricity, namely, electric transformers, electric cables; computers; downloadable and recorded computer software for operating plastic processing machinery; recorded computer operating programs; recorded computer programs for operating plastic processing machines; data carriers, namely, computer memory devices and CD-ROMs containing recorded software and computer programs for operating plastic processing machines; computers and downloadable and recorded computer software for monitoring the functioning of plastic processing machines and installations; downloadable and recorded computer operating programs for use with plastic processing machines and installations; computers, recorded and downloadable computer software, and recorded and downloadable computer operating programs, all for surveillance, control, maintenance and quality assurance of plastic processing machines and installations; electric inspecting and control apparatus, namely, industrial automation controls and optical inspection apparatus, in particular for use with plastic processing machines and installations; electronic control apparatus and installations for the remote control of industrial operations; electronic controls for motors

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Rental of equipment for the treatment and transformation of materials for energy production and for custom manufacturing, namely, rental of plastics processing machines and rental of plastics recycling machines; rental of machines for processing plastics and plastic waste, recycling machines for plastics, machines for recycling treatment of plastics and for treating waste, in particular plastic waste, biomasses or household waste, cutting devices, comminuting devices, compacting devices and homogenizing devices for plastic materials, plastic foils, plastic bottles or plastic waste, machines for plasticizing plastics, machines for agglomerating plastics, machines for comminuting plastics, machines for granulating plastics, machines for filtering plastic melts, machines for the heat treatment of plastics, machines for the solid phase polycondensation of plastics, plastic extrusion machines, plastic intrusion machines, plastic processing machines in the nature of extruders for plastics, and parts therefor, namely, extruder screws, plastic melt filters, filtering devices for plastic melts, backwashing filters, screen filters, screen changers, screens and filters for extruders, degassing devices and degassing devices for extruders for plastic material

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Unprocessed and semi-processed rubber, gutta-percha, gum, asbestos, mica, and synthetic rubber; plastics and resins in extruded form for use in manufacturing processes; packing and insulating materials; flexible pipes, tubing and hoses, not of metal; plastic products, semi-finished, namely, plastic in the form of bars, blocks, pellets, rods, sheets and tubes for further manufacture for general industrial use; semi-finished synthetic resins; mineral fibers, namely, asbestos; semi-processed elastomer polymers for use in manufacture; polyester fibers, other than for textile use, namely, polyesters fibers for use as insulation; plastics, partially processed; plastic films, not for packaging, namely, plastic films for agricultural purposes and plastic films for packing and stuffing for industrial purposes; plastic fibers, not for textile use; reprocessed plastics being semi-processed plastics; reprocessed compound plastics being semi-processed plastics

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For IT programming services, namely, computer programming services; consultancy and research services in the field of information technology; design and development of computer hardware and software; testing of recyclable materials including plastic materials, machines for recycling material and associated software; quality control for others; design services, namely, design of material and recycling machines and associated software; scientific and technological services and research and design relating thereto, namely, testing of recyclable and plastic processing machines, scientific research, and design of software for others; industrial analyses and research services in the field of recyclable and plastic processing machines; all the aforementioned services in the field of plastic processing, reprocessing and recycling, in particular of plastics, in particular originating from production waste or household, commercial or industrial waste; engineering and technological consulting in the field of technology for reprocessing and recycling plastics and in the field of recycling synthetics and fibers; engineering and designing of machinery, equipment and equipment components in the field of plastic processing and plastic recycling; development of applications for optimizing treatment and recycling of production waste; research and development services relating to new plastic treatments and recycling machinery for third parties; technical project planning, namely, conducting scientific feasibility studies in the field of processing and recycling, in particular plastics

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

RELATED PROPERTIES INFORMATION

International Registration 1661797 **International Registration Date** Oct. 08, 2021

GOODS AND SERVICES INFORMATION

For Machines and machine tools for treatment of materials and for manufacturing, namely, cutting and forming machines; mechanical controls for motors and machines, namely, hydraulic and pneumatic controls for motors and machines; industrial robots; sweeping, cleaning and washing machines, namely, compressor cleaning machines and pressure washing machines; control devices for machines or motors, namely, hydraulic and pneumatic controls for motors and machines; mechanical equipment for agriculture, ground works, construction, oil and gas extraction and mining work, namely, tilling machines for use in agriculture, excavators, power-operated drills, high-pressure pumps for use in gas well hydraulic fracturing operations, oil-well pumping machines, mining machines; moving and transport equipment, namely, chain conveyors and belt conveyors; drives for conveyors; pumps, compressors and blowers, namely, electric pumps, electric compressors, power-operated blowers; adapters for machine tools, namely, machine tool holders; mechanical control apparatus, namely, hydraulic and pneumatic controls for motors and machines; electric generators; dispensing machines, namely, machines for dispensing packing material; machines for processing plastics and plastic waste; recycling machines and installations for plastics, namely, machines for processing plastics for recycling; machines for the recycling treatment of plastics and for treating waste, in particular plastic waste, biomasses or household waste, namely, machines for processing plastics for recycling, waste crushing machines, waste compacting machines, and waste separator machines; cutting, comminuting, compacting and homogenizing machines for industrial use for plastic materials, plastic foils, plastic bottles and plastic waste; machines for plasticizing plastics; machines for agglomerating plastics; machines for comminuting plastics; machines for granulating plastics; machines for filtering plastic melts; plastic processing machines, namely, machines and installations for the solid phase polycondensation of plastics; extrusion machines for plastic; intrusion machines for plastic; extrusion machines for plastics, namely, extruders for plastics

and parts therefor, namely, extruder screws, plastic melt filters, filtering devices for plastic melts, backwashing filters, screen filters, screen changers, screens and filters for extruders; electric degassing pumps

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Conducting classes and training courses in the field of manufacture, installation, operation, repair and maintenance of machines and devices for processing plastics and plastic waste and relating to the processing and reprocessing and recycling of plastics and plastic waste; education and schooling services, namely, arranging and conducting classes, seminars and workshops in the field of plastics, the recycling of plastics and machines for processing plastics

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Advertising, marketing and promotional services; business assistance, management and administration services; electronic order processing for others; online ordering services in the field of semi-processed plastics; advisory and consultancy services relating to the procurement of goods for third parties; negotiation and conclusion of commercial transactions for third parties via telecommunication systems; arranging commercial transactions for third parties via online shops; consultancy in sales techniques and sales programs; consultancy relating to calculating cost price analysis; administrative processing of purchase orders; computerized order acceptance, namely, computerized online ordering services in the field of semi-processed plastics and plastic processing machinery; administrative processing of purchase orders by telephone or computer; administrative processing of computerized purchase orders; computerized stock ordering services in the field of semi-processed plastics and plastic processing machinery; cost price analysis services; price comparison services; comparison shopping services; business analysis, research and information services; providing consumer information relating to goods and services; provision of an online marketplace for buyers and sellers of goods and services; retail store services and wholesale store services featuring machines and machine parts and used machines and machine parts, in particular machines for processing plastics and plastic waste; retail store services and wholesale store services featuring recycling machines and installations for plastics; retail store services and wholesale store services featuring used machines and machine parts, in particular machines for processing plastics and plastic waste; retail store services and wholesale store services featuring machines for the recycling treatment of plastics and for treating waste, in particular plastic waste, biomasses or household waste; retail store services and wholesale store services featuring cutting, comminuting, compacting and homogenizing devices for plastic materials, plastic foils, plastic bottles and plastic waste; retail store services and wholesale store services featuring machines for plasticizing plastics; retail store services and wholesale store services featuring machines for agglomerating plastics; retail store services and wholesale store services featuring machines for comminuting plastics; retail store services and wholesale store services featuring machines for granulating plastics; retail store services and wholesale store services featuring machines for filtering plastic melts; retail store services and wholesale store services featuring machines and installations for the heat treatment of plastics; retail store services and wholesale store services featuring machines and installations for the solid phase polycondensation of plastics; retail store services and wholesale store services featuring extrusion machines and installations; retail store services and wholesale store services featuring intrusion machines and installations; retail store services and wholesale store services featuring extruders for plastics; retail store services and wholesale store services featuring extruder screws; retail store services and wholesale store services featuring plastic melt filters; retail store services and wholesale store services featuring filtering devices for plastic melts; retail store services and wholesale store services

featuring backwashing filters; retail store services and wholesale store services featuring screen filters for plastic processing machines; retail store services and wholesale store services featuring screen changers being parts of plastic processing machines; retail store services and wholesale store services featuring screens and filters for extruders; retail store services and wholesale store services featuring degassing devices; retail store services and wholesale store services featuring degassing devices for extruders for plastic material

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Building construction and demolition; rental of tools, machines and equipment for building construction, demolition, cleaning and maintenance; installation, maintenance, repair, and cleaning of devices, machines and parts of machines for processing plastics and plastic waste and recycling machines and reprocessing machines for plastics; refurbishment, maintenance, cleaning, and repair of used machines and machine parts for processing, reprocessing and recycling plastics and plastic waste

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Security, safety, protection and signaling devices and equipment, namely, burglar alarms, security cameras, and motion sensors; optical devices and equipment, enhancers and correctors, namely, optical readers, optical scanners, optical filters, optical reflectors, and optical sensors; navigation, guidance, tracking, targeting and map making devices, namely, GPS navigation devices, GPS tracking devices, satellite receivers, and cameras; magnets, magnetizers and demagnetizers; automatic control devices, namely, electronic controllers for plastic processing machines and plastic recycling machines; information technology, audio-visual, multimedia and photographic devices, namely, computers, video cameras, computer and video monitors; scientific and laboratory devices for physical reactions via electricity, namely, electricity conduits; downloadable electronic data files in the field of plastics processing; automatic devices for control, namely, electronic controllers for plastic processing machines and plastic recycling machines and automatic valves; measuring, detecting and monitoring instruments, gadgets and controllers, namely, devices for measuring gas concentration, motion detectors, motion sensors, and automatic valves; automatic controlling devices, namely, automatic valves; apparatus, instruments and cables for electricity, namely, electric transformers, electric cables; computers; downloadable and recorded computer software for operating plastic processing machinery; recorded computer operating programs; recorded computer programs for operating plastic processing machines; data carriers, namely, computer memory devices and CD-ROMs containing recorded software and computer programs for operating plastic processing machines; computers and downloadable and recorded computer software for monitoring the functioning of plastic processing machines and installations; downloadable and recorded computer operating programs for use with plastic processing machines and installations; computers, recorded and downloadable computer software, and recorded and downloadable computer operating programs, all for surveillance, control, maintenance and quality assurance of plastic processing machines and installations; electric inspecting and control apparatus, namely, industrial automation controls and optical inspection apparatus, in particular for use with plastic processing machines and installations; electronic control apparatus and installations for the remote control of industrial operations; electronic controls for motors

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Rental of equipment for the treatment and transformation of materials for energy production and for custom manufacturing, namely, rental of plastics processing machines and rental of plastics recycling machines; rental of machines for processing plastics and plastic waste, recycling machines for plastics, machines for recycling treatment of plastics and for treating waste, in particular plastic waste, biomasses or household waste, cutting devices, comminuting devices, compacting devices and homogenizing devices for plastic materials, plastic foils, plastic bottles or plastic waste, machines for plasticizing plastics, machines for agglomerating plastics, machines for comminuting plastics, machines for granulating plastics, machines for filtering plastic melts, machines for the heat treatment of plastics, machines for the solid phase polycondensation of plastics, plastic extrusion machines, plastic intrusion machines, plastic processing machines in the nature of extruders for plastics, and parts therefor, namely, extruder screws, plastic melt filters, filtering devices for plastic melts, backwashing filters, screen filters, screen changers, screens and filters for extruders, degassing devices and degassing devices for extruders for plastic material

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Unprocessed and semi-processed rubber, gutta-percha, gum, asbestos, mica, and synthetic rubber; plastics and resins in extruded form for use in manufacturing processes; packing and insulating materials; flexible pipes, tubing and hoses, not of metal; plastic products, semi-finished, namely, plastic in the form of bars, blocks, pellets, rods, sheets and tubes for further manufacture for general industrial use; semi-finished synthetic resins; mineral fibers, namely, asbestos; semi-processed elastomer polymers for use in manufacture; polyester fibers, other than for textile use, namely, polyesters fibers for use as insulation; plastics, partially processed; plastic films, not for packaging, namely, plastic films for agricultural purposes and plastic films for packing and stuffing for industrial purposes; plastic fibers, not for textile use; reprocessed plastics being semi-processed plastics; reprocessed compound plastics being semi-processed plastics

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For IT programming services, namely, computer programming services; consultancy and research services in the field of information technology; design and development of computer hardware and software; testing of recyclable materials including plastic materials, machines for recycling material and associated software; quality control for others; design services, namely, design of material and recycling machines and associated software; scientific and technological services and research and design relating thereto, namely, testing of recyclable and plastic processing machines, scientific research, and design of software for others; industrial analyses and research services in the field of recyclable and plastic processing machines; all the aforementioned services in the field of plastic processing, reprocessing and recycling, in particular of plastics, in particular originating from production waste or household, commercial or industrial waste; engineering and technological consulting in the field of technology for reprocessing and recycling plastics and in the field of recycling synthetics and fibers; engineering and designing of machinery, equipment and equipment components in the field of plastic processing and plastic recycling; development of applications for optimizing treatment and recycling of production waste; research and development services relating to new plastic treatments and recycling machinery for third parties; technical project planning, namely, conducting scientific feasibility studies in the field of processing and recycling, in particular plastics

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Real estate affairs, namely, real estate consultancy; property investment services in the nature of real estate investment services; real estate investment services featuring property and real estate developments; real estate services, namely, real estate brokerage; real estate property services, namely, rental property management; estate agent services in the nature of real estate brokerage services; property dealers and managing agents in the nature of real estate brokerage featuring all types of properties, developments, land and real estate; real estate services, namely, real estate consultation provided over a global computer network or the Internet; land valuation services; real estate valuation services; real estate valuation services for buildings, land and properties; appraisal services, being financial appraisals of real property; real estate land brokerage services; evaluation, consultancy and financing services in relation to real estate; services relating to the provision of financing for the purchase of buildings, homes, real estate and land; real estate and land mortgage brokers; financial services, namely, providing financial consultation services in the field of real estate; arranging of loans and mortgage lending services; mortgage refinancing services; financial investment, mortgage and real estate loan brokerage; real estate investment trust services; real estate investment trust management services; real estate brokerage, management, leasing and letting in the nature of rental services; project management of real estate projects in the nature of real estate management; real estate contract management in the nature of real estate property management; estate agency in the nature of real estate brokerage services and property letting services in the nature of real estate rental services; real estate services, namely, management of rental property; property portfolio management in the nature of real estate management; land acquisition services; real estate management featuring land; commercial investment services in the nature of financial investment brokerage; real estate property and real estate investment services; advice, consultancy and information services relating to all the aforesaid services

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For Installation and maintenance of computer networking hardware; repair, update, refit and modernization of buildings, namely, building maintenance, repair, and remodeling; repair, update, refit and modernization of data centres, namely, building maintenance, repair, and remodeling of data facility centers; installation of windows, doors, structural beams for buildings, civil engineering structures and infrastructure projects; groundwork services in the nature of excavation services; construction project management of buildings, civil engineering structures and infrastructure projects; hire and repair of plant equipment for use in civil, mechanical and electrical engineering, namely, construction equipment repair and rental; construction project management services; advice, consultancy and information services relating to all the aforesaid services

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Downloadable software for use as a spreadsheet in the field of data centre infrastructure; downloadable software for managing, administering, modifying and controlling computer devices, data and software applications, specifically software for use in designing software applications; downloadable system software for use in database management in the field of real estate appraisals; downloadable computer operating systems; device drivers in the nature of computer disc drives; downloadable software for network processors for use in computer network connectivity; downloadable software for use in operating network devices in the nature of switches, routers, and network controllers; downloadable software for use in designing and connecting telecommunications network protocols; downloadable software for data security functions, specifically software for use in securing data on personal electronic devices; downloadable software for network security functions, specifically software for use in securing commercial transactions via the internet; downloadable software for cloud computing infrastructure, specifically software for use in designing cloud computing systems; downloadable software for the processing and analysis of data, specifically use software in analyzing real estate sales data; computer hardware; data processing apparatus; data security control apparatus in the nature of electronic key fobs being remote control apparatus; network security devices, namely, security token hardware; data storage devices, namely, blank computer discs, magnetic data carriers, hard disk drives and flash memory cards

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Provision of telecommunication connections to a global computer network for data centres; telecommunication services, namely, the transmission of information and data by electronic means; providing access to computer databases and global computer networks and servers; internet service provider; transmission of database information via telecommunications networks; provision of internet access to content, websites and portals; rental of telecommunications facilities for searching for, retrieving, indexing, linking and classifying data via the internet and other similar networks; consultancy and information relating to the aforesaid services, including via electronic networks, including the internet

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Provision of data centre facilities in the nature of leasing computer facilities; design and development of computer hardware and software; computer services, namely, providing a web-based interactive website featuring technology that allows customers to remotely manage, administer, modify and control their end user computer devices, data and software applications; cloud hosting provider services; consulting services in the field of cloud computing; providing a web hosting platform for maintaining real estate sales data in a secure environment of a data centre location; software as a service (SAAS) services, namely, hosting software for use by others for database management in the field of real estate management; rental of computer software for storing real estate transaction data; computer consultation services; computer services, namely, providing on-line non-downloadable computer software available over a network in order to create personalized online information; technical consultancy relating to information systems, hardware and computer software, namely, computer software consultation; development, updating and maintenance of software and database systems; computer programming for analysis and reporting; computer consultancy in relation to database and information system analysis; temporary storage of information and data via electronic channels; scientific and technological services, namely, scientific research; computer software research and design services; architectural services, engineering and environmental services, namely, technical consultation in the field of environmental science; technical project studies in the nature of scientific research; interior design services; design services relating to residential buildings and infrastructure relating to roadways; residential building design services; construction drafting services; engineering drawing services; engineering services; interior decorating services; material and soil percolation testing services for buildings and construction projects; testing services for goods and services installed in and within the proximity of buildings and construction sites, namely, testing of architectural ironmongery, mechanical testing of materials; surveying services; surveying of buildings and of land; conducting geological and/or land surveys; surveying and monitoring the fabric, condition and progress of buildings and construction projects, namely, engineering services for building and property condition assessment; surveying and monitoring alterations, designs, improvements and maintenance of buildings and construction projects, namely, advisory services for others in the field of building architecture; surveying of real estate; architectural services; technical planning and technical project management for the development of data centres, namely, data centre engineering services; model making in the nature of computer modeling services; residential building design and infrastructure design services in the nature of design of bridges, buildings and data centres; advice, consultancy and information services relating to all the aforesaid services

CASE IDENTIFIERS

Serial Number 88784892 **Application Filing Date** Feb. 04, 2020 **Register** Principal **Mark Type** Trademark **Publication Date** Nov. 22, 2022

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a three-dimensional presentation of configuration of a cooking apparatus with wording and two-dimensional designs thereon. The apparatus includes a four-legged stand topped by a circular bowl having two handles, each on opposing sides of the bowl. The bowl has a label containing the wording "FIRE DISC" on the side of the bowl separated by a flame above a stylized grill the legs of which are made of an "X" with the wording "WWW.FIREDISCGRILLS.COM" underneath. The apparatus includes a foot at the bottom of each leg of the stand and a burner and regulator mounted to the stand under the bowl. The broken lines depicting the four legged stand, circular bowl and handles, foots at the bottom of the stand, burner and regulator mounted to the stand indicate placement of the mark on the goods and are not part of the mark. **Color Drawing** Yes **Color Claimed** Color is not claimed as a feature of the mark. **Disclaimer** "FIRE" AND "DISC" AND "WWW.FIREDISCGRILLS.COM"

CASE IDENTIFIERS

Serial Number 90066799 **Application Filing Date** Jul. 22, 2020 **Register** Principal **Mark Type** Service Mark **Publication Date** Nov. 22, 2022

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a horseshoe-shaped image with an outer band in light gold, a middle band in gray, and an inner band of black. The top and bottom of the outer band and the right and left of the middle band contain areas that are lighter in color to indicate glare from a light source. Inside the horseshoe-shaped image in the upper right corner are five stripes alternating in color between red and white. In the upper left corner is a blue box containing silhouettes of a police badge, a firefighter Maltese Cross, a six-pointed emergency medical star, and a five-pointed star, all in white. Below the blue box and alternating stripes is a black line and below the black line, a gray band. The gray band is bisected by the top arm of a five-pointed star. The remainder of the star is below the gray band. Half of each arm of the star is dark gold and the other half is light gold. The area between the star and middle gray band of the horseshoe-shaped image is black. The words "Hero's Rest" appear in black to the right of the horseshoe-shaped image, with the word "Hero's" on top of the word "Rest." The image of a kneeling man appears in black below the "o's" in "Hero's" and to the right of the "t" in "Rest." The "t" in "Rest" forms the shape of a Christian cross. **Color Drawing** Yes **Color Claimed** The color(s) red, blue, white, dark gold, light gold, gray, black is/are claimed as a feature of the mark.

GOODS AND SERVICES INFORMATION

For Medical and surgical apparatus, equipment and instruments, namely, apparatus for use in the treatment of breathing disorders and replacement parts and fittings therefor, positive airway pressure equipment for the treatment of sleep apneas, medical ventilator equipment to assist or replace patient breathing, medical resuscitators, bi-level positive airway pressure devices, continuous positive airway pressure devices and variable positive airway pressure devices, airway clearance systems, comprised of air delivery devices and/or suction devices and patient interfaces therefor; mechanical insufflation-exsufflation devices to clear secretions from the lungs by gradually applying positive pressure to the airway and rapidly shifting to negative pressure to produce a high expiratory flow from the lung, air pulsating units for medical purposes for providing pulsating positive and negative air pressure to the airway of a person to assist in loosening and eliminating mucus from the lungs and in other bodily functions; oxygen concentrators for medical purposes; portable oxygen concentrators for medical applications; capnography sensors being respiratory sensors; valved holding chamber for use with metered dose inhalers; compressor-nebulizer for respiration therapy and drug delivery; nebulizers for respiration therapy; respiratory apparatus and instruments in the nature of compressor nebulizers for respiration therapy; drug delivery nebulizers for administering medication in the form of a mist inhaled into the lungs for treatment of asthma and respiratory diseases; wrist worn medical device for monitoring physical activity, namely, motion, as an indicator of movement disorders, sleep disorders, or other medical conditions characterized by movement or lack of it such as level of pain, as well as for monitoring other parameters such as ambient light level, noise levels, temperature, or other physiological or environmental parameters that aid in diagnosis and in tracking treatment effectiveness; sleep apnea diagnostic devices for in-home use, namely, positive airway pressure equipment, diagnostic sleep monitors and sensors, medical apparatus for recording and analyzing physiological data to identify sleep-related disorders; adhesive tape for application to a respiratory mask for creating an air tight seal between the mask and the face to protect patients and healthcare workers from air-borne pathogens; medical tubing and tubing connectors; textile and/or plastic material headgear specially adapted for use with medical mask interfaces; medical masks, mask seals, mask cushions and cannulas for medical purposes ; humidification apparatuses for medical purposes, therapeutic mouthpieces, air filters for

medical apparatus for use in the treatment of breathing disorders, pressure relief valves for medical purposes, control valves for regulating the flow of gases for medical purposes and printed instructions for medical and surgical apparatus, equipment and instruments; positive airway pressure equipment for the treatment of sleep apneas and replacement parts and fittings therefor; positive airway pressure equipment tubing and tubing connectors; textile and/or plastic material headgear specially adapted for use with positive airway pressure equipment mask interfaces and medical insufflation mask interfaces, medical positive airway pressure masks and medical insufflation masks; mask seals for use with positive airway pressure equipment; mask cushions for use with positive airway pressure equipment; cannulas for use with positive airway pressure equipment; humidification apparatuses with positive airway pressure equipment; diagnostic sleep monitors, sensors, and air filters for positive airway pressure equipment; medical ventilator equipment to assist or replace patient breathing and replacement parts and fittings therefor, medical ventilator tubing and tubing connectors, textile and/or plastic material headgear specially adapted for use with medical ventilator mask interfaces and medical insufflation mask interfaces, medical ventilator masks, mask seals, mask cushions for medical purposes, cannulas, humidification apparatuses for medical purposes, and air filters for medical ventilators; medical resuscitators and replacement parts and fittings therefor, medical resuscitator tubing and tubing connectors, textile and/or plastic material headgear specially adapted for use with medical resuscitator mask interfaces, medical resuscitator masks, mask seals for use with medical resuscitator mask interfaces, mask cushions for use with medical resuscitator mask interfaces, cannulas for use with medical resuscitator, humidification apparatus for use with medical resuscitator, and air filters for use with medical resuscitators; respiratory equipment and monitors therefor, and apparatus that provides variable air pressure to a patient, namely, bi-level positive airway pressure devices, continuous positive airway pressure devices and variable positive airway pressure devices and replacement parts therefor, medical tubing and tubing connectors, textile and/or plastic material headgear specially adapted for use with medical mask interfaces, medical masks for use with respiratory equipment, respiratory monitors, and apparatus that provides variable air pressure to a patient; mask seals for use with medical respiratory mask interfaces; mask cushions for use with medical respiratory mask interfaces; cannulas for use with respiratory equipment; respiratory monitors, and apparatus that provides variable air pressure to a patient; humidification apparatuses for use with respiratory equipment; respiratory monitors, and apparatus that provides variable air pressure to a patient, and air filters for use with respiratory equipment, respiratory monitors, and apparatuses that provide variable air pressure to a patient; airway clearance systems and replacement parts and fittings therefor; medical tubing and tubing connectors for use with airway clearance systems; medical masks for use with airway clearance systems; mask seals for use with airway clearance systems; mask cushions for use with airway clearance systems; cannulas for use with airway clearance systems; therapeutic mouthpieces for use with airway clearance systems; air filters for use with airway clearance systems; water traps for separating liquid from a breathing gas of a patient; stand brackets and stands for airway clearance systems, foot pedals for airway clearance systems, cases for airway clearance systems, rechargeable battery packs for airway clearance systems, cases and covers for rechargeable battery packs for airway clearance systems, chargers for rechargeable battery packs for airway clearance systems, cables for airway clearance systems, power adapters for airway clearance systems; a mechanical insufflation-exsufflation device used to clear secretions from the lungs by gradually applying positive pressure to the airway and rapidly shifting to negative pressure to produce a high expiratory flow from the lung; airway pressure devices, namely, bi-level positive airway pressure devices, continuous positive airway pressure devices and variable positive airway pressure devices; oxygen concentrators for medical purposes; portable oxygen concentrators and replacement parts therefor, for medical applications, medical tubing and tubing connectors for use with oxygen concentrators, medical masks for use with oxygen concentrators, mask seals for use with oxygen concentrators, mask cushions for use with oxygen concentrators,

cannulas for use with oxygen concentrators, therapeutic mouthpieces for use with oxygen concentrators; air filters for use with oxygen concentrators, stands for oxygen concentrators, cases and straps for oxygen concentrators, medical bags designed to hold oxygen concentrators, medical bags designed to hold accessories for oxygen concentrators, pulse oximeters for medical purposes, medical cases for pulse oximeters, carts for oxygen concentrators, carts specially adapted for holding or carrying portable medical oxygen cylinders, peak flow meters, gaskets and gasket tools for oxygen concentrators, humidification apparatuses for oxygen concentrators, pressure relief valves for oxygen concentrators, humidifier pouches for medical humidifiers, rechargeable battery packs for oxygen concentrators, cases and covers for rechargeable battery packs for oxygen concentrators, chargers for rechargeable battery packs for oxygen concentrators, charger stands for oxygen concentrators, cables for oxygen concentrators, power cords for oxygen concentrators, power adapters for oxygen concentrators, and powers supplies for oxygen concentrators; medical devices for use in oxygen therapy, namely, oxygen concentrators for in-home, non-neonatal use; capnography sensors being respiratory sensors; a valved holding chamber for use with metered dose inhalers; compressor-nebulizer for respiration therapy and drug delivery; nebulizers for respiration therapy; respiratory apparatus and instruments in the nature of compressor nebulizers for respiration therapy, drug delivery nebulizers for administering medication in the form of a mist inhaled into the lungs for treatment of asthma and respiratory diseases and replacement parts therefor, medical tubing and tubing connectors for use with respiratory apparatus and instruments; chambers, respiratory masks for medical purposes, control valves for regulating the flow of gases for medical purposes, medical tubing for administering gases, therapeutic mouthpieces for use with respiratory apparatus and instruments ; peak flow meters for use with respiratory apparatus and instruments, power adapters for use with respiratory apparatus and instruments, rechargeable battery packs for use with respiratory apparatus and instruments, chargers for rechargeable battery packs for use with respiratory apparatus and instruments, power cords for use with respiratory apparatus and instruments, power adapters for use with respiratory apparatus and instruments, cases for use with respiratory apparatus and instruments, air filters for use with respiratory apparatus and instruments; compressor nebulizer devices for respiratory therapy and replacement parts therefor including nebulizers, compressors, respiratory sensors, mask seals, and masks; nasal masks in the nature of respiratory masks for medical purposes, as well as replacement parts therefor, medical tubing and tubing connectors, control valves for regulating the flow of gases for medical purposes, medical tubing for administering gases; respiratory masks for sleep therapy, as well as replacement parts therefor, medical tubing and tubing connectors for use with respiratory masks for sleep therapy, textile and/or plastic material headgear specially adapted for use with medical mask interfaces respiratory, masks for sleep therapy, mask seals for use with respiratory masks for sleep therapy, cannulas for use with respiratory masks for sleep therapy, humidification apparatus for use with respiratory masks for sleep therapy; valves for regulating the flow of gases for medical purposes; respiratory mask for use with medical breathing devices, as well as replacement parts therefor, medical tubing and tubing connectors for use with medical breathing devices, textile and/or plastic material headgear specially adapted for use with medical breathing devices, mask seals for use with medical breathing devices, cannulas for use with medical breathing devices, humidification apparatuses for use with medical breathing devices, control valves for regulating the flow of gases for medical purposes; respiratory masks for medical purposes with gel nasal pillows or with silicone nasal pillows, as well as replacement parts therefor, medical tubing and tubing connectors for use with respiratory masks for medical purposes, headgear specially adapted for use with respiratory masks for medical purposes, mask seals for use with respiratory masks for medical purposes, cannulas for use with respiratory masks for medical purposes, humidification apparatuses for use with respiratory masks for medical purposes, control valves for regulating the flow of gases for medical purposes; sleep apnea diagnostic devices for in-home use,

namely, positive airway pressure equipment, diagnostic sleep monitors and sensors

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Medical rehabilitation services regarding the restoration, support, control and regulation of autonomic and sacral functions; providing physical rehabilitation facilities; providing neurostimulation, neuromodulation, neurorehabilitation, neurorecovery, and physical rehabilitation services; physical therapy services; development of individual physical rehabilitation programs; provision of exercise facilities specifically for health rehabilitation services; consulting services in the fields of neurostimulation, neuromodulation, neurorehabilitation, neurorecovery, and physical rehabilitation services

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For Computer software design for data processing and data analysis; scientific research for medical purposes in the field of sleep analysis and therapy, respiratory care, medical ventilators, oxygen concentrators, oxygen delivery devices, inhalation drug delivery systems, and activity monitoring; providing online non-downloadable software for analyzing data from face and head images and patient questionnaires for use in selecting a respiratory mask or generating a customized respiratory mask design; cloud-computing services featuring software for processing and analyzing face and head images, retrieving and analyzing patient questionnaires, and selecting a respiratory mask or generating a customized face mask design to fit the patient

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 2 - AN ILLUSTRATION DRAWING WITHOUT ANY WORDS(S)/ LETTER(S) **Description of the Mark** The mark consists of a red miscellaneous design wherein the overall shape of the mark is that of a hexagon made up of lines and in the center of the hexagon is a hole made up of curved and straight lines. The white appearing in the mark merely represents background and is not claimed as a feature of the mark. **Color Drawing** Yes **Color Claimed** The color(s) red is/are claimed as a feature of the mark.

GOODS AND SERVICES INFORMATION

For Providing academic scholarships to promote the study of corrosion science and engineering

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For Printed publications in the nature of periodicals, guides, brochures, books, articles, whitepapers, magazines, newsletters, conference papers, and catalogues in the field of corrosion prevention and protective coatings

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Educational services, namely, conducting online and in-person training and educational certification training programs in the field of corrosion prevention and protective coatings; providing online non-downloadable webinars, podcasts, and publications in the form of periodicals, guides, brochures, books, articles, whitepapers, magazines, newsletters, conference papers, and catalogues in the field of corrosion prevention and protective coatings; online training programs and educational assessments in the field of corrosion prevention and protective coatings; providing recognition by way of awards to demonstrate excellence in the field of corrosion prevention, protective coatings, and technology; arranging and conducting educational conferences in the field of corrosion prevention and protective coatings; training services for certification as industrial protective coatings specialists; training services for certification as protective coating inspectors; providing information via a website in the field of training services in the field of corrosion prevention and protective coatings; arranging and conducting business conferences and meetings in the nature of seminars and workshops in the field of corrosion prevention

and protective coatings; providing an online searchable database featuring education information about certification testing subject matter and training status on certified professionals in the field of corrosion prevention and protective coatings for educational purposes; providing a website portal featuring information concerning educational opportunities for preparing for tests for certifications in the field of corrosion prevention and protective coatings

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Indicating membership in an organization for industry professionals, companies, and students in the field of corrosion prevention and protective coatings

International Classes 200 **US Classes** 200 - Primary Classes **US Class Title** U.S. Classification of Collective Membership Marks

For Association services, namely, promoting the interests of individual professionals and companies in the field of corrosion prevention and protective coatings; promoting public awareness of the purpose and benefits of certification programs in the field of corrosion prevention and protective coatings; providing information in the field of government affairs; political action committee services, namely, promoting the political interests of individuals and companies in the field of corrosion prevention and protective coatings; arranging and conducting trade shows in the field of corrosion prevention and protective coatings; business services, namely, testing the knowledge, skills, and abilities of others to determine professional competency in the field of corrosion prevention and protective coatings; providing an online searchable database featuring business information about certification status and training status on certified professionals in the field of corrosion prevention and protective coatings for business purposes; online retail store services featuring books, training and certification materials, and apparel; providing a website portal featuring information about certified professionals who have received certifications in the field of corrosion prevention and protective coatings for business purposes; Providing an online searchable database featuring technical information about training status on certified professionals in the field of corrosion prevention and protective coatings, all for business certification purposes

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Downloadable webinars, podcasts and electronic publications in the nature of periodicals, guides, brochures, books, articles, whitepapers, magazines, newsletters, conference papers, and catalogues in the field of corrosion prevention and protective coatings

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Developing accreditation standards for corrosion prevention and protective coatings services to the order and specification of others; development of voluntary standards for the corrosion prevention and protective coatings industry; testing, analysis and evaluation of the knowledge, skills and abilities of others in the field of corrosion prevention and protective coatings to determine conformity with accreditation standards; providing information via a website in the field of developing voluntary protective coating industry standards; providing a website portal featuring information concerning standards and testing for certifications in the field of corrosion prevention and protective coatings; providing a website featuring technology that enables users to schedule exams, retrieve exam results, and track and monitor certifications in the field of corrosion prevention and protective coatings; providing an online searchable database featuring technical information

about certification testing standards in the field of corrosion prevention and protective coatings for certification purposes

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Diagnostic reagents for medical use; reagents and containers specifically adapted for reagents, namely, reagents comprising paramagnetic beads for use in the processing, purification, and cleanup of samples containing genomic material, including material from single cells, for medical purposes; diagnostic chemical test kits consisting primarily of monoclonal antibodies, buffers, and reagents for medical use; medical test kits comprised of medical diagnostic reagents and assays for high-quality single-cell and low-input DNA amplification, primary template-directed amplification (PTA) reaction and library cleanup, optimum bead cleanup performance, single-cell and low-input transcriptional profiling, and combined genome and transcriptome profiling; medical test kits comprised of medical diagnostic reagents for use in the amplification and recovery of genomic material, including genomic material from single cells; kits comprising reagents, namely, reagents for medical use comprising paramagnetic beads for use in the processing, purification, and cleanup of samples containing genomic material, including material from single cells; kits comprised of cells and biological tissue sample specimens for diagnostic purposes for medical use; diagnostic kits comprising reagents for medical use

International Classes 5 - Primary Classes **US Classes** 5, 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Gene and genetic testing apparatus in the nature of apparatus for DNA and RNA testing for medical and scientific purposes; medical apparatus and instruments, namely, a thermal mixer and plate spinner for the amplification and recovery of genomic material for medical purposes; medical apparatus and instruments, namely, magnetic plates for use with magnetic and paramagnetic beads for the processing, purification, and cleanup of samples containing genomic material, including material from single cells

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Assays and reagents for use in genetic research; diagnostic reagents for scientific and research use; diagnostic reagents for clinical or medical laboratory use; reagents for scientific use; reagent kits comprising generic DNA circle, DNA primers, polymerase and buffers for use in biotechnology fields; reagents for scientific use for use in kits for high-quality single-cell and low-input DNA amplification, primary template-directed amplification (PTA) reaction and library cleanup, optimum bead cleanup performance, single-cell and low-input transcriptional profiling, and combined genome and transcriptome profiling; reagents and containers specifically adapted for reagents, namely, reagents comprising paramagnetic beads for use in the processing, purification, and cleanup of samples containing genomic material, including material from single cells, for research purposes; reagents and containers specifically adapted for reagents, namely, reagents for scientific use for use in the amplification and recovery of genomic material, including genomic material from single cells; chemical substances and products, namely, chemical preparations for use in genomic research; biochemicals, namely, biological reagents for use in whole genome amplification to detect genetic variants in each cell for non-medical purposes; laboratory chemicals, namely, an antibody reagent used for genomic research; chemical test kits for diagnostic purposes for laboratory and research use; diagnostic kits comprising reagents for scientific use; diagnostic kits comprised of reagents and assays for scientific use for detecting, testing, analyzing, and sequencing genes, nucleic acids, and biological molecules; medical test kits comprised of reagents for scientific use for biological analysis for use in whole genome amplification to detect genetic variants in cells; kits comprising reagents, namely, reagents for scientific use comprising paramagnetic beads for use in the processing, purification, and cleanup of samples containing genomic material, including material from single cells; kits containing assays, reagents, and chemical preparation for use in genomic research; kits containing biochemicals, namely, biological reagents for scientific use for use in whole genome amplification to detect genetic variants in each cell; kits comprised of cells and biological tissue sample specimens for diagnostic purposes for laboratory or research use; laboratory apparatus and instruments, namely, chemical genomic testing kits; kits containing laboratory chemicals, namely, antibody reagents used for genomic research

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Downloadable computer software for collecting, analyzing, reporting, and tracking data and information in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; downloadable computer software for bioinformatic DNA sequencing analysis for the purpose of allowing users to evaluate data quality, compare results between cells and samples, and integrate multi-omics data; downloadable computer software for bioinformatic DNA sequencing analysis for evaluating data, namely, sequencing alignment, coverage, and single nucleotide, structural, and copy number variant calling metrics; downloadable computer software for genomic analysis and sequencing for scientific, medical, and research purposes; downloadable computer software for medical and scientific research in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; downloadable computer software for nucleic acid and ribonucleic acid analysis for medical and scientific research purposes; downloadable computer software for providing medical and scientific research information in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; downloadable computer software for medical and scientific research in connection with high-quality single-cell and low-input DNA amplification, primary template-directed amplification (PTA) reaction and library cleanup, optimum bead cleanup performance, single-cell and low-input transcriptional profiling, and combined genome and transcriptome profiling; downloadable computer software for medical and scientific research in connection with genome amplification to detect genetic variants in cells; downloadable computer software for medical and scientific research in

connection with measuring genetic diversity in single cells; downloadable computer software for medical and scientific research in connection with primary template-directed amplification for use in connection with single cells and ultra-low DNA input samples; downloadable computer software for medical and scientific research for the purpose of elevating single cell genome variants for the purpose of genome amplification; downloadable computer software for DNA analysis and sequencing for scientific, medical, and research purposes; downloadable computer software for research, development and consultancy in the field of genomics; downloadable computer software for compiling data for research purposes in the field of genomics; downloadable computer software for providing medical research information in the field of genomics, gene therapy, cell therapy for medical purposes; downloadable computer software for medical testing, diagnosis, and treatment; downloadable computer software for bioinformatic DNA sequencing analysis for biomarker discovery and annotation for use in connection with offering medical analysis services for diagnostic and treatment purposes provided by medical laboratories; downloadable computer software for medical diagnostic testing, monitoring, and reporting; downloadable computer software for medical analysis and diagnosis in connection with the fields of oncology, cardiology, prenatal genetic testing (PGT), neurological genetic disorders, immunology, microbiome, toxicology, and bioprocessing; downloadable computer software for medical analysis and diagnosis in the field of gene therapy and cell therapy; downloadable computer software for medical analysis and diagnosis in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; scientific and laboratory apparatus and instruments, namely, magnetic plates for use with magnetic and paramagnetic beads for the processing, purification, and cleanup of samples containing genomic material, including material from single cells; kits containing a scientific or laboratory apparatus or instrument, namely, kits comprising multi-well plates, magnetic plates, and reagents comprising paramagnetic beads for the processing, purification, and cleanup of samples containing genomic material, including material from single cells; kits comprising a scientific or laboratory apparatus or instrument for the amplification and recovery of genomic material, including genomic material from single cells, and reagents for scientific or research use; scientific and laboratory apparatus and instruments, namely, a thermal mixer and plate spinner for the amplification and recovery of genomic material not for medical use; kits containing scientific apparatus, namely, a thermal mixer and plate spinner for use in genetic research; scientific and laboratory apparatus and instruments, namely, a thermal mixer and plate spinner for the amplification and recovery of genomic material not for medical use; kits containing scientific apparatus, namely, a thermal mixer and plate spinner for use in genetic research; scientific and laboratory apparatus and instruments, namely, a thermal mixer and plate spinner for the amplification and recovery of genomic material not for medical use; kits containing scientific apparatus, namely, a thermal mixer and plate spinner for use in genetic research

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Medical testing for diagnostic or treatment purposes; medical analysis services for diagnostic and treatment purposes provided by medical laboratories; medical diagnostic testing, monitoring and reporting services; medical analysis services for diagnosis the fields of oncology, cardiology, prenatal genetic testing (PGT), neurological genetic disorders, immunology, microbiome, toxicology, and bioprocessing; medical analysis services for diagnosis in the field of gene therapy and cell therapy; medical analysis services for diagnosis in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For Genomic analysis and sequencing services for scientific, medical, and research purposes; medical and scientific research in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; nucleic acid and ribonucleic acid analysis services for medical and scientific research purposes; providing medical and scientific research information in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; medical and scientific research in connection with high-quality single-cell and low-input DNA amplification, primary template-directed amplification (PTA) reaction and library cleanup, optimum bead cleanup performance, single-cell and low-input transcriptional profiling, and combined genome and transcriptome profiling; medical and scientific research in connection with genome amplification to detect genetic variants in cells; medical and scientific research in connection with measuring genetic diversity in single cells; medical and scientific research in connection with primary template-directed amplification for use in connection with single cells and ultra-low DNA input samples; medical and scientific research for the purpose of elevating single cell genome variants for the purpose of genome amplification; DNA analysis and sequencing services for scientific, medical, and research purposes; research, development and scientific consultancy in the field of genomics; medical research, namely, compiling data for research purposes in the field of genomics; providing medical research information in the field of genomics, gene therapy, cell therapy for medical purposes; providing on-line non-downloadable software for collecting, analyzing, reporting, and tracking data and information in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; platform as a service (PAAS) featuring computer software platforms for collecting, analyzing, reporting, and tracking data and information in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; software as a service (SAAS) services featuring software for collecting, analyzing, reporting, and tracking data and information in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; providing temporary use of non-downloadable computer software for bioinformatic DNA sequencing analysis for the purpose of allowing users to evaluate data quality, compare results between cells and samples, and integrate multi-omics data; providing temporary use of non-downloadable computer software for bioinformatic DNA sequencing analysis for evaluating data, namely, sequencing alignment, coverage, and single nucleotide, structural, and copy number variant calling metrics; providing temporary use of non-downloadable computer software for genomic analysis and sequencing for scientific, medical, and research purposes; providing temporary use of non-downloadable computer software for medical and scientific research in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; providing temporary use of non-downloadable computer software for nucleic acid and ribonucleic acid analysis for medical and scientific research purposes; providing temporary use of non-downloadable computer software for providing medical and scientific research information in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; providing temporary use of non-downloadable computer software for medical and scientific research in connection with high-quality single-cell and low-input DNA amplification, primary template-directed amplification (PTA) reaction and library cleanup, optimum bead cleanup performance, single-cell and low-input transcriptional profiling, and combined genome and transcriptome profiling; providing temporary use of non-downloadable computer software for medical and scientific research in connection with

genome amplification to detect genetic variants in cells; providing temporary use of non-downloadable computer software for medical and scientific research in connection with measuring genetic diversity in single cells; providing temporary use of non-downloadable computer software for medical and scientific research in connection with primary template-directed amplification for use in connection with single cells and ultra-low DNA input samples; providing temporary use of non-downloadable computer software for medical and scientific research for the purpose of elevating single cell genome variants for the purpose of genome amplification; providing temporary use of non-downloadable computer software for DNA analysis and sequencing for scientific, medical, and research purposes; providing temporary use of non-downloadable computer software for research, development and consultancy in the field of genomics; providing temporary use of non-downloadable computer software for compiling data for research purposes in the field of genomics; providing temporary use of non-downloadable computer software for providing medical research information in the field of genomics, gene therapy, cell therapy for medical purposes; providing temporary use of non-downloadable computer software for medical testing, diagnosis, and treatment; providing temporary use of non-downloadable computer software for bioinformatic DNA sequencing analysis for biomarker discovery and annotation for use in connection with offering medical analysis services for diagnostic and treatment purposes provided by medical laboratories; providing temporary use of non-downloadable computer software for use in connection with medical diagnostic testing, monitoring, and reporting; providing temporary use of non-downloadable computer software for medical analysis and diagnosis in connection with the fields of oncology, cardiology, prenatal genetic testing (PGT), neurological genetic disorders, immunology, microbiome, toxicology, and bioprocessing; providing temporary use of non-downloadable computer software for medical analysis and diagnosis in the field of gene therapy and cell therapy; providing temporary use of non-downloadable computer software for medical analysis and diagnosis in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics
