GOODS AND SERVICES INFORMATION

For Video game interactive remote control units; Video game interactive remote control units in the nature of wearable peripherals for playing video games in the nature of head-mounted displays specially adapted for computers, tablet computers, mobile devices, and mobile telephones; game controllers for computer games; audio and visual headsets for use in playing video games; hand-held units for playing electronic, computer, interactive, and video games; gaming devices, namely, gaming machines with or without video output for playing computer games and video games; mobile gaming devices, namely, gaming machines with or without video output for playing computer games and video games; apparatus for electronic games other than those adapted for use with an external display screen or monitor; apparatus for electronic games adapted for use with an external display screen or monitor; bags specially adapted for handheld video games and video game consoles; game controllers in the nature of keyboards for computer games; games adapted for use with television receivers; gaming headsets adapted for use in playing video games; video game interactive hand held remote controls for playing electronic games; handheld electronic virtual reality game controllers for use with video games, computer games, and interactive multimedia games; handheld electronic augmented reality game controllers for use with video games, computer games, and interactive multimedia games; bags and cases specially adapted for holding mobile electronic devices, namely, handheld video games, video game controllers, controllers for computer games, audio and visual gaming headsets adapted for use with playing video games, and hand-held units for playing electronic, computer, interactive, and video games; briefcases, backpacks and carrying cases specially adapted for mobile electronic devices, namely, handheld video games, video game controllers, controllers for computer games, audio and visual gaming headsets adapted for use with playing video games, and hand-held units for playing electronic, computer, interactive, and video games; controls for mobile electronic devices in the nature of game controllers for computer games and video games, namely, remote controls for handheld video games, computer games, audio and visual

gaming headsets adapted for use with playing video games, and hand-held units for playing electronic, computer, interactive, and video games; Replacement part for hand-held units for playing electronic games, namely, faceplates for mobile electronic devices in the nature of hand-held units for playing electronic, computer, interactive, and video games; protective covers and cases specially adapted for mobile electronic devices, namely, hand-held units for playing electronic, computer, interactive, and video games; wall mounts specially adapted for mounting mobile electronic devices, namely, hand-held units for playing electronic, computer, interactive, and video games; stands specially adapted for mobile electronic devices, namely, hand-held units for playing electronic, computer, interactive, and video games; holders specially adapted for mobile electronic devices, namely, hand-held units for playing electronic, computer, interactive, and video games; Gaming headsets adapted for use in playing video games, namely, headsets for computer games; Gaming headsets adapted for use in playing video games, namely, headsets for video games; handheld game controllers for computer games; handheld game controllers for video games; the aforementioned goods exclude any goods that are provided as a set of articles or implements used for a specific purpose, a container for such a set, a set of parts or materials to be assembled, a packaged set of related materials, a collection of clothing and other personal effects used for travel or by a soldier, a container, such as a bag or knapsack, for storing or holding such a collection, or the entire collection or lot; the aforementioned goods exclude any devices or apparatus used for creating or displaying holograms

International Classes 28 - Primary Classes **US Classes** 22, 23, 38, 50 **International Class Title** Toys and Sporting Goods

For Entertainment services, namely, providing online computer games and wireless mobile online computer games; providing online computer games and interactive online computer games; entertainment services, namely, providing temporary use of non-downloadable augmented reality, virtual reality, and mixed reality computer game software; virtual reality game services provided online from a computer network; augmented virtual reality game services provided online from a computer network; mixed virtual reality game services provided online from a computer network; entertainment services, namely, providing online augmented reality computer games, online augmented reality content in the nature of online augmented reality computer game experiences, and interactive entertainment in the nature of online video games, online computer games, and online interactive multimedia computer games, as well as providing online non-downloadable interactive motion pictures featuring topics of general human interest that are provided via a video-on-demand service, online non-downloadable interactive videos featuring topics of general human interest that are provided via a video-on-demand service, interactive television in the nature of a continuing general human interest show broadcast over the Internet, and ongoing interactive digital multimedia programs featuring virtual, augmented and mixed reality, all provided on-line from a computer network; providing a computer game for use network-wide by network users; providing online virtual reality computer games; providing online augmented reality games; entertainment services, namely, providing online video games; entertainment services, namely, virtual reality game services provided on-line from a computer network in the nature of providing online virtual reality environments in which users can interact for recreational and business purposes; entertainment services, namely, virtual reality game services provided on-line from a computer network in the nature of providing online augmented reality environments in which users can interact for recreational and business purposes; providing information about online computer games and video games via computer or online communication networks; arranging and conducting competitions for video gamers and computer game players in the field of video and computer games; facilitating events for video gamers and computer game players, namely, organization of video and computer game competitions; entertainment services, providing temporary use of

non-downloadable computer games; providing a website through which people locate information about tournaments, events, and competitions in the video and computer game field; entertainment services, namely, providing temporary use of non-downloadable game software for facilitating interactive and multiplayer and single player game services for games played via the internet or communications networks; providing information about video games and electronic or interactive multimedia computer games via the internet or online communications networks; entertainment services, namely, facilitating events for players of electronic or interactive multimedia games in the nature of organizing computer gaming contests, games, tournaments, cultural or educational exhibitions, competitions, and events in the nature of video game contests; education services, namely, conducting classes, seminars, conferences, workshops in the field of augmented reality, virtual reality, and mixed reality computer games; education services, namely, conducting classes, seminars, conferences, workshops in the field of video games; providing online resources for software developers, namely, providing online journals in the nature of blogs featuring topics related to software and game development information, non-downloadable tutorial videos, non-downloadable informational videos, electronic assets in the nature of non-downloadable digital documents, non-downloadable audible content, and non-downloadable motion pictures, online publications in the nature of guide books featuring software development information, and online publications in the nature of e-books and educational articles featuring software and game development information; entertainment and educational services, namely, organizing contest and incentive award programs for software developers designed to reward program participants who engage in computer gaming competitions and providing incentives to software developers to demonstrate excellence in the field of software development; online journals, namely, blogs in the fields of virtual reality, augmented reality, mixed reality, video games, computer games, interactive multimedia games, interactive motion pictures, interactive videos, interactive television and interactive digital multimedia content, software development, social networking; organizing exhibitions and events in the field of interactive entertainment, virtual reality, mixed reality and augmented reality, consumer electronics and video game entertainment industries for cultural or educational purposes; arranging and conducting educational conferences; organizing exhibitions and events in the field of software development for educational purposes; educational services, namely, organizing and conducting conferences and seminars in the fields of virtual reality, mixed reality, and augmented reality; entertainment services, namely, providing online computer and video games; entertainment services, namely, arranging and conducting of competitions in the fields of interactive entertainment, virtual reality, mixed reality, augmented reality and video games, that are for encouraging use and development of interactive entertainment, virtual reality, mixed reality, augmented reality, and video game entertainment software and hardware; organizing exhibitions and social entertainment events for cultural, educational, or entertainment purposes; online electronic multimedia publishing of video games, computer games, interactive multimedia games, virtual reality games, augmented reality games, and mixed reality games; Digital video, audio, and multimedia publishing services, namely, online electronic publishing of interactive motion pictures, interactive videos, interactive videos for provision via television and interactive digital multimedia content in the nature of virtual, augmented and mixed reality multimedia; production of video and computer game software; augmented reality video production; virtual reality video production; entertainment services, namely, multimedia production services

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Mixed virtual reality headsets; Headsets for use with computers, namely, augmented reality headsets, virtual reality headsets, virtual reality video game headsets; augmented reality headsets and viewers, namely, headsets and viewers for virtual reality games, virtual reality video games; headsets for virtual reality games; Headsets for virtual reality games, namely, headsets for augmented reality games; virtual reality headsets for use in visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; Wireless controllers to monitor and control the functioning of other electronic devices, namely, handheld virtual reality controllers; Wireless controllers to monitor and control the functioning of other electronic devices, namely, handheld augmented reality controllers; Wireless controllers to monitor and control the functioning of other electronic devices, namely, handheld mixed reality controllers; computer peripherals; wearable computers, namely, smart glasses, smartwatches; wearable computer peripherals, namely, wireless mice; computer peripherals for mobile devices for remotely accessing and transmitting data; computer peripherals for displaying data and video; virtual reality headsets in the nature of wearable computing devices comprised primarily of software and display screens in order to enable virtual reality, mixed reality and augmented reality world experiences; carrying cases and holders specially adapted for use with virtual reality headset in the nature of virtual reality, mixed reality, and augmented reality headsets; apparatus for recording, transmission or reproduction of sound, images, or data; electronic and optical communications instruments and components, namely, flat panel display screens for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; eyewear; 3D eyewear; eyeglasses; optical devices, namely, eye pieces for helmet mounted displays; optical glasses; optical lenses; spectacles; 3D spectacles; virtual reality glasses, namely, goggles for enabling virtual reality, augmented reality, and mixed reality world experiences; virtual reality glasses; augmented reality glasses in the nature of virtual reality glasses; mixed reality glasses in the nature of virtual reality glasses; motion tracking sensors for virtual reality, augmented reality, and mixed reality technology; motion tracking sensors for augmented reality, augmented reality, and mixed reality technology; digital media streaming devices; earphones; headphones; downloadable video display software for displaying videos, programming flat panel video displays; video display computer hardware, namely, video drivers for video eyewear; wearable peripherals, namely, configurable head-mounted displays in the nature of virtual reality headsets; augmented reality computer hardware; virtual reality computer hardware; mixed reality computer hardware; augmented reality game computer hardware; mixed reality game computer hardware; virtual reality, augmented reality and mixed reality game computer hardware; downloadable computer software and firmware for operating system programs; downloadable software for controlling the operation of audio and video devices; downloadable video and computer game programs; downloadable interactive entertainment software, namely, software for displaying multimedia content, movies and animations; downloadable gesture recognition software; downloadable computer software, namely, software for displaying multimedia content, movies and animations; virtual, augmented, and mixed reality downloadable software for use in enabling and providing virtual reality experiences; downloadable game software for wireless devices; downloadable game software for handheld electronic devices; downloadable electronic game software; downloadable virtual reality software for generating or displaying graphics for augmented reality; downloadable augmented reality software for generating or displaying graphics for augmented reality; downloadable mixed reality software for generating or displaying graphics for mixed reality; downloadable video game software; interactive multimedia downloadable computer game programs; downloadable electronic game programs; downloadable computer game software; downloadable software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; downloadable software for

ordering and purchasing goods and services; downloadable software for wireless content, data and information delivery; downloadable software for creating, managing and accessing groups within virtual communities; downloadable software for navigating a virtual reality environment; downloadable software for use in enabling and providing virtual reality and augmented reality experiences; downloadable virtual reality software for object tracking, motion control and content visualization; downloadable augmented reality software for object tracking, motion control and content visualization; downloadable virtual reality software for users to experience virtual reality visualization, manipulation and immersion; downloadable augmented reality software for users to experience augmented reality visualization, manipulation and immersion; downloadable virtual reality software for operating virtual reality headsets; downloadable augmented reality software for operating augmented reality headsets; downloadable virtual reality software for generating or displaying graphics for virtual reality interactive entertainment; headsets, namely, headsets for use with computers, virtual reality headsets; downloadable software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; downloadable software, namely, software for setting up, operating, configuring, and controlling wearable computer hardware and wearable computer peripherals; downloadable software for developing and interfacing with virtual reality software; downloadable virtual reality game software; downloadable software for setting up, configuring, viewing and running virtual reality software on computers, game consoles, smartphones, and mobile devices; computer hardware; downloadable operating system software; downloadable computer software for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; downloadable software for social networking; downloadable software for social networking for interacting and messaging others; downloadable software for creating, managing, and interacting with an online community; magnetically encoded gift cards; downloadable computer software development tools; downloadable computer software for use as an application programming interface (API) for use in building software applications; downloadable computer software, namely, an application programming interface (API) for software which facilitates online services for social networking and for data retrieval, upload, download, access and management; downloadable software for organizing, searching for and managing events; downloadable software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer and communication networks; downloadable software for modifying and enabling transmission of images, audio, audio visual and video content and data; downloadable software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; downloadable computer software for sending and receiving electronic messages, alerts, notifications and reminders; downloadable software, downloadable firmware and computer hardware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; computer hardware and downloadable software for operating sensor devices; electronic sensor devices in the nature of motion sensors, light sensors, cameras, picture projectors, and microphones for gesture, facial, and voice detection, capture and recognition; computer hardware and downloadable software for detecting objects, user gestures and commands; downloadable software and firmware for controlling, configuring and managing controllers; downloadable software and firmware for enabling electronic devices to share data and communicate with each other; downloadable software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented and virtual reality experiences; downloadable computer operating system software; downloadable software in the nature of driver programs for electronic devices for enabling electronic devices to communicate with each other; cameras; batteries; battery chargers; battery packs; remote controls for mobile electronic devices in the nature of mobile phones; electrical audio and speaker cables and cable connectors; audio speakers; microphones; audio

receivers; audio transmitter units; head-mounted video display in the nature of virtual reality headsets; receivers of electronic signals; video receivers; wireless transmitters and receivers for reproduction of sound and signals; electric sensors; electric sensors for monitoring physical movements; downloadable software in the nature of a downloadable mobile application for virtual reality, augmented reality, or image processing; SIM cards; downloadable software for processing images, graphics, audio, video, and text; downloadable messaging software for composing and sending messages; downloadable software for facilitating and arranging for the financing and distribution of fundraising and donations; downloadable software for managing or arranging online charitable fundraising services and financial donation services; holders, armbands, clips and carrying cases specially adapted for mobile electronic devices, namely, mobile phones; the aforementioned goods exclude any goods that are provided as a set of articles or implements used for a specific purpose, a container for such a set, a set of parts or materials to be assembled, a packaged set of related materials, a collection of clothing and other personal effects used for travel or by a soldier, a container, such as a bag or knapsack, for storing or holding such a collection, or the entire collection or lot; the aforementioned goods exclude any devices or apparatus used for creating or displaying holograms

CASE IDENTIFIERS

Serial Number 88662603 **Application Filing Date** Oct. 21, 2019 **Register** Principal **Mark Type** Service Mark **Publication Date** Oct. 27, 2020

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the words "Infinite Marketing Hacks" in stylized font and the tagline "Business Evolution and Expansion for Entrepreneurs" in stylized purple font. The word "Infinite" is placed above the words "Marketing Hacks". The letters "infin" of the word "Infinite" is in purple and the letters "nite" of the word "infinite" is in yellow and gold, with the second letter "n" being half in purple and half in yellow and gold. The first letter "i" of the word "infinite" is dotted in yellow and the second letter "i" is dotted in purple. The second "n" letter of the word "Infinite" is stylized to form an infinity symbol surrounding the word "Infinite". A consecutive yellow and gold line is placed above "nite" in the word "Infinite". The words "Marketing Hacks" are placed below "Infinite", specifically, between the beginning of the stylized word "Infinite" and the stylized second "n" of the word "Infinite". The words "Marketing Hacks" are in yellow and gold with a consecutive purple line placed above and below. Situated to the left of the words "Infinite Marketing Hacks" is an infinity symbol that is in purple, yellow, and gold. Situated above the infinity symbol is a rain-drop shape in yellow and gold. Inside the raindrop shape is a person seated in the center with the person's arms raised above the person's head, palms together. The person is in white. The person is wearing a purple tie. The infinity symbol together with the raindrop shape and person give an impression of a person meditating. The tagline "Business Evolution and Expansion for Entrepreneurs" is set below the phrase "Marketing Hacks" and the infinity symbol. **Color Drawing** Yes **Color Claimed** The color(s) purple, white, yellow, and gold is/are claimed as a feature of the mark. **Disclaimer** "MARKETING HACKS"

GOODS AND SERVICES INFORMATION

For Downloadable application programming interface (API) software for computer software for ray tracing and image rendering, modeling, and image manipulation and processing; Downloadable application programming interface (API) software for use in building software applications; artificial intelligence computers; artificial intelligence supercomputers; Downloadable computer game software; computer hardware and downloadable software for professional designers, engineers, and scientists for advanced graphics processing and visual computing; computer hardware and downloadable software, and communications hardware and downloadable software for the operation, control, maintenance, and management of land vehicles, self-driving and autonomous land vehicles and land vehicle components, for land vehicle navigation, for travel and trip planning, for communications and for collecting, tracking, analyzing, and reporting data and information in the field of self-driving and autonomous land vehicles; computer monitors; Downloadable computer software development tools; Downloadable computer software for performing computer graphics operations and improving graphical and video display capabilities; Downloadable computer software for the display of digital media; computers; downloadable computer graphics software development tools for advanced graphics processing, for managing and implementing virtual desktop infrastructures, for virtual desktops and applications, and for virtualization technology software; downloadable computer graphics; downloadable software for management of medical imaging; electronic computer vision accelerators, namely, artificial intelligence, machine learning, deep learning, high performance computing hardware and downloadable software; electronic display interfaces; electronic display screens; Downloadable electronic game software; electronic publications recorded on computer media, in the nature of books, manuals, magazines e-zines and newsletters featuring information regarding electronic game devices and electronic games; Downloadable electronic, computer, interactive and video game software; flat panel display screens; graphics processing units (GPUs); graphics software; Computer hardware and downloadable computer software for detecting objects, user gestures and commands; Computer hardware and downloadable computer software for medical imaging apparatus; Computer hardware and downloadable computer software for operating sensor devices; integrated circuit components for graphics and video systems, namely, multimedia accelerators, graphic accelerators and peripheral units;

integrated circuits for enhancing graphical and video display; integrated circuits, semiconductors and computer chipsets; integrated circuits; liquid crystal display (LCD) monitors; liquid crystal display (LCD); self-driving and autonomous land vehicle electronic downloadable computing platform; self-driving and autonomous land vehicle electronic driving system and equipment in the nature of artificial intelligence, machine learning, deep learning, high performance computing, and simulation software and hardware ; semiconductors; electronic sensors for monitoring physical movements; simulation, modeling and data processing software for use in maximizing graphics processing and performance; software and computer hardware featuring artificial intelligence for use in machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; Downloadable software and firmware for enabling electronic devices to share data and communicate with each other; Downloadable software and firmware for operating system programs; Downloadable software and hardware that facilitates data transmission, data collection, data analysis, and decision-making; Downloadable software development kits (SDKs) consisting of software for ray tracing and image rendering, modeling, and image manipulation and processing; Downloadable software development tools; Downloadable software for 3D-visualization, 3D modeling and 3D rendering; Downloadable software for advanced graphics processing and visual computing; Downloadable software for enhancement of graphical and video display; Downloadable software for enhancing computer performance, for operation of integrated circuits, semiconductors, computer chipsets and micro-processors, and for gaming purposes; Downloadable software for image rendering, modeling, and image manipulation and processing; software for artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; Downloadable software for management, storage and network management of digital media, and enhancement of graphical and video display; Downloadable software for management, storage and network management of digital media; Downloadable software for modifying and enabling transmission of images, audio, audio visual and video content and data; Downloadable software for operating and managing integrated circuit components; Downloadable software for post processing images, graphics and text; Downloadable software for processing images, graphics, audio, video, and text; Downloadable software for professional designers, engineers, and scientists for advanced graphics processing and visual computing; Downloadable software for ray tracing and image rendering, modeling, and image manipulation and processing; Downloadable software for use as an application programming interface (API); Downloadable software for use in operating artificial intelligence platforms; Downloadable software, namely, knowledge-based artificial intelligence platforms, data analytics platforms, and automation platforms for use in the fields of advanced visualization, data acquisition, data analysis, data integration, artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; software, namely, an interpretive interface for facilitating interaction between humans and machines; supercomputers; system-on-chip processors; Downloadable video game software; software and hardware for data centers and data storage software and computer hardware for data centers and data storage

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Advanced product research in the field of artificial intelligence; application service provider (ASP) services featuring application programming interface (API) software for ray tracing and image rendering, modelling, and image manipulation and processing; cloud computing services, namely, consulting in the field of cloud computing and cloud hosting provider services; cloud computing featuring software for use in managing, gathering and organizing data, medical images, and information in the field of medical clinical trials and medical research; cloud-based supercomputing featuring software for use in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; computer programming services for customers that enable the customers' digital and handheld devices to download and utilize games and entertainment related content; computer software design, computer programming, or maintenance of computer software; consulting services in the field of gaming technology development and graphics software; design and development of computer hardware and software; design and development of computer hardware and software in the fields of artificial intelligence, machine learning, deep learning, and deep neural networks; design and development of computer hardware and software in the fields of self-driving and autonomous land vehicle electronic computing platforms and systems; design and development of computer software for use with medical technology; design and development of computer software for vehicle simulation; design and development of software for fine-tuning, development, diagnostics for vehicles, calibration, configuration and diagnostics of electronic systems; design of computer hardware, software and peripherals for others; design, development, customization, integration, and maintenance of computer software; Technical support services, namely, troubleshooting of computer software problems; design, programming or maintenance of artificial intelligence software; designing and developing computer game software and video game software; designing of machines, apparatus, instruments, including their parts, or systems composed of such machines, apparatus and instruments; development of computer hardware for use in connection with electronic and interactive multimedia games; electronic and interactive multimedia game development services; electronic storage of data; graphics design services, namely, creating 3D content, 3D product renderings, photorealistic renderings and models; image processing software design; industrial analysis and research services in the field of vehicle technology, vehicle simulations and vehicle test stands; medical and scientific research in the field of medical imaging; providing online non-downloadable software for 3D-visualization, 3D modelling and 3D rendering; providing online non-downloadable software for autonomous vehicle simulation; providing online non-downloadable software for computer graphics; providing online non-downloadable software for data management, analytics and pattern and activity recognition; providing online non-downloadable software for detecting objects, user gestures and commands; providing online non-downloadable software for enhancing computer performance, for operation of integrated circuits, semiconductors, computer chipsets and micro-processors; providing online non-downloadable software for facilitating interaction between humans and machines; providing online non-downloadable software featuring artificial intelligence, machine learning, deep learning, and deep neural networks; providing online non-downloadable software featuring artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; providing online non-downloadable software for object tracking, motion control and content visualization; providing online non-downloadable software for operating sensor devices; providing online non-downloadable software for others to use for the development of software for self-driving and autonomous land vehicle electronic computing platforms and systems; providing online non-downloadable software for processing images, graphics, audio, video, and text; providing online non-downloadable software for the operation, control,

maintenance, and management of land vehicles, self-driving and autonomous land vehicles and land vehicle components, for land vehicle navigation, for travel and trip planning, for communications and for collecting, tracking, analyzing, and reporting data and information in the field of self-driving and autonomous land vehicles; providing online non-downloadable software for sharing, receiving, downloading, interacting with and transferring content, text, visual works, audio works, audio-visual works, literary works, data, files, documents and electronic works; Application service provider featuring non-downloadable software for use as application programming interfaces (API); providing online non-downloadable software for use in electronic storage of data; providing online non-downloadable software for use in visual, voice, audio, motion, eye and gesture tracking and recognition; providing online non-downloadable software for virtual, augmented reality applications and environments; providing online non-downloadable cloud computing software for use in managing, gathering and organizing data, medical images, and information in the field of medical clinical trials and medical research; providing online non-downloadable cloud-based software for use with a supercomputer; providing online non-downloadable software for use in managing, gathering and organizing data, medical images, and information in the field of medical clinical trials and medical research; platform as a service (PaaS) featuring computer software platforms for downloading, storing, viewing, playing and interacting with digital content and computer software applications; platform as a service (PaaS) featuring computer software platforms for downloading, storing, viewing, playing and interacting with digital content, computer and video games and computer software applications; platform as a service (PaaS) featuring computer software platforms featuring artificial intelligence for natural language processing, machine learning, voice command and recognition, converting speech to text, data analytics; platform as a service (PaaS) featuring knowledge-based artificial intelligence computer software platforms for use in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised, learning, un-supervised learning, data mining, predictive analytics and business intelligence for data analytics software platforms, and automation software platforms; platform as a service (PaaS) featuring software platforms for electronic gaming and graphic design; platform as a service (PaaS) featuring software platforms for transmission of images, audio-visual content, video content and messages; Application service provider featuring application programming interface (API) software for use in transmission of audio, video, images, text, content and data; providing artificial intelligence computer programs for use in collecting, analyzing and reporting of data on data networks; providing cloud computing services featuring software for use in application development for entertainment, social, financial, business collaborative, gaming, and integration of private and public cloud computing environments; providing online non-downloadable computer programs for use in collecting, analyzing and reporting of data on data networks; providing computer software technical support services, technical information and technical support in the nature of troubleshooting of computer software problems regarding software patches, upgrades and updates; providing computer technology information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content via the internet and communication networks; providing temporary use of non-downloadable software for image rendering, modelling, and image manipulation and processing; providing temporary use of non-downloadable software featuring artificial intelligence for use in machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; providing temporary use of non-downloadable software for ray tracing and image rendering, modelling, and image manipulation and processing; providing online non-downloadable personal assistant software, namely, wireless communication software for voice, audio, video, and data transmission; providing online non-downloadable social assistant software, namely, wireless communication software for voice, audio, video, and data transmission; providing software

technological support services in the nature of troubleshooting computer software problems and consultation in the fields of software, development and use of computer hardware; providing temporary use of non-downloadable computer software enabling hardware and electronic devices to communicate with each other; providing temporary use of non-downloadable computer software for computer graphics; providing temporary use of non-downloadable computer software for enhancing computer performance, for operation of integrated circuits, semiconductors, computer chipsets and micro-processors, and for gaming purposes; providing temporary use of non-downloadable interactive entertainment software for use in the fields of artificial intelligence, machine learning, deep learning, high performance computing, image feature extraction, natural language processing, supervised learning, un-supervised learning, predictive analytics, software development, edge computing, fog computing, decentralized computing, Internet of Things, and computer and telecommunications networks; providing temporary use of non-downloadable software enabling hardware and electronic devices to share data and communicate with each other; providing temporary use of non-downloadable cloud-based software for use in the management of medical imaging data; providing temporary use of on-line non-downloadable software for accessing and using a cloud computing network; providing virtual computer systems and virtual computer environments through cloud computing; providing virtual computer systems and virtual computer environments through cloud computing; providing virtual computer systems, virtual graphics processing units (GPUs), and virtual computer environments through cloud computing; research and design in the field of vehicle technology, vehicle simulation and vehicle testing; scientific and technological services and research and design relating thereto; software as a service (SaaS) services featuring computer software for others to use for the development of software for self-driving and autonomous land vehicle electronic computing platforms and systems; software as a service (SaaS) featuring computer software platforms for artificial intelligence; software as a service (SaaS) services featuring software in the field of electronic control systems for land motor vehicles; software as a service (SaaS) services featuring software in the field of self-driving and autonomous land vehicle and self-driving and autonomous land vehicle component operation, control, maintenance, management and communication; software as a service (SaaS) services featuring software platforms for graphic design; software as a Service (SaaS) services featuring software featuring artificial intelligence for use in machine learning, deep learning, and deep neural networks; software as a service (SaaS) services featuring software for use in managing, gathering and organizing data, medical images, and information in the field of medical clinical trials and medical research; software development; providing online non-downloadable software for integrating electronic data with real world environments for the purpose of capturing, processing, and visualizing modelling and placement of goods of others and visual image markers; software platform for software development featuring software development kits (SDKs); technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; computer services, namely, management and optimization of software and hardware operation for data centers; consulting services, namely, data center design and management, computer application deployment and consolidation; providing online non-downloadable software featuring software for monitoring and managing data centers and cloud-based and virtualized computing environments
