Mark Literal(s) JUSTIN FR WORKBOOTS

CASE IDENTIFIERS

Serial Number 86801803 **Application Filing Date** Oct. 28, 2015 **Registration Number** 4968816 **Registration Date** May 31, 2016 **Register** Principal **Mark Type** Trademark **Publication Date** Mar. 15, 2016

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of "JUSTIN FR WORKBOOTS", a circular design and a flame design. The circular design consists of an outer circle having an inner circle. There is a circular border inside the outer circle and there is a border on the outer edge of the inner circle. A rectangular carrier with rounded corners runs the diameter of the horizontal axis of said outer circle and the ends of the carrier extend slightly beyond the outer circle's edge. Hexagons that resemble metal bolts appear at both ends of said carrier. The rectangular carrier is split in half by the inner circle and its border. The stylized word "JUSTIN" appears in the center of the top half of the outer circle and the stylized word "WORKBOOTS" appears in the center of the bottom half of the outer circle. The stylized wording "FR" appears in the center of the inner circle. The flames are adjacent to and appear to be arising from the top of the outer circle. The flames have three points and the points range in size from left to right and are medium, large, and small. The flame points have a border that coalesces into two flames with the larger flame on the right, and the smaller flame on the left. The larger flames curve to the left with their points ending pointed to the right and the far left flame curves right initially but ends with the point towards the left. There is a black border along the edge of the outer circle and the total design element. The color black in this border is outlining or transparent areas and is not part of the mark. **Color Claimed** Color is not claimed as a feature of the mark. **Disclaimer** "FR WORKBOOTS"

RELATED PROPERTIES INFORMATION

Claimed Ownership of US Registrations 2173307, 1274816, 1566752

GOODS AND SERVICES INFORMATION

For Paper printer labels; paper barcode printer labels; business forms; paper identification labels and bands processable through printers such as laser printers and used by healthcare professionals; printable paper stock, namely, blank or partially printed labels, printing machine ribbons; printed matter and printed publications, namely, brochures, instruction and user manuals, written presentations and training materials in the field of computer software, hardware, real time location systems, and printers; printer supplies, namely, blank or partially printed labels not of textile and computer printer ribbons; self-adhering labels made of paper for use for patient identification and patient care in the health care industry; plastic cards imprinted with numbers used to track use of the card; laminated identification cards; transfer film, namely, stickers and transfers; tags, namely, paper identification tags; thermal paper; receipt paper; self-adhesive paper labels

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter **First Use** Oct. 27, 2014 **In Commerce** Oct. 27, 2014

For Paper laminate identification wristbands for use in the healthcare industry; self-adhering labels made of plastic for use for patient identification and patient care in the health care industry; plastic printer labels; plastic barcode printer labels; plastic identification labels and bands processable through printers such as laser printers and used by healthcare professionals; plastic identification tags; self-adhesive plastic labels

International Classes 20 - Primary Classes **US Classes** 2, 13, 22, 25, 32, 50 **International Class Title** Furniture and Articles Not Otherwise Classified **First Use** Oct. 27, 2014 **In Commerce** Oct. 27, 2014

For Business consulting services in the field of computer-based printing, computer software and computer products, printers, data security, access control devices, membership cards, gift cards, financial cards and business forms; business consulting services to manufacturers or shipping terminal operators regarding productivity, efficiency, inventory control, operational procedures, and equipment purchases; business development services, namely, assistance in product commercialization for new technologies; business management consulting services and business consulting services; computerized database management services; conducting dealer incentive award programs to promote the sale of printers, printer labels, and supplies; distributorship services in the field of business forms; information management services, namely, shipment processing, preparing shipping documents and invoices, tracking documents, packages and freight over computer networks, intranet, and internet; online retail store services featuring mobile phones, bar code data capture systems, mobile computing and computer hardware and software, pre-recorded audio and audio visual works and related merchandise via the Internet and other computer and electronic communications networks; physical inventory control services; retail store services featuring mobile phones, bar code data capture systems, mobile computing and computer hardware and software for each of the foregoing, pre-recorded audio and audio visual works and related merchandise and demonstrations of products

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business **First Use** Oct. 27, 2014 **In Commerce** Oct. 27, 2014

For Consultation relating to computer repair; installation, maintenance and repair of electronic equipment, namely, communications equipment and bar code data capture systems; label printer repair services

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair **First Use** Oct. 27, 2014 **In Commerce** Oct. 27, 2014

For Adaptors, chargers, namely, battery charge devices; rechargeable batteries, printer cradles and cases, printer station; barcode readers and scanners, optical scanners, portable computer terminals, computer interface boards, personal digital assistants, hand held auto identification scanners, wireless local area network hardware, and telephones; operating software and parts and fittings for all of the aforesaid goods, and batteries, battery chargers, power supplies and housings for all of the aforesaid goods; barcode reading devices; bar code printing machines; card printing machines; client/server-based communications system comprised of server software and client-device software to allow users and devices to communicate with each other over wired or wireless networks by real time push to talk style voice over IP, text messaging, handwritten messaging, picture messaging with integrated editing capabilities, voice messaging, broadcast voice messaging, and e-mail; computer and network management operating software and hardware for use with payment devices, secure identification and control devices; fixed and portable radio frequency identification devices and readers; communication systems for providing wireless Internet connectivity, namely, a high speed transceiver, base station, antenna, mounting hardware and software for monitoring and operating the systems; computer and network management software and hardware all for use with the management and monitoring of personal digital assistants, vehicle mounted computers, and electronic personal organizers; computer and network management software and hardware for the management and monitoring of cellular phone devices, VoIP communication devices used for mobile customer relationship management; computer and network management software and hardware for use with GPS-driven mapping and direction finding; computer and network management software and hardware for use with handheld computers, RFID readers,

speech-directed devices and speech recognition used for mobile ticketing, payment processing, personal identification collection and verification, dispatching and scheduling, equipment maintenance, break-fix and repair; computer and network management software and hardware for use with payment devices, secure identification and control devices; computer and network management software and hardware for use with transmitting, receiving, viewing, updating and managing data, inventory and material handling, storage and retrieval, shipping and receiving, ordering, picking and cycle counting of merchandise, asset management and tracking, and general data collection; computer and network management software and hardware for the management and monitoring of mobile computers; computer application software for cellular or mobile phones for managing and operating printers, scanners, bar code readers, and mobile computers; computer cables; computer equipment, namely, scanners, printers, optical character recognition devices and other peripheral computer equipment for processing business forms; computer hardware and communications software for electronic file transfer, remote computer access, and remote network access, all in the fields of wide area and local area networks; computer hardware and data management software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of images, voice, sound recordings, printed text and data all captured from bar codes, radio frequency identification tags, and mobile computing and communication devices; computer hardware and handheld computers for end-to-end mobile computing systems for businesses; computer hardware and software for use in establishing, maintaining and managing wide area and local area computer networks and computer network connections, namely, global computer network connections; computer hardware and computer software real-time location system for use in the field of determining the physical location of a variety of objects such as vehicles, inventory, containers, equipment or products, and personnel; computer hardware and software for identifying, locating or tracking assets, equipment or people; computer hardware and operating software for real-time location systems; computer hardware, namely, hand-held and portable computers; computer operating systems and portable radio receivers and transmitters; computer peripherals for mobile computing and mobile communication devices; computer programs and program manuals all sold as a unit for graphic design, application testing, computer system testing, computer system integration, and printing, for use in the fields of software development tools, sales management systems, financial systems, agricultural systems, sales training, advertising systems, process control, job control, environmental monitoring, order logging, diagnostics, databasing activities, spreadsheet analysis, word processing, communication systems, repair and maintenance systems, presentation systems, quality control systems; computer programs, namely, software for designing printing and creating bar code labels, tags tickets, cards, or wristbands; computer programs for managing printer operation, maintenance or supplies replenishment; computer programs for operating printers; computer software and computer programs used for transmission, reproducing and receiving of sound, images, video and data over a telecommunications network or system between terminals and for enhancing and facilitating use and access to computer networks and telephone networks; computer software and manuals sold as a unit for the management and control of manufacturing, distribution center and warehouse inventory business operations; computer software for assessing and protecting wireless and wired computer networks, servers, applications and desktops against attack, intrusion and misuse; computer software for computer system and application development, deployment and management; downloadable operating software for printers; computer software for driving printers to print labels; computer software, namely, software for use in connection with supply chain management and execution; computer software for operating wireless local area networks and for managing input/output operations on handheld computers; computer software for protecting data/information stored on and/or transmitted across

wireless and wired networks, servers, applications and desktops against attack, intrusion and misuse; computer software for recording, managing, retrieving and storing customer data, contact information, preferences and customer satisfaction information; computer software for the management and control of manufacturing, distribution center and warehouse inventory management operations; computer software for the management and monitoring of handheld computers; computer software for database management in the field of database and information management; computer software offered as a feature of cellular or mobile phones to browse and access commonly used applications on the phone; computer software to create and process business forms; computer software, namely, communications protocol software for mobile computing and mobile communication devices; computer software that enables and provides two-way wireless voice, images, sound recordings, printed text and data communication connections and the wireless transfer of voice, images, sound recordings, printed text and data information; computer telephony software enabling telephone and communication activities to be performed through a network; computer telephony software for displaying and updating data received from the network; computer utility software for performing computer maintenance work; connector to connect printers and computers; digital disc drives; electrical connectors; electrical controllers and data processors; downloadable electronic user manuals sold therewith; fast communication links for data transfer, namely, USB cables, fiber optic cables, parallel cables, serial cables, and DIN cables; fixed and portable radio frequency identification devices and readers; hand held scanners that automatically identify the presence of bar codes and radio frequency identification tags; handheld and integrated laser scanners; computer and network management software and hardware for the management and monitoring of rugged handheld personal computers; integrated voice and data enabled wide area wireless radio; linear and area imagers and digital cameras; magnetic card and smart card reading devices; memory devices, namely, blank flash memory cards; mobile and fixed computers and monitors for end-to-end mobile computing systems for businesses; mobile or handheld printers for labels and business forms; modem devices; near field communication (NFC) technology-enabled devices, namely, printers; pagers; portable and fixed radio frequency computer and network management software and hardware all for use with the management and monitoring of personal digital assistants, vehicle mounted computers and electronic personal organizers; portable and fixed radio frequency receivers and transmitters portable and handheld computers for incorporating bar code and radio frequency identification tag scanners and operating software therefore; portable computers with auto identification functionality and operating software therefore; pressure and temperature sensors; printers, namely, mobile printers and label printers; printers, print engines and printer modules for testing RFID transponders, reading and writing RFID data, and creating encoded smart tags and labels by applying RFID components; printer components, namely, printheads; thermal printers; radar and radar detectors; radio frequency identification printing and encoding machines; radio frequency identification, RFID, smart tags and labels featuring embedded microchips, integrated circuits, antennas and transponders for recording, receiving, storing, encoding, updating and transmitting data; readers and tags for real-time location systems; radio transceivers and operating software therefore; computer interface boards, computer cables, electrical connectors, and computer peripherals therefore, all sold as a unit; computer software containing communications protocols for handheld mobile electronic devices; radio receivers and transmitters; smartphone applications and software to develop smartphone applications for printing labels, receipts, cards, tags and business forms; software for reading bar codes, bar code readers, bar code scanning devices for physical inventory control; software to design, configure, operate and trouble-shoot communications systems; software to design cards; software to design labels and configure label printers;

software to manage and drive card printers; software for enabling a general-purpose computer to print and/or read bar codes; software to design, configure, operate and trouble-shoot real-time location system; software to program and manage network printers; telecopier machines; telemetry tag that transmits the location of objects such as vehicles, inventory, containers, equipment or products and personnel; two-way radios; ultra wideband (UWB) radar systems comprising radar; ultra wideband communications systems comprising UWB transmitters and receivers; ultra wideband signal generators; voice processing devices; digital dictation machines; digital answer telephone machines; wireless Ethernet bridges; wireless local area network hardware equipment, namely, computer parallel and serial ports, access points for connecting network computer users and computer network switches, electronic controllers, electronic mini-controllers and antennas; wristband printers; RFID cards; downloadable software for tracking physical movement for use with motion-detecting sensors; downloadable customized forms for the operation and management of business activities

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus **First Use** Oct. 27, 2014 **In Commerce** Oct. 27, 2014

For Providing access to electronic databases and networks, allowing the user to send, receive and interact with audio, text, digital images, videos, electronic game applications, and social media over a network; providing access to network communications infrastructure to allow the user to receive location based coordinates, namely, providing access to telecommunication and global computer networks; technical consulting in the field of data transmission and Radio Frequency Identification systems (RFID); wireless telecommunications services, namely, wireless data messaging services that allow a user to send and receive instant messages, electronic mail and data; wireless telephone services and electronic transmission of data and documents via communications networks and global computer networks; provision of technical information and technical consultation in the area of telecommunications; telecommunication access services, namely, providing access to, denying access to electronic databases and networks to affect power levels on wireless telecommunication devices; telecommunications network planning

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication **First Use** Oct. 27, 2014 **In Commerce** Oct. 27, 2014

For Basic and applied research in the fields of physics, chemistry, engineering, computer programming, information technology and telecommunications; computer programing and database design for others; computer services, namely, designing and implementing for others wireless local area networks, end-to-end mobile computing systems and computer hardware and software systems for capturing, moving, and managing images, voice, sound recordings, printed text and data all captured from bar codes, radio frequency identification tags, and mobile computing and communication devices; computer services, namely, providing an interactive site featuring technology that allows communications, information download, software download, computer hardware and software support services, and sales support on a global computer network, accessible via computer, land-line and wireless communications devices; computer software design for others; computer software development in the field of mobile point-of-sale transactions; computer software interface design for others; consultation and design services relating to computers in the field of GPS-driven mapping and direction finding; consultation and design services relating to computers in the field of mobile customer relationship management; consultation and design services relating to computers in the field of mobile ticketing, break-fix and repair; consultation and design services relating to computers used for transmitting, receiving, viewing, updating and managing data, inventory

and material handling, store and retrieval, shipping and receiving, ordering, picking and cycle counting of merchandise, asset management and tracking, payment processing, personal identification collection and verification, speech recognition, dispatching and scheduling, general data collection and equipment maintenance; consulting services in the field of design, selection, implementation and use of computer hardware and software systems concerning bar code data capture systems, mobile computing and mobile communication devices for others; consulting services in the field of design, selection, implementation, and use of computer hardware and software systems for others; custom design and development of computer hardware, computer software; design and development of digital telecommunications systems for public and private networks; installation of computer software; installation of computer software concerning bar code concerning code data capture systems, mobile computing and mobile communication devices; non-downloadable software services, namely, providing temporary use of non-downloadable software for real-time location system; printer service plans; providing technical information concerning the features and interoperability of the software of third party software providers concerning bar code data capture systems, mobile computing and mobile communication devices; providing temporary use of non-downloadable software for use in management and operation of manufacturing and shipping container depots, logistics centers, rail terminals, intermodal terminals or airports; research and development of new products for others in the field of telecommunications; service rendered by professionals for product support, namely, the provision of technical information and technical consultation in the area of computers; technical consultation services in the field of bar code data capture systems, mobile computer and mobile communication devices and computer software and hardware for each of the foregoing, including installation of computer software for bar code data capture systems, mobile computing and mobile communication devices; technical consulting and custom design of data transmission, reception and management systems, and material handling systems; technical consulting, design and integration services for Radio Frequency Identification systems (RFID); technological planning and consulting services in the field of telecommunications network planning; up-dating of computer software for bar code data capture systems

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services **First Use** Oct. 27, 2014 **In Commerce** Oct. 27, 2014
