For Insurance agency services; financial affairs, namely, financial information, management and analysis; monetary affairs, namely, financial information, management and analysis; real estate agency services; leasing of real estate; financing services; monetary transactions, namely, exchanging currency, hire-purchase financing, issuance of securities; financial transactions, namely, exchanging currency, hire-purchase financing, issuance of securities; leasing, loans (financing), financing of instalment plan purchases; hire purchase financing, credit financing; financial sponsorship; evaluation of patents; evaluation of industrial property rights and copyrights; conducting of financial transactions; capital investments; conducting and arranging of asset investments; apartment house management; financial services, in particular acquisition of securities of all kinds by means of purchasing and assumption, in particular capital issues; financial and asset management for securities of all kinds, company shares, bonds and other stock market quotations; portfolio management and financial portfolio valuation of stock market quotations, management, for others; providing and procurement of data for assisting during the underwriting of agricultural insurance; analysis and research in the field of agricultural risk analysis from an insurance perspective; financial analysis and providing of reports relating thereto; providing and analysis of financial reports; financial market analysis and providing of reports relating thereto; providing of financial and insurance reports; services in the field of financial and monetary affairs; services in connection with insurance contracts of all kinds; services rendered by banks of all kinds or institutions related thereto, including currency exchanges or settlement agencies, namely, banking business; services rendered by credit institutions other than banks, including credit cooperatives, financial companies, money lenders, namely, credit cooperatives, clearing houses; services of investment companies, holding companies, namely, investment and trust companies; securities and commodities brokerage; trusteeships; issuing of travellers' cheques and letters of credit; services rendered by property managers in relation to rental or appraisal or by capital investors, namely, financial assessments, real estate management; services for insured people, and services in relation to the conclusion of insurance contracts, namely, insurance services in the nature of insurance consultations; banking; banking by means of online banking; financial evaluation (insurance, banking, real estate); home banking; savings banks; financial clearing; building contractor services, namely, financial preparation for building projects; development of usage concepts for real estate with regard to financial matters, namely, real estate management; financial sponsorship of sport events; financial sponsoring of sport events; financing services; financial consultancy, credit consultancy; financial business liquidation services; mergers and acquisitions, namely, financial consultancy during the purchase or sale of companies, and company shares; mutual funds; financial management; fiduciary

services, namely, fiduciary representative services; investment management services; providing of investment facilities; providing of investment facilities in relation to goods indices; investment consultancy; financial consultancy, financial valuation, financial analysis and fiscal evaluation; gathering, providing and dissemination of financial information in relation to goods indices; information and consultancy in relation to the aforesaid services; credit and insurance services; issuance of credit cards; financial services; banking transactions, banking, financial transactions, financial analysis, financial services, financing services, collecting of outstanding payments, lending, leasing, in particular of installations, land, machines, vehicles and apparatus for locomotion and propulsion by land, air, water, rail and in space, in particular aircraft, helicopters and rotorcraft, spacecraft and satellites; real estate brokers, assessment and valuation of real estate, real estate consultancy, providing of information relating to real estate, real estate management, rent collection; insurance underwriting, insurance consultancy, insurance information, underwriting of insurance, guarantees; savings banks, pensions, capital investments, savings, pension savings, financial valuation (insurance, banking, real estate), financial information, forming of joint investment funds, placement of funds, monetary transactions, actuarial services, factoring, credit bureaux, stock exchange quotations, stock brokerage services, savings banks, capital investment, services in connection with credit cards, services in connection with debit cards, exchanging money, cheque verification, issuing of travellers' cheques, issuing of bank cheques, depositing of valuables in safes, settlement services (exchange transactions), insurance brokerage, deposits of valuables, issue of tokens of value, issuance of credit cards; issuing of store cards (financial services); fiscal assessment; fiduciary services, namely, fiduciary representative services; electronic capital transfer; real estate management; asset management; life insurance, marine transport insurance, accident insurance, fire insurance, health insurance, home insurance, rent guarantee insurance, rental of flats, rental of office space, mortgage banking, banking, financial transactions, monetary transactions, instalment loans, financial sponsoring, loans (financing), financial transactions, direct banking (home banking), capital formation; information, consultancy and assistance in relation to banking, finances and money; online services in the field of banking, financial affairs, insurance underwriting and real estate affairs via telecommunications networks including mobile telephones, data transmission networks and data communications networks, in particular the Internet and intranets via electronic websites, namely, financial evaluation, financial assessment, and insurance, sales and leasing of real estate; real estate insurance; financial affairs in relation to real estate and land, namely, real estate appraisal, real estate management, real estate investment; development of usage concepts in relation to real estate and land, namely, real estate appraisal, real estate management, real estate investment; facility management in relation to real estate and land; assessment and valuation of real estate and land; online services in the fields of banking, financial affairs, monetary affairs, insurance underwriting and real estate affairs via telecommunications networks including mobile telephones, telematics and data communications networks in the form of the Internet and intranets via electronic websites, namely, financial evaluation, financial assessment, and insurance, sales and leasing of real estate; consultancy in relation to capital market trading; providing of the aforesaid services online from a computer database or via the Internet; credit and loans for the financing of aircraft, spacecraft, satellites, helicopters and rotorcraft; financial services in relation to the leasing of aircraft, spacecraft, satellites, helicopters and rotorcraft; insurance in relation to aircraft, spacecraft, satellites, helicopters and rotorcraft; guarantee services for aircraft, spacecraft, satellites, helicopters and rotorcraft; financial sponsorship of events and meetings in the field of aircraft, spacecraft, satellites, helicopters and rotorcraft; procurement of charitable financial resources; charitable services, namely, procurement of financial support for developing countries for advancing their autonomy

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For Vehicles, namely, airplanes, aircrafts, helicopters, rotorcrafts, launch vehicles for spacecraft, namely, rockets and launches, carrier rockets, spacecraft, space vehicles, unmanned air vehicles, drones, automobiles, trucks, lorries, boats, ships, trains; apparatus for locomotion by land, air, water or rail, namely, airplanes, aircrafts, helicopters, rotorcrafts, launch vehicles for spacecraft, namely, rockets and launches, carrier rockets, spacecraft, space vehicles, unmanned air vehicles, drones, automobiles, trucks, lorries, boats, ships, trains; aircraft; spacecraft, namely, rockets, carrier rockets, shuttles, space vehicles; vehicles, namely, hot air balloons; aircraft components, included in this class, namely, engines, fuselage, wings, vertical tails, horizontal tails, aerodynamic control surfaces, aircraft propulsion systems; remote control aircraft; screw propellers for vehicles; military vehicles for transport, in particular aircraft; seat covers for vehicles; unmanned aircraft; drones; apparatus, machine equipment and equipment for aviation and space travel, namely, airplanes, aeroplanes, aircrafts, helicopters, rotorcrafts, launch vehicles for spacecraft, namely, rockets and launches, carrier rockets, spacecraft, space vehicles, unmanned air vehicles, drones, automobiles, trucks, lorries, boats, ships, trains; military aircraft; helicopters and rotorcraft; helicopters and rotorcraft and structural parts and fittings therefor; fuselages for helicopters and rotorcraft; tail booms for helicopters and rotorcraft; main rotors and tail rotors for helicopters and rotorcraft; rotor blades for helicopters and rotorcraft; screw-propellers for helicopters and rotorcraft; landing wheels for helicopters and rotorcraft; shock absorbers for helicopters and rotorcraft; windows for helicopters and rotorcraft; structural glass panels for helicopters and rotorcraft; seats for helicopters and rotorcraft; seat covers for helicopters and rotorcraft; seat cushions and seat padding for helicopter and rotorcraft seats; seat belts for helicopter and rotorcraft seats; upholstery for helicopters and rotorcraft; interior linings for helicopters and rotorcraft; joysticks, levers and pedals for controlling helicopters and rotorcraft; petrol tanks and gas tanks, and tank caps and gas caps for helicopters and rotorcraft; protective strips for helicopters and rotorcraft; protective strips for rotor blades for helicopters and rotorcraft; wings and blades for helicopters and rotorcraft; landing gear and undercarriages for helicopters and rotorcraft; brakes for helicopters and rotorcraft; doors for helicopters and rotorcraft; airplane fittings and connectors, aircraft fittings and connectors, helicopter fittings and connectors, rotorcraft fittings and connectors, fittings and connectors for launch vehicles for spacecraft, namely, rockets and launches, carrier rocket fittings and connectors, spacecraft fittings and connectors, space vehicle fittings and connectors, unmanned air vehicles fittings and connectors, drone fittings and connectors, automobile fittings and connectors, truck fittings and connectors, lorry fittings and connectors, boat fittings and connectors, ship fittings and connectors, train fittings and connectors; airplane parts and components, aircraft parts and components, helicopter parts and components, rotorcraft parts and components, parts and components for launch vehicles for spacecraft, namely, rockets and launches, carrier rocket parts and components, spacecraft parts and components, space vehicle parts and components, unmanned air vehicles parts and components, drone parts and components, automobile parts and components, truck parts and components, lorry parts and components, boat parts and components, ship parts and components, trains parts and components

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Textiles and textile goods, not included in other classes, namely, wall hangings of textile, curtains of textile, furniture coverings of textile, towels of textile; bed covers; plastic table covers; fabric, impervious to gases, for aeronautical balloons; textile banners, cloth banners; textile flags, cloth flags; unfitted furniture coverings of textile; loose covers for furniture; curtains of textile or plastic; fabrics for textile use; textile labels; textile fabrics for clothing, home and commercial interiors; towels; bath towels; terry towels; place mats of plastic; blankets, namely, bed blankets, children's blankets; travelling rugs

International Classes 24 - Primary Classes **US Classes** 42, 50 **International Class Title** Fabrics

For Meat, fish, poultry and game; meat extracts; preserved, frozen, dried and cooked fruits and vegetables; jellies, jams, compotes; eggs; milk and milk products excluding ice cream, ice milk and frozen yogurt; edible oils and fats

International Classes 29 - Primary Classes **US Classes** 46 **International Class Title** Meats and Processed Foods

For Games and playthings, namely, board games, puzzle games; gymnastic and sporting articles not included in other classes, namely, balls, ropes, weights, bats, rackets; decorations for Christmas trees; scale model vehicles and parts therefor included in this class, in particular models of aircraft and in particular model aeroplanes; toy vehicles; paragliders; jigsaw puzzles; playing cards; kites; inflatable toys, in particular aircraft; balloons; balls for sports and games; building blocks (toys); games with building blocks; dominoes and domino games; electronic targets for games and sports; flying toy discs; toy mobiles; plush toys, stuffed toys; swimming pool toys; radio control toys, in particular vehicles of all kinds; toy construction sets for scale models; snow globes; teddy bears; sporting articles, namely, weightlifting belts; sticks, in particular golf clubs; bags especially designed for sports articles; discuses for sports; golf equipment and golf accessories, namely, repair tools for lawn; golf gloves; golf bags, with or without wheels; golf balls; hang-gliders, paragliders; skis, in particular for use on snow and water; surfboards; bags especially designed for skis and surfboards; toy vehicles with radio control; scale model vehicles of helicopters and rotorcraft

International Classes 28 - Primary Classes **US Classes** 22, 23, 38, 50 **International Class Title** Toys and Sporting Goods

For Paper, cardboard and goods made from these materials, not included in other classes, in the nature of printed matter, namely, cards, envelopes, letter paper, craft paper, cardboards; bookbinding material; photographs; stationery; adhesives for stationery or household purposes; artists' materials, namely, pens, water colors, oil painting colors, palette, canvas; paint brushes; typewriters and office requisites, namely, rubber bands, staple removers, writing instruments, pencils, pens, staplers, document folders, manual paper cutters, adhesive tape dispensers for office requisites; printed instructional and teaching material in the field of aerospace, defense and security; plastic materials for packaging, namely, plastic bags for packing, absorbent sheets of plastic for foodstuff packaging, plastic extensible packaging film, plastic film for wrapping, plastic mesh packaging bag; printers' type; printing blocks; fountain pens and nibs; typewriters and office requisites, except furniture, namely, rubber bands, staple removers, writing instruments, pencils, pens, staplers, document folders, manual paper cutters, adhesive tape dispensers; leaflets about the fields of aerospace, defense and security; posters; labels, not of textiles, namely, printed paper labels, shipping labels; flags of paper; postcards; calendars; printed aerial photographs and satellite images; geographical maps; topographical maps; printed geographical pictures and images; printed geographical lists, graphics, diagrams and drawings; printed geographical surveys and studies; business cards; desk holders for business cards; paper bags, paper sacks and conical paper bags; books in the field of aerospace, defense and security; exercise books for college students, note books, jotters, namely, paper notebooks; globes; desk mats; passport cases and passport sleeves; personal organisers; printed matter, in particular books, manuals in the nature of handbooks, magazines, periodicals, illustrated magazines, journals, newspapers, catalogues, pamphlets, all in relation to helicopters and rotorcraft

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Machines, namely, welding machines, drill bibs for metal processing machines, conveyors, painting machines, robotic arms, robot, industrial robotic arms, foundry machines, and machine tools, namely, machine tools for metal cutting; motors and engines except for land vehicles; machine coupling and transmission components except for land vehicles; agricultural implements other than hand-operated, namely, cultivators, harvesters; incubators for eggs; automatic vending machines; aeroplane engines; propulsion mechanisms for aircraft; machines and machine tools, in particular for the manufacture and repair of vehicles and apparatus and parts therefor for locomotion and propulsion by land, air or water and in particular for the manufacture and repair of aeroplane engines, namely, conveyors, painting machines, repair machinery for vehicles, robotic arm, robots, industrial robotic arm, foundry machines, machine tools for metal cutting; turbines other than for land vehicles; auxiliary propulsion mechanisms, other than for land vehicles, namely, hydraulic and mechanical pumps, drives; machine parts, namely, drilling bits, shock absorber pistons, guards, ball valves, bearings; mechanical tools, namely, wrenches, ratchets, sockets, screwdrivers, pliers, hammers, breaker bars, pry bars, flashlights, headlamps, multi-meters, extension bars, socket swivels, jacks, jack-stands; power-operated tools, namely, grinders, buffers, drill hammers, milling tools, turning tools, boring tools, drilling tools; machine tools, namely, taps, lathes, metalworking machine tools; electrical hand tools, namely, electrical hand screwdrivers, electrical wire cable cutters, electrical pliers; pneumatic hand tools, namely, spray gun, chisel hammer, air grinders, air drills, gas powered nailers, air polishers; hand-held tools, other than hand-operated jacks, namely, nut-runners, drilling tools, screwdrivers; aeronautical machines for producing and refining aircraft parts and assembling of aircraft; drive systems for satellites, namely, propulsion mechanisms and nozzles; drives, motors and engines and propulsion mechanisms other than for land vehicles; drive systems and drive mechanisms for helicopters and rotorcraft; propulsion mechanisms, motors and engines for helicopters and rotorcraft parts, namely, oil tanks, oil containers and petrol caps, oil filler caps; intake ducts, intake manifolds, air intakes for propulsion mechanisms and motors and engines for helicopters and rotorcraft; lubricating installations and lubricating systems for propulsion mechanisms and motors and engines for helicopters and rotorcraft; cooling systems for propulsion mechanisms and motors and engines for helicopters and rotorcraft; propulsion mechanisms and motors and engines for helicopters and rotorcraft parts, namely, oil coolers; guide bearings for transmission shafts for helicopters and rotorcraft; couplings for helicopters and rotorcraft; main rotors and tail rotors for helicopters and rotorcraft; rotor heads (rotor hubs) for helicopters and rotorcraft; guide bearings for rotor heads (rotor hubs) for helicopters and rotorcraft; pneumatic actuators for helicopters and rotorcraft; starters for current generators and generators of electrical energy; generators for electrical energy for helicopters and rotorcraft; hydraulic valves, motorised valves, pneumatic valves, pressure valves and servo valves for use in helicopters and rotorcraft; power-operated blowing machines for use in helicopters and rotorcraft; fuel pumps and fuel conveying pumps for helicopters and rotorcraft; fuel filters for helicopters and rotorcraft; electric pumps, hydraulic pumps and pneumatic pumps for use in helicopters and rotorcraft; cylinders for helicopters and rotorcraft; electric jacks, lifting cylinders, hydraulic jacks, pneumatic jacks for use in helicopters and rotorcraft; blowing machines and fans for motors and engines and propulsion mechanisms for helicopters and rotorcraft; alternators for helicopters and rotorcraft; regulators and regulating apparatus for propulsion mechanisms and motors and engines for helicopters and rotorcraft; machines and machine tools for the manufacture, production, maintenance, servicing, repair and rebuilding of helicopters and rotorcraft; machine coupling and transmission components for helicopters and rotorcraft; motors and engines, drives and propulsion mechanisms for helicopters and rotorcraft; servomotors for helicopters and rotorcraft; gears and gear cases, gear boxes for helicopters and rotorcraft; drive shafts and power transmission shafts for helicopters and rotorcraft; hydraulic actuators and drives for helicopters and rotorcraft; hydraulic engines and motors and hydraulic drives for helicopters

and rotorcraft; hydraulic regulators and controllers for motors and engines and drives for helicopters and rotorcraft; electricity equipment, apparatus, tools, installations for aircraft; fittings and connectors for the aforesaid goods; fuel dispensing pumps for service stations

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Alcoholic beverages except beers

International Classes 33 - Primary Classes **US Classes** 47, 49 **International Class Title** Wines and Spirits

For Firearms; ammunition and projectiles; explosives; fireworks; rockets (projectiles), remote control projectiles, namely, missiles; signal rockets; visors and sights, other than telescopic sights, for firearms; visors and sights, other than telescopic sights, for cannons and guns (artillery); rifles of metal

International Classes 13 - Primary Classes **US Classes** 2, 9 **International Class Title** Firearms

For Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes, namely, emergency light, lighting installations, heating installation, liquid fuel heating appliance, gas fuel heating appliance, steam generating installations, electric cooker, induction cooker, microwave ovens, refrigerator, freezing device, namely, freezers, dryer for industrial use, namely, dryer for drying paint, dryer for drying coatings, covection dryers, air dryer for drying clothes, air dryer for drying hand, air dryer for drying hair, ventilation machine, ventilation regulator, valve for water supply, safety accessories for water supply apparatus, sanitary installations, regulating accessories for water supply apparatus, namely, metered valves; forehead lamps; electric pocket torches; lighting apparatus and lighting devices for helicopters and rotorcraft, namely, halogen lamps, laser lighting device, lighting installation, flash bulbs; heating apparatus and heating equipment for helicopters and rotorcraft; air treatment installations, ventilating apparatus and air conditioning apparatus for helicopters and rotorcraft

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Education services, namely, providing classes in the field of aerospace, defense and security; providing training in the field of aerospace, defense and security; entertainment in the nature of air shows; organizing community sporting and cultural activities; providing of training in the field of aviation and space travel; organisation of aviation and space travel exhibitions for information, providing of training and further training and entertainment purposes; videotape film production; arranging and conducting of correspondence courses in the field of aerospace, defense and security; publication of texts, illustrations, books, newspapers, periodicals, illustrated magazines, magazines, publications in all fields and all forms, comprising electronic and digital publications, publications on sound recording carriers and/or image carriers, multimedia carriers, (in particular interactive discs, digital sound CD-ROMs) of multimedia programs (computerised editing of texts and/or still or moving images); arranging and conducting of further practical training, demonstrations, and workshops in the field of aerospace, defense and security; arranging and conducting of seminars, study courses and courses in the field of aerospace, defense and security; arranging and conducting of lectures, forums, congresses and colloquiums in the field of aerospace, defense and security; production of radio and television programmes, audiovisual and multimedia programmes (film and recording studios), in particular computerised editing of texts and/or still or moving images and/or music or other sounds and noises, for interactive or other use; organisation of competitions, games, and information campaigns in the field of aerospace, defense, and security; production of radio and television information and entertainment programmes, radio and television entertainment,

audiovisual and multimedia programmes (film and recording studios), in particular computerised editing of texts and/or still or moving images and/or music or other sounds and noises, for interactive or other use; organisation of shows; production and rental of films and cassettes, including video cassettes, and sound recording or video carriers and multimedia carriers of all kinds in general (in particular interactive discs, digital sound CD-ROMs); rental of books and other publications; games libraries for loaning and distribution of games, in particular electronic games, through franchising, in particular providing of basic training for employees; editing, in particular editing of texts; providing of news reports, photojournalism; translation; rental of recorders, in particular cassette recorders; recording of films on video cassettes and videotapes; practical training, instruction (teaching) and demonstration in the fields of defence, monitoring, communications and security, reconnaissance and geography; editing and publication of books, printed matter, CD-ROMs and film productions, solely in the fields of reconnaissance and geography for defence and security purposes; publication of books and periodicals online; book publishing; magazine publishing; periodical publishing; computer courses relating to the operation, performance and security of information and position determining systems; preparation and conducting of colloquiums in the field of the exploitation of satellite data and products derived therefrom; preparation and conducting of conferences in the field of the exploitation of satellite data and products derived therefrom; preparation and conducting of meetings and congresses in the field of the exploitation of satellite data and products derived therefrom; preparation and conducting of seminars in the field of the exploitation of satellite data and products derived therefrom; photography, organisation of exhibitions for cultural and educational purposes, photojournalism, publication of texts, other than publicity texts, in the field of the exploitation of satellite data and products derived therefrom; electronic publication of books and online magazines in the field of the exploitation of satellite data and products derived therefrom; production of television programmes; education, providing of training, entertainment, sporting activities, cultural activities, information relating to educational and entertainment events, film production, services relating to digital images, publication of books; providing of training for aircraft, helicopter and rotorcraft pilots; providing of training for mechanics, technicians and engineers in the field of aircraft, helicopters and rotorcraft; providing of training by means of flight simulators for aircraft, helicopters and rotorcraft; conducting of courses, conferences, seminars, workshops in the field of aircraft, helicopters and rotorcraft and dissemination of training material in connection therewith; conducting of courses, conferences, seminars, workshops in relation to the management, repair, maintenance, servicing and reconditioning of aircraft, helicopters and rotorcraft and flight security and dissemination of training material in connection therewith; publication of books, magazines, periodicals, newspapers, illustrated magazines, catalogues and pamphlets in relation to aircraft, helicopters and rotorcraft; publication of training and maintenance and servicing manuals and handbooks in relation to aircraft, helicopters and rotorcraft; online library services, namely, procurement and providing of electronic library services for the supply of electronic information in the field of aircraft, helicopters and rotorcraft; providing and procurement of non-downloadable electronic publications in relation to aircraft, helicopters and rotorcraft; production of training videos in relation to aircraft, helicopters and rotorcraft; providing and procurement of websites offering information regarding the training of aircraft pilots, helicopter pilots and rotorcraft pilots, mechanics, technicians and engineers; organisation of air shows and flying demonstrations and exhibitions in relation to aircraft, helicopters and rotorcraft for entertainment, cultural and educational purposes; charitable services, namely, providing of education, training and consultancy and support for underprivileged young people in the field of aircraft, helicopters and rotorcraft; providing of training for flight personnel; providing of training for maintenance and servicing; operational training; development of aids for the providing of training

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Bleaching preparations and other substances for laundry use, namely, sodium hypochlorite bleaches, chlorine bleaches, liquid household bleaches, oxygen bleaches; cleaning, polishing, scouring and abrasive preparations; soaps; perfumery, essential oils, cosmetics, hair lotions; dentifrices; oils, namely, bath oils, massage oils, body oils, cosmetic oils, ethereal oils; cosmetic bath salts; hand lotions, body lotions; shower gels and bath gels; perfumery, namely, perfumes, toilet waters, scented water; non-medicated toiletries

International Classes 3 - Primary Classes **US Classes** 1, 4, 6, 50, 51, 52 **International Class Title** Cosmetics and Cleaning Preparations

For Advertising; business management; business administration; office functions; commercial and organisational consultancy in the aviation and space travel sector; marketing studies; marketing for aircraft and parts therefor; organisation of exhibitions for commercial or advertising purposes; airport operation, in particular management, administration and organisation of an airport; events for advertising and sales promotion, sponsorship in the form of advertising; business management for participants in sporting events; organisation and conducting of sporting events for advertising and promotion; advertising and promotion, in particular advertising and promotion of the goods and services of others through sponsorship; input of data into databases and legal databases; business management of services for exchanging of correspondence, in particular management and administration of correspondence, for others; presentation of goods on communications media of all kinds for sale, in particular direct sale of satellite-generated images or products derived from two-dimensional or three-dimensional satellite images, geographical maps or topographical maps consisting of images generated by satellites or antenna systems, digital evaluation models or contour line models in the form of coordinate grids for components encoded by elevation and receiving antennas; input of information into computer databases and computer memories, in particular input of images generated by satellites or antenna systems, input of high-resolution and very high-resolution digital images generated by satellites; retailing and wholesaling, namely, retail store services and wholesale store services featuring images generated by satellites, in particular geographical images, geographical maps and topographical maps consisting of images generated by satellites; online presentation of images generated by satellites, in particular geographical images, geographical maps and topographical maps consisting of images generated by satellites or antenna systems, with a view to the sale of the aforesaid goods and providing of commercial information relating to the aforesaid goods; procurement and providing of business information; business consultancy; business consultancy with regard to Internet communications; procurement and providing of business information with regard to advertising, namely, for industries, the fire brigade and government; advertising, business management, business administration and office functions, all being in the field of aircraft, helicopters and rotorcraft; logistics management in the field of aircraft, helicopters and rotorcraft; business consultancy in the field of aircraft, helicopters and rotorcraft; charitable services, namely, organisation and development of projects with the aim of improving the life of underprivileged people, impoverished people, people with disabilities and sick people; charitable services, namely, organisation and development of projects with the aim of supporting developing countries through advancing and supporting their autonomy; procurement, namely, purchasing of replacement parts, fittings, dynamic components and equipment for aircraft, helicopters and rotorcraft for others; preparation and management of administrative documents belonging to a fleet of aircraft, helicopters and rotorcraft, for others; retail store and wholesale store services featuring aircraft, helicopters and rotorcraft, replacement parts, fittings, dynamic components and equipment therefor; procurement services enabling purchasers

of aircraft, helicopters and rotorcraft to check the price and availability of replacement parts, through a website, place orders, arrange the return of replacement parts for repair and reconditioning, order technical publications, track orders, view invoices and request information; preparation and conducting of trade fairs and exhibitions for commercial and advertising purposes in the field of aircraft, helicopters and rotorcraft

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Grains and agricultural, horticultural and forestry products not included in other classes, namely, unprocessed grains, grains for animal consumption, edible root vegetable, Christmas trees, fresh mushrooms, mushroom spawn, unprocessed wood, namely, logs; live animals; fresh fruits and vegetables; bird seeds, crop seeds, flower seeds; natural plants and flowers; foodstuffs for animals; malt for brewing and distilling

International Classes 31 - Primary Classes **US Classes** 1, 46 **International Class Title** Natural Agricultural Products

For Building construction; repair of machinery, computers, sensors, airplanes, aircrafts, helicopters, rotorcrafts, launch vehicles, carrier rockets, spacecraft, unmanned air vehicles, drones, automobiles, trucks, lorries, boats, ships, trains; installation services for machinery, computers, sensors, airplanes, aircrafts, helicopters, rotorcrafts, launch vehicles, carrier rockets, spacecraft, unmanned air vehicles, drones, automobiles, trucks, lorries, boats, ships, trains; building construction with regard to the field of aviation and space travel, in particular airports and rocket launch areas; repair, maintenance and disassembly, in particular in the field of vehicles and apparatus for locomotion by land, air or water, and of drive motors; maintenance of computer hardware; vehicle service stations (refuelling and maintenance); fuelling of vehicles; in-flight refuelling; maintenance of measuring instruments, tensioning devices, tools and replacement parts; building, construction, assembly, installation and repair of devices for carrier rockets, spacecraft and satellites; building, construction, assembly, installation and repair of carrier rockets, spacecraft and satellites; repair services in the nature of assistance, help and support in the event of faults and defects in aircraft, spacecraft and satellites; information in relation to the repair of aircraft; providing and procurement of information in relation to the repair of aircraft; installation of hardware for mechanical, electric and computer interfaces between a satellite and a launch rocket, in particular carrier rockets; installation of satellites on carrier rockets; installation of satellites and spacecraft on carrier rockets, in particular mechanical assembly, configuration and installation of electric and computer connections (hardware); construction, building and expansion of installations, in particular satellites and ground stations and equipment relating thereto; information in relation to repair and construction, building and expansion of installations and equipment in the aeronautics sector; repair, in particular of vehicles and apparatus for locomotion and propulsion by land, air or water, including unmanned aircraft, aircraft, drones and drive motors; installation, repair, maintenance and servicing of electric and electronic installations, equipment, apparatus and devices, in particular for aeronautics, and of encryption installations, instruments, apparatus and devices; services in the field of recycling and disassembly of the aforesaid goods, namely, aircraft, helicopters, rotorcraft, spacecraft, and satellites; repair, maintenance and servicing, in particular in the field of vehicles and apparatus for locomotion by land, air or water, and drive motors; repair, in particular in the field of vehicles and apparatus and parts therefor for locomotion by land, air or water, and drive motors; installation, expansion, maintenance, servicing, repair and reconditioning of helicopters and rotorcraft, components, structural parts, fittings and connectors, dynamic components and equipment therefor; installation, expansion, maintenance, servicing, repair and reconditioning of machine coupling and transmission components for helicopters and rotorcraft, motors and engines

and drives for helicopters and rotorcraft, main rotors and tail rotors for helicopters and rotorcraft, rotor blades for helicopters and rotorcraft, avionics equipment and apparatus for helicopters and rotorcraft; maintenance, servicing, repair, installation and technical updating of a fleet of helicopters and rotorcraft to comply with the requirements of national, foreign, civil and military legislatory and regulatory requirements; inspection of helicopters and rotorcraft before maintenance, servicing and repair; adaptation of helicopters and rotorcraft to customer requests (installation); painting and varnishing of helicopters and rotorcraft; installation, expansion, maintenance, servicing and repair of nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, electric systems, apparatus and devices for recording, transmission or reproduction of sound, images or data, data processing apparatus and devices, computers, computer hardware, telecommunications machines, apparatus and devices, all being for use in the field of helicopters and rotorcraft; installation, expansion, maintenance, servicing, repair and reconditioning of flight simulators for helicopters and rotorcraft; technical support, namely, technical consultancy in the field of the maintenance, servicing, repair and reconditioning of helicopters and rotorcraft; rental of machines and tools for the maintenance and servicing of helicopters and rotorcraft; information in relation to the repair, maintenance, servicing and reconditioning of helicopters and rotorcraft; providing and procurement of Internet websites offering information relating to the maintenance, servicing, repair and reconditioning of helicopters and rotorcraft; installation, expansion, maintenance, servicing, repair and reconditioning of equipment and apparatus installed in helicopters and rotorcraft, in particular avionics equipment and avionics apparatus, flight control apparatus, flight instruments, navigation apparatus and navigation instruments, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving apparatus and instruments, electric systems, apparatus and devices for recording, transmission or reproduction of sound, images or data, data processing apparatus and devices, computers, computer hardware, machines, apparatus and devices for telecommunications; planning, scheduling and preparation of appointments and follow-up appointments relating to second appointments therefor for aircraft, helicopters and rotorcraft, replacement parts, fittings, dynamic components and equipment, for others; construction consultancy; condition monitoring of aircraft by means of software

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Coffee, tea, cocoa and artificial coffee; rice; tapioca and sago; flour and preparations made from cereals, namely, cereal bars, biscuits; bread, pastry and confectionery, namely, confectionery made of sugar; edible ices; sugar, honey, treacle; yeast, baking-powder; salt; mustard; vinegar, sauces (condiments); spices; ice

For Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, namely, precision measuring apparatus, encoders, programmable controllers, communication devices, vehicle radios, optical engines, infra-red sensors, radar sensors, optical sensors, ultraviolet sensors, video cameras, monitors, computer hardware, sensors, navigation instruments, satellite signal/communication processors, image recording apparatus, distance recording apparatus, simulators for the steering and control of vehicles, magnetic tapes, life-saving apparatus, audiovisual teaching apparatus; flight data software for collecting, managing, storing and analyzing flight data; software for electronic display interfaces for the cockpits of aircraft, helicopters and rotorcraft, unmanned aerial vehicles (UAV), drones, carrier rockets, launch rockets, space vehicles, spacecraft and space stations; software for flight instruments; software for managing flight data and which displays adjustable information for

piloting and navigation and for the checking and monitoring of flight parameters, components and on-board equipment; software for automated piloting of aircraft, helicopters and rotorcraft, unmanned aerial vehicles (UAV), drones, satellites, carrier rockets, launch rockets, space vehicles, spacecraft and space stations; software for monitoring flight data, satellite telephones, radios, navigation devices, weather sensors and radios and electronic proximity sensors and alarms for avoiding collisions; software for aircraft, helicopters and rotorcraft, unmanned aerial vehicles (UAV), drones, satellites, carrier rockets, launch rockets, space vehicles, spacecraft and space stations control; software for aircraft, helicopters and rotorcraft, unmanned aerial vehicles (UAV), drones, satellites, carrier rockets, launch rockets, space vehicles, spacecraft and space stations navigation and piloting assistance; software for managing and recording aircraft, helicopters and rotorcraft, unmanned aerial vehicles (UAV), drones, satellites, carrier rockets, launch rockets, space vehicles, spacecraft and space stations flight data; software for the design, manufacture, testing, maintenance and repair of aircraft, helicopters and rotorcraft, unmanned aerial vehicles (UAV), drones, satellites, carrier rockets, launch rockets, space vehicles, spacecraft and space stations; software for the equipment and components of aircraft, helicopters and rotorcraft, unmanned aerial vehicles (UAV), drones, satellites, carrier rockets, launch rockets, space vehicles, spacecraft and space stations; data acquisition and processing software for the design, manufacture, piloting, flight, guidance, navigation, surveillance, safety, maintenance and repair of aircraft, helicopters and rotorcraft, unmanned aerial vehicles (UAV), drones, satellites, carrier rockets, launch rockets, space vehicles, spacecraft and space stations; software to assist in regulating parameters of devices used for designing, manufacturing, piloting, guiding, flying, navigating, surveying, maintaining and repairing of aircraft, helicopters and rotorcraft, unmanned aerial vehicles (UAV), drones, satellites, carrier rockets, launch rockets, space vehicles, spacecraft and space stations; software to assist in troubleshooting faults, damages, mechanical failures and the replacement of time-expired parts for aircraft, helicopters and rotorcraft, unmanned aerial vehicles (UAV), drones, satellites, carrier rockets, launch rockets, space vehicles, spacecraft and space stations; software for indicating failures and faults in aircraft, helicopters and rotorcraft, unmanned aerial vehicles (UAV), drones, satellites, carrier rockets, launch rockets, space vehicles, spacecraft and space stations and proposing reparative actions for the aforesaid failures and faults; digital cartography software for use in the field of aircraft, helicopters and rotorcraft, unmanned aerial vehicles (UAV), drones, satellites, carrier rockets, launch rockets, space vehicles, spacecraft and space stations; software for preparing aircraft, helicopters and rotorcraft, unmanned aerial vehicles (UAV), drones, satellites, carrier rockets, launch rockets, space vehicles, spacecraft and space stations flight plans; mission planning computer software for aircraft, helicopters and rotorcraft, unmanned aerial vehicles (UAV), drones, satellites, carrier rockets, launch rockets, space vehicles, spacecraft and space stations flight report presentation computer software; software to track and locate aircraft, helicopters and rotorcraft, unmanned aerial vehicles (UAV), drones, satellites, carrier rockets, launch rockets, space vehicles, spacecraft and space stations; software for the identification and authentication of persons for use in the field of aircraft, helicopters and rotorcraft, unmanned aerial vehicles (UAV), drones, satellites, carrier rockets, launch rockets, space vehicles, spacecraft and space stations; software for the encoding, decoding, encryption, decryption of data, for use in the field of aircraft, helicopters and rotorcraft, unmanned aerial vehicles (UAV), drones, satellites, carrier rockets, launch rockets, space vehicles, spacecraft and space stations; software for displaying a realistic 3D depiction of the outside world and adding real-time information collected from sensors installed on aircraft, spacecraft, helicopters and rotorcraft, in order to assist in piloting and navigating aircraft, helicopters and rotorcraft, unmanned aerial vehicles (UAV), drones, satellites, carrier rockets, launch rockets, space vehicles, spacecraft and space stations by improving pilot's situational awareness; aircraft, spacecraft, unmanned aerial vehicles (UAV), helicopter and rotorcraft flight simulation software; video game software; software for signal processing; computer software for the geolocalisation, supervision and monitoring of objects, vehicles and persons in specific

geographical zones; computer software for controlling of sensors, antennas, communication devices, aircraft, satellites, carrier rockets, spacecraft, helicopters and rotorcraft, unmanned aerial vehicles (UAVs), and unmanned missiles; computer software for accessing and controlling of computer networks; computer software for target tracking; computer software for the visualization of data; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, electric conductors, electric transformers; apparatus for recording, transmission or reproduction of sound or images; blank magnetic data carriers; blank recording discs; pre-recorded magnetic discs containing data in the fields of aerospace, defense, and security; pre-recorded discs containing data in the fields of aerospace, defense and security; blank compact discs; blank DVDs; blank USB sticks; pre-recorded compact discs containing data in the fields of aerospace, defense and security; pre-recorded DVDs containing data in the fields of aerospace, defence and security; pre-recorded USB sticks containing data in the fields of aerospace, defense and security; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment, computers; fire-extinguishing apparatus; computer programs in the fields of aerospace, defense and security; computers; data processing apparatus, namely, computers; downloadable electronic publications, namely, brochures, magazines featuring information in the fields of aerospace, defense and security; blank magnetic data media; blank magnetic data carriers; pre-recorded magnetic data media comprising data in the fields of aerospace, defense and security; pre-recorded magnetic data carriers comprising data in the fields of aerospace, defense and security; blank discs; blank audio cassettes; blank video cassettes; pre-recorded discs featuring information in the fields of aerospace, defense and security; pre-recorded audio cassettes featuring information in the fields of aerospace, defense and security; pre-recorded video cassettes featuring information in the fields of aerospace, defense and security; transmitters, receivers, apparatus for the transmission of electronic signals and radio signals; transponders; navigation apparatus for vehicles; navigational instruments; satellite navigational apparatus; avionics instruments, apparatus and systems relating thereto; simulators for the steering and control of vehicles; flight simulation software; scientific satellites; satellites for receiving and transmission of radio signals; electric cables, fibre optic cables; sunglasses; satellites for scientific and commercial purposes; aeronautical appliances; scientific apparatus and instruments, namely, scientific apparatus and equipment for measuring inertia, based on gyrometric fibre optic sensors, solely for space systems, namely, satellites, spacecraft, launch rockets, in particular carrier rockets and space stations; scientific apparatus and instruments, namely, apparatus and equipment for navigation and positioning of space systems, namely, satellites, spacecraft, launch rockets, in particular carrier rockets and space stations; data processing apparatus for providing technical information and logistics in connection with space systems, namely, satellites, spacecraft, launch rockets, in particular carrier rockets and space stations; measuring, checking (supervision), observation and transmission apparatus, namely, electronic and electric measuring devices, power leakage detectors, observation instruments, data transmission cables, control panels, programmable controllers, communication devices, encoders, signal transceiver, altimeters; apparatus and instruments for Earth observation; encoding and transmission of data via satellites, altitude and orbit control apparatus and instruments for satellites; ground systems for controlling satellites; radio transceivers; telescope mirrors; infrared cameras; equipment bays for satellites and spacecraft, in particular avionics modules and supply modules; altitude and position control devices for satellites; measuring, control, observation and communication apparatus, namely, electronic and electric measuring devices, power leakage detectors, observation instruments, data transmission cables, control panels, programmable controllers, communication devices, encoders, signal transceiver, altimeters; apparatus and instruments for Earth observation, and for the encoding and transmission of data by means of satellites, apparatus and instruments for monitoring satellite altitude and satellite orbit; ground systems for

operation and control of satellites; satellite management programs; satellite control programs; radioelectric transceivers (transmitters and receivers) and radio apparatus; avionics modules, supply modules and test modules for satellites; spacecraft and carrier rockets; electronic, electric and optical satellite modules and spacecraft modules, including assemblies, containing the measuring circuits, communications circuits and auxiliary launch apparatus in a housing; apparatus and systems for altitude control and position control, namely, electronic circuits, micro circuits, circuit boards, programmable controllers, control panels; blank audio compact discs; pre-recorded audio compact discs containing data in the fields of aerospace, defense and security; blank data carriers; pre-recorded data carriers containing data in the fields of aerospace, defense and security; telecommunication transmitters, electric cables, fibre optic cables, electronic apparatus and instruments, electronic storage media; data storage media containing flight and navigation instructions for helicopters, rotary-wing aircraft and drones; optical or infrared monitoring installations and apparatus; thermal imaging apparatus; observation instruments and system comprising sensors, radar, antennas, computers, prerecorded computer software programs for the geo-localization, supervision and monitoring of objects, vehicles and persons in specific geographical zones, video display screens, electromechanical controls; infrared monitoring and tracking equipment and systems especially location systems, comprising computer hardware and digital video recording software for use in remote locations; secure observation and reconnaissance equipment and systems comprising sensors, radar, antennas, prerecorded computer software programs for the geolocalisation, supervision and monitoring of objects, vehicles and persons in specific geographical zones; helicopter monitoring apparatus and systems consisting thereof, namely, electric and electronic measuring devices, power leakage detectors, observation instruments, data transmission cables, control panels, programmable controllers, communication devices, encoders, signal transceiver, altimeters, computer software, infra-red sensors, automatic optical detectors, optical engines, remote control apparatus, monitor wall panels, vehicle radios; aerial monitoring apparatus and systems consisting thereof, day/night monitoring apparatus and systems consisting thereof, namely, electric and electronic measuring devices, power leakage detectors, observation instruments, data transmission cables, control panels, programmable controllers, communication devices, encoders, signal transceiver, altimeters, computer software, infra-red sensors, automatic optical detectors, optical engines, remote control apparatus, monitor wall panels, vehicle radios; high-precision optical apparatus; encoders or decoders, digital image and sound data transmitters; telemetry, remote control, radio altimetry and proximity and approach apparatus and instruments for use in the field of aviation and space travel and in instruments for aviation and space travel, detection apparatus and instruments, radar, antenna, sensor and computer security systems; recording apparatus and instruments, namely, data, sound, time, voice, images; positioning apparatus and instruments, namely, GPS; radar apparatus; lidars; electro-optical sensors; computer security systems; radar, antenna and satellite transmitters and receivers, converters and transponders; electric apparatus and equipment for civil and military use; electric and electronic tracking, discovery, detection, monitoring, geopositioning and geolocation apparatus; electric and electronic apparatus and equipment for radiolocation and radio navigation; airborne ground surveillance and reconnaissance equipment and systems comprising antennas, signal processors, computers, computer software, transmitters, receivers, communication electronics; sensors for unmanned aircraft; instruments for navigation by sea, land, air and in space; guidance and navigation apparatus and systems consisting of stationary or portable computers, electronic and telecommunications apparatus and equipment, computer servers, servers and apparatus for data storage, computer workstations, and modems; data memories; screens; wireless and satellite-based hardware and software for onboard data networks; multi-platform interfaces, including hardware and software therefor; data storage media and user terminals for position determination, mapping information and course guidance for land vehicles, aircraft, marine vehicles or submarine vehicles; processing apparatus and systems consisting thereof for geographical data, in particular satellite systems,

GPS, namely, data processing apparatus, data transmission cables, multi-function digital transmitters, computers, optical engines, optical data media, optical glass; apparatus and equipment for the acquisition, compression, transmission, analysis and recovery of satellite images and aerial photographs; image transmission equipment by digital radio link and systems comprising computers, computer memory, digital radio link electronics, namely, digital transmitter, digital receiver, antennas, digital signal processors, optical components, namely, lenses, mirrors, and parts thereof; optical parts and components, namely, optical engines, optical data media, optical glass; spatial-optical apparatus, equipment and instruments; optical apparatus, equipment and instruments for aerial reconnaissance vehicles; course guidance, radio remote control and autopilot devices and apparatus; hardware and software (recorded programs) for position determination, monitoring and surveillance in specific geographical areas; position determination, monitoring and surveillance apparatus and systems consisting of specific geographical areas, media for data storage and user computer terminals for position determination, navigation, navigation databases, radar or satellite navigation, radio navigation and for the following applications: mapping information, safety and emergency equipment, instruments and apparatus, research other than for medical use, and life-saving equipment, namely, life boats, life buoys, life jackets, life rafts, lamps, electrical signal devices, instruments and apparatus; media for data storage and user terminals for position determination, mapping information, course guidance for land vehicles and aircraft; electric or electronic instruments and apparatus for receiving, processing and/or transmission of navigation signals, and elements and components relating thereto; electric and electronic apparatus and instruments for testing, analysis and performance monitoring of navigation data and navigation signals, and elements and components relating thereto; electric and electronic apparatus and instruments for measuring, verification, checking, reviewing, testing and monitoring of positions and navigation data relating thereto; computer software (recorded programs) for measuring, verification, checking, reviewing, testing and monitoring of positions and navigation data relating thereto; satellite positioning and satellite navigation apparatus and equipment consisting thereof; telecommunications and radio communications apparatus, hardware and software for telecommunications and radio communications networks, hardware and software for digital telecommunications networks; communications and radio communications networks via wires, cables, fibre optic technology, radio or satellite; call centre servers, multiplexers and demultiplexers, electric and electronic apparatus and instruments for the control and management of networks; telecommunications receivers, electronic and radioelectric signal transmission apparatus; satellites for scientific use and satellites for receiving and transmission of radioelectric signals; computer terminals, communications terminals, stationary or portable computer terminals or communications terminals; apparatus for communications, transmission and receiving of data, speech, and image and multimedia data; network apparatus, in particular protocol converters and systems consisting thereof for gateways, namely, internet and intranet equipment; basic equipment for and access interfaces to Internet protocol (IP) networks; devices and equipment and apparatus consisting thereof, namely, internet devices, computer, computer interface cards, data transmission cables, optical fibers, vehicle radios, satellite signal communication processors, network adapters, telephones, computer terminals, computer software, for the transmission of messages, information, data, and sound and images over the airways, and via cables, fibre optic technology, telephones, satellites, terminals, telecommunications networks and computer networks; telecommunications and desktop automation terminals for military applications; telephone apparatus, mobile telephones, cordless telephones, radio paging apparatus and equipment, facsimile machines, PDAs (personal digital assistants), mobile apparatus for Internet access, replacement parts for the aforesaid goods, enabling communications and conducting of secure transactions and online trading; software programs in a computer-usable format, being provided on magnetic or optical storage media or as a downloadable format and being usable with the aforesaid goods; software programs

for secure communications, enabling the authentication, checking, recording and analysis of business relationships, transactions by means of a system of controlled access rights and notifications, apparatus for satellite telecommunications and satellite telecommunications stations consisting thereof, in particular in aircraft; software (recorded programs) for communications and radio communications networks for data transmission by means of wires, cables, fibre optic technology, radio or satellite; software (recorded programs) for the management, administration, architecture management, configuration and protection of local or remote networks for speech, images and data; apparatus and software (recorded programs) for securing access to computer and Internet Protocol (IP) networks; software (recorded programs) for encryption and decryption; software (recorded programs) for encoding and decoding; software (recorded programs) for the architecture, management and securing of access to computer networks and Internet Protocol (IP) networks; simulation, modelling, testing and experiment software; servers for modelling simulations of and for tests and experiments relating to civil and military operations; software (recorded programs) for computers for the development, optimisation and performance analysis of methods and algorithms, and processors (CPUs) and software modules for the processing and/or generation of navigation signals and/or navigation data in relation to navigation or cartography; software for the planning, acquisition, processing and dissemination of reconnaissance information and data (intelligence information), solely in the fields of reconnaissance and geography for defence and security purposes, all of the aforesaid goods for digital radio networks; software for digital radio networks, enabling user access to voice services and data, including group communications in relay mode, individual conversations, short messages, and data localisation and transmission, all of the aforesaid goods for digital radio networks; software (recorded programs) for the providing of access to an electronic messaging service; software for transaction security for intranet and Internet data terminals, control stations and terminals for the display of information in graphics and text format; secure data processing apparatus, secure telecommunications apparatus and equipment consisting thereof; handheld electronic devices for wireless receiving and/or transmission of secure data in particular for messages, and electric and electronic apparatus and equipment enabling users to store or manage personal information; software for forwarding secure messages, Internet e-mails and/or other data to one or more handheld electronic devices from a database stored on a PC or a server or belonging thereto; software for the synchronisation of secure data between a remote station/apparatus and a fixed station/apparatus or a remote station/apparatus; electric and electronic apparatus and instruments, in particular computers and processors (CPUs) for data and computer software (recorded programs) for the development, optimisation and performance analysis of methods and algorithms, and processors (CPUs) and software modules for the processing and/or generation of navigation signals and/or navigation or cartography data; electric and/or electronic apparatus, electric and/or electronic instruments and apparatus for displaying reports, analyses and measurement results, in particular in the form of graphics, charts and diagrams resulting from the performance analysis and monitoring of navigation signals and/or data; electric and electronic apparatus and instruments for the examination and identification of segments of space in two or three dimensions; computer software (recorded programs) for the examination and identification of segments of space in two or three dimensions; apparatus for monitoring flight parameters, namely, navigation and piloting software for helicopters, rotary-wing aircraft and drones; recording apparatus and systems consisting of apparatus in the nature of kilometer recorders for vehicles, programmable controllers, computer controllers, control panels for locomotion and propulsion by land, air and water; automatic flight control apparatus and systems consisting of flight control surfaces, cockpit controls, connecting linkages, mechanisms to control direction in flight, engine controls; real time testing apparatus for conducting tests on electronic samples and parts, in particular data input, recording, processing and display devices and apparatus, data buses, data transmission apparatus and systems comprised of, analogue-digital and digital-analogue converters, program prototypes, simulators for the simulation of mechanical, electric and

electronic functional processes, linking and chaining modules, data analysis apparatus, and changeover, panel and selector switches and coordinator switches, interface apparatus or programs, in particular analogue, digital and discrete data bus interface apparatus or programs; control apparatus for testing apparatus and searchable programs for the aforesaid control equipment recorded on data carriers; searchable test programs recorded on data carriers; instruments, and computer hardware and software for the simulation of electronic samples and mechanical, electric and electronic functional processes; electric and electronic display apparatus for the preparation and conducting of tests on electronic samples and processing of the test results; software, in particular database software for the management of tests on electronic samples for monitoring the configuration and definition of the test system; computer hardware and software for generating test documents; computer hardware and software for linking test installations via telecommunications equipment and/or via the Internet and/or via local networks; instruments and installations consisting thereof for the testing of vehicles and apparatus for locomotion and propulsion by land, air and water; sensors and communications apparatus and equipment; sighting telescopes for firearms; telescopes, binoculars, extendable telescopes and binoculars; protective eyewear, in particular eyewear for protection against lasers; distance measuring apparatus, in particular laser distance measuring apparatus, digital magnetic compasses; cameras, in particular reconnaissance cameras, exploratory cameras; equipment for aerial photography; aerial imaging apparatus and aerial cameras; periscope systems comprising mirrors, lenses, cameras, thermal imagers, image intensifiers, optical filters, torque drive rotator; stabilised sensor platforms; night-vision apparatus, residual light amplifiers; laser target illuminators; software for assessing, monitoring and control of data security within an information technology network; industrial geoproduction systems comprising a digital processing chain for producing satellite images, satellite data, aerial photographs, aerial image data, terrestrial data and terrestrial images in 3D (three dimensions); antenna installations, antenna systems; tape recorders; blank magnetic tapes; pre-recorded magnetic tapes containing data in the fields of aerospace, defense and security; blank video tapes; pre-recorded video tapes containing data in the fields of aerospace, defense and security; cinematographic cameras; camcorders; blank audio and video compact discs; pre-recorded audio and video compact discs containing data in the fields of aerospace, defense and security; blank optical compact discs; pre-recorded optical compact discs containing data in the fields of aerospace, defense and security; blank magnetic disc storage; pre-recorded magnetic disc storage containing data in the fields of aerospace, defense and security; blank optical discs; pre-recorded optical discs containing data in the fields of aerospace, defense and security; blank recording discs; pre-recorded recording discs containing data in the fields of aerospace, defense and security; blank optical data media; pre-recorded optical data media containing data in the fields of aerospace, defense and security; blank magnetic data media; pre-recorded magnetic data media containing data in the fields of aerospace, defense and security; telecommunications radio apparatus; software, solely for the field of satellite imaging and satellite data; apparatus and devices for the processing of data, in particular via satellites; apparatus and devices for the simulation of infrastructure development; apparatus and devices for producing and updating development plans and development charts and for observing plots of agricultural land and optimising crop yield trends and monitoring thereof; compact disc players; optical document readers; character readers; bar code readers; games software; software and software packages for the processing and analysis of photographs, in particular aerial photographs, satellite images or terrestrial images; apparatus and devices for the processing of data, in particular satellite data; software packages for stereographic reproduction, for generating and preparing digital terrain models, for 3D modelling, ortho, orthophotos and thematic maps; computer files and software packages with geographical, geological, cartographical and topographical data; computer files and software packages comprising reproductions of terrain and digital maps; equipment and apparatus for databases and for accessing databases; computer

software for stereographic projections, digital terrain models, orthoimages and thematic maps; computer files and software for geography, geology and topography; computer files and software for ground imaging and digital maps; satellite navigation equipment; satellites for scientific purposes, in particular Earth observation satellites; apparatus and devices for the processing, analysis, reproduction and storage of images, aerial photographs and satellite photographs; computer hardware; database equipment, namely, computer, data transmission cables, magnetic drives, data processing apparatus, image duplication apparatus, satellite navigation devices; database access equipment, namely, computer, data transmission cables, magnetic drives, data processing apparatus, image duplication apparatus, satellite navigation devices; database management software, in particular for stereographic reproduction, for the storage, preparation, processing and analysis of drawings, images, photos, diagrams, charts, aerial photographs, satellite photographs, surface models and terrain models; data carriers for computer software, computer files, software packages, all containing or being for stereographic reproduction, for the storage, preparation, processing and analysis of surface models and terrain models, images and photos; data processing apparatus and data processing equipment, in particular for satellite data; carriers for dark plates (photography); mirrors (optics); satellite navigation systems; satellites for scientific purposes, in particular Earth observation satellites and radar satellites; remote control apparatus and remote control devices; airborne sensors; telecommunication transmitters; apparatus and devices for the processing, analysis, reproduction and storage of satellite images; electric and electronic apparatus and devices for generating digital contour line models; databases of digital contour line models; computers and computer software for industry, namely, the fire brigade and government, with regard to operating systems, customer management, systems for the management of valuables, geographical information systems, computerised construction, real-time visualisation and mobile systems and configuration thereof for use on suitable computer hardware; scientific satellites and satellites for receiving and transmission of radio signals; blank USB flash drives; pre-recorded USB flash drives containing data in the fields of aerospace, defense and security; electrical adapters, battery chargers; telephone adapters; USB hardware; computer mice; headphones; laser pointers; Bluetooth headsets (wireless headsets for use with mobile telephones); decorative magnets; cases, sheaths and sleeves for touch pads; cases, sheaths and sleeves for telephones, in particular for mobile telephones; sunglasses; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, all of the aforesaid goods for use in the field of helicopters and rotorcraft, namely, precision measuring apparatus, video cameras, cinematographic cameras, encoders, electric regulating apparatus, programmable controllers, communication devices, vehicle radios, optical engines, infra-red sensors, radar sensors, optical sensors, ultraviolet sensors, video cameras, monitors (displays), computer software, computer hardware, sensors, navigation instruments, satellite signal/communication processors, image recording apparatus, distance recording apparatus, simulators for the steering and control of vehicles, magnetic tapes, life-saving apparatus, audiovisual teaching apparatus, electric cables, optical fibers, calculators, data processing apparatus, display screens all of the aforesaid goods for use in the field of helicopters and rotorcraft; flight control apparatus and flight control devices for guiding and controlling helicopters and rotorcraft; electronic controllers for guiding and controlling helicopters and rotorcraft; flight regulating systems and flight control systems with fly-by-wire control for helicopters and rotorcraft; fibre optic flight regulating systems and flight control systems for helicopters and rotorcraft; flight regulating systems and flight control systems for guiding, controlling and self-navigation of helicopters and rotorcraft, comprising flight control apparatus and flight control devices, electric wire cables or fibre optic cables, sensors for collecting flight data, calculating machines, data processing installations, data processing apparatus and computers, flight data software; glass cockpits for helicopters and rotorcraft, namely, cockpits comprising apparatus and equipment for flight control and flight regulation and a dashboard with flight instruments, comprising screens

for visual display (LCD/LED panels) controlled by computer hardware and computer software flight management systems displaying adjustable information for guiding and navigation of helicopters and rotorcraft, for testing and monitoring flight parameters, for testing and monitoring components, parts and onboard equipment for helicopters and rotorcraft; head-up displays (visual field displays) for use in helicopters and rotorcraft, namely, transparent electronic display apparatus and screens for providing navigation data, operational data and use data for pilots and co-pilots; flight instruments and flight apparatus for providing information regarding the flight situation of the helicopter or rotorcraft for pilots; autopilots for use in helicopters and rotorcraft; apparatus and devices for testing the flight parameters of helicopters and rotorcraft; navigation apparatus, navigation equipment and navigation instruments for helicopters and rotorcraft; communications equipment and communications apparatus for helicopters and rotorcraft; avionics equipment and avionics apparatus, in particular regulating systems, control systems, observation systems, monitoring systems, communications systems, navigation systems, systems for weather and anti-collision systems for helicopters and rotorcraft; display apparatus and measuring instruments for use in helicopters and rotorcraft; digital displays and digital display apparatus for use in helicopters and rotorcraft; accelerometers, altimeters, radar altimeters, ammeters, anemometers, barometers, flowmeters, frequency meters, manometers, tachometers (revolution counters), thermometers, torquemeters, speedometers, vibration meters, vibration gauges, voltmeters, telemeters, range finders, pressure indicators, fuel gauges, all being for use in helicopters and rotorcraft; oil pressure gauges and oil pressure indicators, oil temperature gauges and oil temperature indicators, fuel pressure gauges and fuel pressure indicators, fuel temperature gauges and fuel temperature indicators, height indicators, position indicators (artificial horizon), airspeed indicators, course deviation indicators, first limit indicators (FLI), directional indicators, horizontal situation indicators (HSI), radio-magnetic indicators (RMI), turn indicators and vertical speed indicators (variometers), all being for use in helicopters and rotorcraft; inertial navigation systems (inertial measurement units) for use in helicopters and rotorcraft; gyroscopes, rate gyroscopes, laser gyroscopes (gyrolasers) for use in helicopters and rotorcraft; compasses, gyrocompasses, magnetic compasses and radio compasses (automatic direction finders) for use in helicopters and rotorcraft; VHF omnidirectional range (VOR) receivers for use in helicopters and rotorcraft; global positioning systems (GPS) for use in helicopters and rotorcraft; ground-proximity warning systems (GPWS), enhanced ground-proximity warning systems (EGPWS) and terrain awareness and warning systems (TAWS) for use in helicopters and rotorcraft; sensors for use in helicopters and rotorcraft, in particular acceleration measurement sensors, air temperature sensors, alarm sensors, distance sensors, electric sensors, electrooptical sensors, electronic sensors, electronic measurement sensors, fire sensors, fluid level sensors, frost sensors, gas sensors, heat sensors, moisture sensors, crash sensors, impact sensors, infrared sensors, level sensors, load sensors, light sensors, magnetic sensors, movement sensors, noise sensors, optical sensors, piezoelectric sensors, position switches, position transmitters and position sensors, pressure sensors, approach sensors and proximity sensors, smoke sensors, speed sensors, temperature sensors, torque sensors, vibration sensors, sensors for tracking actual and projected disturbances; detectors for use in helicopters and rotorcraft, in particular carbon dioxide detectors, carbon monoxide detectors, fire detectors, heat detectors, leak detectors, immersion detectors, movement detectors, particle detectors, approach detectors, proximity detectors and proximity switches, radar detectors, rotor speed detectors, vibration detectors; transducers for use in helicopters and rotorcraft comprising, in particular, resonant transducers, magnetostrictive transducers, piezoelectric transducers, electrostatic transducers, transducers with variable resistance, electrooptical transducers, electroacoustic transducers, power transducers, high-frequency transducers, linear transducers, measurement transducers, pressure transducers, torque transducers, ultrasound transducers; power supply units for helicopters and rotorcraft; electric accumulators for helicopters and rotorcraft; thermionic electric valves, solenoid

valves, magnetic valves for use in helicopters and rotorcraft; electric regulators and supply voltage regulators for helicopters and rotorcraft; commutators, collectors and rectifiers for use in helicopters and rotorcraft; electric inverters for use in helicopters and rotorcraft; electric switches for use in helicopters and rotorcraft; pressure switches for use in helicopters and rotorcraft; solenoid valves, magnetic valves for use in helicopters and rotorcraft; electric actuators for use in helicopters and rotorcraft; fuel supply regulators, fuel flow regulators and fuel quantity regulators for use in helicopters and rotorcraft; timers and time recording instruments and time recording apparatus for use in helicopters and rotorcraft; calculating machines, in particular pocket calculators, first limit calculating machines, in particular first limit pocket calculators, obstacle avoidance calculating machines, in particular obstacle avoidance pocket calculators, navigation calculating machines, in particular navigation pocket calculators, all being for use in the field of helicopters and rotorcraft; calculating machines, in particular pocket calculators for assessing the technical condition and technical state, damage to and use and operating time of helicopters and rotorcraft; data processing apparatus and data processing devices data processors, computers, computer hardware and computer peripheral apparatus, all being for use in the field of helicopters and rotorcraft; circuit boards and printed circuits for use in helicopters and rotorcraft; couplers and connecting lines (data processing apparatus) for helicopters and rotorcraft; onboard computers for helicopters and rotorcraft; air data computers for use in helicopters and rotorcraft; symbol generators (display processing computers) for use in helicopters and rotorcraft; computer monitors, screens for optical and visual display, flat panel display screens, touch screens and multi-functional LED screens and multi-functional LCD screens, all being for use in the field of helicopters and rotorcraft; instruments and apparatus for airborne data acquisition for use in helicopters and rotorcraft; flight data recorders for use in helicopters and rotorcraft; digital voice recorders for use in helicopters and rotorcraft; decoders, encoders, signal scramblers and descramblers, electronic encryption and decryption apparatus, all being for use in the field of helicopters and rotorcraft; telecommunications apparatus and telecommunications equipment for use in the field of helicopters and rotorcraft; transponders for use in the field of helicopters and rotorcraft; transmitters for use in the field of helicopters and rotorcraft; transceivers for use in the field of helicopters and rotorcraft; radio transmitters, radio receivers and radio signal tuners for use in the field of helicopters and rotorcraft; antennas, antenna installations and antenna systems and satellite dishes, modems, telephone apparatus and telephone receivers for use in the field of helicopters and rotorcraft; amplifiers for use in the field of helicopters and rotorcraft; headphones, microphones, loudspeakers for use in the field of helicopters and rotorcraft; cameras, camcorders and infrared cameras for use in helicopters and rotorcraft; electronic card readers for use in the field of helicopters and rotorcraft; radar systems for use in the field of helicopters and rotorcraft; alarm installations, alarms and alarm equipment for use in helicopters and rotorcraft; emergency locator transmitters for helicopters and rotorcraft; computer software for use in the field of aircraft, helicopters and rotorcraft; computer software for flight control of aircraft, helicopters and rotorcraft; computer software for navigation assistance and flight guidance assistance for aircraft, helicopters and rotorcraft; computer software for managing and recording flight data for aircraft, helicopters and rotorcraft; computer software for the design, production, manufacture, testing, maintenance, servicing and repair of aircraft, helicopters and rotorcraft; equipment, apparatus, parts, components and fittings for aircraft, helicopters and rotorcraft; data acquisition software and data processing software for the design, production, manufacture, control, flying, guidance, navigation, monitoring, security, maintenance, servicing and repair of aircraft, helicopters and rotorcraft; computer software for support during the regulating of parameters for apparatus used for the design, production, manufacture, control, guidance, flying, navigation, surveying, maintenance, servicing and repair of aircraft, helicopters and rotorcraft; computer software for support during the search and remediation (troubleshooting) of faults and malfunctions, damage, mechanical faults and defects and the exchange and replacement of expired and worn parts of aircraft, helicopters and rotorcraft; computer

software for displaying malfunctions, faults, failures, breakdowns and abnormalities in aircraft, helicopters and rotorcraft and for suggesting countermeasures for rectifying the aforesaid events; computer software for digital cartography for use in the field of aircraft, helicopters and rotorcraft; computer software for the preparation and creation of flight plans for aircraft, helicopters and rotorcraft; computer software for mission planning for aircraft, helicopters and rotorcraft; computer software for the presentation of flight reports for aircraft, helicopters and rotorcraft; computer software for tracking and locating aircraft, helicopters and rotorcraft; computer software for the identification and authentication of individuals for use in the field of aircraft, helicopters and rotorcraft; computer software for encoding, decoding, encryption, decryption of data for use in the field of aircraft, helicopters and rotorcraft; artificial vision systems and enhanced vision systems, namely, computer hardware systems and computer software systems for displaying a realistic three-dimensional representation of the external world and for adding real-time information recorded by sensors installed on helicopters and rotorcraft, to support aircraft, helicopters and rotorcraft during flight and navigation through the enhancement of the situational perception and situation-dependent awareness of the pilot; day/night-vision goggles, residual light amplification goggles for use in helicopters and rotorcraft; maintenance and servicing equipment (maintenance kits) for helicopters and rotorcraft predominantly comprising computer hardware and computer software, sensors, cables and wires, for measuring and analysing vibrations in the main and tail rotors, transmission shafts and other dynamic components and assemblies and providing of computerised tuning (setting) of flight parameters; testing installations and testing stands for aircraft, helicopters and rotorcraft; flight simulators for aircraft, helicopters and rotorcraft; flight simulation software for aircraft, helicopters and rotorcraft; flight manuals and handbooks and maintenance and servicing manuals and handbooks for aircraft, helicopters and rotorcraft in electronic format, being recorded on computer-readable media or being downloadable; electronic publications with regard to aircraft, helicopters and rotorcraft, being recorded on for video games; software for video games; fire extinguishers for use in helicopters and rotorcraft; electric sockets

For Legal services; security services for the protection of property and individuals; personal and social services rendered by others to meet the needs of individuals, namely, online social networking and introduction services, security services for the protection of property and individuals; exploitation of patents, in particular through the issuing of licences and know-how licences; consultancy for patents rental, patent assignment, patent authorization and related patent matters; security consultancy; negotiation and exploitation of industrial property rights and copyrights, in particular through the issuing of licences and know-how licences to others; intellectual property agency and consultation services relating to rental, assignment and authorization of intellectual property; securing and handling of flight operations, flight security and flight monitoring; legal consultancy; franchising, namely, granting of licences, management of copyrights; security services for the protection of property and individuals, in particular for air traffic and being sky marshals; legal evaluation of industrial property rights and copyrights; services rendered by the fire brigade and fire-fighting services, police and emergency rescue; consultancy and information in the field of security for aircraft, helicopters and rotorcraft; monitoring of a fleet consisting of aircraft, helicopters and rotorcraft for security purposes; consultancy with regard to compliance with official regulations in the field of aircraft, helicopters and rotorcraft, namely, assessment of legal requirements and obligations and the effects thereof on customers

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Telecommunications services, namely, transmission of voice, data, images and sound by means of broadband power line or wireless networks; pager and mobile telephone communications, and other electronic communications, namely, satellite communications; communications provided via fibre optic networks; telecommunications via satellite; communications via computer terminals; procurement and providing of telecommunications connections to a global computer network; telephone communications services; transmission of messages and information; rental of telecommunications apparatus and telecommunications devices; rental of apparatus and devices for image transmission; rental of modems; computerised transmission of messages and images; communications via computer terminals, radio and television broadcasting; cellular telephone communication; satellite transmission; rental of access time to computer databases and computer data memories; rental of access time to computers for data processing; telecommunications via satellite and satellite constellations; data transmission via satellites and satellite constellations; rental of the telecommunications networks of multi-utility companies; electronic message transmission via the Internet, extranets and intranets; communications via radio, telephone, telegraphy, and all other ways of remote data transmission, via videotext, in particular via terminals, computer peripheral apparatus or electronic and/or digital apparatus, video telephones and video conferences; data transmission, in particular in packet-switched operation mode, sending and transmission of electronic documents, e-mail services; forwarding of telephone calls or telecommunications messages; mobile telephone services; satellite transmission; broadcasting of radio and television programmes for interactive use; communications via data networks in general; telecommunications via satellites and satellite constellations; electronic transmission of messages and data (messaging) via the Internet, extranets and intranets; communications via radio, telephone, telegraphy and remote data transmission devices of all kinds via interactive videography and in particular on terminals, computer peripheral apparatus or electronic and/or digital apparatus, via video telephones and video conferences; data transmission, in particular for the transmission, in particular batch transmission, and sending of computerised and computer-readable documents; e-mail services; services in the field of the transmission and forwarding of calls or telecommunications; services in the field of mobile radio; rental of modem peripheral apparatus; rental of access times to database servers; telecommunications, electronic data transmission, data transmission via computer servers; radio communications, computerised transmission of messages and images; sending and receiving of data, signals and information, being processed by telematics apparatus and telematics devices, computers or telecommunications apparatus, telecommunications devices and telecommunications instruments; electric and electronic exchange of computerised and computer-readable data; wireless and secure e-mail services and data transmission; electronic message transmission; electric and electronic monitoring, sending and receiving of data, signals, images and information, transmission of encrypted messages and images; telecommunications via satellite; teleinformatics via terminals; communications via computer terminals; services relating to secure communications via radio telephones and mobile telephones, namely, encryption and decryption of signals and data; transmission via satellite, namely, communications via satellite; data transmission, data transfer and services for providing online access to data, in particular in the fields of satellite navigation and positioning, media for navigation and position data; preparation, providing and management of access to available data and information; computerised processing of position and navigation signals, and data for simulations and experiments; preparation, providing of telecommunications data and telecommunications information on the Internet; secure communication and transmission of data and voice data, for others; providing access to software platforms guaranteeing user authentication, data integrity and data privacy, and file

acceptance; transmission of documents or electronic data via electronic networks, including the Internet, and access to the aforesaid documents or electronic data; providing access to software platforms for services in connection with the encryption and signing of files, documents or electronic data, for others; providing access to software platforms for services in connection with the secure transfer of files, documents, data or electronic payments via electronic networks, including telephone networks and the Internet; providing access to programs on data networks; providing access to a global computer network, in particular the Internet (service providers); computerised transmission of messages and images, in particular high-resolution and very high-resolution images and geographical information; satellite transmission of messages and images, in particular high-resolution and very high-resolution images and geographical information; providing access to databases and data memories, in particular databases and data memories containing images recorded from satellites or antenna systems; transmission of data from digital contour line models and geographical information; access to electronic databases and data memories and centres for information retrieval, in particular for drawings, images, photos, charts, maps, lists, aerial photographs, satellite images, surface models, in particular rental of access times, organisation and management of access authorisations; communications in connection with data transmission on computer networks; setting up and implementation of access to databases and data memories on the Internet, in particular providing access to software; computerised transmission of data and images, in particular for global communications networks (the Internet) or for private or user-restricted networks (intranets); communications by means of computer terminals, radio, television broadcasts, mobile telephone services; telecommunications in the field of aircraft, helicopters and rotorcraft; providing access to Internet portals in relation to aircraft, helicopters and rotorcraft; transmission of messages, news and information in relation to aircraft, helicopters and rotorcraft by means of electronic communications networks; providing access to computer databases and computer memories containing data in relation to aircraft, helicopters and rotorcraft

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Aircraft transport, helicopter transport, rotorcraft transport, spacecraft transport, drone transport; packaging and storage of goods; travel arrangement; air transport; storage of aircraft and aircraft parts; freighting; vehicle rental; air traffic management, namely, flight planning services; traffic information; flight safety, in particular providing of information and advice relating to flight safety, technical and operational audits and risk management strategies, traffic supervision measures, traffic guidance measures and pilotage; services for the operation of airports, in particular management, administration and organisation of an airport and securing and handling of flight operation; flight consultancy, in particular information regarding flights; arranging of travel tours; recovery and recycling of aircraft and aircraft parts; rental of aircraft and aerial vehicles; positioning and remote control of satellites and spacecraft, in particular launching and suspension of satellites, for others; flight tracking; transport by means of aircraft, helicopters and rotorcraft; stockpiling of aircraft, helicopters and rotorcraft and replacement parts therefor, for others; leasing of aircraft, helicopters and rotorcraft; charitable services, namely, transport by means of aircraft, helicopters and rotorcraft in disaster zones for the providing of urgent humanitarian aid; logistics, shipping, management in relation to replacement aircraft parts; warehousing of replacement parts, fittings, dynamic components and equipment for aircraft, helicopters and rotorcraft, for others; warehouse management and inventory control in the field of replacement parts, fittings, dynamic components and equipment for aircraft, helicopters and rotorcraft, for others; planning and coordination of the transport of replacement parts, fittings, dynamic components and equipment for aircraft, helicopters and rotorcraft, for others

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Treatment of materials, namely, treatment of materials by laser beam, vulcanization (material treatment), laser scribing, stripping finishes, magnetization, abrasion, heat treatment, surface treatment; printing; reclamation, recovery, recycling and reuse of aircraft and aircraft parts; editing and processing of aerial photographs, satellite images, monochrome or multi-spectral photographs, for others; editing and processing of space images; production, manufacture and finishing of helicopters and rotorcraft according to the orders and specifications of others

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Industrial oils and greases; industrial lubricants; dust absorbing, wetting and binding compositions; fuels including motor spirit, and illuminants, namely, illuminating gases, illuminating fuels; candles and wicks for lighting, namely, candles; perfumed candles

International Classes 4 - Primary Classes **US Classes** 1, 6, 15 **International Class Title** Lubricants and Fuels

For Tobacco; smokers' articles, namely, filter tubes, pipes, e-cigarettes; matches

International Classes 34 - Primary Classes **US Classes** 2, 8, 9, 17 **International Class Title** Smokers' Articles

For Foam rubber, liquid rubber, natural rubber; gutta-percha; raw or partly processed gum; asbestos, mica tube, mika sheets, asbestos tubes, asbestos sheets, asbestos slate, gaskets of rubber, rings of rubber, cords of rubber; plastics in extruded form for use in manufacture; packing and insulating materials; stopping materials, namely, adhesive tape for industrial use, padding materials of rubber, padding materials of plastics, insulating tapes; flexible pipes, not of metal; carbon fibres, other than for textile use; plastic fibres, not for textile use

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Clothing, namely, shorts, shirts, pants, skirts; footwear; headgear, namely, hats, swimming caps; scarves, headscarves; ties; caps; anoraks, parkas; jackets; tee-shirts, polo shirts; clothing of leather and imitations of leather, namely, pants, shorts, shirts, skirts; flip-flops

International Classes 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

For Hand operated hand tools, namely, hand-operated drilling, milling and sawing machines; cutlery; side arms, not including firearms, namely, hunting knives; razors; non-electric irons as hand tools, namely, pincers, hammers, iron shears

International Classes 8 - Primary Classes **US Classes** 23, 28, 44 **International Class Title** Hand Tools

For Scientific and technological services and research and design relating thereto; industrial analysis and research services in the fields of aerospace, defense and security; design and development of computer hardware and software; computer programming; industrial, scientific and technological services and research and design relating thereto, namely, mechanical engineering consultancy, technical research, telecommunication engineering technology consultancy, processing of computer data, chemistry services, scientific research; industrial analysis in the fields of aerospace, defense and security; testing of computer system installations; computer programming for the creation and recovery of computer data in databases; scientific and technological consultancy, other than commercial; engineering with the aim of providing scientific and technological evaluations, calculations, research and opinions in the field of science and technology; engineering services in the fields of

physics and chemistry; technical consultancy, assessment, research, testing and monitoring in the field of technology, in particular with regard to transport, environmental protection, energy technology; material testing; providing of weather information, in particular weather forecasting; design of computer graphics; engineering; technical assessment in the field of engineering; software maintenance; mechanical research; research in the field of aviation and space travel; technological services in the field of flight simulation; technical project studies in the fields of aerospace, defense and security; research and consultancy in the field of technology related to aerospace, defense and security; research and consultancy in the field of environmental protection; industrial design; interior furnishing; design of interior decor; graphic design; maintenance of computer software; certification and re-certification as to quality and industry standards of vehicles; technical flight tests; professional consultancy and drawing up of plans, other than business, namely, consultancy for the production, manufacture and finishing of installations, in particular satellites, ground stations and related installations and apparatus, construction consultancy, technical project studies; engineering; conducting of scientific and technical studies, projects and scientific and technical consultancy with regard to satellites, spacecraft, launch rockets, in particular carrier rockets and space stations; preparation and creation of scientific, physical and technical analyses and surveys with regard to the manufacture, use, servicing and maintenance of satellites, spacecraft, launch rockets, in particular carrier rockets and space stations; scientific and technical consultancy and consultations in relation to computers, drawing up of construction plans; technical consultancy relating to the procurement and providing of technical information and know-how, establishing and configuration, design, development, and management of databases and legal databases; computer programming for electronic apparatus, devices and instruments, computers, systems for remote data processing and telematics systems, multimedia hardware; multimedia programming; rental of computers, software, scanners, recorders, burners, printers, printer peripheral apparatus and modems; technical and technological design consultancy and conducting of technical and technological project planning other than in relation to business management; procuring and providing of know-how and technical design, planning and research information with regard to franchising; installation of software, database development and maintenance of software, databases and legal databases for franchising purposes; programming of software for multimedia apparatus; rental of computers, programs, scanners, recorders, printers and peripheral apparatus for printers; technical consultancy and support, in particular technical organisation and services being necessary for consultancy in the field of telecommunications and information technology, namely, consultancy on engineering; technical and technological testing and development of mechanical, electric and computer interfaces (integration) between a launch rocket, in particular carrier rockets, and a spacecraft or satellites; testing of the compatibility and integrity of electric connections; technical or technological consultancy in the field of telecommunications and data processing; technical consultancy in the field of information technology; computer security services relating to flight security, flight monitoring and flight support based on a satellite infrastructure; technical software consultancy in the field of telecommunications; technical information in relation to the aviation and space travel sector; scientific, technical and technological examination, development and adaptation of telecommunications networks and radio communications networks; design, development and updating for others of software, specifically recorded programs for the management, administration, architecture management, configuration and protection of local or remote networks for speech, images, data and multimedia data communications, tests, inspections, analyses and/or signal monitoring; scientific, technical and technological development, optimisation, performance monitoring and testing of methods, algorithms and processing and software modules for computerised signal processing; inspection, testing, analysis and/or monitoring of system algorithms for generating navigation or cartography data; scientific, technical and technological development, optimisation, inspection, technical testing, and realisation and conducting of technical tests with regard to the performance of methods, algorithms and

processing and software modules for generating navigation or cartography data; performance monitoring and testing, namely, electrical engineering technology consultancy, research and development, processing of computer data, inspection and test of product quality, monitoring of computer systems by remote access, scientific research, chemical analysis, data conversion of electronic programs and data (not physical conversion), industrial analysis and research services, design and development of computer hardware and software, testing of computer system installations, computer programming, engineering with the aim of providing scientific and technological evaluations, calculations, research and opinions in the field of science and technology, consultancy on information technology, technical research in the field of aviation and space travel, technical research and the professional consultancy thereof; signal testing and verification; scientific and technical development of algorithms and methods for computerised signal processing; services for the development and/or providing of results, in particular in the form of analysis reports, graphics, charts and diagrams, namely, electrical engineering technology consultancy, research and development, processing of computer data, inspection and test of product quality, monitoring of computer systems by remote access, scientific research, chemical analysis, data conversion of electronic programs and data (not physical conversion), industrial analysis and research services, design and development of computer hardware and software, testing of computer system installations, computer programming, engineering with the aim of providing scientific and technological evaluations, calculations, research and opinions in the field of science and technology, consultancy on information technology, technical research in the field of aviation and space travel, technical research and the professional consultancy thereof; scientific and technological services and research and design relating thereto, in particular scientific and technical development, engineering, technical examination, technical consultancy, optimisation and improvement, namely, electrical engineering technology consultancy, research and development, processing of computer data, inspection and test of product quality, monitoring of computer systems by remote access, scientific research, chemical analysis, data conversion of electronic programs and data (not physical conversion), industrial analysis and research services, design and development of computer hardware and software, testing of computer system installations, computer programming, engineering with the aim of providing scientific and technological evaluations, calculations, research and opinions in the field of science and technology, consultancy on information technology, technical research in the field of aviation and space travel, technical research and the professional consultancy thereof; conducting of industrial analyses and measurements, namely, electrical engineering technology consultancy, research and development, processing of computer data, inspection and test of product quality, monitoring of computer systems by remote access, scientific research, chemical analysis, data conversion of electronic programs and data (not physical conversion), industrial analysis and research services, design and development of computer hardware and software, testing of computer system installations, computer programming, engineering with the aim of providing scientific and technological evaluations, calculations, research and opinions in the field of science and technology, consultancy on information technology, technical research in the field of aviation and space travel, technical research and the professional consultancy thereof; scientific and technological services and research and design relating thereto in the field of data processing, analysis and conversion; procuring and providing of programs on data networks, production, design, development and updating of database programs; scientific, technical and technological studies on user requirements and evaluation of the architectures of information and reconnaissance systems, solely in the fields of reconnaissance and geography for defence and security purposes; scientific, technical and technological studies in relation to adaptation, integration, qualification and build-into operations for logistics support, solely in the fields of reconnaissance and geography for defence and security purposes; scientific and technological services and research and design relating thereto, in particular scientific and

technical development and engineering, solely in the fields of reconnaissance and geography for defence and security purposes; scientific and technical examination, scientific and technical consultancy, optimisation and improvement, solely in the fields of reconnaissance and geography for defence and security purposes; scientific, technical and technological data processing; scientific, technical and technological data analysis and data conversion in the field of reconnaissance and geography for defence and security; engineering with regard to the design and troubleshooting of digital radio communications networks for the security forces; design, development and updating for others of software particularly recorded programs for position determination, surveillance and monitoring in specific geographical areas; design, development and updating for others of command and monitoring software particularly recorded programs for position determination, surveillance and monitoring in specific geographical areas; engineering with regard to the scientific evaluation, assessment and appraisal of the preparation and/or providing of results, in particular in the form of analytical reports, graphics, charts and diagrams; software programming, in particular for others; software programming and maintenance, including of software platforms for secure end-to-end transactions, management of customer relationships and handling of transactions; procurement and providing of protection and security services for business communications via electronic networks, in particular for protection against illegal network access; scientific, technical and technological consultancy, consultancy, hotlines and maintenance for computer hardware, computer software and wireless data networks in the fields of aerospace, defence, and security; scientific, technical and technological consultancy centres in the fields of aerospace, defense and security; technical tests, technical examination, scientific, technical and technological analysis and/or monitoring of navigation signals; scientific, technical and technological development, optimisation, performance monitoring and testing of methods, algorithms and processing and software modules for the computerised processing of navigation signals; technical examinations, technical tests, scientific, technical and technological analyses and/or monitoring of system algorithms for generating navigation data; scientific, technical and technological development, optimisation, performance monitoring and testing of methods, algorithms and processing and software modules for generating navigation data; engineering in the field of performance monitoring and testing; engineering in the field of navigation signal testing and verification; engineering in the field of the development of algorithms and methods for computerised navigation signal processing; engineering in the field of the development of algorithms and methods for generating navigation data; scientific evaluation, assessment and appraisal for generating extrapolated data for navigation; engineering with regard to scientific and technological evaluation, assessment, appraisal and research, in particular scientific, technical and technological development, engineering, scientific, technical and technological examination, scientific, technical and technological consultancy, optimisation, calibration, arranging, testing and improvement of antennas, satellite dishes and reflective and radiating objects, technical examination and identification of segments of space in two or three dimensions; scientific, technical and technological measurement, characterisation and verification, scientific, technical and technological examination, digitalisation through scanning and sampling of electromagnetic fields, namely, network security management services, telecommunication engineering technology consultancy, planning and design of communication system and equipment engineering, planning and design of central monitoring and control system, calibration and measuring, processing of computer data, industrial analysis and research services, design and development of computer hardware and software, testing of computer system installations, computer programming, engineering with the aim of providing scientific and technological evaluations, calculations, research and opinions in the field of science and technology, engineering, consultancy on information technology, technical research in the field of aviation and space travel, technical research and the professional consultancy thereof; scientific and technological engineering evaluations, assessments, appraisals and research in the technological field of data processing, data analysis and data conversion; creating, design and development of database

programs; conducting of technical tests, examinations, verification, analyses and/or monitoring of signals belonging to vehicles and apparatus for locomotion and propulsion by land, air and water in particular helicopters, rotary-wing aircraft and drones; scientific, technical and technological development, optimisation, performance monitoring and testing of methods, algorithms and processing and software modules for the computerised processing of signals belonging to vehicles and apparatus for locomotion and propulsion by land, air and water in particular helicopters, rotary-wing aircraft and drones; inspections in the nature of technical examination, technical tests, technical analyses and monitoring of system algorithms for generating data; engineering in the field of performance monitoring and testing in relation to vehicles and apparatus for locomotion and propulsion by land, air or water in particular helicopters, rotary-wing aircraft and drones; engineering in the field of signal testing and verification; engineering in the field of the development of algorithms and methods for computerised signal processing; scientific evaluation, assessment and appraisal of the preparation and providing of results in the fields of aerospace, defense and security, in particular in the form of analytical reports, graphics, charts and diagrams; scientific and technological engineering services and research and design relating thereto in the field of data processing, analysis and conversion; scientific, technical and technological examinations, development and adaptation of telecommunications networks and radio communications networks in relation to vehicles and apparatus for locomotion and propulsion by land, air or water in particular helicopters, rotary-wing aircraft and drones; design, development and updating for others of software particularly recorded programs for the management, administration, architecture, configuration and protection of local or remote networks for speech, images, data and multimedia data communications networks belonging to vehicles and apparatus for locomotion and propulsion by land, air or water in particular helicopters, rotary-wing aircraft and drones; design, development and updating for others of software particularly recorded programs for the design, development, management and securing of access to computer and Internet protocol (IP) networks, programming and maintenance of computer software for military, aviation and space travel applications; research and development of new products for military and aviation applications; network security services for the assessment, monitoring and control of data security within information technology networks; scientific and technological services, namely, procurement of data generated by Earth observation satellites, precision measurements of terrain models, physical measurements and characterisation of objects observed from the ground in accordance with spectral signatures, atmospheric influences, geometric and radiometric models from on-board cameras; research and design in the field of imaging methods by means of satellite and the exploitation of related data, namely, design of processing methods for observation data from satellites, development of processing protocols for the exploitation of satellite data with the aim of producing geographical information and engineering in connection with the programming of aerial photographs from a network of observation satellites; industrial analysis and research in the field of satellite imagery and the exploitation of related data; radar research, imaging methods by means of radar; design and development of computers and software; recovery of computer databases; consultancy services relating to research in the field of environmental protection; conversion of data and computer programs (other than physical conversion); examination, assessment and surveying of oil fields; geological assessment and surveying; geological research; analysis of the exploitation of oil fields; land surveying; crude oil exploration; town planning; production and maintenance of websites, for others; geological exploration; research in the field of cartographical products, country coverage maps and land registers; services relating to technical engineering information and queries with regard to the presentation of online images generated by satellites, in particular geographical images, geographical maps and topographical maps consisting of images generated via satellites and antenna systems, namely, consultancy on information technology, provider of outsourcing services in the field of information technology, processing of

computer data, providing research and development, consultancy on engineering, security consultancy, design and development of computer hardware and software, engineering with the aim of providing scientific and technological evaluations, calculations, research and opinions in the field of science and technology, engineering, technical research in the field of aviation and space travel, technical research and the professional consultancy thereof; services relating to technical information and queries with regard to the following products: satellites images, in particular geographical images, geographical maps and topographical maps consisting of images generated by satellites and antenna systems; computerised services relating to the treatment and analysis of aerial photographs or monochrome or multi-spectral satellite images; research in the field of physics; design of databases for global digital contour line models; science and research applications, studies and projects for developing and validation of geo-data in relation to digital contour line models; industrial analysis and research based on digital contour line models for use in the processing and orthorectification of other geo-data and images, modelling of geophysical processes on Earth, calculating signal dispersion in the telecommunications industry and logistics and security applications in aeronautics and vehicle transport; consultancy with regard to consultancy on information technology, provider of outsourcing services in the field of information technology, processing of computer data, providing research and development, consultancy on engineering, security consultancy, design and development of computer hardware and software, engineering with the aim of providing scientific and technological evaluations, calculations, research and opinions in the field of science and technology, engineering during the planning of crisis intervention; consultancy relating to defence-relevant and security-relevant applications and missions in the fields of aerospace, defense and security; analysis of the exploitation of oil fields and gas fields; design and development of computers and computer software, computer programming for industry, namely, the fire brigade, police and government, with regard to operating systems, customer management, systems for the management of valuables, geographical information systems, computerised construction, real-time visualisation and mobile systems and configuration thereof for use on suitable computer hardware; industrial research in the fields of aerospace, defense and security and scientific research; meteorological information, in particular weather forecasting; design of software; design of computer images; design, research, development, engineering and testing in the field of aircraft, helicopters and rotorcraft; design and development of computers, computer hardware, avionics, communications systems and navigation systems in the field of aircraft, helicopters and rotorcraft; design and development of flight simulators for aircraft, helicopters and rotorcraft; design, development, installation, maintenance and updating of computer software in the field of aircraft, helicopters and rotorcraft; testing of aircraft, helicopters and rotorcraft, in particular security tests; graphic design of schemes for the painting and varnishing of aircraft, helicopters and rotorcraft; rental of flight simulators for aircraft, helicopters and rotorcraft; technical consultancy in the field of aircraft, helicopters and rotorcraft; technical consultancy in the field of aircraft, helicopters and rotorcraft engineering; technical consultancy in the field of avionics for aircraft, helicopters and rotorcraft; integrated software solutions, namely, technical consultancy regarding computers; big data solutions, namely, data collection, data fusion, and data extraction for providing information to third parties; capturing and collecting data collection, namely, simultaneous, comprehensive and cross-functional recording and collection of relevant data and information from various sources; valuable data extraction, namely, precise processing of data and information through observation, monitoring, filtering, reporting and correlation, of procured and retrieved data and simulation data, decision and optimisation assistance; collaboration between various knowledge areas with full access to processed data and information for all concerned parties; design of online management software for the contents of documents relating to aircraft; design of online adaptation software, for the customization, editing, and publishing of documents relating to aircraft; design of software for scheduled and unscheduled maintenance and servicing of aircraft; design of software for the management of aircraft repairs; design of software for flight

analysis and aircraft security; design of software for the maintenance and servicing of aircraft; design of software in relation to aircraft pilots and flight personnel; design of flight performance software; engineering solutions for the modification of aircraft; development of customer service solutions for aircraft

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Common metals and their alloys; metal building materials, namely, ceiling boards, floor boards, metallic walls; transportable buildings of metal; materials of metal for railway tracks; non-electric cables and wires of common metal; ironmongery, namely, small items of metal hardware, namely, nuts, bolts, hook rings, springs, nozzles, nails; pipes and tubes of metal; metal safes; goods of common metal not included in other classes, namely, common metal drawer pulls, boxes of common metal, baskets of common metal; iron ores, metal ores; tool handles of metal; launchers of metal for rockets and missiles, in particular launching ramps; spacecraft launch installations and equipment in the nature of rocket launching platforms made of metal; metal padlocks

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

For Services for providing food and drink; temporary accommodation; services for the providing of food and beverages; hotels; food and drink catering; restaurants; cafés; snack-bars; cafeterias

International Classes 43 - Primary Classes **US Classes** 100, 101 **International Class Title** Hotel and restaurant services

For Beers; mineral and aerated waters and other non-alcoholic beverages, namely, non-alcoholic beer, wine, fruit juice, lemonade, soda; fruit beverages and fruit juices; syrups making beverages, and other preparations for making beverages, namely, concentrates and powders for making soft drinks

International Classes 32 - Primary Classes **US Classes** 45, 46, 48 **International Class Title** Light Beverages
