communications, data logging and collection, and factory automation; software to integrate manufacturing machine operations, control processes, provide data for visualization, track problems and generate production reports; packaged software for use in the operation and programming of grinding machines in the manufacturing industry; industrial process control hardware, namely, computer monitors; laptop computers, ethernet cards and cables; computer networking hardware; microchips; microprocessors; computer network hubs, switches and routers, displays and terminals; computer whiteboards; system boards and processors; industrial process controllers featuring call control, operator interface, gage interfaces and data collectors; computer software for control and manufacturing applications, namely, statistical process control, data collection, and distributed numerical control, manufacturing execution systems and document management software; digital signal processing products and systems, namely, industrial automation controls and programmable logic controllers; machine tools, namely, an adaptive control product in the nature of an external controller to optimize machine tool cutting performance of rough and semi-rough cuts; distributed and remote input/output computer hardware devices, input/output modules, interface modules, power supplies and mounting hardware therefor; intrusion and burglar alarm systems, security devices, namely, programming logic computers, control panels, electronic intrusion detectors, electronic glass-break sensors, electronic vibration sensors, magnetic contacts for use in security systems, electronic switch plates, electronic motion sensors for alarm systems, electronic motion sensitive switches, hard-wire sirens, audio speakers, electronic drivers, access control and alarm monitoring systems; fire, heat and smoke detecting and alarm units; computer card operated access control systems; card readers, card encoders, and encoded cards for use with card operated access control systems; video cameras; video object recognizers; video object trackers; video license plate readers; video alarm verifiers; video face recognizers; video vehicle recognizers; video traffic detectors; video access door controllers; video intrusion detectors; processing hardware and software that analyzes digital video images to automatically extract, record and report intelligence, and remote video monitoring systems for security and surveillance applications; central video monitors; cameras; closed circuit video systems; closed circuit video system comprising one or more cameras, and a camera housing; short range, wireless, radio frequency transceivers; power line transceivers; communication control hardware for operating closed circuit camera; communication control hardware, namely, keypad controllers, matrix switchers, multiplexers, integrated pan-tilt-zoom domes, remote video controllers, receivers, electronic alarm, management controls and triggers, and video transmission devices sold separately or as part of a system for operating closed circuit cameras; personal digital assistant devices configured for use by real estate professionals; communications interface devices for use with personal digital assistant devices, fiber-optic transmission systems, namely, fiber optic transmitters, receivers and transceivers used in the transmission of video, audio, and data signals over optical fiber; electrical switches; electro-mechanical locks; magnetic locks; electric keys; hand held electronic hardware for receiving, controlling, storing, manipulating, displaying and transmitting data and for operating electronic locks; electronic access cards and readers and encoders therefore; magnetic assess cards and readers and encoders therefore; smart access cards and readers and encoders therefore; proximity cards and readers and encoders therefore; electronic key fobs and readers and encoders therefore; bar code access cards and readers, encoders; access keypads; radio frequency tracking tags; tracking and control system comprising one or more radio frequency tags, transceivers, and sensors used to determine and monitor the location and movement of tangible assets, inventory and individuals; infrared sensors; computer hardware and software for facilities management and controlling facility access systems and components therefore, namely, control panels, access card readers, and equipment and systems for video imaging, video monitoring, digital hard drive recording, network transmission and remote access; networked digital video storage servers for access control and surveillance applications, alarm monitoring and

security; computer software and hardware for controlling and operating security and access system comprising locks, doors, access, and identification; devices and security enclosures in the nature of electronic boxes for securing keys; surveillance equipment sold individually as components or together as a system comprising one or more surveillance cameras, covert cameras, close circuit television cameras, camera housings, camera mounts, camera lenses, video monitors, digital recorders, video storage media, video switches, control panels, keypad controllers, joystick controllers, electronic display interfaces for alarms and access control equipment, transceivers, receivers, transmitters, signal processors, multiplexers, matrix switches, controllers, control panel housing, switch housing, transformers switches, splitters, coaxial cables, connectors, motion detectors, microphones and speakers; computer user interface software and control software for managing security, fire and access systems; electric locks; hand-held electronic computer and communication hardware for receiving, controlling, storing, manipulating, displaying and transmitting data for operating electronic locks, electronic key fobs, readers and encoders; data processing software; power supplies, namely, batteries, voltage and current regulators and transformers; control panels, namely, electronic apparatuses adapted to electrically monitor a pre-determined activity and activate a burglar alarm; siren speakers; and electronic siren drivers, namely, tone generators and amplifiers adapted to be used for sirens; computer software to control communication hardware for operating and controlling closed circuit cameras; switch units incorporating magnetically actuated reed switches for use in burglary and fire sensing alarm systems, in industrial position sensing apparatus, in revolution counters, in equipment cabinet safety interlock systems, in industrial position controlling apparatus, in electrical cables and in pump and valve controlling apparatus and home security alarm systems; electrical and electronic checking apparatus, namely, detectors, scanners and monitors for screening individuals, baggage, and cargo for the presence of particular substances; electrical and electronic checking apparatus, namely, detectors, scanners and monitors for screening individuals, baggage, and cargo for the presence of explosives and/or narcotics; apparatus for detecting presence of explosives and other contraband; time or condition sensing apparatus for initiating and controlling regeneration or backwash cycles for water treatment equipment; control valves for water conditioning and water filtration equipment; bioreactors for culturing cells; portable analytical instruments, namely, a probe with a microprocessor based data conversion logger for measurement of organic and inorganic chemicals in water; filters and filter housings for laboratory use; fluid separation apparatus for laboratory use; membrane filters for laboratory use; silt density measuring device; deionization units for laboratory use; fluid flow control devices, namely, pumps, valves, flow meters and regulators for laboratory use; ozone monitors; laboratory equipment, namely, porous microtiter plates for use in cell biology and other life science applications; electronic water and process treatment controls, namely, apparatus for use in the treatment of commercial and industrial water systems, boiler water systems, cooling water systems, and closed water systems, pulp and paper processing systems, fuel processing systems, and metal processing systems to analyze the chemistry of the system, determine the proper treatment program, apply the desired treatment and monitor the effectiveness of the treatment; computer software for data management in the water treatment and pulp and paper fields; electronic controllers used for processing information in the water treatment and pulp and paper fields; apparatus for use in industrial water systems to measure and control pH and conductivity; apparatus for feeding chemical to an industrial, commercial or municipal water system in measured amounts; electronic test apparatus for use in water treatment; laboratory testing equipment, namely, deposition and corrosion rate testers; mobile laboratory equipped with equipment and instrumentation to monitor and measure pH, conductivity, and chromate concentration of industrial and domestic waters, to conduct inorganic analysis of water and to conduct microbiological testing of water; electronic and electrochemical products, namely, fuel cells; photovoltaic solar cells and cell modules, photovoltaic solar hybrid modules, electronical sensors for measuring solar radiation, solar cells; apparatus for converting electronic radiation to electrical energy, namely, photovoltaic

solar modules and parts therefor; document and photo printers namely, laser printers, ink jet printers, multifunction and all in one printers; electronic hand-held units for the wireless receipt and transmission of data that enables the user to keep track of or manage personal information and has the capacity to transmit and receive voice, image and video communication; software for the synchronization of data between a remote station or unit and a fixed or remote station or unit and software which enables and provides one-way and two-way wireless connectivity to data; portable digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text, data, image, and audio files and operating software therefor; hand-held electronic devices for the wireless receipt and transmission of data; software for the redirection of messages, e-mail, and other data from a personal computer or a server to one or more hand-held electronic devices; computer software and programs for management and operation of wireless communication devices; portable telecommunication instant messaging devices; computer software for accessing, searching, indexing and retrieving information and data from global computer networks and global communication networks, and for browsing and navigating through web sites on said networks; computer software for sending and receiving short messages and electronic mail and for filtering non-text information from the data; hand-held electronic devices for data, voice, image and video communication; computer game software for mobile handsets; electronic game software for mobile handsets; batteries, dry cells, rechargeable batteries, battery chargers, storage batteries, solar cells, fuel cells, carbon rods for use as fuel cells in dry batteries, wiring apparatus, namely, electrical connectors, electric cables, electrical conduits, floor ducting especially for housing electric cables, ballast for discharge lamps, dimmer switches, circuit breakers, magnetic contactors and starters, circuit protectors, switch gears, electric junction boxes, appliance switches, outlet sockets, electrical plugs, insulating materials in the nature of insulated electrical connectors, wires and cables, electric time switches; video entry phones, intercom systems, electric door chimes, electric buzzers, fire alarms, gas leakage alarms, burglar alarms, portable emergency buzzers; acoustic machines and apparatus, namely, radios, cassette tape players and recorders, radio cassette recorders, portable cassette tape players, compact disc players and recorders, mini disc players and recorders, mini disc decks, DVD (digital versatile disc) audio players and recorders, secure digital players and recorders, secure digital card, audio speakers, stereo tuners, amplifiers, stereo component system comprised of tuners, amplifiers, audio speakers, record players, graphic equalizers, radios incorporating clocks, IC (integrated circuit) recorders, digital sound processors, headphones, earphones, microphones, sing-along cassette players and recorders in the nature of karaoke players, pre-recorded compact disc featuring sports, electric megaphones, car audio systems comprised of stereos, speakers, amplifiers, equalizers, crossovers and speaker housings, public address systems, audio mixers, audio equipment cleaners, namely, magnetic head cleaners, audio cables, video cables, audio-visual machines and apparatus, namely, television receivers, cathode ray tube displays, cathode ray tubes, television signal image pick up tubes, plasma television receivers, plasma displays, LCD (liquid crystal display) television receivers, liquid crystal displays, combined television receiver with video tape recorder, combined television receiver with audio and video disc player, antennas, tuners for satellite broadcasting, tuners for television, Internet display terminals, video projectors, video cassette recorders, camcorders, video cameras, video printers, laser disc players, video CD (compact disc) players, DVD (digital versatile disc) video players and recorders, color video systems for large-scale display, comprised of video projector, audio speakers, cable television systems, namely, converters and transmitters, hard disk drivers, video imagers, electric optical display boards, multi-purpose electric display systems, comprised of LED (light emitting diodes) monitors and screens, closed circuit video equipment systems, comprised of cameras and monitors for video surveillance, television cameras, video switchers, electronic editing controller, light emitting diode display; optical-disc machines and apparatus, namely, optical disc drives, optical disc recorders, optical disc players, optical disc changers;

communication machines and apparatus, namely, facsimile transceivers, transceivers, telephones, cellular mobile telephones, carry case for cellular mobile telephone, telephone answering machines, private automatic branch telephone switching apparatus, global positioning system receivers, radio telephones, marine radars, radio paging receivers, mobile communication systems and multi-channel access radio systems, comprised of radio emitters, radio receivers, radio emitters/receivers, radio repeaters, radio signal amplifiers, radio antennas, radio-telephones; electronic traffic information boards, video teleconferencing systems, comprised of cameras, transmitters, receivers and players, personal handy-phone systems, comprised of mobile telephones, pagers, local area network (LAN) hardware and operating software, AV (audio/visual) encoders and decoders, in-car navigation apparatus, electronic apparatus for the collection of road tolls, GPS (global positioning system) antenna; checking and supervising apparatus and instruments, namely, electric door openers, communication and monitoring system for apartment buildings comprised of video cameras, computer monitors, intercoms, intruder detection systems, comprised of burglar alarms, video monitors, automated control system comprised of hardware and software for monitoring and controlling functions within buildings and electric multi-layer security appliances; automatic controlling machines and instruments, namely, electric notice boards, traffic management equipment, namely, display monitors, computers, auto compasses, software to manage traffic, automated traffic-signal control apparatus, bus location system, and ultrasonic vehicle detectors, electric light dimmers, electric daylight switches, inverters, programmable logic controllers, transformers, power capacitors; data processing equipment, namely, computers and computer peripheral devices, computers, word processors, image scanners for personal computer, document and photo printers, computer keyboards, computer mouse, CD-ROM (compact disc-read only memory) drives, floppy disk drives, electronic and magnetic card reader and writers, bar code readers, time recorders, mobile data terminal, electronic cash registers, electronic equipment for point-of-sales (POS) systems, namely, point-of-sale terminals, bar code readers, optical readers, advertisement display monitors, keyboards, printers, scanners, radio transmitters, radio receivers, and computer operating software, data collection terminals in the nature of computer terminals, PDA (personal digital assistants), DVD-RAM/ROM (digital versatile disc-random access memory/read only memory) drive, CAD/CAM (computer aided design/computer aided manufacturing) drives, hard disc drives, electronic calculators, uninterrupted power supplies for computers and communication and broadcasting equipment; head cleaning tapes for audio and video recorders, weighing and measuring apparatus and instruments, namely, thermoluminescence dosimeters, electronic counters, ammeters, power consumption meters, clamp meters, electric leakage meters, electric insulation meters, thermometers, measurement system processors, multi-circuit type electric power monitor, electronic micro-precision measurements, step counter, namely, pedometers, audio and video signal analyzers, oscilloscopes, modulators, voltmeters, audio and video signal distortion meters; electronic sensors, namely, photoelectric sensor, temperature sensors, position sensors, angular speed sensors, rotation sensors, angle sensors, dew sensors; electric components, namely, light emitting diodes, liquid crystals displays, liquid crystal display modules, magnetrons, diodes, transistors, thermostats, integrated circuits, LSI (large scale integration) circuits, semiconductor memory devices, one-chip microcomputers, electric condenser microphone, halftone image processors, thermal printing heads for printers, magnetic heads for audio cassette players, permanent magnets, electrical connectors, electric relays, lasers for use in manufacturing semiconductors, image sensors for CCDs (charge coupled devices), film capacitor, electric tuner units, electric high frequency units, electric coin validating units, electric monetary bill validating units, voltage controlled oscillators, PPL (phase-locked loop) synthesizer modules, electronic wireless communication module unit, optical transmission components, namely, connectors for optical fiber, printed wiring boards in the nature of circuit boards, speaker components, namely, speaker enclosures, speaker drivers, power supplies, AC (alternating current) adapters, convergence magnets, and electrical coil inductors, capacitors for electrical appliances, filters of

electric signals, transformers, deflection yoke thermistors, varistors, acousto-optic devices, namely, resistors, potentiometers, encoders, printer units, hybrid IC (integrated circuit) cards, electronic components, namely, piezoelectric switches, heat sink wiring boards, transparent touch panels, electro luminescent display units, electro-magnetic resistors, thermomagnetic cut-offs devices; data processors in particular for financial applications; computer operating programs; computer hardware and software for the development, maintenance and use of local and wide area computer networks; systems for reading memory cards and systems for reading data in memories in the nature of memory readers for reading integrated circuit memories and banking card memories; cash dispensers; automated billing machines for processing accounting information; magnetically encoded cards, namely, magnetic cards and cards with integrated circuits, in particular, for financial debit and credit applications; electronic card reader, printers for use with data processing systems and financial transaction systems; encoders and decoders; modems; electronic data carrier cards, namely, magnetic coded card readers, electronic data carrier card readers, namely, smart card readers, electronic encryption units, computer terminals, computer software for data collection, database management and data analysis for use in connection with providing financial, banking and telecommunications services; electrical and electronic goods, namely, calculating machines, electronic day planners; banking cards, namely, credit cards and debit cards using magnetic memories and integrated circuit memories; banking cards, namely, credit cards and debit cards having integrated circuits and microprocessors; automatic cash dispensers; equipment for data processors and computers, namely, cards equipped with microprocessors and integrated circuits; computer hardware in the nature of integrated circuit cards and card readers containing transponders and other proximity payment devices; mouse pads; fluid control devices, namely, expansion valves, flow meters, pressure switches, sequence timers, regulators, levelers, ejectors, and electrical controls and switches, electrical inductors, electrical transformers, electric regulating and controlling devices, electric measuring instruments, switchboards; electrostatic emission control devices, namely, electrostatic precipitators for reducing particulate emission in industrial applications; electronic notice boards

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Telecommunication services, namely, local and long distance transmission of voice, data, graphics by means of telephone, telegraphic, cable, and satellite transmissions; television broadcasting; communications by mobile telephones; communications by electronic computer terminals; providing access to databases and Internet related telecommunications networks; communications by a communications system consisting of teletypewriters connected to a telephonic network to send and receive signals; communications by telegraph; communications by telephone; communications by facsimile; paging by radio; communications by teleconferencing; cable television broadcasting; radio broadcasting; press and information agency services, specifically, transmission of news including sports results and entertainment; other message transmission services, specifically, delivery of messages by electronic means; broadcasting of a commercial site on the Internet; streaming of radio and television programming and broadcasting services provided via the Internet; electronic messaging; providing access to computer bulletin boards, and real-time chat forums for transmission of messages among users concerning sports and entertainment; transmission of messages and images via computer; providing access to telecommunications channels for home and office tele-shopping services via computer and/or interactive communications technologies; telecommunication of information including web pages, computer programs and any other data, specifically, data transmitted by electronic communications network; electronic mail services; providing user access to the Internet; providing telecommunications connections to the Internet or databases; providing access to digital music web sites on the Internet; providing access to MP3

web sites on the Internet; delivery of digital music by telecommunications; rental of access time to a central database available on the Internet providing access to search engine databases; management of chat forums on the Internet for transmission of messages among computer users concerning sports and entertainment; rental of telecommunication lines for access time to a central server database; rental of telecommunication lines for access time to a computer database; simultaneous broadcasting of films and of video and sounds recordings via electronic communications networks; providing e-mail services; wireless data messaging service, particularly service that enable a user to send and/or receive message through a wireless data work; one-way and two-way paging services; electronic transmission of data, images, audio, video and documents, including text, cards, letters, messages, mail, animations and electronic mail, over local or global communications networks, including the internet, intranets, extranets, television, mobile communication, cellular and satellite networks; electronic transmission of computer software over local or global communications networks, including the internet, intranets, extranets, television, mobile communication, cellular, and satellite networks; providing access to databases and local or global communications networks, namely, the Internet, intranets, extranets, television, mobile communication, cellular, and satellite networks; message transmission and relay services, namely, electronic transmission of messages; telecommunication services for the dissemination of information by mobile telephone, namely, the transmission of data to mobile telephones; mobile telephone communication services; electronic transmission and reception of voice communication; communication services, namely, transmission of data by telecommunications networks, and multimedia communications networks; rental of access time to global computer networks. transmission of data, images, audio, video and documents, including text, electronic cards, letters, messages, e-mail, animations and electronic mail, over local or global communications networks, including the internet, intranets, extranets, television, mobile communication, cellular and satellite networks

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Belts, neckties; suspenders; bandannas; beach sandals; infant and toddler sleep wear; bathrobes, nightshirts, pajamas and lounge wear; beach cover-up dresses; toddler short and top sets; girls knit dresses with pants sets; boys shorts and top sets; girls skirt/panty combinations; socks; play suits; coveralls; union suits; collarless shirts; shorts; pants and slacks; shirts; jackets; judges, team, referee and umpire uniforms; sweaters; parkas; turtlenecks; mittens; gloves; underwear; rompers; jerseys; maternity tops; bow ties; head wear and scarves; ear muffs, ear bands and headbands; hosiery; rain wear, namely, rain ponchos and jackets; footwear, namely, shoes, boots and slippers; bath thongs; hats; caps; visors; aprons; ski and cloth bibs; team uniform reproductions, comprising of jerseys featuring reproductions of professional athletic team logos; canvas footwear; knickers; wind-resistant jackets; T-shirts; sweatshirts; sweat pants; baseball caps; coats; pullovers; one-piece ski suits; golf shirts and hats; blazers; leg warmers; sequined evening tops; jeans; leotards; workout and sports apparel, namely, shorts, jackets, slacks and skirts; ski masks and ski gloves; sailing gloves

International Classes 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

For Scientific and technological services, namely, scientific research, analysis, testing and new product design in the field of medical and pharmaco-toxicological science and testing; industrial analysis and research services in the field of medical and pharmaco-toxicological science and testing; laboratory analysis in the field of medical and pharmaco-toxicological science and testing; design and development of computer hardware and software; services relating to wind and wind power, namely, professional engineering and design consulting services and engineering services; design of new products for others in the field of wind power; industrial design services; design of power, wind power and electric power generating equipment and installations; engineering services, technical consultation and scientific research services in the oil and gas exploration

industries; oil and gas exploration services; geophysical exploration for the oil and gas industries; analysis of oil and gas fields; oil and gas prospecting, namely, well logging and testing; oil and gas well testing; oil and gas pipeline inspection; remote monitoring and diagnostic services for compressors, pumps, turboexpanders, fuel pumps and fuel distribution equipment, CNG refueling equipment, gas turbines, steam turbines, air cooled heat exchangers, steam condensers, heavy wall reactors and tubular reactors; planning, design and management of information technology systems in the field of global railroad and transit industries; leasing of computer equipment; consultation, and advisory services relating to engineering, design and development problems encountered by utility, industrial, and commercial companies, governments, and individuals; computer programming services for others; computer software design and analysis services for others; computer consultation services. maintenance and updating of computer software and computer programs for others; installation of computer software; computer systems analysis and design services for others; consultancy services relating to chemical research; consultancy services relating to the discovery and evaluation of drugs and compounds having diagnostic, prophylactic and/or therapeutic properties; medical and scientific research consultancy services relating to methods for diagnosis using laser based optical systems; development and design of high through put screening assays for drug development services; research and development in the biotechnology field; technical support services for factory automation software, namely, providing maintenance of computer software and providing periodic upgrades of software; custom design of security access systems; design and consulting services in connection with the configuration of systems used in applications supporting fiber optic technology; technical support, namely, monitoring of network systems; technical consultation concerning the design and development of security and access systems; laboratory and testing services for fluid separation and membrane testing; engineering and consulting services for the detection of contaminants in water treatment systems, aqueous systems, cooling water systems, industrial boiler water systems, industrial water and process systems, industrial fuel processing systems, pulp and paper making systems, and metal and plastic processing systems; engineering services and technical support services, namely, design and configuration of computer software and hardware systems to be used in the treatment of aqueous system and in the treatment of pulp and paper making systems, petroleum and petrochemical processing systems, and metal and plastic finishing operations. programming for data processing machines, namely, programming of electronic money machines; providing on-line non-downloadable computer programs for assuring security of data transfers; research and industrial development in the field of computers; technical consultation in the field of computers; creation and maintenance of computer data bases and computer programs; hosting the web sites of others on a computer server for a global computer network; installation of computer software; maintenance of computer software; providing search engines for the Internet; quality control for others; recovery of computer data; product research and development for others; surveying; updating of computer software; maintenance of computer software; engineering, testing and research relating to electric machines, apparatus and instruments, computer rental; rental of computer software and programs; recovery of computer data, namely, images, documents and of audio and video data, including texts, cards, letters, messages, mail, animations and electronic mail, via local or global communication networks, including the Internet, intranets, extranets, television, mobile communication networks, cellular networks and satellite networks; identification and testing of microbiological organisms; computer consultation services for value-added data computer servers, namely, multimedia systems, interactive videography, and global computer networks for telecommunications; consultancy regarding information technology management; industrial product research, development and testing in the field of sport; scientific research in the field of sports; hosting weblogs; providing web hosting electronic platforms for sharing and transmitting data; providing an on-line, non-downloadable, Internet-based interactive computer application featuring technology enabling users to note personal evaluations of the performance of an athlete, to vote for an athlete, as well as record

their comments, and also enabling them to consult ratings, votes and comments from other users; providing an on-line, non-downloadable, Internet-based interactive computer application featuring technology enabling users to identify and vote for athletes participating in an international athletic competition, as well as to monitor the performance of these athletes; digital storage services for carriers containing immobile and mobile images, namely, storage of electronic media, namely, images, text and audio data

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Rental of meeting rooms, namely, rental of rooms for social functions; and leasing and rental of mobile and modular buildings for temporary use

International Classes 43 - Primary Classes **US Classes** 100, 101 **International Class Title** Hotel and restaurant services

For Beers; mineral and aerated waters and other non-alcoholic drinks, namely, aloe vera drinks, coffee-flavored soft drinks, soft drinks, energy drinks, guarana drinks, isotonic drinks, sports drinks; fruit drinks and fruit juices; syrups for making beverages and other preparations for making soft drinks, fruit drinks and fruit juices beverages

International Classes 32 - Primary Classes **US Classes** 45, 46, 48 **International Class Title** Light Beverages

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the stylized letters "ACRN" and design. The letters "ACRN" are in blue-green capital letters. The design features a stylized image of an acorn where the cupule is in light brown in the middle of the cupule, medium brown in the middle and dark brown on the top and sides. The nut is in light blue-green in the middle and dark blue-green on the outside centered over the word "ACRN" in blue-green capital letters. The color white appearing in the drawing represents background or transparent regions and is not claimed as a feature of the mark. **Color Drawing** Yes **Color Claimed** The color(s) blue-green, light brown, medium brown and dark brown is/are claimed as a feature of the mark.

GOODS AND SERVICES INFORMATION

For association services, namely, promoting the adoption and acceptance of open source software for others; promoting voluntary common industry standards for computer networking software development for others

CASE IDENTIFIERS

Serial Number 88007148 **Application Filing Date** Jun. 20, 2018 **Register** Principal **Mark Type** Service Mark Trademark **Publication Date** Feb. 25, 2020

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 2 - AN ILLUSTRATION DRAWING WITHOUT ANY WORDS(S)/ LETTER(S) **Description of the Mark** The mark consists of a motion mark in color. The nature of the motion is that of three blue inwardly curved lines arranged in a circle evenly punctuated by three small blue dots with a fourth blue dot in the center of the circle, around which the circle of curved lines and dots rotates in a clockwise manner. The duration of the motion is approximately three seconds, at which time a full rotation has been completed and the three outer dots and curved lines have returned to their original positions. The motion then repeats, creating the appearance of continuous rotation. The five stills in the sequence are spaced approximately three-quarters of a second apart. The stills are arranged consecutively from the beginning to the end of one rotation. The stills follow a progression from the top left (1st still) to the bottom center (5th still), moving from left to right across each row and then down to the next row. The black borders around each frame are not part of the mark; they are present only to clarify that there are five depictions of the same motion mark in the drawing. **Color Drawing** Yes **Color Claimed** The color(s) blue is/are claimed as a feature of the mark.

GOODS AND SERVICES INFORMATION

For Online retail store services featuring charging appliances for rechargeable equipment, power supplies for electronic and electrical equipment, electrical power devices, namely, power supplies that function by contact in the nature of wireless charging pads for smartphones, battery charge devices, battery chargers, power supply accessories, wireless chargers, wireless power supplies, electrical adapters for enabling charging of rechargeable equipment, charging pads for rechargeable equipment, power supply pads for electronic and electrical equipment, mobile and cell phone cases with charging functionality for enabling charging of rechargeable equipment, electrical transformers, electric power converters

For Application programming interface (API) for software development in the fields of artificial intelligence, deep learning, machine learning, neural networks, high performance computing, and distributed computing systems; application programming interface (API) for use in building software applications; application programming interface (API), namely, software facilitating the development of voice service delivery and personal assistant capability tools in connection with edge devices; artificial intelligence apparatus, namely, computer hardware and software for enhancing products and services with artificial intelligence technology; computers for use in the field of artificial intelligence; supercomputers for use in the field of artificial intelligence; automated self-contained video streaming devices that can be deployed to gather and analyze

information in remote locations; hardware systems comprised of cameras, switchers, monitors, microphones, recorders, transmitters and video streaming devices for IP (Internet protocol) video surveillance, namely, transmission of data; closed circuit TV systems for security and video streaming, namely, cameras, switchers, monitors, microphones, and recorders; communications software for providing access to the internet; computers; mobile computers and mobile communications devices, namely, portable digital audio, video and multimedia transmitters and receivers for use with text, audio, video, images, still and motion pictures, graphics, signals, messages, multimedia files, and other digital data, and for accessing global computer and communication networks; computer and mobile device software for enhancing uploading and downloading capabilities on computers, mobile computers, and mobile communications devices; computer application software for handheld wireless devices, namely, software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart edge devices and electronic personal assistant devices; computer chips; computer chipsets; computer cursor control devices, namely, touch pads; computer hardware and software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, streaming, receiving, playing and viewing text, multimedia and data files; computer hardware and software for use in artificial intelligence applications and computer vision; computer hardware and software, and communications hardware and software for the operation, control, maintenance, and management of vehicles; computer hardware and software for vehicle components for the purpose of vehicle navigation, travel and trip planning and communication with vehicles; computer hardware and software for collecting, tracking, analyzing, and reporting data and information in the field of self-driving and autonomous vehicles; computer hardware for IP video streaming; computer hardware; software for navigation, steering, tracking, communication, object detection, controlling cameras and sensors, and image processing; software for steering and navigation of autonomous vehicles; software for communicating with autonomous vehicles; computer network hubs, namely, local server hubs for a video streaming system comprised of cameras; software development tools; software for accessing, browsing, and searching online databases, audio, video, and multimedia content, games, and software applications, as well as software application marketplaces; software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; software for conducting internet searches, namely, internet browser software; software for conducting internet searches, namely, web browser software for mobile communications devices; software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, home climate devices and lighting products via wireless networks; software for others to use for the development of software to manage, connect, and operate internet of things (IoT) electronic devices; software for personal information management; software for searching, locating, compiling, indexing, correlating, navigating, obtaining, downloading, receiving, encoding, decoding, playing, storing and organizing text, data, images, graphics, audio and video on a global computer network; software for use as an application programming interface (API); software for use in providing online retail and ordering services for a wide variety of consumer goods; software for use on electronic devices, namely, software development kit consisting of software development tools for the development of content and services delivered across global computer networks; application development software programs; software for formatting and converting content, text, audio works, literary works, data, files, documents, and electronic works into a format compatible with portable electronic devices and computers; software for use to connect and control internet of things (IoT) electronic devices; software for viewing information on global computer networks; software for voice recognition for use in connection with the transmission of voice and data; software to enhance mobile access to the internet via computers, mobile computers, and mobile communications devices; software used for controlling stand-alone voice controlled information and personal assistant devices; software using artificial intelligence and natural language processing for extracting data from

unstructured and semi-structured documents, for classifying and searching documents, and for natural language processing; computers; data processing equipment; deep learning accelerate cards in the nature of deep learning computer hardware; digital video recording software for IP (Internet protocol) video streaming; downloadable software in the nature of a mobile application for telecommunication services for providing transmission of voice, data, video, and media content via the internet and the worldwide web for computers and other portable edge network interface devices; electronic controllers for use with power controllers; electronic controllers to impart sensory feedback, namely, sounds and vibrations that are perceptible to the user; electronic video streaming system and products, namely, electronic components of security systems; equipment for data processing and computers, namely, computer hardware and computer peripherals which integrate machine learning and artificial intelligence technology; graphics processing units (GPUs); hardware and software for detecting objects, user gestures and commands; hardware and software for operating sensor devices; computer hardware for artificial intelligence and machine learning technology; home automation and home device integration software; integrated circuits; laptop computers; notebook computers; personal assistant software; handheld computers; tablet computers; computer peripherals; wearable peripherals for computers; personal vehicle integration software; portable electronic devices for receiving and reading text, images and sound through wireless internet access; printed circuits boards; search engine software; security surveillance robots; electronic computing software platform for self-driving and autonomous vehicles; self-driving and autonomous vehicle electronic driving system and equipment in the nature of artificial intelligence, machine learning, deep learning, high performance computing, and simulation software and hardware; semiconductors; sensors for monitoring physical movements; simulation, modeling and data processing software and hardware for use in data visualization, data analysis, data mining, data interpretation, predictive analytics, accessing and editing large-scale data, interactive visual computing, design of information graphics, video streaming, maximizing graphics processing and performance; software and computer hardware for artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; software and firmware for enabling electronic devices to share data and communicate with each other; software and firmware for operating system programs; software and hardware for use in managing and operating data centers and data storage; software and hardware for developing machine learning, deep learning, or artificial intelligence applications; software and hardware for language translation and image recognition programs; software and hardware for use in operating artificial intelligence platforms; software and hardware that assists computers in deploying parallel applications and performing parallel computations; software and hardware that facilitates data transmission, data collection, data analysis, and decision-making; software development kits (SDKs) comprising of software development tools and software for use as an application programming interface (API) for creating software and applications related to internet connected edge devices; software development kits (SDKs) consisting of software development tools for the development of voice service delivery and natural language understanding technology across global computer networks, wireless networks, and electronic communications networks; software development kits (SDKs) consisting of software for the development, use, and interoperability of APIs that are used by electronic devices, systems, and interchanges that exchange data via communications networks and the internet and that connect with cloud-based data storage and exchange services; software development kits (SDKs); software development tools; software for artificial intelligence and machine learning; software for artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; software for collecting, managing, editing, organizing, modifying, transmitting, sharing, and storing of data; software for enhancing computer performance, for

operation of integrated circuits, semiconductors, computer chipsets and micro-processors; software for modifying and enabling transmission of images, audio, audio visual and video content and data; software for operating and managing integrated circuit components; software for processing images, graphics, audio, video, and text; software for training neural networks to enable deep learning; software platforms for artificial intelligence applications; software, namely, an interpretive interface for facilitating interaction between humans and machines; software for compute intensive processing, processing architecture, smart infrastructure, predictive intelligence, execution planning and operating sensor devices for use in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; compiler software for use in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; software for development of integrated circuits, semiconductors, chip sets and processors; supercomputers; system-on-chip processors; television and radio signal transmitters and receivers; tensor computing processors; tensor processing units (TPUs); touch pads; voice command and recognition software, speech to text conversion software; voice processing software, namely, software for the control of voice controlled information and communication devices; voice-activated software, namely, software for stand-alone voice controlled information devices comprised of cloud-connected and voice-controlled information devices comprised of cloud-connected and voice-controlled smart audio speakers with virtual personal assistant capabilities; voice-enabled software applications for personal information management; wireless communication software for voice, audio, video, and data transmission; wireless controllers to monitor and control the functioning of other electronic devices; software, firmware and hardware for use in the fields of edge computing, artificial intelligence, high performance computing, distributed computing, machine learning, automation controls, data collection, data analytics and internet of things; software for connecting, operating and managing networked computing systems, sensors, actuators, robotic systems, communication systems, and test systems in the internet of things (IoT); electronic components, namely, circuit boards, Field Programmable Gate Array IP Cores, artificial neural networks, electronic thermal sensors, geofencing sensors, electromagnetic sensors, mechanical sensors, optical sensors, proximity sensors, image sensors, and motion sensors, scientific instruments, namely, instruments for gathering, measuring and processing data for use in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence, actuators, robotic systems comprised of actuators, controllers and computer processors, all for use in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence, communication transceivers, and power supplies for use in the fields of network edge computing, artificial intelligence, high performance computing, distributed computing, machine learning, automation controls, data collection, data analytics and internet of things; industrial automation controls; edge devices; edge embedded device software to manage edge assets and devices; a computer, storage and networking card suitable for processing edge devices data; software for controlling edge devices; software to effectuate and manage telecommunication sessions involving voice, fax, and data transmissions via a packet-based protocol with edge devices; software for controlling self-driving and autonomous vehicles; parts and fittings for all the aforesaid goods

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Advanced product research in the field of artificial intelligence; application service provider (ASP) featuring software for use in database management; application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; application service provider (ASP), namely, hosting computer operating systems and computer software applications through the internet of others; application service provider (ASP), namely, hosting, managing, developing and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, and mobile applications; application service provider (ASP), namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of ecommerce, online payments, order queuing, website design, data storage, shared computing capacity scaling, messaging services, and calculation of website ranking based on user traffic; application service provider (ASP), namely, remote hosting of operating systems and computer applications of others; application service provider featuring application programming interface (API) software to provide natural language processing, artificial intelligence, machine learning, deep learning, natural language processing, supervised learning, unsupervised learning, and predictive analytics; application service provider (ASP), namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of e-commerce, on-line payments, order queuing, website design, data storage, shared computing capacity scaling, messaging services and calculation of website ranking based on user traffic; cloud computing featuring software for use in database management; cloud computing services featuring software for compute intensive processing for use in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; cloud hosting provider services; cloud-based supercomputing featuring software for compute intensive processing for use in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; on-line non-downloadable cloud-based tensor computing processors; computer software and technology consulting; computer programming; circuit board design services; design, development, and testing of vehicle simulators; consultation in the design and development of computer hardware and software; consulting services in the field of design and development, selection, implementation and use of computer hardware, software, applications, and networks; computer services, namely, computer software design for software used in multimedia applications management, presentation and control, research, database management, facilities management, and outsourcing; computer services, namely, management of software and hardware for data centers; computer services, namely, providing database servers of variable capacity to others; computer services, namely, providing remote management of devices via computer networks, wireless networks and the Internet; computer services, namely, remote hosting of operating systems and computer applications for others in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops, and mobile electronic devices; computer software design for others; computer software design, computer programming, or maintenance of computer software; computer software development in the field of mobile applications; consulting services in the field of data center design and management, as well as computer application deployment and consolidation; creating and hosting of websites for others;

design and development of computer hardware and software in the fields of artificial intelligence, machine learning, deep learning, and deep neural networks; design and development of computer hardware and software in the fields of self-driving and autonomous vehicle electronic computing platforms and systems; design and development of computer hardware and software; design and development of computer software for vehicle simulation; design and development of software for fine-tuning, development, diagnostics for vehicles, calibration, configuration and diagnostics of electronic systems; design of computer hardware, software and peripherals for others; design, development and maintenance of proprietary computer software for others in the field of natural language, speech, language, and voice recognition excluding post-production of picture and sound recordings; design, development, customization, integration, support and maintenance of computer software; design, programming and maintenance of artificial intelligence software; design, research and development of software; designing of machines, apparatus, instruments, including their parts and systems composed of such machines, apparatus and instruments; electronic storage of data; hosting of digital content on global computer networks, wireless networks, and electronic communications networks; industrial analysis and research services in the field of vehicle technology, vehicle simulations and vehicle test stands; industrial design in the field of artificial intelligence; information, advisory and consultancy services relating to voice command and recognition software, speech to text conversion software, and voice-enabled software applications, home automation, and internet-of-things software; internet services, namely, creating indexes of information, websites, and resources available on global computer networks for others; maintenance and updating of computer software relating to computer, internet, and password security and prevention of computer, internet, and password risks; consulting services in the field of mobile computer and mobile communications device hardware and software design; mobile computer and mobile communications device software design for others; remote monitoring of computerized data and computer systems and networks for security purposes; non-downloadable software for the operation, control, maintenance, and management of vehicles; non-downloadable cloud-based software for compute intensive processing for use with a supercomputer for use in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; non-downloadable software enabling hardware and electronic devices to communicate with each other; non-downloadable software for enhancing computer performance by improving operation of integrated circuits, semiconductors, computer chipsets and micro-processors; non-downloadable interactive entertainment software for streaming multimedia entertainment content; non-downloadable software enabling hardware and electronic devices to share data and communicate with each other; non-downloadable software featuring software for monitoring and managing data centers and cloud-based and virtualized computing environments; non-downloadable software for 3D-visualization, 3D modeling and 3D rendering; non-downloadable software for artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; non-downloadable software for artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining and predictive analytics and business intelligence; non-downloadable software for self-driving and autonomous vehicle simulation; non-downloadable software for detecting objects, user gestures and commands; non-downloadable software for facilitating interaction between humans and machines; non-downloadable software for language translation and image recognition programs; non-downloadable software for object tracking, motion control and content visualization; non-downloadable software for operating sensor devices; non-downloadable software for others to use for the development of software for self-driving and autonomous vehicle electronic computing platforms and systems; non-

downloadable software for processing images, graphics, audio, video, and text; non-downloadable software for streaming multimedia entertainment content; non-downloadable software for tensor processing for use in artificial intelligence, deep learning, machine learning, distributed computing, high performance computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics, business intelligence, compute intensive processing and neural networks; non-downloadable software for the operation, control, maintenance, and management of vehicles; non-downloadable software for operation, control, maintenance, and management of vehicle components, vehicle navigation, for travel and trip planning and for communications with vehicles; non-downloadable software for collecting, tracking, analyzing, and reporting data and information in the field of self-driving and autonomous vehicles; non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; non-downloadable software for use as application programming interfaces (API); non-downloadable software for use in electronic storage of data; non-downloadable software for use in visual, voice, audio, motion, eye and gesture tracking and recognition; non-downloadable software for navigation, steering, tracking, communication, object detection, controlling cameras and sensors, and image processing; non-downloadable software for steering and navigation of autonomous vehicles; non-downloadable software for communicating with autonomous vehicles; non-downloadable software powered by artificial intelligence for analyzing user data; non-downloadable software to enable users to program, organize and access artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence models; online non-downloadable software for use in providing retail and ordering services for a wide variety of consumer goods; platform as a service (PaaS) featuring software platforms for use in database management; platform as a service (PaaS) featuring software platforms for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; platform as a service (PaaS) featuring software platforms for personal assistant software; platform as a service (PaaS) featuring software platforms for home automation and home device integration software; platform as a service (PaaS) featuring software platforms for wireless communication software for voice, audio, video, and data transmission; platform as a service (PaaS) featuring knowledge-based artificial intelligence software platforms, data analytics software platforms, and automation software platforms; platform as a service (PaaS) featuring software for artificial intelligence; platform as a service (PaaS) featuring software for artificial intelligence, machine learning, data analysis, high performance computing, distributed computed, data virtualization, and predictive analytics; platform as a service (PaaS) featuring software for others to use for the development of software for self-driving and autonomous vehicle electronic computing platforms and systems; platform as a service (PaaS) featuring software for controlling electronic control systems for vehicles; platform as a service (PaaS) featuring software in the field of self-driving and autonomous vehicles, for self-driving and autonomous vehicle component operation, control, maintenance, management and communication; platform as a service (PaaS) featuring software platforms for downloading, storing, viewing, playing and interacting with digital content and software applications; platform as a service (PaaS) featuring software platforms for natural language processing, machine learning, voice command and recognition, converting speech to text, data analytics, and artificial intelligence; platform as a service (PaaS) featuring software platforms for transmission of images, audio-visual content, video content and messages; platform as a service (PaaS) featuring software for use by others for scaling and maintaining on-line databases for others; platform as a service (PaaS) featuring software for accessing, browsing, and searching online databases, audio, video and multimedia content, games, and software

applications as well as software application marketplaces; platform as a service (PaaS) featuring software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; platform as a service (PaaS) featuring software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, home climate devices and lighting products via wireless networks; platform as a service (PaaS) featuring software for others to use for the development of software to manage, connect, and operate internet of things (IoT) electronic devices; platform as a service (PaaS) featuring software for personal information management; platform as a service (PaaS) featuring software for use to connect and control internet of things (IoT) electronic devices; platform as a service (PaaS) featuring software for use as an application programming interface (API); platform as a service (PaaS) featuring software platforms for downloading, storing, viewing, playing and interacting with digital content and computer software applications; software as a service (SaaS) featuring computer software used for controlling stand-alone voice controlled information and personal assistant devices; platform as a service (PaaS) featuring software in the field of self-driving and autonomous vehicle component operation, control, maintenance, management and communication systems; platform as a service (PaaS) featuring software for use by others for providing an online database featuring a wide range of general interest information via the internet; platform as a service (PaaS) featuring software for use by others for collecting and processing log and event data from devices, web sites and other software applications; platform as a service (PaaS) application to monitor, control and coordinate edge devices; production of video and computer game software; providing a virtual computing environment through cloud computing accessible via the internet; providing a website featuring on-line non-downloadable software for database management; providing on-line non-downloadable application programming interface (API) software for use in transmission of audio, video, images, text, content and data; providing on-line non-downloadable artificial intelligence computer programs on data networks; providing on-line non-downloadable computer programs for use in collecting, analyzing and reporting of data on data networks for use in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; providing virtual computer software technical support services, technical information and technical support services, namely, remote troubleshooting of computer software problems by providing software patches, upgrades and updates; providing customized computer searching services, namely, searching and retrieving information at the user's specific request via the internet; providing information in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence from searchable indexes and databases of information including text, electronic documents, databases, graphics, electronic media, images and audio visual content via the internet and communication networks; providing information, news, and commentary in the field of science and technology, home decorating, weather, and graphic, interior, product, and fashion design; providing internet search engines; providing online non-downloadable software for artificial intelligence, machine learning, deep learning, high performance computing, image feature extraction, natural language processing, supervised learning, un-supervised learning, and predictive analytics; providing temporary use of non-downloadable personal assistant software; providing temporary use of non-downloadable social assistant software, namely, wireless communication software for voice, audio, video, and data transmission; providing technical support services, namely, monitoring technological functions of computer network systems and consultation in the fields of software development and use of computer hardware; providing technical information relating to the installation, repair and maintenance of computer software; providing technical support services regarding, namely, troubleshooting of computer software problems regarding

the usage of communications equipment; non-downloadable computer software for enabling users to access and download computer software; hosting online web facilities for others to enable users to access and download computer software; non-downloadable software for managing computer applications; non-downloadable software for constructing an internet platform for electronic commerce; non-downloadable software for designing, managing, and monitoring on-line forums for discussion; non-downloadable software for creating electronically stored web pages for on-line services and the internet; non-downloadable software for data warehousing, elaboration and maintenance of web sites for third parties; non-downloadable software for managing web sites for others; non-downloadable software for rental of web servers; non-downloadable software for web site maintenance accessible over a global computer network; non-downloadable software that generates customized recommendations of software applications based on user preferences; non-downloadable mobile communications device software for enhancing mobile access to the internet via computers, mobile computers, and mobile communications devices; non-downloadable software for accessing and using a cloud computing network; providing virtual computer systems and virtual computer environments through cloud computing; providing virtual computer systems and access to tensor processing units (TPUs) through cloud computing; providing, developing, and designing non-downloadable software accessible over a global computer network, for managing computer applications, constructing an internet platform for electronic commerce, designing, managing, and monitoring online forums for discussion, creating electronically stored web pages for online services and the internet, data warehousing, elaboration, and maintenance of web sites for third parties; provision of Internet search engine services; rental of space in a computer co-location facility for containerized data centers of others; research and design in the field of artificial intelligence, natural language processing and machine learning; research and design in the field of vehicle technology, vehicle simulation and vehicle testing; scientific and technological services and research and design in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; software development in the field of artificial intelligence and machine learning; software development services in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; software for integrating electronic data with real world environments for the purpose of capturing, processing, and visualizing modeling and placement of goods of others and visual image markers; platform as a service (PAAS) featuring computer software platforms for software development featuring non-downloadable software development kits (SDKs); technical research, development, and design of computer software, in the fields of artificial intelligence, machine learning, natural language processing, high performance computing, and data virtualization; technical support, namely, troubleshooting of computer software application problems, and consultation services for developing computer software applications for others; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; technical support services, namely, troubleshooting of computer software and hardware problems; technological services, namely, hosting, managing, provisioning, scaling, administering, maintaining, monitoring, securing, encrypting, decrypting, replicating and backing up databases for others; updating and maintenance of on-line database systems; web site maintenance, creating, and hosting services for others; non-downloadable software for controlling edge devices; non-downloadable software for controlling self-driving and autonomous vehicles; providing fog and edge computing services for use in generating, collecting, and analyzing data and for optimizing and controlling the operation of compute, storage and networking services; platform as a service

featuring software to enable access to a decentralized supercomputer consisting of a pool of devices connected to the internet; fog computing services and edge computing services featuring on-line non-downloadable software for artificial intelligence (AI), machine learning and deep learning; design and development of edge computing systems, platforms, gateways, and devices; scientific and technological services, namely, product development and engineering, product development support and testing; hosting of edge computing servers; research and design, namely, quality engineering, cloud engineering, software engineering; hardware and software development for industrial equipment for use in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; research in the fields of artificial intelligence and cognitive science; online non-downloadable software for performing learning algorithms; online non-downloadable cloud based software to manage edge assets and devices

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the stacked wording "ACTIVE & CO" within a square background. The color dark green appears in the word "ACTIVE"; the color white appears in the "& CO" and the color lime green appears in the square background. **Color Drawing** Yes **Color Claimed** The color(s) dark green, white, and lime green is/are claimed as a feature of the mark. **Disclaimer** "CO"

RELATED PROPERTIES INFORMATION

Claimed Ownership of US Registrations 5015292, 5193183

GOODS AND SERVICES INFORMATION

For Furniture, mirrors, picture frames; plastic and wooden tool boxes and cabinets; work benches; wall mirrors; pocket mirrors; non-metal cable clips; non-metallic and non-paper closures and caps for cartons, containers, and bottles; crates; racks, namely, storage racks; tables; trays, namely, computer keyboard trays; trestle tables; non-metal trestles for supporting tables; trolleys, namely, serving trolleys; storage containers, namely, non-metal and non-paper containers for storage; storage bins, namely, non-metal fabric storage bin organizer; toolboxes of plastic; organizers of plastic, namely, drawer organizers of plastic; tote boxes of plastic; clips and dividers, namely, non-metal clips for general use and dividers for drawers; cable and cord clips being cable clips of plastics; cord management systems comprised primarily of non-metal clamps and non-metal clips for use with window shades and blinds; Austrian blinds, namely, indoor Austrian blinds; window blinds, namely, metal indoor window blinds, fabric window blinds, interior window blinds; window shades, namely, interior window shades; roller blinds for use indoors, namely, metal interior roller blinds for guiding light; Venetian indoor blinds; vertical blinds being vertical indoor blinds; rods, namely, curtain rods, drapery rods being curtain rods, non-metallic suspension rods in the nature of clothes rods for hanging up articles, rods for picture frames and support rods for curtains; furniture, being desks, tables and chairs; coat hangers, namely, scented coat hangers; doors, namely, cabinet doors for furniture cabinets, cupboard doors, doors for furniture, flipper doors for storage units, wardrobe doors and paper screen doors in the nature of furniture partitions; door handles not of metal; non-metallic shelf bars, non-metallic shelf brackets and drawer dividers; non -metallic shelf supports in the nature of non-metal shelf brackets; shelf units, namely, shelves and brackets sold as a unit; frames being carved picture

frames, display frames in the nature of memorabilia display frames to hold jerseys, balls, and flags; frames for mirrors, frames for photographs and picture frames; non-metal brackets for picture frames, mirror frames, and photograph frames; non-metallic containers, namely, containers made of plastic being plastic storage containers for commercial or industrial use; scented coat hangers for discharging room or closet fragrances; beds for domestic pets and household pets; carriers for transporting domestic pets, other than cages, namely, kennels with carriers; hutches and kennels for pets

RELATED PROPERTIES INFORMATION

Claimed Ownership of US Registrations 1529175, 2077755, 2091451

GOODS AND SERVICES INFORMATION

For Printing inks and inkjet inks for inkjet printers

International Classes 2 - Primary Classes **US Classes** 6, 11, 16 **International Class Title** Paints **First Use** Dec. 1994 **In Commerce** Dec. 1994

For Medical, surgical, cardiological, veterinary and dental apparatus and instruments, namely apparatus for medical diagnosis in the nature of x-ray intensifying x-ray screens and medical x-ray film cassettes, apparatus for medical diagnosis by means of computer-controlled radiography for medical-diagnostic purposes, printers using heat sensitive recording materials to be used with image processing apparatus for medical-diagnostic purposes, radiographic apparatus and instruments for medical-diagnostic applications; x-ray apparatus for medical use; echographic and radiographic apparatus and instruments namely medical film processing apparatus, medical film exposure apparatus and film handling apparatus for medical use; electrical ultrasonic diagnostic apparatus and instruments, for medical use; systems for treating images obtained by means of radioscopic and ultrasonic techniques, namely x-ray apparatus, x-ray amplifiers, x-ray generators and x-ray tubes, all for medical use; components and accessories for the aforementioned goods, insofar not included in other classes

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus **First Use** Jan. 1988 **In Commerce** Jan. 1988

For Printing plates, printing machines and phototypesetting machines, industrial inkjet printing machines, printing plate processing machines for use in the printing industry, xerographic printing machines; apparatus for the manufacture of printing plates by electrophotographic, thermal and digital processing techniques; printing plate exposure machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery **First Use** Jan. 1984 **In Commerce** Jan. 1984

For Ink plate and ink plate room processor cleaning preparations; ink removers

International Classes 3 - Primary Classes **US Classes** 1, 4, 6, 50, 51, 52 **International Class Title** Cosmetics and Cleaning Preparations **First Use** 2008 **In Commerce** 2008

For Chemical products for use in photographic, graphic, reprographic, cinematographic, micrographic and industrial arts, namely for use with photographic, graphic, reprographic, cinematographic, micrographic and industrial films, plates and papers; solvent processing compositions for treating the aforementioned films, plates and papers in the photographic, graphic, reprographic, cinematographic, micrographic, radiographic, thermographic and industrial arts industries; chemicals and chemical cleaning preparations used in the print of text and photographic industries; pressroom chemicals for text and graphic printing; industrial plate room chemicals; desensitizers and etching solutions for the treatment of plates and plate processors used in the printing industry; ink and contaminant removers, namely, degreasing and cleaning solvents; fountain solutions and washes, being chemical preparations for use in the printing industry; gums and additives in the nature of chemical additives for use in the development of images in the printing industry; rejuvenator chemicals for maintaining printing blankets and rollers for use in the printing industry for use in the print of text; chemicals used in correction materials for the printing industry, namely silica gels and silicone fluids; chemical preparations used for cleaning dampening systems of printing presses and for cleaning plate processors

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals **First Use** Jun. 1981 **In Commerce** Jun. 1981

For Film and plate exposure apparatus for use in the printing industry; processing apparatus for printing plates to be used in the printing industry; printing plate developing machines for use in the printing industry; analogue and digital cameras; reprographic cameras; identification cameras; x-ray intensification screens; x-ray apparatus not for medical use; apparatus for the recording, archiving, treating, managing, sending, showing, reproducing or writing out information or data in analogue or digital way, namely computers and hardware components in the nature of computer central processing units; scanners; impact or non-impact printers; thermal printers; keyboards; software interfaces, namely, downloadable graphical user interface software; computer workstations comprising monitors, keyboards, blank USB flash drives, mouses, battery back ups, scanners, memory carriers in the nature of tape recorders, blank disk drives for computers or electronic components, namely CDs, DVDs and blank USB flash drives, batteries; computer software for recording, storing, archiving, treating, sending, showing, reproducing or writing out of photographic, graphic, medical or industrial information or data in analogue or digital way; computer software for implementing or supporting printing workflows and printing processes in a graphic, media or communication environment, editorial and typesetting offices; computer hardware and printing software for use in graphic prepress; computer hardware and software for high-end workflow automation, integration and distribution in the process of creating digital and photographic printed materials in the graphic prepress industry; computer software for estimating and ordering print jobs; computer software for creating, organizing, converting and sharing digital and photographic content, creating preflighted PDFs, capture of colorized TIFFs, multitones, spot gradients, and spot colors, creation of Job Definition

Format files; computer software for the import of digital content in the nature of preflight profiles, PDFs, image formats, production profiles and job tickets from the production shop; computer software for management of printed digital and photographic material content, namely, for automated normalizing, processing and remote viewing of content files, integrated preflight and imposition, local and remote image reference checking, page composition, page selection, page manipulation, determining spot color behavior and preparing and forwarding pages for rendering digital content files, digital film management, color profiling, composing pages, PDF processing, creating digital content files and digital films that can be previewed and checked for accuracy; computer software for graphic art prints for use with prepress output management, viewing and adjusting, managing output to digital proofers, inkjet printers, computer-to-file devices, and the creation of multiple versions of output, image setters, plate setters, computer-to-file devices, computer-to-plate devices, and providing for creation of multiple versions of graphic art print plates, all for use in graphic arts; downloadable computer software for recording, working-up, managing and transferring medical data; computer software for database management for simplifying enterprise wide multispecialty imaging, with critical results notification workflows and tools to enhance mobile collaboration within a medical environment; computer software for supporting data workflows and processes in laboratories and in a medical environment, namely, hospital information systems, clinical information systems, laboratory information systems, image archiving and communication systems, radiological information systems, and cardiologic information systems; computer software for quality management, document management and protocol management for use in the medical industry; computer software for the automation of biological and biotechnological validation; database management computer software in a medical environment; computer software to support the workflow for requesting laboratory research in multiple domains and applications for medical imaging examinations within a care environment to support the workflow for requesting laboratory research in multiple domains and applications; computer software capable of combining and harmonizing different heterogeneous sources to deduct and export new derived data and indicators in the nature of preanalytical, analytical, and post-analytical indicators

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus **First Use** Apr. 1990 **In Commerce** Apr. 1990

For Providing an on-line computer database for accessing data or documents in the nature of medical images and related medical information stored electronically in central files for remote consultation

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication **First Use** Oct. 2017 **In Commerce** Oct. 2017

For Software-as-a-service (SaaS) services featuring software solutions for high-end workflow automation, integration and distribution for creating and distributing online publications on mobile devices; software-as-a-service (SaaS) services featuring software solutions for providing a web hosting platform for providing access and storage to multimedia patient records in a healthcare facility; computer services, namely, the design, development, programming and maintenance of computers for others and computer software; application service provider services, namely, design, development, programming and maintenance of communication applications, software and website in the field of wireless communication; software-as-a-service (SaaS) services featuring software solutions to simplify enterprise-wide multi-specialty imaging with workflows for notification of critical results and tools to enhance mobile collaboration in the field of wireless communication within a medical environment; software-as-a-service (SaaS) services featuring software for providing access to medical images and related medical information across multiple distributed sources; software-as-a-service (SaaS) services featuring software for

searching for correlations between data; computer services, namely, hosting an on-line interactive public calendar that allows multiple participants to import of preflight profiles, PDFs, image formats, production profiles and job tickets for the production shops; providing temporary use of web-based non-downloadable computer software for recording, working-up, managing and transferring medical data

GOODS AND SERVICES INFORMATION

For Industrial boilers and parts therefor; Air heating systems composed of a preheating blower with a manifold with air jets, sized to furnish sufficient air volume for industrial boilers, sold as a unit; Feed water heater systems comprised of heated metal water storage tank, steel headers, pressure reducers, metal bypass and safety valves for flow shutoff, and metal heat collection tubes; Boiler feed water deaerators composed of water conditioning units and water filtration apparatus, pump and motor sets, water inlet valves for condensate return and fresh water, steam pressure reducing valves for temperature control, safety relief valves, integrated control panel, and stand and a platform specially adapted therefore; Coal combustion systems comprised of an underfeed stoker to disperse boiler fuel; Water return systems comprised of a deaerator to process and utilize condensate to recover energy and chemicals; Boiler room peripheral and auxiliary systems comprised of blow down separators, surge tanks pressurized feed water systems composed of water tanks with support stands for mounting with optional after cooler, manual cooling valve assembly, automatic cooling valve assembly and exhaust heads to reduce water to atmospheric pressure for disposal, and open vented feed water systems composed of water tanks, stands and platforms specially adapted therefore, pumps and motor sets, water inlet valves for condensate return and fresh water, steam pressure reducing valves for temperature control, safety relief valves, and integrated electronic control panel; Fire-tube boilers, water-tube boilers, and feedwater equipment in the nature of open vent design feedwater pumps and feedwater deaerator surge tanks sold in combination for all heating and process applications

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus **First Use** Jul. 27, 1981 **In Commerce** Jul. 27, 1981

For Installation, maintenance, repair, and refurbishing services for industrial boilers and industrial boiler components and parts

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair **First Use** Jan. 01, 1970 **In Commerce** Jan. 01, 1970

For Integrated boiler control system composed of compatible smart controls in the nature of water flow controllers, air flow controllers, fuel flow controllers, graphical displays in the nature of interactive flat panel display screens, air, water, steam, fuel, temperature, and pressure sensors, flow meters for collecting information for improved operational management of boilers, programmable logic controllers (PLC), variable frequency drives, and human-machine-interfaces devices (HMI) for efficient operation and shared duty load for industrial boilers; On-board automated monitoring control systems composed of water flow controllers, air flow controllers, fuel flow controllers, air, water, steam, fuel, temperature, and pressure sensors, flow meters for collecting information, programmable logic controllers (PLC), variable frequency drives, and recorded computer software for enabling automated fuel changeover, implemented lead-lag for maintaining constant lag pressure, and on-screen fuel management, and also featuring an operator touchscreen interface display with interactive screens available for industrial boilers; On-board monitoring and automated control systems composed of operator touchscreen interface displays, LAN integrated programmable logic controllers (PLCs), computer servers for finer degree of actuation, built in communications in the nature of PLCs, air, water, steam, fuel, temperature, and pressure sensors, transmitters for pressure, air and water flow, and temperature, and graphical displays in the nature of interactive flat panel display screens, recorded computer software for enabling internal diagnostic reporting by reporting data on boilers, sensor and detector units for use in controlling the operation of boiler apparatus and equipment, and computer interfaces for integration with existing transmission control protocol (TCP) communicating supervisory control, alarm, and data acquisition (SCADA), and data acquisition systems for industrial boilers; Single-collection control point systems comprised of an on-board automated monitoring control system composed of recorded software for monitoring boiler function, sensor and detector units for use in controlling the operation of boiler apparatus and equipment designed for control and operation to monitor and manage steam and hot water operations for industrial boilers

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus **First Use** Jan. 21, 2011 **In Commerce** Jan. 21, 2011

For Custom manufacture of industrial boilers

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment **First Use** Jul. 27, 1981 **In Commerce** Jul. 27, 1981

For Providing to customers temporary use of online non-downloadable computer-aided design (CAD) software for design and integration of control points and components of air handling, airflow, hydronic, steam, and plumbing systems into third parties' systems; Custom design of industrial boilers based on personal selections made by the customer

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services **First Use** Oct. 16, 2013 **In Commerce** Oct. 16, 2013

Mark Literal(s) MOCHA COFFEE AL YEMEN AL MAKHA

CASE IDENTIFIERS

Serial Number 88364146 **Application Filing Date** Mar. 30, 2019 **Register** Principal **Mark Type** Trademark **Publication Date** Feb. 25, 2020

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the wording "MOCHA COFFEE" appearing inside a curved arch shaded to look like wood. On the bottom is another curved wooden shape that contains Arabic characters. Between the two arches is the design of a map of the Arabian Peninsula with "AL YEMEN" in a large font and a dot with "AL MAKHA" next to it near the bottom. There are two small ship designs in the oceans next to the map. **Color Claimed** Color is not claimed as a feature of the mark. **Disclaimer** "MOCHA COFFEE", "AL YEMEN", "AL MAKHA", THE NON-LATIN CHARACTERS THAT TRANSLITERATE TO "BUNN MOCHA", AND THE DESIGN OF THE ARABIAN PENINSULA **Translation** The English translation of "AL YEMEN" and "AL MAKHA" is "The Yemen" and "The Makha", respectively. The non-Latin characters in the mark transliterate to "BUNN MOCHA" and this means "Mocha Coffee" in English. **Name Portrait Consent** The name(s), portrait(s), and/or signature(s) shown in the mark does not identify a particular living individual.
