

FOREWORD

The Registers of Attorneys and Agents Registered to Practice Before the United States Patent Office are official records of the Patent Office comprising the name, address, business or firm affiliation, if any, enrollment classification and number and bar membership of each individual admitted to practice before the Patent Office. The Registers are maintained current with changes recorded upon receipt of notice of change from enrollees and upon direction of the Committee on Enrollment, and are open to public inspection in the Patent Office in Washington, D. C.

This pamphlet is an extract of the Official Registers containing the names and addresses of all individuals and firms as recorded in the Patent Office on January 1, 1958. Individuals are not differentiated as to their availability or unavailability to render professional services to the public.

The publication is composed of three sections as follows:

- Individuals in the United States
- Firms
- Individuals in Foreign Countries

Each of these sections includes two separate listings of individuals or firms. The first is an alphabetical listing by name of attorney or agent or in the case of firms by the first surname appearing in the firm name. In the second listing, entries are grouped geographically by states and foreign countries. These are further subdivided by places in which 10 or more individuals are listed. The groups and items listed thereunder are arranged in alphabetic order.
