machines, blow molding machines, stamping machines, forging machines, tools, machinery, chillers, heaters, pumps, compressors, injection and plasticization machines, gas turbines, combustion engines, power generators, batteries, heat exchangers and systems, sewage systems, drains, and transmission systems; robotic cleaning machines for injection moulds, die casting machines, blow molding machines, stamping machines, forging machines, tools, machinery, chillers, heaters, pumps, compressors, injection and plasticization machines, gas turbines, combustion engines, power generators, batteries, heat exchangers and systems, sewage systems, drains, transmission systems, cooling systems, and cleaning, cooling, heating and transition channels within the foregoing; industrial vacuum machines for cleaning, namely, vacuum cleaners for industrial purposes; ultrasonic cleaning instruments for industrial use, namely, electrical ultrasonic cleaning units for injection moulds, die casting machines, blow molding machines, stamping machines, forging machines, tools, machinery, chillers, heaters, pumps, compressors, injection and plasticization machines, gas turbines, combustion engines, power generators, batteries, heat exchangers and systems, sewage systems, drains, transmission systems, cooling systems, and cleaning, cooling, heating and transition channels within the foregoing; industrial cleaning machines utilizing pressure jets, namely, machines for cleaning injection moulds, die casting machines, blow molding machines, stamping machines, forging machines, tools, machinery, chillers, heaters, pumps, compressors, injection and plasticization machines, gas turbines, combustion engines, power generators, batteries, heat exchangers and systems, sewage systems, drains, transmission systems, cooling systems, and cleaning, cooling, heating and transition channels within the foregoing using high pressure water; electric machines and apparatus for cleaning injection moulds, die casting machines, blow molding machines, stamping machines, forging machines, tools, machinery, chillers, heaters, pumps, compressors, injection and plasticization machines, gas turbines, combustion engines, power generators, batteries, heat exchangers and systems, sewage systems, drains, transmission systems, cooling systems, and cleaning, cooling, heating and transition channels within the foregoing; machines for cleaning pipes, transmission systems, cooling systems, heating systems, drains and sewage systems using pulsation, vibration, steam, high pressure liquid and gas; machines for cleaning heat exchangers, tools, machines and engines using pulsation, vibration, steam, high pressure liquid and gas; machines and for unclogging drains in tools, machinery, heat exchangers and sewage systems using pulsation, vibration, steam, high pressure liquid and gas; machines for unclogging sewage systems; sewage treatment machines, namely, sewage pulverizers and sewage pumps; drain treatment machines, namely, drain jetters, drain cocks; pumps, compressors and fans as parts of machines, motors and engines; pump impellers; pump diaphragms; pressure pumps, namely, high-pressure pumps for machines that clean and treat injection moulds, die casting machines, blow molding machines, stamping machines, forging machines, tools, machinery, chillers, heaters, pumps, compressors, injection and plasticization machines, gas turbines, combustion engines, power generators, batteries, heat exchangers and systems, sewage systems, drains, transmission systems, cooling systems, and cleaning, cooling, heating and transition channels within the foregoing; electrical pumps; fluid pumps, namely, water pumps for use in motors and engines, diffusion pumps, axial flow pumps, circulating pumps and pumps for machines that clean and treat injection moulds, die casting machines, blow molding machines, stamping machines, forging machines, tools, machinery, chillers, heaters, pumps, compressors, injection and plasticization machines, gas turbines, combustion engines, power generators, batteries, heat exchangers and systems, sewage systems, drains, transmission systems, cooling systems, and cleaning, cooling, heating and transition channels within the foregoing; pneumatic pumps; hydraulic pumps; vacuum pumps being machines; high temperature pumps, namely, pumps for machines, vacuum pumps, and pumps for machines that clean and treat injection moulds, die casting machines, blow molding machines, stamping machines, forging machines, tools, machinery, chillers, heaters, pumps, compressors, injection and plasticization machines, gas turbines, combustion engines, power generators, batteries, heat exchangers and systems, sewage systems, drains, transmission systems,

cooling systems, and cleaning, cooling, heating and transition channels within the foregoing; valves for pumps; shafts for pumps; pumping apparatus, namely, pumps for machines; pumping units, namely, pumps for machines; valves, namely, pump control valves, valves being parts of machines operated pneumatically and by air, and valves being parts of machines that clean and treat injection moulds, die casting machines, blow molding machines, stamping machines, forging machines, tools, machinery, chillers, heaters, pumps, compressors, injection and plasticization machines, gas turbines, combustion engines, power generators, batteries, heat exchangers and systems, sewage systems, drains, transmission systems, cooling systems, and cleaning, cooling, heating and transition channels within the foregoing; servo-valves; valve diaphragms, namely, pump diaphragms; hydraulic valves being parts of machines; hydraulic valve actuators; pneumatic valve actuators; filtering machines for chemical processing; filters for industrial cleaning and surface treatment machines and machines that clean and treat injection moulds, die casting machines, blow molding machines, stamping machines, forging machines, tools, machinery, chillers, heaters, pumps, compressors, injection and plasticization machines, gas turbines, combustion engines, power generators, batteries, heat exchangers and systems, sewage systems, drains, transmission systems, cooling systems, and cleaning, cooling, heating and transition channels within the foregoing; filters for engines; filters for gases, namely, gas filters being parts of machines; filters for liquids being parts of manufacturing machines and machines that clean and treat injection moulds, die casting machines, blow molding machines, stamping machines, forging machines, tools, machinery, chillers, heaters, pumps, compressors, injection and plasticization machines, gas turbines, combustion engines, power generators, batteries, heat exchangers and systems, sewage systems, drains, transmission systems, cooling systems, and cleaning, cooling, heating and transition channels within the foregoing; oil filters being parts of machines; oil filters for engines; filtering machines, separators being separating machines and centrifuges for chemical processing; computer-driven machines for making three-dimensional embodiments of computer-generated designs by a material deposition process, namely, 3D printers; plastics injection forming machines, namely, injection plastic molding machines; computer-driven rapid prototyping machines, namely, machines in the nature of 3D printer, plastic jet moulding machines, extrusion moulding machines, compression moulding machines, injection moulding machines for making three dimensional models; plastic processing machines; plastic processing apparatus in the nature of 3D printers, plastic jet moulding machines, extrusion moulding machines; plastic processing machine parts, namely, bearing inserts, roller bearings, hoods, blades; machine tools for plastic processing machines, vices for use in the precision clamping of work pieces; injection moulds being parts of injection moulding machines; stamping dies for use with machine tools, namely, parts of die-stamping machines; hot nozzles for injection moulds being parts of injection moulding machines; 3d printers; aerators being machines; aerating pumps for sewage

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Cleaning preparations; fragrancing preparations, namely, air fragrancing preparations, room fragrancing preparations and fragrances; lime removers in the nature of cleaning preparations; cleaning agents for metal, namely, metal cleaning preparations; drain, channels, pipes and sink unblocking preparations in the nature of cleaning preparations

International Classes 3 - Primary Classes **US Classes** 1, 4, 6, 50, 51, 52 **International Class Title** Cosmetics and Cleaning Preparations

For Etching agents, namely, etching gels, etching mordants being acids, etching solution for metals; etching chemicals, namely, etching gels, etching mordants being acids, etching solution for metals; etching compounds, namely, etching gels, etching mordants being acids, etching solution for metals; chemical additives for the prevention of sedimentation in oils, metal surfaces and water; descaling preparations for industrial purposes; oil removing substances for use in manufacturing processes, namely, degreasing preparations used in manufacturing processes for use on metal, steel, aluminum, copper, bronze, tools, machinery, chillers, heaters, pumps, compressors, injection and plasticization systems, gas turbines, combustion engines, power generators, batteries, sewers and drains within transition lines and buildings; chemical products, namely, chemicals for the treatment of sewage; clarification preparations, namely, corrosion inhibitors and degreasing and cleaning solvents; purification chemicals, namely, chemicals for use in purification of water, metal, oil, steel, aluminum, copper and bronze

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Cleaning, unclogging and flushing of transmission systems, cooling systems, heating systems for injection moulds, die casting machines, blow molding machines, stamping machines, forging machines, tools, machinery, chillers, heaters, pumps, compressors, injection and plasticization machines, gas turbines, combustion engines, power generators, batteries, and sewage systems; cleaning, unclogging and flushing of heat exchangers, tools in particular injection moulds, die casts, blow molds, machinery and sewage systems; drain cleaning services, namely, unblocking of drains, pipes and channels

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Temperature controlling and regulating apparatus, namely, thermostats and temperature controllers for machines that clean and treat injection moulds, die casting machines, blow molding machines, stamping machines, forging machines, tools, machinery, chillers, heaters, pumps, compressors, injection and plasticization machines, gas turbines, combustion engines, power generators, batteries, heat exchangers and systems, sewage systems, drains, transmission systems, cooling systems, and cleaning, cooling, heating and transition channels within the foregoing; heat regulating apparatus, namely, electric control devices for heating and energy management, heat sinks for use in electronic components, and temperature controllers for machines that clean and treat injection moulds, die casting machines, blow molding machines, stamping machines, forging machines, tools, machinery, chillers, heaters, pumps, compressors, injection and plasticization machines, gas turbines, combustion engines, power generators, batteries, heat exchangers and systems, sewage systems, drains, transmission systems, cooling systems, and cleaning, cooling, heating and transition channels within the foregoing; temperature control apparatus, namely, thermostats; sensor switches, namely, temperature switches and sensors for monitoring, controlling, and switching hydraulic or pneumatic systems, electronic proximity sensors and switches, and temperature switches and sensors for monitoring, controlling, and switching machines that clean and treat injection moulds, die casting machines, blow molding machines, stamping machines, forging machines, tools, machinery, chillers, heaters, pumps, compressors, injection and plasticization machines, gas turbines, combustion engines, power generators, batteries, heat exchangers and systems, sewage systems, drains, transmission systems, cooling systems, and cleaning, cooling, heating and transition channels within the foregoing; sensors for engines, tools, machinery and sewage systems, namely, ultrasonic sensors, temperature sensors, pressure sensors, liquid level sensors, coolant-temperature sensors, contamination sensors; pollutant sensors; heat sensors; temperature sensors; flow-rate sensors; laser sensors; motion sensors; impact sensors in the nature of acceleration sensors, vibration sensors; position sensors; ultrasonic sensors; measuring sensors for measuring position, acceleration, oil level and contamination level; fluid level sensors; remote temperature sensors; pressure sensors; infrared sensors; thermal controls,

namely, thermostats; downloadable software for diagnostics and troubleshooting of machinery, sewer systems, injection moulds, die casting machines, blow molding machines, stamping machines, forging machines, chillers, heaters, pumps, compressors, injection and plasticization machines, gas turbines, combustion engines, power generators, batteries, heat exchangers and systems, drains, transmission systems, cooling systems, and cleaning, cooling, heating and transition channels within the foregoing; downloadable software for remote diagnostics of machinery, sewer systems, injection moulds, die casting machines, blow molding machines, stamping machines, forging machines, chillers, heaters, pumps, compressors, injection and plasticization systems, gas turbines, combustion engines, power generators, batteries, heat exchangers and systems, drains, transmission systems, cooling systems, and cleaning, cooling, heating and transition channels within the foregoing; downloadable computer software for optimization of tools, machinery, heat exchangers and sewage systems; downloadable computer software for optimization of transmission, heating and cooling systems; downloadable simulation software for simulation of heat distribution and fluid flow within transmission systems, cooling systems and heating system; instrumentation simulators for simulating heat distribution and fluid flow within transmission systems, cooling systems and heating system

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Computer diagnostic services; computer aided diagnostic testing services in the fields of injection moulds, die casting machines, blow molding machines, stamping machines, forging machines, tools, machinery, chillers, heaters, pumps, compressors, injection and plasticization machines, gas turbines, combustion engines, power generators, batteries, heat exchangers and systems, sewage systems, drains, transmission systems, cooling systems, and cleaning, cooling, heating and transition channels within the foregoing; sampling of waste, water, oil and metal for research purposes in the field of pollution detection; sampling of waste, water, oil and metal for research purposes in the field of contamination detection; conducting sampling and analysis services to assess pollution levels in waste, water and oil; conducting sampling and analysis services to check for contamination in waste, water and oil; providing virtual computer systems through cloud computing; providing virtual computer environments through cloud computing; computer simulation based on computer programs for others, namely, simulation of heat distribution and fluid flow within transmission systems, cooling systems and heating system; design and optimization of tools, machinery, heat exchangers and sewage systems; design and optimization of transmission systems, heating and cooling systems
