Mark Literal(s) KEYSIGHT TECHNOLOGIES

CASE IDENTIFIERS

Serial Number 88827431 **Application Filing Date** Mar. 09, 2020 **Register** Principal **Mark Type** Trademark **Publication Date** Jun. 23, 2020

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a red wavy design positioned above the words "KEYSIGHT TECHNOLOGIES" in gray. **Color Drawing** Yes **Color Claimed** The color(s) red and gray is/are claimed as a feature of the mark. **Disclaimer** "TECHNOLOGIES"

RELATED PROPERTIES INFORMATION

International Applications/ Registrations Based on this Property A0095442/1532002 **International Registration Number** 1532002 **Claimed Ownership of US Registrations** 4837409, 4851838

GOODS AND SERVICES INFORMATION

For Electronic test and measurement instruments, namely, oscilloscopes and parts therefor; electronic instruments in the nature of signal generators, namely, analog and vector signal generators, waveform generators, function generators in the nature of electronic devices used to generate various types of repeating waveform signals over a wide range of frequencies, pulse and data generators, arbitrary waveform generators, noise generators in the nature of electronic devices that produce random signals, and signal generation devices synthesizing electronic signals, and synchronization modules for various types of signal generators; electronic test and measurement instruments in the nature of analyzers, namely, spectrum, vector, signal, network, power and power source, protocol, radio frequency, microwave, logic, modulation-domain, optical component, light wave component, optical modulation, time-interval, polarization, and photonic dispersion and loss analyzers; automatic test equipment for integrated circuits, circuit boards and electronic equipment, namely, flat panel display testers, system on a chip (SOC) testers, memory testers, parametric testers, automated optical inspection testers, and in-circuit testers; electronic and optical communications instruments, namely, light wave testers and light wave multimeters; electronic component of digital multi-meters for testing and measuring voltage in electrical products; measuring instrumentation and apparatus, namely, digitizers; test and measurement equipment, namely, electromagnetic interference receivers, radio frequency interference receivers, and electromagnetic compliance products, namely, electromagnetic interference receivers for testing electromagnetic compliance and making conductive emission measurements; polarization controller units used to change light from any polarized or unpolarized light source into any well-defined state of polarization; electronic test and measurement instruments, namely, electric meters, inductance meters, capacitance meters, resistance meters, impedance meters, testing meters,

wavelength meters, frequency meters, and frequency counters; electrical and electronic measuring and testing devices, namely, DC electronic load measurers and testers; electronic test and measurement instruments in the nature of testers, namely, cable, antenna, voltage, amperage, telephone line, and continuity testers; electronic test and measurement instruments, namely, handheld cable and antenna tester with optional spectrum analyzer, network analyzer, and power meter; electronic testing equipment, namely, power meters for testing radio frequency and microwave signals; electronic and optical communications instruments and components, namely, communication link testers for testing communication links and telecommunication line integrity testing apparatus; testing apparatus for testing circuit boards; electronic apparatus for testing electromagnetic properties and characteristics of industrial materials; electronic test and measurement instruments, namely, voltmeters and source measure units; test and measurement equipment, namely, one box testers containing a signal source and a signal analyzer for testing microwave and wireless communication devices and designs; electronic test and measurement instruments, namely, interferometers, electrical transducers, and vibration transducers; electronic test and measurement instruments, namely, nano indenters for nanomechanical testing of semiconductors, thin films, wafer applications, hard coatings and DLC films, composite materials, fibers, polymers, metals, ceramics, and biomaterials; component features of electronic testing, signaling, diagnostic and measurement systems and equipment used in signal generators, signal analyzers, arbitrary waveform generators, pulse generators, and one-box testers, namely, mobile cellular and wireless local area network (WLAN) testers and network analyzers; electronic component in the nature of downloadable software and hardware, namely, digital signal processor and its controlling algorithm, sold as integral components of waveform generators, for improving signal fidelity and signal breadth; encoders; data processing equipment, namely, couplers; amplifiers; electrical signal attenuators; electricity limiters; multipliers; testing apparatus for testing fiber optics; electric switches; electronic switches; optical switches; probes for testing integrated circuits, semiconductors, and telecommunication networks; electronic, opto-electronic, photonic, and nano-scale test, signaling, imaging, and measurement apparatus and instruments, namely, amplifiers, attenuators, filters in the nature of signal processors that function to remove unwanted frequency components from the signal, to enhance wanted ones, or both, conditioners in the nature of devices used to prepare sensor output signals for processing, converters, mixers in the nature of devices for creating new frequencies from two or more signals applied to it, modulators in the nature of devices for varying one or more properties of a periodic waveform in order to carry a signal, demodulators, prescalers, dividers in the nature of devices for coupling a portion of the signal in a transmission line to a port enabling the portion signal to be used in another circuit, combiners in the nature of devices for combining the signals at a port into the signals already present in a transmission line, isolators in the nature of a non-reciprocal 2 port device that allows signals to pass in one direction only, circulators in the nature of a non-reciprocal multi-port device in which a signal entering any port is transmitted only to the next port in rotation, integrated diode limiters, switches and routers for performing signal generation, signal processing, signal amplification, signal conversion, and signal control; lasers for measuring purposes and accessories therefor, namely, monolithic laser combiners, laser heads, beam splitters, beam benders, beam translators, retro reflectors, adjustable mounts, plane mirrors, plane mirror converters, plane mirror reflectors, and turning mirrors; lasers not for medical use; microscopes; microscopes, namely, atomic force microscopes; microscopes, namely, scanning electron microscopes; recording apparatus for recording traffic on telecommunications networks; portable electronic recorder for measuring and recording multiple voltage, current and thermocouple readings from various transducers; electric sensors; industrial calibration sensors; optical sensors; timing sensors; ultrasonic sensors; surface acoustic wave sensors; sensors for measuring air pressure, temperature, and humidity; sensors for monitoring the temperature of an object being measured; transmitters of electronic signals; electronic and

optical communications instruments and components, namely, optical transmitters and electro-optical transmitters; wireless transmitters and receivers; receivers of electronic signals; electronic and optical communications instruments and components, namely, optical and opto-electrical receivers; remote controls for electronic test, signaling and measurement apparatus, systems, and equipment; computer hardware; computer peripherals; a full line of recorded operating system software programs for non-medical scientific instruments and for electronic test, signaling, and measurement instruments and equipment; a full line of recorded computer software for designing, configuring, calibrating, and testing non-medical scientific instruments and electronic test, signaling, and measurement instruments and equipment; a full line of recorded computer software for collecting, measuring, analyzing, storing, manipulating, and managing data obtained from non-medical scientific instruments and from electronic test, signaling, and measurement instruments and equipment; downloadable software, namely, electronic design automation (EDA) software for communications product design, for RF and microwave circuit, high-speed, signal integrity, device modeling, and signal-processing design, and for electro-thermal, electromagnetic, circuit and system design and simulation; data processing apparatus; power supplies; power supplies and power systems used to power and test the operation of electronic equipment and devices under test by providing multiple power levels to the electronic equipment; programmable power supplies and power systems for simulating various operating conditions of electronic equipment

Mark Literal(s) POSITIVE PSYCHOTHERAPY (PPT AFTER PESESCHKIAN, SINCE 1977)

CASE IDENTIFIERS

Serial Number 79207102 **Application Filing Date** Feb. 16, 2016 **Registration Number** 6082225 **Registration Date** Jun. 23, 2020 **Register** Principal **Mark Type** Service Mark Trademark **Publication Date** Apr. 07, 2020

MARK INFORMATION

Standard Character Claim Yes. The mark consists of standard characters without claim to any particular font style, size, or color. **Mark Drawing Type** 4 - STANDARD CHARACTER MARK **Disclaimer** "PSYCHOTHERAPY (PPT AFTER PESESCHKIAN, SINCE 1977)"

RELATED PROPERTIES INFORMATION

International Registration 1343592 **International Registration Date** Feb. 16, 2016

GOODS AND SERVICES INFORMATION

For Printed matter, namely, publications in the nature of scientific articles, journals, and books, each relating to to humanistic and transcultural psychodynamic psychotherapy, based on a positive conception of human nature and salutogenetic principles

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Publishing and reporting of bulletins, book, e-books, audio books, magazines, manuals, newspaper, relating to humanistic and transcultural psychodynamic psychotherapy, based on a positive conception of human nature and salutogenetic principles; Educational services, namely, classes, conferences, conventions, lectures, seminars and workshops relating to humanistic and transcultural psychodynamic psychotherapy, based on a positive conception of human nature and salutogenetic principles; Translation and language interpretation; advice, consultancy and information for the aforesaid

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Human healthcare services; rental, hire and leasing of medical equipment in connection with the aforesaid; advice, consultancy and information for the aforesaid

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

BASIS INFORMATION

Currently 66A Yes

RELATED PROPERTIES INFORMATION

International Registration 1345617 **International Registration Date** Jun. 23, 2016

GOODS AND SERVICES INFORMATION

For Leather and imitation leather; wallets; purses; bags, namely, gym bags, sports bag, hip bags, belt bags; handbags; clutch bags; evening bags; shoulder bags; satchels; rucksacks; backpacks; duffel bags; garment bags for travel, tote bags, shoulder bags and backpacks; shopping bags made of textile; carry-on bags; beach bags; bags for sports; trunks; travelling bags; luggage; suitcases; cosmetic and toiletry bags sold empty; vanity cases sold empty; business card cases; key cases; attaché cases; umbrellas, parasols and walking sticks

International Classes 18 - Primary Classes **US Classes** 1, 2, 3, 22, 41 **International Class Title** Leather Goods

For Textiles and textile goods, namely, textile fabrics for use in making clothing and household furnishings; bed covers and plastic table covers; bed linen, duvet covers, bed sheets, mattress and pillow covers, pillowcases, cushion covers, fabric valances; duvets, eiderdowns, bedspreads, blankets, namely, bed blankets, lap blankets and travelling blankets, quilts; curtains; fabrics for use as a textile in the manufacture of blinds; towels, shower curtains, facecloths; table linen, textile tablecloths, fabric table napkins, table mats of textile; throws, place mats of textile and travelling rugs

International Classes 24 - Primary Classes **US Classes** 42, 50 **International Class Title** Fabrics

For Retail store services relating to perfumery, soaps, essential oils, cosmetics, hair lotions, dentifrices, cosmetics, eye makeup, eye shadows, eye powders, eye creams, mascaras, eye liners, eye pencils, eyebrow pencils; retail store services relating to face make-up, foundations, concealers, powders, pressed powders, loose powders, blushers, bronzers, nail varnish, nail polish, highlighters, face glitter, make-up for lips, lip sticks, lip glosses, lip liners, lip balms, eau-de-cologne, toilet water; retail store services relating to essential oils, massage oils, aromatherapy oils, pre-shave and aftershave preparations, shaving creams, depilatories, deodorants, anti-perspirants, toiletries, non-medicated toilet preparations; retail store services relating to

skincare products, facecare products, haircare products, nailcare products, handcare products, moisturisers, toners, cleansers, make-up removers, face masks, face packs, preparations, creams and lotions for the hair, face and skin; retail store services relating to hair lotions, shampoos, conditioners, serums, hair conditioning masks, hair sprays, hair gels, hair mousses, preparations, creams, lotions, sprays and mousses for tanning and/or for protection against the sun, after-sun lotions, creams and sprays; retail store services relating to cotton wool, talcum powder, pot-pourri, joss sticks, bath salts, dentifrices, toothpaste, mouthwash, false eyelashes, false nails, tissues impregnated with cosmetic lotions, teeth whitening preparations; retail store services relating to eyewear, spectacles and sunglasses, frames for spectacles and sunglasses, cases and cords for spectacles and for sunglasses and parts and fittings for all the aforesaid goods, electronic publications and computer software applications; retail store services relating to leather and imitations of leather, wallets, purses, bags, handbags, clutch bags, evening bags, shoulder bags, satchels, rucksacks, backpacks, duffel bags, garment bags for travel, tote bags, shoulder bags and backpacks, shopping bags made of textile, carry-on bags; retail store services relating to beach bags, bags for sports, trunks, travelling bags, luggage, suitcases, cosmetic and toiletry bags sold empty, vanity cases, business card cases, key cases, attaché cases, umbrellas, parasols and walking sticks; retail store services relating to textiles and textile goods, bed and table covers, bed linen, duvet covers, bed sheets, mattress and pillow covers, pillowcases, cushion covers, valances, duvets, eiderdowns; retail store services relating to bedspreads, blankets, quilts, curtains, fabrics for blinds, towels, bath mats, shower curtains, facecloths, table linen, tablecloths, fabric table napkins, fabric table mats, throws, place mats of textile and travelling rugs; retail store services relating to clothing, footwear, headgear, lingerie, underwear, hosiery, loungewear, swimwear, beachwear, bathing suit cover-ups, corsetry, sleepwear, bathrobes, dressing gowns, bustiers, tops clothing, bodysuits, jackets, coats, skirts, dresses, trousers, shorts, shoes, belts, gloves and scarves; mail order and on-line retail store services relating to perfumery, soaps, essential oils, cosmetics, hair lotions, dentifrices, cosmetics, eye makeup, eye shadows, eye powders, eye creams, mascaras, eye liners, eye pencils, eyebrow pencils; mail order and on-line retail store services relating to face make-up, foundations, concealers, powders, pressed powders, loose powders, blushers, bronzers, nail varnish, nail polish, highlighters, face glitter, make-up for lips, lip sticks, lip glosses, lip liners, lip balms, eau-de-cologne, toilet water; mail order and on-line retail store services relating essential oils, massage oils, aromatherapy oils, pre-shave and aftershave preparations, shaving creams, depilatories, deodorants, anti-perspirants, toiletries, non-medicated toilet preparations; mail order and on-line retail store services relating to skincare products, facecare products, haircare products, nailcare products, handcare products, moisturizers, toners, cleansers, make-up removers, face masks, face packs, preparations, creams and lotions for the hair, face and skin; mail order and on-line retail store services relating to hair lotions, shampoos, conditioners, serums, hair conditioning masks, hair sprays, hair gels, hair mousses, preparations, creams, lotions, sprays and mousses for tanning and/or for protection against the sun, after-sun lotions, creams and sprays; mail order and on-line retail store services relating to cotton wool, talcum powder, pot-pourri, joss sticks, bath salts, dentifrices, toothpaste, mouthwash, false eyelashes, false nails, tissues impregnated with cosmetic lotions, teeth whitening preparations; mail order and on-line retail store services relating to eyewear, spectacles and sunglasses, frames for spectacles and sunglasses, cases and cords for spectacles and for sunglasses, parts and fittings for all the aforesaid goods, electronic publications and computer software applications; mail order and on-line retail store services relating to leather and imitations of leather, wallets, purses, bags, handbags, clutch bags, evening bags, shoulder bags, satchels, rucksacks, backpacks, duffel bags, garment bags for travel, tote bags, shoulder bags and backpacks, shopping bags made of textile, carry-on bags; mail order and on-line retail store services relating to beach bags, bags for sports, trunks, travelling bags, luggage, suitcases, cosmetic and toiletry bags sold empty, vanity cases, business card cases, key cases, attaché cases, umbrellas, parasols and walking sticks; mail order and on-line retail store services relating to textiles and textile goods, bed

and table covers, bed linen, duvet covers, bed sheets, mattress and pillow covers, pillowcases, cushion covers, valances, duvets, eiderdowns; mail order and on-line retail store services relating to bedspreads, blankets, quilts, curtains, fabrics for blinds, towels, bath mats, shower curtains, facecloths, table linen, tablecloths, fabric table napkins, fabric table mats, throws, place mats of textile and travelling rugs; mail order and on-line retail store services relating clothing, footwear, headgear, lingerie, underwear, hosiery, loungewear, swimwear, beachwear, bathing suit cover-ups, corsetry, sleepwear, bathrobes, dressing gowns, bustiers, tops clothing, bodysuits, jackets, coats, skirts, dresses, trousers, shorts, shoes, belts, gloves and scarves; advertising, promotion and marketing services in the field of fashion and cosmetics; promoting the goods and services of others through print, audio, video, digital and on-line medium and by rendering sales promotion advice

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Eyewear; spectacles and sunglasses; frames for spectacles and sunglasses; cases and cords for spectacles and for sunglasses; parts and fittings for all the aforesaid goods; electronic publications, namely, books, magazines, brochures and leaflets featuring business information and advertising for customers recorded on computer media; computer application software for mobile phones, portable media players, handheld computers, namely, software for accessing information directories and for use in electronic storage of data

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Clothing, namely, shirts, tops, bodysuits, trousers, dresses, skirts, jackets, coats, shorts, socks, hats, gloves, scarves, ties, sweatshirts, suits; footwear, headgear, namely, hats and caps; lingerie; underwear; hosiery; loungewear; swimwear; beachwear; bathing suit cover-ups; corsets being underclothing; sleepwear; bathrobes, dressing gowns; bustiers, tops as clothing, bodysuits, jackets, coats, skirts, dresses, trousers, shorts; shoes; belts; gloves and scarves

International Classes 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

GOODS AND SERVICES INFORMATION

For Pharmaceutical preparations, namely, preparations for use in antibiotic susceptibility tests for the detection and identification of infectious pathogens present in clinical and reference specimens and for use in antibiotic susceptibility tests for the detection and identification of infectious pathogens present in clinical and reference specimens; veterinary diagnostic preparations; sanitary preparations for medical use and disinfectants; nutrient media for bacteriological cultures for use in medical laboratories and near patient testing facilities for diagnostic purposes in human medicine; Nutrient media for use in medical diagnostic testing laboratories and near patient medical diagnostic testing facilities; antibiotic susceptibility tests for microbiological and infectious disease detection for medical purposes; Diagnostic reagents for medical or veterinary purposes; Kits comprising chemical, molecular, biological and microbiological reagents for medical or medical veterinary purposes; biological or chemical reagents for use in molecular biology for medical or veterinary purposes; Kits consisting of reagents for conducting enzyme-linked immune-absorbent assays (ELISA) for medical or veterinary purposes; chemical, biological, molecular and microbiological reagents for medical or veterinary purposes; Kits consisting of chemical reagents for medical use for conducting thermal amplification assays; Kits consisting of chemical reagents for medical use for thermal amplification or detection of nucleic targets; Medicated serums containing antigens for the treatment of allergies; Diagnostic antibodies for use in disease testing; antibodies for immunodiagnostic purposes; Intercalcating agents, namely, secondary antibody, conjugate, DNA-DNA, protein-protein and DNA-protein linking agents for medical or veterinary use; Medical diagnostic tests comprised of reagents and assays for detecting antibodies; proteins for medical use in binding antibodies; Medical testing kits comprising reagents for infectious disease diagnosis; Antimicrobial preparations for use in the cryopreservation of organisms; Medical diagnostic molecular reagents for use in the identification and detection of bacteria, veterinary pathogens and other infectious organisms and the diagnosis of urine infections and autoimmune diseases and none of the above being for allergy tests; Medical diagnostic reagents for urine examination reagents for the detection of occult blood in feces; reagents for

immunodiagnostic tests, namely, the diagnosis of autoimmune disease; Diagnostic molecular biology kits composed primarily of reagents and assays for pathogenic detection and identification

International Classes 5 - Primary Classes **US Classes** 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Chemicals used in industry and science; reagents for scientific and research use and clinical and medical laboratory use; chemical reagents for scientific and research use and clinical and medical laboratory use; molecular reagents for scientific and research use and clinical and medical laboratory use; biological reagents for scientific and research use and clinical and medical laboratory use; microbiological reagents for scientific and research use and clinical and medical laboratory use; antibiotic susceptibility reagents for scientific and research use and clinical and medical laboratory use; cell growth media for the cultivation and growth of bacteria, fungi and yeast cells from clinical specimens or reference strains for use in laboratories, near patient testing laboratory facilities, and for diagnostic research purposes; Kits comprising chemical, molecular, biological and microbiological reagents for scientific, research, and clinical and medical laboratory use; Kits comprising chemical reagents for conducting enzyme-linked immunosorbent assays (ELISA) for scientific and research use and clinical and medical laboratory use; Kits comprising chemical reagents for conducting thermal amplification assays for scientific and research use, and clinical and medical laboratory use; Kits comprising chemical reagents for thermal amplification or detection of nucleic targets for scientific and research use, and clinical and medical laboratory use; assay preparations for scientific and research use and clinical laboratory use; Test kits for detecting antibodies, other than for medical or veterinary use, comprising immunofluorescence dyes, enzyme immunoassay reagents, and Western blot electrophoreses and protein gel reagents, all for use for scientific and research use, and clinical or medical laboratory use; Chemical cell culture media supplements and test kits comprised of chemical cell culture media supplements for use in laboratories, near patient testing facilities for research purposes related to identification and susceptibility testing for scientific and research use, and clinical or medical laboratory use; chemicals for use in the cryopreservation of organisms for scientific use, research use and clinical or medical laboratory use; chemical reagents for molecular biology scientific research and for use in clinical and medical laboratories; cell culture media for use in laboratories, near patient testing facilities for diagnostic research purposes, and clinical or medical laboratory use; reagents for use in scientific apparatus for antibiotic susceptibility analysis; nutrients for use in scientific apparatus for microbiological analysis; Biochemical reagents for the identification and detection of bacteria for non-medical purposes; biochemical reagents for clinical or medical laboratory use; bacterial agglutinating antisera for clinical or medical laboratory use; Laboratory chemicals, namely, stained febrile antigens; Laboratory chemicals, namely, latex for agglutination tests

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Apparatus for recording, transmission or reproduction of sound or images; data processing equipment and computers; apparatus for measuring inoculated bacterial cultures; laboratory image analysing apparatus and instruments for detection, diagnosis and identification of treatment options of the causative agents of diseases and the capture of fluorescent, luminescent chromatic or electrical signal output upon excitation at a given wavelength from a nucleic acid amplification test which has intercalating dyes, flurophores or other tagging mechanisms; analytical apparatus for microorganism identification and the reading of antibiotic susceptibility tests, namely, recorded computer software and computer hardware used in image analysis; Recorded computer programs and software for use in molecular biology for the reading, analysis and correlation of data and reporting of microorganism identification from samples; Measuring apparatus for use in quantifying of biological materials in assay testing; laboratory research bacterial storage and cultivation apparatus; storage retrieval systems for the preservation of

organisms consisting of recorded computer software for controlling insertion, removal, and storage temperature of tissue samples, lockable petri dishes, and laboratory robotic arms; Parts specially adapted for laboratory research testing equipment, namely, antibiotic and antifungal susceptibility discs, rings and tablets, paper antibiotic and antifungal susceptibility discs, rings, tablets and strips, antibiotic resistance detection discs, rings, and tablets, and paper antibiotic resistance detection discs, rings, tablets and strips; Recorded software for urine testing, antibiotic susceptibility testing, identification and detection of bacteria, veterinary pathogens and other infectious organisms and the diagnosis of urine infections and autoimmune diseases; laboratory analyzers for measuring, testing and analyzing blood and other bodily fluids, and parts therefor sold together as a unit, namely, analysers, dispensers, inoculators, interface modules and marker pins, and analysers, dispensers, inoculators, interface modules and marker pins for urine testing; Laboratory instruments for use in the preparation of samples, namely, instruments for the allocation of clinical specimen onto microtiter plates and instruments for dispensing of clinical specimens and antibiotic susceptibility discs onto microbiological culture plates; laboratory pre-poured media 96-Well plates for bacterial antibiotic susceptibility testing (AST) or identification (ID) and 90-100mm or 150mm microbiological culture plates containing Mueller Hinton agar for urine screening; laboratory glassware, namely, vials and wells for storage and preservation of bacteria; Chemical analyzers for reading laboratory sample cards for occult blood tests; Chemical analyzers for reading laboratory reaction cards including latex agglutination reaction cards; laboratory instruments, namely, chemical analyzers for reading discs, strips and circles for identification and detection of bacteria; Laboratory reaction tubes; turbidimeters; laboratory instruments, namely, amplification units for molecular biology tests for the detection of target DNA by measuring the increase in the signal output from the diagnostic assay; data processors for processing patient specimen data in medical diagnostics, reading and analysis of diagnostic test result data, and validation of analyser derived test results; recorded software operating programs for use with medical diagnostic testing and analysis equipment; apparatus for microbiological laboratory testing, namely, microscopes and microbiological safety cabinets; parts and fittings for the aforementioned goods, namely, inoculating pins, inoculating pin holders, inoculum pots, bar code readers, all-in-one PCs in drive and tablet computer formats, electronic cables, power adapters, marker assemblies, magnifiers, printers, racks for holding microtiter plates, molecular platform amplification units comprising drive modules, power modules and HMI modules and power cables, LEDs, circuit boards, bar code readers and HMIs in tablet computer form, antibiotic susceptibility testing disc dispensers, desiccant packs specially adapted for laboratory equipment, disc dispenser canisters, disc dispenser spares for repair

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the wording "MAGNETIC ACCESS TO PROGRESS" in stylized form, with the word "MAGNETIC" being much larger than the wording "ACCESS TO PROGRESS". The "M" of "MAGNETIC" is underlined with a horizontal line. The "M" of "MAGNETIC" and the line beneath it are in blue, and the rest of the letters are in black. **Color Drawing** Yes **Color Claimed** The color(s) blue and black is/are claimed as a feature of the mark. **Disclaimer** "MAGNETIC ACCESS "

RELATED PROPERTIES INFORMATION

International Registration 1350183 **International Registration Date** Oct. 24, 2016

GOODS AND SERVICES INFORMATION

For Non-metallic, free-standing housings for car and truck terminals, namely, free-standing, prefabricated metal garages for car and trucks, non-metallic, portable free-standing barriers, barrier booms and barrier poles in the nature of long, movable arms of metal meant to control access to spaces of various kinds, sold separately; non-metallic, transportable buildings; barrier booms, horizontal traffic barriers, car park barriers, access control barriers, access control barriers for use with boom skirts in the nature of fence-like fixtures below the boom preventing people from crawling under the barriers, barriers for pedestrian traffic control, barriers for car and truck traffic control tolls, barriers, not of metal; turnstiles, turn locks, rotary wing locks and horizontal flap barriers, not of metal

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For Power units, namely, auxiliary power units for supplying electrical power, hydraulic power units, and general machine parts, namely, cylinders, mandrels, bearings, gear drives, hitches; gears for toll barriers, access barriers, car park barriers, turnstiles, car and truck terminals, pedestrian gates, pedestrian gates for ticket inspection, barriers for pedestrian traffic control, barriers for car and truck traffic control, and hydraulic, mechanical or pneumatic-operated locking devices, namely, motorized door locks, gate locks, barrier locks; hydraulic valve actuators, hydraulic actuators, hydraulic linear actuators, rotary actuators, pneumatic valve actuators with electronic controls, hydraulic controls and pneumatic controls of motors for barriers, turnstiles and toll terminals, pedestrian barriers, car park barriers and toll barriers and toll terminals, drives for doors and gates and

drives for access systems comprised of turnstiles and toll terminals; machine parts, namely, hydraulic valve actuators that are electronically controlled

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Electrical access control apparatus in the nature of hand geometry scanners, bar code readers, magnetic encoded card readers, chip card readers, bar code scanners, cameras for facial recognition; electric access control devices in the nature of electrical controllers for controlling access to parking lots for cars and trucks, and for controlling access to parking garages, automatic access control devices in the nature of electrical controllers to control access to parking lots for cars and trucks, access to parking garages, access gates to immigration facilities, access gates to factory sites, access gates to office buildings, access gates to metro stations, access gates to railway stations, access gates to cable car stations, boarding gates at airports, boarding gates at seaports; magnetically encoded access controller cards; computer software, namely, software for operating parking lots for cars and trucks, controlling access to parking garages, access gates in immigration facilities, access gates in factory sites, access gates in office buildings, access gates in metro stations, access gates in railway stations, access gates in cable car stations, boarding gates at airports, boarding gates at seaports, the foregoing software recorded on compact discs; computer programs for deactivation of access or entrance control to parking lots for cars and trucks, parking garages, immigration facilities, factory sites, office buildings, metro stations, railway stations, cable car stations, boarding gates at airports, boarding gates at seaports; software for control of access and security systems as well as for control of access control devices; electrical access controlling devices actuated by coin toss or by magnetically encoded access cards; mechanisms for coin-operated apparatus for opening of car park barriers; radio apparatus and instruments, namely, intercoms; audio and visual and photographic equipment, namely, monitoring cameras, surveillance cameras, motion detectors, presence detectors; radio operated electrical/electronic controls for closing doors, barriers, gates, turnstiles and for controlling other access control devices; electrical and electronic instruments and apparatus for controlling access barriers, namely metal gates and bars for vehicle and pedestrian control; remote control devices for operating access gates to car parks and driveways; remote control apparatus for operating turn locks, rotary wing locks and horizontal flap barriers; magnetically encoded identification cards, namely, cards encoded with security features for identification purposes; readers for electronic chip cards and electric card readers for identification; magnetically encoded identity cards with security function for authentication purposes; rotating signaling lights for informing pedestrians, cars and trucks of the opening and closing of gates and barriers; surveillance cameras; electronic components for safety and alarm systems, namely, optical sensors, ultrasonic sensors, motion sensors, switchers, namely, matrix switchers for audio and video signals, the foregoing sold separately, alarm and control switchboards for monitoring and securing of rooms, buildings and real estate property against unauthorized access; electric and electronic controllers for controlling access to premises through doors and gates

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Metal goods, namely, free-standing housings for car and truck terminals in the nature of free-standing, prefabricated metal garages for cars and trucks; portable, metal free-standing barriers; metal barriers in the form of bars for vehicle and pedestrian control; metal barriers in the form of poles for vehicle and pedestrian control; portable, free-standing horizontal traffic barriers, namely, horizontal metal barriers for pedestrian traffic control; car park barriers and access control barriers, namely, coin-operated metal gates for car parks, metal access control barriers for use with boom skirts; metal barriers for

pedestrian traffic control; metal barriers for car and traffic control; buildings, transportable, of metal; barriers for car and truck traffic control, each made of metal or mainly of metal; doors and gates of metal; fences, barriers for toll processing at bridges, tunnels and roads, free-standing vehicular and pedestrian access barriers, and vehicular access barriers for car parks, each made of metal or mainly of metal; turnstiles, twist locks, rotary wing locks and barriers comprised of horizontally-oriented flaps for vehicular traffic and pedestrian access control, each made of metal or mainly of metal

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 2 - AN ILLUSTRATION DRAWING WITHOUT ANY WORDS(S)/ LETTER(S) **Description of the Mark** The mark consists of two imaginary creatures side-by-side. The creature on the left is formed by a roughly square-shaped body, with pegs jutting out from its sides that resemble arms, and two other pegs jutting out from the bottom of the square the resemble legs. The creature on the right is also formed by a roughly square-shaped body, with designs on its two sides and on top that resemble feathers, and two pegs jutting out from the bottom of the square that resemble legs. The creature on the right also features raindrop-shaped designs on the lower part of its body. Both of these creatures also feature designs within the roughly square-shaped bodies that resemble facial features. The creature on the left has two large eyes formed by circle designs, and a U shape for a nose between the eyes designs. The creature on the right has two eyes, accented by eyebrows, a round shape in between the eyes that resembles a nose, and two dots near the eyes that resemble cheeks. The bodies of the creatures, the pegs on the side of the figure on the left, and the feather designs of the figure on the right are in yellow, with the raindrop-shaped designs in the right-hand figure being in orange. The pegs on the bottom of each creature and the nose on the creature on the left are brown. The eyes on the creature on the left are white, orange and green. The eyes on the creature on the right are pink, white, purple and black. **Color Drawing** Yes **Color Claimed** The color(s) yellow, green, brown, pink, red, purple, black, white, and orange is/are claimed as a feature of the mark.

For 3D spectacles; DVD players; electronic parking lot ticket dispensers; coin-operated musical automata, namely, juke boxes; fire engines; answering machines; electrical adapters; batteries for electronic cigarettes; accumulators, electric; accumulators, electric, for vehicles; accelerometers; actinometers; alidades; altimeters; ammeters; anemometers; anodes; antennas; anticathodes; measuring apparatus, namely, apertometers for use in optics; electro-dynamic apparatus for the remote control of railway points; electro-dynamic apparatus for the remote control of signals; remote control apparatus, namely, TV, PC and console remote control electronic monitoring apparatus, namely, wireless controllers to monitor and control the functioning of other electronic devices; sound recording apparatus; Global Positioning System (GPS) apparatus; distillation apparatus for scientific purposes; apparatus to check franking, namely, optical readers; sound transmitting apparatus; breathing apparatus for underwater swimming; breathing apparatus except for artificial respiration, namely, for underwater swimming; apparatus and installations for the production of X-rays, not for medical purposes, namely, X-ray security scanners; cash registers; electric apparatus for commutation in the nature of commutators; intercommunication apparatus, namely, telephones incorporating intercommunication systems; stills for laboratory experiments; projection apparatus, namely, LCD projectors; fire extinguishing apparatus; X-ray apparatus not for medical purposes; flashing safety lights; stereoscopes; telephone apparatus; facsimile machines; phototelegraphy apparatus; acid hydrometers; salinometers; acidimeters for batteries; aerometers; beacons, luminous; barometers; anode batteries; galvanic batteries; batteries for lighting; solar batteries; solar panels for the production of electricity; batteries, electric; betatrons; binoculars; bio-chips for research or scientific purposes; electronic tags for goods; lens hoods; magnetic tape units for computers; computer memory devices; fire hose nozzles; encoded identification bracelets, magnetic; connected bracelets in the nature of surveying chains; safety tarpaulins; electronic key fobs being remote control apparatus; bullet-proof clothing; signalling buoys; life buoys; marking buoys; directional compasses; vacuum gauges; electrolysers; variometers; scales; baby scales; bathroom scales; letter scales; weighbridges; precision balances; scales with body mass analysers; camcorders; video baby monitors; blank video cassettes; video telephones; video screens; viewfinders, photographic; electric connections, namely, sockets and plugs; micrometer screws for optical instruments; viscosimeters; electric circuit closers; wavemeters; voltmeters; mechanical signs; signs, luminous; switch boxes; current rectifiers; gas testing instruments; gasometers; galvanometers; heliographic apparatus; hygrometers; hydrometers; weights for use with weighing scales; magnifying peepholes for doors; hologram apparatus; plotters; plumb bobs; range finders for cameras; densimeters; densitometers not for medical use; smoke detectors; infrared detectors; joysticks for use with computers, other than for video games; photographic transparencies; slide projectors; dictating machines; dynamometers; light-emitting diodes (LEDs); blank floppy computer discs; blank computer discs for sound recordings; blank magnetic discs; blank optical discs; circular slide rules; disk drives for computers; juke boxes for computers; DNA chips;

electronic interactive whiteboards; electronic notice boards; life jackets; reflective safety vests; identification threads for electric wires; nose clips for divers and swimmers; locks, electric; warning bells; electric warning bells; electric door bells; signal bells; audio interfaces; acoustic conduits; inspection mirrors; road signs, luminous or mechanical; marine depth finders; probes for scientific purposes, namely, avalanche probes featuring sensors for measuring snow depth; electric buzzers; needles for surveying compasses; needles for record players; measures, namely, tire-pressure measures, spirit measures, pressure measuring apparatus; simulators for the steering and control of vehicles; pressure indicators; temperature indicators; incubators for bacteria culture; cosmographic instruments, namely, astronometric measuring machines and instruments; mathematical instruments, namely, calculators; levelling instruments, namely, level gauges; instruments containing eyepieces, namely, microscopes, telescopes, photo and video cameras; surveying instruments; azimuth instruments, namely, compasses for measuring; interfaces for computers; ionization apparatus for scientific or laboratory use but not for the treatment of air or water; coaxial cables; fiber optic cables; cables, electric; laboratory equipment and supplies, namely, calipers; slide calipers; screw-tapping gauges; calorimeters; calculating machines; pocket calculators; decompression chambers; cinematographic cameras; thermal imaging cameras; mouth guards for sports; life-saving capsules for natural disasters; electronic pens; holders for electric coils; identity cards, magnetic; video game cartridges; toner cartridges, unfilled, for printers and photocopiers; memory cards for video game machines; magnetically encoded charge cards; riding helmets; protective helmets; slide film mounts; automated teller machines (ATM); cathodes; spools for cameras; coils, electric; electromagnetic coils; cinematographic film, exposed; computer keyboards; wire connectors; encoded key cards; electronic book readers; electronic agendas; push buttons sold as a component part of call bells; magnetic encoders; anti-glare glasses; electric collectors in the nature of electric conductors; smart rings; protective suits for aviators; commutators; compact discs featuring music, cartoons, and TV shows; comparators; marine compasses; computers; laptop computers; tablet computers; notebook computers; contacts, electric; wind socks for indicating wind direction; safety traffic cones; branch boxes, namely, electrical distribution boxes; battery boxes; cabinets for loudspeakers; diving suits; reflecting discs for wear, for the prevention of traffic accidents; covers for electric outlets; lasers, not for medical purposes; lactodensimeters; lactometers; vacuum tubes for radios; photography darkroom lamps; thermionic tubes; amplifying tubes, namely, vacuum tubes for radios; flashlights for use in photography; head cleaning tapes for video recorders; blank magnetic computer tapes; blank video tapes; surveying chains; safety equipment, namely, fire escape ladders; measuring rulers; square rulers for measuring; slide-rules; contact lenses; optical lenses; optical condensers; depth gauges in the nature of marine depth finders; electricity conduits; measuring spoons; magnifying glasses; thread counters; magnets; decorative magnets; close-up lenses; crash test dummies; resuscitation mannequins; pressure gauges; electronic security token in the nature of a fob-like device used by an authorized user of a computer system to facilitate authentication; divers' masks; solderers' helmets; protection masks; respiratory masks for non-medical purposes, other than for artificial respiration; materials for electricity mains, namely, electric wire and cable; voting machines; money counting and sorting machines; furniture especially made for laboratories; megaphones; portable media players; acoustic diaphragms, namely, electroacoustic transducers; diaphragms for scientific apparatus, namely, electro-optic transducers; metal detectors for industrial or military purposes; digital weather station instruments; metronomes; measuring rules; carpenters' rules; tape measures for dressmakers; mechanisms for coin-operated apparatus; coin-operated mechanisms for television sets; shutter releases; micrometers; microprocessors; microscopes; microtomes; microphones; audio mixers; modems; lightning conductors; computer monitors; computer software to monitor and control factory manufacturing processes; monopods for handheld digital electronic devices, namely, cell phones, MP3 players, selfie sticks; electrical terminators; junction sleeves for electric cables; teeth protectors in the nature of mouth guards for sports; temperature indicator

labels, not for medical purposes; knee-pads for workers; headphones; surveyors' levels; sound recording apparatus; blank magnetic data carriers; blank optical data carriers; electronic sheet music, downloadable; sheaths for electric cables; identification sheaths for electric wires; weighing machines; computer hardware; punched card machines for offices; microscope objectives; lenses for astrophotography; egg-candlers; fire extinguishers; electrified fences; electricity limiters; clothing for protection against accidents, irradiation and fire; clothing for protection against fire; asbestos clothing for protection against fire; protective clothing especially made for use in laboratories; ozonisers; octants; protective eye pieces; ohmmeters; wrist rests for use with computers; eyeglass frames; oscillographs; plumb lines; scientific and technical apparatus, namely, optical mirrors; eyeglasses; sunglasses; goggles for sports; electronic collars to train animals; road signs, luminous or mechanical; radio pagers; pince-nez; electronic pocket translators; telecommunications transmitters; telephone transmitters; transmitters of electronic signals; switches, electric; periscopes; diving gloves; gloves for protection against accidents; gloves for protection against X-rays for industrial purposes; asbestos gloves for protection against accidents; furnaces for laboratory use; laboratory pipettes; pyrometers; planimeters; plates for batteries; wafers for integrated circuits; printed circuit boards; compact disc players; cassette players; protective films adapted for computer screens; protective films adapted for smartphones; X-ray films, exposed; life-saving rafts; laboratory trays; digital signs; semi-conductors; polarimeters; fire pumps; measuring glassware; life belts; fuses; circuit breakers; converters, electric; diagnostic apparatus for testing food; distance measuring apparatus; appliances for measuring the thickness of leather; time recording apparatus; astronometric measuring machines and instruments; surveying apparatus in the nature of levelling rods and surveying instruments; weighing apparatus and instruments; nautical and photographic apparatus and instruments, namely, underwater housings for cameras, underwater enclosures for cameras and underwater enclosures for photographic lenses; electric navigational instruments; optical apparatus and instruments, namely, optical ports for underwater photography, dome ports for underwater photography, wet diopters, adapter lenses for underwater photography; apparatus and instruments for physics, namely, gravity measuring instruments, gas testing instruments; chemistry apparatus and instruments, namely, laboratory chemical reactors, pre-packed columns for use in chemical synthesis; measuring apparatus, namely, bevels, angle finders; electric measuring apparatus, namely, clamp meters for measuring electricity; boiler control instruments; meteorological instruments; observation instruments, namely, microscopes, telescopes, binoculars; navigation apparatus for vehicles in the nature of on-board computers; satellite navigational system, namely, a global positioning system (GPS); precision measuring apparatus, namely, laser distance meters; audio- and video-receivers; prisms for optics purposes; computer printers for printing documents; apparatus for changing record player needles, namely, phonographic record cleaning kits comprised primarily of replacement stylus needles and also including cleaning solution and brushes; drainers for use in photography, namely, drying racks for photography; telescopic sights for firearms; telescopic sights for artillery; laboratory equipment and supplies, namely, test tubes; pressure indicator plugs for valves; magnetic wires; telegraph wires; telephone wires; wires, electric; conductors, electric; copper wire, insulated; fuse wire; computer game software; computer operating programs, recorded; record players; downloadable electronic publications in the nature of e-books, magazines and newspapers, the foregoing downloadable electronic publications in the field of family entertainment and education; electricity distribution consoles; electric control panels; radar apparatus; masts for wireless aerials; telecommunications transmitters; radios; vehicle radios; sprinkler systems for fire protection; frames for photographic transparencies; flowmeters; walkie-talkies; voltage surge protectors; voltage regulators for vehicles; electronic regulating and control devices for the operation of light emitting diodes in stage lighting apparatus; speed regulators for record players; electric switches, namely, cell switches in the nature of Ethernet switches for transporting electronic data, electric

current switches for transporting electronic data; washing trays specially adapted for photography usage; marking gauges for joinery purposes; T-squares for measuring; time switches, automatic; relays, electric; X-ray photographs, other than for medical purposes; rheostats; retorts for use in high temperature chemical reactions; refractometers; refractors in the nature of telescopes; grids for batteries; humanoid robots with artificial intelligence; speaking tubes; horns for loudspeakers; subwoofers; saccharometers; optical fibers; traffic-light apparatus; dog whistles; signalling whistles; sextants; electrical inductors; safety nets; nets for protection against accidents; fire alarms; luminous or mechanical road signs; sirens; electronic access control systems for interlocking doors; wearable computer peripherals worn as eyeglasses; smartphones; smartwatches; connections for electric lines; couplings, electric; sonars; lighting ballasts; resistances, electric; spectrograph apparatus; spectroscopes; speed indicators; alcoholmeters; satellites for scientific purposes; protection devices for personal use against accidents, namely, nets, gloves, footwear for protection against accidents; audiovisual teaching apparatus, namely, microphones; charging stations for electric vehicles; radiotelegraphy sets; radiotelephony sets; spectacle lenses; anti-glare glasses; optical glasses; personal stereos; stereoscopes; stands for photographic apparatus; stroboscopes; fire boats; sulfitometers; bags adapted for laptops; drying racks for photography; spherometers; integrated circuits; printed circuits; Geiger counters; parking meters; kilometer recorders for vehicles; abacuses; egg timers; taximeters; ear plugs for divers; tachometers; television apparatus for projection purposes; telegraphs; telescopes; teleprinters; cordless telephones; cellular phones; theodolites; interactive touch screen terminals; thermo-hygrometers; thermometers, not for medical purposes; thermostats; thermostats for vehicles; laboratory equipment, namely, crucibles; tone arms for record players; electronic components in the nature of transistors; transponders; protractors; electronic components in the nature of transformers; step-up transformers; vehicle breakdown warning triangles; triodes; battery starter cables for motors; discharge tubes, electric, other than for lighting; neon signs; pitot tubes; X-ray tubes not for medical purposes; telephone receivers; squares for measuring; pressure gauges; quantity indicators, namely, water level indicators; automatic indicators of low pressure in vehicle tires; gasoline gauges; water level indicators; light-emitting electronic pointers, namely, laser pointers; slope indicators; spirit levels; mercury switches; amplifiers; particle accelerators; electric installations for the remote control of industrial operations; baby monitors; balances; video recorders; sound reproduction apparatus; calculating machines for invoicing; tape recorders; data processing apparatus; electric theft prevention installations, namely, theft alarms; film cutting apparatus, namely, editing machines for movie films; drying apparatus for photographic prints; optical character readers; centering apparatus for photographic transparencies, namely, frames for photographic transparencies; dosage dispensers, namely, machines for dispensing pre-determined dosages of medication; battery chargers; chargers for electric batteries; chargers for electronic cigarettes; acoustic alarms; sounding apparatus and machines, namely, alarm installations and alarms; editing appliances for cinematographic films, namely, editing machines for movie films, apparatus for editing cinematographic film; anti-theft warning apparatus, namely, burglar alarms; computer peripheral devices; anti-interference devices, namely, filters for radio interference suppression; acoustic couplers; personal security alarms; fog signals, non-explosive; whistle alarms; adding machines; central processing unit (CPU) coolers; photocopiers; electric and electronic effects units for musical instruments; bar code readers; downloadable image files containing photos and pictures; downloadable music files; filters for non-medical respiratory masks; filters for ultraviolet rays, for photography; blank USB flash drives; magic lanterns; optical lamps; optical signal lanterns being optical lanterns; cameras; camera shutters; photometers; flash bulbs; digital photo frames; enlarging apparatus, namely, magnifying lenses; photovoltaic cells; containers for contact lenses; eyeglass cases; containers for microscope slides, namely, slide boxes; cases for smartphones; cases especially made for photographic apparatus and instruments; chromatography apparatus for laboratory use; chronographs for use as specialized time recording apparatuses;

laboratory centrifuges; eyeglass chains; cyclotrons; compasses for measuring; frequency meters; time clocks; petri dishes; sleeves for laptops; covers for personal digital assistants (PDA); covers for tablet computers; covers for smartphones; fire blankets; electronic chips for the manufacture of integrated circuits; jiggers; pedometers; meteorological balloons; asbestos safety screens for firemen; fire hose; virtual reality headsets; protective helmets for sports; head guards for sports; cell phone straps; eyeglass cords; tripods for cameras; switchboards; electrical distribution systems, namely, power distribution panels; audio equalizer apparatus; workmen's protective face-shields; projection screens; fluorescent screens; exposure meters for photographic devices; electrical ducts; galvanic cells; epidiascopes; ergometers not for medical purposes; armatures for use in electrical apparatus; electronic black boxes for recording data

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For news agency services for electronic transmission; wireless broadcasting; television broadcasting; cable television broadcasting; electronic bulletin board services; information about telecommunication; providing user access to global computer networks; providing access to databases; providing telecommunications connections to a global computer network; computer aided transmission of messages and images; transmission of telegrams; transmission of digital files; videoconferencing services; rental of telecommunications apparatus for sending messages; rental of access time to global computer networks; rental of modems; rental of telecommunication equipment; rental of telephones; rental of facsimile apparatus; radio broadcasting; radio communications; transmission of electronic mail; communications by fiber optic networks; communications by cellular phones; communications by computer terminals; satellite transmission; communications by telegrams; communications by telephone; facsimile transmission; paging services; teleconferencing services; voice mail services; streaming of data; telegraph services; telephone communications services

GOODS AND SERVICES INFORMATION

For Sporting and gymnastic apparatus and equipment, namely, rotating interfaces specially adapted for attaching snowboards to bindings; surfboards; surfboard fins; surfboard leashes; skateboard decks; skateboard wheels; snowboards; wake boards; skim boards; body boards; body boards, kneeboards, sailboards, surf skis, snow skis, waterskis, skateboards, kiteboards, ski equipment and snowboarding equipment, namely, fitted protective covers specially adapted for snow skis and snowboards, ski poles, ski bindings, snowboard bindings; waterski equipment, namely, fitted protective covers specially adapted for waterskis; bags especially designed to hold surfboards, bodyboards, kneeboards, wakeboards, skim boards, sailboards, surf skis, snowboards, snow skis, waterskis, skateboards and kiteboards; sporting accessories, namely, surf and swim fins, leg ropes in the nature of leashes used in conjunction with surfing and security leashes for sporting apparatus, namely, sail board leashes, surfboard leashes; sporting apparatus being ropes especially adapted and fitted as tow-in waterski ropes and skiing ropes, ski bindings, surfboard deck grips, swim fins, namely, swim fins for bodyboarding; covers specially adapted for surfboards, bodyboards, knee boards, sailboards, surf skis, snowboards, snow skis, waterskis, skateboards and kiteboards and protective bags for sporting apparatus, namely, bags specially adapted for holding surfboards, bodyboards, kneeboards, sailboards, surf skis, snowboards, snow skis, waterskis, skateboards and kiteboards; protective paddings for sports, namely, for playing football and rugby, soccer, hockey, and for skateboarding and cycling; athletic protective wrist pads; athletic protective knee pads; athletic protective elbow pads; athletic protective wrist pads for skating; athletic protective knee pads for skateboarding; athletic protective elbow pads for skating; parts and fittings for all the aforesaid goods

International Classes 28 - Primary Classes **US Classes** 22, 23, 38, 50 **International Class Title** Toys and Sporting Goods

For Online retail store services and retail store services in the field of perfumery, aftershave, cosmetics, including Sun oils and Sun creams, soaps, hair care preparations, shower gel; online retail store services and retail store services in the field of apparatus, instruments and media for recording, reproducing, carrying, storing processing, manipulating, transmitting, broadcasting, retrieving and reproducing music, sounds, images, text, and information, for reproductions of sound and/or video in electronic and digital form, all supplied by means of multimedia; online retail store services and retail store services in the field of sound storage media, image storage media and data storage media all being pre-recorded, downloadable MP3, computer apparatus; online retail store services and retail store services in the field of computer software, computer programs, multimedia software including CD-ROMs, DVD-ROMs, digital media, computer software for access to databases relating to music, entertainers, performers, entertainment products, entertainment services and music-related products, computer software for securing digital content, computer program; for managing communications and data exchange relating to music, audio and visual data; online retail store services and retail store services in the field of multimedia software for downloading music, audio and visual data, computer software for online trading, CD recorders and players, DVD recorder and players, CDs, DVDs, audio tapes all being sold together with booklets; online retail store services and retail store services in the field of pre-recorded vinyl records, sound and video recording on corresponding recording carriers, gramophone records, sound and video cassettes; online retail store services and retail store services in the field of cassettes for the storage of or containing pre-recorded data, tapes for or bearing sound or video recordings, magnetic tapes, discs, and magnetic wires, all for sound or video recording, membership magnetic cards; online retail store services and retail store services in the field of electronic handheld devices for the wireless receipt and/or transmission of data, digital audio and video devices, head cleaning tapes, audio cassette recorders and players, video cassette recorders and players, compact discs players, digital versatile discs recorders and players, digital audio tape recorders and players, photographic and cinematographic apparatus and instruments, television and radio apparatus; online retail store services and retail store services in the field of microphones, coin-operated juke boxes, coin or counter-feed sound or video reproduction apparatus, unexposed photographic transparencies; online retail store services and retail store services in the field of multifunctional electronic devices for displaying, measuring and uploading to the Internet information including time, date, body and heart rates, global positioning, direction, distance, altitude, speed, steps taken, calories burned, navigational information, weather information, the temperature, wind speed, and the declination of body and heart rates, altitude and speed; online retail store services and retail store services in the field of reflective safety vests, protective sports helmets, sports helmets, skateboard helmets, snowboard helmets, bicycle helmets, ski helmets, protective headgear, protective helmets for use in sports including surfing, skateboarding snowboarding and skiing, protective eyewear, protective goggles, goggles, goggles for sports, goggles for use in swimming, snow goggles, ski goggles, eyewear, sunglasses; online retail store services and retail store services in the field of spectacles, glasses, eyewear cases, spectacle frames, straps and laces for spectacles and sunglasses, spectacle cases, life jackets, wetsuits for diving, divers' masks and goggles for underwater sports, mobile phone cases, protective cases for mobile phones, protective cases for tablet computers, credit card cases, telephone cases and holders, parts and fittings for all the aforesaid goods; online retail store services and retail store services in the field of apparatus for locomotion by land in the nature of automobiles, air in the nature of airplanes and water in the nature of boats, kayaks, canoes, kayak paddles, canoe paddles, bicycles, jewellery, horological and chronometric instruments, badges of precious metal, cufflinks, wrist bands, rubber wrist bands, earrings, studs, bracelets, bangles, necklaces, chokers, rings, toe-rings, body jewels, ankle chains, brooches, cuff links; online retail store services and retail store services in the field of ornamental pins, tiepins, hatpins, tiaras, charms, key charms, bag charms, key rings, key fobs, key chains, watches,

watch cases, watch bracelets, straps and parts therefor, clocks, bags, handbags, crutch bags, shoulder bags, wallets, purses, brief cases, folio cases, attaché cases, backpacks, key cases, coin purses, bum bags, passport wallets, travel bags, rucksacks, luggage, umbrellas; online retail store services and retail store services in the field of trunks, bag tags, sports bags, publications, books, magazines, fanzines, newsletters, comics, newspapers, postcards, posters, greeting cards and gift tags, gift cards, stationery, artists' materials, printers type and printers blocks, instructional and teaching materials, wrapping and packaging materials, pens, pencils, calendars, utensils and containers for household or kitchen purposes; online retail store services and retail store services in the field of insulated flasks for food and beverages, containers and jars for drinks, refrigerating bottles and cooling devices for beverages for household purposes, cups, bottles, mugs, sports bottles, flasks, drinking flasks, hip flasks, liqueur flasks, insulated flasks, vacuum flasks for holding drinks, picnic crockery, picnic baskets, tents, textiles, bed blankets, bed covers, bed linen, bath linen, bedspreads, duvet covers, blankets; online retail store services and retail store services in the field of throws, fabrics, household linens, pillow cases, shower curtains, table linen, table cloths, table covers, table napkins, washing mitts, towels, banners and flags of textiles, fabrics for textile use in the nature of woven and knitted textiles, towels, face cloths, sleeping bags, clothing, footwear, headgear, bathing suits, bandanas, belts, leather belts, vests, gloves, hoodies, hats, caps, jackets, coats, pajamas, scarves, shorts; online retail store services and retail store services in the field of shirts, visors, ear muffs, sweat shirts, sweat pants, sweat jackets, sweaters, trousers, jeans, t-shirts, tank tops, socks, tops, underwear, wrist bands, overalls, ties, robes, skirts, dresses, jumpers, climbing boots, wrist barns, sweat bands for the wrist, swimwear, bikinis, swim suits, swim shorts, sportswear, casual wear, beachwear, protective clothing for swimming, surfing, diving, snow skiing, snow boarding and sporting activities; online retail store services and retail store services in the field of wetsuits, wetsuit vests, wetsuit trousers and shorts, money belts, badges for wear, not of precious metal, novelty buttons badges for wear, lapel badges for wear, patches for clothing, ornamental cloth patches, embroidered patches for clothing, heat adhesive patches for decoration of clothing and textile articles, sporting and gymnastic apparatus and equipment, surfboards, surfboard fins, surfboard leashes, skate board decks; online retail store services and retail store services in the field of skate board wheels, snowboards, wake boards, skim boards, board bags, body boards, kneeboards, sailboards, surf skis, snow skis, water skis, skateboards, kite boards, ski equipment and snowboarding equipment, water ski equipment, bag; especially designed for surfboards, body boards, kneeboards, wakeboards, skim boards, sailboards; online retail store services and retail store services in the field of surf skis, snowboards, snow skis, water skis, skateboards and kite boards, sporting accessories including fins, leg ropes and security leashes for sporting apparatus, sporting apparatus being ropes especially adapted and fitted as tow-in ropes and skiing ropes, ski bindings, surfboard deck grips, swim fins including swim fins for body boarding; online retail store services and retail store services in the field of wax for skis and surfboards, covers and protective bags for sporting apparatus including bags for surfboards, body boards, kneeboards, sailboards, surf skis, snowboards, snow skis, water skis, skateboards and kite boards, toys, games and playthings, athletic protective sportswear, athletic protective wrist pads, athletic protective knee pads, athletic protective elbow pads, athletic protective wrist pads for skating; online retail store services and retail store services in the field of athletic protective knee pads for skateboarding, athletic protective elbow pads for skating, sports drinks

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For footwear; headwear; bathing suits; bandanas; belts; leather belts; vests; gloves; hoodies; hats; caps being headwear; jackets; coats; pajamas; scarves; shorts; shirts; visors being headwear; ear muffs; sweat shirts; sweat pants; sweat jackets; sweaters; trousers; jeans; t-shirts; tank tops; socks; tops as clothing; underwear; wrist bands as clothing; overalls; ties as clothing; robes; skirts; dresses; jumpers; climbing boots; sweat bands for the wrist; swimwear; bikinis; swim suits; swim shorts; sportswear, namely, shorts, sweat pants, sweat shirts and t-shirts; casual wear, namely, shirts, shorts and jeans; beachwear; protective suits, namely, sun protective wetsuits, abrasion protective wetsuits and impact protective wetsuits, for surfing, windsurfing and water skiing and for other water sports; rash guards; ski wear; snow boarding trousers, jackets and suits; wet suits; wetsuit vests, wetsuit trousers and shorts; money belts

International Classes 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

GOODS AND SERVICES INFORMATION

For Electronic payment services; on-line banking services; financial transaction services, namely, providing secure payment options; electronic processing and transmission of payment data for users of computer and communication networks

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For Vocational retraining, namely, providing online interactive courses, seminars, classes, lectures, and peer to peer instruction in the field of general interest as it relates to health, fitness, nutrition, language, computers and electronics, art and music, cooking, education and careers, do-it-yourself, home improvement, fashion and beauty, and home and garden

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Provision of commercial information via a global company network, in the nature of an electronic commercial business registry; organizing of trade and business contacts by maintaining an electronic commercial business registry; business networking services; advertising, marketing and promotion services for professionals in the nature of an electronic commercial business registry; providing information relating to employment vacancies, business and professional questions and answers via an on-line database; compilation and systematization of information held in computer databases; job placement services, human resources consulting services; promotion of the goods and services of others via computer and communication networks; presentation of products and services by electronic means for others, facilitating the exchange and sale of such products and services; on-line professional networking services

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Computer software, namely, prerecorded or downloadable software for transmitting, recording, reproducing, displaying, organizing, managing, handling and reviewing messages, texts, images, files, audio, video and audio-visual content and other data for facilitating communications between two or more users via computer networks, communications networks and the global computer network; prerecorded or downloadable application software for social networking services via the Internet; software development tools; prerecorded or downloadable communication software for connecting computer network users

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For On-line social networking and meeting services; on-line social networking services enabling registered users to share information, photos, audio and video content; social networking services based on the Internet enabling users to communicate and share, store, transmit, view and download text, images, audio and video content and other multimedia material; video dating services on-line social networking

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Videoconferencing services; communication services, namely, transmission and reception of texts, images, files, audio, video and audio-visual content and other data for the facilitation of communications between two or more users by means of computer networks, communication networks and the global computer network; text and instant messaging services; audio and video teleconferencing; provision of communication services including voice call services, voice messaging, transfer of calls, video calls, video conferencing, short messages (SMS), instant messaging, screen sharing, transfer of digital files between users and indicating the presence of users, all the aforesaid communication services accessible to users via a software application graphical user interface and all provided via the Internet or a peer-to-peer computer network

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

GOODS AND SERVICES INFORMATION

For Advertising analysis services, namely, analysis of the public awareness of advertising; preparing audio-visual displays for use in advertising; business promotion services through audio-visual displays; outdoor advertising; corporate identity services; advisory services relating to corporate identity; consulting services in the field of Internet marketing; clerical services; arranging of shop window displays for advertising purposes; preparation and presentation of audio visual displays for advertising purposes; preparing and placing outdoor advertisements for others; business management for a trade company of others and for a service company of others; business administration and management; Internet marketing; organisation and conducting of fairs and exhibitions for commercial, business and advertising purposes; organisation of events, fairs, exhibitions and shows for commercial, sales and advertising purposes; preparation and presentation of audio visual displays for advertising purposes; business administration; business assistance relating to corporate identity; promotional marketing services using audiovisual media; sales promotion using audiovisual media; rental of advertising time on communication media; business intermediary services relating to the rental of advertising time and space; graphic advertising services; promoting public awareness of the benefits of shopping locally via advertising; electronic billboard advertising; advertising, promotional and public relations services; provision of advertising space; public relations services

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Audiovisual apparatus, namely, audio and video receivers; cloud servers; downloadable computer operating software for use in implementing the Internet of things [IoT]; computer hardware modules for use in electronic devices using the Internet of things [loT]; downloadable computer software for the control of lighting, namely, downloadable lighting control software for use in commercial and industrial facilities; digital signage display panels; digital video projectors; electronic notice boards;

remote controls for audiovisual equipment, namely, flat panel displays, video projectors and audio equipment; flat panel displays, namely, flat panel displays for computers, video projectors and associated audio equipment; downloadable software applications, namely, downloadable computer game software for use on mobile and cellular phones; downloadable electronic publications in the nature of digital audiovisual media, namely, interactive games, questionnaires, magazines, catalogues, directories and forms in the field of brand or product presentation and advertising; interactive touch screen and gesture-based interactive computer terminals; downloadable interactive computer software, namely, downloadable interactive game, questionnaire, magazine, catalogue, directory and forms software; interactive computer systems comprised of computer hardware and downloadable software for use in operating such hardware; computer hardware and downloadable software sold as a unit providing interactive multimedia control; downloadable interactive multimedia computer game programs; wireless controllers to remotely monitor and control the functioning and status of other electrical, electronic, and mechanical devices; light emitting diode displays; downloadable middleware for management of software functions on electronic devices; multimedia terminals, namely, computer terminals; downloadable software for use in mobile device management; monitoring software, namely, downloadable software for monitoring and controlling communication between computers and automated machine systems; downloadable software for processing digital images, graphics and text; downloadable computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; computer hardware and downloadable software for reproduction of visual media on any surface and object; computer hardware and downloadable software for synchronous reproducing of visual media and audio material via any media or output device

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Audiovisual communication services, namely, providing telecommunication connectivity services for transfer of images, messages, audio, visual, audiovisual and multimedia works; audiovisual transmission services, namely, transmission of information in the audiovisual field; audio and video broadcasting via the Internet and other communications networks; providing Internet access, namely, providing access to platforms on the Internet; transmission of vision via interactive multimedia networks; Internet service provider services; digital transmission of data via the Internet; electrical data transmission over a global remote data processing network, and the Internet; streaming of video material on the Internet; electronic transmission of sound via interactive multimedia networks; electronic transmission and distribution of data or audiovisual images via a global computer network or the Internet; electronic transmission of messages, data and audio content via the Internet and other communications networks; electronic transmission of videos, movies, pictures, images, text, photos, games, user-generated content, audio content, and information via the Internet; electronic transferring and disseminating information and data via computer networks and the Internet; electronic transmission of user-generated content via the Internet; electronic transmission of data by audio-visual apparatus; electronic transferring information and data via computer networks and the Internet; electronic transmission of multimedia content via the Internet; delivery of messages by audiovisual media, namely electronic transmission of messages

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Updating of computer software for embedded devices; commissioned writing of computer programs, software and computer code for the creation of web pages on the Internet; consultancy relating to the creation of homepages and Internet pages; consulting in the field of cloud computing networks and applications; providing temporary use of on-line non-downloadable operating software for accessing and using a cloud computing network; providing temporary use of web-based non-downloadable software to manage the display of content and control the distribution of such content and the audio-visual devices to which it is distributed; providing virtual computer systems through cloud computing; consulting services in the field of cloud computing; cloud computing services for creating and deploying of content for playback devices and central management of such devices; cloud computing services for creation and distribution of digital audio-visual content; computer aided graphic design; computer programming for the Internet; design of graphics and of livery for corporate identity; design of software for embedded devices; graphic art work design; design of web pages; development an Internet computer platforms for electronic commerce; software development; development of software for multimedia data storing and recalling; development of software for processing and distribution of multimedia contents; software development, programming and implementation; design and development of operating software for accessing and using a cloud computing network; design and creation of homepages and Internet pages of others; design of audio-visual creative works; providing temporary use of on-line non-downloadable software for the database management of information stored on computers; graphic design services, namely, design of logos for corporate identity; graphic design for the compilation of web pages on the Internet; graphic design; hosting of digital content on the Internet; software as a service (SaaS) namely, hosting software for use by others for use in managing the display of content and controlling the distribution of such content and the audio-visual devices to which it is distributed; rental of computer software; industrial and graphic art design; design of software for digital signal processing; maintenance of computer software used in the field of e-commerce; programming of computer operating software for accessing and using a cloud computing network; programming of computer software for market research purposes; programming of computer software for e-commerce platforms; programming of computer software for Internet platforms; software as a service [SaaS] services, namely, hosting software for use by others for use in managing the display of content and controlling the distribution of such content and the audio-visual devices to which it is distributed; technical services for the downloading of software, namely, installation of computer software; rental of computer operating software for accessing and using a cloud computing network; rental of computer software; development, maintenance, testing and updating of computer software for use in website development and database management of computer databases

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Downloadable computer e-commerce software to allow users to perform electronic business transactions via a global computer network; downloadable computer programs for use in database management and for managing and verifying blockchain transactions; computer software, recorded for use in database management and for managing and verifying blockchain transactions; data networks, namely, LAN (local area network) hardware for collection and management of data; computer programs stored in digital form, namely, recorded computer programs for use in database management and for managing and verifying blockchain transactions; network controlling apparatus, namely, computer network switches; recorded software for managing database content; recorded computer software for audibly controlling a computer and the operation thereof; recorded cryptography software; mathematical instruments, namely, calculators; assistive software, namely, downloadable computer software that assists computers in deploying parallel applications and performing parallel computations; computer software for business purposes, namely, recorded computer software that provides real-time, integrated business management intelligence by combining information from various databases and presenting it in an easy-to-understand user interface; electronic access control systems for interlocking doors; recorded computer programs for accessing, browsing and searching online databases; downloadable embedded computer operating software; application software for mobile devices, namely, downloadable mobile applications for managing and verifying blockchain transactions; recorded

computer software to enable the searching of data; downloadable computer privacy protection software; recorded computer e-commerce software to allow users to perform electronic business transactions via a global computer network; recorded business technology software, namely, downloadable software for identifying malicious behaviour patterns; communications processing computer software, recorded; high-frequency apparatus, namely, high frequency switches; optical data media, namely, blank optical data carriers; recorded computer programs for searching the contents of computers and computer networks by remote control; recorded software for controlling the operation of fax machines; mobile data communications apparatus, namely, mobile data receivers; maintenance software, namely, downloadable computer software to maintain and repair computer systems; downloadable antispyware software; downloadable application software for providing social networking services via the internet; downloadable computer software for the management of information; computer application software for mobile telephones, namely, downloadable mobile applications for use in database management and for managing and verifying blockchain transactions; computer operating programs, recorded; computer network hubs; personal digital assistants (PDAs); cloud network servers; downloadable application software for use in database management and for managing and verifying blockchain transactions; recorded computer utility programs for file management; downloadable computer software for remote monitoring and analysis of blockchain transactions; recorded computer programs for use in electronic storage of data; recorded computer software for use in providing multiple user access to a global computer information network; recorded computer software for the monitoring of computer systems; network communication equipment, namely, computer networking hardware; interfaces for computers; downloadable computer security software; recorded computer programs for accessing and using the internet; computer programs, recorded for use in database management and for managing and verifying blockchain transactions; user identification authentication software, recorded; application software for mobile phones, namely, downloadable mobile applications for managing and verifying blockchain transactions; computer software applications, downloadable for managing and verifying blockchain transactions; downloadable application software for cloud computing services, namely, software for managing virtual machines on a cloud computing platform; security risk detection software, recorded; recorded computer programmes for data processing; computer operating system software, recorded; computer programmes relating to financial matters, namely, recorded computer programs for processing financial data; data processing computer programs, recorded; downloadable computer utility programs for performing computer maintenance; operational risk management software, recorded; recorded computer software for the remote control of security apparatus using artificial intelligence and deep learning networks; recorded computer software for encryption; downloadable computer software development tools; security software, namely, downloadable software for ensuring the security of blockchain transactions; downloadable computer application software for streaming audio-visual media content via the internet; downloadable computer communication software to allow customers to access bank account information and transact bank business; electronic publications, downloadable in the nature of books, magazines, and journals in the field of finance, business and science; downloadable software for detecting unauthorized access or data breach in computer networks; distribution boards, namely, electrical circuit boards; downloadable computer application software for use in implementing networked HVAC systems in the internet of things (IoT); data mining software, recorded; downloadable computer software for application and database integration; downloadable computer software for the detection of threats to computer networks; downloadable computer software for use in personalizing the content of e-mail communications; security token hardware; downloadable computer programs for providing access to the internet and the worldwide web; downloadable computer antivirus software; downloadable software for protecting user identity on the internet; downloadable computer software for authorising access to data bases; downloadable computer software adapted for use in the operation of computers

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Monitoring of computer systems to detect breakdowns; computer firewall security services, namely, restricting unauthorized network access by users without credentials; internet security consultancy; provision of security services for computer networks, computer access and computerised transactions, namely, restricting access to and by computer networks to and of undesired web sites, media and individuals and facilities; computer virus protection services; testing of electronic data processing systems; computer security consultancy; computer services, namely, interactive hosting services which allow the users to access their web contents on the Internet; encryption, decryption and authentication of information, messages and data; duplication of computer programs; maintenance of computer software; computer programming services for electronic data security; software development in the framework of software publishing; computer technology consultancy; providing information on computer technology and programming via a web site; monitoring of computer systems by remote access to ensure proper functioning; platform as a service (PaaS) featuring computer software platforms for use in database management and for managing and verifying blockchain transactions; access control as a service (ACaaS) services featuring online non-downloadable software for restricting unauthorized access to computer networks; software as a service (SaaS) services featuring software for use in database management and for managing and verifying blockchain transactions; conversion of computer programs and data, other than physical conversion; document data transfer from one computer format to another; computer data recovery services; data encryption and decoding services; data security firewall services, namely, restricting unauthorized access to hard drives and computer network hubs; conversion of data or documents from physical to electronic media; data security consultancy; cloud computing, namely, providing virtual computer systems and virtual computer environments through cloud computing; advisory and consultancy services relating to the design and development of computer hardware; design and development of electronic data security systems; computer security consultancy, namely, risk assessment of computer networks; computer software design; testing of computing equipment; monitoring of computer network systems for detecting unauthorized access or data breach; computer programming; electronic monitoring of personally identifying information to detect identity theft via the internet; computer security services for protection against illegal network access, namely, administering digital certificates; installation of computer software; reconstruction of database systems for others; computer system monitoring services for detecting unauthorized access or data breach; quality control for others relating to computer software; updating of computer software; computer security services in the nature of administering digital certificates; electronic monitoring of credit card activity to detect fraud via the internet; electronic data storage; information technology services, namely, creating and designing website-based indexes of information for others using information technology; information technology (IT) consultancy; authentication of digital certificates for computer security; computer system design; monitoring of computer systems for security purposes, namely, for detecting unauthorized access or data breach; computer security threat analysis for protecting data; data encryption services; computer aided diagnostic testing services in the field of security systems; development of new technologies for others for the protection of electronic networks; computer aided testing services in the field of security systems; website usability testing services; computer security system monitoring services for detecting unauthorized access or data breach; quality control for others relating to computer systems; monitoring of computer systems for detecting unauthorized access or data breach; debugging computer software for others; computer system analysis; hosting of access control as a service (ACaaS) servers and software of others

GOODS AND SERVICES INFORMATION

For Electronic transfer of funds; electronic cash payment services, namely, processing electronic payments made through prepaid cards, payment processing services through credit cards and debit cards; automated payment services, namely, electronic payment services involving electronic processing and subsequent transmission of bill payment data; electronic banking transactions via a global computer network, namely, online banking; electronic transfer of funds via telecommunication networks; payment services provided via wireless telecommunication apparatus and devices, namely, bill payment services

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For Organization of competitions for education or entertainment, namely, sports competitions, electronic game competitions, computer game contests, online game contests, hacking challenges; electronic publication of books and journals online; organization and distribution of prizes, awards, namely, providing recognition and incentives by the way of awards to demonstrate excellence in the field of data storage, in the field of digital networks and cloud computing, concerning the use of open source technology in cloud computing and in the field of information technology in the fields of computer engineering, computer contests, online game contests, hacking challenges, and artificial intelligence; organization and conducting of training workshops, colloquiums, conferences, forums, congresses, seminars and symposiums in the field of data storage, in the field of digital networks and cloud computing, concerning the use of open source technology in cloud computing and in the field of information technology, in the field of computer engineering, exhibitions for educational purposes, and organizing events in the field of film, architecture, in the field of data storage, in the field of digital networks and cloud computing, concerning the use of open source technology in cloud computing and in the field of information technology, in the field of

computer engineering, in the field of artificial intelligence, for cultural or educational purposes events; Organization and conducting of training courses and workshops in the field of sustainable development, in the field of information technology to minimize the negative impact on the environment by designing, manufacturing, operating and disposing of computers and computer-related products in an environmentally-friendly manner, and in the field of computer software for energy management and monitoring

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Dissemination of advertisements; systematization of data in a central computer database file; online advertising on a computer network; organization of exhibitions for commercial or advertising purposes, public relations, distribution of advertisements and advertising material, namely, leaflets, prospectuses, printed matter, samples; distribution of advertising, promotional and marketing material; Organization and conducting marketing promotional events for others; Organization and management of commercial incentive and loyalty programs to promote the sale of cloud computing and cloud storage services; organization and conducting of trade fairs for commercial or advertising purposes

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Computer central processing units; electric and electronic apparatus and instruments, all for processing, recording, storage, transmission, retrieval or reception of data, namely, data processors, data processing apparatus, electronic data recorders, computer memories and apparatus for recording, transmission, processing and reproduction of data; apparatus and instruments for recording, transmitting, amplifying or reproducing sound, images, information or encoded data, namely, apparatus for recording, transmission, processing and reproduction of sound, images or recorded data; communication servers; computer servers; operating hardware for VPN (virtual private networks); operating hardware for WAN (wide area network); operating hardware for LAN (local area network); computer hardware; hardware for computer networks, namely, computer hardware for computer networks, computer networking hardware, network access server hardware, mounting racks for computer network equipment, mounting racks for computer servers, mounting racks for computer hardware, computer cables, computer network adapters, network access server hardware, computer network bridges, computer network hubs, computer network switches, computer network interface devices and computer network adapters, switches, routers and hubs; computer hardware for the provision of secure remote access to computer and communication networks; Ethernet hardware, namely, transceivers, repeaters, controllers, switches, adapters, cables; computers; computer peripheral devices; electronic circuits containing programmed data; apparatus for the input, storage, conversion and processing of telecommunication signals, namely, digital signal processors, telecommunication exchangers, telecommunication transmitters; telephone equipment, namely, caller identification boxes; equipment for fixed portable, mobile, hands-free or voice-activated telephones, namely, mobile phone straps, cell phone auxiliary cables, cell phone cases, wireless cellular phone headsets, cell phone covers, cell phone battery chargers, cell phone backplates, cell phone faceplates, cell phone straps, phone extension leads, head-clip cell phone holders, lenses for cellular phone cameras, mobile phone cases featuring rechargeable batteries, voice over internet protocol (VOIP) phone adapter, cell phone battery chargers for use in vehicles, wireless headsets for smartphones, keyboards for mobile phones, cases for mobile phones and hands-free kits for phones; multimedia computer terminals; interactive touch screen terminals for presentation and ordering of goods and services; messaging apparatus and instruments, namely, electronic text-messaging device for use in conjunction with personal digital assistants; telephones, mobile telephones and telephone

handsets; terminals for connection to a telephone network; computer programs for monitoring and maintenance of DC generators; computer programs for data security; computer programs for data encryption; computer programs for data management; computer programs for applying artificial intelligence; computer operating programs for operating virtual private networks; computer operating programs; operating systems programs; mobile operating system programs; network access server operating software; computer software for controlling and managing access server applications; computer programs for web hosting; software, namely, software for sending electronic messages via cell phones, messages via cell phones, downloadable computer software programs for data storage, downloadable computer software for use in management of client accounts, for sending and reception of fax by e-mail, and for data storage, downloadable computer software programs for use in data storage, downloadable computer software programs for use in database management; computer software for operating virtual private networks (VPNs); operating software for WAN (wide area network); LAN operating software (local area network); USB (universal serial bus) operating software; software provided over the Internet, namely, downloadable software for sending electronic messages via cell phones; software for synchronizing data between computers, processors, recorders, electronic devices and monitors and host computers; downloadable software for cloud computing, namely, software for deploying virtual machines to a cloud computing platform, managing virtual machines on a cloud computing platform; recorded network operating system programs; downloadable computer operating system programs; computer hardware for the provision of secure remote access to computer and communication networks; downloadable electronic publications, namely, magazines and books featuring news about information technology, in the field of data storage, in the field of computer engineering and IT services

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Transmission, broadcasting and reception of sounds, data, images, music and information, namely, electronic data transmission, electronic transmission of voice, data and images by television and video broadcasting; electronic messaging; on-line information services relating to telecommunications; computer data exchange services, namely, electronic exchange of data stored in in databases accessible via telecommunication networks; transfer of data by telecommunication; transmission of digital files; satellite communication services; providing telecommunication connections for telephone lines and call centers; telephone communication services provided for telephone lines and call centers; internet access provider services; providing telecommunication connections on the internet or databases; telecommunication access services; computer-aided transmission of messages and images; rental of access time to global computer networks; communications by computer terminals; communications by fiber-optic networks; provision of access to a global computer network; rental of telecommunication apparatus; telephone communication services; telephone services

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Physical storage of electronically-stored data or documents; freight forwarding services; courier services

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Research, design and development of computers, computer programs for monitoring and maintenance of DC generators, computer programs for data security, computer programs for data encryption, computer programs for data management, computer programs for applying artificial intelligence, computer programs for virtual private networks, computer operating programs, operating systems programs, mobile operating system programs, network access server operating software, computer software for controlling and managing access server applications, computer programs for web hosting, computer systems, computer software applications design and development of operating software for computer networks and servers; design and development of operating software for cloud computer networks; cloud computing services, namely, consulting services in the field of cloud computing, cloud computing featuring software for use in database management, for use as a spreadsheet, for word processing; cloud computing featuring software for use in software server management, rental of cloud computing infrastructures; design of computer hardware; design of computer firmware; maintenance, updating, and design of computer software and computer programs for monitoring and maintenance of DC generators, computer programs for data security, computer programs for data encryption, computer programs for data management, computer programs for applying artificial intelligence, computer programs for virtual private networks, computer operating programs, operating systems programs, mobile operating system programs, network access server operating software, computer software for controlling and managing access server applications, and computer programs for web hosting; technical advice services in the field of information technology and telecommunications, namely, providing technical advice relating to operation of computers and computers used in telecommunications; technical advice relating to networks and cloud computing services; technical advice for the application and use of software; design and development of computer systems and telecommunication systems and equipment; computer project management services; operational support services relating to computer networks, telecommunication networks and data transmission networks, namely, 24/7 service desk or help desk services for IT infrastructure, operating systems and database systems, providing technical administration and installation of cloud computing networks and dedicated network servers, and providing remote data back-up services; online computer services, namely, hosting and maintaining an on-line web site for others for providing search engines for the internet, hosting computer websites; rental of computers and software; elaboration and maintenance of web sites for third parties; web site hosting services; hosting websites and internet sites for others featuring databases and internet blogs; server hosting; server hosting of software platforms for businesses; providing a web hosting platform for businesses; hosting memory space on the internet, namely, cloud hosting provider services; hosting and rental of server memory spaces for web pages; hosting of e-commerce websites for others on the internet; hosting of multimedia and interactive applications, namely, application service provider (ASP), namely, hosting multimedia and interactive computer software applications of others; installation and maintenance of software; providing temporary use of online non-downloadable computer software applications and software tools and non-downloadable online software for the operation of computer networks and servers; rental of operating software for the use of and access to a cloud computing network; rental of operating software for computer networks and servers; rental of web servers; provision of temporary use of non-downloadable online operating software to access and use a cloud network; providing temporary use of online non-downloadable software for internet security for administering digital certificates; rental of memory space on servers for hosting electronic bulletin boards; compilation, creation and maintenance of a register of domain names, namely, conducting online computerized searches for the availability of domain names; creation, operation and maintenance for others of web sites, web pages, and internet website portals in the fields of technology and software development for logging texts, images and music provided via computers or mobile telephones; computer security services for

protection against illegal network access, namely, restricting unauthorized network access by the media, and other users without credentials; computer project management relating to information technology; configuration of computer networks through software; computer systems integration services; computer project management in the field of electronic data processing (EDP); conversion of computer programs and data, other than physical conversion; provision of internet search engines; duplication of computer programs for monitoring and maintenance of DC generators, computer programs for data security, computer programs for data encryption, computer programs for data management, computer programs for applying artificial intelligence, computer programs for virtual private networks, computer operating programs, operating systems programs, mobile operating system programs, network access server operating software, computer software for controlling and managing access server applications, and computer programs for web hosting; research and development of new products for others; design, installation, updating and maintenance of computer software

GOODS AND SERVICES INFORMATION

For Business administration of consumer loyalty programs; administrative processing of purchase orders; advertisement via mobile phone networks; advertising; advertising services, sponsorship, in the nature of promotion and marketing services, of competition and events for computer games and business management of persons who participate in competitions and events for computer games; advertising services, sponsorship in the nature of promotion and marketing services, of competitions and events for computer games; advisory services relating to customer service; business information; business information management, namely, electronic reporting of business information; business analytics, namely, business information and analytics regarding the sale of products and services of others, and business information relating to the authenticating, processing and management of mobile payment; business information management, namely, electronic reporting of business analytics relating to payment processing, authentication and tracking; business management and organization consultancy; business management of reimbursement programs for others; business research; commercial information and advice for consumers; compilation of information into computer databases; customer service management; demonstration of goods and services; retail promotion services, wholesale promotion services or sales promotion services for discounted consumer goods of others; distributorship services in the field of computers, computer software, computer peripherals, mobile phones, smart phones, application software and consumer electronics; online retail store services featuring video games; drawing up of statements of accounts, namely, preparation of financial statements; electronic processing of orders for others; facilitating transactions between buyers and sellers through providing buyers with information about sellers, goods, and/or services via computer and communication networks; invoicing; invoicing services in the nature of issuing and providing receipts for

electronic payments and payment transactions; business management of payments made by credit cards, debit cards, gift cards, virtual currency, coupons, vouchers, prepaid cards, stored value cards and other forms of payment transactions for business purposes; marketing services; marketing, advertising and promotion services; on-line advertising on a computer network; online retail store services featuring general consumer merchandise; online retail store services provided via a global computer network featuring computers, computer software, computer peripherals, mobile phones, smart phones, application software and consumer electronics, and demonstration of products relating thereto; operation and supervision of sales and promotional incentive schemes to promote the sale of products and services of others; organisation, operation and supervision of sales and promotional incentive schemes to promote the sale of products and services of others; presentation of goods on communication media, for retail purposes, namely, providing online shopping services in the field of general consumer merchandise; promoting the goods and services of others via computer and communication networks; promotional marketing; provision of an on-line marketplace via a website for the exchanging of goods and services; provision of an on-line virtual marketplace featuring general consumer merchandise; providing business directory information via an electronic cloud-based database; provision of market research information; ; retail store services featuring gaming products, software, peripherals, and accessories; retail store services featuring computer, electronic and entertainment products, telecommunications apparatus, mobile phones, handheld mobile digital electronic devices, and other consumer electronics, computer software, and accessories, peripherals, and carrying cases for such products, provided via the Internet and other computer, electronic and communications networks; retail store services featuring computers, computer software, computer peripherals, mobile phones, smart phones, application software and consumer electronics, and demonstration of products relating thereto; sales promotion by issuing redeemable coupons, for others; sales promotion through business administration of customer loyalty programs; search engine optimization for sales promotion; the bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods in the field of general consumer merchandise from a general merchandise web site in the global communications network

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Apparatus for recording, transmission or reproduction of data, sound or images; cellular mobile telephones; digital telephones; handheld mobile digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text, data, image, audio, and audiovisual files, for the sending and receiving of telephone calls, electronic mail, and other digital data, for use as a digital format audio player, handheld computer, personal digital assistant, electronic organizer, electronic notepad, camera, and global positioning system (GPS) electronic navigation device; Internet phones; mobile telephone sets; mobile phones; mobile phones for use in vehicles; mobile telephones; mobile telecommunications apparatus, namely, wireless transmitters and receivers; multifunctional telephones; phone appliances, namely, telephone recorders, telephone apparatus, and telephone call routers; portable telephones; smartphones; smartphones in the shape of a watch; telephone apparatus; telephones; video telephones; all of the aforementioned goods primarily marketed for gaming use and/or for gamers; all of the aforementioned goods excluding televisions and future versions or iterations of televisions; application software for uploading, downloading, storing, backing up, recording, organizing, transmitting, receiving, accessing, retrieving, managing, synchronizing and reviewing text, data, email, documents, images, video and audio files, multimedia content, electronic location of mobile digital devices; armbands specially adapted for personal electronic devices, namely, mobile phones, tablets and personal media players; audio equipment and apparatus, namely, stereos, speakers, amplifiers, equalizers,

crossovers and speaker housings; augmented reality and virtual reality game software; augmented reality and virtual reality software for use in enabling headsets, eyewear, computers, laptop computers, notebook computers, handheld computers, personal digital assistants, computer and video game apparatus adapted for use with television receivers or other external display screens or monitors, video game consoles and handheld video game consoles to provide virtual reality experiences; augmented reality and virtual reality hardware, namely, virtual reality headsets, virtual reality glasses, computers, laptop computers, notebook computers, handheld computers, personal digital assistants; augmented reality software for use in mobile devices for integrating electronic data with real world environments for use in industrial, manufacturing, enterprise, educational, military, or field service settings; bags, pouches, cases and covers adapted for holding mobile electronic devices in the nature of mobile phones, telephones, portable media players, cameras, GPS navigation devices, personal digital assistants; battery chargers; camera lenses; camera mounts; cameras; carriers adapted for mobile phones; cases adapted for mobile phones; cases and bags for photographic and cinematographic apparatus; cases and housings adapted for photographic equipment; accessories for photographic equipment, namely, batteries, lenses, digital photo viewers, wireless adapters, power adapters, remote controls, microphones, photographic flash units, tripods, mounting devices for photographic equipment; cases for smartphones; chargers for electric batteries; computer and video game software; computer application software for mobile phones, digital eyewear and other electronic mobile wearable devices for integrating electronic data with real world environments for use in industrial, manufacturing, enterprise, educational, military or field service setting; bags, pouches, cases, sleeves, and covers specially adapted for holding and covering computers; computer controls for lighting apparatus; computer displays, namely, flexible flat panel displays for computers, computer monitors; computer game software for use on mobile and cellular phones; computer graphics cards; computer graphics tablets in the nature of computer tablets; computer hardware; computer hardware for displaying phone calls, data, audio and video; computer hardware for recording, organizing, transmitting, manipulating, reviewing, and receiving phone calls, data, audio and video; computer hardware for telecommunications; computer joystick peripherals; computer keyboards; computer keypads; computer mice; computer mice mats; computer monitors; computer pens; computer peripheral devices; computer peripherals and input devices adapted for use with computers, including mice, keyboards, joysticks, trackballs; computer peripherals for displaying phone calls, data, audio and video; computer peripherals for mobile devices for displaying phone calls, data, audio and video; computer peripherals for mobile devices for recording, organizing, transmitting, manipulating, reviewing, and receiving phone calls, data, audio and video; computer peripherals for recording, organizing, transmitting, manipulating, reviewing, and receiving data; computer programs for personal information management; computer software for use in electronic storage of data; computer software and peripherals for recording, organizing, transmitting, manipulating, reviewing, and receiving audio and video, data, multimedia content, and phone calls; computer software development tools; computer software drivers for operating the aforesaid computer peripherals; computer software for controlling the operation of audio and video devices; computer software for enabling image recognition and/or augmented reality technology on electronic mobile devices; computer software for tracking the location of mobile digital electronic devices; computer software for use in accessing the Internet or other computer or communications networks; computer software to enable the transmission of photographs to mobile telephones; computer software used for uploading, downloading, storing, backing up, recording, organizing, transmitting, receiving, accessing, retrieving, managing, synchronizing and reviewing text, data, email, documents, images, video and audio files, multi-media content, electronic location of mobile digital electronic devices; computer sound cards; computer trackballs; computers; database synchronization software; devices for hands-free use of mobile phones; digital cameras; downloadable audio and video files featuring entertainment content, movies, ring tones for mobile phones; downloadable video games, television

programs, pod casts and audio books in the fields of news, entertainment and general interest via the Internet and wireless devices; downloadable cloud computer software for use in database management, use in electronic storage of data, use in configuration of hardware; downloadable computer software, namely, downloadable computer software for controlling LED lighting; downloadable computer software, namely, downloadable mobile applications for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; downloadable graphics for mobile phones; downloadable ring tones for mobile phones; downloadable software for boosting the speed and performance of game programs and electronic devices; downloadable software that allows subscribers to utilize voice over Internet protocol (VOIP) communication services; dustproof plugs for jacks of mobile phones; earphones; electronic and computer game programs in the field of augmented reality and virtual reality; electronic devices used to locate lost articles employing the global positioning system or cellular communication; electronic mail and messaging software; electronic organizers; electronic, scientific, photographic, cinematographic, optical and signaling apparatus and instruments for use in augmented and virtual reality projects, namely, cameras, sensors, webcams, and video cameras with built-in image sensors and facial and gesture recognition capabilities; electronically encoded identity wristbands; eyewear cases; galvanic cells; game engine software for video game development and operation; gesture recognition software; Global Positioning System (GPS) navigation device; graphics amplifiers; handheld computers; hands free devices for mobile-phones; hands free kits for phones; head-mounted display screen devices, namely, telephones, smartphones, computers, and virtual reality headsets; headphones; telephone, smartphone, computer, virtual reality, and gaming headsets; headsets for mobile telephones; high definition graphic chipsets; holders adapted for mobile phones; image data capture devices, namely, video capture cards; keyboards for mobile phones; keyboards for smart phones; laptop computers; laptops; leather cases for mobile phones; LEDs specially adapted for the illumination of computer hardware, computer peripherals, sound and audio apparatus and electronic devices, including mobile devices; light emitting diode displays; light-emitting diodes (LED); local mobile telephone installations, namely, cellular transceivers and digital signal processors; local mobile telephone systems comprised of telecommunications hardware and software, cellular transceivers, radio transceivers, transceiver base stations, base station controllers, radio transmitters, and digital signal processors; microphones; microprocessors and microcontrollers to be incorporated in necklaces; mobile application software for enabling real world views overlaid with digital images, sound, video, and information using a screen, smartphone, tablet, digital eyewear, or other mobile electronic wearable devices; mobile communication terminals; mobile data processing apparatus; mobile data communications apparatus and instruments, namely, mobile data terminals, transmitters and receivers; mobile data receivers; mobile phone cases; mobile phone covers; mobile phone straps; mobile tablets; mobile telephone batteries; mobile and handheld computers; motion detectors; motion sensors for computer and video games; computer mouse; mouse pads; noise cancelling apparatus in the nature of headphones, headsets, earphones and microphones; notebooks in the nature of laptop computers; notebook computers; computer peripherals for mobile devices; personal digital assistants; electric phone plugs; photographic and cinematographic equipment, namely, cameras, video cameras, batteries, lenses, digital photo viewers, wireless adapters, power adapters, remote controls, microphones, photographic flash units, tripods, mounting devices for photographic equipment; plug adaptors; prescription eyewear; price comparison software; programmable light-emitting diodes [LED] controlled by computer software; protective and carrying bags adapted for holding computer peripheral devices; protective films adapted for smartphones; rechargeable cellular telephone batteries; recognition apparatus incorporating scanners; software to control and improve audio equipment sound quality; speakers in the nature of audio equipment (audio equipment); spectacle parts, namely, eyewear temple decorative covers; stands adapted for mobile phones; straps for mobile

phones; sunglasses; touch sensitive electronic screens with customizable computer graphic use interfaces, graphic icons and interactive graphic screens; tripods for electronic apparatus; tablet computers; universal serial bus hardware; USB cables for cellphones; user interface software; video game computer programs for use with game apparatus not requiring a separate means of display; virtual reality software; smartwatches that communicate data to smartphones; wearable computer peripherals, namely, wireless mice; wearable mobile electronic devices, namely, headphones, headsets, earpieces, head-mounted video displays, activity trackers, smartwatches, smart glasses, digital eyewear; wearable mobile electronic devices in the nature of smart wristbands and smart jewelry featuring electronic components that enable users to connect wirelessly to other electronic devices; wearable computer peripherals in the nature of sensors, displays, controllers for mobile devices for uploading, downloading, storing, backing up, recording, organizing, transmitting, receiving, accessing, retrieving, managing, synchronizing and reviewing text, data, email, documents, images, video and audio files, multimedia content, electronic location of mobile digital electronic devices; webcams; wireless headsets for smartphones; batteries and power supplies for the aforementioned goods; computer software and computer software drivers for operating the aforementioned goods; packaged or downloaded instruction manuals in electronic format sold as a unit with the aforesaid goods; structural parts for the aforementioned goods; spare parts for the aforementioned goods, namely, batteries, housings; stands, covers, cases, and holsters, specially adapted for mobile electronic devices excluding game apparatus; power adaptors and wired and wireless remote controls specially adapted for the aforementioned goods

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Audio broadcasting, broadcasting music, concerts, and radio programs, via a global computer network, streaming of audio content via a global computer network; audio, video and multimedia broadcasting via the Internet and other communications networks; broadcasting or transmission of radio and television programs; cellular telephone communication; communication and telecommunication services, namely, telephone communication services, cellular telephone services, providing electronic message alerts via the internet, transmission of web pages, podcasts and webcasts, and transmission of digital content between computers; communication by computer, computer intercommunication, namely, communication among computer terminals; communication services for the electronic transmission of data, images and voices; peer-to-peer exchange services, namely, electronic transmission and transfer of music, video and audio recordings among users who have been matched according to particular interests or genres; communications by cellular phones; communications by computer; communications by means of mobile phones; computer aided transmission of messages, data and images; computer intercommunication; delivery of digital images via wireless communication networks and the internet; delivery of digital music by telecommunications; delivery of digital music, video and other multimedia works by telecommunications; delivery of messages by electronic transmission; electronic bulletin board services; consultancy in the field of electronic communications; electronic mail and messaging services, namely, electronic transmission of e-mail; electronic transmission of mail; electronic transmission of audio and video files via communications networks; electronic transmission of data and documentation via the Internet or other databases; electronic transmission of data between computers and servers; electronic transmission of data via communications networks; electronic transmission of streamed and downloadable audio and video files via computer and other communications networks; facsimile transmission and retrieval services; electronic transmission of messages; information about telecommunication; Internet cafe services being the provision of telecommunications access to the Internet; mobile telephone communication; mobile telephone communication services; mobile telephone services; news agency services for

electronic transmission; one-way and two-way paging services; telecommunications services, namely, providing access to search engines; providing access to digital music web sites on the Internet; providing access to web sites on the Internet; providing communications services, namely, voice over Internet protocol (VOIP) peer-to-peer communications, electronic transmission of data and documents over computer terminals, and instant messaging services; providing of user access to the Internet; providing online bulletin boards for the transmission of messages among computer users concerning computer gaming and entertainment; telecommunications services, namely, providing access to search engines for obtaining data on a global computer network; providing telecommunication access to databases and directories via communications networks for obtaining data in the fields of computer gaming and entertainment; providing telecommunication access to digital music and mp3 web sites on the Internet; providing telecommunication access to web sites on the Internet; providing telecommunications access to websites and electronic news services online allowing the download of information and data; providing telecommunications connections to the Internet or databases; providing temporary Internet access to allow use of online non-downloadable software that enables users to program audio, video, text and other multimedia content; Internet service provider services, namely, providing user access to the Internet; providing users with telecommunication access time to electronic communications networks with means of identifying, locating, grouping, distributing, and managing data and links to third-party computer servers, computer processors and computer users; providing wireless telecommunications via electronic communications networks; provision of connectivity services and access to electronic communications networks, for transmission or reception of audio, video or multimedia content; provision of telecommunication access to websites featuring multimedia materials; provision of temporary telecommunications access services; provision of online communication links which transfer users to computer databases and the Internet; provision of telecommunications connections to computer databases and the Internet; provision of telecommunications connections to electronic communication networks; provision of telecommunications connections to the Internet or computer databases; rental and hire of communication apparatus and electronic mailboxes; rental of access time to the Internet to use online non-downloadable software to enable users to program audio, video, text and other multimedia content; streaming of video content via a global computer network; streaming of video content, streaming and subscription audio broadcasting of spoken word, music, concerts, and radio programs; broadcasting prerecorded videos featuring music and entertainment, television programs, motion pictures, news, sports, games, cultural events, computer gaming and entertainment-related programs of all kinds, via computer and other communications networks; subscription audio broadcasting via a global computer network; telecommunication access services; telecommunication of information (including web pages), computer programs and any other data; telephone communication services; telecommunications consultation; telegraph and telegram transmission services; mobile and video telephone services; transmission of electronic text messages via a telephone network; provision of telecommunication access services for communication apparatus used in timesharing; transmission of data and news by electronic means; transmission of data and of information by electronic means, computer, cable, radio, teleprinter, telephone, mobile phone, electronic mail, telecopier, television, microwave, laser beam, communications satellite or electronic communication means; electronic transmission of data by audiovisual apparatus controlled by data processing apparatus or computers; transmission of data by audio-visual apparatus controlled by data processing apparatus or computers; transmission of digital files; video broadcasting, broadcasting prerecorded videos featuring music and entertainment, television programs, motion pictures, news, sports, games, cultural events, computer gaming and entertainment-related programs of all kinds, via a global computer network; providing of online virtual chatrooms established via text and audio messaging; web casting services; webcasting services, namely, broadcasting via the Internet; wireless broadcasting; wireless digital messaging, paging services, and transmission of electronic mail and

messages, including services that enable a user to send and/or receive messages through a wireless data network; wireless telephone services; information, advisory and consultancy services relating to all the aforesaid

Mark Literal(s) THE GREEK PANTRY

CASE IDENTIFIERS

Serial Number 79260452 **Application Filing Date** Feb. 06, 2019 **Registration Number** 6082309 **Registration Date** Jun. 23, 2020 **Register** Principal **Mark Type** Trademark **Publication Date** Apr. 07, 2020

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the white wording "THE GREEK PANTRY" within a dark blue rectangle. The letter "THE" is turned vertically, spanning the letter "G" in "GREEK". The dark blue rectangle is in the bottom third of a dark blue square with a dark blue border, with white and yellow half-circles with swirls and stylized designs outside of the rectangle but within the square. The square is centered in the top third of the mark as a whole against three overlapping larger light gray half circle with swirls and stylized designs. At the bottom of the mark is a long rectangle, with the top portion in light gray, the middle portion in dark green, and the bottom portion in orange. Within the rectangle are overlapping circles and parts of circles with swirls and stylized designs. The white background is not claimed as a feature of the mark. The colors white, dark blue, light grey, yellow, light green, and orange are claimed as a feature of the mark. **Color Drawing** Yes **Color Claimed** The color(s) white, dark blue, light blue, light grey, yellow, light green and orange is/are claimed as a feature of the mark. **Disclaimer** "GREEK"

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Advertising services; retail services, namely, retail stores featuring industrial machines and machine tools, computers, electrical power equipment, lighting fixtures, air conditioning, heating and ventilation equipment, land vehicles, motors, and engines; and on-line retail services, namely, online retail stores featuring industrial machines and machine tools, computers, electrical power equipment, lighting fixtures, air conditioning, heating and ventilation equipment, land vehicles, motors, and engines

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Building construction and repair services; construction consultancy; construction of gas treatment plants, plants for the processing of petroleum, and oil pumping stations; operation of installations for offshore oil and gas namely, oil and gas extraction; installation services and consulting about installation in the fields of electrical systems, solar energy based power plants, heating, ventilation and air-conditioning systems; installation of computer networks and computer hardware systems; installation of electrical installation, home automation control systems, building automation systems, power stations, oil and gas installations, machines and machine tools, heating, ventilation and air-conditioning and computer hardware installations; installation of gas treatment plants, petrol processing plants, oil pumping stations; operation of installations for offshore oil and gas, namely, oil and gas extraction; maintenance, overhaul and repair of machines and machine tools for industrial installations; installation, maintenance and repair of computer hardware and office machines ;maintenance of computer hardware, particularly computers and computer network installations; installation, maintenance, and repair of electric noise suppression machines; pipeline construction and maintenance; underwater construction; advice regarding the installation and repair of industrial robots, machines and machine tools

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, analyzing, indicating, signaling and monitoring apparatus, instruments and devices, namely, timers for recording and measuring electricity, ammeters, voltmeters, voltage surge protectors for control and protection of electric networks, electronic controls for machines and motors and engines, electronic controllers for heating, air-conditioning, ventilation, energy, lighting, fire alarm and security access control system infrastructure management, electronic controllers for the management of heating and energy for infrastructure management control systems, lighting controls, and fire alarms; security access controllers in the form of security alarm; air-conditioning control systems comprised of digital thermostats, electronic controllers for air-conditioning, heating and regulation of air conditioners, and installations being temperature sensors for controlling, measuring and monitoring air-conditioning, air current; downloadable mobile application for the management, administration, modification and remote control of home automation devices and automation systems for buildings, heating, air-conditioning, ventilation, power, lighting, fire alarm and security access control systems and downloadable software for automation systems for buildings; building automation equipment, namely, electric actuators, electrical controllers, control circuit boards and monitoring systems, comprised of electric actuators; emergency, life-saving and teaching apparatus and instruments, namely, fire detectors, anti-theft alarms, personal security alarms and emergency warning lights; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely, apparatus and instruments for conducting, transforming, accumulating for storage, regulation and control of electricity; pre-recorded compact discs featuring information in the fields of machines and machine tools, industrial robots, power stations, energy production, energy and automation technologies, engineering, construction, environmental conservation, energy saving, energy efficiency; downloadable electronic publications in the nature of periodicals, magazines and electronic newsletters in the fields of industrial robots, machines and machine tools, power stations, energy production, engineering, construction, environmental conservation, energy saving and energy efficiency; apparatus and instruments for recording, transmission or reproduction of sounds or images; computer software, recorded, for the control of power plants, industrial plants, buildings and networks for the transport of electricity, gas and oil; computer software, recorded, and hardware for wirelessly connecting devices, electronic systems and apparatus to smart devices for remote monitoring and control; computer software, recorded, for data capture and distribution over computer networks, for enabling the communication of data between application programs, consumer devices and industrial devices; lasers not for medical use; chargers for electric storage batteries; timer switches except for clockwork mechanisms; condensers, namely, capacitors; electric collectors, namely, photovoltaic cells; electric wires, electric power transmission wire lines and cables; electric terminal boxes and electric terminal strips; accumulator boxes and electrical connection boxes; cable identification sheaths for electric lines and cable identification yarns in the form of sheaths for electric lines; cable ducts in the form of pipes for electric cables; electric inductors; magnetic data carriers, namely, blank magnetic data media; semiconductors; electric and electronic apparatus, devices and instruments, namely, solar photovoltaic panels for the distribution and supply of energy; solar panels for electricity generation and batteries; electric and electronic apparatus, devices and instruments, namely, solar photovoltaic panels for the generation, distribution and supply of energy through photovoltaic units; fuel cells; sound recording disks, namely, blank CD-ROMS; mechanisms for coin-operated apparatus; cash registers; calculating machines; data processing equipment and computers; fire extinguishing apparatus; electronic, magnetic and optical memories, namely, blank floppy disks for computers, blank magnetic discs and blank optical

discs; surge protection voltage surge regulators for data protection; electronic, magnetic and optical storage namely, blank disk drives, floppy disks being blank floppy disks, magnetic disks being blank magnetic disks, and optical disks being blank optical disks; apparatus for data protection, namely, devices to protect against circuit overload; computer peripheral devices; current inverters; current rectifiers; current converters; electricity connectors namely, connectors for electronic circuits, power connectors, electrical connector boxes, electrical junction boxes, electricity wire connectors, electric connections and connectors, and electric and electronic connectors; junction sleeves for electric cables; transistors, thyristors, electric diodes; semiconductor power elements; electrical transformers; electric resistances; distribution panels and metal cabinets specially adapted for the protection of telecommunication equipment; batteries; integrated switching circuit chips; printed circuit boards; operating system programs for computers; diagnostic apparatus for testing electrical systems, namely, electrical outlet testers, not for medical purposes; electric apparatus for remote control apparatus for the control of industrial robots; anti-interference devices, namely, filters for radio interference suppression; memories for apparatus for data processing; switching panels and consoles, namely, electric switching control panels and consoles; switches, namely, electric current switches, electric circuit switches, electrical switches; rectifiers; electric relays; modems; electric ducts; connectors for electrical transmission lines; electric measuring and regulating apparatus in the form of voltage regulators; sensors, namely, electric sensors, electric current sensors, voltage sensors and sensors for determining position, speed, acceleration and temperature; fuses and electric safety device namely, voltage surge regulators, voltage suppressor, electric lightning arrestors, circuit breakers and conductors, circuit overload protection devices and electric switching equipment; electric control panels; voltmeters; electric current switches; measuring apparatus, namely, automatic dispensers of preset portions of fluids, solid granules and powder for dosing, all other than for medical purposes; switching equipment, namely, remote circuit breaker control switch operators; electrical power distribution boards; energy distribution boards; and electric and electronic installations for remote control of automated industrial processes, namely, electronic display boards, as well as acoustic and optical warning devices in the nature of electric warning lights and bells, electric control panels, distribution consoles, and electric cables; automatic control simulators for the steering and control of vehicles; apparatus and installations for the transmission, distribution and control of electric current, namely, high voltage, medium-voltage and low-voltage power distribution installations comprised of distribution panels and blocks, and installations for transmitting high voltage direct current, namely, semiconductor power distribution panels, electrical use meters, voltage testers, electric voltage transformers, voltage regulators, electric conductors, electric reactors, electric capacitors, electric contacts, electric converters and inverters, and ground metal clamps and ground metal brushes, exclusively for coaxial cable parts and accessories, and not for non-electric cables, machines or parts of machines; electric wire and cable for electricity mains; aerial cables for heavy currents; transformers, electric power reactors and their components, namely, electrical coils for reactors; distribution transformers; power switches; electric sockets; solar cells; electronic control devices, namely, electric control circuits for machines, engines and or motors; products for facility management control systems, namely, electronic controllers for facility management control heating, air-conditioning, ventilation, energy, lighting, fire alarm and security-access systems; control apparatus, namely, computer mice; electrical control devices, namely, electric control circuits for infrastructure heating and energy management, lighting, and fire alarm control systems; security access control alarm controllers, and safety controllers in the nature of access door controls; air-conditioning control systems, consisting of digital thermostats, air-conditioning, ventilation and heating control devices; regulators, namely, control valves for controlling the flow of liquid and gas for air-conditioning, air current cooling and ventilation installations; domestic security and automation systems consisting of wireless and wired electronic controllers, controlled cameras and software, recorded, for control of lighting, audio, ventilation, air-conditioning and cooling systems, security systems, safety systems,

home appliances, and network devices, recorded software for connecting and controlling Internet of things home automation devices and recorded software for monitoring and control home and office appliances and technology equipment; downloadable mobile application for the management, administration, modification and remote control of domestic security and automation devices and for controlling and connecting the Internet of things; automation systems for buildings, comprising electronic controllers for heating, ventilation, air-conditioning, energy, lighting, fire alarm and security access and recorded operating system software for building automation systems; automation electrical actuators, electrical controllers, control circuit boards for buildings; computer software, downloadable and computer hardware for wirelessly connecting devices, electronic apparatus and systems to smart devices for remote monitoring and control; software platform, recorded on disk, for the optimization of assets, industrial automation, machine diagnosis, and the optimization of administrative processes in the fields of industry, manufacturing and infrastructure; computer software, downloadable for data capture and distribution over computer networks, enabling the communication of data between application programs, consumer devices and industrial devices; downloadable cloud software for information management, data capture and data analysis in the fields of the optimization of assets, industrial automation, machine diagnosis, and optimization of administrative procedures in the field of industry, manufacturing and infrastructure; downloadable software for information management, data capture and data analysis in the fields of asset optimization, industrial automation, machine diagnostics, and optimization of administrative procedures in the field of industry, manufacturing and infrastructure; downloadable software applications for information management, data capture and data analysis in the fields of asset optimization, industrial automation, machine diagnostics, and optimization of administrative procedures in the field of industry, manufacturing and infrastructure; sensors, namely, electric sensors, computer hardware and recorded software for entering, organizing, distributing and analyzing data and for managing, controlling, automating and networking between devices, apparatus, sensors and control systems in the fields of home automation, infrastructure and building management, power systems, power generation, industrial automation, industrial process automation, transportation and infrastructure; the Internet of things applications, namely, downloadable software for controlling connected home automation devices; monitoring and control applications, namely, downloadable software for monitoring and controlling building access alarms; remote monitoring apparatus, namely, acceleration sensors, pressure sensors, temperature sensors, humidity sensors, electrical sensors, timing sensors and optical sensors; software, downloadable, for inputting data from records generated by machines and by human beings; computer software, recorded on disc for controlling and monitoring communication between computer apparatus in automatic machine systems; software platform, recorded on disc for data capture, organization, distribution and analysis, automation, diagnosis and optimization of procedures in the fields of home automation, infrastructure and building management, power systems, power generation, industrial automation, industrial process automation, transportation and infrastructure; downloadable cloud software for recording, organizing, distribution and analysis of data analysis and for the management, control, automation and network connection between devices, apparatus, sensors and control systems in the fields of home automation, infrastructure and building management, electrical networks, power generation, industrial automation, industrial process automation, transportation and infrastructure; downloadable computer application software for recording, organizing, distribution and analysis of data and for the management, control, automation and network connection between devices, apparatus, sensors and control systems in the fields of home automation, management of infrastructure and building, power systems, power generation, industrial automation, industrial process automation, transportation and infrastructure; downloadable software for recording, organizing, distribution and analysis of data and for controlling, automation and network connection between devices, apparatus, sensors

and control systems in the fields of home automation, infrastructure and building management, electrical networks, power generation, industrial automation, industrial process automation, transportation and infrastructure; magnetic tape units for computing, namely, magnetic tape recorders and erasers

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Delivery services, namely, delivery of precision machine tools

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Scientific research; industrial research in the fields of mechanical engineering, of machines and machine tools, power stations, power generation, energy efficiency, energy saving and environmental conservation; creation of computer software for data processing; providing temporary use of on-line non-downloadable Internet-based software for providing an environment with on-line network technology that enables users to share data, in particular on the Internet and the World Wide Web; technical information, namely, providing information on computer technology in the field of use of computers, computer hardware, software, and computer networks, all provided on-line from a computer database or computer network; materials testing; industrial designer services; packaging designer services; quality control for third parties; underwater exploration; control of raw materials, namely, quality control for others; engineering consultancy relating to environmental impact and environmental compatibility; technical consulting in the field of environmental science; consulting relating to research in the field of environmental protection; computer software design, in the field of computer security; network engineers' services, namely, computer security and network security consulting; scientific and industrial research in the field of computer network technology; software updating; carrying out chemical analyses; oil prospecting; oil-well testing; analyses for oil-field exploitation; oil-field surveys; architectural services; physics research; chemical research; physics research; consultation services in the field of computer technical security; reconstitution of computer data, namely, data recovery; maintenance of computer software; computer system analysis; research and development of new products; research in the field of machine construction and engineering; technical surveys, namely, geological surveys; engineering consulting, in the field of computer security; construction drafting; engineering services and engineering consulting, namely, in the form of technical project studies and technical design; rental of software and data processing apparatus; software development; engineering services; technical project studies, namely, conducting scientific feasibility studies; monitoring, namely, remote access monitoring of computer systems to ensure the proper functioning of power networks, and machines and machine tools; measuring, namely, metering, and monitoring electricity consumption for electric power providers, and for third party operators of machines and machine tools; monitoring, diagnostic and inspection services for fault detection in production, transmission and electricity distribution systems and in machines and machine tools; computer programming; analysis of software, namely, troubleshooting of computer software problems; consultancy relating to computers, namely, cloud computing consulting; analysis and design of computer systems and networks; providing on-line, non-downloadable software to enable customers to remotely manage, administer, modify and control home security and automation devices; information technology services, namely, providing a web-based online, non-downloadable software, and a website featuring an on-line portal featuring software, all featuring technology that enables customers to remotely manage, administer, modify and control home security and automation devices; platform as a service (PAAS) offering computer software platforms for the optimization of assets, industrial automation, machine diagnosis, and the optimization of administrative processes in industry, manufacturing and

infrastructure; software as a service (SAAS) featuring software for optimizing assets, industrial automation, machine diagnosis and the optimization of administrative procedures in the field of industry, manufacturing, and infrastructure; software as a service (SAAS) featuring software for the recording, organization, distribution and analysis of data, automation, diagnostics and optimization of procedures in the fields of home automation, infrastructure and buildings management, electrical networks, power generation, industrial automation, industrial process automation, transportation and infrastructure; software as a service (SAAS) featuring software for recording, organizing, distribution and analysis of data and for the management, control, automation and network connection between devices, apparatus, sensors and control systems in the fields of home automation, infrastructure and building management, electrical networks, power generation, industrial automation, industrial process automation, transportation and infrastructure; cloud computing offering software for optimizing assets, industrial automation, machine diagnosis and the optimization of administrative processes in the field of industry, manufacturing and infrastructure; providing temporary use of on-line nondownloadable software for the optimization of assets, industrial automation, machine diagnosis, and the optimization of administrative processes in industry, manufacturing and infrastructure; technology consultancy services in the field of power plant optimization; engineering services in the field of power plant optimization; engineering and technical and technological consultancy services all in the field of alternative energy generation for owners and operators of industrial, commercial and governmental facilities; engineering services and technical and technological consultancy services in the field of the measurement and monitoring of energy to improve energy efficiency for owners and operators of industrial, commercial and governmental facilities; diagnostic services in the field of electricity generation and distribution, oil and gas equipment, control systems, machines and machine tools, computer hardware and computer software; installation and maintenance of computer software and technical consultancy relating thereto; technological consultancy, namely, information technology consulting, in the fields of electrical systems, control systems, automation systems, power plants, oil and gas equipment, machines and machine tools, and systems for heating, ventilation, air-conditioning, production and distribution of electricity and of computer hardware and computer software; provision of temporary use of on-line non-downloadable operating software for accessing and using a cloud computer network; remote monitoring of computer systems to ensure they operate properly and to detect unauthorized access or data security breaches

GOODS AND SERVICES INFORMATION

For Compilation of data in electronic computer databases; advertising services; advertising services, namely, providing a website featuring products and services ratings of others in the field of home contract services recommended by consumers; advertising services, namely, providing a website featuring products and services ratings of others in the fields of architecture, financial, remodeling, building and home construction, remodeling and repair, home repairs, real estate, car repairs and maintenance, automobile repairs and maintenance, car service, chauffeur services, chauffeur driven car hire services, car share services, sports, business, business support, office functions, events, event management, social media management, design and 3D modeling, computers, technology, computer support, computer and technology help, computer and technology help desk, information technology, psychology, psychologists, security, security guards, transportation, driver services, business, sport, sports on demand, home, beauty, cooking, baking, cuisine, food, clothing, clothing repairs, alterations, tailoring, custom tailoring, clothes making, repair and alteration services, studies, workers, law, lawyers, massage, body care, catering, travel, traveling, consulting, pet walking, pet care, dog walking, dog care, photography, babysitting, child care, translation, language translation, translation services, interpreters, construction, interior design, design, and building recommended by consumers; internet advertising services, namely, dissemination of advertising for others via the Internet; publishing of advertisements for advertising purposes via data processing installations, namely, dissemination of advertising for others via the Internet; provision of advertising space on the Internet; marketing services; maintenance of on-line databases for others, namely, updating of database content; news agency services in the field of business for advertising and sales purposes, namely, matching consumers with construction lenders, architects, designers, contractors, and material suppliers, promoting the goods and services of others by providing an internet web site featuring links to the web sites of others featuring real estate, consumer goods and consumer services; advertising and marketing services in the fields of real estate, construction, property

management, moving and relocation, home inspection, architectural, landscaping, interior design, building, contractors, home building and repair, home improvement, painting, plumbing, staging, home furnishings architecture, financial, remodeling, building and home construction, remodeling and repair, home repairs, real estate, car repairs and maintenance, automobile repairs and maintenance, car service, chauffeur services, chauffeur driven car hire services, car share services, sports, business, business support, office functions, events, event management, and social media management, design and 3D modeling, computers, technology, computer support, computer and technology help, computer and technology help desk, information technology, psychology, psychologists, security, security guards, transportation, driver services, business, sport, sports on demand, home, beauty, cooking, baking, cuisine, food, clothing, clothing repairs, alterations, tailoring, custom tailoring, clothes making, repair and alteration services, studies, workers, law, lawyers, massage, body care, catering, travel, traveling, consulting, pet walking, pet care, dog walking, dog care, photography, babysitting, child care, translation, language translation, translation services, and interpreters, organizing third-party vendors, suppliers, workers and contractors; providing an on-line consumer directory featuring online hyperlinks to the web sites of others, providing general business networking referral services in the fields of retail services, financial services, mortgage services, home equity services, insurance services, escrow services, appraisal services, legal services, title services, notary services, real estate agency services, property management services, moving services, home inspection services, architectural services, landscaping services, interior design services, building contractors, home building and repair services, home improvement services, carpentry services, engineering services, painting services, plumbing services, interior design services, staging services, home furnishings, architecture, financial, remodeling, building and home construction, remodeling and repair, home repairs, real estate, car repairs and maintenance, automobile repairs and maintenance, car service, chauffeur services, chauffeur driven car hire services, car share services, sports, business, business support, office functions, events, event management, social media management, design and 3D modeling, computers, technology, computer support, computer and technology help, computer and technology help desk, information technology, psychology, psychologists, security, security guards, transportation, driver services, business, sport, sports on demand, home, beauty, cooking, baking, cuisine, food, clothing, clothing repairs, alterations, tailoring, custom tailoring, clothes making, repair and alteration services, studies, workers, law, lawyers, massage, body care, catering, travel, traveling, consulting, pet walking, pet care, dog walking, dog care, photography, babysitting, child care, translation, language translation, translation services, and interpreters; providing an online searchable database featuring employment opportunities; market research and analysis; providing consumer product information and data on the selection of products and services of all kinds; providing consumer product information in the field of home contractor products and services featuring consumer rating information; providing consumer product information in the field of architecture, financial, remodeling, building and home constructions, remodeling and repair, home repairs, real estate, car repairs and maintenance, automobile repairs and maintenance, car service, chauffeur services, chauffeur driven car hire services, car share services, sports, business, business support, office functions, events, event management, social media management, design and 3D modeling, computers, technology, computer support, computer and technology help, computer and technology help desk, information technology, psychology, psychologists, security, security guards, transportation, driver services, business, sport, sports on demand, home, beauty, cooking, baking, cuisine, food, clothing, clothing repairs, alterations, tailoring, custom tailoring, clothes making, repair and alteration services, studies, workers, law, lawyers, massage, body care, catering, travel, traveling, consulting, pet walking, pet care, dog walking, dog care, photography, babysitting, child care, translation, language translation, translation services, and interpreters, construction, interior design, design, building products and services featuring consumer rating information, consumer referral information, consumer recommendations, and price discount information

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Electronic downloadable publications namely, books, magazines, newsletters and journals in the field of construction, interior design, design, building, architecture, financial, remodeling, building and home construction, remodeling and repair, home repairs, real estate, car repairs and maintenance, automobile repairs and maintenance, car service, chauffeur services, chauffeur driven car hire services, car share services, sports, business, business support, office functions, events, event management, social media management, design and 3D modeling, computers, technology, computer support, computer and technology help, computer and technology help desk, information technology, psychology, psychologists, security, security guards, transportation, driver services, business, sport, sports on demand, home, beauty, cooking, baking, cuisine, food, clothing, clothing repairs, alterations, tailoring, custom tailoring, clothes making, repair and alteration services, studies, workers, law, lawyers, massage, body care, catering, travel, traveling, consulting, pet walking, pet care, dog walking, dog care, photography, babysitting, child care, translation, language translation, translation services, and interpreters; electronic downloadable data files featuring information in the fields of construction, interior design, design, building, architecture, financial, remodeling, home repairs application software; downloadable and recordable computer application software for matching consumers with construction and building professionals, lenders, architects, designers, contractors, and material suppliers, for providing construction, architectural and building management services and mobile wallet services, for posting, distributing, and viewing employment opportunities; electronic databases, namely, downloadable databases in the field of construction, architect, design, home repair, building and construction professionals, supplies and materials; downloadable and recorded computer software platforms for matching consumers with construction and building professionals, lenders, architects, designers, contractors, and material suppliers, for providing construction, architectural and building management services, for finding professional, providers, workers, consumers, employers, employment, job opportunities, prices, bids, supplies, goods and information in the fields of providing architecture, financial, remodeling, building and home construction, remodeling and repair, home repairs, real estate, car repairs and maintenance, automobile repairs and maintenance, car service, chauffeur services, chauffeur driven car hire services, car share services, sports, business, business support, office functions, events, event management, social media management, design and 3D modeling, computers, technology, computer support, computer and technology help, computer and technology help desk, information technology, psychology, psychologists, security, security guards, transportation, driver services, business, sport, sports on demand, home, beauty, cooking, baking, cuisine, food, clothing, clothing repairs, alterations, tailoring, custom tailoring, clothes making, repair and alteration services, studies, workers, law, lawyers, massage, body care, catering, travel, traveling, consulting, pet walking, pet care, dog walking, dog care, photography, babysitting, child care, translation, language translation, translation, and interpreter services and mobile wallet services, for posting, distributing, and viewing employment opportunities, for enabling users to engage in direct sales marketing, price comparisons, advertising, and promotion of goods and services of others to consumers, and for allowing direct marketing employees, contractors, or representatives to generate and receive price comparisons, bids, supplies, employment opportunities and information relating thereto

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Telecommunications, including broadcasting of advertisements in all forms, namely, internet broadcasting services, wireless broadcasting; telecommunications, including broadcasting of advertisements in all forms, namely, video and programs on demand transmission services; telecommunications, including broadcasting of advertisements in all forms, namely, video and programs on demand transmission services in the sports field; telecommunications, including broadcasting of advertisements in all forms, namely, broadcasting services and provision of telecommunication access to films and television programmes provided via a video-on-demand service; Telecommunications, including broadcasting of advertisements in all forms, namely, broadcasting services and provision of telecommunication access to films and television programmes provided via a video-on-demand service in the field of sports; telecommunications, namely, providing information in the field of telecommunications; Telecommunications, namely, digital network telecommunications services in the field of sports; telecommunications, namely, digital network telecommunications services; Providing access to databases, in particular for downloading audiovisual material; telecommunications via platforms and portals on the Internet, namely, transmission of voice, audio, visual images and data via the Internet; provision of forums, namely, providing internet chat rooms for the purpose of transmitting messages between users of computers and mobile telephones; providing multiple-user access to global computer information network for the purpose of accessing search engines and hyperlinks to consulting data and information; providing multiple-user access to a global computer information network for the purpose of accessing search engines and hyperlinks to consult data and information in the field of telecommunications; rental of access time to an electronic information platform, namely, rental of access time to global computer networks for the downloading of data, sound and video recordings as well as content; providing multiple user access to an Internet-based platform for communication and the sharing of information, with said platform serving as an interface between buyers and suppliers of goods and services as well as advertisers, with the opportunity to assess the goods and services offered; streaming of audio and video content on the Internet

GOODS AND SERVICES INFORMATION

For Machines and machine tools and parts therefore, namely, hoists, concrete construction machines, dosing machines and systems in the nature of dispensing valves being machine parts, feeding stations in the nature of feed grinding machines, transport and sorting machines and systems in the nature of conveyor lines and sand sorting machines, bearing housings being machine parts, and metal parts, devices and elements for use therefore in the nature of valves being parts of machines; filling machines and systems comprised of filling machines and conveyor lines; air suction machines; devices for gas and liquid and dust extraction, namely, dust collecting machines for chemical processing; dust collecting machines for chemical processing and floor cleaning purposes; packing machines; machines and systems for transporting and dosing and recovering bulk material including shapeless, powdery, grainy, lumpy, gelatinous, pasty and particulate material, namely, conveyor lines and dust collecting machines for chemical processing; conveying machines and systems, namely, rotary blowers, machines for conveying solids, fluids, waste material; vacuum conveying machines and vacuum conveying machines for suction and removing and adding bulk material, namely, shapeless and powdery or grainy and granular and lumpy and gelatinous and pasty and particulate material; sorting machines for sorting solids, fluids, waste for industry; packaging machines; cleaning machines and systems comprised of steam cleaning machines for cleaning industrial solid, fluid and waste material; dry cleaning systems comprised of dry cleaning machines and structural parts therefor; suction devices, namely, suction pumps and nozzles for vacuum cleaners and air suction machines, industrial vacuum cleaners; machines and systems for generating and maintaining vacuum and parts of each, namely, cleaning machines for vacuums; motors other than for land vehicles; vacuum motors not for land vehicles; vacuum pumps and structural parts therefor; machine couplings and transmission components, except for land

vehicles; filters for machines in the nature of hoists, vacuum machines, weighing and dosing machines, feeding stations and machines, transport and sorting machines and systems; gas filters for machines in the nature of hoists, vacuum machines, weighing and dosing machines, feeding stations and machines, transport and sorting machines and systems; air filters for use in commercial and industrial machinery, and vacuum machines; filter cartridges being filters for machines in the nature of hoists, vacuum machines, weighing and dosing machines, feeding stations and machines, transport and sorting machines and systems; filter bags being filters for machines in the nature of hoists, vacuum machines, weighing and dosing machines, feeding stations and machines, transport and sorting machines and systems; filter modules being filters for machines in the nature of hoists, vacuum machines, weighing and dosing machines, feeding stations and machines, transport and sorting machines and systems; dust filters for machines in the nature of hoists, vacuum machines, weighing and dosing machines, feeding stations and machines, transport and sorting machines and systems; mechanical seals being motor parts for machines; pumps and structural parts for machines in the nature of hoists, vacuum machines, weighing and dosing machines, feeding stations and machines, transport and sorting machines and systems; vacuum and jet pumps for machines and structural parts therefor; vacuum filters being machine parts; vacuum seals, namely, mechanical seals being machine parts; sieves being machine parts; sieve systems comprised of sieves being machines; vibrating machines and systems for vacuum, weighing and dosing, transport and sorting industry, namely, vibrating machines for conveying solids; ultrasound generating devices and ultrasonic equipment for machines and systems, namely, electric ultrasonic cleaning units for carpet cleaning and vacuum cleaner machines; separators and valves used as structural machine components; vacuum suction cups being structural machine parts; suction fans for machine engines; pressure measuring apparatus, namely, pressure level compensators being machine parts; vacuum conveying machines and structural components and parts therefor; devices in the nature of conveying lines and vacuum conveying systems for conveying bulk material including shapeless and powdery or grainy and granular and lumpy and gelatinous and pasty and particulate material by means of a vacuum or compressed air with weighing and dosing function or with product lock; rotary feeders being conveying machines; lifting jacks, other than hand-operated, namely, lifting columns; machines for breaking up lumps in bulk solids and powders; systems for feeding inert gas and inertization of waste from machines and containers and parts therefor, namely, conveying and packaging machines; product loading stations comprised of loading and unloading machines; machines and systems for processing materials, namely, machines and systems comprised of conveying and packaging machines for processing and conveying and packaging toxic material; sieving equipment, namely, sieves being machines for shapeless, powdery, grainy, granular, lumpy, gelatinous, pasty, particulate, metal, metal-containing and toxic material; separation equipment, namely, centrifugal separators for shapeless, powdery, grainy, granular, lumpy, gelatinous, pasty, particulate, metal, metal-containing and toxic materials; machines and machine components, namely, conveying machines for transporting and feeding and recovering shapeless material, in particular, powder, granules, grain, gel, paste for generative, forming or additive manufacturing processes and devices; machines and machine components, namely, conveying machines for transporting and feeding and recovering shapeless material, in particular powder, granules, grain, gel, paste for 3D printing processes or devices; bearing housings for machines, namely, housings with inert gas supply for machines; generative or additive manufacturing devices, namely, machines for performing additive or additive manufacturing processes in the nature of 3D printers, 3D printers, 3D laser printers; sieves being machines of metal; bearing housings for machines of metal; presses of metal for material machining; vacuum switches being structural component parts of vacuum cleaners; wherein all of the foregoing goods are not related to or associated with yarn tensioning devices and other yarn processing and manufacturing devices

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Repair services relating to filling machines, suction machines, separating machines, filtering machines, weighing machines, packaging and cleaning machines, product loading stations, transport machines for filling, suction, separating, filtering, weighing, packaging and cleaning machines; maintenance and installation services relating to filling machines, suction machines, separating machines, filtering machines, weighing machines, packaging and cleaning machines, product loading stations, transport machines for filling, suction, separating, filtering, weighing, packaging and cleaning machines; repair and maintenance of conveying machines and vacuum conveying machines and systems; repair and maintenance of mechanize dosing devices; repair and maintenance of mechanizes transport devices; repair and maintenance of filling machines and systems; repair and maintenance of product loading stations; repair and maintenance of inert gas feeding devices and systems; repair and maintenance of filter machines and systems; repair and maintenance of gas extraction and liquid extraction and dust extraction and separation systems; repair and maintenance of industrial vacuum cleaners; repair and maintenance of additive manufacturing devices; repair and maintenance of 3D printers; workplace cleaning services

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Scientific, surveying, optical, photographic, cinematographic, charge-coupled device, weighing, signaling, checking and teaching apparatus and instruments, namely, cameras, electronic spirit levels, robotic prism systems comprised of prisms for scientific purposes, and scanners; measuring apparatus and instruments, namely, pressure gauges, air flow measuring apparatus, measuring rules, measuring tapes, measuring tubes, solar radiation measuring sensors, pressure measuring sensors, distance measuring sensors; electric current measuring converters, vacuum measuring instruments, resistance measuring instruments, optical measuring components in the nature of electro-optical instruments for use in the measurement of industrial components, lasers for measuring distances, speed surveying instruments for use in surveys, digital measuring apparatus in the nature of digitizers, speed measuring apparatus, gasometers, electric wire diameter measuring devices, electric current measuring devices, pressure measuring apparatus, ultrasonic fluid measuring apparatus, thermal energy measuring apparatus, temperature measuring apparatus for scientific use, monitoring and detecting apparatus for measuring electric current; electric, electronic and mechanical weighing, measuring and dosing devices and systems, namely, dispensers of preset portions of fluids, solids and powder for dosing purposes, all not for medical use; apparatus, instruments and machines for the electronic and mechanical recording and measuring of weight and size and substances and materials, namely, weighing apparatus and instruments; dosing devices and instruments, namely, dispensers of preset portions of fluids, solids and powder for dosing purposes, all not for medical use; vacuum gauges; pressure gauges; flow meters; residual and flue gas analyzers; pressure, vacuum, acceleration and temperature sensors; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; data processing equipment and computers; downloadable and recorded data processing computer software for data processing and word processing; digital electronic devices for recording, organizing, transmitting, manipulating and reviewing text, data, image and audio files; machines and systems for weighing bulk material, in particular, shapeless, powdery, grainy, granular, lumpy, gelatinous, pasty and particulate material, namely, weighing apparatus and instruments

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Transport of fluid, solid and powder material; transport of machines and machine tools; transport of goods; packaging and storage of goods

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Ropes; string; commercial nets for industrial and machinery use; awnings of textile; tarpaulins; sacks or bags for the transportation or storage of materials in bulk; storage and transport sacks for materials in bulk; storage bags for industrial use, industrial packaging containers of textile, storage containers in the nature of industrial packaging containers of textile; storage and transport equipment, namely, bags for industrial use, all-purpose nylon straps, sacks for materials in bulk, elastic bulk containers in the nature of industrial packaging containers of textile, tarpaulins for storage of materials in bulk

International Classes 22 - Primary Classes **US Classes** 1, 2, 7, 19, 22, 42, 50 **International Class Title** Cordage and Fibers

For Hand tools and implements, namely, sport knives, utility knives; cutters being wire cutters, metal sheet cutters, paperboard cutters being box cutters, and bolt cutters; hand tools in the nature of screwdrivers; gimlets; sharpening instruments being knife sharpeners and manually-operated blade sharpeners; tongs, namely, fire tongs, fireplace tongs; tool kits consisting of manually-operated hand tools in the nature of screwdrivers, pliers, hammers, wire cutters, wrenches, socket wrenches, allen wrenches, tape measure, hex keys, adjustable wrench, scissors, and wire strippers; sharpening steels; scrapers being hand tools; riveters being hand tools; perforating tools, namely, awls; scissors; vices; taps being hand tools; spanners; hand saws; crow bars; sharpening stones; sharpening discs; files; sport knives; utility knives; claw hammer; manual drills; pliers; tube cutters; hand tools for sorting, filling and packaging, namely, wire cutters, hammers, wrenches, pincers, scissors, sport knives, utility knives

International Classes 8 - Primary Classes **US Classes** 23, 28, 44 **International Class Title** Hand Tools

For Scientific and technological services, namely, scientific research and design in the field of filling, vacuum, suction, separation, filtering, packaging, conveying, sorting, weighing, dosing, inertization, 3D printing and cleaning technology; industrial measurement evaluations, analysis and research services in the field of filling, vacuum, suction, separation, filtering, packaging, conveying, sorting, weighing, dosing, inertization, 3D printing and cleaning technology; scientific consulting and design and development of equipment, machines and systems in the field of filling, vacuum, suction, separation, filtering, packaging, conveying, sorting, weighing, dosing, inertization, 3D printing and cleaning technology; design and development of computer hardware and software; engineering services in the field of vacuums; engineering services in the field of materials customization for scientific and technological applications; innovation consultancy in the field of product development, and product quality improvement; consultancy in the field of workplace automation for cleaning purposes

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Common metals and their alloys, unwrought or semi-wrought; metal building materials, namely, braces, prefabricated walls, frames, latch bars, doors, refractory blocks, panels, boards, surfacings in the nature of claddings, facade elements in the nature of façade panels, scaffoldings, linings, door fittings, frameworks, mouldings for cornices, air ducts, cladding; transportable buildings of metal; ironmongery and small items of metal hardware, namely, metal parts, devices and elements, being nuts, bolts, washers, pulleys, screws for use in hoists, in construction, in housing, in weighing and dosing systems, in feeding stations, in transport and sorting systems; pipes and tubes of metal; goods of common metal not included in other classes, namely, grids being gratings, cans, ropes, pipes, hooks, lids, boxes, building boards, ingots, containers for stock feed for use in weighing, dosing and feeding systems and for storage and transport of goods, mouldings for refractory in the nature of metal casting and cornices, pipe muffs, locks, refractory blocks, alloys of common metal, clamps, moulded plates for use in hoists, construction, housing, weighing and dosing systems, feeding stations, transport and sorting systems, crates, wire, steel rods and threaded rods, ducts and pipes of metal for ventilating and air-conditioning installations, frames for building, brackets for general use, bolts; modular constructions, namely, metal structures with flexible covers for agricultural, commercial or industrial storage; metal modular homes; prefabricated building elements made of metal, namely, platforms and flat irons in the nature of metal platforms and architectural columns, transportable constructions; modular building components, namely, braces, prefabricated walls, frames, latch bars, doors, refractory blocks, panels, boards, surfacings in the nature of claddings, facade elements in the nature of façade panels, scaffoldings, linings, door fittings, frameworks, mouldings for cornices; metal air ducts; metal cladding for building and construction; separation and inert metal gas tanks and containers for liquefied gas storage; metal pipe connectors; pipe and hose adapters and connectors of metal; storage and industrial packaging containers of metal for goods; delivery containers of metal being general purpose metal storage containers; barrels of metal; metal container closures; pre-rinse nozzles and jet nozzles of metal for commercial and industrial use; common metals in powder form; sheet metals or metals in powder form for additive manufacturing processes and for 3D printers used in manufacturing

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 2 - AN ILLUSTRATION DRAWING WITHOUT ANY WORDS(S)/ LETTER(S) **Description of the Mark** The mark consists of a stylized eye design, with the pupil of the eye being a black triangular shape and having a dangerous and slanted appearance similar to a wild cat or a monster. The iris of the eye is green with a black border, and the eyelid, brow and area around the eye are grey. The features of the design are made up of triangles in varying shades of the respective colors giving the mark a three dimensional appearance. The color white represents background and is not claimed as a feature of the mark. **Color Drawing** Yes **Color Claimed** The color(s) black, green and grey is/are claimed as a feature of the mark. **Color Location** The mark consists of a green eye where the pupil is in black triangular shape. The eye has a dangerous and slanted look that may belong to a wild cat or a monster, with gray borders. The triangles all over the figure is dividing it into shade of colors and giving the 3D look to the logo. The eye figure consists of colors green, shades of green, grey, shades of grey and black. White background is not a part of the trademark.
