To whom it may concern:

In response to the October 9, 2015 Notice by the Commerce Department on International Work Sharing, please see my comments below.

We are providing comments on whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility.

As a patent attorney located in Miami, Florida, I have a large docket of foreign applications before the Japanese and Korean Patent Offices. In my opinion, exchanging search results following concurrent searches provides examiners with a comprehensive set of art before them at commencement of examination, and therefore results in high quality examinations and first office actions on the merits.

Sincerely,

**Mark Terry**
