systems, operational excellence, quality management, risk management, railroads

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Business management; business administration services; business auditing; management of business risks; business consultancy, business management and organization consultancy; business risk management consultancy; benchmarking services for business management purposes, namely, electronic data collection for business purposes in the field of occupational health and safety; data processing services and aggregation, namely data compilation of business data for business purposes; automated data collection, processing and aggregation, namely, electronic data collection in the field of occupational health and safety and electronic data processing for business purposes; data processing services, provided online and on the Internet; business advisory services relating to data collection, processing and aggregation; business consultancy, namely, consultancy services relating to data collection, processing and aggregation; compilation and analysis of data and information relating to business management; business consultancy; business consultancy services, namely, expert evaluations related to business efficiency; business management and consultancy services; consultancy services in the field of business management and data verification in the nature of employment verification; business management consultancy services provided via the Internet; business strategy development services; business support services, namely, providing business support staff services; providing business intelligence services; business consultancy services relating to quality management; business consultancy services relating to business management for compliance with public and private standards and/or other regulations compliance services; business administration services and business management for compliance with standards and regulations; collating services, namely, collating of data in computer databases for business purposes; verification of data in computer databases, namely, computerized business data analysis; compilation of business statistics and commercial information; business information services; negotiation and conclusion of commercial transactions for third parties; providing an online commercial market place for data trading and exchange on the Internet; providing business information and data, via a global computer network; provision of an online marketplace for buyers and sellers of business information products, applications, data and services; provision of marketing, price comparison and business analysis reports and visualization reports, namely, expert evaluations and reports relating to business matters irrespective of medium or format; updating and maintenance of data in computer databases or data sets; data processing services, namely, validating and assessing in the nature of performing data analysis for business purposes to determine the relevance, quality and accuracy of data to be used as basis for decisions; data processing services, namely, services within the field of data quality evaluation, namely, statistical evaluations of business data; systemization of data and information in the nature of written communications for others for the creation, development and design of computer software and applications for collecting, processing and analysis of data in real-time, for the purpose of obtaining basis for decisions for ad-hoc and/or strategic decision processes, for analysis and direct data processing applications, in particular on a real-time basis, for readouts on a real-time basis, and for the rapid evaluation of transaction data, including big data and data relating to the internet of things, cloud-based data storage, analysis and software solutions in computer databases; business project management in the field of electronic data processing; collating of data in computer databases for business purposes; analysis of business data; compilation of information into computer databases; operational business management services for offshore meteorological research platforms; business services, namely competence development in the nature of development of tests for testing professional competency for specific positions and job requirements within the shipping industry; technical due diligence in the nature of business feasibility studies;

environmental advisory assessment services, namely business consulting services in the field of environmental risk management, namely, advising businesses and individuals on issues of environmental impact, conservation, preservation and protection, and economic analysis for business purposes

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Bridge construction; Repair and maintenance of buildings; repair and maintenance of lighting apparatus, lightning conductors, telecommunication towers, heating, ventilation and refrigerating installations and sanitary installations as well as industrial installations in the nature of ships and offshore drilling and oil installations, industrial plants, machinery and equipment and machines, namely, measuring and testing machines, plumbing, gas and water installations and gas and water supply systems; laying of land cables and pipelines; repair or maintenance of electric apparatus and installations, tools, precision instruments, transport vehicles, mechanical apparatus and devices for medical and orthopedic purposes; inspection of construction projects in the nature of buildings, offshore platforms, on-shore platforms, wind mills, ships and vessels in the course of construction; construction monitoring and providing expert advice and evaluation for constructions and fabrication projects, namely, construction supervision and consulting, and inspection services in the course of construction of buildings, offshore platforms, on-shore platforms, ships, wind mills and vessels; construction services, namely building temporary fendering structure on vessels, temporary support structure onboard vessel in the nature of grillage structures, temporary sea fastening elements in the nature of subsea bolts, stability elements for subsea pipelines and cables, leg mating units in the nature of steel structures incorporating engineered elastomeric pads capable of absorbing loads that are installed in the topside or the substructure; maintenance and repair of high voltage lines, towers and transmission lines; installation, maintenance and repair of power plants and power grids; technical support and advisory connected to turbine engineering support, namely, technical support in the nature of providing technical advice related to the repair of turbines

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking, life-saving and teaching apparatus and instruments, namely, laboratory testing apparatus, namely apparatus for testing gas, liquids and solids; monitoring devices in inspection and survey activities, namely temperature sensors, pressure sensors, oil level sensors, electricity sensors; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; calculating machines, data processing equipment, computers; downloadable computer software for testing, certification, qualification, inspection, operation, safety management of equipment, design, construction, strength assessment, qualitative and quantitative risk assessment and information management and analysis, database functions, application service provider functions, and for providing technical and business support all in process industry, chemical industry, petrochemical industry, offshore industry, maritime industry, aerospace, automotive, finance, food and beverage, healthcare, IT and Telecom, oil, gas and energy, biorisk, climate change, corporate responsibility, hospital accreditation, IT software and systems, operational excellence, quality management, risk management, railroads; downloadable software programs for data collection, monitoring and processing; data collection, monitoring and processing apparatus, namely, data transceivers, wireless networks and gateways for collection and management of data; downloadable computer software platforms for use in data management; downloadable software for the management and distribution of results and analysis of big data on an upgradeable shared grid; downloadable data

management software for accessing defined infrastructure consolidated application software; data management applications, namely, downloadable computer software for integrating, analyzing and protecting defined infrastructure consolidated application software; downloadable computer software and hardware for management of information related to an intelligent life-cycle; downloadable software and computer hardware for strategy-based intelligent planning functions for use and performance of infrastructures, applications, infrastructure systems and instruction manuals in electronic form, sold as a unit; computer hardware and downloadable software for data storage, data visualization; downloadable computer software and hardware for data management; computer hardware, namely, storage devices in the nature of external computer hard drives; data processing apparatus and computers; scanners being data processing equipment; downloadable computer software for application and database integration; downloadable computer software for creating searchable databases of information and data; downloadable mobile applications for free span analysis, metering and calibration data analytics, wall thickness selection and AC susceptibility; downloadable software for the generation of thermodynamic data; material testing instruments, namely, instruments for gas testing, surface testing and material quality testing; electric sensor apparatus, namely met masts for wireless aerials which measure wind flow; test equipment, namely low and over-voltage ride through equipment in the nature of pulse generators for testing electric current; sensor apparatus, namely turbine testing equipment in the nature of computer-controlled apparatus for testing and measuring wind speed; downloadable software for wind and tidal turbine control; digital ID/serialization products, namely, cards encoded with security features for identification and origin identification purposes

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Tracking and monitoring regulatory requirements of the quality and quantity of raw materials, commodities, supply chain, manufactured, semi-manufactured and transformed goods or services in the field of aerospace, automotive, finance, food and beverage, healthcare, information technology and telecommunications, maritime, oil, gas and energy, petrochemical, rail roads, biorisk, climate change, corporate responsibility, hospital accreditation, IT software and systems, process industry, chemical industry, offshore industry for regulatory compliance purposes; statutory and regulatory assessment in the nature of regulatory compliance consulting on conformity activities within the maritime industry on behalf of flag states and other public or international bodies; technical due diligence in the nature of conducting legal feasibility studies

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Digital data transfer, namely, transfer of data by telecommunications; transmission of digital files; communication on the Internet or via analog and digital computer terminals, namely, personal communication services; transfer services over the Internet, namely, providing multiple use access to global computer information networks for the transfer and dissemination of a wide range of information; digital transfer services for audio, video or graphical data, namely, providing telecommunication connectivity services; providing access namely, telecommunication access to platforms for the purpose of exchanging digital business intelligence data; providing access to platforms, namely, providing Internet access; providing Internet access to platforms for live interactions with customers; digital transmission of data via the internet; providing access to data in the field of process industry, chemical industry, petrochemical industry, offshore industry, maritime industry, aerospace, automotive, finance, food and beverage, healthcare, IT and Telecom, oil, gas and energy, biorisk, climate change, corporate responsibility, hospital accreditation, IT software and systems, operational excellence, quality management, risk management, railroads via the internet; telecommunication consultancy services relating to data communications; internet and digital transmission

services for audio, video, or graphical data

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Transport, namely, transport of goods, transport of energy, oil, gas, carbon, and water, supplying and distribution of heat; transport by pipeline; packaging of goods for transportation and storage of goods; distribution and storage of energy, oil, gas, carbon, and water; consultancy in the field of distribution of energy as well as consultancy relating to the storage and transportation of energy, oil, gas, carbon and water; testing and inspection and transportation; transportation advisory services related to the moving of offshore installations/objects from one location to another

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Treatment of materials, namely, production of energy and conversion of wasted energy into electricity and useful steam, processing of gas, carbon, water, oil; production of energy; consultancy in the field of production of energy as well as other services relating to the aforementioned activities, namely, consultancy in the field of treatment of materials, namely, production of energy and conversion of wasted energy into electricity and useful steam, processing of gas, carbon, water, oil; metal casting for railway crossings; gas technical advisory, namely, technical consulting in the field of gas production and processing; technical support and advisory connected to turbine engineering support, namely, technical support in the nature of providing technical advice related to the manufacture of turbines

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Scientific and technological services and research and design relating thereto, namely, research and design in the field of aerospace, automotive, food and beverage, information technology and telecommunications, maritime, oil, gas and energy, petrochemical, biorisk, climate change, information technology software and systems, railroads; industrial analysis, namely, product research in the field of aerospace, automotive, food and beverage, healthcare, information technology and telecommunications, maritime, oil, gas and energy, petrochemical, biorisk, information technology software and systems, rail roads, process industry, chemical industry, offshore industry; technical consultancy services in the field of environmental science; technical consultancy in relation to technical research in the field of foods and beverages; design and development of computer hardware, software and other digital software based products; maintenance and implementation of software; software quality improvement and development services; information technology service management, namely, remote and on-site management of the information technology systems of others; consulting in the field of computer risk management services; safety management services, namely, product safety testing and food safety testing in the field of aerospace, automotive, food and beverage, healthcare, maritime, oil, gas and energy, petrochemical, rail roads, biorisk, hospital accreditation, process industry, chemical industry, offshore industry; Testing, and classifying the goods and services of others for the purpose of certification, verification and classification, namely, testing, analysis and evaluation of the goods and services of others to determine conformity with certification standards; technical inspection services by sensors and drones of wires, pipelines for quality control purposes; inspecting of the quality and quantity of raw materials, commodities, supply chain, manufactured, semimanufactured and transformed goods or services in the field of aerospace, automotive, finance, food and beverage, healthcare, information technology and telecommunications, maritime, oil, gas and energy, petrochemical, rail roads, biorisk, climate change, corporate responsibility, hospital accreditation, IT software and systems, process industry, chemical industry, offshore industry for quality control purposes; information technology consultation; computer software consultation; computer

systems design and computer systems design analysis consultation in the field of aerospace, automotive, finance, food and beverage, healthcare, information technology and telecommunications, maritime, oil, gas and energy, petrochemical, rail roads, biorisk, climate change, corporate responsibility, hospital accreditation, process industry, chemical industry, offshore industry; product traceability services, namely, design and implementation of software for the purpose of product authentication and tracking, and brand monitoring and protection, to protect against counterfeiting, tampering, and diversion, and to ensure the integrity of genuine products; assessment services, namely, testing, analysis and evaluation of the goods and services of others for the purpose of certification, verification and classification, namely, for the purpose of determining conformity with certification standards and assure compliance with industry standards; classification, inspections and certification in the nature of testing, analysis and evaluation of ships, mobile offshore units, naval vessels and submersible manned/unmanned objects to determine conformity with certification standards; Fleet in service surveys in the nature of marine surveying; issuance of declarations in the nature of reports on the testing, analysis and evaluation of ships and mobile offshore units to determine conformity with certification standards; technical assessments, namely to approve manufacturers and personnel, namely, testing, analysis, and evaluation of the knowledge, skills and abilities of others in the field of process industry, chemical industry, petrochemical industry, offshore industry, maritime industry, aerospace, automotive, finance, food and beverage, healthcare, IT and Telecom, oil, gas and energy, biorisk, climate change, corporate responsibility, hospital accreditation, IT software and systems, operational excellence, quality management, risk management and railroads to determine conformity with certification standards; certification of management systems, namely, testing, analysis and evaluation of management systems of others to determine conformity with certification standards; testing and certification in the nature of testing, analysis, and evaluation of boats, light water crafts, diving systems and submarines to determine conformity with certification standards; certification in the nature of testing, analysis, and evaluation of the knowledge, skills and abilities of welders and nondestructive testing operators to determine conformity with certification standards; Verify yield, fatigue and buckling towards class rules and international standards, namely, testing, analysis and evaluation of the goods of others to determine conformity with certification standards; advisory connected to reliable and cost-effective structural engineering design; advanced structural analysis of marine structures; advisory services in the nature of consulting in the field of acoustics, sound, noise, and vibration for scientific purposes to prevent noise and vibration problems on ships; technology advisory services related to hydrodynamics, mechanical engineering, safety on ships and offshore units; technical gap analysis in the nature of analyzing software applications of others to determine conformity with industry standards; hardware-in-the-loop testing in the nature of testing of computer hardware; technical due diligence in the nature of conducting scientific feasibility studies; scanning, namely, digitization of documents scanning; digital compression of computer data; electronic storage of digital images; hosting digital content on the Internet; conversion of texts to digital format; cross-platform conversion of digital content into other forms of digital content; design and development of software and hardware for digital signal processing; hosting a website for the electronic storage of digital photographs and videos and other digital resources, namely, hosting the websites of others on a virtual private server; providing computer facilities for the electronic storage of digital data, namely, providing facilities for the location of computer servers with the equipment of others; design and development of software and hardware for producing, recording and processing digital and analog signals; product benchmarking services, namely, product development services; creating programs for data processing, namely, design and development of computer software; development of data processing programs for others; programming of data processing programs, namely, computer programming; maintenance of data processing software and software applications; computer programming for data processing

and communication systems; maintenance of computer software for data processing; research in the field of data processing technology; software engineering services for data processing programs; design, development, maintenance and updating of computer software for word processing, data processing and process control; hosting platforms on the Internet, namely, cloud hosting provider services for the platforms of others; programming of software for marketing platforms for others; hosting computer application software for others in the field of knowledge management for creating searchable databases of information and data; design and development of software for importing and managing data; updating of web sites for others; updating of internet pages for others; updating and maintenance of computer software; testing services for the certification of quality or standards, namely, testing of ships, vessels, oil and gas installations and platforms, energy production installations, namely installations producing wind, solar, tidal and water energy, computer systems, management systems to assure compliance with industry standards; research in the field of computer technology conducted using databases and the internet; consulting and advice in the field of data storage systems and software-defined infrastructure; consulting and advice relating to the design, selection, implementation and use of computer hardware and software systems for data storage systems and software-defined infrastructure for others; technical support services, namely, repair of data storage systems in the nature of computer software for data storage systems and problems relating to software-defined infrastructure, namely, repair of damaged computer programs; design services for data storage systems and software defined infrastructure for others; installation, updating and maintenance of data storage systems, namely, computer software for software-defined infrastructure; consulting services in the field of software as a service for providing the storage of electronic data and software-defined infrastructure; electronic data storage and providing temporary use of nondownloadable software for the storage and recovery of data as a service; software-defined infrastructure software as a service featuring software for database management; software as a service, platform as a service featuring software for use in database management; design of a digital data storage system as software for storing of documents and business intelligence data; programming of digital data storage system software; maintenance of data storage system software; rental of data storage systems, namely, rental of computers and computer software; provision of data storage systems and computer programs for software-defined infrastructure, namely, providing virtual computer systems and virtual computer environments through cloud computing; provision of data as a service, namely, providing temporary use of on-line non-downloadable cloud computing software for use in electronic storage of data; platform as a service featuring computer software platforms for use in database management; remote verification surveys in the nature of marine surveying through digital means; remote computer inspection services for quality control purposes; remote inspection services, namely drone inspection for quality control purposes; product development in the fields of artificial intelligence, self-learning algorithms that increase ability to process significant amounts of data; development of digital industry computer platforms for enhanced connectivity and interaction between industry players, domain experts and data scientists; development and testing of computing methods, algorithms and software; programming of data processing computer programs; computer programming for data processing; development of data storage systems; development of data transmission systems; scientific analysis of technical data in the field of process industry, chemical industry, petrochemical industry, offshore industry, maritime industry, aerospace, automotive, finance, food and beverage, healthcare, IT and Telecom, oil, gas and energy, biorisk, climate change, corporate responsibility, hospital accreditation, IT software and systems, operational excellence, quality management, risk management and railroads; development of algorithms and computing methods for generating telecommunication and navigation data; design and development of electronic databases; providing on-line information in the field of technological research in the field of process industry, chemical industry, petrochemical industry, offshore industry, maritime industry, aerospace, automotive, finance, food and beverage, healthcare, IT and Telecom,

oil, gas and energy, biorisk, climate change, corporate responsibility, hospital accreditation, IT software and systems, operational excellence, quality management, risk management and railroads from a computer database or the internet; advisory services related to port state control/inspection and detention risk, namely, related to the inspection of ships and vessels for quality control purposes; testing, inspection, certification and verification of fish farms, namely, testing, analysis and evaluation of the services of fish farms to determine conformity with certification standards; offshore container certification services, namely, testing, analysis and evaluation of offshore containers of others to determine conformity with certification standards; risk reduction services and engineering support in the nature of development and engineering of software for use in risk reduction in offshore projects and marine operations; Laboratory testing services, namely failure investigations in the nature of product failure analysis services, large scale materials and components testing, corrosion testing, large scale structural testing, in-field weighing of heavy offshore modules, in-field vibration measurements, combustion, fuel and energy lab, and full-scale fire, explosion and blast testing; geotechnical engineering assessments in the nature of scientific research; load response computer modelling services; finite element analyses for scientific research purposes; computer integrity assessments, inspections and maintenance services; technical life -extension studies and decommissioning assessment of ageing assets in the nature of evaluation of product quality; technical incident investigation, namely, troubleshooting of computer software problems; flow assurance services, namely a predicting service based on the behavior of produced fluids consisting of produced fluids testing and analysis as they travel along a pipeline; new product design of pipelines; gas technical advisory, namely, technical consulting in the field of gas pollution detection; technical mechanical engineering advisory; structural engineering advisory; naval architecture services; marine advisory, namely decommission activities in the nature of evaluation of product quality; feed assessments and concept studies in the nature of scientific research for onshore and offshore oil and gas assets; visual inspection of metal castings for railway crossings for quality control purposes; new technology development and scientific research in purification of high-pressure natural gas streams; test certification in the nature of testing of low, medium and high power equipment of others in laboratories to determine conformity with certification standards; technical measuring and testing laboratory services of electrical power grids; technical support and advisory connected to turbine engineering support, namely, technical support in the nature of providing technical advice related to troubleshooting of computer software problems connected to turbine engineering; energy advisory, namely, consulting services in the field of energy efficiency measure implementation; design services related to turbines, solar photovoltaic plants, naval vessels, ships, offshore and onshore installations; software as-a-service, namely, hosting supervisory control and data acquisition system software, forecast system software to be used in forecasting energy production and pricing, and shadow cast software systems which calculate when shadow casts from wind turbines affect the surroundings for use by others; asset management services in the nature of management of information technology systems for wind farms and solar plants; maintenance of meteorological measurement software systems; operation and offering information security management systems as-a-service, namely, providing temporary use of online non-downloadable software for cyber security tests and control; environmental testing and assessment services, namely environmental verification, certification and advisory services in the nature of testing, analysis, an devaluation of environmental goods or services of others to determine conformity with certification standards; development of block chain technology, distributed ledger technology, artificial intelligence, internet of things, digital identification products; digital data assurance and verification services in the nature of Internet Protocol address verification services; data management and analytic services in the nature of electric and natural gas meter data management and analysis; computer cyber security advisory; equipment lifetime assessments in the nature of evaluation of product quality;

consultancy services in the field of data verification in the nature of Internet Protocol address verification; computer project management in the field of electronic data processing; activities involving use of explosives, namely, explosion testing of construction materials and off shore structures to assure compliance with construction industry standards

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services
