CASE IDENTIFIERS

Serial Number 88627753 **Application Filing Date** Sep. 23, 2019 **Register** Principal **Mark Type** Service Mark Trademark **Publication Date** Jul. 28, 2020

MARK INFORMATION

Standard Character Claim Yes. The mark consists of standard characters without claim to any particular font style, size, or color. **Mark Drawing Type** 4 - STANDARD CHARACTER MARK

GOODS AND SERVICES INFORMATION

For Training in the use and operation of computer software and hardware all for use in the fields of assessment and compliance audits for antiterrorism threat and vulnerability risk assessments, transportation infrastructure, power, water and food supply, and security systems; Training services in the fields of environmental management and pollution control, waste management and remediation engineering, process engineering and design, and corporate reporting; training services in the field of aircraft flight

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Consulting in the field of sustainable business organizational design; Cost analyses; consultancy relating to demographics for marketing purposes; marketing studies; business economic feasibility studies; Business management and business consulting services in the fields of transportation, infrastructure, environment, energy and aviation; Project management services for others for business purposes in the fields of architecture, interior design, and urban planning design; value engineering, namely, cost analysis; Advisory services for others for business purposes in the fields of architecture, interior design and urban planning design; Business efficiency expert services; Business management analysis, namely, providing cost estimates for contracted work; Business management and business consulting services in the field of transportation and aviation; Professional business consulting; Economic consulting and information for architectural, engineering and design projects; Economic consulting and information for the industrial and commercial sectors in the fields of economic development, urban revitalization, real estate, tourism and culture, and sustainable development; Business consulting and advisory services in the fields of energy efficiency, renewable energy, logistics and mining; Consultancy services regarding business strategies in the field of wastewater liquids and solids treatment, specifically related to the commercial, industrial and municipal uses; Business management services, namely, managing logistics, reverse logistics, supply chain services, supply chain visibility and synchronization, supply and demand forecasting and product distribution processes for others; Business services, namely, procuring qualified and credentialed third-party experts, professionals and

other qualified personnel, and documentation and information all on behalf of others; Business services, namely, providing consumer product and service information regarding the purchase and sale of a wide variety of products and services of others via computer databases; Business services, namely, registering, screening, organizing and verifying the credentials of third-party vendors, suppliers and contractors, and procuring documentation and information on behalf of others; Compilation and systemization of information into computer databases; Computerized database management; Database management; Business services, namely, business management and providing tracking services and information concerning tracking of assets in transit, namely, vehicles, trailers, drivers, cargo and delivery containers for business inventory purposes; Inventory control; Inventory control in the field of database management; Inventory management; Inventory management in the field of database management; Management and compilation of computerized databases; Records management services, namely, document indexing for others; Business administration services, namely, management of human resources and office and facility equipment, and materials; Business management services, namely, management of military equipment and materials; Business advisory and consultancy services in relation to defense systems and facilities management and commercial assistance relating to system implementation and system integration in the field of analysis of anti-terrorism protection, base alignment and closure, emergency preparedness, environmental restoration, global threat reduction, installations management, logistics management, military aviation and ground systems, military facilities design, military flight training, nuclear, chemical and biological weapons demilitarization, weapons systems development and modernization, computer technology implementation, computer systems modification, installation of new computer systems and computer peripheral equipment, design and manufacture of computer hardware and software and equipment and integrated logistics support for aviation and ground defense systems; Business services, namely, business management of facilities in the field of aviation, corporate operations, government, energy, industrial and manufacturing facilities, office buildings, research and development facilities, and transportation facilities managing consultants, costs and scheduling monitoring, construction and renovation monitoring, technical operations, interior design; Business management of industrial installations and configurations, namely, operation services in the field of manufacturing, processing and assembly plants, processing and refining facilities, distribution centers, power plants, transportation infrastructure, and mining operations; Business consulting services in the field of applicable statutes, regulations, directives and instructions, due diligence relating to business acquisitions, environmental assessments, safety and business health assessments, asset management, acquisition planning, technology assessment, licensing and permitting, and business risk management; Business consulting services in the field of internal business process optimization and on the job process hazards analysis; Business acquisition and merger consultation; Corporate governance consulting services in the fields of economic and strategic planning, budgeting, contingency planning, social business risk assessment and sustainable business solutions development; Human resource management, namely, project staffing; Business management and business information management in the nature of control over secure information distribution on global computer information networks and on local computer networks; Business project management services for construction projects, namely, cost and schedule control, document control, utility coordination, contract administration, contractor coordination and change order control; Design of advertising content of flyers and brochures, business surveys, internet advertising for the purpose of promoting the goods and services of others using graphic images and multimedia content; Providing public policy analysis services for the energy, transportation, pollution, abatement, water resources and health care industries

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For regeneration planning, namely, planning and laying out of residential and/or commercial communities; Construction planning project management services; Consulting in the field of sustainable community planning, namely, planning and laying out of residential and/or commercial communities; Construction supervision services for the energy, transportation, pollution, abatement, water resources and health care industries; Building construction supervision; Construction management of tunnels and underground structures; Construction consultancy; Construction management; Construction services, namely, custom construction of commercial buildings; Construction supervision; Consulting in the field of building construction and building construction supervision; Consulting in the field of hospital construction; Inspection services in the course of construction of airports, highways and bridges; Residential and building construction consulting; Residential and commercial building construction; Technical consultation in the field of building construction; Technical consultation in the field of building materials, namely, cementitious materials, asphalt and aggregates; House, building and public or industrial structure demolition services; Building construction services; Building construction, remodeling, inspection, reinforcing, restoration, maintenance and repair; Construction of tunnels and underground structures; Construction and renovation of buildings; Construction grading services; Construction of airports, buildings, medical establishments, roads, underground utilities, housing pads, highways and bridges; Construction, maintenance and renovation of real property; Consulting services for repair and restoration of historic buildings and structures; Electrical contracting, namely, installation of electrical systems, installation of electrical machinery, repair of electrical systems, and comprehensive preventative maintenance service for electrical systems; Erecting of commercial centers, housing areas and manufacturing plants; Pipeline construction, maintenance, installation and repair; Providing information on repair services in the aviation sector; Refurbishment of buildings; Renovation and restoration of buildings; Repair of buildings; Repair work on buildings; Road construction; Construction of steel structures; Steel structure construction works; Street construction; Construction services in the field of construction of entertainment, commercial, sports, data centers, disaster recovery, government, healthcare, education, hospitality, transportation, residential and retail facilities; Construction project management services in the field of construction of oil and gas facilities; Technical consulting related to the installation of oil and gas equipment, control systems, and machinery to be placed in oil and gas facilities; Construction of aquatics facilities; Construction of water treatment facilities; Consulting services for the construction of water treatment and purification plants, solid waste treatment plants and other municipal infrastructure facilities; Marine construction; Pump repair and maintenance; Repair or maintenance of water pollution control equipment and water purifying apparatus; construction consultancy relating to sanitation facilities; Underwater building, construction, dredging, and repair; Industrial construction services, namely, construction of manufacturing plants, bulk storage facilities and specialized structures, and installation of industrial equipment for use in the mining, forestry, food processing, power generation, petrochemical, manufacturing and materials handling industries; Construction supervision services, namely, construction project management, construction program management and construction management, all for creation, demolition, and decommissioning of facilities and sites; Construction management services, namely, construction consultation, and construction of government, commercial and industrial structures and buildings, and inspections during building construction; Construction program management services, construction management services and building maintenance and repair services for large and complex engineering projects for building, maintaining and improving structures of healthcare complexes, k-12 schools, colleges and universities, public buildings, power plants, commercial, industrial and manufacturing

facilities, and federal, state and municipal infrastructure, namely, bridges, highways, interchanges, tunnels, intelligent transportation systems (ITS), mass transit systems, airports, port and harbor facilities, water supply systems, and water and waste treatment and distribution systems; Maintenance and improvement in the nature of repair of public buildings, and commercial, industrial and manufacturing facilities, and federal, state and municipal infrastructure, namely, bridges, highways, mass transit systems, and airports; Transportation consulting services; Hazardous, toxic and radioactive materials cleanup services; Construction services, namely, planning and laying out of commercial buildings; construction planning; Planning and laying out of factory buildings and production facilities

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Downloadable computer software program for developing parametric cost estimates for environmental site investigation, engineering design, remedial action, operation and maintenance, long-term monitoring, close out for contaminated sites and facility construction and renovation projects and associated site work; Automated systems, namely, downloadable software, hardware and communications devices for planning, scheduling, controlling, monitoring and providing information on transportation assets and parts thereof; Downloadable computer software for application and database integration; Downloadable computer software for creating searchable databases of information and data; Downloadable computer software for providing an on-line database in the field of transaction processing to upload transactional data, provide statistical analysis, and produce notifications and reports; Downloadable computer software for the databasing, visualization, manipulation, virtual reality immersion and integration of geographic information with on-line member communities; Downloadable computer software for use in database management; Downloadable computer software that provides real-time, integrated business management intelligence by combining information from various databases and presenting it in an easy-to-understand user interface; Downloadable computer software for controlling, managing and accessing service applications; Downloadable computer software, namely, an application allowing sales and field service employees to update and receive data stored in an enterprise's computer databases in real time, using a mobile device, with full telephony integration with the telephone and/or software features of the mobile device; Downloadable computer database management software for use in accounting/financial management, deployment/personnel management, property/inventory control management, production control management, quality/safety/environmental management, supply chain management, planning and schedule management, document management and earned value management; Downloadable enterprise software in the nature of a database for non-transactional data and a search engine for database content

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Reviewing standards and practices to assure compliance with environmental zoning laws and regulations; Reviewing standards and practices to assure compliance with environmental and radiological laws and regulations; Tracking and monitoring regulatory requirements in the field of public buildings, commercial, industrial and manufacturing facilities, power plants, and federal, state and municipal infrastructure, namely, highways, mass transit systems, port and harbor facilities, airports, water supply, and water and waste treatment and distribution systems by reviewing inspections and verification of the quality and quantity of raw materials, commodities, manufactured, semi-manufactured and transformed goods or goods of any other nature for regulatory compliance purposes; Advice and consultancy on environmental regulatory matters; Physical and building security consultation; regulatory compliance consulting in the field of environmental assessments

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Providing access to databases; Providing multiple user access to global computer information networks; Providing multiple user access to proprietary collections of information by means of global computer information networks; Providing multiple-user access to a global computer information network; Providing private and secure real time electronic communication over a computer network; Providing user access to a global computer network

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Supply chain logistics services for governmental defense and energy entities or their agents or contractors, in the nature of warehousing services, namely, storage, distribution, and packing for shipment of materials in storage, consisting of equipment, apparatus, supplies, ammunition, raw materials, and other associated materials for others; All of the above excluding logistics and distribution services for governmental defense and energy entities or their agents or contractors in the nature of commercial document and package shipping and delivery, warehousing services related to the aforementioned excluded logistics and distribution services, and commercial freight forwarding services; Transportation consulting services

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Environmental remediation services, namely, treatment of waste; Providing technical information in the field of waste management, namely, destruction of waste, waste treatment, decontamination of waste, recycling of waste, waste reprocessing, and generation of energy from waste; Waste management services, namely, destruction of waste, waste treatment, decontamination of waste, recycling of waste, waste reprocessing, and generation of energy from waste; Emissions control services for the reduction of mercury emissions from coal-fired power plants by utilizing chemical processes and technologies, namely, FGD additives and chemistry for controlling mercury re-emissions, mercury sorbent evaluations, chemical additives for enhanced mercury oxidation, activated carbon injection for mercury control, combustion controls for mercury emission reduction, and injection of a halogen-based solution into flue gas; Environmental remediation services, namely, treatment of soil, waste and water; Environmental pollution control services, namely, environmental remediation services for treatment of air, water, groundwater, waste water, and soil; Environmental remediation services, namely, decontamination of unexploded ordnance

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Providing temporary use of on-line non-downloadable software for use in business and industrial facility planning and management, namely, for performing predictive cost analysis of physical space and infrastructure requirements of a facility based on projected staff and equipment requirements, and online instructional manuals provided therewith as a unit; Engineering and architectural analysis services, planning and design of healthcare complexes, k-12 schools, colleges and universities, public buildings, power plants, industrial and manufacturing facilities and federal, state and municipal infrastructure, namely, bridges, highways, mass transit systems, port and harbor facilities, airports, water supply, and water and waste treatment and distribution systems for the energy, transportation, pollution abatement, water resources and health care industries; Architectural and engineering services; Architectural consultancy; Architectural design; Civil engineering; Conducting engineering surveys; Conducting of technical feasibility studies in the fields of engineering, construction, and architecture; Consulting in the field of structural engineering; Consulting in the fields of engineering and architecture; Design

for others in the field of engineering; Design of tunnels and underground structures; Drafting of plans and engineering drawings for others; Engineering services for building and property condition assessment, facility management, repair and restoration, building instrumentation and monitoring; Technical consulting in the field of environmental engineering; Engineering services for the construction of water treatment and purification plants, solid waste treatment plants and other municipal infrastructure facilities; Engineering services in the field of environmental compliance; Engineering services, namely, engineering for the construction of airports, highways and bridges; Land use planning services; Landscape architectural design; Planning and layout design services for the interior space of retail business establishments; Planning of buildings and infrastructure systems for buildings; Providing quality assurance services in the field of engineering; Quality control for others; Structural engineering design services; Urban planning; Architectural research; Civil engineering for the design of airports, highways and bridges; Computer aided design for others; Conducting chemical surveys, namely, strength and chemical testing of cementitious materials, asphalt and aggregates; Construction drafting; Consulting services in the field of architectural design; Building and construction drafting; Drafting of construction plans for recreation premises; Engineering; Graphic illustration and drawing services, namely, providing graphic illustrations and drawings of commercial and industrial building designs, and converting building designs or markups to electronic CAD drawings; Monitoring inspections and verification of the quality and quantity of goods in the nature of raw materials, commodities, and manufactured, semi-manufactured and transformed goods for quality control purposes; Inspections of airports, highways and bridges for quality control purposes; Marine, aerial and land surveying; Materials testing, analysis and evaluation; Mechanical engineering and research relating to mechanical engineering; Monitoring of commercial and industrial sites for detection of volatile and non-volatile organic compounds; Monitoring of erosion and sedimentation; Pipeline inspection services; Planning and layout design services for cleanroom environments; Product development and engineering services for others; Providing design services for others in the field of theme parks, museums, and miniature golf courses; Research and development and consultation related thereto in the field of civil engineering; Research and development of technology in the field of civil engineering; Research on building construction or city planning; Research relating to mechanical engineering; Research, development, engineering and testing services in the fields of welding and material joining; Geological, land and oil field survey design and research; Surveying and engineering; Technical consultancy regarding the field of road cutting machinery technology; Technical surveying; Testing or research on civil engineering; Testing, analysis and evaluation of the goods and services of others to determine conformity with certification standards; Testing, analyzing and evaluating the structural properties of masonry and concrete structures; Architectural consultation; Civil engineering relating to water irrigation; Engineering and hydrological design of restoration of stream channels, marshes, estuaries, and wetlands; Engineering services in the field of reduction of operating costs, fuel blending, waste handling, quality performance of co-products and by-products, and chemical distribution; Environmental services, namely, technical consultation in the field of environmental science, engineering services, design for others in the field of energy engineering, designing and testing of energy products for others; Environmental services, namely, technical consultation in the field of environmental science, engineering services, design for others in the field of environmental engineering, designing and testing of new environmentally friendly products for others; Hydraulic engineering and design; Hydrologic and engineering modeling and design of measures to protect areas likely to be inundated by storm-water and flood-waters; architectural design services in the fields of civic, corporate, education, healthcare, justice, leisure, sports venues, transportation, government, and utilities; Engineering design services; Planning of buildings and infrastructure systems for buildings, namely, spatial planning for buildings climate control and resource planning for buildings;

Planning of buildings and infrastructure systems for buildings namely, infrastructure and public municipal facilities planning; Computer planning project management in the fields of engineering, construction, and architecture; Consulting in the field of sustainable community development planning and sustainable business infrastructure design; Engineering services in the field of reduction of operating costs of healthcare complexes, k-12 schools, colleges and universities, public buildings, power plants, industrial and manufacturing facilities and federal, state and municipal infrastructure, namely, bridges, highways, mass transit systems, port and harbor facilities, airports, water supply, and water and waste treatment and distribution systems; Application service provider (ASP) featuring software for use in Accounting/Financial Management, Deployment/Personnel Management, Property/Inventory Control Management, Production Control Management, Quality/Safety/Environmental Management, Supply Chain Management, Planning and Schedule Management, Document Management and Earned Value Management; Application service provider featuring software for providing an on-line database in the field of transaction processing to upload transactional data, provide statistical analysis, and produce notifications and reports; Application service provider, namely, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of personal productivity, wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Application service provider, namely, hosting, managing, developing, researching, analyzing, reporting, and maintaining applications, software, web sites, and databases of others in the fields of healthcare, benefits programs, employee productivity, risk management; Application service provider for hosting computer application software of others in the field of knowledge management relating to creating searchable databases of information and data to allow users to perform, on-line, the collecting and analyzing of different types of opinion surveys; Application service provider for hosting computer application software of others in the field of knowledge management relating to creating searchable databases of information and data; Application service provider for hosting computer application software of others in the field of knowledge management relating to searching and retrieving information from databases and computer networks; Computer services, namely, hosting a website and online portal for customers to remotely manage, and modify their end user computer devices, data and software applications; Computer systems integration services; Database development services; Integration of computer systems and networks; IT integration services; Hosting a secured-access website that gives registered Internet networked institutions the ability to upload, view, copy, print, download and share documents and images for the purposes of conducting consumer- driven transactions; Software as a service (SAAS) services featuring software for use in database management; Software as a service (SAAS) services, namely, hosting software for use by others for use in Accounting/Financial Management, Deployment/Personnel Management, Property/Inventory Control Management, Production Control Management, Quality/Safety/Environmental Management, Supply Chain Management, Planning and Schedule Management, Document Management and Earned Value Management; Analysis of stream water quality; Bacteriological consultation, research and testing; Calculating and simulating flood flows, modeling of areas likely to be inundated, and preparing related reports and technical documentation; Chemical, biochemical, biological and bacteriological research and analysis; Civil engineering for the design of wastewater treatment facilities; Civil engineering relating to water irrigation; Computer-aided engineering services for others; Consultation services in the field of hydrological research; Consulting services in the field of environmental assessment and planning; technological consultancy in the field of water distribution systems and wastewater systems; Environmental services, namely, detection of contaminants in water; Environmental testing and inspection services; Hydrologic and hydraulic modeling and design of storm drainage infrastructure; Hydrologic study of surface and ground water; Providing hydrological calculations and simulations of flood flows in streams, marshes, and wetlands for scientific research purposes; Hydrological research; Environmental testing and inspections of water

treatment facilities; Mapping services; Marine, aerial and land surveying; Materials testing, analyzing, and evaluation; Mechanical engineering and research; Monitoring of stream water quality; Planning and designing aquatics facilities; Environmental and technical design and implementation services, namely, evaluation, control design, installation, updating and maintenance of environmentally friendly automation systems; Providing quality assurance services in the field of wastewater treatment; Providing reagent sample testing and diagnostic services for others in the fields of science and research related thereto; Providing technological and scientific information about environmentally-conscious and green innovations; Research in the field of hydrogeology; Scientific research and development; Sewer overflow monitoring services; Sewer system monitoring services; Technical consultancy in the field of environmental science; Technical quality monitoring services of water conditions; Technology consultation and research in the field of water resources; Technology supervision and inspection in the field of water resources; Testing of filters; Testing of raw materials; Underwater structural inspection services; Water quality control services; Consultation and engineering services in the fields of industrial engineering, mining exploration, land surveys, mapping and geographic information services, water resources and irrigation, environmental compliance engineering, urban and development planning, urban planning development engineering, and municipal engineering; Engineering services in the field of transportation; Engineering and architectural design, namely, creating plans, specification and preliminary and final designs of buildings for others for large and complex engineering projects to build, maintain and improve healthcare complexes, k-12 schools, colleges and universities, public buildings, power plants, energy facilities, commercial, industrial and manufacturing facilities, and federal, state and municipal infrastructure, namely, bridges, highways, mass transit systems, port and harbor facilities, airports, water supply, and water and waste treatment and distribution systems; Systems engineering for large and complex engineering projects to build, maintain and improve public buildings, power plants, industrial and manufacturing facilities, and federal, state and municipal infrastructure, namely, bridges, mass transit systems, port and harbor facilities, airports, water supply, and water and waste treatment and distribution systems; Engineering services, namely, technical engineering consultation in the establishment and operation of large and complex engineering projects to build, maintain and improve healthcare complexes, public buildings, commercial, industrial and manufacturing facilities, power plants, and federal, state and municipal infrastructure, namely, highways, mass transit systems, port and harbor facilities, airports, water supply, and water and waste treatment and distribution systems; Engineering services, namely, technical project planning and design services for others in the field of engineering for general building, transportation facilities and infrastructure, manufacturing, sewer waste, power, industrial processes, petroleum, telecommunications, hazardous waste for the energy, defense and security, education, retail, government, manufacturing, industrial, commercial, transportation, transportation security, pollution abatement, air, water, and soil resources and health care industries; Design services for others in the field of governmental defense and security systems, namely, engineering for development of aviation and ground systems, vehicles, shelters and ground support equipment; Design services for others in the field of environmental engineering related to air emission control, and flood control; Civil and environmental engineering consulting services, namely, preparing environmental impact assessment, preparing environmental impact assessment in the fields of climate change and bio-diversity, biological, ecological, energy management, and earthquake studies, and compliance reports; Computer consultation in the field of computer security; computer security service, namely, restricting access to and by computer networks to and of undesired web sites, media and individuals and facilities; Design and development of computer networks for others in the field of computer security; Engineering services for government, commercial and industrial buildings and properties condition assessment; Design of government, commercial and industrial healthcare complexes, k-12 schools, colleges and universities,

public buildings, power plants, commercial, industrial and manufacturing facilities, and federal, state and municipal infrastructure, namely, bridges, highways, mass transit systems, airports, port and harbor facilities, water supply, and water and waste treatment and distribution systems; Computer software design, computer network design and computer-aided engineering, in the fields of geographic information services combining software and information technology to produce visual representations of topographies; Computer application software development for others in the fields of computer simulation and electronic imaging of design drawings, architectural designs, building plans, city plans, artwork and photographs, and integration of computer systems and networks; Updating and maintenance of database systems; Updating and maintenance of software and database systems; Engineering services in the field of network and database design and development; Engineering services for construction, repair and restoration of large and complex engineering projects in the nature of healthcare complexes, k-12 schools, colleges and universities, public buildings, power plants, commercial, industrial and manufacturing facilities, and federal, state and municipal infrastructure, namely, bridges, highways, mass transit systems, airports, port and harbor facilities, water supply, and water and waste treatment and distribution systems; Computer services, namely, operations for computer systems and computer networks in the nature of computer and network design for others and engineering, computer application software development, computer application systems integration, development, updating, and maintenance of database systems, computer network integration, and computer systems integration services for large and complex engineering projects; Application service provider, namely, hosting on-line computer databases via the secured-access internet through which documents and images can be viewed, copied, and printed for purposes of conducting corporate transactions; Application service provider, namely, hosting an on-line computer database in the field of locating products, describing products, rating products, pricing products and comparing prices of products; Computer security consultancy related to national security; Computer security consultancy

For Credit card transaction processing services provided via electronic payment services, including mobile wallets, loyalty reward transactions, and bill payment transactions with merchants via mobile devices; Financial transaction services, namely, providing secure commercial transactions and payment options; Financial transaction services, namely, providing secure commercial transactions and payment options using a mobile device at a point of sale; Providing electronic processing of electronic funds transfer, ACH, credit card, debit card, electronic check and electronic payments; Providing electronic processing of ACH and credit card transactions and electronic payments via a global computer network

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For Audio and video recording services, and consultancy services relating to the aforesaid services, namely, consultancy in the field of video recording services; Electronic library services for the supply of electronic information in the form of audio and video information, namely, non-downloadable videos and audio files via an on-line computer network

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Accounting services; Administration of a customer loyalty program which provides financial incentives for users of mobile devices; Administration of a customer loyalty program which provides financial incentives for users of mobile and peripheral devices to engage in leisure and recreational off-line activities, engagements and events through and involving businesses, merchants and other users; Administration of a customer loyalty program which provides financial incentives for users of transportation services; Administration of a customer loyalty program which provides for issuing, processing and redemption of loyalty points for purchase of goods and services; Administration of a customer loyalty program which provides

for issuing, processing, and redemption of loyalty points for purchase of transportation services; Administration of a customer loyalty program which provides incentives for redeeming rewards for offline recreational activities; Administration of a customer loyalty program which provides incentives for merchants, game companies and other entities to promote health and well-being of users through incentivized offline recreational activities; Advertising and marketing services provided by means of indirect methods of marketing communications, namely, social media, search engine marketing, inquiry marketing, internet marketing, mobile marketing, blogging and other forms of passive, sharable or viral communications channels; Advertising, marketing and promotion services; Advertising, marketing and promotion services in the field of business information and sale of third party goods and services; Advertising, marketing and promotional services related to all industries for the purpose of facilitating networking and socializing opportunities for business purposes; Advertising, marketing, and promoting the goods and services of others via voice-controlled automated responses to consumer inquiries about products and services as well as requests for information; Business networking; Electronic collection of data for business purposes; Compilation and systemization of data into computer databases; Compilation and systemization of information into computer databases; Computerized database and file management; Data management, namely, electronic data collection and data submission services for business purposes; Data processing; Direct marketing services; Dissemination of advertising for others via the Internet; Electronic commerce services, namely, providing information about products via telecommunication networks for advertising and sales purposes; Employment hiring, recruiting, placement, staffing and career networking services; General business networking referral services, namely, promoting the goods and services of others by passing business leads and referrals among group members; Incentive award programs to promote the sale of products and services of others; Job and personnel placement; Marketing and consulting services in the field of promoting and tracking the goods, services, and brands of others through all public communication means; Marketing services, namely, consumer marketing research; Marketing the goods and services of others by means of location-based messaging; On-line business networking services; On-line customer-based social media brand marketing services; On-line professional networking services; Online service for connecting social network users with retailers for the purpose of facilitating discounted purchases; Promoting the goods and services of others; Promoting the goods and services of others by means of a preferred customer program featuring incentive award programs by issuance, processing, and redemption of loyalty points for purchase of goods and services; Promoting the goods and services of others by means of the issuance of loyalty rewards cards; Promoting the goods and services of others by means of word-of-mouth and nontraditional marketing programs; Promoting the goods and services of others via a global computer network; Promoting the sale of goods and services of others by facilitating their sale by real-time bidding processes via a global computer network and providing evaluative ratings and feedback featuring product ratings of the consumer goods and services of others by rating buyers and sellers in the field consumer electronics, home products, hospitality, travel, leisure, sports, and entertainment; Promoting the sale of goods and services of others by means of contests and incentive award programs; Providing a website for users with specific informed recommendations of specific consumer products and services validated by the users' inputted preferences and social network; Providing an on-line searchable database featuring business information and business contacts; Providing an on-line searchable database featuring classified ad listings and employment opportunities; Providing an on-line searchable database featuring employment opportunities; Providing an on-line searchable database featuring employment opportunities and content about employment; Providing business information in the field of social media; Providing incentive award programs for customers through issuance and processing of loyalty points for on-line purchase of a company's goods and services; Providing incentive award programs through issuance and processing of loyalty points for purchase of a company's goods and services; Providing marketing consulting in the field of social media; Providing

networking opportunities for individuals seeking employment; Providing online databases featuring employment information relating to employers and employees and places of employment; Provision of an on-line marketplace for buyers and sellers of goods and services; Social media strategy and marketing consultancy focusing on helping clients create and extend their product and brand strategies by building virally engaging marketing solutions; Arranging subscriptions to telecommunications database services for others; Updating and maintenance of data in computer databases

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Downloadable computer operating system software; Anti-intrusion alarms; Apparatus and devices providing night vision, namely, night vision goggles; Audio amplifiers and loudspeakers; Audio digitizers; Audio recording apparatus; Audio speakers; Battery chargers for mobile phones; Battery chargers for tablet computers; Burglar alarms; Camera mounts; Camera stands; Cameras; Electronic card readers for payment and credit cards; Cases for mobile phones; Cases for telephones; Cell phone battery chargers for use in vehicles; Closed circuit television apparatus, namely, closed circuit TV systems for security and surveillance, namely, cameras, switchers, monitors, microphones, and recorders; Closed circuit television cameras; Computer cameras; Computer hardware and recorded software systems for providing incentive award programs through issuance and processing of loyalty points for purchase of a company's goods and services; Computer hardware and recorded software systems for managing incentive award programs through issuance and processing of loyalty points for purchase of a company's goods and services; Computer hardware for accessories, namely, power adapters and remote controls for voice-controlled smart audio speakers, video displays and related products; Computer hardware for making, authenticating, facilitating, operating, managing, and processing payment transactions with credit cards, debit cards, prepaid cards, payment cards, gift cards, and other payment forms; Computer hardware for personal assistant devices using cloud-connected and voice-controlled smart audio speakers and video displays; Digital cameras; Door opening and closing detecting electronic sensors; Electronic books featuring photography and visual images recorded on computer media; Electronic devices, namely, point of sale terminals, chip card readers, credit card readers, payment card readers, mobile card readers, charging stands; Headsets for mobile telephones; Home automation control devices, namely, home automation hubs comprised of voice-activated speakers, computer hardware, and downloadable software for controlling networked devices in the internet of things (IoT), operating internet-enabled and connected lighting apparatus and home security alarms; Home automation hubs using artificial intelligence comprised of voice-activated speakers, computer hardware, and downloadable software for controlling networked devices in the internet of things (IoT), operating internet-enabled and connected lighting apparatus and home security alarms, and other connected smart home devices and appliances; Home theater audio and video equipment, namely, DVD players, audio amplifiers, audio speakers; Infra-red detectors; Infra-red sensors; Infrared cameras; Magnetic encoded and coded card readers; Magnetically encoded credit cards and payment cards; Microphones; Mobile telephone batteries; Motion detectors; Motion sensitive security lights; Motion sensors; Movement sensors in the nature of motion detectors; Optical disc players; Photographic apparatus and instruments, namely, cameras; Protective covers and cases for tablet computers; Recording apparatus for recording sound, images and data; Remote controllers for televisions; Remote controllers for recording devices; Personal security alarms; Home security cameras; Security control apparatus, namely, personal home security alarms; Security lights incorporating an infra-red activated sensor; Security surveillance apparatus, namely, home security cameras; sensors and detectors, namely, smoke detectors; Smart watches; Audio speakers; Televisions; Video cameras; Video digitizers; Video monitor controllers; Video monitors; Video surveillance cameras; downloadable voice

command and voice recognition software; Voice controlled speakers; Webcams; Window opening and closing detecting electric sensors; Wireless chargers; Wireless charging pads for smartphones; Wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems; Wireless ear buds; Wireless headsets for smartphones; Downloadable application software, namely, Downloadable computer software for computer system and application development; Downloadable application software for the remote control of security apparatus; Downloadable authentication software for controlling access to and communications with computers and computer networks; Downloadable authentication software that may be downloaded from a global computer network and/or recorded on computer media for authenticating financial transactions; Downloadable computer software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, streaming, receiving, playing and viewing images, audio, video and data files; Downloadable communications software for connecting computer network users; Downloadable computer application software for mobile phones, namely, downloadable software for instant and text messaging, blogging, linking and transmitting images via the internet and other communications networks; Downloadable computer application software for mobile phones, namely, downloadable software development tools for the creation of mobile software applications; Downloadable computer application software for online services, namely, downloadable software for social networking in the nature of creating an on-line community for registered users to participate in discussions and share photos, blogging, referring and promoting goods and services of others by posting social media posts, accessing online shopping websites of others, and rewarding users with loyalty points for purchasing goods and services of others; Downloadable computer e-commerce software to allow users to perform electronic business transactions via a global computer network; Computer middleware, namely, downloadable software that mediates between the operating system of a mobile device and the application software of a mobile device; Downloadable computer operating programs; Downloadable computer operating programs and computer operating systems; Downloadable computer operating systems; Downloadable computer programs for searching remotely for content on computers and computer networks; Downloadable computer programs for use in video editing; Downloadable computer search engine software; Downloadable computer software for use in database management, for use as a spreadsheet and for word processing; Downloadable computer software for use in accessing, updating, manipulating, modifying, organizing, storing, backing up, synchronizing, transmitting, and sharing data, documents, files, information, text, photos, images, graphics, music, audio recordings, videos, and multimedia content via global and local computer networks, mobile telephones, and other communications networks; Downloadable computer software used to store and share data, documents, files, information, text, photos, images, graphics, music, audio, video, and multimedia content with others via global computer networks, mobile telephones, and other communications networks for the purpose of file back up and synchronization, not including software for use in database management in the field of life sciences research or software for uploading or transferring advertising programs and media advertising communications; Downloadable computer software and firmware for operating system programs; Downloadable computer software and firmware for providing incentive award programs by issuance and processing of loyalty points for purchase of goods and services from companies; Downloadable computer software development tools; Downloadable computer software enabling content, visual works, audio works, audiovisual works, data and files to be downloaded to and accessed on a computer or other portable consumer electronic devices; Downloadable computer software featuring musical sound recordings and musical video recordings; Downloadable computer software for accessing and searching online databases and websites; Downloadable computer software for accessing browsing over computer networks and secure private networks, also known as, communication software for providing access to the Internet; Downloadable computer software for accessing information directories that may be downloaded from the global computer network;

Downloadable computer software for authorizing access to databases; Downloadable computer software for communicating over computer networks and secure private networks, also known as, voice-over Internet protocol (VOIP) software, downloadable software for instant messaging, and downloadable software for reading and sending emails; Downloadable computer software for computer system and application development, deployment and management; Downloadable computer software for creating searchable databases of information and data; Downloadable computer software for creating, preparing, managing, sending, processing, tracking, and reconciling invoices; Downloadable computer software for downloading music files from the Internet; Downloadable computer software for electronic messaging and wireless digital messaging; Downloadable computer software for electronic messaging and wireless digital messaging that may be downloaded from a global computer network; Downloadable computer software for extracting and tagging metadata, remote data management, providing web-based access to applications and services through a web operating system or portal interface over global and local computer networks; Downloadable computer software for issuing receipts regarding mobile payment transactions; Downloadable computer software for managing communications and data exchange among and between mobile devices and desktop computers; Downloadable computer software for processing electronic payments and for transferring funds to and from others; Downloadable computer software for processing electronic payments to and from others that may be downloaded from a global computer network and recorded on computer media; Downloadable computer software for providing incentive award programs by issuance, processing, and redemption of loyalty points for purchase of goods and services; Downloadable computer software for running web applications; Downloadable computer software for searching a user namely, in the nature of search engine software; Downloadable computer software for searching internal platforms including social sites, social networking, messaging, texts, notes, streaming content, reviews and sites with loyalty benefits; Downloadable computer software for sharing of data and information over computer networks and secure private networks; Downloadable computer software for storing, managing, tracking, analyzing, and reporting data in the field of marketing, promotion, sales, customer information, customer relationship management, sales support, and employee efficiency; Downloadable computer software for synchronizing computer files, folders, data and information within a collaborative work environment; Downloadable computer software for synchronizing, replicating, storing, backing up and sharing data and information on and among electronic devices and items containing electronic and computerized screens, displays, and receivers; Downloadable computer software for sharing information and collaborating on shared documents, with multiple users over global and local computer networks; Downloadable computer software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information; Downloadable computer software for the remote control of security apparatus; Downloadable computer software for the transmission of text, data, images, audio, and video by wireless communication networks and the Internet; Downloadable computer software for booking transportation services that may be downloaded from a global computer network; Downloadable computer software for use as an application programming interface (API); Downloadable computer software for use in connecting to and searching the contents of remote computers, computer networks, and secure private networks; Downloadable computer software for use in secure mobile payment transactions with retailers, vendors and merchants; Downloadable computer software for use in transmitting and receiving data over computer networks and global communication networks; Downloadable computer software for voice recognition; Downloadable computer software for web crawling, indexing, ranking and rendering; Downloadable computer software for working with integrated internal platforms including social sites, social networking, messaging, texts, notes, streaming content, reviews, cloud-based storage, shopping, banking system and sites with loyalty benefits; Computer software platforms, downloadable, for processing mobile payments

and for the storage, transmission, verification, authentication of credit and debit card and other payment and transaction information; Computer software platforms, downloadable, for web searches; Downloadable computer software platforms for contactless transactions with merchants, retailers, and vendors via mobile devices used to process mobile payments; Computer software platforms, downloadable, for ensuring security of credit and debit card information, security of mobile payments, and security of contactless transactions with merchants, retailers, and vendors via mobile devices; Computer software platforms, downloadable, for processing mobile payments; Computer software platforms, downloadable, for storing, facilitating, transmitting, verifying, processing, and authenticating credit and debit card information and other transaction and payment information; Computer software platforms, downloadable, for use in connection with presentation, transmission, verification, authentication, redemption, and electronic storage of discounts, coupons, incentives, rebates and promotional offers; computer software platform recorded, for managing transportation booking services; Downloadable computer software to enable the transmission of photographs to mobile telephones; Downloadable computer software to facilitate communicating among peer professionals in the advertising, marketing, and business services fields, and for customizing computer application user interfaces; Downloadable computer software used for controlling stand-alone voice controlled information and personal assistant devices; Downloadable computer software for use in a cloud computing environment, namely, downloadable computer software development tools, and application programming interfaces (APIs) to be used as an interface by software components to communicate with each other, for digital content management of wired and wireless electronic devices for accessing, updating, manipulating, modifying, organizing, storing, backing up, synchronizing, transmitting, and sharing data, documents, files, information, text, photos, images, graphics, music, audio, video, and multimedia content; Downloadable computer software, namely, electronic financial platform that accommodates multiple types of payment and debt transactions in an integrated mobile phone, PDA, and web based environment; Downloadable cloud-based software for accessing, storing and managing electronic data and applications on computers, mobiles and peripherals; Downloadable cloud-computing software for accessing, storing, and managing electronic data and applications on computers, mobiles, and peripherals; Downloadable communication software for providing access to the Internet; Downloadable communications software for connecting drivers and passengers; Downloadable computer application software for mobile phones, namely, software for consumer loyalty programs used to collect, access, and redeem loyalty points; Downloadable computer application software for mobile phones, namely, downloadable software for social networking in the nature of creating an on-line community for registered users to participate in discussions and share photos, blogging, referring and promoting goods and services of others by posting social media posts, accessing online shopping websites of others, and rewarding users with loyalty points for purchasing goods and services of others; Downloadable computer application software for mobile phones, namely, downloadable software for accessing transportation services; Downloadable computer application software for mobile phones, portable computers, handheld devices, and personal assistant devices, namely, downloadable software for the transmission of voice and video; Downloadable computer game software; Downloadable computer software for accessing, browsing and searching online databases; Downloadable computer software for application programming interface (API) to allow integration of video content and functionality into websites, devices, and software applications; Downloadable computer software for connecting, operating, and managing networked vendors, companies, individuals and charities in incentive awards programs for issuing, processing and redemption of loyalty points for purchase of goods and services from companies; Downloadable computer software for creating indexes of information, indexes of web sites, and indexes of other information resources; Downloadable computer software for dictation; Downloadable computer software for electronic transactions through online real-time bidding for buyers and sellers of goods and services via a global computer network; Downloadable computer

software for enabling hands-free use of a mobile phone through voice recognition; Downloadable computer software for enabling the transmission of photographs to mobile telephones; Downloadable computer software for global positioning and for providing travel directions; Downloadable computer software for making travel arrangements; Downloadable computer software for modifying the appearance and enabling transmission of photographs; Downloadable computer software for personal and business e-commerce and electronic transactions conducted by real-time bidding processes for retail sales of goods and services via a global computer network; Downloadable computer software for personal information management; Downloadable computer software for posting, tagging, creating, editing, producing, manipulating, transmitting, uploading, downloading, and sharing electronic media, information, videos, movies, pictures, multimedia content, images, text, photos, user-generated content, and audio content via the Internet and other communications networks; Downloadable computer software for processing voice commands, and creating audio responses to voice commands; Downloadable computer software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, streaming, receiving, playing and viewing text, multimedia and data files; Downloadable computer software for providing consumer resources for searching, locating, rating, analyzing and providing information for the purchase and use of a wide spectrum of consumer services, goods, products and information over a global communications network namely, mobile communication devices, desktop, mobile, email, text, voice or social media channels; Downloadable computer software for providing incentive award programs by issuance and processing of loyalty points for purchase of goods and services from companies; Downloadable computer software for providing integrated communication with computerized global networks; Downloadable computer software for remote monitoring and analysis of data; downloadable application software for remote monitoring and analysis of data; Downloadable computer software for scheduling appointments, reminders, and events on an electronic calendar; Downloadable computer software for storing, organizing, and accessing phone numbers, addresses, and other personal contact information; Downloadable computer software for streaming audio and video content via the Internet and other global networks using mobile devices, personal computers, and televisions as part of a rewards-based loyalty platform; Downloadable computer software for the collection, editing, organizing, modifying, book marking, transmission, storage, and sharing of data and information; Downloadable computer software for the transmission of voice, data and images between fixed or remote stations and devices; Downloadable computer software for tracking driver behavior; Downloadable computer software for ordering transportation services; downloadable computer software for real time bidding processes; Downloadable computer software for use in customizing computer application user interfaces; Downloadable computer software for use in developing and customizing computer software applications and computer software application user interfaces; Downloadable computer software for video telephony; Downloadable computer software for video-sharing with interactive capabilities between posts and viewers; Downloadable computer software platforms for enabling the transmission of photographs to mobile telephones; Downloadable computer software platforms for modifying the appearance and enabling transmission of photographs; Downloadable computer software platforms for accessing transportation services; downloadable computer software platforms for uploading, downloading, accessing, posting, displaying, tagging, linking, blogging, streaming, and sharing of data and information and processing loyalty points for the purposes of purchasing goods and services of others; Downloadable computer software, namely, an electronic financial platform that accommodates multiple types of payment and debt transactions in an integrated mobile phone, PDA, and web-based environment; Downloadable intelligent personal assistant software for electronic voice recognition and speech to text conversion; Downloadable software for connecting, operating, and managing networked vendors, companies, individuals, and charities in the internet of things (IoT); Downloadable software for

connecting, operating, and managing networked vendors, companies, individuals and charities and providing incentive awards programs by issuance, processing and redemption of loyalty points for purchase of goods and services from companies; Downloadable software for displaying and sharing a user's location and finding, locating, and interacting with other users and places; Downloadable software for facilitating the provision of e-commerce services to others; Downloadable software for managing communications and data exchange among and between mobile devices and desktop computers; Downloadable software for mobile phones and mobile devices that allows the user to search the phone or device; Downloadable software for mobile phones and mobile devices that allows the user to search the Internet for information of general interest; Downloadable software for providing consumer information, namely, compilations, rankings, ratings, reviews, referrals and recommendations relating to merchants, businesses, restaurants, service providers, events, public services, government agencies, parks, recreational areas, religious organizations, charities and nonprofit organizations; Downloadable software for providing incentive awards programs by issuance, processing and redemption of loyalty points for purchase of goods and services from companies, merchants and individuals; Downloadable software for recording, viewing, storing, sharing, and analyzing online audio and video data; Downloadable software for the management and transmission of data; Downloadable software for the management and transmission of information; Downloadable software for third party merchants and businesses for enabling and facilitating business operations, namely, provisioning business services, employee management services, payroll administration, management and processing services, appointment scheduling services, and documentation and security services; Downloadable software for use in transmitting and receiving data over computer networks and global communication networks; Downloadable software for use in web site development; downloadable software for use in computer e-commerce which allows users to perform electronic business transactions, communicate with other users, and access and exchange information via a global computer network; Downloadable software in the nature of a mobile application for facilitation of social networking and social connecting; Downloadable software in the nature of a mobile application for viewing news, messages, stories, and information concerning current events and activities to defined locations or the world; Downloadable software in the nature of a mobile application for providing incentive award programs by issuance and processing of loyalty points for purchase of goods and services from companies; Downloadable software in the nature of a mobile application for viewing consumer preferences, recommendations, suggestions, reviews and other information for the promotion of goods and services; Downloadable software in the nature of a mobile application for viewing pictures, videos, accessing links and other data related thereto for the purposes of user sharing, promoting goods and services, and posting comments; Downloadable software in the nature of a mobile application for transmitting, accessing, organizing and managing online information and data; Downloadable software in the nature of a mobile application for use with computers, portable handheld and mobile devices, and wired and wireless communication devices to facilitate exchanges and posting of information; Downloadable software that provides a dashboard of information, data and tools for evaluating the operation of a business and its and employees, for creating and analyzing sales and revenue forecasts and results, and providing reports regarding the same, for inventory management, and for enhancing communications between such businesses and their employees and customers; Home automation hub downloadable software for voice-activated speakers, computer hardware, and downloadable software for the transmission of voice and video; Downloadable mobile application software for processing electronic payments and for transferring funds to and from others; Downloadable mobile operating system software; Near field communication (NFC) tags for issuing, processing, and redeeming loyalty points for purchase of goods and services; Downloadable Operating system software; Downloadable software development kits (SDKs) comprising downloadable software development tools and downloadable software for use as an application programming interface (API) for creating software and applications related to

internet connected consumer electronic devices; Downloadable software development kits (SDKs) consisting of downloadable computer software development tools; Downloadable software development kits (SDKs) consisting of downloadable computer software for the development, use, and interoperability of APIs that are used by electronic devices, systems, and interchanges that exchange data via communications networks and the internet and that connect with cloud-based data storage and exchange services; Downloadable software for use in developing, executing, and running other software on mobile devices, computers, computer networks, and global communication networks; Downloadable software to control building access and security systems; Downloadable speech command and recognition software

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Personal concierge services for others comprising making requested personal arrangements and reservations and providing customer-specific information to meet individual needs rendered together in a personalized online environment through mobile devices, mobile telephones, desktop computers and peripheral devices, as well as phablets, smart watches, tablet computers, universal peripheral interface (UPI), peripheral component interface (PCI) hardware, as well as portable and handheld digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text, data, image, and audio files; Consultancy, advisory and information services relating to home security systems monitoring using sensors, cameras, motion detectors, infra-red lights, alarm and detection apparatus; Home security monitoring using sensors, cameras, motion detectors, infra-red lights, alarm and detection apparatus

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Audio broadcasting; Audio communication services, namely, transmission of audio by telecommunications network; Communication services, namely, providing electronic transmission of information stored in a database via interactively communicating computer systems; Communication services, namely, transmission of voice, audio, visual images and data by telecommunications networks, wireless communication networks, the Internet, information services networks and data networks; Communications by mobile phones; Consultancy and advisory services relating to the aforesaid services; Data communication services, namely, electronic transmission of data and documents among users of computers; Data streaming; Electronic bulletin board services; Electronic communication services, namely, electronic transmission of data and documents among users of computers; Electronic exchange of data stored in databases accessible via telecommunication networks; Electronic messaging services; Electronic transmission and streaming of digital media content for others via global and local computer networks; Electronic transmission of messages and data; Electronic transmission of messages, voice, data and images through a global communications network; Electronic transmission of streamed and downloadable multimedia content files via computer and other communications networks; Electronic, electric, and digital transmission of voice, data, images, signals, and messages; Information transmission via electronic communications networks; Mobile media services in the nature of electronic transmission of entertainment media content; Peer-to-peer network computer services, namely, electronic transmission of audio, video and other data and documents among computers; Peer-to-peer photo sharing services, namely, electronic transmission of digital photo files among internet users; Providing access to databases; Providing multiple-user access to data on the Internet in the field of user-generated content, electronic media, videos, movies, pictures, images, photos, text, audio content, multimedia content, and information via the Internet and other communications networks using a rewards-based platform; Providing on-line chat rooms and electronic bulletin boards for transmission of messages among users in the

field of general interest; Providing on-line forums for transmission of messages among computer users concerning user-generated content, electronic media, videos, movies, pictures, images, photos, text, audio content, multimedia content, and information via the Internet and other communications networks using a rewards-based platform; Providing user access to a global computer network; Providing voice communication services over the Internet; Streaming of audio material on the internet; Streaming of audio, video, and video-on-demand material on the Internet; Streaming of audio, visual and audiovisual material via a global computer network; Streaming of video material on the internet; Telecommunication services, namely, transmission of voice, data, graphics, images, audio and video by means of telecommunications networks, wireless communication networks, and the Internet; Transmission and delivery of text, data, images, and video via wireless communication networks and the Internet; Electronic transmission of audio by means of the Internet; Electronic transmission of audio data via the Internet; Electronic transmission of data by audio-visual apparatus; Electronic transmission of data via the Internet; Transmission of data, audio, video and multimedia files by telecommunication means; Transmission of data, audio, video and multimedia files, including downloadable files and files streamed over a global communications network; Transmission of video by means of the Internet; Transmission of video data via the Internet; Transmission of voice by means of the Internet; Video broadcasting; Video broadcasting services over the Internet or other communications network featuring the uploaded, posted and tagged videos of others; Video communication services in the nature of video broadcasting; Video telephone services; Video uploading services in the nature of video broadcasting services over the Internet featuring the uploaded videos of others; Voice transmission services by means of telecommunications networks; Wireless broadband communications services; Wireless digital messaging services

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Administering and maintaining databases and virtual computing environments for others, namely, computer services for providing virtual database servers of variable capacity to third party computing and data storage facilities; Application service provider (ASP) featuring software for use in transmission of text, data, images, audio, and video by wireless communication networks and the Internet; Application service provider (ASP) featuring software for use with services featuring computer software for electronic messaging and wireless digital messaging; Application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices; Application service provider (ASP), namely, hosting computer software applications and databases of others; Application service provider, namely, hosting, managing, developing, and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Computer services, namely, cloud hosting provider services for electronic databases and virtual computing environments of others; Computer hardware and software design; Computer services, namely, acting as an application service provider in the field of information management to host computer application software for the purpose of creating, authoring, receiving, distributing, playing, downloading, transmitting, receiving, editing, extracting, displaying, encoding, decoding, storing and organizing text, graphics, images, audio, video, and multimedia content; Computer services, namely, cloud hosting provider services; Computer security services, namely, enforcing, restricting and controlling access privileges of users of computing and network resources based on assigned credentials; Computer services, namely, hosting, managing, provisioning, scaling, administering, maintaining, monitoring, securing, encrypting, decrypting, replicating and backing up databases and cloud computing environments for others in the nature of computer project management services; Computer services, namely,

monitoring the web sites of others to improve their scalability and performance; Computer services, namely, providing search engines for obtaining data on a global computer network; Computer services, namely, providing virtual application, web, file, database and storage servers of variable capacity to others; Computer services, namely, providing virtual data storage and caching to others; Computer security services, namely, unauthorized user and unauthorized software intrusion detection and protection by scanning and penetration testing of computers and networks to assess information security vulnerability; Computer services, namely, web traffic filtering, namely, monitoring, testing, analyzing, and reporting on the Internet traffic control and content control of the web sites of others; Computer software rental; Computerized security services, namely, electronically monitoring, detecting and reporting on suspicious and abnormal patterns of computer network access or activity in the nature of protecting data and information from unauthorized access; Information technology consultancy and advisory services relating to the aforesaid services; Information technology consulting and providing information in the fields of information technology, cloud computing, web design services, computer software, software as a service (SaaS), artificial intelligence, software development, game development, database design and development, development of data processing programs for others, electronic data storage, data warehousing, electronic storage services for archiving electronic data, data security, computer network configuration, and computer software development in the field of mobile computing and the Internet of Things (IoT); Computer services, namely, creating computer network-based indexes of information, websites and resources available on global computer networks for others; Cross-platform conversion of digital content into other forms of digital content; Technical support services, namely, database and application migration services; Data backup and data restoration services; Data encryption and decryption services; Data mining services; Data warehousing; Design and development of camera systems; Design and development of computer hardware and software; Design and development of computer systems; Design and development of data storage systems; Digital compression of computer data; Electronic data storage; Electronic storage of audio files; Electronic storage of data; Electronic storage of images; Electronic storage of videos; Hosting a website for the electronic storage of audio files; Hosting a website for the electronic storage of data; Hosting a website for the electronic storage of images; Hosting a website for the electronic storage of videos; Hosting an online community website featuring shared communications between community members interested in technology, cloud computing, web services, software, software as a service (SaaS), artificial intelligence, software development, game development, databases, data processing and analytics, data storage, data warehousing, data archiving, data and information security, networking, mobile computing, and the Internet of Things (IoT); Hosting of digital content on the Internet; Information technology (IT) consulting services; Information technology support services, namely, help desk services; Installation, maintenance and repair of computer software; Monitoring the technical function of camera systems by remote access to ensure proper functioning; Monitoring of computer systems and databases for security purposes in the nature of protecting data and information from unauthorized access; Monitoring of computer systems by remote access to ensure proper function; planning, design and implementation of computer technologies for others; Providing a website featuring information relating to computer software development for accessing and transmitting data and content among consumer electronics devices and displays; Providing authentication services via online non-downloadable software for establishing and transmitting security credentials for domain name services; Providing customized computer searching services, namely, searching and retrieving information at the customer's specific request via the Internet; Providing customized computer searching services, namely, searching and retrieving information at the customer's specific request via voice commands and audio responses to voice commands through voice recognition software, speech to text conversion software, database synchronization software, voice-enabled software applications, computer software for dictation, computer software for providing travel directions, and

computer software for making consumer purchases and reservations at hotels and restaurants; providing temporary use of on-line non-downloadable computer software for real time bidding processes; Providing temporary use of on-line non-downloadable software for electronic transactions through online real-time bidding for buyers and sellers of goods and services via a global computer network; Providing search engines for obtaining data via communications networks; Providing temporary use of on-line non-downloadable software for the management and transmission of information; Providing temporary use of on-line non-downloadable software for real-time bidding processes; Providing temporary use of on-line non-downloadable software for the management and transmission of data; Providing temporary use of online non-downloadable software for recording, viewing, storing, sharing, and analyzing online audio and video data; Providing user authentication services using single sign-on and multi-factor technology for accessing a secure virtual computing environment; Providing virtual computer systems and virtual computer environments through cloud computing; Providing weather information; Provision of technical support in the operation of camera systems in the nature of troubleshooting of computer software problems; Provision of technical support in the operation of computer systems in the nature of troubleshooting of computer software problems; Remote online backup of computer data; Scaling services, namely, providing variable computing and electronic data storage capacity to others; Server hosting; computer time-sharing services; Software as a service (SaaS) featuring business analytics software for collecting and analyzing data to facilitate business decision making; Software as a service (SaaS) services featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices; Software as a service (SaaS) services featuring computer software for use to connect and control internet of things (Iot) electronic devices; Software as a service (SaaS) services featuring cryptography software; Software as a service (SaaS) services featuring database management software; Software as a service (SaaS) services featuring e-commerce software to allow users to perform electronic business transactions via a global computer network; Software as a service (SaaS) services featuring game engine software; Software as a service (SaaS) services featuring game software; Software as a service (SaaS) services featuring network access management and monitoring software; Software as a service (SaaS) services featuring network security software; Software as a service (SaaS) services featuring network threat detection software; Software as a service (SaaS) services featuring search engine software; Software as a service (SaaS) services featuring software development tools; Software as a service (SaaS) services featuring software for application development, testing, deployment and management; Software as a service (SaaS) services featuring software for collecting, editing, modifying, organizing, synchronizing, integrating, monitoring, transmitting, storage and sharing of data and information; Software as a service (SaaS) services featuring software for computer network management and automation; Software as a service (SaaS) services featuring software for configuring, provisioning and scaling data cache storage for databases; Software as a service (SaaS) services featuring software for converting text to speech; Software as a service (SaaS) services featuring software for creating searchable databases of information and data; Software as a service (SaaS) services featuring software for data backup, recovery and archiving; Software as a service (SaaS) services featuring software for data processing; Software as a service (SaaS) services featuring software for data protection and data security; Software as a service (SaaS) services featuring software for data transfer and migration; Software as a service (SaaS) services featuring software for data warehousing; Software as a service (SaaS) services featuring software for data, desktop and application streaming; Software as a service (SaaS) services featuring software for deploying live and on-demand video content; Software as a service (SaaS) services featuring software for enabling electronic devices to operate and communicate locally while retaining the benefits of analytics and high-level services in the cloud; Software as a service (SaaS) services featuring software for event logging,

reporting, analysis and alert generation; Software as a service (SaaS) services featuring software for image analysis, identification, processing, conversion, cropping, resizing and enhancement; Software as a service (SaaS) services featuring software for improving database performance; Software as a service (SaaS) services featuring software for inserting and removing advertising and other content into video streams; software as a service (SaaS) services featuring software for digital rights management; Software as a service (SaaS) services featuring software for logging changes within a database; Software as a service (SaaS) services featuring software for managing and deploying virtual machines to a cloud computing platform; Software as a service (SaaS) services featuring software for managing software development projects and teams; Software as a service (SaaS) services featuring software for monitoring cloud and application performance; Software as a service (SaaS) services featuring software for monitoring computer network access and activity; Software as a service (SaaS) services featuring software for monitoring, tracking, logging, analyzing, auditing and reporting in the field of regulatory and information security compliance; Software as a service (SaaS) services featuring software for monitoring, tracking, logging and analyzing computer network events, user activity, changes to resource activity and security statistics; Software as a service (SaaS) services featuring software for operating and managing call centers and contact centers; Software as a service (SaaS) services featuring software for provisioning and dynamically scaling video processing, delivery, and storage services; Software as a service (SaaS) services featuring software for running cloud computing based applications; Software as a service (SaaS) services featuring software for searching databases; Software as a service (SaaS) services featuring software for speech, facial and optical character recognition; Software as a service (SaaS) services featuring software for storing, retrieving, caching, extracting, formatting, structuring, systematizing, organizing, indexing, processing, querying, analyzing, replicating and controlling access to data; Software as a service (SaaS) services featuring software for time-shifted television viewing; Software as a service (SaaS) services featuring software for use in big data analysis; Software as a service (SaaS) services featuring software for use in cloud infrastructure management and automation; Software as a service (SaaS) services featuring software for video streaming and for high-speed formatting and processing of audio and video streams; Software as a service (SaaS) services featuring software for virtualization; Software as a service (SaaS) services featuring software platforms for providing customer service and customer support; Software as a service (SaaS) services featuring software that automates the processing of un-structured, semi-structured and structured information and data stored on computer networks and the Internet; Software as a service (SaaS) services featuring software that provides access to cloud-based scalable computing resources and data storage; Software as a service (SaaS) services featuring software that provides real-time, integrated business management intelligence by combining information from various databases; Software as a service (SaaS) services featuring software to manage, connect, and operate internet of things (IOT) electronic devices; Software as a service (SaaS) services featuring software used to process, convert, transcode, encode, decode, encrypt, decrypt, distribute and manipulate digital video, image and audio files; Software as a service (SaaS) services featuring user authentication software; Software configuration management services; Technical support services, namely, troubleshooting in the nature of diagnosing computer hardware problems all related to hardware for accessing and transmitting data and content among consumer electronic devices and displays; Technical support services, namely, troubleshooting of computer software problems

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Providing information and advice on hotels and restaurants to tourists and business travelers; Providing information in the field of temporary lodging and accommodations for businesses, consumers, and travelers; Providing on-line reviews of restaurants and hotels; Providing personalized information about hotels and temporary accommodations for travel via the Internet; Providing reviews of restaurants; Restaurant reservation services
