For [Filled ink cartridges]

International Classes 2 - Primary Classes **US Classes** 6, 11, 16 **International Class Title** Paints

For Analyses and expert appraisals in financial matters; financial engineering, namely, arranging financing for others, banking matters, capital formation and investment consultation, financial investment in industrial and commercial companies; evaluations, estimates, brokering and management of real property; 24-hour/7-day on-line information and assistance services regarding the brokerage for hire-purchase of aircraft engines and modules for them; 24-hour/7-day on-line information and assistance services for the brokerage for hire-purchase of aircraft engine thrust reversers and pods and modules for them; brokerage for hire-purchase services for aircraft engines; brokerage for hire-purchase services for aircraft engine thrust reversers and pods and modules for them

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For All terrestrial, nautical, aeronautical and space vehicles, namely, automobiles, trucks, sport utility vehicles, buses for use in the transport of persons and goods, space vehicles, aircraft, aerostats, helicopters, missiles, personal watercraft, namely, boats; aeronautic and astronautic vehicles, namely, space launches and rockets for space use; space shuttles for use in space, equipped with hypersonic propulsion means; transmission and propulsion couplings and devices, namely, shafts, gear boxes, motors of all kinds for terrestrial vehicles, namely, gas turbines, industrial turbines, internal combustion, electrothermal, rocket-propelled and combined-propulsion engines; friction devices in the nature of friction clutches, friction brakes, and anti-friction bearings all for airborne and terrestrial vehicles, clutch and braking devices all for airborne and terrestrial vehicles, automobiles and railways; landing gear lifting devices, airborne vehicle braking devices; suspension systems for vehicles, shock absorbers for vehicle suspensions, wheels, brakes and braking regulators for vehicles, brake linings for vehicles, aircraft landing gear, hydraulic circuits for vehicles; unmanned aircraft, drones and airborne vehicles; instrument panels; flight control columns with integrated levers

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Hydraulic motors, hydraulic and pneumatic cylinders, hydraulic accumulators, and valves for machines; machines for producing parts for use in aircraft engine pods and thrust reversers, brakes, satellites, rockets, missiles, turbojet, ramjet and pulsejet engines, rocket-propelled engines, industrial turbines, draping and winding machines; bearings and thrust bearings for machines and machine tools; cartridges containing filters for machines used in the aeronautical and space fields; filters for machines used in the aeronautical and space fields; industrial robots; heat exchangers being parts of machines; pumps for machines used in aeronautical and space fields, fluid pumps for machines used in aeronautical and space fields, turbopumps and valves for fluids, hydrazine motors, bi-propellant motors, motors with catalyst-enhanced power; thrusters being parts of machines; loading mechanisms for aircrafts and aircraft engines; turbomolecular pumps; transmission and propulsion members and couplings being parts of machines; pods and thrust reversers for aircraft engines; components for these pods and thrust reversers; motors of all kinds for stationary or mobile installations, except motors for terrestrial vehicles, turbojets, turboprops, turbocompressors and gas turbomachines, internal-combustion, electrothermal, jet, nuclear energy, combined-propulsion and rocket-propelled engines, cryogenic rocket engines, solid propellant rocket engines for satellite launchers and for ballistic and tactical missiles; ion motors, electric motors, plasma motors, lubrication systems for motors; pumping and compression sets; pump drive motors; compressors for electricity generators; auxiliary power units for aircraft; cogeneration power stations; plasma sources, namely, machines for the deposit of coating or for welding, such as machines of metallization or robots of welding, solar panel mechanical parts and components, namely, devices made up of parts assembled or connected one to the other and in particular fulfilling the functions of orientation and/or transmission of movement, namely, motors, gears and drives for orientating solar panels, metal propellant tanks, metal surface tension tanks, metal self-pressurized tanks being parts of machines; aircraft engine ejection systems, aircraft engine thrust reversers; aircraft seat actuators; mechanical braking devices being parts of machines; components for these machines, pumps, engines, motors, systems and thrust reversers

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For [Weapons, namely, firearms; munitions and projectiles, explosive substances, in the nature of powders, primings; rocket-propelled ballistic missiles; electropyrotechnic initiators for aeronautical and space fields, pyrotechnic initiators using laser beam energy transmission for pyrotechnic missile devices; optopyrotechnic cartridges for guns, missiles]

International Classes 13 - Primary Classes **US Classes** 2, 9 **International Class Title** Firearms

For [Atomic piles, nuclear reactors; heat accumulators and recuperators; thermal exchangers and heat exchangers for use in space propulsion; heat treatment furnaces; intermediate trays and spacers for use in furnaces, all made of composites having a carbon or ceramic preform in the nature of fibrous reinforcement texture; heating resistors, microgravity ovens for industrial use; Bridgeman furnaces, isothermal furnaces, thermal protection devices in the form of furnace coatings and arrangements sold as a part of furnaces, in the nature of heat diffusion collars and discs, excluding filters; active-carbon absorption filtering units for industrial use]

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For [Thermostructural composites, for use in pods, thrust reversers for aircraft engines, satellites, rockets, missiles, aerospace vehicles, aircraft engines and brakes; synthetic and artificial resins for aeronautical and space parts; plastic in powder, liquid or paste form, for industrial usage; chemicals for use in industry, science and photography; thermosetting plastic refractory materials, carbon-carbon composites for use in friction parts; chemicals, namely, fire extinguisher compounds; chemical substances and preparations for the toughening and welding of metals; chemicals, namely, cellular plastic structures used as structural reinforcements in the aeronautic and astronautic fields; carbon-carbon for aeronautical and space parts, carbon-silicon and silicon-silicon composites for engines and more particularly for aeronautical and aerospace constructions, and also for friction parts; brake fluids; chemicals, namely, organic matrix composites (OMC) for aeronautical and space parts and ceramic matrix composites (CMC) for aeronautical and space parts; absorbing carbons for aeronautical and space parts, chemicals for the impregnation of textile materials]

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For [Technical advice services on the methodologies to be used in the commercial management of engines in the aeronautical and space fields]

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Repair, overhaul, servicing and maintenance for all types of aeronautical and space vehicles, all types of aircraft engines, aircraft engine thrust reversers and pods, space launchers, landing gear, hydraulic and electrohydraulic equipment and systems, vehicle wheels, brakes, suspensions, propellers, and their components; construction of industrial buildings and test beds for propulsion units for rocket motors and aircraft engines; reconditioning, refurbishment, repair, servicing, maintenance and reconditioning of aircraft engines, pods, thrust reversers, reverser modules, aircraft ejection systems, space propulsion units, apparatus, instruments, systems, and electrical and electronic material and equipment; repair and reconditioning of hot parts of furnaces, heating resistors and all components made of composites with a high thermal resistance, combustion chambers, rocket chambers and thrust nozzles; repair of electrical and electronic apparatus, instruments, systems, material and equipment used in the aeronautical and space fields; repair and reconditioning of laminated suspension elements for nozzle bearings, for off-shore platforms and drive shafts; 24-hour/7-day on-line assistance services for the repair, overhaul, refurbishment, servicing and maintenance for aeronautical engines, pods and thrust reversers, reverser modules, aircraft ejection assemblies

and space propulsion units; services for installing and repairing electronic equipment for the modernization of aircraft, missiles, ships and submarines; maintenance and repair of aeronautical equipment; installation and repair of telephones; installation and repair of very high data-rate networks; technical assistance in the methodology to be used for the repair, overhaul, servicing, reconditioning and maintenance of thrust reversers, pods and engines in the aeronautical and space fields

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Electrical and electronic brake controllers, suspension damper and stabilization control electronics; electronic landing gear controls; fire extinguishers; solenoid valves and servovalves, solenoid and servovalve assemblies, servomechanisms, namely, controlled volume especially electrical pumps, test beds for these servomechanisms; electrical and electronic apparatus and instruments, namely, potential computers, full-authority digital engine control (FADEC) computers, braking, temperature, pressure, vibration-analysis and flight-control computers; electrical, electronic and magnetic pressure, velocity, displacement, temperature, position and vibration sensors, sensors and transducers for photography, cinema, optics, weighing, measurement, signals and controls; components for these sensors; electronic data processing circuit boards; protective sheaths for electrical wires, cables, harnesses, electrical screens and connectors, interrupters, switches, circuit breakers, contactors, transformers, rectifiers and current converters; optical fibres; electronic systems and equipment, on board or otherwise, for data acquisition and processing, for use in aeronautical and space fields, namely, software, recorded computer programs, data banks; electrical and electronic maintenance and testing material and equipment, on board aircraft or engines, fixed to test beds or portable for work on the ground, for reading and interpreting the data from computers and sensors, namely, software and recorder computer programs used in aeronautical and space fields; radio communication, telemetry, remote-control; fixed, stationary and movable test beds for all types of motors; software and recorded computer programs used in the aeronautical and space fields, software for help in the management of a set of aircraft engines and the operation of test beds; software for security of intranet and internet transactions; software for telephone ring tones and computer games; magnetic, optical and digital recording media, namely, CD, CD-Roms, DVD, USB keys; solar cells; radars and antennas; electrical and electronic equipment and instruments for navigation, guiding, piloting and stabilization of airborne, terrestrial, maritime and space vehicles, namely, binoculars, compasses, radar, receiving weather, instrument panels, assemblies for automatic piloting and flight control, fly-by-wire systems comprised of attitude reference units, redundant flight calculators and electric actuators; digital calculators; computing hybrid inertial navigation system comprised of inertial sensors, GPS sensors, GPS receivers, gyroscopes, gyrometers and Kalman filters; GPS flight data acquisition modules; digital mapping systems; real time image transmission system comprised of digital and numerical transmitters and receivers; gyroscopes; accelerometers; compasses; altitude correlation resetting apparatus; odometers, dopplers; flight-control helmets and display equipment for civil and military applications; database equipment for the preparation, tracking and recovery of terrestrial, airborne and maritime vehicle missions; digital mapping apparatus; electronic components for use in airborne, terrestrial, maritime and space vehicles, namely, digital universal serial bus hardware; mission computers; head-up display equipment; telemeters; air-data computers; radio altimeters; data transfer units; guiding, remote-control and automatic piloting equipment and apparatus, namely, fly-by-wire systems comprised of attitude reference units, redundant flight calculators and electric actuators, digital calculators, automatic flight control system, hybrid inertial navigation system and GPS, flight data acquisition modules, digital mapping systems; computer-aided maintenance systems (ACMS); data analysis stations (AGS); cockpit control systems, namely, instrument panels, pilot's control wheel and stick, sensors for flight control, trim actuator and throttle; automatic

piloting equipment and systems, namely, computers or modules and automatic piloting control station, fly-by-wire computers, electric trim systems, namely, automatic or pilot controlled flight control system capable of providing remote control of the main surfaces or trim devices; piloting actuators; electronic sensors for equipment and instruments used in the field of aircraft flight control; slat and flap control systems; brake and thrust reverser control actuators; horizontal plane control systems; yaw dampers; electrical distribution systems; electrical converters; automatic helicopter flight control systems; flight control computers; piloting actuators; automatic piloting computers; attitude and heading inertial reference units; flight data acquisition systems; optical apparatus, equipment and instruments for civil and military applications, namely, mirrors, aerial reconnaissance lenses, lenses for laser machining, telescopes, camera lenses, sunshade, precision antennae, passive radiators, semiconductor and superconducting components intended for infrared detection; high-precision optical devices; microcoolers; piezoelectric scanners; infrared cameras; video cameras; optical or infrared detection equipment and apparatus, namely, binoculars, radar, cameras, sights; thermal imagers; infrared surveillance and tracking systems; periscopes; long-range sights and telescopes; gyro-stabilized sights; holographic sights; remote-control equipment and apparatus; antennas; secure transmission systems, namely, recorded software and boxes for wired encrypted telephony, internet transaction security and GSM encrypted telephony; telecommunication and encryption terminals; electronically controlled cameras and microphones for use as observation equipment by foot soldiers and civil security people; thermal imaging sensors; day/night surveillance systems consisting of radars, binoculars, cameras; high-precision optical devices; gyroscopic stabilization systems; real-time digital image transmission systems consisting of digital set top boxes, digital TV; binoculars for day/night vision; batteries and storage cells; apparatus for recharging electrical storage cells; airborne surveillance systems consisting of electronically controlled cameras and audio detectors for protection of urban and rural geographic areas and industrial installations; gyro-stabilized and steerable optronic platforms; target illuminators; geographical information generation systems, namely, satellite system consisting of mapping databases, GPS software in the nature of navigation, location, tracking, mapping and timing software, GPS sensors; optical components; astronomical-mirrors; space optic apparatus and instruments; airborne reconnaissance optics; optical metrology; fingerprint and biometric identification systems, terminals and software consisting of fingerprint identification terminal dedicated to physical access control, terminal including all components necessary for capturing fingerprints, for the storage of fingerprints and identification of an individual; electronic module with biometric capability for regulating physical access control consisting of a fingerprint sensor, a powerful microprocessor for processing of fingerprints, an I/O interface and a software development kit; biometric sensors; access control, identification and authentication control equipment and apparatus consisting of modular multi-service system for the access control with or without cards, with or without biometric terminals, with or without checking by video images; network access protection equipment and apparatus consisting of cryptology, and particularly Public Key Infrastructures, encrypted access to the Internet network and creation of a Virtual Private Network (VPN) by using connection boxes, message service and secure browsing on Internet; electronic payment terminals; automatic machine payment modules; secure keyboards; card-reading terminals for authenticating and obtaining associated rights; automated check-reading apparatus; magnetic memory cards and microprocessor cards; speedometers and speed control radars; encrypted telephones and fax machines; electrical surveillance equipment and apparatus; alarm instruments; tele-surveillance terminals; encryption and decryption equipment and apparatus; computer games terminals; optical readers for checking lottery tickets and counterfeit money detectors; electrical and electronic data recording, processing, transmission, storage and output apparatus, for sound and images consisting of phones, mobile phones, faxes, photocopiers, servers, printers, TV, radio terminals; electrical and power cables; industrial cables; fireproof cables; telecommunication cables; fibre-optic cables; apparatus for electric and optical cable junctions; equipment

and apparatus for counting and sorting individuals, objects or vehicles, electronic counters for metering energy, liquid and heat, namely, electronic meters; traffic regulation and illuminated signs; retractable security gates for limiting the access of motor vehicles; electronic control panels and display panels; modems; routers; residential security gates; transmission apparatus using power line technology, namely, adapters based on the Power Line Technology (PLT); telephone concentrator equipment and apparatus for voice, data and images; access routers; multiplexers and cross-connection equipment; IEEE 802; l l b network access equipment; GSM/GPRS network terminations; television transmitters and retransmitters; telephone transmitters; multimedia terminals; fax machines; scanners; photocopiers; printers; multifunction terminals; text processing machines; video projectors; cordless telephones; high definition television; retro-projection televisions; LCD screen televisions; television sound, image and data decoding and recording apparatus and equipment, namely, decoders; hard-disc digital television recorders, prepayment mechanisms for television sets; projection screens; video screens; projection equipment and apparatus, namely, video projectors; personal CD players; cellular radio network testing tools, namely, computers, computer software, computer devices; pressure regulators for hydraulic fluids used in engines and motors in the aeronautical and aerospace fields

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For [Electronic transmission of messages and data via radiotelephone and/or television and telecommunications; satellite communications services; telematic information transmission services; electronic data transmission; communications services, namely, electronic transmission of data and documents among users of computers; transmission of information over computer networks, particularly the internet; on-line consultations in the field of telecommunications, namely, mobile and cordless telephony, fax transmissions, access networks, optical networks, radio communication networks, digital television networks]

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For [Treatments of materials, namely, heat and surface treatments of metals and metal alloys; treatments of composites by silicidation, carbonization, densification and physical-chemical treatments of fibres and textured products; air purification services, services for the sizing or finishing of textiles, for the treatment of textiles, the activation of fibres, textiles and textured products, for the recycling of waste; physical-chemical treatments for the oxidation protection or corrosion protection of non-metallic composites]

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For [Raw fibrous textile materials and fibrous textile materials of high mechanical, thermal or friction resistance intended for engines and more generally for aeronautic and aerospace constructions, for biomaterials and for friction parts such as brakes and clutches]

International Classes 22 - Primary Classes **US Classes** 1, 2, 7, 19, 22, 42, 50 **International Class Title** Cordage and Fibers

For Engineering consultation and advice for data processing services, namely, exploitation of technical data; computer software design, computer programming, maintenance, repair and rental of computer software, all used in the aeronautical, space, telecommunications and defense fields, research and development of new products for third parties, material testing, machine testing; database design in all technical, aeronautical, computing and automobile fields, and in the field of telecommunications and multimedia activities; research and development of new products in relation with to aerodynamics,

turbo machines, high-temperature metallurgy, special industrial brazing processes, welding techniques, laser applications and data acquisition systems for test beds; testing of new products, namely, airplane, helicopter and missile flight testing and engine testing; research and development of new products for others, research and development of engines for others; technical research in mechanical engineering, scientific and industrial research; conducting feasibility studies by engineers, conducting technical project studies; advice and professional consultancy services relating to engineering; engineering and technical advice services on evaluation, estimation and research in the technologies used on aircraft engine thrust reversers and pods; materials testing; calibration services in the fields of metrology, chemistry and morphology and in the thermal field; development of software and computer programming used in the aeronautical, space, telecommunication and defense fields; computer software design studies for software used in the aeronautical, space, telecommunication and defense fields; software installation used in the aeronautical, space, telecommunication and defense fields; on-line technological consultations in the fields of biometry and computers used in the aeronautical, space, telecommunication and defense fields, legal services

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For [Metal lock mechanisms and metal locking devices other than electrical ones for use in aeronautical and space industries; common unprocessed and semi-processed metals and their alloys used in aircraft engine pods and thrust reversers, aircraft engines, brakes, satellites, rockets, missiles; alloys obtained by powder metallurgy, alloys of common metals obtained by hot isostatic pressing; metallic matrix composite materials for use in the manufacture of aircrafts, aircraft engines and aerospace vehicles; metal couplings and fittings for aircraft engines, for turbines, for turbine engines, for pods and thrust reversers; metal pipes, steel balls]

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods
