GOODS AND SERVICES INFORMATION

For Providing of training, namely, professional coaching of teachers in the field of classroom instructional methods; providing of training in the fields of security, surveillance, education, and business information; providing of training in relation to security and surveillance cameras; providing of training in relation to computer hardware, computer software, computer systems and computer platforms related to security, surveillance, educational information, or business information; providing pre-recorded nondownloadable video and audio in the field of education presented via a global computer network; providing pre-recorded non-downloadable video and audio in the field of education presented via wireless networks; providing non-downloadable playback of video and audio in the field of education through the internet or mobile telephone communication; providing non-downloadable video and audio footage from security or surveillance cameras presented to mobile communication devices via a global computer network or wireless networks, for educational purposes in the fields of retail, teaching, healthcare and marketing; providing non-downloadable video and audio footage from security or surveillance cameras presented to mobile communication devices via a global computer network or wireless networks, for educational or training purposes in the fields of retail, teaching, healthcare and marketing; providing non-downloadable video and audio footage from security or surveillance cameras presented to mobile communication devices via a global computer network or wireless networks, for the purposes of providing educational information for use in relation to home or building automation systems; providing non-downloadable video and audio footage from security or surveillance cameras through the internet or

mobile telephone communication, for educational purposes in the fields of retail, teaching, healthcare and marketing; providing non-downloadable video and audio footage from security or surveillance cameras through the internet or mobile telephone communication, for the purposes of providing educational information for use in relation to home or building automation systems; providing a website featuring non-downloadable videos, namely, video footage from security or surveillance cameras, for educational purposes in the field of retail, teaching, healthcare and marketing; providing a website featuring non-downloadable videos, namely, video footage from security or surveillance cameras, for the purposes of providing educational information for use in relation to home or building automation systems; education and educational services, namely, professional coaching of teachers in the field of classroom instructional methods; educational assessment services; training of teachers in the field of teaching methods; educational and training services, namely, providing training and performance assessment programs for the observation and review of teachers, classrooms and lessons analyzing educational data for others to provide an appraisal of successful lesson outcomes, and providing training services for the professional development of teachers; providing a web site featuring information for educational or training purposes in the field of teacher training, namely, live images of classrooms from surveillance cameras; the provision of information on education and education data for purposes of education and training accessible by means of video surveillance as a service (VSaaS) systems; providing non-downloadable video and audio footage from surveillance cameras through the internet or mobile telephone communication, for the purposes of providing educational information for use in relation to the observation and review of teachers, classrooms and lessons, teacher self-assessment of educational lessons, the appraisal of successful lesson outcomes, and the professional development of teachers; the electronic monitoring of classrooms, lessons, teachers and students, for the purposes of providing information on education for use in relation to the observation and review of teachers, classrooms and lessons, teacher self-assessment of educational lessons, the appraisal of successful lesson outcomes, and the professional development training requirements of teachers; educational and training assessment services, namely, the observation and review of medical practitioners, healthcare locations and medical procedures, for the purpose of identifying professional development training requirements, and education and training requirements; providing non-downloadable playback of video and audio footage of medical practitioners, healthcare locations and medical procedures from surveillance cameras, for the purposes of identifying professional development, education and training requirements; the electronic monitoring of medical practitioners, healthcare locations and medical procedures, for the purposes of identifying professional development training requirements, and education and training requirements amongst medical and healthcare professionals; educational and training assessment services, namely, the observation and review of retail, hospitality and leisure locations, for the purpose of identifying professional development training requirements, and education and training requirements amongst staff and management; providing non-downloadable playback of video and audio footage of retail, hospitality and leisure locations from surveillance cameras, for the purposes of identifying professional development, education and training requirements amongst retail, hospitality and leisure industry staff and management; the electronic monitoring of retail, hospitality and leisure locations, for the purposes of identifying professional development training requirements, and education and training requirements amongst retail, hospitality and leisure industry staff and management; advisory, support and consultancy services relating to all of the aforesaid, namely, consulting services and advice about education and training; providing non-downloadable video and audio footage from security or surveillance cameras presented to mobile communication devices via a global computer network or wireless networks via video on demand transmission services, for marketing or business intelligence purposes; providing a website featuring video and audio footage from security or surveillance cameras through the internet or mobile telephone

communication, for marketing or business intelligence purposes; providing a website featuring non-downloadable videos, namely, video footage from security or surveillance cameras, for marketing or business intelligence purposes; providing non-downloadable playback of video and audio footage of retail locations from surveillance cameras, for the purposes of identifying possible improvements to the business or customer experience in the field of business management for the retail industry; providing an Internet website portal in the field of education; providing a website featuring non-downloadable videos, namely, video footage from security or surveillance cameras for use in the fields of retail, teaching, healthcare and marketing; providing non-downloadable video and audio footage from security or surveillance cameras presented to mobile communication devices via a global computer network or wireless networks, for the purposes of computerized home or building automation; providing non-downloadable playback of video and audio footage from security or surveillance cameras through the internet or mobile telephone communication, for the purposes of computerized home or building automation; providing a website featuring non-downloadable videos, namely, video footage from security or surveillance cameras, for the purposes of computerized home or building automation; providing non-downloadable video and audio footage from security or surveillance cameras presented to mobile communication devices via a global computer network or wireless networks, for security or surveillance purposes; providing non-downloadable video and audio footage from security or surveillance cameras presented to mobile communication devices via a global computer network or wireless networks, for the purposes of home or building environmental access control; providing non-downloadable playback of video and audio footage from security or surveillance cameras through the internet or mobile telephone communication, for security or surveillance purposes; providing non-downloadable playback of video and audio footage from security or surveillance cameras through the internet or mobile telephone communication, for the purposes of home or building environmental access control; providing a website featuring nondownloadable videos, namely, video footage from security or surveillance cameras, for security or surveillance purposes; providing a website featuring non-downloadable videos, namely, video footage from security or surveillance cameras, for the purposes of home or building environmental access control

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Providing business intelligence services; providing business intelligence analytics and business data analysis in the fields of retailing, sales and marketing, health and safety, remote monitoring, security, surveillance, human resources, monitoring of people and property, and the field of the business management and operation assistance of businesses, retail stores, offices, laboratories, hotels, casinos, airports, shopping malls, and other commercial premises; data processing services; business intelligence analytics and business data analysis derived from audio-visual recordings and live or recorded footage and data from cameras and video cameras; providing business management information in connection with consulting and advisory services in the field of strategic planning; business consultancy and advisory services; business management advisory services; business process management and consulting; analysis of business information; analysis of business statistics; business management analysis of business management systems; analysis of market research data and statistics; business intelligence services to facilitate the management or operations of retail stores, offices, laboratories, hotels, casinos, airports, shopping malls, or other commercial premises; business information management, namely, electronic reporting of business information; business analytics, namely, business investigations, evaluations, expert appraisals, information and research, trade spend business management; providing business intelligence services in the fields of security, surveillance, marketing, and the field of management and operation of retail stores, offices, laboratories, hotels, casinos, airports, shopping malls, or other

commercial premises; outsource service provider in the field of business analytics; services relating to the recordal, compilation and exploitation of business data, namely, analyzing and compiling business data; the provision and compilation of databases and commercial information for business research and marketing; billing services; billing services in the fields of security, surveillance, or business information; providing a website featuring business information; the electronic monitoring of people and of goods, for marketing or business intelligence purposes, namely, electronic monitoring of retail stores, offices, laboratories, hotels, casinos, airports, shopping malls, or other commercial activities for market research; business management services provided for the retail industry, namely, the observation and review of retail locations for the purposes of identifying possible improvements to the business or customer experience; business management services provided for the retail industry, namely, the electronic monitoring of retail locations, for the purposes of identifying possible improvements to the business or customer experience; the provision of business information and data relating to the retail industry accessible by means of video surveillance as a service (VSaaS) systems; computerised point-of-sale data collection services for retailers; information, advisory, and consultancy services relating to all of the aforesaid, namely, relating to business and management or business administration; providing an Internet website portal in the field of business information; providing a web site that features information to facilitate the business management and operation assistance of retail stores, offices, laboratories, hotels, casinos, airports, shopping malls, or other commercial premises, namely, live images from security or surveillance cameras

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For A computer software platform for the remote management of security cameras, surveillance cameras, access control systems, security-related software, security-related hardware and security-related equipment; a computer software platform specially adapted for use with security, CCTV or surveillance cameras, consisting of computer software for the controlling and management of security, CCTV or surveillance cameras, and also consisting of computer software for the analysis of video footage from security, CCTV or surveillance cameras and for the consequent provision of security-, marketing-, operations-, educational-, training-, medical-, health-, retail- or management-related analytics, information and data, and also specially adapted for use with point of sale apparatus; a computer software platform specially adapted for use with security, CCTV or surveillance cameras, consisting of computer software for the management and viewing of live or recorded images, video footage and audio feeds from security, CCTV or surveillance cameras, with such software including motion detection, target tracking, target identification, or facial recognition capabilities, and also consisting of recorders or remotely-located recorders of images, video footage and audio feeds from security, CCTV or surveillance cameras; a computer software platform for the remote management and viewing of security, CCTV or surveillance cameras, via smartphones, tablet computers or portable computers; a computer software platform for the remote controlling of security, CCTV or surveillance cameras, via smartphones, tablet computers or portable computers; a computer software platform for use in conjunction with security, CCTV or surveillance cameras, featuring imaging analytics, target acquisition, target tracking, target feature analysis, target feature interpretation, facial recognition, access control, command-and control, biometric, and security capabilities; a computer software platform for the management and viewing of live or recorded images, video footage and audio feeds from security, CCTV or surveillance cameras, with such software having motion detection, target tracking, target identification, or facial recognition capabilities; computer software for the integration of security systems with point of sale apparatus; computer software for the analysis of video footage and for the consequent provision of security-, marketing-, operations-, educational-, training-, medical-, health-, retail- and management-related analytics, information and data; computer software for the

integration of footage from multiple security cameras or surveillance cameras to enable users to view a seamless and comprehensive image of buildings, commercial premises, offices, retail stores, laboratories, hotels, casinos, airports, shopping malls, hospitals, rail stations, vehicles, individual items of property or other assets, and also to enable the deconstruction of the seamless image to allow users to focus on particular sections thereof; computer software to enable the collection, editing, organizing, modifying, transmission, storage and sharing of data and information; facilities management software, namely, software to control building environment, access and security systems; software to control building environmental, access and security systems; control system for the remote observation, management and operation of security systems and surveillance cameras, comprising computers, software, cameras, access controls in the nature of electronic readers and controllers for controlling access to premises, and video display screens; computer software for use in managing electronic devices for use for tracking people, vehicles and objects and receiving reports and text messages related thereto; computer application software for mobile phones used for managing electronic devices used for tracking people, vehicles, and objects and receiving reports and text messages related thereto; computer software and applications for mobile computer systems for collecting, editing, organizing, modifying, transmitting, storing and sharing of data and information; digital video recording software for IP (Internet protocol) video surveillance; network video recording software for IP (Internet Protocol) video surveillance; application software for collecting, editing, organizing, modifying, transmitting, storing and sharing of data and information; downloadable computer software applications for collecting, editing, organizing, modifying, transmitting, storing and sharing of data and information; computer software all for business solutions offered via the Internet, namely, surveillance software to allow users to record and transmit audio and images via global computer networks; downloadable computer software for business data integration, processing and analysis; cloud computing infrastructure software, namely, downloadable cloud-computing software for collecting, editing, organizing, modifying, transmitting, storing and sharing of data and information; computer software to enable software as a service (SaaS) and platform as a service (PaaS) capabilities, namely, downloadable cloud-based software for recording and transmitting audio and images to a remote location; computer software for implementing scalable cloud computer application development, deployment and management infrastructure; computer software for use in customer relationship management (CRM); computer software that provides real-time, integrated business management intelligence by combining information from various databases and presenting it in an easy-to-understand user interface; mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for collection and management of data; real-time data collection and communication equipment, namely, communications servers and computer hardware for upload, storage, retrieval, download, transmission, and delivery of digital content; electronic software updates, namely, downloadable computer software and associated data files for updating computer software in the fields of security, provided via computer and communication networks; computer software for processing digital images; computer software programs for the integration of text, audio, graphics, still images and moving pictures into an interactive delivery for multimedia applications; computer programs for editing images, sound and video; computer software for organizing and viewing digital images and photographs; computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; software for processing images, graphics and text; computer software for transmission of audio data and video in continuous streaming; gateway software for collection and management of data between programs; computer software for controlling the operation of video and audio devices for viewing, transmitting, playing, receiving and recording data, image, audio, video and multimedia files and content; computer telecommunications software for transmitting and reproducing voice, audio, video, images and data; equipment and software for video-on-demand, namely, optical and electronic hardware and computer software for video

on demand data transmissions; downloadable newsletters, reports and publications, in the nature of magazines and brochures in the fields of security and video surveillance; structural parts and fittings for security cameras, surveillance cameras, access control systems, surveillance-related software, surveillance-related hardware and surveillance-related equipment; video surveillance as a service (VSaaS) systems comprised of security cameras, surveillance cameras, access control systems, security-related software for video surveillance, security-related computer hardware and security-related equipment in the nature of alarm monitoring systems; video surveillance as a service (VSaaS) systems comprised of a computer software platform sold as a unit with security, CCTV or surveillance cameras, and also consisting of software for the controlling and management of security, CCTV or surveillance cameras, recorders or remotely-located recorders of images, video footage and audio feeds from security, CCTV or surveillance cameras; video surveillance as a service (VSaaS) systems comprised of a computer software platform sold as a unit with security, CCTV or surveillance cameras, and also consisting of software for the analysis of video footage from security, CCTV or surveillance cameras and for the consequent provision of security-, marketing-, operations- or management-related analytics and data, also specially adapted for use with point of sale apparatus; video surveillance as a service (VSaaS) systems comprising a computer software platform sold as a unit with security, CCTV or surveillance cameras, and also consisting of computer software for the management and viewing of live or recorded images, video footage and audio feeds from security, CCTV or surveillance cameras, with such software including motion detection, target tracking, target identification, or facial recognition capabilities; video surveillance as a service (VSaaS) systems comprising camera hardware systems for IP (Internet protocol) video surveillance

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Security services for the protection of property and individuals, namely, providing physical access to properties via a remote call-in locking device; security and safety services, namely, monitoring home security alarms; remote monitoring of anti-intrusion alarm, security cameras, and surveillance cameras, for purposes of property protection; security services for commercial entities, namely, monitoring of burglar and security alarms; security services for homes, consumers, individuals and domestic applications, namely, home security alarm monitoring; control and monitoring of building access and security systems, namely, monitoring of security alarms and providing physical access to properties; alarm monitoring services, namely, monitoring of alert devices by remote monitoring centre or remote monitoring devices for the dispatch of security services and notification to third parties; providing a web site that features live images of premises from security or surveillance cameras for purposes of ensuring their safety and well-being; monitoring of premises with digital video cameras for security or surveillance purposes for the physical protection of property and individuals; remote monitoring of premises with digital video cameras for security or surveillance purposes for the physical protection of property and individuals; identity verification services, namely, verification of identity as part of personal background investigation; identification verification services, namely, providing authentication of personal identification information as part of personal background investigations; alarm response and verification services; personal security consultancy services; video surveillance as a service (VSaaS) services, namely, forensic analysis of surveillance video for fraud and theft prevention purposes; monitoring of video surveillance as a service (VSaaS) systems, namely, surveillance service being rendered by means of the VSaaS systems, namely, surveillance of property and individuals for physical protection purposes and fraud and theft prevention purposes; physical security consulting services in the field of video surveillance as a service (VSaaS) for the protection of property and individuals; providing a website featuring information on security and surveillance for the protection of property and

individuals; information, advisory, support and consultancy services relating to all of the aforesaid, namely, personal security advisory and consultancy; providing an Internet website portal in the fields of security and surveillance, namely, portals for the security surveillance of premises

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Telecommunications services, namely, video on demand transmission services; telecommunications, namely, electronic, digital and wireless transmission of sound, audio, images, video and data from cameras and video cameras; electronic transmission services, namely, forwarding, distribution, and transfer of data, information, images, video and audio sequences; computer supported transmission of messages and images; streaming of audio, visual and audio-visual material via a global computer network; streaming of audio material on the Internet; streaming of video material on the Internet; streaming of audio or video footage from security or surveillance cameras on the Internet; Internet broadcasting services; telecommunications gateway services; telecommunications services relating to the Internet, email, dedicated web servers, cloud servers, namely, electronic transmission of messages, data or e-mail; providing telecommunications connections to the Internet; telecommunications portal services, namely, providing an Internet website portal featuring information about telecommunication; providing access to computer databases via global computer networks; transfer of data by telecommunications; providing access to computer databases; transmission and distribution of data via a global computer network or the Internet; transmission of sound, video and information from web cams, video cameras or mobile phones, all featuring live or recorded materials; electronic transmission services relating to security or surveillance camera footage; electronic transmission services relating to video, audio or data from security or surveillance cameras; communications services, namely, transmitting streamed sound and audio-visual recordings via the Internet; interactive services for facilitating the recordal of video, audio or data from security or surveillance cameras, namely, transmission of live sound, video and information from security or surveillance cameras; providing on-line chat rooms for technical support services or help centres; providing on-line chat rooms for transmission of messages among computer users concerning technical support services or help centres; electronic, digital or wireless transmission services, namely, transmission of non-downloadable video and audio footage from security or surveillance cameras for presentation to mobile communication devices via a global computer network or wireless networks; electronic, digital or wireless transmission services, namely, transmission of video and audio footage from security or surveillance cameras through the internet or mobile telephone communication; information, advisory, support and consultancy services relating to all of the aforesaid, namely, providing telecommunications advisory and consultancy services; IP (internet protocol) video streaming services

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Design and development of computer hardware and software for others; design and development of a computerized platform for the remote management of security cameras, surveillance cameras, access control systems and security-related software, hardware or equipment, with notification of related events and alerts in the nature of technical support monitoring of the technological functions of computer network systems; development of computer software application solutions; computer software development in the field of mobile applications; installation and customization of computer applications software; design and development of web-based applications for video and device management; application service provider (ASP), namely, hosting computer software applications of others; application service provider (ASP), namely, hosting, managing, developing, and maintaining applications, software, and web sites, in the fields of security, surveillance, educational

information, or business information; Internet-based application service provider, namely, hosting, managing, developing, analyzing, and maintaining the code, applications, and software for web sites of others; application service provider, namely, hosting, managing, developing, analyzing, and maintaining applications, software and web sites of others in the fields of security, surveillance, educational information, or business information, with notification of related events and alerts; developing and managing application software for delivery of multi-media content provided via multiple types of wireless mobile devices in the fields of security, surveillance, educational information, or business information, with notification of related events and alerts in the nature of technical support monitoring of the technological functions of computer network systems; application service provider featuring application programming interface (API) software for the remote management of security and surveillance equipment, with notification of related events and alerts in the nature of technical support monitoring of the technological functions of computer network systems; remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; software as a service (SaaS) services featuring software for recording and transmitting audio and images to a remote location; consulting services in the field of software as a service (SaaS); software as a service (SaaS) services featuring software for the remote management of security and surveillance equipment; software as a service (SaaS) services featuring software specially adapted for use with surveillance cameras for the analysis, management and viewing of video footage from surveillance cameras, for the purposes of providing educational information for use in relation to the observation and review of teachers, classrooms and lessons, teacher self-assessment of educational lessons, the appraisal of successful lesson outcomes, and the professional development of teachers; software as a service (SaaS) services, namely, hosting software for use by others as a pre-configured and integrated business technology software service to enable users to perform electronic business transactions via a global computer network; software as a service (SaaS) services, namely, hosting software for use by others as pre-configured and integrated technology platforms to solve specific business problems, namely, software that provides real-time integrated business management intelligence by combining information from various databases into a single user interface; platform as a service (PaaS) featuring computer software platforms for the remote management of security and surveillance equipment; platform as a service (PaaS) services featuring computer software special adapted for use with surveillance cameras for the analysis, management and viewing of video footage from surveillance cameras, for the purposes of providing educational information for use in relation to the observation and review of teachers, classrooms and lessons, teacher self-assessment of educational lessons, the appraisal of successful lesson outcomes, and the professional development of teachers; platform as a service (PaaS) services featuring computer software platforms for use by others as a preconfigured and integrated business technology software service to enable users to perform electronic business transactions via a global computer network; platform as a service (PaaS) services featuring computer software platforms for use by others as pre-configured and integrated technology platforms to solve specific business problems, namely, software that provides real-time integrated business management intelligence by combining information from various databases into a single user interface; consulting services in the field of software as a service (SaaS), platform as a service (PaaS), application service provider (ASP) and infrastructure as a service (IaaS) systems; computer services, namely, remote management of security and surveillance equipment; providing online, non-downloadable, Internet-based software application for billing in the fields of security, surveillance, educational information, and business information; electronic storage of video, audio or data from security or surveillance cameras; electronic storage on computer servers of video, audio or data from security or surveillance cameras; electronic storage on cloud computer servers of video, audio or data from security or surveillance cameras; rental of storage space on the Internet; rental of web servers; providing of memory space on the Internet, namely, temporary electronic storage of files and documents; cloud computing services,

namely, cloud hosting provider services; cloud computing infrastructure services, namely, enforcing, restricting, and controlling access privileges of users of computing resources for cloud resources based on assigned credentials; rental of web servers and rental of database servers; electronic data storage services; electronic services, namely, collating and storage of images, video and audio sequences; services for updating computer software, namely, providing automatic updates to applications and software as a service (SaaS) programs; maintaining and hosting websites of others; updating and maintenance of computer software; installation and repair of computer software; design, updating and rental of computer software; upgrading of computer software; maintenance and upgrading of computer software; computer program updating services; updating of computer software for others; updating and maintaining cloud-based computer software through on-line updates, enhancements and patches; providing technology information updates for security systems via the global computer network; technical support services namely, troubleshooting of computer software problems; technical customer support services, namely, service desk or help desk services for IT infrastructure, operating systems, database systems, and web applications; technical support services, namely, remote and on-site infrastructure management services for monitoring, administration and management of public and private IT and application systems; technical support services, namely, 24/7 monitoring of network systems, servers and web and database applications and notification of related events and alerts; the electronic monitoring of people and of goods via the internet, for the purposes of computerized home or building automation; providing temporary use of non-downloadable computer software for business data integration, processing and analysis; information, advisory, support and consultancy services relating to all of the aforesaid, namely, IT consulting, advisory services and computer technology help desk services; platform as a service (PaaS) services featuring a computer software platform specially adapted for use with surveillance cameras for the analysis, management and viewing of video footage from surveillance cameras, for use in the provision of business information and data relating to the retail industry; providing an Internet website portal in the fields of security and surveillance, namely, portals for data security and computer systems monitoring; interactive services for facilitating the recordal of video, audio or data from security or surveillance cameras, namely, providing an interactive website featuring technology that allows users to upload and view video, audio and data; computerized security services, namely, electronically monitoring of data collected from point-of-sale computer hardware and software for purposes of detecting and reporting on suspicious and abnormal patterns of point of sale activity indicating theft, fraud, or other criminal activity; computerised security services, namely, electronically monitoring of data collected from computer systems to detect and report on suspicious and abnormal patterns of activity indicating theft, fraud, or other criminal activity; identity verification services, namely, electronic signature verification services using technology to authenticate user identity; identification verification services, namely, providing authentication of personal identification information using technology to authenticate user identity based on electronic signature verification; computer security consultancy services

GOODS AND SERVICES INFORMATION

For Providing of training, namely, professional coaching of teachers in the field of classroom instructional methods; providing of training in the fields of security, surveillance, education, and business information; providing of training in relation to security and surveillance cameras; providing of training in relation to computer hardware, computer software, computer systems and computer platforms related to security, surveillance, educational information, or business information; providing prerecorded nondownloadable video and audio in the field of education presented via a global computer network; providing pre-recorded non-downloadable video and audio in the field of education presented via wireless networks; providing non-downloadable playback of video and audio in the field of education through the internet or mobile telephone communication; ; providing non-downloadable video and audio footage from security or surveillance cameras presented to mobile communication devices via a global computer network or wireless networks, for entertainment, educational or training purposes, namely, retail, teaching, healthcare and marketing training; providing non-downloadable video and audio footage from security or surveillance cameras presented to mobile communication devices via a global computer network or wireless networks, for the purposes of providing educational information for use in relation to home or building automation systems; providing non-downloadable video and audio footage from security or surveillance cameras through the internet or mobile telephone communication, for educational purposes, namely, retail, teaching, healthcare and marketing training; providing non-downloadable video and audio footage from security or surveillance cameras through the internet or mobile telephone

communication, for the purposes of providing educational information for use in relation to home or building automation systems; providing a website featuring non-downloadable videos, namely, video footage from security or surveillance cameras, for educational purposes in the fields of retail, teaching, healthcare and marketing; providing a website featuring nondownloadable videos, namely, video footage from security or surveillance cameras, for educational purposes namely, retail, teaching, healthcare and marketing training; providing a website featuring nondownloadable videos, namely, video footage from security or surveillance cameras, for the purposes of providing educational information for use in relation to home or building automation systems; education and educational services, namely, professional coaching of teachers in the field of classroom instructional methods; educational assessment services; training of teachers in the field of teaching methods; educational and training services, namely, providing training and performance assessment programs for the observation and review of teachers, classrooms and lessons, and training services for the professional development of teachers; providing a web site featuring information for educational or training purposes in the field of teacher training, namely, live images of classrooms from surveillance cameras; the provision of information on education and education data for purposes of education and training accessible by means of video surveillance as a service (VSaaS) systems; providing non-downloadable video and audio footage from surveillance cameras through the internet or mobile telephone communication, for the purposes of providing educational information for use in relation to the observation and review of teachers, classrooms and lessons, teacher self-assessment of educational lessons, the appraisal of successful lesson outcomes, and the professional development of teachers; the electronic monitoring of classrooms, lessons, teachers and students, for the purposes of providing information on education for use in relation to the observation and review of teachers, classrooms and lessons, teacher self assessment of educational lessons, the appraisal of successful lesson outcomes, and the professional development of teachers; educational and training assessment services, namely, the observation and review of medical practitioners, healthcare locations and medical procedures, for the purpose of identifying professional development training requirements, and education and training requirements; providing non-downloadable playback of video and audio footage of medical practitioners, healthcare locations and medical procedures from surveillance cameras, for the purposes of identifying professional development, education and training requirements; the electronic monitoring of medical practitioners, healthcare locations and medical procedures, for the purposes of identifying professional development training requirements, and education and training requirements amongst medical and healthcare professionals; educational and training assessment services, namely, the observation and review of retail, hospitality and leisure locations, for the purpose of identifying professional development training requirements, and education and training requirements amongst staff and management; providing non-downloadable playback of video and audio footage of retail, hospitality and leisure locations from surveillance cameras, for the purposes of identifying professional development training requirements, and education and training requirements amongst retail, hospitality and leisure industry staff and management; the electronic monitoring of retail, hospitality and leisure locations, for the purposes of identifying professional development training requirements, and education and training requirements amongst retail, hospitality and leisure industry staff and management; advisory, support and consultancy services relating to all of the aforesaid, namely, consulting services and advice about education and training; providing non-downloadable video and audio footage from security or surveillance cameras presented to mobile communication devices via a global computer network or wireless networks via video on demand transmission services, for marketing or business intelligence purposes; providing a website featuring video and audio footage from security or surveillance cameras through the internet or mobile telephone communication, for marketing or business intelligence purposes; providing a website featuring non-downloadable videos, namely, video footage from security or surveillance cameras, for marketing or business intelligence purposes; providing non-

downloadable playback of video and audio footage of retail locations from surveillance cameras, for the purposes of identifying possible improvements to the business or customer experience in the field of business management for the retail industry; providing an Internet website portal in the field of education; providing a website featuring non-downloadable videos, namely, video footage from security or surveillance cameras for use in the field of retail and marketing; providing non-downloadable video and audio footage from security or surveillance cameras presented to mobile communication devices via a global computer network or wireless networks, for the purposes of computerized home or building automation; providing non-downloadable playback of video and audio footage from security or surveillance cameras through the internet or mobile telephone communication, for the purposes of computerized home or building automation; providing a website featuring non-downloadable videos, namely, video footage from security or surveillance cameras, for the purposes of computerized home or building automation; providing non-downloadable video and audio footage from security or surveillance cameras presented to mobile communication devices via a global computer network or wireless networks, for security or surveillance purposes; providing non-downloadable video and audio footage from security or surveillance cameras presented to mobile communication devices via a global computer network or wireless networks, for the purposes of home or building environmental access control; providing non-downloadable playback of video and audio footage from security or surveillance cameras through the internet or mobile telephone communication, for security or surveillance purposes; providing non-downloadable playback of video and audio footage from security or surveillance cameras through the internet or mobile telephone communication, for the purposes of home or building environmental access control; providing a website featuring nondownloadable videos, namely, video footage from security or surveillance cameras, for security or surveillance purposes; providing a website featuring non-downloadable videos, namely, video footage from security or surveillance cameras, for the purposes of home or building environmental access control

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Providing business intelligence services; provision of business intelligence; data processing services; business intelligence analytics; providing business management information in connection with consulting and advisory services in the field of strategic planning; business consultancy and advisory services; business management advisory services; business process management and consulting; analysis of business information; analysis of business statistics; business management analysis of business management systems; analysis of market research data and statistics; business intelligence services to facilitate the management or operations of retail stores, offices, laboratories, hotels, casinos, airports, shopping malls, or other commercial premises; business information management, namely, electronic reporting of business information; business analytics, namely, business investigations, evaluations, expert appraisals, information and research, trade spend business management; providing business intelligence services in the fields of security, surveillance, entertainment, marketing, and the field of management and operation of retail stores, offices, laboratories, hotels, casinos, airports, shopping malls, or other commercial premises; outsource service provider in the field of business analytics; services relating to the recordal, compilation and exploitation of business data, namely, analyzing and compiling business data; the provision and compilation of databases and commercial information for business research and marketing; billing services; billing services in the fields of security, surveillance, or business information; business management services provided for the retail industry, namely, the observation and review of retail locations for the purposes of identifying possible improvements to the business or customer experience; business management services provided for the retail industry, namely, the electronic monitoring of retail

locations, for the purposes of identifying possible improvements to the business or customer experience; the provision of business information and data relating to the retail industry accessible by means of video surveillance as a service (VSaaS) systems; providing a website featuring business information; the electronic monitoring of people and of goods, for marketing or business intelligence purposes, namely, electronic monitoring of retail stores, offices, laboratories, hotels, casinos, airports, shopping malls, or other commercial activities for market research; computerized point-of-sale data collection services for retailers; information, advisory, and consultancy services relating to all of the aforesaid, namely, relating to business and management or business administration

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For A computer software platform for the remote management of security cameras, surveillance cameras, access control systems, security-related software, security-related hardware and security-related equipment; a computer software platform specially adapted for use with security, CCTV or surveillance cameras, consisting of computer software for the controlling and management of security, CCTV or surveillance cameras, and also consisting of computer software for the analysis of video footage from security, CCTV or surveillance cameras and for the consequent provision of security-, marketing-, operations-, educational-, training-, medical-, health-, retail- or management-related analytics, information and data, and also specially adapted for use with point of sale apparatus; a computer software platform specially adapted for use with security, CCTV or surveillance cameras, consisting of computer software for the management and viewing of live or recorded images, video footage and audio feeds from security, CCTV or surveillance cameras, with such software including motion detection, target tracking, target identification, or facial recognition capabilities, and also consisting of recorders or remotely-located recorders of images, video footage and audio feeds from security, CCTV or surveillance cameras; a computer software platform for the remote management and viewing of security, CCTV or surveillance cameras, via smartphones, tablet computers or portable computers; a computer software platform for the remote controlling of security, CCTV or surveillance cameras, via smartphones, tablet computers or portable computers; a computer software platform for use in conjunction with security, CCTV or surveillance cameras, featuring imaging analytics, target acquisition, target tracking, target feature analysis, target feature interpretation, facial recognition, access control, command-and control, biometric, and security capabilities; a computer software platform for the management and viewing of live or recorded images, video footage and audio feeds from security, CCTV or surveillance cameras, with such software having motion detection, target tracking, target identification, or facial recognition capabilities; computer software for the integration of security systems with point of sale apparatus; computer software for the analysis of video footage and for the consequent provision of security-, marketing-, operations-, educational-, training-, medical-, health-, retail- and management-related analytics, information and data; computer software for the integration of footage from multiple security cameras or surveillance cameras to enable users to view a seamless and comprehensive image of buildings, commercial premises, offices, retail stores, laboratories, hotels, casinos, airports, shopping malls, hospitals, rail stations, vehicles, individual items of property or other assets, and also to enable the deconstruction of the seamless image to allow users to focus on particular sections thereof; cameras; CCTV cameras; 360-degree CCTV cameras; 360-degree surveillance cameras; surveillance cameras; outdoor surveillance cameras; explosion-resistant, weather-resistant, and vandalism-resistant outdoor surveillance cameras; indoor surveillance cameras; explosion-resistant, and vandalism-resistant indoor surveillance cameras; indoor surveillance cameras for mounting on or in walls, for mounting on or in ceilings, or for mounting on or in tables; concealed surveillance cameras; explosion-resistant, weather-resistant, and vandalism-resistant

concealed surveillance cameras; concealed surveillance cameras for mounting on or in walls, for mounting on or in ceilings, or for mounting on or in tables; analogue and digital CCTV cameras; explosion-resistant CCTV cameras; internet protocol (IP) cameras; internet protocol (IP) surveillance cameras; explosion resistant internet protocol (IP) cameras; analogue and digital video cameras; explosion-resistant digital video cameras; cameras with motion detection, target acquisition or image tracking capabilities; electronic recorders of images and video footage from analogue security, CCTV or surveillance cameras; cameras with motion detection or image tracking capabilities; network video recorders (NVRs); recorders and remotely-located recorders of images, video footage and audio feeds from security, CCTV or surveillance cameras; computer software for recording and transmitting audio and images to a remote location; computer hardware; media-rich computer application processors being microcontrollers; computer hardware platforms, namely, firmware for recording and transmitting audio and images to a remote location; computer middleware for recording and transmitting audio and images to a remote location; home and office automation systems comprising wireless and wired controllers, controlled devices, and software for security and other monitoring and control applications; facilities management software, namely, software to control building environment, access and security systems; software to control building environmental, access and security systems; control system for the remote observation, management and operation of security systems and surveillance cameras, comprising computers, software, cameras, access controls in the nature of electronic readers and controllers for controlling access to a premises, and video display screens; computer software for use in managing electronic devices for use for tracking people, vehicles and objects and receiving reports and text messages related thereto; computer application software for mobile phones used for managing electronic devices used for tracking people, vehicles, and objects and receiving reports and text messages related thereto; computer software and applications for mobile computer systems for recording and transmitting audio and images to a remote location; camera hardware systems for IP (Internet protocol) video surveillance; digital video recording software for IP (Internet protocol) video surveillance; network video recording software for IP (Internet Protocol) video surveillance; computer hardware for IP (Internet protocol) video surveillance; automated self-contained electronic surveillance devices that can be deployed to gather evidence or intelligence in remote locations; electric and electronic video surveillance installations; IP (Internet protocol) video servers; servers for web hosting; remotely-controlled video camera containing a TV camera, transmitter, receiver and microphone; apparatus for use in audio-visual communications, namely, smart phones and tablet computers; apparatus co-operating with computers in connection with sound and images transmission, namely, wireless cards and communication modems; video transmitters; video players, recorders, transmitters, and receivers for streaming, transmitting, playing and receiving and recording data, image, audio, video and multimedia; portable handheld electronic digital video messengers for recording, storing, transmission or reproduction of visual, audio and data content; application software for recording and transmitting audio and images to a remote location; downloadable computer software applications for recording and transmitting audio and images to a remote location; computer software, namely, software development tools for the creation of mobile internet applications and client interfaces; computer software all for business solutions offered via the Internet, namely, surveillance software to allow users to record and transmit audio and images via global computer network; downloadable computer software for business data integration, processing and analysis; cloud computing infrastructure software, namely, downloadable software for the cloud-based recording and transmittal of audio and images to a remote location; computer software to enable software as a service (SaaS) and platform as a service (PaaS) capabilities, namely, downloadable software for the cloud-based recording and transmittal of audio and images to a remote location; computer software for implementing scalable cloud computer application development, deployment and management infrastructure; computer software for use in customer relationship management (CRM); computer software that provides real-

time, integrated business management intelligence by combining information from various databases and presenting it in an easy-to-understand user interface; mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for collection and management of data; real-time data collection and communication equipment; electronic software updates, namely, downloadable computer software and associated data files for updating computer software in the fields of security, provided via computer and communication networks; automated billing machines and software for processing accounting information; computer software for processing digital images; computer hardware and computer software programs for the integration of text, audio, graphics, still images and moving pictures into an interactive delivery for multimedia applications; computer programs for editing images, sound and video; computer software for organizing and viewing digital images and photographs; computer software to enhance the audiovisual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; software for processing images, graphics and text; computer software for transmission of audio data and video in continuous streaming; gateway software for collection and management of data between programs; computer hardware and computer software for controlling the operation of video and audio devices for viewing, transmitting, playing, receiving and recording data, image, audio, video and multimedia files and content; computer telecommunications software for transmitting and reproducing voice, audio, video, images and data; equipment and software for video-on-demand, namely, optical and electronic hardware and computer software for video on demand data transmissions; real-time video processing apparatus, namely, video processors; apparatus for recording, transmission, processing and reproduction of sound, images or data; access control devices, namely, USB computer access control key; access control units, namely, electronic access control systems for and electrically activated computer equipment permitting access to a premises; access control apparatus, namely, electronic apparatus and devices for controlling access to a premises; access control systems comprised of electronic card readers and computer software for use controlling access to building premises; access control cards, namely, magnetically encoded key cards and identity cards; access control and alarm monitoring systems; electronic proximity sensors; electronic readers, namely, bar code readers, optical readers, and card readers; electronic readers and controllers for controlling access to premises; entry-phones, and video phones; blank smart cards; electronic card readers; proximity switches; control devices; burglar alarms, smoke alarms and gas alarms; anti-theft devices, namely, theft alarms; intruder detection systems comprised of alarm sensors and cameras; security systems and alarm systems comprised of cameras, switches, monitors, burglar alarms, microphones, and recorders; motion detectors; remote presence management products, namely, switches, and console, alarm, sensor and power management devices; point of sale terminals; point of sale apparatus, namely, optical readers, radio transmitters, radio receivers, and computer hardware; data storage apparatus, namely, blank digital storage media; data storage media, namely, blank magnetic identity cards data storage devices, namely, hard disk drives (HDD); computer storage devices, namely, external hard drives, blank flash drives and high-speed storage subsystems for storage and back up of electronic and digital data locally and via a telecommunications network; downloadable newsletters, reports and publications in the nature of magazines and brochures in the fields of security and video surveillance; structural parts and fittings for security cameras, surveillance cameras, access control systems, surveillance-related software, surveillance-related hardware and surveillance-related equipment; video surveillance as a service (VSaaS) systems comprised of security cameras, surveillance cameras, access control systems, security-related software for video surveillance, security-related computer hardware and security-related equipment in the nature of alarm monitoring systems; video surveillance as a service (VSaaS) systems comprised of a computer software platform sold as a unit with security, CCTV or surveillance cameras, and also consisting of software for the controlling and management of security, CCTV or surveillance

cameras, recorders or remotely-located recorders of images, video footage and audio feeds from security, CCTV or surveillance cameras; video surveillance as a service (VSaaS) systems comprised of a computer software platform sold as a unit with security, CCTV or surveillance cameras, and also consisting of software for the analysis of video footage from security, CCTV or surveillance cameras and for the consequent provision of security-, marketing-, operations- or management-related analytics and data, also specially adapted for use with point of sale apparatus; video surveillance as a service (VSaaS) systems comprising a computer software platform sold as a unit with security, CCTV or surveillance cameras, and also consisting of computer software for the management and viewing of live or recorded images, video footage and audio feeds from security, CCTV or surveillance cameras, with such software including motion detection, target tracking, target identification, or facial recognition capabilities; video surveillance as a service (VSaaS) systems comprising camera hardware systems for IP (Internet protocol) video surveillance

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Security services for the protection of property and individuals, namely, providing physical access to properties via a remote call-in locking device; security and safety services, namely, monitoring premises security alarms; remote monitoring of anti-intrusion alarm, security cameras, and surveillance cameras, for purposes of property protection; security services for commercial entities, namely, monitoring of burglar and security alarms; security services for homes, consumers, individuals and domestic applications, namely, home security alarm monitoring; control and monitoring of building access and security systems, namely, monitoring of security alarms and providing physical access to properties; alarm monitoring services, namely, monitoring of alert devices by remote monitoring centre or remote monitoring devices for the dispatch of security services and notification to third parties; providing a web site that features live images of premises from security or surveillance cameras for purposes of ensuring their safety and well-being; monitoring of premises with digital video cameras for security or surveillance purposes for the physical protection of property and individuals; remote monitoring of premises with digital video cameras for security or surveillance purposes for the physical protection of property and individuals; identity verification services, namely, verification of identity as part of personal background investigation; identification verification services, namely, providing authentication of personal identification information as part of personal background investigations; alarm response and verification services; personal security consultancy services; video surveillance as a service (VSaaS) services, namely, forensic analysis of surveillance video for fraud and theft prevention purposes; physical security consulting services in the field of video surveillance as a service (VSaaS) for the protection of property and individuals; providing a website featuring information on security and surveillance for the protection of property and individuals; the electronic monitoring services of people and of goods for security and surveillance purposes, namely, providing security surveillance of premises for others; information, advisory, support and consultancy services relating to all of the aforesaid, namely, physical security advisory and consultancy; providing an Internet website portal in the fields of security and surveillance, namely, portals for the security surveillance of premises

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Telecommunications services, namely, video on demand transmission services; telecommunications, namely, electronic, digital and wireless transmission of sound, audio, images, video and data; electronic transmission services, namely, forwarding, distribution, and transfer of data, information, images, video and audio sequences; computer supported transmission of messages and images; streaming of audio, visual and audio-visual material via a global computer network; streaming of audio material on the Internet; streaming of video material on the Internet; streaming of audio or video footage from security or surveillance cameras on the Internet; Internet broadcasting services; telecommunications gateway services; telecommunications services relating to the Internet, email, dedicated web servers, cloud servers, namely, electronic transmission of messages, data or e-mail; providing access to the Internet; providing telecommunications connections to the Internet; telecommunications portal services, namely, providing an Internet website portal featuring information about telecommunication; providing access to computer databases via global computer networks; transfer of data by telecommunications; providing access to computer databases; transmission and distribution of data via a global computer network or the Internet; transmission of sound, video and information from web cams, video cameras or mobile phones, all featuring live or recorded materials; electronic transmission services relating to security or surveillance camera footage; video circuit boards for surveillance services; electronic transmission services relating to video, audio or data from security or surveillance cameras; communications services, namely, transmitting streamed sound and audio-visual recordings via the Internet; interactive services for facilitating the recordal of video, audio or data from security or surveillance cameras, namely, transmission of live sound, video and information from security or surveillance cameras; providing Internet chat rooms; chat room services; operating chat rooms; providing on-line chat rooms for technical support services or help centres; providing on-line chat rooms for transmission of messages among computer users concerning technical support services or help centres; electronic, digital or wireless transmission services, namely, transmission of non-downloadable video and audio footage from security or surveillance cameras for presentation to mobile communication devices via a global computer network or wireless networks; electronic, digital or wireless transmission services, namely, transmission of video and audio footage from security or surveillance cameras through the internet or mobile telephone communication; information, advisory, support and consultancy services relating to all of the aforesaid, namely, providing telecommunications advisory and consultancy services; IP (internet protocol) video streaming services

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Design and development of computer hardware and software; design and development of a computerised platform for the remote management of security cameras, surveillance cameras, access control systems and security-related software, hardware or equipment, with notification of related events and alerts in the nature of technical support monitoring of the technological functions of computer network systems; development of computer software application solutions; computer software development in the field of mobile applications; installation and customization of computer applications software; design and development of web-based applications for video and device management; application service provider (ASP), namely, hosting computer software applications of others; application service provider (ASP), namely, hosting, managing, developing, and maintaining applications, software, and web sites, in the fields of security, surveillance, educational information, or business information; Internet-based application service provider, namely, hosting, managing, developing, analyzing, and maintaining the code, applications, and software for web sites of others; application service provider, namely, hosting, managing, developing, analyzing, and maintaining applications, software and web sites of others in the fields of security, surveillance, educational information, or business information, with notification of related events and alerts;

developing and managing application software for delivery of multi-media content provided via multiple types of wireless mobile devices in the fields of security, surveillance, educational information, or business information, with notification of related events and alerts in the nature of technical support monitoring of the technological functions of computer network systems; application service provider featuring application programming interface (API) software for the remote management of security and surveillance equipment, with notification of related events and alerts in the nature of technical support monitoring of the technological functions of computer network systems; remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; software as a service (SaaS) services featuring software for use in the transmission of images and data; consulting services in the field of software as a service (SaaS); software as a service (SaaS) services featuring software for the remote management of security and surveillance equipment; software as a service (SaaS) services featuring software specially adapted for use with surveillance cameras for the analysis, management and viewing of video footage from surveillance cameras, for the purposes of providing educational information for use in relation to the observation and review of teachers, classrooms and lessons, teacher self-assessment of educational lessons, the appraisal of successful lesson outcomes, and the professional development of teachers; software as a service (SaaS) services, namely, hosting software for use by others as a pre-configured and integrated business technology software service to enable users to perform electronic business transactions via a global computer network; software as a service (SaaS) services, namely, hosting software for use by others as preconfigured and integrated technology platforms to solve specific business problems, namely, software that provides real-time integrated business management intelligence by combining information from various databases into a single user interface; platform as a service (PaaS) featuring computer software platforms for the remote management of security and surveillance equipment; platform as a service (PaaS) services featuring computer software special adapted for use with surveillance cameras for the analysis, management and viewing of video footage from surveillance cameras, for the purposes of providing educational information for use in relation to the observation and review of teachers, classrooms and lessons, teacher self-assessment of educational lessons, the appraisal of successful lesson outcomes, and the professional development of teachers; platform as a service (PaaS) services featuring computer software platforms for use by others as a preconfigured and integrated business technology software service to enable users to perform electronic business transactions via a global computer network; platform as a service (PaaS) services featuring computer software platforms for use by others as pre-configured and integrated technology platforms to solve specific business problems, namely, software that provides real-time integrated business management intelligence by combining information from various databases into a single user interface; consulting services in the field of software as a service (SaaS), platform as a service (PaaS), application service provider (ASP) and infrastructure as a service (IaaS) systems; computer services, namely, remote management of security and surveillance equipment; providing online, non-downloadable, Internet-based software application for billing in the fields of security, surveillance, educational information, and business information; electronic storage of video, audio or data from security or surveillance cameras; electronic storage on computer servers of video, audio or data from security or surveillance cameras; electronic storage on cloud computer servers of video, audio or data from security or surveillance cameras; rental of storage space on the Internet; rental of web servers; providing of memory space on the Internet, namely, temporary electronic storage of files and documents; cloud computing services, namely, cloud hosting provider services; cloud computing infrastructure services, namely, enforcing, restricting, and controlling access privileges of users of computing resources for cloud resources based on assigned credentials; rental of web servers and rental of database servers; electronic data storage services; electronic services, namely, collating and storage of images, video and audio sequences; services for updating computer software, namely, providing automatic updates to applications and software as a service (SaaS) programs;

maintaining and hosting websites of others; updating and maintenance of computer software; installation and repair of computer software; design, updating and rental of computer software; upgrading of computer software; maintenance and upgrading of computer software; computer program updating services; updating of computer software for others; updating and maintaining cloud-based computer software through on-line updates, enhancements and patches; providing technology information updates for security systems via the global computer network; technical support services, namely, troubleshooting of computer software problems; technical customer support services, namely, help desk services for IT infrastructure, operating systems, database systems, and web applications; technical support services, namely, remote and on-site infrastructure management services for monitoring, administration and management of public and private IT and application systems; technical support services, namely, 24/7 monitoring of network systems, servers and web and database applications and notification of related events and alerts; the electronic monitoring of people and of goods via the internet, for the purposes of computerized home or building automation; information, advisory, support and consultancy services relating to all of the aforesaid, namely, IT consulting, advisory services and computer technology help desk services; platform as a service (PaaS) services featuring a computer software platform specially adapted for use with surveillance cameras for the analysis, management and viewing of video footage from surveillance cameras, for use in the provision of business information and data relating to the retail industry; providing an Internet website portal in the fields of security and surveillance, namely, portals for data security and computer systems monitoring; interactive services for facilitating the recordal of video, audio or data from security or surveillance cameras, namely, providing an interactive website featuring technology that allows users to upload and view video, audio and data; computerized security services, namely, electronically monitoring of data collected from point-of-sale computer hardware and software for purposes of detecting and reporting on suspicious and abnormal patterns of point of sale activity indicating theft, fraud, or other criminal activity; computerised security services, namely, electronically monitoring of data collected from computer systems to detect and report on suspicious and abnormal patterns of activity indicating theft, fraud, or other criminal activity; identity verification services, namely, electronic signature verification services using technology to authenticate user identity; identification verification services, namely, providing authentication of personal identification information using technology to authenticate user identity based on electronic signature verification; computer security consultancy services; the electronic monitoring services of people and of goods for security and surveillance purposes, namely, providing a website and on-line, non-downloadable software, applications and platforms, all featuring technology enabling users to remotely monitor people and goods for security and surveillance purposes; providing temporary use of non-downloadable computer software for business data integration, processing and analysis

Mark Literal(s) SOLAR RECORDS RADIO IT'S A LOVELY DAY!

CASE IDENTIFIERS

Serial Number 88094050 **Application Filing Date** Aug. 27, 2018 **Register** Principal **Mark Type** Service Mark Trademark **Publication Date** Aug. 11, 2020

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of stylized hot pink wording "SOLAR RECORDS RADIO" above a design of a mirror ball, and stylized hot pink wording "IT'S A LOVELY DAY!" below the design of the mirror ball. In the background are a series of curved lines forming partial rings, with the rings curving upward at the top half of the mark, and curving downward at the bottom half of the mark. Starting at top, the top ring is in dark purple fading to a lighter shade of dark purple, the second ring is medium light purple; the third ring is medium purple with a pale pink ring overlay; the fourth ring is lavender, and the fifth ring is pale lavender. Below the fifth ring are the center rings, which change from white to lavender with a pale lavender shadow, fading to white fading to pale lavender to white before starting the lower half which duplicates the partial rings, except there is no pale pink ring overlay; Over the rings are various dots: the dots over the dark purple areas are white; the dots over the lighter shades of purple and lavender are pale pink; and the dots over the white area are medium grey. The mirror ball is covered in dots that vary in color from charcoal grey to medium grey to light grey to white, and silver. Two large white stars appear on the mirror ball. In the center ring area are three lavender music notes against lavender staff lines, two notes are to the left of the mirror ball and one note is to the right of the mirror ball. A pair of headphones is positioned over the mirror ball featuring a black headband with gold accents. The outer edges of the earcups are gold with medium grey and magenta accents, and the inner earpads are black with charcoal grey accents. **Color Drawing** Yes **Color Claimed** The color(s) magenta, hot pink, black, charcoal grey, medium grey, light grey, dark purple, lighter shade of dark purple, medium purple, medium light purple, lavender, pale lavender, white, pale pink, and gold is/are claimed as a feature of the mark. **Disclaimer** "RECORDS RADIO"

For Metalworking machines and tools, namely, cutting machines for metalworking, electric welding machines, electric arc welding machines, metal cutting machines, gas operated cutting torches, hand-held electric drills, laser welding machines, electric welding apparatus, power-driven hand-held drills, power-driven hand-held hammers, power-driven hand-held grinders, power-driven hand-held sanders, power-driven hand-held cutters, moulds and dies for metal-forming for use with machines, machining centers, electric spot welding machines and metalworking machine tools; construction machines and apparatus, namely, bulldozers, concrete construction machines, truck cranes, power shovels, rooters, excavators, earth augers, pile-drivers, pile-extractors, grout pumps, graders, earth scrapers, tamping machines, rammers and road rollers, derricks, asphalt paving machines, earth scrapers, jack hammers, winches, and agitating machines used for construction; elevators being lifts; escalators; moving sidewalks; semiconductor manufacturing machines; non-electric prime movers, not for land vehicles, namely, internal combustion engines not for land vehicles, jet engines not for land vehicles, rocket engines not for land vehicles, turbines not for land vehicles, hydraulic turbines not for land vehicles, electric drive motors for machines, blades for hydraulic turbines, hydraulic turbines runners, hydraulic turbines and their fittings, blades for wind turbines, wind turbines and their fittings, other turbines not for land vehicles, drive motors not for land vehicles; parts for non-electric prime movers, namely, vehicle parts in the nature of shaft couplings and axle bearings; driving motors, other than for land vehicles; boilers for non-electric prime movers and engines being steam engine boilers; turbines, other than for land vehicles; pneumatic or hydraulic machines and instruments, namely, rotary compressors, centrifugal compressors, air compressors, electric

compressors for machines, electric pumps for domestic use, pumps used to circulate water in nuclear reactors, electric well pump, circulating pumps, vacuum pumps, air pumps, water pumps, wind-powered electricity generators, blowers, centrifugal blowers, rotary blowers, axial flow blowers, turbo blowers, lifting pumps used in pumped storage hydroelectric plant; vending machines; fuel dispensing pumps for service stations; washing machines for washing laundry; food mixing machines for commercial use, namely, electric food blenders; food peeling machines for commercial use; food chopping machines for commercial use; dishwashers; vacuum cleaners; machine elements, not for land vehicles, namely, shafts, axles, spindles, bearings being parts of machines, shaft couplings and connectors, power transmissions and gearing for machines not for land vehicles, brakes, valves being parts of machines, ball bearings being parts of machines, blades holders being parts of machines, joints being parts of machines, brushes being parts of machines, cowlings being parts of machines, cranks being parts of machines, drill chucks being parts of machines, drums being parts of machines, filters being parts of machines, feeders being parts of machines, guards being part of machines; waste crushing machines for industrial purposes; 3D printers; starters for motors and engines; AC motors and DC motors, not including those for land vehicles; parts for AC motors and DC motors; AC generators being alternators; DC generators; electric food blenders for household purposes; electric wax-polishing machines for household purposes and apparatus, namely, machines and apparatus for wax-polishing, electric; dynamo brushes; steam engine boilers for non-electric prime movers and engines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Drying apparatus for chemical processing; recuperators for chemical processing; steamers for chemical processing; evaporators for chemical processing; distillers for chemical processing; heat exchangers for chemical processing; industrial furnaces; nuclear reactors; electric water heaters; heat pumps; air-conditioning apparatus for industrial purpose; electric ventilating fans for industrial purposes; electric ventilating fans for household purposes; freezing machines and apparatus, namely, freezers, refrigerators, ice machines, refrigerating display cabinets; industrial dish drying machines, namely, electric dish dryers; hair drying machines for beauty salon use; hair steamers for beauty salon use; shampoo basins being parts of sanitary installations; towel steamers; dish disinfectant apparatus for commercial use; cooking apparatus and installations for commercial use, namely, cooktops, microwave ovens and industrial cooking ovens; waste water treatment tanks; septic tanks for industrial purposes; solar water heaters; water purifying apparatus for industrial purposes; electric lamps and other lighting apparatus, namely, electric lamps, electric torches, fluorescent lamps, LED lamps, light-emitting diodes (LED) lighting fixtures, lighting installations for air vehicles, navigation lights for aircraft, theater spotlights, miniature lamps and LED lamps for automobiles, headlights for automobiles, fluorescent lamps for LCD backlighting, halogen lamps for OA equipment, lighting fixture for commercial facilities, lighting fixture for commercial use, lighting fixtures for residential buildings, street lamps, outdoor lighting fixtures, lighting apparatus for stages and studios; household electrothermic appliances, namely, electric radiant heaters for household purposes, Japanese electric leg-warming apparatus for household purposes, Japanese electric warming pans for beds, electric hot air heaters for household purposes, hand-held electric hair dryers, room air conditioners for household purposes, electric fans, electric room air purifiers, electric ventilating fans, electric humidifiers, electric dehumidifiers, electric blankets, water heaters for household purposes, storage water heaters for household purposes, electric cooking ovens for household purposes, microwave ovens, electric toasters, immersion heaters, electric refrigerators for household purposes, electric freezers for household purposes, automatic rice cookers, electric hot plates for cooking, automatic steam cookers, baking ovens for household purposes, electric pots, electric pans, electric coffee percolators, electric egg

cookers for household purposes, electric popcorn cookers for household purposes, electric hamburger cookers for household purposes, electric waffle cookers for household purposes, electric ice cream makers for household purposes, electric rice-cake making machines for household purposes, electric yogurt makers for household purposes, electric grilling apparatus for household purposes, electric pressure cookers, electric water coolers for household purposes, electric driers for clothing for household purposes, ionizers for treatment of air for household purposes, electric foot warmers, oil space heaters for household purpose, gas space heaters for household purpose, vacuum defreezer for food, wine cellar refrigerating showcases, electrothermic bottles, electric fish roasters, wine warmers, electric warming tray, electric oil filter for foods, smoke filtering machines for air conditioning; household tap-water filters; air-conditioning installations for household purposes; non-electric cooking heaters for household purposes, namely, gas cooktops; kitchen worktops with integrated sinks for household purposes, namely, sinks integrated into countertops; kitchen sinks for household purposes; gas lamps; oil lamps; lamp chimneys; disinfectant dispensers for toilets; toilet bowls; toilet seats for use with Japanese style toilet bowls; toilet seats with a washing water jets being bidets; bath fittings, namely, bath tub jets, bath tubs; hydrogen-powered electricity generators with fuel cell technology; hydrogen-powered electricity generators with fuel cell technology consisting of water electrolysis hydrogen generators, hydrogen storage tanks, fuel cells, water supply tanks and electric accumulators, which are combined with wind turbine generators and photovoltaic power generators; hydrogen generators, namely, apparatus for generating hydrogen by water-electrolysis

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Educational and instruction services, namely, providing classes, seminars in the fields of arts, crafts, sports or general knowledge; arranging, conducting and organization of seminars in the fields of arts, crafts, sports, general knowledge, financial services, home security, intellectual property, personal computers; publishing of electronic publications; reference libraries of literature and documentary records; publication of books; presentation of musical performances; production of radio or television programs; production of videotapes in the field of education, culture, entertainment and sports and not for movies or television programs and not for advertising or publicity; organization, arranging and conducting of sports competitions; organization of social entertainment events excluding movies, shows, plays, musical performances, sports, horse races, bicycle races, boat races and auto races; providing facilities for movies, shows, plays, music or educational training; rental of cinematographic machines and apparatus; rental of television sets; rental of radio sets; rental of optical machines and apparatus, namely, rental of video cameras

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Anti-static preparations for household purposes; degreasers, other than for use in manufacturing processes; rust removing preparations; stain removing benzine; laundry fabric conditioner; laundry bleach; breath freshening preparations for personal hygiene; deodorants for animals; non-medicated soaps and detergent soap; cosmetics; fragrances

International Classes 3 - Primary Classes **US Classes** 1, 4, 6, 50, 51, 52 **International Class Title** Cosmetics and Cleaning Preparations

For Chemicals used in industry, science and photography; chemical compositions for developing, printing and enlarging photographs; plastics being raw materials, namely, unprocessed plastics

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Advertising services; promoting the goods and services of others through the administration of sales and promotional incentive schemes involving trading stamps; providing information concerning issuance of trading stamps, loyalty cards and coupons; business management analysis and business consultancy; marketing research and analysis services; business management of hotels; providing information concerning commercial sales; employment agencies; import-export agency services; document reproduction; providing office functions, namely, filing, in particular documents and magnetic tape; compilation of information into computer databases; providing business assistance to others in the operation of data processing apparatus namely, computers, typewriters, machines for communications by teletext; rental of typewriters, copying machines and word processors; retail store services and wholesale retail store services featuring electrical machinery and apparatuses; providing employment information; rental of vending machines

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Construction of buildings; construction of hydroelectric power plants, thermal electric power plants, geothermal power plants, photovoltaic power plants and wind-power plants; machinery installation; electrical installation services, namely, installation of electrical systems; telecommunication wiring; installation of hydrogen-powered electricity generators with fuel cell technology; installation of photovoltaic apparatus and installations; construction consultancy; operation of building equipment, namely, operation of air conditioning equipment, hot-water supply equipment, electric equipment, gas facilities, power-generating facilities, feed-water and drainage equipment and fire-extinguishing equipment of buildings; maintenance of building equipment, namely, maintenance of air conditioning equipment, hot-water supply equipment, electric equipment, gas facilities, power-generating facilities, feed-water and drainage equipment and fire-extinguishing equipment of buildings; repair and maintenance of automobiles; repair and maintenance of railway rolling stocks; repair and maintenance of loading-unloading machines and apparatus; repair and maintenance of elevators being lifts; repair and maintenance of escalators; repair and maintenance of moving sidewalks; repair and maintenance of fire alarms; repair and maintenance of office machines and equipment; repair and maintenance of room air conditioners; repair and maintenance of air-conditioning apparatus for industrial purposes; repair and maintenance of burners; repair and maintenance of boilers; repair and maintenance of pumps; repair and maintenance of non-electric prime movers; repair and maintenance of freezing machines and apparatus for industrial purposes; repair and maintenance of electronic machines and apparatus; repair and maintenance of telecommunication machines and apparatus; repair and maintenance of consumer electric appliances; repair and maintenance of non-electric cooking heaters for household purposes; repair and maintenance of waste compacting machines and apparatus; repair and maintenance of waste crushing machines and apparatus; repair and maintenance of electric lighting apparatus; repair and maintenance of electric motors; repair and maintenance of power distribution or control machines and apparatus; repair and maintenance of power generators; repair and maintenance of battery chargers for bicycles, two-wheeled motor cycles and automobiles using rechargeable batteries; repair and maintenance of wind power plants; repair and maintenance of photovoltaic power plants; repair and maintenance of laboratory apparatus and instruments; repair and maintenance of measuring and testing machines and instruments; repair and maintenance of medical apparatus and instruments; repair and maintenance of printing or bookbinding machines and apparatus; repair and maintenance of chemical processing machines and

apparatus; repair and maintenance of metalworking machines and tools; repair and maintenance of industrial furnaces; repair and maintenance of nuclear reactors; repair and maintenance of integrated circuits manufacturing machines and systems; repair and maintenance of semiconductor manufacturing machines and systems; repair and maintenance of storage tanks; repair and maintenance of gasoline station equipment; repair and maintenance of cooking equipment for industrial purposes; repair and maintenance of dishwashers for industrial purposes; repair and maintenance of vending machines; repair and maintenance of machines and apparatus for use in beauty salons or barbers' shops; repair and maintenance of water pollution control equipment; repair and maintenance of water purifying apparatus; repair and maintenance of power plants; repair and maintenance of hydrogen-powered electricity generators with fuel cell technology; repair and maintenance of nuclear power plants; repair and maintenance of chemical plants; repair and maintenance of bath fittings; repair of toilet stool units with a washing waterjet; repair of spectacles; sterilization of medical apparatus and instruments; rental of electric washing machines; rental of laundry dryers; rental of spin dryers for clothes

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Ozonisers being ozonators; electrolysers; blueprint apparatus, namely, blueprint machines; cash registers; money counting and sorting machines; job recording devices, namely, time clocks being time recording devices; photo-copying machines; time and date stamping machines; time clocks being time recording devices; punched card office machines; voting machines; automatic stamping machines; automated teller machines (ATM); fire alarms; gas alarms; burglar alarms; railway signal, luminous and mechanical; downloadable computer game software for arcade video game machines; simulators for the steering and control of vehicles; laboratory apparatus and instruments, namely, chromatography apparatus for laboratory use, apparatus for fermentation being laboratory apparatus and furnaces for laboratory experiments, microchips containing DNA probes, electronic apparatus consisting of hardware, microchips, and software for examining, studying, and researching genes and genetic material, DNA chips, DNA testing apparatus, microscopes, centrifuges, air-gas producers, constant temperature incubators, constant humidity incubators, glassware for scientific experiments in laboratories, porcelain ware for scientific experiments in laboratories, furnaces for laboratory experiments, animal specimens and plant models; photographic apparatus and instruments, namely, flash guns for photographic purposes, flash lamps for photographic purposes, cameras, digital cameras, flashbulbs and filters, focusing mirror; cinematographic machines and apparatus; optical machines and apparatus, namely, optical scanners, magnifying glasses, microscopes, telescopes; measuring and testing machines and instruments, namely, electronic weighing scales, testing equipment for semiconductors, X-ray and gamma-ray thickness gauges, gamma-ray level gauges, electromagnetic flow meters, smart meters in the nature of electric quantity meters, watt meters, watt-hour meters, gas meters, water meters, voltmeters, ammeters, automatic meter reading apparatus, metal measuring instruments, telemetering equipment, water quality measurement instruments, biochemical analyzers, electricity meters, vibration meters, acoustic meters; electricity meters; power distribution and control machines and apparatus, namely, electrical sockets, electrical receptacles, electrical plugs, transformers, inverters, induction voltage regulators, condensers and capacitors, circuit breakers, electrical switches, plugboards, lightning arresters, electric relays, converters; electrical connectors, rectifiers, fuses, electrical resistors, static power capacitors, leakage circuit breakers, safety circuit breakers, switch boxes, lighting and electrical power distribution blocks, chargers for electric batteries, electric voltage ballasts, vacuum circuit breakers, electrical controllers, remote control starters for vehicles, battery charging devices for power stations; electricity distribution consoles; rotary converters; phase modifiers being phase shifters for communications apparatus; battery chargers; solar batteries; solar

panels for the production of electricity; photovoltaic apparatus and installations and their parts, namely, solar modules for production of electricity, solar thermal and electric receivers, tracking mechanisms and concentrating optics, and control algorithms; power line conditioners for photovoltaic power generation; fuel cells; electrical cells and batteries; rechargeable batteries; measuring apparatus, namely, clamp meters for measuring electricity; electric wires and cables; electric buzzers; telecommunication machines and apparatus, namely, telephone sets, mobile phones, battery chargers for mobile phones, video-phones, automatic telephone exchangers, intercoms, transceivers, AC adaptors, facsimile machines and apparatus and their parts and accessories, namely, platen cover, reversing automatic document feeder (RADF/ADF), paper feed pedestal, drawer module, work tray, finisher, multi position staple finisher, saddle stitch finisher, holepunch unit, inserter, large capacity feeder (LCF), printer, printer/scanners, scanners, main/page memory module, EFI controller, FAX board, FAX 2nd line board, wireless modules, personal area network module, antennas, PCI slot, parallel I/Fs, card reader, data overwrites for facsimile machines, tape recorders, radio cassette tape recorders, stereo tuners, audio stereo tuners, tuners for television receivers, tuners for HDD and DVD recorders, record players, sound recording machines and apparatus, digital audio players, DVD players, DVD recorders, DVD drives, video cameras, video tape recorders, video disc players, digital video disc recorders, digital photo frames, surveillance cameras, digital video cameras, blank magnetic tapes for tape recorders, blank magnetic tapes for video tape recorders, blank video discs for video disc players, needles for phonographs, electrical phonograph record turntable cartridges, noise reduction filters for audio equipment, audio amplifiers, microphones, headphones, graphic equalizers, public-address systems and instruments, transmitters of telecommunication signals, walkie-talkies; broadcasting machines and apparatus, namely, cable broadcast transmission machines and apparatus, transmitting and receiving apparatus for radio and television broadcasting, television receivers, TV sets, television transmitters, television cameras, closed circuit television cameras, closed circuit television monitors, closed circuits television equipment, radio receivers with clocks, car radios, radio receivers, radio transmitters; radio communication machines and apparatus, namely, aeronautical radio communication machines and apparatus, marine radio communication machines and apparatus, vehicle radio communication machines and apparatus, multichannel radio communication machines and apparatus for fixed stations, single-channel radio communication machines and apparatus for fixed stations; radio machines and apparatus, namely, radar machines and apparatus, loran navigation machines and apparatus, navigation apparatus for vehicles, radio beacon machines and apparatus, radio direction finders; electronic advertisement boards featuring a neon lamp; electronic apparatus, namely, ticket issuing, reading and recording machines and replacement parts therefore; hard disc drives; computer hardware; computers; computer programs, namely, computer programs recorded on tapes and discs for use in database management, for web browsers, for anti-hackers, for language translation, for use as a spreadsheet, for word processing, for adding and repartitioning a hard disk drive, for integrating clusters consisting of plural PC servers to prevent system downtime, for optical character readers, for the transfer of institutional business knowledge between employees, for the education of children, for translation, for the creation of firewalls, for encryption, for use in creating spreadsheets; downloadable and recorded computer software, namely, computer software for use in database management for POS systems, for use as a spreadsheet for POS systems, for use as a word processors for POS systems, for use for multivision processors, for data security, system protection and wired and wireless connectivity, for having viewing, editing and merging function used in multi-functional machines with photocopying, scanning, printing and facsimile functions, for controlling the viewing, editing and merging functions of the aforesaid document printers, for controlling the operation of variable speed drives, for managing print and capture related jobs on computer network, for computer screen saver, for point of sales systems used for tracking inventory, processing payments, accounting, categorizing merchandise, creating reports, managing employees, and creating customer accounts in the hospitality and retail industries; downloadable

and recorded computer operating system software to operate personal computers; downloadable and recorded computer software application program that allows the user to maintain a PLU (Price Look Up) and Ingredient Item file; downloadable and recorded computer operating system software to operate personal computers; downloadable and recorded computer software application program that allows the user to maintain a PLU (Price Look Up) and Ingredient Item file; downloadable and recorded computer software for use in controlling, testing and monitoring electricity generators, power plant, distribution of electrical power, micro grid and energy management system; downloadable and recorded computer software for use in connecting, managing, controlling, monitoring and enabling communication among IoT (Internet of Things) devices over a network; downloadable and recorded computer software for use in controlling home automation systems; downloadable and recorded computer software for providing personal assistant; downloadable and recorded computer software for controlling vehicle driving systems; downloadable and recorded computer software for managing logistics operations; downloadable and recorded computer software to provide connectivity among vehicles, database and electronic devices; downloadable and recorded computer software for graphical user interface; downloadable and recorded computer software for spreadsheet management, downloadable and recorded computer software for facial recognition; downloadable and recorded computer software for computer security; downloadable computer software for use in computer system management; downloadable computer software used for big data statistical analysis; downloadable and recorded computer software for analyzing big data; downloadable and recorded computer software used for integration and visualization of scattered data; downloadable and recorded computer software used for quality engineering analysis; electron tubes; semi-conductor power elements; semi-conductor elements, namely, diodes, transistors, light emitting diodes (LED); electronic circuits; integrated circuits; facsimile machines; printers for computers for printing documents; electrostatic copying machines; replacement parts for electrostatic copying machines and document printers for computer; electronic equipment for point-of-sales (POS) systems, namely, point-of-sale terminals, bar code readers, optical readers, advertisement display monitors, liquid crystal displays and electric luminescent display panels, keyboards, document printers, scanners, radio transmitters, radio receivers, computer hardware, and downloadable and recorded computer operating software and replacement parts, all for POS systems; X-ray non-destructive inspection equipment not for medical purposes; ultrasonic non-destructive inspection equipment not for medical purposes; magnetic cores; resistance wires; electrodes, other than welding electrodes or medical electrodes; satellites for use in telecommunications; observation rockets; spectacles; pre-recorded video discs and video tapes featuring movies and music; downloadable electronic publications, namely, books, magazines and manuals featuring information in the field of business, sports, music and movies; medical apparatus and instruments, namely, apparatus for clinical medical laboratory services for the analysis of samples; computer workstations comprising computers for medical imaging systems for clinical and diagnostic use

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Information relating to fashion coordination services for individuals; security guarding for facilities; personal body guarding; rental of fire alarms; rental of fire extinguishers; rental of surveillance cameras being rental of security camera surveillance equipment; rental of security camera surveillance equipment

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Telecommunications other than broadcasting, namely, telecommunications routing and junction services, telecommunications consultation, ISDN services and personal communications services; broadcasting, namely, radio broadcasting, television broadcasting, audio broadcasting and cable and satellite television broadcasting; news agency services for electronic transmission; rental of telecommunication equipment including telephones and facsimile apparatus

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Car transport; packaging of goods; freight brokerage; cargo unloading; removal services, namely, moving services of houses and offices; warehousing services; electricity distribution; water supplying being distribution; rental of warehouse space; rental of loading-unloading machines and apparatus; rental of freezing machines and apparatus; providing transport for guided tours; arranging of transportation for travel tours; coordinating travel arrangements for individuals and for group and transport reservation; rental of gasoline station equipment, not for repair and maintenance of automobiles, namely, vehicle roof racks, gasoline pumps

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Beauty salons; hairdressing salons; providing medical information; physical examination services; dietary and nutritional guidance; nursing care; rental of medical apparatus and instruments; rental of apparatus and instruments for use in beauty salons or barbershops; rental of lawnmowers

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For Removal of radiation rays, namely, radiation area decontamination services; water treating; nuclear fuel reprocessing; rental of water purifying apparatus; rental of waste compacting machines; rental of waste crushing machines; rental of apparatus for generating hydrogen by water-electrolysis; printing; waste processing, namely, collection, sorting and disposal of waste and trash; production of energy

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Fuel; industrial oils

International Classes 4 - Primary Classes **US Classes** 1, 6, 15 **International Class Title** Lubricants and Fuels

For Architectural design; surveying; geological surveys and research; designing of machines, apparatus, instruments, including their parts, or systems composed of such machines, apparatus and instruments; designing, namely, product design, industrial design, packaging design, graphic arts design, design of interior décor, lighting design; computer software design, computer programming, and maintenance of computer software; technology advice provided to Internet users by means of a support hotline; research on building construction or city planning; testing and research on prevention of pollution; testing and research on electricity; testing and research on civil engineering; testing the functionality of machines and research on machines; rental of measuring apparatus; rental of computers; providing a website featuring resources, namely, non-downloadable computer programs for web browsers, for anti-hackers, for certification, for translation, for use in database management, for use as a spreadsheet, for word processing, for adding and repartitioning a hard disk drive, for integrating cluster, for optical character readers, for knowledge succeed, for the education of children, for the creation of firewalls, for encryption, for use in creating spreadsheets, and for word processing on data networks; cloud computing featuring software for

integration of public and private cloud computing environments, for asset optimization, for industrial automation, for machine diagnostics, for optimization of industrial, for mining, for healthcare, for electric power energy, for traffic and transportation, for logistics, for real estate and building facilities, for manufacturing and infrastructure management processes, for web browsers, for anti-hackers, for certification, for translation, for database management, for use as a spreadsheet, for word processing, for adding and repartitioning a hard disk drive, for integrating cluster, for optical character readers, for knowledge succeed, for the education of children, for the creation of firewalls, for encryption, for creating spreadsheets, for word processing, for hosting websites, and for rental of memory space on computer servers; rental of laboratory apparatus and instruments

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Iron and steel; nonferrous metals and their alloys; reservoirs of metal; nonferrous metals

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods
