CASE IDENTIFIERS

Serial Number 88616960 **Application Filing Date** Sep. 14, 2019 **Register** Principal **Mark Type** Service Mark **Publication Date** Aug. 11, 2020

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a circle with the word "BEVZ" in large block letters in the middle and narrow rays emanating from the middle in the background. Beneath the "E" and "V" in "BEVZ" is a location icon comprised of an inverted teardrop shape with a circle in the middle, with a dash appearing on each side of the location icon design. Above the "E" and "V" in "BEVZ" is a wine bottle, positioned slightly in front of a beer bottle to the right and wine glass to the left. All of the foregoing is enclosed inside two concentric circles with the inner circle having a thin border and the outer circle having a thick border. Within the top of the thick border of the outer circle are the stylized words "ALCOHOL DELIVERY" flanked by two small stars. Within the bottom of the thick border of the outer circle are the stylized words "SERVICE & MORE" flanked on the left by four full and one partial rectangular bars and on the right by three full and three partial rectangular bars. A bottle appears to be flying to the right over the top of the thick border of the other circle and behind the inner circle, with the right side having the opening of the bottle and the left side having a five-pronged uneven design and two dots. **Color Claimed** Color is not claimed as a feature of the mark. **Disclaimer** "BEVS", "ALCOHOL DELIVERY", AND "SERVICE"

Downloadable computer software for authorizing access to databases; Downloadable computer software for communicating over computer networks and secure private networks, also known as, voice-over Internet protocol (VOIP) software, downloadable software for instant messaging, and downloadable software for reading and sending emails; Downloadable computer software for computer system and application development, deployment and management; Downloadable computer software for creating searchable databases of information and data; Downloadable computer software for creating, preparing, managing, sending, processing, tracking, and reconciling invoices; Downloadable computer software for downloading music files from the Internet; Downloadable computer software for electronic messaging and wireless digital messaging; Downloadable computer software for electronic messaging and wireless digital messaging that may be downloaded from a global computer network; Downloadable computer software for extracting and tagging metadata, remote data management, providing web-based access to applications and services through a web operating system or portal interface over global and local computer networks; Downloadable computer software for issuing receipts regarding mobile payment transactions; Downloadable computer software for managing communications and data exchange among and between mobile devices and desktop computers; Downloadable computer software for processing electronic payments and for transferring funds to and from others; Downloadable computer software for processing electronic payments to and from others that may be downloaded from a global computer network and recorded on computer media; Downloadable computer software for providing incentive award programs by issuance, processing, and redemption of loyalty points for purchase of goods and services; Downloadable computer software for running web applications; Downloadable computer software for searching a user namely, in the nature of search engine software; Downloadable computer software for searching internal platforms including social sites, social networking, messaging, texts, notes, streaming content, reviews and sites with loyalty benefits; Downloadable computer software for sharing of data and information over computer networks and secure private networks; Downloadable computer software for storing, managing, tracking, analyzing, and reporting data in the field of marketing, promotion, sales, customer information, customer relationship management, sales support, and employee efficiency; Downloadable computer software for synchronizing computer files, folders, data and information within a collaborative work environment; Downloadable computer software for synchronizing, replicating, storing, backing up and sharing data and information on and among electronic devices and items containing electronic and computerized screens, displays, and receivers; Downloadable computer software for sharing information and collaborating on shared documents, with multiple users over global and local computer networks; Downloadable computer software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information; Downloadable computer software for the remote control of security apparatus; Downloadable computer software for the transmission of text, data, images, audio, and video by wireless communication networks and the Internet; Downloadable computer software for booking transportation services that may be downloaded from a global computer network; Downloadable computer software for use as an application programming interface (API); Downloadable computer software for use in connecting to and searching the contents of remote computers, computer networks, and secure private networks; Downloadable computer software for use in secure mobile payment transactions with retailers, vendors and merchants; Downloadable computer software for use in transmitting and receiving data over computer networks and global communication networks; Downloadable computer software for voice recognition; Downloadable computer software for web crawling, indexing, ranking and rendering; Downloadable computer software for working with integrated internal platforms including social sites, social networking, messaging, texts, notes, streaming content, reviews, cloud-based storage, shopping, banking system and sites with loyalty benefits; Computer software platforms, downloadable, for processing mobile payments

and for the storage, transmission, verification, authentication of credit and debit card and other payment and transaction information; Computer software platforms, downloadable, for web searches; Downloadable computer software platforms for contactless transactions with merchants, retailers, and vendors via mobile devices used to process mobile payments; Computer software platforms, downloadable, for ensuring security of credit and debit card information, security of mobile payments, and security of contactless transactions with merchants, retailers, and vendors via mobile devices; Computer software platforms, downloadable, for processing mobile payments; Computer software platforms, downloadable, for storing, facilitating, transmitting, verifying, processing, and authenticating credit and debit card information and other transaction and payment information; Computer software platforms, downloadable, for use in connection with presentation, transmission, verification, authentication, redemption, and electronic storage of discounts, coupons, incentives, rebates and promotional offers; computer software platform recorded, for managing transportation booking services; Downloadable computer software to enable the transmission of photographs to mobile telephones; Downloadable computer software to facilitate communicating among peer professionals in the advertising, marketing, and business services fields, and for customizing computer application user interfaces; Downloadable computer software used for controlling stand-alone voice controlled information and personal assistant devices; Downloadable computer software for use in a cloud computing environment, namely, downloadable computer software development tools, and application programming interfaces (APIs) to be used as an interface by software components to communicate with each other, for digital content management of wired and wireless electronic devices for accessing, updating, manipulating, modifying, organizing, storing, backing up, synchronizing, transmitting, and sharing data, documents, files, information, text, photos, images, graphics, music, audio, video, and multimedia content; Downloadable computer software, namely, electronic financial platform that accommodates multiple types of payment and debt transactions in an integrated mobile phone, PDA, and web based environment; Downloadable cloud-based software for accessing, storing and managing electronic data and applications on computers, mobiles and peripherals; Downloadable cloud-computing software for accessing, storing, and managing electronic data and applications on computers, mobiles, and peripherals; Downloadable communication software for providing access to the Internet; Downloadable communications software for connecting drivers and passengers; Downloadable computer application software for mobile phones, namely, software for consumer loyalty programs used to collect, access, and redeem loyalty points; Downloadable computer application software for mobile phones, namely, downloadable software for social networking in the nature of creating an on-line community for registered users to participate in discussions and share photos, blogging, referring and promoting goods and services of others by posting social media posts, accessing online shopping websites of others, and rewarding users with loyalty points for purchasing goods and services of others; Downloadable computer application software for mobile phones, namely, downloadable software for accessing transportation services; Downloadable computer application software for mobile phones, portable computers, handheld devices, and personal assistant devices, namely, downloadable software for the transmission of voice and video; Downloadable computer game software; Downloadable computer software for accessing, browsing and searching online databases; Downloadable computer software for application programming interface (API) to allow integration of video content and functionality into websites, devices, and software applications; Downloadable computer software for connecting, operating, and managing networked vendors, companies, individuals and charities in incentive awards programs for issuing, processing and redemption of loyalty points for purchase of goods and services from companies; Downloadable computer software for creating indexes of information, indexes of web sites, and indexes of other information resources; Downloadable computer software for dictation; Downloadable computer software for electronic transactions through online real-time bidding for buyers and sellers of goods and services via a global computer network; Downloadable computer

software for enabling hands-free use of a mobile phone through voice recognition; Downloadable computer software for enabling the transmission of photographs to mobile telephones; Downloadable computer software for global positioning and for providing travel directions; Downloadable computer software for making travel arrangements; Downloadable computer software for modifying the appearance and enabling transmission of photographs; Downloadable computer software for personal and business e-commerce and electronic transactions conducted by real-time bidding processes for retail sales of goods and services via a global computer network; Downloadable computer software for personal information management; Downloadable computer software for posting, tagging, creating, editing, producing, manipulating, transmitting, uploading, downloading, and sharing electronic media, information, videos, movies, pictures, multimedia content, images, text, photos, user-generated content, and audio content via the Internet and other communications networks; Downloadable computer software for processing voice commands, and creating audio responses to voice commands; Downloadable computer software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, streaming, receiving, playing and viewing text, multimedia and data files; Downloadable computer software for providing consumer resources for searching, locating, rating, analyzing and providing information for the purchase and use of a wide spectrum of consumer services, goods, products and information over a global communications network namely, mobile communication devices, desktop, mobile, email, text, voice or social media channels; Downloadable computer software for providing incentive award programs by issuance and processing of loyalty points for purchase of goods and services from companies; Downloadable computer software for providing integrated communication with computerized global networks; Downloadable computer software for remote monitoring and analysis of data; downloadable application software for remote monitoring and analysis of data; Downloadable computer software for scheduling appointments, reminders, and events on an electronic calendar; Downloadable computer software for storing, organizing, and accessing phone numbers, addresses, and other personal contact information; Downloadable computer software for streaming audio and video content via the Internet and other global networks using mobile devices, personal computers, and televisions as part of a rewards-based loyalty platform; Downloadable computer software for the collection, editing, organizing, modifying, book marking, transmission, storage, and sharing of data and information; Downloadable computer software for the transmission of voice, data and images between fixed or remote stations and devices; Downloadable computer software for tracking driver behavior; Downloadable computer software for ordering transportation services; downloadable computer software for real time bidding processes; Downloadable computer software for use in customizing computer application user interfaces; Downloadable computer software for use in developing and customizing computer software applications and computer software application user interfaces; Downloadable computer software for video telephony; Downloadable computer software for video-sharing with interactive capabilities between posts and viewers; Downloadable computer software platforms for enabling the transmission of photographs to mobile telephones; Downloadable computer software platforms for modifying the appearance and enabling transmission of photographs; Downloadable computer software platforms for accessing transportation services; downloadable computer software platforms for uploading, downloading, accessing, posting, displaying, tagging, linking, blogging, streaming, and sharing of data and information and processing loyalty points for the purposes of purchasing goods and services of others; Downloadable computer software, namely, an electronic financial platform that accommodates multiple types of payment and debt transactions in an integrated mobile phone, PDA, and web-based environment; Downloadable intelligent personal assistant software for electronic voice recognition and speech to text conversion; Downloadable software for connecting, operating, and managing networked vendors, companies, individuals, and charities in the internet of things (IoT); Downloadable software for

connecting, operating, and managing networked vendors, companies, individuals and charities and providing incentive awards programs by issuance, processing and redemption of loyalty points for purchase of goods and services from companies; Downloadable software for displaying and sharing a user's location and finding, locating, and interacting with other users and places; Downloadable software for facilitating the provision of e-commerce services to others; Downloadable software for managing communications and data exchange among and between mobile devices and desktop computers; Downloadable software for mobile phones and mobile devices that allows the user to search the phone or device; Downloadable software for mobile phones and mobile devices that allows the user to search the Internet for information of general interest; Downloadable software for providing consumer information, namely, compilations, rankings, ratings, reviews, referrals and recommendations relating to merchants, businesses, restaurants, service providers, events, public services, government agencies, parks, recreational areas, religious organizations, charities and nonprofit organizations; Downloadable software for providing incentive awards programs by issuance, processing and redemption of loyalty points for purchase of goods and services from companies, merchants and individuals; Downloadable software for recording, viewing, storing, sharing, and analyzing online audio and video data; Downloadable software for the management and transmission of data; Downloadable software for the management and transmission of information; Downloadable software for third party merchants and businesses for enabling and facilitating business operations, namely, provisioning business services, employee management services, payroll administration, management and processing services, appointment scheduling services, and documentation and security services; Downloadable software for use in transmitting and receiving data over computer networks and global communication networks; Downloadable software for use in web site development; downloadable software for use in computer e-commerce which allows users to perform electronic business transactions, communicate with other users, and access and exchange information via a global computer network; Downloadable software in the nature of a mobile application for facilitation of social networking and social connecting; Downloadable software in the nature of a mobile application for viewing news, messages, stories, and information concerning current events and activities to defined locations or the world; Downloadable software in the nature of a mobile application for providing incentive award programs by issuance and processing of loyalty points for purchase of goods and services from companies; Downloadable software in the nature of a mobile application for viewing consumer preferences, recommendations, suggestions, reviews and other information for the promotion of goods and services; Downloadable software in the nature of a mobile application for viewing pictures, videos, accessing links and other data related thereto for the purposes of user sharing, promoting goods and services, and posting comments; Downloadable software in the nature of a mobile application for transmitting, accessing, organizing and managing online information and data; Downloadable software in the nature of a mobile application for use with computers, portable handheld and mobile devices, and wired and wireless communication devices to facilitate exchanges and posting of information; Downloadable software that provides a dashboard of information, data and tools for evaluating the operation of a business and its and employees, for creating and analyzing sales and revenue forecasts and results, and providing reports regarding the same, for inventory management, and for enhancing communications between such businesses and their employees and customers; Home automation hub downloadable software for voice-activated speakers, computer hardware, and downloadable software for the transmission of voice and video; Downloadable mobile application software for processing electronic payments and for transferring funds to and from others; Downloadable mobile operating system software; Near field communication (NFC) tags for issuing, processing, and redeeming loyalty points for purchase of goods and services; Downloadable Operating system software; Downloadable software development kits (SDKs) comprising downloadable software development tools and downloadable software for use as an application programming interface (API) for creating software and applications related to

internet connected consumer electronic devices; Downloadable software development kits (SDKs) consisting of downloadable computer software development tools; Downloadable software development kits (SDKs) consisting of downloadable computer software for the development, use, and interoperability of APIs that are used by electronic devices, systems, and interchanges that exchange data via communications networks and the internet and that connect with cloud-based data storage and exchange services; Downloadable software for use in developing, executing, and running other software on mobile devices, computers, computer networks, and global communication networks; Downloadable software to control building access and security systems; Downloadable speech command and recognition software

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Personal concierge services for others comprising making requested personal arrangements and reservations and providing customer-specific information to meet individual needs rendered together in a personalized online environment through mobile devices, mobile telephones, desktop computers and peripheral devices, as well as phablets, smart watches, tablet computers, universal peripheral interface (UPI), peripheral component interface (PCI) hardware, as well as portable and handheld digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text, data, image, and audio files; Consultancy, advisory and information services relating to home security systems monitoring using sensors, cameras, motion detectors, infra-red lights, alarm and detection apparatus; Home security monitoring using sensors, cameras, motion detectors, infra-red lights, alarm and detection apparatus

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Audio broadcasting; Audio communication services, namely, transmission of audio by telecommunications network; Communication services, namely, providing electronic transmission of information stored in a database via interactively communicating computer systems; Communication services, namely, transmission of voice, audio, visual images and data by telecommunications networks, wireless communication networks, the Internet, information services networks and data networks; Communications by mobile phones; Consultancy and advisory services relating to the aforesaid services; Data communication services, namely, electronic transmission of data and documents among users of computers; Data streaming; Electronic bulletin board services; Electronic communication services, namely, electronic transmission of data and documents among users of computers; Electronic exchange of data stored in databases accessible via telecommunication networks; Electronic messaging services; Electronic transmission and streaming of digital media content for others via global and local computer networks; Electronic transmission of messages and data; Electronic transmission of messages, voice, data and images through a global communications network; Electronic transmission of streamed and downloadable multimedia content files via computer and other communications networks; Electronic, electric, and digital transmission of voice, data, images, signals, and messages; Information transmission via electronic communications networks; Mobile media services in the nature of electronic transmission of entertainment media content; Peer-to-peer network computer services, namely, electronic transmission of audio, video and other data and documents among computers; Peer-to-peer photo sharing services, namely, electronic transmission of digital photo files among internet users; Providing access to databases; Providing multiple-user access to data on the Internet in the field of user-generated content, electronic media, videos, movies, pictures, images, photos, text, audio content, multimedia content, and information via the Internet and other communications networks using a rewards-based platform; Providing on-line chat rooms and electronic bulletin boards for transmission of messages among users in the

field of general interest; Providing on-line forums for transmission of messages among computer users concerning user-generated content, electronic media, videos, movies, pictures, images, photos, text, audio content, multimedia content, and information via the Internet and other communications networks using a rewards-based platform; Providing user access to a global computer network; Providing voice communication services over the Internet; Streaming of audio material on the internet; Streaming of audio, video, and video-on-demand material on the Internet; Streaming of audio, visual and audiovisual material via a global computer network; Streaming of video material on the internet; Telecommunication services, namely, transmission of voice, data, graphics, images, audio and video by means of telecommunications networks, wireless communication networks, and the Internet; Transmission and delivery of text, data, images, and video via wireless communication networks and the Internet; Electronic transmission of audio by means of the Internet; Electronic transmission of audio data via the Internet; Electronic transmission of data by audio-visual apparatus; Electronic transmission of data via the Internet; Transmission of data, audio, video and multimedia files by telecommunication means; Transmission of data, audio, video and multimedia files, including downloadable files and files streamed over a global communications network; Transmission of video by means of the Internet; Transmission of video data via the Internet; Transmission of voice by means of the Internet; Video broadcasting; Video broadcasting services over the Internet or other communications network featuring the uploaded, posted and tagged videos of others; Video communication services in the nature of video broadcasting; Video telephone services; Video uploading services in the nature of video broadcasting services over the Internet featuring the uploaded videos of others; Voice transmission services by means of telecommunications networks; Wireless broadband communications services; Wireless digital messaging services

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Administering and maintaining databases and virtual computing environments for others, namely, computer services for providing virtual database servers of variable capacity to third party computing and data storage facilities; Application service provider (ASP) featuring software for use in transmission of text, data, images, audio, and video by wireless communication networks and the Internet; Application service provider (ASP) featuring software for use with services featuring computer software for electronic messaging and wireless digital messaging; Application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices; Application service provider (ASP), namely, hosting computer software applications and databases of others; Application service provider, namely, hosting, managing, developing, and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Computer services, namely, cloud hosting provider services for electronic databases and virtual computing environments of others; Computer hardware and software design; Computer services, namely, acting as an application service provider in the field of information management to host computer application software for the purpose of creating, authoring, receiving, distributing, playing, downloading, transmitting, receiving, editing, extracting, displaying, encoding, decoding, storing and organizing text, graphics, images, audio, video, and multimedia content; Computer services, namely, cloud hosting provider services; Computer security services, namely, enforcing, restricting and controlling access privileges of users of computing and network resources based on assigned credentials; Computer services, namely, hosting, managing, provisioning, scaling, administering, maintaining, monitoring, securing, encrypting, decrypting, replicating and backing up databases and cloud computing environments for others in the nature of computer project management services; Computer services, namely,

monitoring the web sites of others to improve their scalability and performance; Computer services, namely, providing search engines for obtaining data on a global computer network; Computer services, namely, providing virtual application, web, file, database and storage servers of variable capacity to others; Computer services, namely, providing virtual data storage and caching to others; Computer security services, namely, unauthorized user and unauthorized software intrusion detection and protection by scanning and penetration testing of computers and networks to assess information security vulnerability; Computer services, namely, web traffic filtering, namely, monitoring, testing, analyzing, and reporting on the Internet traffic control and content control of the web sites of others; Computer software rental; Computerized security services, namely, electronically monitoring, detecting and reporting on suspicious and abnormal patterns of computer network access or activity in the nature of protecting data and information from unauthorized access; Information technology consultancy and advisory services relating to the aforesaid services; Information technology consulting and providing information in the fields of information technology, cloud computing, web design services, computer software, software as a service (SaaS), artificial intelligence, software development, game development, database design and development, development of data processing programs for others, electronic data storage, data warehousing, electronic storage services for archiving electronic data, data security, computer network configuration, and computer software development in the field of mobile computing and the Internet of Things (IoT); Computer services, namely, creating computer network-based indexes of information, websites and resources available on global computer networks for others; Cross-platform conversion of digital content into other forms of digital content; Technical support services, namely, database and application migration services; Data backup and data restoration services; Data encryption and decryption services; Data mining services; Data warehousing; Design and development of camera systems; Design and development of computer hardware and software; Design and development of computer systems; Design and development of data storage systems; Digital compression of computer data; Electronic data storage; Electronic storage of audio files; Electronic storage of data; Electronic storage of images; Electronic storage of videos; Hosting a website for the electronic storage of audio files; Hosting a website for the electronic storage of data; Hosting a website for the electronic storage of images; Hosting a website for the electronic storage of videos; Hosting an online community website featuring shared communications between community members interested in technology, cloud computing, web services, software, software as a service (SaaS), artificial intelligence, software development, game development, databases, data processing and analytics, data storage, data warehousing, data archiving, data and information security, networking, mobile computing, and the Internet of Things (IoT); Hosting of digital content on the Internet; Information technology (IT) consulting services; Information technology support services, namely, help desk services; Installation, maintenance and repair of computer software; Monitoring the technical function of camera systems by remote access to ensure proper functioning; Monitoring of computer systems and databases for security purposes in the nature of protecting data and information from unauthorized access; Monitoring of computer systems by remote access to ensure proper function; planning, design and implementation of computer technologies for others; Providing a website featuring information relating to computer software development for accessing and transmitting data and content among consumer electronics devices and displays; Providing authentication services via online non-downloadable software for establishing and transmitting security credentials for domain name services; Providing customized computer searching services, namely, searching and retrieving information at the customer's specific request via the Internet; Providing customized computer searching services, namely, searching and retrieving information at the customer's specific request via voice commands and audio responses to voice commands through voice recognition software, speech to text conversion software, database synchronization software, voice-enabled software applications, computer software for dictation, computer software for providing travel directions, and

computer software for making consumer purchases and reservations at hotels and restaurants; providing temporary use of on-line non-downloadable computer software for real time bidding processes; Providing temporary use of on-line non-downloadable software for electronic transactions through online real-time bidding for buyers and sellers of goods and services via a global computer network; Providing search engines for obtaining data via communications networks; Providing temporary use of on-line non-downloadable software for the management and transmission of information; Providing temporary use of on-line non-downloadable software for real-time bidding processes; Providing temporary use of on-line non-downloadable software for the management and transmission of data; Providing temporary use of online non-downloadable software for recording, viewing, storing, sharing, and analyzing online audio and video data; Providing user authentication services using single sign-on and multi-factor technology for accessing a secure virtual computing environment; Providing virtual computer systems and virtual computer environments through cloud computing; Providing weather information; Provision of technical support in the operation of camera systems in the nature of troubleshooting of computer software problems; Provision of technical support in the operation of computer systems in the nature of troubleshooting of computer software problems; Remote online backup of computer data; Scaling services, namely, providing variable computing and electronic data storage capacity to others; Server hosting; computer time-sharing services; Software as a service (SaaS) featuring business analytics software for collecting and analyzing data to facilitate business decision making; Software as a service (SaaS) services featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices; Software as a service (SaaS) services featuring computer software for use to connect and control internet of things (Iot) electronic devices; Software as a service (SaaS) services featuring cryptography software; Software as a service (SaaS) services featuring database management software; Software as a service (SaaS) services featuring e-commerce software to allow users to perform electronic business transactions via a global computer network; Software as a service (SaaS) services featuring game engine software; Software as a service (SaaS) services featuring game software; Software as a service (SaaS) services featuring network access management and monitoring software; Software as a service (SaaS) services featuring network security software; Software as a service (SaaS) services featuring network threat detection software; Software as a service (SaaS) services featuring search engine software; Software as a service (SaaS) services featuring software development tools; Software as a service (SaaS) services featuring software for application development, testing, deployment and management; Software as a service (SaaS) services featuring software for collecting, editing, modifying, organizing, synchronizing, integrating, monitoring, transmitting, storage and sharing of data and information; Software as a service (SaaS) services featuring software for computer network management and automation; Software as a service (SaaS) services featuring software for configuring, provisioning and scaling data cache storage for databases; Software as a service (SaaS) services featuring software for converting text to speech; Software as a service (SaaS) services featuring software for creating searchable databases of information and data; Software as a service (SaaS) services featuring software for data backup, recovery and archiving; Software as a service (SaaS) services featuring software for data processing; Software as a service (SaaS) services featuring software for data protection and data security; Software as a service (SaaS) services featuring software for data transfer and migration; Software as a service (SaaS) services featuring software for data warehousing; Software as a service (SaaS) services featuring software for data, desktop and application streaming; Software as a service (SaaS) services featuring software for deploying live and on-demand video content; Software as a service (SaaS) services featuring software for enabling electronic devices to operate and communicate locally while retaining the benefits of analytics and high-level services in the cloud; Software as a service (SaaS) services featuring software for event logging,

reporting, analysis and alert generation; Software as a service (SaaS) services featuring software for image analysis, identification, processing, conversion, cropping, resizing and enhancement; Software as a service (SaaS) services featuring software for improving database performance; Software as a service (SaaS) services featuring software for inserting and removing advertising and other content into video streams; software as a service (SaaS) services featuring software for digital rights management; Software as a service (SaaS) services featuring software for logging changes within a database; Software as a service (SaaS) services featuring software for managing and deploying virtual machines to a cloud computing platform; Software as a service (SaaS) services featuring software for managing software development projects and teams; Software as a service (SaaS) services featuring software for monitoring cloud and application performance; Software as a service (SaaS) services featuring software for monitoring computer network access and activity; Software as a service (SaaS) services featuring software for monitoring, tracking, logging, analyzing, auditing and reporting in the field of regulatory and information security compliance; Software as a service (SaaS) services featuring software for monitoring, tracking, logging and analyzing computer network events, user activity, changes to resource activity and security statistics; Software as a service (SaaS) services featuring software for operating and managing call centers and contact centers; Software as a service (SaaS) services featuring software for provisioning and dynamically scaling video processing, delivery, and storage services; Software as a service (SaaS) services featuring software for running cloud computing based applications; Software as a service (SaaS) services featuring software for searching databases; Software as a service (SaaS) services featuring software for speech, facial and optical character recognition; Software as a service (SaaS) services featuring software for storing, retrieving, caching, extracting, formatting, structuring, systematizing, organizing, indexing, processing, querying, analyzing, replicating and controlling access to data; Software as a service (SaaS) services featuring software for time-shifted television viewing; Software as a service (SaaS) services featuring software for use in big data analysis; Software as a service (SaaS) services featuring software for use in cloud infrastructure management and automation; Software as a service (SaaS) services featuring software for video streaming and for high-speed formatting and processing of audio and video streams; Software as a service (SaaS) services featuring software for virtualization; Software as a service (SaaS) services featuring software platforms for providing customer service and customer support; Software as a service (SaaS) services featuring software that automates the processing of un-structured, semi-structured and structured information and data stored on computer networks and the Internet; Software as a service (SaaS) services featuring software that provides access to cloud-based scalable computing resources and data storage; Software as a service (SaaS) services featuring software that provides real-time, integrated business management intelligence by combining information from various databases; Software as a service (SaaS) services featuring software to manage, connect, and operate internet of things (IOT) electronic devices; Software as a service (SaaS) services featuring software used to process, convert, transcode, encode, decode, encrypt, decrypt, distribute and manipulate digital video, image and audio files; Software as a service (SaaS) services featuring user authentication software; Software configuration management services; Technical support services, namely, troubleshooting in the nature of diagnosing computer hardware problems all related to hardware for accessing and transmitting data and content among consumer electronic devices and displays; Technical support services, namely, troubleshooting of computer software problems
