## GOODS AND SERVICES INFORMATION

**For** Chemical and diagnostic preparations for medical purposes for treatment of infectious diseases; pharmaceutical preparations for the treatment and prevention of infectious diseases; diagnostic test kits featuring antibodies and reagents for the detection of viral and bacterial infections and infectious diseases; sanitizing wipes; chemical, biological and diagnostic reagents and prepared laboratory media for clinical or medical purposes; prefilled syringes containing saline and heparin; chemical reagents for medical purposes for flow cytometry; medical diagnostic assays for the detection of infectious diseases; medical kits comprising a syringe prefilled with saline or heparinized saline and a disinfectant prep pad; in vitro diagnostic reagents for medical use, and assay kits for medical use comprising medical diagnostic reagents for the detection of diseases including cancer and HPV; molecular testing reagents for medical use; medical diagnostic molecular assays for the detection and identification of infectious diseases; media for bacteriological laboratory cultures; surgical scrub, namely, antimicrobial surgical scrubbing solution; medical dressings; sterile sanitizing wipes; povidone iodine swabs and preparations for medical purposes; clinical or medical laboratory in vitro diagnostic preparation for the identification of microorganisms; pharmaceutical preparation consisting essentially of a mixed culture of lactobacillus acidophilus and lactobacillus bulgaricus for oral administration for the treatment of intestinal disorders; broad-spectrum antiseptic; antimicrobial catheter patch medical dressings; medical liquid applicators containing antimicrobial solution and used for applying antimicrobial solution; antiseptic cotton swabs for medical use; adhesive medical bandages for keeping intravenous needles and luer fittings in place; Nonwoven sterilization preparation wrap used in connection with surgical instrument set, namely, medical dressings

**International Classes** 5 - Primary Classes **US Classes** 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals **First Use** Jan. 01, 2016 **In Commerce** Jan. 01, 2017

**For** Medical instruments and apparatus, namely, syringes, stoppers for syringes, syringe holders, needle holders, hypodermic needles, hypodermic needle injectors, catheters, sample collection devices in the nature of specimen cups and tubes, centrifuges, lancets, surgical blades, handles for surgical instruments and apparatus, surgical drapes, surgical scrub brushes, surgical sponges, tubes for surgical instruments and apparatus, tubing for surgical instruments and apparatus, stopcocks for surgical instruments and apparatus, adapters for surgical instruments and apparatus, holders for surgical instruments and apparatus, access valves for surgical instruments and apparatus, extension sets featuring tubing, valves and connectors for drawing blood and intravenous administration of fluids; cannulae and medical guidewires; medical transducer kits comprised of drip chambers, tubing for use with medical devices, stopcocks valves, pressure transducers, access ports, and male and female luer adapters, all for use in administering medical fluids; medical infusion sets consisting of drip chamber, tubing, roller clamp, access ports and male luer adapter for use in administering medical fluids; containers for medical waste; Medical devices, namely, blood analyzers and cell separators, sorters and counters for medical diagnosis; medical instruments and apparatus, namely, tubes for drainage, transfusion, and administering drugs; medical instruments and apparatus, namely, tubing for infusion of fluids, administration of drugs; medical instruments and apparatus, namely, for blood sample collection and for drainage; medical instruments and apparatus, namely, stopcocks for infusion of fluids, administration of drugs, blood sample collection and for drainage; medical instruments and apparatus, namely, holders for blood collection tubes for drainage and specimen collection; medical instruments and apparatus, namely, access valves for drainage, transfusion, administering drugs and specimen collection; medical instruments and apparatus, namely, extension sets for infusion of fluids, administration of drugs, blood sample collection and for drainage; medical instruments and apparatus, namely, infusion sets, and containers for medical waste and replacement parts therefor being sold as a unit therewith; inhalers sold empty for nasal drug delivery; medical devices, namely, IV sets comprising of empty IV medicament solution bags, tubing, IV line access valves, catheters, extension sets for fluid delivery; flow cytometers for clinical purposes for medical diagnostic uses; needle shielding system comprised of a protective sleeve and needle cover for use with a prefillable syringe; drug delivery systems, namely, patch injectors, patch pumps and microinfusors; medical kits for diabetic patients comprised primarily of syringes, pen needles, lancets, glucose tablets, educational materials and disinfectant prep pads; injection and infusion hypodermic needles used to deliver medications to manage diabetes; automated medical processing system for screening cervical cancer and sexually transmitted diseases comprised of an instrument for receiving samples of specimens, an medical instrument for preparing specimen slides, medical imaging apparatus and an instrument for molecular testing for infections; medical injection systems comprising of syringes and medical instruments for injections; sample preparation device for medical diagnostic use; medical apparatus and instruments, namely, scale magnifier and needle guide for insulin syringes; medial diagnostic instrument, namely, a robotic processor which performs DNA probe hybridization and color development to differentiate and identify vaginitis pathogens for medical use; medical apparatus for promoting controlled tissue growth, namely, laboratory incubators, laboratory climatic test cabinets, laboratory shakers, medical instruments for measuring temperature humidity and pH-value, all for use in biotechnology and microbiology; medial diagnostic instrument, namely, a robotic processor which performs DNA probe hybridization and color development to differentiate and identify vaginitis pathogens for medical use; single limb anesthesia breathing circuit machines for use in patient care; medical apparatus and instruments, namely, needleless intravenous connector for medical fluids; medical apparatus and instruments, namely, bone cement delivery system comprised of medical apparatus and instruments for the mixing, application and injection of bone cement and radiopaque bone cement; biopsy hypodermic needles; surgical stapler; medical devices, namely, infusion pumps for delivering measured amounts of

solutions into the bloodstream over time; medical apparatus and instruments, namely, medical fluid connectors for use in the administration of medical fluids, drug infusion connectors for use in the administration of medical fluids, medical infusion bags for use in storing medical fluids for administration, medical vial access adapters for use in piercing septa of closed medical vials to permit access to the vial's contents; anterior cervical fusion retractor used in surgery of the spine; lumbar spine retractor used for surgery of the spine; medical devices, namely, bone punchers and snippers for use in surgery; rongeurs for use in surgery; kerrisons for use in surgery; handheld surgical instruments for neurosurgery and cadaver head holders for use in surgical procedures; laparoscopic surgical instruments, namely, ratchets; insertable and implantable medical devices made from artificial materials, namely, shunts and valves; doppler ultrasound medical device used to aid in the detection of peripheral vascular disease and to listen to blood flow in the fetal heart; medical device, namely, tongue positioning mouthpiece; electro-medical devices used to administer and monitor anaesthetics, anaesthetic gases and oxygen, and structural parts for such apparatus; sterilization containers, baskets, trays, cassettes and accessories therefor, namely, racks for holding medical instruments and metal identification tags for medical instruments, all sold as a unit and all for medical use; cardiovascular medical apparatuses, namely, apparatus for measuring arterial stiffness in a person, and apparatus for measuring arterial elasticity and endothelial function in a person; clinical vital sign medical measurement instruments; medical apparatus, namely, fiberoptic light system comprising of an adjustable headlight band with an attached fiber optic cable for providing light from a light source to be used in medical and surgical procedures; medical apparatus, namely, preoperative hair removal clippers and surgical blades for using during surgical procedures; medical devices, namely, needleless intravenous connector for medical fluids; medical devices, namely, molded tubing apparatus for medical use, namely, universal connectors and protective caps, needleless connectors, and intravenous manifold connectors for use in medical fluid control; medical devices that allow intravenous access via a syringe or male luer; medical instruments that monitor the delivery of medication to a patient, that store medication delivery parameters, namely, drug names, drug conflicts, flow rates, dosages, volumes, delivery time periods, patient physiological parameters, vital signs parameters, and that monitor medication delivery parameters selected by a care giver, and that compare the medication delivery parameters selected by a care giver to stored medication delivery parameters, and that provide display data based on the comparison, namely, medication delivery monitors, infusion pumps, syringe pumps, programmable infusion pumps, programmable syringe pumps and the resident control computer programs sold as an integral component thereof; surgical instruments, namely, blade tips, shafts, scissors rasps, and osteotomes; surgical clamps and forceps; thermometers, disposable thermometer covers, thermometer probes, thermometer stands, thermometer probe cover holders, thermometer base units, all for medical purposes; medical device, namely, compression garments; biopsy hypodermic needle for surgical and medical use; medical apparatus, namely, medical fluid conducting apparatus for use with medical infusion pumps; surgical instruments, namely, retractors, graspers and dissectors; medical devices, namely, volumetric pump and controller devices used as part of an administration set for the infusion of medical solutions to patients; surgical instruments; endoscopic telescopes for medical purposes; blood pressure measuring apparatus, namely, disposable blood pressure cuffs; medical instruments for measuring and monitoring blood pressure, pulse and temperature; surgical instruments for cutting, retracting, grasping, holding, occluding, dilating, probing, cannulating, draining, aspirating, suturing and ligating in the various fields of surgical practice, namely, surgical knives, scissors, medical chisels, osteotomes, curettes, dissectors, forcep and periosteal elevators, rongeurs, cutting forceps and punches, medical saws, trocars, biopsy hypodermic needles, medical retractors, both hand held and self-retaining, tenacula and vulsellum forceps, hemostatic artery forceps, ansatomosis clamps, dressing and tissue forceps, needle holding forceps, lacrimal probes for medical purposes, sinus probes, gall duct probes, urethral, ureteral, uterine and mitral valve dilators for medical purposes, suction tubes

and cannulas, suture needles and ligating instruments for general surgery, rectal and colon procedures, plastic and reconstructive surgery, thoracic and cardiovascular surgery, gynecological and obstetrical procedures, urologic surgery, microsurgery, ophthalmic surgery, ear and endaural surgery, nasal sinus and reconstruction procedures, oral, tonsil, laryngeal, bronchoscopic and esophagoscopic procedures, pediatric surgery, neurological surgery and orthopaedic surgery; suture hypodermic needles and ligating medical instruments; biopsy hypodermic needles, punches and forceps; anesthesia equipment, namely, medical suction tubes, airways, tube-holding forceps; medical electronic instruments, namely, electronic ocular tonometers, and tonographers; diagnostic doscopes for medical use; surgical supplies, namely, drapes for surgical procedures; surgical equipment, namely, a tray and basin system for disinfecting, transporting and storage of surgical instruments; tourniquet inflation units, namely, medical devices for use in cannulation or to stem the flow of traumatic bleeding, namely, tourniquets; patient examining and treatment tables; surgical supplies, namely, drapes for surgical procedures; surgical equipment, namely, a tray and basin system for disinfecting; medical tubes, vials and envelopes used for transporting fluid bacteriological specimens, for medical purposes, sold empty; medical device for determining coagulation time and parts thereof; medical devices, namely, infusion pumps for delivering measured amounts of solutions into the bloodstream over time; anti-microbial product, namely, antimicrobial needleless access connectors to facilitate the transmission of fluids and antimicrobial IV dressings; and medical devices for obtaining body fluid samples for laboratory use in testing body fluid specimens

**International Classes** 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus
**First Use** Jan. 01, 2016 **In Commerce** Jan. 01, 2017

**For** Education and training services, namely, classes, seminars and workshops in the fields of medicine, medical research, medical analysis, medical diagnosis, and medical product development; educational services, namely, conducting lectures, workshops, web-based seminars and roundtable discussions focused on key industry trends in healthcare for professionals; training in the operation, repair and maintenance of diagnostic instruments, reagents and software for use with such instruments in the fields of life science research, pharmaceutical development, clinical care and biotechnology; providing online newsletters relating to diabetes healthcare; educational services, namely, providing online instruction in the fields of medical technology, diabetes and diabetes care; educational services, namely, professional training in the field of specimen collection; education services, namely, providing seminars and on-line seminars in the fields of medical technology, safe medical injection and diabetes care, and distributing print and electronic course materials in connection therewith; educational services, namely, providing training in the field of diabetes and diabetes care provided by means of a call center and distribution of printed and electronic training materials in connection therewith; providing education services in the field of women's health and cancer in the form of live and on-line training, classes and seminars; educational services, namely, providing continuing professional education program, namely, lectures, workshops and roundtable discussions focused on medical sample collection, processing and transport, the preanalytical phase of laboratory testing, troubleshooting incorrect handling procedures, and disease etiology; educational services, namely, in-service training programs to educate customers on compliance with the healthcare safety acts designed for healthcare workers who may be exposed to disease while handling certain medical devices, to educate customers on proper use of safety-engineered products, and assist customers with conversions on how to use safety-engineered products; clinical education services, namely, providing mentoring, tutoring, classes, seminars and workshops in the fields of oncology, interventional procedures, malignant pleural effusions, and vertebral augmentation; medical training and teaching

**International Classes** 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment **First Use** Jan. 01, 2016 **In Commerce** Jan. 01, 2017

**For** Chemical preparations for scientific purposes; cell culture media supplements for laboratory use, scientific and research use; chemical, biological and diagnostic reagents and prepared laboratory media for scientific or research purposes; chemicals for flow cytometry for non-medical purposes, for use in industry and science; fluorescent dyes for scientific laboratory and research use; biological preparation for use in hamster ovary cell culture media other than for medical or veterinary use; molecular testing reagents for scientific or research use; cell culture media for in vitro diagnostic laboratory testing; cell culture media supplement used for the production of biological therapeutics; research reagents for research laboratory use, namely, flow cytometry single-vial reagents; flow cytometry kits comprised of research reagents, buffers and controls for research laboratory use; stem cell culture reagent system comprising chemical culture nutrients, culture growth proteins and protein microarrays for the expansion of mesenchymal stem cells for research and manufacturing use; molecular assays for the detection and identification of infectious diseases for research purposes; laboratory reagents for in vitro diagnostic use in infectious disease testing; reagents for scientific or medical research use, namely, for preparing blood samples for antibody staining in immunophenotyping; chemically impregnated strips and discs for in vitro diagnosis of various diseases; chemical aerosol spray fixative for cytological smears carried on a slide; test kits for detection of antibodies to rubella virus comprising essentially an agglutination card, a latex reagent, serum and a buffer solution for laboratory or research use; disposable packet containing chemicals for generating hydrogen gas and carbon dioxide for scientific purposes; anti-microbial products, namely, chemical test kits for laboratory use in testing body fluid specimens for laboratory or research use

**International Classes** 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals **First Use** Jan. 01, 2016 **In Commerce** Jan. 01, 2017

**For** Computer hardware for scientific purposes; laboratory instruments, namely, assay plates, microplates, coverslips, petri dishes, pipets, tubes, specimen transport containers, anaerobic jars and coagulation timers, flow cytometers and downloadable computer operating software therefor; laboratory apparatus for storing and testing blood cultures; scientific instruments, namely, sample preparation and real-time polymerase chain reaction (RT-PCR) analyzer for the detection and identification of infectious diseases for scientific use; Downloadable computer software and computer hardware for the preparation of medications; Downloadable computer software for the preparation of pharmaceuticals; Downloadable computer software for counting, sorting and detecting cells; computer hardware and downloadable software used for remote diagnostics and troubleshooting of laboratory instruments; Downloadable computer software for use in infectious disease management and healthcare worker safety; Downloadable computer programs and program manuals all sold to the user as a unit for use by hospitals and health related groups for tracking employee medical histories; Downloadable computer programs and manuals for use by medical facilities in monitoring and controlling infections; Downloadable computer software used for diabetes management; Downloadable computer software used for a patient identification bar code system; laboratory instrument accessory, namely, an antimicrobial susceptibility test touch panel for the automated detection of pathogens in the presence of antimicrobials in a biological sample for research use; electronic laboratory apparatus, namely, clinical specimen processor and biochemical analyzer used for clinical and laboratory research and in vitro clinical diagnostics; downloadable electronic technical newsletters in the field of phlebotomy and diagnostic testing provided via a website; laboratory instruments for hematology determination; temperature controlled test tube incubator for use in blood banks and hematology laboratories or laboratory use; electronic laboratory apparatus, namely, a sample processor used for clinical and laboratory research and

clinical diagnostics; laboratory apparatus, namely, slide and blood culture bottle used for subculturing microorganisms from liquid growth media; Laboratory diagnostic instrument, namely, a robotic processor which performs DNA probe hybridization and color development to differentiate and identify vaginitis pathogens for laboratory use; laboratory instruments and apparatus, namely, plates for the isolation of disease-causing microorganisms, lids used to cover the plates and maintain isolation from the environment, pipettes, dishes for containing culture media, inserts for cell culture growth and for performing cell-based assays, laboratory plastic ware, namely, tissue culture flasks, roller bottles, cell culture dishes and plates, petri dishes, conical and round-bottom tubes, pipettes, containers, specifically test tubes, trays for holding test cards, laboratory filters, laboratory glassware, namely, bottles, cap covers used to seal specimen transport containers and tubed culture media, culture slides, cell scrapers, cell strainers, cellware, namely, plastic multi-well plates, flasks, vials, bottles, scrapers, inserts, dishes, slides, tubes and pipettes for laboratory use, high throughput screening kits consisting of laboratory pipettes, reagents, tissues, cells, tubes, vials, flasks, bottles, multi-well plates, slides and flasks, sold as a unit for scientific and research use; laboratory apparatus, namely, test cards for in vitro diagnostic testing of samples for infectious diseases; laboratory apparatus, namely, incubator and laboratory card rotator therefor for use in infectious disease testing; automated machines for dispensing dosages of medicine and medical supplies; computer hardware and downloadable computer software for medication order management, and for securing, tracking, monitoring and replenishment of medicine and medical supplies for medicine and medical supply dispensing machines; computer controlled system comprised of an integrated dispenser unit and a separate dispensing and return unit, that electronically dispenses and tracks scrub suits and other garments used in medical facilities to authorized employees and then receives used scrubs for clean replacements; automated supply management system comprised of bar code scanners, downloadable software and a central computer for verifying the selection and replenishment of supplies and other items into supply storage areas; downloadable computer software for operating a computer controlled system comprised of electronic automated machines for dispensing medical supplies, for identifying patients, procedures and physicians, for managing supply costs, for creating and editing kits designed for particular medical procedures and for tracking the usage of items dispensed by the machines; downloadable computer software used for performing medical diagnostics and management of patient data, and for data management, organization of patient data, workflow management and connectivity in the nature of maintaining communication between patients and healthcare providers, all of the foregoing for use in the medical field; electronic control devices and apparatus for storing and removal of individually packaged goods or wares, in particular pharmaceuticals; downloadable computer operating programs used for controlling devices and apparatus which are used for storing and removal of individually packaged goods or wares; electronic control systems comprising computer hardware and downloadable computer software for machinery used for storing and removal of individually packaged goods and wares, in particular pharmaceuticals; data processing equipment, namely, computer hardware and downloadable data processing software, for medical purposes; automated dispensing machines featuring a computer, downloadable computer software and printer all sold as a unit for dispensing and packing prescription medications; downloadable computer software that integrates patients, costs, treatments and outcome of medical data of healthcare institutions; secured medication dispensing machines and inventory management systems comprising of computer hardware and downloadable software for maintaining the secured medication dispensing machines and inventory management systems; downloadable software to integrate physiological monitoring devices, namely, devices that monitor the normal functions of living organisms and their parts and instructional manuals sold as a unit; downloadable software for analyzing physiological data, namely, software that monitors the normal functions of living organisms and their parts and instructional manuals sold as a unit; a handheld data input capturing tool for use in the medical field, especially for clinical trials and disease management, comprising of a writing stylus and an optical

input, wherein the optical input reads information written by the writing stylus and records said information in its electronic memory, and wherein the device is capable of transmitting said recorded information to other electronic devices, namely, computers, computer memory, computer databases, magnetic storage media, optical storage media, by direct communication, or modem, or internet; automated medication management system comprised of bar code scanners, label printers, and a computer interface, for verifying the selection and replenishment of media and other items into medication dispensing machines; downloadable computer programs for storing medication delivery parameters, namely, drug names, drug conflicts, flow rates, dosages, volumes, delivery time periods, patient physiological parameters, vital signs parameters, and monitoring medication delivery parameters selected by a care giver, and comparing the medication delivery parameters selected by a care giver to stored medication delivery parameters, and providing display data based on the comparison; fluid flow rate meters; ammeters; downloadable computer programs for controlling and monitoring fluid flows and detecting obstructions to fluid flows in the medical industry and downloadable computer programs for capturing, storing, integrating, and presenting data in patient care management systems; downloadable medical software for use in cell sorting instruments for flow cytometry; laboratory ovens, featuring thermal regulators and thermostats; laboratory centrifuges; medical dressing, namely, sterile wraps for use in connection with medical procedures such as in surgical operations

## MARK INFORMATION

**Standard Character Claim** No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a design of a label appearing on a three-dimensional configuration of product packaging in the nature of a bottle and cork design. The bottle is dark brown with a cork in light brown with dark brown spots, with a silver band around the cork. The face of the bottle has a white label design that is ridged at the top and bottom and straight on the sides. At the top of the label is the wording "MONKEY 47" in white on a large dark brown banner with a white and dark brown border across the top of the label. In the background of the label in purple are a variety of leaf-like designs that make up the perimeter of the label. The wording "SCHWARZWALD DRY GIN" appears in white on a large dark brown banner with a white and dark brown border at the bottom of the label. Above the bottom banner in purple is the design of a river with trees along each side of the riverbank. Above the river and trees is a dark brown oval with small circles forming the inside design of the oval. The top of the oval contains dark brown scrolls and a dark brown crown. On the inside of the oval is the picture of a dark brown monkey on a dark brown tree branch. The design elements above the riverbank in purple are all in dark brown with a white background. The broken lines depicting the bottle and the cork of the bottle indicate placement of the mark on the goods and are not part of the mark. The gold color of the bottle design represents the shadows and contours of the bottle, and is not part of the mark. **Color Drawing** Yes **Color Claimed** The color(s) white, silver, brown, dark brown, light brown and purple is/are claimed as a feature of the mark. **Disclaimer** "47" AND "DRY GIN" **Translation** The English translation of "SCHWARZWALD" in the mark is "BLACK FOREST".
