## MARK INFORMATION

**Standard Character Claim** No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of two concentric circular borders on the perimeter, the inner one being slightly thicker than the outer one. The space inside the two circles features a lighthouse in the middle with a shaded band around its lower portion. Surrounding the base of the lighthouse is a pile of coffee beans. Near the top of the lighthouse are three flying birds, one on the left and two on the right, and all appear to be flying from right to left. Above the lighthouse, along the inner edge of the circular borders, are the words "BEACHES & BEANS COFFEE CO." in all capital letters. Below the pile of coffee beans, along the inner edge of the circular borders, are the words "MONTAUK, N.Y." in all capital letters. In the space between the upper words and the lower words, are two curved line segments, each parallel to the circular borders, and similar in thickness to the outer border. **Color Claimed** Color is not claimed as a feature of the mark. **Disclaimer** "BEANS" AND "COFFEE CO." AND "MONTAUK, N.Y."

## MARK INFORMATION

**Standard Character Claim** No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the stylized letters "MI" that interlock to form a house design. The house design appears inside an outlined shaded circle design. Within the circle there is a shaded oval design behind the house design and a shaded curved line below the house design. There are three shaded arrows pointing in the counterclockwise direction around the outline of the shaded circle design. There is a shaded leaf design near the upper right edge of the top-most arrow. The colors black, white, and/or gray represent background, outlining, shading, and/or transparent areas and are not part of the mark. **Color Claimed** Color is not claimed as a feature of the mark.

## RELATED PROPERTIES INFORMATION

**Claimed Ownership of US Registrations** 4254826, 1441476

## GOODS AND SERVICES INFORMATION

**For** Construction services, namely, planning, laying out and construction of a planned residential community **International Classes** 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair **First Use** Apr. 2015 **In Commerce** Apr. 2015

## GOODS AND SERVICES INFORMATION

**For** Medical and surgical apparatus and instruments, namely, catheters, catheter shafts, molded hand piece for catheters and surgical hand piece, and medical electrodes, medical balloons, specialty needles for medical purposes, needles for medical purposes, and medical guidewires; house mark for medical and surgical apparatus and instruments, namely, catheters, catheter shafts, molded hand piece and surgical hand piece and medical electrodes, medical balloons, specialty needles for medical purposes, needles for medical purposes, and medical guidewires

**International Classes** 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus **First Use** Feb. 2016 **In Commerce** Feb. 2016

**For** Land vehicle parts in the nature of wire harnesses, namely, wires, terminals, and connectors bundled together to transmit electric power and signals to electric or electronic equipment mounted on the body parts of automobiles; house mark for land vehicle parts, namely, wire harnesses

**International Classes** 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles **First Use** Feb. 2016 **In Commerce** Feb. 2016

**For** Harness making machines; wire and cable termination machines; bench machines for stripping and terminating wire; cable assembly machines; stripper-crimper-machines; automatic cut and strip machines; polishing machines for polishing and finishing cables and connectors and the ends of cables and connectors; industrial label and identification machines, namely, for laser-engraved markers, label printers, barcode printer and data managing apparatus, tie-on cable tags, hand-held printer, double sided thermal transfer printers and industrial label and identification machines; lead making machines; connector

seating machines; presses, namely, stamping, printing, mechanical power and digital presses; hydraulic presses; machines for processing pins; pin separation machines; molding machines, namely, compression molding machines, injection molding machines, blow molding machines, rotational molding machines; metalworking machines; machines for processing heat shrinkable materials and products; printed circuit board manufacturing machines; insertion machines for contacts; tooling machines for the treatment of cables and connectors for use in electric and electronic industries in connection with electronic components, wireless systems, wires and cables, networks and undersea cables; heat sinks for machines; machines for producing and for assembling printed circuit cards; Industrial labeling machine for applying labels to cables and containers and marking cables and containers; setting machines, namely, leadmarker machines, pin insertion machines, manual bench insertion machines; machines for creating cable and wire bundles; thermal devices such as parts of the aforementioned goods, namely, ventilators, compressor impellers, heat sinks, thermal circuit breakers; parts and components for aforementioned electronic power operated hand tools and implements; house mark for metalworking machines and machine tools, printed circuit board assembly and manufacturing machines, industrial label and identification machines, termination machines, wire and cable termination machines, crimping machine, harness making machines, bench machines for stripping and terminating wire, cable assembly machines, stripper-crimper-machine, automatic cut and strip machines, polishing and finishing machines for polishing and finishing cables and connectors and the ends of cables and connectors, lead making machines, connector seating machines, presses, namely, stamping, printing, mechanical power, digital and hydraulic presses, machines for processing pins, pin separation machines, molding machines, namely, compression molding machines, injection molding machines, blow molding machines, rotational molding machines, machines for processing heat shrinkable materials and products, insertion machines for contacts, parts and components for the aforementioned in the industries of aerospace, appliances, automation and control, automotive, autosport, communications and wireless equipment, connected home, consumer solutions, data centers, defense and military, energy and utilities, hybrid and electric mobility, industrial machinery, intelligent buildings, medical and healthcare, oil, gas and marine, rail, sensor solutions, subsea communications, truck, bus and off-road vehicles; house mark for electrical insulating mechanical components, namely, heat sinks for machines, electrical insulating materials used as components for machines, namely, fins, cooling fin, crimp fin, and folded fin, all for machines, accessories and components for the aforementioned in the industries of aerospace, appliances, automation and control, automotive, autosport, communications and wireless equipment, connected home, consumer solutions, data centers, defense and military, energy and utilities, hybrid and electric mobility, industrial machinery, intelligent buildings, medical and healthcare, oil, gas and marine, rail, sensor solutions, subsea communications, truck, bus and off-road vehicles

**International Classes** 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery **First Use** Feb. 2016 **In Commerce** Feb. 2016

**For** Light-emitting diodes (LED) lighting apparatus; Electric discharge tubes for lighting, sockets for electric lights; Light pipes, LED holder, namely, solderless connectors for connecting the LED to a luminaire; Lighting apparatus for interior and exterior vehicle; Electric light systems and components sold as a unit and comprised of lighting components, namely, light pipe systems, spot lamps, cup holder light ring lamps, back-lit scuffplate lamps, exterior light pipes, tail lamp position lamps, head lamp position lamps, low power components in the nature of photocontrols, timers, circuit breakers, fuses, control boxes, connectors, and HPS testers, lighting components all relating to electrical and electronic signal lamps and signal lanterns, street lighting, apparatus for the remote control of lighting systems, distribution boards and boxes for lighting systems, control and regulation apparatus and instruments for lighting systems, fiber optic light and image conduits, light emitting diode displays,

lighting control apparatus, lighting conductors, connector for lighting, electrical and electronic light switches, dimmer switches, electrical cables for lighting installations, electrical transformers for use with lighting, light emitting diodes, regulators, light dimmers, electric starters for electric lights, wall lights and fittings for wall lights and fixtures; house mark for Light-emitting diodes (LED) lighting apparatus, Electric discharge tubes for lighting, sockets for electric lights, Light pipes, LED holder, namely, solderless connectors for connecting the LED to a luminaire, Lighting for interior and exterior vehicle, Electric light systems and components sold as a unit and comprised of lighting components, namely, light pipe systems, spot lamps, cup holder light ring lamps, back-lit scuffplate lamps, exterior light pipes, tail lamp position lamps, head lamp position lamps, low power components, such as photocontrols, timers, circuit breakers, fuses, control boxes, connectors, and HPS testers, lighting components all relating to electrical and electronic signal lamps and signal lanterns, street lighting, apparatus for the remote control of lighting systems, distribution boards and boxes for lighting systems, control and regulation apparatus and instruments for lighting systems, fiber optic light and image conduits, light emitting diode displays, lighting control apparatus, lighting conductors, connector for lighting, electrical and electronic light switches, dimmer switches, electrical cables for lighting installations, electrical transformers for use with lighting, light emitting diodes, regulators, light dimmers, electric starters for electric lights, wall lights and fittings for wall lights and fixtures

**For** Repair and installation services, namely, repair and installation of computer networks, wireless computer networks, cable and wire networks, wireless networks, lighting systems, undersea cable networks, cable infrastructure, electrical infrastructure, and undersea cables, marine services, namely, undersea cables for communication networks, oil and gas research, undersea telecommunications networks; installation and repair of telecommunication networks; installation, maintenance and repair of telecommunication apparatus; installation, maintenance and repair of telecommunication installations, communications networks, computer networks and data networks; wiring buildings for transmitting telecommunication, wiring for telecommunication; undersea cable installations; installation, maintenance and repair of electrical equipment and systems, industrial machines, pipelines, undersea cables, computer networks, wireless computer networks, cable and wire networks, wireless networks, lighting systems, undersea cable networks, cable infrastructure, electrical infrastructure, and lighting systems in streets and tunnels; installation, maintenance and repair services for all the aforementioned goods, namely, metalworking machines and tools, optical machines and instruments, harness making machines, wire and cable termination machines, bench machines for stripping and terminating wire, cable assembly machines, stripper-crimper-machines, automatic cut and strip machines, polishing machines for polishing and finishing cables and connectors and the ends of cables and connectors, label and identification machines, lead making machines, connector seating machines, presses, namely, stamping, printing, mechanical power and digital presses, hydraulic presses, machines for processing pins, pin separation machines, molding machines, namely, compression molding machines, injection molding machines, blow molding machines, rotational molding machines, metalworking machines, machines for processing heat shrinkable materials and products, printed circuit board manufacturing machines, insertion machines for contacts, machine tools for use in electric and electronic industries in connection with electronic components, wireless systems, wires and cables, networks and undersea cables, motors other than for land vehicles, electric power operated hand tools and implements, namely, tools for crimping, terminators, pneumatic powered tools, testers that permit wire and cable identification without direct metallic contact, all purpose tools such as cable tie gun or cutting and stripping tools, connector removal tools, stamped hand tools, jack termination tools, punch down and

impact tools; installation, maintenance and repair services for all the aforementioned goods, namely, insertion and extraction tools, insulation displacement crimping hand tools, dies, impact tools and testers, parts and components for aforementioned electronic power operated hand tools and implements, metalworking machine tools, printed circuit board assembly and manufacturing machines, label machines, termination machines, crimping machines, and harness making machines, electronic power operated hand tools and implements, and parts and components for electronic power operated hand tools and implements, hand tools and implements, namely, tools for crimping, terminators, testers that permit wire and cable identification without direct metallic contact, all-purpose tools such as cable tie gun or cutting and stripping tools, connector removal tools, stamped hand tools, jack termination tools, punch down and impact tools, insertion and extraction tools, insulation displacement crimping hand tools, dies, impact tools and testers, parts and components for aforementioned hand tools and implements, electric, electrical, electronic, mechatronic and/or electromechanical systems and parts and components therefor, namely, connectors and interconnection systems, cable assemblies, terminals and splices, relays, switches, contactors, terminals, splices, circuit breakers, sensors, fuse boxes, wires, cables, heat shrink tubing, splitters, insulators, transistors, control panels, antennas, monitors, sockets, displays, inductors, adaptors, emitters, couplers, attenuators, splitters, capacitors, optical modules, circuit boards, transceivers, electric motors other than for land vehicles, controls, amplifiers, antennas, indiplexers, isolators, transformers, batteries and battery terminals, heat sinks, controllers, knobs, and fuses; installation, maintenance and repair of computer hardware and computer systems; providing maintenance of terrestrial, wireless and undersea radio communication systems; providing maintenance of terrestrial, wireless and undersea radio communication systems for offshore oil and gas installations; installation, maintenance and repair of electrical systems and equipment; machinery installation, maintenance and repair; services involving maintenance and repair of technical products for cables and connectors; installation and repair of telecommunication systems and facilities and computer peripheral devices; consulting in the field of installation of data cable systems; consulting in the field of installation of telecommunication systems and networks; Undersea cable installation, maintenance and repair; house mark for repair and installation services, namely, repair and installation of networks, infrastructure and undersea cables, marine services, undersea networks, installation and repair of telecommunication networks, installation, maintenance and repair of telecommunication apparatus, installation, maintenance and repair of telecommunication installations, communications networks, computer networks and data networks, wiring buildings for transmitting telecommunication, wiring for telecommunication, installation, undersea cable installations, maintenance and repair of electrical equipment and systems, industrial machines, pipelines, undersea cables, computer networks, wireless computer networks, cable and wire networks, wireless networks, lighting systems, undersea cable networks, cable infrastructure, electrical infrastructure, lighting systems in streets and tunnels, and installation, maintenance and repair services for all the aforementioned goods, namely, metalworking machines and tools, optical machines and instruments, harness making machines, wire and cable termination machines, bench machines for stripping and terminating wire, cable assembly machines, stripper-crimper-machines, automatic cut and strip machines, polishing machines for polishing and finishing cables and connectors and the ends of cables and connectors, label and identification machines, lead making machines, connector seating machines, presses, namely, stamping, printing, mechanical power and digital presses, hydraulic presses, machines for processing pins, pin separation machines, molding machines, namely, compression molding machines, injection molding machines, blow molding machines, rotational molding machines, metalworking machines, machines for processing heat shrinkable materials and products, printed circuit board manufacturing machines, insertion machines for contacts, machine tools for use in electric and electronic industries in connection with electronic components, wireless systems, wires and cables, networks and undersea cables, motors other than for land vehicles, electric power operated hand

tools and implements, namely, tools for crimping, terminators, pneumatic powered tools, testers that permit wire and cable identification without direct metallic contact, all purpose tools such as cable tie gun or cutting and stripping tools, connector removal tools, stamped hand tools, jack termination tools, punch down and impact tools, insertion and extraction tools, insulation displacement crimping hand tools, dies, impact tools and testers, parts and components for aforementioned electronic power operated hand tools and implements, metalworking machine tools, printed circuit board assembly and manufacturing machines, label machines, termination machines, crimping machines, and harness making machines, electronic power operated hand tools and implements, and parts and components for electronic power operated hand tools and implements, hand tools and implements, namely, tools for crimping, terminators, testers that permit wire and cable identification without direct metallic contact, all-purpose tools such as cable tie gun or cutting and stripping tools, connector removal tools, stamped hand tools, jack termination tools, punch down and impact tools, insertion and extraction tools, insulation displacement crimping hand tools, dies, impact tools and testers, parts and components for aforementioned hand tools and implements, electric, electrical, electronic, mechatronic and/or electromechanical systems and parts and components therefor, namely, connectors and interconnection systems, cable assemblies, terminals and splices, relays, switches, contactors, terminals, splices, circuit breakers, sensors, fuse boxes, wires, cables, heat shrink tubing, splitters, insulators, transistors, control panels, antennas, monitors, sockets, displays, inductors, adaptors, emitters, couplers, attenuators, splitters, capacitors, optical modules, circuit boards, transceivers, electric motors other than for land vehicles, controls, amplifiers, antennas, indiplexers, isolators, transformers, batteries and battery terminals, heat sinks, controllers, knobs, and fuses, installation, maintenance and repair of computer hardware and computer systems, providing maintenance of terrestrial, wireless and undersea radio communication systems, providing maintenance of terrestrial, wireless and undersea radio communication systems for offshore oil and gas installations, installation, maintenance and repair of electrical systems and equipment, machinery installation, maintenance and repair, services involving maintenance and repair of technical products for cables and connectors, installation and repair of telecommunication systems and facilities and computer hardware, computer hardware and computer peripheral devices, installation and repair of equipment and household infrastructure systems and computer hardware, consulting in installation of data cable systems, consulting in installation of telecommunication systems and networks, Undersea cable installation, maintenance and repair

**International Classes** 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair **First Use** Feb. 2016 **In Commerce** Feb. 2016

**For** scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking, supervision, life-saving and teaching apparatus and instruments, namely, sensing and signalling devices for measurement and quality control of materials processing by laser, thermistors; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, electrical control devices; apparatus for recording, transmission or reproduction of sound or images; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines; data processing apparatus and computer hardware and peripheral devices for computers; computer software for computer system and application development, deployment and management for use in relation to aerospace, appliances, automation and control, automotive, autosport, communications and wireless equipment, connected home, consumer solutions, data centers, defense and military, energy and utilities, hybrid and electric mobility, industrial machinery, intelligent buildings, medical and healthcare, oil, gas and marine, rail, sensor solutions, subsea communications, truck, bus and off-road vehicles, motors other than for land vehicles, power tools, switches, base stations, NIC and PC cards,

systems for the electrical power industry including rail transport systems, premises cabling, communication networks, industrial motors, lighting, industrial machinery and process control equipment, heating, ventilation and air conditioning, security system components, instrumentation, medical equipment, medical diagnostics and mobility devices such as electrical harness design, identification software and radio software; integrated hardware and software for identification and labeling products; computer software and hardware for electronic control systems; hardware and software for identification and labeling products; electromechanical systems and parts and components related thereto, namely, housing, pin, lock, notch, terminal blocks, splice, contact; connectors and connection systems, namely, connectors for use in aerospace, appliances, automation and control, automotive, autosport, communications and wireless equipment, connected home, consumer solutions, data centers, defense and military, energy and utilities, hybrid and electric mobility, industrial machinery, intelligent buildings, medical and healthcare, oil, gas and marine, rail, sensor solutions, subsea communications, truck, bus and off-road vehicles; electrical connectors; components for connectors, particularly, housing, pin, lock, notch, terminal blocks, splice, contact; connections for equipment in the nature of "plug-in" connections, namely, plug-in equipment connections, namely, switchgear and transformer connections, and straight through joints and shield break joints, link boxes to ground and protect shields of high voltage cables, sleeves, connectors and fittings, surge arresters; relays, contactors and switches; electric couplings, connections and joints for use in the industries of aerospace, appliances, automation and control, automotive, autosport, communications and wireless equipment, connected home, consumer solutions, data centers, defense and military, energy and utilities, hybrid and electric mobility, industrial machinery, intelligent buildings, medical and healthcare, oil, gas and marine, rail, sensor solutions, subsea communications, truck, bus and off-road vehicles; electrical connector housings; electric wires and cables; fiber optic cables; underwater electrical cables; telecommunication cables; molded harnessing products, namely, electrical wire, cable, and cable assemblies; harnessing and tubing products and accessories, namely, adaptors, terminators, tubing, connections, battery terminal connector clamps, end vent caps for batteries, and junction sleeves; electrical and fiber optic harnesses for use in the electronic industry; electrically conductive cable terminations; electrical terminators; retractable collars for wiring not of metal; housings for ground connections and guard shields for high voltage cables; accessories for high voltage cables for industry in aerial and underground installations, namely, external terminals and dry exterior terminals; electrical cables for lighting installations; canals for electrical wiring, namely, duct, wireway, meatus, tube, channel for electrical cables and wires; controllers namely, power controllers, ethernet controllers; communication equipment, particularly headset jacks, electric plugs, electrical plug devices enable connection and disconnection of power and/or control cables, electrical power distribution blocks, electrical terminal blocks, electrical power strips, wire to panel connector, electrical, and circular and sealing connectors, wireless network repeaters, wireless communication signal repeaters, digital signal conditioners, analog signal conditioners, electronic signal conditioners, communication distribution frames, couplers for fiber optics, fiber optical wavelength-division multiplexers/demultiplexers, PCB (printed circuit board) modules, relay modules, PCB RF (printed circuit board radio frequency) modules, module component, multi-sensor modules, IAC AC (idle air control alternating current) input module, IDCM slim line DC (direct current) input module, AC (alternating current) output module, DC (direct current) output module, DC (direct current) input module, basic relay module, connection and commutation chassis, switching, patching; devices for switching and monitoring electrical power supplies; control modules for connection and switching, namely, PCB modules, relay modules, PCB RF modules, module component, multi-sensor modules, IAC AC input module, IDCM slim line DC input module, OAC AC output module, ODC DC output module, IDC DC input module, basic relay module F, power distribution box; test equipment for private lines for carrying out tests on communication systems comprising test modules, service modules, signal test modules, cable reels, electrical panels and cable cages, particularly with

the option of oscillation, amplification, attenuation, and comprising kits, terminals, repeating reels, terminal signal converters, signal relays, cords with plugs, monitor loudspeakers, control devices for transmission buffers, automatic level control devices, bridge transformers, pulse generators, external impellers, loop returns and control devices for test baseplates, all the aforementioned components sold as a modular test unit; electrical apparatus used as components of a private line test system for carrying out tests on return loops, for controlling and testing two-wire communication lines, comprising a photo optic emitter assembly; mechatronic systems, namely, combination of mechanical and electronic systems for use in sensing and control systems, in hybrid housings, housings for hybrid circuits, premolded packages for semiconductor based sensors and injection molded lead frames, comprised of stamped parts such as high precision lead frames and contact parts for switching functions, electroplated functional surfaces for wire bonding, soldering, resistance and laser welding, and corrosion protection, overmolding for chip and substrate packaging and hermetic housing, and assembly technology for the integration of electronic components, Hall and MR Sensors, temperature sensors, circuit protection and joining technologies for metals and plastics, selective soldering, resistance and laser welding, and gluing, the aforementioned sold as a unit; telecommunication relays for use in communication technology, networking equipment, telecommunications terminals, and accessories, broadband, wireless, central office switching, measurement and control equipment, automobile technology, medical equipment, and entertainment electronics; industrial relays, namely, mid-range PC board relays, mid-range plug-in/panel mount general purpose relays, power PC board relays and power plug-in relays; computer relays, namely, signal PC board relays and power PC board relays; electrical apparatus and electronic components used in relation to aerospace and defense, computer and consumer electronics, power tools, lawn equipment, switches, base stations, NIC and PC cards, systems for the electrical power industry including rail transport systems, premises cabling, communication networks, industrial motors, lighting, industrial machinery and process control equipment, heating, ventilation and air conditioning, security system components, instrumentation, medical equipment, medical diagnostics and mobility devices, namely, connectors and contactors, relays, switches, cable assemblies, terminals and splices, electro-optic products, namely, electrical and optical cables, circuit breakers, sensors, fuse boxes, mechatronic modules, namely, mechanical remote controls for motors, wires and cables, heat shrink tubing, splitters, insulators, fiber cabling, RF power transistors, electrical control panels, and antennas, computer monitors; blank smart cards comprised of embedded integrated programmable circuits; premolded packages, namely, insulating body, housings, forms and wraps for semiconductor based sensors and injection molded lead frames, comprised of stamped parts, namely, high precision lead frames and contact parts for switching functions, electroplated functional surfaces for wire bonding, soldering, resistance and laser welding, and corrosion protection, overmolding for chip and substrate packaging and hermetic housing, and assembly technology for the integration of electronic components, circuit protection and joining technologies for metals and plastics, selective soldering, resistance and laser welding, and gluing, the aforementioned sold as a unit; accessories for radios, namely, amplifiers, circuits, printed circuits, control heads, control stations, consoles, chargers, headsets, hand held controllers, microphones, programming accessories, namely, tuners, speaker mics; fiber optic communication components, namely, emitters, diodes, laser diodes, adapters, optical modules, attenuators and switches, fiber optic cables, couplers; electro-optic products, namely, cables, pulse suppressor boxes, polarization mode dispersion analyzers for fiber capability to support high speed, electro optical targeting system, infrared aperture radar, research radar, targeting pod system, cameras, infrared cameras, high-resolution, digital imagery, pump lasers, high frequency electro-optical modulators and converters, electro-optical connectors, electro-optical transceivers, electro-optical seeker, Electro/Optical Interconnects, electro-optical converters; backplane electronic circuit boards; electric power connectors; microwave products, namely,

microwave amplifiers, antennas, attenuators, RF power transistors, drivers, namely, drivers for allowing communication and interaction between microwave devices or components, allowing control over another microwave device or component, and for supplying power between microwave devices or components, microwave products, namely, microwave amplifiers, antennas, attenuators, RF power transistors, dispersion shifted optical fibers, synthesizers, mixers/modulators, diodes, frequency moderators, limiters, couplers, isolators, splitters, combiners, transformers, inductors, chip capacitors, transistors, switches, oscillators, transceivers; mixers, namely, connectorized, flat-pack, drop-in and surface-mount mixers used in aerospace and defense, and wireless and broadband communication applications; modulators, namely, connectorized, flat-pack, drop-in and surface-mount modulators used in aerospace and defense, and wireless and broadband communication applications; drivers, namely, electronic drivers for allowing communication and interaction between electronic devices or components, allowing control over another electronic device or component, and for supplying power between electronic devices or components; electric, electrical and electronic meters, namely, hour energy meters, digital metering systems, meter relays, digital meters, and analogue instrument meters; fiber optics and fiber optic and fiber optic communication equipments, components and products, namely, attenuators, switches, cable assemblies, backplane interconnects, connectors, adaptors, tooling products and accessories, namely, tool measuring instruments, electrooptics, namely, cables, interconnects, multiplexers, amplifiers, circulators, transformers, and fiber optic distribution products, namely, cables; fiber optic filters; radio frequency identification and labeling tags; passive components, namely, electrical connectors, capacitors, inductors, resistors, transformers, wires, cables, fuses, and relays; heat sinks for use in electronic components; RF and microwave products, namely, antennas, amplifiers, attenuators, power transistors, oscillators, coax, adapters, contacts, RF and signal filters and inductors, dispersion shifted optical fibers, synthesizers, mixers, modulators, diodes, frequency moderators, limiters, couplers, isolators, splitters, combiners, transformers, chip capacitors, transistors, switches, oscillators, transceivers, and drivers, namely, drivers for allowing communication and interaction between microwave devices and components, allowing control over another microwave device or components and for supplying power between microwave devices or components; components for circuit boards used in computers, consumer electronics, communication equipment, aerospace and defense, industrial machinery and instrumentation industries; battery chargers, namely, battery chargers for aircraft and battery chargers for industrial and leisure vehicles; ammeters for direct current, transformers; terminals and splices, namely, PCB terminals, terminals blocks, foil terminals, power terminals, terminal junction modules, crimp terminal housings, terminal block hardware, special purpose terminals; miniaturized terminal and connector systems, namely, PCB terminals, terminals blocks, foil terminals, power terminals, terminal junction modules, crimp terminal housings, terminal block hardware, special purpose terminals; terminal block accessories, namely, PCB terminals, terminals blocks, foil terminals, power terminals, terminal junction modules, crimp terminal housings, terminal block hardware, special purpose terminals; terminals for use in household appliances, lawn and garden equipment, HVAC equipment, industrial machinery, vending machines, motorcycles, cars, trucks, marine and off-highway vehicles, computers, consumer electronics and home entertainment; splices, namely, splices for electrical transmission lines; support sockets for chips, namely, electric sockets, movable sockets; linear, digital, analogical, electronic, electrical circuits; bridge circuits; integrated circuits; electrical adapters; sensors, namely, ultrasonic sensors, temperature sensors, pressure sensors, magnetic sensors, electronic radar sensors, electronic inductive sensors; electronic gas sensors; mixers, namely, connectorized, flat-pack, drop-in and surface-mount mixers used in aerospace and defense, and wireless and broadband communication applications; modulators, namely, connectorized, flat-pack, drop-in and surface-mount modulators used in aerospace and defense, and wireless and broadband communication applications; antennas; aerial amplifiers; audio and video-receivers; GPS receivers; circuit boards; electrical distribution boxes; computer monitors,

computer network nodes, switches and routers; computer apparatus for computer networking; apparatus for protecting computers against electrical power supply problems, namely, surge protectors; broadband data interconnection computer installations for use in the rail, medical, automotive and ICT industries, namely, relays for use in communication technology, networking equipment, telecommunications terminals, and accessories, broadband, wireless, central office switching, measurement and control equipment, automobile technology, medical equipment, and entertainment electronics; electronic components for computers, namely, switches, relays, cables, contacts, connector, electronic circuits; fiber optic computer installations for use with computers, namely, fiber optic cable assemblies and receptacles and connectors and relays and modules; components of connections for computer modems in the nature of plug-in relays; electrical processing equipment, namely, electrical connectors between wires and boards, boards and boards, cables and boards and cables and cables; inductors, namely, electrical inductors, high current indicators, cable wind indicators for use in automobiles, electric automotive chokes, shielded cable reel inductors, non shielded reel inductors, electric inductors, high frequency inductors, RF inductors, molded SMD inductors, power inductors; magnetics, namely, sensors, relays and switches; electrical resistors; electrical power resistors; electrical and magnetic inductors; resistors, namely, electric resistors for telecommunication apparatus; resistances, electric; commutators; switches, electric; fiber optic products, namely, fiber optic cables, fiber optic connectors, fiber optic assemblies, rugged fiber connectors, fiber optic patch cable assemblies, expanded beam fiber optics, backplane fiber optics, rugged rectangular fiber connectors, standard fiber connectors, expanded beam fiber housings, MC801 fiber connectors; electro-optic products, namely, cables, pulse suppressor boxes, polarization mode dispersion analyzers for fiber capability to support high speed, electro optical targeting system, infrared aperture radar, research radar, targeting pod system, cameras, infrared cameras, high-resolution, digital imagery, pump lasers, high frequency electro-optical modulators and converters, electro-optical connectors, electro-optical transceivers, electro-optical seeker, Electro/Optical Interconnects, electro-optical converters; components for circuit boards used in computers, consumer electronics, communication equipment, aerospace and defense, industrial machinery and instrumentation industries; electronic components for machines, tools, motors other than for land vehicles and engines, namely, connectors and contactors, relays, switches, cable assemblies, terminals and splices, electro-optic cables, circuit breakers, proximity sensors, fuse boxes, mechatronics and mechatronic modules, namely, mechanical remote controls for motors, wires and cables, heat shrink tubing, splitters, insulators, fiber cabling, RF power transistors, electrical control panels, and antennas; protection devices, namely, overcurrent, overvoltage, overheating and electrostatic discharge ESD protection devices; circuit breakers; circuit board assemblies for multiple connectors; circuit board assembly electrical interconnectors for audio and video signals for multiple connectors; attenuators, namely, electrical signal attenuators; multiplexers; amplifiers; data communication systems, namely, contactless data connectors; data transmission cables; optical backplane interconnects for audio, video and data signals; contactless connections for the transfer of power, data and signals; heat-shrink sheaths, namely, sheaths for electric cables, identification sheaths for electric wires; filters, namely, filters for optical devices, antenna filters, electrical line filters; signal filters, namely, radio frequency signal filters, duplexers; capacitors; transformers; couplers; batteries; battery terminals; microwave products, namely, microwave antennas, microwave relays, circuit mixers, frequency modulators; converters; heat sinks for computers; heat sinks intended for electronic apparatus; measuring devices, namely, sensors and relays; controllers, namely, power controllers, ethernet controllers, control cabinet; radio frequency identification tags for radio frequency identification (RFID), protective devices against short circuits, namely, surge protectors and relays; switches, electric; fuses; components of radio frequencies (RF), namely, RF and coax connectors, RF cable assemblies, RF connector ferrules, stripline RF connectors and contacts, surface

mount resistors, RF connector caps, RF connector hardware, PCB RF modules, RF adapters, FAKRA RF connector system, RF connectors, RF connector launchers; control cabinets for loudspeakers, electrical switchboxes, electrical distribution boxes; thermoretractable sheaths and their enclosures, namely, sheaths for electric cables, heat shrink joints and splices; electrical and electronic components for identification and labelling, namely, printers, cables, connectors, switches and software; accessories for radios, namely, amplifiers, circuits, printed circuits, control heads, control stations, consoles, chargers, headsets, hand held controllers, microphones, programming accessories, namely, tuners, speaker mics; radio accessories, namely, antennas, connectors and batteries; converters, electric; DC/AC converter, namely, panel mounted connector; keyboards; electrical sleeves, namely, junction sleeves for electric cables, electrical connectors, electrical spacers, voltage surge protectors, electrical equipment for applying voltage and grounding, namely, electrical connectors, electrical cables, fiber optic connectors and fiber optic connectors; link boxes to ground and protect shields of high voltage cables, sleeves, connectors and fittings, surge arresters; electrical control cabinets, namely, cabinets for storage of electrical control panels, switches and wires; vibration indicators; electrical fuses, light-emitting diodes (LED); telecommunication equipment, namely, electrical terminal blocks for cables for moving and insulating; electrical protection devices, except for insulators, and against voltage surge for electrical and electronic telecommunications systems and data telecommunication systems, namely, surge arresters, connectors, namely, voltage surge protectors, fuses, diodes for fuses, thermo-protective switches and varistors; parts for telephones, namely, cable systems for telecommunication, namely, contacts, software and antennas; multi-user wall housings, namely, housings in the nature of housing for switching apparatus; enclosures and cabinets for electrical, patch panel, fiber optic and electronic cables, backplanes, controllers and radio frequency connectors and contactors, switches, cables, terminals and splices; cabinets adapted to contain communication instruments, namely, optical cables, electronic cables, backplanes, controllers and radio frequency connectors and contactors, switches, cables, terminals and splices, circuit breakers, sensors, fuse boxes, mechatronics and mechatronic modules, namely, connector housings, packaging for chips and substrates, frames, lead frame, wires and cables, splitters, insulators, RF power transistors, electrical control panels, antennas, and relays; computer equipment, namely, gateway routers in the nature of computer control hardware, differential switches, electric switches, computer network bridges, wide area network (WAN) routers, wireless routers, network routers, repeaters and network adapters, ethernet repeaters, wireless network repeaters, computer network adapter for use in transmission or data, text, video, audio and voice transfer by broadband, radio broadcasting, cable broadcasting, coaxial cable, copper wires, fiber optics, radio, telephone, twisted pairs, wire, wireless and other telecommunication technology; electrical metal connectors and connectors; accessories for wiring for electrical distribution networks, electrical terminals and junctions, electrical locking devices, namely, accessories in the nature of clamps and joints, terminal blocks, cable tie mounts, shield receptacles, backshells and adapters; lighting controllers; systems for cables for vehicles, namely, cable assemblies; controls for LEDs, namely, dimming receptacle, rotatable dimming receptacle, fuse boxes, street lighting photo controls, street lighting connectors; systems for electrical cable harnesses and connectors, namely, cables and connectors; accessories for distribution of electricity conduits, namely, box connector, joint, coupling, junction; acoustic products, namely, antennas, optical backplane interconnects for audio, video and data signals, surface waves, sonic and ultrasonic waves travelling on the surface of a screen, systems in the nature of audio microphones for recognizing audio impulses; devices for managing cables, electrical lines, namely, cable management devices, namely, aluminum raceway system and wiring ducting; relays for interfaces such as parts of the above mentioned goods; ultrasonic, infrared and radiological apparatus and instruments for laboratory use, namely, accelerometers, ultrasonic sensors, infrared sensors; apparatus for laboratory use for electrical, mechanical, and environmental testing for use of products in the industries of aerospace, appliances, automation and control, automotive, autosport, communications and wireless equipment,

connected home, consumer solutions, data centers, defense and military, energy and utilities, hybrid and electric mobility, industrial machinery, intelligent buildings, medical and healthcare, oil, gas and marine, rail, sensor solutions, subsea communications, truck, bus and off-road vehicles; laboratory apparatus for scientific research for electrical, mechanical, and environmental testing for use of products in the industries of aerospace, appliances, automation and control, automotive, autosport, communications and wireless equipment, connected home, consumer solutions, data centers, defense and military, energy and utilities, hybrid and electric mobility, industrial machinery, intelligent buildings, medical and healthcare, oil, gas and marine, rail, sensor solutions, subsea communications, truck, bus and off-road vehicles; scientific apparatus for laboratory purposes and laboratory use for electrical, mechanical, and environmental testing for use of products in the industries of aerospace, appliances, automation and control, automotive, autosport, communications and wireless equipment, connected home, consumer solutions, data centers, defense and military, energy and utilities, hybrid and electric mobility, industrial machinery, intelligent buildings, medical and healthcare, oil, gas and marine, rail, sensor solutions, subsea communications, truck, bus and off-road vehicles; Accessories, parts and components for the afore-mentioned goods all included in this class, namely, for electrical, mechanical, and environmental testing for use of products in the industries of aerospace, appliances, automation and control, automotive, autosport, communications and wireless equipment, connected home, consumer solutions, data centers, defense and military, energy and utilities, hybrid and electric mobility, industrial machinery, intelligent buildings, medical and healthcare, oil, gas and marine, rail, sensor solutions, subsea communications, truck, bus and off-road vehicles; house mark for telecommunications systems, equipment and components for use in the transmission or transfer of voice, audio, video, text and data by broadband, broadcasting, cable casting, coaxial cable, copper wire, fiber optic, radio, telephone, twisted pair, wire, wireless and other telecommunications technologies, and computer software for use in operating and managing telecommunications systems and equipment, and the communications over such systems; house mark for telecommunications and communications equipment, namely, telephones and parts therefore; house mark for electronic components, namely, cables and cable assemblies, wires, circuit breakers, switches and knobs, sensors, heat sinks, timers, resistors, arrestors, transformers, meters, controllers, connectors, electric sockets, capacitors, couplers, transceivers, control panels, circuit boards, relays, and drivers, namely, electronic drivers for allowing communication and interaction between electronic devices or components, allowing control over another electronic device or component, and for supplying power between electronic devices or components; house mark for optical backplane interconnects for audio, video and data signals, and computer software for use in operating and managing telecommunications systems and equipment, and the communications over such systems; house mark for surge arresters; house mark for cable management devices, namely, aluminum raceway system and wiring ducting; house mark for antennas, electromagnetic interference filters, sensors, fiber optics, cable assemblies, harnessing, terminals and splices, electrical connectors, relays, contactors, electrical wire and cable; house mark for tool measuring products

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus **First Use** Feb. 2016 **In Commerce** Feb. 2016

**For** Telecommunications services, namely, rental of telecommunication lines; consulting in the field of telecommunication; house mark for telecommunications services, namely, rental of telecommunication lines and consulting in the field of telecommunication

**International Classes** 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication **First Use** Feb. 2016 **In Commerce** Feb. 2016

**For** Treatment of materials by means of laser cutting, laser welding, laser ablation, laser marking, cryogenic processing, air humidification, air dehumidification, air purification; Prototype fabrication of new products for others; manufacturing services for others in the field of medical devices; assembly of products for others; house mark for treatment of materials, prototype fabrication of new products for others, manufacturing services for others in the field of medical devices, and assembly of products for others

**International Classes** 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment **First Use** Feb. 2016 **In Commerce** Feb. 2016

**For** Rubber, gutta-percha, and vinyl products made of semi-processed plastics, namely, silicone rubber plug, silicone rubber connector seal, silicon plastics, nylon vinyl, soft vinyl chloride, vinyl terminals and splices, vinyl receptacle, vinyl film, vinyl labels, vinyl dustcover, vinyl dust cap all of the aforementioned for protection, insulation, joining, sealing and splicing purposes; packing, stopping and insulating materials, namely, insulation tape, polymer insulators for electrical cables, electrical wires and electrical connectors, semi-processed resins for protection and insulation for electrical substations, underground cables, overhead power lines and railway applications; flexible tubes, not of metal; non-metal tubing, namely, tubing and connection pieces not of metal for pipes, tubing of rubber, heat shrink tubes, tubing for nuclear applications, sheaths for tubing; rubber products, namely, electrical insulating rubber in the nature of tubing, sealants and mastics, sheets, sleevings, sleeves and wrappings, gaskets, filling materials of plastic or rubber, rings of rubber, rubber packings, rubber sleeves for protecting parts of machines; adhesive sealants, electrical insulating materials, synthetic rubber and plastics for insulation, protection, joining, sealing or for, splicing purposes, or for use in the assembly of electrical, telegraphic or telecommunications apparatus or instruments and for use in the assembly of wires and of cables, sealants, and heat shrink; electrical insulating materials and compounds, namely, heat pipes used for thermal modeling chassis simulations, electrical insulating products and materials, namely, station post insulators, line post and pin insulators, tension suspension insulators, rail insulators and hybrid rail insulators; rubber pipes and hoses, namely, flexible rubber pipes, flexible plastic pipes, unidirectional I/O channels; insulating materials designed for use in distribution and transmission networks and in passive electronic components, namely, MV polymeric and porcelain insulators, station post insulators, line post and pin insulators, tension /suspension insulators, rail insulators, hybrid rail insulators, housing components for composite hollow insulators, FRP components for use in high voltage apparatus, MV insulators; electrical insulating rubber and mica insulator products and electrical insulating materials; tubes, namely, rubber tubes and insulation tubing; insulating goods and materials, namely, conductor cover; casings for cables of plastic, namely, plastic tubing in the nature of cable entry seals, cable kits and assemblies, joints, splices, jacket tubing, caps, and tubing for nuclear environments; adhesive sealants, electrical insulating materials, synthetic rubber and plastics for insulation, protection, joining, sealing or for, splicing purposes, or for use in the assembly of electrical, telegraphic or telecommunications apparatus or instruments and for use in the assembly of wires and of cables, sealants, and heat shrink; insulating tape; insulating tapes for cable links, adhesive tapes for securing cables, adhesive tapes for industrial or commercial use; silicone fusion tape; high temperature repair tape for repairing damages during and after installation; insulating sealants in the nature of adhesive tapes; electrical insulating materials, synthetic rubber and plastics for insulation, protection, joining, sealing or for splicing purposes, or for use in the assembly of electrical, telegraphic or telecommunications apparatus or instruments and for use in the assembly of wires and of cables, sealants, and heat shrink; harnessing and tubing products and

accessories, namely, electrical tapes; adhesive tapes for tying cables and for fitting cables; films made of polyester, namely, polyester sheets for use in the manufacture of labels; thermoretractable sheaths for cable and wires; shrinkable sheaths for cables and wires; adhesives and sealants other than for medical, stationery or household purposes, namely, water resistant thermosets, thermoplastics and mastic-tapes adhesives and sealants for boats, ships, submarines, underground cable, undersea cable, overhead electric lines; thermal devices as parts of the abovementioned goods, namely, thermal conduits in the nature of plastic conduit for cables and wires; Parts and components for the aforementioned goods all included in this class, namely, polymer insulators, plastic casings, thermoretractable and shrinkable sheaths for cables and wires; heat shrink tapes, energy heat shrink tubing, pre-formed insulated products, namely, insulating materials, station post insulators for protection, insulation, joining, sealing and splicing purposes; house mark for electrical insulating products and materials, heat and cold shrink enclosures and wraps, heat shrink tubing and rubber pipes and hoses; house mark for electrical insulating rubber products, namely, tubing, sealants and mastics, sheets, sleevings, sleeves, and wrappings, gaskets, filling materials of plastic or rubber, rings of rubber, rubber packings, rubber sleeves for protecting parts of machines

**International Classes** 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods **First Use** Feb. 2016 **In Commerce** Feb. 2016

**For** Hand-operated tools and implements, namely, manual crimp tools, pneumatic crimp tools, battery-powered crimp tools, hydraulic crimp tools, electric crimp tools and portable crimp tools, insertion and extraction crimp tools, tools for assembling cables, namely, crimping tools, reflector tools, heating tools, parts and components, namely, buttons, filters, reflector adaptors, internal reflectors, for the aforementioned hand tools and implements; Hand tools and implements, namely, crimpers and tools for crimping, terminators, all-purpose tools, namely, cable tie gun tools, cutting and stripping tools, connector removal tools, jack termination tools, punch down and impact tools, insertion and extraction tools, insulation displacement crimping hand tools, dies, impact tools; tooling products, namely, wire and cable cutters, hand tools in the nature of wire and cable crimpers and strippers; parts and components for aforementioned hand tools and implements in this class; house mark for hand operated tools and implements, hand tools and implements, tooling products and parts and components for the aforementioned

**International Classes** 8 - Primary Classes **US Classes** 23, 28, 44 **International Class Title** Hand Tools **First Use** Feb. 2016 **In Commerce** Feb. 2016

**For** Scientific and technological services, namely, research and design in the field of aerospace, appliances, automation and control, automotive, auto racing and motor racing, communications and wireless equipment, connected home in the field of Internet of Things (IoT) connected devices, namely, appliances for kitchen, lighting, HVAC, and security for use in the home, consumer solutions, namely, wearables, tablets, smartphones, digital still camera, video camera, commercial and consumer drones, virtual reality and augmented reality, printers and copiers, gaming, tv and set top box, notebooks, data centers, defense and military, energy and utilities, hybrid and electric vehicles, industrial machinery, intelligent buildings, medical and healthcare, oil, gas and marine, namely, boats, ships, submarines and parts therefor, railway, sensors, subsea communications, truck, bus and off-road vehicles; industrial analysis and research services in the field of aerospace, appliances, automation and control, automotive, auto racing and motor racing, communications and wireless equipment connected home in the field of Internet of Things (IoT) connected devices, namely, appliances for kitchen, lighting, HVAC, and security for use in the home, consumer solutions, namely, wearables, tablets, smartphones, digital still camera, video camera, commercial and consumer drones, virtual reality and augmented reality, printers and copiers, gaming, tv and set top box, notebooks, data centers, defense and military, energy and utilities, hybrid and electric vehicles, industrial machinery, intelligent buildings, medical and

healthcare, oil, gas and marine, namely, boats, ships, submarines and parts therefor, railway, sensors, subsea communications, truck, bus and off-road vehicles; design and development of undersea cable and electronic components; Research and development services in the field of medical equipment, apparatus and instruments; biological research, clinical research and medical research; house mark for scientific and technological services and research and design relating thereto and industrial analysis and research services in the field of aerospace, appliances, automation and control, automotive, auto racing and motor racing, communications and wireless equipment connected home in the field of Internet of Things (IoT) connected devices, namely, appliances for kitchen, lighting, HVAC, and security for use in the home, consumer solutions, namely, wearables, tablets, smartphones, digital still camera, video camera, commercial and consumer drones, virtual reality and augmented reality, printers and copiers, gaming, tv and set top box, notebooks, data centers, defense and military, energy and utilities, hybrid and electric vehicles, industrial machinery, intelligent buildings, medical and healthcare, oil, gas and marine, namely, boats, ships, submarines and parts therefor, railway, sensors, subsea communications, truck, bus and off-road vehicles; design and development of undersea cable and electronic components, research and development services in the field of medical equipment, apparatus and instruments, biological research, clinical research and medical research

**International Classes** 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services **First Use** Feb. 2016 **In Commerce** Feb. 2016

**For** Common metal powders used in manufacturing; non-electric cables and wires of common metal; small items of metal hardware, namely, insulated powerline covers in the nature of overhead line covers, bird raptor covers, dead end covers, fuse cutout covers, and transformer bushing covers, metal clamps, cable couplers, aluminum tap system, namely, insulated piercing connectors, wedge connectors, metal clamps, suspension clamps, anchoring clamps, removable circuit breakers; pipes and tubes of metal; plating compositions composed of metal for use on contacts; house mark for common metals and their alloys, unwrought or semi-wrought, metal insulated covers, metal clamps, metal cable couplers, metal connectors, metal tubes and pipes, and plating compositions composed of metal

**International Classes** 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods **First Use** Feb. 2016 **In Commerce** Feb. 2016

## GOODS AND SERVICES INFORMATION

**For** Medical and surgical apparatus and instruments, namely, catheters, catheter shafts, molded hand piece for catheters and surgical hand piece, and medical electrodes, medical balloons, specialty needles for medical purposes, needles for medical purposes, and medical guidewires; house mark for medical and surgical apparatus and instruments, namely, catheters, catheter shafts, molded hand piece and surgical hand piece and medical electrodes, medical balloons, specialty needles for medical purposes, needles for medical purposes, and medical guidewires

**International Classes** 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus **First Use** Feb. 2016 **In Commerce** Feb. 2016

**For** Land vehicle parts in the nature of wire harnesses, namely, wires, terminals, and connectors bundled together to transmit electric power and signals to electric or electronic equipment mounted on the body parts of automobiles; house mark for land vehicle parts, namely, wire harnesses

**International Classes** 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles **First Use** Feb. 2016 **In Commerce** Feb. 2016

**For** Harness making machines; wire and cable termination machines; bench machines for stripping and terminating wire; cable assembly machines; stripper-crimper-machines; automatic cut and strip machines; polishing machines for polishing and finishing cables and connectors and the ends of cables and connectors; industrial label and identification machines, namely, for laser-engraved markers, label printers, barcode printer and data managing apparatus, tie-on cable tags, hand-held printer,

double sided thermal transfer printers and industrial label and identification machines; lead making machines; connector seating machines; presses, namely, stamping, printing, mechanical power and digital presses; hydraulic presses; machines for processing pins; pin separation machines; molding machines, namely, compression molding machines, injection molding machines, blow molding machines, rotational molding machines; metalworking machines; machines for processing heat shrinkable materials and products; printed circuit board manufacturing machines; insertion machines for contacts; tooling machines for the treatment of cables and connectors for use in electric and electronic industries in connection with electronic components, wireless systems, wires and cables, networks and undersea cables; heat sinks for machines; machines for producing and for assembling printed circuit cards; Industrial labeling machine for applying labels to cables and containers and marking cables and containers; setting machines, namely, leadmarker machines, pin insertion machines, manual bench insertion machines; machines for creating cable and wire bundles; thermal devices such as parts of the aforementioned goods, namely, ventilators, compressor impellers, heat sinks, thermal circuit breakers; parts and components for aforementioned electronic power operated hand tools and implements; house mark for metalworking machines and machine tools, printed circuit board assembly and manufacturing machines, industrial label and identification machines, termination machines, wire and cable termination machines, crimping machine, harness making machines, bench machines for stripping and terminating wire, cable assembly machines, stripper-crimper-machine, automatic cut and strip machines, polishing and finishing machines for polishing and finishing cables and connectors and the ends of cables and connectors, lead making machines, connector seating machines, presses, namely, stamping, printing, mechanical power, digital and hydraulic presses, machines for processing pins, pin separation machines, molding machines, namely, compression molding machines, injection molding machines, blow molding machines, rotational molding machines, machines for processing heat shrinkable materials and products, insertion machines for contacts, parts and components for the aforementioned in the industries of aerospace, appliances, automation and control, automotive, autosport, communications and wireless equipment, connected home, consumer solutions, data centers, defense and military, energy and utilities, hybrid and electric mobility, industrial machinery, intelligent buildings, medical and healthcare, oil, gas and marine, rail, sensor solutions, subsea communications, truck, bus and off-road vehicles; house mark for electrical insulating mechanical components, namely, heat sinks for machines, electrical insulating materials used as components for machines, namely, fins, cooling fin, crimp fin, and folded fin, all for machines, accessories and components for the aforementioned in the industries of aerospace, appliances, automation and control, automotive, autosport, communications and wireless equipment, connected home, consumer solutions, data centers, defense and military, energy and utilities, hybrid and electric mobility, industrial machinery, intelligent buildings, medical and healthcare, oil, gas and marine, rail, sensor solutions, subsea communications, truck, bus and off-road vehicles

**For** Repair and installation services, namely, repair and installation of computer networks, wireless computer networks, cable and wire networks, wireless networks, lighting systems, undersea cable networks, cable infrastructure, electrical infrastructure, and undersea cables, marine services, namely, undersea cables for communication networks, oil and gas research, undersea telecommunications networks; installation and repair of telecommunication networks; installation, maintenance and repair of telecommunication apparatus; installation, maintenance and repair of telecommunication installations, communications networks, computer networks and data networks; wiring buildings for transmitting telecommunication, wiring for telecommunication; undersea cable installations; installation, maintenance and repair of electrical equipment and systems, industrial machines, pipelines, undersea cables, computer networks, wireless computer networks, cable and wire networks, wireless networks, lighting systems, undersea cable networks, cable infrastructure, electrical infrastructure, and lighting systems in streets and tunnels; installation, maintenance and repair services for all the aforementioned goods, namely, metalworking machines and tools, optical machines and instruments, harness making machines, wire and cable termination machines, bench machines for stripping and terminating wire, cable assembly machines, stripper-crimper-machines, automatic cut and strip machines, polishing machines for polishing and finishing cables and connectors and the ends of cables and connectors, label and identification machines, lead making machines, connector seating machines, presses, namely, stamping, printing, mechanical power and digital presses, hydraulic presses, machines for processing pins, pin separation machines, molding machines, namely, compression molding machines, injection molding machines, blow molding machines, rotational molding machines, metalworking machines, machines for processing heat shrinkable materials and products, printed circuit board manufacturing machines, insertion machines for contacts, machine tools for use in electric and electronic industries in connection with electronic components, wireless systems, wires and cables, networks and undersea cables, motors other than for land vehicles, electric power operated hand tools and implements, namely, tools for crimping, terminators, pneumatic powered tools, testers that permit wire and cable identification without direct metallic contact, all purpose tools such as cable

tie gun or cutting and stripping tools, connector removal tools, stamped hand tools, jack termination tools, punch down and impact tools; installation, maintenance and repair services for all the aforementioned goods, namely, insertion and extraction tools, insulation displacement crimping hand tools, dies, impact tools and testers, parts and components for aforementioned electronic power operated hand tools and implements, metalworking machine tools, printed circuit board assembly and manufacturing machines, label machines, termination machines, crimping machines, and harness making machines, electronic power operated hand tools and implements, and parts and components for electronic power operated hand tools and implements, hand tools and implements, namely, tools for crimping, terminators, testers that permit wire and cable identification without direct metallic contact, all-purpose tools such as cable tie gun or cutting and stripping tools, connector removal tools, stamped hand tools, jack termination tools, punch down and impact tools, insertion and extraction tools, insulation displacement crimping hand tools, dies, impact tools and testers, parts and components for aforementioned hand tools and implements, electric, electrical, electronic, mechatronic and/or electromechanical systems and parts and components therefor, namely, connectors and interconnection systems, cable assemblies, terminals and splices, relays, switches, contactors, terminals, splices, circuit breakers, sensors, fuse boxes, wires, cables, heat shrink tubing, splitters, insulators, transistors, control panels, antennas, monitors, sockets, displays, inductors, adaptors, emitters, couplers, attenuators, splitters, capacitors, optical modules, circuit boards, transceivers, electric motors other than for land vehicles, controls, amplifiers, antennas, indiplexers, isolators, transformers, batteries and battery terminals, heat sinks, controllers, knobs, and fuses; installation, maintenance and repair of computer hardware and computer systems; providing maintenance of terrestrial, wireless and undersea radio communication systems; providing maintenance of terrestrial, wireless and undersea radio communication systems for offshore oil and gas installations; installation, maintenance and repair of electrical systems and equipment; machinery installation, maintenance and repair; services involving maintenance and repair of technical products for cables and connectors; installation and repair of telecommunication systems and facilities and computer peripheral devices; consulting in the field of installation of data cable systems; consulting in the field of installation of telecommunication systems and networks; Undersea cable installation, maintenance and repair; house mark for repair and installation services, namely, repair and installation of networks, infrastructure and undersea cables, marine services, undersea networks, installation and repair of telecommunication networks, installation, maintenance and repair of telecommunication apparatus, installation, maintenance and repair of telecommunication installations, communications networks, computer networks and data networks, wiring buildings for transmitting telecommunication, wiring for telecommunication, installation, undersea cable installations, maintenance and repair of electrical equipment and systems, industrial machines, pipelines, undersea cables, computer networks, wireless computer networks, cable and wire networks, wireless networks, lighting systems, undersea cable networks, cable infrastructure, electrical infrastructure, lighting systems in streets and tunnels, and installation, maintenance and repair services for all the aforementioned goods, namely, metalworking machines and tools, optical machines and instruments, harness making machines, wire and cable termination machines, bench machines for stripping and terminating wire, cable assembly machines, stripper-crimper-machines, automatic cut and strip machines, polishing machines for polishing and finishing cables and connectors and the ends of cables and connectors, label and identification machines, lead making machines, connector seating machines, presses, namely, stamping, printing, mechanical power and digital presses, hydraulic presses, machines for processing pins, pin separation machines, molding machines, namely, compression molding machines, injection molding machines, blow molding machines, rotational molding machines, metalworking machines, machines for processing heat shrinkable materials and products, printed circuit board manufacturing machines, insertion machines for contacts, machine tools for use in electric and electronic industries in connection with electronic components, wireless

systems, wires and cables, networks and undersea cables, motors other than for land vehicles, electric power operated hand tools and implements, namely, tools for crimping, terminators, pneumatic powered tools, testers that permit wire and cable identification without direct metallic contact, all purpose tools such as cable tie gun or cutting and stripping tools, connector removal tools, stamped hand tools, jack termination tools, punch down and impact tools, insertion and extraction tools, insulation displacement crimping hand tools, dies, impact tools and testers, parts and components for aforementioned electronic power operated hand tools and implements, metalworking machine tools, printed circuit board assembly and manufacturing machines, label machines, termination machines, crimping machines, and harness making machines, electronic power operated hand tools and implements, and parts and components for electronic power operated hand tools and implements, hand tools and implements, namely, tools for crimping, terminators, testers that permit wire and cable identification without direct metallic contact, all-purpose tools such as cable tie gun or cutting and stripping tools, connector removal tools, stamped hand tools, jack termination tools, punch down and impact tools, insertion and extraction tools, insulation displacement crimping hand tools, dies, impact tools and testers, parts and components for aforementioned hand tools and implements, electric, electrical, electronic, mechatronic and/or electromechanical systems and parts and components therefor, namely, connectors and interconnection systems, cable assemblies, terminals and splices, relays, switches, contactors, terminals, splices, circuit breakers, sensors, fuse boxes, wires, cables, heat shrink tubing, splitters, insulators, transistors, control panels, antennas, monitors, sockets, displays, inductors, adaptors, emitters, couplers, attenuators, splitters, capacitors, optical modules, circuit boards, transceivers, electric motors other than for land vehicles, controls, amplifiers, antennas, indiplexers, isolators, transformers, batteries and battery terminals, heat sinks, controllers, knobs, and fuses, installation, maintenance and repair of computer hardware and computer systems, providing maintenance of terrestrial, wireless and undersea radio communication systems, providing maintenance of terrestrial, wireless and undersea radio communication systems for offshore oil and gas installations, installation, maintenance and repair of electrical systems and equipment, machinery installation, maintenance and repair, services involving maintenance and repair of technical products for cables and connectors, installation and repair of telecommunication systems and facilities and computer hardware, computer hardware and computer peripheral devices, installation and repair of equipment and household infrastructure systems and computer hardware, consulting in installation of data cable systems, consulting in installation of telecommunication systems and networks, Undersea cable installation, maintenance and repair

**International Classes** 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair **First Use** Feb. 2016 **In Commerce** Feb. 2016

**For** scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking, supervision, life-saving and teaching apparatus and instruments, namely, sensing and signalling devices for measurement and quality control of materials processing by laser, thermistors; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, electrical control devices; apparatus for recording, transmission or reproduction of sound or images; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines; data processing apparatus and computer hardware and peripheral devices for computers; computer software for computer system and application development, deployment and management for use in relation to aerospace, appliances, automation and control, automotive, autosport, communications and wireless equipment, connected home, consumer solutions, data centers, defense and military, energy and utilities, hybrid and electric mobility, industrial machinery, intelligent buildings, medical and healthcare, oil, gas and marine, rail, sensor solutions, subsea communications,

truck, bus and off-road vehicles, motors other than for land vehicles, power tools, switches, base stations, NIC and PC cards, systems for the electrical power industry including rail transport systems, premises cabling, communication networks, industrial motors, lighting, industrial machinery and process control equipment, heating, ventilation and air conditioning, security system components, instrumentation, medical equipment, medical diagnostics and mobility devices such as electrical harness design, identification software and radio software; integrated hardware and software for identification and labeling products; computer software and hardware for electronic control systems; hardware and software for identification and labeling products; electromechanical systems and parts and components related thereto, namely, housing, pin, lock, notch, terminal blocks, splice, contact; connectors and connection systems, namely, connectors for use in aerospace, appliances, automation and control, automotive, autosport, communications and wireless equipment, connected home, consumer solutions, data centers, defense and military, energy and utilities, hybrid and electric mobility, industrial machinery, intelligent buildings, medical and healthcare, oil, gas and marine, rail, sensor solutions, subsea communications, truck, bus and off-road vehicles; electrical connectors; components for connectors, particularly, housing, pin, lock, notch, terminal blocks, splice, contact; connections for equipment in the nature of "plug-in" connections, namely, plug-in equipment connections, namely, switchgear and transformer connections, and straight through joints and shield break joints, link boxes to ground and protect shields of high voltage cables, sleeves, connectors and fittings, surge arresters; relays, contactors and switches; electric couplings, connections and joints for use in the industries of aerospace, appliances, automation and control, automotive, autosport, communications and wireless equipment, connected home, consumer solutions, data centers, defense and military, energy and utilities, hybrid and electric mobility, industrial machinery, intelligent buildings, medical and healthcare, oil, gas and marine, rail, sensor solutions, subsea communications, truck, bus and off-road vehicles; electrical connector housings; electric wires and cables; fiber optic cables; underwater electrical cables; telecommunication cables; molded harnessing products, namely, electrical wire, cable, and cable assemblies; harnessing and tubing products and accessories, namely, adaptors, terminators, tubing, connections, battery terminal connector clamps, end vent caps for batteries, and junction sleeves; electrical and fiber optic harnesses for use in the electronic industry; electrically conductive cable terminations; electrical terminators; retractable collars for wiring not of metal; housings for ground connections and guard shields for high voltage cables; accessories for high voltage cables for industry in aerial and underground installations, namely, external terminals and dry exterior terminals; electrical cables for lighting installations; canals for electrical wiring, namely, duct, wireway, meatus, tube, channel for electrical cables and wires; controllers namely, power controllers, ethernet controllers; communication equipment, particularly headset jacks, electric plugs, electrical plug devices enable connection and disconnection of power and/or control cables, electrical power distribution blocks, electrical terminal blocks, electrical power strips, wire to panel connector, electrical, and circular and sealing connectors, wireless network repeaters, wireless communication signal repeaters, digital signal conditioners, analog signal conditioners, electronic signal conditioners, communication distribution frames, couplers for fiber optics, fiber optical wavelength-division multiplexers/demultiplexers, PCB (printed circuit board) modules, relay modules, PCB RF (printed circuit board radio frequency) modules, module component, multi-sensor modules, IAC AC (idle air control alternating current) input module, IDCM slim line DC (direct current) input module, AC (alternating current) output module, DC (direct current) output module, DC (direct current) input module, basic relay module, connection and commutation chassis, switching, patching; devices for switching and monitoring electrical power supplies; control modules for connection and switching, namely, PCB modules, relay modules, PCB RF modules, module component, multi-sensor modules, IAC AC input module, IDCM slim line DC input module, OAC AC output module, ODC DC output module, IDC DC input module, basic relay module F, power distribution box; test equipment for private lines for carrying out tests on communication systems

comprising test modules, service modules, signal test modules, cable reels, electrical panels and cable cages, particularly with the option of oscillation, amplification, attenuation, and comprising kits, terminals, repeating reels, terminal signal converters, signal relays, cords with plugs, monitor loudspeakers, control devices for transmission buffers, automatic level control devices, bridge transformers, pulse generators, external impellers, loop returns and control devices for test baseplates, all the aforementioned components sold as a modular test unit; electrical apparatus used as components of a private line test system for carrying out tests on return loops, for controlling and testing two-wire communication lines, comprising a photo optic emitter assembly; mechatronic systems, namely, combination of mechanical and electronic systems for use in sensing and control systems, in hybrid housings, housings for hybrid circuits, premolded packages for semiconductor based sensors and injection molded lead frames, comprised of stamped parts such as high precision lead frames and contact parts for switching functions, electroplated functional surfaces for wire bonding, soldering, resistance and laser welding, and corrosion protection, overmolding for chip and substrate packaging and hermetic housing, and assembly technology for the integration of electronic components, Hall and MR Sensors, temperature sensors, circuit protection and joining technologies for metals and plastics, selective soldering, resistance and laser welding, and gluing, the aforementioned sold as a unit; telecommunication relays for use in communication technology, networking equipment, telecommunications terminals, and accessories, broadband, wireless, central office switching, measurement and control equipment, automobile technology, medical equipment, and entertainment electronics; industrial relays, namely, mid-range PC board relays, mid-range plug-in/panel mount general purpose relays, power PC board relays and power plug-in relays; computer relays, namely, signal PC board relays and power PC board relays; electrical apparatus and electronic components used in relation to aerospace and defense, computer and consumer electronics, power tools, lawn equipment, switches, base stations, NIC and PC cards, systems for the electrical power industry including rail transport systems, premises cabling, communication networks, industrial motors, lighting, industrial machinery and process control equipment, heating, ventilation and air conditioning, security system components, instrumentation, medical equipment, medical diagnostics and mobility devices, namely, connectors and contactors, relays, switches, cable assemblies, terminals and splices, electro-optic products, namely, electrical and optical cables, circuit breakers, sensors, fuse boxes, mechatronic modules, namely, mechanical remote controls for motors, wires and cables, heat shrink tubing, splitters, insulators, fiber cabling, RF power transistors, electrical control panels, and antennas, computer monitors; blank smart cards comprised of embedded integrated programmable circuits; premolded packages, namely, insulating body, housings, forms and wraps for semiconductor based sensors and injection molded lead frames, comprised of stamped parts, namely, high precision lead frames and contact parts for switching functions, electroplated functional surfaces for wire bonding, soldering, resistance and laser welding, and corrosion protection, overmolding for chip and substrate packaging and hermetic housing, and assembly technology for the integration of electronic components, circuit protection and joining technologies for metals and plastics, selective soldering, resistance and laser welding, and gluing, the aforementioned sold as a unit; accessories for radios, namely, amplifiers, circuits, printed circuits, control heads, control stations, consoles, chargers, headsets, hand held controllers, microphones, programming accessories, namely, tuners, speaker mics; fiber optic communication components, namely, emitters, diodes, laser diodes, adapters, optical modules, attenuators and switches, fiber optic cables, couplers; electro-optic products, namely, cables, pulse suppressor boxes, polarization mode dispersion analyzers for fiber capability to support high speed, electro optical targeting system, infrared aperture radar, research radar, targeting pod system, cameras, infrared cameras, high-resolution, digital imagery, pump lasers, high frequency electro-optical modulators and converters, electro-optical connectors, electro-optical transceivers, electro-optical seeker, Electro/Optical Interconnects,

electro-optical converters; backplane electronic circuit boards; electric power connectors; microwave products, namely, microwave amplifiers, antennas, attenuators, RF power transistors, drivers, namely, drivers for allowing communication and interaction between microwave devices or components, allowing control over another microwave device or component, and for supplying power between microwave devices or components, microwave products, namely, microwave amplifiers, antennas, attenuators, RF power transistors, dispersion shifted optical fibers, synthesizers, mixers/modulators, diodes, frequency moderators, limiters, couplers, isolators, splitters, combiners, transformers, inductors, chip capacitors, transistors, switches, oscillators, transceivers; mixers, namely, connectorized, flat-pack, drop-in and surface-mount mixers used in aerospace and defense, and wireless and broadband communication applications; modulators, namely, connectorized, flat-pack, drop-in and surface-mount modulators used in aerospace and defense, and wireless and broadband communication applications; drivers, namely, electronic drivers for allowing communication and interaction between electronic devices or components, allowing control over another electronic device or component, and for supplying power between electronic devices or components; electric, electrical and electronic meters, namely, hour energy meters, digital metering systems, meter relays, digital meters, and analogue instrument meters; fiber optics and fiber optic and fiber optic communication equipments, components and products, namely, attenuators, switches, cable assemblies, backplane interconnects, connectors, adaptors, tooling products and accessories, namely, tool measuring instruments, electrooptics, namely, cables, interconnects, multiplexers, amplifiers, circulators, transformers, and fiber optic distribution products, namely, cables; fiber optic filters; radio frequency identification and labeling tags; passive components, namely, electrical connectors, capacitors, inductors, resistors, transformers, wires, cables, fuses, and relays; heat sinks for use in electronic components; RF and microwave products, namely, antennas, amplifiers, attenuators, power transistors, oscillators, coax, adapters, contacts, RF and signal filters and inductors, dispersion shifted optical fibers, synthesizers, mixers, modulators, diodes, frequency moderators, limiters, couplers, isolators, splitters, combiners, transformers, chip capacitors, transistors, switches, oscillators, transceivers, and drivers, namely, drivers for allowing communication and interaction between microwave devices and components, allowing control over another microwave device or components and for supplying power between microwave devices or components; components for circuit boards used in computers, consumer electronics, communication equipment, aerospace and defense, industrial machinery and instrumentation industries; battery chargers, namely, battery chargers for aircraft and battery chargers for industrial and leisure vehicles; ammeters for direct current, transformers; terminals and splices, namely, PCB terminals, terminals blocks, foil terminals, power terminals, terminal junction modules, crimp terminal housings, terminal block hardware, special purpose terminals; miniaturized terminal and connector systems, namely, PCB terminals, terminals blocks, foil terminals, power terminals, terminal junction modules, crimp terminal housings, terminal block hardware, special purpose terminals; terminal block accessories, namely, PCB terminals, terminals blocks, foil terminals, power terminals, terminal junction modules, crimp terminal housings, terminal block hardware, special purpose terminals; terminals for use in household appliances, lawn and garden equipment, HVAC equipment, industrial machinery, vending machines, motorcycles, cars, trucks, marine and off-highway vehicles, computers, consumer electronics and home entertainment; splices, namely, splices for electrical transmission lines; support sockets for chips, namely, electric sockets, movable sockets; linear, digital, analogical, electronic, electrical circuits; bridge circuits; integrated circuits; electrical adapters; sensors, namely, ultrasonic sensors, temperature sensors, pressure sensors, magnetic sensors, electronic radar sensors, electronic inductive sensors; electronic gas sensors; mixers, namely, connectorized, flat-pack, drop-in and surface-mount mixers used in aerospace and defense, and wireless and broadband communication applications; modulators, namely, connectorized, flat-pack, drop-in and surface-mount modulators used in aerospace and defense, and wireless and broadband communication applications; antennas; aerial

amplifiers; audio and video-receivers; GPS receivers; circuit boards; electrical distribution boxes; computer monitors, computer network nodes, switches and routers; computer apparatus for computer networking; apparatus for protecting computers against electrical power supply problems, namely, surge protectors; broadband data interconnection computer installations for use in the rail, medical, automotive and ICT industries, namely, relays for use in communication technology, networking equipment, telecommunications terminals, and accessories, broadband, wireless, central office switching, measurement and control equipment, automobile technology, medical equipment, and entertainment electronics; electronic components for computers, namely, switches, relays, cables, contacts, connector, electronic circuits; fiber optic computer installations for use with computers, namely, fiber optic cable assemblies and receptacles and connectors and relays and modules; components of connections for computer modems in the nature of plug-in relays; electrical processing equipment, namely, electrical connectors between wires and boards, boards and boards, cables and boards and cables and cables; inductors, namely, electrical inductors, high current indicators, cable wind indicators for use in automobiles, electric automotive chokes, shielded cable reel inductors, non shielded reel inductors, electric inductors, high frequency inductors, RF inductors, molded SMD inductors, power inductors; magnetics, namely, sensors, relays and switches; electrical resistors; electrical power resistors; electrical and magnetic inductors; resistors, namely, electric resistors for telecommunication apparatus; resistances, electric; commutators; switches, electric; fiber optic products, namely, fiber optic cables, fiber optic connectors, fiber optic assemblies, rugged fiber connectors, fiber optic patch cable assemblies, expanded beam fiber optics, backplane fiber optics, rugged rectangular fiber connectors, standard fiber connectors, expanded beam fiber housings, MC801 fiber connectors; electro-optic products, namely, cables, pulse suppressor boxes, polarization mode dispersion analyzers for fiber capability to support high speed, electro optical targeting system, infrared aperture radar, research radar, targeting pod system, cameras, infrared cameras, high-resolution, digital imagery, pump lasers, high frequency electro-optical modulators and converters, electro-optical connectors, electro-optical transceivers, electro-optical seeker, Electro/Optical Interconnects, electro-optical converters; components for circuit boards used in computers, consumer electronics, communication equipment, aerospace and defense, industrial machinery and instrumentation industries; electronic components for machines, tools, motors other than for land vehicles and engines, namely, connectors and contactors, relays, switches, cable assemblies, terminals and splices, electro-optic cables, circuit breakers, proximity sensors, fuse boxes, mechatronics and mechatronic modules, namely, mechanical remote controls for motors, wires and cables, heat shrink tubing, splitters, insulators, fiber cabling, RF power transistors, electrical control panels, and antennas; protection devices, namely, overcurrent, overvoltage, overheating and electrostatic discharge ESD protection devices; circuit breakers; circuit board assemblies for multiple connectors; circuit board assembly electrical interconnectors for audio and video signals for multiple connectors; attenuators, namely, electrical signal attenuators; multiplexers; amplifiers; data communication systems, namely, contactless data connectors; data transmission cables; optical backplane interconnects for audio, video and data signals; contactless connections for the transfer of power, data and signals; heat-shrink sheaths, namely, sheaths for electric cables, identification sheaths for electric wires; filters, namely, filters for optical devices, antenna filters, electrical line filters; signal filters, namely, radio frequency signal filters, duplexers; capacitors; transformers; couplers; batteries; battery terminals; microwave products, namely, microwave antennas, microwave relays, circuit mixers, frequency modulators; converters; heat sinks for computers; heat sinks intended for electronic apparatus; measuring devices, namely, sensors and relays; controllers, namely, power controllers, ethernet controllers, control cabinet; radio frequency identification tags for radio frequency identification (RFID), protective devices against short circuits, namely, surge protectors and relays; switches, electric; fuses; components of radio frequencies (RF),

namely, RF and coax connectors, RF cable assemblies, RF connector ferrules, stripline RF connectors and contacts, surface mount resistors, RF connector caps, RF connector hardware, PCB RF modules, RF adapters, FAKRA RF connector system, RF connectors, RF connector launchers; control cabinets for loudspeakers, electrical switchboxes, electrical distribution boxes; thermoretractable sheaths and their enclosures, namely, sheaths for electric cables, heat shrink joints and splices; electrical and electronic components for identification and labelling, namely, printers, cables, connectors, switches and software; accessories for radios, namely, amplifiers, circuits, printed circuits, control heads, control stations, consoles, chargers, headsets, hand held controllers, microphones, programming accessories, namely, tuners, speaker mics; radio accessories, namely, antennas, connectors and batteries; converters, electric; DC/AC converter, namely, panel mounted connector; keyboards; electrical sleeves, namely, junction sleeves for electric cables, electrical connectors, electrical spacers, voltage surge protectors, electrical equipment for applying voltage and grounding, namely, electrical connectors, electrical cables, fiber optic connectors and fiber optic connectors; link boxes to ground and protect shields of high voltage cables, sleeves, connectors and fittings, surge arresters; electrical control cabinets, namely, cabinets for storage of electrical control panels, switches and wires; vibration indicators; electrical fuses, light-emitting diodes (LED); telecommunication equipment, namely, electrical terminal blocks for cables for moving and insulating; electrical protection devices, except for insulators, and against voltage surge for electrical and electronic telecommunications systems and data telecommunication systems, namely, surge arresters, connectors, namely, voltage surge protectors, fuses, diodes for fuses, thermo-protective switches and varistors; parts for telephones, namely, cable systems for telecommunication, namely, contacts, software and antennas; multi-user wall housings, namely, housings in the nature of housing for switching apparatus; enclosures and cabinets for electrical, patch panel, fiber optic and electronic cables, backplanes, controllers and radio frequency connectors and contactors, switches, cables, terminals and splices; cabinets adapted to contain communication instruments, namely, optical cables, electronic cables, backplanes, controllers and radio frequency connectors and contactors, switches, cables, terminals and splices, circuit breakers, sensors, fuse boxes, mechatronics and mechatronic modules, namely, connector housings, packaging for chips and substrates, frames, lead frame, wires and cables, splitters, insulators, RF power transistors, electrical control panels, antennas, and relays; computer equipment, namely, gateway routers in the nature of computer control hardware, differential switches, electric switches, computer network bridges, wide area network (WAN) routers, wireless routers, network routers, repeaters and network adapters, ethernet repeaters, wireless network repeaters, computer network adapter for use in transmission or data, text, video, audio and voice transfer by broadband, radio broadcasting, cable broadcasting, coaxial cable, copper wires, fiber optics, radio, telephone, twisted pairs, wire, wireless and other telecommunication technology; electrical metal connectors and connectors; accessories for wiring for electrical distribution networks, electrical terminals and junctions, electrical locking devices, namely, accessories in the nature of clamps and joints, terminal blocks, cable tie mounts, shield receptacles, backshells and adapters; lighting controllers; systems for cables for vehicles, namely, cable assemblies; controls for LEDs, namely, dimming receptacle, rotatable dimming receptacle, fuse boxes, street lighting photo controls, street lighting connectors; systems for electrical cable harnesses and connectors, namely, cables and connectors; accessories for distribution of electricity conduits, namely, box connector, joint, coupling, junction; acoustic products, namely, antennas, optical backplane interconnects for audio, video and data signals, surface waves, sonic and ultrasonic waves travelling on the surface of a screen, systems in the nature of audio microphones for recognizing audio impulses; devices for managing cables, electrical lines, namely, cable management devices, namely, aluminum raceway system and wiring ducting; relays for interfaces such as parts of the above mentioned goods; ultrasonic, infrared and radiological apparatus and instruments for laboratory use, namely, accelerometers, ultrasonic sensors, infrared sensors; apparatus for laboratory use for electrical, mechanical, and environmental testing for use of products in the

industries of aerospace, appliances, automation and control, automotive, autosport, communications and wireless equipment, connected home, consumer solutions, data centers, defense and military, energy and utilities, hybrid and electric mobility, industrial machinery, intelligent buildings, medical and healthcare, oil, gas and marine, rail, sensor solutions, subsea communications, truck, bus and off-road vehicles; laboratory apparatus for scientific research for electrical, mechanical, and environmental testing for use of products in the industries of aerospace, appliances, automation and control, automotive, autosport, communications and wireless equipment, connected home, consumer solutions, data centers, defense and military, energy and utilities, hybrid and electric mobility, industrial machinery, intelligent buildings, medical and healthcare, oil, gas and marine, rail, sensor solutions, subsea communications, truck, bus and off-road vehicles; scientific apparatus for laboratory purposes and laboratory use for electrical, mechanical, and environmental testing for use of products in the industries of aerospace, appliances, automation and control, automotive, autosport, communications and wireless equipment, connected home, consumer solutions, data centers, defense and military, energy and utilities, hybrid and electric mobility, industrial machinery, intelligent buildings, medical and healthcare, oil, gas and marine, rail, sensor solutions, subsea communications, truck, bus and off-road vehicles; Accessories, parts and components for the afore-mentioned goods all included in this class, namely, for electrical, mechanical, and environmental testing for use of products in the industries of aerospace, appliances, automation and control, automotive, autosport, communications and wireless equipment, connected home, consumer solutions, data centers, defense and military, energy and utilities, hybrid and electric mobility, industrial machinery, intelligent buildings, medical and healthcare, oil, gas and marine, rail, sensor solutions, subsea communications, truck, bus and off-road vehicles; house mark for telecommunications systems, equipment and components for use in the transmission or transfer of voice, audio, video, text and data by broadband, broadcasting, cable casting, coaxial cable, copper wire, fiber optic, radio, telephone, twisted pair, wire, wireless and other telecommunications technologies, and computer software for use in operating and managing telecommunications systems and equipment, and the communications over such systems; house mark for telecommunications and communications equipment, namely, telephones and parts therefore; house mark for electronic components, namely, cables and cable assemblies, wires, circuit breakers, switches and knobs, sensors, heat sinks, timers, resistors, arrestors, transformers, meters, controllers, connectors, electric sockets, capacitors, couplers, transceivers, control panels, circuit boards, relays, and drivers, namely, electronic drivers for allowing communication and interaction between electronic devices or components, allowing control over another electronic device or component, and for supplying power between electronic devices or components; house mark for optical backplane interconnects for audio, video and data signals, and computer software for use in operating and managing telecommunications systems and equipment, and the communications over such systems; house mark for surge arresters; house mark for cable management devices, namely, aluminum raceway system and wiring ducting; house mark for antennas, electromagnetic interference filters, sensors, fiber optics, cable assemblies, harnessing, terminals and splices, electrical connectors, relays, contactors, electrical wire and cable; house mark for tool measuring products

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus **First Use** Feb. 2016 **In Commerce** Feb. 2016

**For** Telecommunications services, namely, rental of telecommunication lines; consulting in the field of telecommunication; house mark for telecommunications services, namely, rental of telecommunication lines and consulting in the field of telecommunication

**International Classes** 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication **First Use** Feb. 2016 **In Commerce** Feb. 2016

**For** Treatment of materials by means of laser cutting, laser welding, laser ablation, laser marking, cryogenic processing, air humidification, air dehumidification, air purification; Prototype fabrication of new products for others; manufacturing services for others in the field of medical devices; assembly of products for others; house mark for treatment of materials, prototype fabrication of new products for others, manufacturing services for others in the field of medical devices, and assembly of products for others
