CASE IDENTIFIERS

Serial Number 88359243 **Application Filing Date** Mar. 27, 2019 **Register** Principal **Mark Type** Service Mark **Publication Date** Sep. 01, 2020

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a character whose body is in the form of a dark brown trash can with a dark brown wheel with a white circle in the center, the wheel is outlined with a white circle and a black circle. One entire side of the trash can is the character's face in light brown with dark brown eyebrows, two eyes in white with a black shaded circle in the center of each and a white shaded circle inside each black circle, and white teeth and a red tongue separated by black rectangular space in the middle. The character also has dark brown legs with light brown oversized shoes and a light brown oversized glove. The word "GRANGER" appears on the side of the character in white stylized font underneath an image of a white stylized leaf. **Color Drawing** Yes **Color Claimed** The color(s) dark brown, light brown, black, red and white is/are claimed as a feature of the mark.

Mark Literal(s) HUDSON TXI NEW YORK USA PREMIUM PLAYING CARDS CERCA TROVA

CASE IDENTIFIERS

Serial Number 88359552 **Application Filing Date** Mar. 27, 2019 **Register** Principal **Mark Type** Trademark **Publication Date** Sep. 01, 2020

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a fanciful design on a box for playing cards. The reverse face of the box is rotationally symmetric about its center, such that non-centered design elements described below are doubled. A Corinthian column, topped by a griffin sejant sinister and having a second, Doric capital resting atop the griffin, runs up the upper left side of the reverse face. A second column with a griffin sejant dexter mirrors the first column and runs up the upper right side of the reverse face. In the center of the reverse face, a radiant sun is overlaid by two overlapping compasses. In successive concentric rings around the sun are found a series of springline windows; the texts "CERCA" and "TROVA" separated by a cross; a repeated cross-like floral pattern; and a single semicircle. Fleurs-de-lis line the top edge and semicircles line the left and right edges. The obverse face of the box includes the same columns, griffins, outer rings of flowers and semicircle, and borders of fleurs-de-lis and semicircles as the top half of the reverse face, but replaces the sun and inner rings of the design with an image of a multistory building and the word "PREMIUM". The bottom half of the obverse face includes bases for the two columns (instead of a rotated symmetry of their tops) and cross-shaped floral designs beneath the columns. Between the floral designs are the words "NEW YORK". A banner reading "HUDSON" with a stylized "H" overlays the building and is centered vertically within the face. A banner reading "PLAYING CARDS" runs diagonally from lower left to center right. The side faces of the box share the fleurs-de-lis and semicircles border, and display, from top to bottom, a cross-shaped floral, the letters "TXI", a griffin behind a trophy, the term "HUDSON", a rotation of the griffin and trophy, the term "USA", and the cross-shaped floral. An upper face of the box contains the text "TXI", "NEW YORK", and "USA", flanked by the cross floral. Flaps to rest under the upper face read "XI" and a flap of the upper face made to rest under the reverse face displays an arc of beams from a radiant sun and the text "HUDSON PREMIUM PLAYING CARDS". The dotted outline of the box shows the relative position of the mark for which registration is sought on the packaging of the goods, and is not a part of the mark. **Color Claimed** Color is not claimed as a feature of the mark. **Disclaimer** "NEW YORK", "USA" AND "PREMIUM PLAYING CARDS" **Translation** The English translation of "Cerca Trova" in the mark is "Seek and You Shall Find".

CASE IDENTIFIERS

Serial Number 88572223 **Application Filing Date** Aug. 08, 2019 **Register** Principal **Mark Type** Service Mark **Publication Date** Sep. 01, 2020

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 2 - AN ILLUSTRATION DRAWING WITHOUT ANY WORDS(S)/ LETTER(S) **Description of the Mark** The mark consists of a stylized shaded hornet facing the right. Underneath the hornet is a background comprised of horizontal and vertical bars formed by interconnected single-lined polygons and featuring random circle and line designs. The background fades at the lower left and upper right corners. The fully visible vertical bar at the left shows its left polygons connected by four pairs of concentric circles that are shaded at the center. To the right of the hornet's head are three pairs of concentric circles, with one connecting two hexagons and two being within two other hexagons. The hexagon that contains the concentric circles and is closer to the hornet's head features a short diagonal line that emerges at its center and ends at the bottom right. The upper right hexagons at the top feature a single lined circle and a shaded circle, respectively. At the bottom left of the background and at the upper right, respectively, is a linear design comprised of two vertical lines connected by a horizontal diagonal line, intersection three hexagons. At the far left of the design, behind the hornet's back, are two small concentric circles from which a vertical lines emerges and turns to the right, below the hornet's wings. At the bottom of the design is a straight horizontal line, connected to the far left hexagon bar, which turns at its center to the upper right and connects to a single-lined circle. Underneath these lines, at the bottom of the design, is a slanted single-lined rectangle followed by two slanted squares. Below the slanted rectangle are two small single-lined circles. **Color Claimed** Color is not claimed as a feature of the mark.

CASE IDENTIFIERS

Serial Number 88584930 **Application Filing Date** Aug. 20, 2019 **Register** Principal **Mark Type** Trademark **Publication Date** Sep. 01, 2020

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a three-dimensional configuration of a confectionery container. The body of the container is brown, and the top is comprised of a red tab and a white lid depicting a peeled-back image of the lid in silver, with images of two compartments underneath containing beige breadsticks in the left compartment, and a brown and black hazelnut spread in the right compartment. The front of the container depicts an image of a jar with a white lid and a brown bottom. The label of the jar is white and features the wording "&GO!" in blue stylized letters, and an image of a breadstick partially covered in hazelnut spread across the bottom of the label. The white label overlays an image of beige breadsticks comprising the left half of the body of the container. All of these elements together as depicted in the drawing constitute the mark and are claimed as part of the mark. The matter shown in broken or dotted lines is not part of the mark and serves only to show the position or placement of the mark. **Color Drawing** Yes **Color Claimed** The color(s) red, black, white, brown, blue, beige, and silver is/are claimed as a feature of the mark.

CASE IDENTIFIERS

Serial Number 88642537 **Application Filing Date** Oct. 04, 2019 **Register** Principal **Mark Type** Trademark **Publication Date** Sep. 01, 2020

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a dark green circular background, with the stylized word "RADIOACTIVE" in yellow appearing directly opposite from another stylized wording "RADIOACTIVE" in yellow along inner the border of the circular background. The "O"s in "RADIOACTIVE" are replaced by a hazardous material symbol. In the center of the circular background, is a design of a dark green pickle outlined in yellow with the stylized wording "PICKLE" in yellow at the center the pickle. There are light green lines extending radially from behind the pickle design. **Color Drawing** Yes **Color Claimed** The color(s) dark green, light green, and yellow is/are claimed as a feature of the mark.

GOODS AND SERVICES INFORMATION

For Fishing tackle; Fishing rods; Fishing reels

International Classes 28 - Primary Classes **US Classes** 22, 23, 38, 50 **International Class Title** Toys and Sporting Goods **First Use** Dec. 01, 2017 **In Commerce** Mar. 01, 2018

GOODS AND SERVICES INFORMATION

For Business management services in the fields of engineering, procurement, construction management, operational support and facility management for oil and gas production, transportation and processing facilities; Business development services, namely, providing start-up support for businesses of others in the field of pipeline and energy facilities, plants and petrochemical complexes; logistics management services in the field of natural gas and crude oil, all for independent producers, and energy buyers; Transportation logistics services, namely, arranging the transportation of oil and gas for others; export agency services in the field of oil and gas; Oil and gas price monitoring and analysis for business purposes; Distributorship services in the field of process control automation, for manufacturers; Business data analysis and business consultation in the nature of generating a set of EPC, also known as engineering, procurement, and construction, production profiles based on historical sequence and progress achieved; business management of projects involving the design, engineering, procurement, fabrication, and installation of offshore floating facilities that provide a platform for people and/or equipment to work offshore in deep water, for use in oil, gas, and mineral exploration, extraction, processing, transportation, and storage; Freight logistics management in the field of hazardous and non-hazardous chemicals, oil and refined products, and liquefied gases; Logistics support services for tank farm, terminal and pipeline operations, namely, business consulting and management services related to supply chain logistics management, reverse logistics management, and transportation logistics, namely, planning, scheduling, and arranging the transportation of goods for others, and distribution processes and solutions for others; Transportation logistics services, namely, arranging the transportation of oil and gas for others; export agency services in the field of oil and gas; marketing of wholesale natural gas and oil; Oil and gas cost price monitoring and analysis for business purposes; Business consulting in the field of selection of pipeline services and natural gas refrigeration plant services; Tracking and monitoring, Business data analysis and business consultation in the nature of generating a set of production profiles based on historical sequence and progress achieved regarding engineering procurement and construction (EPC) on turnkey base of Power Plants; monitoring services for engine-compressor sets used in refineries and chemical plants and in the transport of petrochemicals slurries, gas and other fluids for business purposes; Construction support services, namely,

business project management services for construction projects, for onshore and offshore oil and gas facilities, renewable energy facilities, transport infrastructure, shipyards and dockyards, chemical and pharmaceutical plants, power generation facilities and industrial sites; Estimating contracting work

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Construction services in the oil and gas and renewable energy industries, automotive industry, consumer products industries, pulp and paper industries, pharmaceutical industries, chemical and polymers refineries and petrochemical plants and installations, namely, construction of buildings; Drilling of wells; oil and gas extraction; pipeline construction and maintenance services; Construction project management services; Maintenance services, namely, the maintenance of instrumentation, electrical and mechanical systems; erecting of energy facilities, plants and petrochemical complexes; Construction Management services for onshore and offshore oil and gas facilities, renewable energy facilities, transport infrastructure, shipyards and dockyards, chemical and pharmaceutical plants, power generation facilities and industrial sites; Oil, gas, and water pipeline construction, installation, laying, repair, rehabilitation, and maintenance services; construction, installation, repair, rehabilitation and maintenance services of compressor stations, pump stations, metering and regulator stations, processing plants, tank farms, fueling facilities, port and wharf loading and unloading facilities, rail facilities, and refineries; construction services, namely, heavy industrial construction of power generating facilities, pulp and paper mills, chemical production facilities, oil and gas processing and transmission facilities, pipelines, and refineries; Installation of Electrical, pneumatic, Analog, Digital, hydraulic Systems; Construction management and construction project management, namely, project execution planning, project scheduling, project cost estimating and control; relief valve and instrument repair; onsite and remote oil refinery equipment vibration turn key installation services; air quality control systems and equipment upgrading, rebuilds, outage and maintenance planning support; Construction in the manufacturing industries and pulp and paper

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For computer software platform, recorded, for managing plant and project information for engineering, procurement, construction, operation, and maintenance; supervisory control and data acquisition (SCADA) systems, namely, downloadable computer software for Industrial automation; Computer hardware for remote terminal units; Industrial Automation Controls, process controllers, remote terminal units (RTUs), programmable logic controllers (PLCs), process logic controllers (PLCs); downloadable computer software, namely, software for documenting the databases of proprietary industrial distributed control systems; downloadable computer software, namely, software for use in searching and query functionality to locate control system related information, and to identify changes between various versions of the same database; downloadable software suite of applications used by process industry associations, major chemical, oil, and gas companies to comply with Process Safety Management (PSM) regulatory requirements; Downloadable computer software for pressure relief design and related piping isometrics, chemical reactivity assessment and management, consequence analysis and quantitative analysis, record and manage Process Hazard Analysis (PHAs) and record audit information related to PHAs, all for compliance in the oil, gas, petrochemical, chemical and energy industries; Downloadable computer software for use in Process Safety Management Studies to assist in the facilitation of Layers of Protection Analysis for process industries; Downloadable computer software and apparatus for controlling robots used in the underwater inspection of oil and gas fields and pipelines, and for transmission

of the inspection results; Downloadable computer software and hardware systems used for completion of oil and gas wells, particularly for oil and gas well reservoir simulation, modeling and evaluation; Downloadable computer software and hardware systems used for completion of oil and gas wells, particularly for well governance, namely, control, monitoring, measurement and recording of reservoir and production systems; Downloadable computer software and hardware systems used for completion of oil and gas wells, particularly for remotely activating well control valves and flow control; Downloadable computer software and hardware systems used for completion of oil and gas wells, particularly for control of drilling systems; Downloadable computer software and hardware systems used for completion of oil and gas wells, particularly for measurement and recording of well pressure, flow, and seismic data, and for prediction of sand and water encroachment; Scientific and analytical equipment for use in geophysical surveys, namely, surveying machines and instruments; seismic exploration apparatus; Apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely, simulators for Power Plant control EPC (engineering procurement and construction) on turnkey base of Power Plants, namely, computer simulators; electric and electronic industrial engineering automation controls; Industrial process control software, recorded, used for autonomous machines as well as chemical processing, pulp and paper manufacture, power generation, oil and gas processing and telecommunications

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Consulting and information services in the field of chemical process safety management; Regulatory safety compliance consulting in the fields of fall protection systems, process safety management, arc flash studies and engineered safety systems; safety inspection audits to improve the safety of construction workers on construction sites; and safety consulting services in the fields of hazard assessment and abatement procedures; Consulting services, namely, safety consulting in the energy industry, namely, consulting in the field of workplace safety, safety consulting services in the fields of hazard assessment, abatement procedures, operability studies, failure modes and effects analysis and layer of protection analysis, and safety lifecycle consulting services; Safety consultancy services in the field of Safety Instrumented Systems, Burner Management Systems, Inherent Safer Designed Systems, Control and proper handling of hazardous chemicals and materials per OSHA and Industry standards; risk management consultancy relating to health and safety, namely, consulting services in the field of safety within the oil and gas, petrochemical, and Manufacturing industry; health and safety program development, management and consultation, namely, consultation in the field of safety and Process Safety Management; Functional Safety Assessments (FSAs), namely, Safety consultation in the field of construction site inspection and assessment to ensure systems will function safely in all modes of operation; Oil and refinery; Equipment Specification inspection; inspection services, namely, electrical regulatory compliance inspections services and quality assurance and quality control inspection services; safety inspection of pipeline and energy facilities, plants and petrochemical complexes; Inspection of factories for safety purposes of air quality control systems and equipment; Regulatory compliance consulting in the field of air quality control systems and equipment safety related to environmental equipment optimization and safety product selection

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Fuel refining and fuel treatment services, and consulting services in connection therewith; chemical processing services; Analytical consulting services in the field of front-end engineering, namely, overall system evaluation, analysis and efficiency improvement services by fully integrating equipment specifications and process flow data with the development of process flow diagrams

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Engineering services in the fields of upstream, midstream, and refining petrochemical industries; petrochemical engineering services for the automotive, steel and metal, cement, food and beverage, furniture, wood, pulp and paper, textile, chemical, machinery, power, computer / electronics, coal, petroleum, rubber, automation, plastics, nonmetallic mineral, and energy manufacturing industries; engineering design services, namely, conceptual studies being preliminary engineering studies into the feasibility of a project from a technical and engineering perspective, basis of design, also known as feasibility study, front end engineering design (FEED) design for the life of the oil and gas field, full engineering also known as Turn Key Engineering; commissioning and start-up, namely, factory acceptance testing (FAT), programing and configuring computer systems for others, specifically as relates to programable logic controllers (PLC's), distributed control systems (DCS), and safety interlock systems; graphics design, computer software configuration and testing; Design, Configuration and Testing, Loop Testing and development of computer software for Alarm Management and Rationalization with respect to Analog, Optical, Electrical, pneumatic, and hydraulic circuits; Site Acceptance Testing (SAT), also known as Full Function System Check out at the Clients Site; Engineering design services, specifically, Consulting services for others in the field of Project Management engineering Feasibility Studies and developing Project Scope; Engineering; engineering services in the nature of engineering studies, front-end loading, front-end engineering design, detailed engineering design and engineering project management; Engineering design services, namely, Process Packages for Proprietary Technologies, also known as Process Simulation in the nature of product quality testing services, Process Safety Times, also known as Time required for one full cycle of the process to execute used to calculate how fast the safety system needs to execute to get the process to a safe state, Technical consultancy in relation to manufacturing Process Optimization, Hydraulic Analysis, Pressure Relief Design and Optimization, Flare Study and Analysis, Process Flow Diagram Development and Modifications for others, creating Piping and Instrument Diagrams for others; Engineering consulting in the field of selection of pipeline services and natural gas refrigeration plant services; multi-discipline engineering design services; technical consultations in the field of civil, mechanical, electrical, environmental and chemical engineering; Multi-discipline engineering services in the fields of mechanical, electrical, structural, civil, control systems, fire protection, petroleum, and energy industries; Providing technology information relating to oil and gas engineering and technology, oil and gas drilling, oil and gas management, oil and gas upstream, midstream and downstream engineering; Computer monitoring service that tracks the performance of the equipment and process; consulting in the field of pipeline inspection services for efficiency and safety purposes; Oil and gas field exploration; scientific study, research, and development in the fields of petroleum, petroleum products, chemicals, fuels and lubricants; Oil and gas prospecting services, oil and gas field survey and research services; oil and gas well testing services; analysis services for oil and gas field exploration and production; exploration and searching for oil and gas; consultancy services in the field of oil and gas exploration; Scientific and technological services, namely, scientific research and research services in the field of information and telecommunications technology; scientific research and industrial design services in the field of energy and petroleum; Engineering services related to polymer products, such as technical support monitoring services

for engine-compressor sets used in refineries and chemical plants and in the transport of petrochemicals slurries, gas and other fluids; engineering services for building and property condition assessment, facility management, repair and restoration; technical project studies in the field of engineering and design of polymer products; Technical consultancy, namely, consultancy in the field of polymer electronics, polymer semiconductors and their applications; research and design of polymer electronics and polymer semiconductors and components comprising polymer electronics and semiconductors and parts and fittings therefor; Software as a service (SAAS) services, namely, Hosting of Website to allow data acquisition; hosting software for use by others for use in Industrial automation from supervisory control and data acquisition (SCADA); Design of power control systems; design services in the field of power control systems, distributed control systems, power automation systems, supervisory control and data acquisition (SCADA) systems, and industrial power distribution systems that also feature the evaluation and assessment of customer needs relating to said systems; Software as a service (SAAS) services featuring software for use in asset management, asset safety inspection and maintenance tracking and scheduling, personnel training on fire response strategies and personnel credential tracking in the field of industrial process safety management; Testing and evaluation of knowledge, skills and abilities of others for purpose of certification in the field of Layers of Protection Analysis for process safety; information technology services for the automation of procedures and processes, namely, custom design of computer software; computer project management and computer systems analysis services in the areas of industrial controls and automation for and in relation to the energy industry; Quality evaluation for others in the field of design, maintenance, repair and installation of renewable power generation installations; acceptance testing of renewable power generation plants; application service provider, namely, providing software as a service for designing, testing, maintaining and repairing renewable power plants; Engineering consulting services, namely, process control automation in the nature of control valve sizing and selection, control valve optimization to ensure reliable operation with minimal Total Cost of Ownership, instrumentation selection, process control engineering, process control software integration, process control loop optimization, project startup services, also known as Onsite Startup and commissioning to ensure systems are started up safely and efficiently, regulator sizing and selection, onsite and remote oil refinery equipment vibration analysis services; Engineering services, namely, inspections of air quality control systems and equipment; Technical support services, namely, troubleshooting in the nature of diagnosing problems with air quality control systems and equipment; Engineering feasibility studies in the fields of air quality control systems; air quality control system commissioning and startup services, namely, Environmental Control Systems; design and engineering structural systems in the field of offshore floating facilities that provide a platform for people and equipment to work offshore in deep water and subsystems, namely, hulls, moorings, production risers, drilling risers, import and export risers and pipelines, and drilling and production topsides; custom design of pulp and paper fiber processing systems; Technical consulting in the technology field of Oil refinery engineering automation; Scientific and technological services, namely, technology planning and consulting in the field of engineering automation; Regulatory Control, BMS Controls, Advanced Process Controls, Real Time Optimization, Tuning optimization, Asset Utilization Optimization System Integration; engineering control services, also known as Control Systems Engineering; System Architecture Design in the field of Control and monitoring systems, Detailed Functional Design Specifications, namely, Technical Specifications that detail the requirements of the systems to ensure safe efficient operation; Programing of computer software for others; Configuration management of computer hardware for others; computer Graphics Development for others; System Architecture Design of Distributive Control Systems (DCS), Programable Logic Controllers (PLC), Supervisor Control and Data Acquisition (SCADA) units and Remote Terminal Units (RTU)); Safety Instrumented Systems Analyze, namely, Technical Engineering of the Safety Systems to ensure that exceed the safety requirements; Total Life Cycle

Management, namely, to ensure that all areas and stages of the systems are managed from conception to end of life; Gap Analysis, namely, the process of systematically identifying any Gaps in the System that could lead to an unsafe event; Redundancy, namely, to design such that all your eggs are not in one basket to ensure you have adequate backups; Minimizing Nuisance Trips to Maximize Availability, namely, To Engineer and design the systems so that reliability is maximized; design, advisory and consultancy services in relation to construction engineering automation in the field of Regulatory Control, BMS Controls, Advanced Process Controls, Real Time Optimization, Tuning optimization, Asset Utilization Optimization System Integration, Safety Instrumented Systems; Engineering Automation, namely, To design and engineer the control systems, safe systems, and monitoring systems in the manufacturing industries and pulp and paper; engineering and engineering consultation in the fiends of petrochemical, pulp and paper, oil and gas, and automation engineering; Engineering design services, all in the area of processes and equipment used in pulp and paper production; development of process flow diagrams; Development of Piping and Instrument Diagrams; multi-discipline field construction engineering; Develop or modify testing procedure for all modes of operation in the field of Oil and Gas, manufacturing, and Chemical industries

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services
